REPRESENTATIVES OF THE ENTENTE ALLIES RESUME THEIR CONFERENCE IN LONDON

May Indict Organizer

Chief Justice Gives This Intimation in Presenting Harris Murder Case to Grand Jury—No Decision Yet

In addressing the grand jury this morning in the case of John O'Brien and Everett Garland, charged with the murder of Robert Harris, His Honor Chief Justice McKeown said that it would have been possible to indict Organizer Bruce...

British Premier Presides at Gathering

All the Entente Powers Represented at Continuation of The Recent Paris Conference

London, Aug. 7.—A conference of the representatives of the Entente Allies, a continuation of the Paris conference, was commenced in London this morning. David Lloyd George, the British premier, presided.

Huns Idea of Christianity

Dutch Newspapers Print in Parallel Columns Story of German Murder and Pastoral Letter Read Before Kaiser

Amsterdam, Aug. 7.—Dutch newspapers print, in a parallel column with an account of the murder of the crew of the British steamship Belgian Prince, a Berlin telegram giving the following extract from a pastoral letter read in all the Protestant churches of Berlin on last Sunday.

STILL IN THE SADDLE.

No Time For Peace Negotiations With Germany, Says U.S. President

Washington, Aug. 7.—President Wilson had a long conference yesterday afternoon with Senator Lewis, the Democratic whip, and urged haste in the final enactment of the food control bill and revenue bills and is understood to have indicated that he does not consider the present time for discussion of peace negotiations with Germany.

GERALD FURLONG KILLED IN FRANCE

The news that Gerald Furlong, youngest son of the late Thomas Furlong, of this city, has been killed at the front was received in the city this afternoon. Before the war Mr. Furlong was engaged in business in Montreal, but gave up his business to go overseas. He has been serving on the staff in France. He is survived by four sisters, Miss Elizabeth Furlong, Madame Furlong-Schmidt, Miss Helen Furlong, also of this city and Mrs. Harold Coleman of Boston, all of whom are at their summer home at Red Head at present.

A VISITOR'S COMPLAINT

A West Indian business man, a member of a firm carrying on a large import and export trade, has a complaint against the attitude of at least some of the residents of St. John. When he arrived in the city last evening he registered at a local hotel and, on his recommendation, several other passengers were there also. This morning he was informed that he would have to leave, as some of the other guests objected to the presence of "colored" persons.

TO AID BOSTON FOLK ON TRIPS TO CANADA

Boston, Aug. 7.—Mayor Curley has approved a form of certificate to be issued by this office to residents of this city who desire to travel in the British empire and especially in Canada. The certificate which is designed to aid travelers in specifying border inspectors that they are leaving this country for no improper purpose, sets forth the fact that the person certified is a native born or naturalized American citizen and cites the reason for his visit.

WEALTHY SPORTSMAN TAKES HIS OWN LIFE

St. Louis, Aug. 7.—Gordon Wheat Lambert, member of one of the wealthiest families of St. Louis, shot and killed himself in his apartments today. He was known as an amateur sportsman and belonged to many athletic clubs of the country. He was 43 years of age.

AN UNFORTUNATE CASE.

To lose his entire savings, the sum of \$60, was the great misfortune of James Doherty, who is now sixty-eight years of age, and supports himself by the hardest of work. Mr. Doherty is employed in Pond street and boards with Mrs. Vaughan in that locality. Saturday evening the poor old gentleman placed his worn pocket-book in his pocket and went to the hotel of Brussels by way of St. George and Union streets. He suddenly discovered that the money was gone and though he returned over the same route immediately, he failed to find the money. The finder of the pocket-book can return it to Mr. Doherty direct through the Times.

TON SOLDIER IN CASUALTY LIST FOR THE THIRD TIME

Fredericton, Aug. 7.—Official word was received here this morning to the effect that Gunner William McKendoe, son of Mr. and Mrs. Johnston McKendoe of St. John street, had been wounded in the foot while serving in France with the Canadian Field Artillery. The telegram stated that he had been wounded on July 15. Gunner McKendoe left Fredericton in February, 1915, with the 24th Field Battery and was drafted to France on June 18th of the same year. He was wounded slightly and suffered from gas at Ypres in June last and last autumn, in the fighting on the Somme, was gassed again. A brother, bombardier Ralph McKendoe, who left with the 36th Battery, also is serving in France.

REAL ESTATE NEWS

Property transfers during the week were recorded as follows: St. John County: F. L. Clarke to T. A. Linton, property in Lancaster. T. H. Dobson to Isabelle E. wife of David Coker, property in Mecklenburg and Wentworth streets. W. E. Leonard to Leonard Fisheries, Ltd., property on Brittain street. Kings County: C. T. Hayter to Murray & Gregory, Ltd., property at Westfield. Sarah Henderson to Fred K. Doig, property at Rothesay. W. D. Turner to Leander Steeves, property at Sussex.

LONG SERVICE RECOGNIZED

According to recent word received by Mrs. Fowle, 50 Exmouth street, her husband, Driver Albert W. Fowle, has been recognized by his officers and has been given a stripe, which, according to the information in the letter from him, is worn on the left hand sleeve at the cuff. It has been granted in recognition of long service and good conduct on the part of Driver Fowle. Driver Fowle was employed in Fortland, Me., when war was declared. For eight years he had been a faithful attendant at Camp Sussex. Following the declaration of hostilities, he gave up a good position in Portland and came to St. John and enlisted in his home town with the A. S. C. He has been in service for two years and six months, and is one of the most valuable men in Colonel Massie's unit. His wife and child reside in Exmouth street.

LIBERAL CONVENTION

Winnipeg, Aug. 7.—It was considered after ten o'clock when the Liberal convention was called to order this morning by Hon. T. C. Norris, premier of Manitoba, acting as temporary chairman. The hall was well filled and the score or so of women delegates were early on hand.

CLAIM OF TEMPORARY EMOTIONAL INSANITY MAY BE HER DEFENCE

Mineola, N. Y., Aug. 7.—An application for the removal to a hospital of Mrs. Elizabeth De Saull, who is confined in the county jail here for the murder of her former husband, John L. De Saull, is expected to be made today. This announcement was made by her attorney after three physicians had made an examination of her. The belief that she would not state specifically just what the ailment was, the attorney said she would be allowed to plead insanity. Her attorney reiterates she had no intention of shooting her husband, who she had divorced on the grounds of infidelity, when she sent to his home to demand the return of her son.

REAL ESTATE NEWS

Property transfers during the week were recorded as follows: St. John County: F. L. Clarke to T. A. Linton, property in Lancaster. T. H. Dobson to Isabelle E. wife of David Coker, property in Mecklenburg and Wentworth streets. W. E. Leonard to Leonard Fisheries, Ltd., property on Brittain street. Kings County: C. T. Hayter to Murray & Gregory, Ltd., property at Westfield. Sarah Henderson to Fred K. Doig, property at Rothesay. W. D. Turner to Leander Steeves, property at Sussex.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. P. Stupart, director of meteorological service. Toronto, Aug. 7.—Pressure is high from the lake region eastward, while a shallow disturbance is centered over Iowa. Showers have occurred in nearly all parts of Saskatchewan and Alberta and in the western districts of the maritime provinces. Elsewhere the weather has been fine. Ottawa Valley—Variable winds, fair today, showers in some localities on Wednesday. Fair. Maritime—Moderate winds, fair tonight and on Wednesday, not much change in temperature. New England—Probably fair tonight and Wednesday. General northeast to north winds.

