PROFESSORS.

- WALTER B. GEIKIE, M.D., C.M., D.C.L., F.R.C.S.E., L.R.C.P., Lond.
Dean of the Faculty ; Member of the Council of the College of Physicians and Surgeons of Ont. ; Member of the consulting staff of the Toronto General Hospital.—Holyrood Villa, 52 Maitland Street.
Professor of Principles and Practice of Medicine, and of Clinical Medicine.
- H. ROBERTSON, M.D., C.M., M.R.C.S., Eng. ; N. E. corner Wilton Avenue and Mutual Street.
Professor of Anatomy—General, Descriptive and Surgical and Curator of the Museum.
- J. ALGERNON TEMPLE, M.D., C.M., M.R.C.S., Eng. ; Member of the consulting staff of the Toronto General Hospital. Physician to the Burnside Lying-in-Hospital.—191 Simcoe Street.
Professor of Obstetrics, Gynæcology and Diseases of Children
- THOMAS KIRKLAND, M.A., Principal of the Normal School, Toronto.—432 Jarvis Street.
Professor of General Chemistry and Botany.
- C. W. COVERNTON, M.D., C.M., M.R.C.S., Eng. ; Lic. Soc. Apoth, Lond. ; Ex. Chairman and Member of the Provincial Board of Health.
Professor of Medical Jurisprudence and Toxicology.
- FRED. Le M. GRASETT, M.B., C. M., Edin. Univ. ; F.R.C.S.E., M.R.C.S., Eng. ; Fell. Obstet. Soc., Edin. ; Member of the acting Surgical Staff of the Toronto General Hospital ; Physician to the Burnside Lying-in-Hospital ; Member of the consulting staff of the Toronto Dispensary, 208 Simcoe Street.
Professor of Principles and Practice of Surgery, and of Clinical Surgery.
- W. T. STUART, M.D., C.M., Trin. Coll., and M.B., Univ., Toronto ; Professor of Chemistry, Dental College, Toronto.—195 Spadina Avenue.
Professor of Practical and Analytical Chemistry.
- CHARLES SHEARD, M.D., C.M., M.R.C.S., Eng. ; Member of the Acting Staff of the Toronto General Hospital.—314 Jarvis Street.
Professor of Physiology and Histology.
- G. STERLING RYERSON, M.D., C.M., L.R.C.P., L.R.C.S., Ed. Mem. Ophthalm. Soc., Gt. Brit. ; Surgeon to the Eye, Ear, and Throat Dept., Toronto General Hospital, and Hospital for Sick Children.—60 College Avenue.
Professor of Ophthalmology, Otology, and Laryngology, &c
- LUKE TESKEY, M.D., C.M., M.R.C.S., Eng. ; Member of the acting Surgical Staff of the Toronto General Hospital, and Professor of Oral Surgery, Dental College, Toronto.—201 Church Street.
Professor of Pathology, Lecturer on Applied Anatomy, and Senior Demonstrator of Anatomy.

JOHN L. DAVISON, B.A., Univ., Tor., M.D., C.M., M.R.C.S., Eng.; Member of the acting staff of the Toronto General Hospital.—12 Charles Street.
Professor of Materia Medica and Therapeutics—Theory and Art of Prescribing, &c.

LECTURERS, DEMONSTRATORS, INSTRUCTORS AND ASSISTANTS.

G. A. BINGHAM, M.D., C.M., Trin. Coll.; M.B., Tor. Univ.; Pathologist, and Member of the acting staff of the Toronto General Hospital.—64 Isabella Street.

Assistant Demonstrator of Anatomy.

T. S. COVERNTON, M.D., L.R.C.P.E., S.S., Certificate, Cambridge, Eng.; Member of the acting staff Toronto General Hospital; Member of the staff of the Children's Hospital.

Lecturer on Sanitary Science.

NEWTON ALBERT POWELL, M.D., C.M., Trin. Coll.; M.D., Bellevue Hosp. Med. Coll., N.Y.; Lecturer on the Practice of Surgery, Woman's Medical College, Toronto.—259 Simcoe Street.

Lecturer on Surgical Appliances, and Assistant Demonstrator of Anatomy.

E. B. SHUTTLEWORTH, Principal, and Professor of Chemistry and Pharmacy, Ontario College of Pharmacy.—220 Sherbourne Street.

Practical Pharmacy, &c.

A. Y. SCOTT, B.A., Tor. Univ.; M.D., C.M., Trin. Univ.—Cor. North Drive and Lamport Avenue.

Zoology, &c.

E. A. SPILSBURY, M.D., C.M., Trin. Univ.; Surgeon to the Nose and Throat Department, Toronto General Hospital—476 Spadina Avenue.

Lecturer on Laryngology and Rhinology.

D. J. GIBB WISHART, B.A., Tor. Univ.; M.D., C.M., L.R.C.P., London.—30 Carlton Street.

Instructor in the Appliances used in Diseases of Eye, Ear, Nose, and Throat.

G. GORDON, B.A., Tor. Univ.; M.D., C.M., L.R.C.S. & P., Edin.; L.F.P. & S., Glasgow.—619 Spadina Avenue.

FRED. WINNETT, M.D.C.M., M.R.C.S., Eng.—14 Wilton Avenue.

J. ARCHER WATSON, M.D.C.M.—149 Sherbourne Street.

Assistants in Practical Anatomy.

C. TROW, M.D., C.M., Trin. Univ., L.R.C.P., Lond.; Surgeon to the Eye and Ear Department of Toronto General Hospital.—57 Carlton Street.

Clinical Lecturer on Diseases of Eye and Ear.

THE PROPERTY OF
Trinity Medical College.

Trinity Medical College.
ESTABLISHED 1850.
Toronto.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

IN AFFILIATION WITH

TRINITY UNIVERSITY, THE UNIVERSITY OF TORONTO, QUEEN'S UNIVERSITY,
VICTORIA UNIVERSITY, AND THE UNIVERSITY OF MANITOBA, AND
SPECIALLY RECOGNIZED BY THE ROYAL COLLEGE OF SURGEONS,
ENGLAND, THE ROYAL COLLEGE OF PHYSICIANS, LONDON,
THE ROYAL COLLEGE OF PHYSICIANS AND SURGEONS,
OF EDINBURGH, THE FACULTY OF PHYSICIANS
AND SURGEONS OF GLASGOW, AND THE
KING'S AND QUEEN'S COLLEGE OF PHYSI-
CIANS OF IRELAND,
AND BY THE CONJOINT EXAMINING BOARDS IN LONDON AND EDINBURGH.

The Winter Session of 1890-91 will begin on Wednesday, the 1st day of October next, and will continue for six months. The opening lecture of the course will be delivered by Dr. Sheard, at 4 o'clock p.m., on that day, in the College. The regular work of the College begins at 8 o'clock a.m., on the following day. It is hoped that, in view of their own interests, students will, as far as practicable, be present at the opening lecture, so as to lose none of the early teaching in the several branches.

The Faculty record with pleasure the constantly increasing prosperity of the College.

From its inception, "STABILITY AND EFFICIENCY, with PRACTICAL TEACHING IN EVERY BRANCH," has been the motto and the basis on which this College has been, and will continue to be, conducted. Nothing injures medical institutions more than the making of organic changes, which tend to weaken and paralyze the energies of teachers—to bewilder

students, and to shake public confidence. Happily without such changes, our progress heretofore, has been all that the members of the Faculty and the friends of the College could wish, and has more than exceeded their most sanguine expectations.

The only modification made in this Institution for many years was the passing of an Act by the Legislature in 1887, giving "Trinity Medical School" the standing and dignity of a "Medical College," a position well earned by many years of successful teaching.

TRINITY MEDICAL COLLEGE WILL GO ON IN THE FUTURE AS IN PAST YEARS, ADVANCING AND IMPROVING every session, and keeping fully abreast of the advances of science, and of the requirements of the medical profession, as laid down from time to time by the Ontario Medical Council.

Thoroughness in TEACHING—making it as PRACTICAL AS IT CAN BE MADE in every Department, and PUNCTUALITY in all College work, will be as steadily maintained as heretofore, in view of the high position this institution has gained by continued strict attention to these fundamental essentials of a sound medical education.

The lectures are delivered in the large College Building, situated in the immediate vicinity of the Toronto General Hospital, because it is so essential to medical students, that the lecture rooms where they are taught the nature of disease, and ALL THE BRANCHES OF SCIENCE RELATED TO MEDICINE, should be as close as possible to the INSTITUTION which affords all facilities for the acquisition of a practical knowledge of their profession. Very special attention has been paid to the fitting up of the Lecture and Dissecting Rooms, Laboratories, etc. They are of large size—are exceedingly well lighted, and contain every appliance required for Practical Teaching.

There is a very fine room, one of the largest in the College, and lighted from the ceiling, set apart for the Museum; also a Reading Room, well supplied with the leading journals and papers, and a waiting room for students. The Faculty have made every improvement necessary for the comfort and convenience of the large and constantly increasing number of students in attendance. To meet the requirements of the very large Anatomy classes, the new Dissecting Room—very spacious—lighted from the ceiling, and, for SANITARY REASONS, ENTIRELY SEPARATE FROM THE REST OF THE COLLEGE BUILDING, has been recently built. It is furnished with every modern requisite of a Dissecting Room. The entire arrangements for the study and teaching of Practical Anatomy receive the greatest attention in this College—the plan being, to have them from year to year as perfect as they can be made, taking the best European Schools of Anatomy as the models.

THE PROPERTY OF
Trinity Medical College.

Although it is only a few years since the erection of our commodious Medical College Buildings, the attendance of students has increased so greatly year by year, as from time to time to require more ample accommodation, and large additions have been built. Very recently, the buildings were still further enlarged, so as to meet all the requirements of a thoroughly equipped Medical College, and this year still further extensive additions and improvements are being made, especially in the Laboratories and in the Department of Practical Anatomy.

There are in the College two equally spacious Lecture Theatres, a new Laboratory for Practical Histology, one for Practical Chemistry, and a new one for Pathology. THESE LABORATORIES AFFORD ALL THE PRACTICAL FACILITIES WHICH MEDICAL STUDENTS REQUIRE, OR CAN USE IN LABORATORY WORK.

TRINITY MEDICAL COLLEGE, AS IS NOW WELL KNOWN, IS AN INDEPENDENT CORPORATION, ENTIRELY SEPARATE AND DISTINCT FROM EVERY OTHER. UNDER ITS OWN SPECIAL ACT OF INCORPORATION, THE COLLEGE IS EMPOWERED TO ENTER INTO AFFILIATION WITH ANY "UNIVERSITY OR UNIVERSITIES" WITH WHICH IT MAY BE DESIRABLE, IN THE INTERESTS OF THE STUDENTS, TO HAVE IT CONNECTED. THE COLLEGE THEREFORE RESTS ON THE BROADEST POSSIBLE BASIS, AND IS IN AFFILIATION WITH

Trinity University,
The University of Toronto,
Queen's University,
Victoria University,
The University of Manitoba.

