## FISHING LICENSES HAVE BEEN CANCELLED

Several fishing parties projected by local sportsmen have been called off owing to an order of the Dominion government that all licenses to fish for trout and salmon in New Brunswick before May 1 be rescinded. These licenses were formerly issued in defiance of the provincial game law setting May 1 as the opening of the fishing season and the order followed negotiations between the provincial and federal governments on the matter.

In accordance with the instructions received, J. Fred Belyea, fishery overseer, has called in five licenses which he had issued since April 1, and notified several other applicants that he will be unable to provide them with licenses. As a consequence several of the fishing parties planned or off as it will now be a violation of the law to fish for any trout or salmon except in running brooks or streams under the discretion of the game warden in the district.

## NEWCASTLE NOTES

Newcastle, April 13.—The funeral of the late Mrs. Isabelle Aiton was held from her residence on Main street to St. James' cemetery, yesterday afternoon at 2.30, Rev. S. J. MacArthur conducting the services at the house and grave in presence of a large number of mourners and sympathizing friends. The pall-bearers were James Palmer, William H. Russell, James Crocker, W. J. Jardine, P. H. Eaton and Robert Chaplin.

Rev. S. J. MacArthur, who since the 3rd instant has been conducting special religious services in St. James' hall, is being assisted this week by Rev. Willard Macdonald. The meetings are well attended and helpful.

To dry parsley, wash the parsley and shake it well. Then set in a warm oven, and when it becomes crisp let it cool. Put into tins or bottles and exclude the air from it.

An excellent way of keeping a black leather hand-bag or traveling bag in condition is to rub it with occasionally with milk. Wipe with a chamois until perfectly dry.

## STRONG SPEECHES FOR COMMISSION

### Rousing Addresses in Carleton

Good Majority Expected in the West End

W. F. Hatheway, M.P.P., Appeals to Labor Men to Support Commission—H. A. Powell, K. C., Gives Striking Examples of Aldermanic Inefficiency—Ex-Alderman Belyea Brings Out Strong Point—Was Asked to Vote for Opponent—The Other Speakers.

Tuesday, April 18.

With the ring of victory in the air the advocates of the elective commission form of government in St. John closed their campaign last evening with a rousing meeting in the Carleton city hall. The late speaker declared that "Carleton would give a majority for commission as sure as the morning sun would rise and set," and this sentiment was heartily applauded by the large number of citizens present.

The meeting was the clear exposition by W. F. Hatheway, M. P. P., of the many ways in which the working man of St. John had been treated by the common council in the matter of taxation, and Miles E. Agar's definite statement that every member of the committee appointed by the executive of the citizens' committee was on record for the abolition of the property qualification for commissioners.

Rev. J. Fred Belyea read a letter from the executive of the St. John Power Boat Club which appeared in last evening's issue, asking the members to support certain candidates. The city had paid \$8,000, he said, as its share of dredging in Marble Cove for the sole purpose of removing a nuisance from the harbor, and he proposed to construct a sewer which would cost \$8,000 besides land damages. T. H. Bates, H. A. Powell, K. C., and Timothy Belyea also made spirited speeches.

In the absence of H. Colby Smith, the chairman, who did not arrive until later in the evening, W. D. Baskin opened the meeting. He said he had no fear that the west side would be unfairly treated in the matter of representation under commission. Carleton was growing so rapidly that they would be able to enforce their demands, if neglected.

W. F. Hatheway, M. P. P.

Mr. Hatheway referred to the development of the winter port trade and took the ground that the same form of government in force in 1890 when the export trade of the city was only \$3,000,000 was not effective when the business had grown to \$80,000,000. The problems arising from the great increase in trade, the necessity for enlarging the harbor and deepening the channel required expert men. It was not responsible to expect lawyers, doctors or business men with their time taken up with their own affairs, and the necessity of making a living to consider these matters fully or carefully. The great change in conditions required a change in management.

Mr. Hatheway then reviewed the introduction of the commission idea and referred to the argument used by the two pamphlets issued by the opposing forces. The one against commission gave no names while the other was signed by reputable citizens. He gave as instances where the city could have saved money by having commission the building of the Loch Leod water works, where \$100,000 had been wasted, the purchase of lands at Spruce Lake and the irregularity in the laying of the Hassam pavement.

Referring to the argument used in the anti-commission pamphlet that the taxes on small incomes and small holdings would be increased, he said this was quite at variance with the facts. He had been in the fight to exempt small incomes from the start, and it was not due to any effort of the common council that the exemption had at last gone through. But the act had been followed by an increase in the poll tax to \$5 and the tax bills received last year showed that the exemption had been very slight. If the common council was in sympathy with the small income tax, it would have failed to pass.

