GERMANIAL BASE RAIDED BY BRITISH ARMIES

Two Submarines at Hoboken Damaged and Works Set Afire.

ONE AVIATOR INTERNED

Two Others Had to Turn Back, But Attack Was Successful.

LONDON, March 24.—(10.35 p.m.)—A British air raid on Hoboken, near Antwerp, where the Germans are constructing submarines, was officially reported today.

Five British airmen, starting from Dunkirk, took part in the raid on the submarine yards, but only two of them reached the mark. Two were obliged to turn back owing to the thick weather, and a third was compelled to land in Holland owing to engine trouble and was interned.

According to a report issued by the British admiralty, two of the five submarines which were observed on the slips were damaged and the works set afire. Prior to the war, this plant was known as the Cocherill Works, and belonged to a British company. When the Germans took the plant over, a high fence was erected around it, and no Belgian was allowed to enter. Workmen were brought from Germany to build the submarines. It is pointed out that these had to violate the neutrality of Holland to pass down the Scheldt to the sea, but this was easy of accomplishment, as they would pass the Dutch forts submerged.

Despatches from the Dutch frontier say that seven German airmen attacked the British raiders, but were out-gunned.

Admiralty's statement. The text of the admiralty statement, said the following had been received from Wing Commander Longmore: "I have to report that a successful air attack was carried out this morning by five machines of the Dutch squadron on the German submarines being constructed at Hoboken, near Antwerp."

"Two of the pilots had to return owing to thick weather, but Squadron Commander Ivor T. Courneyer and Flight Lieut. H. Roper reached their objective after flying down to 1000 feet and dropped four bombs each on the submarines."

Works on Fire. "It is believed that considerable damage has been done to both the works and two submarines."

"The works were observed to be on fire in all five submarines were observed on the slips."

"Flight Lieut. B. Crossley-Meates was obliged by engine trouble to descend in Holland. Owing to the mist which enveloped the coast, considerable difficulty in finding their way, and they were subjected to a heavy gun fire while delivering their bombs. Flight Commander Crossley-Meates of the British Aviation Service, in consequence of engine trouble while en route to make an attack on Antwerp, was obliged to land at Kruidingen, according to a despatch from the Hague to Reuters Telegram Co. The airmen were not injured. He will be interned."

HUNGARY AWAITS RUSSIAN INVASION

Fall of Przemysl Spreads Depression Thru Dual Monarchy.

HOPE NOT ABANDONED

Great Battle in Carpathians is of Vital Importance.

VIENNA, via London, March 24.—(8.40 p.m.)—The fall of Przemysl has exercised a depressing effect throughout Austria-Hungary, according to advices received here. Especially is this the case in Hungary where the danger of a Russian invasion has greatly increased. The newspapers, however, are united in declaring the situation in Galicia and the Carpathians to be absolutely unaffected by the loss of the fortress.

In Vienna the news of the capture of Przemysl was received with some what apathetically, but it was noticeable that the people sought their homes from the cafes and restaurants earlier than usual, the newspapers printed interviews with military and political personages, who, for the most part, confine themselves to praising the heroism of the garrison. Gen. Schoenack, the former minister of war, said:

"Everything now depends upon the tremendous battle raging in the Carpathians. If we succeed in defeating the enemy, then the fall of Przemysl will remain only an episode of the war."

A war correspondent of the Neue Presse reports that the fighting in Dukla and Trzask Passes is proceeding with unabated fury and is apparently likely to continue for some time.

Germany Ignores Dutch Situation Grows Grave

No Reply Received From Kaiser's Government Concerning Protest Against Seizure of Two Steamers by Submarines

Canadian Press Despatch. LONDON, March 24.—(2.59 a.m.)—The Times correspondent at The Hague, in a despatch concerning the recent seizure by a German submarine of the Dutch steamers Batavier V. and Zaanstroom, which were conveyed to Zebrugge, where their cargoes were confiscated, says: "The government has received no reply from Germany regarding its request for an explanation concerning the Batavier V. and the Zaanstroom, and the situation arising therefrom is considered grave."

RUSSIANS BEGIN TO BURST THRU AUSTRIAN LINES

Southern Barriers Across Carpathian Passes Now Being Stormed.

SEVERAL BARS PIERCED Seventeen Charges Succeeded Against Main Column of Enemy.

BY FREDERICK RENNETT. Special Cable to The Toronto World.

PETROGRAD, March 24.—Already the Russians have begun to burst the southern barriers, where they have been on the defensive, across the Carpathian passes, since December, when the Germans launched the great scheme to help the Austrians and outflank the Russian left from Hungary. The column, which was defeated in the last Austro-German effort from the sources of the Danube, advanced to attempt the relief of Przemysl and was again attacked with tremendous energy. After seventeen charges the Russians drove the enemy westward and themselves waded neck deep, thru the swift current of the Danube and the flooded mountain snows. This initiative now extends westward beyond the Dukla Pass. The Russians further east broke the enemy's position at the source of the Strzy, near Kostomok and held the Germans, killing the last man holding the rocky shelter.

