GOVERNMENT HAS SURPLUS OF MILLION

Wm. I. B. Lucas Makes Budget Speech Showing Splendid Result of Eight Years in Power—Last Year's Deficit Caused by Blocking of T. & N. O. Subsidy Bill.

Following the explanation of the provincial finances in the legislature yesterday by Hon. I. B. Lucas, acting provincial treasurer, verbal warfare is now raging. Altho having only five weeks to prepare his budget speech, Mr. Lucas made a clear, businesslike address, several points of which showed conclusively that the ship of state had not run on the rocks. Despite the deficit of \$245,990 for the past fiscal year, Mr. Lucas stated that the government during eight years' regime had a comfortable surplus of slightly over a million dollars, having earned \$65,870,737 and expended \$64,727,992. Had the government been given a fair shake there would not have been an increase of expenditures over the receipts last year, he pointed out, but as a matter of fact there would have been a surplus. In other words the blocking of the T. & N. O. subsidy by the Liberal senate was attributed as the cause of the deficit, along with the classing of interest payments, amounting to about \$180,000, as current expenditures instead of against capital account. Mr. Lucas reasoned out that the surplus would have been slightly over \$145,000.

Brevity was a strong point in the budget speech, which is usually a long monotonous thing, but Mr. Lucas took only one hour and a half to unfold the tale of the people's money. The financial critic was W. H. Proudfoot, Liberal member for Centre Huron. A night session of the legislature was held.

Increased Revenue.

Hon. Mr. Lucas said it was difficult to bring out any new feature in connection with the finances of the province. He believed, however, that the outstanding feature for the fiscal year ending Oct. 31, 1912, was the increase in revenue. During the Liberal government's reign of thirty years the revenue had increased only slightly over a million dollars, and since the present administration came into power in 1905 the receipts had steadily gone up until today there was an increase of over \$5,000,000 over the

Flora Zabelle an Armenian.

The Balkan war is of great interest to Flora Zabelle, the wife of Raymond Hitchcock, and who assumes the title role in "The Red Widow" at the Princess this week. Miss Zabelle is an Armenian by birth. Her real name is Mangarsarian. Zabelle was her Christian name. She was named after Queen Zabelle, who ruled over Armenia when that little country had its capital at the romantic City of Trebizond. Miss Zabelle's plotting in the play appears to be as sincere as any that has been hatched in real earnest.

INAUGURATION OF WILSON IS MADE NOTABLE EVENT TAFT GIVES GOOD WISHES

Amid Scenes of Remarkable Enthusiasm Culminating in Magnificent Parade, New President Takes Up Reins—Wilson, Taft and Bryan Made a Striking Trio.

WASHINGTON, March 4.—(Can. Press.)—Woodrow Wilson of New Jersey was inaugurated today as president of the United States. Thomas R. Marshall of Indiana its vice-president, Democracy the vehicle of its destiny.

It was an intensely human, precedent-breaking inauguration. With members of his chosen cabinet surrounding him, the justices of the supreme court before him, his wife and daughters actually dancing for joy on the platform below, and William Howard Taft, ex-president of the nation, at his side, the new president shouted a summons to all "honest, patriotic, forward-looking men" to aid him, extending the promise that he would not fall them in the guidance of their government.

While the president's concluding inaugural words were tossing in tumultuous waves of applause, the retiring president clasped his hand and enlivened as a patriotic servant in the ranks of private citizenship.

"Mr. President," said Mr. Taft, his face beaming with a broadening smile, "I wish you a successful administration and carrying out of your aims. We will all be behind you."

A Notable Trio.

"Thank you," said President Wilson, and he turned to shake the hand of his secretary of state, William Jennings Bryan. There they stood—Taft, standard-bearer of a vanquished party after sixteen years of power; Bryan, persistent plodder of progressive Democracy, thrice defeated, accepting a commission from a new chief, and Wilson, the man of the hour, victorious, mustering, as he expressed it, "not the forces of party, but the forces of humanity."

It was a political picture far beyond imaginations of a few years gone by, a setting that stirred the souls of the assembled hosts whose cheering at the scene seemed actually to reverberate the distant Virginia hills.

Brilliant Pageant.

The military and civic pageant that followed this climax of the historic day, was more than five hours passing in review. Leaving Capitol Hill at 2 o'clock in the afternoon, the last of the marching thousands had not doffed their colors to the president in the court of honor until long after darkness had fallen.

President Wilson stood for more

RAILWAY BILLS ARE OPPOSED IN SENATE

Sir George Ross Contends That Government Seeks Undue Measure of Control Over G. T. P. and N. T. R. Construction and That Degradation of Road Might Result.

OTTAWA, March 4.—(Can. Press.)—In the senate today Sir George Ross opposed government bills from the way and the National Transcontinental Railway, not, he said, because he was hostile to the companies. The bill proposed to place the right to extend the time for construction in the hands of the government, which was by the bill given authority to specify the time of completion.

Hon. Mr. Loughheed stated that in 1911 parliament had given the government authority to extend the time for the completion of the prairie and the mountain sections. Under the law that session the time had been extended and the road had been almost completed. A little more time only was required and this bill, which had the approval of the railway company, was only to confirm and extend previous action by parliament. In view of the facts, the government could not accept the proposed amendment. The government was financially interested in the bill thru its relations with the company and both were interested in seeing the bill carried thru, so that the financed operations of the company could be carried out in the British money market.

Might Degrade Road.

Sir George Ross said he favored the extension of time, but wanted the extension specified by parliament. He did not want the government to have authority to specify the terms and conditions under which the road should be constructed. It was rumored that the government was degrading the eastern section. What assurance was there that it would not degrade the road if given authority by this bill? He proposed an extension of time for twelve months. The attention of the senate had not been attracted to the bill when it was proposed last year. The legislation authorized the government to "extend the time on such terms and conditions and for such periods" as may be deemed advisable. That gave too much liberty to depart from settled conditions.

Government Deeply Interested.

Sir Mackenzie Bowell said in this case the government was virtually building the road thru its guarantees. Therefore it was much more interested in the speedy completion of this road than in the case of an ordinary bill. There was no danger that the government would degrade the road. The bill gave it no authority to do so. He was sure the government had no intention or desire to do so.

Senator Gibson urged that more time be given to the matter. Mr. Loughheed agreed, and the committee rose and reported progress on the bill.

HOUSE TO SIT CONTINUOUSLY UNTIL DEADLOCK IS BROKEN OPPOSITION IS DETERMINED

Government Is Equally Fixed in Resolution to Pass Naval Bill and Unbroken Session Until Saturday Night Seems Inevitable—Liberals' Manifest Purpose Is to Force the Government to Appeal to Country if at All Possible.

OTTAWA, March 4.—(Special.)—The house is in the throes of deadlock. Mahomet refuses to go to the mountain and the mountain is equally determined not to go to Mahomet. The dictionaries which have for so long adorned the desks of the speakers on the naval debate have been replaced by naval annals, naval statistics and the like. The Liberals say they are prepared to keep the discussion going continuously until Saturday midnight, and the government is equally determined to keep the house in session continuously until the opposition allows some progress and passes at least the second clause of the bill, which provides for the vote of \$35,000,000 to strengthen the effective naval forces of the empire.

The Liberals have already laid out their plan of action. They have divided themselves into relays of some twenty men each, and are determined and ready to keep up the discussion in an apparent endeavor to force the government to the country.

Previous Deadlocks

The last deadlock of any importance took place in 1910. Hon. William Pugsley, then minister of public works, endeavored to force thru the house some legislation respecting the Long Sault Power Co. On that occasion, however, the fight only lasted a little over twenty-four hours.

In 1908 the house sat continuously from Thursday afternoon until Saturday midnight in an attempt to force the production of original documents from Hon. L. P. Brodeur regarding the exploration steamer Arctic.

No Compromise

A prominent Conservative member, high in the councils of his party, told The World's representative tonight that the government was determined not to declare any truce, and that unless the contentious clause was passed the house would remain continuously in session until Saturday midnight. The Liberals, on the other hand, are equally determined to keep up their obstruction tactics. Unless the government introduces and makes effective some form of closure before the end of the week, it now looks as if the Liberals might force the premier to the country.

Premier Forced Issue

The eternal "if" seemingly enters into the affairs of a country as well as into the affairs of everyday life. If Sir Wilfrid Laurier had not suggested an adjournment at 1 o'clock Tuesday morning, the premier would not have been given the chance to issue his ultimatum to the opposition, i. e., that some progress would have to be made on the second clause of the naval bill before he would countenance an adjournment.

If the premier had not issued his ultimatum the house would not now be considering the probability of remaining continuously in session until Saturday midnight.

As it now is the members on both sides of the house have settled down to a routine. They are relieved by fellow members at stated intervals. Both sides are declaring that it will be a fight to the finish.

FARCIICAL DEBATE DRAGS ON LIBERAL TALK UNCEASINGLY GOVERNMENT SIDE IS SILENT

Opposition Members Wander Far From Subject at Times in Carrying Out Purposes of Obstruction, While Conservatives Are Powerless to Prevent Time Wasting—No Relief Until Saturday.

OTTAWA, March 4.—(Special.)—The house has, apparently, resigned itself to its fate. It is now a recognized fact that they will remain in session until Saturday midnight. The Liberals are still strenuously obstructing the passage of the contentious second clause of the bill.

The speeches delivered today and tonight emphasized the fact that the opposition is "killing time" for obstruction purposes. Many of the speakers wandered from the subject of the navy to such topics as the N.T.R., canning of lobsters, watchmaking and even the Balkan war. Mr. Sinclair, Guyboro, N.S., caused a gale of laughter when he endeavored to illustrate that the difference between a Dreadnought and a first-class cruiser was very slight.

"There is a time when you can't tell whether a kitten is a cat or not," said Mr. Sinclair, "it is the same with cruisers and Dreadnoughts."

One-Sided Debate.

The Conservatives are sitting in the back part of the chamber, viewing the proceedings with bored expressions. Occasionally they aggravate the speaker who has the floor by interjecting sarcastic remarks. The amendment to the second clause, which Sir Wilfrid Laurier proposed last night, asks that the \$35,000,000 be appropriated for the purpose of constructing the railway.

Every Dineen Fur is a Bargain. It is coming very close to the time when furs will be taken out of the retail showrooms and put into cold storage for next season. In the meantime bargain prices prevail. If you know anything about fur values, visit Dineen's and look over the late season selection offered for your inspection. Every piece of fur is offered at a price that makes its purchase an investment. All guaranteed Dineen quality. W. & D. Dineen Co., Ltd., manufacturing furs, 140 Yonge street, corner Temperance.

ARMED, READY TO RESIST ARREST

Detectives, at Station, Seize Suddenly by Wrists Italian Thought to Have Stabbed Girl.

When Michael Dignitino stepped off the train at the Union Station late yesterday afternoon, Detectives Twigg and Cronin were waiting for him. Before the Italian had gone very far he was seized firmly by the wrists. Cronin held the man while Twigg quickly removed a dangerous looking revolver from his hip pocket. Altho he is held on a charge of carrying concealed weapons, Dignitino is wanted for a much more serious crime. Information has reached Toronto to the effect that a girl was stabbed by an Italian in Buffalo on Monday.

The Buffalo police notified the city detectives that the fugitive would likely head for Toronto. They also advised the local authorities that he would be armed. Detectives Twigg and Cronin were accordingly sent to the station to watch the trains. When Dignitino got off they saw that he answered the description given by the Buffalo police. The officers took their man by surprise, knowing that he would likely have a revolver. In addition to the loaded gun he detectives found a box of cartridges in Dignitino's possession.

FOREIGN AIRMEN GUARDED AGAINST

Must Get Permission Before Flying Over Any Portion of United Kingdom.

LONDON, March 4.—(Can. Press.)—Under authority conferred by the Aerial Navigation Act, the home secretary has issued orders prohibiting foreign military or naval air craft from passing over any portion of the United Kingdom or territorial waters, except on invitation and by permission of the government. All other foreign air craft coming to the United Kingdom, are requested first to obtain clearance papers from the British consuls. Landings will be restricted to certain areas of the coast, where the air pilots must report to the authorities and obtain a permit for the continuance of the voyage. They are prohibited from passing over certain districts in which are included the military and naval stations.

Anyone infringing the regulations, it is announced, is liable to be fired on, and the offence is punishable by six months' imprisonment, or a fine of \$1000. Aeronauts guilty of espionage are liable to seven years' penal servitude.

EAGER TO SEIZE NIAGARA POWER

American Companies Will Take Advantage of Wider Latitude Under Waterways Treaty.

NIAGARA FALLS, N.Y., March 4.—(Can. Press.)—That the power companies on the American side will immediately increase the amount of their diversion to the full amount permitted by international waterway treaty, it was learned today.

The Burton Act the American federal law, limiting the diversion on the American side to 15,600 cubic feet per second, expired by limitation today, and the only law now governing diversion on the American side is the waterways treaty, which fixes the amount of diversion at twenty thousand cubic feet. The power companies will now take advantage of the opportunity afforded them and divert the extra 4,400 cubic feet.

