resolutions, and it was read a first ime. Three amendments were moved dur-ing the day, by Duncan Ross, Hon. Wm. Pugsley and Hon. Frank Oliver, re-spectively. Mr. Ross desired an investi-gation by a parliamentary committee, and Mr. Pugsley moved that all the stock of the Canadian Northern be de-posited with the receiver-general, the stock of the Canadian Northern be de-posited with the receiver-general, the sovernment to Secure an option upon the same exercisable within five years upon payment of \$30,000,000. Mr. Oti-ver asked that the Canadian Northern be required to equalize its freight rates between eastern and western Canada. The divisions during the day pretty strictly followed party lines. Mr. Ben-explained that he was paired with Mr. Bradbury of Selkirk. Mr. Nickle voted for the Ross and Pugsley amendments, and was paired on equalization of retes. Mr. W. F. Maclean voted with the government on the Ross and Pugsley amendments, but spoke and voted in favor of equality of freight-retes. Mr. W. F. Nationalization of C.N.R. Mr. Maclean, while declaring himself a strong public ownership man, op-posed the Pugsley amendment as de-structive of the agreement, but urged the government to secure an option towards the end that the C.N.R. might be nationalized and linked up with the Intercolonial Railway. Me foresaw a great future for the Canadian Northern, which, he said, had the best grades of any of the three transcontinentals. He believed in a short time that the road would be so valuable that the government would be unable to acquire it, and therefore urged immediate action in the direction of nationalizaton.

of nationalizaton. Political Parasites. Hoday's debate was opened by Mr. Duncan Ross, Liberal member for West Middlesex, who moved for a parlia-mentary committee to enquire into the financial conditions of the Canadian Northern and the value of the securi-ties offered by Mackenzie and Mann to the government for the proposed guar-antee. water. That stock represented between forty and fifty million dollars, actually contributed in land and cash to the emterprise by Sir William Mackenzie and Sir Donald Mann. In addition to this, it represented their skill, enterprise and labor during eighteen years of continuous effort. He was surprised to find opposition members so violent against the C.N.R. magnates. When the Liberals were in power Mackenzie and Mann were great heroes, and Sir Wilfrid Laurier advised the King to decorate them with knighthood. There was no talk then about their being "parasites and buccaneers."

VETERAN PRIEST HAS PASSED AWAY

Rev. Father Francis Walsh Was Chaplain of Central Prison.

A respected and honored member of the clergy of the Roman Catholic Church passed away last evening in the person of Rev. Father Francis Walsh, C.S.B., who died at the age of 71 years, after a life of active service in the church. He received his education in St. Michael's College and at Annonay College, France. He began as a teacher of English literature in St. Michael's College over 40 years ago, and after holding this position for several years, became engaged in missionary work in South Dakota. Re-turning to Toronio after an absence of 18 years he became chaplain of Cen-tral Prison, Mercer Reformatory and

The prison, Mercer Reformatory and the Insane Asylum. His residence was continually fixed in St. Michael's College, and he was always deeply interested in the for-funes of his alma mater. The funeral takes place tomorrow morning, when high mass will be sung in St. Basil's Church. The late Father Walsh was born in Highland Creek in the Town-ship of Scarboro. of Scarboro

of the city planners. This was decided at a meeting of the executive held at the King Edward Hotel. In this Detroit won out against San Francisco, with its exposition attraction. The reason was that Detroit offered the double induce-ment of being an American city that was so situated as to attract Canadian as well as American delegates. It was decided to continue the city planning exhibition at convocation hali until Saturday night, and in this way give the general public an opportunity of seeing it. Admission will be free.

