NEWCASTLE, N. B., WEDNESDAY MORNING, OCTOBER 22, 1902.

Let Common Sense be your Inspiration.

It is very amusing to see how people form a habit and stick to it, no matter how much their common sense tells them it is wrong. We are not using this space to cry down the drink habit, but we refer to what is more far reaching, the going into debt habit. It is not a question with some people of how can I pay, as how can I obtain. Goods procured in this manner are procured at the merchant's *over price* and exorbitant, compared with the spot cash prices of today. Consequently it costs the purchaser more to live than the person who pay as they go. How loosely some people run their affairs. No check, no system. Simply a matter of "going it blind" and get, get, get. The "pay as you go" man will sometimes do without an article, but is an independent man, is beholden to no merchant, can go where common sense inspires him, to get the best value for his money. Common sense people are comparing our goods and prices with others, and we are satisfied with the result. Break your habit today.

Silks.

Just a word to say that while visiting Toronto and Montreal recently, I procured some lovely silks suitable for Blouses, Suits, Coats, etc. These are the latest patterns and very up-to-date.
Black Silks, 50c to \$2.00
Gold Silks, 50c to \$2.00.

Waistings.

Some bright, new specials just arriving this week and considered by us to be the best line yet shown this season. Samples mailed upon application.
PRICES 50c. to \$1.50.

Handkerchiefs.

100 dozen of something new and novel in this line, arriving this week.
Children's school handkerchiefs, plain and fancy, women's embroidered and hem stitched, men's plain and hem stitched. - Very pretty. Prices the lowest.

Wrappers.

We have now on hand a large assortment of these, and must say, without exception, this is the best line we have ever offered to the public. Some light in weight, others heavy, but made from pretty materials, roomy, and well made. If you are hard to fit we can make one to order on the premises, in quick time.
PRICES \$1.00 to \$2.00.

Hosiery.

Several women said we had good ones last year, the best they ever saw. We have bought some more of the same quality for this season and added others which we consider better. There is nothing like good hosiery and we can convince you with the excellent qualities of these if you call.
Boys' hosiery in good variety, some with double knees, others double all through. Now is the time to set up and get the best.

Our 50c cap in winter weight is a dandy. See it. It will surprise you. We have others too, with new good points, such as the adjustable peak and storm piece.
PRICES, 50c to \$1.50.

Sweaters.

FOR MEN AND BOYS.
Nothing looks so cute on the small boy as one of our fine English sweaters. The price is \$1.00, but they don't wear out in a hurry.
We have cheaper ones as well, at 40c to 75c. Our stock for men is good. We have the heavy ones suitable for the woods and the fine ones suitable for office or inside work.
PRICES, 75c to \$2.00.

Braces.

New from the factory. Good too. Good elastic. Good leather. In fact all good.
PRICES, 20c to 55c.

Caps.

We are clearing out all light weights independent of quality at 25c each. Some were 35c, 45c, 55c and 75c.
Our 50c cap in winter weight is a dandy. See it. It will surprise you. We have others too, with new good points, such as the adjustable peak and storm piece.
PRICES, 50c to \$1.50.

SAD DEVASTATION WRITING BY ERUPTION.

...of the eruption of Mt. Hood, Oregon, on October 16, 1902, is a sad and terrible story. The eruption was the most violent in the history of the world, and it caused the death of many people and the destruction of many towns. The lava flow was so hot that it melted the snow on the mountains, and it was so thick that it covered the ground for miles. The eruption was so loud that it was heard in many places, and it was so bright that it lit up the sky. The eruption was so terrible that it caused the people to flee in terror, and it was so sad that it will be remembered for many years to come.

MORE GAME.

Numerous Hunters Return with Many Trophies.

ALL SUCCESSFUL

And are Delighted with the Country as a Big Game Paradise.

It is still the same old story week after week. Hunters come and go and we have failed to find one who has been dissatisfied with his trip, and many, on being approached by the Advocate, are eager to talk of the big game prospects of the Miramichi, the beautiful scenery and the resources of "so great a country."
The following is a letter which has been handed to us by Game Commissioner Robinson which speaks for itself.
Newcastle, Oct. 15, 1902.
Mr. John Robinson, Jr.,
Dear Sir:

I have just returned from my two weeks' hunting trip, with Mr. Carl Berang as guide. Having spent the time in and near Clearwater camp and the Bald Mountains, I had a delightful trip, securing two deer, one very choice but small caribou, 18 points, and a fine big black bear besides all the bird shooting at trout fishing we cared to do. I had a chance at one very fine big moose head that would have measured at 50 inches, but being that I might wound him and he'd go away, I let him go. And while it would have taken this only to more than complete my trip, I was not sorry, as I prefer to lose a dozen such heads than that one may get away after wounded. I have hunted big game in the Rockies and have some very choice specimens of elk, bear and antelope, and yet have so far been fortunate enough to never wound any animal without getting him. On every hand we found signs of moose very plentiful, and in two days saw seven caribou. I secured some good pieces of caribou, and considered the ground hunted over very good for both moose and caribou as well as good chances for bear and deer. A word as to my guide - Berang - he is a successful and pleasant and a very good hunter. I consider him as competent a guide as I ever hunted with.
I hope to have the pleasure of returning next season, and if I do I certainly will go on again with Berang.
I want to thank you for your kind call in so successfully planning and arranging for my trip.
Very sincerely yours,
J. M. MURPHY, Game Commissioner.

This only one of the many good stories but refrain as it is been the same story each week. Mr. Murphy is a large timber operator of 2000 acres, and one of that city's most prominent citizens.
The following list of sports will be returned during the week with each brought out.
J. M. Murdoch of Johnstown, with 100 lbs guide Carl Berang, on trip at the Big Sixty six miles that a caribou, two deer and one is killed to bear.
Gen. S. Mansford of Boston with Bald Mountains with Sydney is there for guide and shot a moose and a deer. Mr. Mansford speaks very highly of the trip and was delighted with the reply to Dr. Cox and Mr. M. E. Deane, the night, and Dr. Cox shot a moose, grant of day. It will be mounted and placed in the museum of the Miramichi Natural History Association. He says the game will require a mass of money.
Messrs. E. Oz and Arthur, the trustees of New York, who left Champlain in September for a fortnight's sport, it is in the Tabernacle for them, and guidance of Mr. John Gundy, with the moose and caribou was reaching 8,000 admitted. They leave doors to be closed abundantly well. The trip to New Brunswick, just at the end of the trip, with the building season in Maine but are going on and guides failed to finding in the winter. They speak very highly of the trip and will be returned during the week with each brought out.

HOT FIGHTING

By British Column Operating Against the Mad Mullah.

LONDON, Oct. 19. - The foreign office has issued an unaltered despatch from Col. Cobbe, commanding one of the columns of British forces operating against the Mad Mullah of Soudan. The British forces engaged were composed entirely of native troops and levies. Col. Cobbe says: "My force reached Khego this morning. When about our day's march north of Khedg it was attacked in the thick bush. Two advances were made, and the enemy was beaten back in the morning. Their losses were heavy and we captured one hundred rifles. Our force then proceeded to collect animals for transportation purposes and to join the detachment at the strategic camp. In the afternoon a reconnaissance was made and, after sharp fighting, the enemy were again driven off. I deeply regret to report the following casualties: Col. Phillips and Capt. Argus and fifty men killed and about 100 men wounded. The latter includes Captain Howard and Lieut. Knight, but both are doing well. They were severe losses among the transport and riding animals. The force will reach the strategic camp tomorrow and will advance to attack the enemy."
LONDON, Oct. 19. - The serious reverse in Soudan places the small British force there, of about 2,000 men, of doubtful reliability, in an exceedingly perilous situation. Since the beginning of Col. Swayne's second campaign against the Mullah last May little has been heard of the expedition. The Mullah probably has 12,000 men. With this large force harassing him Col. Swayne has to retreat to Bahlyeh, 150 miles, and probably still 100 miles further to Bara, the principal British frontier post. This march must be made under a scorching sun and over an arid and roadless desert, even if the retreat is successful. The greatest anxiety will be felt until further news is received. The entire expedition will have to be re-equipped on a much larger scale.
Col. Swayne is accompanied by over twenty white officers.
The Mullah success will set the whole Ogadon and Dolbahant country aflame.

WATER WORKS.

The System Nearly Completed and Ready for PUMPING MACHINERY.

Contractors Clark and Connelly are Finishing Pipe Laying This Week.

The water works and sewerage system are now about completed and as soon as the boilers and pumps are installed the system will be ready for the official test. Messrs. Clark and Connelly have finished their original contract and are now engaged in placing some extensions to the system as originally planned and they will be through this week. Already most of the men employed have been discharged.
At the power house work has been carried on at anything but a satisfactory manner. The contractors are away behind time with the work and this has delayed the installation of the machinery, but now the roof is on and is being covered with galvanized iron so that in the course of a few days the machinery can be installed.
The large boilers have arrived and are being placed in position.
Last Friday the steam fire engine was taken up to well No. 1 and coupled to it and a hydrant and pumped the system full of water and a pressure of about 40 lbs was on the pipes on the lower levels and no leaks showed. The hydrants were tried and found satisfactory.
When the system was full of water the sewers were flushed and several leaks and other defects found so that some repairs will have to be effected, but taken all through the work has been very creditably done.
At a later date the Advocate will give fuller report of the whole system.

Grand Moose-hunting Season on Miramichi

Robert Armstrong, of New castle, in Town, tells of Success Sportsmen Have Had.

"If a man comes out of the woods without a moose or so to his credit, it's because he can't shoot," said Robt. Armstrong, of Newcastle, Sunday evening, in respect to moose-hunting along the Miramichi.

"The present season has been a particularly good one for Sportsmen. They have come from various parts of the States and among the 60 or so who have entered the woods from Newcastle, I believe scores any have returned without a head, and some with more, so that will give you a fair idea of the number of moose killed in the Newcastle section, at yway."

