FRANCIS JOSEPH EMPEROR OF SPAIN NEARS END

Dowager Empress of Spain Arrived From Madrid—Physicians in Constant Attendance.

VIENNA, Oct. 13.—Altho Emperor Francis Joseph this morning was regarded as slightly better, he again became worse during the day. His physicians now fear an outbreak of lobular pneumonia. His majesty's fever is higher.

A feeling of depression reigns among the members of his entourage. The condition of Emperor Francis Joseph took a turn for the worse at noon to-day, and at a late hour to-night the symptoms of inflammation of the lungs had increased. Taken as a whole the day cannot be said to have been one of progress, altho the physicians who examined his majesty at 10 o'clock to-night, declared that the fever had abated and that the condition of the patient was unchanging.

All sorts of reports regarding the emperor's condition are in circulation in this city to-night, and there is considerable excitement among the people. In some quarters it is averred that his majesty is suffering from inflammation of the left lung only, and others say that the attacks of lethargy have become more frequent.

The physicians in attendance, as well as the members of his majesty's entourage, are endeavoring vainly to calm the public nervousness by assurances that the life of Francis Joseph is not seriously threatened. It is known, however, that since shortly after noon to-day a physician has been continuously in his majesty's room endeavoring to relieve the distress caused by the severe coughing. The condition of the patient early to-night was not so serious as it was in the morning. The fever was higher, but it had abated by the time of the last examination. The patient is generally weaker than he was yesterday, and he is not permitted to go to bed, but his physicians advised him it would be much better if he remained seated in his arm chair.

Bride Burned to Death ON EVE OF HER WEDDING

Six Members of Family Lost Their Lives Following Celebration of Approaching Marriage.

GLOVERSVILLE, N.Y., Oct. 13.—Half an hour after a party of merry-makers, early to-day, had left Solomon Frank's home, where they had celebrated the approaching nuptials of the daughter, a fire swept thru the house and six members of the family, including the betrothed woman, were killed. Only the mother and two infant sons escaped.

The dead are: Solomon Frank, aged 40 years; his daughters, Sarah, 21 years of age; Dora, 18, Rose, 17, Minnie, 12, and Mary, 10. They were suffocated by smoke, which filled the rear of the house in which they had retired. That portion of the building was destroyed and the bodies were recovered from the ruins by firemen. Frank was a well-to-do grocer, whose home was the scene of occasional social gatherings of the circles of which his daughters were a part. Dora was to have been married early in December, and last night her parents gave her a betrothal party. The festivities lasted until 1 o'clock this morning, when the party broke up. Soon after the girls had retired, Mrs. Frank discovered in a defective chimney, she gave the alarm, but was able only to save her two little boys and herself.

JOHN D. ROCKEFELLER'S NIECE WILL MARRY

Prospective Husband is a Resident of Kansas.

SALINA, Kan., Oct. 12.—Miss Carrie Rockefeller, daughter of Frank Rockefeller of Cleveland, and niece of John D. Rockefeller, will be married Oct. 25, to G. Bollivar of Hay City, Kan., assistant superintendent of the experimental station, a branch of the Kansas State Agricultural College here. The wedding is to take place at 6 p.m. in the First Presbyterian Church, at Russell, Kan. Miss Pearl Connor, a teacher in the Russell High School, will be the bridesmaid, and George Phillips, an intimate friend of Mr. Bollivar, the best man. The bride has spent much of her time in the west on one of her father's ranches and is a popular young lady at Russell and an active member of the Presbyterian Church there. Her sister, Miss Pearl, is 28 years of age. They will live in Hay City.

MRS. CHADWICK AT WOODSTOCK

Relatives Keeping Funeral Arrangements Secret—Husband Expected --

WOODSTOCK, Oct. 13.—(Special)—The body of Mrs. Cassie Chadwick arrived in the city Saturday night at 6.16 o'clock from Cleveland, Ohio, accompanied by her sister, Mrs. B. A. Campbell of this city, who, upon learning of Mrs. Chadwick's death, hastened to Columbus, and her son, Emil Hoover.

It was quietly removed to Mrs. Campbell's residence, East Dundas-street, where it now reposes awaiting burial. The funeral arrangements are being kept secret, altho it is known that Mrs. Chadwick's remains will be laid beside her parents in the little cemetery at Eastwood.

At Mrs. Campbell's residence nothing is to be learned. Reporters are cautiously turned away, and everything that is possible is being done to avoid publicity.

At a late hour to-night it was learned that the funeral will be held tomorrow at any rate, and that the family are awaiting the arrival of Dr. LeRoy Chadwick, husband of the dead woman, and T. B. Powell of Cleveland, who was her attorney.

Rev. Mr. Thompson, pastor of Collegiate Avenue Methodist Church, met the body at the station and will conduct the funeral services.

It was reported some days ago that Mrs. Chadwick had embraced the Roman Catholic faith a few days before her death, but this is denied by her son.

There was a crowd of curious ones at the station.

NO MORE TAINTED MONEY

Disciples of Christ Will, However, Not Return Gift of \$25,000 to Rockefeller.

NORFOLK, Va., Oct. 12.—Thomas W. Phillips, a wealthy oil and gas magnate, and former member of congress from Western Pennsylvania, today made an unsuccessful effort to have the foreign Christian missionary board of America, connected with the "Disciples of Christ," return \$25,000 given by John D. Rockefeller on the ground that it was "tainted" money.

The money was accepted with a clause providing that no more will be "solicited" from the same source.

Fish Had It All But Ten Cents

Pickrel, Pleased With Martin Blake's Winning Ways, Jumped Into His Boat.

NEW YORK, Oct. 13.—Gentlemen who are engaged in writing fish fiction, in the hope of getting at least honorable mention if not first prize for the season's best effort, will be disposed to tear up their manuscript and drink the link when they read the following, and realize what a swell chance they have of landing among the favored few: Martin Blake, whom our worthy and veracious correspondent assures us to be a resident of New York City, went out picking pickrel in Briscoe Lake, Sullivan County, yesterday morning.

Cassie Chadwick a Genius Gone Wrong.

NEW YORK, Oct. 13.—The World has the following editorial comment: "Cassie Chadwick, dying a convict in the Ohio Penitentiary, excites regret that her undeniable talent, not to say genius, for confidence operations, could not have been directed to a worthy end. "The woman who developed her peculiar gifts thru an apprenticeship as a clairvoyant, fortune-teller, peep show operator, and forger to a point where she could hoodwink bank presidents out of millions on fictitious 'securities' might in another sphere of finance have left a name bright in the galaxy of feminine achievement. "In her, as in Mme. Humbert, and in lesser degree in impostors of the Diss Debar stripe, existed native mental powers which would have made them eminent in other pursuits. What a traction manipulator Cassie Chadwick would have made! The ability which hoodwinked an Ohio bank by means of forged promissory notes would have shone resplendent in the unloading of paper car lines on confiding stockholders."

SPLENDID R. C. CHURCH WAS DESTROYED BY FIRE

Loss Will Be \$75,000—Origin a Mystery.

MONTREAL, Oct. 13.—The Roman Catholic Church at Cote St. Paul, a fine stone structure, was completely destroyed by fire on Saturday afternoon. The convent adjoining was saved. The loss is placed at \$75,000, with insurance for the amount of \$50,000. The origin of the fire is a mystery.