From the United States stand point no alternative exists between Catharines, who was remanded yester-day when charged in the women's court with deserting his wife and children and falling to contribute to their sup-port. His wife states that while she lay in bed sick Van Slack had poured carbolic acid into her mouth. After he had deserted his family, two months ago, the mother and children came to Toronto in the hope of finding him. The morality department assisted her, and he was eventually arrested in the Constitutionalists and the Huerta regime. With the prize almost within his grasp Carranza will refuse to be eliminated. Villa, who, whatever his record, is the strong man in Mexico today, can incline the balance either way. But some extraneous force must ultimately reduce Mexico to and he was eventually arrested in state of stable government.

stock manipulation The truth of this is beyond dispute, for it has been read into the history of

many franchise-holding companies. Over-capitalization has been resorted to for various reasons. It may have been indulged in to bring in profits to promoters, to induce brokers to handle bond issues or to disguise the real amount of profits earned on the common stock. Yorkville, the favorite, was never dangerous, but just managed to beat Luther a head for the show. Emerald Gem, second choice, found the distance too far. Hearts of Oak tried to break up the start in the cup handicap, but everyone was patient and the seven went off in a line. Calgary took the lead rounding the top turn, well in hand, and won at every post. Tippecance was supported on the strength of his last race, but it was a false alarm and too long a journey. Hearts of Oak went after the leader turn-ing home, but made no impression. W. Walker's Sheriock Holmes finished strong and paid good odds for the show.

Four of the seven fell in the steeple-chase. Turbine, The Prophet and Won-der Worker alone went thru without mis-hap. Bill Andrews was leading when he went down and was remounted by his own jockey and made a game and close effort to get in the money. He finally went off in front and dropped back behind Gliff Edge, the favorite, and Dr. Swarenger. These two found the distance too far and hoisted signals of distress before the straight, where Ask Ma declared her-self and beat The Rump in the drive home. Love Day finished strongly for the show. Cliff Edge, Ask Ma and The Rump had the support.

PLAN TO INTERCHANGE TEACHERS UNDER WAY

London Education Committee Will Take Action on Proposal From Canada.

Canadian Associated Press Cable.

LONDON, Wednesday, May 27 .---LONDON, Wednesday, May 27.-The London Education Committee, which has been asked by a number of Canadian authorities to inaugurate a scheme for the interchange of school teachers between the Dominion and the mother country, has called a meet-ing for today, when a proposal to give immediate effect to the plan will be considered

None but experienced teachers are to be allowed to exchange, and the transfer will be effected under the auspices of the Hands Across the Seas Association, which will shortly open a home in London especially for Canadian teachers.

Arrested. A very destructive fire occurred in Stouffville in the bakery and stables own-ed by Frank Gordon, Main street. The biaze started in the bakery about ten o'clock and very soon spread to the ad-joining buildings in which six horses were stabled. The volunteer prigade promptly responded to the alarm and were able to save the bakery from being completely suited, but their efforts proved fruitless in regard to the horses and stables, as five of the animals were burned to death while the buildings were reduced to ruins. A few wagons and sets of harness were also destroyed. The total damage amount-d to about \$2,000 and is partly covered by murance. by insurance. Three Drunks. When the fire began, three men under the influence of liquor surprised the fire-men by rushing from the burning stables. They were making a hurried departure when the firemen gave chase and cap-tured two of them, the other managing to make good his escape. The prisoners were brought up in court yesterday morn-ing and as they could not be connected with the origin of the fire, they were charged with being drunk in a local op-tion district, and were fined one dollar and costs.

TO TRY THE NEW ONES.

