RADIALS WANT CITY BONUS

MANAGER MOORE TELLS MAYOR FOR BREAKING IN FREIGHT

And the Toronto Street Railway Demands Control of Cars in City and Right to Collect Another Fare.

A short step was taken yesterday afternoon towards having the radial railways come into the city. Manager Moore of the Toronto and York Co., which is a wing of the Toronto Railway Co., met with Mayor Moore...

"We are anxious to come in on fair terms, but we can live without coming in," is a simple quotation from Manager Moore's remarks. To The World he said that the freight cars would be good lookers and would not have any appointments for passengers at all.

"What would be the terms on which you would come in?" asked the mayor. "Well, you can't get very much," caudely replied Mr. Moore.

"All we want is what we ought to get," pleaded his worship. "You can't get much, because we haven't got it," continued Mr. Moore, who cited matters in some United States cities where radials had stopped coming in.

The Toronto Railway Co. would insist upon the cars of the radial company being under their control in the city, and to be collected by conductors representing the city company, and the City of Toronto getting the usual percentage.

"Another fare would be collected?" asked the mayor. "Certainly," replied Mr. Moore. "As to what the company would consider right to pay for bringing in their freight cars, Mr. Moore said, 'We expect a bonus from you for bringing in the freight cars, and we expect a bonus from you for bringing in the freight cars, and we expect a bonus from you for bringing in the freight cars...'

The Toronto Railway Co. would insist that the radial lines in the city should be their lines. Commissioner Harris argued for double mileage, and Mr. Moore argued for double mileage, and Mr. Moore argued for double mileage...

Before the conference commenced the mayor, after a short speech, invited Mr. Moore to enter the outside office in a jovial way and greeted the newspaper men with cheerfulness. Property Commissioner Harris was with the mayor, and the mayor invited him to add to the interest of the interview. This was because the St. Lawrence Market is under the care of Mr. Harris, and that beautiful spot is the radial roads if they are to come in.

Mr. Moore betrayed some inquisitiveness regarding the market and connected with it. He asked Mr. Harris to give him the details as to the city's private opinion about the St. Andrew's Market and the butcher's market. Mr. Harris said that the business doesn't fancy them much as a business bonanza, because they are too near Queen street.

"Is the market in the centre of a town popular?" queried Mr. Moore. Mr. Harris thought so, and referred to the success of such markets in American cities.

Mr. Moore inclined to the idea that the present market was too near to the centre of the city, but Mr. Harris met this with the argument that it would be difficult to get purchasers for the produce in the small towns. At this juncture Mr. Moore reached the incredulous basis. He said that recently there were not as many farmers' wagons as there were in the market.

From what the commissioner said, it would appear that there was an exaggeration in mentioning the City of Brantford as a comparison. Mr. Harris did bring out the point that in small towns, the farmers were barred from selling their produce on the streets, so they had to go to the Association and as far as the privy council to fight such an idea, and they won out.

"We don't get as many genuine farmers as other cities," Mr. Moore said, and he deprecated Toronto's natural advantages as a market for the farming and market community. Commissioner Harris, with the support of the mayor, championed the cause of the rural, and the city's prosperity. The distances from the city limits was not too much to deter a farmer from coming in to the market, was his argument.

Then came a pertinent question from Mr. Moore: "Why how, Mr. Harris, can you account for only having 32 farmers at your market on Saturday, a week ago?" The reply was to the effect that it had taken 5 1/2 years to buy the market, and farmers who had formerly been coming to the old market for 20 years had become alienated, and again they are not raising produce, but are going in more for stock. "Unless they are provided with facilities, they can't be brought back to the market," Mr. Harris said.

"It's the wives and daughters of the farmers who would take advantage of the radial roads. They like to be in the city for a little while, and can't live in small towns, which would go nowhere toward making up the load the farmers used to bring in."

GIVE AND TAKE.

MAYOR COATSWORTH, for the city: On what terms will the radial railways enter the city?

MANAGER MOORE, for the Radial Railway and Street Railway Co.: "Well, you can't get very much. We are anxious to come in on fair terms, but we can live without coming in."

Mayor Coatsworth: "Another fare would be collected on radial cars in the city?"

Manager Moore: "Certainly, and we expect a bonus from you for bringing in the freight cars, and we expect a bonus from you for bringing in the freight cars..."

Mayor Coatsworth: "What routes would you propose?"

Manager Moore: "Leave them to the city to propose and let us accept or reject them. Routes, passenger traffic and terminals demand consideration."

FIRST PLACE TO BRITAIN IN UNION OF ENGLISH RACE

Andrew Carnegie, Writing to the Times, Refutes Sir Chas. Tupper's Construction of Speeches.