SIR HENRY PELLATT ISSUES STATEMENT

Denies Rumor That His Firm is in Any Financial Difficulty.

The World received the following letter yesterday from Sir Henry Pellatt, and reprints it in full as follows: To the Editor of The World:

"Sir,—The article in The Sunday World reflecting upon the financial position of the firm of Pellatt & Pellatt, which was evidently written upon rumors and alleged information, calls for a reply, and in common justice I ask that you publish this letter in your Monday morning's issue and retract editorially the statements contained in the article.

I make the following statements: (1) The firm of Pellatt & Pellatt is, and always has been, entirely solvent and able to meet its liabilities in full.

(2) No assignment has been made, and none was ever contemplated or thought of.

(3) No receiver has been appointed, or is in possession of the affairs of the firm. Such a thing was never even thought of.

(4) There is a large surplus to the firm's credit with all banks and financial institutions with which the firm does business.

(5) There has been no curtailment of the firm's credit. On the contrary, it has increased from its bankers, and as credit which it has asked for, and has met all demands made upon it by its bankers, with whom its relations have always been, and now are, cordial and satisfactory.

I regret that you should have allowed such an article to appear in your paper. The rumors and alleged information upon which it is based are false and malicious, and are calculated to injure not only my firm but many persons who are interested in the enterprises with which I am connected.

I am, sir, your obedient servant, Henry M. Pellatt, Manager Dominion Bank.

The following letter from Mr. Pepler, the manager of the Dominion bank, was also received yesterday:

To the Editor of The World, Toronto: Dear Sir,—Sir Henry Pellatt has shown me the foregoing letter, and as the name of the Dominion Bank is mentioned in the article in The Sunday World as the bankers of Pellatt & Pellatt, I write on behalf of that bank, to say that the statements contained in Sir Henry Pellatt's letter are, so far as this bank is concerned, entirely true.

I am, sir, your obedient servant, A. Pepler, Manager Dominion Bank.

The World regrets that it should have published the announcement of an assignment when none had been made.

The information came to The World from rumors and definite statements made on the street, in brokers' offices, and in other quarters considered reliable.

It now appears that one of the main causes for the talk and rumors was the registration last week of a mortgage in favor of the Dominion Bank against certain Pellatt real estate.

Some of the bankers and some of the Pellatt firm's friends say this mortgage was not given to protect the bank, but to enable the firm to get more money, as if they wanted it in any emergency that might arise out of foreign complications or a further decline in American securities.

The statement of the firm as given above does not deal with this mortgage.

BEATTIE NESBITT QUIZ BY CABINET THIS WEEK

Government Will Hold Wide Open Enquiry—Prelude to Action.

It is definitely stated, tho not officially, that the provincial cabinet will this week deal with the situation arising out of the speech of Dr. Beattie Nesbitt at Gravenhurst, in which the registrar hinted that "John Rockefeller's Boy" was at work within and without the cabinet to prevent the realization of the cheap power policy of the government.

In fact, there is to be an "investigation" which may investigate not only the Gravenhurst incident but go deeply into several matters that have nothing in particular to do with politics, ending with the dismissal of Dr. Nesbitt.

FIRE DEPARTMENT CHIEF AT BLIND RIVER ARRESTED

Excitement Running High and Bail Has Been Released.

SAULT STE. MARIE, Oct. 13.—Excitement is running high at Blind River as the result of the arrests made there in connection with the recent fires.

It has been learned that one of the six men under arrest is Chief Raymond of the Blind River fire department. This arrest is considered an important one, and it is said evidence against him is so strong that bail will not be considered by the crown.

CAMPAIGN TO CURB LORDS PROCEEDING VIGOROUSLY

Members of Cabinet Are Addressing Meetings Daily.

LONDON, Oct. 13.—The Liberal campaign for the restriction of the power of the house of lords to alter or reject bills passed by the house of commons, which was inaugurated by the premier, Sir Henry Campbell-Bannerman, at Edinburgh, is now in full swing thru the country.

Members of the cabinet are addressing meetings almost daily, the keynote of which is the government complaint of the treatment of measures it considers of first importance by the upper house. That this flood of oratory will affect the house of lords is not expected, the object on the other hand being to influence electors who, if the session of 1908, which convenes Jan. 20, again brings the two houses into conflict, will be long called upon to settle the question.

SILK HATS AT DINEEN'S.

The dressiest and most reliable silk hats are those of Heaths of London and Dunlaps of New York. Laddie, or W. E. Cunningham of Detroit.

SAULT STE. MARIE, Mich., Oct. 13.—Recovering consciousness after hours of constant nursing, Second Mate Pitt of the steamer Cyprus, which foundered off Deer Park Life Station in Lake Superior last night, gave a graphic account of the last moments of the crew on board the ill-fated vessel.

The mate said the Cyprus was making fairly good weather in the storm, when suddenly the cargo shifted, giving the craft a heavy list. This was about 7 p.m., when the vessel was off Deer Park in the regular course of its trips bound up and down.

Water began to leak into the hatches and a panic ensued, many of the crew putting on life preservers. Captain Huyck, however, felt confident he could reach the wharf at Whitefish Point, and the boats were not lowered.

Both engines and pumps were working and the crew felt sure the vessel would not sink without warning. Suddenly the big freighter rolled over on her side and almost instantly plunged to the bottom.

"I escaped on Life Raft. When the vessel rolled over the first and second mates, a watchman and wheelman, were close to a life raft which they cut loose and cast off just in time to escape the whirlpool caused by the Cyprus as she plunged beneath the surface of the water. The boat sank about 7 o'clock in the evening, and until 2 a.m. the four men clung to their frail support, while the waves drove them toward shore.

Battling the Surf. Five times in the angry surf off the rocky shore their raft was upset, the men each time having to fight the tidal waves for their lives. Each fight weakened the benches and the caps of the sailors, and after the fifth battle with the surf only one of the quartet remained upon the raft. The next time the raft was caught, but the next morning the raft was thrown upon the beach. Mate Pitt had just strength enough to crawl out from beneath the waves before he fell exhausted, while the waves later found by the patrol of the life saving station.

Other Similar Disasters. Nineteen bodies in all have been recovered. There seem to be no other doubts that the sinking of the Cyprus was due directly to the failure of the captain to cover the hatches with the caps. The tarpaulins designed for that purpose.

Was a New Steamer. Bound down for the use of the lakes, on the second trip she had made since being launched at Lorain, Ohio, on Aug. 17 last, the fine steel freighter Cyprus, 440 feet long, and owned by the Lackawanna-Transportation Co. of Cleveland, foundered Friday night in Lake Superior, off Deer Park, taking down with her 22 members of the crew.

Second Mate C. J. Pitt, who was lashed to a raft, is the only person left alive of the ship's people. Pitt is suffering from the dreadful experience in the icy waters of Lake Superior, in addition to the buffeting he received from the breakers.

Reliable information from Canadian sources gives the information that the little steel steamer John B. Ketchum, ran on Copper Island in the Niagara Bay region of the north shore of Lake Superior, Thursday night. Her forward compartment is full of water and she must be lightened. The Ketchum is loaded with pulpwood for Detroit.