There had been much talk of the lack of charter, but he could assure his hearers that there were eight very definite points which had to be in the charter. He enumerated them, as follows, enlarging on each point:

1. That the mayor and council should be elected by the people.
2. That they should be elected by the people.
3. That the double election plan.
4. That they must give their whole time to the city.
5. That the recall.
6. That the referendum.
7. That the initiative.
8. That the referendum.

## MORE AMERICANS SHOT BY MEXICAN BULLETS

### Douglas, Arizona, in Fire Zone of the Biggest Battle Yet

Seven People in the Streets Wounded—President Taft Leaves Matter of Intervention to Congress—Washington Thinks Long War Would Result if United States Undertook Work of Pacification.

Canadian Press.

Augs Prieta, Mexico, April 17.—(From the Associated Press correspondent in the field.)—The most important battle of the Mexican revolution thus far was fought here today, between 1,000 Federalists under command of Gen. Col Diaz, and 1,000 rebels under Balmoris Garcia, and resulted in the repulse of the former.

The battle lasted from 6.30 a. m. until midnight. At nightfall, two Federal machine guns were in the possession of the rebels, and the Federalists had sustained a loss estimated by the rebels as at least 200 killed and wounded. The rebels gave their own loss at 20.

From the beginning of the battle, regardless of the warning given by the United States government to the leaders of both forces, a rain of bullets poured into the town of Douglas, Ariz., and when the day was over it was found that seven non-combatant residents of that city had been wounded. It was a day almost of terror in Douglas.

### Taft Worried

Washington, April 17.—President Taft felt tonight that he has done personally all that can be done by a chief executive to control the situation along the Mexican border. He and his advisers believe that now congress must say whether the situation is grave enough to warrant intervention and its consequences.

Through the state department the administration today reiterated the representation made to Mexico that affairs here might soon be found fighting side by side. Furthermore, intervention would be likely to dissipate all the good feeling that years of careful diplomacy has created between the United States and the Latin American countries.

### DEMOCRATS PLAN TO CUT WOOLEN DUTIES IN TWO

Washington, April 17.—From an authoritative source it was learned today that the Democratic revision of the wool schedule contemplates reductions of about 50 per cent on raw wool and substantially 40 per cent on manufactured articles. The revised schedule is not yet ready for submission.

### SUSSEX SCOTT ACT OFFENDER, FINED, QUITS TOWN

Meeting to Organize Board of Trade Adjourned—Moncton Couple Wed.

Sussex, N. B., April 17.—(Special.)—The meeting called this evening to consider the organization of a board of trade for Sussex was adjourned until Thursday evening next.

A very quiet wedding took place here at the Baptist parsonage at noon today, the interested parties being Miss Mayne Bishop and Thomas Price, both of Moncton. Rev. W. F. Alton, performed the ceremony. The happy couple left this afternoon for a short honeymoon trip, after which they will reside in Moncton.

Wm. Donnett, of this place, was before the police court on Saturday for violation of the temperance act. He was convicted and fined \$50 and costs. Mr. Donnett immediately left town and has not been seen or heard of since.

## WEALTHY MEXICAN GIRL QUITS CONVENT TO HEAD REBEL BAND

MARGARITA NERI, LEADER OF A BAND OF 700 MEXICAN REVOLUTIONISTS

The leader of the large band of revolutionists now operating in the state of Guerrero, Mexico, is a girl, Senora Margarita Neri, daughter of a man who was once a general in the Mexican army, General Canuto Neri, but who, forsaking his country's cause, took up arms against the Diaz government. The girl is wealthy, her father having safely hidden his wealth in French securities before starting the revolt which ended in his death about twelve years ago.

"La Neri," as she is affectionately called by her band of about 700 followers, inherits the revolutionary instincts of her country's cause, and has led her in a convent in Chilpancingo.

## TENDERS CALLED FOR SERVICE TO JAMAICA

### Halifax the Canadian Terminus, With St. John a Port of Call—Calls at Bermuda and Turks' Island.

Ottawa, April 17.—The department of trade and commerce has called for tenders for a mail service between Canada and Jamaica, the service to be from Halifax (N. S.), with a call at St. John (N. B.), each trip, to Kingston, Jamaica, the steamers to put in on each trip at Bermuda and Turks Island.

