

PROMOTES IDEA OF UNITED EMPIRE

London Press Commends Attitude of Mr. Borden

ADOPTS BOLD STAND

All Members of Imperial Partnership Must Have Voice in Shaping Its Policy—United Action on Common Problems the Goal.

London, July 17.—All the London journals today unite in calling Premier Borden's speech the most important and noteworthy, expressing as he did the opinion that it was not possible that the great dominions of the Empire would be called on to take their share in the defence of that Empire as a whole without having some voice in its policy.

The Westminster Gazette, the leading government evening paper says: "Mr. Borden made a speech which definitely recognized the coming of a new order in which the partnership of the dominions and Great Britain, at present informal and unfettered, is likely to be consolidated on definite constitutional lines."

"The partner must have a voice in the policy of the firm which the ward had not in the policy of the trustees," Mr. Borden suggests to us that the Imperial Parliament, as at present constituted, does not meet this condition, from which we infer he and his friends look forward to some development in our institutions which will meet the case.

"We are glad this idea should be thrown into the air during the next few years. We hope to see it get into the thought and language of the self-governing communities."

The Times summing up says, at the end of a lengthy leader: "The essential point is that the British and dominion ministers should learn more to act together in the whole range of affairs which concern them both. The formal machinery for common action can be created more easily when once the practice is established."

The Pall Mall Gazette, commenting on Mr. Borden's warning, says: "The Empire has no organ of self-government capable of co-ordinating its strength and placing its whole weight behind a policy which concerns it, and the time has come when we must choose definitely between carrying our burden and laying it down."

ISLAND LEADS THE DOMINION IN CEREALS

Highest Figures for Spring Crops Reported from Baby Province.

Growing Weather Generally Poor in Maritime Provinces During June—Livestock in Excellent Condition.

Ottawa, July 17.—A bulletin on the crops and live stock of Canada is issued by the census and statistics of Canada today. The correspondents of the office report that in the Maritime Provinces and generally throughout eastern Canada, the weather of June continued cold and wet, and growth was therefore slow.

The highest figures for spring cereals are recorded in Prince Edward Island and British Columbia, the percent condition ranging from 97 to 98 in the former and from 90 to 95 in the latter province, the average for the Dominion being from 80 to 89. The estimated numbers of live stock show further decreases except as regards horses and dairy cattle, the former being 10,400 and the latter 14,500 more than last year's estimates. The condition of all live stock in Canada is uniformly excellent.

Washington, July 17.—Senator O'Gorman, of New York, charged in the senate today that the Hay-Pauncefote treaty was behind Great Britain's protest against the Panama Canal bill, and he joined with Senator Lodge in declaring the United States possessed full rights under the British treaty to give free passage to ships of American register.

Both Mr. Lodge and Mr. O'Gorman declared this nation was not bound by the Hay-Pauncefote treaty to give foreign ships all the privileges granted American ships. Mr. Lodge favored a bill to rebate the tolls to American ships, while Senator O'Gorman declared the United States possessed the full right to give American vessels free passage if desired. Senator Lodge conceded that if the case went to the Hague court the United States would probably lose.

The support today for the provision governing free passage to American ships, against which Great Britain has protested, was more emphatic than at any time since the senate began consideration of the bill. Mr. O'Gorman, Mr. Cummins and others declared that if the United States declared that the treaty literally gave the ships of all nations equal treatment, it would by other terms of the treaty be prevented from defending the canal in case of war.

Mr. O'Gorman, Mr. Cummins and others declared that if the United States declared that the treaty literally gave the ships of all nations equal treatment, it would by other terms of the treaty be prevented from defending the canal in case of war.

Buckingham Palace, where Mr. and Mrs. Borden were dined by King George and Queen Mary.

BLAMES CANADIANS FOR THE BRITISH PROTEST

Senator O'Gorman Holds it was All the Fault of the Dominion—Lodge Maintains Hay-Pauncefote Treaty was Not Intended to Apply to American Vessels -- Hague Decision Would Favor England.

Washington, July 17.—Senator O'Gorman, of New York, charged in the senate today that the Hay-Pauncefote treaty was behind Great Britain's protest against the Panama Canal bill, and he joined with Senator Lodge in declaring the United States possessed full rights under the British treaty to give free passage to ships of American register.

Both Mr. Lodge and Mr. O'Gorman declared this nation was not bound by the Hay-Pauncefote treaty to give foreign ships all the privileges granted American ships. INSURANCE ACT IS WORKING SMOOTHLY

DENTISTS ELECTED OFFICERS

Dr. Thomas of Moncton is President and Dr. Godsoe Secretary.

Interesting Discussions Occupied Afternoon and Evening Sessions -- Fredericton Troops Leave for Petawawa

Special to The Standard. Fredericton, July 17.—The New Brunswick Dental Society will hold their annual meeting for 1913 in Moncton and if arrangements can be made, it will be a meeting of dentists from all over the Maritime Provinces.

The following officers were elected this afternoon: President, Dr. H. S. Thomson, Moncton; vice-president, Dr. A. E. Currie, Woodstock; secretary, Dr. F. A. Godsoe, St. John. New members of the Dental Council for four years are: Dr. Brodette, St. John; Dr. Steeves, Fredericton, and Dr. Moore, St. Stephen.

At this afternoon's session Dr. Currie of Woodstock read a paper on kindergarten dentistry, which was discussed by Dr. Nason, of St. John. Dr. Steeves of Fredericton read a paper on the value of community organization, which was discussed by Drs. Thomson and Murray of Moncton.

The evening session of St. John. Dr. Steeves of Fredericton read a paper on the value of community organization, which was discussed by Drs. Thomson and Murray of Moncton.

New Measure Proving Popular With Workmen

DOCTORS OBJECT

Will Refuse to Attend Patients Benefiting by Provisions of Law -- End of Week Will See All Eligible Insured.

London, July 17.—So far as can be judged the three days the new National Insurance Act, compelling working people to insure against sickness and disablement, has been in force, and before any payments, except in the case of casual laborers, have fallen due, the measure is working according to the government officials even more smoothly than was expected.

The doctors, as represented by the British Medical Association, are still in revolt against the act and announce their intention of refusing to attend patients under its provisions. An organization including a number of society people has also been formed with the object of preventing payment for domestic servants. This, however, is chiefly a political move, so that the only real opposition the government has to face is that of the doctors.

The government has offered the doctors the sum of four shillings and six pence (approximately \$1.12) annually for each person insured, but the doctors demand eight shillings and six pence. The workmen and working women have taken up the great reform with alacrity, and the government estimates that of 12,000,000 persons insurable before the act came into force upwards of 10,000,000 have already registered with approved societies, which have undertaken to administer the act and another 100,000 have taken out cards at the post office.

All Will Insure. Before the end of the week when the first payments fall due for those drawing weekly salaries the government believes that practically all those entitled to do so, will have become insured.

The only section of the community likely to suffer is that composed of casual workers and old people, both men and women, as some of the big employers have decided to do away with this form of labor. Besides the casual laborers, however, the measure will not suffer much but they will be unable to pay their full dues during the weeks when they are out of work and will thus lose the benefits of previous payments. As the first employer of a casual laborer during a week will have to buy the necessary stamps, there is a decided objection on the part of the employers to become first employers.

