## LOCAL CURLING CLUB ORGANIZES FOR SEASON

The Newcastle Curling Club held a meeting last Thursday evening at 8 o'clock in the Town Hall and the attendance of members was representative. President J. R. Lawlor occupied the chair. The following officers for the ensuing year were elected.

President—A. H. Cole  
Vice-Pres.—J. R. Lawlor  
Treasurer—G. G. Stottart  
Captain—Rev. L. H. MacLean  
Secretary—J. H. Barnett  
Man. Com.—Chas. Sargeant, A. S. Demers, R. W. Crocker, Ed. D. Itz, P. Russell.

Match Com.—J. H. Sargeant, James Stewart, C. J. Morrissey.

It was decided to fix the dues for this season at \$3.00.

A resolution was passed, whereby it was resolved that the rink for local play are to be made up by the Managing Committee from the list of members whose dues are paid in or before December 15th, 1920.

The meeting adjourned to meet again on Wednesday evening, December 15th, at 8 o'clock.

## WILL NEWCASTLE PLAY HOCKEY THIS YEAR?

A movement is on foot to form a Hockey Club in the Town of Newcastle. All the surrounding towns are possessors of Hockey Clubs, and are now members of the New Brunswick Hockey League. There is no reason that Newcastle, which is in the centre of the North Shore district should not be represented in this league. There is good material in Newcastle for at least two or three good teams, which with some assistance this year, would be in a position to represent Newcastle in a satisfactory manner in the N. B. Hockey League next year.

Arrangements can be made with the Rink management on a satisfactory basis if those desirous of playing the game as well as the general public will show an interest in the sport.

Not enough interest along clean outdoor sports, such as Hockey etc. is manifested by our young local men. There must be a reason for this and it looks very much as if some other attraction is responsible for this condition of affairs. This should not be and it is sincerely hoped that the general public will interest themselves, and by so doing, enable our young men to devote their leisure hours to a clean, healthy recreation.

On Wednesday evening December 8th, a meeting of those interested in Hockey, whether players or not, will be held in the Rink at 7.30 p. m. and every one is cordially invited to attend and assist in the formation of a Hockey Club for Newcastle.

## FATAL ACCIDENT IN GLOU. COUNTY

Two men killed and a third seriously injured and perhaps dying is the toll of an auto mishap near Pokesshaw, Gloucester county Wednesday night.

The killed are two residents of Grand Anse, Messrs. Pineau and Albert, and the third man is Mr. Terriau, also of Grand Anse, the owner and driver of the auto at the time of the accident. The three had been in to Lathurst and were returning home, reaching the bridge at Pokesshaw about 9.30 or ten o'clock. The car skidded on the bridge and smashed its way through the railing and plunged to the ice and rocks below, a distance of thirty feet.

Pineau and Albert were killed almost instantly and Terriau was pinned under the car and was helpless.

Fortunately a man passed over the bridge shortly after and noticed that the rail had been lately torn away. He notified a resident at the end of the bridge and the latter got a lantern and investigated. Securing help he had the car lifted and the injured man conveyed to the house, and the bodies of the two men were conveyed to their homes in Grand Anse.

## OBITUARY

MRS. MARGARET KELLY

The death occurred at her home in North, on Wednesday last, of Mrs. Margaret Kelly, wife of Mr. Michael Kelly, aged 59 years. Deceased has been ill for some time. She is survived by her husband, and one sister, Mrs. Thomas Sullivan of Lathurst. The funeral took place on Saturday afternoon at St. Mary's Church, Newcastle, where services were conducted by Rev. P. W. Dixon, and interment was made in St. Mary's cemetery.

MRS. JOSEPH COMFORT

The death of Mrs. Joseph Comfort occurred at her home on Sunday morning Dec. 5th 1920, at 6 o'clock. Deceased was before her marriage Miss Sadie MacGowan, and was a resident of Newcastle. Besides her husband, she leaves to mourn her mother and three children, Gertrude, George and Owen.

Deceased was 25 years of age. The funeral will be held Tuesday at 2 o'clock p. m. Interment in St. Mary's Cemetery.

SCHOOL BOARD MEETING

The Board of School Trustees regular monthly meeting was held last evening at 8 o'clock.

## A COMMERCIAL CLUB FORMED AT NEWCASTLE

At a meeting of Newcastle business and professional men on Wednesday evening in the Miramichi Hotel a Commercial Club was organized with membership open to the whole of the county of Northumberland.

The by-laws and constitution of the new club were adopted and the following officers elected:

President, C. G. Coudet  
Vice-Pres., L. D. Murray  
Secretary, A. H. Cole  
Treasurer, Geo. M. Lake

Executive, Chas. J. Morrissey, Chairman, W. L. Durick, G. G. Stothart, H. R. Moody, A. G. Putnam and officers.

The object of the club is to promote and encourage everything of service to the community and to help by means of co-operation.

One of the first enterprises of the new club will be to tender a supper to Mr. L. S. Brown of the C. N. R. who has been promoted from the Moncton office to the Montreal office of the railway as Asst. Gen. Manager of the Eastern Division.

## NEWCASTLE TO HEAR FAMOUS ORATOR

In presenting Mr. Walter McRaye to the Canadian public, the management point back with satisfaction to his long and honorable career on the platform, where he has always stood for the highest and best in Entertainment. In company with the late Canadian Poetess, Miss Pauline Johnson, he toured Canada, England and the United States, making a specialty of the works of our own beloved Poet of the Habitant, Dr. Drummond. At the coming of the War, Mr. McRaye left the platform and took his place in the ranks of the C. E. F. where he served over three years, and was present at many of the great battles of the War. Today he returns to the stage in a new role, as an orator and public speaker, a Canadian with a Message to Canadians; a man with a deeper insight, a broader vision, and a keen consciousness of the things that are vital. He now teaches the things he fought for, and in his addresses he points out the responsibilities resting upon Canada, a new Nation created by the War.

He is a man of ideas and ideals. His eloquent and constructive criticism of Government, Capital, Labor, and the problems that confront our Country give him the outstanding speaker of last Summer's Western Chautauqua, in company with Mrs. Pankhurst, the English Reformer.

Mr. McRaye has all the fire of the born orator and without kid gloves speaks with a punch, firmly believing his own convictions and advocating a better and higher Canadianism and citizenship.

Mr. McRaye has just returned from the Pacific Coast in company with (Col.) Campa Scott, D. S. O., C. M. G., the fighting Padre of the 1st Canadian Div.

Mr. McRaye will lecture in St. James' Hall Friday Evening Dec. 11th under the auspices of the B. Y. P. U.

## Newman Clark to be Hanged March 1st

Andover, N. B., Dec 4—Guilty, with a recommendation for mercy, was the verdict returned on Friday a ternoon, by the jury who heard the evidence in the case against Newman Clark, of Four Falls, charged with the murder of Phoebe Bell, on March 23th, at Grand Falls.

This morning Mr. Justice Chandler sentenced the prisoner to be hanged on March 1st.

Clark received the death sentence with almost the same indifference that has characterized his deportment throughout his trial. He leaned upon a table while standing for sentence, and after it had been pronounced turned partly towards where some friends were sitting, and a grin made broke over his face.

An appeal for commutation of his sentence will be made to the Governor General.

You can't raise the way—all roads lead to Follansbee's

### Fast Hockey Promised This Winter

After last year's defeats, Mount Allison looked for a strong "come-back" thus lifting up to an excellent hockey record. Was hard "hit" by eligibility rules. Other colleges claim to have an excess of material this year.

That Collegiate Hockey in the Maritime Provinces is amount as fast as any played, if not faster, goes without saying. Last year, Dalhousie's crack team defeated the Amherst Ramblers, one of the very fastest teams playing amateur hockey in the Maritimes. At the play-off in Moncton between Acadia and U. N. B. a very fine exhibition of the winter pastime was also played. Acadia the winner of this game was defeated in the play-off with St. F. X. for the Maritime Intercollegiate title. St. F. X. must then have been playing fast hockey indeed.

