The Brantford correspondent of the Congregationalist says:—"After the cessation of activities during the summer the work for fall and winter is gradually developing under the careful guidance of our pastor, Rev. Matthew Kelly. To those who know him it is needless to say that Mr. Kelly is steadily winning his way into the hearts of his people."

**WHOLESALE** grocers have been informed by the Canadian Cannery that prices for canned goods will be higher all around. The chief reason is that in tomatoes and peas there was only "half a pack." The result is that with the shortage in supply there is bound to be a higher scale in prices, which means that the consumer will have to pay the piper if he eats canned stuff this winter.

A KINGSCOURT young man went home in such an excited condition Tuesday night that he failed to notice that the Hallowe'en jokers had placed one of the hind wheels of his rig where the front one should be. He thought the erratic running of the vehicle was imaginary and that it was the disturbed state of his brain after a tussle with a secret society goat that caused the trouble. Beware, young man, there's a worse time coming.

The other day while a Watford lady was polishing her range with stove blackening that was supposed to give a quick shine with little labor, the preparation exploded with the heat of the stove and the preparation took fire in her hand. Expecting to distinguish the fire by shaking the brush, the bristles flew out all over the floor, and the lady's clothing narrowly escaped catching fire. She had a lively time for a few moments and it was necessary to back out of doors and drop the brush in water to extinguish the flames.

COME early, come often. Watch our window displays, read our ads. It will pay you.—**SWIFT BROS.**

THANKSGIVING DAY passed over very quietly in town. There were fewer than usual home-comers. For the first time in years there was no Thanksgiving service held. A number of our townspeople spent the day burning up dead leaves and otherwise placing their premises in shape for winter. The boy scouts took a jaunt into the country and a number of the men and boys went to the woods in search of game but were not very successful.

BECAUSE of the many complaints which were made last July in connection with the system of holding matriculation examinations during that month, it has been decided by the Ontario Education Department that hereafter the examinations will be held about a month earlier. ## A Beautiful Story.

A beautiful story is depicted in the picture, entitled "Home Again," given this season with the Family Herald and Weekly Star, of Montreal. It is beyond doubt the best picture ever offered with that great paper. The picture is 22 x 20 inches, ready for framing. The Family Herald and Weekly Star is growing faster and faster every year. It is the marvel of the newspaper world to-day and with such a picture as "Home Again," all for one dollar a year, it is no wonder the circulation grows. Every home in Canada should spend a dollar this season on this great bargain.

### Do Your Shopping Early.

The members of the Leamington Women's Institute at its last meeting decided that so far as they personally were concerned they would do their Saturday shopping before six o'clock, or carry their own parcels home, and thus relieve the delivery boys. This is but the entering wedge, the thin edge, but its influence will be felt, and we trust others will follow their good example. Frequently through neglectfulness or lack of system, several parcels are bought at different times during the day and evening and the delivery wagon has to make to the same house four or five trips in a day when one would have been sufficient. When speaking of the service of the delivery clerks, one cannot praise them too highly. They are careful, anxious to do right, deliver right parcels promptly, and if they made a mistake sometimes, it should not be taken too seriously. While the delivery boys are patient and long-suffering, what should be said of the clerks that begin work at 7.30 to 8 in the morning and continue until 10.30 or 12 at night. Every buyer who persistently puts

off making his purchases until a late hour is guilty of a crime. It may not be punishable under the law of the land, but is a crime against humanity, and is causing evil. Why should any clerk, or owner of a store be compelled to work overtime to gratify the lazy customer? We all want to make what we can, but when a customer takes advantage of this knowledge and forces the dealer to work five or six hours overtime, and desecrate the day that should be kept holy, he is guilty of a crime and will be punished. A clerk who works until 12 o'clock on Saturday night is not fit for Christian duty on Sunday morning. He may force himself to attend the services of his church, but his mind is not in proper tune and he receives little benefit. The ministers should pray fervently for the late shoppers. By so doing they frequently will pray for many of their own members. Personally, we have not much faith in the Christianity of the man or woman who persistently keep off making necessary purchases until midnight.