Have you been hunting recently, Mr. Armstrong?

"Yes, I've had a trip lately with Mr. Crawford, of New York. We saw moose very frequently—38 in all. Mr. Crawford got a very good sized one, but compared to the bag he made last year—a moose with antlers spreading 62 inches—this bull seems in the ordinary class."

"Edwin B. Holmes, of Boston, shot one lately with 38 1-2 inches—He also got a caribou and deer."

Why is it there's such unusual numbers of moose this year?

"Because the game laws are enforced in winter. I tell you its nonsense—this talk of our game becoming depleted through the presence of too many sportsmen—men who come in the legitimate season and shoot in accordance with the game laws. I've been 20 years around the Miramichi and can say I believe our moose will never become extinct while this class of sportsmen continue visiting us."

"There's another kind of hunter though—poacher, we call him—who will enter the woods in the winter, irrespective of season or anything else. He will come to a yard or feeding ground, and when the snow the game is present,

mals, were found firmly locked together on Graham's Plains, Miramichi, by Henry Braithwaite, the guide.

One of the sets of antlers has 42 points, which is the record for New Brunswick, as the largest caribou head known in this province was secured by Charles Riordan, of Boston, on the Northwest Miramichi, and had 39 points. From the appearance of the brush around where these two bodies were found, Mr. Braithwaite was convinced that they had been engaged in a prolonged and desperate struggle which proved death to both animals. Mr. Braithwaite is also of the opinion that one or more head also were in the combat, for he saw signs that bruin was there and has a good feast even before the animals were dead.

In talking with Mr. Chestnut he mentioned that this is not the first case of this kind that came under his notice, as Mr. Pringle found two very large sets of caribou horns in the Northwest Miramichi country locked together, but he, not knowing that they were of any value in that state sawed them apart. They were afterwards bought by a Halifax gentleman.

At another time, while hunting on the Northwest Miramichi, Mr. Townsend, of Buffalo, came across a very caribou lying down apparently asleep. As soon as the animal smelled the hunters, he sprang to get away, but was shot before he got out of range of Mr. Townsend's rifle. On examining the body it was discovered that the right eye was completely destroyed it having been put out in battle, by the long fine brow antler of another caribou.

A big deer head in R. Chestnut & Son's office was shot in Maine by E. Church, a well-remembered guide. He was nick-named "Fighting Bob," as when he was shot he had 22 holes punched in his sides by fighting with other animals, and was streaming with blood.—Frederick Gleason.

THE BUTTERMAKER. Must Use It To Be Successful.

In the autumn and winter seasons the best and most successful butter-makers in Canada are Wells, Richardson & Co's Improved Butter Color in order to give the butter that lovely and delicate June tint that is so much admired by lovers of fine table butter.

Wells, Richardson & Co's Improved Butter Color is today, almost the only kind that is used in the Creameries and Dairies of Canada. There are other colors sold and sometimes substituted for Improved Butter Color, but wise and experienced butter-makers avoid them knowing they are not reliable.

When you are buying butter color, insist upon getting the best, the strongest and the most economical. The Creameries and friends will tell you that Wells, Richardson & Co's Improved Butter Color is the best. All druggists and dealers.

RICH BLOOD Strong Nerves

When the blood gets thin and watery, as it usually does at this time of year, the nerves are first to suffer; they are starved and exhausted. Headache, dizzy spells, indigestion, weak action of the heart, languid, depressing feelings, weakness and functional derangements of the bodily organs are the result.

You can feel Dr. Chase's Nerve Food acting you good day by day, as it strikes at the root of trouble and creates new, rich blood. You can prove that it builds up new tissues and adds flesh if you weigh yourself each week while using it.

Mr. J. McFaul, carpenter, 315 Manning Avenue, Toronto, states: "I have used Dr. Chase's Nerve Food for acute indigestion, nervousness and inability to sleep, and now, after a thorough test, I am pleased to say that my nervous system has been built up, and I rest and sleep well. I can speak very highly of this preparation, knowing it to possess curative properties which I have failed to find in other remedies." 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

SOME OPINIONS ON THE SHODDY QUESTION.

The valuable paper on "Substitutes for wool" read by Mr. Alfred Mansell before the International Conference of sheep breeders at Carlisle, England, and which has attracted a good deal of attention in this country, induced a general discussion of the subject by delegates from nearly all the wool-growing countries of the world.

Mr. J. Treadwell of England said that they were all very much indebted to Mr. Mansell for the trouble he had taken in collecting the facts. It seemed to him that the Association should take a cue from Mr. Mansell's paper, and impress upon the President of the Board of Agriculture the necessity of introducing a Bill, somewhat on the lines of the food and drugs act, to require the vendors of fabrics to declare the composition of those articles, so that people might know what they were buying.

Mr. C. R. Richards of Natal said that the paper had made him feel quite uneasy. He had been wondering how many of their garments had been manufactured out of the cast off continental rags, which the paper so graphically described.

Mr. R. N. Bealey of New Zealand said that as representing the Canterbury Agricultural and Pastoral Association of New Zealand he could very fully support Mr. Mansell's expressions. It seemed to him that nearly every country producing the abominable adulterated fabrics which had been described, He thought it had been reserved for New Zealand to be one of the few places where they produced a cloth that was not adulterated.

Mr. S. Kidner of England concluded it a very happy thought to be a subject of this importance to be a meeting in which English wool breeders had the honor and pleasure of being associated with their foreign and colonial friends.

The Hand that Rocks the Cradle Rules the World. JOHNSON'S Anodyne Liniment advertisement with illustration of a hand holding a cradle.

At my residence of the year it came several times, causing distress, chills, morose, fall and winter it was cold, cough, asthma, headache, neuralgia, sciatica, rheumatism, muscular aches and pains, and in two size bottles, 50c. and 1.00. I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

Mr. Kidwell of Cape Colony said that the natives of the country he represented were not manufacturers but consumers. Some few years ago an attempt was made to start a factory for the manufacture of woollen goods in South Africa, but it went to the wall on account of the cheapness of goods of other kinds exported to South Africa.

Mr. R. N. Bealey of New Zealand said that as representing the Canterbury Agricultural and Pastoral Association of New Zealand he could very fully support Mr. Mansell's expressions. It seemed to him that nearly every country producing the abominable adulterated fabrics which had been described, He thought it had been reserved for New Zealand to be one of the few places where they produced a cloth that was not adulterated.

cloth had any fault it was that the wearer of the clothes made of it got tired of his garments before they were worn out. Good woollen cloths will wear much longer than the shoddy things sold as cloth.

Mr. H. Reid of Tasmania said it appeared to him that manufacturers must produce what the public wanted. The main thing with which the producers of woollen goods would have to concern themselves was to secure that the goods produced were properly marked by the manufacturers, so that the consumer would know exactly what he was buying.

THE CONSUMPTION SITUATION.

The Free Hospital for Consumptives in Gravenhurst in Urgent Need of \$20,000 to Maintain one Hundred Patients in residence. Unless one has made himself familiar with the consumption situation in Canada it is hardy possible to appreciate the greatness of the work that has been undertaken by the trustees of the Free Hospital for Consumptives at Gravenhurst.

"But," the inquiry was, "is there no endowment in connection with this institution?" "Not a farthing," was the reply of Secretary Robertson. "The original building was the grant of two well-known Toronto citizens. But outside of this the institution has been furnished and will require to be maintained solely by the contributions of the great mass of the Canadian people."

Contributions for the hospital, in large or small amounts may be sent to Sir Wm. P. Meredith, Kt., Vice-President of the National Sanitarium Association, 4 Lampart Avenue, Toronto; W. J. Gage, Chairman of the Executive Committee, Toronto, or the National Trust Company, Treasurer, King street east Toronto. The head office of the Association is in the Mail Building, Toronto. J. S. In Wrexham church North Wales, is to be read this epitaph. Here lies interred beneath these stones The hair, the beard, and eke the bones Of Wrexham clerk, old Daniel Jones.

The poorer half of this good lady had a certain amount of grim maliciousness in his composition, while, to judge from the tombstone inscription, he had evidently, probably through long and bitter matrimonial practice, learned the art of saying much in little. The following somewhat lengthy inscription, giving an account of the life and untimely death of one Bridget Applewhite, is to be seen in Brainfield Church:

Here lies the body of Bridgett Applewhite, once Bridgett Nelson. After the fatigues of a married life, Borne by her with incredible patience For four years and three quarters, bating three weeks, And after the enjoyment of the glorious Freedom of an easy and unblemished Widowhood for four years and upwards, She resolved to run the risk of a second marriage, But death forbade the ban, Having with an apoplectic dart, The same instrument with which he had formerly dispatched her mother, Touched the most vital part of her brain.

After a struggle for above sixty hours With that grand enemy to life, But the certain and merciful friend to old age. In terrible convulsions, plaintive groans Or stupefying sleep, She died on the 12 day of Sept. In ye year of our Lord 1737, and her own age 44.

Dr. Chase's Ointment. Before I came here, said the boarder, after settling his bill, when I read your announcement that your husband had few equals as a summer resort, I was disposed to scoff, but I must say you weren't far wrong. Indeed replied the proprietor with delight, and considerable surprise.

Yes; you really should say more than that. You might properly add: And positively no infections. LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEECHING'S SPAIN LINIMENT.

For curing lameness from whatever cause, sprain, chink, splint, ringbone and for removing chinks, clumps and all other injuries or diseases. Cures when everything else fails. Do not confound this preparation with spavin cures and other preparations. Leeching's Spavin Liniment is different from any of them, the effect produced by the application of Leeching's Spavin Liniment is certain and is invariably rapid. Prepared by the Leeching Company Limited.

STILL INCREASING.

