

\$65,000 SCHOOL ON COLLEGIATE LAND.

Is Proposed For Technical Training. Hydro-Electric Too Slow For Brantford. Early Work on Filtering Basins.

A technical school on the south side of the Collegiate Institute grounds, to cost, when complete, \$65,000 is what the special committee dealing with that subject will likely recommend to the Board of Education after receiving the report of the deputation which spent a week visiting leading technical institutions in the States.

City Engineer Barrow's friends have not abandoned the fight on his behalf, and they say that when the matter of engaging the new engineer comes up in the Council, Mr. Barrow will stand an excellent chance of winning out.

The fame of Hamilton's tar macadam continues to spread, and Mr. Barrow says at the rate enquiries are coming in (Continued on page 10.)

TO BLOW UP CHURCH

Organist Discovers Flames and Saves Edifice From Destruction.

Bath, Me., April 6.—Miss Mary Morse, organist of the Universalist Church in this city, failed a desperate attempt to blow up the edifice with gas an hour before the services began yesterday afternoon.

NEW CHOIR FOR ST. MARY'S; FIFTY BOYS IN SURPLICES.

Two Statues Blessed Yesterday--Cathedral Provided With Additional Exits.

An important change, by which St. Mary's Cathedral will have two separate choirs, has just been made. Following the edict issued by the Pope, banishing female voices from the choirs, a boys' choir was formed at the Cathedral for the Gregorian chants.

At a meeting of the ladies' societies of the parish in the Cathedral yesterday afternoon His Lordship Bishop Dowling blessed two statues of the adoring angels, donated by the Altar Society, for the high altar.

Another Outrage

New York, April 6.—Efforts to destroy the pier and equipment used by the McClintic-Marshall Construction Company in constructing a new pier for the White Star line at West 17th street were made last night.

Two bombs were exploded with little effect, although the force of the explosion aroused thousands from sleep, and drew a large crowd to the place.

The bombs were placed at the west side of the pier. A hoisting boiler was exploded, and a big locomotive crane, which was in use, on a temporary track on the pier, was demolished.

ARREST OF POLICE.

Four Philadelphians Charged With Thefts on Their Beats.

Man Confesses That They Hid the Stuff in His Place.

Philadelphia, April 6.—The sensation caused here by the arrest of four policemen, charged with being in a conspiracy to rob properties on the beats which they patrolled was followed last night by the surrender to the city officials of William A. Frost, who is said to be one of the principals in the conspiracy.

Frost admits that he actively assisted in some of the robberies, according to the officials, who say that the goods recovered from the homes of the accused, together with articles which have been traced, are valued at upwards of \$15,000.

Luckenbill and Sittens, two of the policemen, are said to have confessed. The others refuse to make any statement. Nothing seems to have been too large or too small for the policemen to carry away. Among the articles recovered and now at police headquarters are rolls of carpet, matting, gas stoves, bolts of cloth, tinware, hardware, ice cream freezers, a collection of Panama hats, lace, gloves, fancy groceries and even patent medicines. It is said other arrests will follow.

HAS ACCEPTED.

Rev. James Thompson Will Go to Welland.

Rev. James Thompson, who has been residing in this city for some time, has decided to accept the call to Holy Trinity Church, Welland. Rev. Canon Johnson has been rector of Welland for 20 years, but resigned recently and will retire from the active work. He has not been well of late and has been in the South for some time. Rev. Mr. Thompson has been attending to the work of the parish and was the unanimous choice when the vacancy came.

Over Assault by Japs in U. S. Consulate at Mukden.

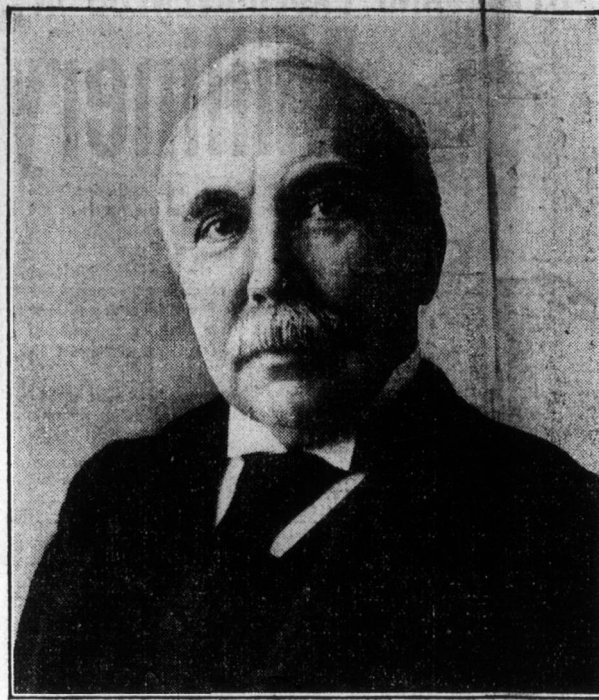

Mukden, April 6.—Four Japanese entered the United States Consulate today and brutally attacked the native staff in revenge for a private spite. Consul-General Straight made a requisition on the Chinese police and the Japanese were arrested and taken to the Japanese Consulate. No apology has yet been offered and it is probable that the matter will be made a subject of diplomatic action.

RIGHT HON. SIR HENRY CAMPBELL-BANNERMAN, Who has resigned the Premiership of Great Britain owing to ill health.

London, April 6.—The bulletin issued this morning regarding the health of Sir Henry Campbell-Bannerman says that the patient had a good night, and that his condition remains unchanged.

NEW PRESIDENT. THE HOUSE IN SESSION.

Geo. Cairns Succeeds John Theaker in Union. Bill to Prevent People Buying Too Much Cocaine.

Toronto, Ont., April 6.—The committees of the Legislature will hold their sessions while the House is sitting in order to dispose of any business still before them. When the members assembled for the first morning meeting of the session, Hon. Mr. Whitney, the Prime Minister, presented a resolution to that effect.

ROYAL ARCH EVENT. Keystone Chapter to Work American Ritual Here.

Capitular Masonry will have one of the greatest events in its history in this city this month. St. John's Chapter, Royal Arch Masons, has arranged for a visit from Keystone Chapter, of Buffalo, on the evening of Thursday, April 20. The visitors who will number probably 75 will exemplify the Royal Arch degree according to the ritual of the United States. R. A. M., and has ever been done the first time this work has ever been done in Canada.

ALL RED LINE. Government to Submit Proposition to Parliament.

Ottawa, April 6.—It is understood that after the Easter holidays the Government will present a resolution to Parliament endorsing the all-red proposition. The resolution will be along the lines of the speech of Hon. Clifford Sifton, although it is not likely to contain very many details. What is desired is to obtain the opinion of Parliament on the whole question, and there is no way of doing this better than by presenting a resolution endorsing the project, the details to be settled afterwards. The position of the Premier and the Government is already known to be highly favorable to the scheme.

MAY BE TROUBLE. Took Poison.

Guelph, Ont., April 6.—By taking a dose of strychnine on Saturday night, Charles Hubner ended his life at Blair. Hubner was a woollen worker, and had been negotiating with others for a mill there. The negotiation fell through, and it is thought this preyed upon him and resulted in his rash act. His wife lives in this city. There are two sons and one daughter.

LOST HIS HOME. Thorold Young Man Arrested Charged With Arson.

St. Catharines, Ont., April 6.—Fire completely destroyed the home of Isaac Wills, Chappell street, Thorold, on Sunday morning about 1 o'clock. The fire was believed to be of incendiary origin, and Chief of Police Shee at once set to work to find the guilty party. In the afternoon he took into custody Alex. Wills, a son of the man who owned the property, and he is now awaiting his trial on a charge of arson.

BUFFALO MAN SHOT. Fires Revolver at Friend's Head in Restaurant.

Buffalo, April 6.—Harry Tisdale, of No. 70 East Eagle street, walked into a restaurant at Broadway and Ellicott streets yesterday afternoon and without speaking a word shot Richard MacRooney, 43 years old, of No. 94 Broadway, in the head. Tisdale was placed under arrest by Patrolman Jacob Traxer, of the Pearl street station. MacRooney was taken to the Emergency Hospital, where the wound, which was not serious, was dressed.

Dr. J. M. Barrie, Says

"What I call the Arcadia in My Lady Nicotine is the Craven smoking mixture, which is a blend of the finest tobaccos." It is sold for 70 cents a tin at peace's cigar store, 107 King street east.

THE MAN IN OVERALLS

During the Hydro-Electric power campaign the Hamilton Herald ridiculed and abused the Times and called it all kinds of insulting names because it asserted that the Commission would not guarantee the city power at a certain price. Now that the Herald sees its mistake that it, and not the Times, is the feather-head, the chump, and the idiot—it has not the manliness or honesty to confess that it was in the wrong or express regret for its rowdy conduct toward its contemporary.

Mayor Stewart says the Dominion Government does not spend enough of money in Hamilton. Well, the Drill Hall is no shanty, and quite a pile of money is spent over at the Post Office and Customs House every month.

The lady who wears a Merry Willow hat does not need to carry an umbrella or a sunshade.

Here's another knotty point that some of Dr. Marsh's disciples might untie—When the moon is lying on its back is it a sign of a dry or a wet spell? Answers by phone not admissible.

Many things will happen in forty years. That is a long time to tie down the city to a power agreement.

Ald. Farrar says he'll be hornsogged if he'll apologize.

Justice Cassels will investigate the Marine Department free of cost. You will notice Whitney Commissioners do not work for nothing.

The French treaty is not hurting Hamilton. Look at all those London cigarmakers who are coming here to live and help to swell the 100,000 population.

The Con. Club is putting on a lot of style these days, with its bridge parties, public functions and so on. But how about the butcher and the baker?

Perhaps the Mayor thinks the Dominion Government should wipe out the civic auditorium.

The city will soon have to put up a number of electric lights in Mount Hamilton. The people are getting tired carrying around lanterns at night. They shouldn't have to when they pay city taxes.

I don't like to interfere. But is there no way of helping the moulders back to work? It's a long time since Christmas.