### The Value of Small Savings.

If a young man 15 years of age were determined to save three car fares a week, and to pay the 15 cents thus saved every week until he was 50, to the Canadian Government for the purchase of an Annuity, the result of his thrift would mean that from and after 60 he would receive \$25.18 every 3 months so long as he lived. If he died before he was 60 all that he had paid in with three per cent. compound interest would be refunded to his heirs, and if he died just before his first instalment of Annuity fell due, his heirs would inherit \$771.70. A postcard sent to the Superintendent of Canadian Government Annuities, Ottawa, giving your age last birthday, will secure you information as to what an Annuity will cost.

### Wash That Itch Away.

If your druggist told you that you could simply wash away that awful itchy Eczema—yes—that the very first drops of a soothing, cleansing wash would give you instant relief, it would seem too good to be true, wouldn't it? But it is true, every word. We keep on hand a supply of such a liquid known as the D.D.D. Prescription for Eczema, because we know that this wonderful compound of Oil of Wintergreen, Thymol and other ingredients actually does wash away Eczema and all other skin impurities—that it clears the complexion over night and leaves the skin as healthy and smooth as that of a child.

We could not recommend D.D.D. so positively unless we knew of the wonderful cures wrought by this remedy. We vouch for the merits of D.D.D. and know positively that it takes away the itch instantly. When your own druggist can give you certain relief from that awful itch, you don't need to suffer another day.  
Wash away all your skin troubles with D.D.D. and then keep your skin in perfect condition with D.D.D. Soap. Let us tell you more about this wonderful remedy, or write the D.D.D. Laboratories, Dept. W. C., 49 Colborne St., Toronto, and get their free trial bottle.

### Lost Letters.

At an old lost office in Frankfort-on-Main, a bag full of letters has been discovered. It was hidden in the rafters three hundred years ago. What happens when a mail-bag is lost? To calculate the possibilities in such a case, it is necessary to multiply the possible effects of the loss of a single letter by the number of letters which the bunch contains. The altered train of circumstances which might result from the disappearance of a single bag of mail-matter is unthinkable in its ramifications.  
There might be lovers' quarrels, perhaps never to be forgotten. There might be misunderstandings between

friends and life-long heartburnings. There might be business failures. A single promise of financial help delayed or gone astray might mean the crash of some great industry. Destinies might be altered and lives embittered.

The postie with his arms full of mail-matter is the bearer of glad tidings and of bitter sorrow, but, good or evil, it is important that his messages go not astray, and it is wonderful how seldom they do. The man who carries the mail should be well paid, whether he handles it upon the city streets, in the post-offices, or upon the boats and railway trains.

But most of the letters which are "lost" were never written. Many an old mother waits in vain for the missive from her wayward son, but it went astray before it reached his pen. Many a sore heart waits for the word of forgiveness which was lost forever because it died in some cold heart before the hand could set it forth. Many a misunderstanding remains unsolved because pride is an evil postman who feeds good letters to the flames.

These are the real lost letters—the missives which were never penned.

What might have proved a very serious accident happened Monday forenoon, at the farm of Lorne Prout, Plympton, to Herbert Carr, who was drawing out sugar beets. When backing his wagon to get a load of beets in some manner the rack fell off the wagon and Mr. Carr slipped. The rack fell over on him. His hip was broken and he will be laid up for some time.

### \$3,600 in Cash Prizes for Farmers

WHEN you enter the Canada Cement Prize Contest, your dealer will assist you. Consult him in reference to conditions of the contest. Refer all questions of doubt to him to decide. Confer with him when his experience and advice and his knowledge of our plan would seem helpful.

