Struggle in the I.O.F. to Secure Future Must End in Rate Increase

Report of the Supreme Chief Ranger, to Be Presented at Next Week's Meeting, Places Facts Squarely Before the Order.

REACTIONARIES ARE TRYING TO BALK NECESSARY REFORM

That man who desires to put a business on a sound plane is bound to be opposed by reactionaries.

It is not unnatural then that the plan to raise the rates of the I.O.F. is meeting with opposition. Members who have been long in the order naturally feel piqued when their assessments are increased. But the rates in the I.O.F. are dictated by a desire to be a businesslike and actuarial standard.

Individuals sometimes have to suffer slightly in their pockets in order that the good of the whole may be achieved. Thus someone's agency much of the internal economy of the I.O.F. has been washed in public through the press. So far as The World can see it is a fight within the order, between the Progressives and the Reactionaries.

In that fight The World is with the Progressives, for they are trying to accomplish what every reputable actuary for years has been saying should have been done—raise the rates.

Hence eliminating the picturesque figure of Harry Collins, Mystic Shrine, etc., the newspaper stories really turn on the kernel of the truth. Shall the rates be raised? If Harry, gentle he may be, thinks they should not be, then Harry must be relegated to the limbo of has-beens.

The World believes that the necessity is upon the I.O.F. to raise its rates, so then let the rates be raised.

Our acquaintance with Supreme Chief Ranger Stevenson is limited, but he is a man well-spoken of and described as one with exceptional ability and unimpaired integrity. On this question of rates he is sound from The World's standpoint, and from the standpoint of the insurance commission. This is good recommendation.

Recently there has come to our hands a copy of the report of the chief ranger, dated June 15, 1908, in which is given the reasons for the readjustment of the rates of insurance in the order. Here the whole story is told, and the public will find much excellent food for thought in the extracts from the report.

On page one and the following pages the report says: "Hardly had the mortal remains of Orontyatchka been laid to rest, when the report made by the royal commission appointed to investigate insurance companies and societies licensed by the federal insurance department of Canada challenged our attention, and when consideration had been given, and when commendations we found we were threatened with legislation which, if put into operation along the lines of the report of the commission, would prove most detrimental to our interests."

"The salient points of the recommendations deemed by the order may be summarized as follows: "(a) It was proposed to divide our society into two classes—one to be composed of the members already in the society, the other to be composed of members who should thereafter join."

"(b) The members of the two classes were to be kept distinct and separate, and no part of the funds of one class could be used for the purpose of the other, and no assistance could be rendered by one class to the other."

"(c) The readjustment recommended for the members already in the society was to transfer them to the new class upon re-assessment—the national fraternal congress table of rates—at attained age."

"The recommendations from the standpoint of members of fraternal societies were so drastic as to create the belief that no attempt would be made to give them legislative recognition. In this respect, however, fraternalists were disappointed, for at the present session of parliament a bill was introduced by the minister of finance which was understood to have the approval of the government and to be pressed as a government measure."

"We are again assured by the same prophets, who said that the government would not dare to bring in a bill to carry into effect the recommendations of the royal commission, that the government will not dare to press the bill they have introduced."

"Having no inside information upon

NOISELESS GUN A FACT

Inventor Maxim Demonstrates With His New Weapon in New York.

NEW YORK, June 12.—In absolute silence, save for the sharp, short click of the rifle hammer as it fell and the thud of the impact of the bullet on the target, Hiram Percy Maxim repeatedly discharged his new noiseless firearm.

Using a stack of old directories as a mark, Mr. Maxim demonstrated to Alfred Wagstaff, president, and the board of managers of the American Society for the Prevention of Cruelty to Animals, the possibilities of the new weapon.

His demonstration was in the offices of the society at Twenty-sixth-street and Madison-avenue, at the request of the members of the board of managers, who were seeking a slaughterhouse for the most likely course in case the project was carried out.

Mr. Maxim's silence comprises a series of aluminum cells fitted with interior equipment that automatically cuts off the powder gases from sudden escape after the bullet has passed from the rifle barrel.

Experiments are soon to be made by officers of the bureau of ordnance of the army with a silent rifle the inventor has made for military sharpshooters. This weapon is more complicated in theory than the slaughtering rifle since the degree of sound in warfare must be an absolute minimum.

The army officials have declared, however, that they will be satisfied with a sharp-shooter's gun that gives off a report one-third as loud as the present arm.

It was thru his study of the automobile and the problem of reducing the noise of the machinery that Mr. Maxim hit upon the principle of constructing a gun that could be fired without noise.

He believed he could apply a muffler to a gun just as he did to an automobile, and experiments proved his theory correct. There was some difficulty in attaching the necessary mechanism to a rifle barrel in a way that would not interfere with the proper handling of the piece. The solution of this difficulty came to the inventor while riding in a street car with a friend.

Mr. Maxim was born in Brooklyn 39 years ago. He was manager of a projectile company for several years after leaving college, but more recently has been interested in the automobile business.

THE CIRCUS PARADE.

Col. Grasset, chief of police, has approved the parade route for Cole Brothers' circus parade on Monday morning, and the procession will leave the grounds, Sunlight Park, on Broadway-avenue, at ten o'clock sharp. The following streets will be covered: Queen to Jarvis, Jarvis to Carlton, Carlton to Yonge, Yonge to College, College to Spadina, Spadina to King and King and Queen to the show grounds.

GATHERING THE DETAILS FOR NEW WELAND CANAL

Staff of Twenty-Five Men Have Been Busily Engaged for Several Months Past.

St. CATHARINES, June 12.—(Special.)—No less than twenty-five men are now employed on the permanent staff of the Welland Canal making extensive surveys of the entire district with a view to ascertaining the levels of all sections in anticipation of the projected new 25-foot channel.

The men are divided into four gangs, who are doing outside work, while a fifth is transcribing notes to plans which will show exactly what will be the most likely course in case the project is carried out.

This is being done so that when the government decides upon action all information will be on hand, and progress of construction work will not be unnecessarily delayed.

It is expected that the whole work will cost \$200,000 and will take almost two years' time. Men have now been at work some months.

HON. MR. BALLANTYNE ILL.

Ex-Speaker of the Legislature is Critically Ill at Stratford.

A Stratford despatch says: Hon. Thomas Ballantyne, ex-Speaker of the Ontario Legislative Assembly, the "grand old man" of Perth county, and widely known thru his connection with the cheese industry, is on his death-bed, and the end is only a question of a few hours.

His son, Adam of Toronto, Rev. Prof. Ballantyne of Knox College and Alexander of Brantford, have been summoned.

Mr. A. W. Ballantyne stated last evening that while the ex-Speaker has been critically ill for several days the physicians still give some hope for recovery. Hon. Mr. Ballantyne is in his 75th year.

Assembly Concludes.

WINNIPEG, June 12.—The Presbyterian general assembly has closed, after passing a grateful acknowledgment of the fearless stand for purity and righteousness of life taken by our missionaries on the frontier, and especially by Doctors Pringle and Grant in the Yukon.

Corraling Murder Suspects.

YANCOVER, B.C., June 12.—A despatch from Blaine, Wash., says: "Four additional arrests have been made in this county in connection with the Morrison murder case, all the suspects answering in a general way the description of the murderer."

OUR CATTLE ARE NEEDED

Only Way in Which U. S. Control of English Meat Market Can Be Curbed.

LONDON, June 12.—(C.A.P.)—"Practical men see only one remedy for the present shortage of cattle here," said Melhuish, a committee man of the Society of London Meat Traders, "namely, breaking down the present American control of the market by bringing in Canadian cattle for fattening."

The superintendent of the Manchester foreign cattle market states that only five cases of tuberculosis have been discovered in the 26,000 Canadian cattle slaughtered there.

In the house of commons last night, several members protested against the board of agriculture's refusal to withdraw the prohibition against the importation of cattle for immediate slaughter from disease free countries, alleging that this refusal was playing into the hands of the American meat combination.

Sir Edward Strachey, a representative of the board of agriculture in the house, on behalf of the board, denied that the operations of the so-called meat trust tended to raise the prices.

W. Payne, secretary of the National Federation of Meat Traders, declares the ports should be opened to Canadian cattle, and he demands a government enquiry.

ADVICE TO NEW MINISTERS.

Reception Service at Methodist Conference—Ordinations To-Morrow.

H. S. Lovering, J. B. Lamb, C. C. Kenny, W. S. Irwin, D. K. Gray, W. E. Galloway, J. W. Dudgeon, P. P. Bryce and J. C. Bard were last night received as candidates for the ministry by the Toronto Methodist conference at the Elm-street Church.

