**BOLT STRUCK VICTORIA COLLEGE
CHIEF AND FIREMEN IN PERIL**

**Collapse of Tower Nearly Ended
Lives of Eight Fire-fighters—
Fire Damage of \$3000
Would Have Been Much
Greater Had Not Most Valuable
Deposits Been Removed.**

**HIS NARROWEST ESCAPE
SAYS CHIEF THOMPSON**

Victoria College tower was struck by lightning during yesterday's storm, entailing a damage of \$3000. Eight firemen, among whom was Chief Thompson, narrowly escaped death when the charred timbers and timbers of the tower fell, and some of them were knocked to the floor just two feet from the spot where the debris tore a great hole in its descent to the floor below. Valuable mummies, 3000 years old, and specimens of ancient armor escaped damage. A few old documents were damaged by water, but, fortunately, nearly everything of worth including many valuable books, had been removed from the building, which is undergoing alterations and repairs. Difficulty was found in the tower in alarm owing to the telephone company's practice of shutting off their service during thunderstorms. The hose in the building, which has not been used for years, was used at first, but soon gave out.

The tower at the southeast corner of the college was struck at 8 o'clock. S. Cleveland of the Kew Beach volunteer fire brigade and three other men were sitting on the front steps at the time, waiting to get into the building to paint the interior. There was a deafening clap, but they did not suspect that the building had been struck until a piece of the tower fell from the slatted roof and fell in the gravel driveway before them. They went out and saw a thin spiral of smoke curling upward from the tower. Rushing to the west side of the building they broke a window and hurried upstairs, where they found the college lines of two-inch hose, which, under the direction of Mr. Cleveland, they soon got into action. With this they were able to extinguish the burning particles which fell from the roof of the tower, and thus kept the fire from spreading downward.

This was not for long, however, as the old hose, which has not been used in years, soon gave out under the pressure of water and, bursting in several places, became useless. By this time, however, the fire had spread to the roof of the tower, and thus kept the fire from spreading downward.

THREE DROWNED
When Steamer John Mitchell Was Struck by the W. M. Mack.

SAULT STE. MARIE, Ont., July 10.—(Special)—While the White Fish Point at midnight last, the steamer John Mitchell, Capt. John Massey, was struck amidships on the port side by the steamer W. M. Mack, Capt. George H. Burnham, and sunk in 15 feet of water. There was a heavy fog at the time.

CAN TRUST THE FARMER.
Reports of the Western crop received by the Massey-Harris Company and other firms in Toronto during the past few days are unusually encouraging. The crop so far proves to be the finest below what the actual results will be. One telegram read: "Crop greater than can be imagined; farmers good for any amount of credit." This message received by a Toronto man, a shipping company from one of its western agents, assured the heads of the firm that in the harvest season of 1911, more than a million dollars would be sent to Canada than it did a year ago.

LAIRD GLENBURNIE DEAD.
KINGSTON, July 10.—(Special)—After an illness extending over several months, William Craig of Glenburnie, known as Laird Glenburnie, passed away, aged 75 years. He lived at Glenburnie 60 years and was born in Scotland. He came to Canada in 1851, and ever since lived on the same farm in the Glen. He was a cheese manufacturer, and last year was president of the Frontenac cheese board. For four years he was reeve of Kingston Township and for 21 years school trustee.

POPULATION MAKES A BIG LEAP —Assessment Roll for Ward Two Indicates Gain of \$6, 427,762 — Increase of Population for the Ward is 8971.

POPULATION RETURNS.

Ward	1910	1911	Increase
Two	45,715	54,686	8,971
Five	60,375	64,978	4,603
Six	60,322	70,577	10,255
Seven	12,446	14,280	1,834
Totals	178,858	204,521	25,663

The assessment roll of Ward Two duly attested was handed over to the city clerk's office yesterday afternoon. According to the report of the assessment department, the population of the ward is 54,686. This is an increase of 8,971 over the returns of last year, which were 45,715. These figures compare very favorably with those of the other three wards returned this year, and are only exceeded by those of Ward Six, which had an increase of 10,255. The total population of the city is 204,521, an increase of 25,663 over the returns of last year, which were 178,858.

FOUR AMENDMENTS GIVE SENATE REJECTS TO PACT

WASHINGTON, July 10.—The Canadian reciprocity bill emerged unscathed to-night, from the most serious ordeal it has yet experienced in the senate. The series of amendments offered by Senator Cummins of Iowa, and the two offered by Senator Simmons of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted free of duty to the United States, were voted down by large majorities.

**OLD FRIEND HUMIDITY
IS PACKING UP GRIP**
Temperature to-day may be as high as yesterday's 88.5 Mark
—Rain Helped Some.

True to the prediction of the observatory officials, rain arrived yesterday. It was no mean shower, either, for the rainfall amounted to nearly an inch, or .93 inch, to be exact.

PROCEEDING TO EXPROPRIATE
City Departments Now Taking Necessary Preliminary Steps.

Since last meeting of the city council, the various public departments concerned have been proceeding with the steps preliminary to the expropriation of the C.P.R. corner at King and Yonge streets.

NEW LINE FOR T. AND N. O.
Hollinger Extension Will Be Completed in October.

Notwithstanding the completion of their new branch line to Porcupine, the T. and N. O. Commission are still hard at work on the Hollinger extension. Balaclava is being done on the south end of the track between Porcupine and South Porcupine.

**"HELP! HELP!" HOLLERED
THE WHOLE HAITIAN ARMY**
And Help Hove Into View on the Horizon—Abandoned to Their Fate by President, Tugboat Admiral and Fizz-fixer Engineer.

NEW YORK, July 10.—The whole Haitian army lies aground off Gonaves, about 20 miles from Port au Prince, and had it not been for the good ship Allemania of the Hamburg-American Line, which came into New York today, the whole Haitian army would be languishing on board the navy.

RAIN AFTER PRAYER.
"The effectual fervent prayer of a righteous man availeth much." Elias was a man subject to like passions as we are, and he prayed earnestly that it might rain, and the heaven gave rain, and the earth brought forth her fruit!—James V., 16-18.

PARLIAMENT WILL SIT FOR ONLY THREE WEEKS

King Gives State Banquet.
DUBLIN, July 10.—The King gave a state banquet at the Castle to-night, the royal plate being specially brought from London for the occasion. The distinguished guests included the lord mayor of Dublin, after the King held a chapter of the Order of St. Patrick, at which the Earl of Shaftesbury and Field Marshal Lord Kitchener were invested as extra knights companions.

**TWO MEN KILLED
BY LIVE WIRES**
John Walker, Victim of Inter-urban Electric Co. Wire, and Frank Gowan, Hydro Lineman, Met Death.

Two men met death from contact with electric wires in the city yesterday. One was a citizen walking in the street, who ran against a hanging wire of the Interurban Electric Company, and the other a hydro-electric lineman stringing wires on a pole.

**ELECTION DEFERRED
ISSUE CLEARLY PUT**
Would Let Reciprocity Pass, Have Redistribution and Appeal on Railway Rates.

Here is what a Conservative said yesterday: "Reciprocity doesn't amount to shucks; it has been discounted in every direction; it can never now affect the political future of Canada, and my advice to the Conservatives in the commonsense is to let it go thru with a protest, and then let the people judge of it. It will be practically superseded within six months or at most ten months by a tariff reduction bill in the States and then Canada will be free to put the duties back on U. S. products that are to be made free by the reciprocity pact if the cares or needs do it. I would also pass reasonable supplies and put the responsibility on the Liberals of holding an annual session with a redistribution bill next winter."

EXPLOSION ON BLOOR STREET.
Residents on East Bloor street, near Church street, were rudely awakened yesterday morning at 1:15 by a terrific explosion, which sounded as if a black-hand gang had been trying to dynamite some of R. J. Fleming's street cars.

OFF INDIAN SHOOTING?
BRANTFORD, July 10.—(Special)—A young man had fallen from Oakville, was found by the police here today wandering the streets with a 22 calibre revolver, loaded in each chamber, and a box of cartridges. He was taken home by an Oakville constable.

THE GLORIOUS TWELFTH.
Wednesday will be the big annual celebration of the Battle of the Boyne. The day is generally marked in Toronto by the largest display of fireworks since the war, and the largest procession of the year. A new silk hat is the only one to wear, and the Dineen hat prepared for an unusual demand by importers.

THE OFFICIAL OUTLOOK.
The Quebec correspondent of the Toronto Star sends the following dispatch in part respecting the federal political outlook, which seems to have official sanction:

BELSHAW KILLED THROUGH BODILY BUILT SCAFFOLD

Coroner's Jury Declares Foreman Incompetent—All Scaffolds Should Be Inspected.

"We, the jury, find that John Belshaw came to his death on June 24, at the Western Hospital, from fracture of the ribs, which pierced the lungs, producing hemorrhage, which was the result of falling from a scaffold at the grand stand in Exhibition Park."

"We further find that the men employed in the erection and removal of the scaffold were incompetent and were not under the supervision of a foreman who possessed any capable knowledge of scaffolding, and that some adequate measure of protection should have been afforded to guard against such accidents."

"And further we recommend that inspection be made of all scaffolds of similar kind by a competent official in order to protect human life and to guard against future accidents."

So did Coroner Dr. J. E. Elliott's jury of seven intelligent and unprofessional jurors, drawn under the new act, express themselves in the case of the young man who died as a result of a fall from a scaffold whereon he was working. The scaffold is held to be unsafe and was, according to the evidence, built by men without previous experience. The inquiry was opened on Thursday and adjourned until yesterday afternoon. The jury were out for over an hour considering their verdict.

Fred Smith, 152 Crawford-street, a painter, was the first witness. He declared that Cardinal, the foreman, had called up shortly before 12 o'clock, ordering the men to have the scaffold down by noon. He admitted that the planks were three or four inches apart, but thought that was all right, and that the platform as a whole was a safe one. Bert Hammer, painter's helper, gave the same evidence.

Scaffold Was Treacherous. Edwin Knott, 133 Church-street, and Arthur Albert May, 26 Beaconsfield, workers on the scaffold and stagers, gave decidedly different views of the matter, however. They contended that the scaffold was unsafe, and that the work of moving the stage, supporting poles along the roof of the grandstand was fraught with danger. Knott declared that he went out once to release the pole, but had refused to do it again. "I thought it was too risky," he said. Speaking of the time of the accident, he said another laborer, who was out attempting to release the pole, asked him (Knott) to come and assist him. Knott refused. Belshaw was then asked to go out. He attempted to step across to the girder when his foot slipped on the wet plank and he went down.

He said that Belshaw had always been of rather delicate nature, and was able to keep his footing on difficult places. With one exception, however, he never saw him take any unnecessary risks. "I don't think he would have met death if he shouting to hurry had not made them go out after the pole," he said.

SAULT STE. MARIE, July 10.—(Special.)—At a meeting of the Western Alberta Liberals today in which the party division was reconstituted, N. Smith was nominated to contest the seat against A. C. Boyce. He was opposed at the convention by Dr. A. S. McCaig, who has always been prominent in Liberal ranks.

Hon. A. G. MacKay addressed the delegates. The meeting of the executive committee of the Central York Liberal Association, which was to have appointed a temporary secretary to assist Mr. Porritt in the duties of the office, adjourned until Saturday next.

Elephants and Divers. An excellent free vaudeville program was presented at Scarborough Beach yesterday afternoon and last evening. The feature was again the Powers' Hippodrome Elephant Troupe, headed by that remarkable infant, Baby Mine. She smoked a pipe, laid and lit a fire, drank from a small tumbler, rolled an elephant's doll, and otherwise delighted and astonished the large crowds.