Gas Masks for the U.S. Soldiers Most Effective

Issuance of Battle Device Brings Realization of Proximity to Real Warfare — For Training Purposes. American Training Camp, France, Aug. 7.—(By the Associated Press)—The issuance of French gas masks to the American soldiers has brought them a little nearer to the realization of their proximity to real warfare. The men are looking forward to the gas experiments with the greatest possible interest, as giving a touch of adventure to their training. Upon the so-called "Gas House" is completed the men will be put through a mixture of a deadly vapor several times stronger than will ever be encountered upon the field of battle. Some German prisoners have claimed that in their training they have endured periods of from five to ten minutes in a gas mixture fifty times as strong as could possibly be maintained in an open air trench. The men are put through these intense mixtures to demonstrate to them that with proper care and use of their equipment they can be hurt by any gas likely to be encountered in the front line trenches. It is a most important branch of the modern training of the soldier which the deadliest terrors of latter day warfare; that careless, slovenly and unrelenting soldiers are the ones first to succumb. It is even demonstrated to the soldiers that the terrifying liquid fire can be avoided, except in most extraordinary circumstances, such as being caught in a tunnel or in a dugout, with the enemy in such a position that he can put flames through the entrances.

ITALIAN AIR RAID BOMBED ARSENAL AND BURNED NAPLES DEPOT AND SEAPLANE STATION. POET D'ANNUNZIO AMONG THE RAIDERS

Rome, Aug. 7.—A detailed report on the air raid at Pola, the Austrian naval base, on Friday night, shows that it began at 11 p. m. and ended shortly after dawn. Each machine carried eight bombs and six grenades. The first arrived over Pola an hour after departure and the last at 4 a. m. The quadrilla carried over the sea which comprised a flight of 200 kilometers 160 of which were over enemy territory, without the loss of a single machine. The raiders were unable during the bombardment to extinguish any fires started by the bombs, but they kept up a furious fire with their anti-aircraft guns and thirty of their most powerful searchlights threw a dazzling light over the base where the first were flying. Notwithstanding the latter cruised over the city for nearly five hours and escaped unharmed and victorious.

HAS SAVED EIGHT LIVES

Fredericton, Aug. 7.—Only for the prompt action of Charles Platt, two young men who were out in a canoe yesterday afternoon on the St. John river would have been drowned. One of the occupants of the canoe could swim but the other could not and was near drowning when Mr. Platt hastened to his assistance and brought the canoeists to shore. Mr. Platt was on the shore near the Hill and Berry wharf, fixing his grappling irons, which he had used the other day in bringing the body of young Treadwell from the river, when he saw the men in a canoe and a few minutes later he looked again and saw the canoe upset. He rushed out in his boat and offered his assistance to the young man who could not swim and after getting them both in the boat he brought them to shore. Charles Platt, who for the past number of years has always been willing to go to the assistance of drowning people and also in the work of bringing the bodies from the water, after death has taken place, has in the course of those years saved at least eight persons from drowning and brought about twenty dead from the water of the St. John.

FOUND DEAD IN BED AT LUNENBURG, N. S.

Halifax, N. S., Aug. 7.—Arthur Cochrane, of the firm of Cochrane, Burris & Arnsworth Boston, was found dead in his bed at Aubin's Hotel, Lunenburg, this morning. He was 50 years of age, was married, and travelled through Nova Scotia and New Brunswick for fifteen years. He married the widow of M. C. Northrup, of Halifax. Apoplexy was the cause of death.

JAPANESE LEGISLATORS WILL VISIT AMERICA

Tokyo, Aug. 7.—Members of the house of representatives met and decided to send five of their members to America to study conditions. They will start about September 1 and return in December. The delegation will represent all parties.

Reorganization in British Admiralty

Vice-Admiral Sir Rosslyn Wemyss Replaces Admiral Sir Cecil Burney as Second Sea Lord — Chief Criticism is That Changes do not go Far Enough

London, Aug. 6.—Official announcement was made at the admiralty tonight that Admiral Sir Cecil Burney, second sea lord, had been replaced by Vice-Admiral Sir Rosslyn Wemyss. Alan Garrett Anderson, hitherto vice-chairman of the wheat commission, succeeds Sir Eric Campbell Geddes, the new first lord of the admiralty, as controller of naval construction. Another change in the admiralty is the removal of Sir William Graham Green from the permanent secretaryship at the admiralty to a secretaryship in the ministry of munitions, under Winston Spencer Churchill. Sir William's departure from the admiralty is regarded as of considerable importance as the post of permanent secretary, which he has held since 1911, always has been largely responsible for the continuity of admiralty tradition and policy. It is this continuity which is regarded by many as a most dangerous factor in that hinders initiative and adaptability to current needs.

WHO WILL BE THE REAL DIRECTOR OF FOREIGN POLICY?

Copenhagen, Aug. 7.—Will Dr. Von Keuhlmann or Dr. Karl Helfferich, vice-chancellor, be the real director of foreign policy under the administration of Dr. Michaelis, the imperial German chancellor? This is the political problem of the hour in Germany. It is known the versatile Dr. Helfferich decided to have a hand in steering Germany's new course in world politics after the war, and it is rumored that the new chancellor, unacquainted as he is with international affairs, desires to retain the ex-bank director (Dr. Helfferich) as his special adviser and mouthpiece. In fact, one of the avowed reasons for Dr. Helfferich's retention, despite his present unpopularity in the Reichstag, was that his services are indispensable in peace negotiations. The Berlin Tageblatt is understood to be disinclined to permit himself to be relegated to a subordinate place.

RETIREMENT OF PAPAL SECRETARY OF STATE

Rome, Monday, Aug. 6 (delayed).—Many Italian newspapers and some authorities on Vatican affairs continue to affirm that Cardinal Gasparri, the papal secretary of state, has resigned. The retirement of the secretary, it is asserted, will permit of the inauguration of a new policy by the Vatican towards Germany. The official Osservatore Romano is silent on the subject but the semi-official Vatican organ, Correspondenza, flatly denies that the papal secretary has retired.

FOUND DEAD IN BED AT LUNENBURG, N. S.

Halifax, N. S., Aug. 7.—Arthur Cochrane, of the firm of Cochrane, Burris & Arnsworth Boston, was found dead in his bed at Aubin's Hotel, Lunenburg, this morning. He was 50 years of age, was married, and travelled through Nova Scotia and New Brunswick for fifteen years. He married the widow of M. C. Northrup, of Halifax. Apoplexy was the cause of death.

GOVERNMENT OF N.E.D. COMMANDEERS SALT

St. John's, Nfld., Aug. 7.—A serious shortage in salt is causing much inconvenience to the fisheries interests in Newfoundland. Arrangements have been made some time ago to provide for the needs of the present year have proved inadequate. The government has now consented to purchase additional stocks of salt in the colony and arranged for their distribution among the fishermen to the fullest extent possible, until additional supplies can be obtained from abroad. Two ships laden with this commodity and bound for this port were torpedoed.

AN OMISSION

Another name to add to that long list of St. John's fallen is Pte. Charles R. Tiplady.