Rev. Henry Irving, chairman of the Collingwood district, introduced the resolution that these men be received, and in doing so addressed them on the obligation of the pastor to his congregation. A pastor's obligation, he said, was to be a man of God, with a message from God by which to lead his flock to God.

"No matter what a man teaches, if his life is contradictory to what he says, his life is more eloquent than his preaching. Every man that teaches the truth of God must illustrate what that truth is in his own life."

Where there is a bar and a church there ought to be a row," continued Mr. Irving, adding that men were often in prayer meetings when they should be in political primaries. The pity of it was that the men in the church had not more courage in fact.

Rev. Dr. Baker of Euclid-avenue Methodist Church, in seconding the resolution, urged the laymen to look after the business of the church so that the clergymen might have adequate time for looking after the spiritual side of the work.

While passing a saloon at Far Rockaway, L. I., where a dozen Italians were fighting with revolvers, John Wellstead, 16 years old, was struck by a stray bullet and killed.

One of First Links in New System Which Marks Epoch in History of C.P.R. and City.

An epoch in the history of the C.P.R.—and probably of this city as well—will have been reached to-morrow evening when the first train will leave at 9:30 over that line for Sudbury and on to Winnipeg.

It means a big saving in time to the public, while to the railway it means a release from having to accept running privileges over the G.T.R. to North Bay.

On Thursday night an equipment and maintenance train left to go up the line and to equip ready for business the dozen stations to be opened along the 26 miles of road. The stations will be: Muskoka, Barnedale, Perry Sound, Carleton Place, Point au Baril, Nainseau, Byng Inlet, Pickering, Rutter, Page and Hurvash, Muskoka, which is midway between Toronto and Sudbury, will be a divisional point.

The first freight train on the new Canadian Pacific Toronto to Sudbury route will leave here on Monday.

It will be a solid train of 16 cars, the whole shipment being made by the Massey-Harris Co. of this city, the destination being Manitoba, and the contents of the train agricultural implements of that firm intended for the farmers of the prairie provinces.

On Monday evening the board of trade will recognize the importance of the opening of the new road by tendering a banquet to Sir Thomas Shaughnessy and the directors of the C.P.R. and the C.P.R. officials thought the prospects sufficiently promising for a heavy traffic from Brampton and Sudbury stations to-day, that they again ordered that a trailer be carried out from the Union Station on the motor car last night.

Seventy-eight passengers came into the city on the motor yesterday morning, which is twenty-four more than the car was originally designed to carry. On the afternoon trip out to the golf links twenty-seven passengers were carried, and on the evening trip thirty-two people were conveyed.

EXPLOSION KILLS NINE.

Another Bad Accident on the G.T.P. Construction.

KENORA, June 12.—(Special.)—The worst dynamite accident for some time happened at the Chambers, McQuigge and McCaffrey Camp on Winnipeg River, when Transcontinental Construction Foreman Simmons and others were charging two fresh holes, when suddenly, without apparent cause, the dynamite exploded, killing nine men.

Two were Englishmen, whose wives are on the ocean to join them. The others killed were Swedes. The calamity points to some new explosive element contained in mineralized rocks, as the men in charge were most experienced and careful, the holes were cool and no iron implement being used.

Simmons had gone for another box of dynamite when the explosion occurred, and so was saved. The names of the killed are: Burgess, Bradley and Grey, English; Roberts, Trimball and Biribi, Italians; Munser, Vaguetin and Jehonami, Galicians. The seriously injured are McDonald and Shorter.

VICTIM A TORONTONIAN.

Actor Killed in N.Y.—Son of Mrs. Nowell of Toronto.

NEW YORK, June 12.—In a notebook found in the pockets of Albert Crosby, an actor, beaten to death by highwaymen to-day, was an entry reading: "In case of accident notify my mother, 138 Morse-street, Toronto, Canada."

The electrification of St. Clair tunnel is completed and all trains are now handled by electric locomotives.

FOR RENT

Front Street West, manufacturing or warehouse flat, 5500 square feet, light on three sides, freight and passenger elevators, splendid shipping facilities, immediate possession.

H. R. WILLIAMS & CO., Realty Brokers, 26 Victoria St.

28TH YEAR

HINTS AT SCANDAL IN CUSTOMS DEPTS.

Defalcations and Hushed-up Prosecutions Are Mentioned During a Discussion in the Commons.

OTTAWA, June 12.—(Special.)—Most of the day in the house was taken up with a discussion precipitated by Mr. Clements (Kent), who made the charge that all materials for the railway tunnel under the Detroit River were being allowed to come in free of duty, and that Canadians were not given an opportunity to tender.

The debate gradually widened to include alleged defalcations of customs officials, and the hushing up of prosecutions against friends of the government.

Mr. Cookshutt (Brantford), who followed Mr. Clements, referred to a report of the civil service commission, which said that the chief positions in the outside customs service were political appointments. The minister of customs was so strongly partisan that he could see no wrong in his supporters. In British Columbia a collector had defaulted, and after refunding a bona fide collector he was still thousands of dollars ahead of the government, and an investigation had ascertained that he was right.

Customs' Seizures.

Mr. Cookshutt commented on the number of customs seizures, and suggested that where there were systematic infractions of the law, offenders should be severely punished and have their names published. The system lent itself to private settlement between the inspector and the man who made the seizure or the informant and the offending firm.

Mr. Cookshutt showed that goods to the value of \$150,000 were seized last year, for which fines of \$24,857 were paid to those making seizures, and \$15,077 to those giving information. Between salaries and fines paid to them, he thought there were customs officers drawing more from the treasury than the prime minister. The system was open to grave abuses. He had been informed there were cases before the customs department at Montreal which were being hushed up because the offenders happened to be political friends, while other offenders were prosecuted to the limit.

Hon. Mr. Patterson asked if Mr. Cookshutt would endorse the statement that the customs department was influenced in its decisions by political considerations, and Mr. Cookshutt said the system was open to influences of that kind. He objected that the system of getting fines for seizures.

Mr. Cookshutt protested against the materials used by United States customs officers on the Detroit River tunnel being admitted free of duty, and said the minister was not carrying out the law requiring that these materials should be so admitted under regulations, when similar concessions were not granted by the United States.

He called it a big fuss. The minister of customs said a big fuss was being made about the importation of materials for the Detroit tunnel. The law was being carried out. Mr. Cookshutt insisted that the chief complaint was in reference to American cement. The contractors had written to Canadian manufacturers asking for 50,000 barrels, and only one Canadian company would give quotations on so large an order, while prices were considerably higher than American.

Mr. Clements put in that Canadian contractors had been turned down. Mr. Patterson asked for source of information that officials in the department had hushed up charges against political friends. This Mr. Cookshutt would not give, but read a letter which was to the effect that a firm in Montreal had been found guilty of defrauding the customs, but that an official had been bribed to make a false statement, which was usually done.

Blockade Lifted.

An interim supply bill for one-eighth of the total government supplies already passed, was put thru the house to-night with the consent of the opposition.

After the house had discussed a number of items, including \$36,026 for salaries and contingencies, \$231,120 for salaries and contingencies, house of commons; \$40,000, libraries; \$235,000, printing, and \$43,500 charwomen, house of commons. Mr. Pugsley made a request for a vote for clearing of departments generally, but Mr. Foster suggested that this had better stand, as Mr. Fielding had a proposal to make.

Mr. Fielding said, after conferring with Mr. Foster, that he had secured his co-operation in obtaining a vote of one-eighth of such estimates as had not already been passed in full. He, therefore, introduced a bill to that effect. Mr. Foster said there was no objection to the one-eighth asked for. There had been some negotiations along this line, and he decided to say that it had never been the wish of members of the opposition to prevent deserving employees of the country from getting their pay, so far as they could facilitate it, or of stopping the works of the country.

As the finance minister was aware there had been differences of opinion as to certain legislation and for the past month and a half there had been negotiations between the prime minister and the leader of the opposition, and this vote of one-eighth had been assented to as the result of these negotiations.

It was only right to say that the position of the opposition with regard to the disputed clauses remained as it was.

Mr. Fielding added that while there

NOTE AND COMMENT

The new anti-betting race track law, passed on Thursday, in New York State, has caused a considerable commotion in that state. The general opinion is that all those connected with Canadian tracks should conduct themselves with the utmost decorum. On the northern circuit the intention seems to be to stick to the original dates, while some owners of law and order feel that Montreal may be induced by the New York owners of the Blue Bonnets to plant to an enlargement of the meet. At Hamilton yesterday attaches of the stables and books were advised to act and talk discreetly when mingling with the populace.

The manner of conducting racing by Canada's biggest club, viz. the O. J. C., is likely to prove the salvation of the game, the directors always restricting their track at the Woodbine to two short meetings a year, for amusement and the improvement of the track principally, and are never charging them with an attempt to gain. Hamilton has become comparatively good the past two years and seems to continue so, and no objection has been registered against Montreal.