Students attending Trinity Medical College have thus every advantage which ample University connections afford, under which they can, by conforming to the curriculum laid down by the several Universities named, go up for their degree, before any one, or more of these. And in addition, they can, if they desire to do so, present themselves for the "Trinity Medical College" Examinations, which are held under the provisions of the SPECIAL ACT incorporating the College. Full particulars regarding these Examinations are given on page 22 of this announcement. They are equivalent in every way to those required for University Degrees in Medicine, and if successful, the candidate will obtain the "Fellowship by Examination" Diploma. This qualification is fully recognized, separately and conjointly, by the several Examining Royal Colleges of Physicians and Surgeons in Great Britain.

Under its special Act, this College is represented on the College of Physicians and Surgeons of Ontario, and it is therefore possessed of

every privilege enjoyed by any medical teaching body in the Dominion.

The "Fellowship by Examination" diploma entitles its holders, to go up before the Royal College of Surgeons and Physicians in Great Britain, with precisely the same exemptions from various parts of the examinations as are allowed to holders of University Degrees.

Full instruction is given in Trinity Medical College in all the subjects required for degrees in Medicine, by the University of Toronto, including Biology, Comparative Anatomy and Practical Pharmacy, etc.

The Faculty has been greatly gratified with the high standing uniformly taken by the students of Trinity Medical College at the Examinations of the College of Physicians and Surgeons of Ontario, and the various other Medical Boards, before which they have presented themselves. This, better than any thing else, proves the highly practical and thorough character of the teaching given in the College.

THE SUMMER SESSION.

Attendance upon ONE Summer Session is now made compulsory by the Medical Council of Ontario, and the teaching throughout this session will be thoroughly practical. The course lasts 10 weeks, and embraced in 1890 the following work :—

I. CLINICAL INSTRUCTION AT THE GENERAL HOSPITAL.

OUT-PATIENT CLINICS—DAILY by MEMBERS OF THE ACTING HOSPITAL STAFF. A SKIN CLINIC. OPERATIONS ON SATURDAY.

There is also a SPECIAL COURSE of daily BED-SIDE INSTRUCTION, MEDICAL and SURGICAL, giving particular attention to the DIAGNOSIS and TREATMENT of DISEASE, by members of the Acting Staff of the Hospital.

Dr. SPILSBURY'S Course at the Hospital includes CLINICAL instruction, with PRACTICAL TEACHING of Diseases of Nose and Throat, including the practical use of RHINOSCOPE, LARYNGOSCOPE, etc.

Dr. TROW'S HOSPITAL COURSE includes CLINICAL INSTRUCTION with PRACTICAL TEACHING of DISEASES of the EYE and EAR with the practical use of the OPHTHALMOSCOPE, OTOSCOPE, etc.

II. PRACTICAL COURSES AT THE COLLEGE.

Dr. GEIKIE—Diseases of the Chest and some of the principal Fevers.

Dr. GRASSETT—OPERATIONS on the CADAVER, the student himself being required to perform the operations.

Dr. SHEARD—Diseases of the KIDNEYS, URINALYSIS, and EXAMINATION of BLOOD, BILE, SPUTA, etc.

Dr. DAVISON—PRACTICAL THERAPEUTICS.

Dr. TESKEY—PATHOLOGY, other than that embraced in the Winter Course.

Dr. BINGHAM—OBSTETRICS.

Dr. POWELL—ELECTRICITY as applied to Medicine and Surgery, and the Practical Treatment of various Surgical Affections met with in Children.

Dr. BAINES—DISEASES of CHILDREN.

Dr. BINGHAM also gives a SPECIAL COURSE of LECTURES in the THEATRE of the HOSPITAL on the SUBJECT of PHYSICAL DIAGNOSIS, ILLUSTRATED by HOSPITAL PATIENTS.

Fee for any portion, or for the whole Summer Course, PAYABLE IN ALL CASES DURING THE FIRST WEEK—\$20.

Full details as to the SUMMER SESSION WORK of 1891, will be published towards the end of the coming Winter Session.

To Intending Medical Students who propose beginning their Studies during the Summer Session.

Instruction will be given in the Anatomy of the Bones and Ligaments, in Elementary Physiology, Materia Medica, and in Elementary Chemistry. Those who take this work, which will be done in special Private Classes, will be well prepared for beginning next Winter Session, as it embraces the first year's work.

Primary work will also be taken up for those who desire it.

For Instruction in First Year's work, or for extra instruction in Practical Pathology, or in Primary Work, an extra fee will be charged.

MATRICULATION.

EVERY STUDENT WHO INTENDS PRACTISING IN ONTARIO IS ADVISED, BEFORE ENTERING UPON HIS MEDICAL STUDIES, TO PASS THE MATRICULATION EXAMINATION OF THE MEDICAL COUNCIL OF ONTARIO.

Since July 1st, 1888, this MATRICULATION consists of the SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH THE LATIN OPTION, and is conducted annually, in every High School throughout the Province of Ontario. In June, 1889, the Medical Council instructed the Registrar to apply to the Department of Education of Ontario, in order that can-

didates for MEDICAL MATRICULATION may be able to take the Second Class with Latin, without having previously taken the Third.*

A copy of the printed regulations, giving all detail of the Second Class Non-Professional Examination, can be obtained on application to the Education Department, Toronto. This examination is accepted by Trinity Medical College, Trinity University, the University of Toronto, and by all Canadian Universities.

Attention is called to the fact that the Medical Council dates the period of study, in every instance, from the time the student is registered on their official list as a matriculated medical student.

The Medical Council of Ontario requires that every one desirous of being registered as a matriculated student on its register, shall present to the Registrar of the Council the official certificate of his having passed the Examination entitling him to registration.

Students who previously to July 1st, 1888, have passed THE SECOND CLASS NON-PROFESSIONAL EXAMINATION ON ALL OTHER SUBJECTS, BUT WITHOUT THE LATIN OPTION, can complete the required examination by going up for the SECOND CLASS LATIN ONLY, to the examinations, held annually, at the various High Schools. The names of such students cannot be entered on the Medical Council's Register *till the Latin has been passed*. All such candidates must either go up for the LATIN of the "Second Class Non-Professional," or for that of the ARTS MATRICULATION, in any British or Colonial University, as this is also accepted by this Medical College and by the Universities, as well as by the Medical Council. Where a candidate from a distance who requires to take LATIN ONLY (having a certificate for everything else), prefers to do so, and who NEVER INTENDS TO PRACTISE IN ONTARIO, he can take the LATIN at the Matriculation Examination, held in October and March in each year, in Trinity Medical College, which is accepted by Trinity University as well as by Trinity Medical College. BUT EVERY CANDIDATE WHO INTENDS TO PRACTISE IN ONTARIO, WILL BEAR IN MIND THAT THE MEDICAL COUNCIL, SINCE JULY, 1888, ACCEPTS ONLY EITHER THE "SECOND CLASS" LATIN, OR THAT REQUIRED FOR THE ARTS MATRICULATION IN THE SEVERAL UNIVERSITIES.

Graduates in Arts, or Students who have matriculated in Arts in any University in Her Majesty's dominions, are exempt from any further matriculation examination, and are entitled to registration in TRINITY MEDICAL COLLEGE on payment of the fee

* This application has been successful.

of \$5, and to registration, as a student, at the College of Physicians and Surgeons of Ontario, on payment to the Registrar of that College of the fee of \$20.

From the foregoing, students will see that there are but two ways of being REGISTERED WITH THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO, as a matriculated student ; and they are specially asked to bear in mind that THIS REGISTRATION IS ABSOEUTELY REQUIRED FROM EVERY STUDENT WHO INTENDS PRACTISING HIS PROFESSION IN THE PROVINCE OF ONTARIO.

FIRST.—By having passed the THIRD CLASS NON-PROFESSIONAL EXAMINATION, WITH LATIN, PRIOR TO JULY 1ST, 1888 ; OR, AFTER THAT DATE, THE SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH LATIN ; or

SECOND.—BY BEING EITHER A GRADUATE, OR A MATRICULATE IN ARTS, IN A BRITISH OR COLONIAL UNIVERSITY.

Trinity University, the University of Toronto, Queen's University, Victoria University, and Trinity Medical College do not insist upon the matriculation examination being passed BEFORE attendance on medical lectures, but it is very strongly recommended that this should be passed as soon after entering as possible, where it has not been passed before—and in every case, where at all practicable, this should be attended to, before the passing of the second year's or PRIMARY Professional Examination.

A certificate of having passed the MATRICULATION EXAMINATION IN ARTS, or in MEDICINE, in any British or Colonial University, or of the Medical Council of Ontario, or that required by the various Colleges of Physicians or Surgeons in Great Britain and Ireland, or that of the College of Physicians and Surgeons of Quebec, or that of the Law Society of Ontario or Quebec, or having passed an examination, whether for a TEACHER'S CERTIFICATE in any of the PROVINCES of the DOMINION, or an examination EQUIVALENT to any of the above, is also accepted by Trinity Medical College, and by Trinity University.

Non-matriculated students from the Maritime Provinces, Manitoba and the North-West, the West Indies, or other British Colonies, the United States, or from any quarter, and who are non-residents of Ontario, and therefore do not take the Examinations of the Medical Council, may attend lectures in Trinity Medical College on payment of the fees. Should such non-matriculated students desire to graduate at Trinity University, or at any of the other Universities with which Trinity Medical College is affiliated, or to go up for the " Fellowship by Examination " Diploma, of Trinity Medical College, they must

THE PROPERTY OF
Trinity Medical College.

either pass the Trinity University Medical Matriculation Examination, given just below, or present a Certificate of having passed some other Matriculation Examination equivalent thereto in every respect.

The Matriculation Examination of either of the Universities with which this Medical College is affiliated, which is only required from Students who have not previously matriculated otherwise, and who do not intend to practise in Ontario, MAY BE PASSED AT ANY TIME BEFORE GRADUATION. Details as to these University Matriculation Examinations are given in this Announcement, under the proper headings.

Any students not otherwise matriculated, who desire to take the Fellowship Diploma of Trinity Medical College, or to graduate in Trinity University, or Queen's University, or Victoria University, will be required to pass an Examination on the following Subjects.

(1) Writing and Dictation, (2) English Language, including Grammar and Composition, (3) Arithmetic, (4) Algebra, including simple Equations, (5) Euclid, Bks. I., II., (6) Latin, Cæsar, *Bellum Gallicum*, Bks. I., II., or Bks. V., VI., or *Bellum Britannicum*, or Cicero, *de Lege Manilia*, or *Cato Major*; or Virgil, *Æneid*, Bk. II., (7) and any one of the following optional subjects, which may be selected by the Candidate (a) Scripture History; and St. Matthew's Gospel, ch. i.-ix. incl., in Greek (b) Greek, Xenophon's *Anabasis*, Bk. I., (c) French, Voltaire's *Charles XII.*, Bks. VI.-VIII., (d) German, Schiller's *Thirty Years' War*, Bk. I., (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics. (Balfour Stewart's *Physics* is recommended.)

Where more than one TEXT BOOK is named on any subject, as in Latin, the candidate may select the one upon which he may prefer to be examined.