Would Delay Viaduct For Another Year

City Engineer Powell is of opinion that preparing plans for both steel and concrete construction of the Bloor st. viaduct will delay starting the bridge until next year.

GOVERNMENT IS ON HORNS OF DILEMMA

How to Find Avenue of Escape From Maze of Naval Debate Is Problem Which Seems to Offer No Immediate Solution Other Than an Appeal to Country.

OTTAWA, March 4.—(Special.)—The situation at the present moment is practically this: the house is in committee, and as long as it is in committee, any member is free to raise his voice as often as he likes to discuss the general merits of the bill or any special clause and every now and then a member is free to get up and move that the house rise and report progress and that it is absolutely necessary in the interests of the health of the members that they do adjourn and can give forty reasons why the house should adjourn for the refreshment and rest of the members. Then another member can return to the consideration of the bill and talk on it as long as he likes and be followed by another in the same way.

Under these circumstances it is not likely that anything will be done other than to let the proceedings continue until Saturday night, when the house will automatically rise at 12 o'clock or a little earlier if both parties agree.

Can't Apply Closure.

As said before, tho, it is always in order for the house to rise and report progress and should the government consent to this, the house would rise, report progress with the Speaker in the chair and probably then adjourn until 3 o'clock in the afternoon, but in that case the government would have to propose one of two things. They might deal with the situation by a resort to the closure, but if they did this a question would be opened up on which every member of the house would have a right to speak once at least and he could speak for as many hours as he was able to stand the strain. The only other alternative open to the government would be to proceed with some other business, but as this would be a confession of surrender there would be apparently nothing open to the government but to go back into committee again on the naval bill with the deputy Speaker presiding and to continue the discussion in a desultory way in order to further test the endurance of both parties until another Saturday night was reached. There, however, seems to be no choice open to the government but to try to carry a closure or to carry on the struggle on the bill or to dissolve the house and go to the country as things now are.

In the meantime no committees will be in session, and the government will have to devote their best attention to finding a solution of what seems to be a deadlock, or some kind of compromise may be arranged between the parties, but nothing of this kind seems to be in sight at the present moment.

INVESTORS LOSE SIX MILLIONS

Huge Get-Rich-Quick Swindle Alleged—Title to Mexican Lands Wrongfully Claimed.

PHILADELPHIA, March 4.—(Can. Press.)—That investors in all parts of the country were defrauded of nearly \$6,000,000 by false representations and misleading literature sent thru the mails was charged by U. S. District Attorney Swartley in outlining the case of the government against the promoters and officers of the International Lumber and Development Co. today in the district court. He declared that he would show that 28,000 acres of land in Mexico, alleged to be owned by the company, is in reality owned by the San Pablo Co., a New Jersey corporation, and that the million and a half dollars paid in dividends did not come out of earnings, but was paid from money secured from investors for stock.

The defendants are John R. Markley and Isabel E. Miller of Chicago, Charles R. McMahon, Wm. H. Armstrong, Jr. and Col. Alfred G. Stewart.

Alfred L. Wanamaker, a former president of the company and counsel for it, went on the stand today to identify certain contracts. Miss Cornelia Pfersing, head bookkeeper in the offices of the concern here, testified that the stock had been advanced from \$200 to \$350 a share. She admitted that contracts for the sale of stock and literature of the company were sent thru the mails.

WEST ENDERS TO DESCEND IN FORCE

Board of Control Will Be Visited by Large Deputation Urging Action.

HUMBER VALLEY LINE

Delay in Getting Transportation Is Not to Liking of Seventh Ward Dwellers.

At their meeting in the Annette Street School last night, the Ward Seven Ratepayers' Association recommended their fight for better transportation. The president, Prof. Alexander of Toronto University, occupied the chair, and the large attendance of ratepayers present showed the interest taken by the west end citizens in this matter.

A communication was read from City Solicitor Geary to Ald. Ryding, stating in response to his enquiry that the city engineer saw no reason why the Pacific avenue and Ammette street lines of the Toronto Suburban Railway could not be commenced early in the spring. As to the Bloor street line, Mr. Geary was negotiating for it, with the greatest haste possible, but it was possible that it would be a considerable time before it would be constructed.

Mr. Anderson drew the attention of the meeting to the urgent need for better transportation and advocated securing it by any means possible. The speaker stated that he had been for a long time, but it was high time now to secure some accommodation for the 30,000 citizens who reside in the western section of the city.

After considerable discussion the general trend of which was in effect the above, the association unanimously resolved that a deputation be sent to visit upon the board of control at their session Wednesday morning, and urge upon them the greatest haste for improved and extended transportation facilities. In view of this the following men will meet the mayor at the board of control on Wednesday, 11 o'clock: Prof. W. J. Alexander, Dr. Dow, Col. Moore, Messrs. F. S. Evans, P. Laughton, H. R. Glass, H. H. Hertzberg, R. Campbell, G. H. Christ, J. T. Moore, James A. Macdonald, W. Fischer, Skinner and Aid. Anderson and Ryding.

Beneficial meetings will be held fortnightly and many important matters remain to be brought up, including the very live question of grade crossings at Royce avenue and their crossings.

P. C. C. BENEFIT A DECIDED SUCCESS

Local Artists in Splendid Concert Acquit Themselves Well in Difficult Renditions.

A fine musical program was presented by local artists at Massey Hall last evening at the Parkdale Canoe Club benefit concert. The attendance was large and enthusiastic, and the program largely in demand. Before the program proper the Easter Smith Orchestra gave some very fine selections.

Mrs. Kennedy, Mrs. Campbell, Mr. Hollishead and Mr. Arthur Blight sang the opening quartet, "The Night in Starlit Splendor," from Lucia in a thoroughly artistic manner. Later the beautiful voice of Mrs. Leonard Kennedy was heard in the jewel song "Clu Gella, Mamma," from "La Boheme," and even with the late feat of operatic music still ringing in our ears as sung by the Montreal Opera Company, our own singers stood the test, and these selections won unqualified applause.

Mrs. Elizabeth Campbell sang "The Reason" and responded to an encore, both numbers being interpreted in a rich soprano voice. Mr. Blight always a favorite, sang "In Passionate Surrender" and was heartily applauded. Dr. Harvey Robt did some of the most arduous work of the evening, contributing two piano solos, organ and also filling the role of a most skilful accompanist. A feature of the entertainment was the readings of Mr. Owen A. Smith, who in the "Demon Stone" and the "Widow" displayed varied and delightful elocutionary ability. The duo "I'm 'Til I'm Traveled" charmingly interpreted by Mrs. Kennedy and Mr. Hollishead, was one of the finest numbers on the program. Everyone who took part was an asset of exceptional merit, and the Parkdale Canoe Club scored a decided success.

HOTELMAN FACES SERIOUS CHARGE

Fred Lamb and James Ferris, Dunvegan Road, Held For Procuring Two Girls.

Detective Levitt arrested Fred Lamb, of Lamb's Hotel, yesterday afternoon on a charge of procuring two girls for immoral purposes. He was taken to the Newington, Montgomery and Archibald went to the large residence of James Ferris, at Dunvegan road, and took the girls into custody on the same charge.

It is alleged that Lamb and Ferris took two girls to the latter's house and kept them there for over a week. Lamb was released on \$1000 bail. Ferris was also bailed out later. Sergeant McKinnon of the morality department laid the charges.

DR. MICHAEL CLARK AT ASSOCIATION HALL. Arrangements were completed by the executive of the Toronto Liberal Association last night for a meeting to be held in Association Hall on March 11 with Dr. Michael Clark, member for Red Deer. The doctor is the speaker whose able effort to justify the Liberal party's stand on the navy question a short time ago won much praise in parliamentary and public circles.

LEADERS OF TRIUMPHANT DEMOCRACY

WOODROW WILSON, THOMAS MARSHALL, PRESIDENT AND VICE-PRESIDENT OF THE UNITED STATES, YESTERDAY INAUGURATED IN WASHINGTON IN A WAY AT ONCE DEMOCRATIC AND SIMPLE.

INAUGURATION OF WILSON IS MADE A NOTABLE EVENT

Continued From Page 1.

than an hour under the glare of myriads of brilliant electric lights, as they greeted thousands in the long line, among them the host of Princeton students, who, as they passed before him, shouted a hearty greeting that he never can forget.

The music of the bands, the glitter of the gilded uniforms, and all the ensemble in the pageant that had gone before, faded into insignificance before the sight of this cheering student army was to President Wilson, an inspiration that brought back memories and joyous tears. Not long after the boys from his school had passed, he turned from the human panorama and entered the White House to grasp the wheel of the ship of state.

Scene in Senate. Careless in the senate chamber, which marked the dying of the sixty-second, and the vitalizing of the new sixty-third congress, embracing the inauguration of Vice-President Marshall and the swearing in of the senator-elect, were never more impressive. The delayed somewhat by the course of legislation, the president returned back half an hour the hands of the clock, the interest was tense.

Senator Chandler administered the oath of office to Vice-President Marshall at exactly 12:34 o'clock. The vice-president then delivered his inaugural address.

Then began the procession of the senate wing to the great amphitheatre at the east front of the capitol. After Chief Justice White, followed by the justices of the supreme court, had entered the inaugural stand, President Wilson and the president-elect stood for several moments with head bowed, acknowledging the plaudits of the crowd.

Meanwhile Mrs. Wilson, the Misses Margaret, Eleanor and Jessie Wilson, Mrs. Marshall and the Wilson family party, reached the front of the platform and took seats adjoining the inaugural rostrum. As the gay crowd cheered Mrs. Wilson was carried away by enthusiasm. She ran to the front rail and waved to the throngs. Her daughters followed. So did Mrs. Marshall.

President Takes Oath. Promptly at 1:35, when Chief Justice White rose to administer the oath and Woodrow Wilson stood with right hand upraised to heaven, the most human touch in the picture of the day asserted itself. The first lady of the land could not see well from her seat. As spry as a schoolgirl Mrs. Wilson moved her chair to the side of the rostrum and climbed on with the assistance of Lieut. Rogers, the president's naval aide. Grasping the railing she stood there gazing at the president as he kissed the Bible, and she remained standing until his address was concluded.

When the new president swore to uphold and defend the constitution, he stopped and kissed the opened Bible, held in the hands of James B. Mahor, deputy clerk of the supreme court.

Work of Restoration. Through his address President Wilson was heard frequently by the people immediately in front of the stand who could hear him. They were people who had been frequently heard just before he began his speech. The applause was particularly emphatic when President Wilson declared: "The people of this country have fallen from our eyes. We have made up our minds to square every groove of our national life again with the standards we so proudly set up at the beginning and have always carried in the hands of James B. Mahor, deputy clerk of the supreme court, members of the retiring and incoming cabinets and others.

INAUGURATION OF WILSON IS MADE A NOTABLE EVENT

Continued From Page 1.

shaking the hand of the new chief executive, he was ushered to the carriage in front of the stand. Mr. Taft followed him into the carriage. His smile had not worn off and it radiated over the crowd as the new president doffed his hat to the multitude when the procession started.

There was hardly a minute during the new president's ride from the capitol to the White House that he did not hear a constantly rising chorus of cheers. As his carriage passed up Pennsylvania avenue and each section of the densely crowded thoroughfare spilled the visage of the new president, the outbursts seemed to increase in volume and enthusiasm.

It was nearly 3 o'clock before President Wilson returned to the White House, where he partook of a buffet lunch with twenty-five invited guests, including members of the new cabinet and official folk generally.

The inaugural parade itself was a delight to the new president, he said afterward, but it was an extraordinary physical strain. President Wilson and Vice-President Marshall stood side by side for nearly five hours. Members of their families sat behind them, all intensely interested in the various divisions of the military and civic organization as they filed by.

To the White House. After the parade Mr. Wilson was escorted back from the reviewing stand to the White House by military and naval cadets.

It was his first touch of the military in his home. He paused for a moment. After he passed thru the White House doors, an usher took his hat and coat. The president seemed for the moment embarrassed by the formality and the strangeness of his surroundings.

Mr. Wilson rested for an hour and dressed for the dinner at a nearby hotel, given him by the class of 1879 at Princeton, of whom he is a member. His family saw the fireworks from the rear of the White House.

On the streets of Washington tonight the crowds flowed back and forth in dense lines. The brilliantly lighted thoroughfares presented a carnival-like splendor, and the merry-making and jubilation of the night through continued until a late hour.

Col. Davidson asked the board of control yesterday to agree to give no opposition to the private bill to incorporate the Town of Leaside, and in return there would be no opposition to the city annexing Leaside after its incorporation. He stated that a car-building plant and other industries will be established at Leaside. As the board favors annexing more territory this year, Col. Davidson was promised no opposition to the bill in the meantime, and the matter of annexation is to be referred to the C. N. R. solicitor and the corporation counsel.