If Sir Wilfrid has any idea of reorganizing his cabinet, I hope he will not forget Hamilton's favorite son, Mr. Zimmerman.

The reading public now knows that the Herald was wrong and the Times right in the dispute about the power price. Don't you think the Herald ought to be ashamed of itself when it thinks of all the impudence it gave us.

There is some talk over at the City Hall of holding a torchlight procession of the employees and an indignation meeting on the Market Square, to wind up with a bonfire of the salary list and Mayor Stewart's effigy.

Mr. John Hoodless, who is losing some much needed sleep over the inequities of the Laurier Government, might feel an immense relief, if he thinks of Whitney's (Abolt Lake) death.

LOOK OUT FOR HIM. Cheeky Swindler Who Is Unusually Resourceful.

A cheeky swindler has been operating on the two trustings who are susceptible to a hand luck story. He is an able-bodied chap and has succeeded in some cases in beating professional men out of the price of a hammer to enable him to take a job at the Westinghouse Works. He has appealed to physicians, too, on the strength of the alleged illness of his wife. One of his methods has been to try to work certain aldermen for a few dollars apiece for injuries to a rig which he says he drove for them on election day. He was not successful in this scheme, as far as has been heard. He is fertile in resource, however, and seems to have a new story to fit each one appealed to. Be on the look-out for him. Pass him on to the police.

TOOK POISON. LOST HIS HOME.

St. Catharines, Ont., April 6.—Fire completely destroyed the home of Isaac Wills, Chappell street, Thorold, on Sunday morning about 1 o'clock. HON. ADAM TALKS ON THE POWER PROJECT.

Asleep 61 Days

Los Angeles, Cal., April 6.—Mrs. Beulah Hawkins has completed the 61st day of a sleep that has puzzled and baffled the many physicians who have investigated her case. She shows no sign of awakening, and but little hope for her recovery is entertained.

A gradual loss of weight which first followed her removal to the hospital has been regained except for three pounds. It is generally believed that Mrs. Hawkins is at times conscious of what is going on about her, and that frequent fluttering of her eyelids indicate a desire to shake off the trance which has been medically described as cataleptic insanity.

TOOK OUT HEART. Stitched Up the Wound Between Heart Beats.

Young Athlete Stabbed in a Quarrel in the Street.

New York, April 6.—The World today says: With a knife wound in his heart that was every minute bringing him nearer death, Robert Inglis, a young athlete of Yonkers, was taken to St. Joseph's Hospital in that city, and within fifteen minutes was on the operating table, where the surgeons opened his breast, lifted out the heart, put three stitches in it, and replaced the organ. A few hours later the patient was able to talk, and the physicians said that his recovery was possible, although his condition was still considered extremely critical with the chances against him.

Inglis received his wound following a wordy altercation with three strangers on the street. The hospital happened to be nearby and the injured man was hurried to it.

The stitches had to be made when the heart was distended or between beats, as had they been taken when the organ was contracted, they would have been torn away when the heart swelled again with blood. Removal of a portion of two ribs on the left side was necessary before the heart could be taken out. The stitches were made with catgut. Inglis, when he recovered consciousness, identified Powell Forminsky, whom the police had arrested, as the man who had assaulted him.

WANTON MURDER. Young Girl Shot by Man Who Then Suicided.

Pittsburg, April 6.—Samuel L. Gardner, a prominent resident, Church avenue, McKee's Rock, a suburb of this city, shot and killed Dorothy Bradley, 16 years old, and then fired a bullet through his head to-day, probably fatally injuring himself.

Gardner, who is 50 years old, was for several years borough engineer, and with the change of administration lost his position last month. He is said to have been brooding since that time. Dorothy Bradley resided next door. The police are investigating.

FOR UNVEILING. Ladies Waiting For Definite Word From His Excellency.

The ladies of the Queen Victoria Memorial Committee are awaiting for final word from His Excellency, the Governor-General before making final announcement about the unveiling. They are planning to hold the event take place in the morning of Monday, May 25th, Victoria Day. There is just a possibility that the event will be held a few days later than the 25th, if His Excellency cannot see his way clear to come on that day.

It is possible, too, that the morning of the 25th may be arranged for. The local military bodies and the school children would be best suited by the holiday date.

FULL BENEFIT TO CANADA FROM NEW FRENCH TREATY

Will be Secured by the New Steamship Line-- Scandal Fishing at Ottawa.

"It will be just what is required to secure for Canada the full benefit of the new French treaty," is the opinion of Mr. Adam Zimmerman, M. P., of the proposed new steamship service between Canada and France. The service will place at the disposal of Canadian manufacturers facilities for shipping their goods direct and on the most advantageous terms, and will be of a double benefit to Canada, ensuring the carrying of Canadian goods over Canadian railways and in Canadian boats, and placing exporters in a position to compete successfully with their business rivals in other countries. The service should mean a great deal to Hamilton, which is sure to be a large exporter to France under the new treaty.

Mr. Zimmerman predicts that the strenuous times at Ottawa will continue until Easter holidays. A number of important debatable subjects are to come up. One of them is the fishing lease question. There is a phase to that which will leave little room for criticism, when fully explained, but West Hamilton's able representative did not care to go into it in advance of the matter being brought up in the House.

The fishing for scandal expedition of the opposition has resulted in a miserably poor catch, and had it not been for the civil service report the Foster following would have been left with very little campaign material. Mr. Zimmerman does not fear the outcome of the civil service report on the Marine and Fisheries department, as he has already explained, the object of expediting the commission was to bring out the facts. Hon. Mr. Brodeur having soon after taking over the department, and before the commission was appointed, discovered that things were not right, and having set about to reorganize that branch of the public service.

Mr. Zimmerman says the prospects of securing a member from Ottawa to address the Liberal Club at an early date are good.

FATED TO LOVE HER

"Oh, they are all right. They are going with me and mine. I shall probably run up and fetch them home, toward the end of the season."

"Miss Featherstone pretended to pout. But James took this with his ordinary nonchalance, making no attempt to excuse himself. They were shortly joined by the rest of the party and the subject was dismissed."

"The chicken-pox and Sarah Jane Tompkins after Everard's broken hearted death felt too much harassed to reply. She sat silent, resting her chin on her hand. Westward, the sun was setting in all the glory which forms the 'sugar-bird's delight' and a row of Scotch firs, upon some dark eminence, stood out against the crimson background in dark relief. The haze of twilight was stealing over the trees and fields; far away church bells were ringing; from a bush hand by resounded, now and then, the clear notes of a blackbird."

"The positive calmness accorded well with Gabrielle's frame of mind. She was full of the story which she had read; it was for a time of the premature death of that joy of the latter end of the century, through no sin at any rate, but through a mere accident."

"For the first time arose in Gabrielle's heart the old familiar doubt, 'How much of this is so meretricious, allow so much of wrong-doing, of suffering? Why is he so silent? Why does he not interfere to set things right?' She dwelt on this thought for a moment; then passed beyond."

"Shall I button that?" said James. "I have done it now, thank you. Are the feathers gone?"

"They are with Olivia. I left them to look for you. I thought that you might like to see the prizes given."

BOWINS' STORY.

DENIES THAT HE ROBBED MOTHER WELCH. Says the Murdered Woman Gave Him Her Earnings - The Boy's Tale Disproven in Cross-Examination - Hopelessly Contradicted Himself.

Detroit, April 4.—Percy Bowins took the stand in his own behalf on Saturday afternoon in the apparently hopeless effort to convince the jury that he was not guilty of the murder and robbery of "Mother" Welch.

Bowins told the jury today that he did not rob "Mother" Welch, but that she told him she had quarrelled with her lover, Dan Sawyer, and had driven him out. She said she was going to Elk Rapids, Mich., and wanted Bowins to go with her as a sort of protector.

When Prosecuting Attorney Grosz took up the cross-examination Percy Bowins was inclined to be flippant, all had gone so well with him on his direct examination. This flippancy soon disappeared under the questioning of Attorney Grosz.

THE HAMILTON TIMES  
MONDAY, APRIL 6, 1908.

STUDY THAT CONTRACT.

Few will wonder that the Mayor and his organ have been staggered and that they exhibit disappointment and chagrin in the terms of the contract which Hamilton is expected to sign, if it decides to enter the Hydro-Electric scheme. Even the Toronto World, looking at the matter from the point of view of a city much less favorably situated to do without it than is Hamilton, seems to be unable to give it as much as qualified approval.

But a short time ago the Mayor and his organ were staking their faith on a gross mis-reading of the statute—a mis-reading said to be approved by Adam Beck—and ridiculing the Times for saying that under the Act, in spite of all promises and assertions of the promoters to the contrary, the municipalities going into the scheme would have to take all the risks involved; would have to pay for the power at the price paid by the Commission at the Falls; all the cost of transmission line, with interest at 4 per cent.; all line loss, cost of operation, maintenance, insurance, and all charges incidental to the scheme, and that they were held absolutely to reimburse the Government for all its outlays on it, and would not know till the annual apportionment by the Commission what the price per horse-power would be. Yet in every particular the Times' contention is borne out by the form of the contract.

Yet even now, with strange fatuity, after being thus misled and affronted by trusting to a false interpreter, and with the peril to which it subjects the city fully admitted, both the Mayor and his organ half apologize for the contract, and show a willingness to sacrifice the incorporation to the scheme even under conditions, so wholly are they abandoned to it!

There are three interests dealt with in the agreement, the generating company, the Government, and the municipalities. The Commission's agreement with the generating company makes it safe; it gets so much money for so much current, and the Government pays. The Government is safe, for by the Power Act, and the agreement municipalities must sign, the taxpayers of the municipalities are held to pay to the last cent, and with interest on the capital invested, the money spent on the scheme by the Commission (the amount apportioned to each being absolutely left to the Commission.) The third party—the municipalities—is the only one of the three not secured. Instead, the municipalities must take all chances, bear all obligations, provide for all contingencies, and mortgage the ratepayers' property to guarantee to pay for all, no matter how much the bill may be.