(Canadian Associated Press Cable.) London, July 16.—Andrew Carnegie writes to The Times, declaring that not one word of his recent speeches in Canada would justify the construction recently put on them by Sir Charles Tupper, that they contained a palpable proposition for unity with the States instead of England. He says:

"Never did I utter a word in Canada or elsewhere about drawing closer our race to that of the United States. I don't think either Canada or America in future is to be the support of the mother land, or to believe some day the mother land will find an alliance or union with her children across the Atlantic her refuge and her strength. During the lifetime of many now living, 300,000,000 of English-speaking people are to twill there."

"Canada to-day is intensely loyal to Great Britain. If any change is made it will be that of the fond daughter leaving her mother's house, and not to create a home for herself, followed by the mother's love, which is fully reciprocated. Britain has nothing to fear from American rivalry, no matter how increased."

FOREIGN EMIGRANTS NEXT.

Salvation Army Expects to Send Out Large Number Next Season. (Canadian Associated Press Cable.) London, July 16.—Another S. A. party of emigrants will leave this week making a total for the season of nearly 12,000. About 10,000 now has been advanced to emigrants.

Next week the cancelling of the contract with the North Atlantic trading company, the army expects a considerable number of continental emigrants under its officers' care. In the near future a party of 20 families of Nestorian Christians from the regions south of Tiflis will be taken to the little Nestorian colony, near Batavia.

PROTESTANTS SHOULD UNITE WITH A CENTRAL DIRECTOR

Grand Master Sproule's Suggestion to Triennial Council—First Day of Session.

A federation of Protestant denominations the world over, dominated by one central head as is the Roman Catholic Church, was the suggestion of the address of Dr. Sproule of the Grand Sovereign of the Orange order of Canada, at yesterday's session of the triennial council now in progress in this city.

The duty of the Protestant Church to-day was to rally to the help of the Orange and kindred associations, to uphold the principles for which their fathers had fought. While the Roman Catholic Church was dominated from one central point—the Vatican at Rome—the Protestant Church was directed from many sources and led in the unity which characterized the Church of Rome.

Growth of the Order. Gathered from all parts of the Dominion of Canada, Great Britain and the United States the 14th triennial council outranks in the number of delegates any hitherto held. Statistics presented by Grand Secretary James Rice show in the Grand Lodge of Ireland a gain of 19 lodges, Grand Lodge of England 300 lodges, and Grand Lodge of Scotland 23 lodges.

In British North America the gains are: Ontario West, 18 lodges; Ontario East, loss 5; Newfoundland, gain 28; Nova Scotia, gain 6; New Brunswick, gain 11; Quebec, gain 3; Prince Edward Island, gain 5.

In the United States the gain as reported by the Grand Lodge totaled 329 lodges. From far off Australia came glowing reports of progress in South Australia 39 lodges and in West Australia 39; in Queensland 4, and in Victoria 58. In New Zealand there was a gain in lodges of six, making a total of 40.

Yesterday's Proceedings. A feature of yesterday's gathering was the visit of Bro. Mayor Coatsworth and Ald. Graham, who on behalf of the city, extended a cordial greeting to which Bro. E. T. Essery, D.G.M. of Ontario, responded. In feeling the death of Imperial Grand President William Young of Glasgow was referred to by Vice-President Robert Burns. The memorial to him was also presented.

During the afternoon session brief addresses bearing on a portion of the order were given by Hon. Bro. Mr. McFadden of Manitoba, Rev. G. T. Lemon, and Rev. G. M. Black. Since the last meeting of the triennial council in Dublin warrants have been issued for the establishment of a grand lodge in Australia, while the differences of opinion existing between the grand lodges in New Zealand have been adjusted.

At the evening session a number of routine matters were dealt with and advanced a stage. Rev. William Walsh spoke briefly, Miss Mary Callan, on the subject of the memorial to the late Bro. R. G. Gamey responded. The session will reconvene this evening at 8 o'clock, when the number of delegates will be materially increased.

ROOSEVELT FREES DOVE OF PEACE BRINGS BELLIGERENTS TOGETHER

Prospect of Solution of Central American Difficulty Brightens With Arrival of United States Cruiser in Guatemalan Waters. Oyster Bay, N.Y., July 16.—Peace negotiations between Guatemala and Salvador are being arranged to-day by President Roosevelt and Acting Secretary of State Bacon at Sagamore Hill.

The question not yet settled is whether Honduras will become a party to the negotiations at this time. It is reasoned here that it would hardly be fair to compel Guatemala to face two former foes in a peace conference at one time. Honduras will probably agree to the settlement arranged by the two states primarily involved. The negotiations, it is stated, will be held on board of the American cruiser Marchesead, now in Guatemalan waters.

The arbitrators on behalf of the United States Minister to Central America, Mr. Coombs, United States minister to Guatemala, and Mr. Merritt, Mexican Minister to Salvador, will be the date and detail of the proceedings beyond this has not been arranged. The navy department was informed of the arrival of the Marchesead at La Libertad.