CASH GRANT OR A LOCAL NAVY? SOUTH AFRICA STILL UNDECIDED

CAPETOWN, March 4.—(C. A. P.)—During the discussion of a motion calling for increased contribution to the imperial navy in the house assembly today, General Botha stated that the government was quite alive as to the importance of the matter, but before embarking upon a definite policy as to whether this should take the form of a money contribution, as in the case of Canada, or the building of a local fleet, like Australia, he thought the admiralty should be consulted.

Sir Thomas Smart accepted Botha's assurance as the best possible at the moment, and as containing an explicit understanding that the discussion, as soon as parliament rose, would be entered into between the premier, the minister of defence, the Imperial Government and the British admiralty for the purpose of seeing what would be the best means in the interests of South Africa and the empire of increasing the contribution to the British fleet, and that negotiations would be placed as fully before parliament as was the case in regard to discussions between the Canadian and Imperial Governments.

CITY WILL ANNEX TOWN OF LEASIDE

Will Not Make Opposition to Bill to Incorporate. ABATTOIR HELD BACK Permits For Private Garages May Have to Come Before Board.

Col. Davidson asked the board of control yesterday to agree to give no opposition to the private bill to incorporate the Town of Leaside, and in return there would be no opposition to the city annexing Leaside after its incorporation. He stated that a car-building plant and other industries will be established at Leaside. As the board favors annexing more territory this year, Col. Davidson was promised no opposition to the bill in the meantime, and the matter of annexation is to be referred to the C. N. R. solicitor and the corporation counsel.

At the request of Architect Ferrin the time for accepting tenders for construction of the proposed municipal abattoir was extended two weeks, contractors not having been given sufficient time to prepare their tenders.

The city architect is to be asked to report to the board upon the advisability of granting no permits for private garages until passed upon by the board.

Chief Thompson reported that collisions between fire department vehicles and street cars are becoming more numerous and serious. He advised newer sensors demanded by fire department and other drivers when fire department vehicles are approaching. The corporation counsel reported that a statute in 1911 provided that fire department vehicles, when en route to a fire, have the right of way over all traffic, street cars included, and that the statute has not yet been fully enforced in Toronto.

Toronto Symphony Orchestra asked for an annual grant of \$5000, and the request is to be given consideration. Moore Park Ratepayers' Association appealed for water and sewer services. Controller Church pressed a motion to apply for a mandamus for better street car service on the stub line out East Queen street, but was finally persuaded to first have a private conference with the corporation counsel.

FARCICAL DEBATE DRAGS UNCEASINGLY

Continued From Page 1. 000,000 to be used for the construction of a local navy, which would be at the call of the British navy if needed. That clause as it now stands provides for the contribution of the \$35,000,000 to aid the forces of the empire.

Hon. Dodoiph Lemeux, Hon. H. R. Emmerson, Dr. Clark (Red Deer) and Messrs. Boyer, Maric (Bagot), Robb and Kay also took part in the discussion.

A Sub Amendment. Mr. McKenzie (Cape Breton) proposed a sub amendment to Sir Wilfrid's amendment. This sub amendment calls for the expenditure of the \$35,000,000 in Canada in accordance with the suggestion submitted to the imperial conference of 1907 by the admiralty.

J. G. Turritt (Assiniboia) declared that the present naval program did not meet the views of the laboring classes or the farmers.

The member for Richmond, N.S. (Mr. Kye), pointed out the Canada had only been making steel for a comparatively short period, yet she had attained a high degree of expertise. He thought the same would be true if she started to build war ships. She would be able to thus utilize any surplus of steel she might have.

Mr. Kye scouted the idea that Canadians could not be found to man a Canadian navy.

W. A. Buchanan (Medicine Hat) spoke in support of the amendment and sub amendments to the clause.

EVILS OF BETTING

Poor Loser Has to Walk Across the Continent With Donkey. PORTLAND, Me., March 4.—(Can. Press.)—Leading a 23-year-old donkey and wearing a khaki uniform, B. H. Anderson of Butler, Pa., left Portland today to settle an election bet on Theodore Roosevelt by walking from this city to Portland, Ore. "I am willing to make the same bet that if Roosevelt is a candidate in 1916, he will be elected," said Anderson as he began his long tramp.

FILLED POST DEAD FOR THIRTY YEARS

Chief Inspector Archibald Appointed Deputy Chief of Police.

SURPRISES BY BOARD

Inspector Gregory Becomes Staff Inspector of Morality—Other Police Changes.

After the office had been abolished for more than thirty years, the police commissioners yesterday decided to appoint Chief Inspector Archibald to the post of assistant deputy chief constable. This will remove the inspector from his customary place in the police court, where he was wont to subject witnesses to third degree methods. It was generally expected that Inspector Archibald would avail himself of the pension provided by the police benefit fund, but this theory proved to be incorrect.

Inspector McClelland was promoted to the chief inspectorship to fill the vacancy.

The police commissioners appointed Inspector Gregory of number ten station to the rank of staff inspector of the morality department. Many people connected with police affairs felt sure Sergeant McKinney would be promoted to the inspectorship.

Many resignations are coming in from time to time, some being given various excuses for leaving the force. There is no doubt, however, that the chief cause for dissatisfaction is the failure of the aged officers to retire and give the younger men a chance for promotion. The city council made grants of money to the benefit fund so that officers could retire on pension, but none of the veterans apparently care to accept the city's generosity.

To fill the vacancy created by the promotion of Inspector Gregory the commissioners advanced Sergeant Pogue to the rank of inspector.

The other promotions made were: P. S. Lydall, P. C. Bogart to be sergeant, vice McCarron, retired last year, and Pogue promoted.

P. S. Jackson Walker to be sergeant, as No. 3 police station is to have three sergeants, like Nos. 1 and 2 divisions. P. S. Childs, in police court clerk's office, to be sergeant, supernumerary.

To be patrol sergeants for all the places of the three divisions are sergeants, Constables Langtry, Pollett and O'Meara.

Several of these promotions there will have to be more inspectors made. One for No. 6 station in place of Inspector Geddes, who will be off the list in June, and another for No. 11 station which will open about August.

Then there will be two sergeants and a patrol sergeant also needed for the new station.

The following constables tendered their resignations: Cole, Salt, Roseburg and Yentres.

EIGHT CROSSINGS ONE WATCHMAN

Shunting Engine Backed Over Crossing on Coal-Gathering Italian.

NO WARNING SOUNDED

Jury in Inquest Emphasize Need of Protection at Water-Front Crossing.

Evidence plainly showing the need of more adequate protection for the public at the railway crossing at the foot of Church street, was brought out at the inquest into the death of Sergio Constantino, and aged Italian, which was held at the morgue last night under Coroner Currie. Constantino was killed by a backing shunting engine of the G. T. R. at this crossing on Feb. 28.

Officials of the Grand Trunk admitted that although there was a very busy crossing, there was neither gates or a watchman provided. In fact, it was admitted that there is only one man to warn pedestrians in the whole, eight crossings lying between Yonge and Cherry streets.

The Italian, who had been gathering coal droppings from the Standard Fuel Co.'s cars, while stooping down to pick up a piece of coal, was run down and killed.

William Kelly, the yard foreman, who threw the switch open for the backing locomotive, stated he did not see Constantino until the engine was a few feet from the man. He immediately shouted to the engineer to stop, but there was not sufficient time. As far as he knew no bell had been rung and neither had a warning whistle been sounded, although the regulations call for such being done at public crossings.

Several witnesses of the accident who were asked to testify, did not hear the bell or whistle sounded. The lack of precautions for public safety at this crossing was embodied in the verdict returned by the jury, which was as follows: "We find that Sergio Constantino came to his death on Feb. 28 by accident, owing to his own fault, but that the railway company, by using this sight of warning whistle, provide better protection for the safety of the public and should enforce the regulations as to trespassers."

Police Constable Beddington stated that it is the custom for numbers of the Italian women and children to gather along the tracks and pick up the particular instance from a car had told Constantino he could come over and gather up the fallen pieces of coal. As the officer had not received special instructions, he did not interfere with those who came to gather coal. In some instances these people even go under the cars to secure lumps of fallen coal. The constable considered that the traffic over the crossing warranted better protection than that afforded the public by the railway.

The United States must be heartily congratulated upon having such a true Democrat and such a fearless statesman at its head," says The Daily Chronicle, "and when some of the greatest nations seem to be making a mockery of humanity, his clarion call should echo far beyond the American shores."

The Daily News says: "President Wilson has set up a fine ideal, and, like a brave and upright man, has delivered himself into the hands of his judges, giving them a measure by which to test his loyalty to his country and his fitness to undertake it."

The Express describes Mr. Wilson's address as that of an academic professor called upon to deal with practical politics, full of noble sound, but difficult to tell what it may signify.

LONDON PAPERS ON WILSON'S ADDRESS

Pay Tribute of Admiration, But Express Doubt of It Being Practical.

FOR SOCIAL REFORM

Strikes New Note in American Politics—"True Democrat, Fearless Statesman."

LONDON, March 4.—(Can. Press.)—While paying a tribute of admiration to the earnest and lofty tone of President Woodrow Wilson's address, the London morning papers express doubt that he will succeed in translating it into practical politics.

The Daily Telegraph says: "President Wilson has plucked the string of pure idealism whose sound may be pleasant in the ears of his countrymen. But if congress is to join in the work of reform it will probably be in response to the irresistible movements in the nation itself rather than in deference to the desires expressed by the president. Whatever happens, however, his presidential term is certain to be a remarkable and vivid period in the modern development of the United States."

The Morning Post says: "It remains to be seen whether President Wilson is a great statesman. But at least it may be said that his address has statesmanlike qualities. Its thesis is no less remarkable, because not pugnacious. It strikes a new note in American politics of what over here we call social reform."

The Graphic says: "Every thoughtful man will wish the president good luck. Echoes of his noble address will bring to the old world of ours, in its mad pursuit, international uncharitableness and bleated schemes and military holocausts, a welcome reminder of better things and manlier strivings."

The United States must be heartily congratulated upon having such a true Democrat and such a fearless statesman at its head," says The Daily Chronicle, "and when some of the greatest nations seem to be making a mockery of humanity, his clarion call should echo far beyond the American shores."

WOMEN CONQUERED BY SULPHUR FUMES

Extreme Measures Used to Rout Suffragettes at Wolverhampton Meeting.

LONDON, March 4.—(Can. Press.)—The announcement that Mrs. Emmeline Pankhurst would address a suffrage at home at Cambridge today led the police to expect trouble from the undergraduates of the university, but owing to the restraining influence exercised by the proctors and police the meeting was not disturbed.

At Wolverhampton, however, where Miss Annie Kenny attempted to hold a meeting, there was a great disturbance. The meeting was broken up by the terrific din and the liberation of sulphurated hydrogen. The police protected the suffragettes, but did nothing to quell the uproar.

The Standard says it has learned that the inner council of the militants has planned raids on parliament and other outposts totally eclipsing previous exploits.

WEDNESDAY MORNING, MARCH 5, 1913

SUBURBAN FRANCHISES.

A somewhat easy passage through committee was given the bill giving a charter to the Forest Hill Railway Company. Toronto is vitally interested in such projects and as all the newspapers are now anticipating a population of 1,000,000 in 15 years the legislature should consider the rights of such a body of people before creating millstones to hang round their necks.

A very plausible—we shall not say specious—plea may be made for the granting of electric road charters around Toronto. Hundreds of working men, we are told, have to walk to their work, and the city cannot build a line, and this was described by Mr. Glover, one of the promoters, as an outrage. It is almost equally an outrage for Mr. Glover to tell the public that he expects to build an electric railway on the patronage of hundreds of workmen. Capital is not so considerate of workmen as all that.

The workmen would find themselves in poor case if a charter were granted to a company which might ally itself with other electric corporation systems and combine to shut the workmen out from the single fare journey on the city car lines which must be kept in view as the essential basis of all Toronto street car traffic.

Such an important thoroughfare as Eglinton avenue should not be alienated from the city, as it practically would be under the grant of a franchise to a company which might be incorporated at any moment with the octopus radicals that now embrace the city.

The legislature may grant a charter, but the question of a franchise should be left to the vote of the people, and there should be such terms included as would ensure to the city the opportunity of making the road a part of the city system when that becomes possible. It is incredible that a road of a few miles should be built with any alliance or connection with any other system, and in view of this the city should have the refusal of the road on terms which should now be formulated before any other company might be permitted to acquire it.

Dr. Godfrey was right to insist on the expenditure clause. There is no reason for giving a charter to be hawked about until the speculative fever rises high enough to give it value. But in justice to the "hundreds of workmen" present, and thousands of workmen in the future, the legislature should go slow about tying up the main roads about Toronto with vague franchise proposals.