The racing dates in Canada for the remainder of the year, also those that Kenilworth will likely abandon, are as follows:

Montreal—June 6-20.
Hamilton—June 22-Sept. 5.
Buffalo—June 20-July 25.
Fort Erie—July 27-Sept. 5.
Montreal—Aug. 22-Sept. 18.
Toronto—Sept. 12-25.
Hamilton—Sept. 22-Oct. 10.
Windsor—Oct. 2-10.

These dates were selected months ago, and no one should object to the program, but any extension attempted will surely cause opposition from a quarter that is already much too busy.

It is 22 years ago to-day since the late Father (Tip) Arbuthnot and the now Major Jack Murray roved from Toronto Bay to Niagara-on-the-Lake in an open lap at night and arrived at Niagara at 6 o'clock in the morning.

These members of the Toronto Lacrosse Club, like the two venturesome watermen of that day, must be acknowledged for their departure from the waterfront. The feat has not been undertaken since, and at its best it must be acknowledged that there was a considerable element of foolhardiness about it.

EASTERN LEAGUE RECORD.

Wicker Stops Winning Streak Casey's Men Hold a Swatfest

Baltimore Wins and Are Now in Second Place—Grays Still Keep Winning; Likewise Bisons—Jack Flynn's Case Decided.

Montreal, as it started in where they left off Thursday, stuck their noses in front yesterday when the barrier was sprung, and were never once collared. Incidentally, by engaging in a swat-fest for fourteen binges, they kept adding a tick here and a fella there all the curtain ran down with the score reading: Montreal 7, Toronto 2.

One Bob Wicker, late of Columbus, and who proved no stumbling-block for the Leafs in the championship games last fall, reversed the tables yesterday, his shoos and benders proving a puzzle for the Keleysties, who only gathered in five scattered safeties. It was Wicker's lucky day, however, as Bob, along with the rest of the Royals, engaged in a fishing expedition in the morning, when the big fellow caught a pike 29 inches long.

The Caseyites had their betting toes on, driving Moffitt, of one hit fame, to the bush, while Rudolph, who relieved him, was served little better before the busy bats of those Royals, and they were all binges right on a line, the Leafs playing an errorless game in the field. On the other hand, while three errors of omission were charged against the visitors, their work was a feature, Joyce and London nabbing swats that looked good for safeties.

Joyce started the fireworks by singling, going to a peg from home when Corcoran caught Frick playing the bag. Casey, having fanned, O'Neil's double scored both baseawarmers. Then again in the second a single by Casey, a sacrifice and Wicker's double counted another.

Rudolph stemmed the tide till the sixth, when O'Neil's single, followed by Evans' double, tallied No. 4. The seventh saw nothing doing, but in the eighth Casey singled and Corcoran placed the poles in the bleachers. Evans flied out, but Louden beat out a hurt, while Jones' pitch to centre scored O'Neil with No. 1.

Jack Gettman tallied the Leafs' score in the first, leading off with a single. Sealing second and third and scoring when he and Schaffy, who had been passed up, worked a double steal with two men down, and this was the last chance till the eighth, when singles were recorded in the fourth and fifth, both by Mertes.

With one down in the eighth, Wicker singled, advancing to second on Schaffy's charity, both runners moving up a nook on Frick's fumbled throw. Casey, having fanned, O'Neil's double scored both baseawarmers. Then again in the second a single by Casey, a sacrifice and Wicker's double counted another.

Rudolph stemmed the tide till the sixth, when O'Neil's single, followed by Evans' double, tallied No. 4. The seventh saw nothing doing, but in the eighth Casey singled and Corcoran placed the poles in the bleachers. Evans flied out, but Louden beat out a hurt, while Jones' pitch to centre scored O'Neil with No. 1.

Sealing second and third and scoring when he and Schaffy, who had been passed up, worked a double steal with two men down, and this was the last chance till the eighth, when singles were recorded in the fourth and fifth, both by Mertes.

With one down in the eighth, Wicker singled, advancing to second on Schaffy's charity, both runners moving up a nook on Frick's fumbled throw. Casey, having fanned, O'Neil's double scored both baseawarmers. Then again in the second a single by Casey, a sacrifice and Wicker's double counted another.

Rudolph stemmed the tide till the sixth, when O'Neil's single, followed by Evans' double, tallied No. 4. The seventh saw nothing doing, but in the eighth Casey singled and Corcoran placed the poles in the bleachers. Evans flied out, but Louden beat out a hurt, while Jones' pitch to centre scored O'Neil with No. 1.

Jack Gettman tallied the Leafs' score in the first, leading off with a single. Sealing second and third and scoring when he and Schaffy, who had been passed up, worked a double steal with two men down, and this was the last chance till the eighth, when singles were recorded in the fourth and fifth, both by Mertes.

With one down in the eighth, Wicker singled, advancing to second on Schaffy's charity, both runners moving up a nook on Frick's fumbled throw. TO-DAY'S

Sale reveals many rare values which shrewd smokers will be quick to appreciate. These lots will travel fast. They can't help it—the prices are too special. Read the list and you will see why. If you are a member of the Toronto Lacrosse Club, like the two venturesome watermen of that day, must be acknowledged for their departure from the waterfront. The feat has not been undertaken since, and at its best it must be acknowledged that there was a considerable element of foolhardiness about it.

It is 22 years ago to-day since the late Father (Tip) Arbuthnot and the now Major Jack Murray roved from Toronto Bay to Niagara-on-the-Lake in an open lap at night and arrived at Niagara at 6 o'clock in the morning.

These members of the Toronto Lacrosse Club, like the two venturesome watermen of that day, must be acknowledged for their departure from the waterfront. The feat has not been undertaken since, and at its best it must be acknowledged that there was a considerable element of foolhardiness about it.

TO-DAY'S PROGRAM

TURF—At Hamilton, Montreal, Gravesend, Linton.
TROTTER—At Dufferin Park.
LACROSSE—Cornwall at Rosedale; Shamrocks at Montreal; Nationals at Ottawa; Tecumseh at St. Kitts (exhibition).

BASEBALL—Montreal at Island; other Eastern, National, American and amateur games.

SOCCER—Brits v. All Saints at Diamond Park; Brits at Thistle; Brits v. Lancashire 11, Kodak at All Saints B; Don Valley at Thistle 11.

ROWING—Annual spring regatta of Toronto and Don.

ATHLETICS—Boys' Championships, Varsity Field.

LAWN BOWLING—Granites' Tournament.

Cricket, Golf, Lawn Tennis, Quilts, etc. Reports of the different contests will be given in The Sunday World.

Skaters Have One Bad Inning. BALTIMORE, June 12.—Jersey City's one bad inning proved their undoing this afternoon. Seven tallies in the first inning were not entirely the fault of Mason, the ex-Baltimore player, a couple of errors behind him contributing to result, which put the Skaters out of the running for the rest of the game. Score:

Baltimore	A. B. R. H. O. A. E.
Hara, 1st	4 1 2 4 0 0
Chadbourne, 2d	0 0 1 0 0 0
Dunn, 3d	4 1 2 4 0 0
Demmitt, 4th	4 1 2 4 0 0
Knight, 5th	4 1 2 4 0 0
Hall, 6th	4 1 2 4 0 0
Hunter, 7th	4 1 2 4 0 0
Hardy, 8th	0 0 1 0 0 0

RAILWAYS THAT PROMOTE SUB-URBAN SERVICE.

Editor World: I am a regular reader of your paper and have read with interest your fight for a suburban service for Toronto. When in Chicago a short time ago I picked up a schedule of suburban trains on the Burlington route, and an enclosing it as it may be of some interest to you. These trains are used very largely, and while Chicago is a large city and has an excellent train service, Toronto has no suburban service of any account and is a fair sized city itself.

Constant Reader.

The timetable referred to in the above letter is an interesting document. It shows that the Chicago and Burlington runs a suburban service to Aurora covering thirty stopping places with about thirty or forty trains a day, and an extra number on Sundays. Aurora is thirty-seven miles from Chicago. At every one of these stations there is a regular two-cent-a-mile trip; a return ticket; a ten-mile ticket; a twenty-five-mile ticket; and a monthly sixty-mile ticket. The monthly sixty-mile ticket for a distance of thirty miles is \$3, or 15c for thirty miles, which is half-a-cent a mile. The ten and twenty-five mile tickets is good for bearer, and is limited to a year. All sorts of encouragement and accommodation is offered to commuters, and on the time-table there is this significant intimation to the traveler:

"The C. & B. Q. train service for Chicago suburbs is arranged from time to time in a way that the officials believe will best promote the increase of travel, and it will be kept as nearly perfect as possible. Criticism of existing service, and suggestions for improvement are gratefully received; they should be addressed to J. Francis, general passenger agent, 209 Adams-street, Chicago.