The growth of Canada's foreign trade continues at a most satisfactory rate. For the three months of the present fiscal year, ending September 30th, the aggregate trade on the basis of imports for consumption and exports of all kinds amounted to \$112,481,550, an increase of \$7,750,000 over the same period of last year. The imports for consumption totalled \$50,911,940, being an increase of \$3,887,227. Dutiable goods show a gain of \$4,962,147, while imports of free goods slightly declined. Exports of domestic produce reached a total of only \$57,493,585, being an increase of \$7,359,388 over the corresponding period of 1901. The exports of animals and their products were \$5,363,145 better than for the first quarter of the previous fiscal year, but mineral products decreased by \$2,304,000. Exports of other classes increased as follows: Products of the fisheries, \$95,330; products of the forest, \$2,148,936; agricultural products, \$1,383,191; manufactures, \$644,426. The details of imports and exports for the past quarter as compared with 1901 are appended:

The imports for consumption for September only gained by \$2,808,413, compared with the same month of last year, while the increase in domestic exports was \$3,445,809.—Ex.

The Editor's Mail.

To the Editor of the Advocate:
DEAR SIR:—
The enclosed letter speaks for itself.
The fact that Mr. Targson without calling a convention of the friends of the Local Government made it known through the columns of the Courier that he had selected three candidates to contest the County of Gloucester, has had the effect of opening the minds of many prominent electors to the fact that their names have been used without authority and has brought forth from hundreds of them strong indications of their intention to use their own judgment in voting for the candidates whom they believe are the best. In the interests of the County, this letter is only one of many which have been received by Messrs. Burns and Poirier showing expressions of friendship and confidence on the part of prominent men throughout the County. The electors of the County of Gloucester are now thoroughly awake to their rights and are going to exercise them as they deem right.
Elin-Tree and Petit Roacher, Oct. 18, 1902.
To the Electors of Shippegan—
Having learned from Mr. T. M. Burns M. P. P. that a certain person had shown a letter signed by B. H. Cormier, Philemon Boudreau and James Doucet, proving that we did not support the ticket of Messrs. Burns and Poirier we three held and want to prove the contrary. Nothing has forced us to declare ourselves supporters of Messrs. Burns and Poirier we do it simply with the dictates of conscience and knowing that they have faithfully performed their duties as deputies we desire to exert our strongest efforts for their election and we can assure you without fear of being mistaken that the said deputies will carry a larger majority of votes in Petit Roacher than probably any local member has yet obtained.
Yours truly,
P. H. CORMIER,
PHILEMON BOUDREAU,
JAMES DOUCET.
P. S. Some of the friends of Messrs.

Burns and Poirier wish us to also sign our names in this letter in order to prove that we are not the only supporters of the ticket.

To the Editor of the Advocate

DEAR SIR:—
It is sincerely to be hoped that the outrageous action of the Superintendent of the Dominion Co. in his wilful and deliberate desecration of the Lord's Day in the work now being carried on at the Railway bridge will arouse the Christian sentiment of this community to take steps to put a stop to it. If there is a Provincial Statute prohibiting labor on the Lord's Day, it is high time that the Lord's Day Alliance invoked the aid of the law. If there is no Provincial statute to be proved under the Dominion statute, the Bridge Co. must be taught that it cannot come here and with impunity trample under foot the sacredness of the Day of Rest.

I understand that there is no necessity for this work being done on a Sunday. The traffic is not so heavy, neither are the trains so numerous that what is being done on Sunday could just as well be done during the week.

I hear that there is to be a meeting of the Alliance to be held this evening. It is to be hoped that no time will be lost and that a repetition of last Sunday's disgraceful proceedings will not be tolerated.

One of the most deplorable features in connection with this brief work is the countenance given by so many so-called Christians—members of the churches of this town, to the desecration of the Lord's Day. "So-called Christians," because non-Christians would by his presence approve of it. It is as great a sin against God to violate the fourth commandment as it is to break the 6th, 7th, or 8th, and yet the moral sense of the Christian community would frown upon any violation of these three divine statutes while complacently tolerating, yes, abetting and approving or they must do by their presence, the violation of the 4th. It is said that a great many of those present on Sunday are members of Christian churches, that may be, but would members of the body of Christ, gather around the Lord's table in the morning and then go forth to crucify their Lord afresh by desecrating His holy day? Not if they were members of the Body of Christ.

Is it any wonder the world ridicules religion when it sees so many inconsistent representatives?
"Remember the Sabbath Day to keep it holy."
Yours,
CITIZEN.
WARM WELCOME.
Extended to the Premier.

QUEBEC, Oct. 17.—The home-coring of Sir Wilfrid Laurier and his arrival in Quebec this evening were marked by a welcome unparalleled for enthusiasm and affection in Canada. The significance of the demonstration was enhanced by the cordial participation in it of all classes and elements of the community, irrespective of race, creed or party politics. It seemed as if the entire population turned out to greet the honored guest of the occasion and to prove to him that Quebec appreciates at its just value the future which he has shed upon it and upon the name of Canada by his commanding talents, his splendid public services and the admirable manner in which he represented his fellow countrymen at the coronation of the sovereign and of other great public occasions since his departure from amongst us last spring. Indeed, the whole city may be said to have been "enfeete." As a poignant, too, the de-

SHYLOCK

Shylock was the man who wanted a pound of human flesh. There are many Shylocks now, the convalescent, the consumptive, the sickly child, the pale young woman, all want human flesh and they can get it—take Scott's Emulsion.
Scott's Emulsion is flesh and blood, bone and muscle. It feeds the nerves, strengthens the digestive organs and they feed the whole body.
For nearly thirty years Scott's Emulsion has been the great giver of human flesh.

Gray?
"My hair was falling out and turning gray very fast. But your Hair Vigor stopped the falling and restored the natural color."—Mrs. E. Z. Benomme, Cohoes, N. Y.
It's impossible for you not to look old, with the color of seventy years in your hair! Perhaps you are seventy, and you like your gray hair! If not, use Ayer's Hair Vigor. In less than a month your gray hair will have all the dark, rich color of youth.

demonstration in his honor was the most brilliant and successful ever witnessed in Quebec. The street decorations, the illuminations, the displays of fireworks and bonfires, etc., were abundant and striking, the whole combining to make up one of the most remarkable and significant popular manifestations in local as well as in general Canadian history, and one in which Quebec as a former took legitimate pride.

The special L. C. R. train on which Sir Wilfrid Laurier and Hon. W. S. Fielding came up from Rimouski did not reach St. Joseph until 8.30 p. m. After little delay the distinguished gentlemen boarded the government steamer Druid awaiting them, and were landed at the King's wharf in this city at 9.30 p. m. Thousands of people were in the vicinity of the river front as indeed along most the whole route and the enthusiasm was at fever heat.

Although looking somewhat thinner than when he left Canada, Sir Wilfrid, who declined to be interviewed, explained that his general health was first class. His thinness is attributed to a rigid course of diet to which he subjected himself by order of his physician in Paris. He hopes to resume his political work at once and is prepared to carry out many plans which he has in view for the benefit of the Canadian people.
Senator Gibson is the authority for the statement that Sir Wilfrid was assured by his London and Paris physicians that he was not suffering from any organic disease. Hon. Mr. Fielding, who also came to Quebec and shared in the honors, is looking very well. He said that the blue book on the colonial conference would be issued this week and consequently he would not say anything for publication.
In the drill hall after the parade Sir Wilfrid received a most enthusiastic reception. Among the audience was Lady Laurier, who was looking charming and was presented with a most beautiful bouquet.
Mayor Parent read to the Premier an address of welcome, to which Sir Wilfrid replied. He said he was flattered at the great reception, that he was proud to be a Canadian and that the more he travelled in Europe the more he loved his country. He said that at the conferences in London he had endeavored to do his duty and trusted that the future would demonstrate the wisdom of his actions. At the same time he said that while he necessarily would confine his remarks to a few features of his visit abroad he would have the opportunity in the near future of placing before the Canadian public his views on matters of national import.

RACE RIOTS.

Three Whites and Eight Negroes Killed in the South.

BIRMINGHAM, Ala., Oct. 19.—Three white men and eight negroes are reported killed in a race riot at Littleton tonight. The number of wounded has not yet been ascertained.
A special train carrying sheriff and ten deputies left for the scene tonight.
The riot is said to have been caused by a crowd of negroes attacking a white woman. The white citizens searched for the woman's assailants and the negroes refused to deliver them and armed themselves. When the posse arrived the negroes opened fire, killing three of the officers. The deputies returned the fire, killing eight negroes.
The negroes outnumbered the whites ten to one, and the posse was forced to retreat. The negroes are reported to be in complete possession of the town and have entrenched themselves, have captured a powder magazine and are strongly fortified.
Dossom, Tex., Oct. 19.—City Marshall Hill was killed at a negro festival last night while trying to quell a negro riot. Three negroes were also shot by the negroes who killed the marshal. The shooting was done by brothers, who are still at large.

CLARKE & CO.

ONE LOVE TOO MANY

Or THE FUGITIVE BRIDE

By F. W. CHAPPELL

She threw into her last words such a weight of contempt that he shrank from it as from a blow. Had he known, however, how his barbed shaft rankled, he would not have gone away so utterly cowed and beaten. Beaten he was at this point, but more bitterly rancorous than ever.

As for Bel, her distress was almost insupportable. She told herself again and again that she would not insult Charley with her suspicions, and for the very reason that she kept them to herself, she dwelt the more upon them until her heart was torn with the anguish of doubt. At last one day, Aunt Phibby informed her, suddenly, that "Mars Charley" had been a far-heralded gal to his tate's at sea.

ABSOLUTE SECURITY. Genuine Carter's Little Liver Pills. Must Bear Signature of Brewster. See Fac-Simile Wrapper Below. Very small and as easy to take as sugar.

He looked up quickly. "I had she divined his thoughts? But he answered her gravely. "Why do I love Miss Pointer?" with a slight accent on the title. "Simply because she is worthy of all love—of even better than mine."