CANADIAN INLAND WATERWAYS. In the report issued in December, 1909, the British Royal Commission, appointed to enquire into the waterways of the United Kingdom, it is very clearly shown that a period of railroad construction has led to the neglect of water transit. That was the experience of England, Germany, France and Belgium, and it was not till well on in the eighties that the three latter countries began to improve their waterways and begin a system of canal development involving large expenditures. As a consequence the growth of tonnage conveyed by water transport increased by leaps and bounds. Not only this, but the encouragement of waterways resulted in a marked reduction in freight cost, whereas railway rates have shown a constant tendency to increase.

In the last issue of his weekly paper, "The Commoner," Mr. William J. Bryan, the new United States secretary of state, has this to say concerning President Wilson's book, "The New Freedom":

Those who would calculate with accuracy the course of the ship of state under the pilot who takes his place at the wheel on March 4 can find in "The New Freedom" a chart of the seas to be traversed during the next four years. Progressives will welcome the book as renewed evidence of the author's grasp of the great task of popularizing the government and putting the people in the control of the instrumentalities that have from lack of information viewed with alarm the changes that are taking place will be instructed and, to a large extent, relieved of their fears by the definitions given and the distinctions drawn by Gov. Wilson.

Hamilton has good reason to be proud of the Elgar Choir. Its reception in Detroit on Monday night was most gratifying, and Mr. Bruce Carey, its talented conductor, has brought his chorus to a point of perfection only surpassed in Canada by the Mendelssohn Choir.

need of deepening the Welland-St. Lawrence system and opening up that other and equally valuable chain connecting Lake Superior with the grain growing provinces. Canada has the real key to the transportation situation in her own hands, but her governments refuse to open the door.

There has been much disputation over the relative merits of the present ocean waterway to Lake Superior and that proposed by the construction of the Georgian Bay Canal. It is not necessary to deny the possibilities of the latter scheme, and they may ultimately require its construction. But at any particular moment the value of a canal must be judged by the saving of time and expense, and the report on the Georgian Bay Canal distinctly admits that as compared with an improved system of St. Lawrence canals no practical benefit can be claimed.

Looked at without controversial animus all the weight of argument seems to be on the side of those that advocate the development of the present waterways. Their value is already proved and their carrying capacity can be easily and profitably increased. To launch into new schemes of problematical advantage before the existing routes are fully opened seems unwise, more especially when these mean encouragement to many harbors and distributing points on the lower lakes. Expert opinion agrees that the opening of the great lakes by means of a deep waterway on the St. Lawrence is perfectly feasible and it is a Canadian national necessity.

OUTSIDE THE DOOR.

There is one flaw in the Jeffersonian simplicity of President Wilson. It is stated that "it is his custom to leave his shoes outside (his bedroom door) at night to be polished." It used to be a proud boast of Americans that every real democrat brushed his own boots, or they remained unbrushed. President Wilson may be great, but he has lowered the democratic standard by placing his boots outside the door. No longer will English visitors feel alarmed lest they have made a faux pas when they place their extra heavy soled on the mat, nor wonder if the master of the house has retired to the cellar with them for the unwonted cleaning.

There must be some one who removes President Wilson's shoes from the outside of his door and returns them before the break of day. Who is relegated to this hitherto degrading duty? And what will become of the pocket shoe-shine outfits and the imported Greek if the new order of things takes hold of society. It is an ominous sign when men take to leaving their shoes outside to be polished, and Mr. Wilson is rocking the foundations and does not seem to know it. Perhaps it is on account of his academic training. And then follows the horrid suspicion—Does he wear goshoes? Or spats?

PROVINCIAL FINANCES.

Hon. I. B. Lucas made his financial speech in the legislature under well-known disadvantages, the cause of which has been widely deplored. No doubt the late Col. Matheson had his plans for the future, and his budget was probably well advanced in his mind. Mr. Lucas, however, has had no data to go upon beyond what is generally available, and only five weeks to formulate his proposals. Naturally his address took a retrospective turn.

After eight years, he pointed out, the Whitney administration has had a revenue of \$65,000,000, and there has been an expenditure of \$64,000,000. This comes well within the Mowbray limit of happiness and contentment. The present deficit of \$245,000 is but a nominal one, he explained. Had the senate not held up the T. & N. O. Railway grant passed by the house of commons there would have been no deficit, as it was composed, less \$74,000, of payments on interest for the English loan and railway certificates.

The loyal opposition naturally endeavored to prove that the province was going to the dogs under Premier Whitney. The fact is that Mr. Froude, in Mr. Lucas' place would probably have made identical explanations. Mr. Lucas made a business-like and satisfactory address under the conditions, and we hope to hear him when more permanent arrangements afford him the opportunity to dilate upon a budget all his own.

BRYAN ON WILSON'S NEW BOOK.

In the last issue of his weekly paper, "The Commoner," Mr. William J. Bryan, the new United States secretary of state, has this to say concerning President Wilson's book, "The New Freedom":

Those who would calculate with accuracy the course of the ship of state under the pilot who takes his place at the wheel on March 4 can find in "The New Freedom" a chart of the seas to be traversed during the next four years. Progressives will welcome the book as renewed evidence of the author's grasp of the great task of popularizing the government and putting the people in the control of the instrumentalities that have from lack of information viewed with alarm the changes that are taking place will be instructed and, to a large extent, relieved of their fears by the definitions given and the distinctions drawn by Gov. Wilson.

Hamilton has good reason to be proud of the Elgar Choir. Its reception in Detroit on Monday night was most gratifying, and Mr. Bruce Carey, its talented conductor, has brought his chorus to a point of perfection only surpassed in Canada by the Mendelssohn Choir.

The Canadian Northern Railway, came out with the announcement yesterday of the location of fourteen new stations to be constructed along the main Transcontinental line. These are to be erected from Port Mann, B.C., east and will be six miles apart, beginning at which they will be erected, beginning with Port Mann, are: Langley, Glen Valley, Mount Chilliwack, Rosedale, Popkum, St. Yalo. The steel along this section of the line, covering a distance of about a hundred miles, has already been laid and the construction of the stations following their completion, a service on that section of the line is to be inaugurated early this summer.

Grading of the C.N.R. British Columbia, from Yellowhead Pass to Port Mann terminals, according to a statement issued by the company yesterday, is now more than half finished. The percentage of grading finished between Port Mann and Kamloops, is 80 per cent, and remaining portion of the line in B.C. 35 per cent. The work on the tunnels between Port Mann and Kamloops is 25 per cent, complete.

Good Health will be yours if you drink Pilsener's "GOLD LABEL" ALE. YOU can almost FEEL your strength coming back, as you enjoy a bottle of this rich, creamy, old ale. Before meals, with meals and after meals—take it as you prefer. It will do you good anytime, and all the time.

SUN LIFE ASSURANCE COMPANY

In another column will be found the very gratifying report submitted by the directors of the Sun Life Assurance Co., at the annual meeting of shareholders. The record for 1912 is one of all-round increases, fully warranting the statement made by the Canadian life insurance offices, and acted upon by the new business trans- other Canadian company, but it is, we believe, greater also than that of any British Empire which does not issue industrial policies.

At first reading this seems something of a boast, but an examination of the figures shows that the previous year of no less than \$4,377,828.45, and the year increased by \$18,160.24. These figures are reflected in the income, higher by \$1,775,746.08, and in the assets, which stand better by \$5,704,730.51. That a purely Canadian institution is able to advance these remarkable results and to occupy so prominent a position in the insurance world of the British Empire, and to all patriotic Canadians.

SETTLERS' EXCURSIONS TO ALBERTA AND SASKATCHEWAN. Commencing March 11 and continuing every Tuesday thereafter until April 29th inclusive, the Grand Trunk Railway system will issue one-way Settlers' tickets to any station in Ontario, Peterboro, Port Hope and West to points in Alberta and Saskatchewan at exceptionally low rates. Through coaches and Pullman Tourist Sleeping cars will leave Toronto 11.00 a.m. for Winnipeg without change on above dates, via Chicago and St. Paul. Bertha may be secured in Tourist cars at a nominal charge.

The Grand Trunk Pacific Railway is the shortest and quickest route to Winnipeg, and in operation Winnipeg, Regina, Yorkton and Canora, Sask. also to Camrose, Mirror and Edson, Alta. Timetables, Land Pamphlets and full particulars relative to the Grand Trunk Pacific Railway may be obtained on application to Grand Trunk agents or write to C. E. Horning, District Passenger Agent, G.T.R., Toronto, Ont.

NEW YORK, Mar. 4.—(Can. Press.)—Twenty-four struggling and kicking stowaways were dragged from the hold of the Star Line, Cedric, shortly before she sailed today. They were members of a small army of foreigners, en route to Italy, who were unable to obtain visas for the steamship and sought to smuggle their way across. They were arrested, and the stowaway list on the steamer they had ever known.

Headache Over the Eyes? Look For Nasal Catarrh. Catarrh Never Stops in One Place—It Spreads Rapidly—Often Ruins Health Completely. In this changeable climate it is the little colds that drift into Catarrh, passes rapidly from the throat or nose to the bronchial tubes and then to the lungs. You can't make new lungs any more than you can make new fingers or toes, but you can cure Catarrh.

C. N. R. LOCATES ITS NEW B. C. STATIONS. Fourteen in Hundred-Mile Stretch From Port Mann—Provincial Work. The Canadian Northern Railway, came out with the announcement yesterday of the location of fourteen new stations to be constructed along the main Transcontinental line. These are to be erected from Port Mann, B.C., east and will be six miles apart, beginning at which they will be erected, beginning with Port Mann, are: Langley, Glen Valley, Mount Chilliwack, Rosedale, Popkum, St. Yalo.

At Osgoode Hall ANNOUNCEMENTS.

4th March, 1913. Motions set down for single court, for Wednesday 6th inst. at 11 a.m. 1. Re Nichols-Hall v. Wildman. 2. Re Nichols-Hall v. Wildman. 3. Re Nichols-Hall v. Wildman.

1. Re Moulton Estate, (to be continued). 2. Rocque v. City of Ottawa. 3. Warren v. Forst. 4. Leckie v. Marshall. 5. Hill v. Rice Lewis. 7. Snell v. Briches.

Master's Chambers. Before J. Platt's right, K.C. Master Brownie v. Timmins—J. G. Smith for defendant. R. McKay, K.C., for plaintiff. Motion by defendant for order setting aside statement of claim as being filed without leave, and therefore irregular under C.R. 305, the time not having expired under C.R. 352. Judgment: When the statement of claim may be properly validated, as of this date, it would seem fair that the question of interest on any sum that plaintiff may ultimately recover, should be left open to the trial judge, or other tribunal to deal with as in the similar case of Fink v. Leitz, if it appears right to so direct. Costs of motion will be to defendant in any event, and the trial should certainly not be any longer delayed, as the interest on the sums claimed is nearly \$2000 a year.

Canlin v. Clarke—H. J. Martin, for defendant obtained on consent, order allowing parties to withdraw pleadings filed, to allow new pleadings in their stead. Whibley v. Foster—R. G. Smythe, for plaintiff, moved for order allowing amended statement of claim and record. K. Lennox, for defendant. Order made. Costs in cause to defendant.

Hawker v. Taylor—Macdonnell (Dewart & Co.), for plaintiff, moved for a judgment for possession. Hett (D. Cameron), for defendant. At defendant's request, motion enlarged for a week. Phillips v. Monteith—F. Aylesworth, for plaintiff, moved for judgment under C.R. 603. T. H. Pewe for defendant. At plaintiff's request, motion enlarged for a week.

Toronto Lumber Co. v. Hough—Crichton (Smith & G.), for plaintiff, obtained an order vacating lien and dispendens. Bank of Ottawa v. Altink—H. C. Mackenzie, for plaintiff, obtained order for issue of writ and service of notice of same on defendant, in the United States.

Judges' Chambers. Before Latchford, J. Re Shanon—F. W. Harcourt, K.C., for infants, obtained an order directing accountant to discharge mortgage upon payment of \$4272.50. Re Poole—F. W. Harcourt, K.C., for infants, obtained order allowing payment into court of \$450. Re R. A. Hood—F. W. Harcourt, K.C., for infants, obtained order for payment of \$75 a year, for maintenance.

Re Chewett—F. W. Harcourt, K.C., for infant, obtained order, allowing payment into court of \$100, to credit of infant. Re Stritch—F. W. Harcourt, K.C., for infants, obtained order allowing payment of boy's share for maintenance, to Elizabeth Stritch, and for payment of girl's share to Margaret Stritch.

Thompson v. G. T. Ry. Co.—F. W. Harcourt, K.C., for infants, obtained order amending judgment, so as to order one year's maintenance prior to judgment and allowing maintenance to be paid quarterly. Re Henderson—F. W. Harcourt, K.C., for infants, obtained order allowing payment into court of \$300, and releasing land.

Re Vorusso—F. W. Harcourt, K.C., for infant, obtained order allowing payment into court of \$201.21, to credit of infant. Re Hamilton—F. W. Harcourt, K.C., mortgagee of infant's land, allowing purchase money on lands bought by infant's father, to secure infant's debt.