Mount Allison won the respect of all-sporting enthusiasts by the splendid long game she played last year. She was especially hard "hit" by the intercollegiate eligibility rules which forbid students who have not reached a certain standard in their work to take part in. Intercollegiate Athletics. This was indeed unfortunate for Mt. A., for she had in the University residence, a team, which, if allowed to play, would undoubtedly have been a most formidable contender for the big title. This fact was evidenced when she played this team in an exhibition game with Acadia, winners of the Western Section. Although the Mt. A. lads had had no practice in team-work, they easily tied the score. Last year was the first time in ten years that a Mount Allison hockey team did not succeed in defeating a team from Acadia. Conditions, however, are brighter in the Sackville College this year and

the outcome of the Christmas Exams will tell a big tale. Mt. A. is known to possess some "wonder men" on her line-up, and she is being watched with anxiety by the other Maritime Colleges.

Rep. r.s from Acadia, Kings, St. F. X. and U. N. B. say that these Colleges all have an excess of hockey material and it would be most difficult to judge their respective strengths until they have actually met on the ice. Dalhousie has almost signified her intention to withdraw from the Inter-collegiate field this winter, claiming that the Eligibility rules in respect to graduates will not permit her to play a representative team. At all events, intercollegiate hockey in the Maritimes will go forward with a rush this winter, and the outcome will be watched with keen interest.

### Catching Colds

There is a common impression that colds knock people out. As a matter of fact, according to the New York commissioner of health, it is being knocked out that brings on the colds. Healthy people don't catch cold—or if they do, they throw it off without any trouble.

If you catch cold, says this authority, it is probably for one or more of the following reasons:

- You have overworked, and are tired out;
- You have abused your stomach;
- You have been unusually worried;
- You have been too much indoors, without sufficient ventilation;
- You have not been regular in your habits;
- You have not had the proper amount of sunshine and exercise.

When you succumb, that makes matters worse, and you are left with still lower resistance. Then it will be just your luck to catch another

cold. Some people have one cold after another, all winter, every winter. Germs? Of course. There are germs everywhere. In the air you breathe, say physicians, in the food you eat, on the street-car straps you cling to, on the shop counter you touch, on the money you handle, on the chair you sit in, there are likely to be disease germs of many kinds, some of them deadly—if they "take."

The blessed thing about it is that these enemies have trouble getting a toehold in the system of a normally healthy person. There was this much in the old theory that babies could "thrive on dirt." Though the dirt was full of dangerous germs, the babies were able to resist because they were getting the fundamentals of a healthful life—fresh air, sunshine, etc. Grown people can do the same, and thus laugh at the varied family of cold germs and all other forms of "dirt."

### Will Vanderbeck Support Gov't?

NEWCASTLE, Dec. 1.—That Premier Foster will have a majority of at least two in the legislature seems very likely. John W. Vanderbeck, M. L. A. elect for this county, while not making a definite statement, hinted to your correspondent while in Newcastle yesterday that there were only a few slight differences of opinion between the government policy and his views in regard to affairs in Northumberland county, and it is very likely that these will be satisfactorily arranged. Mr. Vanderbeck has always been a Liberal, and is president of the Northumberland Liberal Association, so few of his friends can find fault with him if he supports the Liberal administration which is now in power.—Globe.

### Consumption Cure

Remarkable Discoveries By A Swiss Scientist

A Swiss scientist, who had been in investigating the cause and cure of consumption for some years past, has now returned to this country, bringing with him what is described as a virtual cure for tuberculosis in all its forms. Some time ago he announced the discovery of a serum that would destroy or diminish the virulence of the tiny tubercular bacillus, which envelopes itself in a hard sheath with nasty points. We all own some of these creatures, but, as a general rule, they lie quiet. If, however, they get excited, they commence unpleasant business and cut little holes in the lungs and other parts of the body. Formerly it was believed that the consumptive troubles were due to the e, but it has been discovered that they merely lay the foundation for other troubles as the porous state of the lungs lets in all kinds of poisons, which produce the terrible symptoms, attendant upon tuberculosis, heavy night sweats, etc. After years of labor a sort of combination serum has been produced which will enable the body to resist not only the attacks of these tubercular bacilli, but also those of the poisons for which they open the door. The scientist has obtained these results by inoculating cattle, mice, and other animals, and when he first came to England in 1912 he injected several patients with his original preparation. His friends say that these patients are still going strong, although they did not have the benefit of his later researches.

It is interesting to remember that diphtheria was first cured by means of a serum taken from a horse which had been inoculated with the disease. For years one old horse supplied the who's of the serum required for the United Kingdom, and was the means of saving thousands of lives. He lived to a great age and was pensioned off. Apparently he was none the worse for being injected with diphtheria germs. Very few fathers and mothers who saw their little children speedily relieved by the doctors from the horrible symptoms of diphtheria knew they owed the cure to this old geezer.

### USE "DIAMOND DYES"

Dye right! Don't risk your material. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods. **VII.—CHAMBER MUSIC**

The term "Chamber Music" may be said to be any music suitable to be performed privately, in a room or small concert hall, orchestra music or opera.

Chamber music includes many varieties of compositions. It is one of the branches of music which is at all most vigorously alive, consisting mainly of such combinations and varieties as solos, duets, trios, quartets of strings and wind instruments, also songs, glees, piano or solo and duets.

The earliest instrumental Chamber music of which anything certain is known, was that composed for the set of viol's by such composers as Dowland, born 1562, who was a famous lute player of London, England. Dowland composed music for the six instruments comprising the Chest of Viola.

John Jenkins is said to be the first musician who specialized in instrumental compositions. He wrote fanciful little pieces of the Chamber music class for viols and the organ.

Chamber concerts are still very much in vogue. The Chamber band consists of musicians who play only Chamber music adapted for such performances as given in private or small halls.

The modern compositions of the Chamber music class from the duet to the octette, are usually written in sonata form for several instruments in concert with this added distinction that each instrument will play an individual part, not a mere part to complete the harmony.

Chamber music originated during the middle ages to add to the pleasure and entertainment of the banquets; but not until the violin became a prominent instrument did Chamber music take a definite form.

One of the first to compose Chamber music in a definite form was

**HELPLESS WITH RHEUMATISM**

**Until He Took "Fruit-a-tives" The Fruit Medicine**

R. R. No. 1, LORNE, Ont.

"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit.

Finally, I tried "Fruit-a-tives". Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

ALEXANDER MUNRO.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Sammartini, born 1705 (Milan). He produced over a thousand works among which was much Chamber music. He is known also as the teacher of Gluck and was the predecessor of Haydn in the department of this class of music.

Haydn's mother had set her heart on making him a priest, but through the persuasion of his father and others interested, overcame her objections. Haydn's life, as many another of our great musicians, was a life of up and down. When he was eight years of age Reutter of St. Stephen's Cathedral, Vienna, who was searching for boy singers, was so pleased with Haydn's voice and ability that he at once took him to Vienna. At seventeen Haydn found himself on the street, no home, no money, and in shabbiest of clothes. A friend took him in until he could rent his own attic.

Haydn's great aim in life was to become a really great musician. A publisher, living in the same town loaned him some volumes of music, these Haydn read and re-read, also copied and analyzed them all and at twenty-three years of age his great opportunity came. Earl Bon Furburg invited Haydn to his country house. Haydn found there the usual country house orchestra, consisting of a few strings, a couple of horns and oboes. Haydn saw his opportunity and made use of it, and applied his knowledge to the miniature orchestra. For this organization he wrote his great string quartets, and other important Chamber music. From this time on Haydn was able to compose his music without interruption.

Haydn started life as the son of a poor peasant and for years struggled against poverty and won, becoming a rich man and devoted himself to his work.

Father or Papa Haydn as he was affectionately addressed by younger contemporaries, was the father of the sonata form and of modern instrumental music and musical humor, but he was most happy in his compositions for quartettes and Chamber music.