Officers who watched the last moments of Przemysl, when after a charge of the battalion which captured the inner forts, great clouds of dusty smoke arose from the explosions with which the Austrians attempted to destroy the remaining defences, saw a white sheet rigged from the highest factory chimney, in town and white flags flying from the telegraph poles. They found that the fortifications under the debris will be easily repaired.

The Russian raid on Metel resulted in the capture of a great quantity of ammunition and engineering equipment, and the withdrawal was entirely voluntary.

BIG AUSTRIAN ARMY ON ITALIAN BORDER

Energetic Preparations Made to Fortify Frontier Against Attack.

BIG GUNS MOUNTED

Houses Blown Up to Clear Range of Defensive Artillery.

Special Cable to The Toronto World. ROME, March 24.—About half a million Austrian troops are now massed in southern Tyrol and Trentino, where the so-called strategic organization which is considered necessary as a precaution for the next fortnight has been carried on with feverish activity, indicating that an invasion is feared to be imminent. Practically all the villages between Susana and Lake Garda have been evacuated by the inhabitants, and many houses along the frontier have been blown up with dynamite, so as not to hamper the range of the fort guns dominating the accessible points, and to destroy cover to the invading army. The eastern portion of the City of Roveredo has been razed to the ground, and the debris of the destroyed houses has been used to improve fortifications. Field batteries are posted at every point of vantage. Trees have been ruthlessly felled everywhere, and the region has been entirely devastated, even where it is formidably defended by permanent fortifications. Heavy guns have been mounted at an altitude of about 7000 feet. The inhabitants along the frontier are treated as spies. They are closely watched, mercilessly persecuted, horsewhipped with impunity by officers, and beaten by soldiers with the butts of their rifles.

BRITISH RIFLES MOVED DOWN GERMAN LINES

"Like Cutting Grain." Description of Fight Around Neuve Chapelle.

BRITISH SPIRIT IS HIGH High Price Paid, But Brilliant Victory Was Worth It.

LONDON, March 24, 7.35 p.m.—"All the stress has been laid on the German losses, our own heavy death roll must not be overlooked," says Earl Percy, who at present is acting as the official observer with the British Expeditionary Force, in a report given out here tonight by the official information bureau. Dealing with the aftermath of the Neuve Chapelle victory of the British, Earl Percy writes: "We have had to pay the price. In this respect it is well to bear in mind that the progress made by us during the action at Neuve Chapelle was gained in the course of one attack. It was, therefore, an entirely different kind of operation from those undertaken in other quarters, consisting of gradual advances lasting many weeks. Endure Highest Test.

"Our casualties, great though they are, appear all the more severe in that they were incurred in the course of a few days instead of being spread over a much longer period, also the result would have been the same. "Our troops have shown in attack as they already have shown in defence that they can endure the highest test of all. The cheerfulness of the survivors and their readiness for another fight are proofs that their comrades have not died in vain."

Concerning the Germans Lord Percy writes: "In their counter attacks from Bois du Belz, during the fight around Neuve Chapelle, the German losses were tremendous. Line after line went down before our rifles. Indeed, in their phraseology, some of our supporters said that shooting the enemy was like cutting grain."

"The German officers displayed the most reckless courage. On more than one occasion they invited certain death by rising forward on horseback to within a few hundred yards of our line, to direct attacks. None of those who so exposed themselves escaped."

"One heavy charge of a machine gun in action thru our bombardment and then, when our men charged down upon them, waited death calmly, standing on the parapet of the trench and emptying his revolver into them."

"Our guns must have caused great losses both in Bois de Belz and in the rear of it, for an aviator has since reported that the Germans have been burying numbers of their dead behind the wood."

PASTRY MAKING BANNED BY KAISER'S DECREE

Heavy Penalty Attached to Violations of New Rule in Berlin.

LONDON, March 25, 1.55 a.m.—A Copenhagen despatch to the Exchange Telegraph Company says it is reported from Berlin that the German Government has prohibited pastry making from Saturday next under heavy penalty.

FOREIGN FIGHT WILL TAKE SABOTAGE WOODS

Each Time They Attacked, They Gained Object and Maintained It.

POSITION STRONG ONE

German Counter Attacks All Defeated in Bayonet Encounters.

PARIS, March 24.—(6.48 p.m.)—An official eye-witness describes the capture of Sabot woods, between Souain and Perthes, on the battlefield in France. He writes: "Each time we attack, we gain our end; each time they counter-attack we maintain our gain, said a sergeant, explaining the operations around Perthes."