Some other features are very objectionable—so much so that they balk even enthusiasts for the scheme. It binds the municipalities joining in it to a 30-year obligation to pay for the transmission line and works. (The part of the works for each municipality's own use must be paid for besides by each.) Thirty years may see great changes.

It binds municipalities to a 40-year contract, during which time they are completely tied up, being forced to agree to an ironclad monopoly in electric power, the agreement stipulating that they must not obtain electricity from any other source during the period! That is a provision little short of monstrous. Consider it. Less than ten years ago Hamilton made a street-lighting contract. It was a good one, as things were then; and even at a price that was intended as a bonus to the company, was regarded as reasonable. Yet within five years or so the march of progress had made it onerous and a cause of much dissatisfaction and friction. Now it is seriously proposed by the Hydro-Electric Commission, and by some of those who are most declamatory against even a 10-year contract, to tie up the city to an absolute monopoly for 40 years! It is not to be entertained by sane men. Who is to say what beneficent revolutions may be wrought by science and discovery in a fraction of that time! And shall we bind, not only our own hands, but those of posterity, and deliberately exclude ourselves and our children from benefiting to the full by the march of progress for forty years!

Each municipality joining stands to have its position rendered more onerous by the dropping out of others, or by the reduction of their obligations. That is worth considering.

The peak-load system of charge, by which a municipality pays for an entire month for the greatest amount of current used for any 20 minutes of the month, renders any quotations of cheap prices per horse-power meaningless, and subjects it to danger of having to pay for half as much again as it actually uses.

Then a municipality must pay for three-fourths of the power ordered, even if it uses none.

Why should the municipality buying current from the Commission have to submit to the dictation of the Commission's inspectors as to its own machinery?

Now that the people get some idea of what is proposed they will marvel what all the boasting by Beck and Whitney and the reflections on Ross have been about. Ross provided for supply of 6,500 h.p. of current for municipalities, free to be absolutely in control of the Government. He empowered municipalities to go into the transmission and distribution of power, and to raise the funds therefor, and appoint their own officials and do all the work necessary, paying for such themselves. What has

Whitney done further? He sacrificed the advantage of power at a price fixed by Government, and he took from the municipalities the right to choose their own officials for the work, taking that as "patronage"; but he charges the last cent up to them, and makes them pay it with interest! He makes the bargains; they pay the bills and take the chances!

Many may see in this contract form an indication that, having failed to encompass the ruin of the Electrical Development Company, Whitney will not be grieved beyond measure, if, lasting over the elections, the entire Hydro business (on which over \$75,000 has already been spent, to be charged to municipalities) is allowed to fall with the regulation dull thud. Some may even suspect that he would be sparing of his tears if the official "Minister of Power" should be so unfortunate as to be under it.

BANNERMAN—ASQUITH.

Owing to continued ill-health Sir Henry Campbell-Bannerman has sent to the King his resignation of the office of Premier of Great Britain. Sir Henry has been in public life for forty years, having been elected for the Stirling District in 1868, and having since then continuously represented that district. He has been leader of the Liberal party in the House of Commons since 1899; was Financial Secretary to the War Office 1871-74, 1880-82; Secretary to Admiralty 1882-84; Chief Secretary for Ireland 1884-85; and Secretary of State for War 1886, 1892-95. He has been Premier for the past two years. Although not a brilliant man, every step he took in advancement added to his reputation as a sensible, honest man, and his good-nature and urbanity of manner made him one of the most popular of Prime Ministers. Still, he could be firm and unyielding when occasion required. His resignation, though expected for some time, will cause general regret.

The cable that announced Sir Henry's resignation also announced that Mr. Herbert Henry Asquith, the Chancellor of the Exchequer, had been summoned to Biarritz by King Edward to assume the reins of Government the Premier had been compelled to lay down. The new Premier is a Yorkshire man, born in 1852, being a man in his prime. He is a lawyer by profession. Although an Englishman, he entered Parliament as a representative of a Scotch constituency—East Fife—in 1886, and was re-elected in 1892 and 1895. He was Home Secretary in Gladstone's last Cabinet. He was conspicuous as a debater during the Home Rule discussions, and in 1894 drew up the Welsh Dis-establishment Bill. In December, 1895, he was appointed Chancellor of the Exchequer in the Bannerman Cabinet, holding that position up to the present. Mr. Asquith is one of the cleverest debaters in the House, but he has not the personal popularity of the retiring leader.

T. P. O'Connor, in a pen picture of the new Premier, says, after speaking of Mr. Asquith as a young man: "Sometimes, as I look on him now across the floor of the House I find it a little difficult to realize that the man whom hard work, heavy responsibility, all the anxieties of public life, have transformed into the middle-aged man with whitening hair is the same. There is about his face a greater serenity—a milder expression—a more tolerant air than in the face of the younger man. There used to be reproach against Mr. Asquith that he did not suffer fools gladly; he had something in him of that temptation against which I remember young Catholic boys used to be specially warned—"the pride of life"—the arrogance of the intellectual and the broad-minded and the far-seeing for all the narrowness, the pettiness, and the partisan rancour of which one finds so much in political life. Mr. Asquith has melted in temperament as well as broadened in mind with years and experience.

"What is the great secret of Mr. Asquith's rise? It is simply his immense and instinctive oratorical power. Oratory is one of those gifts that come from the beautiful hand of nature—direct, unmistakable, spontaneous. If a man have it, the world recognizes—has to recognize it—at once. It is, indeed, like all forms of magnetic personality, it does not ask, it demands and extorts admiration and attention. Sometimes men become good and effective debaters by sheer training; I have seen quite stumbling speakers become quite adept debaters in the House of Commons by the sheer practice that was forced upon them by official position. But the orator is born, not made; while the debater may be made, though not born. Mr. Asquith is the born orator. The House of Commons recognized that the very first moment he stood up in the House.

AN ELECTION TRICK.  
Not even the gerrymandering of the Province in the most shameful manner, the manufacture of four more members for Tory Toronto, and the laying out of a number of new constituencies in the north, which he hopes to "manage," makes Whitney feel safe in going before the electors. The ingenuity in evildoing that was brought to bear in the carrying up of the constituencies is shown in other directions. Even Tory Toronto is not to be trusted, and a new device has been resorted to by way of heading off any intrusion by Labor, or other candidates, who might detract from the straight Tory machine vote. Instead of there being one ballot, from which two members should be elected in each of the four constituencies, each member to be chosen shall be designated separately on different ballots, as ballot A and ballot B, there being two nominations, and the elections being regarded as distinct and separate, although conducted by the same officials, and in the same polling places. To some, the object of this trickery may not be at once clear; certainly, no excuse is to be found for it in securing the decision of the electors in the public interest. In compelling the voter to use two ballots instead of one, the Government has planned to guard, as much as possible, against breaking up the machine vote by division with

Labor, Independent, or Temperance candidates, or by polling "plumbers." With this device, and with control of all the election machinery, an unscrupulous Government is placed entirely in control of the situation. The Government's intentions could not have been better expressed if it had passed a short act in these words: "It is hereby enacted that the city of Toronto shall be divided into four electoral divisions, and each of these divisions shall be entitled to elect two representatives, all of whom must be supporters of the Whitney Administration." Shall the Government be allowed to carry its infamous plot into effect?

EDITORIAL NOTES.  
Another crop failure brings 30,000,000 of the inhabitants of India face to face with starvation. More life-saving for John Bull to do. Even the Toronto World, unable to suppress its risibilities, remarks that Premier Whitney "affects superlative language" when he says that the population of Toronto "is much beyond 300,000." Whitney, however, was speaking to excuse his gerrymander.

The new census to be taken in 1910 will necessitate another redistribution of the Ontario constituencies. The only purpose Whitney has to serve in carving up the older Ontario constituencies is to gerrymander some contemptible party advantage.

The Toronto Saturday Night will hardly be accused of prejudice in favor of Sir Wilfrid Laurier, but it has concluded that he "will, no doubt, carry the country again when he goes to the polls." It is that belief which makes the Opposition in the Commons so ugly this session.

"Civil Service Reform Result of the Conservative Policy" is a scare-head in the Toronto Mail and Empire. But within a day or two the organ has been asserting that the Government would have no reforms of the civil service, and that the revelations of the Commission came as the result of a blunder by the Premier.

The astonishing statement made by Chief Justice Meredith to the Brampton grand jury that a prominent physician had told him that over 60 per cent. of our immigrants are afflicted with dementia praecox, has led to a good deal of incredulous comment. What prominent physician would care to father such a statement?

Enquiry into the conduct of a few clerks at Ottawa does not cure the graft evil. The dismissal of clerks, whether by retail or in wholesale manner, leaves the curse from which the country is suffering untouched. Under our system the civil servant is the employee of the Minister—Mail and Empire.

We expected that sort of thing. It was hardly to be believed that, when the evils referred to by the Civil Service Commissioners began to be brought home

Power Contract. (London Advertiser.) The contract as it stands will not do," said Mayor Stevely this afternoon to the Advertiser.

John Bull's Purse. (London Advertiser.) Mr. Hays secured enough money in England for two years' work on the Grand Trunk Pacific. John Bull's long purse is a boon to this country, but where could the old gentleman spend his money to better advantage?

The United States. (Toronto Star.) Many Buffalo couples are said to be getting married at Toronto. Without cracking up our own goods, we are bound to say that in this country the united States is a much more reliable article than it is in the United States.

Britain Very Much Alive. (Ottawa Citizen.) It must have surprised some people to learn by the cable reports that Britain's revenue returns for the past fiscal year amounted to 782 million dollars, a net increase of six and a half million over the preceding twelve months. An idea seems to have been going about that degenerates, undesirable and the unemployed are among the chief products of the British Isles. The hard cash in the treasury would, however, indicate there are some healthy, busy, hardworking and money-making men and women over there, too.