Some Provincial Problems Which Await Solution

The First Steps Now Are Being Taken

Co-Operation The Secret

Research Council Seeks Information in New Brunswick on Which to Base Campaign for Increased Efficiency

The questionnaire prepared by the honorary advisory council for scientific and industrial research, some time ago appointed by the dominion government, is being distributed throughout this province and it is appropriate that not only those who are immediately concerned in the matter should know of the work and be interested, but it is important as well that the public realize its importance.

The war has brought home to all the vital importance of co-operation, both in politics and business. Before the war that spirit of co-operation between individuals and between the government and industrial concerns, made it possible for Germany to carry out the policy of "peaceful penetration," which made her, in many industries, almost without a competitor and in many countries paramount in trade.

Co-operation between individuals and firms led to the development of her great bye industries and co-operation between her government and the potato syndicate, gave her complete control of the potato trade of the world. The typify the many. In every enterprise in Germany, great or small, where skill and knowledge were required for the solution of a specific problem, those men were employed who were most competent, because of adequate training, to solve them.

Canada's Need Many men in this country have realized that such a spirit of co-operation was needed, but not until recently have the public in general appreciated its value. We now begin to see, in a vague way, that if Canada is to take her place as competitor of the world's markets that it will only be by each firm doing the work which it is best fitted to perform and with a knowledge of that specific task obtained by the most careful research.

Only by co-operation can this be done. Few, if any, firms in New Brunswick can afford to maintain high priced specialists in their work to solve the problems that perplex them, yet under the system to be introduced their problems will be solved by those in a position best to solve them. Through the advisory council for scientific and industrial research if a manufacturer has a problem in his business which he cannot solve with the appliances at hand, by application to the council those who are best fitted to solve it will be engaged to do so.

New Brunswick's Problems New Brunswick has many problems to be solved. The waste from the pulp mills is a source of industrial alcohol, a substance absolutely necessary in many manufacturing concerns. It may be made, too, from sawdust and waste potatoes, and from the latter starch also. A great deal may be done in more economical caring for fish in their marketing. The development of our shale and oil fields will require a great deal of technical knowledge and new problems will have constantly to be solved. In United States breadmakers, confectioners, laundries, drycleaners, and many other concerns are employing experts to solve vital problems in their business with certain profit to themselves. The same problems are found in New Brunswick.

There are other problems further afield which are still more important.

The solution of one single problem would make the shores of the Bay of Fundy one of the manufacturing centres of the world. That problem is the utilization of the Bay of Fundy tides for the obtaining of cheap power. Potentially the power is there. Once obtained it cheaper than it can be obtained in Norway or at Niagara Falls, two places where cheap power is at present obtainable, and where factories abound, and some of the greater industries of the world will locate in our midst. The United States government is spending \$20,000,000 on plans for making nitric acid from the air. Cheap power is the chief requisite. Beside power, limestone, coke and air are needed. These we have in abundance. We can make cheap coke from coal and if we make it we can make as a by-product, tar as well, the material out of which most of the dyes of the world are made. During peace time, instead of making nitric acid, the United States plants will make calcium cyanamide, the leading nitrogen fertilizer, and for that there will be an increasing demand. If cheap power is obtained the possibility of development in manufacturing is almost without limit and with our proximity to the trade routes the world is our market.

This is for the future, but possibly not far distant future. It needs a people with some vision to make it a reality and with vision the knowledge that comes from active and long-continued research. But for the present there are many problems to solve and it is to be hoped that all firms to whom the circulars are sent will fill them out carefully and return them to the proper authorities, even though they may seem at the present time to have no problem for solution.

Give Students Time To Harvest Crops

University of Maine Will Open Oct. 10, That Men May Do More Work in Agriculture—Cavel for Dr. Aley

University of Maine, Orono, Aug. 7.—October 10 is the date set for the opening of the University of Maine for the first semester of the year of 1917. The date has been set after deliberation and careful study of conditions. It has seemed to the college authorities consistent and practical to allow the time for students to assist in harvesting just as they were allowed to go early for the purpose of planting the crops and at this time when help for harvesting is exceedingly scarce and high priced, it has seemed to everyone concerned in the selection of a date for opening that America's harvest time this year is of such vital importance that the institutions of learning must do their bit toward helping by allowing their students the extra time for work at home or on farms.

MAY ATTACK THE BELGIAN COAST

Admiral Jellicoe Hopes Problem is Not Unsolvable German U-Boat Bases

Ostend Offers Best Target, But it Can Only Be Attacked at Rare Intervals

London, Aug. 7.—"The British navy's control of the nerve system of maritime communications of the world at this juncture is more complete than the control exercised by the army of the Central Powers on land," said Admiral Sir John Jellicoe, First Sea Lord and Chief of the Naval Staff, in an interview with the Associated Press yesterday, in which he discussed the submarine menace and the naval situation at the end of the third year of the war. "That," he said, "suggests perhaps a train of thought which students of the war might pursue with interest and advantage to the allied cause. But I am content at this moment merely to emphasize the supreme importance of the work which the grand fleet is doing under the command of Sir David Beatty.

"You ask me how it is that German destroyers are able to carry out raids from time to time. Such missions are entrusted to the swiftest vessels under the German ensign, and they are carried out with every advantage on the side of the Germans. The North Sea is a very large area of water. It is more than twice as large as the whole United Kingdom—England, Scotland, Wales, and Ireland—combined, and traversed by nearly 94,000 miles of railway lines. "The German destroyers wait for dark and then dash into the narrow straits situated within an hour or two of steam-shiping of the British coast. They have the choice of several times as much sea as the line of great length. There is hardly a point but is undefended, advantage having been taken of the immunity from

bombardment which international law was believed before the war to confer upon the coast of a neutral country. The enemy has the choice of nights when the weather and visibility are most suitable for his purpose. He puts to sea clear of his mine fields. He can steam in a northerly, westerly or southerly direction. Aircraft are used for reconnaissance so as to gain information of the movement of the British patrol forces. The Germans have the further advantage of being able to fire at every craft which comes within sight of the moment it is sighted. "What is the position of the British patrol whose vigilance has been subjected to three years of unceasing strain? Officers have many duties to carry out quite apart from punishing these 'tip and run' raids. They never know when the enemy ships will break out or where they will appear at their highest speed and in the darkness they have to discriminate between friend and foe on the one hand and foe on the other hand before they fire. "Despite the advantages which the Germans enjoy no raid has resulted in the slightest military gain to Germany or loss to Great Britain. Such a policy can be pushed successfully unless the enemy is prepared to support his destroyers with stronger forces—in other words, risk some portion of his high sea fleet—and thus the menace of our Grand Fleet operates. "We deplore the loss of life among

non-combatants, but after all we are engaged in a war whereon the freedom of the world depends, and we cannot defect our strategy from its main purpose. That is what the Germans hope to effect, and they have failed. At the same time, perhaps I may add that since the capture of the Swift and Broke the enemy has attempted no raid on the British coast. "This leads me to say a few words as to the destroyer and submarine bases on the Belgian coast which are in the occupation of the Germans. One is Ostend; the other Zeebrugge. The Germans have applied to this length of sand-fringed coast the same principle of intensive fortification adopted higher up on the North Sea and the island of Heligoland. The coast line is studded with heavy guns which in themselves constitute infinitesimal targets at a range of more than twenty thousand yards, which any bombardment could be carried out. "Little to hit at Zeebrugge. "Moreover, the enemy has not been slow to make fullest use of aircraft and smoke screens by way of protection. Ostend offers the best target, but it can only be attacked at rare intervals when a favorable combination of wind, weather and sea conditions can be attained. Zeebrugge, in the real sense of the word, is not a naval base, but merely an exit from the inland port of Bruges, with which it is connected by a wide, deep-water canal. There is little to hit at Zeebrugge. Still I believe that the problem which the Belgian coast presents is not insolvable."