The important development of the day, aside from the offer of the John Cabot, was the arrival of the state department from President Cabrera that Guatemala would refrain from further hostilities if Salvador would undertake to do the same, which news was promptly communicated to Minister Merritt at San Salvador in order that he might transmit the proposition to the government at that place. The prospect of peaceful termination of the difficulty is believed to have brightened.

ALDERMEN ON STRIKE GORDON WONT BACK UP

Stratford, July 16.—(Special.)—All the members of the board of works refused to sit at the council meeting tonight because Ald. Gordon would not apologize for statements made about the board at the last meeting. Ald. Gordon characterized the deal as "crooked."

Ald. Gordon refused to take back his statement and all members of the board walked out in a body, and as there was no quorum, the meeting had to be adjourned. The mayor has called an emergency meeting for Thursday, but members of the board state they will not attend.

CHILDREN ARE INVITED TO SUBSCRIBE TO FUND

Alex Muir Memorial is Further Advanced—Committee is Energetic. The Alexander Muir memorial committee yesterday afternoon in the council chamber and discussed the erection of a monument in Toronto to the memory of the author of "The Maple Leaf Forever." Many patriotic references were made.

His worship the mayor presided and tried to get a large committee into the school children he looked after for subscriptions grading up as high as 5 cents, according to circumstances, and that high school pupils be allowed to go as high as ten cents, and that a popular \$1 subscription be expected from adults, with not more than 50 cents.

Those present who took a most interested part in the discussion were W. A. Sherwood, J. Carroll Hopkins, C. N. Robinson, R. C. Gavin, W. D. Earnsey, W. O. Wilkinson, H. A. E. Kent, John Nunn, A. C. Macdonald, M. P. J. A. Patterson, K. C. David Cleighton and a number of other gentlemen equally enthusiastic.

Secretary Alex Fraser, the provincial architect, announced that to make the memorial a national one much postage expense must be obtained, and he had requested the postmaster-general to give the order, which had not yet been received. There was no answer.

Several of the most prominent printing firms have promised to make the amount of the material necessary. The patronage of the memorial is His Excellency the Governor-General, Earl Grey, Lord Elgin and Lord Strathcona. The provinces will be represented by the grand lodges in New Zealand have been adjusted.

At the evening session a number of routine matters were dealt with and advanced a stage. Rev. William Walsh spoke briefly, Miss Mary Callan, on the subject of the memorial to the late Bro. R. G. Gamey responded. The session will reconvene this evening at 8 o'clock, when the number of delegates will be materially increased.

LOVE-LORE TORONTO MAN TRIES SUICIDE IN DETROIT

When Young Woman Shows Coolness, He Swallows Acid in City Park. Detroit, July 16.—(Special.)—"If you don't love me, I'll kill myself," said Earl King, a clerk rooming at 303 East High-street, to Florence Jefferson, 125 St. Antoine-street, as they sat in Clinton Park adjacent to the board in Clinton building to-night, at 10 o'clock. He put the threat in operation and swallowed a quantity of carbolic acid.

"You don't love me as much as you ought," King had said to the girl during their previous conversation. She did not reciprocate his affection, and for love the young man sought to end his life. Miss Jefferson's screams attracted the attention of others in the park, and King was carried to the office of the city physicians, where Dr. Hotchkiss, the night clerk, gave him emergency treatment and then Patrolman Crossman and Prof. Cosgrove carried the man to St. Mary's Hospital across the street.

King did not swallow much of the acid and water. His home is at 22 College-street, Toronto, Ont. There is no such address as 22 College-street, nor does the name, Earl King, appear in the directory.

MUST MAKE NEW RATES.

Complaints of Chatham Manufacturers Are Heeded. Ottawa, July 16.—The railway commission has ordered railway companies operating in Ontario to submit a new schedule of rates within 90 days. Chatham and Windsor manufacturers complained to the commission that they were charged rates to eastern points that were charged Detroit manufacturers by the same railways.

Mr. Merrick, the American minister to Salvador, advised the department to-day that he is still negotiating with the Salvadoran authorities, trying to get them to agree to disarm and meet Guatemalan envoys in Washington or elsewhere, to arrange for a settlement of the difficulties.

Wreck Due to High Speed Train Late at Salisbury

Jury Consider Blame Attaches to Railway as Well as Driver—Company Accepts Responsibility for the Accident. Salisbury, Eng., July 16.—The coroner's inquest into the cause of the wreck of the Plymouth steamer express, July 1, whereby 27 lives were lost, resulted in a verdict to-day that the derailment of the train was due to the high speed at which it was running, and which was contrary to the company's orders.