Re Brethour—F. W. Harcourt, K.C., for infant, obtained order allowing payment into court of \$1047.48, for infant. Ash v. G. T. Ry. Co.; Anderson v. G. T. Ry. Co.; O'Connell (Petroleum), for Ry. Co., moved for mandamus to Hon. Mr. Justice Brillon, to compel him to tax costs in arbitration proceedings. J. G. Smith for land owners. Motions refused with costs.

Single Court. Before Middleton, J. Re Lydia Phillips Estate—J. H. Spence for executor. G. H. Kilmer, K.C., for nephews and nieces. W. A. Lewis (Brookville) for other legatees. Motion by executor for an order construing will of Lydia Phillips, late of Village of Athens, Leeds County, remains an amount of \$2900 to which the clause of the will in question applies. In addition there is the proceeds of a parcel realty as to which the testatrix died intestate.

question is, is this sum divisible among the six nephews and nieces or the legatees. The order will declare that the fund in question be divided amongst the nephews and nieces, and that the costs of all parties be paid out of the estate. As the testatrix died intestate with respect to a parcel of land, the proceeds of this land will bear the cost.

Before Falconbridge, C. J. Hubbard v. Greer—W. H. Washington, K.C., for plaintiff. W. T. Evans (Hamilton) for defendant. Action by one real estate agent against another to recover commission in alleged sale of land by plaintiff for defendant. Judgment: Plaintiff is not a mere agent. He had an option from defendant in his own name, accompanied it is true by a letter whereby he was to get a commission if option accepted. This option expired. The proceeds were subsequently sold under another option given to H. S. Lees by the owners of the property, not by the defendant, who only had a right to sue from them, but who made an option out of the transaction. The plaintiff's claim is not a claim for a commission with costs. I prefer to leave to amend. Ninety days' stay.

Appellate Division. Before Mulock, C.J.O.; Clute, J.; Sillars, J.; Sutcliffe, J.; Leitch, J.; Ramsay, J. Toronto Railway Co.—D. L. McCarthy, K.C., for defendant. J. P. MacGregor for plaintiff. Appeal from judgment of the single court, of Jan. 8, 1912, delivered by James Jamsay, administrator of the estate of Jean Spence, to recover \$5000. Spence, caused by being struck by a car of defendants while crossing Bathurst street on evening of Dec. 11, 1911, alleged to have been caused by negligence of defendant company. At trial judgment was awarded plaintiff for \$1000 and costs. Judgment on appeal allowed. Judgment set aside and trial directed. Costs of former trial and this appeal to be costs in the cause.

Sphinx Manufacturing Co. v. Reesor—R. T. Harding (Stratford) for plaintiffs. D. S. Robertson (Stratford) for defendant. Appeal by plaintiffs from judgment of Barron, J., of County of Perth, of Dec. 13, 1912. Action on promissory note for \$400 made by defendant in favor of plaintiffs. Taylor Co. and endorsed by plaintiffs. Defendant denied making note, says his signature to document, the signed note, was obtained by fraud and misrepresentation, which was known by plaintiffs, and that he has received no consideration for same. At trial action was dismissed with costs. Appeal dismissed with costs.

Piper v. Stevenson—E. D. Armour, K.C., for plaintiff. E. Gillies for defendant. Appeal by defendant from judgment of Meredith, C.J., of Jan. 21, 1912. Action claiming perpetual injunction restraining defendant from trespassing in and upon lots in question in North Toronto and for damages. Plaintiff claims title by possession and defendant by deed from registered owner. At trial judgment was awarded plaintiff for possession without costs. Appeal argued. Judgment reserved.

Re Moulton Estate—M. H. Ludwig, K.C., for administrator. E. C. Hutchison, K.C., for Mrs. Moulton. Appeal by administrator from the order of McDonald, J., of surrogate court 1912, allowing Grenville of Dec. 16, Moulton, widow of W. H. Moulton, deceased, for moneys loaned deceased to \$337.50, to be paid by administrator out of the assets in his hands. Appeal partially argued but not concluded.

Appreciated Their Work. Mr. McEneaney has forwarded his cheque for ten dollars to the firm's benefit fund in appreciation of the services rendered by the department on the occasion of the death of Jean Spence, caused by being struck by a car of defendants while crossing Bathurst street on evening of Dec. 11, 1911.

To sit with Wife by the fireside on a winter's night, With a good pipe and matches, is my great delight, Because I know the matches, Eddy's Silents, are alright. They're Safe, Sure, Silent—each time I strike I get a light.

TUBERCULOSIS EXPERTS TO MEET IN OTTAWA. Thirteenth Annual Convention—Duke of Connaught Will Be Present. The thirteenth annual convention of the Canadian Association for the Prevention of Tuberculosis will be held under the presidency of Hon. Adam Beck on March 12 and 13, 1913, in Association Hall, Ottawa. The Duke of Connaught has consented to be present. During the convention the new Ottawa sanitarium, the gift of Hon. George H. Parley, will be officially opened for the first time. Experts and social workers from various parts of Canada will take part in the proceedings.

Builds New Blood Cells. It is estimated that there are over 75,000,000,000 red blood cells in the human body. These red blood cells move in the blood currents, carrying through the arteries each its little load of oxygen, which it transports to the distant tissues, that they may be invigorated and vitalized anew. When the red blood cells shrivel and waste, weakness and disease result. It is by forming new blood cells that Dr. Chase's Nerve Food restores strength to the weakened and worn-out body. Miss Marie Voigt, Midway, Ont., writes: "Dr. Chase's Nerve Food has proven worth its weight in gold to me. I was pale and thin and nervous, and my system was run down in every way. The skin became a yellow color, and I suffered great misery from piles. By the use of Dr. Chase's Nerve Food my health has been fully restored. I have a good appetite and now feel strong and happy." Working hand in hand with Nature, Dr. Chase's Nerve Food is the surest means of building up a run-down system.

JOHN CATTO & SON

Spring Attire

is arriving daily in tasteful assignments of Ladies' Handsome Ready-to-Wear Suits, in serges, tweeds, whipcords, in all the approved spring shades. From \$18.00 to \$40.00.

LADIES' COATS IN SPRING WEIGHTS, in tweeds, serges, cloths, from \$10.00 to \$25.00.

SPECIAL OFFERINGS IN SEPARATE SKIRTS in serges, cloths, tweeds, etc.; colors in black, Speckled values in up-to-date styles at \$5.00 to \$12.00 each.

MOTOR CAR RUGS. Specially imported for motor cars, summer travel, etc., an immense range of Handsome Check and Plain Pure Wool Rugs, warm and comfortable. From \$25.00, \$40.00, \$50.00 to \$100.00 each.

WASH FABRICS. This season's importations of washable dress fabrics eclipse anything yet shown in this market. Our collection contains only the very best disclosures along the line of Zephyrs, Gingham, Crepes, Cottons, Marquisettes, Dress Galateas, Voiles, Vestings, Mouslins, Chambrays, Cambrics, Prints, etc.

CANADIAN ONE OF WILSON'S CHOICES

Franklin Lane, Born in P. E. I., Is Secretary of the Interior.

WASHINGTON, March 4.—(Can. Press).—One Canadian becomes a cabinet minister on the accession of President Wilson. He is Franklin Knight Lane, who was born in Prince Edward Island in 1864. He was educated in California, however, and practised law there. He was candidate for governor on the Democratic ticket in that state and received the vote of his party for senator. He is secretary of the interior.

POLE BEING RAISED ALMOST KILLS MAN

Arthur Elliott, Brock Avenue, in Western Hospital in Serious Condition.

When a large telegraph pole fell at the corner of Springhurst and Jamieson avenues late yesterday afternoon Arthur Elliott was so seriously injured that very little hope is entertained for his recovery. The man lies in the Western Hospital suffering from a broken back and several broken ribs.

The Interurban Electric Company had a gang of men erecting poles for a new line of wires. While the pole was being braced into position it slipped. Elliott was working underneath it and could not escape.

The pole fell across his back and side, crushing him. The police ambulance took the man to the Western Hospital. Elliott lived at 623 Brock avenue and is 37 years of age.

Struck Down by Wagon. Andrew Downey, 78 Massey street, was struck by a wagon at Queen and Bathurst streets last night and sustained a broken leg. He was removed to St. Michael's Hospital in the police ambulance.

THE WEATHER

OBSERVATORY, TORONTO, March 4.—(P.M.)—Fair weather has prevailed today in most parts of Canada, but light snowfalls have occurred in Eastern Saskatchewan and Manitoba. Conditions have been milder in the western provinces, but another cold wave from the northward is rapidly moving into Saskatchewan and Manitoba.

Minimum and maximum temperatures: Victoria, 42-43; Vancouver, 40-50; Kamloops, 28-44; Edmonton, 26-40; Banff, 14-20; Calgary, 24-44; Moose Jaw, 8-40; Qu'Appelle, 2-34; Winnipeg, 10 below-26; Port Arthur, 12 below-24; Pelly Sound, 4 below-8; London, 15-25; Toronto, 15-25; Kingston, 8-20; Ottawa, 4 below-18; Montreal, 4-18; Quebec, 4 below-14; St. John, 10-24; Halifax, 18-28.

—Probabilities— Lower Lakes, Georgian Bay, Ottawa Valley and Upper St. Lawrence—Western Ontario—Fair to clear, with a little milder; fair today; Thursday colder again.

Lower St. Lawrence and Gulf—Moderately cold, with light local snowfalls. Maritime—Fair to clear, with easterly winds; milder, with light falls of snow or sleet.

Superior—Strong westerly to northwesterly winds; light snowfalls and becoming colder.

Manitoba and Saskatchewan—Northwest and north winds; fair and colder again.

Alberta—Fair and comparatively mild.

THE BAROMETER.

Table with 4 columns: Time, Ther., Bar., Wind. Rows for 8 a.m., Noon, 4 p.m., 8 p.m., Mean of day, Difference from average, 4 below, highest, 25, lowest, 15, snow, 0.3.

STEAMER ARRIVALS.

Table with 3 columns: From, At, Arriving. Rows for Rotterdam, New York, Liverpool, London, etc.

STREET CAR DELAYS.

Tuesday, March 4, 1913. 8.30 a.m.—Sleigh stuck on track at Adelaide and Yonge streets, causing 5 minutes' delay to Bloor cars northbound.

9.30 a.m.—King and Bay, sleigh stuck on track, 5 minutes' delay to northbound Bloor cars.

10.07 a.m.—Horse down on track at King and Church, 10 minutes' delay to Church cars.

10.08 a.m.—Load of straw stuck on track at Broadview and Withrow, causing 10 minutes' delay to Broadview cars.

2.03 p.m.—Sleigh stuck on track at Adelaide and Yonge, 5 minutes' delay to Harbord cars.

2.10 p.m.—Lansdowne and Bloor, load of coal stuck on track; 10 minutes' delay to Carlton and Bloor cars.

3.45 p.m.—Wagon load of coal stuck on track at Bloor and Lansdowne; 7 minutes' delay to Carlton cars.

3.48 p.m.—Sleigh stuck on track at Eastern avenue and Queen; 5 minutes' delay to King cars.

5.35 p.m.—Ossington and Bloor, horse down on track; 3 minutes' delay to Bloor cars.

1.01 p.m.—G.T.R. crossing. Front and John, held by train; 4 minutes' delay to Bathurst cars.

7.10 p.m.—Crawford and Queen, repairing water main; 5 minutes' delay to Queen cars.

BIRTHS.

BICKFORD—On Tuesday, March 4, 1913, at 49 Forest Hill road, the wife of Major Harold C. Bickford, of a daughter.

DEATHS.

GRIFFIN—At St. Michael's Hospital, on March 4, 1913, Margaret Eugenie, infant daughter of Eugene and Mary Griffin.

HAGGAS—On Tuesday, March 4, 1913, Joseph Haggas, in his 52nd year. Service Thursday evening at 8 o'clock at 183 Montrose avenue, Toronto.

HASTINGS—On Sunday, March 2, 1913, George Hastings, aged 75 years. Funeral from his late residence, 210 Simcoe street, on Wednesday at 2 p.m. Interment in St. James' Cemetery.

JOY—On Saturday, March 1, 1913, at his late residence, 515 Bathurst street, William Hudson Joy, in his 81st year.

MURPHY—At Toronto, March 2, 1913, Helen Murphy, aged 20 years. Funeral from E. R. Banks' undertaking parlors, 455 West Queen, on Wednesday, March 5, at 8 a.m., to Union Depot, thence to Kincardine for interment.

PATTERSON—Died on Tuesday, March 4, at his late residence, 132 Farnham avenue, Alexander Patterson, Jr., drug appraiser H.M.C., beloved husband of Libbie Patterson, and only son of Alexander Patterson, J.P.

WARDELL—At Orchard Hill, Dundas, on Monday, March 3, 1913, Alexander Richard Wardell, in his 78th year. Funeral Thursday at 9 a.m. to St. Augustine's Church.