THREE BARN BURNED. STRATHROY, July 10.—During a severe electrical storm which passed over the town about 2 o'clock this afternoon, a barn belonging to Mr. Taylor, who lives on East Metcalfe-street, was struck by lightning and destroyed. A barn owned by Mr. Harnett, who lives on the same street, was also destroyed. The fire was carried to John Campbell's barn on the next place, but the Strathroy fire department was soon on the scene and saved this by forming into a bucket brigade, the properties being outside the fire limits.

Still They Come. Seventy-five immigrants arrived on a special C.P.R. train at 10 o'clock yesterday afternoon. Fifty remained in Toronto, the rest leaving for western points. Three carloads of passengers from the transients, containing 145 immigrants, arrived at the Union Station yesterday evening. Forty-nine stayed in the city, the rest leaving for Chicago and the west.

Painters Are Careless. Mr. Harris tried to show how careless building painters were. "To save the effort of hammering a nail or of replacing a board," he said, "they will take their lives in their hands. No matter how careful the city is, no how well we supply them with materials to build their scaffolds, painters will take their lives in their hands. It is an excellent opportunity for the unions here. They have effectively regulated the working hours and the pay, why should they not make regulations for their men to follow in working so as to insure their personal safety?"

PARLIAMENT WILL SIT FOR ONLY THREE WEEKS

Continued From Page 1.

fer in respect of the rural constituencies, and the enlarged representation of west cannot be effected handily. redistribution of western points will require weeks of consideration.

The present temper of the leaders of the Liberal party must lead either to a dissolution or a backdown by the opposition. If Mr. Borden sticks to his determination to block reciprocity and refuse supply, dissolution will be the only possible result, with the Conservative party held responsible.

THE NOVA SCOTIA SHUFFLE

And Its Effect in the Region of Dominion Politics.

OTTAWA, July 10.—An impending change in the Nova Scotia Government is foreshadowed in the admission to the bar of Quebec last week of Hon. A. K. MacLean, the provincial attorney-general.

Mr. MacLean was here on Saturday and stated to friends that he intends to retire from provincial politics, but he is uncertain just when it will be. He proposes to locate and practice his profession in Montreal, with more particular attention to corporation business.

Mr. MacLean thinks the professional outlook better than is afforded by the position of a provincial cabinet minister. There is also reason to believe that the relations between him and Premier Murray are not without an element of friction.

The World asked a member of parliament who was at the King Edward yesterday, how the above despatch affected Dominion politics. His reply was that in all probability Sir Frederick Borden would succeed Lord Strachan as high commissioner for Canada in London, and that Mr. Murray, premier of Nova Scotia, would take Sir Frederick's place in the Laurier Government, and that E. M. MacDonald, at present M.P. for Pictou, would resign his seat in the commons and succeed Mr. Murray as premier of Nova Scotia. Mr. MacDonald probably expected as it was not in sight in the new deal, he had decided to withdraw from politics.

WESTERN ALGOMA LIES. SAULT STE. MARIE, July 10.—(Special.)—At a meeting of the Western Alberta Liberals today in which the party division was reconstituted, N. Smith was nominated to contest the seat against A. C. Boyce. He was opposed at the convention by Dr. A. S. McCaig, who has always been prominent in Liberal ranks.

Hon. A. G. MacKay addressed the delegates. The meeting of the executive committee of the Central York Liberal Association, which was to have appointed a temporary secretary to assist Mr. Porritt in the duties of the office, adjourned until Saturday next.

Elephants and Divers. An excellent free vaudeville program was presented at Scarborough Beach yesterday afternoon and last evening. The feature was again the Powers' Hippodrome Elephant Troupe, headed by that remarkable infant, Baby Mine. She smoked a pipe, laid and lit a fire, drank from a small tumbler, rolled an elephant's doll, and otherwise delighted and astonished the large crowds.

It is an excellent opportunity for the unions here. They have effectively regulated the working hours and the pay, why should they not make regulations for their men to follow in working so as to insure their personal safety?"

HAMILTON HAPPENINGS

LOCAL IMPROVEMENT BYLAW REFERRED BACK

Amendment Offered to Make City Assume 20 per cent. of Cost of Improvements.

HAMILTON, July 10.—(Special.)—The bone of contention at to-night's city council meeting was the local improvement bylaw, which came up for its third reading. The measure as submitted provides that permanent roadways shall be charged against the lots abutting on such roadways. Ald. Robson nominally led an attack on the bylaw by introducing an amendment providing that property owners shall be assessed only 80 per cent. of the cost of the roadway and that the city pay the other 20 per cent. Mayor Lees, in supporting the amendment, did the real fighting against the objectionable clause and argued that as permanent roadways are constructed the city as a whole and not the abutting owners benefit of abutting property owners, the city should bear a part of the cost. Ald. Herling also voiced his objections to the bylaw.

Controller Cooper favored the bylaw in the form presented, as a means to lower the tax rate, and said that for the city to assume part of the cost of roadways would be to increase the city's debt. "Reduce the tax rate and go into local improvements" was his slogan.

Ald. Wallace looked with disfavor on Ald. Robson's amendment, claiming that the city's share of the cost of the roadway should be nearer 50 per cent. than 20 per cent. He thought the bylaw should be referred back to the works committee, which reported on it.

Controller Cooper made a motion to that effect, and opined that some of the members of the committee, by their action in backing the bylaw to-night after reporting it, indicated that they had been drinking more than lemonade (lemonade is the official drink of the council).

Motion Referred Back. After the expression of a few more pros and cons, by the members, Solicitor D. D. Interposed the suggestion that the matter should be referred to a committee, but that also he had drawn up the amendment of the bylaw. He thought the amendment better for the clause under discussion to be entirely rewritten, so that it would mean after the incorporation of the amendment. The motion to refer the whole matter back to the works committee passed by a vote of 8 to 6. Some of the aldermen were evidently caught napping here as they did not vote.

Ald. Lalonde asked for a ruling on the point claiming that every member had to vote. Every member seemed to be at sea on this question, and as Ald. Lalonde did not press his point, the matter was dropped. The appointment of J. Grant Henderson, commissioner of industries, at a salary of \$1500 a year, was confirmed.

Ward W. was appointed assistant to the building inspector, with a salary of \$900, and Robert Leask was made a clerk in the office of the industrial commissioner. T. H. Pratt was appointed as a member of hospital governors, to serve until July 1, 1911.

The just and unjust of this city gave thanks to-day for a copious and cooling rainfall, recently watered. A heavy fall of hail accompanied the showers, and intermittent precipitation covered the country for miles around the city, for which most of the farmers are grateful, as growing crops were perishing for lack of water. The rain will not come as an unalloyed blessing, however, as thousands of tons of cut hay, which are nearing the filling, will be badly damaged if not ruined by the rain.

Too Truved. That she had loved not wisely but too well was the pathetic story unfolded in police court this morning when pretty little Emily Holmes, 17 years of age, appeared against Joseph Chessman, on a charge of seduction. In tremulous tones the girl told the story of her fall and repeated the humiliating details of how she had gone to Chessman, and on her knees begged him to save her from the disgrace which her love had brought upon her. After hearing the evidence of the wronged girl it was discovered that Chessman was a minor at the time the alleged offence was committed, although he is now over 21, and the young girl was accordingly charged. Magistrate Duggan, who presided, charged Washington both expressed regret that the technicality in the law allowed Chessman to escape.

Detective Blokey to-night returned from Ingersoll with George Fox in custody, on the charge of appropriation to himself moneys belonging to the Mangle Walton Ice Co. Fox was a collector for the company and decamped in October last year with several hundred dollars of the company's money. He will appear before the magistrate to-morrow morning.

Martin Marshole was arrested to-night on two charges of theft, preferred by Joel Kropp and John Stevani.

Wages of G. N. W. Men. The conciliation board of the G. N. W. Telegraph Company has with its employees resumed its sessions yesterday. Those present were: Mr. Justice Teetzel (chairman), D. Campbell (representing the men), and Mr. Markey (representing the company).

GERMAN STEAMER FOUNDERS. HAMBURG, July 10.—Word has been received that the German steamer Elbing has foundered off the Island of Borkum in the North Sea. Nine persons were drowned.

DR. CHASE'S OINTMENT. Dr. Chase's Ointment is a certain and guaranteed remedy for every form of skin disease, including eczema, psoriasis, and other eruptions. It is a simple, safe, and effective treatment for all such conditions. See testimonials in the press and ask your neighbors about it. You can use it, and get your money back if not satisfied, 50c. at all druggists. Dr. Chase's Ointment, 10c. per tin. Sold by all druggists.

SET FIRE TO HERSELF BY DROPPING A LAMP

Mrs. Louisa Banks Badly Burned, But Has Chance for Recovery.

Badly burned all over her body, Mrs. Louisa Banks, 52 Blair-ave., a widow, 67 years of age, lies in the General Hospital with a bare chance for her recovery.

Just how the accident happened is not exactly known, but it is thought that Mrs. Banks must have upset a lamp and set fire to her clothing. She ran into the hall from her room, screaming, and other members of the household who were alarmed by her outcries, rushed to her aid and succeeded in extinguishing the flames, but not before she had been severely burned all over.

The woman was rushed to the General Hospital at 1:17 a.m. in the fire chief's auto, where at an early hour this morning doctors were working with her. Although her injuries are most severe they say that there is a chance that she may pull thru.

The damage to the house by the fire was slight.

BOLT STRUCK VICTORIA COLLEGE—CHIEF IN PERIL

Continued From Page 1.

were turned into this and the heavy five-ton trucks came near to sticking fast in the soft gravel of the driveway.

Once inside, Chief Thompson led his men right up to the seat of the trouble. There they worked like Trojans immediately under the burning floor of the tower top. While eight of them were enclosed in this narrow space, the tower roof, weakened by the burning of the beams and joists and bearing the weight of a heavy terra cotta ball gave way and fell in a smother of sparks right over the eight firemen.

Their escape was little short of a miracle. A hole ten by eight feet was torn in the floor not two feet from where they were standing. Some of them were knocked to the floor by the scattering debris. Lieutenant Everest of the Yorkville-ave. hall, and Lieutenant Ashfield of the College-st. hall who were standing, one in front and one behind the chief, were knocked down and were unharmed. The chief said after the fire that it was the closest call he had had in his fire fighting experience of many years. "I never thank God more fervently than in all my life than when I found that none of us were hurt. One of the men had his thumb cut, but he said he did not mind it."

The first alarm to the firemen was pulled at 5:30 at box 128, at Avenue-rd. and Bloor-st. One of the professors, who was nearby, went to telephone and for ten minutes tried to get central, but as the telephone service is discontinued during thunderstorms, he was unsuccessful and desisted when told that a box alarm had been turned in.

Valuable Curios Removed. The damage is estimated at \$3000. Of this \$2000 will be required to rebuild the tower and the remaining \$1000 is damage done to the plaster by the water poured into the tower. This damage would have been much greater had it not been that this section of the building was practically empty when about \$20,000 worth of curios and antiques belonging to the Royal Canadian Museum were removed to that place about two weeks ago.