It is added that drivers of trains not stopping at Salisbury should have their attention drawn to the regulations which was not done in this case. The jury allowed the verdict to be recorded as one of accidental death, saying they considered that a certain amount of blame attached to the company as well as to the engine driver.

Accepts Responsibility. At the resumption of the enquiry counsel for the London and Southwestern Railway announced that the railway accepted full responsibility for the accident and all the legal consequences resulting from it, adding that he hoped this statement would reduce the time occupied by the inquest.

The question of the express, Harrison testified that the ill-fated train was running at the rate of at least 50 miles an hour thru Salisbury, whereas the proper speed is 30 to 40 miles an hour. Harrison added that as speed was not reduced on approaching Salisbury the signal to the engineer, but he applied the hand brakes and had just applied the vacuum brakes when the train was derailed.

The company issued instructions in February regarding the speed at this particular point, but the instructions were subsequently cancelled. Major Pringle, representing the board of trade, said his investigations showed that the speed of the train between Wilton and Salisbury was over 60 miles an hour.

Four Minutes Late. Officials of the London and Southwestern Railway testified that previous to February trains were allowed to pass thru Salisbury at the rate of 30 miles an hour, but in February they were ordered to reduce this speed to 25 miles per hour. Superintendent Holmes of the railway company said that the train was four minutes late at Salisbury, although it had been traveling between 44 and 70 miles per hour, and the high speed was responsible for the accident.

Sympathy for Canadians. London, July 16.—(C. A. P.)—Thru Lord Strathcona the London and Southwestern Railway officially conveyed its sympathy to the relatives of the Canadian victims of the Salisbury disaster.

BODIES IN NEW YORK.

Arrival of Remains of Walter Barwick and C. A. Pison. New York, July 15.—On board the steamer Minneapolis, which arrived here to-day from London, were the bodies of C. A. Pison and Walter Barwick, Toronto, and five other victims of the recent railroad accident at Salisbury, England.

Mr. Barwick's funeral will take place on Thursday, July 19. There will be a private service at the family residence, No. 151 St. George-street, at 2 o'clock in the afternoon, and a public service in St. James' Cathedral at 3 o'clock. The interment will be in St. James' Cemetery.

The funeral of Mr. Pison will take place this afternoon at 3 o'clock from the residence, 41 Ceil-street. A. W. Miles, undertaker, has left for New York to meet the Minneapolis, and take charge of the body of Mr. Barwick.

TWO THOUSAND WORKMEN ATTACK CAR IN STREET

Collisions With Police and Gendarmes in Industrial Quarter of Russian Capital. St. Petersburg, July 16.—Sunday night witnessed the usual collision between workmen and police and gendarmes in the industrial quarters of the capital. The most serious affair occurred on the Schluseburg-road, where a crowd of 2000 persons attacked a steam tractor, which ran over a drunken soldier. The crowd stopped the car with obstacles placed across the track with the intention of lynching the engineer and the conductor, but were finally dissuaded by the pacific counsels of a workman.

The nobles having large estates, under the leadership of Count Ignatieff, ex-governor of Kiev; Prince Kasaev, Wilton and Salisbury was over 60 miles an hour. Constables Jeffers, Gilks and Judge reported in substance the story given by Dobson. He explained that, although Dobson claimed that he was dragged out of bed and rushed out barefooted and scantily-clad in the night, they had been bound together by ropes, and so tightly manacled that he could not release himself.

Responsible Hours. Mr. Walsh, during the hearing, took occasion to say that he did not transact his loan business during office hours or at the residence of the borrower. It is only after 4 in the afternoon that you branch out as a capitalist." Crown Attorney Drayton enquired.

Mr. Walsh bowed assent. He is a member of the Moscov semstvo, have formed an organization for the mutual protection of their properties, both against expropriation by law and despoliation by the peasants. The different groups in parliament are systematically sending members into the country campaigning in favor of the prestige of parliament. From the very beginning, by tacit understanding, no roll calls have been taken at the sessions of the lower house, in order that, should reaction again get the upper hand, the government will have no record of the votes with which to prosecute members.

Representatives in parliament of the various regions of the empire are uniting, irrespective of party affiliations, for the advancement of the local interests. The Armenians, Tartars, Georgians and Cossacks of the Caucasus have formed a separate group, and the Little Russians have also united. The Poles and the members from the Baltic provinces were previously organized. This movement shows plainly a drift towards decentralization, and indicates the natural tendency towards the disintegration of the vast empire once the grip of the central authority is broken.

St. Petersburg, July 16.—Additional details of the assassination of General Kozlov of the headquarters staff in the park at Peterhof on Saturday, prove beyond question that the murderer believed he was killing General Trepoft.

