POTATO MAY BECOME EXTINCT  
SAYS RECORDER SKINNER.

Reasons Why Department of Agriculture Should Take Matter Into Consideration Without Delay—Grave Fears for Wheat Crops of the West—Rust Already Beginning Its Revolting Work—An Interesting History of the Potato.  
Recorder Skinner, who is a student of Nature as well as of Blackstone, has made a special study of the potato, its origin and its growth. He claims the present potato has largely degenerated from the original potato, and that if the present mode of cultivating the potato is continued it will in a short time become extinct.

IDEAL WEATHER AT CHARLOTTETOWN

Tournament Opened This Morning With Grand Procession—Addresses of Welcome.  
CHARLOTTETOWN, P. E. I., Aug. 1.—Ideal weather attends the maritime tournament, which opened this morning by a grand parade in which three hundred men took part. The departments marched in the following order: Charlottetown, 80 men; Gloucester, 25; St. John, 80; the Fourth Regiment and Worth bands of Charlottetown and the Monks of the Convent; Home; also the engine and other apparatus. At the close of the parade the men proceeded to Market hall, where an address of welcome was delivered by Mayor Paton on behalf of the city, and Mayor Lewis, ex-officer of the Charlottetown fire department, on behalf of that department. The city is crowded with visitors and hotels are filled to overflowing. There will be an excursion this afternoon, sports tomorrow afternoon.

NEGRO HANGED FOR CRIMINAL ASSAULT

MAYFIELD, Ky., August 1.—The hanging of Allen Matthews, the negro who criminally assaulted Miss Ethel McClain last Wednesday night, took place at eight o'clock last night in a legal manner in the yard of the county jail. Fully 10,000 persons were on the scene but only a few hundred could see the execution, although almost the entire fence surrounding the scaffold had been torn down while the trial was going on. It was only 50 minutes from the time the jury was sworn in until the negro was pronounced dead.

JUDGE SEDGWICK SAID TO BE DYING

HALIFAX, N. S., Aug. 1.—Mr. Justice Sedgewick's condition remains unchanged. At 1 p. m. today a telephone message from Chester said he was refusing to take any kind of nourishment and that he would live about twenty-four hours or more.

RICH IRON ORE DISCOVERED.

STURGEON FALLS, Ont., Aug. 1.—W. A. Cooper, of the Sturgeon Falls, has made a discovery of rich iron ore in Kirkpatrick, about twelve miles from Sturgeon Falls. There appears to be a large vein of ore about twenty-five feet wide.

TERRIFIC FIGHT BETWEEN Loyal Troops and Helsingfors.

No Cruisers Were Visible This Morning.  
Broad-sides Being Exchanged at Ten Minute Intervals—Workmen at Helsingfors on Strike—Gronstadt in Terror.  
ST. PETERSBURG, August 1.—Gronstadt is cut off from communication with St. Petersburg. Both the telephone and telegraph lines were severed during the night. Helsingfors, Finland, August 1.—The fight between the nutcrackers and the loyal troops were waged during most of the past night. The cannonade was heavy, the firing of the guns furnishing an awful, inspiring spectacle to the thousands lining the point of Fantasy on Conservatory Hill. The loyal minority seemed to command the forts on Nicholas Island, which was engaged in a duel with the nutcracker's formidable masked batteries. At 10 o'clock this morning they were still exchanging broadsides at ten minute intervals. The casualties transported to Helsingfors number less than 50, of whom fifteen are dead. But the number of killed or wounded in the Sveaborg hospitals has not been ascertainable. Order has been restored at Skatuden Island, where 110 sailors and 11 civilians have been disarmed. From the civilian point of view the local situation is easier. No cruisers are visible. Troops are expected here, but the destruction of the bridge near Rihimaki railroad station and the tearing up of the permanent way at several points delay the arrival of reinforcements. The town is quiet and business is proceeding, but the workmen are on strike. The diet at a meeting late last night issued an earnest warning to the people to abstain from participation in acts which might possibly gravely affect the whole country. Copies of the Viborg manifesto of the outlawed parliament are being distributed among the conscripts, who quietly put them in their pockets. A naval squadron including the battleship Slava, is reported to have sailed from Revel this afternoon for Sveaborg. The telegraph building here has been ruined and the barracks and cathedral have been badly damaged by the fire of the 11 inch guns.