Baseball Cubs 2 Tigers 0 :: Marathon Longboat Wins Again :: Rugby Argos Winners Under Own Colors

NOTE AND COMMENT

The announcement was made Saturday that the Argonauts had resigned from the Canadian Amateur Athletic Union and their football men disqualified a week ago played against Ottawa at Varsity under the regulation oarsmen's colors.

All hail to the new baseball champions of the world! Chicago beat Detroit without defeat, the according to figures the vanquished were not severely outplayed. According to runs, hits and errors the Cubs' margin would hardly warrant a clean record.

The series must go to emphasize the honesty of professional players. The Cubs wanted the championship and took the shortest route regardless of receipts. Glory and not gold is their motto.

MARATHON SUCCESS. The second Ward Marathon was a success beyond the most sanguine expectation. Of the 113 entered 93 started and 65 finished.

LONGBOAT NO JUMPER. Alfred Shrubbs was an interested spectator at the finish of the Marathon. When Longboat's time was given out as 1:41.52 and the world's record for 20 miles was given on the program as 1:34.42 the Englishman seemed confused, but still willing to run if the aboriginal amateur would jump.

OLYMPIC LACROSSE. F. O. B. Hawes, honorary secretary of the English Amateur Lacrosse Union left last night for New York. He will visit the Crescents of Brooklyn to-day, which team he will invite to the Olympic games to compete for the amateur lacrosse championship of the world.

Runners Around the Board After the Race—Words by Hughes and Ward.

At the conclusion of the race a banquet was given by Mr. Ward and the officials to the winners in the various events. Inspector Hughes acted as chairman. To his right sat Mr. Ward, and on his left was Tom Longboat, wearing a happy smile.

Mr. Ward made a very fitting speech, and stated that he was proud to have won the title of champion of the world. He said that he was glad to have the honor, and that he would try to improve himself in the future.

CHICAGO CUBS CHAMPIONS BEATEN

Detroit Tigers Lose Final Game by 2 to 0—How the Money is Divided.

DETROIT, Oct. 13.—The Chicago National League baseball team this afternoon at Bennett Park won the world's championship, defeating the Detroit American League team by the score of 2 to 0. It was the fourth successive victory for the Chicago in as many days. Taking advantage of every slip made by the local players, and running the bases cleverly, they scored two runs in the first two innings, while the Detroit team did not succeed in getting a man over the home plate. The roster who had followed the Chicago team from their home city swarmed down to the diamond when the ninth inning closed and showed them with congratulations. The several hundred fans formed in line and marched down Michigan-avenue, headed by a band, cheering and singing in celebration of their victory.

Declared before me at the City of Toronto, in the County of York, this 1st day of October, A. D. 1907. (Sgd) JAMES BAIRD, A Commissioner, etc.

THE NEW YORK AND THE ONTARIO RAILWAY COMMISSIONS

The State of New York is a model to the Province of Ontario in the matter of an efficient railway commission dealing with street railways, local steam railways, local tractions on public highways, gas companies, light and power companies, etc.

Two great commissions were created last winter at Albany, one for New York, the other for the rest of the state, and both commissions are busy at the work of regulating all the companies aforesaid.

Already the New York commission has started in to investigate the surface, subway and elevated lines in that city. They have already discovered enormous over-loadings of capital; they have ordered, and already the order has been obeyed, a large increase in the number of cars.

Their powers supersede contracts between municipalities and franchise-holding companies, and such pretensions as those set up by the Toronto Railway, that they are masters as to extensions, as to stops, as to increase of cars, etc., would not hold in New York for a day.

Why isn't the Ontario Railway and Municipal Board doing similar work in Canada? Perhaps it is asleep, or gone on a journey. When does its office open, and when does it close? Has its members yet read the New York act? Have they any improvements to suggest to the Ontario act based on the New York act?

NEW YORK TRACTION DEALS.

Some very extraordinary deals have been unearthed during the course of the investigation into the secret history of the New York street railways. They afford vivid illustrations of the manner in which unscrupulous financiers acquire control of connected or inter-related companies and cofitrac among themselves for their personal profit. Incidentally, too, they show the extraordinary credulity and confidence of the people on whom enormous masses of watered stock were unloaded and who seem to have taken for granted that the proposals made to them were dictated by consideration for their interests.

Among the transactions dragged into the light of day was the purchase of an "old broken-down, bankrupt horse-car line for \$25,000," which was on the same day unloaded on the Metropolitan for stocks and bonds of the market value of \$5,500,000. Other transactions of a precisely similar kind followed, the net result being that horse-car lines and other outgrown systems, costing a little over \$2,000,000, were transferred to the Metropolitan at a valuation of upwards of \$40,000,000.

Just as remarkable was the admission made on Tuesday last by Anthony N. Brady, the chief "insider" of the Brooklyn Rapid Transit. He testified that in 1902 he had offered the title to an un-built cross-town line to the Metro-

politan Securities Company—the holding company of the Metropolitan Railway—that he had closed the sale for \$250,000; that this securities company had paid him \$965,000, and directed him to divide the excess between the five "insiders" of the Metropolitan and their broker, and that he had paid to these people his personal cheques for the amounts prescribed. An explanation has been offered on behalf of two of the recipients, that their cheques were in settlement of \$100,000 loaned to the late William C. Whitney, but the curious fact remains that Mr. Whitney himself received a cheque for the same amount, \$111,652.78. The conclusion reached in banking circles in New York is no doubt correct—that clear evidence of tampering with the company's funds has been unearthed.

These "insiders" were directors of the Metropolitan, bound to do their best for the shareholders they were presumed to represent. Not only so, but they were also trustees for the public, charged with the duty of operating a public utility. Yet they not only abused their position for personal aggrandizement, but carried the expenditure of \$965,000 for an absolutely worthless franchise as an asset. Little wonder that the New York Commercial, a strong advocate of private operation of public services, and opposed to President Roosevelt's "unsettling policies," declares that "the financial world has been given a shock not only in the fact that such a fraud has been perpetrated, but also that men of the prominence of those involved in the Brady testimony, should have had a hand in it."

ANOTHER MEETING AT HALIFAX

Mr. Fielding is to have a great welcome at Halifax, and it is expected that Sir Wilfrid Laurier, Hon. A. B. Aylesworth and Hon. Geo. P. Graham will grace the occasion. This should naturally be a non-partisan affair, but the Halifax Chronicle, long associated with Mr. Fielding, has served notice that it is to be a Liberal demonstration. Indeed, The Halifax Herald (Con.), having ventured upon a word of friendly commendation, was buntily told to attend to its own business and, if it wished to demonstrate in Mr. Fielding's honor, to get up a demonstration of its own.

In these days of political quickening, some curiosity may exist as to what deliverance, if any, may be expected from these leaders of Liberalism. So far there has been nothing to indicate that the government has any program mapped out for the coming session or anything approaching a platform for the next election. Mr. Aylesworth has made some sweeping charges, and Mr. Pugsley has been more specific, in regard to alleged electoral corruption on the part of the opposition in 1904. Will anything further be vouchsafed at the Halifax meeting, from which, by the way, it appears that the new minister of public works will be strangely absent. And why is Sir Frederick Borden not announced as among those expected to be present?