CHAPTER IX. Let us follow this very ill-behaved young hero of ours to the residence of Colonel Allen, his neighbor, and see for ourselves how he amuses himself and "other dear charmer."

And this was the cool hand whom Marshall expected to see "make a fool of herself." She was much more likely to make a fool of him. She had met him during her former visit, and had then pronounced him, "a nice, handsome boy, though a little country-bred," and had managed to while away a few hours in his society.

He fell away from her side a little, and they walked toward the house. She saw she had hindered. "Well, really," she said, mockingly, "she stands well in your esteem. I suppose it ought to be so, for nothing less than absolute perfection would do for the faithless Mr. Charles Marshall."

Each strove that the other should feel and acknowledge the other's power; he more eager than in former cases, because his engagement, to some extent, circumvented his opportunities, and she because she felt that the charms which have proved sufficient to vanquish the invulnerable Mr. Marshall.

CHAPTER X. But the wedding day drew nigh without further manifestations from either Harris or Miss Valine. It is a very easy a thing as the novelists would have us believe to go successfully about making trouble between lovers plighted. People in real life have an eye to their own safety and good standing, even while suffering their greatest disappointments.

He obeyed with alacrity, inwardly not ill pleased that some of the quality should recognize his choice. Arrived at Jim Pointer's, the ceremony was large and plainly furnished parlors and Miss Valine looked suspiciously around. She saw little of the girly ornamentation lavished by most girls upon this "company room."

CHAPTER XI. At last the wedding day dawned gloomily. The skies heavy and threatening rain, which, however, did not fall. The hours sped on, the evening fell, the house was lighted, and Jim went from room to room, anxious that nothing should be wanting to the brilliancy of the occasion.

Severe Pains in Left Kidney. Mr. Ellis Gallant, Paquetville, Gloucester Co., N.B., writes: "I feel it my duty to write you, as I have received much benefit from Dr. Chase's Kidney-Liver Pills."

WINCHESTER REPEATING SHOT GUNS are cheap in price, but in price only. "Take Down" guns list at \$27.00 and Solid Frame guns at \$25.00, but they will outshoot and outlast the highest priced double barreled guns, and they are as safe, reliable and handy besides.

WHY you should buy "Pay Roll" Chewing Tobacco. Because it is the best quality. Because it is the most lasting chew. Because it is the largest, high grade 10c. plug.

AUTUMN.

When the Autumn tints have touched with tender glory
All the leaves on all the trees on all the hills,
When Nature seems to speak her sweetest story,
And every sound and sense with rapture thrills.

When the sun is shining down with softer splendor,
And the sky above is deeply, darkly blue
When the grass is darkly green and deeply tender,
With the buttercups and daisies peeping through.

When the crickets are chirping in the meadows
And we hear no more the murmur of the bees,
When the spirits seem to slumber in the shadows,
And the leaves are softly falling from the trees.

When the holy harvest moon is high in Heaven
And a benediction broods from above,
Then, surely, to the soul of man is given,
The purest proof that God indeed is Love.

When the County court is in session,
Good heavy soled Dongola Laced boots
only \$1.00 at McMillan's Shoe Store.

Don't forget the fact that we carry a full assortment of paper bags from 1/2 lb. to 20 lbs which we sell at lowest trade prices. Liberal discounts for large quantities.

At Sydney Friday at a mass meeting of citizens a resolution was unanimously adopted that parliament pass a liquor law on the lines of the Gobenburg system.

About thirty-five members of the Engineering class of U. N. B., Fredericton, came for Saturday night to see the span placed on the railway bridge. They stayed at the academy while here.

A serious fire occurred at Shediac, last Wednesday morning, by which some 13 buildings, including the Bank of Nova Scotia and the post office, were destroyed; loss estimated at from \$100,000 to \$150,000, with insurance probably about \$50,000.

Social Personal

Miss Bertha Vye who has been visiting friends in Saulte Ste Marie has returned home.

Mr. Allan Troy of the Robb Engineering Co., Amherst, is spending a few weeks at his home here.

Mr. O. N. Brown, who is attending the Provincial Normal School spent Thanksgiving at his home here.

Mr. W. O. Tapley of Bangor, Me., was in town Monday.

Mr. and Mrs. Richard Clifton, of Miller-ton were in town Monday.

Miss Edith McLean left Saturday morning to spend the winter with friends in Lawrence, Mass.

G. H. Markham, of St. John, was in town last week. Mr. Markham is a practical piano tuner and intends to make regular visits to the North Shore.

Miss Creaghan who is attending Normal school, Fredericton, spent Thursday, Friday, Saturday and Sunday at her home.

Mr. Graham of the Canada General Electric Co., Halifax, is in town installing the lighting plant for the town.

Mr. A. A. Robertson of Bangor Me., is in town endeavoring to form a branch of the Royal Arcanum. He is at the Waverly.

Miss Hammond of Bangor, Me. is visiting Mr. and Mrs. L. Sheagreen at Southesk.

Messrs. Matthew J. Duffy and Raymond Wright have gone to Fredericton to take the law students examinations.

R. N. Wyse, Esq. returned from Montreal and Toronto on Thursday.

McMILLAN'S SHOE STORE

Special reductions in overcoats for boys from 12 to 16 years made to your order at McMurdo's.

This weeks issue of the Advocate is 2020 complete copies. Last week it was 1900.

The posts for the electric lights have arrived and a crew of men are busy, setting them up. A quantity of fixtures has also arrived.

The steam fire engine which was having a new boiler built by the Messrs Raddock of Chatham was hauled up Wednesday and that evening was tested and proved very satisfactory.

Mr. F. R. Dalton has had new fixtures placed in his drug store. They comprise new shelves, cabinets and cases, done in quartered oak, with large plate mirrors. It makes a great improvement to his establishment.

If the party who wrote notes of wedding at Remus River on Oct 8th will send their names in confidence we will be pleased to publish the article, otherwise it must be consigned to the waste basket.

We are indebted to the Excelsior Life Insurance Co. of Toronto, of which Messrs Robertson & Owens of St. John are the Maritime agents, for a handsome calendar for the remainder of 1902 and all of 1903.

The first anniversary of the Y. M. C. A. will be held in the town hall next Tuesday evening the 28 at 8th o'clock. An attractive programme has been prepared by the committee. Addresses will be given by the Revs. J. M. McLean, W. C. Matthews of Chatham and A. F. Brown. The Committee of the association ask the public to show their sympathy with the work in the interest of the young men of the town by their attendance on Tuesday night.

John Sewell, of Church Point, died at his home on Wednesday, after a lingering illness. He was 80 years old and had many friends throughout the country. He leaves a widow, one son—John, of Church Point—and two daughters—Mrs. William Anderson, of Church Point, and Mrs. James McKnight, of New Jersey. The funeral was held Friday.

The marriage of Agnes A., daughter of George Grey, of Lower Newcastle, and Charles Clark, of Millbank, was solemnized at the home of the bride Wednesday evening by Rev. D. Henderson, pastor of St. Andrew's church, Chatham. The bride wore a stylish blue cloth suit with white silk shoes and was attended by Miss M. J. Brown, of Chatham, who was becomingly gowned in blue cloth. Both the bride and the bridesmaid carried pretty bouquets of sweet peas. Everard Grey was groomsmen.

After congratulations were offered by the large number of relatives and friends who were present, supper was served.

Mr. and Mrs. Clark will reside in Lower Newcastle.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce these are premiums for this season, and the public will get a pleasant surprise. See the announcement in this paper.

Another span was placed in position at the Railway bridge on Sunday. Owing to several drawbacks it was not placed in position at the time expected, and it was not until nearly 10 o'clock Sunday evening that the work was finally completed. A large number of people assembled Sunday afternoon and watched the progress of the work.

Two religious communities are settling down in Rogersville. They are the Sisters of the Holy Family, a teaching and preaching order, and the Trappists, whose mission is to teach theoretical and practical agriculture. The Trappists are considered the best farmers and the most competent mechanics in agriculture the world over. They settle themselves, and their model farms wherever they are established are a credit to any country. They are expected this month, and the installation will likely take place the 28th inst at 10 o'clock a. m. Father Richard is said to have given the Murphy mill an additional acre of land to them.

The Strength Makers.

After sickness or when run down from hard work, this is the best of a true strength maker. The three agents highly beneficial are Beef, Iron and Wine. Is the great common nourishment of mankind. Beef extracts carry strength to all parts of the body. Is the important element of blood and bone. It is always lacking in quantity and quality in all cases of weakness and exhaustion. In medicinal doses is a tonic to the weary organs, reviving strength and encouraging to new efforts. Our splendid combination of Beef, Iron and Wine is needed by those who need a true strengthener. Dalton's Beef, Iron and Wine makes you strong, acts as a food and a medicine. The effect of one bottle is wonderful. PRICE, 75c a FULL PINT.

SAD DEVASTATION WROUGHT BY ERUPTION.

Latest Catastrophe Has Plunged the Colony into Deep Distress.

KINGSTON, St. Vincent, B. W. I., Oct. 18.—The eruption of the Soufriere volcano on Oct. 15 and 16, the fourth terrific outbreak since the catastrophe of May 7, has plunged the colony into deeper distress than before existed, crippling its agricultural resources by further devastating the arroyo fields and completely destroying

a wide area of growing crops on land which had been considered outside the volcanic zone.

On these thousands of young cacao, coffee and other tropical plants were buried under the almost impenetrable mass of sand which, while hot, fell in the windward district on the morning of Oct. 16.

Even the Mesopotamia valley, an ideal garden of tropical vegetation, although 12 miles from the volcano's crater, is buried with sand in some places six inches deep and the lands to the eastward, bordering upon the previously devastated area, are covered to a depth of nine inches.