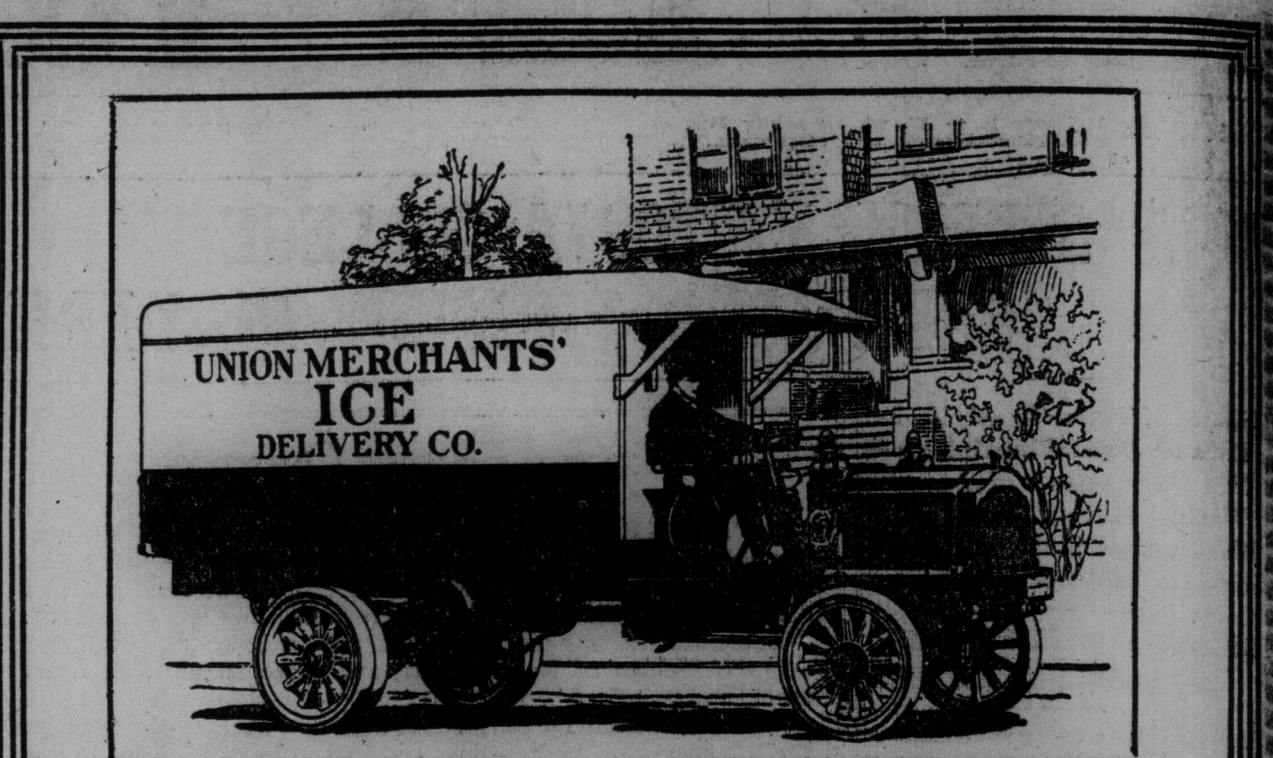

That the fire was not a fast traveling one, is instanced by the fact that half a dozen mummies about 3000 years old, escaped without injury. These, except one, which is owned by the college, are the property of the Royal Canadian Museum. There was also a quantity of old Japanese and other armor, and many valuable books in another part of the building, and all were unharmed. The college bell, which is swung just below the point where the lightning struck, was unharmed.

The fireman got busy with buckets, brooms and shovels as soon as the flames were extinguished and succeeded in getting most of the water out at four o'clock, thereby saving the building from a heavier water damage.

Knocked Unconscious. BRANTFORD, July 10.—(Special.)—During the progress of a terrific electric storm here to-day, the house of Mrs. W. Hall, 29 Park-avenue, was deprived of its roof by lightning, considerable damage being done to the interior. Mrs. Hall was found in an unconscious condition, but recovered when assistance arrived.

TWO DROWNINGS. OTTAWA, July 10.—News came to Ottawa to-night of two drownings at Cochrane, Ont. this afternoon. Percy J. Hoople, aged 25, and his friend Geo. Smith, aged 21, are the unfortunate. Both having previously lived in Ottawa and had joined a party in railway construction work in January. No particulars of the tragedy are given.

HANDBOOK MAN FINED \$900. Alfred Eke, 37 Bartlett-avenue, was fined \$900 and ordered to pay legal costs. He paid his own fine also, which, a handbook. He had already paid \$300 to the court for the same offence. Eke was employed by him to take the with that of Goulbuck and the costs, amounting to \$1200.

News of Waterfront

The Hamilton steamer Turbina will run between Bay-street wharf and Long Branch every Wednesday and Friday evening during the months of July and August. This is an entirely new run. Last season this steamer made two trips to Long Branch, and the passengers were so delighted with the ride and the amusement given that the company requesting them to again run special trips to Long Branch.

Yesterday just before the whistles sounded the hour of five a stiff gale rose on the lake and sweeping across the harbor made the sailors of small craft hasten to the shore for safety. Fortunately the sky had darkened a short time before. The pleasure seekers received the warning and as a result very few sails were to be seen by the time the boat carried 1500 passengers between Hamilton and Toronto, and will probably be here by the 20th of the month.

The Turbina had to turn down over 600 people on Sunday when she made an excursion trip between Rochester and the sand banks, near Pictou. While this boat carries 1500 passengers between Hamilton and Toronto, and will probably be here by the 20th of the month.

EVERITT TOURS BY MOONLIGHT

NIGHT touring is at its best in the smooth-riding "Everitt." The "Everitt" motor is always sure and faithful, because it is the one motor where the adjustments are fully protected from the explosion shock of the ignited charge. The driver is care-free, and learns to depend more and more on his "Everitt" as it shows month after month of excellent and consistent performance.

Ample power for the hills, and ample speed along the level roads, or as slow a rate as desired. These are "Everitt" benefits from the "Everitt" long-stroke design, which gives flexibility in power developed and in speed of motor within wide limits.

Enjoy the summer nights in an "Everitt." A Car investment cannot bring you bigger or more delightful returns.

Catalogue and a demonstration when you are ready.

JOHN L. PATERSON OF SCARBORO DIED MONDAY

Well Known Agriculturist Has Passed Away—Fierce Storm in County—Suburban News.

AGINCOURT, July 10.—(Special.)—The death of John L. Paterson, one of Scarborough's best known and most highly respected residents, took place suddenly this afternoon at the home of his daughter, Mrs. Alex. Donaldson, on the 5th concession of Markham, has caused a feeling of the most profound sorrow in this neighborhood. The name of John L. Paterson was a synonym for honor and integrity in Scarborough Township, and no man was better known or more generally respected.

A touch of especial pathos is attached to the last days of deceased in that just a little over three months ago the late Mr. Paterson and his venerable partner celebrated the anniversary of their golden wedding, when the family were all assembled together. Within a week after that memorable event Mrs. Paterson was taken suddenly ill and expired within a few hours. After the death of Mrs. Paterson deceased went to live with one of his daughters, Mrs. Donaldson, and it was there and while engaged in writing a letter this morning that he was stricken with paralysis. He rallied sufficiently to speak with some of the members of his family, and passed away at 2 o'clock, or about five hours after the attack.

The late John L. Paterson, who was in his 83rd year, was a native of Scarborough and had lived here practically all his life, devoting himself to agriculture, in which he was eminently successful. He always gave a helping hand to the work of the Farmers' Association and the local exhibitions. His farm was a model of neatness and good tillage.

One brother, James, and a sister, Aunt "Jean" Bann, and the two sons are: First Deputy Reeve W. H. Paterson of the Scarborough Township Council and Robert M. of this village, on the homestead. The daughters are: Mrs. Alex. Donaldson of Markham Township, Mrs. McNair of Crawford-street, Toronto, Mrs. Stone, New York, and Mrs. Field, wife of the superintendent of education in Huron County and resides in Goderich. The funeral takes place from his late residence in this village on Wednesday afternoon at 2 o'clock at the local cemetery, the family burial ground.

BAD ELECTRICAL STORM.

The heavy electrical storm which passed over the northern end of Toronto County yesterday, and its origin somewhere around Lake Simcoe and gradually worked south, doing a lot of damage in its course. The Metropolitan Railway and the street car lines were out of commission for several hours. The lightning was especially vivid and violent, no less than four barns being struck, and the reflection from each was visible to passing motorists. The rain fell over the Metropolitan line. The rainfall will do an immense amount of good.

SAY CROPS ARE NOT GOOD.

John T. Salgeon of Maple was in the city yesterday, talking about the crops out in Vaughan, he says that they will not average more than half a ton to the acre, while grain crops are short and peas have been struck by a blight, before any peas are formed thereon. Root crops of all kinds need rain badly and unless it comes soon potatoes will be light. Mr. Salgeon has just returned from his old home up in Drayton, Wellington Co., and says that the crops there, while not heavy, will average up better than in York County. Hay will run about a load to the acre.

Mr. Williamson, live stock editor of The World, arrived in the city on Monday from a short trip down thru the Ottawa Valley, and reports the hay crop there as abundant and rain generally well distributed. The corn farmers down there are all in good spirits over the outlook, and the splendidly adapted buildings and the herds of Ayrshires and Holsteins all bear evidence of thrift and progress. The hay crop all thru the valley will be abundant.

From Peterboro west Mr. Williamson says the prospect is far from reassuring and the crops nearly all bear evidence of the serious drought prevailing. All spring grains are short, while hay and roots, especially the former, look as tho they would not be more than half an average yield.

COUNCIL ARE GENEROUS.

High Constable Ramsden will purchase six uniforms for county constables. These officers, while on duty, will receive \$2.50 a day, and the others not so attracted will get \$2. The county council also have a standing offer to pay half the price of any other uniforms bought by the constables themselves, or the municipalities. Why not go a little further and pay the whole cost of all the acting constabulary in the county? It would look more businesslike and the cost would not amount to a hill of beans.

MOORE PARK OPPOSED.

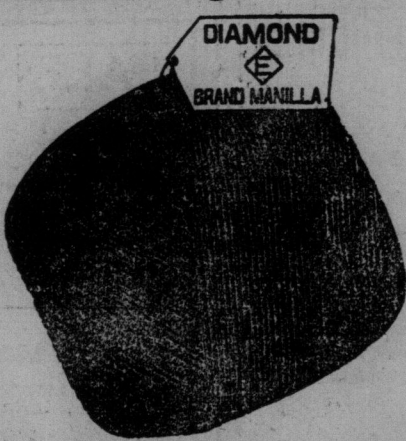

W. J. Gard writes as follows: "The annexation of North Toronto to the city appears to be a settled thing. According to recent reports, several of

EATON'S DAILY STORE NEWS

Diamond E Binder Twine, a Superior Quality at a Low Price

Save time and avoid delays by ordering your supply of Binder Twine now. We can ship it on the day the order is received, if desired.

Diamond E Binder Twine is of superior strength, and is made to stand the strongest tests put to Binder Twine. The thorough test it is put to assures an evenness which works easily on the machine without knotting or breaking, thus affording a saving of time and expense.

The many special features of Diamond E Binder Twine can be appreciated at these moderate prices. It is free from knots, snarls, uneven spots; is proof against destruction by crickets and other insects; measures full length to the pound, and is good, strong and smooth, enabling us to guarantee its many fine qualities. Should it prove unsatisfactory, we will promptly refund your money. Put up in balls of five pounds each, averaging 50 pounds the bale. This is the smallest quantity we ship.

Diamond E Brand of Manila and Sisal Twine averages 550 feet to the pound. Per 100 pounds 8.00
Diamond E Pure Manila Twine averages 650 feet to the pound. Per 100 pounds 9.90

Twice as Many Autos

Benzine Buggies Becoming Popular With People of Ontario.

That the number of autos in Ontario during the year ending Oct. 31, 1910, has practically doubled since the corresponding period of the previous year is shown by the report of the secretary and registrar for the Province of Ontario, just issued by Hon. W. J. Hanna. There were 4180 permits issued for Ontario for 1911 autos owned within the province, and 2282 owned outside the province. There were 2182 renewals granted this year against 1137 last year. The total fees received, according to the report, was \$241,271. Of this amount \$183,780 came from letters patent and licenses, \$24,065 from companies' returns, \$24,284 for automobile licenses and renewals; \$44,552 marriage act forms, \$1509 commissions under privy seal, \$173 from certificates, and \$3503 from by-laws.