JUDGMENT FRIDAY IN CAMPBELL CASE

Lawyers Delivered Their Addresses This Morning.  
Sergt. Hipwell Testifies That He Received Extra Money at Horse Races Many Years Ago.  
The assault case preferred against Sergt. Campbell by Peter LeClair was resumed this morning. Mr. Baxter for the prosecution asked that he be permitted to call a witness in rebuttal to Sergt. Campbell's evidence. The witness was Frank Daley, who with LeClair had actual measurements of the place on the wharf that shows considerable difference to what Sergt. Campbell's evidence yesterday was different than previously. Mr. Macrae objected, but the magistrate said that he thought the witness might be heard. The evidence of Campbell on the first and second day of the trial was read over. The first day's evidence showed Campbell had said there was nothing to lead him to believe there was interference but orders were made to allow that they were not working back. LeClair and two others were standing at a mooring post. In the second day's evidence Campbell said the men were standing at an elevator post, and were interfering with the workmen. Fred Daley was then called by Mr. Baxter and said LeClair measured on To Mr. Macrae Daley said he was not there when the steamer was there. Mr. Macrae then objected to the evidence being given on the ground that Daley would not know where the steamer was. The magistrate noted the objection and allowed the evidence to be given. Mr. Baxter witness made a plan of the wharf which showed the distances from posts in question to where the men had been carrying bananas from the day of the alleged assault. LeClair was recalled and said that he had seen the tracks of the wharf from the post to where the men had been carrying bananas from the day of the alleged assault. The landing stage was still further away. The distance from the elevator post to the tracks of the wharf was six feet and from the cap of the wharf to the shed was eighteen feet. Sergt. Hipwell was called by Mr. Macrae and he had been on the force 64 years. He had gone to horse races more than 20 years ago and received money for doing extra duty. This closed the case and Mr. Macrae addressed the court. He contended that a month's notice must be given before any information should be made against a police officer. Sergt. Campbell was acting under the powers of the police act. He is always on duty. Secondly, he is always on Government Railway Act showing no person has a right to trespass on the property. If Campbell's evidence is taken he was justified in doing what he had done. It was a technical assault but justifiable. A police officer's duty is to be able. According to Campbell he spoke to the men, two went away, one said he was working there, Campbell inquired and found the man had given a false statement, and he was justified in moving the man along out of the way. The question is has an officer the same power on the wharf as on the street. It may be that Campbell was hasty and rash. One difficulty claimed by fruit men is that they have had bananas stolen and this business should be protected and he contended that no case had been made. Mr. Baxter said it was a case of assault under the criminal code, and nothing under the police act. Taking all the provisions of law whether or not there was an offence, what is the duty of the officer? He must make an arrest or lay an information, and the reason he gave was that he did not think the man was doing anything unlawful. He pushed the man away and that is an assault. What act is there to show that he could do this without making an arrest? There is no right that a man can't walk from the high land to sea front without being impeded. Then another point by the defence was for letting on the wharf. LeClair was not doing this but was looking for work. The whole affair was a case of Campbell using arbitrary power. The point that LeClair makes is that he has a right to look for work and if he does that right he should not be pushed away. If the court decides that Campbell is right other persons would try the same tactics. If he decides Campbell in the

ESCAPED FROM BOY'S INDUSTRIAL HOME.

Little James Halligan, Aged 12 Years, Captured by Police and Will be Returned.  
Little James Halligan, aged 12 years, was sent to the industrial home on a four year's sentence for stealing, escaped from the home last night, and was captured by Policeman Marshall in the North End. Halligan had torn the red band from his uniform coat and put it in his trousers in an attempt to keep him from being identified. In answer to Marshall's questions this morning the boy cried and said he didn't like to stay at the home, although he had learned to write his name since he went there, had attended school regularly, had time to play, little work to do, was kept clean and had plenty to eat. He was told that he could be sent to Dorchester penitentiary for a five year term, and hearing this he cried bitterly and begged to be sent back to the home, where he would be a better boy than when he was sent there. He was sent to jail for his dinner and will be taken back to the reformatory this afternoon.

Outbreak of Disease at Zion Station Is Not Serious—Wedding at Fredericton.  
FREDERICTON, N. B., Aug. 1.—At the residence of the bride's parents last evening Miss Doris May, daughter of Mr. and Mrs. John Smith, was united in marriage by the Rev. Dr. McLeod, to William A., eldest son of Mr. and Mrs. Joshua Caswell.

MARRIAGE.

FRIZZEL-HAMM—At the residence of Wellington Hamm, on Wellington Row, this city, at 10 a. m., August 1, 1906, the marriage of this city, to Robert Frizel, of Truro, N. S. was solemnized. The bride was Miss Margaret Hamm, daughter of the late Mr. and Mrs. W. A. Hamm, of Truro, N. S. The case was adjourned until Friday next when the magistrate will give judgment.