Travel on all the roads is practically stopped. Large numbers of refugees and

other persons left Georgetown for Kingstown a distance of 20 miles, October 16 and many of them failed on the way from hunger and thirst and the fatigue engendered by tramping through the hot sand.

A number of animals even broke under the strain.

Hundreds of poor persons were driven from their homes by falling cinders, stones, etc. The situation is desperate.

Comparatively no damage was done on the leeward coast by the outbreak. No lives were lost.

The eruption was equal in duration and violence to that of the night of September 3d, but owing to the brilliant moonlight the electrical discharges were less terrifying.

MORE GAME.

Numerous Hunters Return with Many Trophies.

ALL SUCCESSFUL

And are Delighted with the Country as a Big Game Paradise.

It is still the same old story week after week. Hunters come and go and we have failed to find one who has been dissatisfied with his trip, and many, on being approached by the Advertiser, are eager to talk of the big game possibilities of the Miramichi, the best of the best, and the resources of no great amount.

The following is a letter which has been handed to us by Game Commissioner Robinson which speaks for itself.

Newcastle, Oct. 15, 1902.

Mr. John Robinson, Jr.,

Dear Sir:

I have just returned from my two weeks' hunting trip, with Mr. Carl Bering as guide. Having spent the time in and near Clearwater camp and the Bald Mountains, I had a delightful trip, securing two deer, one very choice but small caribou, 18 points, and a fine big black bear, besides all the bird shooting and trout fishing we cared to do. I had a chance at one very fine big moose head that would have measured at least 58 inches, but fearing that I might wound him and he'd still get away, I let him go.

And while it would have taken this only to more than complete my trip, I was not sorry, as I prefer to lose a dozen such heads than that one may get away after wounded. I have hunted big game in the Rockies and have some very choice specimens of elk, bear and antelope, and yet have so far been fortunate enough to never wound any animal without getting him. On every hand we found signs of moose very plentiful, and in two days saw eleven caribou. I secured some good pictures of caribou, and consider the ground I hunted over very good for both moose and caribou as well as good chances for bear and deer.

A word as to my guide—Bering—he is untiring in his efforts to make your trip both successful and pleasant and no work is too great if your comfort is at stake. I consider him as competent a guide as I ever hunted with.

I hope to have the pleasure of returning next season, and if I do I certainly want to go out again with Bering.

I want to thank you for your kindness in so successfully planning and arranging for my trip.

Very sincerely yours, J. M. MURDOCK.

This only one of the many and if space permitted we could publish interviews and stories but refrain as it is becoming the same story each week. Mr. Murdoch is a large lumber operator of Johnstown, Pa., and one of that city's most influential citizens.

The following list of sportsmen have returned during the week with the game each brought out.

J. M. Murdoch of Johnstown, Pa., who with guide Carl Bering, on the North branch of the Big Savage, succeeded in killing one caribou, two deer and one large black bear.

Geo. S. Mumford of Boston was at the Bald Mountains with Sydney Thomas for guide and shot a moose and a caribou.

Mr. Mumford speaks very highly of the guide and was delighted with the country. Dr. Cox and Mr. M. R. Benn went out to their camp on the Battlegue, Friday night, and Dr. Cox shot a moose on Saturday. It will be mounted and placed in the museum of the Miramichi Natural History Association. He says the moose are very shy. So many are calling them that they are suspicious.

Messrs. E. Oz and Arthur Schwarzenbach of New York, who left Chatham on 30th of September for a fortnight's big game hunting in the Tatousatic region, under the guidance of Mr. John Connell and his son, Fred, returned last week, having killed a moose and caribou each. They brought the four heads with them, which were much admired. They leave this morning or home about noon well satisfied with their first trip to New Brunswick. They informed us that they had hunted for several seasons in Maine and killed deer, but their guides failed to show them any moose. They speak very highly of Mr. Connell as a guide and all round good fellow. New Brunswick will, in future, be their hunting ground for big game.

Mr. N. T. Depauw, of New Albany, Ind., who has been hunting in the southwest Miramichi district, shot a moose from which he obtained antlers with an spread of 62 1/2 inches, one of the largest seen. Mr. F. W. Tolles, of Nangateuch, Conn., brought out of the woods antlers measuring sixty and three-quarter inches and containing 34 points, 20 on the right antler and 14 on the left.

Fred Talbot, of Providence R. I. with guide Ernest Lyons, got a fine moose on the Day Brook plains, North of Deakcwa

HOT FIGHTING

By British Column Operating Against the Mad Mullah.

London, Oct. 19.—The foreign office has issued an updated despatch from Col Cobbe, commanding one of the columns of British forces operating against the Mad Mullah of Somalia. The British forces engaged were composed entirely of native troops and levies. Col. Cobbe says:

"My force reached Kego this morning. When about the day's march north of Mading it was checked in the thick bush. Two advances were made, and the enemy was beaten back in the morning. Their losses were heavy and we captured one hundred rifles. Our force then proceeded to collect animals for transportation purposes and to join the detachment at the stockade camp. In the afternoon a reconnaissance was made and, after sharp fighting, the enemy were again driven off. I deeply regret to report the following casualties: Col Phillips and Capt. Argus and fifty men killed and about 100 men wounded. The latter includes Captain Howard and Lieut. Everett, but both are doing well. The greatest anxiety was the transport and riding camels. The force will reach the stockade camp tomorrow and will advance to attack the enemy."

London, Oct. 19.—The serious reverse in Somalia places the small British force (force of about 3,000 men) of doubtful reliability, in an exceedingly perilous situation. Since the beginning of Col. Swayne's second campaign against the Mullah last May little has been heard of the expedition. The Mullah probably has 15,000 men. With this large force harassing him Col. Swayne has to retreat to Balotele, 130 miles, and probably still 100 miles further to Barac, the principal British frontier post. This march must be made under a scorching sun and over an arid and roadless desert, even if the report is successful. The greatest anxiety will be felt until further news is received. The entire expedition will have to be repeated on a much larger scale.

Col. Swayne is accompanied by over twenty white officers. The Mullah success will set the whole Ogaden and Dolbahant country aflame.

ALEX. ROBINSON DEAD.

The many friends of Mr. Alex. Robinson will regret to learn of his demise at St. John on Monday.

For years Mr. Robinson carried on a large carriage manufacturing and farm implement business at Chatham, but was obliged through ill health to give it up. He served a year in the Chatham Town Council and was an active Alderman.

Mr. Talbot had a delightful trip. J. R. Johnston and Blair Wallace of Harrisburg, Penn. with Edward and Robert White as guides and A. Matchett cook shot one moose each and a caribou. They hunted on the North branch of the Little Soutwest. In their travels they picked up a very large set of moose horns in perfect condition. They are delighted with the trip.

H. A. Pittman and W. B. Long, of Boston returned from Tabusatic beach on the 15th where they had bagged a large number of birds. These gentlemen have been here since Sept. 28th, having been two weeks after big game and the remainder of the time at Tabusatic. They also visited the Miramichi last year. It is needless to add they had a good time. Mr. Pittman is quite a favorite on the Miramichi and we hope to see him and his young friend here again next season.

R. T. D. Aitken went up to Clearwater with Hubert Sinclair and shot a caribou. He had a shot at a moose and knocked him down, but before he was aware the wounded animal regained his feet and was out of reach before he could kill it.

Ross Hinchard and E. H. Hotchkiss of New York with guides John Wamboldt and Geo. Shelby have game in the Onagus lakes after moose.

N. B. Mote, H. W. Match and Henry Conder of Millersburg, Pa. are hunting on the main Northwest and branches, with guides Edward Meezles and Jas. Elander with Archie Stewart, cook.

Frank Ward of Chatham Junction with guide Roy Horsehouse is hunting at Flat Land lakes near Bogerville. We wish the popular station master a successful trip.

The Frederick Gleaser says:—This is the year for good moose heads despite the opinions expressed earlier in the season that moose were becoming extinct in this province. Right on top of the sixty-two inch head brought out of the woods on Wednesday by Mr. DeFave comes one brought out yesterday by Mr. E. W. Tolles of Nangateuch, Conn., who went in back of Tolles with Mr. Moon as guide. Mr. Tolles had Mr. Butler of Pittsfield, Mass., as companion and he also got a fine head. The head brought out by Mr. Tolles has an antler spread of 60 inches and carries 32 points. The web of the antlers are phenomally wide and heavy, and well balanced. The head is on exhibition at Ernest Benn's who are to mount it and best hunters are that it is the best head in any respect they have ever seen.

WATER WORKS.

The System Nearly Completed and Ready for PUMPING MACHINERY.

Contractors Clark and Connelly are Finishing Pipe laying This Week.

The water works and sewerage system are now about completed and as soon as the boilers and pumps are installed the system will be ready for the official test. Messrs. Clark and Connelly have finished their original contract and are now engaged in placing some extensions to the system as originally planned and they will be through this week. Already most of the men employed have been discharged.

At the power house work has been carried on at anything but a satisfactory manner. The contractors are away behind time with the work and this has delayed the installation of the machinery, but now the roof is on and is being covered with galvanized iron so that in the course of a few days the machinery can be installed.

The large boilers have arrived and are being placed in position.

Last Friday the steam fire engine was taken up to well No. 1 and coupled to it and a hydrant and pump of the system full of water and a pressure of about 40 lbs was on the pipes on the lower levels and no leaks showed. The hydrants were tried and found satisfactory.

When the system was full of water the sewers were flushed and several leaks and other defects and so that some repairs will have to be effected, but taken all through the work has been very creditably done.

At a later date the Advocate will give fuller report of the whole system.

THE COAL STRIKE.

Boloved the Miners Will Accept Arbitration.

WILKESBARRE, Pa., Oct. 17.—In accordance with the call issued yesterday by order of the executive boards of the anthracite districts of the miners' union, all "locals" throughout the coal fields began electing delegates to-day to the convention which will be held here next Monday to consider the acceptance or rejection of the arbitration plan submitted by President Roosevelt.