Will the leaders of the government make any professions of belief in public ownership? They would sound a little strange, if reading The Toronto Globe, he might easily be convinced that he had always favored it. As to Sir Wilfrid Laurier, will he give nothing new to the people expectant? Has his government no plans for the future, beyond standing pat? Apparently he has no cards in his hand. Are there any under the table?

PULPWOOD EXPORT DUTIES.

As the existence of a protective tariff in the Dominion has unquestionably compelled many United States manufacturers to erect branch establishments in this country it is a reasonable proposition that similar results would follow the imposition of an export duty on pulpwood. At the present moment the United States paper companies are consuming 4,000,000 cords of pulpwood yearly, about one-fifth being drawn from Canada free of import duty. This is of course due to the care taken to support the home industries and so enable them to compete on the most favorable terms in the paper markets of the world. While little United States paper enters Canada, considerable quantities are exported to Britain, South Africa and Australia.

The Northern States that are conveniently situated depend largely on Canadian sprucewood and any restriction on its export or increase in its cost would certainly entail a reconsideration by the manufacturers of foreign trade. Under the present value of a cord of pulpwood at 3 cents a pound to 15 per cent. ad valorem on paper valued at over 5 cents a pound. But the tariff also provides for heavy additional duty in the case of paper coming from a country that imposes export duties on pulpwood. It is doubtful, therefore, whether United States paper companies could supply any part of their home demand from Canada, but it would be even better were the needs of other world markets met by factories established in Canada.

Alleged Forger Taken Home. Walter Northrop, charged with forgery at Grimsby, was taken to St. Catharines yesterday by Constable Swazie of Grimsby.

Political Intelligence

Another chapter has been added to the mysterious Russell-Blair-Graham-La Presse affair of the federal election of 1904. At least, a certain article published in double column in The Montreal Star so appears to The World to be of that nature. It even looks as if it is an apology issued before certain revelations are made public in regard to the raising of a large fund in Montreal and elsewhere just prior to that election in 1904, which fund was used to aid the Conservative cause. At all events, The World last week published in full from The Dartmouth (N.S.) Patriot a statement in regard to this Blair-Russell business that calls for the fullest investigation and explanation. So far no investigation, no direct explanation, has been forthcoming. Sir Wilfrid Laurier, Mr. R. L. Borden, must have it cleared up. The Liberal and the Conservative parties must have it cleared up. The people demand an explanation, and it must be forthcoming. We regard The Montreal Star's article, which we reprint in full, as an apology for what took place. But it does not give an explanation: it is a roundabout justification of something that is not yet known to the public. Here is the article which appeared as a double-column type leader in the issue of The Montreal Star of Oct. 10:

MEN OF WEALTH AND CAMPAIGN FUNDS.

Where does the money come from? That is the question which is always asked in connection with a party campaign fund. It is granted on all sides to-day that parties must have campaign funds. The legitimate costs of even a local election are too heavy a drain for most single purses to bear. Then we should not confute our choice of candidates to men who are rich enough to pay the expenses of a modern campaign in a modern constituency. If we did, we should exclude from public life many of the most unselfish, the most patriotic, and the most capable of our public men.

From this it follows that the parties must each have a campaign fund to finance the contests of candidates who cannot bear the heavy legitimate costs themselves. Moreover, there are certain expenses in a general election which are national and not local at all, and which should be met from a central fund. Much general literature is prepared and distributed in this way, and speakers of national reputation are now handled much as the lecture bureaus of other days managed the circuits of their "stars."

Thus campaign funds are inevitable; but it is vitally important whence they come. A political party which is striving for power has something to offer a certain class of men which they eagerly accept as a "quid pro quo" for large cash subscriptions to the funds of that party. If the party in question should reach power, it can award contracts, it can grant concessions, it can give railway charters, it can distribute tariff favors. The consequence is that many men are willing to "gamble in futures" by paying down cash subscriptions to the campaign funds of such parties on the promise or with the hope of getting fat contracts or valuable concessions from them when they reach office.

Such a bargain—even when it is only a tacit bargain—is colossally corrupt and a most sinister menace to the public weal. Men who buy political futures in this way are good bargainers. They are astute judges of the value of public concessions. They are very certain to get their "money's worth" many times over. And they pay the price—not to the country from which they are to get the value—but to the politicians who are to betray the country.

Yet if ambitious politicians will not traffic with these corrupt schemers, where are they to get campaign funds? They cannot subscribe them out of their own pockets; for, if they have been honest public men, their pockets would never stand the strain. They must get their funds from other people; and here stand the candidate-contractors, the concession-hunters, the seekers after tariff favors, eager to furnish the needed money and to take their chances on being paid. Bring together a weak politician—a politician whose ambition is stronger than his principles—or a corrupt politician, and a group of men with full purses in their hands and greed in their eyes; and what can we hope for save an understanding by which public concessions of incalculable value will be traded off by the recreant guardians of the same for convenient contributions to the campaign funds which helped them to reach office?

It is not necessary that these campaign funds—so dishonestly obtained—shall be corruptly used; but it is very likely that men who will sell their country will not hesitate to buy their fellow-countrymen.

What, then, is the remedy for this state of affairs? How shall we protect public men of stalwart honesty and sensitive honor from the necessity of trafficking with these leeches on the body politic, on pain of going down to certain defeat at the polls? There is but one way. And that is for the citizens themselves to subscribe the necessary and legitimate campaign funds. No other pure source for them lies in sight. They must either come from the hand of the briber or from the hands of the citizens.

We ought, therefore, in this new country to create a sentiment in favor of public subscriptions for the campaign funds of the two great parties. It is a legitimate subscription; and it should rest as a duty upon every man who feels a strong conviction that one or other of the parties should be entrusted with the government of the nation. If he does not go down into his pocket and finance the men who are standing for the principles of government and the national policies in which he believes, he exposes them to the temptation of selling their souls to men without principle, but with a vigorous interest in some promising contract or seductive government favor.

Of course, this duty does not lie on all citizens with an equal weight. Some men have given a stewardship over more money than others—a stewardship which compels them to take an especial interest in the good government of the nation wherein their stake lies. Upon men of wealth this duty presses very heavily; for the prosperity of the country has enabled them to accumulate their wealth, and they can do no less than pay back to the nation some share of this accumulation in such a form as they conceive most likely to augment and continue that prosperity.

If the day ever comes when the men of independent means in Canada fully realize that their wealth imposes upon them this duty, on patriotic grounds, of taking an interest in the affairs of the country, that day will see the emancipation of the parties from a mischievous dependence upon contractors, promoters, charter mongers, land grabbers, and other similar parasitic classes who for many years have been growing rich at the expense of the nation. The cost of this bargain-and-sale method of raising party campaign funds has surely been large enough already to give the people of Canada pause. One has only to look at the land scandals of the west. Does anyone imagine that millions of dollars' worth of coal lands would have been given to speculators for a song if the men of wealth in the country had led up a tide of popular subscriptions which would have made it unnecessary for the parties to accept election contributions in return for concessions? And it is not coal lands only that we have lost. Agricultural lands to untold value are controlled by a few private individuals; and is it conceivable that there has been nothing in this for the party campaign funds? On all hands, government contracts have been let, and government contractors have subscribed to the party chest. How many people believe that the contractors have not been recouped?