Would Muzrie Allan. (Toronto Saturday Night.) It is said of Mr. Studholme that he is a quite sensible man to talk to while he is sitting down, and that it is only when he stands up to make a speech that he forgets time, place, reason, everything and just talks without aim or end. The same thing in a milder form has been observed in other men. If there is any truth in what is said of Mr. Studholme in this regard, it is probably well to remember the rules of the House and permit him to sit while speaking. It is worth trying anyway.

With the Blinds Down. (Toronto Globe.) There is crookedness in this Colgate Lake business. That is why the Whitney Government have succeeded in hiding the suspicious operations from the light of day, and even with the Premier's denial of an intention to hold the elections in May they may be hurried through while the Province is still in ignorance. When the courts threatened revelations, the Government forced through a statute unconstitutionally deciding the issue, and declaring that one party to the litigation had no claim.

Power With Responsibility. (Montreal Star, Tory.) When it comes to purchasing supplies—the question before parliament yesterday—the problem is, perhaps, a little broader. This is the spending of the public revenues. Here is a great chance for corruption which many will think had better be kept in hands directly responsible to the people. A good Commission would do the work better than any set of politicians we have yet succeeded in seating in office; but a bad Commission would have immense powers of mischief, and tremendous and far-reaching influences in their hands to quiet criticism and prevent the interference of parliament. If parliament is to perform any function for us, it must surely continue to criticize public expenditure; and it can only do this effectively if it have the responsible ministers under its direct control. It would certainly appear that we might better try the experiment of government by commission elsewhere before we put it in possession of the national treasury.

OLD FOLKS' DAY.

Special Service In Barton St. Methodist Church. Yesterday morning the annual old folks' service was held in Barton St. Methodist Church. The preacher for the day was Rev. Dr. Mullin, who has held a pastorate in the Presbyterian Church at Fergus for 36 years. All the elderly people in the community had been cordially invited. As they entered the door of the church the young ladies of the Epworth League presented them with beautiful bouquets and neatly printed badges in honor of the day. A carriage was sent for some who were too feeble to walk to the service. Seats were reserved for them. The choir was largely composed of silver-haired singers and the old hymns were sung to the old tunes. Dr. Mullin spoke on the advantage of the old as compared with the new. He was assisted in the service by the pastor, Rev. Mr. Livingston. To-night the young people of the church will serve supper to all who have passed the 60th year, after which Dr. Mullin will deliver a lecture on "Misfits."

The U. S. postal department will not stamp picture postal cards at the office of address. Arbitration treaties between the U. S. and Britain and Norway were signed at Washington.

# CAMPBELL-BANNERMAN RESIGNS

## Herbert H. Asquith to Succeed Him---Britain Without Premier or Cabinet.

London, April 5.—Great Britain tonight is in a peculiar position, being without either Premier or Ministry. The long-expected resignation of Sir Henry Campbell-Bannerman, the Prime Minister, was officially announced tonight. According to the Court Circular he resigned on the urgent recommendation of his medical advisers, and as the constitution of the country provides no automatic successor, it resting with the King to choose a new head of the Government, and in accordance with custom and precedent the whole Cabinet resigns with the Premier, no step to appoint a Ministry can be taken until Henry H. Asquith, the Chancellor of the Exchequer, who has been summoned to Biarritz for the purpose, has seen the King.

The position of the country is quite unprecedented, there being no previous example of a change occurring in the Premiership while the Government was in office. In his account, there is some doubt as to the course of procedure to be followed.

### Sir Henry's Condition Unchanged.

Sir Henry's condition remains unchanged, according to the physician's bulletin posted to-day. Yesterday it was stated that there was some hope of the aged statesman's ultimate recovery, though it was admitted that convalescence, even under the most favorable circumstances, will necessarily be slow. The King, in telegraphing his acceptance of the Premier's resignation, conveyed an expression of his regret and esteem, and his best wishes for Sir Henry's recovery. Chancellor Asquith, who has been acting Premier for some time past, will leave for Biarritz probably tomorrow morning. At a Cabinet meeting this morning, specially called, he submitted the Premier's resignation, and the status thereof was fully discussed.

Although so long anticipated, the actual announcement of the Premier's resignation had not been looked for for some days yet, and comes somewhat as a surprise to the country. Sir Henry's condition has shown some improvement recently, and his resignation was not due to any sudden impairment of his physical condition. On the contrary, among his friends his resignation is regarded rather as a good sign, and doctors are more hopeful of his recovery now that he is relieved from the anxieties of office.

### The House Will Adjourn.

Monday, April 6, had been fixed for Mr. Asquith to move in the House of Commons the second reading of the licensing bill, the measure that is regarded as the most dangerous of all the Government bills to the Ministry. In view of this debate probably will be postponed until after Easter, and an adjournment of Parliament moved to enable the Chancellor to proceed to Biarritz to kiss hands on his resignation as Premier and submit his proposals for the reconstruction of the Cabinet.

It may be inferred that no more contentious business will come before the House of Commons until the new Ministers are appointed.

### Speculation as to Cabinet Changes.

Speculation in this matter is most active in all political circles tonight. It is regarded now as practically certain that David Lloyd-George, President of the Board of Trade, will succeed Mr. Asquith as Chancellor, and that Sir Edward Grey will retain his portfolio as Foreign Secretary, nothing can be predicted with certainty. Among the interesting predictions is that Winston Spencer Churchill, Under Secretary for the Colonies, will take the place of the Earl of Elgin as Colonial Secretary, and Lord Cecil, First Lord of the Admiralty, will withdraw in order to accept some other office.

### The Passing of the Leader.

The resignation of Sir Henry Campbell-Bannerman, the first Liberal Prime Minister of England since the death of Robert Peel, gave off, as he passes from the stage the mixed feelings which he held together as a party seem daily to be experiencing more and more difficulty in continuing the compromise which united them two years ago. The Campbell-Bannerman Government, it has been stated, combined too many factions and too many fads. All the elements of opposition to Conservatism and of discontent united to make common cause against the Government, and when joined together in an administration, a working team of Home Rulers, Laborites, Socialists, Liberals, Imperialists and Little Englanders was found high imposable. But its sparks must for Campbell-Bannerman's leadership that this disintegration of his party went on so much more slowly before the attack of heart trouble which overcame him last fall in Bristol, where he had gone to make a political speech, and removed him from the possibility of active leadership.

**Father of the House of Commons.**  
Sir Henry was not only the leader of the House of Commons, but also its father, for he represented Stirling without interruption ever since he entered the House in 1868 at the age of thirty-two.

He had a varied experience in Government, holding the positions of financial secretary to the War Office twice, secretary to the Admiralty, twice Secretary of State for War, and for a brief time, in 1884-5, Chief Secretary for Ireland. At that trying period the Irish members were devoting all their efforts to making that office almost untenable, but Campbell-Bannerman met all their attacks with unflinching good humor and ready wit.

He came more prominently before the public eye when he took office as Secretary for War in Gladstone's last Government. His great administrative feat was to persuade the Duke of Cambridge to resign the position of commander-in-chief of the army. The Duke was extremely reluctant to retire, but he yielded to the War Minister's tactful pressure and resigned. Four hours after the formalities had been completed and the necessary documents signed the Liberal Government was defeated on the confidence vote and resigned. The Duke then wished to retract his decision, but it was too late.

**Leader of the Opposition.**  
A long period of depression for the Liberals followed, and when Sir William

Vernon Harcourt resigned the leadership of the party in February, 1899, Sir Henry Campbell-Bannerman was chosen by the unanimous vote of the party to be its leader.

Still more troublous times were in store for the Liberals at the beginning of the Boer war, which made the bitterness between the Imperialistic and Radical groups more acute than ever. A less resolute man would have thrown up the task in despair, but Sir Henry stuck to his post, ever watching for an occasion to lead a temporarily united party against the Government. He was bitterly and savagely attacked, but he never lost his head under the greatest provocation, and in the face of the biting criticism of Mr. Joseph Chamberlain, he maintained his self-restraint.

Campbell-Bannerman became Prime Minister in December, 1905. Office gave "C. B." additional strength and firmness, and the way in which he controlled and awayed his huge majority impressed all Parliamentarians, so that there was no longer any tendency to undermine his ability. He quickly established himself as a statesman of the new House of Commons, and the expression of his mere wish counted for much.

### Too Kind-Hearted.

Sir Henry made no pretensions to oratory, and he was not a ready debater, but when he had time for preparation he could make an excellent speech, happily phrased and with a strong, though nearly always good-humored, bite at his adversaries. He commanded the affection of the Labor party, if not its adherence. If his followers made any complaint it was that he was too kind-hearted, and inclined to take a rather sentimental view of social problems. Unlike many statesmen of his rank, he was ready to welcome youthful talent, and the younger members of the administration found in him support and encouragement. He took a fatherly pride in his protégés. He listened to Winston Churchill beamingly, and when the Under Secretary took his seat after a speech rewarded him by a paternal pat on the back.

If historians do not call Sir Henry Campbell-Bannerman one of the great Prime Ministers, they must describe him as a wise and witty man, particularly human, of keen common sense, and great political sagacity, which at times rose to the plane of high statesmanship.

### SHOT DOWN LISBON RIOTERS.

Disorder Broke Out in Different Parts of City.

Lisbon, April 5.—The elections here to-day, which were conducted peacefully with the exception of minor disorders in some of the disaffected districts, were followed to-night by serious rioting, which was only put down by most vigorous action on the part of the police and the troops.

The rioting broke out in different parts of the city, as though by a pre-concerted plan. Troops which had been in reserve, were immediately ordered into action, and they repeatedly charged the mobs that in places filled the streets, but without effect.

Rioters used clubs, stones and whatever other weapons were at hand, and finally the troops were obliged to fire upon them, killing and wounding a number.

### THIRTEEN WIRELESS STATIONS.

Owned by Canada on Gulf and Seaboard—20,405 Messages Sent.

Ottawa, April 5.—According to a return just issued by the Government the Dominion owns thirteen Marconi stations in the gulf and on the Atlantic seaboard. Three of these are what are known as low power stations, and cost \$3,000 each. The others are known as high power stations, and cost \$10,000 each. The Marconi Company receives \$2,500 and \$3,500 per annum respectively for operating them, retaining all the tolls.