To obviate this, a clearing house has been started at the Liverpool docks to apportion the dues among the employers. The men struck against this at first, but the majority of them have since accepted.

CANADA AT EXPOSITION

Commissioner Arranges for a Suitable Site for Dominion Building at Panama Fair -- Goes to England Now.

Special to The Standard. Ottawa, July 17.—Col. William Hutchison, Canadian Exhibition Commissioner, has returned from the Pacific coast where he went by the direction of Hon. Martin Burrell, Minister of Agriculture, to study the conditions to be arranged for a site for the federal government in connection with the Panama Pacific International Exposition, which will be held in San Francisco in 1915.

The commissioner spent nine days in San Francisco and has made his report to the minister. Very strong interest has been aroused in this exhibition which will be held to commemorate the opening of the Panama canal. It is expected to take place at the close of the year 1914. The exposition grounds will cover about 600 acres. The United States authorities will not only erect a fine federal building but are also making very substantial grants to the exposition. The state of California will make a very lavish expenditure in connection with their own participation.

There seemed to be a desire that the Canadian government should make entries in the various sections and compete for awards, but this conflicts with the practice which is now being followed, viz: that of having one building devoted especially to everything which concerns Canada.

The commissioner has arranged for an excellent site for the Canadian pavilion but are also making very substantial grants to the exposition. The state of California will make a very lavish expenditure in connection with their own participation.

There seemed to be a desire that the Canadian government should make entries in the various sections and compete for awards, but this conflicts with the practice which is now being followed, viz: that of having one building devoted especially to everything which concerns Canada.

KENT COUNTY MAN IS FATALLY INJURED

BY LIGHTNING BOLT

Wilfrid Cormier Not Expected to Live—House Was Struck and Owner Sustained Serious Wounds.

Special to The Standard. Moncton, July 17.—At St. Anthony, Kent Co., during Tuesday's heavy storm, lightning struck the house of Wilfrid Cormier, farmer, of that place, badly injuring Mr. Cormier and damaging the house. Mr. Cormier's legs were partially paralyzed and a red mark left across his abdomen, his clothes torn to rags and was left unconscious. His condition is critical and chances very slim for recovery.

Mr. Cormier's brother was killed by lightning at Cocagne some three years ago. The injured man is 53 years old. The Medical Society meeting meeting closed at 10 o'clock this evening.

FATHER SAID SON MUST DIE

Remains of Younger Swartz Found in Hudson River -- Parent Advised Him to Commit Suicide.

New York, N. Y., July 17.—The body of a man found floating Monday in the Hudson river, and taken to a morgue in Hoboken, was today identified as that of Nathan Swartz, indicted for the murder of the child Julia Connors in the Bronx on July 7. The identification was made by Frank Alexander, Swartz' brother-in-law. Swartz was indicted yesterday when his father Samuel Swartz, appeared before the grand jury and acknowledged that the son had confessed to him that he had killed the child. The father stated that he had told the boy that the only thing for him to do was to go out and commit suicide.

The body of Ernest Handie, who he longed to the steamship Loyal Briton, and who was drowned Tuesday, July 9th, was seen floating yesterday morning near where he was drowned and was overtaken and brought to shore as the Canada Dock. An inquest was decided unnecessary, so the funeral was held about 4.30 p. m. Rev. J. M. McLean conducting the funeral services.

ENGINEERS ON STAND

Men Required to Make Fast Time and Keep Eyes Peeled for Signals—Railways' Argument Finished.

New York, July 17.—B. A. Worthington, president of the Chicago and Alton, finished his argument against the increase in pay of engineers on eastern railroads before the arbitration committee at Manhattan Beach today, and some of the men who operate locomotives of the fastest trains in the country were called as witnesses.

Dean Wood, engineer of the Twentieth Century Limited, on the New York Central, said he makes the run between Syracuse and Albany, 148 miles, in 162 minutes, including slow downs. He added that he made as high as 54 miles an hour on straight tracks. In the 148 miles, he said, he passed 151 block signals, all of which he had to see.

PREPARATIONS FOR GRAIN RUSH

Big New Elevator Will Be Erected at Port Arthur and that at Port Colborne Enlarged.

Special to The Standard. Ottawa, July 17.—The Dominion government is calling for tenders for the construction of the government elevator at Port Arthur. Bids are to be in by August 1st.

The site obtained is exceptionally advantageous. It has 600 feet frontage, runs out 4000 feet into the harbor, and is next to the C. N. R. elevator. The price paid for it is \$90,000. In capacity the elevator will equal the one being erected by the U. T. P. Its full capacity to be 3,250,000 bushels and its operating rate 30,000 bushels in and 50,000 bushels out an hour. All the appliances will be of the best quality. Included in the equipment will be a first class drier with a drying capacity of 48,000 bushels a day. The cost will be in excess of a million dollars. The elevator will be ready to help in moving next year's crop.

QUEBEC WON'T PAY, BAND MUST PLAY

Government However Will Remunerate Musicians of R. C. A. for Services on Dufferin Terrace at Quebec.

Special to The Standard. Ottawa, July 17.—A dispute between the Quebec civic authorities and the officers and bandmaster of the Royal Canadian Artillery as to the amount to be paid by the city for the band performances on the Dufferin terrace, Quebec, each evening, has been brought before Col. Hughes, minister of militia and defence for his opinion. He has decided today that the government instead of increasing the amount as urged by the musicians, will relieve the city from any charge, but will make a fair recompense to the band for the amount which it now loses thereby.

Col. Hughes took the ground that as the terrace is a rendezvous for the rich and poor alike, and people from all parts of the world visiting Quebec, the citizens should not be taxed, but that the government, through the militia department, should give the band a fair recompense.

YOUTHFUL ROBBERS FOUND GUILTY OF LONG LIST OF CRIMES

Four Youngsters Convicted by Quebec Court—Two Let Off and Leaders Will Serve Three Months.

Quebec, July 17.—A band of four young burglars, aged from 16 to 18 years, were tried today and convicted of a dozen robberies. The leaders, Arthur Focher, and two of the gang were sentenced to three months in jail, and the other one was liberated on suspended sentence.

Such insurance is really no new thing among British workers as they have provided for it before through their societies and trades unions. Many of the policy holders among them have had no difficulty therefore in explaining the benefits to their fellows and they show no opposition to the contributory system as they did in the case of old age pensions.

PREMIER ASQUITH GIVES THE SLIP TO SUFFRAGETTES

Avoids Tormentors and Proceeds to Dublin Unmolested -- Monster Demonstration Planned for Him.

London, July 17.—Premier Asquith is now on the way to Dublin, playing a game of hide and seek with the suffragettes. The prime minister left his official residence on Downing street this afternoon and later in the day unexpectedly appeared in Wolverhampton accompanied by his daughter. There the two entered a motor car which has since been lost sight of.

That is all the suffragettes have been permitted to know and they are not likely to learn anything further of his movements until he arrives in Dublin where he is due at 9 o'clock tomorrow evening. A great demonstration consisting of 2,000 torch bearers and twenty bands has been prepared to welcome him on his arrival.