Health and Beauty Hints BY MRS. MAY MARTIN.

Veru B.: Your skin will grow soft, clear and smooth after a few applications of a plain almonzin jelly-cream, made at home as follows: Put 4 table-spoonfuls glycerine into 1-2-pint water, and in this dissolve one ounce almonzin (which you can buy at your druggist's). Apply a thick coat of this to the skin before retiring, then wash off in the morning and use more of the jelly-cream for massaging. This gradually dispels pimples, blackheads and the "muddy" oily look. The almonzin jelly-cream is greasiness and will not grow hair.

Mrs. A. T.: You may not require glasses. Get from your druggist one ounce crystals and dissolve in 1 pint water. Then put a few drops in the offending eye several times a day until inflammation and soreness have vanished. This crystals eye tonic is especially good for granulated eyelids, and using it strengthens the eyes and gives them a youthful sparkle.

Adeline: The reason for that dryness of hair after your shampoo is because that kind of soap irritates the scalp's tissues and makes them over-sensitive. Can-throx will correct this, for it is a tonic as well as cleanser and is so stimulating to the blood vessels and scalp tissues that the danger is entirely eliminated. To prepare your shampoo, dissolve a tea-spoonful of Canthrox in a cup of hot water, then pour it slowly on the head as you rub briskly. This dissolves every trace of dust, dandruff and excess oil, and after rinsing the hair will dry quickly and evenly.

Mrs. M. N. T.: Your excess weight can be easily and quickly reduced by taking this parrotis treatment, made at home as follows: Put 4 ounces parrotis (which you can get at your drug store), in 1-2 pints hot water and strain when cool. Take a table-spoonful before meals until weight is where you want it. No harm results from the use of the parrotis treatment, and the flesh is left solid and the skin soft and smooth.

Just Try This When Hairy Growths Appear

(Modes of Today.) A smooth, hairless skin always follows the use of a paste made by mixing some water with plain powder deL'Or. This paste is applied to the hairy surface 2 or 3 minutes, then rubbed gently with the skin washed, when every trace of hair will have vanished. No pain or discomfort attends the use of the deL'Or paste, but caution should be exercised to be sure that you get real deL'Or.

You Can Tell The People Who Have Iron in Their Blood—Strong, Healthy, Vigorous Folks

Doctor Says Ordinary Nuxated Iron Will Make Nervous Run-down People 100 P. C. Stronger in Two Weeks' Time in Many Cases. New York, N. Y.—"One glance is enough to tell which people have iron in their blood," said Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, in a recent discourse. They are the ones that do and dare. The others are in the weakening class. Sleepless nights spent worrying over supposed ailments, constant dizziness, without from the blood has no power to change food into living tissue and therefore, nothing you eat does you any good; you don't get the strength out of it. The moment iron is supplied the multitude of dangerous symptoms disappear. I have seen dozens of nervous, run-down people, peevish, liver and other trouble in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without any benefit.

WAR CONDITIONS HAVE REVISED TORY IDEAS REGARDING NAVAL POLICY

Ottawa, Aug. 6.—Hon. J. D. Hazen made his annual statement with respect to work of the naval service department when the commons went to committee of supply today.

The work of the naval department, he stated, had continued to increase very greatly during the past year. The work was divided between the naval intelligence and the transport service, each of which worked night and day, and there had been an immense increase in the amount of work they had had to do.

As to the transport service, Hon. Mr. Hazen said it had gone on well. The Niobe was being used as a training ship, while the training at Halifax and Esquimaux had been extended to their utmost capacity.

Mr. Hazen said it was impossible to make promises at this time. He stated that the Atlantic fisheries had probably not been as satisfactory as last year, but that the fishermen had received higher prices for the catch.

When the Stefansson expedition vote came up Mr. Hazen said this would be the last. He expected the explorer back this year. Part of his party had already returned.

Mr. Hazen stated that the protection of fur-bearing animals was in the hands of the mounted police.

Discussing the recruiting work for the imperial army, Hon. Mr. Hazen said that at first Sir Rupert Guinness had tried to recruit men under the British rate of pay, but this had been found impossible.

The Niobe was being used as a depot ship at Halifax harbor, while all the other vessels of the Canadian naval service were in active service.

Discussing the recruiting work for the imperial army, Hon. Mr. Hazen said that at first Sir Rupert Guinness had tried to recruit men under the British rate of pay, but this had been found impossible.

Sir Wilfrid Laurier Speaks Of Hon. D. Pugsley

Central Railway Inquiry Plot To Discredit St John Member Reviewed in Parliament by Liberal Leader

Ottawa, Aug. 6.—Sir Wilfrid Laurier carried the commons back to a debate which took place in the session of 1909, when the sitting opened today.

The dispute in question was upon the report of the royal commission headed by the late Mr. Justice Landry and appointed by the New Brunswick government to investigate the affairs of the New Brunswick Central Railway.

The leader of the opposition said that in 1909 Mr. Crothers, now the minister of labor, had moved a motion which merely called upon the house to affirm the judgment of the Landry commission and based upon that report a resolution of censure.

The first letter, written by George W. Fowler, former member of the commons for Kings-Albert (N. B.), and now a member of the senate, suggested a number of persons who might be eligible for appointment to the commission to investigate the affairs of the Central Railway Company which had been subsidized by the New Brunswick legislature.

Mr. Powell's Letter. The second letter was written by H. A. Powell, K. C., counsel for the Landry commission on March 31, 1909, and was marked "confidential."

He expressed regret that some matter went in as the opposition press in 1912, when he retired from political life.

His first venture in the political field was in 1896, when he resigned and in 1902 became leader of the opposition.

The year following he became prime minister of the province of British Columbia for two years.

He was elected to the House of Commons in 1907 and two years later he became minister of mines in the administration of Sir Wilfrid Laurier.

He was elected to the House of Commons in 1907 and two years later he became minister of mines in the administration of Sir Wilfrid Laurier.

No more home-made Chutney or Tomato Catsup for me—

that is what everybody says when they have tried H. P.—the new sauce from England

In delicious flavour makes it unique—quite unique.

Wouldn't it be worth your while to try a bottle of H. P. SAUCE?

A fellow man, without the production of evidence to substantiate that opinion.

The opinion may be right or it may be wrong, but whether right or wrong, the parliament of Canada when it is asked to pronounce upon a matter of this kind has a duty to receive the evidence before him so that every member may come to a conclusion as to whether the report is or is not justified.

The correspondence which I read to you, sir, has proved conclusively that this matter was not before the house before the evidence was brought out so that there should be an ex-parte verdict upon the opinion of the commission, not upon the evidence itself.

Luckily, the truth has come out at last and the member for St. John city upon the evidence that has now been presented is fully vindicated out of the mouth of his own adversaries.

FORMER PREMIER OF B. C. IS DEAD

Sir Richard McBride Passed Away Suddenly in England—Graduate of Dalhousie University

Vancouver, B. C., Aug. 6.—A private cable announces the death of Sir Richard McBride in London at 6 o'clock this morning.