THIS EXAMINATION which is that required by the Medical Council in Great Britain and Ireland, WILL BE HELD in Trinity Medical College ON THE SECOND FRIDAY AND SATURDAY IN MARCH, AND THE SECOND FRIDAY AND SATURDAY IN OCTOBER OF EACH YEAR. Applications may be made to the Dean of the Faculty of Trinity Medical College, till the evening of the day before the Examination.

All students going up for examination in Great Britain before the several Royal Colleges there, are required to present a certificate of having passed an examination in Elementary Mechanics. An examination on this subject will therefore be held at the Medical College in November of each year, at the same time as the Supplementary first year's Examination, when any students who intend going to Europe,

LECTURES.

CLINICAL AND DIDACTIC.

The several Professors and Lecturers will illustrate their respective courses by plates, preparations, models and specimens—including the application of the Laryngoscope, Ophthalmoscope, Sphygmograph, Spectroscope, etc., and the various forms of Electrical apparatus used in medicine. It will, as heretofore, be the constant aim of the Faculty to make the entire teaching of the College as practical and thorough as possible. In THIS COLLEGE, ever since its organization, throughout the entire session, FIVE Lectures have been given each week, on the principal subjects, viz: Anatomy, Physiology, Chemistry, Materia Medica, Medicine, Surgery and Midwifery, thus fully meeting the requirements of the Ontario Medical Council, and all the Boards in Great Britain and Ireland, which require that each course on the main branches shall consist of not less than **one hundred** Lectures. And on every subject the courses are made thoroughly PRACTICAL, and are fully illustrated.

CLINICAL TEACHING.

Clinical Teaching has always been carried out in every department of this College as fully as possible, and in view of its very great importance, SPECIAL and INCREASING attention continues to be given by the Faculty to this essential department of the course. It includes CLINICAL LECTURES, and teaching the diagnosis of Medical and Surgical Diseases at the bedside, nothing being of more value to those engaged in the study of medicine and surgery than a close and careful observation of the numerous cases in the Hospital wards. Arrangements were made years ago, and are now very perfect, which have largely increased the amount of clinical instruction given in the Toronto General Hospital, and afford to all students who attend it, as great facilities as are enjoyed in any part of Canada in this important part of their studies. Besides this the number of Hospital patients is very large. The College being CLOSE TO THE HOSPITAL, enables students to avail themselves fully of the many advantages there afforded for gaining practical knowledge.

In connection with the treatment of the out-door patients applying DAILY for advice and treatment at the TORONTO GENERAL HOSPITAL, an

OUT-DOOR patients' Clinic is given every day from 1 to 2.30 p.m. These patients are examined and prescribed for, in the presence of the students. An IN-DOOR patients' Clinic is also given daily, immediately after the other, from 2.30 to 3.30 p.m, the patients being brought before the students, and everything of importance pointed out by the Professors of Medicine and Surgery, as well as by the other members of the *Consulting* and *Acting Staff* of the Hospital. In addition to these, there is every day, making THREE HOURS AT LEAST OF CLINICAL WORK, a BED-SIDE CLINIC ON MEDICINE, and a BED SIDE CLINIC ON SURGERY, given by members of the Acting Hospital Staff. The students attend these bedside clinics in regular rotation.

All the CLINICAL Teachers on the Hospital Staff act conjointly, in giving daily instruction of the most practical kind to the students in the Hospital; and as there are no fewer than *twenty* such teachers, it is manifest that young men studying in Toronto receive an amount of practical instruction not excelled anywhere on the Continent.

The giving of special daily Clinics at the bedside, as above referred to, by all the Hospital teachers in turn, is a special feature of the greatest value, in addition to the Out-door and In-door Clinics above mentioned. Much importance is attached to this work, and the greatest care is bestowed upon it, so as to make it as profitable to the student as it can be made.

Special Clinical instruction will also be given by the Professor of Midwifery at the Burnside Hospital, and by other members of the Staff of the Hospital, on Diseases of Women and Children, and on Practical Midwifery, and special Practical Instruction at the Eye and Ear Department of the Hospital is also regularly given, as well as on Dermatology. The Diseases of Children may, during the Winter and Summer Session, be practically studied at the large Hospital for Sick Children, now approaching completion.

Trinity University and the Medical Council require CLINICAL EXAMINATIONS in Medicine and Surgery from ALL candidates for the FINAL examination, making careful CLINICAL study a necessity, throughout the entire course of study.

PRINCIPLES AND PRACTICE OF MEDICINE.

PROFESSOR GEIKIE.

This course consists of 100 Lectures, and embraces the following:—

I. The General Principles of Medicine, the Nature and Causes of Disease, the Symptoms and Morbid Changes which arise in the course

of disease, together with the principles governing the general treatment of disease, as well as the means to be used for its prevention.

II. The Classification of Diseases, and the Description of the affections of the different Organs and Structures throughout the body.

The Lectures will be very fully illustrated by the most recent plates, also by models, and morbid specimens from the Museum, as well as by fresh specimens from the Hospital post-mortem rooms, furnished by the Hospital Pathologists. Every care will be taken to show the students cases in the Hospital, illustrative of the Lectures. The numerous Hospital Clinics delivered both in the theatre and at the bedside, afford very abundant facilities for this most useful and very practical study.

PRINCIPLES AND PRACTICE OF SURGERY.

PROFESSOR GRASETT.

The Lectures on this branch, like all the other principal branches in this College, will number One Hundred. Surgical Pathology will be fully dwelt upon, and illustrated by preparations from the Museum of the College, by specimens from recent cases at the Hospital, and by those which may be obtained in practice, as well as by the best models and plates.

The course will include the Practice of Surgery, and Surgical operations. These operations will be performed before the Class, on the fresh Cadaver. Surgical Apparatus and Instruments will also be exhibited, and their uses pointed out to the students. In the Department of Surgery the Hospital will be used as largely as possible to illustrate the didactic teaching, by cases of all kinds, in the theatre, and in the wards.

MIDWIFERY, GYNÆCOLOGY, AND THE DISEASES OF CHILDREN.

PROFESSOR TEMPLE.

This Course will embrace the Principles and Practice of Obstetrics, and will be illustrated by Diagrams, by fresh and Preserved Specimens, the Artificial Pelvis, etc. The Principal Diseases of Women and Children will form an important portion of the work taken up.

In teaching the Diseases of Women, the Anatomy and Physiology of the Female Organs will be demonstrated, and the various methods of Examination will be fully described, the necessary instruments shown and their uses explained. The diseases peculiar to the sex will be considered as fully as time will permit, as follows:—Disorders of Men-

THE PROPERTY OF
Trinity Medical College.

struation ; Leucorrhœa , Pelvic Cellulitis and Peritonitis ; Lacerations of the Cervix Uteri and Perineum ; Urinary and Fæcal Fistulæ ; Inflammations of the Uterus ; Displacements of the Uterus ; Tumors of the Uterus ; Diseases of the Ovaries, etc.

The Lectures will be fully illustrated by plates, models and morbid specimens.

ANATOMY, DESCRIPTIVE AND SURGICAL.

PROFESSOR ROBERTSON.

The Course on Anatomy, Descriptive and Surgical, is made very complete, as this subject is unquestionably the very foundation on which all professional knowledge is based. It will be taught in the most practical manner possible. The relations of Anatomy to Pathology, Medicine, Surgery, etc., will be fully dwelt on, and in order to meet the increasingly stringent requirements of the various Medical Boards in these practical Departments of the subject, special instructions will be given by the Professor. The Lectures will be illustrated by the fresh subject, moist and dry preparations, sections, models, plates and original drawings.

The College has a large supply of Disarticulated Skeletons, as well as other preparations, and a complete collection of the best models of various parts of the body, to aid in the study and teaching of this all important branch. This collection has recently been largely increased by models imported from Paris.

To facilitate their study of Osteology, students can procure a supply of finely prepared imported bones from the Professor.

APPLIED ANATOMY.

PROFESSOR TESKEY.

The Lectures of this Course, which is now required by THE MEDICAL COUNCIL, are for FINAL students only, and will embrace the most important parts of Anatomy as applied to Medicine and Surgery. This practical course will be made more extensive during the coming season than heretofore, and it will be found of the greatest practical value. It will consist of FIFTY Lectures.

PRACTICAL ANATOMY.

DR. TESKEY, DR. G. A. BINGHAM, DR. N. A. POWELL, DEMONSTRATORS.

DRS. GORDON, WINNETT AND WATSON ASSISTANTS IN

PRACTICAL ANATOMY.

To the department of Practical Anatomy, so closely connected with Surgery, the greatest attention is paid, and the Demonstrators, with

the assistants in Practical Anatomy, will give daily attendance in the Dissecting Room, forenoon and afternoon, while dissection is going on. The Dissecting Room is large, perfectly lighted and ventilated; and under the newly amended Anatomy Act passed by the Ontario Legislature in 1889, an abundant supply of anatomical material is secured. It is the desire of the Faculty that each student should have every facility to acquire a thoroughly practical knowledge of Anatomy in the Dissecting Room, where alone it can be properly studied. Every student will be closely examined on the parts he dissects, and his standing in Practical Anatomy at the close of the first session will be determined by his standing at the above examinations during the winter.

All Pathological Specimens or Abnormalities, found in subjects in the Dissecting Room are the property of the College, and are added to the Museum for the benefit of all the students.

PHYSIOLOGY, INCLUDING HISTOLOGY.

PROFESSOR SHEARD.

This Course will embrace a description of the Elementary Tissues of the Body; the Structure of the various Organs and Glands; also the functions of Respiration, Circulation, Digestion and Nutrition, Secretion and Excretion. Special attention will be given to the nervous System, and to Embryology, and Development. The last will be fully illustrated in all its stages by specimens.

The Physiological Laboratory is furnished, regardless of expense, with all the best modern appliances necessary for the practical study of this subject. Amongst the apparatus imported for this Laboratory are a DuBois Raymond's Coils, DuBois Raymond's Keys, Foster's Moist Muscle Chamber, Revolving Drum Cylinders, Galvanometers and Scale, Electrodes, Exciters, Mercurial Keys, Stricker's Warming Stages, Hot Air Baths, etc., and further additions are being made from year to year.

Microscopic Anatomy will receive ample attention from the several lecturers upon the branches in which the microscope is employed; and in addition to this, very complete Courses of Instruction will be given upon Microscopy, and the use of the Microscope in connection with Normal and Pathological Histology, BOTH OF WHICH SUBJECTS ARE NOW REQUIRED BY THE MEDICAL COUNCIL. A large number of the best Microscopes from Europe is provided. The various methods of injecting, staining, mounting, etc., receive special attention.

THE PROPERTY OF
Trinity Medical College.

GENERAL CHEMISTRY AND CHEMICAL PHYSICS.

PROFESSOR KIRKLAND.

In this Course of 100 Lectures, the general principles of Chemistry will be fully discussed, and the laws and theories deduced from suitable experiments. Great pains will be taken to point out its relations and applications to Physiology and other departments of medical science. Physics including, Heat, Light, and Electricity, will be discussed both theoretically and experimentally, as far as they bear upon, or are connected with, Chemistry.