Program of Ward 4 Picnic. The program has been issued for Ward Four Liberal-Conservative Association picnic to be held at Queenston Heights on July 28. This is the third annual outing of the kind for ward four, and rivals the smoker for popularity.

Besides providing a splendid series of games, a large number of prominent speakers have been invited, including: Hon. George E. Foster, M.P.; Edmund Bristol, M.P.; A. C. Macdonell, M.P.; Hon. J. J. Foy, attorney-general, and the following M.L.A.'s: W. K. McNaught, George H. Gooderham, John Shaw and E. W. J. Owens, K.C., and J. S. Carstairs.

They've Got the Money

Hotelkeepers Pay Their Percentage Tax Promptly.

Punctuality in payments appears to be the motto of the hotelkeepers of Ontario, so far as the new five per cent. tax on their receipts is concerned. The provincial authorities stated yesterday afternoon that the greater part of the payments had been received on Saturday, while yesterday the full returns were in the provincial treasury. "I expect that the total amount will be approximately what it was last month," said an official. "It may be a little less, on account of the holidays coming in June, but the figures will not be less than \$18,000."

Piano Workers Meet.

The convention of the International Piano and Organ Workers' Union opened at the St. Charles' Cafe yesterday morning with General President Dodd in the chair.

William Glocking, president of the congress, welcomed the delegates on behalf of the Dominion Trades Congress of Canada. "The question of affiliating with the Dominion Congress will probably be taken up this morning. Over 30 delegates are in attendance from all parts of the American continent. Toronto delegates being represented by Messrs. Wilton and Leach. The convention will resume its meetings this morning."

CARE OF HORSES IN HOT WEATHER.

William Mole, M.R.C.V.S., honorary veterinary surgeon of the Toronto Humane Society, writes as follows: "When the barometer is low, the weather hot and humid, as we have experienced in the last few days, horses suffer from heat. The animal is languid, perspiration pours from the skin, and we term it the evaporation. It is confined and anastroke or heat stroke are common. "The brain symptoms are often alternating with fainting and death results in a few minutes. "The first symptoms, profuse perspiration—then the horse begins to pant and the sweat dries up; he now begins to stagger, becomes insensible and goes down, unable to rise. Treatment: Let the animal into the shade as quickly as possible. To aid in this cannot be done, but the object is to reduce the animal's temperature by preventing the hot sun's rays pouring on the put sacks of ice on the head and neck and spray the body with cold water, not directly out of the nozzle of the hose, but by pinching the end of the hose pointed upwards, so as to let the water down like rain on the animal's body. A watering can is preferable to the hose pipe. "Give a drink of water every five minutes. At first the animal is unable to drink owing to insensibility, but wash the mouth a few times until he recovers and he will greedily. Half a pint of whiskey in a quart of water may be administered with good effect. Prevention is better than cure when on the road, so water frequently, especially when the animal is perspiring profusely, or, the more common term, sweating. When the horses arrive home from work, sponge them over with cold water and let them dry. Do not use the hose, do not put them into the stable, nor feed them until well cooled out. During this time give them all the water they will drink in small quantities, every ten minutes. "If tired in this way they will be ready for work next day, but if they start tired they will probably collapse before night. When a horse begins to pant, remember that collapse is imminent, consequently he should be at once stopped, driven into the shade, given water, and in a few hours the

MIGHT HAVE BEEN KILLED.

Driving a spirited horse down Yonge-street the other day, Mr. and Mrs. Edward Keyes and their child, were taken fright at a swiftly approaching auto, and badly shaken up and bruised. The buggy was smashed and several received a severe fright and several bruises thru the horse jumping a fence and racing around the fire. The buggy Cause—automobile.

Note and Comment

One of the regulars who had not seen the Royals this year until yesterday on account of their former visits clashing with such important functions as the races, was impressed with their individual performances, even as displayed under adverse conditions, looking from their point of view, for instance, for instance, Miller is one of the very fastest men in the business, getting down to first base, while Little Purcell's execution at short-stop left nothing to be desired.

On the other hand you would think Montreal short of players when they use Nattress at second base, and they were inclined to believe that Joe Yeager shirked that single of Fitzpatrick's grounder in the second. At all events, the Bradley would likely have made the play. However, Burchell's twisting was sufficient to give even a good team to the club. Carroll received his in the seventh, while Lush had the signs on a field day for Toronto with the stick and their defensive work was without a mark. Vaughan and Fitzpatrick are working well around second, the latter even going out to Shaw's territory for Texas leaguers.

The game that's stowed away in the bag is not the one of the series, for Joe Kelley to think over, but those ahead of us. The Pea Soups are likely to come to life with a live one on the inner line, the peerless leader is reminded to keep his men up and doing to-day and again to-morrow. Also, the four training games at Montreal, one of which is in Ottawa, as he might remark himself.

A party of Detroit automobile tourists including portions of the Wardell and VanLoon families, well known in the land, and any property changing hands here, while must go cheap to buyers there, are enjoying the week in the land. A party that includes C. R. Wardell, Thos. VanLoon, Dr. A. E. Ecklund and their wives, left for the western Ontario roads in splendid condition and superior in every respect to those that have been seen here yesterday. President McCaffery at the ball game.

Jersey City Defeat Orioles.

Jersey City, July 10.—Jersey City and Baltimore looked up in another series this afternoon and the skippers broke the game up in the fifth inning, when a lead by a score of 2 to 1. Jimmie Dygert and Jimmie Jones did the hustling act, while the former had the best of the hitting, his lack of control cost him defeat. With the score at 1 to 0 in the sixth, two men on base and two out, Dygert walked the next two, forcing DeLinger home with the run that won the game.

BOWLERS AT NIAGARA START ANNUAL TOURNEY

Preliminary and First Rounds for the Trophy Played Under Ideal Conditions.

NIAGARA-ON-THE-LAKE, July 10.—(Special.)—The twenty-third annual tournament of the Ontario Bowling Association opened here to-day under ideal weather conditions. The grounds were in excellent shape, and the grounds of the Queen's Royal Hotel presented a pretty appearance. The preliminary round and the first round of the trophy were got thru with the fall of many crack pins. Among some of the good ones to fall were Harris, Toronto, and the former, Crawford, Hamilton, Thistle, McDermott's New Beach, Weir's Queen City, E. T. Lightbourne's Victorias and Abbott's London Thistles.

Preliminary Round—2 p.m.—London Thistles—W. J. Stewart, H. H. Kelly, E. E. Tilson, S. D. Swift, sk. 17. Dr. G. W. Grive, sk. 18. Ottawa Victoria (H. L. Edwards, J. L. Payne, F. J. Shannon, B. B. Farrow, sk.) won by default from W. Brown, Westmount.

Parade—M. Hunter, W. E. Warren, R. J. Wray, J. J. Warren, sk. 25. H. A. Wardell, C. H. Dunford, H. Burt, Dr. T. Angles, T. G. Hand, sk. 16. C. R. Howell—W. H. Grant, C. Mead, A. E. Scott, F. J. Gallinger, sk. 15. Hushome—G. A. McLean, P. J. Wilson, sk. 9. J. W. Edgar, sk. 15. Geo. Putman, F. E. Moore, F. S. Corigan, W. C. Beamish, C. S. Robertson, sk. 16. W. A. Hargreaves, T. Scott, P. J. Gallinger, sk. 15. Ham, Thistles—G. A. McLean, P. J. Wilson, sk. 9. J. W. Edgar, sk. 15. Geo. Putman, F. E. Moore, F. S. Corigan, W. C. Beamish, C. S. Robertson, sk. 16.

We cannot emphasize too strongly for the customer's advantage the fact that these garments are all seasonable and for present use.

FAIRWEATHERS LIMITED 84-86 Yonge Street

Soccer Player Suspended For Year T. & D. Notes

The T. and D. Council held their meeting last night, when it was decided that Monkman of Wyckwood was suspended for the year of 1911 for assaulting the referee. Little York's protest against Parkview for playing an ineligible man was upheld. The Devons v. Moore Park game was ordered to be played on Saturday, July 15, kick-off at 8.30, on the Wyckwood grounds, Vaughan road.

TENNIS CHAMPIONSHIPS TO-DAY.

Owing to the rain yesterday afternoon only a few matches in the All-Canadian championships at Rusholme Courts were played. The program has been arranged for this afternoon. In the open singles, the varsity champion, Wiegand, and some brilliant tennis is sure to be seen. The Sheppard-Chambers match will also be a most interesting game. At 4 o'clock Northington and Sumner meet, and this should prove to be one of the best matches of the tournament. In the open doubles, several are called, and in this event some very exciting games will be seen. Boss and Bell are the open doubles, and the holders of the city championship, play Bickle and Fawns. Splendid open singles are arranged for visitors.

Another Win for Newark.

NEWARK, July 10.—The Clams succumbed to the Indians in a close encounter to-day. Each team used two pitchers and the winners for the contest, both of whom were more opportunely and more skillfully than the Clams. Newark's hits were more opportunely and more skillfully than the Clams. Newark's hits were more opportunely and more skillfully than the Clams.

Collapsed in City Hall.

Michael Macintosh, an Australian boy, collapsed in the corridor of the city hall yesterday morning. Dr. Hastings attended him and had the boy conveyed to St. Michael's hospital. The lad is showing some of the symptoms of typhoid fever. He is only 14 years old.

C. W. A. Sanctions.

The following C. W. A. sanctions have been issued for bicycle races: Aug. 1—Mississauga Lodge, Fort Erie, one-mile open, two-mile handicap. Aug. 1—Toronto Street Railway Company, Hamilton's Point, two-mile handicap, one-mile open.

Bachman Will Pitch To-day's Game for Leafs

Manager Kelley has decided to pitch Lester Bachman against the Royals in to-day's game. The big fellow has been going particularly well since his return to the Leafs, and Kelley is very anxious to wipe out some of the former defeat received at the hands of the visitors—thus his decision.

Leafs Win the First Whitewash the Royals

The Leafs handed the Royals a most decisive beating yesterday at the island, the storm ending the slaughter in the second half of the eighth, with the score 11-0 in favor of Toronto. O'Hara secured a single and stole second in the first inning, but nothing resulted. In the second the Leafs went after Southpaw Burchell with a vengeance. Phelps, the first batter, doubled. Vaughan beat out a bunt by good baserunning. Fitzpatrick muffed Lush's fly ball, and the Run came in. Lush bunted and hit to right field, scoring past third, and Burchell was full. Shaw then hit to right field, scoring past second. A total of seven hits for six runs, a pretty fair innings.

GRACE CHURCH DEFEAT ST. CYPRIAN.

GRACE CHURCH, July 10.—Grace Church defeated St. Cyprian's in a C. and M. League match on Varsity lawn. For the winners, Preston played a fine innings of 8, being the only player to make double figures. In the bowling, Baker took four wickets for 29 runs. The fielding was good on both sides. St. Cyprian's only played nine men, bowled Baker.

NEW BRIDGE READY.

City Engineer Rust stated yesterday that the hot weather had somewhat delayed the work of surfacing the Wilton-ave. bridge, but that it would be ready for all traffic to-day or to-morrow.

Hydro for West Toronto.

The hydro-electric department expects to commence the installation of its system in ward seven—formerly West Toronto, by the middle of August.

Long Pond Opened.

It is expected that Long Pond will be thrown open to-day and once more used for boating purposes.