"Between the adverse lines, where the fighting has gone on for months quantities of dead bodies lie, some of them dating from the first engagements, their dried faces reduced to the appearance of mummies. Beyond these lines, the Sabot woods, which the enemy held strongly for months, were the object of a systematic attack. The Germans strongly fortified the heights dominating our positions at that point. Two French Lines Taken.

"On March 11 the general order was given that these woods must be taken. The artillery proceeded together for the first attack, which, in the face of a violent machine fire, resulted in the capture of two lines of trenches. A further advance was checked by a vigorous counter-attack. "Our success was very costly. The lieutenant-colonel commanding a company and two lieutenants fell mortally wounded. "On the morning of the 18th the Germans made a more serious attempt to regain the position. ONE MILLION WOMEN REGISTER FOR WORK

English Girls Offer to Fill Positions Vacated by Men in Army.

Special Cable to The Toronto World. LONDON, March 24.—Women are crowding to register for employment in the munitions factories and in the work on the coast. It is estimated that already one million women have shown themselves ready to fill positions vacated by men in the army. The government has expressed its approval of this movement, but no definite action has been taken. However, women are now being employed as clerks in the censor's office and elsewhere in government work that formerly occupied men. All the railroads and tramways thruout England have received letters from the government asking them to do all they can to employ women and release able-bodied men for fighting. Registration at the labor exchanges is increasing daily and at the same time efforts are being made to find employment, but as yet the million of registered women have not all found positions.

CANADA FREELY GAVE TO BELGIANS RELIEF

Two Million Dollars' Worth of Food and Clothing Contributed to Cause.

NEW YORK, March 24.—Canada has contributed \$2,000,000 worth of food and clothing for relief in Belgium, it was announced here today by the commission for relief in Belgium, which has received a report to that effect from Hector Prodhoms of Montreal, treasurer of the Central Executive committee of the relief work for the victims of the war in Belgium. Nova Scotia led all other provinces in the size of the contributions.

POLICE ROUND UP AUSTRIANS AT DRILL IN A CHURCH HALL

Russians' Gain in Prestige Is Admitted by Germans

Przemysl's Fall Will Have Particular Effect Upon Neutral Nations, Says Major Morath Who Contends, However, That Victory Was Dearly Bought.

LONDON, March 24.—A Berlin despatch says Major Morath, military correspondent of The Tageblatt, telegraphing from Vienna regarding the fall of Przemysl, makes the following comment: "The prestige of the Russians has now been increased, especially among the neutrals, but the debris of blown-up guns and works was too dearly bought."

He points out that the attacking forces are now strengthened by the troops from Przemysl, but contends that this is the only military advantage gained by the Russians.

SUMMER TRAINING CAMPS AT SIX POINTS IN CANADA

By a Staff Reporter. OTTAWA, March 24.—It was announced by the militia department tonight that training camps for the soldiers would be maintained all summer at Valcartier, Potawawa, Niagara, Barriefield, Sewell, Man., and at some point in British Columbia.

TURKISH FORTS MUST BE SEIZED

Success in Dardanelles Will Depend Upon Landing Parties.

MINE SWEEPERS OUT OLD ARTILLERY USED

Operations Should Be Completed in Three or Four Weeks.

Special Cable to The Toronto World. LONDON, March 24.—From three to four weeks is the time estimated by British authorities for forcing the Dardanelles. Much depends on the weather, and the operations may take longer, but with a reasonable amount of good luck, it is believed the allies will be thru the straits into the Bosphorus in that time. The impression grows that successful completion of this plan will have a tremendous effect on the ultimate decision of the great war, notably bringing the end within measurable distance.

The success of the Dardanelles venture admittedly depends upon the presence of a sufficient landing force to take possession of the forts. It is pointed out the ships may batter at fortifications all day, but at night the garrisons have a chance to recuperate and rearrange defences. Furthermore, the Turks are using field guns which are very difficult to locate or destroy. A sufficient land force would take possession of the fortresses when the warships silenced the batteries. The land force is now being assembled and will shortly be ample for all purposes. It is impossible to review just how far the mobilization has proceeded, but it has gone to a point where confidence is expressed that the Dardanelles will be forced before another month is completed.

The Tenedos correspondent of The Times in a despatch dated Tuesday, says: "Mine sweepers are again at work in the Dardanelles, but the wind is still too high for other naval operations. Force Already Landed. A despatch from Athens to The Daily Express says a force of allied troops was landed in the Peninsula of Gallipoli, yesterday, from transports in the Gulf of Saros. Berlin reports that The Giornale d'Italia of Rome has received a despatch from Athens saying that the British battleship Cornwallis has been disabled in the Dardanelles fighting."

COMPROMISE ON BILINGUAL ISSUE?

Amendment to Resolution Before Senate Makes Plea for Harmony.

Authority Lacking? Senator Pope Holds That August Body Has No Jurisdiction.