Don't hesitate about doing this. We have requested him to assist to the best of his ability any farmer in his locality competing in this contest—whether it's a matter involving the application of cement, or how to go about winning one of the prizes offered in this contest. Do you realize that you have as good a chance as the next man to win one of these prizes? There are four for each Province, as follows:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911, the greatest number of bags of "CANADA" Cement.

PRIZE "B"—\$100.00 to be given to the farmer in each Province who in 1911 uses "CANADA" Cement on his farm for the greatest number of purposes.

PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with photograph

showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement. PRIZE "D"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work shown by accompanying photograph, was done.

Contest will close on November 15th, 1911, and as soon as possible thereafter, prizes will be awarded.

Be sure and get a copy of our Contest Circular, telling all about the contest. Ask your dealer for one or use the attached coupon, if you find it more convenient.

In writing us, mention whether you have received your copy of "What the Farmer Can Do With Concrete," a profusely-illustrated 166-page book, which tells you how to build with concrete, so that you can do much of the work yourself. It's a mighty handy and useful book, and should save you many a dollar. Farmers who have received it, say "It is splendid. Write to-night and it will go back to you with Prize Contest Folder, by return mail."

#### Young Men Warned.

Uncle Walt, the poet philosopher, has a good many readers these days in the daily papers. In his own quaint way he teaches many a good lesson, and teaches it in a way that sticks. Here is one which we commend to young men, and if a young woman reads it we hope she will take the hint, and in future be good to mother.

Reggie, you're a fine young fellow, but you're bound to have your way, and you'll marry Arabella, spite of all that I can say. Though advice from me is futile, since you're firm as any rock, though the things I say seem brutal, yet I've simply got to talk. Arabella is a daisy, smoothest girl I ever saw, but the neighbors say she's lazy, and she will not help her ma. She is stylish, she is classy, and her eyes are simply grand; but the people say she's sassy to her mother, understand? I have lived and loved and suffered, and I've found it is the law, that no sane, well-balanced duffer'd wed a girl who'll sass her ma. She may have a thousand graces to adorn her fair young life, but you'll find she'll bust the traces when you get her for a wife. You had better hunt some other damsel in this country wide, for a girl who'll sass her mother will gold brick you as a bride.

#### New Regulations.

Copies of the new regulations and course of study, for Public and High Schools, have been distributed by the Education Department. An examination of these reveals a number of important changes.

Grammar is no longer on the course of study for the third classes of the Public Schools and the course in this subject for fourth classes has been considerably simplified.

The course in geography for all classes in Public Schools has been radically changed, physical, commercial and economic geography is to receive much greater attention than it has received in the past. An effort is to be made to adopt the course of study in each school to the needs and the special conditions of the locality. In schools with only one teacher the trustees may substitute for art and nature study, one or more of the following subjects: Domestic science, manual training, elementary agriculture. Physical culture is obligatory in all classes of the public schools, and a manual will shortly be issued by the Education Department for the guidance of the teacher in taking up the subject.

A two years' course of study is outlined for the first year's classes. On completing the first year's course a pupil may take an examination which will entitle him to a junior graduation diploma; both these examinations will be conducted by the Education Department and either diploma will admit a pupil to a High School.

The character and scope of the entrance examination is unchanged, but in future it will be known as the Junior High School Entrance Examination. This examination loses much of its importance from the fact that there are three other ways of securing admission to a High School, namely, (1) by means of a junior graduation diploma, (2) by means of a senior graduation diploma, and (3) by passing the senior High School entrance examination. The latter examination admits the candidate to the middle school of High School.

With a view of securing more favorable weather conditions, the foregoing examinations and also the examination for admission to the Faculties of Education and the Normal School are to be completed by the 30th of June.

Over Tilbury way it is estimated that about one hundred dollars worth of mushrooms are shipped daily from that locality to Detroit, Toronto and other places. For some reason yet unexplained these delicacies seem to follow the oil fields and grow in immense quantities all through the Tilbury fields.

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

#### ANOTHER LIFE SAVED.

Weak Lungs Restored by Morriscy's "No. 10."