The Lectures on both Inorganic and Organic Chemistry will deal more particularly with those substances and compounds of special interest to students in Medicine and Pharmacy. Towards the end of the course a number of lectures will be devoted to Medical Chemistry. The whole subject will be illustrated by numerous experiments, charts and drawings, every facility being offered students for acquiring a thorough knowledge of these branches. Professor Stuart will take up the Chemistry of the metals.

PRACTICAL AND ANALYTICAL CHEMISTRY.

PROFESSOR STUART.

Practical Chemistry is taught very thoroughly, under the personal supervision of the Professor. In view of its growing importance, great care has been bestowed on the fitting up of this Laboratory, and the Course will include experiments of various kinds, qualitative and quantitative analysis, etc., etc. In view of the many cases of poisoning coming before the courts of law, Toxicology will have much attention paid to it—no pains being spared to prepare students for the grave responsibilities which such cases impose upon them as practitioners. Each student will be supplied with the requisite re-agents and apparatus, and the course will be adapted to meet the demands of the physician in his daily practice. Special attention will be devoted to URINALYSIS, also to the normal and abnormal constituents of the animal fluids—to Tests for Blood, for Bile, for Albumen, etc.—as well as to the other departments of Medical Chemistry.

MATERIA MEDICA AND THERAPEUTICS, WITH THE THEORY AND ART OF PRESCRIBING.

PROFESSOR DAVISON.

All important drugs used in Medical, Surgical or Obstetrical Practice will be described, and their properties, preparations and doses given.

Special attention will be devoted to the therapeutic action of remedies in disease, and the course will be illustrated by SPECIMENS OF THE DRUGS DESCRIBED. The course of *Materia Medica* proper is very complete, and one of its special features will be the description and *modus operandi* of all valuable new remedies, as well as the theory and art of prescribing.

It is desirable, in the present state of medical science, that much attention should be given to the physiological action of medicine. As much time will therefore be devoted to this part of the subject by the Professor, as may be compatible with giving a complete course on the whole subject.

MEDICAL JURISPRUDENCE.

PROFESSOR COVERNTON.

The Course includes : I. *Medical Evidence generally* ; including documentary and oral evidence, identification, real and apparent death, exhumation, autopsies.

II. *Medical Evidence specially*, including—

(a) *Wounds* and other external injuries, blood stains, death by apnoea, as hanging, strangulation, suffocation and death by drowning.

(b) *Offences against Chastity*. Rape and concealment of pregnancy, criminal abortion, infanticide.

(c) *Insanity*, feigned diseases, impotence and sterility, legitimacy, survivorship, life assurance, malpractice.

SURGICAL APPLIANCES.

This course consists of twenty Demonstrations upon minor Surgery and Bandaging. The *technique* of Antiseptic Wound treatment. The selection and uses of the various instruments required in general and in special practice. The making and fitting of splints in Fracture treatment. The fitting of Trusses, and of the Apparatus used in Orthopedic Surgery. The application of Plaster of Paris, and other Permanent Dressings. The methods of inducing local and general Anæsthesia. The Medical and Surgical uses of Electricity. The use of the Photographic Camera in Medical Practice, etc., etc.

This course is an optional one, and the fee is payable once only. Third year, as well as all Final Students, should take it.

SANITARY SCIENCE AND PUBLIC HEALTH.

DR. T. S. COVERNTON.

A Course of Lectures will be delivered on this subject, attendance upon which is now compulsory. The course comprises lectures upon

THE PROPERTY OF
Trinity Medical College.

Air—Its chemistry, including the constituents and impurities of external and internal atmospheres, and the chemical and biological analysis. The physics of air, and the influence of temperature, moisture, and heating. Its meteorology with special reference to winds, malaria, deforesting, and transmission of diseased germs.

Water—Its chemistry, impurities and analysis.

Meat—Its constituents and various diseased conditions.

Milk—The constituents, impurities, their source, adulteration, and inspection.

Cheese—Same as milk.

Canned Meats—Their constituents, impurities, adulterations, changes, analysis and inspection.

Fruits—Fresh and preserved.

Soil—Its constituents, impurities, pollution, examination, methods of purification, cultivation, sewerage, drainage, and how to prevent pollution.

Preventable Diseases—Origin and causes, methods of communication, methods of prevention, quarantine and investigation.

Municipal Sanitation—Sanitary law, vital statistics, house construction, plumbing inspection, road building, conduct of factories, isolation, hospitals, cemeteries, crematories, over-work and over-crowding.

School Hygiene—Technical and physical training, regulation of studies, heating and light.

PATHOLOGY.

PROFESSOR TESKEY.

The teaching upon this subject will include Pathology, and Pathological Histology, and Bacteriology, with methods of cultivation, sterilization and inoculations on the lower animals, and will be abundantly illustrated.

In addition to this, ample opportunities for the study of Pathology are afforded to the students, at the Post Mortem Examinations, made in the Hospital by the member of the Faculty who is one of the Pathologists of that institution, and also by other members of the Hospital Staff.

OPHTHALMOLOGY AND OTOLOGY.

PROFESSOR RYERSON.

Special Lectures will be given at the Medical College on Diseases of the Eye, Ear and Throat. An entire wing of the Hospital recently built is specially appropriated to Eye, Ear, and Throat cases.

LARYNGOLOGY AND RHINOLOGY.

DR. E. A. SPILSBURY.

A practical course of Lectures on Diseases of the Throat and Nose, illustrated by cases, plates, models, etc., will be given.

A Special Throat and Nose Department has been fitted up in the East Wing of the Hospital, where Clinical Instruction will be given TWICE a week.

PRACTICAL INSTRUCTION IN OPHTHALMOLOGICAL AND OTHER APPLIANCES.

DR. D. J. GIBB WISHART.

Instruction will be given in the College, in the practical use of instruments employed in Diseases of the Eye, Ear, Throat and Nose. Dr. Wishart will form a class for students who desire in this way to become practically familiar with all the Appliances used in the special diseases of these parts. This class is an optional one, but will be found of great practical value.

PRACTICAL PHARMACY.

PRINCIPAL, E. B. SHUTTLEWORTH.

This course has been established to meet the requirements of the Medical Council's Examination on Pharmacy, and it will be of much value in preparing the candidates for the Examination of the Council. The students will have every possible advantage in studying the subject. The teaching will have reference principally to the compounding and dispensing of drugs, and the making up of Prescriptions of all kinds—including powders, mixtures, ointments, plasters, pills, suppositories, etc. Incompatibles will also be pointed out, and the instruction in this department will be of the most practical and useful character, and a certificate of having attended this course of Practical Dispensing will be given to students who have attended it, who may desire to go before the Medical Council, or any of the Universities where such a certificate is required.

MEDICAL PSYCHOLOGY.

BY DR. DANIEL CLARKE, MEDICAL SUPERINTENDENT AT THE PROVINCIAL LUNATIC ASYLUM.

A course of Lectures, open to all who desire to take it, will also be delivered on Medical Psychology, at the ASYLUM, for the special benefit of gentlemen who desire to graduate wherever this course is demanded.

THE PROPERTY OF
Trinity Medical College.

ZOOLOGY, ETC.

A. Y. SCOTT, B.A., M.B., TORONTO UNIVERSITY, M.D.C.M., TRINITY UNIVERSITY.

A course of Practical Zoology is given IN THE COLLEGE, for the special benefit of gentlemen who desire to graduate wherever such a course is required. The lectures embrace the morphology and classification of the various sub-kingdoms, classes, etc., of the Animal Kingdom, also the special practical study of several type-forms.

BOTANY.

PROFESSOR KIRKLAND.

In the course on Botany, the general principles of the science will be fully developed, and its relation to medicine constantly kept in view. The lectures will be illustrated by fresh specimens, diagrams and models. The aim will be not only to make it useful, in its application to medicine, but also to train the mind to that kind of research which is essential to successful medical study.

TRINITY MEDICAL COLLEGE.

PROFESSIONAL EXAMINATIONS.

Professional Examinations will be conducted at the close of the 1st, the 2nd, and the last session, to be known as the *first year's*, the *primary*, and the *final* Examinations, respectively.

I. The First Year.—**Anatomy** of the Bones, Ligaments, Muscles, also the Viscera of the Abdomen and Thorax. All candidates for this Examination must present a certificate of having dissected carefully an Upper and a Lower extremity, and **MUST PASS PRACTICAL EXAMINATIONS** on the parts dissected.

The Physiology of the elementary tissues, *e.g.*, Connective tissue, Protoplasm, and Cells; also of Respiration, Circulation and Digestion.

Materia Medica.—Drugs and their preparations.

Chemistry, Inorganic, including Chemical Theory.

Physics.—Heat, Light, and Electricity.

Botany.

A certificate of having passed this examination is required by Trinity University, Trinity Medical College, and the Medical Council.

A Supplementary First Year's Examination will be held **Annually** on the first Saturday in November.

II. The Primary.—Descriptive Anatomy, Physiology, and Microscopic Anatomy, Chemistry, Theoretical and Practical, Toxicology, Botany (when it has not been passed at the end of the first year), and Materia Medica.

The Primary Examination may be passed at the close of the second Winter Session. A certificate of having passed it in Trinity College, or in any recognized British or Canadian Medical College, School or University, or at the College of Physicians and Surgeons of Ontario, will be accepted by this College.

III. The Final.—Theory and Practice of Medicine, and Medical Pathology, Principles and Practice of Surgery, Medical and Surgical Anatomy, Midwifery, and diseases of Women and Children, Medical Jurisprudence, and Sanitary Science.

CERTIFICATES OF HONOR.*

Certificates of Honor are awarded annually in all the Professional Examinations to Candidates who obtain **not less than 75 per cent.** of the total number of marks.

SCHOLARSHIPS.*

There are **Five Scholarships** offered for competition in this College, as follows:—

First Year.—Three First Year's Scholarships known respectively as **FIRST, SECOND** and **THIRD**, will be competed for at the close of the **First Session**. The value of these Scholarships is \$50, \$30, and \$20 respectively.

Second Year.—Two Second Year's Scholarships, known respectively as the **FIRST** and **SECOND**, are open to competition at the close of their second **Winter Session**, to all students who have taken out their entire Primary Course at this College. The value of these Scholarships is \$50 and \$30 respectively.

Scholarships will be awarded only to the candidates who stand highest in the Honor lists of the **First** and **Second** years respectively.

MEDALS.*

A **GOLD** and **TWO SILVER MEDALS**, known as the "**TRINITY MEDICAL COLLEGE MEDALS**," are open to competition annually at the close of their

* N.B.—Breach of the regulations, on page 31, will disqualify any candidate from receiving a **MEDAL, SCHOLARSHIP, or other HONORS** in this College.

FOURTH winter session, by students undergoing examination in the College in the FINAL BRANCHES. They will be awarded to the gentlemen who stand FIRST, SECOND and THIRD respectively on the Honor list. All students competing for them must have attended at least two full courses of lectures, out of the FOUR required, in this Medical College, and must have paid all fees for the same.