The tenders may be for either fourteen, ten or seven days. The vessels must be of British register and preference will be given to ships which possess cold storage facilities.

## GREAT SLUMP IN PRICES OF FISH IN BOSTON

### Arrival of Over 1,000,000 Pounds Yesterday Knocked Lobsters Down to 12 Cents.

Boston, April 17.—Enough fresh fish to feed the entire population of Boston arrived at 11 o'clock today and sold for almost a song. There were 1,175,000 pounds landed, which is a record for a single day. The fish dealers were kept busier even than during the Lenten season.

Another surprise was sprung on the trade when lobster prices were cut almost in two. From Nova Scotia 48,000 pounds of this luxury were landed yesterday, and today prices dropped with a thud. Wholesale prices last week were 23 and 25 cents per pound. The prices asked this morning were 12 and 15 cents.

## STRUCK ANOTHER GUSHER IN ALBERT

### New Well Will Yield About 6,000,000 Feet of Gas Daily—Moncton Methodists to Pay Off Debt on Church.

Moncton, April 17.—(Special.)—O. P. Boggs today visited the oil and gas wells and confirmed the report as to the big strike of gas in the new well No. 19. Mr. Boggs says the new well will yield about 6,000,000 feet of gas daily.

At a meeting of the congregation of central Methodist church tonight, it was decided to build a new parsonage and wipe out the present indebtedness of the church. About \$2,500 in voluntary subscriptions were received at the meeting. The new parsonage and to clear the church of debt will require about \$8,000.

W. Leonard Palmer, representing the London Financial Press, addressed the Moncton Board of Trade tonight on impressions of what he had seen in Canada during his trip through Nova Scotia and New Brunswick.

## HANS HOLMER WINS FIFTEEN MILE RACE IN FAST TIME

New York, April 17.—Hans Holmer, the American long distance runner, defeated Gustav Ljungstrom, of Sweden, in a fifteen mile indoor race here tonight. Holmer's time was one hour, twenty-one minutes and 33 seconds.

Holmer led at every mile with Ljungstrom close behind until a few laps from the finish. Then Holmer sprinted and gradually drew away from the Swede, winning by about twenty yards.

## RECIPROCITY WILL CARRY IN CONGRESS

### ALBERT COUNTY PEOPLE AROUSED

Proposal to Close Part of Harve & Salisbury Road to Be Fought

Riverside and Albert Residents Send Delegate to Consult Dr. McAlister, and Their Grievance Will Be Forwarded to the Proper Authorities.

Special to The Telegraph.

Hopewell Hill, April 17.—The announcement that the road would be closed down between Hopewell Hill and Albert, after May 1, has, as may have been expected, aroused strong protest among the residents of this section of the county.

The action of the company is considered an imposition on the people who have been heavily burdened with a railway tax, and who will now, if the order is carried into effect, be shut out from railway advantages.

The feeling of disapproval is widespread. At Riverside and Albert the business men are making a strong protest, which it is hoped may be productive of some effective action that may prevent any such unjust treatment of the people of this section, as would result should the train service be discontinued.

A representative of the business men of Riverside went to Sussex today to interview Dr. McAlister, it is understood, in regard to the situation, and it is said communication is being made with the railway department at Ottawa.

## CANADIANS RICHLY REWARD CAPTIVE FISHING POACHER

### American Captain Helped Put Out Fire on Government Cruiser and Has His Seized Outfit Returned to Him.

Dunkirk, N. Y., April 16.—Capt. E. G. Tuttle of this city, whose fishing tug, the Eagle, was seized by a Canadian revenue cutter last week, has been richly rewarded by the Canadian authorities for bravery displayed at the time of his capture.

When the Eagle, illegally fishing in Canadian waters, was sighted by the government boat and a stern chase began for the American side of the lake, a fire broke out in the cabin of the latter craft. The Eagle was quickly overhauled.

The fire in the meantime had gained considerable headway and the government boat was in grave danger. Instead of running away again as he might have done, Capt. Tuttle swung alongside the cutter and he and several of his crew leaped on board. The flames were extinguished by the combined crews.

When the case came up for trial on Saturday, Capt. Tuttle was found guilty and a fine of \$650 was imposed, but his tug and all the net on board valued at several thousand dollars, which had been confiscated, were returned to the American captain as a reward for his gallantry.

## HE DARED THE JUDGE AND GOT SIX MONTHS

New York, April 15.—Dominick Hearnis, a waiter of 39 Bergen street, Brooklyn, after being fined \$10 in the night court yesterday, wanted more, and got it, as follows:

"You'll wait for that \$10, you four-eyed zoloot," he shouted to Magistrate House. "I'll change that fine and send you to the workhouse for twenty days," said the magistrate.