ROCHESTER, N.Y. ROUND BOUT BETWEEN EASTON AND TONY SCHEDULED FOR TONIGHT.

ROCHESTER, N.Y. Round bout between Easton and Tony scheduled for tonight. The fight is a feature of the 1911 Conventions, was his third afternoon upon record.

LEAFS WIN THE FIRST WHITEWASH THE ROYALS

Great Pitching by Lush Featured the Game—Burchell Was Batted From the Box.

The Leafs handed the Royals a most decisive beating yesterday at the island, the storm ending the slaughter in the second half of the eighth, with the score 11-0 in favor of Toronto. O'Hara secured a single and stole second in the first inning, but nothing resulted. In the second the Leafs went after Southpaw Burchell with a vengeance. Phelps, the first batter, doubled. Vaughan beat out a bunt by good baserunning. Fitzpatrick muffed Lush's fly ball, and the Run came in. Lush bunted and hit to right field, scoring past third, and Burchell was full. Shaw then hit to right field, scoring past second. A total of seven hits for six runs, a pretty fair innings.

One more run came in the sixth. Fitzpatrick was hit by pitcher. In an endeavor to catch the runner off first Carroll threw the ball wide, and when Gandell secured the ball he threw it in Gandell in trying to get Pitts at third. The runner had left the base and was safely scored. This play made Montreal look very foolish.

The Leafs annexed four more in the seventh. Tim Jordan hit into the right field bleachers for his tenth home run of the season. Phelps was safe on a throw, reached second on a passed ball, and scoring on Fitzpatrick's single, the latter being when he muffed Lush's fly ball to left field. Al Shaw then made his third scoring game, a double to right-centre, scoring.

Johnny Lush, the Leafs' popular southpaw, did the pitching for the locals and secured the first hit for his team at the commencement of the fourth inning, a single to first base. Demmitt was hit by pitcher, but a fast double-play, Jordan to Lush, the latter covering second, while in the eighth, Carroll secured a single in the eighth, but was forced at second. In all, nine Royals reached first base, but only two got as far as second. This was as far as any of them got in the seventh game. Score:

ROCHESTER 4, Buffalo 2. Buffalo looked to have the game with Rochester worked up to-day, but the champions came from behind and won 4 to 2, making their runs in the eighth and ninth. Spencer singled in the eighth and Jackitch whipped the dropped ball. In the ninth Murray Ward doubled, counting two more runs, giving the game to Rochester. Score:

GRACE CHURCH DEFEAT ST. CYPRIAN. GRACE CHURCH, July 10.—Grace Church defeated St. Cyprian's in a C. and M. League match on Varsity lawn. For the winners, Preston played a fine innings of 8, being the only player to make double figures. In the bowling, Baker took four wickets for 29 runs. The fielding was good on both sides. St. Cyprian's only played nine men, bowled Baker.

NEW BRIDGE READY. City Engineer Rust stated yesterday that the hot weather had somewhat delayed the work of surfacing the Wilton-ave. bridge, but that it would be ready for all traffic to-day or to-morrow.

HYDRO FOR WEST TORONTO.

The hydro-electric department expects to commence the installation of its system in ward seven—formerly West Toronto, by the middle of August.

LONG POND OPENED.

It is expected that Long Pond will be thrown open to-day and once more used for boating purposes.

The Big Little Wonder of the Motor Cycle Meet on Saturday Was the "C.C.M."

First and Second in the 1 1/2 h.p. class—and easy winner. In the 3 1/2 h.p. class, although weighing only 85 pounds and rated little over one-half the horsepower of its opponents, it led the entire field for nearly three laps and finally finished SECOND.

THERE'S no heavy mechanism dragging at the motor—it's the light machine. All the power you want when you want it—fine on hills. Full control from the handles. Exclusive knee shields for protecting both the clothes and motor. The lowest-priced magnificently motor cycle on the market. Get a "C.C.M."

NOT KIPLING

But As True As Anything He Wrote

Of all cigars in east or west,
I think "PERFECTION" is the best.

This is not Kipling, but it is the honest sentiment of thousands of cigar smokers in Canada and other parts of the world.

"DAVIS" Cigars have won honors in all parts of the world in OPEN COMPETITION, and the "PERFECTION" Cigar is worthy of the highest tradition of this old-established house.

IMITATION IS THE SINCEREST FORM OF FLATTERY, but, as Lord Macaulay said, "No imitation is exactly like the original." There is no cigar exactly like "DAVIS' PERFECTION."

The blending of tobacco is a high art, and needs the accumulated experience of years to bring it to

"PERFECTION."

The Davis firm have had over half a century of this valuable experience, and you get the full advantage of it if you insist on getting

DAVIS' "PERFECTION" CIGAR.

Bannie Bee, 111 (Bauer), 6 to 1, 3 to 1 and even. Time 1:25 1/2. Sally Savage, Eventide, Billard Ball, Donado, Clitter Clatter, Miss Rex also ran.

The Turbina's Fine Moonlight. Arrangements have been made to run moonlight excursions to Long Branch on the Turbina every Wednesday and Friday night during July and August. Leaving Bay-street Wharf at 8:15 p.m., giving one hour at the Branch, arriving home at 11 p.m. The fare has been reduced to 25 cents and music will be provided for dancing on the steamer and at the Branch. This service will be appreciated by the citizens generally, as it will give them a nice lake trip and opportunity to get away from the hot city and enjoy three hours' recreation for a small amount.

O'Keefe's GOLD LABEL ALE
is a special brew for connoisseurs—a deliciously rich, creamy old ale—full bodied and satisfying. A perfect table ale.

O'Keefe's PILSENER LAGER
is the real old German "Pilsener"—brewed of the choicest Hops and Malt and pure filtered water. Far superior to any imported lager at double the price.

O'Keefe's SPECIAL EXTRA MILD ALE
is brewed especially for those who find ordinary ale too heavy or too bitter. This brew, being extra mild, will not make you bilious.

All these fine brews come in Crown stoppered bottles. Sold by leading Hotels, Cafes and Dealers generally.

THE O'KEEFE BREWERY CO., LIMITED, - TORONTO. 225

Reed, 108 Royal Capite, 110 Zienap, 109 Judge Walton, 109 Lois Cavanagh, 109 Howdy Howdy, 109 Light Blue, 111 Hannas, 111

PRICES WERE LOWER MAHER'S MONDAY SALE. The sale at Maher's Horse Exchange yesterday was rather quiet, the trade being dull. The prices were lower than the average of late, but despite the low prices, the buyers did not take advantage of them yesterday. The attendance was fair, and a number of out-of-town buyers were on the floor, which promised well for the private sales during the week.

The following are some of the representative sales: The Hobbs Mfg. Co., city, a bay gelding, fine type of wagon horse, with lots of quality, for \$200; T. W. Jackson, Newmarket, Ont., fine roan pony for \$100; the Hendrie Co., city, got a high-class grey gelding, and an equally good grey mare to work, for \$100; J. C. Young, Sudbury, Ont., bought part of a load of medium-

REAPERS FOR THE HARVEST.

Before the advent of the scythe and the automatic reaper and binder there was no more familiar and picturesque figure on the highways and byways about harvest time than the Irish reaper. With his bundle on his back or under his arm and his reaping hook or scythe in his hand, he wandered over England and Scotland to exchange the strength of his good muscle for the current coin that would tide him over the winter in the "old art." Pat in those days was as welcome as flowers in May and his annual trip across the channel became a source of profit to himself and of benefit to the farmer and the community.

With a record wheat crop looked for in the prairie provinces the problem of harvesting is of equal importance and urgency with that of transportation. Labor must be found and if at all possible it ought not to be withdrawn from other productive fields. It ought not to be economically impossible to supply any shortage in the home supply of labor by importation from Europe, preferably from Britain, for the special purpose. What the Irish reapers did for themselves half a century ago could be done for Canada under proper government supervision and protection. More than regret will be felt should the splendid gift of nature suffer abatement because of the lack of men.

THE KING IN IRELAND.

Dublin's popular welcome to the King and Queen was given all the more significance by the Nationalist opposition to official city recognition. Whatever ground for the attitude of aloofness may have existed in the past, it is unfortunate at this juncture that it should have marked the first royal visit of the present reign. With a government strongly in favor of home rule and a King who publicly intimated that his strong regard for Ireland and the Irish people had prompted his crossing the channel at the earliest possible moment after the coronation, the lord mayor of Dublin was well advised in urging civic participation. His proposal was in sympathy with Mr. Redmond's desire that the Irish Nationalist members should attend the coronation, and tactical considerations might properly have counseled a modification of the older intransigence.

The episodes attending this visit of the King and Queen and those connected with the reign of Edward VII. are sufficient to show the underlying loyalty of the Irish people. No nation responds more readily to manifestations of good-will, and the association so auspiciously begun may easily and materially assist in bringing to a happy close the long period of racial estrangement. The Green Isle is drawing near the end of her troubles. Prosperity and contentment are replacing poverty and unrest. A new generation owning and cultivating their own land will transform the face of the country, and with the right of self-government traditional animosities will soon disappear. Ireland has a great market at her door and nothing but political discontent, caused by the withholding of local autonomy, intervenes to mar the outlook.

HAVE WE ENOUGH MONEY?

The Globe is discussing the question of financing the western crops and accompanying the country generally. Its correspondent in the west says that the bankers there have curtailed the credits of merchants in order that they may have money sufficient to move the crops. It also says the banks propose to take advantage of the recent legislation which allows them to increase the issue of their own notes. According to The Globe there is a money stringency, and customers of banks must do with less. In other words the banks have not enough money for the business of the country.

If it is so then the banks are remiss in their duty because the banks have powers whereby they can increase their capital stock, and as they increase their note issue, but the banks refuse to increase their capital stock because many of the shareholders are unable to take up the new stock and will not allow outsiders to share in their advantages. Moreover, if the shareholders are residents of the country and they put their money in additional stock that does not increase the available capital of the country, it simply transfers it from one account to another.

A way must be found to induce the banks to seek for additional bank capital in Europe, and they must be satisfied to share their reserve fund with any newcomer who is prepared to embark his money in the bank; or they must make the premium on the shares a reasonable one, not an exorbitant one. If the banks of Canada were prepared to issue new shares to foreign outside capital at a reasonable price they could all double their capital to-morrow, and doubling their capital they could also double their note issue. As a consequence two hundred more millions of dollars would be available for the business of the country.

This is the real problem of banking in Canada, but everybody seems to be afraid to say it.

TELEPHONE PRIVACY.

There is only one remedy for such an occurrence as came to light in the courts last week in the Strong trial. When it was shown that eavesdropping on a telephone line had been indulged in to obtain evidence, The Bell Telephone Co. is already under suspicion in this respect. A switch has been admittedly used at the head office to overhear what subscribers are talking about. Most people have smugged that when using the telephone they were enjoying the same privacy as in a face to face conversation. It is clear, however, that the census man is much more of a confidential agent than the telephone company.

The remedy is of course public ownership of the telephone monopoly. Great Britain is about to take over the telephone service in that country. What is good enough for Great Britain and Ireland ought to be good enough for Canada, and would be, only the trust thinks it is better for the shareholders than for the people.

REGENERATE OUR SLUMS.

In the report of the medical health officer on Toronto's slum conditions the one fact that is perfectly and threateningly clear is that the citizens are themselves responsible for the situation, and the wealthier and the more intelligent they are the more responsible.

Many people are in the habit of admitting defeat at the start in dealing with the slum dwellers. A contemporary declared the other day that those people could not be persuaded to live in healthy and attractive homes; that they were brought up to be slum dwellers in Europe, and could not be turned into suburbanites. How utterly untrue this is may be learned from the people themselves.