Death is said to have been due to Bright's disease, from which the former premier had been suffering for several years.

Lady McBride and family are at present in England. Sir Richard and family were on the eve of sailing. It has not yet been decided whether the burial will be in England or British Columbia.

Sir Richard McBride, K. C., M. G., K. C. LL. D., was prime minister of the province of British Columbia for twelve years, from June 1, 1906, until 1915, when he retired from political life.

He was educated in the public schools and at Dalhousie University, where he received the degree of LL. B. in 1892.

His first venture in the political field was in 1896, when he resigned and in 1902 became leader of the opposition.

The year following he became prime minister of the province of British Columbia for two years.

He was elected to the House of Commons in 1907 and two years later he became minister of mines in the administration of Sir Wilfrid Laurier.

TENDERS WANTED FOR PLUMBING PIPES AND FIXTURES.

Parliament Buildings, Ottawa. SEALED TENDERS will be received by the undersigned until Noon, August 27, 1917, for Plumbing Pipes and Fixtures required in the re-construction of the above building.

All tenders to be based on the execution, erection and completion, including all labor and materials required for the installation of the Plumbing system together with all fixtures, apparatus and appliances as called for in the Plans and Specifications.

Plans, Specifications and any other information can be obtained at the Office of the General Contractor, P. Lyall & Sons Construction Company, Limited, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, for a sum not less than Ten (10 p. c.) per cent of the amount of the tender which will be forfeited if the parties tendering decline to enter into a contract when called upon to do so. If the tender is not accepted the cheque will be returned. The total security will be forfeited if the contractor fails to complete the work contracted for.

Payments will be made monthly and will not exceed in the aggregate Ninety (90 p. c.) per cent of the value of the labor and materials furnished and set in place.

Accompanying the tender shall be a detailed bill of quantities of all materials and labor properly priced out which shall aggregate the contract price.

The lowest or any tender not necessarily accepted.

Envelopes containing tenders to be marked "Tenders for Plumbing Pipes and Fixtures" and addressed to the undersigned.

JOHN A. PEARSON, Architect. J. O. MARCHAND, Associate. Centre Block, Parliament Buildings.

### STATUS OF RECRUITS

MARRIED SINCE JULY 6

Subject of Discussion in Senate—Amendment Voted Down—Churches to Decide Who Are Clergy?

Ottawa, Aug. 7.—The military service bill is in prospect of soon passing the senate and becoming law. The measure was taken up in the committee stage of the upper house last night and half a dozen clauses passed. The principal discussion centered around the declaration that for the purpose of the section those marrying since July sixth shall be considered unmarried. This was construed by some as a reflection on the motives of those marrying since that date and also as reflecting on their marital station. A proposed amendment, however, was voted down. Senator Landry gave notice of an amendment likely to provoke considerable discussion. It proposes that within the meaning of the act "clergy" shall be defined according to the laws of the different denominations. This evidently is planned to replace the "divinity students" who after being exempted were eliminated from the category of exemptions and made liable to service.

MR. SCLANDERS COMES EAST

Canadian Finance.—F. MacIver Sclanders, for the past nine years, commissioner of the Saskatchewan Board of Trade, has resigned to accept a position as industrial commissioner for the cities of Windsor, Walkerville and Ford, Ont.

## How Two City Salesmen Made 850 Sales in 12 Days Over the Phone

On July 23rd, two salesmen commenced the task of closing up the directory which appears on the two following pages. All sales were made by telephone. They made practically 900 calls in the two weeks of 12 working days and closed with more than 850 business and professional men, making the enviable record of 94% sales.

And included in this list were many "back calls" the time-bane of the salesmen. Think how long it would have taken two salesmen to make each call in person and bring home the bacon! More like 12 weeks than 12 short days.

### Surely a Tremendous Tribute to the Telephone's Utility

Certainly this incident is a strong testimonial to the efficacy of the telephone as an adjunct to your sales force; and no doubt will suggest itself cogently to the merchant or manufacturer as representing a new line of business attack.

Are YOU, Mr. Merchant, getting all the business that is yours? Mr. Manufacturer: There possibly is lots of business for you no farther away than your own telephone. How many out-of-town orders are yours for the mere expenditure of a long distance call?

We are always glad to make suggestions to telephone users as to how the maximum of service can be secured and a telephone call to Traffic Department Main 3400 or a postal will bring a representative to your office to discuss the situation with you. Let us help you get 94% sales efficiency.

NEW YORK ALARMED BY SUBMARINE RUMOR

New York, Aug. 6.—A report that a U-boat had been sighted near the Trans-Atlantic lanes off this port caused the war department authorities to close the gates in the night protecting the harbor mouth here at 1 o'clock this morning.

CANADIANS WIN NEARER TO LENS

In Dashing Attack Capture Crater Using Bombs in Effective Manner

Canadian Headquarters in France, via London, Aug. 6.—(By Stewart Lyon, special correspondent of the Canadian Press)—Following up the successful advance on Saturday afternoon in the region of Cite du Moulin, another advance was made last night, which carried our outposts up to the main line of the enemy's defence on the railway embankment to the west of Lens.

CONSPIRACY OF WEALTH IN FRANCE

Paris, Aug. 6.—The precise terms of the law just passed giving the civil authorities requisitioning powers were published today in the Journal Officiel. Under the provisions of the act these authorities, may, during the duration of the war, seize, in the first place, everything necessary for feeding and clothing the civil population and supplying it with heat and light.

SCHOOL BOOK NOTICE

Pursuant to the provisions of an Order-in-Council, the Government School Book Business has been placed on a cash basis. The prices of the books, which will be satisfactory.

TWELVE YEAR OLD BOY KILLED WHILE TENDING SWITCH

A fatal accident occurred near Westfield yesterday afternoon on the Valley railway when Ronald Mullin, the 12-year-old son of William Mullin, of that place, was run over by a dump car and so badly injured that he died last evening at the General Public Hospital.

38,000 MEN TO HELP AT HARVEST IN WEST

Winnipeg, Aug. 7.—That the west will obtain 38,000 men in the east to help in gathering this year's harvest is expected by representatives of the dominion government, the railways and the provincial authorities, who met in the general passenger agent's office at the C.P.R. depot this morning.

"THE FIDDLERS" STILL UNDER BAN

Circulation Declared Undesirable Evidence From Front Contradicts its Statements About Alcohol and Disease

Ottawa, Aug. 7.—"The Fiddlers," the now celebrated pamphlet by Arthur Mee, stays on the prohibited list in Canada, and the maximum penalty of \$5,000 fine and five years' imprisonment for having it in the citizen's possession remains.

Premier Borden presented to the house the report of Surgeon-General J. T. Fotheringham, director of medical services. It characterizes the publication as irresponsible, grossly exaggerated and overdrawn, a gross libel on the men of the Canadian Expeditionary Forces, and submits from commanding officers at the front "positive evidence to the contrary of statements made in the pamphlet, both as regards alleged alcoholism and disease."

Sir Robert Borden added that the government was procuring further overseas evidence bearing on the subject, on receipt of which a further statement would be made to parliament.

Canadian "Horrible Examples." In opening his report, Gen. Fotheringham says the pamphlet was apparently meant to attract attention to alleged shortcomings on the part of the British government in the matter of temperance legislation, and would appear to affect Canada only in so far as Canadian troops were held up therein as horrible examples of the result of certain alleged failures on the part of the British government.