"Aw gwan; make it more," said the prisoner.

"One month," replied the court.

"Once more," shouted Hearnis.

"Do it again," sneered Hearnis.

"Six months," adjudicated the court.

Hearnis then demanded a year, and expressed his opinion of Magistrate House in caustic terms. It took three policemen to remove Hearnis from the court room.

"I wish I could have made it a year," said Magistrate House. "Unfortunately six months is the limit."

## NEW YORK FIRE CHIEF RETIRES ON \$6,000 PENSION

New York, April 17.—Edward F. Croker, chief of the New York city fire department, today tendered his resignation to take effect on May 1. Deputy Chief John Kenon was at once designated by Fire Commissioner Waldo to be acting chief of the department.

"I am retiring on my own free will, and with the mayor's personal knowledge," said Chief Croker. "The relations between the commissioner and myself are of the most friendly sort, and always will be."

Holmer led at every mile with Ljungstrom close behind until a few laps from the finish. Then Holmer sprinted and gradually drew away from the Swede, winning by about twenty yards.

## RECIPIENT WILL CARRY IN CONGRESS

Washington, April 17.—"After a thorough canvass of the Republican membership of the House, I can state positively that a substantial majority of the party will vote against the Canadian reciprocity bill," said Representative Dwight, of New York, the Republican whip, tonight. The bill is to be put on its passage this week.

This will not prevent its passage, even though a number of the Democrats follow the course now indicated and vote against the majority of their party. The Democratic majority in favor of it has greatly increased in the new congress, however.

Five speakers participated in the debate today. Representative Fordney, of Michigan, a Republican member of the ways and means committee, and Representative Lenoir, of Wisconsin, an insurgent Republican, spoke at length against the bill. Representatives Harrison, of New York, and Peters, of Massachusetts, Democratic members of the ways and means committee, and Representative Crumpacker, of Indiana, Republican, advocated its passage.

Acuses Democrats of Playing Politics.

Mr. Lenoir gave an emphatic statement of insurgent politics and views. Questioned from the Democratic side, he declared that he supposed that reciprocity agreement because he believed it actually increased many duties. He declared that if the Democrats were sincere in their desire to put more articles on the free list, they would attach the free list to the reciprocity bill. He accused them of wanting the president to sign their free list bill when it finally passed, to make political capital for them.

"The progressive Republicans have never been free traders," said Mr. Lenoir. "I challenge any one to point to any speech made by a progressive Republican in congress or elsewhere advocating free trade. I stand for a protective tariff measuring duties by the difference in cost of production at home and abroad."

"Do you endorse your party's action in passing the Payne tariff bill?" asked Mr. Collop, of Indiana.

"I do not," said Mr. Lenoir.

"Do you consider it a violation of your party's pledge?"

"I do," said Mr. Lenoir.

"If my party had kept its pledge there would have been a minority upon one side of the house instead of a majority," added Mr. Lenoir.

A signing up of the new alignment of the senate and the house of the average sentiment has disclosed within the past two days the fact that the Canadian agreement is so good as enacted into law, although a few weeks must elapse before that end is realized. The bill will go to Mr. Taft for his signature as unchanged and as free of amendments as the day last January when the president embodied its terms in a message to congress.

About thirty senators compose the opposition to reciprocity at the present time. Some of those will, nevertheless, cast their vote for the measure. A number will hold out to the end.

Workmen tearing down an old building on Main street, purchased recently by Henry Legere from A. E. Hanson, Fredericton, were at the bottom of the chimney.

Somebody suspecting they might be human bones, the attention of the police was attracted to the matter, but after an inspection of the site, it was concluded they were bones of a fowl or small animal, and no further investigation was made.

A fire occurred on the intervals which started in the building, contained about twenty tons of hay and the loss on the building and hay is about \$800 with no insurance. The fire originated from burning grass.

The fire department was called out this morning for burning grass at the head of Bedford street, which endangered surrounding houses. The firemen had a hard time before the flames were brought under control. The fire was set by a boy.

Geo. Melan, the well known proprietor of a pool and billiard saloon, died this morning of a year's illness with tuberculosis. Deceased was twenty-eight years old and was a son of John Melan, who died at the residence of his son-in-law, J. H. Gunnig, (Coveland, Albert county, Ireland) on a visit to his home in Montreal.