OTTAWA, March 24.—An amendment to the senate bilingual resolution was offered today in the course of the debate in the upper house. It drops reference to the Province of Ontario and makes a general plea for harmony between the French and English citizens of Canada. In resuming the debate on Senator David's motion, Senator Bolduc agreed with the mover that all questions of language or race were delicate, and said his motion was merely a declaration for peace and harmony. In amendment, Senator Bolduc offered the following resolution: "That this house, without derogating from the principle of provincial autonomy, deems it proper to regret the existence of any province of division in connection with the bilingual school or other national or religious questions, and believes that it is in the interest of the Dominion at large that all such questions should always be considered on fair and patriotic lines and settled in such a way as to preserve peace and harmony between the different national religious sections of this country, in accordance with the views of the fathers of our federation and in the spirit of our constitution."

Senator Pope, who seconded the amendment, said he would rather the question had not been raised at this time and hoped the debate would terminate at once. The senate had no authority over this question, he said. At the French-Canadian congress in Quebec, the

SUBMARINE "BLOCKADE" TO BE MORE VIGOROUS

Marquis of Bristol Expects Large Increase in Number of Raiders.

LONDON, March 24.—A large increase in the number of German submarines operating in the waters around the British Isles was predicted by Rear Admiral the Marquis of Bristol, in an address at a meeting in London today of the Institution of Naval Architects, of which he is president. The lord admiral advocated the equipping of all merchantmen with armament sufficient to deal with submarines. He said that later international action must be taken for the purpose of defining the latitude which submarines should have in their offensive capacity.

Were in Charge of Men Brought From the United States — Used Dummy Rifles and Drilled With Precision.

Inspector of Detectives George Kennedy, Inspector Crowe of No. 3 division, and nine headquarters detectives, surrounded St. Stanislaus Polish Church, at 16 Denison avenue, about 11 o'clock last night, and rounded up about 30 Austrians and Poles, who were drilling in the hall of the church. They were looked up in No. 3 station on a charge of illegally drilling. It is the first arrest for the offence of "illegally drilling" within the fence of "illegally drilled" within the memory of the oldest police official, and is probably the only one since the Mackenzie rebellion.

The detectives watched the manoeuvres for some time before breaking in on the drillers. Dummy rifles were used and orders were given in Polish and Austrian. According to Inspector Kennedy, the men were a well drilled body and carried out every order with military precision. With the men placed under arrest was an American-Austrian, who, according to the police, was brought across from the United States for the express purpose of whipping the squad into shape. The dummy rifles were all seized and carried to the police station for use at the trial of the men. St. Stanislaus Church, where the men were arrested, is a Polish Roman Catholic Church. Rev. Joseph Hinman is pastor.

SUBMARINES BUILT FOR BRITAIN IN U.S.?

Washington Decides to Start Another Investigation of Shipyards.

WASHINGTON, March 24.—Another investigation to determine whether American shipyards are building submarines for European belligerents, was ordered today by Secretary Daniels. Naval officials stated that private plans on both the Atlantic and Pacific coasts were under investigation and report to Washington.

This action was taken on account of published reports that the Fore River Shipyard at Quincy, Mass., was building submarines in sections and shipping the parts to Montreal for the British army.

U.S. AMBULANCE CORPS TO JOIN BRITISH ARMY

Transference From Service With French Force is Ordered.

LONDON, March 24, 4.40 p.m.—The American volunteer motor ambulance corps now operating with the French army, has been ordered to report for duty with the British army. It is to be enlarged so that the work which the French forces may be continued. The American corps was organized under the British Red Cross and loaned to the French army because its services were not required by the British army. It is so useful that the entire field hospital service of the French army was based on it.

TURKS' SUBMARINE DEFENCE WEAKENED

Floating Mines Said to Be Only Real Obstacle to Fleet.

WARSHIPS REPAIRED

Gaulois and Inflexible Now Ready to Enter Action Again.

PARIS, March 24, 6.45 p.m.—The Athens correspondent of the Havas Agency, in a despatch dealing with the attack on the Dardanelles by the allied fleet, says: "Navy officials at the straits declare that the Turkish submarine defence was greatly weakened following the explosion of numerous mines during the late attack. They add that if it had not been for floating mines an entrance would have been forced last Thursday, as the forts themselves do not offer a sufficient obstacle to prevent a passage."

The warships Gaulois and Inflexible, which are anchored in waters that are well protected, have finished their repairs. The shortage of coal is being felt at Constantinople, where numerous warships, notably those supplying the straits railway with power, have been forced to suspend operations. The authorities are compelling Christians, up to the age of 40 years, to enlist and work on the defence of the heights which protect the capital, on both the European and Asiatic sides. At Dardanelles the Turks have pillaged the habitations of subjects of the allied countries and have forced them to quit the city."