**The Sea Cow**

The sea cow is not a cow at all, but only a distant cousin of the whale, that lives in the waters around the coast of Florida and in the warm waters of parts of the world. He is one of the strangest creatures in the world today. He gets his name sea cow, from his manner of grazing in herds on the grass on the bottom of lakes and ponds. As far as anybody knows, he lives entirely on vegetables, as his teeth are like those of a cow and are fitted only for biting and chewing grass. His general shape is that of a fish; but he is not a fish, as he cannot stay all the time under water, but must come up every little while to breathe. He has no scales, like most fish, but his body is covered with a thick, leathery hide that does not fit him and wrinkles terribly. His eyes are small and set deep in his head and have no more expression than a couple of sleeve buttons. His upper lip is what is known as a cleft lip—this is, it is split in two, like a rabbit's, and hangs down on each side like a pocket. Right where his neck should be are two flippers that remind one of a pair of rubber mittens. These are his paddles for swimming, and he also uses them as hands in pulling grass and stuffing it in his mouth. His body ends in a broad, whale-like tail that does not stand edge-wise in the water, but lies out flat. He is not pretty; but he seems to have a very easy time, with nothing to do but float around in the tepid water, eat awhile, and then go to sleep. He is one of the laziest-looking animals you ever saw, and when he moves at all it appears to take every ounce of strength that he has. He is one of those big, fat, good-natured beings that never get in a hurry, and he never shows anything to irritate his temper. He has all the time about him plenty to eat, and never has to paddle around in; so he ought to be contented and happy. As he takes so little exercise and eats so constantly, it is

**New Ministers For N.B. Appointed**

Hon. J. E. Hetherington M. P. P. of Cuddy's Queen's County has been appointed Provincial Secretary-Treasurer in Premier Foster's government and D. W. Mersereau, M. P. P. of Fredericton Junction, Sunbury County has been appointed Minister of Agriculture. Both the ministers were sworn into office by His Honor the Lieut. Governor on Friday (both having accepted office. Neither was in Fredericton when the appointment was announced.

Premier Foster said that he had no announcement to make at the present time concerning the date of the bye-elections made necessary by the appointment of the two new ministers.

**Defeated Ministers to Resign**

Hon. J. F. Tweedale of Arthurette, Victoria County who is succeeded by Mr. Mersereau and Hon. Robert Murray of Chatham, Northumberland County, who is succeeded by Hon. Dr. Hetherington, tendered their resignations to His Honor the Lieut. Governor on Friday.

**In Front-Rank**

Cod-liver oil stands first on the list of fats, in the ease with which it is assimilated. This explains why

**SCOTT'S EMULSION**

of super-refined medicinal cod-liver oil is so helpful to those of any age who are run-down in body.

Scott & Bowne, Toronto, Ont. 20-68

no wonder that he sometimes grows to be fifteen feet long and weighs several hundred pounds. His favorite home is said to be the Indian River, in Florida, where he gathers in regular herds and where he may at times be seen contentedly browsing on the tender grass that leans over the water from the banks. He cannot stand cold, and the least drop in the temperature will send him paddling away to the deep, still pools where the water is warmer. Sea cows have but one baby a year; and the little creature follows its mother wherever she goes, just as a real calf would do, until it is nearly as large as its parent.

**Bake with BEAVER FLOUR**

OBTAIN bread with that delicious home-made flavor—pies, cakes and pastry with tender, delicate, flaky crusts.

Beaver Flour is made from the finest of selected Ontario Winter Wheat combined with enough Western Hard Wheat to give it strength.

Beaver Flour is the original blended flour—and blended flour is recognized by all qualified experts to be the best flour for general baking purposes.

**VICTORIA AND VANCOUVER ISLAND WHERE GRASS IS ALWAYS GREEN AND GOLFERS PLAY AT CHRISTMAS**

"THE LION" from VANCOUVER

FROM VANCOUVER TO VICTORIA

Vancouver Island folk pick roses in the garden when the Christmas bells are ringing, and the golfer is never off his game, so far as being able to play is concerned, because there he can drive, approach the green and putt almost every day in the year. In the fall and during the winter the grass is rich and green, and bloom is perpetual. This is due to the warming influence of the Japan current, which is the Gulf Stream of the Pacific Ocean. Vancouver Island was named after Captain George Vancouver, of the British Navy, who discovered it in 1792, and has an estimated area of 25,000 square miles. Its towns, among them the stately Douglas fir, which towers 800 feet above the road, over which the traveler glides by automobile or by the Canadian Pacific Railway, which runs northwest through the length of the island, are magnificent beyond description, none of them being 2 or 3 feet in diameter. Along

THE EMPRESS VICTORIA

the road are many comfortable hotels and country chalets, many of them like the Inns and Inns on English country roads. Victoria, the capital of British Columbia, is a city of 70,000 people with its beautiful drives, its fine harbor, its Chinese quarter, its 100 lakes, its 100 miles of beach, and its beautiful Capitol building. Every year at least 5000 American golfers visit golf courses in Victoria. The Victoria Golf Club houses and

dozens of automobiles leave Seattle usually for Victoria and Vancouver. There is splendid inland and deep fishing in and on the coast of Vancouver Island, and the ambitious fisherman who really wanted to get on the west coast, would go to the Pacific and catch a real whale for breakfast. Needless to say, he did not have it served on toast.

### Maine Lumbermen Cut Wages

Bangor, Me., Dec. 3.—A new scale of prices to be paid for labor in the Maine woods by the lumber companies and pulp wood men went into effect Wednesday by agreement among the leading men and concerns in the business in Bangor and throughout this section. A cut was made a few days ago in Aroostock county in common labor in the woods from \$90 to \$52 a month. Many provincialists are affected.

The wages now offered for woodsmen will be \$2.50 per day and board when day work is carried on and \$3.50 per cord for cutting pulp wood. The previous scale has been \$3 and \$3.50 per day and \$4 per cord for pulp wood.

### WEDDINGS

#### GOUGH—CONNORS

The marriage of Clarence Arthur Gough of Newcastle, formerly of Faversham, England, and Mrs. Lillian Connors of Newcastle, formerly of Kidderminster, England, was solemnized last Wednesday afternoon at 4 o'clock in St. Andrew's Church. The ceremony was performed by the Rector, Rev. W. J. Bate.

#### MAJOR—PALMER

The marriage of Miss Julia Palmer, daughter of Mr. and Mrs. James Palmer, of Chelmsford, and Mr. Francis Major of Newcastle was solemnized at St. Bridget's Church, Renous, on Tuesday, November 24th. Rev. Father Cyr, officiating. The bride, who wore a travelling suit of navy blue with picture hat, was attended by Miss Celia Grenna, Mr. Chas. McGowan, of Newcastle was best man. After the ceremony a dainty wedding breakfast was served at the home of the bride. Mr. and Mrs. Major will reside in Newcastle.

#### CROCKER—COPP

The marriage of Robert Russell Crocker, son of Mr. and Mrs. Andrew Crocker and Miss Margaret Laura Copp, second daughter of Mr. and Mrs. W. M. Copp took place last Thursday morning, Dec. 2nd at 11 o'clock in St. Andrew's Rectory. The Rev. W. J. Bate performed the ceremony.

The bride was given away by her father and looked very attractive in a dress of Copenhagen blue with hat to match. She was attended by her sister Miss Mary F. Copp. The bride was the recipient of many beautiful presents.

Mr. and Mrs. Crocker left on a wedding trip to Amherst and Halifax and on their return will reside in Newcastle.

#### ENGAGEMENT ANNOUNCED

Mr. and Mrs. H. W. Jeffers, of Belmont, Mass. have announced the engagement of their daughter, Madeline, to Douglas W. Copeland, of Jamaica Plain. Miss Jeffers is a graduate of Tufts College, a member of the Alpha Omicron Pi fraternity, and of the College Club on Commonwealth Avenue, Boston, where on Thanksgiving Eve a dinner in honor of the engagement was given. Mr. Copeland, son of Mr. and Mrs. David Copeland and a grandson of the late Gavin Copeland of Newcastle, was born in Melrose, and was a member of the 1914 Class, Melrose High School. He is a member of the Upsilon Delta fraternity of Malden, and during the World War served two years in the navy aboard a submarine chaser. He is connected with the Boston office of the Scovill Manufacturing Company of Waterbury, Conn.

#### RAIN AFTER COLD SPELL

Following the cold spell, a heavy rain storm set in last Wednesday night and continued until Thursday night. A strong wind accompanied the storm and the streets have been left a sheet of ice.

#### SURPRISE PARTY

On Thursday evening last a number of friends of Miss Maude Atkinson, daughter of Mr. and Mrs. H. D. Atkinson, gathered at her home and tendered her with a surprise party. A most enjoyable evening was spent by all.