### MISS ROOSEVELT, ENGINEER.

President's Daughter Holds Throttle at 60 Miles an Hour.

Atlanta, Ga., April 5.—Miss Ethel Roosevelt, daughter of the President, held the throttle of the Atlanta and West Point limited when it steamed into the terminal station at noon today. She had been its engine driver all the way from Newman, thirty-six miles down the road, at the rate of 60 miles an hour. Mrs. Roosevelt and four of her children—Eliel, Kermit, Quentin and Archie—Miss Hagar and Miss Landon were in a private car on the train, returning from a visit to New Orleans.

### THE BISHOP APOLOGIZED.

Sent Letter to Judge Promising to Obey in Future.

Montreal, April 5.—The Bishop of Chicoutimi, who some time ago refused to obey the local Judge of that town, has changed his mind. On Saturday he sent a letter to the Judge apologizing for his conduct, and promising obedience in future. The trouble arose over the Bishop claiming he belonged to a higher court than any civil one, and refusing to obey orders issued from the civil courts. The matter is now settled by the Bishop apologizing.

### Robbed Emperors' Tombs.

St. Petersburg, April 5.—Robbers today entered the cathedral of the Petropavlovsk fortress, which contains the tombs of the Russian Emperors, and stole the enormous key of the Czar's tomb. The key, which was placed as a trophy on the tomb of Constantine, the son of Paul the First.

### SIX MONTHS AND LASHES.

One of the Sentences Imposed at the Toronto Sessions.

Toronto, April 6.—A large number of convicted prisoners appeared before Judge Winchester in the Sessions on Saturday to be sentenced. Upon Hunya Kawarski, the Russian Jew who was found guilty of assault on a thirteen-year-old girl, his Honor imposed a sentence of six months in the Central and twenty lashes, to be given two weeks after his admittance and the remainder of four months later. Samuel Kinkle, an Austrian Jew, was sent to the Central for twelve months for endeavoring to obtain money under false pretences.

Ennio Cannone, a young Italian, was sentenced to eighteen months imprisonment for having wounded his parents with a knife.

R. J. Fleming, the young Englishman who shot at his sweetheart in a King street restaurant, was sent to the Central for eighteen months.

An old man of infirm mind, Thomas Hanley by name, who was said to have destroyed some property, was sentenced to six months.

# NEWSIES' STRIKE CAUSES TROUBLE.

## LIVELY SCENES ON TORONTO'S STREETS SATURDAY NIGHT.

Street Car Was Attacked, and Copies of Sunday World Scattered Along Pavement—Cause of the Trouble Was Decision to Advance Price of Paper to the Newsboys.

"We're all out on strike, We're all out on strike; We won't sell the Sunday World; We're all out on strike."

Toronto, April 6.—This refrain, sung lustily by some scores of "newsies," as they marched through the streets in the downtown portion of the city, told many citizens that the force was on hand to purchase their usual Sunday paper on Saturday night.

The strike of newsboys declared on Friday as a protest against the advancing of the wholesale price of the Sunday World, which meant a cutting down of the boys' profits, assumed somewhat serious proportions when that paper was put on the street, and when force and threats were used to restrict the sale of the publication.

Thirteen arrests were made. The decisive action taken by the newsboys of the city had more or less effect on the circulation of the paper. While the downtown streets, particularly near King and Yonge streets, close to the office of publication, were the storm centre, there were some serious clashes in the outskirt of the city at branch offices and on the routes between the boys and men in charge of conveyances. There was some stone-throwing at Yonge and King streets, where a couple of full-grown men were attacked with a bundle of papers, and were prepared to offer no resistance to special police protection. There would have been serious damage to property had not Chief Constable Grassett and Deputy Chief Stark been prepared for the emergency, and had plenty of men on hand to keep the crowd moving. A lad who carried a sign was stopped by the police just before 8 o'clock, and this action precipitated a riot. Then the automobiles and express wagons which were to convey the papers to news dealers put in an appearance, and the police look steps to keep the crowd moving. One or two refused to go, and a shower of stones was the signal for a rush by the officers. Policeman Young, who was in plain clothes, was struck on the head with a stone, and at once some steps were made.

For some young citizens who bought copies of The Sunday World others were taken into custody and sent over to the Court street station. One man had his hat smashed and his clothes torn by the crowd, and some boys and sympathizers who followed the prisoners to the police station and made a demonstration in front of the building on Court street.

With a wild yell thirty or forty newsboys of all ages and sizes charged upon the police and drove them off at the corner of Queen and McCull streets shortly after 9 o'clock, and after a riotous scuffle with the bewildered ear conductor, succeeded in dragging off a big bundle of papers.

At the corner of Queen and Bathurst streets a delivery wagon with Sunday Worlds was overturned and the papers scattered to the four winds. Some stores were even entered and the papers taken away.

What the outcome of the trouble will be the boys cannot say, but it will be made to get them together and discuss the matter in a mass meeting, as was done some years ago, when serious trouble was threatened.

### A PRINCESS AT SCHOOL.

Mary of Wales to be Cured of Shyness.

New York, April 5.—The Herald has received the following cable message from London: Princess Mary of Wales, like her two brothers, is to be sent to school instead of being educated privately. This great departure from tradition in the case of the ladies of the royal family is due to the desire of the Princess of Wales that her family should be free from the painful shyness that makes the lives of some other members of the royal family something of a torture.

The Princess holds that this excessive self-consciousness is due to the private education of the royal children, and that it can only be avoided by bringing the royal children into free contact with their contemporaries. The King and Queen fully approve of this departure, as they are quite conscious of the harm that has been done to some members of their own family by unnecessary seclusion and exclusiveness.

### CENTRE OF THE EMPIRE

Will Move to Canada, Says Halford J. Mackinder.

London, April 5.—Halford John Mackinder, the well known geographer, predicted the doom of Britain as the centre of the British Empire in a lecture delivered before the Royal Geographical Society this week.

He considers that a great world movement is now taking to some members of the predominant importance it now enjoys. In another generation, according to President Mackinder, the economic centre of the British Empire will be found in Canada.

Should Canada still remain a part of the empire, the position of the British Isles will continue to be of importance, but it will be of importance chiefly on its position as a defence of Canada against the great continental powers. With the gradual increase of Canada's resources, England would have some of the characteristics of a flying base in naval strategy.

### SETTLEMENT OF DIFFICULTIES BETWEEN CANADA AND U. S.

Washington, April 5.—What is regarded as satisfactory progress is being made in the negotiations between United States Secretary of State Root and Ambassador Bryce in embracing the terms of settlement of the various questions which have existed for some time between the United States and Canada. In this way there is reason to believe that several such treaties will be transmitted to the Senate for its approval at the present session of Congress.

**ALL MUST SPEAK GERMAN.**  
Only Language Allowed at Public Meetings in Germany.

Berlin, April 4.—The Reichstag this evening adopted by a vote of 390 to 79 section 8 of the Government's associations bill. The debate attracted the largest gathering of members reported in years, 382 out of a total of 397 being present, three of whom declined to vote.

This section enacts that the German language is compulsory in all public meetings in every part of the empire, except in the case of international congresses or election meetings. Further exceptions will be permitted during the next twenty years, after the promulgation of a law for those districts where 60 per cent. of the inhabitants speak a language other than German.

The debate on the section lasted throughout the day and until nearly 10 o'clock this evening. The discussion was sharp throughout, and went on amidst continual agitation and interruption. The House was fairly supporting the Government against the opposition of the Socialists, the Poles and the Centre party. When the result of the division was announced a scene of the widest tumult occurred, the House separating in the greatest excitement.

The result of the House's action on this section has been awaited with intense interest throughout the empire, owing to the fact that it affects 4,500,000 non-German-speaking inhabitants, comprising the Poles in the eastern provinces, the Danes in the north and the French in Alsace-Lorraine, in addition to the less important races not speaking German—the Wends, the Masurians, the Lithuanians, the Casubians and the Czechs.

### B. C. WATER RIGHTS.

Case of Great Importance to Provincial Industries.

Vancouver, April 5.—The great legal battle over the rights of the Dominion v. the Province to control the streams within the Dominion railway belt in British Columbia is now progressing. The Province granted a water right of 25,000 miners' inches to the Burrard Power Company, which proposes to build a dam on the lower Lillooet Lake. The fisheries officials have evidence on Saturday that the dam proposed would seriously injure the Fraser fisheries, preventing the salmon from reaching the spawning grounds.

Justice Martin said on Saturday, the case not only affected C. P. R. lands adjacent, but also 3,500,000 acres of Dominion Lands in Peace River district, the two great industries of the Province, lumbering and fishing. **T: hearing promises to be protracted.**

### GRAVES OF VICTIMS DECORATED.

Fifty Thousand Workmen in Procession in Rome.

Rome, April 4.—A procession of 50,000 of the workmen of Fome made its way through the main thoroughfares of the capital to-day to the cemetery where are the graves of the men killed in the rioting of last Thursday. The progress of the men was witnessed by thousands of people from balconies, windows and roofs along the line of march. Upon arriving at the cemetery wreaths were deposited on the graves of the victims.

Fiery speeches were delivered in the cemetery, but there was no outbreak or disorder of any kind. The authorities had taken precautions to have troops present in large numbers.

# SYNOPSIS OF CANADIAN NORTH-WEST Homestead Regulations

ANY even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 28, not reserved, may, by homestead, be taken by the sole head of a family, or male over 18 years of age, to the amount of one-quarter section of 160 acres, more or less.

Application for homestead entry must be made in person; or by applicant as a Dominion Land Agency or sub-agency. Entry by proxy may, however, be made at an Agency or sub-agency by the father, mother, brother, son, daughter, brother or sister of an intending homesteader.

An application for entry or cancellation made personally at any sub-agency's office may be filed with a homestead application, at the expense of the applicant, and if the application is not received in due season, the homestead application and the land will be held until the necessary papers to complete the transaction are received by mail.