LARGE INCREASE IN METALLIC OUTPUT

Thirteen Per Cent. Gain in Ontario—Substantial Production of Gold for First Time.

In Ontario last year there was a mineral output amounting to \$47,471,990, an advance over 1911 of \$6,496,193, or 13 per cent. This fact is shown in the annual report submitted by Hon. W. H. Hearst, minister of lands, forests and mines, to the legislature.

Of the total value \$34,230,891 was for metallic and \$13,276,425 for non-metallic production.

The largest amount was that received for silver, \$17,456,080, an increase of over one and a half million dollars. The output of silver weighed 30,322,805 ounces, which was over a million ounces less than in 1911, but the higher prices brought about the increase money return. Since the opening of the silver mines around Cobalt nine years ago there has been a production of 156,000,000 ounces, with a total value of \$28,000,000. The first year's output, in 1904, amounted to \$111,887.

There was paid out in dividends by the mining companies in the Cobalt camp over seven million dollars in 1912. The total distribution of profits since the beginning of the camp has been close upon forty-one million dollars on a gross aggregate return for sales of silver of \$81,772,740.

For the first time in the history of Ontario the production of gold in 1912 had a value of \$42,537; in 1913 of \$1,559,252. The explanation is found, of course, in Porcupine, where the mines came into yield during the year. The Hamilton and Dome are the leading producers of the Malvern, Wipond, Jupiter, McEwan and others. An unfortunate labor strike occurred in November, and to some extent lessened the output of the Malvern, Wipond, Jupiter, McEwan and others. An unfortunate labor strike occurred in November, and to some extent lessened the output of the Malvern, Wipond, Jupiter, McEwan and others.

The output of big iron was valued at \$8,054,363, a large decrease over 1911. Nickel brought \$4,722,040, an increase of \$372,000, or 31.5 per cent. over the year. The prospects are for large expansion of the nickel industry in the future, says the report.

Of the non-metallic output, common brick was the big item, it having a production valued at \$3,178,250, and Portland cement at \$3,373,653 and natural gas \$2,267,897.

The production from the mineral industry of Ontario are considerable. Taking the province as a whole, dividends to shareholders in 1912 would amount to \$14,000,000 or \$15,000,000. They were obtained principally from the silver ores of Cobalt and the nickel-copper mines of Sudbury, but were contributed to also by the production of oil, natural gas, salt, feldspar, talc and other substances raised principally in eastern and southwestern Ontario.

There is something attractive in the idea of a revolving residence recently advanced by a Parisian architect. The house would be made to turn on its axis, or to swing like a swivel chair, so that the occupants, when tired of looking out of the sitting room toward the front of the compass could, by merely moving a lever, or better still, by touching an electric button, soon be in a position to look toward another point of the horizon.

Under the plan of this arrangement those fond of the sun might sit in it all day, while those desirous of the shade could as easily make themselves comfortable by the lower end of the house should, for any reason, be cooler than the front of the house, and conversely the state sought by the inmates, it would be no trouble at all to sail the living rooms around from the front; or, if coal might be saved by moving the back of the house to the side, or by changing the east side so that it would face west, all that would be necessary would be to start up the revolving mechanism.

There are many of course who would enjoy the variety of outlook incidental to continuous revolution, and there is no reason why this recreation should not be indulged in with moderation. It might make things a little difficult for the grocery boy and the mailman, unless the house were also provided with a moving yard, but it is fair to assume that in course of time peddlers and others wishing to board the house at the kitchen landing would become so expert as to succeed reasonably often at the first or second trial.

As in all cases where motion is a factor, it might be necessary for municipalities to adopt speed ordinances to regulate the movement of revolving homes. Some there would be, inevitably, who would not be content with a reasonable number of revolutions a minute, and only stringent laws and their positive enforcement would prevent such people from fanning the neighborhood from early morning till late at night. In fact, the introduction of the revolving house would call for numerous changes in the municipal code. Householders should be prohibited from revolving their homes after 10 at night; no housekeeper should be permitted to leave her house in revolution while she was expecting calls; notices should be given by whistle or gong of intention to revolve the house at least five minutes before it was put in motion; no ashes should be removed from a house while revolving; painting revolving homes in stripes and plaids should be forbidden, etc.

It is impossible to anticipate everything. The best thing to do now is to keep the matter in view, so that by the time the revolving house makes its appearance we shall be prepared to handle a new line of problems.—Christian Science Monitor.

HENRI BOURASSA TO SPEAK.

Henri Bourassa, the Nationalist, will address the Empire Club on "Imperial Relationship" tomorrow at 1 o'clock at McConkey's Restaurant.

CITY INDEPENDENT IN FINANCE AFFAIRS

Offers For Toronto's Securities Must Be High—Stringency Is Past.

Offers for Toronto's securities have to be on the basis of those for choice liquid assets, or they will be refused. Two offers, both from this side of the Atlantic, were considered by the treasury board yesterday afternoon, and were turned down because they were below 92-1-2, the price at which previous securities had recently been sold.

There is no more stringency in the finances of the city, and therefore, no necessity for accepting offers under 92-1-2.

New York papers have on their financial pages large advertisements of Harris, Forbes & Co., brokers, offering \$1,000,000 of Toronto street improvement 4 per cent. coupon bonds, each of \$1000, and running for ten years. The bonds are offered at 94-3-4. As they were bought at 92-1-2, the brokers get 2-1-4.

NEWCOMERS MADE RECORD FOR YEAR

Seven Hundred, Mostly From Great Britain, Reached the City Yesterday.

Toronto saw the biggest immigration day so far this year yesterday, when nearly 700 new arrivals came in at the Toronto Union Station. About 400 of these came in by G.T.R. and 300 by C.P.R. The newcomers were composed about 80 per cent. of British immigrants. Between two and three hundred of them remained in Toronto, the others being distributed throughout the province and points in the west.

Harper, Customs Broker, McKinnon Buildings, 10 Jordan St., Toronto.

TWO MEN ARRESTED FOR OUTSIDE POLICE

Milton and Campbellford Officials Looked After by Local Police.

Alfred Holland was arrested by Detective Newton on King st. late yesterday afternoon. The crown attorney at Milton wired Inspector of Detectives Kennedy to arrest Holland and Detective Newton recognized him from a description.

Fred Burleigh was arrested at 67 Ryerson street, where commodious quarters have been secured. In their new location this firm have nearly three times their former floor space, which will greatly increase their facilities for handling business.

The new offices afford a splendid example of the "day-lit" principle, having windows along the Victoria and Richmond streets sides, and a light well on a central hall. This feature should be an immense help in the production of high-grade advertising.

REAL Strength Given to Fagged Nerves

When the nerves are worn and weary and fall to obey your control—when you lose through many a weary night, sleepless and hollow-eyed—when your enfeebled nerves will not allow you to concentrate properly on your work when you need Sanguinaria—when you are a real sufferer from the "fagged nerves" of heart and nerves increased action only to be relieved by a condition worse than before, it is a real blessing to have a powerful and permanent, lasting, rejuvenating tonic.

This is because it is composed of the very phosphates of which your nervous system is built. It provides the food that your nerves cry out for. It is not a false stimulant, it does not excite the nerves, it rebuilds and re-energizes them. It also contains the Manganese and Iron of which the life-giving red blood corpuscles are made. Not an atom of alcohol—not an atom of harmful drugs is used in its make-up. Surely your commonsense approves of this tonic. Get it today. Rebuild and revitalize your worn nerves today. Remember the happiness you once knew in the keen joy of stalwart health. Get Sanguinaria today. It is sold only at the Great Drug Stores: 709 Queen Street, 152 Dundas Street, 491 Parliament Street, 242 College Street, 599 Bathurst Street, 1213 Bloor West, 222 West 84th Street, VanZant Drug Stores and R. A. Legge, College and Ossington Avenues.

YOUR BABY'S SKIN

Is the most delicate fabric in the world. You may cause it permanent harm by using poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk, the baby's best balm.

Zam-Buk is made from the finest herbal extracts, and is free from any harmful, poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer!

Most ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender delicate skin of a baby, and remain on the skin an irritant mass. Just put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's skin troubles and wash with Zam-Buk Soap.

Zam-Buk should also be used for cuts, burns, scalds, eczema, piles, ulcers, etc. All druggists and stores sell at 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Woman's Realm --- the Household, Fashions and Society

Miss Marie Foy gave a very enjoyable large reception yesterday afternoon in the Speaker's chambers, Parliament Buildings, where an orchestra was in attendance and the mantle-pieces and tables were banked with coral, begonias and narcissi. Miss Foy looked charming and graceful in a draped gown of deep blue crepe de chine, with white lace yoke and jabot and diamond ornaments. The tea table was centred with a magnificent large basket of daffodils, tied with ribbon of a pale shade, and smaller clusters of the same at the corners of the table. The assistants were: The Misses Foy, Mrs. Charles Murray, Mrs. O. Fortman, Miss Ethel Webster, the Misses Miller, Miss Murphy.

Mrs. W. T. White and Mrs. Robert Rogers will be the joint hostesses in Ottawa on Monday evening, when a musical reception will be given in the reception room of the house of Commons by Miss Margaret George, Mr. Arthur George, Mr. Tom George, Mr. Von Kunitz and Mr. Kirsbaum. This will be one fashionable musical event of the season in Ottawa and a party from Rideau Hall will be present.

Gen. Cotton is in town from Ottawa and attended the reception at the Parliament Buildings yesterday.

At the twilight musicale in the W. A. Gellert hall this afternoon at four o'clock Mr. Peter Kennedy, director of the Canadian Academy of Music, will give a talk on form and color in art and music. Some choice musical selections will also be given by the string quartet of Miss Reid, and Mr. Capps will contribute some songs. The hostesses are Mrs. R. E. Wilson, Mrs. John A. Ross and Miss Chaplin.

Mrs. Kathryn Innes-Taylor and Miss Grace Smith are giving a joint vocal and piano recital this evening at 8 o'clock in the Conservatory Music Hall.

Mrs. O. B. Sheppard gave a most successful tea yesterday afternoon at her delightful new house on Wellesley street, where all the charming rooms were duly admired by the guests, which included several hundred of Mrs. Sheppard's friends. An orchestra was in attendance and played on the landing throughout the afternoon, while all the rooms were fragrant with flowers and two tea tables presented a due crowding; both were polished and covered with cluny lace and embroidered with daffodils and narcissi in cut glass and silver. Mrs. Sheppard looked extremely handsome in a gown of old blue brocade with honiton lace and ornaments of lapis and pearls, bouquet of violets. Mrs. Williams of Peterboro, who received with her, wore a becoming white dress with brown, with oriental embroidery, diamond ornaments and a bouquet of pink roses; Mrs. McWilliam, Mrs. J. W. Brown, Mrs. Dress of pale yellow tulle with Limerick lace; Mrs. Charlie Palmer, who also received, looked charming in a gown of black plush with diamond ornaments, red slippers, a black tulle bow in her hair and carried an armful of orchids. Mrs. J. W. Brown, Mrs. Coe, who assisted in looking after the guests, wore a smart rose colored gown and black hat, with white and black plumes, and the other assistants were: Mrs. Harold Lloyd, in gold satin; Mrs. Clare A. Sheppard, in a very beautiful and becoming gown of apricot satin, with real lace and embroidery, bouquet of violets; Mrs. Arthur Lindsay, Mrs. J. W. Brown, Mrs. Hilda and Helen Strachan, Dorian Bolsenu, Rogers, Ocho; Miss Perry, Miss D. Lamont.

The marriage of Miss Maude Cooke to Dr. William Baillie takes place this afternoon in the Church of Stephen the Martyr.

The next meeting of the Speranza Musical Club will take place at the residence of Miss Marion Armour, 103 Avenue road, today. The program "Scandinavian day" will be arranged by Miss Armour.

Mrs. Adam Beck was in town for Miss Foy's reception yesterday afternoon.

Miss Irene Dinick is giving a tea for her guest, Miss Hazel Brown, Montreal, this afternoon, at 128 Heath st.

The Thursday morning meeting of the Women's Musical Club will be an open one. The program "Women Composers" has been arranged by Mrs. Frank Converse Smith and Mrs. Frank Blachford.

Mrs. Dignam is leaving for New York on Thursday.

Mrs. W. B. Maclean is giving a small bridge party on Thursday afternoon.

Mrs. E. J. Christie has asked a few people in to tea this afternoon.

Mrs. W. Hamilton Burns is giving a bridge party on Friday afternoon.

Madame Riverts' causerie and Dramatic Club will take place on March 12.

The directors of the Harbour Conservatory and Concert Society have issued invitations to a recital by Ethel Leginska, the celebrated pianist, on Monday evening, in Foresters' Hall, at 8 o'clock.

Mr. and Mrs. Claude Fox returned from the south this week.