The tragedy occurred at 9:30 in the evening in the presence of several thousand people who were listening to the music in the English Park. Below the Grand Chateau, adjoining the Imperial family and Gen. Trepoft residence. A young man, dressed in the military uniform of a lieutenant, approached the general's face and then took a photograph from his pocket to compare it with Kozlov's.

minor and supporter of baseball and clean, honest play. Mr. Wilkinson's article, published in a recent issue of your paper.

In the first place it is hard to understand how a sensible person at all familiar with baseball to-day and the baseball situation in Toronto this season can make comparisons and statements so far-fetched as does Mr. Wilkinson in his article.

While baseball is not so popular in Canada, it is not its national game, and naturally there are not so many skilled players here as in the States.

It has been the national game and leading sport for the past century. There are, however, a score of more or less Canadian players engaged in the leading baseball associations across the line, it being a well-known fact that a player's reputation in baseball is based on his record in the States.

And results have proven that a more "method" in their tactics. For ten will succeed among strange faces while one is "making good" among his friends, who are his chief reasons for the scarcity of "home talent" among the players of the Toronto team.

Being familiar with both the playing and business ends of the Toronto team, I propose to present a "history" against "Mr. Wilkinson's" manner and way of speaking of the players employed, and of the gentlemen who are carrying the club along at a loss each season, as follows:

Regardless of their playing abilities, there never has and never will be a gentlemen's agreement between the young men who play for the Toronto team.

In the case of Mr. Wilkinson's slur and abuse, he would be treated as a gentleman by gentlemen, regardless of color or nationality, if he would take the trouble to become acquainted with the players of the Toronto club.

As to the joining of the owners of the Toronto club as "cheap sports" for the money, one would think that a man who would bestow such names to responsible and respectable business men and citizens like James J. Fitzpatrick, John J. Solman, James McCaffrey, Ed Mack, J. J. C. Kelly, Thomas Hobbs and others, who have been in the Toronto Ball Club since from year to year as a financial loss, and who are satisfied to stand for the Toronto team, is not a "cheap sports" man.

but would still be appreciated," said the commissioner.

Question and Answer.

The mayor's answer to a little while, and adroitly switched the Harris confession by turning to the proposed agreement of 1901, which was never agreed to by the city.

The mayor turned up the proposed agreement, hatched in 1903, but Mr. Moore said that it was not a gentlemen's agreement, but a contract.

"Well, what are you prepared to do?" asked the mayor, with no little degree of seriousness, and Mr. Moore looked at him in the eye and remarked that routes, passenger accommodation, freight and terminals demanded consideration.

That old suggestion of Engineer Rust, that the new cars come to Clinton, to Niagara, Bathurst and Front-streets, to the market, was mentioned, and seemed agreeable, excepting as to who should bear the cost.

The mayor said it would not pay his company to go into the freight business for the city, but he would be glad to have his company provided an express business. The great milk business was mentioned, and Mr. Moore said his desire was to make it all equally easy for dressed hogs and live chickens.

present the company has a wagon system bringing in and taking out freight to the car.

Have Grown Independent.

"We are anxious to come in on fair terms on the road, and we are particularly anxious to get in on the road on the Oakville district. Mr. Moore instructed the boys to run the road on the more popular side of a concrete grocery business when we negotiated with you before, but now it has come to very large amounts in August. The Home Beer

A beer may taste all right—and yet not BE all right. Beer, not properly aged—"green"—will make you bilious.

Beer, not pure or improperly brewed, will upset the stomach and be absolutely unhealthful. O'KEEFE'S "Pilsener" Lager is brewed with filtered water, choicest hops and pure barley malt. It is always fully aged, filtered again before bottling and pasteurized.

It is the Ideal Beer for the Home. As famous for purity, as for its delightful flavor. Insist that your dealer always send O'KEEFE'S "PILSENER."

Davenport. A pleasant affair took place at the Davenport Road Presbyterian Church last night, when the first anniversary of the church was celebrated. The congregation is in charge of Rev. R. H. Abraham, M.A., Ph.D., and also only one year old, and started with six families, there are 64 families now and its prospective members are 100 members of the church and over 100 families are on the waiting list of the pastor. In the fall and winter, the church is open every evening, either for religious exercises or for social enjoyment. There is also a reading room in connection with the church. The meeting last night was a service of praise, by the choir and friends under the College-street Presbyterian Church. The musical program was exceptionally well rendered and those who took part were Miss E. Ashworth, A. H. Greene, E. R. Parker, Miss E. Ashworth, Misses Crawford and Ashworth, Misses Ashworth and Crawford and Messrs. Johnson and Greene. The Davenport Church choir, Miss L. Stephens, organist. The chairman, Rev. Mr. Abraham, said: "One year ago, we met under the College-street Presbyterian Church. The audience was small, but the members had the heart in the right place. In due time, John Wanless procured a lot of land on the west side of the street, and we have the top by step till we have this beautiful church opened on the 16th December, last year. We have the names of over 200 children on our Sunday school roll." Rev. Mr. McTaggart of the Wychwood Church claimed the Wychwood Church as the parent of the Davenport Church. John Wanless said that the congregation had made a great deal of history, in a short 12 months. "God blessed us, and this blessing was especially in the shape of workers. Now we wish to encourage workers, and we have the names of over 200 children on our Sunday school roll." Rev. NOTICE TO CREDITORS—IN THE matter of Chas. V. Connolly of the City of Toronto, in the County of York, City of Toronto, Druggist, Insolvent.