An application for cancellation may be made in person. The applicant may be either the homesteader, or his proxy, or a person authorized by him in writing. If the application is received from an individual unit that application has been disposed of.

Where an entry is cancelled subsequent to the application of cancellation proceedings, the applicant for cancellation must state in what section of the homestead is the land in default.

A homesteader whose entry is not the subject of cancellation proceedings, may, subject to the approval of Department, relinquish his homestead in favour of father, mother, son, daughter, brother or sister if eligible, but in no case, on filing declaration of abandonment.

Utilities.—A settler is required to perform the duties under one of the following plans: (1) At least six months' residence upon the cultivation of the land in each year during the term of five years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on a certain acre of land, not less than fifty (50) acres in extent, if such land will be used, in whole or in part, as the residence of a homesteader who has permanent residence on the homestead. His land must not be less than eighty (80) acres in extent, if the homesteader is not performing his own residence duties, or if he is a tenant (see notice).

The term "residence" in the two preceding paragraphs is defined as occupying not more than nine miles in a direct line, excluding the length of roads or easements crossed in the measurement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with persons on the land owned by himself must notify the Agent for the district of such intention.

Before making application for patent the settler must give six months' notice in writing to the Commissioner and Dominion Lands at Ottawa, of his intention to do so.

### MINING REGULATIONS

COAL.—Coal mines in Canada will be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,000 acres shall be leased to any individual or company. A royalty at the rate of five cents per ton shall be collected on the marketable coal mined.

QUARTZ.—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim of 1000 feet square. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year for the purpose of exploring it. In lieu thereof, when \$500 has been expended or paid, the locator may, upon having a survey made by him, and complying with other requirements, purchase the land at \$1 per acre.

The patent provided for the payment of a royalty of 2½ per cent. on the sales. Place, mining claims of 1000 feet square; entrance fee, \$5; renewable yearly.

An applicant may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds \$10,000.

Deputy of the Minister of the Interior.  
N. B.—Unauthorized publication of this advertisement will not be paid for.

G. C. ANDERSON,  
Superintendent.

PERJURY IN POLICE CASE

And Magistrate Will Try to Find Where It Is.

Detroit Man Caught Robbing St. Lawrence Poor Box.

Fine of \$133 For Removing Distressed Goods.

"There seems to be a lot of perjury some place in this case, and I intend to take some time considering it before I give my decision," said Magistrate Jellis at the Police Court this morning...

Mrs. Lewis also employed at the club, said she saw the defendant at the club house several times, for money which was given to her. Once the defendant had said to her, "Come out and get drunk; I've got amny's money."

"I'm guilty, and I'll try right here, your honor," said Bennett, of Detroit, when he was charged with stealing 15 cents from the poor box in St. Lawrence's Church this morning.

"I was once happy, the same as you, but now I am crippled with nothing to do," said the man who had been charged with the robbery of the poor box.

Another big fine was imposed in the case of Charlie King, who was charged with obtaining \$25 and a false cheque from Lee Guey, Gideon Grant, of Toronto, stated to the court that his client had made restitution of the amount, and he thought it was a case for a fine.

ANNA GOULD.

Public Appearance With Prince Heile Regarded as Mutiny.

New York, April 6.—The fluctuating love affairs of Mme. Anna Gould and Prince Heile de Sagan, whose courtship of the divorced wife of his cousin, count Boni de Castellane, has hung in the balance ever since Mrs. Gould's brother Edwin joined the other members of the Gould family in opposing the marriage, took a turn decisively in favor of the prince to-day, when Mme. Gould consented to their public appearance together for the first time since their arrival in New York.

After receiving a call from Edwin, and listening to his pleas that she give over the prince, Mme. Gould left her apartments at the Hotel St. Regis at half-past two in the afternoon, accompanied by Mr. and Mrs. Tyler Morse and J. Edgar Morse, and proceeded to the Hotel Plaza, where she had luncheon with the prince. When she returned to the St. Regis, an hour and a half later, it was in the company of her suitors.

"An Hour With Wagner," as played by Mr. W. H. Hewlett, on Saturday afternoon, at his 33rd twilight recital, proved very enjoyable, indeed. The music was taken from different of the great composer's works, and as interpreted by Mr. Hewlett, left nothing to be desired.

The choir of Centenary Church will give a presentation of Haydn's famous "Passion Music" (the seven last words of our Lord, set to music by the great master) on Good Friday evening.

An attractive vaudeville programme will be given at the Savoy this week, where Okito, the original Chinese mystery, is billed as the headliner.

At Bennett's Theatre. Paul Conchas, who will be the headliner at Bennett's this week, holds the record for weight-lifting. For sheer strength he is the equal of Hackenschmidt, and besides being able to do all the feats of strength that the wrestler can, and a few more, the offering of Mr. and Mrs. Arthur Forbes, "The Wild Rose," is a well handled comedy that always meets with favor.

The Music of the Marlowe Voice. Julia Marlowe's speaking voice is perhaps the most wonderful on the American stage. Its timbre is of music and its soul made of poetry.

Street north, said that on Saturday night he saw a crowd in front of the Volunteer Hotel. "I went over to the crowd and the constable said, 'You are from Toronto and you are raising H—, and he arrested me. That's all I know.' He would not take the stand and swear to this, so was fined \$5.

OUT OF WORK.

200,000 Philadelphia Unemployed Asked For Help.

Philadelphia, April 6.—The City Council will be asked this week to appropriate not less than \$50,000 to relieve the distress among the unemployed and their families, according to action taken yesterday at a meeting of the unemployed.

REAR END CRASH.

New York, April 6.—One man was seriously hurt and traffic was blocked for nearly an hour to-day as a result of a rear-end collision between two empty express trains on the elevated extension of the subway at 174th street and Boston road, in the Bronx.

MINERAL PRODUCTION.

Ottawa, Ont., April 6.—The Trade Commissioner at St. John's, Newfoundland, reports that the mineral production of the island for 1907 was \$1,332,219, compared with \$1,462,244, a decrease of \$130,025. The principal production is iron ore.

who, upon the recent London engagement of Miss Marlowe and Mr. Sothern, took occasion to say of these two splendid players, "The English they speak is that which was taken away in the Mayflower and which they now give back to us in its original purity."

The dramatic treat of the season is assured when Miss Marlowe appears at the Grand as Rosalind to-morrow night.

"The Tattooed Man." A delight to local theatre-goers is promised when Frank Daniels, the ever popular comedian, comes to the Grand on Friday night with his inimitable fun and new opera, "The Tattooed Man."

In the supporting cast are Wm. Danforth, Gilbert Clayton, George O'Donnell, Harry Creston Clark, Nace Bonville, Harold Russell, Juliet Brewer, Louise Sylvester, Norma Kopp, Montague Melcham, and a chorus of sixty of the finest female comedians.

At Bennett's Theatre. Paul Conchas, who will be the headliner at Bennett's this week, holds the record for weight-lifting.

The remainder of the bill is made up of good acts. Terley is a European artist who has just concluded a very successful tour in this city.

Fair-sized audiences enjoyed the sensational English drama, "Raffles," at the Grand on Saturday afternoon and evening. The play was presented by capable people. Mr. Miller Kent being in the title role.

At the mature age of 75 years, Elizabeth McDowell died on Saturday at the residence of her daughter, Mrs. J. W. Cromer, 173 Catherine street, north.

After an illness of several months duration, Mrs. Calvin C. Fisher died on Saturday evening, somewhat unexpectedly, of heart trouble, at the age of 50 years.

# IMMIGRATION IS RESTRICTED.

Only Three Classes Encouraged to Come to Canada.

Farm Workers, Railway Builders and Female Servants.

Certain Classes Warned Against Coming.

Ottawa, April 5.—Mr. W. D. Scott, Superintendent of Immigration, in explanation of the Government's policy with regard to immigration, took occasion to correct a general misapprehension of what is being done.

"There seems to be a misunderstanding that the immigration policy of Canada is the policy of 'the open door,'" he said. "There was a time in the early stages of immigration effort when such was the case, and at the time it was supported almost unanimously in Parliament, in the press, and throughout the country. The attention of the people of the chief emigrating countries was thus drawn to Canada. But some years ago the Government came to recognize that with the continuance of aggressive immigration effort there must also be a measurable degree of restriction and exclusion. This idea was embodied in the terms of the immigration act of 1906 and has since been developed and enforced from time to time by such regulations under the provisions of that act as the circumstances seemed to require."

"The impression that the bonus system is responsible for the congestion of labor and the presence of undesirable in some center of population in eastern Canada is not warranted in any degree. There is and has been for several years past an outflow of people from Europe to both the United States and Canada. The movement to the United States has not only not been encouraged by that country, but has been actively discouraged. But notwithstanding the requirement of an actual cash payment to enter the United States, a strict medical examination, and throughout a decided policy of exclusion, it was found that probably 45 per cent. of the million immigrants into the United States in 1907 were of the classes which in Canada today are deemed undesirable. It is clear, therefore, that as bonuses were not used to draw them to the United States, neither were bonuses needed to attract the same classes to Canada. The favorable conditions of the labor market in both countries up to the end of last summer were the real cause; and so long as those favorable conditions existed no objection was raised in either country. It was the change in the labor conditions which constituted a large part of this immigration undesirable, not any change in the character of the immigration itself. It was because of the conditions which were necessary for their well-being in Canada and the United States had ceased to exist that this class of immigrants became undesirable. And for this change in the conditions the immigration policy of neither country was responsible."

**Payment of Bonuses.** "As regards the payment of bonuses by the Canadian Government is concerned, these are used as a means of encouraging only desirable immigration, and in no sense can it be construed that they are, as it is present administered, any assistance to the immigration of undesirable classes."