There is nothing the matter with the poor but the poverty, as the sage philosophy that George Bernard Shaw dug up out of the book of Proverbs. It is poverty that compels the people of "The Ward" to herd together in scanty space. They need cheap rent and proximity to their work. If they could find suitable homes costing no more when convenient transportation was added to the rent they would live in them.

This is the problem for some of our practical philanthropists if the city will not undertake the work itself. Five hundred acres at the end of a speedy car line giving a one-fare ride to any point in the city is needed. On this tract, or as many smaller tracts as might be necessary, little villages could be laid out at a cost where no profit was desired that would meet the requirements of any of these "ward" families. Separate homes on such a tract are far more desirable and sanitary than the tenement house or flats.

There would probably be an outcry from builders, contractors and owners of real estate at what would be called competition of this kind. Such objections would be based on the mere blindness and ignorance. A city with a population dwelling in village style in garden tracts would find all the real estate in its borders very appreciably enhanced in value. While the slum remains all property in the municipality is depreciated in consequence, and the inhabitants suffer a constantly greater risk of disease.

LOCAL FOUNDRY CAPACITY.

Editor World: In your Sunday edition, referring to the 36-inch cast iron pipe required for new construction by the city waterworks department, you make the statement: "That if the local foundries have

not the patterns for the pipes required, and it would seem improbable that they would have such patterns, for a 36-inch pipe is not a daily demand, the pipe must be imported, and the city will have to wait for its augmented supply of water until the mains arrive.

I am very sorry that you made this statement without taking the trouble to call up this office, as this item does this company a great injustice. We can supply the city with 36-inch pipe previously, and went to the expense of making all the necessary equipment therefor, and are in a position to turn out such pipe at the very shortest possible notice, if it is required, and in this connection I may point out that when the city council desired to see the six foot diameter pipe in a great hurry we delivered the first 500 feet in three weeks from receipt of contract. There are very few contractors in the world who are equipped from the Canada Foundry Company for turning out every class of engineering work of the greatest magnitude.

Vice-President and General Manager,
Toronto, July 10, 1911.

THE TORRENS SYSTEM OF LAND TRANSFER IN MANITOBA.

Editor World: Twenty-eight years ago (1883), as secretary of the Canada Land Law Amendment (Torrens) Association, I came to the northwest to enlighten the government and people upon the merits of the Torrens system of land transfer. Mr. W. B. Scarth was coming up as commissioner of the Northwest Land Company in a Western excursion car. He was interested in the introduction of the Torrens system and arranged with Mr. J. Herbert Mason, who was president of the association, that I should come up and explain the system. We had a very pleasant party, among whom were the present Attorney-General, Mr. J. H. Stewart, Mr. J. H. Stewart, the late Alfred Boulton, M.P.; Col. Lake and his two sons; a senator from New Brunswick—fifteen or sixteen in all. We came by way of Chicago and St. Paul, as the C.P.R. was not finished. We lived on board the car in great comfort and luxury. The Norquay Government was in power at that time. That session was prepared under the auspices of the association for the Northwest Territories. It had been introduced into the House of Commons at Ottawa by the late Dalton McCarthy and seconded in an able speech by the Hon. Edward Blake.

The bill was adopted in Manitoba, and a delegation waited on the Manitoba Government and I explained the measure. A public meeting was also held, where the writer, showed the advantages of the Torrens system of land transfer. The titles to land during the then "boom" had become very complicated. Foundation was there laid for the success which has attended the system here. When the new government came into power they decided to introduce the whole registry system. They consolidated the two systems, and the lands in Winnipeg and the neighborhood were then under the old system, yet without any compulsion the Torrens system has almost entirely superseded the old one.

The land title office is a fine cut stone building about 100 feet square. The Registrar-General, Mr. Macara, kindly asked me to show them the office and give me a tour of the building. The business under the old system has almost ceased as most of the land has been brought under the Torrens system.

In the month of May the fees for registering transfers, mortgages, etc., were \$14,500, under the Torrens system \$14,500, and under the old system \$14,500. Formerly they had five examiners of titles to pass the title to lands from the old system; now they have only one, and the whole of the old registry office is only three. In the downstairs office where the new system is being carried on of transferring, mortgages and other dealings with lands they have over fifty officials, of whom seven are solicitors.

One of the most important features requiring particular care and attention, the registrar-general told me, is the survey branch. They have two qualified provincial land surveyors and four assistants at work all the time. The advantage of their work was readily seen when one examined the indexes with beautiful plans inserted.

When the lawyers the system is most popular and they usually seek clients to take advantage of it. One solicitor said to me, "It relieves us of responsibility and we get a good fee."

Clients all want a guaranteed title. The assurance fund has amounted to over \$10,000. The handsome cut stone land title and registry office was built by the government out of money borrowed from the assurance fund. The losses have only been \$600. The conversion of unguaranteed titles into guaranteed titles has simply been brought about by the forward policy adopted by the registrar-general. He says: "Of course we must have some losses. What is the guarantee fund for? Better a few losses than rendering the system so unpopular that solicitors will not advise their clients to bring lands under the act."

The policy is to pass titles as they would be passed and are passed daily in Toronto, by good solvent conveyancing solicitors responsible for their work. To put a title under the act, or rather to convert one from the old system is a most informal affair—the work being done by an examiner and surveyor who have the old records

Time for Biscuit and Berries

When your think of strawberries or other fresh fruit, think of

SHREDDED WHEAT BISCUIT

the cleanest, purest, most nutritious of all the cereal foods—combines most naturally with all kinds of acid fruits—better than the soggy white flour dough of ordinary short-cake and more easily digested. A Summer delight and a stomach joy for those who like good things to eat and who have to cut out heavy winter foods.

Heat a Shredded Wheat Biscuit in the oven to restore its crispness; then cover with strawberries, raspberries, or other berries and serve with milk or cream, adding sugar to suit the taste. A dish of Shredded Wheat with berries and cream is the bright spot in a dull day. It will keep the stomach sweet and clean and the bowels healthy and active. An ideal Summer food, ready-cooked, ready-to-serve. Your grocer sells it.

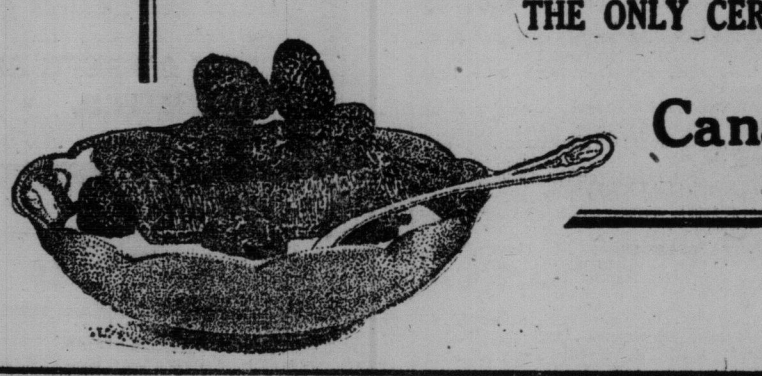

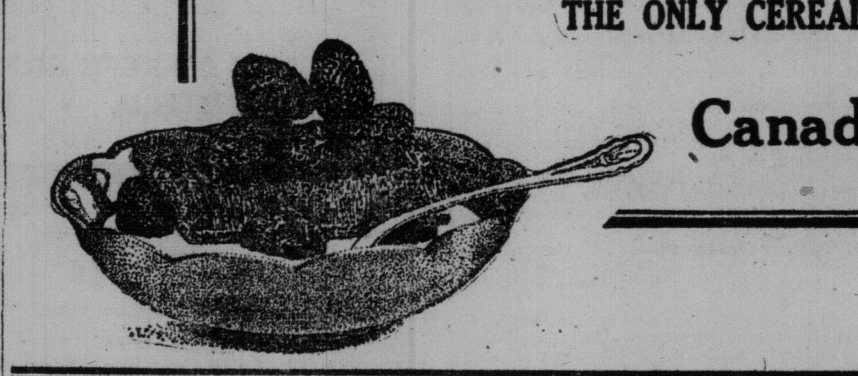

Two Shredded Wheat Biscuits with milk or cream and a little fresh fruit will supply all the energy needed for a half day's work or play.

THE ONLY CEREAL BREAKFAST FOOD MADE IN BISCUIT FORM

Made by

Canadian Shredded Wheat Co.

Niagara Falls, Ont. LIMITED

before them. The average time being less than a week—and generally about two days. The courts being nominal, advertising has been done away with as an unnecessary expense.

I am surprised and delighted with the results of the labors of the president, John Herbert Mason, and other members of the Canada Land Law Amendment Association. They built better than they knew, and the whole of the north-west owes them a debt of gratitude which it little dreams of.

There is no reason why the Torrens system of transfer should not be brought into operation generally throughout Ontario.

When I return I hope to emphasize a policy on this subject and see if the present government cannot be induced to be a little less conservative in this respect than they have been.

Winnipeg, after 28 years of absence, I find entirely transformed. It is now in the midst of a "boom," which can only be justified by a population as large as Toronto.

Beverly Jones,
Secretary Canada Land Law Amendment Association,
Winnipeg, July 7, 1911.

OVERLOOKED

Wholesale Complaints as to Manner in Which Census Was Taken.

MONTREAL, July 10.—Complaints as to the manner in which the 1911 census has been conducted are coming in by the score, not only from individuals but from the whole of the city. A householder in Rosemount has been called on by the census enumerators, as far as he can learn, said A. D. Drummond today.

"No enumerator called at my house, although I represent the ward in the city council of Montreal. But I was not the only one treated in this way. I have received scores of complaints from residents of the ward that no enumerators called upon them. This is remarkable, as the census is being taken in the house, so you would think that the enumerators would not have been so careless as to neglect the place. It is most remarkable."

Hotel Rushing Improvements.

Inspector Johnson visited Lamb's Hotel, 1101 St. James Street, last of Adelaide-streets, yesterday to see whether the necessary improvements were being carried out. He found the work being rushed as quickly as possible and was told that plasterers were working night and day to get the hotel in good shape.

\$110,000 Atlantic City and Return

From Suspension Bridge, via Lehigh Valley R. R., Friday, July 14. Particulars 8 East King-st.

Eighteen More Lawn Sprinklers.

Eighteen more people appeared before Magistrate Ellis yesterday afternoon, charged with using water against the orders of the medical health department.

They were not called upon to answer to the charge, as Inspector Archibald wanted the cases adjourned till next Friday, when others will appear.

There will probably be no fine imposed in these cases, but if any more are caught they will not be excused.

HOW DAYTON LADIES CURE THEIR CORN-PINCHED TOES

Miss M. Lukey of Zena Ave., Dayton, Ohio writes: "Before using Putnam's Painless Corn Extractor I was quite laid up with corns, and could not even stand the pressure of a loosely buttoned shoe. I applied the Extractor and in a very few hours obtained relief. In a miraculously short time I was completely cured. I take great pleasure in recommending your valuable remedy to my friends." All druggists sell Putnam's Corn Extractor in 25c bottles.

NO HURT INTENDED TO ANYONE'S FEELINGS

Montreal Orangemen Will March in 12th of July Parade in Hull.

MONTREAL, July 10.—Members of the Prince of Wales Loyal Orange Lodge and other Orangemen of Montreal will proceed to Hull on Wednesday next, to take part in the celebration of the 221st anniversary of the battle of the Boyne.

In an interview, A. G. Ellis, secretary of the Orangemen's Association, explained that there was no intention whatever on the part of his associates to hurt anybody's feelings by parading on this occasion, but as the local lodge of the district of Hull had taken the initiative in regard to this demonstration, the members of the order would respond to the invitation of their brethren to join in the celebration.

