Premier Borden Vindicated

In the British House of Commons on Thursday last, Right Honourable Winston Churchill, First Lord of the Admiralty, made his statement regarding the estimates for the building of warships. His exposition of the policy of the Imperial Government in consequence of the rejection of the Naval Aid Bill by the Canadian Senate, confirms in detail the announcement he made in on June last that "immediate action" was necessary, and once again shatters the ridiculous assertion of the Liberals, that there is no emergency. Mr. Churchill regards what occurred in the Canadian Parliament as a matter of grave importance in connection with the general defence of the Empire, and goes on to say that since he had last addressed the House "a serious event has occurred, regarding the Canadian ships." Emphasizing this thought, Mr. Churchill says:

"The rejection of the Canadian Naval Aid Bill has, for the time at least, deprived us of aid upon which we had been depending, and unless that gap is filled, by sacrifice of the British taxpayer, the general defence of the Empire, apart altogether from the defence of the United Kingdom, would be three ships short of the Admiralty requirements from the end of 1915 onward."

From this emphatic statement of the First Lord of the Admiralty, it will be seen that the Imperial Government were depending on the three Canadian battleships, and that their failure to materialize was a serious disappointment. Continuing Mr. Churchill explains how the gap thus caused may be filled. Two ways were open to the Government, he said,—either to lay down three additional ships or to accelerate the construction of three of the five vessels on the Admiralty programme for the present financial year, which it was intended to begin in March next. The adoption of this second alternative will meet for the present, the needs of the situation. This decision leaves the way still open for Canada to contribute three ships, and is entirely in accord with the position taken by Premier Borden when he announced as "the firm intention and determination of the Government to bring down at a later date a proposal for the acquisition or construction of three battle ships as was proposed in the Naval Aid Bill of 1912."

Mr. Churchill expressed the belief that the question of Canada taking an effective part in the general defence of the Empire is by no means closed, and that there is an "overwhelming consensus of opinion that action should be taken, and that soon." In entertaining this opinion, Mr. Churchill is quite justified; the desire of participating in the defence of the Empire is growing stronger and stronger, and will find a way to assert itself.

ate. Would the Imperial Government and the Admiralty manifest all this anxiety; express their keen disappointment and appeal to the British tax payers for further sacrifices for naval equipment, if they were not convinced that an emergency exists? not by any means; It is this conviction that has been the dominating idea in the naval programme of both the Imperial and Canadian Governments.

From the inception of their bitter opposition to the Borden naval aid bill, the Laurier party have occupied illogical and untenable ground, and have sought to buoy themselves up by specious arguments. Starting from false premises their conclusions could be none other than sophistical and misleading. The latest utterances of Mr. Winston Churchill has completely shattered whatever was left of the tottering fabric of misrepresentation our Liberal friends had labored so hard to erect.

They now find themselves completely stranded; but falling back on their reserve force of sophistry and bringing into play their inexhaustible versatility and their unlimited political effrontery they seek, through their organs, to distort the declarations of the First Lord of the Admiralty from all semblance to their natural and logical meaning. Driven to bay they seek to brazen it out on the most false and contradictory lines. Could the political mind of man conceive anything more preposterous! In their attempts to galvanize into plausible shape their specious and sophistical arguments, the Liberal press here and there, expresses the true sentiments by which they are animated.

The Halifax Chronicle, a regular fire eater, furnishes an example of this, and plainly shows that Laurier and his followers in Parliament were unable to present any logical argument against Premier Borden's Naval Aid Bill. Their whole desire and design was to bring about an election if possible, and because the Prime Minister would not play into the hands of his political opponents, he was met with all kinds of contemptible opposition and obstruction in his conduct of the country's business. The following extract from an article in the Chronicle unwittingly exemplifies the attitude of the Liberal opposition: "In declining to pass the Naval Bill until it had been submitted to the people, the Senate by fair implication committed itself to the acceptance of that Bill if favorably received by the people. Mr. Borden and his supporters claim that the people are overwhelmingly with them in that measure. They have only to prove their claim to get their measure through Parliament at once."

There you have the opposition policy on the naval question. Put in plainer words the Chronicle says: "We would like to have another election before you are much longer in power; because we know that in a few years more our chances will be completely wiped out. Laurier advised the Liberal Senators to block the naval bill in the hope of getting the election. Now Mr. Borden, if you will only give us this election, your naval bill will go right through the Senate after that, no matter which party comes in."