Deceased was survived by four sons—Harry Steves, Coveland; Bunyan, Ansonia; Albert Steves; Frank, Ansonia; and one daughter, Mrs. J. H. Gunnig. (Coveland) left behind him a young man named Blaine, a graduate of the University of Toronto, who is now in the Halifax naval station.

Moncton, April 16—Friends of John Elash, ship dealer and buyer of beef tallow, in Moncton, N. B., who were gathered at his home Saturday night, in his usual parlour, were shocked to learn that Mr. Elash was apparently, at the age of 50, dead Saturday night, but shortly after reaching home he complained of not feeling well and had downy sweats, which were noticed to send for a doctor. Dr. Ferguson was quickly summoned but he arrived Elash extended his hand, saying, "I am feeling better," and immediately sank. Death was given as the cause of death.

Deceased was a native of Germany and had resided in Moncton for several years, having previously resided in Montreal one year. He was of Jewish origin and had been very successful in business here. He was forty years old and married a wife and one daughter, Mrs. Harry Arson, Moncton. The body will be taken to St. John for interment.

# AWEALED TO BE FOUND TO BEAT RECIPROcity

## Paid Agitators Are Touring Country

It is Also Alleged That Money is Being Used In Canada

## Manufacturers Are Not Afraid of Canadian Competition

but They Fear that Free Natural Products Will Lead to Agitation Against Protection.

Washington, April 15.—Evidence that a considerable sum of money is being used to accomplish the defeat of the Canadian reciprocity agreement is piling up, and it is apparent that it is being expended on both sides of the international boundary. Such a campaign is being carried on as would not be possible without a war chest tolerably well filled.

The weight of this movement is being expended in securing a board of members of the Canadian parliament by Canadian manufacturers. In Washington it has assumed such proportions that many members of congress who manfully try to reply to all letters have been swamped and no longer attempt to answer their anti-reciprocity mail. In fact, much of it is especially true when letters are framed in a way to indicate that they were written after a model supplied from some central source.

No member of congress is old enough to remember a time when farmers of the United States have contributed one-tenth as much as they now are sending to Washington. But from the way it is coming it is evident that somebody is making it his business to keep the farmers at it. The letters appear to run in waves, or at least the indignation caused by them. At some stages the inundation of the letters comes from the west of the Mississippi. Again they hail from the eastern extremity of the country. At other times they emanate from the region of the Ohio valley.

## Work of Traveling Agitators.

Judging from this peculiarity, it is thought men are traveling about the country engaged in urging the farmers to keep writing. This is indicated by the unevenness of the epidemic discharge, and by the fact that letters of the same characteristics denoting that the same person or the same appeal or argument caused them to be written.

Where the money to keep up the propaganda comes from is fairly indicated by the panic into which the proposed reciprocity has thrown certain of the highly protected industries of the country. Especially is this true of the woolen, cotton and steel industries. But it is true, also, of all the beneficiaries of high protection. The American Protective Tariff League, the national organization of the protected industries, is sending out bulletins of literature against reciprocity. In its cotton mills and steel industries frankly acknowledge their apprehension that if this agreement goes through it will mark the beginning of the end of their control of this market which has brought them such fabulous profits.

## Fear for Protective System.

None of the literature sent out to members of the league shows fear of Canada. But it all shows a determination to stick to the protective system, should reciprocity prevail, and the farmer thereby ascertain that so far as he is concerned reciprocity is a myth. Of course it is very likely to be brought to the farmers the ruin they are being taught to expect, congress would be compelled to abrogate the agreement with a myth. Of course it is very likely to be brought to the farmers the ruin they are being taught to expect, congress would be compelled to abrogate the agreement with a myth. Of course it is very likely to be brought to the farmers the ruin they are being taught to expect, congress would be compelled to abrogate the agreement with a myth.

## Body Held On

### CORONER'S ORDERS

Monday, April 17.

By order of Dr. R. E. Berryman, coroner, the body of Thomas Young, the man killed on the C. P. R. steamer Lake Champlain Good Friday morning, was buried yesterday after the funeral services at St. Peter's church, but will be held until today with a possibility of an inquest taking place.

Dr. Berryman said last evening that the Lake Champlain had sailed on Friday without the captain giving him the necessary information concerning the man's fatal accident. He had received a report from the C. P. R. Saturday night, but it was not as complete as he wished and it was possible that he would decide to hold an inquest.

In case he did so it would be necessary for the jury to view the body and he could not give a burial permit until this was done. Having given permission for the body to be removed from the hospital to the home of the brother-in-law of deceased, 66 Simonds street, it was taken for general arrangements were made.