Professor Coleman, of the department of zoology in the University of Toronto, gave an address before the members of the Victoria Women's Association yesterday afternoon at Annsley Hall. The present great world strife was discussed under the title "The War as Seen From the Far East," the relations imperially, socially and politically of the vast Orient, with Great Britain and the nations of Europe being dealt with in a most interesting and descriptive manner.

The importance of the eastern lands in this great world war was described, as were the influences now affecting their future progress.

A meeting of the Frances Willard Hall Board will be held at headquarters, 20 East Gerrard street this morning at 11 o'clock. The district W.C.T.U. will meet at 2.30 p.m.

The weekly sewing circle of the 48th Highlanders Chapter, I.O.D.E., will be held in St. Andrew's Institute, 75 Simcoe street, at 2.30. Hospital supplies will be made, and it is requested that as many members as possible will be present and bring any willing workers with them.

"Landscape Gardening" was the subject of a very comprehensive lecture given by Dunnington Grubb before the members of the Women's Art Association yesterday afternoon, at the Galleries, 394 Jarvis street. Mrs. R. A. Falconer, was tea hostess at the conclusion of the address, when a short musical program was also enjoyed.

The Women's Conservative Club, Bucher, at Playter's Hall, in aid of "socks for soldiers" was well attended yesterday afternoon, making the purchase of another big supply of wool a reality.

North Toronto Patriotic League held an executive meeting yesterday morning to further plans for carrying on relief work and Red Cross aid.

The East Toronto Women's Institute held their regular working meeting in Elks Hall, and engaged in

fashioning hospital supplies for the Red Cross.

The Lake Shore branch was also busy in the same cause, and a largely attended meeting of the Q.O.R. Chapter, I.O.D.E., completed a large donation of soldiers' comforts.

Alma Daughters held a well attended meeting at the residence of Mrs. Lovelock, 75 Glen road, yesterday afternoon, when plans for patriotic work were culminated.

The Queen's Own Chapter birthday party was sufficiently successful to enable the provision of four beds in the Queen's Canadian Hospital at St. Michael's.

Mrs. Stearns Hicks, convener of the Red Cross Committee at W.P.L., reports that the largest shipment of supplies that has yet been sent from headquarters, on March 18, 137 cases of Red Cross supplies and soldiers' comforts were shipped to Canadian men at the front, containing 43,847 articles.

Work for the University of Toronto Hospital has been enthusiastically taken up. Dr. Patterson, convener of Red Cross Committee at W.P.L., reports that 188 circles working for the Red Cross now have been asked to contribute to the hospital supplies.

Mrs. Arthur Van Koughnet reports from the Women's Patriotic League that 170 pairs of socks, 390 muffs, 800 pair wristlets and 5 pairs of gloves have been sent during the past two weeks.

As a result of the bridge and patriotic tea given by the Ladies' Auxiliary of the Army Medical Corps 4200 has been cleared for furthering their work on behalf of comforts for the Canadian corps on the firing line.

The Toronto Women's Liberal Association will meet in the Margaret Eaton School at 8 o'clock this afternoon, when Mrs. J. Allen, formerly of Aberdeen, Scotland, will give an address on the work of women's clubs in Great Britain.

The annual meeting and dinner of the Toronto Women's Press Club will be held on Wednesday evening, March 21, at 7 o'clock, in the "Laura Matilda" Tea Rooms, 707 Yonge street.

In Mrs. Arthur Van Koughnet's report on comforts on the field of the Toronto Women's Patriotic League, she stated that in the past fortnight the following wooden comforts had been sent to the men at the front: 779 pairs of socks, 800 muffs, 300 pairs of wristlets, 5 pairs of gloves, and 200 pairs of mittens.

Also that for the time being her appeal would be for socks, which would be received in large or small quantities.

NOMINATED FOR MODERATOR:
 Another nomination for the position of moderator of the general assembly of the Presbyterian Church, for which office Rev. John Neil of Westminster Church, Toronto, is regarded as the best choice, has been made. Chalmers Church, Kingston, has been nominated by its presbytery. The assembly will meet at Kingston on June 2.

NOVELTY BAGS OF HANDSOME SILK

The Newest Handbags Developed in Rich Moires.

FITTINGS ARE OF GOLD

Backs Made to Match and Linings of Delicate Hues.

Moire handbags are the latest—at least they have been re-established. The black moire silk bags have served admirably in previous seasons, but the spring models include a wide range of pretty colors previously absent, and not least in importance is the decided novelty of styles. The bags are for the most part quite practical, and roominess is always a happy feature, and nearly all the prettiest bags are large and handsomely fitted with all the numerous "necessaries" without which the devotee seldom goes forth to shop or call.

For the dark bags, smartly mounted, sterling or gold backs, linings are of the most delicate-hued brocades, and the pockets and cases are prettily shirred and padded into which are fitted the sundry little articles or the miniature toilet, including cologne bottle, rouge stick, powder case, mirror and brush, not to mention manicure sets and change purses. Tiny jewel cases are often added, and even sanitary collapsible drinking cup of diminutive size.