Without being meant as an attack on Canadian authorities or Canadian troops, its statements, Gen. Fotheringham says, reflected very seriously upon the morals and military efficiency of Canadian troops. Harsh had already been done by similar irresponsible and exaggerated statements from other sources.

Alarm and anxiety had been aroused in some quarters in Canada altogether out of proportion to what the facts of the case would warrant, and ill results could not fail to follow upon the publication of the pamphlet.

Statements, the general continues, occur in the pamphlet reflecting on the Canadian troops as to alcoholism, etc., and these were all grossly exaggerated and overdrawn. It was a gross libel on the men, and a great unkindness to their relatives at home, to set forth isolated examples, without stating percentage and number of troops involved, and equally unfair to quote as representative of present conditions the state of affairs at the outset of the war, and particularly at Salisbury Plain, if for no other reason than that the majority of the first contingent were British-born and left but few relatives in Canada.

The evidence of Major-General John Hughes is quoted. On July 28, 1917, he reported to Ottawa that there was less than one case per thousand men per week of drunkenness, and this was the average of all camps in England.

Province Gives 23 of Recruits; Score From U.S.

Kings county led in recruiting last week with twelve local men. Although York recruited twenty-two men, twenty of these were from the States. St. John came second with eight local men. Only forty-three came forward throughout the province, and less than twenty-three New Brunswickers were among the lot.

Table showing recruitment statistics by county: Kings County (12), York County (22), St. John County (8), etc.

Three Yesterdays. Three recruits were secured in the city yesterday. They were: H. A. Kenny, Bath, No. 8 Field Ambulance; Frederick Ernest Humphrey, St. John, and Jardine Alexander, Kouchibouguac, Forestry Company.

Seriously Wounded. Mrs. Thomas C. Cholenet, of Parrsboro, has been advised that her husband was seriously wounded on July 28, and is now in a hospital in Etaples. He was the former editor of the Parrsboro Leader.

Casualties. Ottawa, Aug. 6. INFANTRY. Died of Wounds. J. Carrier, Durham (N. B.). Wounded. A. S. Martin, St. John. M. Levine, St. John. S. Chaisson, Lower Caraquet (N. B.). H. Sweetman, Moncton.

Canadian Air Camp in Texas. New York, Aug. 6.—Official announcement was made by the British recruiting mission tonight that Lieutenant H. B. Denton, in charge of recruiting at Royal Flying Corps, will go to Texas shortly to lay out an aviation camp for the Canadians.

Washington, Aug. 6.—Less than 5,000 men are needed to complete the quota of all the states for the regular army. Recruits accepted Saturday and Sunday numbered 1,400. Total since April 1, 1917, 178,850 leaving 4,548 to be enlisted. The war strength of the army is 288,000 men.

NOVA SCOTIA STEEL NOW CONTROLLED IN U. S. According to the Boston News Bureau, 45,000 out of 50,000 shares of the Nova Scotia Steel and Coal Company are now owned and controlled by underwriters wholly in the United States.

WESTERN LIBERALS NOW IN CONVENTION

Winnipeg, Aug. 6.—Four Liberal premiers of the four western provinces of Canada tonight addressed, in the Royal Alexander Hotel, an audience of upwards of eight hundred men and women, delegates to the convention of western Liberals which opens its session Tuesday morning.

There was little mention of politics in the speeches. Ladies present as delegates and visitors were complimented on their interest in their new duties of citizenship.

The following is the report from county John Stoval, of Winnipeg, chairman of the committee on arrangements, presided, and on the platform, in addition to the premiers, were Senator Watson, Senator Ross, Hon. Frank Oliver, Senator Prince, W. E. Knowles, M. P. and Levi Thompson, M. P.

Hon. T. C. Morris, premier of Manitoba, declared the present was the first time the four western provinces had gathered for a common purpose. "We have," he said, "common ground on which to stand."

Premier Martin, of Saskatchewan, said the west had been compared to the tail of the dog, but the time had come when the tail was going to assert itself and manage the dog. He predicted "that this tremendous gathering will result in a sweeping victory for the Liberal party at the forthcoming elections."

Premier Sifton, of Alberta, and Premier Brewster, of British Columbia, followed with remarks that were very brief and of a general nature. After the meeting broke up the delegates from Manitoba and Saskatchewan met privately in separate rooms to choose their representatives on the resolutions committee.

When the delegates from northern Alberta arrived today they marched to their hotel carrying the banner "Laurier for the west."

ASSESSMENT COMMISSION. At the council meeting this afternoon the new assessment commission will be appointed. It is stated on the best authority that the old commission of five will be re-appointed, that is, Professor Keirstead, Dr. J. Roy Campbell, W. E. Scully, George Maxwell and Mayor Hayes. It is the determination of Mayor

at least three of the commissioners that these shall be on the new board. The representatives from the board of trade are to be A. H. Wetmore, president of the board, and W. F. Burditt, both of whom have shown a great deal of interest in assessment problems. It is understood the new commission of seven will start to work at once. Their object now is to revise or amend the rejected assessment bill to meet the views of all interests. This, it is expected, will not take long, and it is proposed to have the new bill before the next session of the legislature.

From Wisconsin By Auto. Oscar J. Killam, of this city, arrived home yesterday from Racine, Wisconsin. He made the trip from Wisconsin, a distance of over 8,000 miles, by automobile.

He says that he found the New Brunswick roads in good condition.

Emblem of Extra Value and Virtue

MANY motorists have discovered that the service rendered beneath the emblem of the Goodyear Service Station is mathematical in its foundations.

It is positive in the pleasure and security it adds to motoring. It multiplies the miles that your tires will deliver. It subtracts from the worry, reduces the work, cancels the inconvenience, attaching to the care of tires. At the same time it carries no excessive cost.

It is a service that leaves an unusual dividend of satisfaction. More than 1000 business men, realizing this satisfaction and the goodwill thus betokened, have resolved to extend such tire service beneath the Goodyear emblem.

So this emblem marks hostelries of tire service along every road of the country. It reveals itself at many advantageous points—an ever-recurring beacon-light to a vast number of Canadian motorists.

And it is not by any chance or accident that this increasing number of motorists find tire satisfaction under the name Goodyear.

They belong to that class of men who bring a business instinct into tire-purchasing. They seek in the tires they buy a capacity for delivering long, loyal, economical service. They base their preference on known virtues and achievement.

To these men Goodyear achievements and discoveries—the development of the tire-making machine, the No-Hook bead, the All-Weather tread, the Braided Piano Wire base, and other quality-giving Goodyear features—are significant of a steady, laborious effort towards building better tires.

This significance grows as they experience the advantages of Goodyear Tires and the benefits of Goodyear service.

Yet there are still many men to whom the Goodyear emblem of service

is familiar by appearance only. They have still to experience the actual service this emblem indicates. They have yet to learn the value and virtue this service can add to their tires.

To these motorists the Goodyear emblem should serve as an invitation at the first sign of tire distress. An intimate acquaintance with the work of the Goodyear Service Station will bring a new aspect of motoring pleasure.

Herein we make not a claim but an assurance. Go to the Goodyear Service Station dealer. Test his work yourself. Ask him about the many tasks his work embraces—the many small things he will do—at little or no cost to you—which would take the pleasure out of your motoring if you had them to do yourself.