Most of the local unions held their meeting to-night. They all will have been held by tomorrow night. It is practically certain that a majority of the delegates will come to the convention instructed to vote in favor of the acceptance of the arbitration scheme. The prominent officials of the union say there is no fear that the opposition will be strong enough to defeat the efforts of those who favor ending the strike by arbitrating their differences with the operators.

President Mitchell does not care to anticipate the action of the convention, but from his former it is taken that he has not the slightest doubt to the result. He will go into the convention and make a strong speech for the acceptance of the arbitration scheme.

The indications are that the convention will last two days and that there will be much delay in various features of the arbitration plan. The principal question to be discussed before the plan is accepted by the miners will be that of taking care of all the work.

WASHINGTON, Oct. 17.—The coal strike is over, and while there may be a little delay in settling preliminaries of the arbitration work will be resumed as soon as possible.

President Mitchell furnished an illustration of his confidence to inaugurate the arbitration plan. The principal question to be discussed before the plan is accepted by the miners will be that of taking care of all the work.

The following authoritative statement is made regarding the commission to arbitrate the anthracite coal dispute.

The commission is so constituted that it requires two-thirds vote to settle any point upon which there is a dispute.

That means that Commissioner Wright is the recorder, is not to be regarded as a member of the commission in passing upon questions at issue before it. An official of the War Department with a great deal of experience said:

In all military boards and courts the recorder has no vote, but he is the one who runs the board.

Col. Wright will keep the minutes, will be the recorder, and will be the one who runs the board.

Col. Wright will keep the minutes, will be the recorder, and will be the one who runs the board.

Col. Wright will keep the minutes, will be the recorder, and will be the one who runs the board.

Grand Moose-hunting Season on Miramichi

Robert Armstrong, of New castle, in Town, tells of Success Sportsmen Have Had

"If a man comes out of the woods without a moose or so to his credit, it's because he can't shoot," said Robt. Armstrong, of Newcastle, Sunday evening, in respect to moose-hunting along the Miramichi.

"The present season has been a particularly good one for Sportsmen. They have come from various parts of the States and among the 60 or so who have entered the woods from Newcastle, I believe scarce any have returned without a head, and some with more, so that will give you a fair idea of the number of moose killed in the Newcastle section, at ywaw."

Have you been hunting recently, Mr. Armstrong?

"Yes, I've had a trip lately with Mr. Crawford, of New York. We saw moose very frequently—38 in all. Mr. Crawford got a very good sized one, but compared to the bag he made last year—a moose with antlers spreading 62 inches—this bull seems in the ordinary class."

"Edwin B. Holmes, of Boston, shot one lately with 38 1-2 inches—He also got a caribou and deer."

Why is it there's such unusual numbers of moose this year?

"Because the game laws are enforced in winter. I tell you its nonsense—this talk of our game becoming depleted through the presence of too many sportsmen—men who come in the legitimate season and shoot in accordance with the game laws. I've been 20 years around the Miramichi and can say I believe our moose will never become extinct while this class of sportsmen continue visiting us."

"There's another kind of hunter though—poacher, we call him—who will enter the woods in the winter, irrespective of season or anything else. He will come to a moose-yard or feeding ground, and in the deep snow the game is practically helpless, so the poacher proceeds with his slaughter. This is the kind of thing which will make the finest game we have in New Brunswick, extinct."

What about the stories told of infuriated bulls—of them "treeing" the hunters?

"I've never had any such experience—in fact the chief difficulty seems to have them come near you. The hunting is nearly all done by the call—you build a rough 'blind' get behind, and any hour from day-break till nine, or from three until sundown, you can reasonably expect pour moose. He'll come up as a rule, rather shy, and will rarely come nearer than 100 yards, but then is your chance, and let him have it just as quietly as possible back of the forward shoulder."

Caribou Lock Antlers and Die.

Fredericton has Trophy of Battle to the Death.

R. Chestnut & Sons are showing in their store window one of the greatest curiosities that has been seen in Fredericton for some time—two pairs of caribou antlers, which with the bodies of the animals, were found firmly locked together on Graham's Plains, Miramichi, by Henry Braithwaite, the guide.

One of the sets of antlers has 42 points, which is the record for New Brunswick, as the largest caribou head known in this province was secured by Charles Riordan, of Boston, on the Northwest Miramichi, and had 20 points. From the appearance of the brush around where these two bodies were found, Mr. Braithwaite was convinced that they had been engaged in a prolonged and desperate struggle which proved death to both animals. Mr. Braithwaite is also of the opinion that one or more head also were in the combat, for he saw signs that brain was there and had a good feast even before the animals were dead.

In talking with Mr. Chestnut he mentioned that this is not the first case of this kind that came under his notice, as Mr. Pringle found two very large sets of caribou horns in the Northwest Miramichi country locked together, but he, not knowing that they were of any value in that state sawed them apart. They were afterwards bought by a Halifax gentleman.

At another time, while hunting on the Northwest Miramichi, Mr. Townsend, of Buffalo, came across a very caribou lying down apparently asleep. As soon as the animal smelled the hunters, he sprang to get away, but was shot before he got out of range of Mr. Townsend's rifle. On examining the body it was discovered that the right eye was completely destroyed it having been put out in battle, by the long fine brow antler of another caribou.

A big deer head in R. Chestnut & Son's office was shot in Maine by E. Church, a well-remembered guide. He was nick-named "Fighting Bob," as when he was shot he had 22 holes punched in his sides by fighting with other animals, and was streaming with blood.—Fredericton Gleaser.

Whole Town on a Drunk

UPPER ALTON, Mo., Oct. 10.—The wrecking of a Chicago and Alton trainload of whiskey here has not only turned the heads in this staid temperance town, but has caused numerous scandals in the most rigid teetotal element of the community.

Prior to the bumping of the Peoria fast freight into an open switch, many of Upper Alton's inhabitants did not even know the smell of whiskey. Since that time, owing to the benevolent assimilation of much of the wet goods by many residents, the town has not been able to thoroughly sober up.

The "goods" had been well seasoned in bond, and when the barrels, arising from many broken barrels, permeated the atmosphere there were those who fell from high places of grace and tankards long empty, were filled at the railroad tracks, only to be emptied in a less public place.

Even the cattle that roam the temperance streets have become affected, and slumber on the sidewalks. So great has become the dissipation that the mayor has sworn in a posse of rock-ribbed believers in water to guard the pond of red rye until the Alton is able to clear away the wreckage.

Canada's Share in the Fair.

Will be Represented in all Important Departments Besides Having a Special Pavilion

W. H. H. FAIR, St. Louis, Oct. 13.—President Francis has assigned to Canada a commanding site for its building at the World's Fair. It will be near the administration building and near one of the main entrances. Mr. William Hutchinson the Canadian commissioner accompanied by W. H. Hay, chief decorator and superintendent of installation, has been to receive the allotment. The Dominion will not only have a special pavilion of its own, but will also be represented in the principal departments. The exhibits from that country will be representative of agriculture, horticulture, mines and minerals, forestry, live stock and manufactures. Canada's pavilion will be a rendezvous for Canadian visitors, and will be

THE COAL STRIKE.

Mitchell Approves of the Terms of Settlement.

Work May be Resumed in the Mines on Monday.

WASHINGTON, Oct. 16.—The following official announcement of the close of the strike was issued at the White House at 2.20 a. m. After a conference with Mr. Mitchell and some further conferences with win representatives of the coal operators, the president has appointed the following members of the commission to inquire into, consider and pass upon all questions at issue between the operators and miners in the anthracite fields:

- Brigadier General John M. Wilson, E. W. Parker of Washington, D. C., connected with the Geological Survey.
- Judge Gray of Delaware.
- E. E. Clark of Cedar Rapids, Iowa.
- Thomas H. Watkins of Scranton, Pa.
- Bishop John L. Spaulding of Peoria.
- Carroll D. Wright.

MITCHELL WILL CALL OFF STRIKE AT ONCE.

WASHINGTON, Oct. 16.—President Mitchell has called a meeting of the executive committee and the strike will be called off at once and mining resumed in two or three days. Some of the members of the commission were named by Messrs. Sargent and Mitchell at their conference today, and in later meetings tonight Mr. Sargent officially represented the miners' union leader.

TODAY'S REPORTS.

New York, Oct. 16.—A despatch to the World from Wilkesbarre, Pa., says: President Mitchell, of the United Mine Workers of America, made the following announcement early today: "I have received a telegram from President Roosevelt advising me of the appointment of his arbitration commission. The convention of miners can be held on Saturday at the latest and can decide to resume work on Monday."

RICH BLOOD Strong Nerves

When the blood gets thin and watery, as it usually does at this time of year, the nerves are first to suffer; they are starved and exhausted. Headache, dizzy spells, indigestion, weak action of the heart, languid, depressing feelings, weakness and functional derangements of the bodily organs are the result. You can feel Dr. Chase's Nerve Food doing you good day by day, as it strikes at the root of trouble and creates new, rich blood. You can prove that it builds up new tissues and adds flesh if you weigh yourself each week while using it. Mr. J. McFaul, carpenter, 315 Manning Avenue, Toronto, writes:—"I have used Dr. Chase's Nerve Food for acute indigestion, nervousness and inability to sleep, and now, after a thorough test, I am pleased to say that my nervous system has been built up, and I rest and sleep well. I can speak very highly of this preparation, knowing it to possess curative properties which I have failed to find in other remedies." 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

STILL INCREASING.
 The growth of Canada's foreign trade continues at a most satisfactory rate. For the three months of the present fiscal year, ending September 30th, the aggregate trade on the basis of imports for consumption and exports of all kinds amounted to \$112,481,550, an increase of \$7,750,000 over the same period of last year. The imports for consumption totalled \$50,911,940, being an increase of \$3,887,227. Dutiable goods show a gain of \$4,963,147, while imports of free goods slightly declined. Exports of domestic produce reached a total of only \$57,493,585, being an increase of \$7,359,388 over the corresponding period of 1901. The exports of animals and their products were \$5,363,145 better than for the first quarter of the previous fiscal year, but mineral products decreased by \$2,304,000. Exports of other classes increased as follows: Products of the fisheries, \$95,330; products of the forest, \$2,148,936; agricultural products, \$1,383,191; manufactures, \$644,426. The details of imports and exports for the past quarter as compared with 1901 are appended:

The Editor's Mail.