### At The Happy Hour Wednesday

"The Right of Way" in motion picture form, an adaptation of the famous novel by Sir Gilbert Parker, in which Screen Classics, Inc., present the magnetic and satirical star, Bert Lytell, will be shown at the Happy Hour Theatre, beginning Wednesday.

As those who have read the book—and it is estimated by Harper & Bros. the publisher—that they number well into six figures—will recall this as a stirring, picturesque and unusual story of Canadian life in Montreal and again on the fringe of the north woods. The action revolves chiefly about the character of Charley Steele, called for his dash and manner by his friends and enemies, both of which were numerous, "Beauty" Steele. The famous courtroom scene in which, after clearing a man of the charge of murder, Steele snags at him, "Out of my sight—you're as guilty as hell!" opens the drama; and this same striking unexpectedness—this suddenness and almost stunning surprise—is repeated in the various incidents which go to make up the novel which won for Gilbert Parker the title Sir Gilbert Parker.

The production has been done with all the finish characteristic of Screen Classics Inc. pictures, which are distributed exclusively by Metro. Under the personal supervision of Maxwell Karger, Director General, the piece was staged by Jack Dillon from the scenario by June Mathias. Robert Kurrie has achieved extraordinary photographic effects, and the supporting cast, including Beatrice Joy, Carmen Phillips, Gibson Gowland, Virginia Caldwell, Antrim Short, Henry Harmon, Frank Currier and Larry Steers, is exceptionally capable.

"The Right of Way" promises to be one of the real seasons of the season.

#### TO INCREASE ADVERTISING

The wise business man is not going to cut his advertising appropriation for 1921, but is going to increase it. The advertisers all over the country, according to a report made at the convention of the American Association of Advertising Agencies in session in Chicago. The association comprises 132 agency members, and the members place an annual volume of advertising in excess of \$200,000,000. "Increased advertising is necessary to keep up the volume of business which is essential to American prosperity," one official of the association said. "Advertisers realize that they must spend more money for advertising now that the demand growing out of the war is beginning to subside, and that is just what the advertisers all over the country are preparing to do." The advertising agency members say that the general business outlook is excellent and that the temporary depression which is now being felt in some lines should merely be taken as an indication of need for the stimulation of good advertising.

### PILES

Do not suffer another day with itching, bleeding, protruding Piles. No surgical operation required.

Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 50c a box; all dealers, or Edmanston, Bates & Co., Limited, Toronto. Sample 10c free if you mention this paper and enclose 2c stamp to pay postage.

### COMBINATION CREAM

### A Wondrous Beauty Cream

YOU will love the fragrance first. Then the velvet smoothness, the delicate creaminess, of this marvelous beauty cream. It fairly melts into the skin—without a trace of grease, or the clogging of a single pore. Anemic tissues speedily drink it in, becoming smooth and soft, pliable under Combination Cream Jontee. A perfect base for powder. Take home a jar today.

**CHURCH NOTES**

Rev. Dr. E. B. Wylie, of St. Andrew's church Chatham (N. B.), has been granted the degree of Bachelor of Laws by La Salle Law School in Chicago after four years study.

Rev. John Harris, of Saddy, Tennessee, U. S. A., for four years previous to 1918 minister of St. John's church, Chatham (N. B.), has been for some time gathering material for a volume to be published at an early date, "Outlines of Presbyterianism within the bounds of the Presbytery of Miramichi from 1788 to 1918."

Rev. James F. McCurdy, who resigned the pastoral charge of Redbank congregation in the Presbytery of Miramichi in May 1919, to accept appointment by the same presbytery as ordained missionary in New Carlisle (P. U.), has recently received a hearty and unanimous call to the permanent pastorate of the latter congregation. The call will be considered at the December meeting of presbytery.

There is being established a circulating library for the ministers of the maritime synod in connection with the Halifax College. Plans are being worked out by the members of the faculty and representation. It is proposed to form a sub-library for each presbytery to be under the care of the alumni representative in the presbytery, who will be responsible for the exchanging of books. Rev. A. V. Morash, of Sussex, is alumni representative in the presbytery of St. John and Rev. L. H. McLean in the presbytery of Miramichi.

**Farmers And Labor's Wants Are Many**

Moncton, N. B., Nov. 30—A meeting of United Farmers and Labor M. P. P.'s elect along with Farmer officials and independent Labor party representatives was held in the United Farmers office here today with forenoon and afternoon sessions. A. Chas. Fawcett, the Farmer leader presided and among those present was the Miramichi Labor leader, John S. Martin.

Three sets of resolutions were considered. The first was tentative Farmer's programme, submitted by Messrs. Fawcett and G. B. Archibald, appointed committee for that purpose at the meeting held on Nov. 17. The second was from the Sons of Temperance Grand and District Divisions, submitted by H. H. Stuart, of Sunny Brae, N. B., and the third was a series of proposed plans for a Farmer-Labor coalition, preferred by the Westmorland County Independent Labor party and submitted by H. H. Stuart, secretary-treasurer of that body.

**The Temperance Resolutions**  
The temperance resolutions asked for cordial support of the provincial chief inspector's work, for government ownership and operation of the traffic in alcoholic and alcoholic compounds in alcohol and alcoholic compounds, but not yet brought into effect, and for the earliest possible taking of the vote on prohibition. Importation of intoxicants for beverage purposes, through any but government channels.

**What Farmers Want**  
The Farmers' committee's report was, after thorough discussion by both Farmer and Labor men and slight amendments here and there unanimously approved. It declares for first pure elections and a uniform ballot for all elections provided at public expense; abolition of patronage; for good roads, both trunk and local; that the manufacture, importation and sale of intoxicating liquors in New Brunswick be entirely abolished, subject to provision being made for a plebiscite to be held preferably at the time of any provincial election; telephone system to be made available to all on equal terms for the same kind of service; provincial system of crop and agricultural statistics; Maritime Provinces abattoir to develop live stock industry; a better school system with special attention to vocational and agricultural instruction; through conservation of forests with up-to-date stumpage regulations; a forward hydro-electric policy; a system of co-operative credits to assist the farmer.

The Independent Labor party proposals numbered thirteen, as follows: Amendment of Workmen's Compensation so to place all classes of wage-earners under its operation, approved; public ownership, operation and control of proposed hydro-electric plants, approved; equality of women with men as to voting and holding of office in school districts and municipalities, approved; pensions to mothers with dependent children, approved; ballot in all elections to be uniform with dominion ballot, approved; no alienation of crown land to any private parties other than bona fide settlers, approved; a uniform valuation and assessment of whole province under provincial auspices, approved;

the whole province to be collectively taxed for school purposes; school districts to be enlarged, and teachers pension act to be greatly improved, approved.  
Proportional representation, abolition of property qualifications in municipalities, abolition of election deposits special taxes on land purposely held idle, and land to be taxed at higher rate than improvements thereon; important acts of legislature re law and finance on which legislature has no mandate from people to be submitted to referendum, were all referred.  
All of the above, whether approved or merely referred, are to be submitted to the Farmers and Labor locals for final approval before the Farmers' Provincial annual meeting.  
The I. L. P. recommendation number two, a maximum eight hour day in all mills and factories and on all provincial government work, was also sympathetically considered.

**J.B. Hawthorne Is Appointed Chief Insp.**

Hon. W. E. Foster Premier of New Brunswick announced Thursday that John B. Hawthorne, High Sheriff of York County and a resident of Fredericton, has been appointed Chief Inspector under the Prohibition Act for this province. The appointment goes into effect forthwith. Chief Inspector Hawthorne will retain his appointment as Sheriff of York County and will perform the duties of both offices.

**Not Unexpected**  
The appointment of Sheriff Hawthorne is not unexpected as rumor for some days had connected his name with the office made vacant by the resignation of Rev. W. D. Wilson which went into effect November 30th. His name was vacant one day.

**Long Official Record**  
Chief Inspector Hawthorne has a long record as an official connected with law enforcement. He was appointed deputy sheriff of York County in 1883 and held that office for twenty-five years. He was Chief of Police of Fredericton for two years and later Chief Police Officer for the Canadian Pacific Railway Company at McAdam. In 1917 he was appointed High Sheriff of York County. Chief Inspector Hawthorne's appointment is extremely popular. The appointee is well known throughout the province and should prove an excellent official.