The light silk bags are very dainty and the cords accompany them instead of chains, and linings are extremely delicate in contrasting or harmonizing tints. Sometimes long looped ribbons replace the cords, and on formal occasions, when the hat-streamers, slippers, hosiery and sunshades exploit a shrewdly chosen "summer" picture.

Some More Ideas for the New Garden

After having carefully considered the possibilities of your new grounds, and decided you really know what you want, let us take a look at the soil, the exposure, the slope, the drainage, and any other important things that may crop up.

These things must be thought over, or how can you plant for permanency. The soil may be light and sandy, which means fairly good drainage, and probably a very much dried-up garden, along about August and September, if you do not improve it. The soil may be thick heavy, dampening clay, which means, with a little care, some splendid rose bushes. Again, the soil may be rich black loam, and you commence to hug yourself with joy, having visions of profusion of bloom and luxuriance of color in the near future. Should you be so placed that sun comes to you from the south, or east or west, be thankful. If the exposure is northerly and westerly, do not despair. If you are averse to the inevitable winds, plant wind-breaks before you plant your peach trees or your honeysuckle.

Sloping and hilly land offer the most delightful possibilities to the artistic gardener. With no difficulty at all, terraces may be built, little low-reaching rock gardens may support the slopes, and should you be so placed that sun comes to you from the south, or east or west, be thankful. If the exposure is northerly and westerly, do not despair. If you are averse to the inevitable winds, plant wind-breaks before you plant your peach trees or your honeysuckle.

Low-lying land should be drained if possible. This means something a little more extensive than amateur work will allow. But a little outlay at the beginning will be of infinite value the years go by. This initial outlay is always advisable when starting a new garden, and should not be begrudged or withheld if at all possible.

For small yards that give promise of heavy sour soil, much can be gained by a thorough digging up of the soil, and where some earth of a lighter nature can be added, the whole nature of the soil can be improved in a season or two. I have always advised my gardeners, who are thus unfortunate, to have all grass cuttings, and where wood is burned in the kitchen stove to save all ashes. These two homely aids to the gardener cannot be bettered. I myself only last year saved all grass cuttings (which were piled behind some berry bushes, which conveniently hid the mass), and these are available this spring to dig in as ordinary manure is dug into the beds. Wood ashes help where houses have been built on made-up land, there will be real dirt in starting gardens. Much of this made-up land has been filled in with cinders and coal, and this is almost impossible to deal with. Shrubs will not grow in such soil, nor will vines. Deep-rooted perennials are not to be thought of, and even annual beds of annuals have proved failures.

WOMAN SHOT DEAD NEAR BROCKVILLE

Grant Kilborn, Farmer, Arrested on Charge of Murder in This Connection.

Special to The Toronto World. BROCKVILLE, Ont., Mar. 24.—Grant Kilborn, a middle aged farmer, living near Brockville, faces a charge of murder as the result of shooting Mrs. Joseph White, an elderly woman, who with her husband resided on the farm with him.

The police say that Kilborn had been drinking in Brockville yesterday and on his return home brought a bottle of whiskey. Today the White family were moving out when the murder occurred.

Mrs. White encountered Kilborn with a 12-gauge shot-gun. Immediately there was a report and the woman fell to the floor with the contents of a shell in her abdomen. Death ensued three hours later at the General Hospital here.

Kilborn made his escape to the woods near the farm house, but in less than an hour he was captured by a posse accompanying the Brockville police.

Kilborn asserts that he did not know the man who was shot and that there was such a thing as a shell in the house. He bore no malice or ill will towards the Whites, he states, and they were always on the best of terms.

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST. So-called stomach troubles, such as indigestion, wind and stomach-ache are probably nine cases out of ten simply acidity of the stomach.

The trouble lies entirely in the fermenting food, which is not natural, and acid formation is not only natural, but it is the most serious consequence if not corrected.

Prevention of the stomach troubles is to eat the acid and render it bland and harmless (teaspoonful of bicarbonate of soda, probably the best and most effective corrector of acid stomach known, should be taken after each meal, and after each glass of cold water immediately after eating, or whenever wind or acidity is felt.

J. JOHNSON TOP HEAVY FAVORITE

Willard in Training Before Big Crowd, Shows That He is Not Finished Boxer.

HAVANA, March 24.—Warm weather today gave Jack Johnson and Jess Willard the first opportunity in several days to work in the open air in training for their battle for the world's heavyweight championship on April 4. Both pugilists drew crowds of people, who were anxious to see them at work.

Willard trained at Miramar in the presence of 600 spectators, a third of whom were women. Many bursts were among those who watched the challenger do an hour and a quarter's hard work at the palaces, punching the dummy, throwing the medicine ball and boxing twelve rounds. He faced John Pentz for three rounds, Walter Monahan four, and Jim Savage five, and later wrestled with Tom O'Rourke.