Such an undertaking as the Quebec Bridge, in which the various governments have been so deeply concerned financially, suggests sources of campaign funds. The shocking McCreedy scandals were largely born of the need for campaign funds. Vast railway enterprises are not regarded by our people as purely business proposals, so accustomed have we become to thinking of these monster projects, undertaken by a partnership of financier and politician, as methods of filling the party war chest.

Sir Wilfrid Laurier had the courage to say in 1896 that the bane of politics and the gravest menace to the welfare of the state was the influence wielded by government contractors. His sincerity was beyond question; and such testimony must be absolutely convincing. Mr. R. L. Borden served notice during the last campaign upon all and sundry that he would not trade promises for contributions. These men are in a position to know what a vast influence for evil the conditional campaign contribution is; and they are patriotic enough to attempt to keep their hands free from the degrading shackles it imposes.

But where are they to turn? They must have money to finance their elections or let the contest go by default. The best policy or the most patriotic proposal could not win in these times without "the sinews of war." Obviously if the high-minded and public-spirited leaders of our parties are not to be brought to their knees before the sordid traders in public charters and national franchises, they must be supported in a financial sense by the honest men—the men who are seeking no favors from any government—who believe in their cause. This is the most crying need which clamors to-day for the attention of men of wealth. Every citizen should give what he can; but—as in Great Britain—the bulk of the funds must come from the men who have much to give. Charity suggests that a rich man endow hospitals or distribute alms. Social reform begs him to found libraries or to finance rescue work. Patriotism—and what is nobler than patriotism?—commands that he rescue the public men who represent the national principles in which he believes from the cramping and corrupting necessity of depending upon selfish sources for their legitimate campaign funds. There are in this country many men of wealth who ask nothing of governments. Yet they are men with deep-seated convictions—men who believe that it makes a serious difference which party wins in many an election. They are interested in good government just as and because they are interested in the progress and expansion of the country. Some of these men now recognize their duty and do come to the assistance of the leaders of the party with whose objects they sympathize. More of them, however, should do so with a generosity that would put their party leaders in such a position that they not only need not have recourse to the all-too-willing favor-seeking fraternity, but will be strong enough to resist their advances and refuse their aid.

GALT CURLERS ORGANIZE.

Two Clubs Elect Officers for Coming Year.

GALT, Oct. 12.—(Special).—The Galt curlers' two clubs have reorganized, with the following officers: Patron, C. J. Shurly; president, H. R. O'Reilly; president, Dr. Wardlaw; vice-president, F. D. Palmer; representative members, A. R. Goidle, G. A. Graham; chaplain, Rev. R. E. Knowles; secretary, C. Blake; treasurer, W. A. Dennis; committee of management, G. T. Hamilton, W. A. McDougal, J. H. Hancock, Dr. McKendrick, A. M. Edwards; rink manager, Dr. Dakin; auditors, F. S. Jarvis, C. A. E. Dowler.

Mr. A. E. Morrow was added to the list of skips. Dr. McKendrick, Dr. Wardlaw and Mr. Dowler renewed their offers to donate prizes for competition.

It was moved by William Phillips, seconded by R. E. Knowles, that whereas, in the dispensation of an all-wise Providence, one of the members of the club, Mr. James E. Warwick, while yet in the prime of life, has been called from amongst us, his noble character, his upright character, his genial and kind nature, all of which contributed to his high standing popularity, we respectfully desire to assure the bereaved survivors of our sincere sympathy with them in their loss. The motion carried by standing vote.

Granite Club officers: President, G. E. Stuart; vice-president, Dr. Campbell; secretary, W. J. Oliver; W. W. Wilkinson; secretary-treasurer, T. B. McLellan; management committee, T. A. Rutherford, W. W. Wilkinson, Dr. Dakin, J. G. Turnbull, Dr. Dan Buchanan; rink manager, J. G. Turnbull.

The former slips were all re-elected. Skips, C. E. Knowles and T. E. McLellan, and District Cup skips, R. M. Robertson and A. S. Taylor. It is proposed to play the District Cup series in Galt, with C. Turnbull as umpire. The tankard preliminaries will be played in the Woodstock or Ingersoll, probably in the latter.

SAYS KINGSTON HEBREW SECURED \$2000 BY FRAUD

Moses Ellenson Alleged to Have Got Advances From Partner by Misrepresentations.

Charged with obtaining by fraud \$2000 from Jules Olshinsky, junk dealer of No. 18 Christopher-street, Moses Ellenson, junk dealer, living in Kingston, was arrested in that city and will be brought by Detective Twigg to Toronto to-day, where the alleged misrepresentations took place.

Ellenson, who, along with some of his associates, was taken to Kingston, where he had made such headway that it was impossible.

The fire originated in one of the furnaces and on the alarm being given Mr. Ellenson, who, along with some of his employees, was in another part of the building, rushed down in the basement and was only rescued by a door being broken open.

The building contained a large quantity of supplies, some in process of drying, some already dried and some already packed for shipment.

On June 28, 1906, Ellenson was authorized by Olshinsky to enter into contracts for the purchase of iron, brass, copper, etc., in his own name, but on behalf of Olshinsky.

On Nov. 28 of last year, Ellenson put thru a draft on Olshinsky for \$325 for the purchase of 60 tons of wrought iron from a Mr. Florence in Peterboro.

On Dec. 9 Ellenson came to Toronto, called on his partner and told him that the cheque for the deposit was cashed by Ellenson.

Olshinsky further alleges that there was an account book kept between the two showing these particulars, but Ellenson secured possession of the book and tore out the pages relating to these dealings.

Daily Wins Championship. NEW YORK, Oct. 12.—The annual championship ten-mile run of the Amateur Athletic Union at the Polo Grounds yesterday was won by John J. Daly of the Irish-American Athletic Club of this city.

The race was a very close contest, with a lead of only 145 yards between the winner and the runner-up, Thomas Collier of the Philadelphia Athletic Club.

Galagher of the Shanahan Athletic Club, Philadelphia, and W. B. Ball of the New York Athletic Club, fourth, daily in comparative ease, fashion, a very high time of 23:45.

Ball, who had been leading for the last few yards ahead of Collier's, but the track conditions were such that he was not out, and the ground was soft, making fast time impossible. There were 15 starters.

FOXBORO, Oct. 12.—On Saturday about 9:30 p.m. an evaporator, owned by J. A. Holman, was discovered to be on fire.

The fire originated in one of the furnaces and on the alarm being given Mr. Ellenson, who, along with some of his employees, was in another part of the building, rushed down in the basement and was only rescued by a door being broken open.

The building contained a large quantity of supplies, some in process of drying, some already dried and some already packed for shipment.

On June 28, 1906, Ellenson was authorized by Olshinsky to enter into contracts for the purchase of iron, brass, copper, etc., in his own name, but on behalf of Olshinsky.

On Nov. 28 of last year, Ellenson put thru a draft on Olshinsky for \$325 for the purchase of 60 tons of wrought iron from a Mr. Florence in Peterboro.

On Dec. 9 Ellenson came to Toronto, called on his partner and told him that the cheque for the deposit was cashed by Ellenson.

Olshinsky further alleges that there was an account book kept between the two showing these particulars, but Ellenson secured possession of the book and tore out the pages relating to these dealings.