**"But I Am Not Nervous, Doctor, See How Strong I Am"**

"YES, you are strong, all right, and I find after a careful examination that there is no indication of organic disease."

"Then what does seem to be the trouble?"

"It is your nerves, the internal nerves which control the action of the vital organs such as the heart, the stomach, the liver, the kidneys, etc. This is called the sympathetic nervous system. It is not at all uncommon for strong, healthy-looking people to suffer from this form of nervous trouble."

"I never thought I was nervous."

"How do you act in the dentist's chair?"

"Well, I generally keel over in a faint."

"That is just it. Your sympathetic nervous system is affected by the thought that you are going to be hurt. Your digestive troubles are due to the run-down condition of your nerves."

"I never thought of that."

"No, and not many people realize the all-important part played by the nerves in the digestion of the food and the functioning of the vital organs. The flow of the digestive fluids in the stomach, the filtering of bile from the blood by the liver,

the purifying of the blood by the kidneys—all these functions and many more are controlled by the sympathetic nervous system. Consequently when the nervous energy runs low all these processes are slowed up and you suffer accordingly.

"While examination shows that there is no organic disease, the action of these organs is weak because of the exhausted condition of the nerves. You need a good nerve tonic."

"What about Dr. Chase's Nerve Food?"

"There is nothing better that I know of. I find evidence everywhere I go of the exceptional restorative power of this popular treatment. But do not expect to get well in a day. It takes time to bring back strength and vigor to an exhausted nervous system."

"How long will I need to use the Nerve Food?"

"That is hard to say. Perhaps two or three months. But you will soon feel the benefit of this treatment and then keep right on using it until you are fully restored."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto. Look for portrait and signature of A. W. Chase, M.D., on the box you buy.

Sunny Corner, Nov. 29—Misses Ida Mullin and Verna Hare, Newcastle, spent Sunday with the former's mother here.

Mrs. Johnston and daughter, Mary

E. of Sillikers are visiting relatives at the corner.

Misses Sadie Tozer and Helen McLean also Master G. Leach are on the sick list but with Dr. Bell and Dr. McGrath in attendance we hope for speedy recovery.

Mrs. Belle Matchett has gone to Boon Road for a while.

Miss K. O'Shea was the guest of Mrs. Thomas O'Shea here.

A large number of folks attended the ten cent tea in Red Bank on Thursday afternoon and report an extra good time.

### Drop in Price Of Spruce Lumber In Ottawa Market

Ottawa Nov. 23—A drop of five cents per thousand feet in the price of spruce lumber has been made in the Ottawa lumber market, according to an announcement yesterday. The reason for the drop, it is said, is due largely to the inactive clearing which has been going on in the spruce market for the past several weeks.

The price of all grades of pine are reported to be holding about the same, though there is at the present time very little trading going on in any of the lumber stocks. Dealers who have been deserting the market as being dead, and attributed its cause chiefly to the storming of the presidential elections in the United States and the slackening of the demand from public buyers.

### Improving the Bee

and cultivated plant has been improved by selective breeding. With bees, however, not much progress has been made because of the great difficulty in isolating them. They make in the air at some distance from the hive and it is known that the drone bee will fly for miles in search of the queen bee.

It might be thought that the busy bee could hardly be improved, but Canada contains varieties of solitary bees whose tireless industry make the honey bee appear dilatory in comparison. Besides, we know that great improvements await the bee breeder because some colonies store much more honey and are less inclined to swarm than others. Any beekeeper would give much to have his apiary composed of such superior bees.

The Experimental Farms Branch of the Dominion Government has for some time been conducting experiments to overcome the difficulty of the isolated mating of bees. The first attempt was made on a large sandy plain near Laubazus about forty miles north of Ottawa at a spot where colonies of bees could be found within three miles; but the young bees produced were dark coloured, showing that the queens had even mated by the local drones. Attempts were then made to mate the queens late in the day when the undesirable drones had ceased flying and also late in the season when these drones had died. The results gave valuable information but they did not solve the problem.

Not a part of the north country that bees have not yet reached was tried, the Experimental Farm at Kapuskasing in northern Ontario being selected, but here the little colonies were made restless by the great and sudden changes in temperature, and swarmed out when the queens flew.

In 1919, experiments were started on Duck Island which is situated on the eastern end of Lake Ontario, and is eight miles from the nearest island and over eleven miles from the mainland. Duck Island covers only about two square miles and no bees exist upon it. The Duck Island experiments were continued in 1920 and have proven successful, twenty-seven Italian queens of selected parentage having been mated by the drones that were brought with them.

By continuing the work it is hoped to develop a strain of Italian bees that will be heavy honey producers and distinguished for swarms. Meanwhile, plans are advanced to distribute to Canadian beekeepers a limited number of daughters of the best of the queens mated on Duck Island, and a system has been worked out by which a beekeeper will be able to mate a proportion of the queens he sets with drones of the same strain.

### L. S. Brown Goes To Montreal

Several changes are made in the staff of the Canadian National Railway and Grand Trunk Pacific Railway, by a circular issued by the President, D. B. Hanna, under date of December 1st.

R. C. Vaughan, Toronto, is appointed vice-president in charge of purchases, supplies and stores, with jurisdiction to extend to the affiliated and subsidiary companies of the railways.

F. P. Brady, general manager of Eastern Lines, at Montreal, is appointed assistant to the executive with offices at Toronto.

W. A. Kingsland, assistant general manager of Eastern Lines, at Montreal, succeeds Mr. Brady as general manager of Eastern Lines, with offices at Montreal.

L. S. Brown, general superintendent of the Maritime District at Moncton, N. B., succeeds Mr. Kingsland as assistant general manager of Eastern Lines with offices at Montreal.

#### Changes at Moncton

J. C. O'Connell, superintendent of Winnipeg succeeds Mr. Brown as general superintendent of the Maritime Division at Moncton, N. B.

W. H. Devenish, superintendent of the Moncton Division at Moncton, N. B., is appointed general superintendent of the Ontario District, with offices at Toronto.

A. C. Barker, superintendent of telegraphs at Moncton, N. B., succeeds Mr. Devenish as superintendent of the Moncton Division, with offices at Moncton.

W. N. Rippey, superintendent of car service at Moncton, N. B., is appointed superintendent of transportation, Maritime Division with offices at Moncton.

A. P. Gorbell, car accountant at Moncton, N. B., succeeds Mr. Rippey as superintendent of car service, with jurisdiction over all lines south and east of the St. Lawrence River, with offices at Moncton.

J. D. McNitt is appointed assistant superintendent at Truro.

#### RIVER FROZEN

The river opposite Newcastle was frozen on Monday morning after Sunday night's keen frost.

## Colds & Common Sense

You have a cold, or your child has a cold; a cough; a tight feeling across the chest; a soreness in the breathing tubes.

In the past how have you treated such? You have bought some cough mixture, and swallowed this down into your stomach. Now, why? Your stomach was not ailing; and there is no direct connection between your chest (where the trouble is) and your stomach! Then why swallow into your stomach any mixture when the trouble is in your lungs and bronchial tubes?

It's a mistake; and Peps is the remedy provided to correct this un-commonsense treatment. Peps are little tablets, which contain highly beneficial Fine essences, combined with other medicinal extracts. These healing extracts are so prepared that as soon as you put a Peps into your mouth they are liberated in the form of healing vapors. You breathe these vapors down to the throat and lungs, and thus treat the organs that are inflamed, direct. In a way, it is like breathing from a vaporizer or bronchitis kettle, except that there is no apparatus needed, the little Peps providing everything needful for the treatment! The very small portion of Peps which you swallow has a slightly tonic effect upon the stomach and does you good, but the use of Peps is not for stomach troubles, but for lung, throat and bronchial troubles. Peps relieve these as no ordinary treatment can.