MAGISTRATE AFTER LOAFERS IN CITY

Wants No Beggars Annoying People on Street.  
Thomas Nash Sentenced to Four Months in Jail Without Option of Fine—Samples of Begging Cards.  
Magistrate Ritchie was quite forcible in his remarks this morning regarding this class of tourists who do well to give St. John a wide berth on their summer tours. Thomas Nash, a young man, pleaded guilty to being drunk on North street last night, but not guilty to being a vagrant and he was quite indignant at being termed such. Policeman Howell said that Nash has been beating about the streets for the past week, was drunk and had no visible means of support. The prisoner asked the officer what constituted a vagrant, and was told a man who slept in box cars, was a loafer, no visible means of support, a bum, etc. Sergeant Caples gave evidence that he had noticed Nash begging about the streets for some time, that about a year ago he was sent to prison for begging and pretending to be a cripple, and also that complaints had been made about him. When asked what he had to say Nash said he came from Slowhogan, Me., where he had been working and if his honor would kindly let him go he would leave the city in an hour and would go back to Slowhogan to work. Policeman Howell said that last night Nash was in company with John Donovan and that they took a bunch of tramps to a place to look for food and ran away with them. The magistrate said that the police court is a poor place to look for chances and St. John did not want any tramps or beggars. If he thought that Mr. Baxter witness made a plan of the wharf which showed the distances from posts in question to where the men had been carrying bananas from the day of the alleged assault. LeClair was recalled and said that he had seen the tracks of the wharf from the post to where the men had been carrying bananas from the day of the alleged assault. ODDFELLOWS IN SESSION AT MONCTON

I. C. R. Employe May Lose Sight of His Eye—Medical Men Going to Toronto August 18.  
MONCTON, N. B., Aug. 1.—The fourteenth annual session of the grand lodge, Acadia district, I. O. O. F., Maritime Division, embracing all the maritime provinces, opened here this morning with an attendance of about fifty, representing practically all the cities in New Brunswick, Nova Scotia and P. E. Island. Grand Master J. S. Edwards, Halifax, president, and H. Walker, St. John; grand warden, F. Turner, Halifax; grand conductor, H. Noakes, St. John; grand Tyler, W. A. Hamm, Halifax. The first session, which opened at eleven o'clock, was devoted to receiving reports of the officers. These reports showed the lodges to be in a very flourishing condition. The increase in membership for the six months terms being 25, while nine new lodges were organized. Lorne Stevens, employed in the I. C. R. boiler shop, may lose the sight of one eye through an accident which occurred yesterday afternoon. He was working on a piece of iron when a sharp chip flew up, striking him in the eyeball and inflicting a painful and severe cut. A large number of maritime provinces medical men expect to attend the British medical convention at Toronto on August 18, and for their convenience special cars are to be attached to the Ocean Limited express, leaving Halifax the morning of the eighteenth.

REMINDER.

If providence is kinder to you than to me, Then do all you can for me now, To cast a ray of sunshine on my path, Accidents will happen, who can tell when or how. Price, that which you wish to give. Fleming said he got the cards from another fellow. It didn't work with the magistrate, however, and the prisoner was sent to jail to work two months in the "Rock City Mine" in default of paying a fine of eight dollars. One city drunk was remanded to jail to sober up. Policeman Finley reported R. Nagle for playing ball on Pond street last Sunday. Nagle explained he was playing with some little children about his door and did not think it say harmful. The magistrate said it was wrong, however, but would excuse Nagle this time. POOLED. "Then, Maurizio, tomorrow I will come with my wife to see you both." "Delighted, but look here—tell your wife not to wear her new diamond earrings, or my wife will at once want a pair!" "Oh, the mischief! And my wife was only coming for the purpose of showing them off!"—Il Diavolo Ross.

DIFFERENT OPINIONS.

"Do you think your father would like me as a son-in-law?" "Yes, I believe he would." "Oh, joy!" "I never agree about anything, you know."—Cleveland Leader.

### SPORTING MATTERS

#### THE TURF

CLEVELAND, July 31.—The Chamber of Commerce stake of \$5,000 for 2.24 pacers was the feature of the Grand Circuit meeting today. It was won in straight heats by Adelle, the favorite, a five-year-old mare owned by F. G. Jones of Memphis and driven by Ed. Geers. Her best time was 2:03 1/2, but she could have gone in 2:02 1/2. Bonanza, who took second money at Detroit a year ago in the same stake, again took second money. Moore, the favorite in the 2 1/4 trot, won the event by capturing the second and third heats.

The 2:05 pace was won by Bolivar, who sold in the field. Hal Chaffin, the favorite, was able to take but fourth money. The time of the first heat, 2:04, is the fastest mile paced in any race on any track this year.

C. K. G. Billing, the famous amateur horseman, broke two world records late in the afternoon. First he drove the pacer, Morning Star, 2:04 1/2, a half mile to wagon in 19 1/2 seconds. A few minutes later he drove Major Delmar, the champion trotting gelding, a half to wagon in one minute.

#### RACING IN UPPER CANADA.

The stable which Mr. Beaton of Montreal raced here last fall is not being overly successful in Montreal and vicinity this season. Miss Antle lands in the money quite often, but Little Mack, the black gelding, finished fifth, sixth and seventh the other day in the 2:25 pace, which was won by Don H. in 2:22 1/2, 2:23 1/2, and 2:24.

Jimmy Powers writes in the Record that Rockford intends taking Peach-erina to the Montreal races in August and returning to the provinces for the wind-up in September. Local horsemen expect to see Rockford add his mare start in the 2:15 class here at the races which will be in August, but they don't tell much about Rockford until he lands—Gleason.