LABOR DEPARTMENT FOR U. S.

Washington, July 17.—The house today passed the bill to create a Department of Labor, the secretary of which shall have a place in the cabinet. The measure long has been pressed by organized labor and now goes to the senate.

Kennedy, 28; Serjt. Major MacDougall, 34; Lieut. Mages, 31; Pte. MacPherson, 32; Serjt. McInnes, 30; Corporal Mortimer, 31; Corporal Regan, 33; Staff Serjt. Richardson, 33; Capt. Scater, 32; Serjt. Smith, 33; Lieut. Steele, 26; Col. Serjt. Stoddart, 33; Capt. Andrews, 33; Staff Serjt. Bayles, 31; Rev. A. B. Simpson, 31; Capt. Halifax was eligible.

The scores for the Canadians in 500 yards' stage are: Auld 29, Battershill, 35, Davidson 31, Forster 32, Mages 34, MacPherson 32, Mortimer 32, Regan 31, Smith 30, Stoddart 33, Andrews 33, Bayles 33, Forrest 35, Simpson 30, Armstrong 31, Blackburn 33, Kennedy 29, MacDougall 32, McInnes 34, Richardson 30, Scater 32, Steele 33, Dymond 36, Forster 37, Kennedy 27, MacDougall 43, Mages 29, Mortimer 46, Regan 40, Richardson 31, Scater 27, Steele 33, Stoddart 32. The distance is 1000 yards, 10 shots.

NOVA SCOTIA LEAGUE Special to The Standard. Halifax, July 17.—The Westville-Stellarton ball game was played in New Glasgow today as an attraction in connection with the New Glasgow carnival, and Westville got away with the league fixture by a score of 4 to 3. The game went eleven innings before it was decided, and proved to be one of the best games of the season. Krepps, the new Stellarton pitcher made good on the mound.

CURED OF THIS HORRIBLE DISEASE

Edmonton Girl Saved By "Fruit-a-tives"

Edmonton, Alta., Nov. 20th, 1911. "I had been a sufferer from babyhood with that terrible complaint, Constipation. I have been treated by physicians and have taken every medicine that I heard of, but without the slightest benefit. I concluded that there was no cure for this horrible disease. Finally, I read of "Fruit-a-tives" and decided to try them, and the effect was marvellous. The first box gave me great relief, and after I used a few boxes, I found that I was entirely well.

YACHTSMEN WILL START SATURDAY The committees in charge of the Royal Kennebecasis Yacht Club's annual cruise, have everything in readiness to give the members and their guests who attend, one of the best week's outings in the history of the club.

CHORUS GIRL WHO FIGURED IN MURDER TRIAL ASSAULTED

Ethel Conrad Found Unconscious in Vacant Lot—Accused of Murder of W. E. D. Stokes.

New York, July 17.—Miss Ethel Conrad, the chorus girl who, with her chum, Lillian Graham, was tried and acquitted several months ago of the murder of W. E. D. Stokes, the millionaire hotel magnate, is a patient today at the Washington Heights Hospital, to which she was brought after she had been assaulted by a man in a vacant lot in the Upper Westside.

MARATHONS SHUT OUT; F'TON DEFEATS WOODSTOCK HOULTON 6; MARATHONS 0. Special to The Standard. Houlton, Me., July 17.—Well Houlton did not find the rabbit's foot today. They had all sorts of luck and at the third, and excusable error by O'Brien and Frazier in the fifth and seventh, netted Houlton six runs, and here you have it all. Winters, O'Brien, Rice, Dutton and Corey all got good hits, but they were scattered. In the third Winters caught Fredette at the plate. In the fifth things looked good, but Urquhart tightened up and struck out Frazier, dashing all hopes. Rice and Pinkerton played fast ball, taking all chances, while O'Brien was close on to them with their hero after he made his home run in the third.

TORONTO CRICKETERS DEFEATED Moorestown, N. J., July 17.—The Rosedale Cricket Club of Toronto was overwhelmingly defeated by a combined team of Frankford and Moorestown players in a one-day match here today. The Canadians were without the services of Capt. H. G. Wookley. The Moorestown-Frankford players made 202 runs for a total of 7 wickets. The innings was then called. Rosedale was all out for a total of 48 runs.

BLAMES CANADIANS FOR THE BRITISH PROTEST Washington, D. C., July 17.—When the senate today took up the Panama canal bill, Senator Lodge, at the opening of the debate, declared the United States had retained full rights under the Hay-Pauncefote treaty, to form its own policy toward American vessels. The provision for free tolls to American ships, against which Great Britain has made formal protest, was defended by Mr. Lodge. He said he had

NOTES OF INTEREST FROM BUSY AMHERST. Fourteen Year Old Boy Drowns in Well - Personal and Social News of Nova Scotia's Industrial Centre.

Amherst, July 12.—A sad accident took place yesterday afternoon at West Amherst, when Roy Gabriel, the fourteen year old son of Mr. and Mrs. William Gabriel of that place, came to his death by drowning in a well shortly after twelve o'clock.

Edwards Fuller of Ottawa, who has been visiting his parents in Amherst, left last week for the capital city. Mrs. Fuller and child will spend the summer in Amherst and at the shore, the guests of Dr. and Mrs. E. L. Fuller.

Miss Frances Foster is the guest of her uncle W. E. Fride, at Amherst Shore. Harry Fuller of Truro, who was visiting his parents, Dr. and Mrs. E. L. Fuller, left Sunday to resume his work in Truro.

Mr. and Mrs. Leander Johnson of Williamsdale came to Amherst yesterday. Mrs. Johnson is at present an inmate of Highland View Hospital. She has been in poor health for some weeks.

W. L. Ormond went through to Tintidish yesterday afternoon where he will spend some days. Mrs. Craig of Waterville, Maine, is visiting her daughter, Mrs. Albert Carlow, at Amherst.

Miss Edna Hamilton left last week for the Gaspé Coast to visit friends in that vicinity. Edward Fuller of Ottawa, who has been visiting his parents in Amherst, left last week for the capital city.

ITCHING SKIN COMFORTED BY POSLAM. Take any case of eczema, acne, salt rheum, itch, scalp-scales, etc., however stubborn, and Poslam will stop itching as soon as applied, bringing immediate relief and comfort.

These troubles cause acute distress particularly in hot weather when bodily ease is difficult under best conditions. In curing sunburn, rashes, pimples, erythema, mosquito bites, stings, etc., Poslam is more effective than anything else, driving away soreness and clearing up redness and inflamed skin.

Depend upon Poslam to exert its powerful healing power whenever and wherever the skin ails. POSLAM SOAP, medicated with Potash, should be used daily for toilet and bath, particularly when the skin is tender or shows any tendency to eruptions. Absolutely pure soap of healing goodness and real benefits.

of the late Thomas Bulmer, occurred at her late home on Albion street, Sunday morning. Mrs. Bulmer was born at Fenwick, and at the time of her death was 88 years old. She is survived by one brother, Robert Lowther, the funeral took place this afternoon and was largely attended. Interment was made in the Highland cemetery.