Whoever saw a Canadian railway try to build up business in the same kind of way? It seems that where they have two-cent-a-mile travel the railways pay more attention to cultivating business than our roads do in Canada, where the railways until recently charged what they liked, and thought they were harshly used when compelled not to exceed three cents. Perhaps the best way to get a suburban service for Toronto is to renew the agitation for two-cent-a-mile.

Chicago is a greater city than Toronto, it is true, but one reason why it is greater is that for years and years it has had a splendid suburban service helping to build it up.

HOW A MAJORITY OPPRESSES.

With a perseverance and insistence worthy of a better cause and occasion, The Globe is preaching sermons on the right of the majority to rule. The text is a good one, and as a mere abstract proposition cannot be impugned. But in its practical application there are many and very important limitations as to which the Dominion Government organ maintains a judicious silence. Majorities in democratic countries have a right to rule—granted—but their rule must be conditioned by democratic principles. And oppositions, that are worthy of the name, have also rights, including the right—more than that, the duty—to require majorities in their administration of the country's affairs, and in their legislation to respect the fundamentals of a democratic constitution.

All this side of the situation at Ottawa, the organs of the federal government conveniently ignore. The election bill introduced by the minister of justice, in its existing form, deliberately and flagrantly violates democratic principles not seriously disputed, nor, indeed, can be. That it is indefensible as it stands has been undeniably conceded by Sir Wilfrid Laurier's own admissions in parliament, and by his proposals for its amendment. Mr. Aylesworth, who is nothing if not rabidly partisan, even in his capacity of minister of justice, assuming Manitoba officials to be incapable of fairness in preparing the federal electoral list, proposed to entrust them to Dominion officials, who, it was cynically admitted, would be ready to do for the dominant federal party what they were to supersede are supposed to be doing for the dominant provincial party. And to make assurance doubly sure, ballot-papers are proposed to be dissectioned containing marks by which the voters casting them can be identified.

The present majority at Ottawa may have the right to rule, but it has no warrant or mandate from the electors of Canada to introduce and press legislation which is simply an outrage on the constitutional rights of a self-governing people. The minority would be false to their duty and their right if they failed to secure such amendments as are necessary to secure impartiality in the preparation of the electoral rolls, and to protect the absolute secrecy of the ballot. Responsibility for the deadlock and for the humiliation and discredit brought upon the parliament of Canada rests entirely on the premier, who is evidently personally desirous of submitting the amendments necessary to render the bill ac-

ceptable to the opposition, but who has not the strength and independence to put down the partnership of his minister of justice and of the men in control of the party machine in Manitoba. As for The Globe and its heroics about the inalienable rights of minorities, it is only necessary to recall the results of the Ontario Liberal gerrymander when a majority of the voters of the province had to submit to the rule of a minority. More confidence would be felt in the honesty and sincerity of The Globe at this time had it denounced the indefensible acts of its own party with a tithes of the acerbity it injects into the abuse of the federal opposition, who after all are only defending the plain rights of a democratic people.

THE I. O. F. RATE INCREASE.

In asking approval of the proposal to raise the premium rates, the executive of the Independent Order of Foresters deserve both credit and commendation. Nothing is more desirable, and necessary than that the financial basis of insurance companies and fraternal benefit societies should be thoroughly sound. This, indeed, is the first condition of stability and success. It is not to be presumed that those responsible for the funds of the I. O. F. would have resolved upon an increase in the rates without first convincing themselves that it was for the benefit of the order and its members. The recommendation does not imply any reflection upon the earlier official policy. Time is needed to justify schedules and regulations that are at first largely experimental, and at this stage of its phenomenal history the I. O. F. is not called upon to adopt the defensive.

Life insurance is now-a-days a science dependent on the law of averages, and the greater the area of a company's action the more possible it is to approximate to certainty. A detailed investigation can without difficulty ascertain whether, and to what extent, any particular company or society has safeguarded itself and its members against possible loss and it is in the interest of the policy-holders or participants themselves that proper financial conditions be maintained or secured, and that the administration be conducted on satisfactory lines. This was the object of the recent insurance investigation, and it is entirely in accordance with the position taken up by The World prior to the appointment of the commission. Supreme Chief Ranger Stevenson is only doing what is right in urging an increase in the rates if he is satisfied that only in this way can the interests of the members be protected. His courage in recommending a course naturally unpopular ought to be recognized as affording clear evidence that he is satisfied it is for the benefit of the order.

MEDICAL COUNCIL SHOULD NOT BE ABOLISHED.

Editor World: Mr. I. H. Cameron's utterances at the meeting of the Alumni Association yesterday must have been read with great astonishment by medical men throughout this province. It is hard to believe that a man of his keen, intellectual acumen should fall so utterly to recognize the fundamental distinction between the function of the university medical faculty, and that of the medical council. The function of the former is to teach, and it is known about the science and art of medicine, and that of the latter is not only to assure the public, as well as those already cured in practice, that they are kept supervised over the entire field. It would not add anything to the professional dignity of the medical faculty to have its members engaged in chasing quacks off our main thoroughfares.

Mr. Cameron might be fully justified in calling into question the efficiency of the medical council, but neither he nor anyone else can deny that it has been very useful and necessary function, entirely distinct from that of the university faculty. If the council has failed to do its work, the fault is wholly with the medical council. If the council men will only see to it that the right kind of men are selected as representatives, the council will do such a splendid work, and there will be no demand for its abolition. The medical profession will be far better served by an elective body, like the council, than by a state-appointed medical faculty, over which it has no control whatever. Our country should retain the council, but abolish a lot of its present members.

John Hunter.
8 O'Hara-avenue.

RESULTS OF THE MEETING.

The results of the meeting at Revel of King Edward and the czar, as published in the St. Petersburg papers, confirm the report that a substantial agreement has been entered into with regard to Macedonia, and that the two powers are in full accord on Afghan and Persian questions, their determination being to respect the independence and integrity of Persia. Conditions in Persia naturally received considerable attention in view of the prolonged crisis at Teheran and the possibility of the de-thronement of a third of the monarch. Attention is drawn to the fact that Russia is consulting with the British Government with regard to all steps taken in North Persia, although by the Anglo-Russian convention she is given a free hand there.

CANADA'S RAILWAYS.

Canada has more than 23,000 miles of completed railway, built at a cost of more than one billion dollars. In actual railway mileage Canada ranks eighth among the countries of the world, and her mileage per capita is greater than that of any other country. Fully 800 miles are now under construction. We who live in Canada are apt to overlook the significance of this great development, but everyone who has used "Canadian" Automobile and Carriage tires is impressed with their splendid wearing qualities. These tires are made in Montreal, and are deservedly popular in every part of Canada. Toronto branch, Front and Yonge-streets. Telephone Main 207.

Persian Carpets

We have received a shipment of fine handsome Carpets in Persian designs—large sizes—which are well worth seeing. We are able to make the prices very reasonable for this class of Carpets.

ELLIOTT & SON, LIMITED

79 KING STREET WEST, TORONTO

We provide Supplies to Families, Campers and Sportsmen throughout Muskoka and Northern Ontario TO FAMILIES desiring to secure Cottages at Muskoka we offer information as to several that have been reported to us for rent this season.

TO CAMPERS we furnish the Provisions, Tents, Utensils, Blankets and General Camp Outfit. We also have specially prepared charts of 30 canoe trips in Ontario.

A complete little Campers' Manual, 120 pages, illustrated, 10c.

MICHIE & CO., Limited

A CANADIAN GONE WRONG.

Editor World: The American papers speak this "14th June, Flag Day" more than ever before. This time it is the 13th birthday of the Stars and Stripes, and a Canadian native-born, provides the greater part of the sentiment. This is what he produces, name and all:

"Man never made, and nature never produced anything more beautiful than the American Flag."

William Henry Haworth.

Mr. Editor, this is a fact, Haworth is Canadian born, of the staunch English parents, and a graduate of Upper Canada College, of 1866. A royal good fellow, a great poet, and a red-hot Yankee.

(Signed) An Old U. C. College Schoolmate Who Sees Hawthorn Often.

Bay Ridge, Brooklyn, June 11, 1908.

THE GRAND TRUNK TOWN ON LAKE ONTARIO.

Editor World: If Mr. Hays will come to Whitby he will learn, as he will learn in all the towns on the Lake Ontario front, that if they are at a standstill, if business and factories have gone to Southwestern Ontario, it is due to the high rates of the Grand Trunk. The idea back of the expenditure is to give everything to the employees that will add in making them comfortable in the store, and thus increase the desire of good employees to prefer working in the store of the Robert Simpson Company, Limited. These lockers will greatly help in this respect.