##### HALIFAX OARSMAN TO ROW AT WORCESTER.

HALIFAX, July 31.—John O'Neill, the amateur oarsman who defeated the Halifax champion, William Duggan, by ten lengths on Saturday in the 2000 yd. race, has been selected to represent the senior single scull race at the national championship regatta at Worcester, Mass., on August 12. O'Neill rowed the 1 1/2 miles yesterday in 10m. 38s. in rough water, but in regatta it is assumed he will row the distance in 10m. 18s.

At the Carleton Presbyterian picnic field at Westfield yesterday, the most interesting event was the race between the four amateur crews of Carleton. The water was rough and the crews experienced great difficulty, two of the boats filling with water. When near the turn the Beaver crew were unable to continue, their boat being filled. Hilton Byles jumped out so as to prevent the boat from sinking and swam around to the shore. O'Neill rowed the 1 1/2 miles yesterday in 10m. 38s. in rough water, but in regatta it is assumed he will row the distance in 10m. 18s.

Up to the time of the accident all the boats were doing well, and it would be hardly fair to say that the boat in which the Beaver crew were unable to continue, their boat being filled. is no one who can give him an argument. He has the strength, stamina and ability, he thinks, to warrant him looking for success with the boxing gloves. He is really in training now. Daily he boxes with eleven knights of the mite; he runs, skips the dope, plays eight in the bag, and does other things which will fit him for the ring.

"Why not?" said the big Russian when asked if it was true that he wanted to fight Jeffries. "Am I not as strong, as active and of as good courage as Jeffries? Why, then, should I not fight him and have a good chance to beat him and be champion fighter of the world?"

Will he be champion? I shall fight first some of the men who will claim to be champions. Then I will challenge Jeffries for the championship of the world."

#### WITH THE BOXERS.

Jimmy Gardner will fight his postponed bout with Peter Sullivan at Lymanville, R. I., on Friday, and there will be a big crowd. Jimmy should not win. On Friday night Arthur Cote and Rudolph Upholz will meet in Augusta, Me., and on the same night Tommy Murphy of Harlem will fight Spike Robson in Philadelphia, a postponed fight.

Johnny Mooney, who is now manager of Fred Bradley, the ex-amateur heavy-weight, will have the latter in better shape and a much improved boxer when he meets Al Kaufman in Chelsea than he ever was before. Mooney has taken Bradley to Revere Beach to do his training. He is also engaged big Jack Johnson to spar with him every afternoon. The colored heavy-weight is a clever boxer and his advice to the sports are valuable tips about the game.

Terry Martin expects shortly to leave for the West, where he already has famous offers to box. Martin is in receipt of an offer from Dayton, O., where the sports are anxious to find a suitable opponent for Willie Fitzgerald.

Spike Robson, the English light-weight, and Tommy Murphy have been re-matched by Jack McGuigan to meet in a six-round bout between the National Athletic Club on Monday, Aug. 6. In their previous battle Robson outpointed Murphy.

Frankie Neil, the California feather-weight, who gave Abe Attell such a hard battle in Los Angeles, Cal., a short time ago, has been signed to meet Harry Baker, the amateur feather-weight champion of California, in a six-round bout at catch weights before the Pacific A. C. of Los Angeles, Cal., August 7.

J. J. HILL'S CANAL SCHEME.  
Starts Survey for Ditch From Lake Superior to Lake Winnipeg.

ST. PAUL, Minn., July 31—James J. Hill has begun the survey for a canal between Port Arthur, on Lake Superior, and Lake Winnipeg, in Manitoba. Just why he has begun this survey is a puzzle to railroad men, as the latter are agreed that Mr. Hill could operate a railroad much more economically. The Canadian Northern has acquired the Qu'Appelle, Long Lake and Saskatchewan road, which has been operated in the last sixteen years by the Canadian Pacific. This road is one of the most important in the Canadian Northwest.

IN THE OLD GRAVEYARD.  
The annual ground over the so-called desecration of the Old Burying Ground has begun. Every year people feel called upon to protest because children are allowed to run wild in that consecrated place, shocking its quiet with their laughter and shouts, trampling down the grass over the leveled graves, sporting even upon the monuments themselves, and perhaps defacing the monuments. The little holes in the heart of the city where its brave old founders sleep should be kept sacred and in good order, they say.

EXPECTS BIG WHEAT CROP.  
William Brown, general superintendent of Lake Superior of the Canadian Northern Railway, is in the city visiting his brother, Walter Brown, of the west end. Mr. Brown has been in the west for the last twenty-five years and has been with the Canadian Northern since 1892, having previously been in the employ of the C. P. R. Mr. Brown said that this year they are looking for a record breaking wheat crop in the west. He also spoke in the highest terms of the industry, and said that there is an industrious, sober lot, with the exception of a few fanatics who go on occasional pilgrimages. Mr. Brown will spend a few days with his relatives in the West end and will return about the first of the week to Edmonton, Alberta.