The Beavers and the Ottawa cham-plons will play the second game of the series at the island this afternoon. Man-ager Lee will try out some of his new material when he will end Roberts to the mound. Roberts halls from Pitts-burg, and he will have Harkins, secured from Scranton, is his battery mate. The Beavers pulled off their 17th double play of the season yesterday.

third one came in the fifth, when Shulis misjudged Peterson's fly, it going for two bases, and Shag supplying the necessary : single to count him. Dolan's double, and while a double play was in progress notched the next in the sixth. The Beavers' half of the sixth was a one-run session for the homesters. Murphy got a life on Bullock's bobble, and after be-ing hoisted to third on Trout's single stole home while the pitcher was wind-ing up. It was the most sparkling piece of play of the whole afternoon. This was the final tally for Lee. Other and the stole second. Trout's throw was high and Murphy had is go up to get it, and coming down he spiked Nill. Kane was chaged to the run for Nill and scored on Shag's hit. Shocker started the twirling for Ot-tawa, but was chaged to the coop when the Beavers scored their third run in the second innings. The Beavers showed a smart article of ball thruout and are sure to become favorites with the local fans. The con-test showed that the Class B league piays much faster ball than the average fan gives it credit for. The Beavers will get big crowds from this on. ST. LOUIS, May 28.—Daniel Griner, pitcher for the St. Louis Nationals, and Theodore Cather, outfielder, were fined \$100 each by Manager Huggins today for fighting in the club house. Neither play-er accompanied the club to Chicago last night. Cather remained behind to nurse his jaw, in which a doctor put five stitches after the fight.

QUEBEC CAR FERRY HAS NEW TIDAL DECK.

A striking picture and one that will appeal to military men in general and to the Queen's Own and 48th High-landers in particular, will appear in this week's Art Section of The Sun-day World It shows the officers of the above-named regiments at Lea-side, critically watching the tactics of the regiment during the fact manoeu-A novel idea for making a car ferry independent of tides has been put into practice in the vessel used by the Canadian Government between Que-bec City and Point Levis. A movable deck, capable of carrying a locomotive and a train of 1400 tons on three tracks, has been provided, each track being 270 feet long. The deck may be raised or lowered 20 feet by means of gearing connected with the boat's engines, so that trains may be taken on or delivered at any time, irrespecthe regiment during the first manoeu-The expression of the faces in the group indicates the absorbing in-terest and enthusiasm these men dis-play, and which is so well exemplified by the men under their command. The wearer of one of these collars had an almost invisible veil with a spider worked in black silk crawling down the middle of her cheek. The paddock was gorgeous with both kinds of plumage, a number of women wearing very costly bunches of black paradise feathers. The most is noticeable today were growing predilection of smart women for the Venetian capes, which are now being made in all colors and shades, a very striking one being in torquoise blue with a turned-down coliar about four inches deep, similar to that on a military coat. Some of these cape collars are a vivid yellow, others bright blue. The most striking novelty of the

NEW TELEPHONE DEVICE EN USING MOTORCYCLE AS A HOISTING ENGINE.

Of the many uses to which a mo-torcycle can be put, that of using it as a hoisting engine is probably the most novel. An Australian farmer who was building a barn first hauled most novel. An Australian farmer who was building a barn first hauled all his material from the railway sta-tion in a trailer pulled by his motor-cycle. There is nothing new about this, as motorcycles have been used as traction engines before. But when the barn was completed there still remained a 400-gallon steel water tank to be lifted to the roof. As there was no winch or suitable block-and-tackle equipment to be had, get ting this tank into place looked like s difficult problem. Then the motor-cycle was bizingfit into use. Two poles with a crossbar at the top, a pulley and a strong rope were ob tained and erected, and with the pow-et furnished by the motorcycle the tank was easily lifted to its place on the roof.

MAKING. What has heretofore been considered a pest by ranchers in Western Kansas is now being cut and mareted for use in the manutacture of soap. It is a species of the Yueca, known locally as Spanish Bayonet, or soap weed, and spreads over large areas, killing other vegetation. Both the tops and roots are utilized by soap manufacturers, who pay about \$8 a ton for the plant at railway stations. After cutting, the weed is allowed to dry from 60 to 90 days, after which it is bal-ed. Indian and Mexican women have long used this weed to make a decoction, soapy in character, used in washing their hair, for which purpose it is con-sidered beneficial, as it contains no al-kali. for Port Arthur, Sault Ste, Barte and Sarnia.