ST. JOHN, N. B., Nov. 17, 1910.

"I had Pleuro-Pneumonia, and was taken to the City Hospital to have my lungs tapped. After this was done I seemed to get worse, and never expected to walk again. In fact, I was given up and wanted to be taken home from the hospital. I was in a terribly rundown condition and felt that I was going right into consumption, and for six months was just a shadow. I tried every means to get well, but there was no cure for me until I began taking your No. 10 Lung Tonic, of which I used 23 bottles in all. It was not long after returning home that I surprised my neighbors by gaining in strength and health, and now I am in good health, and feel it my duty to publish it everywhere, as I am living to-day—saved from the grave by your wonderful prescription. You may publish this letter if you wish, for I am willing to let the world know what this medicine did for me, and I cannot praise it too highly."

Mrs. John S. Barker.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and he cured thousands after other doctors failed.

Price—Small Size, 25c.; Large Size, 50c. per bottle—at your dealers or Father Morriscy Medicine Co., Limited, Montreal.

Recommended and for sale by the Taylor Drug Co., Special Agents, Watford.

#### NOTE AND COMMENT.

There are now 2,523 branches of chartered banks in Canada. Twenty new branches were opened in September.

Windsor is the marrying town. In the last three months 900 nuptial knots were tied there. Ninety-five per cent. of the couples were non-residents, most of them from the United States.

If parents exerted their God-given authority over their children, there would be fewer heartaches and disappointments, fewer human wrecks to be met with along the highway of life. There would be more men fit to be leaders among their fellows, more unselfish apostles willing to spread the kingdom of God on this earth.

Among the Chicago market quotations is found one of the price of gallstones, which sell at \$100 a pound at the Union Stock Yards. They are in demand by Japanese, who sell them as devil-chasers to the Chinese. When carved into sufficiently terrible shapes, they are said to be an efficient protection for Chinese beset by devils.

A new road machine which has been recently tested by the people of Portland, Oregon, is said to solve the problem of economic road making. It takes a load of five tons of a preparation of crushed rock and asphalt oil, and distributes it easily and rapidly along the surface road-bed. The roller is run along in its wake and completes the task, thus doing away with the usual shovelling gang. Thus one man operates the machine and does the work of a dozen with hand tools. The finished highway is said to be as good as city pavements.

SURE REGULATORS.—Mandrake and Dandelion are known to exert a powerful influence on the liver and kidneys, restoring them to healthful action, inducing a regular flow of the secretions and imparting to the organs complete power to perform their functions. These valuable ingredients enter into the composition of Parmelee's Vegetable Pills, and serve to render them the agreeable and salutary medicine they are. There are few pills so effective as they in their action.

The Michigan Central station at Alvinston was broken into during Sunday, and the police of neighboring towns and cities have been asked to look out for the thieves. The agent at Alvinston said that nothing of any account had been taken by the marauders, who had evidently been tramps in search of a warm spot to spend the night. Entrance to the station was effected by smashing a couple of window panes.

**ARE YOU AS WELL AS A YEAR AGO?**

**Dr. Williams' Pink Pills Point the Way to Health and Strength.**

Ask yourself the important question whether you are as strong as you were a year ago, as bodily fit as you should be. Many a reader has to confess "No."

Some weakening ailment has during the past year laid hold of the system, unfitting you for the duties of life and seriously clouding the outlook of the coming days. It may be rheumatism with its sharp twinges of pain, indigestion, headache, nervous debility, depression and lack of energy, or the pains and ailments which only common folk know. It is well to know that all these weakening disorders arise from an impoverished condition of the blood. Renew and enrich your blood and all your troubles will cease. This is a strong statement, but it is made on the testimony of thousands who once suffered, but who have gained health and strength by the aid of the new, rich blood supplied by Dr. Williams' Pink Pills. We can quote thousands of cases similar to the following: Mr. Jos. Grandmaison is a young man well known in the town of St. Jerome, Que. He says: "For a couple of years I began to find my strength failing, but did not dream that the trouble was serious. As I grew weaker I began to doctor, but it did not help me. The least exertion made my heart palpitate violently, my stomach seemed out of order and my whole system became so run down that I was finally forced to quit work. I had now been doctoring for almost six months and was very naturally growing discouraged. At this juncture I read of a case similar to mine, cured through the use of Dr. Williams' Pink Pills, and decided to try them. I took the Pills faithfully for about two months, gradually growing stronger and at the end of that time I was as well as any man could be. I shall always praise the medicine that raised me from