Miss Edna Hamilton left last week for the Gaspé Coast to visit friends in that vicinity. Edward Fuller of Ottawa, who has been visiting his parents in Amherst, left last week for the capital city.

DOMINIONS WILL GIVE LOYAL AID. Premier Declares that Colonies will Rally in Support of Mother Land in Time of Need.

London, July 17.—Amid prolonged and renewed applause, Premier Borden declared in the Harcourt room of the house of parliament at Westminster last night that in time of peril he believed every dominion, including Canada, would give a response not less loyal or less earnest than that of the motherland herself.

"One realizes, however," said Mr. Borden, "that when the day of peril comes, the day for effective preparation may have passed, I conceive that those who accept a share in and responsibility for the defence and security of this vast empire may no longer be considered as wards by the self-constituted guardians."

The occasion was the inaugural dinner of the Empire Parliamentary Association to Mr. Borden. Alfred Lyttleton presided and there was a most distinguished gathering of invited guests including Sydney Buxton, the Marquis of Crewe, Lord Strathcona, Lord Kinaird, Harry Lawson, Speaker Lowther, the Earl of Meath, Lord Newlands, father-in-law of Mr. Churchill; Sir Gilbert Parker, Sir Geo. Ross, Sir Chas. Rose, Postmaster General Samuel and many ladies.

Mr. Borden followed, and in the course of a striking utterance said that Canada began to take part in imperial defence, then would conditions change and the overseas dominions necessarily be summoned to the councils of the central authority in foreign and naval matters.

"The time is at hand," said Mr. Borden, "when the dominions could be called upon to take a reasonable and legitimate share in maintaining the security of the empire's existence." Mr. Borden closed with an eloquent peroration. The next ten or twenty years would be the critical ones in the history of the empire.

Mr. Borden followed, and in the course of a striking utterance said that Canada began to take part in imperial defence, then would conditions change and the overseas dominions necessarily be summoned to the councils of the central authority in foreign and naval matters.

ST. JOHN, N. B., THURSDAY, JULY 18, 1912.

THE NAVAL SITUATION.

While a section of the British press adopted the correct attitude in making light of the recent uncalculated agitation against Great Britain in the German newspapers, it cannot be denied that there has been a strong undercurrent of uneasiness in the Mother Country at the hostile attitude of the Germans and at the policy of the Government in withdrawing ships from the Mediterranean. "The abandoned Mediterranean" was the title of one recent series of news articles. With the addition of a little fuel to the fire there were all the makings of another war scare.

In the magazines and reviews in particular, articles have been appearing which presented a doleful picture of the situation. Lord Roberts returned to his insistence upon compulsory military service, and Major Stewart L. Murray, writing in the July Twentieth Century, warmly championed the plan as the sole solution for the problem of imperial defence. In the current Fortnightly Review Archibald Hurd demands a return to the position of "splendid isolation" sustained by a greatly strengthened fleet, while in the National Review H. W. Wilson frankly discusses the Mediterranean situation and demands two extra Dreadnoughts at once and 6,000 additional officers and men for the British fleet.

These demands the National Review supported by the following unflattering description:

"The British Empire is probably fast approaching the fatal moment when the efficiency of its national organization and of its national defences will be tested by the terrible shock of war. The national credit, with its comports at 76, has been greatly shaken. Our naval pre-eminence is in extreme danger. Our army has no relation to our imperial necessities and is weak in numbers and indifferently armed."

It is evident that this pessimistic view is not shared by the Admiralty. The wisdom of the understanding with France to maintain a controlling fleet in the Mediterranean, thus making it possible for the British fleet to concentrate in the narrow seas nearer home, appears justified by the present standing of the navies which, in the unlikely event of war, would be engaged. The figures in the "Statesman's Year Book" for 1912, show the French navy is stronger than the navies of Italy and Austria combined:

	France.	Italy.	Austria.
Dreadnoughts	2	2	2
Battleships	22	24	24
Cruisers	20	13	13
Destroyers	87	47	47
Submarines	90	25	25

Six of the French battleships belong to the Danton class and are superior to any of the opposed ships except the single Italian Dreadnought Dante Alighieri. The Austrian Dreadnought Viribus Unitis was recently reported defective in construction.

Commenting on the situation with the eye of an impartial observer, the New York Sun sees no cause for immediate alarm, and attributes the feeling of uneasiness to the belief in the British mind that the navy was not strong enough to meet possible contingencies in the future. It says:

"Nothing is perhaps more astonishing to the American observer than the fact that this latest revelation of British apprehension coincides with the gathering in British waters of the greatest naval force the world has ever seen, a force which as yet finds no real menace in the growing German squadrons across the North Sea. But despite contemporary supremacy it is plain that the British are reading the estimates and comparative strength in the next few years with disquiet, and that the recall of the Mediterranean fleet has about rivalled the Moroccan incident last summer as a shock to British peace of mind."

Under the circumstances the enthusiasm which greeted Mr. Borden's recent statement of his policy on imperial Naval Defence takes on an added significance. While the exact method of Canada's contribution to the navy has yet to be decided, Mr. Borden made it clear that as "the naval supremacy of the Empire is the very breath of its life," so Canada stood today resolved to play her full part in maintaining the unity of the Empire. Ready to share upon a permanent basis in sea defence if given a voice in the policy which shapes the issues of war and peace. This policy of co-operation by the Overseas Dominions received unanimous endorsement. Coming at a time of unrest, Mr. Borden's statement went far to guarantee the naval supremacy of the Empire in the future.

ON THE TRAIL OF THE BROWNTAIL.

An experimental campaign which it is hoped may succeed in checking the ravages of the Brown-tail moth, should this pest become prevalent in the Province, has been started near Fredericton this summer. Two methods are being adopted, one of which will appear distinctly original to the lay mind not versed in the peculiarities of the parasite. It consists in growing a deadly fungus by artificial means, inoculating the Brown-tail caterpillars with the spores and turning them loose to spread the germs of disease in the nests and among the larvae of their brethren. The caterpillars employed are placed in fields and other likely haunts of the Brown-tail and the wind does the rest. A shipment of fungus was received some time ago from Mr. W. F. Rane, State Forester of Massachusetts, under instructions from Dr. Hewitt, head of the Division of Entomology, Ottawa. The work is in the hands of Mr. J. D. Tothill, an official of the Department, who has charge of the campaign against the Brown-tail in New Brunswick.

The second method consists in breeding a species of large beetle, which attacks and destroys the Brown-tail; and also in establishing colonies of a small fly in the rhyssal stage, a thousand to a colony, which is another deadly enemy of this pest. Mr. Tothill recently returned from Boston with some colonies of this insect which will be distributed in sections of the Province where they will do the most good.

The war against the Brown-tail has been waged with much vigor in the State of Massachusetts for some years. Mr. Tothill was formerly connected with the Gypsy Moth Parasite Laboratory, Melrose Highlands (Mass.), and is an expert in the work. The moth has wrought much havoc among the apple trees in the states across the border and while few females have been so far discovered in the Maritime Provinces there is grave danger for the extensive orchards in all the Provinces should this pest once

become established. Apple growers and horticulturists generally will watch the experiments with considerable interest.