For Rough, Wrinkled, Freckled, Pimpled Skin

(From the Woman's Home Journal.) As March winds bring dust and dirt are apt to inspire any complexion, this information will be of special value right now. If you have any of the common blemishes, don't use paint, powder or anything else to cover it up. To often this will emphasize the defect. Besides, it's much easier to remove the blemishes with ordinary mercurized wash. Applied nightly, the wash will gradually remove freckles, pimples, blackheads, moth-patches, sallowness, red or yellow blotches, and other eruptions. The affected cuticle is absorbed, a fresh one is formed, and the skin is brought wholly to view. Ask the druggist for an ounce of mercurized wash and use it like you use a cold cream. Remove in morning with soap and water. Many who have tried this wash and have seen the result, are now using it. It is a most successful remedy for all the above blemishes and is a most valuable skin preparation. It is a most valuable skin preparation. It is a most valuable skin preparation.

IF THIS IS YOUR BIRTHDAY.

A quiet year is ahead for you with the usual routine and some good fortune. If you are employed it will be possible for you to make an advance. Those born today will have artistic tendencies and desirable personalities. They will lead well rounded lives with congenial pursuits and well-loved friends. Their early training should include practical duties.

The Daily Hint From Paris

TRIMMINGS AT DIFFERENT ANGLES.

The little evening hat at the top of the sketch was very becoming to the blonde who wore it. The crown is oval and covered with pink roses, and around it was draped black netting, which had first been accordion-pleated. The ends were cut square and arranged in pompon fashion at the back.

The black velvet hat, worn low on the head, is becoming to most people. The one in the sketch is trimmed with a single yellow plume curled forward. The feathers harmonized with the auburn hair of the wearer.

Mrs. Godfrey Greene, Ottawa, is staying with Mrs. Phillip Toller for a few days.

Mr. and Mrs. Alec Gibson have moved into 51 Rowanwood avenue, the house formerly occupied by Mr. and Mrs. Louis McMurray.

Mrs. Leadley, North Sherbourne street, gave a small tea this week.

The regular monthly meeting of the Toronto Humane Society will take place on Thursday afternoon, in St. James' Parish House.

Mrs. Frank Hodgins and Mrs. Lockhart are in Florida for a visit.

Mr. and Mrs. W. Eastwood Booth announce the engagement of their only daughter, Mabel Stuart, to Mr. Wm. Croft, Jr., of Western Hill, Rosedale. The wedding will take place early in April.

Aura Lee Club will hold a Cinderella dance in the clubhouse on Saturday. Tickets may be secured at the club on the evening of the dance.

Receptions Today.

Mrs. W. Steele Stewart (Miss Constance Junior), with her mother, Mrs. William Junior, 106 James avenue, 3 to 5 o'clock. Mrs. Rathbone, 15 Laxton road, Mrs. Sherin, Lakeside, with her.

Receptions.

Mrs. Caspar, Clark Park, East Queen street, Friday, March 7, for the last time. Mrs. George Hodgins, 13 Empress crescent, Thursday. Mrs. Harry Strathay, 38 Bernard avenue, Friday.

There are several methods of utilizing electricity for the purpose of forcing crops, and in nearly all cases the success of the scheme depends upon the price secured for early vegetables. The very latest thought in this line is the use of Canadian farmers, who supplies the current to the ground in a manner that keeps the soil at a temperature at all times at the same point as when the sun shines upon it. The result is that the growth of the vegetation is very materially hastened, and the consumption of current is rather heavy, so that the margin of advantage is very small and the treatment is successful only when the best races are obtained. This farmer has been able to market the treated crop several days in advance of his neighbors.

One of the features of the electrical show by New York was a model of the original plant on Pearl street, which was the first public service station in that city, where the current was switched on for the first time on Sept. 4, 1882. There were six 125-horsepower dynamos, and there were fifty patrons using 10-degree lamps. The work of the station is now being done by a single generator of 30,000 horsepower. The service of the entire city today consists of 5,000,000 actual lamps aggregating about 10,775,000 50-watt equivalents served from two gigantic central stations and 31 substations over 1222 miles of underground mains and feeders.

"SALADA"

TEA reaches you just as it left the Gardens of Ceylon, with its fragrance and flavor unimpaired.

In Sealed Lead Packets Only. Black, Green and Mixed.

NURSERY

CONDUCTED BY Elvira Murray

The Imperative Duty of Every Father Toward His Son

From my own experience and observation, I am almost inclined to believe that the greatest obstacle to personal purity is the tendency of parents to doubt or deny the prevalence of dangerous evils, to think their own boys will remain unscathed, and to affect to hold that plain dealing, such as I have indicated above, is, in the present day, at least uncalled for.

Such an attitude is now positively culpable. I know no severer condemnation of a father than the excuse of a youth whose life has suffered blight, when he knows honestly say, "Because I did not know."

Fatherhood in our fervid urban life has new and other duties than merely to provide food, raiment and education. Distasteful to it may be, every father should sum up in a few pithy sentences the best wisdom that life has brought him to this field for the benefit of his boys.

Finally, clergymen, teachers and others who have opportunity to speak to boys should always emphasize the sentiment of honor. In its best sense this means loyalty to the unborn and to the ideal which is committed into the hands of young men.

Honor is a complex sentiment often perverted and nowhere fully exploited. It exists in gamins, students, and in more potent and best in the young. It is a little for moral improvement, but more for the prevention of the evil above described constitutes one of the best and most hopeful signs of our times.—G. Stanley Hall.

"BAKERS' SPRING OPENING.

This is the season for spring announcements of coming fashions, and that of Mrs. Baker, 16 East Clark street, will be coned with interest. Between March 11 and 15 she is exhibiting a select assortment of the latest Parisian goods, including handsome crepes and charmesuses of the latest afternoon and evening wear. Other features are new tailor-made suits, combination and new embroidered summer crepe velvets and bronte, also martiniolles. Mrs. Baker has also in stock a beautiful selection of laces and bandings.

MISS JANE EARLE DEAD.

CORNWALL, March 4.—(Special.)—Miss Jane Earle, a native of Belle Isle, who has made her home here for a great many years, died at her residence today. She was a daughter of the late Francis Earle. She is survived by one brother, Thomas Earle, of Cornwall, and two sisters, Miss Elizabeth Earle of Cornwall and Mrs. D. W. Murray of Winnipeg.

BASKET WORK IS A PLEASANT PASTIME

Not Difficult Even For a Beginner —Make Charming Gifts.

One of the pleasantest occupations for leisure moments is basket weaving. The work is not difficult, even for a beginner, and when the dainty articles of cane, bass or grass are finished, they make charming gifts for holidays and other occasions. Bass is much easier to handle than cane, therefore start with this material.

When making a fruit or bread basket weave the base in the form of a diamond of equal thickness. Join the plait together and press this out flat with a quarter of an inch in width. Sew the plaited base together, round and round in exactly the same manner as you would make the crown of a hat. A strand of bass may be used for the sewing, and the stitches cannot be detected.

When the bottom of the basket has reached the required size, turn up an edge and commence making the sides. Do not sew the plaited edge straight as before, but slant it so that the slant may be increased as the sides are formed.

To finish off the top, sew a piece of bass flat around the edge to form a rim. Bass may be dyed any color you prefer, and can be woven into table mats, baskets of all descriptions and string boxes.—New York Press.

WILSON'S INVALIDS' PORT WINE

(a la Quina du Perou)

"The success that wine vendors to health are more important than those of any medicine with which I am acquainted." Francis G. Ansell, M.D., F.R.C.P.

Concentration

saps vitality. Hard work tires the stoutest muscles. Continued concentration and work without relaxation result in infinite, permanent depression of mind and lassitude of body.

Wilson's Invalids' Port Wine is a bracing, invigorating tonic that steadies the nervous system, builds staunch bone and muscle. Doctors know!

Remember—a brimming wine-glass before each meal.

Don't Be A Goop!

EATABLES THAT COME FROM IRELAND

Limerick Hams Bring High Prices on This Side of the Water.

The best endive now in market, so the dealers say, comes from Ireland, where its cultivation has become a great industry. Formerly endive came entirely from Belgium.

It has also been sent to this country over 2,000,000 pounds of Limerick hams and bacon in the past year; this against half that amount during the previous 12 months.

Not more than five ago the Limerick hams were the highest priced any bacon here, says a New York Times contributor.

The Limerick hams bring from 42 to 48 cents a pound, the highest price of any except for the celebrated Westphalian and York hams. The increase in the demand in America for the perfectly cured ham and bacon of Ireland has become enormous, in spite of the almost prohibitive prices.

Not more than five ago a large dealer downtown imported for sale the first Limerick hams. There were only six of them. He sold them all to one man, a titled Irishman living in town.

Some friends dining in this gentleman's house asked the dealer to import some Irish hams for them. Now he imports and sells 25 Limerick hams, shoulders and sides of bacon every day of the year. His importations, with those of other dealers, have made the raising of pork and the curing of pork products in Ireland and slowly smoked over smouldering peat.

Of all the hams we have in market, the Limerick is the most popular. It is a ham cut the half, a side of tarragon vinegar, add three bay leaves. Let the ham simmer over a very low fire until the fat bone separates from the flesh; then let it remain in the water until cool.

When cool, lift the ham carefully from the kettle, place it in a dripping pan, remove the rind, score the top over the surface in diamond shapes, stick it well with whole cloves, sprinkle with sugar and salt, and put on the oven until there is a rich brown color over the top. It may be eaten either hot or cold, it is better cold.

WOMAN'S AUXILIARY.

The March board meeting of the woman's auxiliary to the M.S.C.C. will be held in Holy Trinity Schoolhouse on Thursday, 6th inst., at 10.30 a.m.

Sudden or Slow? Hamilton Herald: It looks as tho the hotel men must choose between sudden death at the hands of Rowell or being nagged to death by Hanna.

Easily Quickly Thoroughly Cleaned with Old Dutch Cleanser

Dr. Robertson of Ottawa Will Lecture at Women's Canadian Club Saturday.

The Women's Canadian Club announces Dr. Robertson, C.M.G., of Ottawa as the speaker at their meeting on Saturday, March 8, at 3.30 in the Guild Hall, McGill street, and he will explain in detail the Montessori system, using all the latest models. Dr. Robertson is the chairman of the commission appointed by the Dominion Government to investigate industrial and technical education, and Montessori system, which is in full operation there, Canada, which is a full educationalist in and there is no other speak on this subject, better fitted to attract attention to the world over. His lecture will be of special interest to parents and teachers, and all non-members interested, both men and

REVIEWS IRELAND'S BRILLIANT HISTORY

J. P. Downey, Ex-M.L.A., at Loretto Abbey, Tells Story of Country's Influence.

Heralding the coming celebration of Ireland's national holiday, J. P. Downey, ex-M.L.A., gave a most interesting address on Ireland, past and present, at Loretto Abbey yesterday afternoon. Rev. Dean Harris introduced the speaker in a few graceful words. Among those present were: Rev. Fathers Coyle, Minahan, Williams, McGrand, O'Donnell and Rob-leder. Tracing the history of the land of Erin from the days of St. Patrick to the present, Mr. Downey told of her poetry, literature and education of the Isle of Saints. At one time there were as many as 7000 students in a single institution of the thirteen universities, which flourished when the rest of Europe was sunk in the darkness of superstition. The birth of the "Young Ireland" party, with the Nation that it published, was a brilliant epoch in the story of the nation. It is connected with the names of Charles Gavan Duffy, John Mitchell, Richard O'Gorman, Thomas Francis Meagher, Thomas Davis and D'Arcy McGee. Mr. Downey hoped the time would soon come when Canada would raise a monument somewhere to Mr. McGee, who, with Sir Charles Tupper, was the first Canadian ambassador to Ireland for Canada. A musical program was artistically rendered by the pupils of the abbey, assisted by Miss Buckle and Miss Brazil.

Official announcement is made by Miss Marjory MacMurchy of Toronto that the Canadian Women's Press Club, of which she is president, will have its triennial convention at Edmonton, Alta., the middle of June. The delegates, including women authors and newspaper writers from various parts of the Dominion, will be entertained by the Women's Press Club, the newspapers and the Ad Club (Canada). Mayor William Short will present the freedom of the city to the visitors.

The Journalist, society editor of the Edmonton Women's Press Club, which is headed by Mrs. Emily F. Murphy (Edmonton), will be under the personal direction of George H. Ham of Montreal, representative of the Canadian Women's Press Club, the only man belonging to the last named organization.

The entertainment features in Edmonton include a series of receptions, banquets and theatre parties, also side excursions to the Yellowhead Pass in the Canadian Rockies and Athabasca, north of Edmonton.

"We'll give the girls the best time they ever had in their lives," Mrs. Murphy said, and know they will enjoy every minute of their stay in Edmonton and Central Alberta."

"GIVE GIRLS BEST TIME OF LIVES"

Says Mrs. Emily F. Murphy—Canadian Women's Press Club Meet in Edmonton.