To the Editor of the Advocate:
 DEAR SIR:—The enclosed letter speaks for itself. The fact that Mr. Targue without calling a convention of the friends of the Local Government made it known through the columns of the Courier that he had selected three candidates to contest the County of Gloucester, has had the effect of opening the minds of many prominent electors to the fact that their names have been used without authority and has brought forth from hundreds of them strong indications of their intention to use their own judgment in voting for the candidates whom they believe are the best in the interests of the County. This letter is only one of many which have been received by Messrs. Burns and Poirier showing expressions of friendship and confidence on the part of prominent men throughout the County. The electors of the County of Gloucester are now thoroughly awake to their rights and are going to exercise them as they deem right.
 Elm-Tree and Petit Rocher, Oct. 18, 1902.
 To the Electors of Shippegan:—Having learned from Mr. T. M. Burns M. P. P. that a certain person had shown a letter signed by B. H. Cormier, Philemon Boudreau and James Doucet proving that we did not support the ticket of Messrs. Burns and Poirier we thought it our duty to issue the contrary. Nothing has forced us to declare ourselves supporters of Messrs. Burns and Poirier we do it simply with the dictates of conscience and knowing that they have faithfully performed their duties as deputies we desire to exert our strongest efforts for their election and we can assure you without fear of being mistaken that the said deputies will carry a larger majority of votes in Petit Rocher than probably any local member has yet obtained.
 Yours truly,

To the Editor of the Advocate

DEAR SIR:—It is sincerely to be hoped that the outrageous action of the Superintendent of the Dominion Co. in his willful and deliberate desecration of the Lord's Day in the work now being carried on at the Railway bridge will arouse the Christian sentiment of this community to take steps to put a stop to it. If there is a Provincial Statute prohibiting labor on the Lord's Day, it is high time that the Lord's Day Alliance invoked the aid of the law. If there is no Provincial statute let them proceed under the Dominion statute. The Bridge Co. must be taught that it cannot come here and with impunity trample under foot the sacredness of the Day of Rest.

I understand that there is no necessity for this work being done on a Sunday. The traffic is not so heavy, neither are the trains so numerous that what is being done on Sunday could just as well be done during the week.

I hear that there is to be a meeting of the Alliance to be held this evening. It is to be hoped that no time will be lost and that a repetition of last Sunday's disgraceful proceedings will not be tolerated.

One of the most deplorable features in connection with this brief work is the contention given by so many so-called christian—members of the churches of this town, to the desecration of the Lord's Day. Nay "so-called christians," because no christians would by his presence approve of it. It is as great a sin against God to violate the fourth commandment as it is to break the 6th, 7th, or 8th, and yet the moral sense of the christian community would frown upon any violation of these three divine statutes while complacently tolerating, yes, abetting and approving, or they must do by their presence, the violation of the 4th. It is said that a great many of those present on Sunday are members of christian churches, that may be, but would members of the body of Christ, gather around the Lord's table in the morning and then go forth to crush their Lord's Day by desecrating His holy day? Not if they were members of the Body of Christ.

Is it any wonder the world ridicules religion when it sees so many inconsistent representatives?
 "Remember the Sabbath Day to keep it holy."
 Yours,
 CITIZEN.
WARM WELCOME.
 Extended to the Premier.

QUEBEC, Oct. 17.—The home-coring of Sir Wilfrid Laurier and his arrival in Quebec this evening were marked by a welcome unparalleled for enthusiasm and effect in Canada. The significance of the demonstration was enhanced by the cordial participation in it of all classes and elements of the community, irrespective of race, creed or party politics. It seemed as if the entire population turned out to greet the honored guest of the occasion and to prove to him that Quebec appreciates at its just value the lustre which he has shed upon it and upon the name of Canada by his commanding talents, his splendid public services and the admirable manner in which he represented his fellow countrymen at the coronation of the sovereign and of other great public occasions since his departure from amongst us last spring. Indeed, the whole city may be said to have been on its feet. As a pageant, too, the

monstration in his honor was the most brilliant and successful ever witnessed in Quebec. The street decorations, the illuminations, the displays of fireworks and bouffes, etc., were abundant and striking, the whole combining to make up one of the most remarkable and significant popular manifestations in local as well as in general Canadian history, and one in which Quebec may forever take legitimate pride.

The special I. C. R. train on which Sir Wilfrid Laurier and Hon. W. S. Fielding came up from Rimouski did not reach St. Joseph until 8:30 p. m. After little delay the distinguished gentlemen boarded the government steamer Druid awaiting them, and were landed at the King's wharf in this city at 9:30 p. m. Thousands of people were in the vicinity of the river front as indeed along most the whole route and the enthusiasm was at fever heat.

Although looking somewhat thinner than when he left Canada, Sir Wilfrid, who declined to be interviewed, explained that his general health was first class. His timidity is attributed to a rigid course of diet to which he subjected himself by order of his physician in Paris. He hopes to resume his political work at once and is prepared to carry out many plans which he has in view for the benefit of the Canadian people.

Senator Gibson is the authority for the statement that Sir Wilfrid was assured by his London and Paris physicians that he was not suffering from any organic disease.

Hon. Mr. Fielding, who also came to Quebec and shared in the honors, is looking very well. He said that the blue book on the colonial conference would be issued this week and consequently he would not say anything for publication.

In the drill hall after the parade Sir Wilfrid received a most enthusiastic reception. Among the audience was Lady Laurier, who was looking charming and was presented with a most beautiful bouquet.

Mayor Parent read to the Premier an address of welcome, to which Sir Wilfrid replied. He said he was flattered at the great reception, that he was proud to be a Canadian and that the more he travelled in Europe the more he loved his country. He said that at the conferences in London he had endeavored to do his duty and trusted that the future would demonstrate the wisdom of his actions. At the same time he said that while he necessarily would confine his remarks to a few features of his visit abroad he would have the opportunity in the near future of placing before the Canadian public his views on matters of national import.

RACE RIOTS.

Three Whites and Eight Negroes Killed in the South.

BIRMINGHAM, Ala., Oct. 19.—Three white men and eight negroes are reported killed in a race riot at Littleton tonight. The number of wounded has not yet been ascertained.

A special train carrying sheriff and ten deputies left for the scene tonight.

The riot is said to have been caused by a crowd of negroes attacking a white woman. The white citizens searched for the woman's assailants and the negroes refused to deliver them and armed themselves. When the posse arrived the negroes opened fire, killing three of the officers. The deputies returned the fire, killing eight negroes.

The negroes outnumbered the whites ten to one, and the posse was forced to retreat. The negroes are reported to be in complete possession of the town and have entrenched themselves, have captured a powder magazine and are strongly fortified.

Blossom, Tex., Oct. 10.—City Marshall Hill was killed at a negro festival last night while trying to quell a negro riot. Three negroes were also shot by the negroes who killed the marshal. The shooting was done by brothers, who are still at large.

DOAKTOWN.

Doaktown, Oct. 20th, 1902.—An Agriculture Society was organized here last winter with Henry Swim, President, W. Murray, Secretary and W. Whyte, Treasurer. Their first exhibition was held on Oct. 14th. The showing of live stock was somewhat below the expectations. The farm and garden produce was very fair, the fancy work got up by the ladies eclipsed all the rest of the exhibition. The judges was as follows:—For ploughing, C. W. Mitchell, G. Donalds and H. Doak. For live stock, J. McAleer, M. Hannan and T. Cowie. Farm and garden produce—J. Donalds, S. Astle. Fancy work—S. Freeze, Mrs. Ellis. Prizes were awarded as follows:—pumpkins, J. Mercereau, 1st and 2nd; squash, J. Sutherland, 1st and 2nd; beets, J. Sutherland, 1st and 2nd; carrots, S. Freeze, 1st and 2nd; corn, C. Bamford, 1st; E. Mitchell, 2nd; celery, S. Mitchell, 2nd; geese, Everett Mitchell, 1st; chickens, E. Mitchell, 1st; W. Mitchell, 2nd. Your correspondent is unable to get the result of the ploughing contest.

J. E. Doak has built an extension to his factory. Mrs. Robinson has moved into her new house. James Swim purchased the great hotel built which was sold at auction last week. S. Freeze started to the woods last week. Swims mill is down for the winter. Thos. Parker started to Cairns River last week for his winter operation in the woods. He camps on the shore above Easty Brook. We expect the political breeze to be soon fanned into a gale. Salmon is reported plentiful. Owing to the scarcity of men, the work on the Baptist Parsonage, will be suspended for the present. Mr. Ogilvie is putting in pipes to bring water into his house, and Mr. Hildebrand is putting pipes to carry water all through his house. John Ellis has made himself conspicuous by his absence for some time past. We hope to soon see him around again.

JANEVILLE.

Janeville, N. B. Oct., 11th.—We have had a spell of very cold weather at present, on Monday night we had frost, it will help to dry up the ground and roads. The crops are all in and the threshing about done.

SPONGES. A good sponge is a necessity in every household. Have you seen our sponges? PRICES FROM 5c TO 40c EACH. ALSO JUST RECEIVED -- A fresh supply of Pabst Malt-the "Best Tonic," 30c a bottle, 3 bottles 75c. A. E. SHAW, Druggist Newcastle.