The fact that our business has grown nearly double within the past year, has made it possible for us to gather for this season's business an assortment of shoes far greater in extent than has ever before been possible in this store.

The larger the business the smaller the profits, and we are looking to the public to appreciate such values as we are offering, and it is proven by our increasing patronage.

Suggestions for Cooking Potatoes

Soak old potatoes in water. Never allow potatoes to stand in the sun.

Always pour off the water as soon as done and remove the cover to allow the steam to escape.

Baked potatoes should be rolled in a cloth without soiling, if this prevents the potatoes from cooking too long, which makes them sticky and soggy.

Potatoes should be simmered (not boiled). It is a waste of fuel and spoils the potatoes. Too rapid boiling makes them a solid paste which is both unpalatable and indigestible.

Cook potatoes with the skins on as often as possible. They are more nourishing and palatable. Mashed potatoes are delicious cooked in their jackets, peeled and mashed.

Potatoes may be kept warm a long time without soiling, if the skins are broken and the kettle well ventilated.

Potatoes well ventilated while cooking are more wholesome and of better flavor.

By cutting off the tails of three generations of dogs, it has been found possible in Columbus, Ohio, to breed tailless dogs.

Investigators are satisfied that by cutting the dogs' heads off for the same period barless canines will inevitably result.

Ten years ago there were thirty-eight cities in the United States and Canada having a population of over 100,000. Of these, the largest percentage of increase is credited to Los Angeles—211 per cent.

Second only to Los Angeles, comes Toronto with a gain of 81 per cent., then Montreal with a gain of 75. Detroit shows a growth of 63 per cent. and Buffalo of only 20.

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson, in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhazone.

As his reasons for making this claim for Catarrhazone, Prof. Jackson says: "Catarrhazone is free from opium."

"The patient can breathe its rich, balsamic fumes direct to the diseased spot."

"It is a remedy that treats and cures causes—prevents disease spreading."

"Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs."

"Alleviates chest soreness."

"Stops coughing instantly."

"Prevents bronchial irritations."

"Relieves clogged nostrils."

"Cures shuffles and nasal catarrh."

"Prevents La Grippe."

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter illis."

Catarrhazone is unquestionably the world's greatest breathable cold, cough, and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession, and sold by all reliable dealers. Beware of imitations, get "Catarrhazone" only; large size lasts two months, and is guaranteed, price \$1; smaller sizes 25c and 50c. By mail from THE CATARRHAZONE COMPANY, Kingston, Ont.

The girl thought she had got a "plum"; Said she: "Let us get wed."

Scientific Burglary.

Scientific burglary is perhaps practised to a greater extent in America than in England. They have even a literature on the subject which the police find difficult to suppress.

And some time ago a huge volume was openly published which elucidated all the latest methods of crime, from robbing a till to blowing up a bank safe.

Most of the copies were seized, and those that remain are nearly as valuable as first folio Shakespeares. On this side of the Atlantic, however, scientific instruction in the criminal art has hitherto been confined to magazine articles, although there are at least three books that the up-to-date criminal would find exceedingly useful.

One by a celebrated chemist incidentally divulges secrets that would make the fortune of a forger. Another, by a well-known forger, describes an infallible means of proving an alibi; while the third shows the man who is "wanted" how to leave the country by ways never watched by the police. Questions as to the exact titles of these books and where they can be procured will not be answered.