THE SUNDAY WORLD IS DELIVERED TO ANY ADDRESS IN THE CITY OR SUBURBS FOR 5 CENTS PER COPY.

To ensure regular delivery, order at once. TELEPHONE MAIN 252

"Hiawatha."

The Daily and Sunday World is now being delivered at this popular summer resort. By telephoning your order to Main 252 or leaving same at 83 Yonge-street, you will receive The World before breakfast.

Improved Locker System

Perfection in everything is plainly the ideal of the Robert Simpson Company, Limited, who will install in their new building the Durand Steel Locker for the care of their employees' hats, coats, cloaks, wraps, umbrellas, etc. The care the Robert Simpson Company, Limited, have given in selecting suitable lockers is evidenced by the fact that they spent six months in examining almost every locker made in Canada and the United States. At last they found in the Durand Steel Locker—which is fireproof and practically dustproof. But the Robert Simpson Company, Limited, had a number of features specially adapted to have spent several thousand dollars in getting the strongest, safest and best improved lockers in the world. The idea back of the expenditure is to give everything to the employees that will add in making them comfortable in the store, and thus increase the desire of good employees to prefer working in the store of the Robert Simpson Company, Limited. These lockers will greatly help in this respect.

THE HEN AND THE DOORKNOB

By HERBERT KAUFMAN.

Once upon a time there was a fool hen who sat on a china doorknob for three weeks expecting to get a family. The only thing she did get was experience.

The advertising field is full of "china doorknob propositions"—examples of merchants who expect good newspapers to hatch money out of bad egg businesses, or who put sound nest eggs under the wrong "advertising hen."

There are three principles to follow in an advertising campaign: First of all, find a business that will stand advertising; secondly, find the newspaper that will make the advertising pay; thirdly, give the newspaper time to pay.

You can't start in to breed dollars in less time than it takes to hatch them any more than you can pull a hen off the nest before she has had the chance to incubate. In both cases you simply waste what has been invested. If you stop too soon you will get a rotten egg instead of a chicken.

Advertise something out of which you may reasonably expect returns, and when you have found what to advertise, take care that you place your copy in a newspaper that can turn the trick. Don't delude yourself with a china doorknob, and don't confuse a "rooster newspaper" which spends its time cock-a-lourning, for a "hen newspaper" that is too busy hatching out dollars to strut about crowing.

AT OSGOOD HALL

ANNOUNCEMENTS FOR MONDAY.

Chambers.

Cartwright v. Smith, 11 a.m.

Divisional Court.

Peremptory list for 11 a.m.:

1. Riddle v. Todd.

2. Goodison v. McNab.

3. Quebec Bank v. Sovereign Bank.

4. McAllister v. McAllister.

5. Lamont v. Can. Transfer Co.

6. Holder v. Hodder B. Brown for the company.

Toronto Non-Jury Sittings.

Peremptory list for 11 a.m.:

1. Cummings v. Clark.

2. Lalley v. Martin.

3. Boswell v. Scott.

4. Byrle v. Bolaseau.

5. Duell v. Smith, Co. v. H. H. H.

6. Medland v. Willis.

7. Spink v. Downey.

8. Riddle v. Boxer.

Bremer Brothers of London have begun proceedings against Roderick Smith of North Selkirk, Man.

The action is to recover \$388.13 for goods sold and delivered.

J. A. Warner of Toronto has made a bill of \$100 against R. H. Sillman of New York, and has begun an action to recover the amount.

The claim includes overdue notes, cash advanced, board for Sillman and his two children, clothes, etc.

The Gold Medal Furniture Co. is suing Herbert Cameron, Oberon, to recover \$377.60, alleged to be the balance due in respect of a certain house for which they supplied material.

George H. Tindall of Wilkesbarre, Penn., alleged that the Northern Fyrites Co. wrongfully dismissed him from their employment as building superintendent. He has now issued a writ against the company claiming \$351.66 arrears of salary, and \$500 for money paid out for the company.

Judge Teetzel has given judgment dismissing the appeal from Master-in-Chambers Cartwright in refusing to change the place of trial from Port Arthur to Woodstock in the action brought by William A. Dowler against Robert Simpson Co., Limited.

To recover \$450 for certain goods sold to C. W. Bonnard Co. alleged to be non-mens has been issued by Electrical Specialties, Limited, of Toronto.

Jones Simpson alleged that W. S. Johnston & Co. broke a certain contract with him, whereby he suffered damages which he fixes at \$1540, and is seeking to recover in an action instituted against the company.

Taxing Officer McNamara allowed a counsel fee of \$20 for attendance on a commission. In the action of Bowman against Silver, taken at Salt Lake City, it was claimed by defendant's counsel that Silver was the proper counsel fee, and an appeal was taken to Judge Teetzel, who dismissed the motion with costs, fixed at \$10.

Thos. Henry of Elmham sold a farm of 150 acres in Howick Township, and bought houses in Listowel and Brusse, which he transferred to his son, William, who is G.T.R. agent at Wingham. Jane Henry, a daughter, alleged that he was of unsound mind, and is suing to have the transfer set aside. Justice Teetzel asked the parties to try and settle out of court.

THE T. EATON CO LIMITED

"Mostly Everything for Nearly Everybody"

EARLY CLOSING DURING JUNE, JULY AND AUGUST THIS STORE WILL CLOSE EACH SATURDAY AT 1 P.M.

Why Not Add to Your Savings

People who buy goods on credit seldom have a savings bank account. The rich man will advise you to fight clear of debt. The poor man will tell you that debt is a millstone that drags the very heart and soul from a man.

"Pay as you go, if you can't pay don't go," is good advice.

Those who are blessed with savings bank accounts are people who have saved, are saving; are good managers. Self-denial and savings are the two prime elements in financial success.

The store that advocates your going into debt is not doing you a good service. The store that sells you the goods you want at cash prices that mean money saving to you, is doing you best service.

THIS store in its great business of supplying the people with good goods has done much toward inculcating the virtues of economy in the minds of the people; has bettered shopping conditions, and has, because of selling for cash, been able to pay quick cash, thereby saving the people all the various price concessions that go to the cash buyer.

This store coaxes nobody to buy goods—but gives plain, blunt, economical reasons why everybody who appreciates money saving should buy here.

Here Are "Money Savers" for Monday

Every price gives you an opportunity of saving money if you need the goods. Come as early as you can in order to choose best.

But whenever you come you'll find the values most appealingly in your favor.

THE T. EATON CO LIMITED

190 YONGE STREET TORONTO

MR. TYRRELL AN EXPERT.

A curious mistake was made by The World yesterday morning in reporting the trial of Sharpe v. White and referring to the judge's comment on Engineer-Tyrrell's evidence.

As a matter of fact Mr. Justice Riddell, by his judgment, did not intend to reflect upon Mr. Tyrrell personally or to impeach his honesty. J. E. Tyrrell's reputation as an engineer is above any suspicion, and The World is glad to say that Mr. Justice Riddell did not state that Mr. Tyrrell's evidence was unreliable. Anybody might be mistaken about a Cobalt property, but no one would be less likely to be mistaken than Engineer Tyrrell. No one has a better and more authoritative reputation as an expert judge of Canadian mines and forests than Mr. Tyrrell.

NAME IT EDWARD HANLAN.

Editor World: I understand that the deputy ministers of agriculture and marine and fisheries have an application before them for a name for the new propeller ferry of the Toronto Ferry Co., which carries about 800 passengers. What better name could it have than "The Edward Hanlan"—in this year of the Olympic games.

He was the pioneer of the Island Toronto, and as the new boat is to run to Hanlan's I hope the company will please marine and aquatic interests and their customers in honoring one who got but scant justice in his lifetime from his native city and harbor interests.

T. L. Church, Commissioner of Toronto Harbor.

James Anderson, mining broker, had his leg broken at Cobalt.

PERSONAL.

C. Arthur Pearson, publisher and tariff reformer, London, Eng., is coming out to Canada to see things first hand. He will arrive during the week of August and will spend several weeks doing Canada from side to side.

W. S. Crane returned by the delayed Winnipeg express yesterday, after two months' very nice business for H. W. Nelson & Co., Ltd., thru Manitoba and British Columbia.

Rev. C. H. Shortt, who has labored for eight years as an Anglican missionary in Tokyo, Japan, is in the city on a year's furlough.

Chancellor Boyd is troubled only with a cold, which would not allow of his sitting in the divisional court yesterday. He will be back again on the bench on Monday.

Justice Frank R. Latchford will sit in the non-jury assizes next week.

LOOK FOR THE LION ON THE LABEL

Huether's Pilsener

is made in Berlin from the finest barley, the best California hops and pure sparkling spring water.