Here we have the true attitude of our Liberal friends. They are aware of the emergency which calls for the Government's naval aid bill; they have no logical argument to bring against it; but they know that once it passes and the Borden Government has a little more time to carry into effect its projected undertakings, the Liberals will be further than ever from power. In the face of these conditions they are willing to swallow all logical convictions and praise

the Senate majority for perpetrating a great wrong to the Empire. Logical and patriotic to be sure!

In the recent by-election for the Ontario Legislature, held in North Grey, a Liberal majority of 741, secured at the last general election, was converted into a Conservative majority of 278. This is the sixth by-election lost by the Liberals of Ontario. Hon. Arthur Meighan, Solicitor General of Canada, is returned unopposed to the House of Commons. These are some of the evidences of Liberal gains throughout the Dominion. Not very encouraging.

The following telegram received by Premier Mathieson on Wednesday last as evidence of the promptness with which attention has been given to a matter of the utmost importance, speaks for itself.

Ottawa, Ont., 16th July Hon. J. A. Mathieson, Premier, Charlottetown.

In the absence of the Minister I have your wire of the 15th re black foxes. In view of the immense value of this industry to your Province, steps will be taken at once to protect it by establishing inpection of all foxes from outside points by a veterinary inspector. Any diseased foxes detected will be refused permission to land and quarantined in a suitable place for proper treatment.

GEO. F. O'HALLORAN, Deputy Minister of Agriculture

Construction of the first section of the enlarged Welland Canal has been provided for. The Federal Government has accepted the offer of the Dominion Dredging Company of Ottawa to build the first section. The firm offered to do the work for \$3,500,000. This was the lowest tender. It provides for the construction for the first few miles of the Canal from the Lake Ontario end. Tenders for other sections of the Canal, which is to have a depth of 34 feet, will be called shortly. It will, when completed, allow the largest lake boats to reach the St. Lawrence with full cargo from the west.

According to statistics filed in the department of agriculture, Ottawa, the past year, for the first time in over sixty years, Canada shipped no butter into the United Kingdom. Canada is now on the other hand, classed among the butter importing countries. During the past fiscal year there was an enormous increase and butter imports reached a total of some 7,000,000 pounds, mostly from New Zealand. The total exports of butter was the smallest on record, amounting approximately to half a million pounds which consisted chiefly of tinned butter to the West Indies and dairy butter to the United States. There was also a decrease during the year in exports of cream to the United States on account of the high prices of butter in Canada. The dairy branch of the agriculture department claims that the decline in Canada's export butter trade and the increases in the imports of butter did not indicate any decline in the dairying industry. The growth of the home market is given as the principal cause for the change in the situation. According to the officials at Ottawa the production of milk in Canada is larger at the present time than it ever was in the history of the country. It is also claimed that in addition to the increase in consumption due to greater population, there is a large per capita increase in the use of milk, cream and ice cream.

Minard's Linctament cure Neuralgia.

The British battleship New Zealand, sailed from Honolulu on Friday last for Vancouver, B. C., after a week of entertainment. During the week the officers of the New Zealand were royally entertained by United States officers. While the big ship got underway the United States band played God Save the King. The New Zealand band played The Star Spangled Banner.

The department of Justice, Ottawa, will likely grant a petition of right or fiat to Messrs. Kirby and Stewart of Ottawa to sue the government in the Exchequer Court for their claim in connection with the Temiskaming dam construction. The difference between what is conceded and what is claimed is \$100,000. The firm were contractors for one of the Ottawa river storage reservoirs, and after receiving \$104,000 on progress estimates the work was taken off their hands as unsatisfactory. It was finished by the Department of Public Works. After the defeat of the late government, but prior to its resignation, Hon. William Pugsley arranged for a settlement with the contractors on the basis of which they claim \$144,000. The present government held up this order and after investigation tendered \$38,000. The full amount is still sought and a petition of right was filed some time ago. It is now about to be granted so that the case may be aired in the courts. It will be recalled that the deal was reported on and the late government's action strongly criticized by the public service commission.

Average Crop Production.