**PHYSICIANS Failed to Cure Rheumatism**

**Miss Flora Chapman Vividly Describes Her Sufferings and Ultimate Cure With "Nerviline."**

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit.

"A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago, and sciatica. I call Nerviline my "Life Guard," and urge all to try its merit."

**Bumps on the Head.**

The lump raised by a blow on the head is due to the resistance offered by the hard skull and its close connection with the movable elastic scalp by many circumscribed bands of connective tissue. The result of a blow when the scalp is not cut is the bruising and laceration of many of the small blood vessels or capillaries. Blood or its fluid constituent, serum, is poured into the meshes of the surrounding connective tissue, which is delicate, spongy, distensible and cellular, and the well known bump or lump is quickly formed. This cannot push inward at all and naturally takes the line of least resistance. Similar bumps may be formed on the skin in exactly the same way, for the skin bone also is covered only by skin and subcutaneous connective tissue.

**The First Iron Bridge.**

The first iron bridge ever erected in the world and which is in constant use at the present time spans a little river in the county of Salop, on the railroad leading from Shrewsbury to Worcester, England. It was built in the year 1778 and is exactly ninety-six feet in length. The total amount of iron used in its construction was 878 tons. Stephenson, the great engineer, in writing concerning it said, "When we consider the fact that the casting of iron was at that time in its infancy, we are convinced that unblushing audacity alone could conceive and carry into execution such an undertaking."

**Fertile Socotra.**

Socotra, a large island in the Indian ocean, is one of the least known of the inhabited parts of the world. It is mountainous, but very fertile, and in ancient times was famed for frankincense and myrrh, aloes, dragon's blood and spices. But now Sumatra and South America produce more dragon's blood.

Watson—Fleming.

A very pretty wedding took place on Wednesday, Oct. 18th, 1911, at 3 p.m., at the home of Mr. and Mrs. W. Fleming, Bosanquet, when their eldest daughter, Myrtle, was united in marriage to Frost Watson, 8th con. The Rev. A. E. Lloyd performed the ceremony in the presence of the immediate friends and relatives of the contracting parties. The couple entered the room to the strains of the wedding march played by Miss Mamie Jamieson and took their places under a very beautifully decorated arch. The bride looked very charming in travelling suit of blue venetian. After the ceremony the company assembled in the dining-room which was prettily decorated with evergreens and flowers. After a dainty luncheon was served the happy couple left amid showers of confetti on the 6 train for Sarnia and Port Huron. The bridegroom's gift to the bride was a beautiful muff. The bride was the recipient of beautiful gifts from her many friends.

Anyone who does not want to receive a newspaper will have no trouble in discontinuing it, if you notify the publisher that you don't want the paper any longer provided you owe nothing for it. Don't continue taking the paper until you are asked to pay for it, and then "swell up" and say you "never subscribed for it." No publisher wants to force anyone to take his paper if he does not want it—at the same time he expects those who take his paper to pay for it just the same as they pay any other debt.

**STOMACH TROUBLES**

Cured By Vinol—Here is Proof Seymour, Ind.—"I was troubled with a chronic stomach trouble, and five weeks ago it got so bad I had to give up work. I had tried various medicines without relief, and was finally induced to try Vinol. After taking the first bottle I was greatly benefited. Am now on the third bottle and ready to resume work. Am rapidly gaining in weight and strength." Edw. Nieman.

It is the curative medicinal elements of the cods' livers, combined with the strengthening properties of tonic iron contained in Vinol which makes it so successful in restoring perfect digestion and at the same time it builds up the tired, over-worked and run-down system. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. T. B. Taylor & Sons, Druggists, Watford

**WASTED ELOQUENCE**

His One Great Speech Was Wholly Lost on President Cleveland. Colonel Franklin Pierce Morgan of Washington and New York never made but one great speech, and the story of it is pathetic. His audience was Grover Cleveland, then president of the United States, and his purpose was to secure a pardon for a murderer named O'Neil, in whom the colonel had become interested.