Daily Wins Championship. NEW YORK, Oct. 12.—The annual championship ten-mile run of the Amateur Athletic Union at the Polo Grounds yesterday was won by John J. Daly of the Irish-American Athletic Club of this city.

The race was a very close contest, with a lead of only 145 yards between the winner and the runner-up, Thomas Collier of the Philadelphia Athletic Club.

Galagher of the Shanahan Athletic Club, Philadelphia, and W. B. Ball of the New York Athletic Club, fourth, daily in comparative ease, fashion, a very high time of 23:45.

Ball, who had been leading for the last few yards ahead of Collier's, but the track conditions were such that he was not out, and the ground was soft, making fast time impossible. There were 15 starters.

Toronto the Only Place  
For Big M. and M. Plant

Mr. Mann Explains Reasons Which  
Led Company to Choose—Im-  
mense Industries to Employ  
Thousands of Men.

"We have a great, big iron mine with  
hundreds of millions of tons of ore of  
splendid quality in sight, situated about  
30 miles west of Toronto," said D. D.  
Mann to The World at his residence on  
Kingston-road on Saturday evening.  
"and these mines are owned by very  
wealthy and influential American min-  
ing men."

John W. Gates of New York is the  
president of the company, which is  
known as the Moose Mountain Mining  
Company, and he and his American asso-  
ciates had decided, said Mr. Mann,  
that Toronto furnishes the very best  
possible location for the large smelting  
works which they contemplate estab-  
lishing in this province in connection  
with these mines.

"They had reached this decision for  
the following reasons: Because it is a  
great distributing point, being already  
a great railway centre. Because it pos-  
sesses a good harbor and excellent  
means for transportation by boat, in ad-  
dition to its facilities by rail. Because  
it is very convenient for the supply  
of coke from Pennsylvania, while it  
is also conveniently placed for the re-  
supply of ore from different places in  
Canada, such as Porcupine, Moose  
Mountain, of course, which is located  
at the end of our railway, and the iron  
pipes in the Kingston & Pembroke  
Railway district."

"What is asked from the city, Mr.  
Mann explained, was the grant of about  
half the area of Ashbridge's Bay for  
the erection of the smelting works, and  
they wanted the other half to be re-  
served for allied industries. And event-  
ually for all their purposes about 1000  
acres would be needed for the entire  
plant, and these allied industries would  
take up the manufacture of steel billets,  
steel bars, angle iron, rolled billets for  
ship-building, and steel of all kinds, and  
of all kinds of machinery, and of in-  
dustries, while the making of steel rails is  
definitely in view.

"Smelter First.  
The intention of this company was  
to make a beginning in smelting and to  
put up a thoroughly-equipped, modern  
plant for the smelting and the making  
of pig iron, and to add to it gradually  
so that in the end a very large iron  
and steel industry would be established.  
In reference to the making of pig iron,  
invested in these works," continued  
Mr. Mann, "I can only at present say  
that the estimates under this head  
amount to about \$1,000,000, and that means  
700 tons of pig iron per day and the  
same quantity of slag, which will be  
used to fill in the bay gradually. We  
have at Moose Mountain an unlimited  
amount of raw material of the best qual-  
ity for our purposes, and my propo-  
sition is made on behalf of the sharehold-  
ers of Moose Mountain, Limited. We  
have about one-third of the iron ore,  
and they are all Americans. Besides  
John W. Gates, the president, I might  
mention his son, Charles, the Blair  
Banking Company of New York, John  
Mitchell, general manager of the Illi-  
nois Trust & Savings Co., Col. Lambert  
of Chicago and Capt. Selwood of Du-  
luth."

"The capital of the Moose Mountain  
Company is \$2,500,000 paid up, and al-  
though at this stage give the exact  
amount we will begin operations with  
at least \$3,000,000.  
Allied Industries.  
In reference to the amount that will  
be invested in the allied industries, I  
cannot now go into figures, which must  
be given by experts, but the sum will  
be very considerable. And while we  
have our own ore as a sure source of  
supply, it will be very advantageous to  
us to be able to obtain the best qual-  
ity of iron ore from the Georgan-  
ian or Porcupine, as well as the ore  
found in Hastings County."  
"For my own part, I was in favor of  
establishing our works on the Geor-  
gian Bay, but my associates, who are ex-  
perienced men, say that this is the best  
place, as eventually 15,000 men will be  
employed, and that while on the Geor-  
gian Bay we would be obliged to build  
houses and run the risk of the men not

### CANNIBALS ON JAMES BAY WEIRD STORY OF EDITOR

Many of Natives in Desperation  
Kill and Eat Their Own  
Relatives.

WINNIPEG, Oct. 13.—J. A. Osborne,  
editor of The Fort Frances Times, who  
has just completed a trip of exploration  
in Northeastern Canada, brings  
back tales of wholesale murder, cannibal-  
ism, terrible privation, and deadly  
feuds among the natives along the  
shores of James Bay and Labrador.

A young man who flew in terror to  
Moose Falls while Mr. Osborne was  
there, said that he feared his uncle,  
who had killed and eaten eight human  
beings. A woman also, who was at  
the settlement, had, in desperate  
straits of famine, killed and eaten her  
two children.

As these occurrences did not seem  
to have caused any great stir in that  
region, Mr. Osborne, who has made the  
conclusion that cannibalism is practised  
openly on many occasions among the  
Indians and half-breeds.  
The great snowfall of last winter,  
combined with intense cold and the  
scarcity of small game, produced the  
famine conditions which caused the  
suffering, and in one case practically  
wiped out a Cree village, on Main  
River.

Having no provisions stored up, and  
with streams frozen solid, the Indians  
starved to death, with the exception  
of a party of young men and women,  
who decided to try to make Hudson  
Bay Fort, 150 miles down the stream.  
After a journey marked by untold  
privations they reached the fort more  
dead than alive.  
A relief expedition sent back to the  
village found nothing except thirteen  
bodies in the rude huts.  
Mr. Osborne says the Indian and  
Eskimo population of the region is di-  
minishing rapidly, due partly to emi-  
gration to the coast of Labrador and  
partly to the prevalence of disease and  
frequent scarcity of food. He says  
many of the natives are falling prey  
to tuberculosis.

ONE LIFE LOST IN WRECK  
ON G.T.R. NEAR FORT ERIE  
Samuel Hodgkin Killed Beneath  
Derailed Car.

FORT ERIE, Oct. 12.—A wreck oc-  
curred on the G. T. R. at the station  
known as Amigan. The wreck occurred  
at the crossing known as Diamond  
at 10.30 a.m. A freight car was derail-  
ed and ditched.  
Sam Hodgkin, an employe of the  
road, who was killed beneath the car,  
was wrecked crew was killed on the  
scene, the body of Hodgkin was re-  
moved from beneath the wreck and  
viewed by Dr. Douglas, who pronounced  
that Hodgkin was killed almost in-  
stantly.  
Coroner Brewster was notified and  
viewed the body to-day. Hodgkin was  
about 19 years of age and unmar-  
ried, a resident of Stevensville.

EAST FREIGHT DITCHED  
ON CANADIAN PACIFIC  
Seventeen Cars and Engine Almost  
Total Loss.