Notice is hereby given that the above named insolvent made an assignment of his estate to me for the benefit of his creditors, under the B.S.O., 1897, Chapter 147, and amending acts.

The creditors are notified to meet at my office, McKinnon Building, Toronto, at 3 o'clock p.m., for the purpose of receiving a statement of his affairs, for the appointment of inspectors, for the setting of fees, and for the ordering of the affairs of the estate generally.

All persons claiming to rank upon the assets of the said insolvent must file their claims, proved by affidavit, with me, on or before the 10th day of July, 1906, after which date I will proceed to distribute the assets of the said estate, and I shall not be liable for any claim against the estate or for any of the claims of the assignee.

Truete, McKinnon Building, Toronto, July 11th, 1906.

EXECUTOR'S NOTICE TO CREDITORS.—In the matter of the Estate of Elizabeth Dunn, late of the City of Toronto, in the County of York.

Notice is hereby given pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Section 28, and amending acts, against the estate of the said Elizabeth Dunn, who died at the Old Point Home, D.D. 1906, are required to send by post, prepaid, or to deliver to Messrs. Du Vesnet, Ross & Ardagh, solicitors for the executors of the said estate, at their offices, the City of Toronto, on or before Saturday, the 11th day of August, A.D. 1906, their names and addresses, a full statement of the claims of the creditors, and the nature of the securities, if any, held by them, duly certified and proven.

And further notice is given that after the 11th day of August, A.D. 1906, the executors will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of the creditors who shall then have had notice, and that the said executors will not be liable for the assets so distributed, or for any claim against the estate or for any of the claims of the assignee.

Dated 3rd July, 1906.

A LEGAL INVESTMENT FOR TRUST FUNDS CANADA PERMANENT MORTGAGE CORPORATION TORONTO STREET, TORONTO

NEW GOLD ENGAGEMENTS GIVE BULLISH TINGE

To the Wall Street Stock Operations—Domestic Firm, But Still Very Dull.

World Office, Monday Evening, July 16. The Toronto stock market opened firm today than it closed on Friday, but speculation continued, narrow and outside business was little influenced by the firmer prices. Mackay and Twin City showed the principal improvement in the speculative specialties, but the latter was clearly governed by the operations made at New York.

Crop news, both in Ontario and the west is of an improving nature, but the main incentive to better stock market prices was the rally at New York. Bids were more freely dealt in, and to the detriment of price, both the bonds and common stock selling at a lower range. In the majority of issues quotations were unchanged from last week's close, and in the case of bank shares transactions were made at unchanged figures. The local money market continues to show stringency and brokers are not hopeful of any immediate change for the better.

Ennis & Stoppant, McKinnon Building, report the close on: Granby, 10 1/2 bid, 10 1/4 asked; Lake Superior, 12 1/2 bid, 12 1/4 asked; Lake Superior, 12 1/2 bid, 12 1/4 asked.

Mr. J. L. Mitchell, manager for Ennis & Stoppant, has left for Quebec for two weeks, and will leave for Europe about Aug. 15 for a short visit.

Estimates of N. Y. Steel earnings for June quarter from \$38,000,000 to \$40,000,000 net.

Anthracite trade dull, with large production, but light demand.

Strong general demand for stocks in the loan crowd.

At least 50,000 shares of Pennsylvania were loaned in the market.

Decline in price of 37 copper stocks equal to \$14,000,000 in spite of large demand for metal.

Exports of domestic products show small falling off for June, but gain of \$138,828,000 in twelve months.

Banks gained \$3,514,000 from sub-treasury since Friday.

Jersey City, July 16.—At the special meeting of the stockholders of the Allis-Chalmers Company, held here today, it was voted to authorize an issue of bonds to the amount of \$15,000,000, of which \$12,000,000 are to be offered at 90 per cent.

Union Pacific was about as active as any of the railroads in the market today, and a full point over closing price on the active short covering that followed the announcement of gold engagements abroad. Southern Pacific also rallied, and we believe these two stocks could be bought on very sharp declines. The short interest is large in both of them, and could be utilized to help in a very considerable rally if the leaders thought such a policy advisable.—Town Topics.