Back of its Brilliance and Purity there is the individual merit that is developed by the Huether Process alone and which makes it so peculiarly satisfying and gratifying.

AT C.O.F. CELEBRATION

Silver Jubilee of Founding of Order Commemorated at Massey Hall Last Night.

High Court Officers

The Toronto Courts of the Catholic Order of Foresters celebrated the 25th anniversary of the founding of the fraternal organization at a large gathering in Massey Hall last night.

Provincial Chief Ranger L. V. McBrady, K.C., was chairman, and addresses were made by High Chief Ranger Thos. H. Cannon, Chicago; High Secretary T. P. Macdonald, Chicago; High Treasurer John T. Limback, Cedar Rapids, Iowa; High Trustees Thos. P. Flynn, Chicago, John E. Stephan, Chicago, and Controller Ward. It was stated that the membership was about 12,000, with an Ontario membership of 10,000; that \$100,000 had been expended in death claims and \$250,000 in sick and funeral benefits, and that the surplus was about \$2,000,000.

A resolution thanking the members of the high court executive for their visit was carried on motion of Rev. Father Minahan, with W. T. Lee as seconder. A musical entertainment was provided by the 48th band, Miss Annie Foley, Frank A. Caran and W. La Plante, Miss Pauline Carlin being accompanist. The members of the local courts, several hundred strong, preceded by the 48th Highlanders Band and the officers in full regalia, marched through downtown streets to the hall.

The visiting officers were afterwards entertained to a banquet at the St. Charles by the local officers, Mr. McBrady presiding. The visitors left for Ottawa this morning and will go to Montreal to-morrow to attend celebrations of the silver jubilee in both cities.

Alliston Old Boys.

A meeting of the Alliston Old Boys' Association will be held at 48 1-2 East Front-street Monday evening, June 15, at 8 o'clock. All Old Boys are respectfully requested to attend to make final arrangements for the excursion to Alliston on July 1st. It is especially desired to make arrangements at a baseball team.

Officers of the Steamer Corona gave a complimentary dance in honor of the steamer on Thursday evening at Lewiston. The dance pavilion was decorated with flags.

The Savoy

Yonge and Adelaide Sts.

Our Japanese Tea Rooms are the coolest and most comfortable place in town for an excellent, moderate priced mid-day lunch.

THE WEATHER

METEOROLOGICAL OFFICE. Toronto, June 12.—(8 p.m.)—Rain has occurred to-day in parts of Saskatchewan and Nova Scotia, whilst elsewhere in Canada the weather has been fine. had been a difference of opinion as Mr. Foster had stated, they would leave that matter as it stands for the present.

Premier Has Promised.

While the statement of Mr. Foster in the house to-night was not at all definite it is understood that Mr. Borden has Sir Wilfrid Laurier's promise that the Aylesworth election bill will be amended to meet the demands of the opposition.

The senate has adjourned till Tuesday when the supply bill will be finally passed for the royal assent.

The supply bill passed to-night will carry the government till July 1. Altogether one-quarter of the whole estimate has been passed and if the election bill is not amended as demanded the opposition is still in a position to make the government uncomfortable, when the other items are discussed.

The supply bill passed to-night will carry the government till July 1. Altogether one-quarter of the whole estimate has been passed and if the election bill is not amended as demanded the opposition is still in a position to make the government uncomfortable, when the other items are discussed.

DEGREES ARE CONFERRED AT THE UNIVERSITY

Only One Present to Receive Her LL.D.—Brilliant Scenes Witnessed—Banquet in Evening.

It was without extraneous glory that "Varsity" shone resplendent yesterday in convocation. The great men who were to be honored with complimentary degrees were invisible and received their dignities in absentia. Those who made the great display were all of "Varsity" herself, or of their immediate friends. Convocation hall furnished an exquisite picture set with brilliant tints and blended in moving radiance under the bright sunbeams.

Across the lawn with stately pace the procession of graduates, headed by Beadle Macmillan, and the sweetest of graduates in white frocks and black gowns, streamed southward to the new hall. Various groups of students followed, 600 or in all, and lastly came the faculty, preceded by L. R. Thompson, B.A., Sc., and M. Boswell, honorary master of arts, and a host of purple and gold in competition with gay beds of tulips and a lady in a blue suit, and made contrast with the many-colored professors.

The platform inside was crowded with members of the faculties and senate and board of trustees. The president sat Premier Whitney, Sir William Mulock, Sir Charles Moss, Chancellor Burwash, Provost Street Macdonald, Father Roche, Dr. Teedy, Principal O'Meara, Principal Auden, Prof. Clark, Justice Riddell, Principal McKay, Hon. Nelson Monteth, Barlow Cumberland, etc.

After convocation the audience of 2000 or more trooped back over the lawn and into the quadrangle where the garden party was held. Two pavilions furnished hospitality, and the 48 supplied music, and there never was a more successful one.

The young lady graduates became more and more a feature of commencement. There were 100 or more of them, and a new application of the epithet, rivaling the beauty of the Mayday hair, and classic face and N

ARTESIAN COMPANY ARE AGAIN AFTER FRANCHISE

Get Consent of Council to Present Scheme—County Fathers Visit Industrial Home.

WEST TORONTO, June 12.—Two representatives from the Artesian Water Company attended the council meeting to-night on business bent, and there by the old discussion of ways and means for obtaining pure water for city purposes has been revived. The representatives asked that a date be set on which they might meet the executive committee and discuss the question of having pure water supplied to the town. The executive took kindly to the idea and arranged to hold a special meeting next Thursday evening to discuss the matter thoroughly.

Architect Ellis has agreed to draw up the plans for the fire hall extension for \$200. The property committee will confer with Mr. Ellis to see if he will agree to include the supervision and changing of the plans without charging an additional fee.

A special meeting of the school board was held to-night, at which Dr. Hackett presiding. The estimates for the year, commencing Aug. 1, 1908, were completed. The total amount, which the city is asked to levy this year for public school purposes is \$38,440, only \$30 more than last year, despite the fact that the population has increased considerably in the meantime. This year's public school rate will be 8.7 mills, last year it was 8.4 mills. The Collegiate Institute rate remains about the same as last year.

A resolution was passed instructing the secretary to call for a meeting of the several trades union for whole, for the new school which is to be erected at the corner of Louisa and Eglinton-streets, the usual time being allowed for their reception.

Fred Wagstone of West Toronto will referee the game at 2 p.m. between the Shamrocks and High Park.

Sgt. Peters is acting chief of police at present, during the absence of Chief Plunkett, who has gone to Aurora to attend his brother's funeral. The chief will return on Monday.

Baseball fans who visit the West Toronto League game to-night will be able to expect two good games. The first one is between the Shamrocks and the Davenport Stars, game called at 2 p.m. by Fred Wagstone.

The second game promises to be a lively game, especially as these teams are now in a tie for second place. The Shamrocks and the Davenport Stars are tied for second place.

Joe McGraw, the fast centrefielder of the Shamrocks, will be unable to play in the game to-morrow because he has got his ankle sprained at practice a few nights ago. The match has been called for 2 p.m., and Harry Gillespie of Toronto has been chosen as referee.

LAMBTON MILLS.

The St. George's Social Club will hold a garden party at the residence of Mrs. B. B. B. on Monday evening, June 15.

Great preparations are being made by the congregation of St. Edward's Anglican Church for their four days of fancy fair to be held on July 1, 2, 3 and 4.

YORK MILLS.

YORK MILLS, June 12.—A garden party in connection with the York Mills Baptist Church will be held at the residence of Mrs. B. B. B. on Monday evening, June 15.

Great preparations are being made by the congregation of St. Edward's Anglican Church for their four days of fancy fair to be held on July 1, 2, 3 and 4.

WILLOWDALE.

The home of Mr. and Mrs. B. B. B. was the scene of a very pretty wedding Wednesday evening, June 10, when the bride, Miss B. B. B., was married to William Granger, by the Rev. F. C. Keam.

After the wedding supper the bride and groom left for their new home at Thornhill, amid a shower of rice and confetti.

William B. B. and family leave for Alberta on Friday. John Kirby is also going west.

The joint Sunday school picnic of Willowdale and Newtonbrook Sunday Schools will be held at Bond's Lake next Wednesday, June 17.

AND NO DROP AS YET.

Editor World: Kindly inform me through the columns of The World what the bargain was between the Toronto Milk Producers and the dealers in milk for the period of 11 months, from Nov. 1, 1907, to Oct. 1, 1908.

A. B. C. Answer:—The contract entered into between the Toronto Milk Producers and the dealers in milk for the period of 11 months, from Nov. 1, 1907, to Oct. 1, 1908, was for the price of 11 cents per gallon, with a provision for a drop of 1 cent per gallon on Oct. 1, 1908, and a further drop of 1 cent per gallon on Nov. 1, 1908.