Although there is need of a progressive policy to benefit the farmers in the Old Country it is noteworthy that the average yield per acre of the various crops is greater than in many other countries. The United States Department of Agriculture recently published in one of its Crop Reports a table of the index figures showing the relative productivity of over thirty different countries. These figures were based on crops—wheat, oats, rye, barley, corn and potatoes—comprising the bulk of crop production in most countries of the world.

In order to ascertain the index figures the average yield per acre for a series of years was obtained and these average yields were reduced to their percentage of the average yield of all the countries examined. The percentages for each country were combined and weighted in proportion to the relative acreage of the various crops in each country to obtain the index number of production. Taking 100 as representing the weighted average of all countries the eight leading nations were: Belgium with 221, Switzerland 202, Netherlands 190, United Kingdom 177, Germany 169, Denmark 168, New Zealand 167 and Egypt 161, Canada was tenth with 136 and the United States seventeenth with 108. Then followed fifteen other countries in diminishing amounts, including 84, Australia 76, Russia 71 2 and ending with Tunis 37. From this statement it is evident that the United Kingdom still stands high among the nations of the world in the productivity of the crops.

"All Red" Scheme.

London, July 15.—It is officially announced here that a contract for over one million sterling has been signed for the construction of a railway and new harbor on the west coast of Ireland in connection with the All Red route scheme, which the Canadian government has now approved.

The railway will run from Cullinoy to Black Bay, County Mayo, which is to be the port for steamers, which will make the run to Halifax in three and a half days.

Generosity of Indians.

Ottawa, July 15.—The Department of Indian Affairs is taking steps to accord substantial recognition to two Indians, Chief Weemanosekis and Sam Batiste of the Babine Agency in British Columbia, for acts of great heroism and generosity. Chief Weemanosekis, who lives at Blackwater, cared for an insane white man under most trying circumstances. It was winter, and with but a scanty supply of food the white man waited the promised return of his friends with provisions. He waited in vain. His food supply exhausted, the man who was nearly two hundred miles from civilization, lost hope and reason. He was found by the chief. The Indian supplied food, nursed and guarded the deranged man, restraining him with difficulty when he struggled to rush unclad into the forest.

A still more recent case is that of "Sam Batiste," also of the Babine Agency, who last winter furnished provisions to two men, Frank Rahnor and W. H. Wrigley, who wintered, for prospecting purposes, in the Indians' hunting grounds. The men's provisions were exhausted, and they were in the utmost extremity when found by the Indian. He supplied their necessities, so far as he was able. He and his family even went without food for days as the result of his hospitality. The Indian's kindness only availed to save the life of one of the men. Frank Rahnor succumbed to the privations from which he suffered, but Mr. Wrigley survived. Two of the Indian's dogs died of starvation, and after return to civilization one of his children also died, no doubt as the result of the extreme privation suffered.

The department is taking steps to recognize in a substantial manner the noble conduct of these two men, and the cases are also being brought to the attention of the Royal Humane Society.

Cloud Burst Sweeps Ohio.

Columbus, O., July 14.—Railroad and interurban traffic out of Columbus will be paralyzed by a cloud burst which swept a large part of the Central Ohio early today. Small rivers and creeks were swelled into raging torrents which resulted in washing out bridges, causing landslides and doing other damage.

At Zanesville, the temporary bridge of the Baltimore and Ohio went out during the night. This is the only connecting link Zanesville has with the west. The Muskingum River is said to have risen nine feet during the night.

Pennsylvania service between Columbus and the east was paralyzed during the night. A Baltimore and Ohio train from New York and Pittsburgh due in Columbus early today detoured at Cambridge on account of washouts. It was still there at 10 o'clock this morning.

Snatched From Niagara Falls.

Niagara Falls, N. Y., July 18.—Trueman Chapman, twenty-two years old, of Hamilton, Ont., was rescued from the very brink of American Falls tonight by four men, one of whom took desperate chances to reach him. Chapman was sitting on the railing just above Prospect Point, about nine o'clock, when the loiterers in the park were horrified to see him suddenly topple backwards and fall into the stream.

At this point the current is swift and the pull towards the brink of the falls almost irresistible. After striking the water Chapman's body lodged against two small projections of rock and this undoubtedly saved him from almost instant death.

Can Cure Lepers.

Ottawa, July 17.—That the dread disease of leprosy is curable is shown in a statement made by Langis, medical superintendent of the Lazaretto at Tracadie, N. B., to the public health department here. Two patients who were at the early stage of leprosy have been discharged during the past year from the Lazaretto after treatment from Dr. Daye's Nastic Therapy followed since May, 1911.