"There is no reason why we should not parade at Hull, or in any other place in this country, which is free to every faith," Mr. Ellis proceeded, "and I do not see any reason or justification for the Orangemen's decision being misinterpreted just because a large majority of the population are of another faith than ourselves. I am sure no slur is intended. The Loyal Orange Association is incorporated, and we can demand protection there if it should be necessary."

"I would like to emphasize that it is not the association that has picked out the Town of Hull as the scene of a parade, but it is the local lodge that took the initiative. The outside lodges will go there simply as visitors."

"We expect a big turnout," concluded Mr. Ellis, "and you may be sure that the parade will take place."

According to Recipe.

Husband—Excuse me, but don't you cook much more for dinner than we can use?

Wife—Of course! If I didn't know how to economize by utilizing leftover dishes!"—Toledo Blade.

Way Things Go.

"How about the coronation?"

"Mother and the girls went over."

"And father?"

"I'm afraid he's going under."

Washington Herald.

Good Reason.

"I should hate to live after all my friends were dead."

"I don't blame you. It's always hard to borrow money from strangers."

MCCURDY TO FLY HERE

Other Noted Aviators Also to Participate in Meet.

If everything pans out according to the expectations of the promoters and a suitable field, within easy reach, can be obtained, Toronto will have an aviation meet in the middle of August, that will equal all attempts in the province in Canada, at least. A representative of the McCurdy-Willard Aeroplane Co. of New York is in the city looking up a suitable flying ground, which he hopes to find with easy reach of a five-cent car line.

It is the intention of the promoters to bring eight aviators of note here, and six have already been signed up. The two best known of the aviators flying here are J. A. D. McCurdy, the Canadian, who flew from Key West to Havana, and also was the first to send out and catch wireless messages in flight, and Charles F. Willard, the oldest aviator in America, who flew his machine in public while the Wrights were still keeping their invention in the dark.

McCurdy will bring with him a biplane including the improvements of all types, with a gnomé motor, and in competition with the other aviators, some records will surely fall away. Night flying with searchlights will also be tried out.

The meet will be made popular by leading the prices down to the 50-cent level.

HIS ANCESTRY DOESN'T HELP

George Everett, Descendant of Military Hero, in Dire Need.

George A. Everett of St. Catharines has fallen upon evil days. He is a grandson of General Stephenson who was beside General Brock when that great soldier was shot on the banks of Niagara. He is the great-nephew of Admiral Stephenson, who served the mother country with distinction, but last night, homeless and penniless, will take to the streets to find a night's lodging.

He is 18 years of age, and says that he has been to the city on Wednesday to find Mr. Wallace Nesbitt, to start an action to recover his little property in St. Catharines, which he inherited from his father, but he was refused to return before going to Hamilton, where he has a daughter.

Warehouse to let or for sale. Suitable for any wholesale business in centre of city. Excellent location in Broadway and Adam Street heating, two fireproof vaults, weigh scales. A bargain. 15 Hughson-st., Hamilton. ed-7

Dr. Luxmoore Coming.

Dr. C. M. Luxmoore, D.Sc., of London, Eng., is on his way to Toronto to deliver Biblical lectures in Broadway and Salem Halls. On Wednesday, July 19, he will speak in Broadway Hall on "The Story of the English Bible." On Thursday, he will speak in the same auditorium on "The Veracity of the Holy Scriptures," and on Friday, he will speak on "The Future of the World." No lectures will be delivered on Saturday, but on Sunday an address will be given in Salem Hall, 100 Salem-ave., the subject being: "The Testimony of the Holy Scriptures to the unique personality of the Lord Jesus Christ." On Monday evening Dr. Luxmoore will deliver his closing address in Broadway Hall on "The Modern Theology and its Doom."

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto. ed-6

Sleeper Was Real Fevish.

Sam Patterson paid \$20 and costs in police court yesterday morning to avoid jail for three days for sleeping on a bench on the Don flats, because he had thrown a brick or a piece of one thru a window of St. James' Cathedral, when he awakened while sleeping on a bench in the yard of that edifice Saturday.

PUBLIC AMUSEMENTS

At the Princess

There is a perennial appeal in "Camille," as there is in the story of every woman who loves and who is faithful unto death.

Dumas' masterpiece as the Princess last night was marked with such fine artistic instinct and such genuine dramatic feeling that the large audience there was not only enraptured, but emotional medium. Miss Adelaide Klein naturally occupied the greater share of attention. But Arthur Byron was no whit behind in the earnestness and intensity of portrayal of Armand Duvet.

At the close of the second act, his outburst—"My life, your honor depends upon your answer brought down the curtain with a storm of applause and four recalls followed.

The third act ended with a piece of stately writing, which might well be called a masterpiece. Miss Klein, indeed, had to respond to the demand for a speech. "My dear friends," she said, "I thank you all from my heart and soul for your appreciation of this play. I am going away from you. But I hope some day to come back and be with you again."

Miss Klein's "Camille" is not the tiger-like creature that she has been in the past. She is a loving and gentle woman, but she is a great actress. Her public sense as she came to the city, and has demonstrated her ability to depict the most varied characters with a depth and naturalness that is rare in young actresses.

Her performance in "Camille" is a masterpiece. She is a loving and gentle woman, but she is a great actress. Her public sense as she came to the city, and has demonstrated her ability to depict the most varied characters with a depth and naturalness that is rare in young actresses.

OLD FRIEND HUMIDITY IS POKING UP GRIP

Continued From Page 1.

rainfall, however, was not quite so heavy as in Toronto, altho the observatory officials have not yet been able to judge accurately as to the extent and severity of the showers in different localities.

The mercury stood at a high figure in many places yesterday, 86 degrees being reached at London and 92 at Ottawa.

Ottawa is unfortunately situated just at present as regards air currents, and that is why this poor old province has been put thru such a grueling display of torrid temperatures.

The Cause of the Heat. Hangover from the South Atlantic coast for some weeks there has been a warm belt of high-pressure air, which has been seeking a means of escape to the westward.

It is a pity that the high-pressure zone forced themselves automatically. Toronto, unluckily, was in the path of the high-pressure zone.

MENTION THREE SITES FOR NEW CIVIC HOSPITAL

New Isolation Building May Go Up Bathurst or Up Yonge Street.

The local board of health are meeting Friday in special session to consider some very important matters.

Further consideration will have to be given the water supply, the slum problem, as reported on by Dr. Hastings, is to be discussed, and the Isolation Hospital site to be considered.

The members of the board are somewhat hazy in their ideas as to just where the new hospital should be placed. Several locations, at least a dozen, have been considered and visited, but only three are now regarded as at all suitable.

Of these one is situated up Bathurst-street, the other up Yonge-street and North Toronto, and would be available for expropriation in case of annexation.

The North Toronto sites are regarded as specially attractive, both as regards price, situation and accessibility.

The board of health have held a conference with the Milk section of the Retail Merchants' Association regarding the "Hawking" bill, and the latter having signified their entire approval of the measure, it will likely receive its third reading at the special meeting of council, to be held next week.

A PATHETIC ROMANCE Walked to Niagara Falls to Be Abandoned by Their Lovers.

NIAGARA FALLS, Ont., July 10.—(Special.)—Lovesick, weary, almost exhausted, two Toronto girls, giving their names as Sarah Cable and Agnes Bushby, were picked up by the city police and sent back to Toronto by Chief Kimmins yesterday.

The girls told their story in a pathetic way. They had walked thirty miles from Grimsby to this city. Their tale was a pitiful one and touched the heart of the big police chief.

CHARGES C.P.R. WITH NEGLECT

Jury at Livingston Inquest Want Boarding Cars Left Stationary.

An inquest was held at the morgue last night on the body of Alexander J. Livingston, 22 years of age, a line-man on the C.P.R., who was fatally injured at Coldwater on Wednesday.

From the depositions of the witnesses it appeared that Livingston returned to his boarding cars shortly before noon and not feeling well he got under one of the cars to rest in the shade.

Presently the set of cars were shunted. Livingston was thrown down under the wheels and caught before the shunting engine could be signalled.

The medical evidence was to the effect that death was due to shock and loss of blood. Livingston's left leg having been almost severed.

The jury returned a verdict of death thru the negligence of employes of the C.P.R. in not giving proper warnings, and they recommended that all boarding cars should remain stationary until proper notice is given for their removal.

TWO BODIES RECOVERED. OTTAWA, July 10.—Two bodies were taken from the Ottawa River to-day. One was Loretta Burke or Mrs. W. A. Sharpe, whose drowning occurred mysteriously five months ago. The second body was that of a man found among Booth's logs. It is badly decomposed, and at present unidentified.

Edward Thibodeau, aged 21 years, formerly of Hull, was drowned in the Black River at Waterstown, N.Y., yesterday. The young man fell into the river while bathing.

LURED AWAY FROM HOME. KINGSTON, July 10.—(Special.)—The police here were asked to locate a young girl named Murray, who belongs to the rear end of Frontenac County. It is stated that she went to Toronto last Thursday to meet a man named Buffalo whom she promised to marry. It is alleged that the man is married and it is now feared the girl will be lured away from home.

A High Financier. When Hyman Petelinick, 21 years, a tailor, 25 West King-street, was given \$25 by his brother-in-law, Izak Klonick, it was upon the understanding that he should deposit it in the bank for him. What Hyman did was to keep the money and to forge an entry of that amount in Izak's bank book. For this he was arrested yesterday by Detective Cronin.

GRAND CIRCUIT RACES. TO-DAY AT INDIANAPOLIS. INDIANAPOLIS, Ind., July 10.—With many of the fastest harness horses in America at the State Fair Grounds track, a clear sky and a fast track are all that remain to make the opening of the Grand Circuit racing season to-morrow auspicious. This will be Indianapolis' first year in the Grand Circuit.

The names of the Ontario Bowing Association of Ontario, the gathering being presided over by the Rev. Father Poulin, and as Senator Belcourt is president and Hon. Dr. Resume one of the directors of the association, more will likely be heard of the gathering. After dealing with questions relating to the University of Ottawa and the appointment of an archbishop, Mr. Tremblay asserted that French-Canadian should not vote for any English-speaking person. He advised his hearers to vote only for French-Canadian council members, and provincial and federal members, to deal only with French-Canadians in business, and to deposit their money in French banks only.

Porcupine Gets Its Third Baptism of Fire—Damage Small

Exaggerated Stories of Fires Give an Easier Tone to Market

Porcupines Get Down Somewhat Lower When Rumors Invade the Exchanges—Cobalts Are Hard To Hold.

World Office, Monday Evening, July 10.

Exaggerated reports of the fire in Porcupine sufficed to keep the mining markets in a somewhat depressed mood to-day. At the opening of the exchanges wild rumors concerning the conflagration were passed around, and some traders had had their way, no doubt the whole camp would have been wiped off the map.

With the list susceptible to the wildest kind of rumors, it was only natural to look for reaction, and this was brought about before the day closed. Nervous holders did the selling, and the buying was of a responsible nature. It was not of sufficient calibre to wholly combat the liquidation which was evolved.

The active issues were all lower as a result of the realizing movement, but it was noteworthy that the market held up remarkably well, and it was felt that there was considerable ground for satisfaction in that prices held as they did in the face of the reports of the fires.

Losses ran all the way from one to three points in the cheaper stocks, 25 and 40 points in the higher issues. Dome Extension was the most active stock, and, as during the last few days, there was wide price swings. The quotation got down to 88, a loss of three points, but rallied a point at the close.

The other cheaper issues were under pressure, but the decline was not quite so marked. Vipond was back to 90, Swastika to 81, and Preston to 40, with activity in all these securities.