FELLOWSHIP DIPLOMAS.

Under the authority of the Special Act of the Legislature, incorporating the College, Diplomas will be awarded at the close of the Final Examination, to candidates whose standing has been sufficiently high to merit them. These Diplomas constitute students who obtain them "FELLOWS BY EXAMINATION" of Trinity Medical College, and such "FELLOWS" are allowed in Great Britain the same privileges as are there accorded to holders of Degrees in Medicine, from Colonial Universities, by the Royal College of Surgeons of England, the Royal College of Physicians of London, the Royal College of Surgeons, and the Royal College of Physicians of Edinburgh, and the King's and Queen's College of Physicians of Ireland; and also by the Conjoint Examining Boards in London and Edinburgh.

No candidate is allowed to present himself for examination for the SCHOOL FELLOWSHIP DIPLOMA who has not passed a recognized Matriculation Examination, and spent FOUR entire years in pursuit of Medical Studies, and attended during that time TWO FULL COURSES OF PRIMARY, and TWO FULL COURSES OF FINAL LECTURES during FOUR Winter Sessions. Attendance on not fewer than FOUR Sessions is in ALL cases (except in the cases of graduates in Arts) absolutely insisted on by the Medical Council. All students who are not graduates in Arts, or in Science, of a British or Colonial University, who entered Trinity Medical College as freshmen for Session 1889-90, and subsequently, will be required to present evidence of having attended Lectures for FOUR WINTER SESSIONS, either in this or in some other recognized Medical College, before being permitted to present themselves for their Final Examination; and at least ONE Winter course must be attended at this College.

A Certificate of good moral character is required from each candidate.

The obtaining of this Diploma—which is the Faculty's certificate of Qualification—or any of the other Honours granted by the school, is a guarantee of high professional attainments on the part of those who hold them. In every case successful Candidates for the

Fellowship Diploma must be present in person, to have it presented, and to enrol their names in the official list of Fellows.

THE FELLOWSHIP DECLARATION.

The following is the declaration made by all who receive the Diploma and are admitted, after examination, to the "FELLOWSHIP OF TRINITY MEDICAL COLLEGE." It is much the same as that made by successful candidates in some of the higher Colleges in Great Britain:—

"We, the undersigned, who now publicly receive the Diploma of Trinity Medical College, and are admitted '*Fellows by Examination*' of that Incorporated Medical Body, do solemnly and sincerely declare that we will exercise the several duties of our profession in its various branches to the best of our knowledge and ability, for the good, safety, and welfare of all persons committing themselves, or who are committed to our care and direction; and that we will not, knowingly, or intentionally, do anything, or administer anything to their hurt, or prejudice, for any consideration or from any motive whatever.

"We further declare that we will not divulge anything we may have seen, or heard, while visiting the sick, which it would be improper to divulge. We shall, moreover, do anything in our power to uphold the honour, and to promote the welfare of the Medical College whose Diploma we now receive, and to the FELLOWSHIP of which, we are hereby admitted."

THE PROPERTY OF

Trinity Medical College.
HOSPITALS.

THE TORONTO GENERAL HOSPITAL.

This institution, which is, in every respect, under the best and most efficient management, is now so greatly enlarged as to be capable of accommodating 300 patients in the various buildings on the grounds, and is visited daily by the medical officers in attendance. The patients—extern and intern—are examined and prescribed for in presence of the students. The operating theatre is well lighted, having been recently greatly improved, and the seats are arranged so as to enable the students to see the successive steps of the numerous operations performed. The theatre is, also, through the courtesy of the Trustees used daily as a lecture room for the delivery of Clinical Lectures. It has

been recently greatly enlarged and remodelled, and is the largest and finest hospital theatre in the Dominion, and is not surpassed anywhere for accommodation, light, and convenience. It is capable of seating 500 medical students. Under existing arrangements, the Clinical Course, both in Medicine and Surgery, is very full; and all the numerous Lectures delivered in the Hospital, by the various members of the Hospital Staff, are open to every student who has taken out his Hospital and Clinical Lecture tickets. Toronto being the great railway and manufacturing centre of Ontario, accidents requiring operation are of frequent occurrence. The attendance of out-door patients daily is also very large and increasing, and abundant opportunities are enjoyed by students for acquiring a familiar knowledge of Practical Medicine and Surgery, including not merely major operations, but minor Surgery of every kind—ordinary Medical Practice, the treatment of Venereal Diseases, Skin Diseases, and the Diseases of Women and Children.

Fever Hospital.—A large building has been erected in the Hospital grounds where the treatment of fevers can be practically and profitably seen and studied.

The Eye and Ear Hospital is now on the same grounds, giving unprecedented advantages to students desirous of making a special study of the diseases of these important organs. This institution is fully equipped with every modern appliance.

Burnside Lying-in Hospital.—This Hospital is also on the Hospital grounds, making it very convenient for students attending its practice, and affording special and valuable facilities for the study of practical midwifery. One of the medical officers will be in daily attendance for the purpose of giving instruction to students. Students who have attended one course of Lectures upon midwifery, and who have taken out the ticket for this Hospital, are furnished with cases in rotation.

Toronto Dispensary.—From 5,000 to 6,000 patients are yearly treated at this institution. The cases are of great variety, comprising a large number of pulmonary affections and children's diseases. Minor operations are of daily occurrence and excellent practice is afforded in the application of splints and bandages. The hours of attendance are from twelve to one daily. This institution with all its advantages is open to students, and the attending Physicians furnish them with all possible facilities.

APPOINTMENTS OPEN TO STUDENTS.

Hospital Assistantships.—The Board of Trustees of the Toronto General Hospital annually appoint THREE students of this College as Hospital Assistants. These positions are of great practical value and the recommendation for them from the Faculty will be given to those students whose attainments and standing at the various examinations, and whose moral character are such as will render them capable of discharging satisfactorily the duties belonging to the appointment.

Clinical Clerks and Dressers.—The members of the Faculty who belong to the Acting Hospital Staff, will each appoint two or more students to act as Clinical Clerks and Dressers, whose duties are to take notes of the cases under treatment, and to carry out such directions as they may receive from the Professors. These positions are tenable for three months, and are of very great practical utility. Under the above arrangements, each of the Medical Officers who belong to the College is able to appoint at least four students during each session. No student can act as Clinical Clerk for longer than ONE period of THREE months during the same session.

Prosectors.—There will be appointed annually two students who have distinguished themselves as Practical Anatomists, as Prosectors, who will have the great advantage of assisting to prepare the material required for the lectures on Anatomy.

THE PROPERTY OF
Trinity—Medical College.

LECTURE FEES.

Anatomy, Surgery, Practice of Medicine, Obstetrics, Materia Medica, Physiology, General Chemistry, Clinical Medicine, and Clinical Surgery, \$12 each; Applied Anatomy, \$10; Practical Anatomy, Practical Chemistry, Normal Histology, and Pathological Histology, \$8 each; Medical Jurisprudence, \$6; Botany and Sanitary Science, \$5 each; Registration, payable once only, \$5.

Optional Branches.—Surgical Appliances,—Zoology,—Medical Psychology,—Eye, Ear, Throat and Nose Appliances, \$5 each.

All students, after having attended and paid the fees for two full courses of lectures in any branch, shall be entitled, without further charge, to a perpetual ticket for that branch, except the following:—

Practical Anatomy, Practical Histology (Normal, or Pathological), and Practical Chemistry, every course of which, if attended, must be paid for. Botany and Sanitary Science are charged for once only.

All fees to be paid strictly in advance.

For the Information of Students the Fees may be Distributed according to years as follows:

LIBRARY.

The Library is large and is being added to every session. Last session many new and valuable books by the best authors were procured, and the intention is to have a copy of every standard work on Medicine, Surgery, Midwifery, etc.

MUSEUM.

Special care has been taken in regard to the Museum in order to make it useful, not only to the members of the Faculty in the teaching of their respective departments, but also, as far as is possible, to the student himself in getting up his work. Great expense has been gone to by the College in procuring Skeletons, Preparations, Models, Apparatus, etc., and the collection is not surpassed by that of any Medical Institution in the Dominion. In fact, while, at whatever cost, nothing *practically useful* has been omitted, the mere multiplying of specimens of no *practical* value has been studiously avoided.

A large and constantly increasing number of specimens gathered from hospital and private practice has been collected during past years, which are used in illustrating the several lectures of the course. A considerable number of the very finest models and preparations, from Paris, have recently been added to the Museum, which is growing rapidly in size and in practical value.

THE PROPERTY OF
Trinity Medical College.

The Museum has been lately still further enriched by the addition of a very large number of the specimens of the drugs most commonly used in medicine, including the Alkaloids. The greatest care has been taken in the selection of these, and they are arranged in their orders, as required by the Examining Boards in Great Britain and Ireland, so as to be readily studied by the students.

Students and friends of the College may greatly benefit it, and advance the interests of medical science, by sending to the Museum, as many have already done, any interesting specimens they may meet with in practice. They may be sent by express addressed to Professor Robertson, Curator of Museum, **Trinity Medical College, 41-7 Spruce Street, Toronto.**

The Curator will be in attendance at stated times, to give all required information to students regarding specimens and preparations.

GENERAL MATTERS.

The Faculty, in order to give intending students every information, have appended to this announcement the latest requirements of the College of Physicians and Surgeons of Ontario, before the Board of which all who desire a license to practise in Ontario, whether graduates or not, must present themselves.

Gentlemen who hold Certificates of Registration as qualified practitioners in Great Britain, are entitled to registration by the Medical Council in Ontario, on payment of the same fees, and passing the same examinations before the Medical Council, as are required of all Canadian graduates.

All Ontario students who intend practising in their own Province, are required to take the Examinations of the Council, whether they intend going into practice immediately after graduating, or going to Europe for a time, to pursue their studies still further.

The requirements for graduation in each of the various Universities with which this school is affiliated will be found at the end of this Announcement. **IT IS THE PRIVILEGE OF THE STUDENTS OF THIS COLLEGE THAT THEY MAY PRESENT THEMSELVES FOR EXAMINATION FOR DEGREES IN MEDICINE AT ANY ONE OR MORE OF THESE UNIVERSITIES.** Those who desire to proceed to Great Britain, after finishing their studies here, will find Trinity Medical College fully recognized by all the Medical Institutions, Hospitals, and Examining Boards of the mother country.

The Treasurer or some other member of the Faculty will be in attendance at the College on Wednesday, September 24th, 1890, and the

following days, up to the day of the opening of the session, from 10 a.m. till 12 noon, and from 2 till 4 p.m., to register the names of intending students, and to give such information regarding Lectures, etc., as may be required.

For further information, or for copies of this Announcement, apply to W. B. GEIKIE, M.D., *Dean*, Holyrood Villa, 52 Maitland Street, Toronto.

Board may be obtained in the vicinity of the School at rates varying from \$3 to \$4 or \$5 per week, according to the accommodation required.

REGULATIONS FOR STUDENTS.

(To which special attention is requested.)

I. Students are required to conduct themselves in an orderly manner in the Lecture rooms, AT ALL TIMES, not only DURING LECTURES, but also when neither Lectures nor Demonstrations are going on.