Sore Lungs  
We want everybody who has a hard cough in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells us that it is the best remedy for all cases of sore throat, cough, and weak lungs. Doctors tell us the same thing. Ask your doctor about it.

THE SITUATION IN RUSSIA.  
The despatches from Russia continue to tell us that Prime Minister Stolypin has not abandoned hope and that he is energetically preparing for a conservative electoral campaign. He has after a long and animated discussion with his ministers handed to the emperor his political manifesto, which promises a more liberal and more decentralized agrarian scheme than that of the last cabinet. It also strongly emphasizes the statement that the administration will live strictly up to the law. Otherwise it is simply a declaration that imperial authority must be obeyed. Its meaning is plain. In this respect at least Premier Stolypin has not mislead words. It is evident that the peasants are not united.

ALDERMEN RESENT RECENT CRITICISM.  
Conducting Civic Affairs at Big Sacrifice to Themselves  
Meeting of Board of Works Held Last Evening—Work on the New Wharf Discussed—Other Matters.

At a meeting of the board of works last night the conditions at the new wharf wharves were discussed some length. At the opening of the meeting Ald. McGoldrick called attention to an editorial in the Sun and said that the wharves were not being built in a satisfactory manner. He expressed his disappointment in which a change of city government was advocated, and pointing out that under present conditions the wharves would look for nothing but a "rapidly accelerating progress toward bankruptcy." This brought considerable discussion, as the aldermen refused to concede that they were not handling the city's business at a great sacrifice.

LOOK ANGLIC.  
"Alaska is a land of adventure and romance," said Raymond Brumby, who recently returned from the north. "Many queer things have happened in Alaska. Many wrecksed things. Sometimes it has been necessary to bury dead men in the air that, and sometimes this news has been broken by a wonderful sight."  
"An Alaskan called on a woman in New Hampshire to tell her of her son's death in the north."  
"Yes, lady," he said to the weeping mother, "I was with him to the end. I saw him die. And I tell you, ma'am, as he was dyin' he looked just like an angel."

WEATHER INDICATORS.  
An original suggestion with the New York World, and a good one it seems, is that the daily weather forecasts be distributed to the thousands of farmers served by the rural free delivery by the simple expedient of adding a weather flag to the "received" stamp which all envelopes are stamped with. The stamps would not cost much and the benefits to the farmers would be immense.—Meriden (Conn.) Journal.

CONSTRUCTIVE PENALTY.  
The editor of an Italian newspaper has received a letter requesting him to consider his ears boxed by the writer. The poor scribe, with tingling ears, has replied by blowing into his adversary's face, and the remainder of the letter and kindly requesting him hence forth to regard himself as a dead man. Any further letters from the corpse will be sent unopened to the dead letter office.—Westminster Gazette.

BOYS FOR SAUSAGES.  
Even in England they have their beef scandals that make vegetarians. A butcher in Farrington-road, London, advertised: "Wanted, a respectable boy for beef sausages."—New York Tribune.

PICKED TOO SOON.  
Mrs. New-wed—Dear me, these eggs are small.  
Village Grocer—They are, indeed, mum, and I'm sure I don't know why.  
Mrs. New-wed—O, I dare say it's because you take them out of the nest too soon.—Tit-Bits.

CANT CHANGE.  
This is the manner in which the two little girls scraped an acquaintance: "My name's Tribby Jones, and I don't like the name a bit. What's yours?" "Bertha Skynogale, and it's a worse one than yours. Don't you think so?" "Yes, but you can change that, all right, by marrying somebody, and I can't. I'll always be Tribby."—Chicago

SIX YEAR OLD BOY DROWNED YESTERDAY.  
Walter Milley Fell Through Hole in Ballast Wharf.

Drowned in Sight of His Grandfather—What Efforts Were Made to Save Child Were Unavailing.  
Walter Stanley Milley, the six-year-old son of Hugh Milley, was drowned yesterday afternoon. The boy was walking along the government pier near which the steamer Lake Superior was wrecked a few years ago. There were several flat cars on the track along the wharf and while passing one of these cars the boy fell through a hole in the wharf and into the water. Mr. Milley, who was standing on the wharf, saw the boy fall and immediately called for help. He thought the boy had fallen over the side of the wharf, but on walking back he saw a hole in the wharf about three and a half feet long and fourteen inches wide. The boy had fallen through this hole into the water twenty feet below. Mr. Milley climbed through the hole in an attempt to rescue his grandson but could not get below the slimy logs underneath the wharf. While climbing down he slipped and narrowly escaped falling in. He could see the boy about fourteen feet below him struggling for his life. It was a terrible ordeal for the old man to be compelled to watch the boy's efforts and yet be helpless to assist him.