Joseph says: Daylight is dawning for those who have carried their stocks thru a long and weary time of depression. The market will not go so soaring, but a better material improvement seen. Money outlook may not be the best imaginable, but it is better than it was. The principal reason for this is the return of 22 days hence, other capitalists will follow. Commence buying any of the Amalgamated Copper Company. Three months ago insiders contemplated increasing the dividend at this time, but they are now in a position to distribute valuable securities to its stockholders.

J. P. Morgan will call for New York on Wednesday and arrive here at the beginning of next week. James J. Hill will be here, it is understood in well-informed quarters that the announcement of the terms of the ore deal is near at hand. The possession of the Great Northern property is of high importance to the United States Steel Corporation, as thereby it would have a century to come of the taking of this large supply of ore-holding over the world. The clients of the raise prices of ore, which are now very firm, and are gradually advancing. It is contended that it is not possible to pay higher prices for their ore, which means that United States Steel Company will be in absolute command of the business. In the period of profitable operations is predicted for the corporation as a result of its acquisition in the Lake Superior region. The Great Northern Railway, by reason of this deal, will also be assured of a largely added income, and will be in a position to distribute valuable securities to its stockholders.

J. S. Bache & Co. The bank reserves are slightly above the legal requirements with little prospect for an increase before the crop-moving shipments to the west in. There are two sources from which the bank reserves can be replenished, either from Europe in the form of gold shipments, or thru liquidation in prices and a reduction in loans. At present the latter process seems to be in progress. Both are difficult and difficult in getting proper accommodation at the banks, and are obliged to lighten their loans. The clients of the stock have been the weakest stocks in the declining market in the past fortnight.

New York, July 16.—Extension today of the short covering movement started last week, and is indicated by technical conditions, which point to a temporary retreat market, with but scant offerings in the leading securities. Union Pacific now seems to be in a position to rally with the integrity of the 140-level support never having been violated. Reading's reduced support around 115 is effective, and we would not be surprised to see further betterment. The new level of reduced support for A. C. P. is just above 62, and we cannot see any reason why this stock should not be bought. It is in good shape to recover. A. R. is also in a good position, with support around 111. It is one of the stocks that should be bought and held. St. Paul has gained quite strength on the recession. Information is still bullish on it. Covering occurred in Fuel toward 45. While we are not bullish on N. Y. C. or Pennsylvania, or U. S. Steel, these stocks may recover with the rest. They may be sold for turns on rallies.

RATES OF TRAVELERS' CO. NEW TABLE IS SUGGESTED

Actuary's Report is Presented to Insurance Commission Before Directors Get It.

Before the investigation of the Commercial Travelers' Mutual Benefit Society was commenced yesterday...

To-day the Catholic Mutual Benefit Association of Kingston will be examined...

In 1882 the rates of this company were fixed. The assessment was \$1.10, and gradually increased to \$2.75...

The investments of this society were all in real estate and debentures, and only one questionable deal with any of the members was put thru when R. L. Patterson got a loan on property...

Dr. Elliott's Report. Mr. Taylor's examination was continued in the afternoon. The report of Medical Referee Dr. Elliott...

Mr. Taylor said that the company at that time was against the medical examination. Dr. Elliott just wanted a fixing salary besides his fees.

MR. LENNOX TO THE JUDGE COMPLAINS OF PREJUDICE

Architect Declares That Report is Contrary to Evidence and to Facts.

E. J. Lennox has addressed to the mayor and members of council a long letter relative to the findings of Judge Winchester in regard to himself, which, he declares, are "not in accordance with the evidence given and certainly not in accordance with the facts."

"It is," he says, "with hesitation that I address you in regard to the conduct of any person who occupies the position of a judge in our country, but I understand in this case that Judge Winchester was merely an investigator, and I think therefore that I have a right, and it is a duty which I owe to myself that I should state what I think with regard to his treatment of me through the investigation and his report."

"I was satisfied from the beginning that he was prejudiced against me, and determined to besmirch my reputation if it were possible for him to do so. He lost no opportunity to put a wrong interpretation upon my conduct and to conceal the evidence that was in my favor."

"Through the investigation every contractor and other persons having dealings with the city in connection with the city buildings was brought to his private office and asked for an explanation of matters pertaining to their contract. In my case no such treatment was accorded to me, altho I requested that if there were any matters requiring explanation such a privilege should be granted to me."

The announcement in the evening papers that the dates for the nomination and polling day, respectively, for the Cardwell by-election had been fixed for July 30 and Aug. 6, was premature.

The writ issued yesterday, addressed to William McDermott of Tecumseh Township as returning officer, and it will be his duty to fix the date of the election. It is understood, however, that the foregoing dates are not satisfactory to the Conservatives of the riding, and that other dates will be named by the returning officer.

The by-election is made necessary by the appointment of E. A. Little, M.L.A., who was the sitting member, as deputy clerk of the crown clerk of county court and registrar of the surrogate court for the County of Simcoe, to succeed J. McLean Stevenson of Barrie.