II. In the case of noisy, or other disorderly conduct, or of doing wilful injury to College property, any student may, at the discretion of the Professor or Lecturer, be required to leave the Class room. Persistence in this, or in any other offence against discipline, after admonition by the Professor or Lecturer, shall be reported to the Dean of Faculty. The Dean may, at his discretion, reprimand the student, or refer the matter to the Faculty at its next meeting, or, he may suspend such student, or students, from attending the Classes till the decision of the Faculty has been reached. SUCH CONDUCT ABSOLUTELY DISQUALIFIES A STUDENT FROM COMPETING FOR MEDALS, SCHOLARSHIPS, OR FOR ANY HONOURS.

III. While in any part of the College building, students are required to conduct themselves in the same orderly manner as in the Class-rooms.

IV. When students are brought before the Faculty under these regulations, they may be (a) reprimanded, or (b) suspended from classes, or (c) summarily expelled, according to the circumstances of the case.

V. Regular and punctual attendance on all lectures taken, is expected from every student. Non-attendance to any considerable extent, unless from illness, or from some other unavoidable cause, will prevent the tickets being certified at the end of the session.

VI. Damage done to College property must in every case be made good by the party who does the damage.

FINAL EXAMINATION for the Degree of M.D.C.M.

F. R. Clarke, Gold Medalist.

R. M. Hillary, Silver Medalist.

Certificates of Honor, 75 per cent. and upwards.—F. R. Clarke, R. M. Hillary, R. Hill.

First-Class Honors.—R. J. Niddrie, E. J. Boyes, A. J. Murchison, J. W. S. McCullough, A. Ross, J. R. Macdonald, C. McCue, C. B. Oliver.

Second-Class Honors.—C. A. D. Fairfield, A. H. Speers, J. Lockridge, J. F. Dolan, H. H. Gray, L. E. Rice, J. M. Sifton, J. F. Uren, T. B. Richardson, C. B. Caughlin, H. T. Arnall, J. H. Bell, E. T. Boyes, F. J. Ewing, A. P. Ardagh, O. E. McCarty, M. McClelland, E. R. Morton, R. F. Hay, D. McLeod, W. S. Ferguson, G. Harrison, R. L. Langstaff, F. Preiss, H. W. Welch, G. J. Tweedie, J. C. Bell, W. Wight.

Passed.—F. A. Drake, E. H. Webster, L. E. Morgan, W. A. Gray, J. Honsberger, J. B. Rogers, W. J. Fletcher, W. C. B. Murray, G. Wright, W. A. Jones, J. A. Dinwoody, D. K. McQueen, J. A. McGregor, J. C. Auld, A. C. Beatty, J. D. Berry, H. S. Smith, W. J. Alexander, J. D. Reid, J. A. Mills, W. A. Sargent, J. J. Gee, W. O'Connor, C. W. Morey.

Passed in Surgery, Clinical Medicine, Midwifery and Medical Jurisprudence.—J. G. Jardine.

Passed in Medicine, Clinical Medicine, Clinical Surgery.—W. A. Thomson.

Primary Examination.

D. Beattie, 1st Silver Medal.

H. L. Barber, 2nd Silver Medal.

Certificates of Honor, 75 per cent and over.—D. Beattie, H. L. Barber, H. B. Anderson, H. C. Parsons, R. G. Wallace, J. J. Thompson, W. E. Mathew, D. McEachern, A. S. Tilley, A. Quackenbush, W. Cousens, T. M. Williamson, W. E. Brown.

First Class Honors.—J. W. Brien, A. P. Chalmers, W. H. Millen, R. M. Mitchell, W. E. Sitzler, W. E. Ogden, H. J. Orchard, R. M. Curts, W. Northrup, D. C. Jones.

Second Class Honors.—W. Potter, J. W. Mitchell, R. E. Cooper, W. M. Robertson, H. Morell, Edward Blake Blain, G. K. McDowell, D. A. McPherson, H. Robins, F. L. Switzer, E. F. McCullough, A. W. Allingham, W. O'Connor.

Passed.—D. B. Alexander, T. M. Allan, W. J. Awty, D. B. Bentley, E. O. Bingham, R. A. Buck, A. M. Cleghorn, G. W. Davidson, R. G. Feek, A. Flath, J. G. Jardine, A. P. McLaren, F. C. Merritt, A. L. Murphy, F. C. Spilsbury, W. A. Macpherson, J. W. White.

UNIVERSITY OF TORONTO.

FIRST CLASS.—*70 per cent. and over* :—Robert Menzies Mitchell, Herbert James Orchard, Robert Morison Curts, William Northrup.

SECOND CLASS.—*60 per cent. and over* :—Robert Edmund Cooper, Harry Morell, Edward Blake Blain, Henry Robins, Wm. E. Switzer.

PASSED.—Thomas Martin Allan, George Walker Davidson, Arthur L. Murphy, David B. Alexander, W. A. McPherson, F. C. Spilsbury.

Final Examination (Fellowship Degree).

CERTIFICATES OF HONOR—*Candidates who obtained 75 per cent. and over* :—John S. W. McCullough, John M. Sifton, James Ross Macdonald, Francis Richard Clarke, Alexander Ross, Francis James Ewing.

FIRST CLASS—*70 per cent. and over* :—Alexander John Murchison, Edwin Joseph Boyes, Roland Hill; Henry Head Gray and Robert James Niddrie, equal; James Francis Dolan, Austin Hager Speers; Harry Thompson Arnall and Chas. Baird Oliver, equal; Francis A. Drake; Robert Michael Hillary and Ralph Fraser Hay, equal; Leonard Eben. Rice, Thomas Bedford Richardson.

SECOND CLASS—*60 per cent. and over* :—Christopher McCue, Wm. John Fletcher, Owen Eugene McCarthy; John Franklin Uren and Loftus Elemore Morgan, equal; John A. Dinwoody; John A. McGregor and Henry Walmsley Welch, equal; Anslie Power Ardagh, John C. Auld, Ralph Lewis Langstaff, Alexander Carruthers Beatty.

PASSED—W. G. Alexander, John Joseph Gee, William Anson Jones, James Lockridge, Edward Reginald Morton, Robert McGee, John A. Mills, Frederick Preiss, Willis A. Sargent.

SPECIAL PRIZE.

The Special Prize for the highest in Physiology of the First Year. Value, \$25.00.—Avery Barnes McGill, standing 96 per cent. in Physiology.

SCHOLARSHIPS.

The 1st First Year's Scholarship, \$50, (Standing, 89 per cent.)—John Thomas Robinson.

The 2nd First Year's Scholarship, \$30, (Standing, 86 per cent.)—Charles Buckingham Shuttleworth.

The 3rd First Year's Scholarship, \$20, (Standing, 85 per cent.)—James Albert G. Wilson.

The 1st Second Year's Scholarship, \$50, (Standing, 88 per cent.)—David Beattie.

The 2nd Second Year's Scholarship, \$30, (Standing 87 per cent.)—H. L. Barber.

MEDALS.

The Second Trinity Silver Medal, (Standing, 81 per cent.)—J. R. Mac-

The First Trinity Silver Medal, (Standing 82 per cent.)—J. M. Sifton.

The Trinity Gold Medal, (Standing 86 per cent.)—J. W. S. McCullough.

TRINITY MEDICAL COLLEGE.

MEDICAL, LITERARY AND SCIENTIFIC SOCIETY.

Patrons and Honorary Members, Professors and Lecturers of Trinity Medical College.

Honorary President—Walter B. Geikie, M.D.C.M. DCL., Dean of the Faculty.

Representative of Faculty—Dr. G. A. Bingham.

President, A. Ross ; *1st Vice-President*, D. Johnson ; *2nd Vice-President*, W. H. Robertson ; *3rd Vice-President*, R. E. Macdonald.

Committee—J. A. Dinwoody, Jas Sutherland, A. M. Cleghorn, H. G. McGill.

Secretary—D. Johnson.

The 1st Year's-men elect their representatives at the first meeting, which is held in October, 1890.

This Society met several times throughout the session, at regular intervals, for reading and discussing papers on Medical, Literary and Scientific subjects, and gave several public entertainments of a literary and musical character during the season. The meetings were exceedingly successful, and it is hoped that it will be even more so, during the coming session.

Trinity Medical College.
TRINITY UNIVERSITY.

(INCORPORATED BY ROYAL CHARTER.)

RULES AND REQUISITES FOR GRADUATION.

DOCTOR OF MEDICINE AND MASTER OF SURGERY.

The candidates for this degree must have matriculated in one of the following ways :

- (a) By having passed the Matriculation Examination in Arts or Medicine of Trinity University, or of some other recognized University.
- (b) By having passed the Matriculation Examination accepted by the College of Physicians and Surgeons of Ontario, or Quebec, or that of the Law Society of Upper Canada.
- (c) By having passed an Examination recognized as equivalent to any of the above.

The subjects of the Medical Matriculation Examination are :

- (1) Writing and Dictation.
- (2) English Language including Grammar and Composition.
- (3) Arithmetic.
- (4) Algebra including Simple Equations.
- (5) Euclid, Bks. I., II.
- (6) Latin, Cæsar, *Bellum Gallicum*, Bks. I., II., or Bks. V., VI. ; or *Bellum Britannicum* ; or Cicero, *de Lege Manilia* ; or Virgil, *Æneid*, Bk. II.

(7) And any ONE of the following subjects, to be selected by the candidate.

(a) Scripture History ; and St. Matthew's Gospel, chap. 1.—ix. incl. in Greek.

(b) Greek, Xenophon's Anabasis, Bk. I.

(c) French, Voltaire's Charles XII., Bks. VI. VIII.

(d) German, Schiller's Thirty Years' War, Bk. I.

(e) Natural Philosophy, including Mechanics, Hydrostatics, and Pneumatics. (Balfour Stewart's Physics is recommended.)

The Candidate for Degrees in Medicine or Surgery must be of the full age of twenty-one years, and present a certificate of good moral character.

All Candidates who have registered with the University after March 1st, 1890, must produce certificates of having pursued medical studies for a period of *four* years, and during that time of having attended Medical Lectures during *four winter sessions*, in any of the Medical Colleges affiliated with, or which are recognized by, Trinity University. Graduates in Arts or in Science will be only required to attend *three winter sessions*.

During the four years he must have attended TWO courses of Lectures of six months each, on Descriptive Anatomy, Practical Anatomy General Chemistry, Materia Medica and Therapeutics, Physiology, including Histology, and ONE course of three months on each of the following subjects :—Botany, Practical Chemistry, including Toxicology.

The above Lectures must have been attended, and the first year's Examination must have been passed in a recognized Medical College or School, before the candidate can be admitted to the Primary Examination in Medicine.

He must further have attended TWO courses of Lectures of six months each, on Theory and Practice of Medicine, Pathology ; Principles and Practice of Surgery ; Midwifery and Diseases of Women and Children ; and two courses of three months each on Medical Jurisprudence, and ONE course on Sanitary Science.