FURNITURE SALE.  
Hundreds of thoughtful housekeepers throughout the city and suburbs will gladly take advantage of the annual mid-summer furniture sale at Anland Bros., Ltd., Waterloo street, as every piece of magnificent furniture is being sold regardless of cost. This is the first furniture sale that the above firm has held this year and it will give everyone an opportunity to secure rare bargains. GREAT TIME.  
"Had a good time on the Fourth, I suppose?"  
"With his one sound hand Johnny pushed his bandages aside."  
"You bet I did." He answered.  
"But how about your burns?"  
"Hub! I don't care. It was the very last cannon cracker I had that blew me up."—Philadelphia Ledger.

MODERN BREAKFAST.  
"We have some fine sausage."  
"Keep it."  
"How about a taste of his?"  
"Cut it out."  
"Now he's beef, potted chicken, canned tomatoes."  
"Butter and Mars! You must take me for an investigating committee. I'd like here to get something to eat. Bring me a glass of distilled water and a fumigated banana."—Philadelphia Ledger.

### ALL NIGHT UP A CLOTHES POLE.

Henry Vogel Forty Feet in the Air for Six Hours.

Police Couldn't Get Him Down and Spread Mattresses to Make His Fall Easy—Slid Down Quickly

NEW YORK, July 31.—Henry Vogel, 27 years old, of 112 Ridge street, has been acting strangely for several weeks. On Saturday night he climbed the top of a forty foot clothes pole in the yard of his home and perched there until 4 o'clock yesterday morning. Three policemen and a truck company tried their best to get him down, but all failed. They pretended to leave the scene that Vogel came off his perch.

Three weeks ago Vogel disappeared from his home. A general alarm was sent out, but nothing was seen of him until Saturday night when he was found in Seward Park. He went home with his father and went to bed at 9 o'clock. An hour later he got up and dressed and rushing out to the yard shined up the clothes pole like a monkey. He lay across the top and rested his feet on a spike. His father aroused all the neighbors in the block, shrieking at the top of his voice that his demented son intended to jump from his lofty perch.

Patrolman Pfeiffer of the Union Market station, who was called, sent an ambulance call to Bellevue Hospital upon hearing that Vogel was mentally deranged. Ambulance Surgeon Lindsay, who responded, told the policeman that he could do nothing until Vogel was taken from his perch.

"When you get him down I'll come after him," said Dr. Lindsay, "but I don't feel like treating patients in mid-air."

Pfeiffer was reinforced by other policemen during the night, but none could hit upon a plan to capture Vogel. Several times the police attempted to shoo him from the pole and attempting to coax him into descending peacefully but each failed. The policeman feared that he would jump to the yard at any moment and they proceeded to make the expected descent as easy as possible. Mattresses were placed around the pole, but Vogel probably had made up his mind not to jump.

All night the police and hundreds of neighbors kept watch and tried all sorts of dodges to get Vogel to the ground. Some of the women offered to marry him. At 10 o'clock yesterday morning the firemen of a truck company were summoned, but before they carried in a fifty foot ladder, the policeman saw that the coat was clear, the policeman having hid in a woodshed, and he slid down the pole. He was seized and bundled off to Bellevue Hospital, where he was put in the psychiatric ward.

### MONEY PRIME IN CHICAGO.

CHICAGO, July 28.—Developments in the local money market this week have been confined largely to an endeavor on the part of a few big interests to bring about a slight reduction in their rates for the commercial rates of 6 1/2 to 8 per cent.

Bankers report the demand for money very active and are disinclined to make concessions.

On the other hand borrowers, especially grain receiving houses looking for accommodations, have at times offered Eastern money at 6 1/2 per cent. for six months and have turned it down, waiting in case.

Some of the local bankers admit they might make slight reduction in their asked rates for paper running for short terms, but that they have purposely limited accommodations to the immense acreage, to about the middle of October, when they expect the big demand to be in full swing.

Wheat arrivals about two weeks earlier than usual seem to be a small factor in the situation.

The fact that the crops promise to be greater than last year and that business demands of other kinds are great, but that last fall leads the bankers to the belief that their October maturities can be put out again at 6 per cent.

### COPPER PRIME AND LEAD.

Strong Statistical Position of Copper.

Fig Tin, Antimony, Spelter and LEAD.

NEW YORK, July 23.—All base metals the world over are occupying a strong statistical position. This is due to the marked revival in the world's commerce that began something more than a year ago, and in which the United States and Germany are leading the industrial development in a score of channels related to the metal trades. Every base metal is firm at prices ranging between double the price of last year—that is maintained for antimony—and the advances of 20 to 50 per cent. made within a twelve-month period by other base metals. The copper market is unusually firm for refined grades, based upon the certainty that the world's production is at present hardly commensurate with the consumption. Last week's sales in the local market amounted to very large tonnage in electrolytic sold to foreign and domestic wire-drawers and the electrical trades. None of these sales of prime metal was made at less than 18 1/2c, lidewater delivery during September and October.

### HITCH IN RUSSIAN LOAN.

Rumors That French Subscribers May Default—Securities Up in St. Petersburg.