Children like Peps and they are best for the little ones because Peps contain no morphine, laudanum or other poison found in so many of the old cough mixtures. Druggists and stores everywhere sell Peps 50c. box or from Peps Co., Toronto, for price. Remember the name—four letters only—

# Peps

### NEW ISSUE

\$200,000

## The Lounsbury Company, Limited.

### 8% Cumulative Participating Preferred Shares

Dividends payable quarterly on 1st January, April, July and October. Dividend cheques payable at par at any branch of the Bank of Nova Scotia in the Maritime Provinces.

Preferred as to both dividends and assets, callable as a whole or in part at the Company's option at 110 and accrued dividend on any dividend date, on thirty days' notice.

After the payment of 10 per cent. dividends on the common stock in any one year the Preferred shares participate equally with the common in any dividend or distribution of profits.

No bonds may be issued, nor mortgage nor lien given on the fixed assets without the consent of 75 per cent. of the Preferred shareholders.

#### CAPITALIZATION

	Authorized	Issued
Preferred Stock	\$250,000	\$200,000
Common Stock	500,000	250,000

#### SINKING FUND

Commencing on or before the 1st October, 1922, an annual Sinking Fund of not less than 5 per cent. of the largest amount of Preferred Stock, which has been at any one time outstanding, will be set aside to buy or call Preferred Shares at an amount not exceeding the redemption price. All shares so acquired will be cancelled.

Some particulars of the Company and security:

1. The Company was started originally in 1891, and is one of the largest dealers in the Maritime Provinces in farm machinery, furniture, and automobiles, having offices and stores at Moncton, Chatham, Newcastle, Bathurst, Campbellton and other points in New Brunswick. Proceeds of this issue will be used to finance the increased business of the Company.

2. The Company's business has grown steadily, as the following figures show:

	Sales	Net Earnings		Sales	Net Earnings
1910	178,700	20,718	1919	766,500	40,758
1915	264,200	23,784	x1920	900,000	
		x Nine Months (approximate)			

The net earnings mentioned above, are most conservative, as liberal allowance has been made for depreciation, taxes, etc. Net earnings for 1920, it is estimated, will amount to well over three times the dividend requirements on the Preferred Stock issued.

3. Real estate holdings of the Company are conservatively valued at well in excess of Preferred Stock issued.

4. After making full provision for depreciation, and all other contingencies and taking in the proceeds of this issue, net tangible, including liquid assets, will be in excess of \$600,000 or over three times the Preferred Stock issued.

Reserves and undivided profits on December 31st, 1919, amounted to \$179,973.94. \$125,000 of this amount is reserved for the payment of a dividend in the form of a common stock, thus assuring the Preferred Shareholders that this amount will not be distributed in cash dividends and strengthening the equity back of the Preferred Stock.

5. The Company agrees to maintain at all times, net liquid assets of not less than 100 per cent. of the Preferred Stock outstanding, and net tangible (including liquid) assets of at least 200 per cent. of the Preferred Stock outstanding.

6. No dividends will be paid on the Common Stock, unless all Preferred dividends have been paid and unless the Company has surplus undivided profits equal to at least two years' dividends on the Preferred Shares.

7. All the Common Stock represents actual paid up capital and is nearly all owned by the officials and employees of the Company. During the present year, \$50,000 par value of the Common Stock was sold at \$100 per share to shareholders of the Company.

8. The Company carry the following insurance: Buildings, Plant and Machinery \$166,600; on stock in trade, over \$400,000.

We purchased this stock after complete investigation and offer same at

**\$100 Per Share and Accrued Dividend, Yielding 8%**

and strongly recommend it as a thoroughly well secured investment.

Dividends exempt from Normal Income Tax.  
Special Circular on request.

**EASTERN SECURITIES COMPANY, LIMITED.**

## Advertising A Public Necessity.

WHEN goods are scarce and prices high, people are more appreciative than ever of the right kind of advertising.

They are seeking information. They want to know how to buy to the best advantage.

They want to know how to fill their needs and avoid waste. They welcome news of desirable substitutes for the things the country needs to conserve.

They read the newspapers carefully.

The dry goods merchant, grocer, jeweller, or manufacturer who does not advertise is not only missing the purely selfish opportunity, but he is failing in the service he owes to his customers.

# I SUFFERED FIVE YEARS

## Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont. — "For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little books and in the newspapers as a testimonial."

—Mrs. D. CASSADY, Box 461, Paris, Ont.

Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound!

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

# Hens In Contest Are Speeding Up

The two hundred odd pullets taking part in the egg laying contest at the Fredericton Experimental station appear to be speeding up. Last week, which was the third of the contest, an average of the twenty pens now producing, laid a total of 2.0 eggs, which is equal to the number laid during the first two weeks. A pen of White Wyandottes from the Experimental station is leading with a total of 56 eggs, and a pen of Barred Rocks from the same place is second with 51. The best showing for the week was made by a pen of Barred Rocks from the Inletta Farm of Oranoc to which produced 26 eggs. This farm has two pens of Barred Rocks in the contest and the second has 25 eggs to its credit. Two Barred Rock pullets one from the Experimental station and the other from the Inletta Farm, each laid the possible of seven eggs during the week.

The best showing for the week was made by the Inletta Farm pen which produced 26 eggs. Two pens from the Experimental station came next in order with 23 each. A pen of White Wyandottes belonging to Mrs. George Danby of North Devon laid 16 eggs during the week.

The standing of the highest pens in the contests at the close of last week was as follows:

Experimental Farm, Fton W. W.	56
Experimental Farm, Fton, B. R.	51
Inletta Farm, Oranoc to	50
H. W. Histon, Newcastle W. W.	48
Mrs. G. Danby, North Devon, W. W.	48
Mrs. P. Danby, North Devon, W. W.	37
B. E. Wilson, Centreville, B. R.	30
A. T. Reid, Rellingdam, B. R.	30
N. W. Eveleigh, Ssex, B. R.	27
Inletta Farm, Oranoc to, B. R.	26
C. M. Peart, Havelock, B. R.	25
R. A. Snowball, Chatham, W. L.	25

The pullets are all trapped, and one of the rules of the contest is that eggs found upon the floor are not given to the credit of any individual hen. This accounts for the totals sent by the contest manager falling to correspond with the numbers placed to the credit of each hen.

# PARTICULARS OF INDIAN TRAGEDY AT BURNT CHURCH

Newcastle, Nov. 26—Further particulars regarding the alleged stabbing at Burnt Church on Sunday evening have been received here.

According to the particulars received, it appears that John Dedam, in company with his brother Peter, went to visit an Indian named Martin, and while there Charles Mitchell came to visit a neighbor of Martin's named Ward.

Mitchell's wife went into Ward's and Mitchell called Martin out. Peter Deiam also came out and got into a scuffle with Charles Mitchell, but it was claimed later that they were only in fun.

While they were scuffling John Dedam, it is alleged, came out on Martin's and gave Charles Mitchell a bad beating, knocking him about and kicking him about the head. Mitchell managed to get clear of Dedam and went home, but on the way told his brother, Peter, that John Dedam had given him a bad beating.

After the rampus another Indian named Ghinsh claims to have met the two Dedams and says that they were intoxicated and that he took them home.

A short time after the two Dedams started to cross the Burnt Church bridge, according to Peter, to visit their aunt but on one end of the bridge met Peter and Frank Mitchell. It is alleged that Peter Mitchell struck John Deiam with something on the breast while Frank threw a rock at Peter Dedam, but missed him.

He then drew a revolver, it is further alleged, and swore that he would murder them both. They took to their heels and ran across the bridge, but after going about two hundred yards John Dedam fell to the ground while Peter ran to the village and gave the alarm.

The body of John Dedam was found where he had fallen and life was extinct.

The other Indian policeman Lambert was notified, also the chief of the reserve and the news soon spread about the village. The Mitchell brothers remained in Burnt Church reserve until Monday morning, and then went to work on the bridge.

but no attempt was made to arrest them and about eight o'clock they came and disappeared.

Dr. W. S. Loggie, Indian medical officer at Chatham, was notified of the case about ten o'clock on Sunday evening and gave permission for the removal of the body.

Constable F. J. Desmond on receiving information yesterday at noon regarding the case immediately got in touch with the sheriff and left Newcastle about two o'clock for the scene taking along with him clerk of the peace T. H. Whelan, Dr. J. A. M. Bell, who held an autopsy on the body and provincial constable Arthur Loran and John Fitzgerald.