Dr. Langis had at first fifteen patients to treat and gave between thirty-six and thirty-eight injections of nastic to each. With this, as with any other treatment, a few patients attributed intercurrent illness to its use, and refused it, after a few injections. Generally the patient suffers from ten to thirty minutes from the burning sensation produced by the medicine at the place of the injection, but after this abates he has a general sensation of warmth, feels stimulated and stronger.

Steamer Affre At Boston.

Boston, July 12.—The wooden sidewheel steamer City of Bangor, of the Eastern Steamship Company's Kennebec river line, was tied to her wharf today, when flames originating in the boiler room swept through her forward part with startling rapidity.

Flanked by city fire engines and fire boats that pumped tons of water on her the steamer, valued at two hundred thousand dollars, escaped destruction after her crew had made a brave but hopeless fight with her own hose lines. As it was, the fire moved so swiftly that one man was burned to death, several others were injured and Capt. Charles Blair barely escaped with his life.

The forward end, including the staterooms, saloon and pilot house was gutted and the loss in money is estimated at fifty thousand dollars.

The steamer plies between the city and points on the Kennebec river, and was scheduled to sail for Bath, Me., at six o'clock. She carries a crew of one hundred men and had accommodations for several hundred persons. So far as is known no one was on the steamer except the officers and crew, many of whom were in their bunks when the fire started. Before the crew were well awake the flames had worked up through the three decks and belched through the cabin top around the smokestack.

Another case of mixed leprosy is so much improved that Dr. Langis has great hopes to discharge him in the near future.

With five nodular cases there has been, for a certain time, arre-

LOCAL & OTHER ITEMS.

Australia's Dreadnaught is ready to sea and will soon leave Portsmouth for home waters.

The estate of Joseph Fy, Coona magistrate, London, will give three quarters of a million to charity and \$55,000 each to 37 nieces and nephews.

The British steamer Bantu, from Campbellton, N. B., for Waterford, Ireland, and Cardiff, has gone around in Waterford harbor.

The C.P.R. is to build an electric road from Hamilton to Niagara Falls and will handle traffic to Buffalo over its own line.

There is an agitation amongst the officers and men of the British Army against an order commanding all to let the moustache grow.

Daniel Dowling, who was in the charge of the Light Brigade at Balaklava, died in his country home, near Ulster, N. Y., on the 16th. He was born in Ireland in 1822.

At St. Dunstan's pro-Cathedral on Sunday Mr. Maurice McDonald was absent of the high Mass at 11 o'clock. His Lordship the Bishop was present in the Sanctuary. An excellent sermon on Catholic education was preached by Rev. Father Ryan of St. Paul's, Minn.

The C.P.R. steamer Empress of Ireland, which arrived at Quebec Friday morning from Liverpool, made the passage from her dock in Liverpool to her dock in Quebec in six days and sixteen hours, by the southerly or Cape Breton route, after losing two hours through fog.

Edward H. Ward, City Treasurer of the World's Natural Science establishment was killed and injured in a wreck Sunday afternoon near Rochester, N. Y., on the Rochester and Eastern Line of New York State Railway. A passenger train ran head on into a combination freight and passenger train. The passenger train was demolished.

The government of Jamaica has sent an important delegation from Kingston to Washington to make an effort to remove the tax on bananas in the new tariff. It is feared that the imposition of the proposed tax will ruin Jamaica's principal industry. The delegation consists of Bishop Collins, Sir John Pringle and D. Gidson.

The S. S. Beothic, bound for Hudson Bay from Halifax is aground on a rock in the Strait of Bellefleur. A steamer is standing by. Wireless communication says there is no immediate danger. 75 passengers and crew are still aboard. The lights are being kept burning to warn other vessels. A wrecking plant is rushing from Halifax.

Final figures for the Canadian trade year, ended April 30, total \$1,079,934,611 as compared with \$79,611,838 for the preceding year. The imports were \$678,557,015, exports \$401,376,596, an increase of 17 per cent. The exports to the United States or \$150,000 more than last year. The exports increased \$75,000,000; exports to Britain amounted to \$183,734,820 and to the United States \$188,605,800.