OWEN SOUND, Oct. 12.—A fast  
freight on the C. P. R. was derail-  
ed near Chataworth about 5 o'clock this  
morning. The engine and 17 cars are  
in the ditch and almost a total loss.  
No one was injured. The train was  
loaded with general merchandise for  
the west. The cause of the accident is  
not definitely known at present. All  
traffic is being delayed until the wreck  
is cleared.

REAR-END COLLISION  
ON GRAND TRUNK RAILWAY  
Second Wreck Within 24-Hours on  
Bellefleur Section.

BELLEFLEUR, Oct. 12.—A rear end  
collision between two freights occur-  
red early this morning at Shannon-  
ville, nine miles from here. A freight  
was standing at the section and an-  
other, west-bound, pitched into it.  
The engine of the rear train and four  
cars of the other were derailed and  
partly smashed. The heavy Mogee en-  
gine is now lying right across both  
tracks. The damage will be heavy. A  
fire broke out in the caboose, but was  
soon extinguished.  
The engineer and fireman of the way  
freight jumped just in time to save  
their lives.

POPE NOT A MEMBER.  
Will Take No Part in Peace Confer-  
ence Unless Asked.

THE HAGUE, Oct. 12.—Mr. Gio-  
vannini, the papal intercurse, to-  
day said that the fear expressed  
by members of the special commission,  
which is drafting the final act of the  
peace conference, that if it was left  
open the Pope might adhere to it,  
and that he would furnish an abun-  
dant supply of slag for cement  
sidewalks, which is now got from Ham-  
ilton. He favors a lease in preference  
to the purchase of the site.  
Mr. Mann's offer will probably be con-  
sidered by the board of control to-day.

### IMMIGRANTS DESTITUTE CARED FOR AT LEAGUE

Five Hundred Newcomers Reach  
Toronto, Many With  
Little Cash.

Many cases of hardship and depriva-  
tion were reported on the arrival of  
about 500 immigrants in Toronto on  
Saturday, two-thirds of whom are  
staying in the city, the others going to  
points west. A large number are mar-  
ried women with children, who have  
come to join their husbands. They  
came by the S.S. Empress of Britain,  
Canada and Corsica.  
In addition there were large num-  
bers of Italians and Jews, the majority  
of whom were booked thru to the  
States.  
The Welcome League took care of  
four families—twenty-five children, all  
under 12 years of age.  
They appear a very respectable class  
of people, but poor; indeed, there were  
a number of sad cases of families with-  
out means, who were stranded at the  
Union Station.  
The World interviewed several of  
the waiting-rooms on the plat-  
form on Saturday night. The first case  
was that of a woman with six children,  
from Liverpool, booked thru to Welland,  
who had only 12 cents in her pocket.  
Their choice was to go to Meritron  
and walk from there to Welland, or  
to remain at the station until this  
morning.  
The second case was even worse. The  
deport-master was touched at the plight  
of this family, a woman and five chil-  
dren, who had only 12 cents in their  
pocket. They had no money and no  
food, and only the eldest child, a bright  
girl of 12, could speak English.  
Another woman, with five sons, who  
had come out from Guernsey, had only  
could not get thru until this morning.  
They had only 12 cents.  
The whole lot were taken round to  
the League, where they were made com-  
fortable, and given a good meal. The  
lateness of the hour made it difficult  
to provide provisions for all, as in ad-  
dition to the 12 men, wife and eight chil-  
dren, the eldest only 14. These were also  
going to Welland, and had only 12 cents  
to keep themselves until to-day. There  
were also a number of other new arrivals  
who found their way to that haven of  
rest.

At the British Welcome League they  
have a way of getting over difficulties,  
and this family of nearly fifty souls all  
longed to get to their homes. They  
to the aid of Mr. Winnett of the Queen's

**ANOTHER EVIDENCE OF SAFETY**

**MORTGAGE LOANS**

It is well known that the safest way to invest money is in mortgages on improved real estate. The Canada Permanent Mortgage Corporation is the only company in Canada which has been established for the purpose of making such loans. Its business is conducted on the most conservative and safe basis. It has a large amount of money invested in mortgages on improved real estate in all parts of the Dominion. Its record is unimpaired and its assets are valued at over \$10,000,000. It is a company which has the confidence of the public and the approval of the Government.

## MEANING FOR A PANIC

### Drastic Liquidation Continued on Wall Street—Confidence Lost in Local Specialties.

World Office, Saturday Evening, Oct. 12.

There is now no longer any necessity for research in assigning a reason for the interminable downfall in Wall Street. Facts are daily coming to light which have long been known to the big holders of stocks and who from purely precautionary measures as they would claim have sold blocks of their shares in advance of the information leaking out. When Amalgamated Copper first started its headlong career at 118, no one save those on the inside of the concern knew that the metal was unsaleable except at a drastic cut in price. It is only the last few days that Judge Gary has stated that the steel trust business has dropped 25 per cent, and during the interim the preferred stock of the trust has fallen off 15 per cent.

An ordinary individual trading in securities under these conditions is at a big disadvantage, so much so that unless he is a mind-reader his chances of going with the market procession are decidedly slim. Impeding cuts in dividends, it may be relied upon, are well known long before they transpire, and either the directors or their friends, the financial agents, duly see to the distribution of all surplus holdings, before speculators and those who imagine themselves investors have been seized of the change in the supposed value of their holdings. The syndicates can only come in the shape of a spontaneous calamity.

The trend of prices during the week has continued everlastingly downward. There has been no attempt at a rally even the supposed operators evidently being too cautious to incite liquidation before they have arranged to receive it. A heavy dividend announcement in Great Northern was used as a temporary stimulant, but it only lasted until the market was saturated with offerings which caused the speculators to put out in any other way. The disastrous break in General Electric depicts plainly that old-time investors have become scared. This and the liquidation in issues like Louisville and Nashville and some other of the better rated stocks caused a highly nervous tension late in the week. The dissipation of the supposed values of most of the bonus railroad stocks and the complete withdrawal of the dividend paying individuals served to give the market a whole-souled embryo debacle.

Events outside the market have scarcely kept pace with those within. Railroad earnings are not nearly as good as they were mainly because of the big increases in operating expenses. The money question has not forced itself as prominently forward, and it is certain that money tightness cannot be nearly as acute as it was. The October government statistics of the country are strengthening the impression that the times are not so gloomy as they were. The most recent current news is the gradual decline in commercial business, which admits of forebodings and forecasts of the early future.

Wall-street has been shaping for another so-called semi-panic event for several weeks. Speculations have been gradually scaled down until many accounts are held intact by a thin margin. When these are taken out of the market the commission bankers adopt the well known phrase that the "technical conditions of holdings are improved," as if the market were then will begin the program for a similar event later on. It is not impossible that owing to the smallness of outside holdings at present a little internecine war is on the inside and that the big holders are trying to sell on one another. To-day's bank statement was not so strong as the previous one, the loss in deposits more than counteracted the decrease in loans. A quick clean-up of powers was effected, the Wall-street proposition will be again safe to buy in for a turn. This is not improbable, as an introduction to next week's business.

The Toronto stock market is badly deranged and selling orders for many of the listed securities are difficult to execute. The situation is somewhat different to what it was in 1902-3, the breadth of outside speculative accounts created such liquidation much more difficult. The majority of holdings have not been acceptable and only those stocks which have broad interest could find buyers without undue concessions.