The Verdict

At an inquest last night a verdict was rendered that John Dedam came to his death as a result of a stab in the left breast with a sharp instrument in the hands of one Peter Mitchell and that Frank Mitchell was an accomplice.

Warrants were at once sworn out for the arrest of these two and they were traced to their uncle's camp in the woods about three miles from the village but could not be found.

The police at several provincial points were notified to be on the look out for them.

The murdered man was a widower and about thirty-five years of age and had been Indian Policeman at the reserve for a number of years.

After at all night vigil provincial constable Doran and John Fitzgerald succeeded in arresting the alleged murderers about two o'clock this morning when they returned to the village, the arrest they effected at the home of Charles Mitchell.

Both men protested their innocence. They were brought to Newcastle, arriving here about noon and placed in the county jail.

# Winter Feeding of Young Cattle

There is no time that gain can be made more profitably with young stock than the period from six months to two years of age. The tendency very often, however, is to let the stock "rough" it during this time particularly during the winter, not even giving a maintenance ration, and the young stock too often passes the winter without having made any appreciable gain, the farmer depending upon the pasturage during the summer to put the animal into saleable condition. The result of such a practice is that lighter steers are delayed in maturity with corresponding loss to the raiser.

In order to carry young stock to best advantage during the winter months, roots or succulent feeds of some kind should be provided. Such feeds will take the place of hay and grain, thereby lessening the cost of wintering, and at the same time make it possible for the animal to make the best use of such dry feeds because of aiding in the digestion of both the roughage and meal given.

Young stock cannot make gain out of protein feeds of some kind. This must be supplied by feeding plenty of clover hay. The importance of using good clover hay for young stock cannot be too strongly urged. The practice too often is to feed the young stock the poorest hay, whereas the opposite should be the rule if best results are to be obtained.

Of the grains, wheat bran, crushed oats and oil meal are the best. These are mixed in the proportion of two parts each of the bran and oats to one part of the oil meal. It is risky to feed cottonseed to young stock particularly to those under one year of age.

With roots, or ensilage together with clover hay, a good growing ration is possible without grain feeds. If roots or ensilage are available a poor quality of hay or good straw may be fed along with some grain to furnish the protein requirements, and good growing conditions thereby maintained.

Good feeding is more important following the housing of the stock in the fall than at any other time. During the early winter is when particular attention should be given to the feeding of young stock, as at this time they respond more readily to good treatment and if any skimping in feed is to be practiced let it be during the latter part of the winter at which time stock seems to do with less feed than earlier in the winter when the days are shorter and the temperature lower.

The placing of young stock upon a dry ration after coming from the pasture in the fall is very likely to be attended with stomach troubles, and if the supply of succulent feed is limited let these be fed in moderation at this time to avoid too great a change in feed. A gradual change to the dry feed as the winter passes will prove to be less risky.

Care should be exercised in feeding a meal mixture, particularly if so abundant a one is given, as very often a desire to bring on an unhealthy animal quickly may, if too heavy feeding is practiced, result in increasing the unhealthy condition through

Another Royal Suggestion

# BISCUITS, BUNS and ROLLS

From the NEW ROYAL COOK BOOK

**BISCUIT!** What do I light this word suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Royal Baking Powder and these unusual recipes.

**Biscuits**

2 cups flour  
4 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
1 tablespoon shortening  
1/2 cup milk or half milk and half water

Sift together flour, baking powder and salt, add shortening and rub in very lightly; add liquid slowly; roll or pat on floured board to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

**Royal Cinnamon Buns**

2 1/2 cups flour  
1 teaspoon salt  
4 teaspoons Royal Baking Powder  
2 tablespoons shortening  
1 egg  
1/2 cup water  
1/2 cup sugar  
2 teaspoons cinnamon  
4 tablespoons seeded raisins

Sift 2 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/4 inch

**Patrol House Rolls**

1 cup flour  
1 teaspoon salt  
1 teaspoon Royal Baking Powder  
1/2 tablespoon shortening  
1/2 cup milk

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring until smooth. Spread lightly on floured board and roll out 1/4 inch thick. Cut with biscuit cutter. Crease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

**FREE**

Write TODAY for the New Royal Cook Book; containing as other recipes just as delightful as these. Will show you how to add interest and variety to your meals. Address: ROYAL BAKING POWDER CO., 25 St. Lawrence Blvd., Montreal.

**MADE IN CANADA**

**"Bake with Royal and be Sure"**

impaired digestion.

At the Kentville Station, five yearling heifers fed 30 pounds of roots, 8 pounds of hay and 3 pounds of meal as stated above per day during November and December and no grain for the following five months made an average gain during this period of 225 pounds and an average gain for the year of 304 pounds.

Five fed the above ration during the seven months made an average gain of 276 pounds, and a gain for the year of 350 pounds. It should be noted that the summer pastures were what one would wish, but they were fairly average up and pastures.

The importance of well ventilated, warm, well lighted stables with plenty of good water and opportunity for exercise, with dry quarters and plenty of bedding material should not be lost sight of in planning to make profitable gains from young stock.

### "It Gave Me New Lease On Life"

That is What Mrs. Robertson Says After Tanlac Freed Her of Nervous Dyspepsia

"I feel like I have a new lease on life since taking Tanlac, and I'll never stop praising it for what it has done for me," recently said Mrs. C. A. Robertson of 189 Agricola street, Halifax, N. S.

"I had no appetite whatever," said Mrs. Robertson, "and I was in such a nervous run down condition that I could hardly drag myself about the house. My digestion was so poor what little I did manage to eat caused me to suffer with indigestion and bloating and simply made me feel miserable. I had violent headaches and such dizzy spells that at times I just had to sit down or catch hold of something to keep from falling. I was so nervous that the least little noise would upset me, and I couldn't even stand the children playing about the house. I was so restless I could hardly sleep and many nights heard the clock strike every hour, and became so frantic that I just had to get up and walk the floor. Although I tried everything I heard of, nothing did me any good and my condition was becoming almost unbearable.

"Finally I heard so much about Tanlac that I decided to give it a trial, and the way the medicine fixed me up was nothing less than wonderful. I have only taken four bottles now and am enjoying as good health as I ever did in my life. My appetite is just splendid and I can eat anything and everything without being bothered with indigestion. I never have headaches or dizzy spells, my nerves are so calm I can stand any amount of noise and at night's I sleep like a child. Tanlac has built me up until I have gained twelve pounds in weight and now weigh a hundred and eighteen pounds. I believe Tanlac is the best medicine ever made for troubles like I had, and I'm glad of a chance to recommend it."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm M. Sullivan and in Doaktown by O. Hildebrand.

### Is It Wise to Curtail The Lumber Cut

Some reports say that the lumber cut in this province this winter will be very much below the average of recent years. Uncertainty clouds the lumber market at present, and there are by all accounts, large stocks held in the province. Nevertheless the lumber operators who have done very well in recent years should not be unduly alarmed for the future. In the general interest they might carry on, for curtailment of production in any line at this time must cause hardship, and accentuate the spirit of unrest. The days of big profits on lumber may be over, but if the lumber market should not improve, logs can doubtless be sold at a reasonable profit as pulpwood. And the market for lumber will not remain stagnant very long. The people are clamoring for houses; building operations must be undertaken on a large scale. And the increase in railway rates has barred Pacific lumber from the States east of the Mississippi River. That is a big fact. New Brunswick lumber men will do well to consider it—Transcript.

### The Cause of Colds

Men who work indoors in offices, stores, factories and warehouses, are in constant danger of contracting coughs and colds, through over or under heated buildings and cold draughts. Their most reliable protection is

## HAWKER'S Balsam

which quickly and effectively checks these colds, preventing dangerous complications.

For three months I suffered with a cold, which was not relieved by any other treatment. Hawker's Balsam was suggested and I used two bottles, and was completely cured. I recommend it to all similarly afflicted.

25c and 50c bottles, at all drug and general stores.

ST. JOHN, N. B.

### Clothiers Claim Trade Not Dead

There is no cause for the alarm which has been sounded by certain firms interested in the manufacture of clothing, and clothing manufacturers who can "hand over the goods" are enjoying fair business with good prospects for next spring, according to A. A. Sandeman, managing director of the firm of E. A. Small Company Ltd., the manufacturers of Fit-Reform Clothing, who discussed the situation with The Star this morning.