COLOGNE, Germany, July 26.—It is learned here that Mr. Kokotoff, the

Russian Minister of Finance, is engaged in a lively exchange of telegrams with France, and he is expected to visit Paris in person at the end of the week. It is reported that many French subscribers to the last Russian loan will refuse to pay the amount due in August. This would embarrass certain French banks.

BERLIN, July 26.—The report that Montagu & Co., the Berlin bankers, were to lend Russia \$25,000,000 for the purpose of sustaining the price of Russian securities in the European markets is unconfirmed.

ST. PETERSBURG, July 26.—There was marked improvement on the stock exchange on verification of the announcement that the Government's immediate requirements of 50,000,000 rubles had been successfully arranged for. The Sun correspondent was informed that Berlin bankers had come to the relief by discounting Russia's next loan. This is the first time the money market has had recourse to such a financial operation.

### MOTHER OF THAW SNUBS HIS WIFE.

Passes Close to Her in Tombs Without Speaking.

Still at War on Defense—Elder Woman Determined to Avoid Plea of Emotional Insanity

NEW YORK, July 31.—There was further evidence yesterday of the radical difference of opinion between Harry K. Thaw and his mother, Mrs. William Thaw. The headstrong young man continued to insist that he was acquitted of his misdeed and emotional insanity backed by his rights under the "unwritten law," while his mother was convinced that this defense will place him in the electric chair.

Thaw's wife, who never was on the set of terms with her husband, and who has taken sides with her husband in the present trouble, was first slightly by her mother yesterday and then deliberately snubbed after a conversation in Murders' Row, Clifford W. Easton, 120th street, now in charge of Thaw's case, is working wholly upon lines suggested by his client and having detected a number of mistakes relating to White's method of living, although other attorneys express a doubt whether the matter of this description could be brought before a jury and whether it will be in the electric chair.

The elder Mrs. Thaw has been advised that her son's only possible hope to escape with his life is by producing evidence that he has been a paranoiac from his earliest youth, and that the most material testimony in his behalf is that of his mother, who is now in charge of Thaw's case, is working wholly upon lines suggested by his client and having detected a number of mistakes relating to White's method of living, although other attorneys express a doubt whether the matter of this description could be brought before a jury and whether it will be in the electric chair.

### FRESH BAIT ON AN OLD HOOK.

Robert—I say Henry, what do you make of this? There was a donkey tied to a rope, and the rope was four feet long. Twelve feet away there was a bundle of hay, and the donkey wanted to get the hay, because he was hungry. How did he do it?

Henry triumphantly—Oh! I've heard that before. You want me to say, "I give it up," and then you will say, "That's what the other donkey did."

Robert—Not at all, my dear man. Work it out; it's quite simple.

Henry (after a pause)—Well, I don't know how he did it.

Robert—Why he simply walked up to the hay and ate it.

Henry—but you said the hay was twelve feet long and he was tied to a rope four feet long—and—

Robert—Yes, but the rope was not tied to anything. You mustn't jump at conclusions like that, you know.—The Metropolitan.

On page six of this issue C. B. Pidgeon announces a grand clearance sale of boats and shoes, men's furnishings and made-to-order suits. Such reasonable goods at the very low prices quoted offer at rare opportunity for saving money.

More summertime bargains at M. R. A's Ltd., commencing tomorrow. This time-as advertised—will be short-ends of washing fabrics. The very choicest of this season's trans-Atlantic importations will be found in the array of remnants. All out on full view in the front store with prices and lengths plainly marked. Waist lengths, children's frock lengths, Kimono pieces, for dressing jackets, etc.

F. B. Carvill, M. P., is in the city. In conversation with the Star Mr. Carvill stated that for the last two years he has had strong hopes that the Grand Trunk Pacific would come by the river valley route, and he has had no cause to change this opinion. Of course, said Mr. Carvill, it will be some months before he is settled down to business principles it will be seen that the river valley route is by much more practical route than the central route.

Miss Nellie Bulyes, graduate of Quincy Hospital, Mass., and who has for the past two years been in the profession in Boston arrived by the Calvin Austin yesterday. She left this morning to spend a few weeks with her parents Mr. and Mrs. T. P. Bulyes, Galetown. She was accompanied by her friend, Miss Louise Baitta, a graduate of the Boston Conservatory of Music. Miss Sully has won a number of prizes for being a very clever musical scholar and a bright musical future is prophesied for her.

The judgment in the case of the Williams' Sewing Machine Company vs. Geo. W. Holder was reviewed before Judge Forbes this morning. The case was an action brought in the city by the plaintiffs against the defendant for a sum of money. The defendant filed a set off of \$115. Judge Ritchie, however, gave the plaintiff judgment for the full amount. This morning Judge Forbes gave an order to withdraw the set off in order that the defendant might sue upon. A. A. Wilson appeared for the defendant and H. A. McKewen for the plaintiff.

**THE DREDGING WORK ON THE WEST SIDE**  
Mr. Mayes Denies Communication Sent to Board of Works  
Dredge Is Not Throwing Mud Over Sections of New Wharf—No Contract for Extra Dredging.