Willard has developed a sprain left. His wind is only fair. His sparring partners landed freely today, and despite the fact that they are smaller men, the challenger was easily thrown off his balance in the clinches. Willard hits a terrific blow when he lands, but it still falls from a finisher's boxer. Without losing himself, he took punishment about the head and body, apparently not being discomfited. During the morning Willard did six miles of roadwork.

Johnson likewise took a six-mile run this morning. The champion boxed six rounds with his trainers without intermission. Willard took a minute's rest between rounds while he was boxing, and Johnson's partners are busier and more experienced than those of the challenger. Johnson declared that he could fight today if necessary, and said that in another week he would be in perfect condition. Americans have begun to bet in favor of Johnson, offering small sums at 11 to 5. This far there is only a fair demand for seats at the championship fight. Harry N. Frasse, principal backer of the bout syndicate, arrived here today and took personal charge of affairs.

BRITISH FOOTBALL

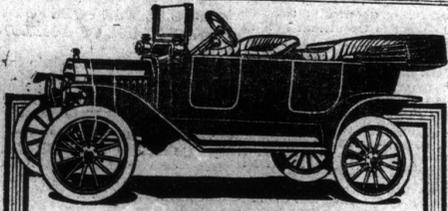

The Toronto Welsh Rugby Football Club will hold a grand smoking concert at the Carle-Hill Hotel on Monday night, March 22nd, at 8 p.m. in honor of the Toronto Welsh Rugby Union. The club has a number of players who have enlisted for active military service with the Canadian contingents. The concert will be given by the club, and the proceeds will be used for the benefit of the club. The price charged for tickets for the smoker will be the humble quarter, and those are being rapidly taken up. Early application should be made to the secretary for same. This concert will be one of the best of the season in British Rugby. A splendid musical program has been arranged. Line up, boys, and be in your respective positions at 8 o'clock Monday night at the Carle-Hill. All information may be obtained from the secretary, J. H. Thomas, 60 Gloucester street, city.

REICH K.O.-ED PELKEY.

NEW YORK, March 24.—Al Reich of this city, former amateur heavyweight champion, knocked out Arthur Pelkey of Chicopee, Mass., in the third round of a 10-round match here tonight.

Weston Won Hockey Tournament Final

The final game in the Weston hockey tournament came off last night on neutral ice, the playing of one of the disputed University stars by Weston. The final score was 4 to 2 in favor of the Weston Intermediate. The game being played, the ice was somewhat lumpy. The rink was crowded with supporters of both teams and ice feeling ran high, breaking out at one time into a fight. County Constables Chas. F. Wacey and King, however, succeeded in restoring order. Seven diamond rings, provided by Rink Manager Chapman, go to the players of the winning team.

Ford Touring Car
Price \$590

No advance in the price of the "Made-in-Canada" Ford will be made because of the additional 7 1/2 per cent. War Tariff. We as loyal Canadians will gladly absorb whatever increased duty we are forced to pay on such raw materials as cannot be obtained at home. The Ford is manufactured in Canada — not assembled in Canada.

The Ford Runabout is \$540; the Town Car, \$640; the Coupelet, \$860; the Sedan, \$1150—all fully equipped, f.o.b. Ford, Ont. Ford buyers will share in our profits if we sell 30,000 cars between August 1, 1914, and August 1, 1915.

STAR GAME WITHOUT STANLEY AND GRAHAM

Play Second for Cup Between Vancouver and Ottawa Six Men a Side.

VANCOUVER, March 24.—The second game of the series for the Stanley Cup was played tonight, eastern rules, six men a side. Ottawa lined up at the start without Graham and Vancouver reduced from seven by omitting Stanley. It was considered out here that the eastern style tonight should give the Ottawas just as big an advantage as the Vancouver men had on Monday.

Discussing prospects, Coach Smith of the Ottawas said: "Our men were not at their best form last night. Even the players who starred could have done better under ordinary conditions. The long trip evidently threw our men off their stride, whereas Vancouver played under most favorable conditions. I think we shall win decisively under the six-man game Wednesday. Then, if we do not repeat Friday it will take five games to decide the winner."

Four nominations were received yesterday by Secretary Frank Doyle to the executive committee of the Ontario Amateur Lacrosse Association. They are: F. T. Westwood, St. Catharines; E. Dugg, Riversdale; T. E. Bell, Bradford; and E. A. Doyle, Newmarket.

St. Catharines will have senior and junior teams in the O.A.L.A. 1. Mosley of the St. Catharines Club is a captain in the second contingent at Exhibition camp.

Boosting Ontario Amateur Lacrosse

HANOVER, March 24.—It is the intention to hold a lacrosse meeting in the near future to reorganize Canada's national pastime. Hanover has enough material to place two good teams in the field this year, and all that is required is someone to take the initiative and make them play the game. Hanover has been in the final and semi-finals and expects to land the laurels again.