Much instructive detail concerning these methods of extermination is contained in a well illustrated bulletin issued by the Massachusetts Forestry Department giving an account of the Brown-tail fungus with which the department has been experimenting for some years. It is found to kill from 60 to 100 per cent. of the Brown-tail moths in the sections where it is planted. The bulletin tells the story of this disease, how it may be produced and spread artificially. It was prepared by Mr. A. T. Spere, assistant pathologist of the Hawaiian Sugar Planters' Association, and Mr. R. H. Colley, Austin Teaching Fellow in Botany at Harvard. Its purpose is to acquaint the public with the beneficial results derived in using this disease to destroy the moth.

In summing up the results of the investigations covering the four seasons 1908-11, the report says that it has been found possible to propagate the disease in the laboratory, and to infect caterpillars in the field successfully, both in the spring and in the fall. Under favorable weather conditions the artificially induced spring epidemics have resulted in many cases in the practically complete destruction of the larvae in the planted areas. In the fall epidemics the number of nests infested at the end of the season has ranged from 30 to 50 per cent., and these nests have apparently formed the starting point of early spring infections. The fall plantings, have, therefore, a two-fold efficiency, in that they not only result in the destruction of one-third to one-half of the caterpillars in the autumn, while they are small and comparatively harmless, but also, by establishing the disease in the nests, enable an epidemic to get started much earlier in the spring than any natural infection could develop under ordinary weather conditions.

The last three or four years, adds the report, have not been particularly favorable for natural epidemics or for furthering the spread of the introduced disease, and it seems reasonable to suppose that the fungus would have been far more effective if the weather, especially during the spring months, had been warmer, with a larger rainfall. It has, of course, been impossible to plant all of the infested territory with diseased caterpillars, and in many cases areas cleared of Brown-tails by the fungus in the spring have been invaded by moths from uninfested localities, with the result that they were infested again in August. This condition of affairs is unavoidable, since the moth may fly, or be blown, from some distance. It is therefore necessary for the work to be continued uninterruptedly. The fungus will not clear any territory of moths so that it will remain free for any length of time.

The importance of the campaign in this Province against the Brown-tail, in order to keep orchards clear of the pest, is recognized both by the Dominion and local authorities. Last winter, under instructions from the Local Government, a bonus was offered for the nests and men were employed, under the direction of Mr. William Melnitchuk, to hunt out and destroy them. Large areas in various sections of the Province are now devoted to apple culture, and with the construction of the St. John Valley Railway this profitable industry will be still further increased. The damage to the crop which would result should this pest secure a foothold on this side of the border cannot well be estimated.

THE TYRANNY OF DRESS.

The Press is conducting with the usual insignificant results its annual campaign against the barbarous clothing worn by men during the hot summer months. To persons of normal mind, says the Toronto News, it seems incredible that any sane man would suffer the discomfort induced by wearing heavy tweeds, chevots, derby hats, and stiff collars during the summer. Yet no consideration of health seems sufficient to disturb the settled customs of man's attire. It appears that any important change in dress can only be introduced very gradually against the iron resistance of custom even in the most progressive Western nations.

Berlin has started a crusade which may revolutionize the world of dress. The leaders of this movement insist that tweeds, chevots and starched collars be tabooed from July 15th to September 1st, and lounge suits of linen, cambric, or silk materials be substituted. The advocates of this movement see no reason why women can discard heavy garments as soon as the hot weather begins, while men are forced to encumber themselves with heavy clothing merely because it has been the custom.

It is somewhat astonishing that this movement should be seriously advocated in Germany where conventionality is more strictly observed than on this continent with its much boasted individual liberty. Why Canadian men persist in stewing themselves when public sentiment favors a light sensible attire, has always been a long disputed question. Conservatism in dress has been strong in the male sex. Undoubtedly experiments in this direction are being tried. But when all is said and done the only explanation for the non-adoption of the more sensible dress programme is the timidity of the sex.

The women braved and overcame the storm of protest which arose with the inception of Dutch necks, kimono sleeves and transparent hosiery. Yet, poor timid man would roast himself to death rather than discard his coat or carry out any other arrangement beneficial to his health and conducive to his comfort.

Current Comment

(Toronto Mail and Empire.)
"Forgive me and forgive my manners," was the historic request of Governor Wilson to Col. Harvey, editor of Harper's Weekly, the man who brought him into prominence and launched the boom for his nomination as President. The Governor thought the support of Harper's was an embarrassment, and asked that it cease to advocate his claims, at the same time apologizing in the memorable words quoted. The first part of the injunction has been acceded to, and Harper's is again praising Wilson.

(London Free Press.)
Hon. Charles Murphy's sensational "house cleaning" in 1910 had as its chief victim one R. E. Cook, an old-time Conservative civil servant. Now it is discovered that the immediate cause of Cook's dismissal was his proper refusal to make a \$5,000 remittance to a Liberal paper for printing, without having vouchers. The 1911 "house cleaning" was more effective, for it bounced the Minister who bounced Cook.

(Kingston Whig.)
A horse may slip occasionally on an oiled street, and a long dress may suffer from trailing on the ground, but the dust is laid and the cause of more disease than anyone can conjecture.

(Vancouver Province.)
After being wined and dined for weeks, the British manufacturers are satisfied that there is a great opening in this country for a pepsin factory.

(Ottawa Journal.)
The late Samuel Northcote of Toronto has tied up for three generations the wealth he left behind. This is worse than making too much money.

(Toledo Blade.)
Lots of people would rather swat flies than clean up their breeding-places. Swatting is a greater sport.

When You Buy a KRISTY CASE

It means years of satisfaction. A handsome case that does not work loose at the joints. Plate glass throughout. Easy running doors. A piano like finish that is easy to clean. Kristy cases do not get grimy like cheaply finished cases. The pores of the wood are filled and then varnished so that dirt cannot collect. The wood is stained so as to bring out all its beauty.

Compare a Kristy case with any other make you know—note the neatness of its design—the superior finish and the many good points not found in other cases.

Order one now and see your sales grow.

WINNIPEG ACCORDS GOVERNOR GENERAL A ROYAL WELCOME

Winnipeg, July 17.—The Duke of Connaught and his royal party left for the east this afternoon after one of the most remarkable demonstrations in the history of Winnipeg. There was an auto parade a mile in length and the streets were lined with cheering crowds. The Duke gave a luncheon to agriculturists at noon. Last night the social event of his visit was a garden party at which 500 were present.

Inspected West Side Water System.
Commissioner Wigmore inspected the water system on the West Side yesterday, and found everything fairly satisfactory. Today he intends to go to Misep and look over the city's property there.

The News in Short Meter

LOCAL.

Lee Property Under Option.
The Lee property of 90 acres, sold to a Toronto syndicate, is now under option to an English syndicate at a considerable advance on the former price.

Mr. Eason's Plans.
Advices from Winnipeg are to the effect that C. H. Eason, who has accepted the position of general manager of the Bank of New Brunswick here, will arrive here about the middle of August.

Police Court.
In the police court yesterday, the case against Walter Winslow, charged with assault on T. O'Brien, was adjourned until Friday. The offence was alleged to have been committed in December last.