On hearing this announcement advised that the service be held as announced and the body detained at the undertakers after the ceremony. This plan was followed yesterday and if no inquest is held the body will be quietly buried at Sand Cove cemetery today.

The funeral from the residence of Mrs. Mary Shea, 66 Simonds street, was very largely attended. Hundreds of fellow members of the "longshoremen's" association and of the C. M. B. A. walked in the procession, garbed in black and wearing badges. Rev. Father Maloney conducted the service at St. Peter's church.

## MR. BORDEN'S POSITION

(Charlottetown Guardian, Ind.)

Close on the heels of Mr. Borden's reported resignation came the revival of another rumor that he is to be reinforced in the federal battleground by Premier McBride, of British Columbia, and Hon. Mr. Rogers, now minister of public works in Manitoba. Both these strong men will enter federal politics, it is said, at the next general election, and in the meantime Mr. Rogers is to remove to Ottawa and act as general adviser for Mr. Borden and the Conservative party.

We can see no objection to the proposed arrangement. Both parties are entitled to gather their own forces in the federal arena, as national affairs are of paramount importance. The Conservative party is in the position of having a good many able men in provincial affairs, while it has all too few of such men in the national parliament. Sir Wilfrid Laurier, when he took office, drew from the provinces such men as Mr. Blair, Mr. Fielding, Sir Oliver Mowat and others not known in federal politics. Mr. Borden may do the same while still in opposition—if he can find it is to remain leader.

And it may yet be found that the proposed arrangement is part of a scheme backed by the Manufacturers' Association and other favored interests to get their forces together to enter to fight an Armageddon battle against reciprocity, and possibly to develop a new leader in the process. At least the country seems to be treating with open arms toward the trade agreement that is outside of three or four of the big cities. Mr. Borden's leadership could hardly be retained after a third defeat, if such should await him, and the defeated and ambitious premier of the Pacific province could in the meantime become better known in central and eastern Canada, and with his spurs in the federal arena.

But the revived rumor may not materialize as a fact. In any case it makes an interesting reading for ardent Conservatives. We shall see what we shall see.

## EAST ST. JOHN

### SLAUGHTER OF GAME

A correspondent of The Telegraph writes from Grand Falls as follows:

"I would call attention to the manner in which the game laws are violated in parts of Victoria and Madawaska counties. Many moose and deer are being slaughtered in the close season, and the meat is openly served up in many hotels from here to the headwaters of the St. John river. There are too few game wardens, and some of them do not attend to their duties."

Scatter sawgrass bark with woolen goods and furs when putting them away for the summer. It keeps moths out.

### Opening of River Navigation Will Be Very Late

#### ICE STILL SOLID

#### Grand Lake Not Expected to Be Free Before Middle of May—Some Interesting Dates Showing Opening and Closing of Summer Seasons.

The opening of navigation in the St. John river promises to be very late this year. One report is that it is unlikely that the ice will be out of Grand Lake before the middle of May and there is good reason to believe that the river opening will be yet at upper points. It is noteworthy that since 1825 there have been only seven occasions on which the river was as late as late in the opening.

The following is a list of the various dates on which the river opened since 1825, with the date of closing and number of days open:

# ROYAL CORONATION CEREMONY WILL BE VERY IMPOSING

## Details Have Been Arranged and Rehearsals Have Begun

### Archbishop of Canterbury to Crown and Anoint Both King and Queen, While Archbishop of York Will Preach the Sermon—More Invited Guests Than Attended King Edward's Crowning.

## HARD BLOW TO ALBERT PEOPLE

### Part of Harvey and Salisbury Railway to Close Down

#### IN EFFECT MAY 1

Trains Will Not Run Beyond Hillsboro in the Future, and Some Twenty Miles of the Line Will Be Abandoned.

Hopewell Hill, April 15.—(Special.)—The Salisbury & Harvey Railway gave notice to the public today that after May 1 trains from Salisbury would not run below Hillsboro. This will leave Albert, which has been the terminus, some twenty miles from railway communication and will likely cause some protest from the public of this part of the county, who have been paying heavy railway taxes for years.

The destruction of the Hill Marsh Aboudeau, built jointly last year by the railway and marsh people, a few miles from Albert, compelled the railway people to hold up the train from running into Albert, but it was supposed after the repairs were effected trains would be resumed. The train, in the meantime, has been running to Daniel Station.

Today Marsh Commissioner Tingley received notice from Manager Sherwood saying that the work of rebuilding the Aboudeau need not proceed, as far as the railway was concerned, the road would close down below Hillsboro.