KEW BEACH.

Mr. Price Does Much to Improve East End.

KEW BEACH, June 12.—Joseph Price is erecting a large factory on Queen-street, a short distance west of Woodward-avenue for the manufacture of metal and other signs. The building will be 316 feet, two stories high, and the foundations and structure generally will be of the most modern and substantial character.

The building will cost between \$6000 and \$7000, without the equipment, and with the employment of a number of mechanics represents a large outlay. Mr. Price, in the fine residential district of Lee-avenue, has done much to improve the east end of the city, and his success is well merited.

The Kew Beach Association held their last progressive, outdoor party of the season at the clubhouse to-night. A large crowd was present, and the meeting was a great success. The weekly dance will be held at the clubhouse to-morrow (Saturday) night.

VISIT INDUSTRIAL FARM.

Members of York County Council Are Pleased With Management.

The annual visit of the York County council to the Industrial Home at Newmarket was made on Friday afternoon under the guidance of Warden Kew, Commissioner Foot, and Knowles. The party left the C. P. R. crossing at 2:30 and the ride up through the beautiful farms and thriving villages over the excellent road, in the splendidly equipped coaches of the Metropolitan Railway was a revelation to some of the southern members.

Notwithstanding the difficulties encountered in the early part of the season, the crops of grain and hay between Toronto and Newmarket were never more promising or more abundant than at the present time. At the Industrial Home the members of the council were received by Mr. Armitage, the official in charge, and Inspector Lundy, and shown thru the

building. At the present time the inmates number 40 males and 11 females, and the condition of the building, including and work rooms, spotlessly clean, gave ample proof of the wisdom of the council in the selection of prepared Mrs. Armitage, who outbuildings are fairly large, and well adapted for the purpose, while everywhere on the farm there was an air of thrift quite apparent. A proposal is now before the council for the purchase of 23 acres in close proximity to the present farm, which totals 30 acres.

Luncheon was served, and a number of the party visited the delightfully situated farm of Mr. William Mulock immediately to the south, and inspected the magnificent herd of short-horn cattle there shown. The members returned to the city, reaching here at 9 o'clock.

UP TO VAUGHAN COUNCIL.

Refusal to Sanction Excavation Has Caused Road Obstruction.

Owing to the fact that the Vaughan Township Council has refused to do the excavation work required to do away with the heavy traffic on the road, the C.P.R. tracks about one mile from Woodbridge Station, the C.P.R. have refused to build a subway over the road, and have made the crest of the hill about six feet higher than it was in order to get the proper grade for the road. The result is that it is almost impossible for vehicles traveling the road to climb the hill.

The resident of the township who lives right on the spot called at The World office yesterday and said that only the other day a large automobile had found it impossible to make the hill. This gentleman stated that the railway company was willing to build the necessary subway if the township council would do the excavation work and grade the road, and he was of opinion that this work should be done by the council.

EAST TORONTO.

Proposal to Change Site of Local Branch of Trades' Bank.

EAST TORONTO, June 12.—Rev. Mr. and Mrs. Ratcliffe will leave town during the week for Manitowick, where they will remain for some time in the hope of recovering the latter's health.

The St. Josephs have a substantial lead in the East Toronto League, having lost only one game and gained five, scoring a percentage of 383 to 500 for East Toronto, 500 for Balm Beach, 488 for the Little Yorks.

B. Squadron Mississauga Horse will hold a picnic at the residence of Mr. and Mrs. B. B. B. on Monday evening, June 15.

It is said to be the intention of the management of the Trades' Bank to remove the local branch at Little York to Main-street in one of the new buildings now in course of erection by Mayor McMillan. A deputation of business men will interview the directors with a view to securing its retention.

AMENDED THE CHARGE.

In the county police court yesterday Magistrate Ellis had a busy afternoon, a number of more or less important cases coming up, but the chief interest centred in that of Mrs. E. B. B.

Mrs. B. B. B. was charged with the charge of having committed a breach of the peace by throwing a brick at a man who was passing by her house at the corner of Danforth-avenue and Cedarvale will be opened on Sunday by the services of St. Edward's Anglican Church for their four days of fancy fair to be held on July 1, 2, 3 and 4.

Visit to the Home of Kellogg's Toasted Corn Flakes

Interesting Sight Well Worth the Time.

To see the process thru which the corn goes while being made into Kellogg's Toasted Corn Flakes one must never suppose it would be so difficult to make, and require so much time and machinery.

Secret Chamber.

Being a stranger, and not interested beyond that of a consumer, I was not permitted to see the secret process, how they got such a delicious flavor by the manipulation of the corn itself.

I was shown the material from which the flakes are made and never saw such beautiful grain, so pure, clean and white. The man in charge said it was the "sweetheart" of the corn, and that it took a long time experimenting on it by America's best food expert before they succeeded in causing it to retain the flavor while rolling it into thin flakes and cooking under three hundred degrees heat. My escort told me why they rolled it into flakes, and that was to break up all the little cells and that by the intense heat of the oven the starch would be changed into grape sugar, making it very easy to digest, and especially beneficial to those of sedentary habits and all brain workers. It seemed light food for the worker, but he said light in weight only, because all moisture had been evaporated and that there was no food value in moisture, and that every nutritious element of the corn was retained in its most perfect condition for human food.

Imitations.

In the office I was shown a couple of imitation Corn Flakes. The manager said one had even tried to imitate the name.

He told me they had now two-thirds the people using "Kellogg's Toasted Corn Flakes" and were after the other third by increasing the size of the Package About One Third, and in future there would be for sale everywhere the new Kellogg's Toasted Corn Flakes.

SLAIN ON NEW YORK STREET

Actor Is Beaten to Death by Highwaymen Who Escape.

NEW YORK, June 12.—While a dozen terrorized men and women looked on from the windows of surrounding houses in West 27th-street, two armed highwaymen to-day beat to death and robbed a man believed to be Albert Crosby of Boston, an actor, who was playing in "The Road to Yesterday."

He was still breathing when witnesses of the tragedy ran up to him and found him at 3 o'clock, but died in a hospital while the surgeons were preparing to trephine his shattered skull.

LOCAL PREVENTIVES.

Two wild cats presented to the Riverside Park Zoo by third vice-president Fitzgibbon of the Grand Trunk Railway, who had captured them at the attractions. They died in transit.

Forty men employed in the car shops of the Toronto railway, who had been laid off because of a scarcity of lines on which to place more cars. That's what Manager Fleming said.

Manuel Schell, 25, was granted permission to Superintendent W. Dun-can of the Children's Shelter to take the child out of the Island Park at any time except on Saturday free of charge on the ferry boats.

Sam Schwartz, 216 Elm-street, was charged with the charge of having committed a breach of the peace by throwing a brick at a man who was passing by her house at the corner of Danforth-avenue and Cedarvale will be opened on Sunday by the services of St. Edward's Anglican Church for their four days of fancy fair to be held on July 1, 2, 3 and 4.

The W. & D. Dineen Co., Limited,
Cor. Yonge and Temperance Sts., Toronto.

SUMMER SCHOOLS.

The series of professional summer schools begun last year by the education department for the members of the Roman Catholic, religious communities teaching in the separate schools will be continued this year. The schools will be of two standards, the model school and the normal school, and will begin on Monday, July 6, and end on Wednesday, August 5.

For the convenience of the teachers they will be held at the following centres:

Normal School standard: The Sacred Heart Separate School, London; De La Salle Separate School, Toronto; Normal School, Toronto; the D'Youville Separate School, Ottawa.

Model School standard: The Normal School, Ottawa. The De La Salle School for male, the others for female teachers.

Holders of permanent third class certificates will also be admitted to these schools to prepare for second class certificates, and a limited number of other teachers who merely desire to improve their professional knowledge.

Circulars containing the courses of study and other information may be obtained on application to the deputy minister.

The 14th Rifle Regiment of Kingston will go to Quebec full strength.

BIG REDUCTION IN CAPITAL STOCK.

NEW YORK, June 12.—The stockholders of the American Steel Foundry Co. met at a meeting in Jersey City today by a practically unanimous vote adopted the plan of a committee of directors reducing the capital stock of the company from \$37,500,000 to \$15,000,000.

The purpose of the reduction, it has been stated, is to make the stock represent actual value.

Sentence Suspended.

GUELPH, June 12.—(Special.)—William Simpson appeared before Judge Chadwick on two charges, one of forging an order on the Traders' Bank for \$25 and the other of temporarily depriving Mrs. Crozier, from whom he held powers of attorney, of her pass-book and eight shares in the Traders' Bank stock. The first charge could not be sustained, but on the second charge he was found guilty, but allowed suspended sentence.