Decide the you will have very simple ones, they always blossom into something pleasant and elaborate. This is because wife knows that there will be plenty of time this day to enjoy the meal, and cook takes extra pains to please because she does not have to hurry back and get supper.

Oysters roasted in their shells until their edges curl, and seasoned with a little butter, pepper and salt, make a splendid first thing. There is not enough to satisfy you, and the plates are followed from the table with eyes of longing.

Next you can have terrapin in a big chafing dish, steaming and aromatic and rich. On a fish course you would not prefer fried chicken? Real fried chicken, cut in seven pieces, legs, wings, two pieces of breast and back, to say nothing of the tid-bits—the liver, heart and gizzard.

This chicken is not dipped in batter and fried in deep fat until it seems to be encased in plaster of paris and is hard and dry and flavorless. "Not much." It is salted and peppered and dredged lightly with flour and fried slowly in equal parts of butter and lard, in a deep old-fashioned skillet. Each piece is turned and moved into the hottest spot until every side is a glorious, tempting brown.

As fast as it is cooked it is lifted out onto the hot platter, with no suggestion of oiliness, but crisp and tender.

When it is dished, cover with a napkin and make the cream gravy, with milk and flour, in the same pan in which the chicken was fried.

Mashed potatoes, creamy and fluffy at heart, but well browned on top, will do for one of the vegetables, but braised sweet potatoes seem to be related to chicken somehow, they taste so good with it.

And, of course, you will want corn bread with fried chicken. It belongs there too.

To make it "like Marster's" scald two cups of white meal and when cool mix in two teaspoons of sugar, three tablespoons of butter, one teaspoon of salt, three eggs beaten very light, and one cup of sweet milk. This should make a soft batter. Beat hard.

Bake this in an earthen dish in a moderate oven, forty-five minutes. It will be puffy, moist and tender, and the real thing. Having found it, you will never lose it again.

After such a dinner who wants dessert? Everyone, of course, and here it comes: A globe of goodness in a syrup of sweetness, with a stiff wave of whipped cream over all. Peach dumpling, hot and brown and good. The spoon cuts thru the crust into the peach and the syrup.

PENALTY ATTACHED TO CAT DESERTION

Posters Will Warn Those Who Go Away to Summer Resorts.

A meeting of the Society for the Prevention of Cruelty to Animals was held at the home of Mrs. Alex. Stewart, 55 Brunswick avenue, yesterday afternoon. The subject of neglected cats came in for a good deal of attention. The secretary of the Royal Society of England, warning people of the penalty attached to desertion and cruelty, were distributed. Similar posters will be placed in the shop windows prior to the summer outings as warnings to people in Toronto. A most interesting address was given by Mr. Forsyth on the subject of first aid to injured animals and to dogs in particular.

PROPERTIES FOR SALE

Alabama Lands

THREE people who are purchasing 640 acres of land, fifteen miles from City of Mobile, would like to meet a few others, the object being the purchasing of five thousand acres, including one section. The land is good, as we have personally investigated same and have all facts and figures. Improved farms adjoining yield \$100 per acre per annum. We are going to develop our tract and value on adjacent land will immediately rise. By purchasing the larger tract we get the whole much cheaper. Railroad runs through the property. Price less than our average Western Canada lands. Have number of large descriptive booklets. Will send one free for the asking. Alex. Rae, P.O. Box 3, Toronto. ed

What You Want In Garden Land

YOU want land that responds to feeding. You want land that will not bake. You want a fine soil. You want land that is now in a high state of cultivation. You want land on good roads and in easy access to town. We have it. 5 and 10-acre lots and at reasonable prices. J. A. Aberdeen, 149 Victoria street. ed

PROPERTY WANTED

WANTED—Good inside lots, in any western city, in exchange for Toronto and Ontario property. G. A. Black, 17 Manning Arcade Annex. ed

REAL ESTATE INVESTMENTS

RANSAY E. SINCLAIR, Limited, corner Bloor and Bathurst. Specialists in Western Canada Investments. ed

BUSINESS OPPORTUNITIES

GOLD MINING investment—Prospective fortune. Norman, Royal Bank Bldg., 100 King St. W. ed-7

WANTED

I WANT an associate with \$100 cash in a little real estate deal, where we can double our money. Replies confidential. Box 34, World. 23456

FARMS FOR SALE

WE MAKE a specialty of Niagara District Fruit and Grain Farms. If in need of anything in this connection, write to us. Melvin GAYMAN & Co., Real Estate Insurance and Financial Brokers, No. 8 Queen street, St. Catharines, Ont. ed

Gold Mining Stocks in Limelight Again---Prices Are Soaring

PORCUPINE HITTING HIGH SPOTS AGAIN

Another Spectacular Spurt in Pearl Lake—Jupiter and Porcupine Gold Soaring.

There was no lull in the buoyancy in the Porcupine issues yesterday, Pearl Lake scoring another sensational advance to a new high record for the movement, and both Porcupine and Jupiter undergoing spectacular advances. Elsewhere the market showed a rather irregular undertone, however, with Hollinger slightly easier under profit-taking sales and the Cobalt stocks still moving in dullness. The speculative movement was well sustained, the not up to the recent top level proportions.

Pearl Lake sold at 7 1/2, a net gain for the session of 11 points, and a full 20 cents a share above the close last week. For a two days' improvement this showing looms up as the most remarkable the market has known in some time, and taken in conjunction with the 31 point advance made by the shares during January and February, it establishes the security in a class almost by itself. Whatever is behind the movement the demand appears as insatiable as ever, and bids are raised one and two points at a time in order to attract sales. Meanwhile it is being whispered that Pearl Lake property will prove to be another Hollinger.

Cobalts Under Pressure.

The upturn in the other Porcupines, while less spectacular than in the above-mentioned issues, was, nevertheless, very convincing. Jupiter rose a gain of one point for the day, in Montreal it sold at 50c. Porcupine Gold was up 1-3 to 1-2. The improvement in these stocks for the week to date has thus amounted to 5 and 2-1-2 points respectively. The movement is significant of nothing beyond the revived confidence of the public in the gold mining stocks. Hollinger was off 25 points to \$16.40. Preston East Dome and Swastika gained a fraction each, and West Dome and Rea reached new high records for the year at 21 and 40 respectively.

The Cobalts continued under selling pressure, a natural result of the move in the gold stocks. This liquidation was apparently to finance purchases of Porcupines. Beaver sold off to 7 1/2, its lowest since September, and City, Chambers, Peterson and Timiskaming were all lower. McKinley rose to a new high record for the year at \$21.00 and Crown Reserve strongest at \$21.00, a gain of 10 points.

QUARTERLY REPORT OF CONIAGAS MINES

Production is Running on About the Same Ratio as Last Year.

For the first quarter of their fiscal year the production of the Coniagas mine was approximately 900,000 ounces. This is at about the same ratio of production as last year when the total for the 12 months was 3,508,277 ounces.

At 60 cents an ounce the 900,000 ounces produced in the first quarter of the fiscal year would amount to \$540,000 gross, so that the dividend of 6 per cent regular and 3 per cent bonus amounting to \$360,000, is very easily obtainable, particularly as the working costs of the Coniagas per ounce are very low. Last year the ore was mined and concentrated at a net cost of 2.55 per ounce. This cost included head office expenses and royalties, and all expenses exclusive of shipping, smelting, refining and marketing charges.

ALEXO NICKEL MINE IS MAKING GOOD

PROFITABLE FALLS. March 4.—The Alexo nickel mine, the only one of the kind north of Sudbury, produced 260 tons for the month of February, and those in charge of it are highly pleased with the results being obtained. The production will no doubt be much larger as operations are continued.

BEAVER MILL WORKS AT FULL CAPACITY

Plant Is Treating a Hundred Tons a Day—Opening Up Lower Levels.

COBALT, March 4.—The mill at the Beaver Consolidated is now treating 100 tons a day, all additions to the regular mill having been made and tested.

Last month two cars of concentrates were shipped and one car of high grade. Two cars were shipped in the last week of the month, the high grade ore aggregating 25 tons, running 3000 to 4000 ounces and the concentrates averaging 2200 ounces to the ton. There were 22 tons of these.

When the database was reached on the bottom levels of the Beaver it was discovered that the veins were very much shattered and broken up and that to get the same amount of ore on the upper levels, vastly more rock would have to be treated in the mill. At the same time the ore shoots seemed to be more regular. It was at once determined to increase the capacity of the mill. Like several other companies the Beaver found that the quantity of milling ore they could treat was considerably higher than they had anticipated and almost before the original mill was completed they had to plan extensions.

The Beaver is now crosscutting for the main vein on the 700-foot level. The opening up of the ore body at this level will be one of the most interesting events of the camp.

PROSPECTORS ARE ACTIVE UP NORTH

COCHRANE, March 4.—An idea of the activity of prospectors in the Porcupine, Swastika and Larder Lake mining divisions can be gained from an incident which occurred to a prospector a few days ago. He recorded a claim with Assistant Mining Registrar Matheson, and two days later, when he returned, he found that 94 had been recorded in the meantime.

LONDON MARKET HAS A SLIGHT RELAPSE

Labor Unrest Causes Apprehension—Berlin Selling Depressed General List.

LONDON, March 4.—Money was scarce and discount rates were easy today. The stock market developed irregularity, owing to Berlin selling and continued weakness in home rails thru labor unrest. Copper shares recovered with the American action, but eased off again in the afternoon. Foreign rails and shipping shares were steady, but some loss an eighth. American securities sagged after a quiet opening. Light covering rallied prices around noon, but later Wall street offerings caused another setback, and made the closing easy.

BIG PROFITS MADE IN PEARL LAKE

The spectacular movement in Pearl Lake during the last two months has been the most noteworthy incident in the mining exchanges since the days when the Hollinger made its sensational advance from \$4.05 to \$16.84 in about half a year. Last spring the Pearl Lake Co. went into liquidation, and during April the shares went as low as 8c. By June they had worked up again to 30c, but were back to 12c in September. The genesis of the present upturn really occurred at that time, the stock rallying to 28c in a month, a gain of 133 per cent. At yesterday's high level of 79 1/2 a percentage of 860 per cent, at November's low of 650 per cent, and at last month's low of 90 per cent the percentage gain is 79 1/2 per cent.

The following table shows the detailed range of prices:

Year	1911	1912
High	80	85
Low	40	8
Sept. 1912	25 1/2	12
Oct. 1912	25	22
Nov. 1912	25	22
Dec. 1912	25	20 1/2
Jan. 1913	50	24 1/2
Feb. 1913	59 1/2	48 1/2
March, 1913	79 1/2	58 1/2

Review of Business Conditions During 1912

As Presented at the Annual Meeting of

THE CANADIAN BANK OF COMMERCE

Copies of this pamphlet may be obtained free on application to the Secretary, The Canadian Bank of Commerce, Head Office, Toronto.

SPECULATION IN PORCUPINES

Speculative sentiment has veered to the Porcupines for a time, and when this exhausts itself more interest will be paid to several of the Cobalts with more merit than present market price indicates. These issues if bought now can be had without any speculative prices. Our list of selections can be had for the asking.

We Are Setting Our Own Precedent

In the matter of Spring displays, a precedent for extraordinary values and splendid goods, a precedent for flawless styles and superb finish. The Simpson Store carries only the best in every line, even when its prices are lowest—for the "best" means largest value, whether the goods be costly or inexpensive grades. We meet every demand generously.

Men's New Spring Overcoats

Very near is the time for you to make a selection of a spring weight overcoat. They are here now, and it would be wise buying to make an early choice.

A specially attractive overcoat is made from plain brown diagonal English tweed, cut single breasted, Chesterfield style. Three-quarter length, good linings and tailorings. Price10.00

Light Grey Tweeds will be in evidence for young men. One made from English tweed in light grey, showing a small herringbone pattern, cut single-breasted, button through style, Chesterfield. Linings and workmanship excellent. Price12.00

A Handsome Spring Weight Overcoat comes in two good colors, a gray and a brown, with very neat patterns. They are made in the up-to-date spring style, three-quarter length, Chesterfield. Linings and workmanship excellent. Price18.00

MEN'S RAINCOATS.

Made from the celebrated Priestly cravenetted cloths, in plain black and dark grey, a fine cloth that will give the best service. Cut full raincoat length, 50 inches. Single-breasted, fly front, three-quarter lined, best workmanship. Price18.00

BOYS' TWO-PIECE SUITS.

(Main Floor.)

Draperies

Our stock is one of the most comprehensive in Canada. We are showing the best and newest productions from the leading manufacturers, and the knowledge gained by years of experience has been brought to bear "by our buyer" in the selection of each and every piece. This, with the help of skilled artists, (who are at your disposal) for suggestion and advice, makes the task of house-furnishing a pleasure. We are fully conversant with every detail that goes to make a home "what it should be." We will measure, estimate upon and suggest for all reupholstering work, window shading, wall decorating, awnings, etc., etc., without charge.