He must have attended for at least *eighteen* months the practice of some General Hospital, and during two sessions, Clinical Lectures on Medicine and Surgery, and one course of Lectures, during his third or fourth Winter Session, on Medical and Surgical (*i. e.*, applied) Anatomy.

He must have attended for at least six months the practice of a Lying-in Hospital, or give satisfactory evidence of having otherwise

enjoyed equivalent advantages of gaining obstetrical knowledge, with a certificate of attendance upon at least six cases of labour.

He must have passed two University Examinations, called the Primary and Final Examinations in Medicine.

EXAMINATIONS.

The **Primary Examination** may be passed at the end of the Second year. The subjects are Anatomy, Physiology, including Histology, Chemical Physics and General Chemistry, Practical Chemistry, *Materia Medica* and Therapeutics, Toxicology and Botany, unless where this has been passed at the First Year's Examination, at the end of the First Winter's Session.

The Primary Examinations of other recognized Universities, and that of the College of Physicians and Surgeons of Ontario, Quebec, or Manitoba, will be accepted in lieu of the University Primary Examination, provided that the candidate shall in all cases pay the full fee for the degree, but if any of the subjects of the Primary Examination do not form part of the Examination allowed, the candidate shall be required to take such subjects together with his Final Examination.

The **Final Examination** takes place at the end of the Fourth Year. The subjects are:—Theory and Practice of Medicine, including Medical Pathology, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Medical and Surgical (*i. e.*, applied) Anatomy, Medical Jurisprudence, Sanitary Science.

The Primary and Final Examinations may be taken together at the end of the Fourth year.

Registered Practitioners of five years' standing, holding British or Colonial Diplomas, who shall furnish satisfactory evidence that they have passed an Examination equivalent to the Primary, shall be exempted from this Examination, and required to pass only the Final. They must pay the full fee for the degree.

The Examinations are held annually in the spring, and the time of holding them is so arranged as not to interfere with those of the Medical Council of Ontario, which are held annually in Toronto.

The Curriculum of this University being formally recognized by the several Royal Colleges of Physicians and Surgeons of Great Britain, all graduates of Trinity University are entitled to every privilege enjoyed by the holders of Degrees from any Colonial University.

Conferring of Medical Degrees—These are conferred at a Special Convocation held annually, at the close of the Winter Session.

MEDALS.

Two Medals, one gold and one silver, known as the "University Medals," are given by this University, annually, in Medicine, to the two students who stand first and second respectively, in the FINAL Subjects at the close of the Examination. Two additional silver Medals are also given by the University annually, known as the FIRST AND SECOND UNIVERSITY PRIMARY SILVER MEDALS, to the two students who stand first and second respectively in all the Primary subjects at the close of the Examination. Medals of any kind are only awarded to students whose standing is highest in the list of those reaching or going above 75 per cent. of the maximum number of marks.

CERTIFICATES OF HONOUR.

Certificates of Honour require 75 per cent. of the marks and are given in this University annually, only to those students who reach this standing.

FEES.

For matriculation examination, including Registration.....	\$ 5 00
For Registration of a Candidate who has matriculated otherwise than at Trinity University	1 00
For Degree of M.D., C.M.	24 00

The fee for the Degree is distributed as follows:—\$10 before the Candidate presents himself for the Primary Examination, and \$14 before he presents himself for the Final Examination.

Candidates rejected in either the Primary or Final Examinations will have the fees for that examination returned to them less \$5. Candidates required by the Examiners to take any of the Subjects of the Examination a second time, will not be required to pay any other fee for such examination.

UNIVERSITY OF TORONTO.

AFFILIATION.

This University has by statute the power as heretofore with the approval of the Governor of Ontario and Council, to affiliate with itself independent incorporated Medical Colleges or Schools.

Trinity Medical College is, and has always been, FULLY AFILIATED with the Provincial University, and is represented on the Senate. All the Degrees and other Honours of this University are as open to the students of this College, who fulfil the requirements laid down in the curriculum, and given in this announcement, as to those of any Medical College or School in the Proynce.

Rules and Requisites for Graduation—Degree of M.B.—

The following are the requisites for admission to the degree of Bachelor of Medicine, to which there are two ordinary modes of proceeding, viz: (1) by taking a Pass Course; or (2), by taking an Honour Course.

Matriculation.—Candidates must pass the Matriculation Examination, unless (1) they possess a degree in Arts, not being an Honorary Degree, from any Dominion or British University, or (2) having already matriculated in the Faculty of Arts, or in the Faculty of Law in this University, or (3) present a Certificate of Registration as Students in the College of Physicians and Surgeons of Ontario. They must also produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The Annual Matriculation Examination (both Pass and Honours), will commence in the beginning of July. Supplemental Examinations for matriculation will be held in the latter part of September, at which those who were rejected at the July examination, as well as new candidates, may offer themselves. The fee for matriculation is \$5.

Candidates may delay presenting themselves for the Matriculation Examination until any time before the Final Examination for the degree of M.B.; but no candidate will be allowed to compete for relative standing or prizes until he has passed the Matriculation Examination. Candidates are requested to signify whether they purpose taking the Pass or Honour Examination. The following groups of subjects must be passed by every matriculant: Two, out of the four languages, Latin, Greek, French and German, one of which must be Latin.

1890-91.—CICERO, in Catilinam; Bellum Britannicum. Translation from English into Latin prose, involving a knowledge of the first forty exercises in Bradley's Arnold's composition.

Greek.—XENOPHON, Anabasis, Book II.

French.—A paper on Grammar. Translation from English into French prose. SOUVESTRE, Un Philosophe sous les Toits.

German.—A paper on Grammar. GRIMM'S, Kinder in Vund Hans Marchen. Schiller Der Taucher.

Translation of easy passages from English into German.

THE TRINITY 7P
Trinity Medical College.

(2.) Mathematics, including Arithmetic, Algebra to the end of Quadratics, and the first three books of Euclid. (3.) English Grammar, Composition and Dictation, with the outlines of English History and the Geography of America and Europe. The following text-books indicate the scope of the examination in Grammar and History : Mason's English Grammar, Edith Thompson's History of England.

Candidates who proceed to the degree of M.B., by taking the Honour Course, will be grouped in two classes according to their success in the Honour Examinations. Only those candidates will receive their degree with First Class Honours who have obtained First Class Honours in the Second, Third and Fourth professional examinations. Those candidates will receive their degree with Second Class Honours who have been placed in the Honour List in the Second, Third and Fourth professional Examinations.

Candidates who are taking the Honour Course will be entitled to First Class Honours in any of the professional examinations if they obtain seventy-five per cent. of the aggregate marks allowed to such examination. Those who obtain sixty-six per cent of the aggregate marks will be entitled to First Class Honours.

Extra papers on all the Pass subjects will be set for Honour candidates, as well as papers on certain Extra Honour Subject. The Extra Honour Subjects are : Comparative Anatomy of the Vertebrata (Huxley) and Practical Examination in Natural Philosophy for the first year, and Physiology of Muscle, Nerve, Circulation, etc. (Brunton, Foster, etc., pp. 165-419).

Degree of M.D., Fees, etc.—The following are the requisites for admission to the degree of M.D., viz. : Having been admitted to the degree of M.B., being of one year's standing from admission to the degree of M.B., and having composed an approved Thesis on some medical subject, or having been engaged in an active practice or in post-graduate work at any British, Foreign or Canadian University for at least three years since admission to the degree of M.B. in the University of Toronto. The fee for the degree of M.B. is \$20 ; for the degree of M.D., \$20 ; and for admission ad eundem gradum, \$20.

Medals, Prizes and Certificates of Honour.—A gold medal and three silver medals are offered annually for competition among the Undergraduates who have succeeded in obtaining the degree of M. B. with First Class Honours, and will be awarded according to the percentage of marks in the aggregate results of the Second, Third and Fourth

professional examinations ; but the gold medal will only be awarded on the special recommendation of the examiners. Prizes, each of the value of Ten dollars in books, may be awarded annually among Undergraduates in Law, Medicine and Arts, for the best composition in Greek Verse, Greek Prose, Latin Verse, Latin Prose, English Verse, English Prose, French Prose or German Prose.

Certificates of Honour will be given to those students who, at any of the examinations, have been placed in the First Class in Honours in any department.

Starr Medals.—The late Richard Noble Starr, M. D., devised certain property for the encouragement of the study of the subjects of Anatomy, Physiology, and Pathology. In fulfilment of this object the Senate has established one gold and two silver medals, called the "Starr Medals." These medals are conferred upon the three Bachelors of Medicine who have attained in the course of their annual professional examinations, the highest marks in the following subjects :—Anatomy for the first and second years, and in Surgical Anatomy of the third year ; Physiology for the first and second years, and Histology, Physiological Chemistry and Practical Physiology of the second year ; General Pathology and Morbid Anatomy and Histology, of the third year. Every recipient of the medal must have attained the standing of First Class in each of the above-mentioned subjects, and must have been classed in honours in the fourth Professional Examination.

Regulations for Undergraduates.—Undergraduates are required to attend lectures and receive practical instruction during each of four years, at ONE OR OTHER of the Schools of Medicine recognized for this purpose by the University. Each undergraduate, at the end of each of the four years of his course, may present himself at the annual examination of that particular year, or if he prefer to do so, he may elect to take the Primary Examination, held at the end of the second, and the Final Examination held at the end of the fourth year. The annual examinations are styled the first, second, third, and fourth professional examinations, and are to be passed in separate years in the order named, by all candidates for the degree. Graduates in Arts of this University with honours in the Department of Natural Sciences, will be exempted from the first professional examination, and from the fee for the same. They must, however, take the Anatomy of that examination along with the second professional examination. The fee for each professional examination is Five Dollars, payable when the candidate notifies the

Registrar of his intention to present himself. The following certificates are required for the different examinations :—

First Professional.—(1) Of having attended lectures on the following subjects :—Anatomy, 100 ; Physiology, Inorganic Chemistry, each 60 ; Natural Philosophy, 20 ; Botany, Zoology, each 30 ; (2) Of practical instruction in Anatomy during six months.

Second Professional.—(1) Of having attended lectures on the following subjects :—Anatomy, Physiology, Materia Medica, and Therapeutics, each 100. Organic Chemistry. (2) Of practical instruction in Anatomy, six months ; Histology, Physiological Chemistry, each three months. (3) Of having dissected the parts of the human body once. (4) Of being skilled in compounding and dispensing drugs.

This certificate may be from a registered Practitioner, the Apothecary of a public Hospital, or of a public Dispensary ; or from a member of the Pharmaceutical Societies of Ontario or Quebec, and must state that the candidate has been engaged for at least three months in such work.

Third Professional.—(1) Of having attended lectures on the following subjects : Practice of Medicine, Surgery, Obstetrics, each 100 Clinical Surgery and Medicine, General Pathology, each 50. (2) Of having dissected the parts of the human body the second time. (3) Of practical instruction in Pathological Histology, three months.