"Let me here make it thoroughly understood that a wise immigration is in no form a part of the immigration policy of the Dominion Government. It is no time since the Government took office that it has been actively endeavoring to attract immigrants to come to Canada, except, of course, in the case of the Doukhobors, who were regarded as a persecuted people and were the objects of Canadian sympathy. The Government's policy and expenditure are simply directed to attracting desirable people. Thousands of dollars are spent for publicity, but not a cent for assistance. In connection with the payment of bonuses it should be clearly understood that the only classes which the department attempts to secure for Canada or on which bonus is paid are those who come to the country to engage in farm work or railway construction, and female domestic servants. At no time for years past has there been a shortage of positions for those desiring farm work, and the scarcity of female domestics is so well known that I need say nothing in that connection. Not only does the department not encourage immigrants of occupations other than those already mentioned, but in its printed literature it actually warns such to remain away unless they have assured positions or sufficient money to maintain themselves until such time as work can be secured. It will thus be seen that the unemployed last winter were not those on whom bonus had been paid, neither did they belong to the classes for which the Immigration Department caters."

**The Government's Position.** "These circumstances have been made the ground for a general attack upon the Government's immigration policy, the Government and their policy held responsible for that for which they were not in any way responsible, and against which they had used every reasonable precaution by announcements in their literature and through the medium of their agents. The break in the labor market was not contemplated by either the emigration societies or the steamship companies, and it was found that, notwithstanding the changed conditions in Canada, there was a continuation of the flow of immigration during the fall and winter months. The department, therefore, felt that it was necessary to take a strong stand, and under the provisions of the immigration act a regulation taking effect on January 8, 1908, was passed, requiring every immigrant to have \$50 in his possession, unless he was coming to stated employment or going to friends who were able to care for him. The transportation companies, and no doubt the charitable associations, feel this a great hardship, but, in view of the altered conditions of the country, the department considered that it was absolutely necessary to take such action, the result of which has been to decrease the ocean port immigration during the winter months of January and February from 10,223 last year to 6,303 this year."

A GRACEFUL NEGLIGEE.

No. 5656.—Comfort and grace are both suggested by the loose flowing lines of the garment here pictured. A double inverted box-pleat in the centre of the back, and tucks in the upper part of the front give additional fullness to the mode. The sleeves are in the fashionable elbow length, finished by a frill of the material although lace could be used if preferred. Pink and white dimity is represented in the illustration, but several other materials are adaptable such as China silk, chalis and cashmere. For 36-inch bust measure, 3 3/8 yards of material 36 inches wide will be required.

Ladies' Negligee. No. 5656. Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure. The above illustration will be mailed to any address on receipt of ten cents.

### INTEGRITY OF MANCHURIA.

Russia Likely to Recognize Sovereignty of China.

St. Petersburg, April 4.—The Russian Government is considering the issuance of a statement formally recognizing China's sovereignty in Manchuria, in so far as is consistent with the purely administrative rights of Russia in the railroad zone. This is thought to be the best way out of the Harbin difficulty, which has been brought to an issue by the refusal of Fred. D. Fisher, the United States Consul at Harbin, to recognize the Russian administration of this territory.

Russian diplomacy is anxious at all hazards to give the impression that the reorganizing of the administration of Harbin and Chaibar involves no further encroachments upon the integrity of Manchuria, and it is thought that a declaration of the Government's intentions would have an important effect in forcing Japan to

### Stolen Bust Recovered.

Rome, April 5.—After a diligent search the police have succeeded in finding the bronze bust of Pope Clement VIII., which was stolen from the Villa Aldobrandini, March 20th. The thieves gained access to the villa by breaking a window. The bust, which weighs fully 500 pounds, was found by the police buried about half a mile from the villa. It was evidently in concealment until an opportunity should be afforded to ship it abroad.

## JAPS DESERTED.

THIRTY-TWO ESCAPED FROM BARRACKS AT TOKIO.

Returned Next Day During Shower of Rain and Sleet—Brutality in the Army—Youth Flogged to Death With Wire Rope.

Tokio, April 5.—A somewhat remarkable incident, probably unprecedented in this country, occurred recently when thirty-two soldiers belonging to the First infantry regiment of the first Tokyo division deserted in a body. At 9.30 at night the men in company formation left the barracks by the rear gate. The sentry made no attempt to prevent them, because he thought that they were going out for night manoeuvres.

In due course the regimental authorities instituted a search for the missing men, but without effect. At 6 o'clock the following evening the men returned to quarters during heavy downpour of rain and sleet. Soon after leaving the barracks the deserters sent a letter to Major Fukuda requesting an interview, which was accorded. The Major very gently reprimanded them for their misconduct and led them back to their barracks. There the deserters were placed under arrest and an inquiry instituted.

It is understood the men were dissatisfied with their treatment at the hands of a lieutenant, Inokuma, who had late-ly been subjecting them to an unusually severe course of physical training on the ground that they were the poorest men in the regiment. Numerous instances of brutality in the army have been recorded during the last six months. One of the worst cases was at Yokosuka, where a young private was suspended from the ceiling, a towel stuffed down his throat to stifle his cries and a terrible flogging administered with wire rope. The man died from his injuries. The petty officers were sentenced to a few years' imprisonment.

## REMEMBER THIS!

A Thorough Cleansing of the System Now is a Sure Protection Against Spring and Summer Sickness.

After the long, hard winter, system cleansing is badly needed. The blood must be purged and purified, otherwise pent-up impurities will heat through the skin, and all through the summer you'll be tormented with rashes, pimples, tumors and boils.

The best of all blood purifiers, and at the same time an unequalled tonic and appetizer, is Dr. Hamilton's Pills; they will build you up, aid the digestion of food, keep the system vigorous, healthy, strong. Being mild and pleasant in action, you need not hesitate to use Dr. Hamilton's Pills. Take them at night—note the difference in the morning, how fresh, bright and well you feel. No sure health bringer and health keeper known than Dr. Hamilton's Pills. Get a 25c box to-day—all dealers.

## TIME BY WIRELESS.

Proposed to Send it to All Ships at Sea.

Paris, April 5.—If the proposal presented to the French Academy of Science this week by Bouquet de La Grye is adopted, the Eiffel Tower will play such an important role in the world of shipping that it will be the signal of longitude will hereafter be rendered impossible.

The venerable savant proposes to equip the tower so that it can send the exact time according to the meridian of Paris or Greenwich, to every ship in the world equipped with wireless telegraphy.

He also proposes to establish to send the time by wireless. He proposes to establish to send the time by wireless. He proposes to establish to send the time by wireless.

The proposal has already been accepted in principle, and experiments will first be undertaken with the concurrence of French ships in both the Atlantic and the Mediterranean. It is proposed to send the hour of midnight according to Paris time, this being preferable to noon, owing to the absence of local disturbances.

## LOCAL OPTION FIGHT.

Great Campaign in Illinois Ends Tomorrow.

Chicago, April 4.—To-day saw the formal but not the actual closing of one of the most spectacular and vigorous campaigns waged in this State since the civil war. The sole issue has been the licensed saloon, and in 84 of the counties of Illinois the voters will be called upon Tuesday to decide whether the dram shops shall continue their existence within the confines of the various local option districts, as defined by the State law which became effective July 1, 1907. About 1,150 out of 1,205 townships of the State and about 1,500 cities, towns and villages are affected. In addition thereto, there has been raised seven other counties in one form or another.

Women and children have been taking an active part in the campaign in many communities. While gowned school children have marched in parade wearing badges with the legend, "Vote yes for my sake," earnest women have held prayer meetings in saloons and canvassed the towns from house to house, besides pleading with the voting members of their families to cast a ballot against the saloons.

Against these tactics the saloon and brewery interests have worked with unflinching energy.

Speakers have been imported and mass meetings have been held nightly, "persons liberty" leagues have been organized to combat the church and prohibition organizations, and the struggle has been carried into the homes of thousands of citizens.

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:  
Fluid Extract Dandelion one ounce;  
Compound Salts one ounce;  
Compound Syrup Sarsaparilla, four ounces.  
Shake well and use in teaspoonful doses after each meal and at bedtime.

## CHINA GRANTS A LOAN.

London, Monday, April 6.—The Shanghai correspondent of the Morning Post says that in consideration of the United States returning the American share of the Boxer indemnity some Americans have been granted the concession of a loan of \$2,000,000 taels in Manchuria.

**You know if your bowels need occasional help. Give it to them easily and regularly—one Cascaret at a time. Don't wait till night.**

A million boxes a month. That's the sale of Cascarets. And every tablet in every box means a day of good cheer. Think what a world of happiness this candy laxative has brought to men and women. Are you getting your share?  
Cascarets cure bowel troubles when they have developed. But that is the least of their uses. Their best service is to prevent the many ills that come from inactive bowels. Think of the days when you are not at your best. The mornings when you don't feel right, the afternoons when you are lory, the evenings when you are irritable. The cause lies in the bowels. One Cascaret makes everything different. Don't say, "I'll take it tonight." Take it at once. Carry a box in your pocket. The hours before bedtime are too good to be wasted. Cascarets are gentle and pleasant. Their action is as natural as the action of fruit on the bowels. They are both good and good for you. Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and Ten Cents per Box.

"HACK" WILLING TO HOOK UP AGAIN.

Aftermath of the Big Wrestling Match in Chicago.

Hamilton Military Indoor Baseball Teams Won at Toronto on Saturday Night.

Chicago, April 6.—George Hackenschmidt will meet Frank Gotch again, if suitable inducements are offered, but he will not consider such a plan for the time at last.

So far as Gotch is concerned there will be no difficulty in getting a second bout.

"I'm going to give exhibitions at the theatre every night for several weeks, and he can meet me every night if he wants to," he said.

Gotch, who was strolling about his accustomed haunts yesterday, cheerful and unmarked, was in strong contrast to Hackenschmidt, who, battered and bruised, was in a state of depression very different from his former placid demeanor.

Delay in the starting of the bouts Friday night was partly caused by Gotch's objection to the moving picture machines.

Gotch said that he experienced some difficulty at first in getting his distance under the mercury lights.

Gotch will start to-day on an extended theatrical tour which will occupy him until June.

Gotch is smarting at the criticism of the receipts therefrom. On account of the length of the bout, only the start and finish of the go are likely to be shown in the films.