Let the men beneath this Goodyear Service Station emblem help lower your tire costs by increasing your tire mileage, enhance your motoring pleasure by rendering trouble-saving service, heighten your motoring satisfaction by adding value and virtue to your tires and tire-service.

The Goodyear Tire & Rubber Co. of Canada, Limited

GOOD YEAR MADE IN CANADA

SUGAR PRICES

The raw sugar producer in Cuba is making all the money on sugar, states Lewis J. Seldensticker, head of the Atlantic Sugar Refinery here. As an indication of the big boost in the raw material since the first of the war the quotations then and now are interesting. To the local refinery the quotation in 1914 was 21-4 cents per pound, costs and freight, whereas today the quotation is 61-4 cents per pound, costs and freight.

At the present time the refiners are selling to the wholesalers and jobbers at \$6.66 per hundredweight, the refiners are receiving the product at \$8.86, and the consumers at nine, ten and ten and a half cents per pound. The price from the refinery in 1914 was in the vicinity of \$6.50, so that the increase to date is not fifty per cent, while the increase on the raw product has been considerably more than that, more than a hundred and fifty per cent.

Mr. Seldensticker states that there is a gradual increase almost every week and there is no telling where the end will be. The market is now at high water point in New York, 61-4 cents for August and September and it is stated there that the whole situation is in the grip of Cuban growers.

W. P. O'Connor, high cost of living commissioner, in a report recently prepared on sugar prices, found that the margin of profit both for manufacturers and dealers was very small.

Josh Devore at one time a near idol at the Polo Grounds, when a member of the Giants' team and coveting about in right field, has at last given up the game and is now running a milk route in Chillicothe, Ohio.

High Salaried Players
In Evers and Alexander the Phillies have two of the highest salaried players in the country. On no club in the major leagues are two men drawing the salaries Alexander and Evers are paid. Detroit is paying Cobb a princely sum, Washington pays Johnson more than the average bank president draws, and Speaker received a small-sized fortune each season for playing for Cleveland, but not another club save the Phillies has two big contracts draining the treasury. When Alexander was signed last winter it was announced his salary was \$12,000. Evers' contract calls for \$10,000, making the total salary drawn by these two men \$22,000, although the Phillies pay but a pro rata share of Evers' stipend. The sum in itself not to include the aggregate of the salaries of 18 or 20 other players, is a heavy load for any club to carry.

BASEBALL
St. Peter's League
The Thirties defeated the Maples last evening by a score of 7 to 1 in St. Peter's Y.M.A. League feature. The game was called at the end of the fourth inning owing to darkness. The box score follows:

ATHLETICS
Will Hold Cross Country Run
Cambridge, Mass., Aug. 7.—The Harvard athletic association has decided not to eliminate cross country running and soccer football from the list of fall sports this year. No regular schedules have been made up for either of these teams, but games will be arranged informally.
Fails to Beat Record
Word has been received at the national headquarters of the Amateur Athletic Union that Clinton Larsen, Utah high jumper, failed in his recent special trial to better the world's record held by Edward Beeson, of California. Larsen several weeks ago cleared the bar with the pegs registering 6 feet 8 inches. The jump was made in an exhibition, however, and according to A. A. U. rules could not be accepted. As a result a special event was staged later with Alma Richards and several other good jumpers competing against Larsen, but the latter was not quite on edge, and the best he could do was 6 feet 6 inches. Richards carried Larsen along 6 feet 2 inches, where he was forced to retire with a sprained ankle. Larsen then cleared the bar two inches higher, and had it placed at 6 feet 8 inches, at which point he failed in three attempts. He had no difficulty in winning the broad jump, with a leap of over 30 feet, however, and his admirers predict that he will set a new world's record in the high jump before the summer is over.

LITTLE BOY HAD DIARRHOEA
Only Blood Passed Bowels
Diarrhoea, dysentery and summer complaint are responsible for more deaths, especially of children, during the summer months, than any other form of disease. Diarrhoea does not need to persist for any length of time until the whole system is weakened, and no other disease so quickly undermines the strength and brings about a condition of prostration and often collapse. Dr. Fowler's Lower Clark's Harvest, N. B., writes: "When my little boy was a year and a half old he was taken with a bad case of diarrhoea. I had the doctor, but he got worse so that only blood passed his bowels. I tried everything, but he got no relief. One day while I was at work, I picked up a piece of paper, and on it was an advertisement for Dr. Fowler's Harvest. I bought a bottle and began to get better, and the second one made me sure. I would not be without it in the house for my little ones. I am proud to say 'Dr. Fowler's' saved my little boy's life." Dr. Fowler's Extract of Wild Strawberry has been on the market for the past seventy-two years, and there are many imitations of this wonderful bowel complaint remedy. See that you get the genuine when you ask for it. Price 50c. Put up only by The T. Millers Co., Limited, Toronto, Ont.

Craven A Virginia Cigarettes
COOL and SMOOTH to your throat and tongue. Mild? Sure—but full flavored and satisfying. Why? Because they're made of Pure tobacco only—nothing added. Naturally mellowed by age. Skillfully blended. There's no finer Virginia Cigarette at any price.

Polarine
MAKES A GOOD CAR BETTER!

### LOCAL NEWS

#### A CHALLENGE

The Ross baseball team wish to challenge the Hampton Village team to a game on Saturday afternoon to be played at Hampton. They desire a reply through the Times.

#### STILL IN HOSPITAL

Letters received from England state that Claude T. Oulstead of Fredericton who was wounded while fighting with the 28th Battalion, is still in hospital, but that his wounds are healing nicely.

#### BEAVERS AND ACADIAS TIE

Last evening on the Barrack Green the Beavers and the Acadias played a five inning game and ended tie with a score of two to two. The batteries were: For the Beavers: (play) and (play); for the Acadias, (play) and (play).

#### THE NEW WAREHOUSE

At the meeting of the common council, which is scheduled to take place this afternoon, Commissioner Russell will present his report on the collapse of the wharf in West St. John and also recommendations and specifications for the erection of a new shed.

#### RONALD MULLIN'S FUNERAL

The body of Ronald Mullin, of Woodman's Point, who died in the General Public Hospital here last evening, as the result of being run over by a dump-car at Westfield yesterday, was taken this afternoon to his home. Tomorrow morning in St. Peter's church in this city high mass of requiem will be celebrated for the repose of his soul.

#### GORDON-WOOD

The wedding of Claude A. Gordon of Toronto, to Miss Gladys Wood, daughter of Mr. and Mrs. John Wood, 27 Simonds street, was solemnized in Trinity church by Rev. Canon R. A. Armstrong on Monday afternoon at four o'clock. The bride looked very charming in a suit of light grey tulle with dark trimmings and white Georgette crepe hat and carrying a bouquet of bridal roses. After a trip through the province, Mr. and Mrs. Gordon will reside in Toronto.

#### TO BEGIN IN ADELAIDE ST.

Commissioner Fisher said this morning that his men had about completed work in Union street, West St. John, and that they would immediately commence placing a new surface on Adelaide street from the corner of Main street to Newman brook bridge. It will be composed of crushed stone and tar and will be one of the best of its kind in the city. Sydney street also will be repaired from Leinster street to Mecklenburg street.

#### WATER WORKS DEPARTMENT

Commissioner Wigmore is making good progress with the installation of new fire hydrants in the North End. Last evening work on the sixth was completed and three more have yet to be placed. The new hydrants are of a standard type with six inch connections and are superior to the old style. The water and sewerage department are also busily engaged laying new water and sewerage on Prince William street and on Sheffield street.