Fourth Professional.—(1) Of having attended lectures on Clinical Medicine and Surgery, Forensic Medicine, each 50 ; Hygiene, 25 ; Medical Psychology, 12. (2) Of practical instruction in Chemistry in its application to Hygiene and Forensic Medicine. (3) Of having attended at least six clinics in a public Lunatic Asylum. (4) Of having conducted at least six labours. (5) Of proficiency in vaccination. (6) Of attendance in the wards of a public Hospital, accommodating not less than 100 beds, during eighteen months. (7) Of attendance for six months on the out-practice of a hospital dispensary or registered practitioner. (8) Of having attended twelve Autopsies.

QUEEN'S UNIVERSITY.

Candidates for the degree of this University, with which TRINITY MEDICAL COLLEGE is affiliated, must be of the full age of twenty-one years, and must have completed a period of *four years' study*, and have

The ex

passed the Matriculation Examination of Queen's College, which is as follows :

English Language, Grammar and Composition.
 Arithmetic, with Vulgar and Decimal Fractions.
 Algebra, including Simple Equations.
 Geometry, first two Books of Euclid.
 Latin, Grammar, and translation (Cicero, Cato, Major,
 Virgil, *Æneid*, Bk. I., 1-304. Ovid, *Fasti*, Bk. I.,
 1-300.)
 Natural Philosophy, as in Stewart's *Physics*.

Graduates in Arts and matriculants in Arts or in Medicine, in a recognized British or Colonial University, and those who have passed the *Matriculation Examination of the Medical Council of Ontario*, or any matriculation examination recognized by that body as equivalent to its own, are not required to pass the above matriculation examination.

This examination must be passed before a student is admitted to any of the professional examinations, although lectures may be attended previous to passing this matriculation examination.

In the case of graduates in Arts or in Science, a period of three years only will be required, but not fewer than THREE WINTER sessions attendance at lectures.

All other candidates must have given regular attendance on full courses of instruction in the following departments for the periods stated, during FOUR SESSIONS.

Two full courses of six months each, on Principles and Practice of Medicine, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery and Diseases of Women and Children, Physiology, including Histology, Anatomy descriptive, Anatomy practical General Chemistry, *Materia Medica* and Therapeutics.

Also two courses of Medical Jurisprudence and Toxicology; and one each on Practical Chemistry and Botany, and not less than eighteen months' hospital attendance, and six midwifery cases, etc., and every candidate must present a certificate of having compounded medicines in an office of a medical man, or in a hospital or dispensary for a period of not less than six months.

The above course of study may have been pursued either wholly at Trinity Medical College, or partly at some other Medical College or School recognized by Queen's University.

The examinations are (a) held at the end of the 1st year; (b) the

PRIMARY, at the end of the 2nd; (c) the Final held at the end of the 4th year.

Candidates may undergo the examination on Sanitary Science and Medical Jurisprudence at the end of the 3rd year if they desire to do so, or they may be taken with the final examination at the end of the 4th year.

Every candidate must present a certificate of good moral character. Graduation fee, \$25 (for M.D.)

N.B.—FOR LIST OF CLASS BOOKS, WITH PRICES, AND LIST OF TRINITY MEDICAL COLLEGE STUDENTS WHO HAVE TAKEN BRITISH DEPLOMAS, ALSO FOR THE LIST OF PRIZES WON BY TRINITY MEDICAL COLLEGE STUDENTS IN 1890, SEE PAGES 51-53.

VICTORIA UNIVERSITY.

(With which Trinity Medical College is Affiliated.)

REGULATIONS AND ANNOUNCEMENTS.

DEGREE OF M.D.

1. Candidates for this degree must pass a matriculation examination as follows, viz: Either (1) Matriculation in Arts in this University; or (2) the non-professional examination of the Education Department for second or third class teachers, with the Latin option; or (3) Matriculation in medicine of this University, which is the same as that of the College of Physicians and Surgeons of Ontario; or (4) matriculation in a British or Colonial University or College whose matriculation is in every respect equivalent to that of this University. The corresponding diplomas of the Province of Quebec are also accepted.

2. They must pass the Primary and Final examinations prescribed by the curriculum of this University.

3. They must have spent four years in professional study before admission to the Final examination. Graduates in Arts will be admitted after three years' professional study.

4. All students not graduates in Arts or Sciences, who enter as FRESHMEN for session 1889-90, and subsequently to this date, must furnish evidence of attendance upon medical lectures for FOUR sessions of six months each, at some school of standing, recognized by the Senate. The lectures required are as follows:

* The sole

Descriptive Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice of Surgery, Principles and Practice of Medicine, Midwifery and Diseases of Women and Children, Clinical Medicine, Clinical Surgery—two courses of six months each.

Medical Jurisprudence,—two courses of three months each.

Practical Chemistry, Botany,—one course of three months each.

Sanitary Science, Normal Histology, Pathological Histology,—one course of three months.

They must spend six months in the office of a regularly qualified medical practitioner.

They must attend the practice of a general hospital for eighteen months.

They must attend six cases of Midwifery.

They must be twenty-one years of age.

Candidates who have not matriculated otherwise, may take the matriculation examination at Cobourg in June or in September, or at Toronto.

The regular professional examinations take place in Toronto during the first week in April.

For further information apply to the Dean of Trinity Medical College, 52 Maitland Street, Toronto.

THE PROPERTY OF
Trinity Medical College.
College of Physicians and Surgeons
OF ONTARIO.*

Every one desirous of being registered as a matriculated medical student in the register of this College, except as hereinafter provided, must present to the Registrar the official certificate of having passed the third class non-professional examination, with the Latin option included, prior to July 1st, 1888, or after that date, the SECOND CLASS NON-PROFESSIONAL, with Latin, whereupon he shall be entitled to be so registered upon the payment of twenty dollars, and giving proof of his identity. CANDIDATES FOR MEDICAL MATRICULATION ARE BY SPECIAL ARRANGEMENT WITH THE EDUCATION DEPARTMENT OF ONTARIO NOT

* The sole licensing body in Ontario.

OBLIGED TO HAVE PREVIOUSLY TAKEN THE THIRD CLASS NON-PROFESSIONAL.

The THIRD class non-professional with Latin passed, after JULY, 1888, WILL NOT BE ACCEPTED.

Graduates in Arts, or students having matriculated in Arts in any University in her Majesty's dominions, are not required to pass this examination, but may register their names with the Registrar of the College, upon giving satisfactory evidence of their qualifications, and upon paying the fee of \$20.

Every Medical student after matriculating shall be registered in the manner prescribed by the Council, and this shall be held to be the beginning of his medical studies, which shall date from that registration.

MEDICAL CURRICULUM.

Every student, after his matriculation has been registered, must spend a period of FOUR years in actual professional study, except as hereinafter provided.

Graduates in Arts in any College or University recognized by the Council will only be required to pass three years after graduating in Arts, in attendance upon medical lectures, before being admitted to the final examination.

Every STUDENT who HAS NOT ATTENDED ANY RECOGNIZED MEDICAL SCHOOL PRIOR TO JUNE, 1880, SHALL BE REQUIRED TO ATTEND MEDICAL LECTURES FOR AT LEAST FOUR SESSIONS OF SIX MONTHS EACH. THIS REGULATION IS STRICTLY ENFORCED IN ALL CASES.

Each "Six Months' Course" shall consist of not less than one hundred lectures.

Every student must attend the undermentioned course of lectures in a University, College, or School of Medicine, approved of by the Council, viz :

Two Courses of Six Months each upon Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice of Medicine, Principles and Practice of Surgery, Midwifery, and Diseases of Women and Children, Clinical Medicine and Clinical Surgery.

Two Courses of Three Months each upon Medical Jurisprudence, and *One Course of Three Months* upon Practical Chemistry, including Toxicology, and one on Botany.

One course of *Twenty-five Demonstrations* upon Normal Histology, and One course of *Twenty-five Demonstrations* upon Pathological Histology, and one course of twenty lectures on Sanitary Science, and One course of *Fifty Lectures* on Medical and Surgical Anatomy. This last course is for FINAL candidates, and is to be taken in the 3rd or 4th year.

Every candidate must prove his having carefully dissected the whole adult human body.

Every student before being admitted to the Final Examination hereinafter mentioned, must have spent a period of six months in compounding medicines.

He must have attended the practice of a General Hospital for 24 months.

He must have attended six cases of Midwifery.

He must, before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all examinations hereinafter prescribed, and must have attained the full age of twenty-one years.

All persons from recognized Colleges outside the Provinces of Ontario and Quebec, who desire to qualify themselves for Registration in this Province, must pass the Matriculation Examination recognized by the Council, and must attend thereafter one or more full "Winter Courses" of Lectures, in one of the Ontario Medical Schools, so as to complete fully the Curriculum required by the Council, and shall pass, before the Board of Examiners appointed by the Council, all the examinations hereinafter prescribed.

THE PROPERTY OF
~~Trinity~~ Medical College.
 EXAMINATIONS.

The Council holds two Examinations each year—to commence respectively on the second Tuesday of April and the third Tuesday of September.

1. The Professional Examinations are divided into *Primary* and *Final*.

2. The *Primary* Examination shall be undergone after the SECOND, and the *Final* after the FOURTH winter session.

3. The following branches are embraced in the Primary Examination, viz. :

Descriptive Anatomy, Physiology and Histology, Chemistry, Theoretical and Practical, and Toxicology, Materia Medica and Pharmacy.

4. Each candidate for the Primary Examination must present with his Lecture tickets a certificate of having undergone an Examination at the school he has attended, at the close of his First Winter Session, on Anatomy, Physiology, Chemistry, Materia Medica, and Botany. Such Examination shall not, however, in any way affect the Primary Examination of the Council. Also a certificate of ability to make and mount Microscopic Specimens. Each candidate for Final Examination must present a Certificate of attendance at Six Post-Mortem Examinations, and a Certificate of ability to draw up a report of a Post-Mortem Examination; also, a Certificate of having reported satisfactorily on six cases of Clinical Medicine, and six cases of Clinical Surgery.

5. The following branches are embraced in the Final Examination :
 Medical and Surgical Anatomy, Theory and Practice of Medicine and Therapeutics, Clinical Medicine, Sanitary Science. Surgery, other than Operative. Surgery, Operative. Clinical Surgery. Medical and Surgical Pathology, Midwifery (other than Operative), and Diseases of Women and Children. Midwifery, Operative. Medical Jurisprudence.

6. Any Candidate who passes creditably in three or more branches, but fails in the others, shall receive credit for the subjects so passed and be compelled to pass in the other branches *only*, at a subsequent Examination.

MEDICAL COUNCIL FEES (AFTER JULY 1, 1889.)

The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario :—

Registration of Matriculation.....	\$20 00
Primary Examination	30 00
Final Examination	50 00

Candidates who are unsuccessful are entitled, at a subsequent time, to a second Examination on payment of a fee of \$10.

All fees are to be paid to the Treasurer of the Medical Council prior to the several Examinations.

For students not registered before July 1st, 1890, the Primary fee will be \$30, and the Final fee, \$50.

Any student registered with the Medical Council as a matriculate, PRIOR TO JULY 1, 1889, pays \$20 for the Primary, and \$30 for the Final Examination Fee.