The 19-year-old son of Supreme Court Justice Charles W. Parker, of New Jersey, was killed by a bullet wound in the abdomen. The shot was fired accidentally by a companion named Lincoln while a party of young men were shooting at a target. Dr. Edgar and Dr. Brown were called, but found young Parker's condition hopeless. He died while being taken to a hospital.

Major A. W. Hewatson, of the Royal Artillery Corps of the British army and a member of the military flying corps, was killed at the army aerodrome at E. Aubry on the 17th by falling from a height of 100 feet of his monoplane. The accident was caused by the machine taking a turn too sharply and overbalancing. On striking the ground the motor exploded and burst the aeroplane to ashes.

The Market Prices.

Minard's Liniment cures Neuralgia.

LOCAL & OTHER ITEMS.

The site for the Dalton Sanatorium for Consumptives has been chosen and work on the building will likely soon be commenced. The site chosen is about a mile and a half from North Wilshire Railway Station.

Heavy thunder and lightning storm did much damage in the vicinity of Woodstock, N. B., Saturday night. Lightning struck two cows. The electric lighting system was badly damaged also.

The Norwegian Parliament has refused to vote a credit of \$41,500 which had been proposed by the Government to cover the expenses of Norway's official participation in the Panama-Pacific Exposition at San Francisco in 1915.

Frank Ferguson aged 11, son of George Ferguson was drowned at Moncton Monday afternoon in Little Creek. In company with twelve lads ranging from 10 to 15 years he was playing around the creek when he fell in and was carried to his death. The body was not recovered.

Home Rule Bill.

London, July 15.—A motion for the second reading of the Home Rule for Ireland bill was defeated in the House of Lords this evening by a vote of 302 to 64.

The motion of Lord Lansdowne, the leader of the opposition in the upper house, declared "that this house declines to proceed with the consideration of the bill until it has been submitted to the judgment of a division."

Race Horses in a Fire.

Montreal, July 18.—Several valuable trotting horses were burned to death tonight in a fire which practically wiped out the stables of Delormie Park where the Montreal Driving Club's harness meet is in progress. Baron Forrest, valued at \$10,000; High Ball and Sam Rice, each valued at \$200, were the only animals identified when the toll of the flames was taken. The property loss will probably exceed \$100,000. The flames started from an unknown cause in an unoccupied portion of the stables, following a wrenching rain and incendiary is suspected. Two hundred horses were on the grounds and prompt work on the part of stable hands prevented a greater loss of valuable horse flesh.

Word in Time Helped Bank

New Haven, Conn., July 18.—Thousands of dollars were today withdrawn from the New Haven savings bank, regarded as one of the strongest banks in the state, in an all-day run on the institution. The bank paid all depositors promptly and during the day issued several statements declaring that the bank was sound and that there was no cause for alarm.

Late this afternoon a meeting of the officers and trustees was held, after which a statement was issued saying: "That the officers and trustees of the New Haven savings bank desire to state without any qualification that said bank is able to pay every one of its depositors in full and that there is no occasion for the slightest alarm."

Just before the usual closing hour, the streets in front of the bank were jammed with people. Benjamin Shale, a local lawyer, made what he said was a voluntary statement to the crowd to the effect that he was convinced that the bank was sound. He said that he was one of the largest depositors and that during the day he had offered to make a deposit of fifty thousand dollars, but the offer was refused by the bank officials, saying that they had ample funds on hand.

His remarks apparently had considerable effect, for the crowd, most of whom were foreigners, soon dispersed.

DIED.

WHITE—At Murray River, P. E. I., July 8th, 1913, James, relict of the late William P. White, aged ninety-two years.

CLEMENTS—At the Prince Edward Island Hospital, Thursday morning July 17th, after a lingering illness of Bright's Disease, Herbert Freeman Clements.

McKAY—At Malpasco, on Friday, July 18th, 1913, Daniel C. McKay, son of Kenneth McKay, government engineer, aged 22 years.

HAMILTON—At New Perth, July 12th, Alexander Hamilton, aged 72.

MATHESON—At Albion Cross, Dundas, on the 8th inst., after an illness of twelve days of pneumonia and brain fever, George Matheson, in the 40th year of his age, leaving to mourn a young widow and five small children, an aged father (92) five brothers, Tenny in New York, Archie, Dan and John in Dawson, and Sam in Vancouver, and four sisters, Mrs. D. McL. in Bay View Hotel, St. Peter's; Sarah in Vancouver, Alice, a dressmaker in St. Peter's, Mary in Boston, but then at home, and also a large number of relatives and friends who join with the whole family in their deep sorrow.