Commission for St. John Harbor.—A deputation from St. John, N.B., had an interview to-day with Mr. Eungley and arranged to have the harbor of that city put under a commission, the government to advance the money necessary for improvements and guarantee the commissions bonds.

CONVENTION IS ENDED TORONTO BOY IS HEAD

Foundrymen Elect Officers—Report of the Committee on Industrial Education.

Yesterday at noon the business of the first conference ever held in Canada of the American Foundrymen's Association was concluded and the officers decided upon for the ensuing year. Next year they will gather in Cincinnati, Ohio. The exhibits will, however, all remain open till 6 o'clock to-night.

The new president of the A.F.A. is Lawrence L. Anthers, of the Toronto Foundry Co., Limited, a mark of distinction never conceded to any other Canadian, and in addition he is the youngest man in the association. The other officers are: Vice-president, P. B. Farnsworth, Molong Foundry Co., New Haven; W. H. Parry, National Metal Co., Brooklyn; J. W. Jeffrey, Ohio Malleable Co.; Samuel T. Johnston, Cleveland; T. W. Sheriff, Sheriff Manufacturing Co., Milwaukee; J. A. Kisserle, Columbus Iron Co., Columbus, O.; and R. J. Cluff, King Radiator Co. Dr. Richard Moldenke of Watchung, N.J., was re-elected secretary-treasurer.

The officers for the brass men are: President, Chas. J. Coley, secretary, W. H. Corse, treasurer, H. Schaefer, vice-presidents, Wm. R. Webster, W. C. Allen; W. L. Abate, Thos. Evans, Chas. E. Bohn, I. N. Gamble, W. D. Allen, J. C. Sharp, Richard Mitchell, N. K. B. Patch.

The Foundry Supply Association officers will be: President, P. N. Perkins, Cincinnati; vice-presidents, John Hill, Cincinnati; E. J. Woodson, Detroit; T. W. Pangborn, New York; George H. Westworth, Cuyahoga Falls, O.; secretary, Henry M. Lane, Cleveland; treasurer, J. S. McCormick, Pittsburgh; trustees (three years), J. S. Rayner, Niagara Falls, N.Y.; J. S. Smith, Cleveland; A. C. Backer, Cleveland; E. H. Mumford, Philadelphia, and J. H. Whiting, Harvey, Ill. were appointed to the trustee board to fill the places vacated owing to the election of Mr. Perkins to the presidency and Mr. Woodson to the vice-presidency.

Industrial Education. During the day a report was given by the committee on industrial education, which in summing up, said: "This industrial education and trade training must not only consider the mechanical and technical necessities of the mechanic, but also the culture and moral aesthetic side of life of the man and citizen."

"Manual training, as now conducted, is too exclusively devoted to the acquisition of manual dexterity, but if broadened and deepened and made more technical by the addition of suitable subjects, it can be made an excellent foundation for industrial education and become a preparation for trade training. Thus, if added as separate courses to the common school system, manual training could be made to serve to bridge the educational gap from 14 to 16 years of age, which are now lost years. On account of that gap, due to the indecision of the boy regarding the occupation he will follow, a system of specific trade schools, in our country, becomes feasible and worthy of the expense, as an additional training only for those who are already actively engaged in their chosen vocations."

"The burden of conducting these industrial schools should be equally divided between the community and the state."

Entertainment, Too. Music was supplied by the Queen's Own Band during the day, and at night the ladies attended the Royal Alexandra, as the guests of the association, while the men had a splendid "smoker" in Mutual-street rink.

Preparing for Camp. NIAGARA-ON-THE-LAKE, June 12. (Special.)—Niagara Camp will be ready and in ship-shape to receive the volunteers on Monday next. The tent-streets and marquees are being struck as in previous years by the army service corps, and the great white city is fast rising into majestic magnitude on the old historic government commons.

About 100 Royal Canadian Dragoons are now in camp for police duties, and occupying the same location in the last year, namely, to the north of headquarters. The fence surrounding the buildings comprising headquarters, as well as the camp officers, have all been freshly whitewashed, to be in harmony with the pale effect of the white rows of peaked tents.

Orangeville's Capets. ORANGEVILLE, June 12. (Special.)—An inspection was made by Lieut. Col. Galloway of Toronto of the Orangeville High School cadet corps this afternoon which he complimented as one of the finest in the province. The colonel a year ago advocated the organization of a cadet corps. The young company is in command of Major Preston, clerk of the surrogate court here.

Doric Lodge to Visit Port Hope. On the invitation of Ontario Lodge No. 28, A.F. & A.M., the members of Doric Lodge will visit the Port Hope members of the craft on Friday next, 19th inst., leaving the city by special train and returning on the morning of next morning. The Port Hope brethren have made special arrangements for entertaining the Toronto contingent.

Why Not Pay at Convenience? Joining Our Housefurnishing Club Gives You a Charge Account Privilege Free

THE principle of buying for cash is a very good one for those who have ready money available. We do a cash business because we can give better values buying and selling for cash. BUT—if we are willing to give the SAME VALUES exactly and the extra privilege of a charge account besides, why hesitate one moment?

We do not make the offer every day in the year—not by any means. This is a Club of 500 members for the present month of June. Each of those members has the privilege of selecting anything wanted from The Carpet and Curtain Department—The Furniture Department—The Wall Paper Department—The Picture Department. Having goods delivered NOW (that's a great point) and paying for them during the next six months. Now this does not mean that you pay one cent more first or last than if you paid spot cash. The Club privilege is FREE.

So, where then is the difference between the Club plan and the cash principle—in your favor?

In your favor—that's where the difference is. You get the convenience of leisurely payment while the goods are delivered now. Consult the Secretary for particulars. It's as simple as day. Club Office, Curtain Department.

THE ROBERT SIMPSON COMPANY, LIMITED
TORONTO, ONT.
June 1906

Will you kindly enroll my name as a member of your Housefurnishing Club, details to be arranged later?

Name.....

Address.....

JUNE is half over. We still have a vast quantity of goods to get rid of yet. We want to sell our summer stocks now instead of waiting until you must have them. To win your willingness to buy a week or two in advance a comprehensive series of reductions have been arranged to wind up June with a will. During the next fortnight, customers of this store have the following extraordinary advantages:

- A Housefurnishing Club. (See Below)
- A free offer of housefurnishing work. (See Below)
- A sale of muslin underwear.
- 25% off picture framing.
- A sale of summer oxford shoes.
- Monday basement sales.

And a June sale of summer goods embracing every department in the store.

Summer Footwear Sale

A saving of 25 to 33 1/3 per cent. on footwear for summer wear. Only limited quantities of each line left or you wouldn't see such reductions.

350 pairs of Boys' Boots, calf and kid, Blucher and lace, heavy soles, 1 to 5. Sale prices Monday. 99c, \$1.49, \$1.99.

120 pairs of Men's White Canvas Boots and Oxfords, for summer wear, leather soles and heels, all sizes. Regular \$2.00. Monday \$1.49

(Telephone Orders filled.)

82 pairs of Ladies' Tan Pumps, with suede leather collar top and dainty suede leather bow, hand-turned sole, all sizes. Regular \$4.50. On sale Monday \$3.49

240 pairs of Ladies' Oxfords, patent colt, with creased vamp and dull Blucher back; also fine vici kid in Blucher style, all sizes, 2 1/2 to 7. Regular \$2.50 to \$3.50. On sale Monday \$1.99

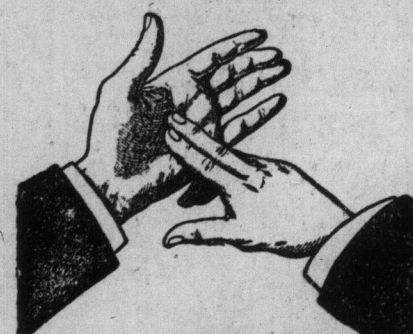

90 pairs of Ladies' Patent Colt Boots, creased vamp, dull Blucher tops, Cuban heel, all sizes, 2 1/2 to 7. Worth \$3.00. Monday \$1.99

June Sale of Pictures

Regular Stock Values Up to \$2.50, Monday 49c

600 pictures must go on Monday and Tuesday—They include our well known 98c picture stock, also a splendid assortment of other stock pictures worth up to \$2.50 each.

These pictures are our newest stock, framed during the quiet season to keep our experienced workmen employed, now we require the room hence big reductions. For size and subjects, see Yonge Street window. Buy early Monday and secure first choice. All one price 49c.

So, where then is the difference between the Club plan and the cash principle—in your favor?

In your favor—that's where the difference is. You get the convenience of leisurely payment while the goods are delivered now. Consult the Secretary for particulars. It's as simple as day. Club Office, Curtain Department.