Reid's Castle Sold.
Although the rumor which gained currency yesterday to the effect that Reid's Castle had been sold could not be officially confirmed, it is learned that an option has been given on the property.

Purchased Gravel Beach.
A. J. Lively has bought Davidson's gravel beach at Little River. There are 25 acres in the property and it is understood that Mr. Lively is holding it at \$20,000. Owing to the demand for gravel which will be created through the development at Courtenay Bay, the property is looked upon as being very valuable.

The Late Mr. Osborne's Will.
The will of the late James Osborne was filed for probate in Toronto yesterday. The estate is valued at \$37,897 and the will provides that the family home be maintained. It is learned that the executor of the will of Mr. Osborne at the head of the family. The beneficiaries of the estate are the widow, A. Ross and Hilliard Osborne, of Toronto and Vancouver, and the daughters, Alma, Edith, Roberts, Rhoda and Anne, of Montreal, who will receive \$5,999.64 each.

PROVINCIAL.

Collector of Customs Dead.
Hillsboro, July 17.—William Woodworth, collector of customs here died on Monday, aged 78 years. The funeral took place this afternoon.

Charged With Voting Twice.
Moncton, July 17.—John W. Colpitta, a constable of Moncton, has been arrested on a charge of voting twice in the recent election. It is charged that Colpitta voted both in Albert and Westmorland counties.

Two Men Drowned.
Fredericton, July 17.—Charles Graham, Llewellyn Kinney and Everett Farrar were upset from a canoe in North Lake, on Tuesday last. Farrar was saved, but the others drowned. Their bodies were found.

GENERAL.

Sons of Temperance.
Portland, Me., July 17.—The annual meeting of the National Division of the Sons of Temperance of the United States and Canada opened here today with Rev. Geo. A. Lawson, of Moncton, N. B., presiding. The reports showed that the net membership had decreased 113 during the year.

Grand Trunk Employees Arrested.
Toronto, July 17.—Three conductors who have been running Grand Trunk trains between Toronto and London, are under arrest charged with stealing from the company. Fred Trombey, a G. T. R. telegraph operator, at Prescott, Ont., who had been in his job but one day, was also arrested to day on a charge of stealing \$100 from a cash box in the G. T. R. depot.

More Money for Printers.
Montreal, July 17.—Montreal printers have agreed with their employers for more money. The present scale for hand composition is \$10 per week and this will be increased to \$15.50 for two years, with a further increase to \$19.50 for two more years, and \$20 for a further term of one year, making three years in all. Machine operators will be paid one dollar a week above these rates.

Resigns Public Service.
London, July 17.—The Times announces that Lieut-General Sir Percy Grenard, who recently resigned as governor of British East Africa has accepted an important position with Messrs. Armstrong, thus adding another name to the growing list of able public men, who have exchanged service with the crown for private business.

Police Secure Confession.
New York, July 17.—Further arrests in the murder case of Herman Rosenthal, the gambler, who was shot down and killed early yesterday, a few hours before he was to make additional charges that the police and gamblers were in collusion, were expected today to disclose whether the police or gamblers directly instigated the plot to kill Rosenthal. A score or more of plain clothes men are searching the city today for several men whom District Attorney Whitman learned were connected with the shooting. After several hours of grilling, Louis Libby and William Shapiro, who owned the motor car that was used in the killing, broke down and told all they knew of the murder.

Government's Naval Plans.
London, July 17.—It is now authoritatively stated that Mr. Churchill will on Monday make an important pronouncement on the British course of action in view of German naval augmentation. He will deal fully with the policy of the government regarding the fleet in home waters, and the Mediterranean. Mr. Churchill will announce for a united imperial navy. Mr. Churchill has consulted the highest authorities. The supplementary estimates which Mr. Churchill will introduce are expected to contain provision for the addition of men to the whole fleet, an acceleration of work on certain ships building for this year's programme and a special programme for the Mediterranean.

ARE CITY'S OLD CANNONS WORTH THE COST OF MOUNTING? Military Man Says They Are Curiosities of Value which Should be Preserved — Commissioner Agar Says they are "Nothing More than Parasites, and Old Enough for Scrap Heap."

Why haven't the guns presented to the city by the militia department been mounted on carriages and placed in their appointed places? The old common council accepted the guns and ordered that carriages be built for them. All the carriages were built, and one of the cannons has been provided with wheels, and set up on a concrete foundation on the market square. But the other three cannons lack wheels and the city lacks money to provide them with concrete foundations to place them on.

IN THE COURTS Circuit Court. The case of Park vs. Millidge et al was resumed before Mr. Justice White yesterday morning. Address of counsel were concluded and Mr. Justice White commenced his charge. The counsel engaged are A. H. Haslam, K. C., and M. G. Teed, M. C., for the plaintiff and H. H. Pickett and George W. Fowler, K. C., M. P., for the defendants.

INSECT STINGS AND SUMMER SORES Insect bites and stings, blistered feet and these other things or any one of them, may spoil some days of your vacation, or make your work a bore! Zam-Buk is the remedy you need! It takes the "burn" out of these red, inflamed patches where the sun has got home on you; it eases bad mosquito bites, and it soothes and heals blistered feet and hands.

FED GOD LIVER OIL TO "MAN EATING" LION An Incident Reported at the Ferari Circus which was not Advertised as a Regular Feature. Can a "Man Eating Lion" indulge in emulsion of cod liver oil as a regular article of diet and still retain his status as a chomper of humanity? It is the question which a visitor to St. John is asking himself.

WEST INDIAN TREATY WILL HELP ST. JOHN Reciprocity with West Indies will Mean Much to us, is Opinion of Trade Commissioner Grigg. At a special meeting of the council of the Board of Trade yesterday morning, R. Grigg, Ottawa, commissioner of commerce, met the principal merchants of the city and discussed with them the most effective way to gather statistics regarding export and import trade.

ST. JOHN SCHOONER WRECKED IN SOUND Arthur J. Parker Reported to be Flying Distress Signals — Will Likely be Towed to Vineyard Haven. Boston, Mass., July 17.—The report that the British schooner Arthur J. Parker, St. John, N. B., for New Haven, was badly damaged and flying signals of distress in Vineyard Sound, was corroborated today by Capt. Bonnell, of the steamer H. F. Dimock. The schooner was in collision off Cape Cod early yesterday morning, and was towed here last night, damaged and leaking badly.

NORTON PASTOR GOES TO CHURCH QUEBEC Presbytery of St. John, Yesterday, Agreed to Allow Rev. John Lennox to go to Aylewin, Quebec. At the adjourned meeting of the St. John Presbytery held in St. Andrew's church school room yesterday afternoon, a call received by Rev. John Lennox, pastor of the Presbyterian church of Quebec, in the Presbytery of Ottawa, was considered.

MEETING OF HOME FOR INCURABLES Board of Management Elected at Annual Meeting of Subscribers Yesterday — Reports of Year's Work. The annual meeting of the subscribers to the Home for Incurables was held at the home yesterday afternoon when the reports of the board of managers, the treasurer and the women's aid committee were presented, and the board elected for the ensuing year.