The principal selling of late has developed in the more newly listed securities in the hands of the speculators during the last three or four years, and of which the Mackays, Kios and Sao Paulo form the principal part. The confidence which was so strong in these shares a short time ago has now almost entirely vanished. The possibility of competition for the earnings of the Sao Paulo Company are eating into the confidence of those people, who thought that these dividends on these stocks were beyond reproach. The antipathy which has developed against bonus stocks in the

going on since the beginning of the week. This morning's selling uncovered lost orders all around, which accelerated the downward movement. Among the specific reasons advanced for to-day's break might be mentioned a published report from San Francisco that orders have been given for a general curtailment of expenses on the Harriman lines and the discharge of some 20,000 employees. Altho this was subsequently denied it served to further unsettle confidence and caused many holders of stocks to throw over their shares regardless of the price obtainable. New low records were made in the majority of stocks, with the heaviest slumps of 3 to 4 points in Union Pacific, Southern Pacific, Reading, Delaware and Hudson, American Smelting and St. Louis & Southwestern preferred. Weakness was so general that specific reference to individual cases is not necessary. The market closed nervous and irregular, with some stocks showing recoveries of about a point, while others were near the bottom.

Marshall Spader & Co. to J. Beatty, at the close of the market.

The attitude of the larger financial institutions and caused many holders of stocks to sustain the market, does not appear to be taking any support, and on the contrary it would appear that the liquidation, perhaps necessary, is going on. How long this liquidation will last, the market in its downward trend is a problem of some difficulty to forecast, but there is no doubt that the liquidation, according to most views, which could extend beyond the conservative investment buying and the more liberal speculative logical to expect reduced dividends even to the end of the present year. Justly 6, 7 and 8 cent, one particular issue. Besides the retrenchment and management we may fully expect a reduction of returns to stockholders as a result of the liquidation of the market. This will of course, be more likely to occur in the copper metal shares and other industries which are not necessary among standard railway issues and other industries which are not of great earning. Emnis & Stoppard wired to J. L. Mitchell at the close of the market.

The market during the past week has recorded a general and substantial decline in the price of stocks. The liquidation has been largely responsible for this. The liquidation, however, is not a new phenomenon, but a continuation of a process which has been going on since the beginning of the year. The liquidation is not a new phenomenon, but a continuation of a process which has been going on since the beginning of the year. The liquidation is not a new phenomenon, but a continuation of a process which has been going on since the beginning of the year.

Special Cable Despatch to The Evening Post.

LONDON, Oct. 12.—The consensus of opinion over this week's movement of prices is that all European markets are experiencing the tail-end of a storm of which New York is the chief centre. Its result has been to depress the pessimism with which the general outlook for your securities, and even such matters as the outlook for the copper market, are regarded. Europe's own speculative markets are too feeble to escape sympathetic influence, and the London market, which has been held in check by the authorities, has been hard hit by a slump in diamond mine shares, both of which have been largely dealt it there. The result is that the market is probably not so serious as it is remembered to be. That this is only one part of the liquidation which has been in progress everywhere, and that it is not a new phenomenon, but a continuation of a process which has been going on since the beginning of the year.

# FOUR FUR FACTORIES

The business of making Fur Garments with us has grown beyond our greatest hopes. Four factories were working overtime last week to keep up with our orders, but this week finds us prepared to handle your order with despatch.

**FACTORY NO. 1** is devoted entirely to the making of Alaska Seal and Persian Lamb Jackets. It is here that the pelts are sorted, treated and cut into garments under the supervision of two Parlian overseers. Special fitters and designers are employed to look after the balance of the work.

**FACTORY NO. 2**—All descriptions of Ties, Scarfs, Ruffs, Muffs and small garments are manufactured here, and great care is essential by those in charge in matching the skins and completing the garments.

**FACTORY NO. 3**—For the making of Men's All-Fur and Fur Lined Overcoats. These coats are made by expert tailors—only men are employed in this factory, and the designing and cutting is under the direction of three experts.

**FACTORY NO. 4**—Here we make only Ladies' Fur-Lined Coats, and in this factory, as in others, great care is exercised in selecting and matching fur, also in the cutting and finishing of the cloth.

You will notice that all these factories have individual cutters who have been trained specially for the work. The showroom is a complete storeroom in itself. Here ladies may select the fur to be used, the linings and, in the case of fur-lined coats and capes, the cloth. Don't leave your order any later. Call today or write for a catalogue.

## BROKER'S BAIL HIGH

NEW YORK, Oct. 11.—Having been arrested on the grand larceny charge of having appropriated \$2750, Geo. H. Brouwer, 63 years old, said to be manager for the brokerage firm of James H. Olyphant & Co., was held to-day in \$30,000 bail for a hearing.

In the indictment, arrest and arraignment of the prisoner, the utmost secrecy was maintained.

The high bail, Judge Crane said, was required at the request of the district attorney.

### MARCELLO HALL OPENED.

Lieutenant-Governor Clark Officiates at Ceremony.

In the presence of a large gathering of friends of the institution Sir William Mortimer Clark on Saturday afternoon officially opened "Marcello Hall," the handsome new building recently erected in connection with the Alexandra Industrial Home.

His honor briefly reviewed the history of the institution and declared that the founding of institutions of a like nature had wrought incalculable good. He expressed hearty sympathy with the movement.

President Falconer conveyed kindly greetings and paid a glowing tribute to the self-sacrificing work of the directors and management generally. The influence of a true, manly and womanly life, as shown in these devoted friends, permeating the boys and girls of Alexandra and Mimico Industrial Homes, would go far toward cultivating the highest and best types of citizenship.

J. J. Kello, Dr. R. W. Bruce Smith, Inspector Archibald, Beverly Jones, Aid. Gough and Col. Denison spoke briefly.

"I have been for 30 years police magistrate of the City of Toronto," said the latter, "and I want to say right here that my purpose in coming here to-night is to bear tribute to the mighty influence which the Alexandra and Mimico industrial schools and the Children's Shelter have exercised. The work has been of the highest character, and in view of the cry in some quarters for a change in the general management, I want to bear testimony to the excellence of the work."

The cost is \$35,000. There are at present in the home altogether some 60 girls between the ages of 10 and 16, and the bright, happy faces of the children, coupled with the thrift and order everywhere apparent, reflects the greatest credit on the superintendent, Miss Parratt, and the other members of the staff.

Among the visitors were Dr. J. L. Harper, superintendent of Protestant school in Quebec; W. C. Wilkinson, secretary board of education; Dr. Sisley, and many others.

### PUBLIC OPINION AGAINST THE BAR

The lot of the retail seller of liquor is not a happy one. Public opinion is now against his business on one side, and the brewers grind him down on the other. He should welcome LOCAL OPTION as a means of exit from a trade that is injurious to himself and his fellow-men. York Township voters can help the thirteen unlucky men up to a higher and better life.

### ROCKEFELLER'S TRIBUTE TO HARPER

CHICAGO, Oct. 12.—John D. Rockefeller to-day gave the University of Chicago \$600,000 to erect the memorial library that the university will dedicate to William Rainey Harper, first president of the institution.