Mr. Sandeman pointed out that, during the period between the selling seasons, manufacturing is naturally not in full swing. At the present time, he stated, the manufacturers of the poorer quality clothes are having a slack time because "the public demands the higher quality of clothing." The reason for the slowness of the market for clothing this fall had been the lateness of the appearance of the cold weather. Now that this is beginning to put in an appearance he assured The Star, the trade is becoming brisk again.

Even with the advance of sales once more and the gradual return of the trade to normal winter and fall conditions, Mr. Sandeman acknowledged that trade is not quite on such a good footing as it has been in the past, at this season. There has been a very slight reduction in the price of woollens from the English and Scotch factories, he stated, but this has not been anything like as much as some wholesalers and importers would have us believe. In his opinion, this drop had not been more than about 5 per cent.

"Of course," he added, "some manufacturers have cut their prices, including our own firm, but ultimately either wages will have to come down or the rate and volume of production must increase.

"At the present moment I cannot do better than quote the statements of a well-known politician, who said, in talking of manufacturing, that there was not enough rope produced in England to hang all the pessimists who exist during a period of depression."

Another supporter of the theory that there is no reason to be alarmed at the existing situation in the clothing trade and that there is fair weather ahead for the trade, was Mr. Lanigan, of the Campbell Manufacturing Company.

Mr. Lanigan stated that he had noted with surprise the statement that "except for small manufacturers employing ten to twelve men, with the exception of two factories, clothing men are doing no business." This is not true, he claimed. His opinion was that trade was merely passing through a natural and to be expected, period of depression from which it would recover.

### Oil Not A Poor Man's Game

CANADA has struck oil. It is also true, that it is in the Far North, in the Mackenzie River district, that the Imperial Oil Company has been able to bring in a well of the first magnitude. It is believed by the company's geologists that one of the world's great oil fields has been discovered; though the distance from civilization, the difficulties of transportation and the extreme cold in that part of the world make the problems surrounding the "find" both difficult and complex. Fort Norman, on the Mackenzie River, where the drillers have succeeded in locating the first well, is itself not far south of the Arctic circle, and well upward of a thousand miles north of Edmonton.

The modern method of transporting oil from remote fields is by pipe lines; it would thus be necessary to demonstrate first of all that a sufficient quantity of oil exists to justify the laying of such a line which undertaking would of itself be enormously expensive, running into a great many millions of dollars. And then again, could a pipe line be operated during the months of extreme cold? As for bringing the oil out by water, the Mackenzie and other rivers of this Northland are only open for navigation a few months each year. With these facts in mind it must be realized that to render the oil from the Arctic regions commercially accessible will not only prove enormously expensive, but the problem is one that will require a great deal of study and be handled with extreme care.

It would be well for those asked to put money into oil ventures in the Far North to consider all these things before parting with their dollars; for, of course, the find of the Imperial Oil Company is going to stimulate the organization of companies throughout the country, and it is safe to predict that within a few months an incredible number of such wells will be out selling stock. Indications all point to important oil discoveries over a very large field in the Mackenzie Basin, but getting it out to those who can use it at a price where it can compete with other fields is quite another matter. In any event it is not going to be a poor man's game.

### Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

### The Judgment of the World

Clothes don't make the man, but they make all of him that people see in business hours.

Naturally, people read a man's character in his clothes, because that's what they see the most.

As long as appearances count, make them count for you instead of against you.

As far as right appearances go, Fit-Reform Suits and Overcoats are assets for every man who wears them.

The Department of Health in Fredericton received a report on Saturday of one case of small pox at Chatham.

**MARRIED**  
At St. George's Rectory, Moncton, N. B. by Rev. W. B. Slamm, Nov. 17th 1920, Robt. J. Adair and Miss Jean E. Kelly, of Newcastle, N. B.

**GIVEN SHOWER**  
The members of the A. Y. P. A. and other friends assembled last Tuesday evening at the home of Miss Marguerite Copp, and tendered her with a noelty shower. The evening was spent in music and games.

**FIRE IN CAR OF HAY**  
A car of hay owned by Mr. Edward Dalton and lying on the siding at the C. N. R. Station was burned early last Friday morning. It is supposed a man who was sleeping in the car in some way set fire to the hay. The Fire Whistle and Bell aroused the citizens from their slumbers.

**ENJOYABLE RECEPTION**  
The Parish House was the scene Tuesday evening of a very enjoyable reception given by the esteemed rector of Fredericton Rev. and Mrs. A. F. Fate to the members of the congregation. A delightful programme was carried out after which refreshments were served. The affair was enjoyed by all.

**SAYS CHANGES NEEDED**  
Sergeant John B. Sawthorne, new Chief Prohibition Inspector, intimated that there will be some marked changes in the enforcement of the prohibition act. There is to be a lively campaign against bootleggers, blind pigs, kitchen bar rooms and such nuisances, he says.

**CURLERS "READ THIS"**  
Every one who is desirous of curling this year, must hand in their names with the amount of the year's dues viz \$8.00, to the Secretary on or before December 15th, to make sure that they will be placed on a regular rink for the season. Members joining later must take chances on pew rinks formed. In any event the dues must be paid on application.

**POACHERS PUNISHED**  
Chief Game Warden Gagnon has returned home from Chatham where he secured convictions against two residents of Kent County charged with killing two cow moose and two carves. They were fined \$300 each and \$25 for a outing partridge in violation of the law.

**ELECTION PROTESTED**  
A protest against the recent provincial election in Restigouche County has been filed with Dr. T. C. Allen, registrar of the Supreme Court. The petitioners is F. M. Anderson of Campbellton and P. J. Hughes of Fredericton, is agent and attorney for the petitioner. The protest was filed on November 30th.

**CONDITIONS FAVORABLE**  
There is now less than a foot of snow along the Southwest Miramichi at the present time and conditions for lumbering are almost ideal. The Miramichi Lumber Company are the largest operators in that section but are continuing their efforts principally to pulpwood. The Partington Company is also getting out a large quantity of pulpwood this season.

**SALADA TEA**  
Every Grocer in New Brunswick should soon have BROWN LABEL "SALADA" TEA at the reduced price of 55 cents a pound. The immense and unexpected volume of business resulting from this 15 cent reduction has made it impossible to make the thousands of shipments simultaneously and even after shipment there is a certain amount of unavoidable delay on the railroads with the country shipments. The very highest grade such as Blue, Red and Gold Label "Salada" are still very dear and very scarce. No. 0334 M 49-0

**TRACK MEETING IN CHATHAM, DEC. 8**

**BIG RAIN STORM**  
A heavy rain fell all day Sunday and Monday, and as a consequence the streets are in a very slippery condition.

**SMALL CATCH OF SMELTS**  
Smelt fishing opened in this district on Wednesday morning, but as yet, very small catches are reported except from Inkerman District where several good catches have been made. The price being paid on the ice this year so far is 10 cents per pound.

**CHATHAM SENDS AID**  
The congregations of St. Paul's and St. Mary's churches, Chatham, contributed \$52 in offerings at the services on Sunday, November 28, to the British Empire war relief fund to combat disease and distress in war-stricken areas in Europe and Asia. This contribution has been sent to Miss Ethel Jarvis, treasurer.

**LECTURE TO BE GIVEN**  
On Friday evening Dec. 17th, Mr. Walter McRay, who has a long and honorable career on the platform, will deliver a lecture in St. James' Hall. Mr. McRay has had a most remarkable experience and served overseas with the C. E. F. He has associated himself with well known orators and the message he brings to Newcastle will be one well worth listening to. He is a Canadian and is a man with broad vision and has a keen consciousness of the things that are vital.

**EATON FIRM NOT TO CHANGE HANDS**  
Toronto, Dec. 5.—Rumors respecting the activities of the T. Eaton Co. Ltd. have been current of late. One was to the effect that a large American company had either bought out the Eaton firm or was negotiating for its purchase. It is announced that these reports are without foundation and that the plant will not shut down as has been rumored. The company has had several offers for its property in Toronto, Winnipeg and Moncton, but it is understood that the company is not desirous of making any change in the present control.