WEATHER AND BEAUTY HELPS Health and Beauty Helps. C. L.: The hot sun and wind will not injure your skin even though it is delicate, if you apply a sprumax lotion each day. This lotion is made by adding 1 teaspoonful glycerine to half pint which has not hot water, then 4 ounces sour cream. Powder and rouge are unnecessary when the sprumax lotion is used, and you apply the lotion every day and you will find that it banishes tan and blotchy complexion. The sprumax lotion is not affected by wind or perspiration.

FAST HORSE SOLD. Dr. Fred Johnston has sold the pacer gelding Thomas J., 216 1/4, by Alford to W. J. McMillan for American parties. Dr. Johnston will campaign Thomas J. with Buster Brown, Dolly Vassar and other members of his fast racing stable.

COOKING HELP FROM ACROSS THE SEAS. Edward's Soups are the next best things to having an Edward's expert in your kitchen to make the Soups, Sauces, Gravies, Stews, Meat Pies and Hashes. EDWARDS' DESICCATED SOUPS cost only 5c. a package and are invaluable for making all sorts of tasty, delicious dishes.

FOR THE BRIDE No gift is more acceptable than beautiful, durable silverware. Remember that 1847 ROGERS BROS. is the original "Rogers." It is "Silver Plate that Wears." Made in the heaviest grade of plate, and ranks first in quality. Sold by Leading Dealers.

CHILDREN WHO GROW UP FAST Need Careful Watching. Next to infancy, the years between ten or twelve and eighteen are the most critical in life, especially for the boys and girls who grow too fast. Rapid growth and the physical changes that are taking place render them particularly liable to weakness and disorders of the digestive system, kidneys or lungs that very frequently, when allowed to run on, condemn them to a lifetime of suffering.

STATIONARY ENGINEERS MEET. The Stationary Engineers Association held a meeting last evening and transacted a good deal of business. The new officers are working on plans for the extension of the organization to other parts of the province.

Remember my face—'ll see me again. Cooking help from across the seas. EDWARDS' DESICCATED SOUPS

Table with financial data: Balance, Annual members, Paying patients, Donations, Interest on investments, Garbage sold, Expenditure, General maintenance, Wages.

THE WEATHER

Toronto, July 17.—The weather today has been generally fair, throughout Canada. Minimum and maximum temperatures: Dawson 46, 66; Atlin 40, 62; Victoria 49, 80; Vancouver 48, 63; Edmonton 59, 68; Battleford 44, 66; Prince Arthur 40, 62; Calgary 46, 66; Moosejaw 42, 64; Winnipeg 48, 66; Fort Arthur 48, 64; Pelly Sound 52, 78; London 54, 85; Toronto 54, 76; Kingston 54, 74; Ottawa 50, 74; Montreal 54, 74; Quebec 50, 72; St. John 54, 60; Halifax 58, 74. Lower Lawrence and Gulf—Light to moderate westerly winds; fair, a little higher temperature.

MARITIME—Light to moderate winds, mostly southerly; fair, much the same temperature.

AROUND THE CITY

Promotions in the Artillery. The following promotions in the 2nd N. B. Regiment of Canadian Artillery are announced: No. 4 company, to be corporal, Gunner Tongue, to be bombardier, Gunner Little, Gunner Chambers, No. 5 company, to be corporals, Bomba, L. C. Harmed, R. K. Smith, and E. C. Clark; to be bombardiers, Gunners W. Evans, Wm. Wallace, Wm. Fowler, and R. T. Mawhinney.

Now Able to be Out. Ex-Conductor James Millican who has been confined to the house since last August is able to be out again. Mr. Millican was confined to Royal Victoria Hospital, Montreal, for some time and it was feared it would be necessary to amputate one of his legs but under the care of local physicians he has progressed very favorably and is able to walk about practically as well as ever.

Plenty of Work for Carpenters. A meeting of the carpenters and joiners' union was held last evening when several new members were initiated. All the members were reported to be employed, with the prospect of trade continuing good during the summer. The amount of new work in progress is not extensive, but there is a good deal of repair work and alterations going on in various sections of the city.

Long on Looks, But Short on Coin. A party of young girls from the Mother Country arrived in the city yesterday, looking for jobs and young men with good jobs ready to take them for better or worse. Being interviewed by a bunch of brilliant reporters, they coyly confessed that the reports were forty-eleven degrees handsomer than any other men they had seen in St. John, but they sorrowfully declared that they did not like the looks of the reporters' salaries.

Fourteen New Knights. The New Brunswick Lodge Knights of Pythias met in their rooms in Castle Hall on Germain street, last evening and conferred the degree of knight hood on fourteen new members. A large number of the knights were present, the ceremonies connected with the enrolling of the new members to the higher degree being very elaborate. During the evening refreshments were served and the gathering broke up about midnight.

Street Railway Held Up for Rails. The St. John Street Railway has not yet commenced active operations in connection with the extension of their tracks to Kane's Corner and Crouchville. H. M. Hopper, secretary of the company, stated yesterday that the reason of the delay was the difficulty of getting rails. The company has a lot of sleepers piled along the line of the proposed extension, and has other material at hand, and it is the intention to proceed with the work this summer as soon as rails can be secured.

Hibernian Cadets Will Go To Camp. At the meeting of the Hibernian cadets held last evening, it was decided to send 40 boys to the camp at Aldershot where they will undergo a course of special training. It was hoped to send a larger contingent, but many of the boys are on their holidays, and it was found impossible for more to make arrangements to attend the camp. It is expected that there will be 1000 or 1200 boys in attendance at Aldershot. Adjutant McCarthy will command the detachment of Hibernian cadets. All the expenses of the boys while in camp are paid by the government. Other cadet corps in the city are making arrangements to send contingents to Aldershot.

To Consider Paving Question Today. Commissioner Agar has an important programme of street improvement work under consideration, and hopes to be able to persuade his colleagues in the civic cabinet to allow him to go ahead with the major part of it this year. The commissioners have the paving of Charlotte street from Union street to the Dufferin Hotel and also of King street, and a meeting will be held today to consider other features of the programme. One street which the commissioner wishes to improve is Union street from Charlotte to Brussels. Quite a number of other streets would be the better for permanent paving, but the city has not much money to spend in this way.

Big Skirt Bargains At Dykeman's. Two big skirt bargains at the Dykeman store are announced for the next few days. They are skirts that are in demand at the present season such as outside skirts, made from fine quality Indian-bend in white, natural, stripes and shepherd's checks. Price, \$1.95. They have panel front and give panel back, trimmed with large pearl buttons, all sizes. They also announce a sale of cotton undershirts made from American Percal at 69 cents and American Chambray at 75 cents. These are much under the regular price.

Great Silk Bargains. One of the biggest silk bargains ever offered in St. John is called attention to in Macanlay Bros. and Co.'s advertisement on page 3 of this issue. These comprise several hundred yards of rich pure silks suitable for dresses, coats or waists etc., in all black or plain and fancy colorings, which were purchased at a great concession in price consequently can be offered at a fraction of their regular prices. These desirous of procuring a length of these beautiful fabrics, should be on hand early to avoid disappointment through goods being sold out.