Sale Of Live Foxes.

Edmonton, Alb., July 14.—One of the biggest sales of live foxes ever effected has just been completed by Jack Lessard, brother of P. E. Lessard, M.P.P. Mr. Lessard has been at Wabiceow, 150 miles from Athabasca Landing, collecting foxes. With the assistance of Indians and half breed trappers he succeeded in acquiring 48 reds, blacks and silvers. The foxes have all now either been sold or bargained for to the representatives of Prince Edward Island breeders in Edmonton and at the Landing. The aggregate price realized was \$23,000.

Synopsis of Canadian North-West Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$5.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may purchase a quarter section in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

W. W. CORY,
Deputy of the Minister of the Interior.

The House of To-Day.

A pilgrim was passing the wide open door. Of the house by the side of the way. As an angle stood waiting and calling to him. From the beautiful house of To-day.

Bought With A Price.

When the editor was arranging with her for a story, he blurted that, of late her writing had taken a rather melancholy turn and as he desired to make the June number of the magazine especially bright and airy, he wanted her to give him something in her former happy style.

Get the Most Out of Your Food

You don't eat and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Hood's Sarsaparilla

She kept back the crises that rose from her tortured heart, and said cheerfully: "I am not going to listen to you, but will begin my story; and when it is finished, I will take you get well in spirit of yourself."

Was Subject to Hot Flushes, PALPITATION OF THE HEART, SHORTNESS OF BREATH.

Mrs. J. CARROLL, Mount View, Ont., writes: "I am an elderly woman now, and about two years ago I became faint, was subject to hot flushes, palpitation of the heart and shortness of breath."

Too Small To Divide.

The bright-faced little lad who had applied for the position of office boy stood anxiously waiting while the proprietor pondered. The latter surveyed the young applicant with a gaze half humorous, half doubtful.

Europe's Ablest Diplomat.

For many thousands of quiet Englishmen Sir Edward Grey's voice is the weightiest in British politics today and his action on any doubtful issue counts for more than the decision of any other man that I know of.

Had a Terrible Attack of Diarrhoea. Became Very Weak.

Diarrhoea, especially if allowed to run any length of time, causes great weakness, and the only thing to do is to check it on its first appearance. You will find that a few doses of Dr. Fowler's Extract of Wild Strawberry will do this quickly and effectively.

Dominion Department of Agriculture.

BRANCH OF THE DAIRY AND COLD STORAGE COMMISSIONER—VARIATIONS IN TEMPERATURE. Frequent experiments have shown that one single test of an cow's milk is not reliable as an index of what percentage of fat her milk normally contains.

SCOTT'S EMULSION. It is now a summer as well as a winter remedy. It has the same invigorating and strength-producing effect in summer as in winter.

Wire Wounds.

My mare, a very valuable one, was badly bruised and cut by being caught by a wire fence. Some of the wounds would not heal, although I tried many medicines.

Minard's Liniment cures neuralgia.

She—My! Isn't the man who throws the ball for our side just wonderful? He throws it so they hit it every time!

Minard's Liniment cures Dandruff.

Is she musical? Yes; she has a natural voice, a sharp tongue and a flat nose.

Minard's Liniment cures Dandruff.

The brightness of many a young man consists largely of waisicoids and neckties.

Minard's Liniment cures Dandruff.

Diarrhoea, especially if allowed to run any length of time, causes great weakness, and the only thing to do is to check it on its first appearance.

Minard's Liniment cures Dandruff.

Mrs. JACOB SMITH, Manor, Sask., writes: "I am pleased to express my gratitude for your remedy. In my case, I had a terrible attack of diarrhoea, just about every three minutes. I would have a passage, and it would keep this up for a week at a time, causing the passing of bloody water. I was so pained and weak, I could not do anything."

Minard's Liniment cures Dandruff.

"Dr. Fowler's" has been on the market for over sixty-five years, and is, without a doubt, the best remedy known for the cure of Diarrhoea, Dysentery, Colic, Cramps, Pain in the Stomach, Cholera Morbus, Cholera Infantum, and all Bowel Complaints.