Contractor Mayes, speaking to the Star this morning, took exception to the communication sent to the board of works yesterday by D. C. Clark, stating that the work of the dredge beaver just outside of No. 3 section of the new wharf, is the cause of mud being thrown up against and into the No. 2 section, making it very hard to lift and move.

The trouble is, said Mr. Mayes, that the sections of wharf were built eight or ten feet too high, so that when they grounded they sank so deep into the soft bottom that the mud was forced up through. This he contends is really what has happened.

In reference to the dredging for the crib at the head of Union street, Mr. Mayes said he wished it distinctly understood that he has never received the contract for that work, and that as soon as he does he can go ahead and finish the whole thing in three weeks time. It had repeatedly been stated that he had received the contract for the entire dredging, but no word of the contract has so far been sent to him, although he has been unofficially informed that his was the lowest tender of the three.

"As soon as that work is done," Mr. Mayes remarked, "the dredge will be removed to Sand Point channel where work will go on rapidly and quietly, interfering in the least with any kind of shipping." Mr. Mayes thinks in placing the cribs where they are so poor judgment by Mr. Clark was used. At low water it interferes materially with the dredge, as it leaves no room to turn the scow.

**LUMBERING OPERATIONS ON ST. JOHN RIVER.**  
Water is Unusually Low and Large Number of Logs are Hung Up—E. W. Pond in the City.

E. W. Pond, lumber king of the Upper St. John, is in the city today. Mr. Pond states that the water in the northern part of the river is unusually low for the time of year. About eighty million feet of lumber have gone over the Grand Falls this year. Besides this \$500,000 feet have stopped at the St. John lumber company's mills at Van Buren. This company Mr. Pond states, is about to begin the construction of a new long lumber mill near the present shingle mill, the power to be derived from the main mill. They are apparently giving themselves no easiness about the matter of the settlement of existing difficulties concerning the right of way on the river.

There is now a drive of about three million feet hung up at Edmundston, belonging to Charles Miller and Randolph and Baker. The first small rise in water will bring it down to the Grand Falls.

Mr. Pond thinks that the river difficulties will not be settled amicably enough by the appointment of commissioners from both sides of the line to look after the matter, which seems likely to be done in the near future.

**FERRY COMMITTEE MET THIS MORNING**  
Tenders for Work of Improvement on Ludlow Received—Several Bills Passed.

A meeting of the ferry committee was held this morning and the tenders for the improvement of the Ludlow were opened. Those present at the meeting were Aid. Lockhart, chairman, Aid. Tilley, Aid. Bullock and Superintendent Glasgow.

A letter from J. S. Gibbon, asking that a trial on the Ludlow be made of some new coal which he has, was received. It was moved to ask Mr. Gibbon what the price of this new coal is and if it is lower than the present coal to put in circulating pumps as follows: Side suction engine, \$45, \$356. Double suction engine, \$45, \$370.50. Side suction engine, \$45, \$360.

**COMPETENT JUDGES AT ST. JOHN EXHIBITION**  
The St. John Exhibition has secured the services of very competent judges in all the classes of live stock, a factor of some importance to exhibitors of well-bred stock. The names of the judges and the classes they judge are as follows:

Horses, (heavy), C. M. Macrae, Esq. Horses, (light), Dr. J. Standish. Cattle, (dairy), W. E. Stephens, Esq. Cattle, (beef), Duncan Anderson, Esq.

Sheep, C. M. Macrae, Esq. Swine, Duncan Anderson, Esq. Poultry, Sharp Butterfield, Esq.

There is \$15,000 in cash prizes to be distributed in the live stock classes and the entries close August 20th at regular fees, after August 20th additional entry fees are charged. The St. John Exhibition opens September 1st and closes September 6th, and is the banner fair of Eastern Canada this year.

**VOLIVA THE ONLY NAME MENTIONED.**  
ZION CITY, Ill., August 1.—At a meeting in the tabernacle here last night for the purpose of choosing candidates for general overseer of the church in September in accordance with the recent order of Judge Landis, the name of Wilbur Glen Voliva was the only one presented. A standing vote of these present at the meeting showed 1,410 in favor of Voliva's election. The name of John Alexander Dowle was not mentioned at the meeting.

will doubtless be of interest to the lady whose mind is made up to have something new in this line next November.

Because our 1906-07 sample show is now to the fore, we feel justified in talking fur regardless of the mercury's proximity to the eighty mark.

Contrary to some prophesies, furs will be used in a greater degree of popularity this coming season than ever before. Preparations are being made in all the centres to meet the demand.

Many novelties are introduced, and we show the best of them. The Mortar Muff is a conspicuous departure. It is larger, almost square and quite flat.

Cravats are also new—the Broadtail and other styles. In fact so many new ways of conforming furs to the sensible needs of women and children have been introduced, that one feels perfectly satisfied with the wide range of designs.

An early examination of the advance supply will settle one's mind on a choice, at least, and may be the means of securing an exclusive model before the fall activity.
