The copy filmed here has been reproduced thanks to the generosity of:

Nova Scotia Public Archives

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Nova Scotia Public Archives

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

In reckoning the period of confinement, the time during which the cattle have been confined without such rest and without the furnishing of food and water, on any connecting railways or vessels from which they are received, whether in the United States or in Canada, shall be included,—it being the intention of this Act to prevent their continuous confinement beyond a period of twenty-eight hours, except upon the contingencies hereinbefore stated.

3. Cattle so unloaded shall be properly fed and watered during such rest by the owner or person having the custody thereof, or in case of his default in so doing, then by the railway company or owner or master of the vessel transporting the same, at the expense of the owner or person in custody thereof; and the company, owner or master shall, in such case, have a lien upon such cattle for food, care and custody furnished, and shall not be liable for any detention of such cattle.

Those to whom this book may be sent are respectfully requested, when they have finished with it, to hand it to some neighbour who will be likely to make an exhibit.

Manufacturers cannot find a better, cheaper or readier means of introducing their wares to the public, or of keeping them before their patrons, than by making a display at the Nova Scotia Provincial Exhibition. Judging from the attendance at former Exhibitions, it is calculated that not less than 100,000 people will attend the Fair.