## FINE CLASS OF IMMIGRANTS ON THE EMPRESS

Saturday, April 15.

Bringing a fine lot of immigrants, which included two special parties of farmers and a contingent of nearly 100 children for the Fagon Home in Toronto, the C. P. R. liner Empress of Britain, Captain J. A. Murray, arrived yesterday and docked soon after noon at 2 and 3 berths, Sand Point. There were in all 1,480 passengers, 180 cabin, 453 second cabin and 847 steerage.

Among the saloon passengers was Mr. and Mrs. W. B. Snowball, of Chatham, and Mr. Danforth, Newcastle (N. B.). A lady passenger was prominent was the two-year-old granddaughter of Sir Edward Ward, permanent under-secretary of the foreign office. In charge of a nurse, little Miss Ward was en route to her home in the Otanangan Valley (B. C.), the fruit district. Her father, Captain Ward, an officer in the Grenadier Guards, had been eliminated from the valley. Lady Pigott, the wife of the British consul at Yokohama, was also among the saloon passengers.

Of the special parties of farmers the C. P. R. had fifty for their ready-made farms in the Otanangan Valley. They were in charge of Mr. Jette, of the Colonization department, and like those that arrived on the Empress of Ireland, were a most desirable class. All had ample means which totalled a snug sum of from \$1,000 to \$2,000.

The steamer had a good trip which will take up farms that have been prepared for them and partly seeded down.

There were about 115 in the special party for New Brunswick, who came under the personal charge of A. Bowler, provincial government agent in London. Mr. Bowler said that while some would purchase farms, most of them, for the time being, would obtain experience by working for New Brunswick farmers. This course had been advised for the first year at least.

The Pagan, the father of the late Mr. Home in England and Toronto, brought out ninety-four rosy-cheeked boys who ranged from twelve to fifteen. They were en route to Toronto.

## TO ANOINT THE KING

Thus far the civil character of the service predominates. With the anointing, which follows the taking of the oath, the ceremony takes on a more religious character. It is accompanied by a prayer and the anthem Zadok the King. For this ceremony the king sits in the chair of King Edward I, which contains the "Stone of Destiny," brought from Scotland by that monarch, and which, legend tells, was "Jacob's pillow."

The Dean of Westminster brings from the altar the golden ampulla, made in the form of an eagle, and filled with consecrated oil, with which the king is anointed.

## TO ANOINT THE KING

The anointing and crowning of the queen is a short and simple ceremony. As was Queen Alexandra, the queen will be anointed on the forehead. She is then crowned with the crown and scepter upon her head and she is given the scepter and the ivory robe with the dove.

The king and queen having made obligations before the altar, the king proceeds to the Archbishop of Canterbury, who, with the communion service, at the conclusion the king changes his robes, puts on a lighter imperial crown in place of that of St. Edward, and the procession reforming, the service is at an end.

## Foreign Representatives

The foreign representatives thus far appointed to attend the coronation are: Germany, the Crown Prince and Princess; France, Vice-Admiral De Faugue (ambassador extraordinary); General Count Dreyer (German); Norway, Mr. Inge Herberich; United States, John Hays Hammond (ambassador extraordinary); Major-General A. W. Greely (retired); Austria-Hungary, the Duke of Austria; Denmark, the Crown Prince and Princess; Sweden, the Crown Prince and Princess; Roumania, the Crown Prince Ferdinand; Saxony, the Prince and Princess; Prussia, the Crown Prince and Princess; Turkey, Prince Yusuf Izzet Doh, the heir apparent; Japan, Prince Fushimi, General Nogami; China, Tsai-Chen, the eldest son of Prince Chun, the regent; Serbia, the Crown Prince, Chilli, the Chilean minister in London; Portugal will have the Duke of Braganza, the regent, who probably receive an intimation that his presence will be honored.

## ICE STILL SOLID

### Grand Lake Not Expected to Be Free Before Middle of May—Some Interesting Dates Showing Opening and Closing of Summer Seasons.

The opening of navigation in the St. John river promises to be very late this year. One report is that it is unlikely that the ice will be out of Grand Lake before the middle of May and there is good reason to believe that the river opening will be yet at upper points. It is noteworthy that since 1825 there have been only seven occasions on which the river was as late as late in the opening.