Local enthusiasts are elated at seeing many of our native sons in the line of the game and are desirous of hearing from lacrosse followers at Durham, Mount Forest and Listowel. With the game coming back at Harrison, it would make a great start and furnish some lively times this summer.

LEADERSHIP In Men's Clothes

FOR nearly twenty years this store has been the recognized leader in Toronto for quality and style in Men's Clothes.

In order to be maintained, leadership demands constant alertness in the selection of what is new in material and style, thoroughness in workmanship, and wide knowledge of the products of home and foreign markets.

Our Suits and Overcoats for Spring are easily the finest in this city. You should see them. All the newest English and American models are shown—coats with wide lapels and unlined, hand-tailored shoulders; vests with collars, and medium-width trousers with or without cuffs. Materials include great variety in blues, greys, browns, tartans, hair-line and chalk stripes, etc., worsteds, tweeds, chevots, and specialties.

You have your choice from three distinct and separate makes of Men's Clothes, each a leader in its field.

Stein Bloch

These are distinctly American in style and material. No smarter garments are featured in the United States. Men who prefer American to English suits may absolutely rely on the correctness of style shown in these clothes.

Society Brand

This well-known brand of Clothing has achieved leadership for young men and men who stay young. We hold the exclusive agency for the city of Toronto, and the continued demand for Society Brand Clothes is positive evidence of satisfaction in service. Both English and American styles shown.

We have just stocked an entirely new range of the famous Semi-ready Clothing, known all over Canada for its superior quality and design. Those who admire this make of clothing will find awaiting them a complete line of Suits and Overcoats for spring and summer wear. On and after Saturday, April 3rd, you will not be able to secure anywhere in Toronto a Semi-ready garment of any kind except at this store.

Suits, from \$15 to \$25. Overcoats, from \$15 to \$30

Ed Mack, Limited

167 Yonge St., Opposite Simpson's

This display of Spring Clothing will prove a revelation. We scarcely expect you to buy so early in the season, but we would appreciate your calling to inspect our stock.

Boxing Entry Forms In French and English

MONTREAL, March 24.—The dates announced last week for the Canadian amateur championship boxing tournament, May 7 and 8, having been officially confirmed, the place of holding the matches given as the Arena, by the official entry forms, the entry forms came out quickly, printed for the first time in both the French and English languages.

As usual, three kinds of medals will be given—gold, silver and bronze—and they will be made from the official die adopted some time ago by the Amateur Athletic Union of Canada.

A special ring will be constructed for the Arena, with all the modern improvements in both the French and English languages.

The preliminary tournament, which will be held in the M.A.A. gymnasium about a week or ten days before the Canadian tourney, will be a great opportunity for those interested in boxing to get a line on the contestants.

An officer of the committee in charge of the preliminary tournament, which will be held in the M.A.A. gymnasium about a week or ten days before the Canadian tourney, will be a great opportunity for those interested in boxing to get a line on the contestants.

Even though some of the older amateurs have gone to the front, the coming Canadian championships ought to be the best ever held in Canada. The location will be ideal, and the bouts ought to be excellent for they will be contested by absolute amateurs, who go in for the love of the thing, and do not gauge their efforts by the amount of money they get.

FIGHT TEN DAYS AWAY.
HAVANA, Cuba, March 24.—Jack Johnson and Jess Willard have settled down to regular routine of training in preparation for their fight for the heavy-weight championship of the world on April 3. Constant rains confine their work chiefly to indoor training. The champion has his headquarters in the gymnasium at the stadium and the challenger is training at the suburb of Miramar. Both men are charging admission fees to their quarters, which are visited every afternoon by several hundred Cubans and Americans.

Boxing is novel to a native, but tourists appreciate the fine points of the sport. The latter are interested chiefly in Johnson's condition. The champion appears to be in surprisingly good form. He weighs 235 pounds and in the eleven days before the fight expects to reduce his weight to 215 pounds. He is a trifle fat at the hips, although his weight is not excessive, considering the amount of time left for training and the moisture of the climate. He works in heavy clothes and perspires profusely.

Johnson's exercise yesterday consisted of shadow boxing with dumbbells, and eight rounds of boxing with no intermission, with Dave Mills, Colin Bell, and Bill Scott, all heavy, fast men. Johnson's wind was excellent, and his old cleverness in hitting, blocking, and clinching was evident. His judgment of distance was a trifle short, but he said this would be rectified by practice. He was as confident and good-natured as is usual with him.

Willard, after his long period of training at El Paso, is going at an easy pace, taking up about the same routine as Johnson. His road work is lighter than the champion's. His wind is good and his form is improving. His best work is with Jim Savage.

The Monarchs organized last night, with J. Richardson as president and C. Kenny manager.