#### LANCASTER FERRY MEETING

A meeting of the Indianston and Lancaster Ferry Commissioners took place this morning at the office of Russell's office, City Hall. G. Heber Vroom presided, and others present were Commissioners Russell, Councilors O'Brien and Golding and J. B. M. Baxter, K.C. A general discussion took place regarding business affairs in connection with the ferry, but no definite action was taken in any of the matters brought up. The meeting was adjourned indefinitely.

### FINED FOR BUYING JUNK FROM MINOR

#### Magistrate Criticizes Lax Methods of Dealers—Automobile Cases Before the Court

Several citizens were in the police court this morning for violating various features of the bylaws. Max Budovich and Mrs. Samuel Budovich, junk dealers, were each fined \$40 by the magistrate for buying junk from a minor. A thirteen-year-old boy gave evidence against the two defendants. He said that about two months ago, he went to the junk store of Budovich in Ann street and sold him a quantity of lead for which he received seventy cents. He identified the defendant. As to the two men, the boy said that he had sold her pieces of iron, brass and copper and also a quantity of old bottles. He received her in payment twenty-five cents. He had sold goods on other occasions to the same woman.

The woman, as well as the man, denied ever seeing the boy before. The magistrate severely criticized the rather too lax disposition on the part of junk dealers in purchasing goods from young boys. "If junk dealers would not buy it there would be no thieves," remarked the court. He imposed a fine of \$40 on each of the defendants.

William H. Robinson and James Nelson were each fined \$10 for exceeding the speed limit with their cars in Hawthorne avenue on the afternoon of July 27. Policeman Gibbs said that the two men were going out the avenue side by side at a rate of speed well over twenty miles an hour. Mr. Robinson told the court that they were not racing. The policeman said that this was a dangerous place, as there were always a lot of little children playing about.

Car No. 4912, owned by Louis Corey and driven by Mr. Tobias, was reported by Policeman Winter for operating the above car without a rear number plate on two occasions. The defendant was given until tomorrow to show that the number plate had been put on, after a warning by the policeman, but had fallen off, thus leading to a second offence. H. C. Green was fined \$10 for exceeding the speed limit in turning the corner of Mill and Main streets on August 2. Policeman Hogg made the report.

### REVISITS ST. JOHN AFTER TEN YEARS

Old friends are today extending a cordial welcome to John A. Chesley, who is in the city on a short visit, looking scarcely a day older than when he left ten years ago for South Africa. Mr. Chesley was appointed Canadian trade commissioner there in 1907, leaving in March of that year. That was during the reconstruction period after the war in South Africa, and a very interesting one in which to live in the city of Cape Town. Mr. Chesley was there for nearly ten years, and returned to Canada the latter part of 1916. He has since lived in Montreal.

Mr. Chesley mentioned this morning that when he left St. John he left his wife and large family of sons and daughters here, but today there is not one of them in the city. One son is in the war, having been once wounded and now back to the front. Another is in Montreal and a third in Winnipeg. One daughter is married in South Africa, another in Toronto, another in Pennsylvania, and so on, leaving only Mr. and Mrs. Chesley in their Montreal home.

Mr. Chesley was once at the head of a large foundry in the old city of Portland. He was for many years in civic life, both in old Portland and the new city, and was once a member of parliament representing this constituency. He takes an active interest in civic and public questions, but when he comes to speak of the growth and development of the city of Montreal he is an enthusiast. Mr. Chesley is at the Clifton.

### NEWS OF THE BAND OF 140TH BATTALION

Among those who returned from England on Saturday morning last was Frank W. Eddleston, who served in the band of the 140th Battalion, and who for many years before had been a member of the Artillery Band. He was sent home by a medical board, and has received his discharge. He is the first of the twenty-eight bandmen to return. When he left, the band, now thirty-five strong, was on band duty at a great military camp in England.

This band had many vicissitudes after it left St. John. It had only been three weeks in England when the splendors of the Empire were taken away, and have never been replaced. Effort after effort has been made to get them back, but to no purpose. The colonel of the battalion has been ordered. The band members were drilling and doing all kinds of work in the ranks until last May when they secured the instruments of the 212th Battalion, but at this time held by the 97th. Since that time the members have been on band duty only and are second to none at the camps where they are now located.

Mr. Eddleston says that before he left, Sgt. Charles Williams had been recommended for warrant officer, and Corp. "Toby" Williams as sergeant. He is an all-Canadian band.

Mr. Eddleston says that at various times members of the band were named in drafts for the front as privates, but in every case the order was withdrawn. He adds that the band is indebted to Major Perley for many kindnesses, who has been a real father to them since they joined the Seventh Reserve. The 140th Battalion has been completely broken up in drafts.

### BURIED TODAY.

The funeral of Mrs. Margaret Knowles, who died at Hammond River, and whose body was brought here for burial, took place this afternoon from the residence of her nephew, Robert D. Campbell, 24 Celebration street. Services were conducted by Rev. J. H. A. Anderson. Interment was made in the Church of England burying ground.

The funeral of Mrs. Ellen Springer took place this afternoon from her late residence, 154 Victoria street. Services were conducted by Rev. Dr. Hutchinson. Interment was made in Cedar Hill cemetery.

The funeral of Sister Mary Paul of the Sisters of Charity took place this afternoon from the Sisters' Chapel in Cliff street. High mass of requiem was celebrated by Rev. A. W. Mesban, D. D., of St. Andrews, and the final absolution was given by Bishop LeBlanc. Among those in the sanctuary were—Rev. Miles P. Howland, Rev. J. J. Walsh, V. G. Rev. F. J. McMurray, Rev. A. P. Allen, Rev. Francis Walker, Rev. William Dube, Rev. Harold Conaghan, Rev. Peter Cosgrove, C. S. S. R., Rev. Father McDermott of Sussex, and Rev. M. O'Brien, Norton. Interment was made in the New Catholic cemetery.

### Killed in Action

Gunner Harold Barnett, of York county, has given his life for king and country. He enlisted in Fredericton in January, 1916, with a history of artillery, later going to Partridge Island and thence to Quebec. A short time later he went overseas. He was only twenty-one years of age and is survived by his parents and three sisters, Pearl, a graduate nurse, and Daisy and Mabel at home.

### Lieut. Mowat Wounded

Alex Mowat, Campbellton, has received a telegram from Ottawa informing him that his son, Fred, had been wounded in the right arm by gunshot in hospital, Letouquet. Lieut. Fred T. Mowat sailed from Halifax last November and upon the disembarking of the 10th battalion in England, he took several courses, crossing over to France in May, was attached to a Montreal regiment and took part in two previous engagements before being wounded in the last big drive.

## Ask Your Wife

about the care of the kitchen, which bothers her most, "Doing the Dishes" or "Scrubbing the Floor!"

And then consider a bright, cheerful, "crackless" floor that is even easier to clean than washing the dishes.

Everett's Linooleums will make a bright inviting room out of a dull, cheerless kitchen, and will reduce the unpleasant work of scrubbing by half.

Ordinarily, you use a mop on linooleum, you know. Send your wife in today to pick out the pattern. She'll like our assortment.

Our Linooleums wear well and their cost is low. They make the kind of kitchen your wife should have.