About Riley Grannan the Plunger

Riley Grannan, who died a day or two ago, won a fortune on the turf, and lost it all again. Beginning with nothing, he achieved spectacular success, and was taken up by Col. Applegate, the well-known western bookmaker, who supplied the capital that Grannan increased a hundredfold.

When Henry of Navarre and Domino ran a match race at the Gravesend track in 1894 Grannan did some of the most phenomenal plunging ever seen.

\$65,000 SCHOOL ON COLLEGIATE LAND.

(Continued from page 1) from places all over the States and Canada, he will need a private secretary to answer them.

The engineer thinks it would be advisable for the city to begin the work of cleaning out the filtering basins at once. If the job is hustled along while the water is high, Mr. Barrow says the sand-sucker can be taken out of the basin for half of what it would cost when the water is low.

Mr. Barrow is worrying so little about the outcome of the reorganization plan that he is thinking of going to Washington this month for four or five days to attend the convention of the American Water-works Association.

Building permits have been issued to Thomas Allen for two brick houses on Hess street, between Herkimer and Markland, to cost \$6,000, and to E. B. Patterson for alterations to 330 King street north, for M. Carver, to cost \$250.

The asphalt along the side of the street railway's tracks is in such bad shape and there is such little prospect of anything of a permanent nature being done for some time that City Engineer Barrow to-morrow night will recommend the Board of Works to fill the holes in temporarily. Until this is done the flusher cannot be used on the streets.

Engineer as to repairs to bridge on Hunt street. Sub-committee re gravel pits.

Residents of King William street, east of Sanford avenue, asking for a change of name of this street to Albion avenue. Report as to sidewalk on York street opposite the cemetery property.

Macadamizing Garth street, south of Aberdeen avenue, and laying sidewalk on the west side of the street. Letter from Ontario Railway and Municipal Board as to work ordered to be done alongside the street railway tracks, and report from City Solicitor in this matter.

City Solicitor re letter from W. D. Flatt as to the grading of Cottage avenue. Engineer on the cost of improvements to roadways.

Board of Health, complaining of nuisance caused by refuse being dumped on Mary street, north of Burlington; and stagnant water opposite 257 Catharine street north.

Engineer McFarlane's report of water pumped during March shows a decrease of 6 per cent., as compared with the corresponding month of the year ago. Engineer Barrow says this is accounted for by the fact that the factories are not using as much on account of the dull times, and that the meters are having some effect.

The Board of Health at a special meeting on Saturday night to consider accounts for the smallpox patients and look over the plans for the proposed new isolation hospital, tendered Dr. Orr, who has had charge of the smallpox work for the last four months, a hearty vote of thanks for the conscientious way in which he filled his duties. The last smallpox patient will be discharged to-morrow.

Although there has been some criticism of what the smallpox outbreak has cost the city, Dr. Orr says there is no foundation for the statement that the cost of boarding the patients at the isolation hospital was of the ordinary. He has figured it out, and finds that it cost the city less than \$2.50 a week for food for the patients.

TWO ACCIDENTS.

Mrs. Griffin Was Run Into and Had Leg Broken.

On Saturday evening the police ambulance was called to 340 Hughson street north, to remove Mrs. Margaret Griffin to the City Hospital. Mr. Griffin, who is an old lady, was walking on the street when a boy running around a corner ran into her, knocking her down and breaking her leg. She is reported to be progressing favorably at the City Hospital.

Richard Coates, 13 Bay street north, was removed to the City Hospital by Driver Wheeler on Saturday, suffering from a bad strain he received while riding a horse. A few days ago he was thrown from a horse, but not seriously hurt, and on Saturday he attempted to ride again. He strained himself so badly that an operation may be necessary.

BIGGEST YET.

Stanley Mills Co.'s Excursions From Beamsville To-day.

This is "Beamsville" day at the Stanley Mills Co.'s big store, and the company's excursion from the eastern terminus of the H. G. & B. R. this morning was the largest of the series of excursions on the suburban lines. Nine of the railway company's largest coaches came in filled this morning—filled to the uttermost. This afternoon five more cars, also filled came to the Terminal Station. The excursions was the largest that ever left Beamsville in one day. It was certainly larger than the Mills Co. expected, as the supply of tickets ran out. It is estimated nearly 1,800 people took advantage of the firm's enterprise.

Of course, all the people didn't come from Beamsville. According to the register at the department store many came from points eight and ten miles from Beamsville—they evidently drove to the station. Some gave St. Catharines as their post-office address.

A first-class programme has been arranged for this evening at the meeting of the Boys' Club of Erskine Presbyterian Church. All young men are cordially invited.

Vera Wilson Cunningham assisted the choir of Wesley Church at both services yesterday, singing a solo in the evening with great acceptance.

Mr. Jas. I. Anderson, of Morgan's bookbinding office, has gone away on a trip to New York, Washington and other points in the Eastern States. He is accompanied by his wife.

As intimated in the Times a few days ago, the Beach Commissioners are taking up the question of a sewer system. An engineer is now working on the plans and estimates.

Rev. Canon Abbott has recovered from his recent attack of grip, and in a few days will be ready for active service. His congregation and many friends will be pleased to hear this good news.

A joint meeting of the Mission Circle and Epworth League of the First Methodist Church will be held at the home of Mrs. Ross, 81 Victoria avenue north, this evening. The Easter thank offering will be received.

The Gayety Theatre, King street east, announces the Passion Play for this week. There are five reels of hand-colored pictures in the lecture, which illustrates the custom costumes, etc., of the early days. It is one hour's show for 10 cents.

Rev. S. B. Russell spoke especially to the young people last evening in Erskine Church. His subject was "Put On the Whole Armor of God." The church was filled to the doors, in spite of the bad weather.

COLEY TO REMAIN.

Crack Runner is Not Going to Toronto Now.

Billy Sherring, who has been training Tom Coley, the long distance runner, stated to-day that his protege will remain in this city to complete his training for the Marathon race to be held in England in connection with the Olympic sports.

Mr. James McPherson, well known as a supporter of all clean sports, has arranged with the McPherson Company to give Mr. Coley a position in the firm, and Coley will not go to Toronto, as arranged. Coley will likely race in the colors of St. Patrick's Club, the club that Sherring represented when he won the great race in Athens. "That boy will win the trial race, from Brantford to Hamilton, and I believe he will land the Marathon," said Mr. Sherring this morning.

The provisional directors of the Fernleigh Athletic Association, which has received an Ontario charter, are Messrs. J. P. Hennessy, Burwell Griffin, William White, J. H. Saller, The company is capitalized at \$40,000, and has bought a site at the corner of Mountain and Aberdeen avenues. A bowling green and a tennis court will be laid out, and a small club house erected at once.

In connection with the athletic meet at the Alexandra rink Monday night under the auspices of the Hamilton Rugby Football Club, there will be two 50 yard events, one open and one open to the girls. The entries received for these so far are as follows:

Fifty yards open—C. Ogilvie, R. Bowron, W. White, H. Fraser, P. Taylor, A. Lambert, J. Maas, G. Gross, L. Brown, R. Kerr.

Dash for Tigers—Barron, Lyon, Moore, Tope, G. Awrey, G. Ballard.

In a close, exciting and fast game at the Y. M. C. A. on Saturday evening the Rangers defeated the East Hamilton team by a score of 25 to 21. Mr. B. Taylor was the official.

The Swastikas and the Alexandras will have to play over their last week's game on account of shortness of time to-morrow night. This game will be played at 8.15. In the second game the Wanderers will meet the Clerks. Messrs. E. Buscombe and B. Taylor will be the officials.

At Victoria Park on Saturday afternoon the Royal Dominion defeated the Ryerson Stars by a score of 33 to 25. Harry Lang did the best work for the winners.

One of the most interesting features at the big farmers' gym exhibition to be given next Friday and Saturday in the Y. M. C. A. gymnasium will be the pumpkin wrestling or basketball as played on the farm. Arrangements have been made to accommodate a big crowd at this entertainment, and the reserve seat plan is now open.

New York, April 6.—All of the eight clubs which comprise the Eastern Baseball League were represented at the annual meeting of that organization which President Powers called them together at the Victoria Hotel to-day. The new owners of the Montreal Club were introduced.

THE WEATHER.

FORECASTS.—Moderate to fresh winds; mostly fair and mild. Tuesday, moderate winds; fair; not much change in temperature. Pressure is high over the central and northern Pacific States, and in Manitoba, and comparatively low elsewhere. Showers occurred during Sunday afternoon and night in Ontario and Quebec, and sleet and rain are now falling in the Maritime Provinces. The weather is much milder from the lake region to the Atlantic seaboard, and somewhat colder in the west.

Washington, April 6.—Forecasts: Eastern States and Northern New York: Fair; slightly cooler to-night. Tuesday, fair; light to fresh west winds, becoming variable.

The following is the temperature as registered at Parke & Parke drug store: 9 a. m., 45; 12 noon, 53; 2 p. m., 57. Lowest in 24 hours, 26.

BRITISH CABINET.

Discussing Changes Necessitated by Premier's Resignation.

London, April 6.—An informal conference of Ministers under the presidency of Herbert H. Asquith, Chancellor of the Exchequer, was held prior to the commencement of to-day's sitting of Parliament. David Lloyd George, President of the Board of Trade, is still a favorite for the chancellorship, although Mr. Haldane, who shares the liberal imperialist tendencies of Mr. Asquith, is understood to be a candidate for the same portfolio. There is nothing known definitely, however, about the various assignments, as Asquith will retain the chancellorship until the budget has been introduced after the Easter recess. Should Mr. Birrell be slated for a change of office, it is an open secret that John Burns, now President of the Local Government Board, will replace Mr. Birrell as head of the Irish office.

HAMILTON SYMPHONY ORCHESTRA.

There was a large advance sale to subscribers for the concert of the Hamilton Symphony Orchestra, to be given on Tuesday evening in Association Hall, plan for which is now open at Northheimer's. This concert promises to be one of the most enjoyable of the season. A most excellent programme is to be given.