## IMPOSITION CEREMONY

The Archbishop of Canterbury—the actual crowning—performs the ceremony of the imposition. The words of this ceremony have undergone many changes, but the essential parts remain the same. The king is seated on a throne, and the archbishop places the crown on his head. The king is then crowned with the crown and scepter upon her head and she is given the scepter and the ivory robe with the dove.

## THE FORM OF CEREMONY

The service at the coronation of King Edward marked, in many particulars, a return to the old ceremonial forms. For George V. no changes have been made unless they can be fairly regarded as improvements. As did his father, King George, with his consort on entering the abbey, will proceed immediately to the chairs of state on the south side of the altar, the seats below the throne being dispensed with.

The first action of the service, the presentation of the king to the people for recognition, a survival of the ancient Teutonic usage of popular election and of the rights of his subjects, is performed by the Archbishop of Canterbury.

Accompanied by the archbishop and other officers, the king proceeds to the four corners of the altar, the congregation receiving his majestic with acclamation. Then follows the Hymn, as in the form of our fathers, which since the fourteenth century, sung by two bishops, after which the archbishop begins the communion service.

The sermon, after the Nisene Creed, will be preached by the Archbishop of York. It is "to be short and suitable to the great occasion," an injunction which has continued for upwards of five centuries. On the subject of the coronation, the king, having already made the declaration, from which has been eliminated the clause anathematizing the Roman Catholic belief, the Archbishop of Canterbury puts to him the questions of the coronation. The king takes the oath kneeling at the altar, lays his hand upon the Gospels, and kisses the book. The original "Great Bible" which was still mentioned in the form of ceremony, has long since disappeared, and King George will use one presented by the University Press of Cambridge.

Still before the altar, the king signs the oath.

# Quick and Permanent Relief from Rheumatism

It is not exposure to cold or wet that is the real cause of rheumatism—it is bad kidneys. So long as the kidneys are doing their work properly, filtering from the blood all the Uric Acid formed there from the waste products of the body, rheumatism cannot exist. It is only when the kidneys fail, and the blood becomes loaded with this Uric Acid, that the slightest exposure stiffens up the joints or muscles and causes agony.

Rev. Father Morrissey

## Father Morrissey's No. 7 Tablets

promptly relieve and permanently cure rheumatism by putting the kidneys into perfect shape for their work. Once the strengthened, invigorated kidneys get the Uric Acid cleared out of the blood, the rheumatic pains disappear. If they ever show symptoms of returning a few No. 7 Tablets will tone the kidneys up again and keep you free from the dreaded rheumatism.

Father Morrissey's No. 7 Tablets have proved their value in hundreds of cases where other remedies have failed entirely.

# WHAT EASTERN FARMERS MISS BY GOING WEST

## Dr. Robertson Declares Best Opportunities for Land Prosperity Are Right Here—The Advantages of New Brunswick, and Some Advice Which Our People Should Heed.

Dr. James W. Robertson, who is admitted to be the foremost authority on intensive farming in Canada delivered an address before the Canadian Club of Ottawa on February 25 on Conservation and Technical Education, which was full of information of the kind most needed by the farmers of this country. He cites from the records of the commission on technical education two striking examples of what can be done by good cultivation of the soil. These constitute a proof that there is no need for the farmers of New Brunswick on the other parts of the east to go away from home looking for opportunity to do well as by so doing they are turning their backs on far more certain riches, or at least on a far more comfortable living.

Dr. Robertson first dealt with what we have. He pointed out that ours was the greatest unearned estate that had ever come into the possession of any people.

"A thousand miles westward," he said, "from the Atlantic is the first great stretch of land and rivers and lakes, a land of apple trees, of clover blossoms, of running streams, of cloud-covered skies, and land flowing with milk and honey. It is a thousand miles for homes. Where else is there such other place for children? Then a thousand miles of wilderness north of the Great Lakes is our own—land of the regulation of climate, as to rainfall, east and west. Its forests need conservation."

Dr. Robertson next referred to the riches of the prairie region, showing how by soil cultivation the fertility of the soil which was thought to be boundless is getting exhausted. He touched upon the difficulties that hampered the conservation commission, the lack of accurate knowledge where accurate knowledge is most desirable, and the confusion of ideas that marks the attitude of the public.

Speaking of the facts brought out at the investigation held by the conservation committee he said:

"Of 100 farms surveyed in Manitoba, every farmer reported that while oats were in many cases getting worse. There is a low-dye do grow on wild oats in the land where grain growing is the staple occupation of the people. The weeds that push their way west, but it is widening its invasion that way. Let the wild oats get possession and the farmers—and with them most of the other folk—might as well say good-bye to some of their best lands."