A METHODIST CONFERENCE. Rev. Dr. Sutherland, Rev. Dr. Carman, Rev. Dr. Briggs, H. H. Fudger and Justice MacLaren leave this afternoon for Buffalo, N.Y., to sit with the committee of commissioners from the three great international Methodist bodies, namely, Methodist Episcopal North, Methodist Episcopal South, and the Canadian Methodists, called for the purpose of discussing and framing up a policy of Methodist Church union in Japan.

VICTORIA OLD BOYS. As there is about to be a meeting of the Victoria-street School Old Boys, for the purpose of electing officers and furthering arrangements for a first annual gathering, all names and addresses sent to J. R. Sutherland, secretary pro tem, 105 East GERRARD-street, will be gratefully received and ex-pupils will be notified in due course when the meeting is to take place.

Electric Smelting Invention. The Canadian commercial agent in Norway, in his last report to the trade and commerce department, gives particulars of the invention of a continuous induction electric smelter for the treatment of ores, which is claimed to effect an immense economic saving over the methods of electric smelting now in vogue.

Durham Old Boys' Association. The annual excursion of the Durham Old Boys' Association will take place Tuesday, July 24th, to Niagara Falls. A special train will leave Trenton, and call at all intermediate stations, arriving at Toronto in time to connect with 9 o'clock boat to Queenston.

Special Meeting of Presbytery. A special meeting of the Presbytery of Toronto will be held in Knox Church at 10 o'clock, to-day, to deal with the resignation of the Rev. Mr. Bennett from the united churches of Fairbank and Fisherville.

Jilted, Trics Suicide. Winnipeg, July 16.—Because he was jilted ten months ago by his girl in Scotland, Robert Varley attempted suicide in the Como Hotel on Saturday. He used a revolver, and was badly wounded.

der took. This work was done for the city and the city received the benefit of it, and there was no special certificate issued by me for such amounts as indicated in the press; and, secondly, with regard to the account between Mr. Wright and myself.

"I claim in my evidence and the books show that certain work had been done for me and that I had a contra account which practically balanced the one against the other, altho there was a running account, and work was at that time being performed in my office for Mr. Wright. In order that it might appear that I was indebted to Mr. Wright, notwithstanding the evidence, Judge Winchester undertook in his report to say that I had wrongfully charged in my account for preparation of plans and specifications for Mr. Wright's building in Winnipeg because he said he had been informed that Messrs. Darling and Pearson were doing the work. I did prepare the plans and specifications and the charge made by me in my books is the usual charge for such work. I am not attending to the overseeing of the work in Winnipeg because I have not a branch office there, and this part of the architect's work was handed over with my consent to Darling and Pearson, and they are being paid for their part of the service outside of my account with Mr. Wright."

"The above are the facts in connection with the account between Mr. Wright and myself, but even if it were not so I do not see that it is a crime against any person that he has not paid up his plumber's bill to date, and I might go on mentioning other trivial things which are misconstrued and exaggerated by the judge, and if I wished to put a wrong construction on people's acts, I would say that several months ago, and since this investigation began, I made certain plans of a house at Judge Winchester's request, which he has received, but which have not yet been settled for. If such a matter were to remain on my books for some years and the same came to the attention of Judge Winchester, what construction would be put upon it? I know that this matter is perfectly right, and is not open to objection, as I have accounts on my books for years, but persons of the same kind of mind as Judge Winchester might not look upon it in the same light."

His real object, however, in writing, he says, is to again bring before them his communication of Feb. 26, asking for a board of three persons (one to be appointed by the city and one to be appointed by himself, and the third, if necessary, appointed by these two) to take up the accounts and report whether the work had been properly done and whether he had made a fair adjustment as to deductions and in conclusion Mr. Lennox says: "Let me remind you here that the contracts of Mr. Wright's firm amounted to about \$20,000; that there were extras of about \$5000 and deductions of about \$7000, which would leave the final statement of Messrs. Bennett & Wright a board of three persons of their original contract. I doubt very much if such a showing can be made in connection with any large building in this province or elsewhere."

"The chief point of attack in Judge Winchester's report in regard to the deductions in the Bennett & Wright contract was that I did not make a sufficient reduction in the number of feet in the heating radiation in the building. In my statement of adjustments of their account I made a reduction of 4990 feet and two-thirds. Judge Winchester called in some person who made it about 5600 feet, and understood that this same person at Judge Winchester's request went over it again and made it about 6000 feet, but this evidence did not seem to please the judge and he has evidently rejected it."

"I have been a citizen of Toronto all my life and have done a large amount of business and have in my professional capacity handled the most important work in the city and elsewhere, and this is the first time that even a suggestion has been made that I did not act fairly in looking after matters entrusted to me."