Hollinger opened 20 points below Saturday and lost an additional amount during the day. The low point was 414, and the close only a few cents higher. Rea got down below \$6 for the first time in a number of days, and closed at \$5.33 bid.

Further weakness was shown in the Cobalts, and both Timiskaming and Beaver moved toward lower figures. The former was down as low as 42 1/2, after selling early in the day at 46. Considerable comment is being heard regarding the decline, and it is already being rumored that it indicates a drop in the next dividend. There are only scattered buyers for the Cobalts, and sellers are finding it rather difficult to hold prices intact.

The market closed dull, but with a slight rally in some of the active issues.

The market closed dull, but with a slight rally in some of the active issues.

Ontario Porcupine Is Liked in London

The stock of the Ontario Porcupine Goldfields Development Co. advanced 28 points in the London market yesterday and closed there at 70 to 75.

The advance is due to highly satisfactory results of the development on the Miller claim, which adjoins the Peniarth. Three main shafts are now going down on the Miller claim, and mining operations are carried on following plans to make a permanent mine. One of the three veins is 12 feet wide and carries values that assure milling ore of a high grade. Mining operations on the Miller are being pushed with great vigor, and all three shafts will now soon reach the 100-foot level, from which cross-cuts will be made to cut the three different veins.

Another important occurrence in the development of the claims on the Ontario Porcupine Goldfields Development Company is the uncovering of ore bodies on the claim adjoining the Portland mine. Several veins, running from three to six feet wide, have been opened up, which carry excellent values. A camp has been established on this claim and prospecting of these veins is now going on actively.

Visible Gold for 13 Ft. On Peniarth Claims

The strike on the Peniarth (formerly Armstrong-Booth) claims in Tisdale is turning out to be of a good deal of importance. The shaft is down now 40 feet and the vein is strong and rich. Thirteen feet of it carries visible gold, and the values across the whole vein will average high. The Peniarth being right in the Hollinger zone, occupies one of the most favored positions in the whole camp, and its development is being followed with much interest.

Road to Pearl Lake Is Still Held Up

Porcupine City, July 7.—(From Our Man Up North.)—Reeve Kinganill of the Township of Tisdale states that, as no representative of the public works department for Ontario was present at the conference with the railway commissioners, no action was taken relative to the building of a road from Porcupine to Pearl Lake. Just as soon as the works department are ready to start the work, it is expected that something definite will be done in the matter this week.

Work is Progressing On Dome Extension

Big Ore Body With Value of Many Millions Will Be Met in Few Days.

Capt. Anchor's resourcefulness as a mine manager has been brought out in a striking way by the manner in which he has re-established his camp on the Dome Extension. It is only a week since news of the destructive fire reached Toronto. In that short time he has re-established his working force on the property, and by the end of this week mining operations will be in full swing again.

The men are now comfortably housed in tents, and thru the courtesy of the Dome Mines Co. there will be no delay in getting power, as a compressor has been secured from that company for carrying on the work on Dome Extension. Thru Capt. Anchor's efforts the collar of the shaft was not injured, and there was no damage from fire to the timbering. This being the case, the driving of the shaft downward will be resumed with very little delay.

It was expected that the drills will be running again at the end of this week. At the time of the fire the main shaft on the big vein was down about 110 feet. Another week's work will be sufficient to make the necessary sump and cross-cutting to cut the 60-foot ore body. The heaviest losses are O'Reilly Assay Company, Dr. Moore's office and agency, Strain Cement Block Company, and the Strain home, Presbyterian Church, St. Stephen's home, Mine Manager Bedords' home, two apartment houses, and two boarding houses. In no case were the contents of buildings saved.

Saturday afternoon fire swept over the Moneta, Crown Reserve, Miller-Middleton, and Hollinger properties, but no damage was done except in the Hollinger, where several hundred cords of wood were destroyed. Had there been buildings on the Hollinger nothing could have been saved. Hard fire fighting saved the Moneta and Crown Reserve.

Fire still burns all around the three towns, but a change in the wind favors the localities. The weather continues dry and hot with the thermometer standing at 104 this afternoon. No rain is in sight. The swamps are dry.

Porcupine Gets Its Third Big Fire

Porcupine, July 10.—(Special.)—For the third time within a few weeks, Porcupine has been devastated with forest fires. Fifty-five houses situated in the northwest corner of Porcupine City (Porcupine) burned after midnight, and only with the greatest difficulty was the pioneer town of the camp saved from destruction. The loss is estimated at \$75,000.

The heaviest losses are O'Reilly Assay Company, Dr. Moore's office and agency, Strain Cement Block Company, and the Strain home, Presbyterian Church, St. Stephen's home, Mine Manager Bedords' home, two apartment houses, and two boarding houses. In no case were the contents of buildings saved.

Swastika Putting in Compressor Plant

Prospecting Outfit to Go Up Instead of Stamp Mill.

Porcupine City, July 7.—(From Our Man Up North.)—The Swastika Mining Company have decided to put in prospecting machinery and not a stamp mill for the present, and a nine-horsepower compressor plant, two 40-horsepower boilers, and a hoist have been ordered to be installed at once.

The old five-stamp mill will be kept in commission till more underground development has been completed, when a new stamp mill will be ordered. Up to the present time over 1700 feet of sinking and drifting have been made. Surface prospecting has also been taken up and the entire holdings of the company will be explored under the generalship of Engineer Summers.

Govt. Crop Report a Bear Factor in Stock Market--Prices Lower

New York Stocks Sell Sharply When Govt. Crop Report Appears

Poor Showing of Growing Crops Induces Selling Movement in Wall Street—Toronto Market Shows Little Resiliency.

World Office.
Monday Evening, July 10.
While there was little resiliency in today's market, it could not be said that the selling had any special effect upon prices.
Toronto Ralls was the only reactionary issue. These shares sold down 1 1/2, a decline of over 2 points from Saturday. The selling came, or should have, from those with big profits, although the official announcement on the stock is still awaited.
Rio sold ex-dividend today, and almost recovered the quarterly distribution from recent years. Operations in the shares were not convincing and door traders were not influenced by the slight rally.
Considerable opening-up of Dominion Bank shares was noted. Reciprocity speculation brought numerous small lots into the market. The disposal of these lots brought lower prices during the morning session, but these were resold during the afternoon at over a point advance.
Practically all to-day's business in the listed shares was confined to the scalper. The mining section of the exchange was easier all round. Porcupines were influenced by another fire, and Cobalts were heavy. The silver stocks have gone out of fashion, and, although the prices of many issues are attractive, the absence of a speculative fillip leaves them with very little support.
Late in the day the United States crop report for June was published, and this doubtless was depressing to those governed by temporary influences.

Hudson Bay Co. Makes Record Profits

Big Holdings of Lands the Bonanza Out of Which Dividends Are Paid.

The Hudson Bay Company for the past year shows a net gain on record, accounted for by the land department. Land sales by the company made up \$248,557 of total profits of \$1,074,374. The profit from the trading department, following is a comparison showing year to year.

Year	Total profits	Div. p. c.
1900	158,048	9-13
1901	58,387	5-10-15
1902	138,198	9-17-26
1903	319,858	10-5-22
1904	277,981	11-5-20
1905	290,329	23
1906	412,242	40
1907	456,568	42-1-2
1908	302,322	30
1909	285,868	25
1910	406,202	40
1911	708,623	40

Consols Hit Low Price in the London Market

General List Holds Firm--Paris Sends Supporting Orders.

LONDON, July 10.—Money and discounts easy. With the settlement commencing to-morrow business on the stock exchange was small, but bearing covering improved most departments. Paris support helping in the afternoon. Mexican rails were easy, and consols dropped a quarter to a low record, 78 3/8.
American securities were firm on anticipation of a good government grain report to-day. Union Pacific and St. Paul led the advance, which was further increased in the afternoon on Wall Street buying. The closing tone was firm.

Nominal Surplus Shows a Decrease

Sovereign Bank Shareholders Meet to Consider Their Assets and Liabilities.

STEEL TRUST REPORT

NEW YORK, July 10.—The United States Steel Corporation announced to-day that the unified tonnage on its books on June 30 totaled 3,861,068 tons, against 3,118,187 tons on the books on May 31.

WALL-STREET POINTERS

Americans in London about unchanged. Heavy traffic continues on B.R.T. Hearings in Sugar enquiry will be resumed at Washington. Pay of rural mail carriers to be increased \$4,000,000 this year. National City Co. of New York incorporated at Albany with \$10,000,000 capital. Interboro has until Thursday to act regarding subway. Board of estimates then adjourns for summer. Virginia-Carolina Chemical reports for year ended May 31, amount available for dividends on common stock equal to 3.11 per cent., as against 10.42 per cent. in previous year. Senator Penrose, the Republican leader in the senate, says he thinks congress will adjourn by Aug. 1. No legislation other than Canadian reciprocity is expected by him. Chicago: Traffic on the western railroads is holding up even better than most officials expected, but the tonnage represents nothing more than actual necessities of consumers. This demand is sufficient to keep a steady volume of nearly all commodities moving. According to international cables German interests are buying Canadian Pacific. It is said they sold the stock for profit account at higher prices, and are replacing lines on the reaction. The reciprocity announcement may come any time and raise these stocks.

GOOD DEMAND FOR RAILS

NEW YORK, July 10.—Rail mills of the country are operating practically full time. Railroads that contracted for material for delivery in July and August have been urging shipments, but certain plants will be unable to make deliveries within specified time. Pennsylvania Steel Co. last week closed contracts for about 4000 tons of steel rails.

LOOK T HARVEST TO QUICKEN MARKET

The situation in the security market is quite satisfactory. We have had one crop scare and will probably have others before certainties as to the harvest are established. Political conditions are not affecting sentiment much as the various radicals were taken at their value as endeavors to make

DOMINION BANK

Semi-Annual Statement Shows Many Highly Satisfactory Features.
The semi-annual statement of the Dominion Bank was issued yesterday. The net profits for the past six months were at the rate of 18 1/2 per cent. per annum, as against 15 1/2 per cent. last year. Deposits increased over \$3,000,000, and total assets, which are now \$5,230,000, show an increase of over \$2,700,000.

In the matter of reserve the bank maintains an exceptionally strong position, the readily available assets being \$2,507,574, against liabilities to the public of \$4,254,955, a ratio of about 47 per cent.
The statement of the business of the bank for the six months ending June 30 is as follows:
Balance of profit and loss account, Dec. 31, 1910, \$306,087 56
Profit for the six months, 235,074 34
Income June 31, 1911, after deducting charges of management, etc., and making provision for bad and doubtful debts, 333,800 37
Dividend 5 p. c. paid, \$688,147 98
April 1, 1911, \$120,000
Dividend 5 p. c. payable July 3, 1911, 120,000 240,000
Balance of profit and loss carried forward, \$398,147 98

TRADERS NOT DISPOSED TO OPERATE

World Office
Monday Evening, July 10.
The Toronto stock market showed no semblance of breaking out of its rut of inactivity to-day. Two issues, Toronto Ralls and Rio, divided any speculative interest. Ralls dropped over a point because some holders thought they would clinch profits, but Rio advanced and showed a good undertone. Tighter money is being spoken of here, but there is too little speculation extant to leave room for any embarrassment on that account. Until some signs of inside operations for a rise are visible, traders will not feel disposed to do anything in the market.

Wall Paper

A visit to our Wall Paper Department, on the Fifth Floor, is a revelation to the person who has only gone as far as admiring the beautiful papers in the windows. Quantity is so great and variety so infinite that one really wonders how such countless designs are executed, but all the same a buyer does not get bewildered, as arrangements for showing and giving a correct idea as to how a paper will look "hung" are perfect.