"I'll never forget that day," said the colonel in talking about the incident. "I had told Dan Lamont the day before that I intended to ask Cleveland to pardon O'Neil, who was a creature of the dark places at times, but a pretty good fellow at that. Cleveland had taken the precaution to send to the department of justice and get the papers in the case.

"I got up early the next morning, had a massage and was feeling tiptop. I got in to see Cleveland, and I spoke twenty minutes. Never in my life, before or since, have I been as eloquent as I was pleading for that fellow O'Neil. The end of every sentence I uttered brushed the edges of a cloud. I concluded my argument confident that I had swept the president off his feet.

"Mr. Morgan," he said, "is that all you have to say on behalf of your friend?"

"Mind you, he said 'friend.'"

"Yes, Mr. President," I said, "I think that's all."

"Mr. Morgan," he replied, "never as long as I am in the White House shall that consummate scoundrel—consummate scoundrel, mind you—get out of the penitentiary."

"What's the use of eloquence, anyhow?" concluded the colonel.—Buffalo Express.

**LIVER LAZINESS**

Those Who Lack Energy and are Unsuccessful Should Read This Closely.

"I am only thirty years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night and in the morning feel so depressed and heavy that effort was difficult. My hands were always clammy and perspiration on slight effort would break out all over me. It was not unnatural that I should begin to brood over the chance that I should soon be unfit to do my work, and this dread made my sleepless nights perfect misery. After repeated trials of medicine and mixtures Dr. Hamilton's Pills gave me the first gleam of hope. From the very first I could see they were different in action from other pills. They didn't gripe and acted as naturally as if nature and not the pills were cleansing my clogged up system. My spirits rose, I felt much better, the sluggish action of the system gave way to normal activity. Dizziness and headaches ceased, appetite, good color, and ambition to work returned and have remained. I am like a new man and I thank Dr. Hamilton's Pills for it all."

This was the experience of J. E. Parkhurst, a well-known grocery dealer in Jefferson. Follow his advice, use Dr. Hamilton's Pills for your stomach, kidneys, and liver, and you'll enjoy long life and robust good health. All dealers sell Dr. Hamilton's Pills, in yellow boxes, 50c per box, from The Catarhoxone Co., Kingston, Ont.

John Auld Retires.

Windsor, Ont., Oct. 26.—John Auld, of Amherstburg, who was selected to contest South Essex in the Liberal interests against Dr. C. W. Anderson, of Leamington, has decided to withdraw on account of ill-health. A convention to select his successor will be held at Kingsville on November 3.

The Kingston Standard puts forward a fine suggestion. It says that Royal and Governmental proclamations should be couched in simple language minus the frills. That will meet the same fate as Senate abolition. Everybody will say "What a splendid idea," but the proclamations will continue in the same old cumbersome way.

**THE LIGHT-HOUSE KEEPER'S STORY.**

FROM the lighthouse at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends her experience of Zam-Buk. She says: "I suffered with eczema for seven years and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores and caused great pain. I went to a doctor and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured, when I saw a report in the Family Herald, telling how beneficial Zam-Buk was in cases of skin disease. "I bought some Zam-Buk, and from the use of the very first box I saw it was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful.

"It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it and within a very short time it worked a complete cure in my case.

"Since that time I have recommended it for several other cases, and in each it has proved its wonderful merit.

### A MOTHER'S PRAISE OF BABY'S OWN TABLETS.

Mrs. B. S. Baker, East Margerville, N. S., writes: "No mother would recommend for her baby any medicine of which she was not absolutely sure. A baby's life is too precious. A mother is always pleased to recommend to other mothers something that has been valuable in restoring the health of her own child. That is why I can highly recommend Baby's Own Tablets. They cured my baby who was suffering from constipation and I feel that I cannot praise them enough. I would advise all mothers with sickly babies to give them a trial, well knowing what the result will be."