H. A. POWELL TALKS OF WESTERN TRIP

Rainy Lake and Lake of the Woods District of Ontario, a Region of Wonderful Possibilities.

H. A. Powell returned to the city last Tuesday evening from an inspection trip through the Rainy River, Rainy Lake and Lake of the Woods, district of Ontario. This trip was made in company with a member of the American Boundary Commission, as a number of International questions have arisen regarding the water ways of the district.

Mr. Powell said there were many conflicting interests of great importance from an industrial standpoint to deal with, and that these matters would come up for adjustment before the next meeting of the International Boundary Commission.

When speaking of the different matters for adjustment Mr. Powell said, the Ontario and Minnesota Power Co. has a plant at Port Francis, in which there is invested six or seven million dollars. This plant consists of pulp and paper mills, which at present turn out 200 tons per day, and with the extensions now in progress will turn out four hundred tons at the site of the old Port Francis Lock, which cut such a figure during the Dominion federal elections of 1878.

With regard to this plant Mr. Powell said complaints have been received that the company interferes with the flow of the water in the Rainy River, thus impairing navigation.

The Rainy Lake System. The Rainy Lake system comprises some thousands of square miles, and the lumber men have at many places erected driving dams, to which the objection has been made that they prevent the flow of water in the river below.

Another objection to these dams is that the further raising of the water at the head of Rainy Lake, it is claimed, will injure in some places the roadbed of the Canadian Northern Railway. At times the dams situated at the outlets of the Lake of the Woods have backed up the water, so that it overflowed tracts of riparian land in the State of Minnesota, and at other times have drained the waters of the lake to an extent that impairs the navigation of the Warroad river, which flows from the State of Minnesota to the southwestern end of the Lake of the Woods.

These waters after passing through the Rapids at Kenora, enter the Winnipeg River, which is one of the finest power systems in the world. The waters of the Rainy Lake system, the Lake of the Woods system, and all the waters drained by the English river flow ultimately into the Winnipeg river, giving it a drainage system almost as large as the whole of England. The Lake of the Woods itself, exclusive of the thousands of islands with which it is studded, has a surface area of some thousands of square miles.

Poor Farming Country. This district, however, is not a good farming country and apart from the lumber, fishing and water wealth, the whole is unfit for cultivation. The Canadian bank of the Rainy river from Port Francis to Rainy Lake is well settled, much more so than the American bank. In spite of the uninviting aspect of the country from an agricultural standpoint, said Mr. Powell, it is of interest historically to investigate the cones of the mound builders in the Rainy River district. It is through this country that General Wolsley led his soldiers on the way to quell the Red rebellion, the old Dawson trail by which they were being still in evidence.

When speaking of the transportation facilities of the district Mr. Powell said that the Sault Ste. Marie canal which is one of the porches of the west, accommodates a marine tonnage greater than that of the Suez canal, and that the city of Duluth claims a larger marine tonnage than Liverpool. Port William and Port Arthur are also great centers of transportation and when these cities are united the total grain export will exceed that of any city in the world. At present about sixty per cent of the total dredging being done in Canada is done in connection with the development of these ports.

DUKE OF CONNAUGHT WILL LIVE ON SHIP

Something About the Governor-General's Visit to St. John—Plans Approved but Not Yet Announced.

It is understood that the plans made by the civic authorities for the entertainment of the Governor-General during his visit to St. John this summer have been approved by His Excellency, but no information has yet been given out as to the nature of them.

It is understood that the Duke and his party will not put up at a hotel or a private residence, but will keep quarters on the government steamer which brings the party here. It is believed a civic reception will be tendered the Duke and his party at the court house which has recently been repainted and decorated. It is expected that the visit will be marked by a militia parade, and fireworks and a procession of illuminated boats on the harbor.

There is some talk of having the Duke open the public playground being constructed near Rockwood park, but it is not known whether this is one of the features of the programme as arranged by the civic authorities. There may be a firemen's turnout in connection with a pyrotechnic display, but this matter has not been laid before them yet.

TO CLOSE KING STREET FOR ABOUT SEVEN DAYS

Civic Authorities will Adopt this Course with Cars and Through Traffic to Facilitate Paving Work.

It is the intention of the civic authorities to close King street to the street cars and through traffic for about seven days during the progress of the work of paving the street. In order to lay the concrete under the railway sleepers it will be necessary to stop the cars and it is intended to dig up the earth between the sleepers the whole length of the street and get everything ready for laying the concrete foundation before holding up the cars, and the work will then be rushed night and day.

One track at a time will be closed to the cars and though policemen will be stationed at both ends of the street to keep out through traffic there will be no interference with teams or cabs having business along the street.

The street railway authorities have agreed to the plan of closing the tracks for a time, as it is claimed this will facilitate the progress of the work.

B. Mooney, the contractor, has a large force of men working on the street, clearing off the surface and relaying the curbing on a concrete bed and getting ready to put down the concrete between the tracks.

The street will be paved with granite blocks laid on a concrete foundation between the street car tracks and for eighteen inches on either side but the remaining parts of the road bed will be paved with tarred macadam. Concrete gutters to carry off the rain will be constructed the whole length of the street.

SITE FOR THE BOARD OF TRADE ORCHARD

Excellent Farm Short Distance from Brown's Flats Chosen by Board of Trade Orchard Company.

The location of the orchard to be established by the St. John Board of Trade Orchard Company was definitely settled upon at a meeting of the company held yesterday afternoon. The farm selected for the purpose is situated on the St. John river, about sixteen miles from this city and a short distance from Brown's Flats. The farm which is to be laid out in orchard land is in one of the most fertile sections of the province and although the members had a number of possible locations under consideration, the one on the river was unanimously voted the most suitable for the orchard purposes. The farm was visited a few weeks ago by representatives of the Board of Trade and A. G. Turney, provincial horticulturist.

The farm is at present sown with crops and nothing will be done towards preparing the land for orchard until the autumn. Next spring, however, the real work of establishing the orchard will begin when it is the intention to set out two thousand trees.

For the first six years, the orchard will be under the direction of the department of agriculture after which period the board will select their own manager and horticulturist.

The land chosen for the orchard is considered by the provincial horticulturist to be in every way suitable for the purpose, and the members of the board are optimistic of the success of the venture.

The idea of establishing board of trade orchards has been taken up in a number of other towns in the province and although not all the towns have selected locations for the orchard, it is probable that they will do so during the summer.

ST. JOHN VISITED BY DREADED BROWN-TAILS

So Far Only Males Have Been Captured, but if Female Moths are Here Trees will Suffer.

The brown tail moth has invaded St. John and for the past couple of nights these insects have been about the city in hundreds if not thousands. On Tuesday afternoon A. Gordon Leavitt captured 23 near Miles Agar's building on Union street and that night he captured 45 on the corner of Sewell and Coburg streets. When seen last night Mr. Leavitt said he could have captured a greater number if he had wished, as there were hundreds flying about the electric light, also on the poles and nearby buildings.

All those captured are males and they are not as dangerous as the females. The latter are particularly destructive. They feed on about 80 different trees, and are especially destructive to fruit trees by defoliating them.