The lumbermen are busy portashing their supplies to the woods. There will be a lot of lumber got out along here this winter. P. J. Mahoney of Melrose, West Co., has bought a large piece of land on Tagues Brook which will be given out in contracts. A. E. Chapman is also getting out a large brow of logs. Hunting parties from the wood say that moose and deer are very plentiful. The people of this town were surprised last Sunday morning to see two deer which came out of the woods and went down to the beach about a half a mile through the fields before turning back. Partridge are very scarce this fall, there are very few seen in the woods. Congratulations to Mr. and Mrs. Frank Robinson on the arrival of a boy. The new bridge and protection wall on the Salmon Beach road is a great improvement on the old road. Adams, Burns & Co. have loaded their logs at Janeville siding taking them to their mill at Bathurst. Mr. Able Ellis has got his new threshing mill started. It does fine work. Mr. Wm and Charlie Scott have left for the woods in Restigouche where they will spend the winter. A great many of our young people are leaving us for the winter. Every day we hear of some going. Miss Mattie Scott left on Wednesday for Portland, U. S. A. Mr. Chyrie and Ellis Jennings left last week for Wisconsin, we will miss them very much but hope to see them again in the spring. Our teacher Miss Bell Eddy spent Saturday and Sunday at her home in Clifton. The Bathurst news in the Advocate is a great improvement to the paper. We hope they will continue to occupy a large space in the paper. Mr. Reggie Jennings left several weeks ago to resume his studies at the Village school. Potato digging has begun.

BATHURST.

We have made arrangements with the best newspaper man in Gloucester county whereby for the next twelve months the news of that county will appear in the Advocate each week. We are doing this as an experiment and in return ask the residents of Gloucester to extend their generous patronage and thus make the venture a success. This week we have sent our canvasser to Bathurst where he will call on all and we trust he will receive the support and encouragement of all. There is no way to bring a town before the public as well as through the local paper and Bathurst having no English paper of its own should see to it that its industries, resources and news items are fully reported and advertised. We ask for our canvasser a respectful hearing and if you think our enterprise merits it, you support as a subscriber.

The weather has been very unsettled and cold this last week and all who have outdoor work to do find it disagreeable. The engineer and others who have been for the past week or so making measurements at the Grand Falls and other points on the Nepisiquit River on behalf of the Messrs. Hazmaworth syndicate who propose purchasing lumber lands and water powers here and at other places on the North Shore got through with their work last week and returned. It is currently reported that a deal has been consummated and before many months the beginning of a large pulp plant will be in operation on the Nepisiquit River. There has been a large exodus of young men and women from all over the county to the United States, pieces in the West and the province of Quebec to work in the woods, etc., during the past few weeks. It is to be hoped that some day we shall see the opening up of a great pulp manufactory, something like the one established at Ramford Falls, Maine, which could give employment to all our young men and women, and thus keep them in Canada. It is said the water in the Nepisiquit is equal to the one at Ramford Falls if the river is properly dammed, and if such a great enterprise could be consummated it would do a wonder.

A plentiful amount of coal to the whole country in this vicinity. The ladies of Saint Luke's church, Presbyterian, held a high tea at the Masonic Hall on Wednesday evening last, and we understand a handsome sum was realized for the church.

The Mate of the three-masted schooner Georgia who was injured by being struck by some kind of a missile in the hands of a sailor named Lyman, at the village of Bathurst on Wednesday evening last, and we understand a handsome sum was realized for the church. The Mate of the schooner was leaving New Haven the sailor, Lyman, refused to do something the mate ordered, and on the mate again saying "that he wanted his order obeyed the sailor dared him to come down from the fore-castle, where the mate was standing. The mate at once ran down to the deck and the sailor made at him with a knife and cut him slightly over the eye. The mate, however, overpowered Lyman and threw the knife overboard, and it is said "blacked" the sailor's eye. One of the other sailors, however, swore he would be revenged when he caught the mate ashore, on Saturday night the mate was injured, 11th inst, the sailor went ashore and tried to get into the village where he no doubt got liquor. Unfortunately the mate was also ashore that evening and passing the saloon he and another sailor or two or three men who were standing at the door of the saloon and they all went in together to get some beer. Standing with his back to the door of a small room which opens off the bar, the mate did not see Lyman who came behind him and struck him a severe blow with some instrument, which the Captain of the vessel, who was present at the inquest, thinks was a slingshot. The mate fell forward and the sailor jumped on him. The men standing near pulled Lyman off the mate and he was badly injured and could not walk. He was carried to Doctor Dupon's Office, where his head was taken from thence taken to the Marine Hospital. In the excitement the sailor escaped, and it was thought he took the road to one of the camps on the Tanguine River. The Clerk of Peace says he saw the sailor on one occasion, but was in such a state that he could get from him a deposition, but was told that he was not, and the consequence is that no deposition was taken and the mate died. After the death of the mate, whose name was Burne Mason, a native of Country Harbor, N. B., an inquest was summoned by Doctor Mahan, coroner, and at the trial of the sailors, Norwegian, who were in the saloon when the blow which killed the mate was struck, had departed for St. John. The inquest has been adjourned until Tuesday morning at ten o'clock. The evidence of the captain and of another sailor who accompanied the mate to the inquest, was taken, and the mate was taken to depart with his vessel which was loaded on Saturday. Officers are at present scouring the woods after Lyman, who was thought to be located at one of the camps, but it is doubtful if they will catch him. We shall report the result of the coroner's inquest later. Lyman was caught Monday. His Honor Judge Wilkinson paid Bathurst a flying visit last week. Dr. O. B. Moore, dentist of Shediac, has decided to settle at Bathurst, and is sitting up offices on Water Street. We wish the young man every success, and think he will find plenty of work in Bathurst and vicinity. Col. Malby of Newcastle was in Bathurst last week leading a few cars of telephone poles for the power company at Newcastle.

As we said it is very much to be regretted that the Courier by its hasty action in taking notice of the first correspondent of the Evangeline has unseated a disgraced St. John, which both parties hoped was buried for ever, and there is no person so much to blame for it as the friends of the Courier, who conduct that paper. Having opened the matter up again we suppose there is nothing to be done now but ventilate it, and among them they will soon find out who is telling the truth. If it turns out that the correspondent of the Evangeline is able, as he says, to produce the proof of his charges, we submit that he is at Bathurst Village at this time, but that he took an active part against the Sisters of Charity in the matter of the school. We are sure that the friends of the Courier, by their hasty action, are doing a wrong thing, and we are sure that the friends of the Evangeline, by their hasty action, are doing a wrong thing. We are sure that the friends of the Courier, by their hasty action, are doing a wrong thing, and we are sure that the friends of the Evangeline, by their hasty action, are doing a wrong thing.

Bathurst Village. Now no doubt the columns of the Courier were open to Mr. Curran, and the obvious course for him to pursue if he had any objection to the article in the Courier, over his own signature, but his friend Mr. Turgon, in the manifold responsibility of the paper, he arrogated to himself in political matters in Gloucester, evidently did not wait to consult Mr. Curran, but in a virulent letter in his paper, the Courier, undertook to crush the correspondent of the Evangeline, and among other assertions said that Mr. Curran was not even a resident of Bathurst Village at the time the unfortunate troubles took place, and called attention to the fact that the text of which is irrelevant to the subject, and which appeared in the same issue of the Courier. The Courier also appeals to the electors to take its assurance that the charge against Mr. Curran is false, and threatens the same if they do not do so. The Courier has consulted his solicitor with a view to taking proceedings against the Evangeline and all concerned for libel.

As for the personal abuse this cutting fish correspondent of the Campbellton paper, who is a man universally despised, pours on your poor correspondent, it has about the same effect as the comparison of Mr. Turgon with the late Senator Burns. But we will not go into that, merely asking when did the latter gentlemen ever try to carry Dominion issues into Local politics, and when did he ever interfere in Local politics at all without calling a meeting and consulting his friends.

Tarte's Resignation Expected. No Official Announcement yet.

Ottawa, Oct. 20.—Mr. Tarte's officials at the public works department are packing up his private papers. He held one of them that he would make a statement in Toronto tonight. Ottawa, Oct. 20.—Opinion here is that the portfolio of public works is about as good as vacant. The resignation of the Hon. J. L. Tarte has not yet been handed in, but his retirement from the cabinet is expected to be announced at any moment. Those who have followed the Tarte campaign from the beginning have not looked for anything else. Indeed the minister of public works was so clearly guilty of such a gross breach of constitutional usage as made his continuance in the administration utterly impossible unless he receded from his position.

DIED. At Bangor Me Oct. 19 Peter Ferguson formerly of Newcastle, aged 18 years. May his soul rest in peace.

Quaint and Curious Epitaphs.

There is an undercurrent of cynicism and joy in the following which is taken from the little churchyard of Hadleigh, in Essex; To free me from domestic strife Death called at my house, but he spake with my wife.

In the churchyard of Bangor the following can be seen: Poor Martha Snell, her's gone away, Her would if her could, but her couldn't stay; Her had two bad legs and a badish cough, But her legs it was that carried her off.

In a graveyard in Cornwall can be read this: In this here grave you see before lies buried up in dismal story, A young maiden she were crossed in love, And taken to the realms above; But he that crossed her, I should say, Deserves to go the other way. This latter was probably written by the young lady's mother, while the country colloquialisms in both will be noticed.

AN ANXIOUS TIME FOR NEURALGIC SUFFERERS.

PAINE'S CELERY COMPOUND The Only Medicine That Successfully Cures This Terrible Nerve Disease.

Experienced physicians know well that the variable weather of this autumn month decides the fate of thousands in ill health. At the present time, men and women are falling around us like leaves before the chilling north winds. Amongst the diseases prevalent at this time, terrible neuralgia with its sharp, increasing and darting pains is doing its intolerable work. The cold winds, damp air and sudden changes in temperature, favor this pain-racking disease. The best physicians of all schools admit that Paine's Celery Compound is the only known specific for the cure of neuralgia. If you are experiencing the torments of this most terrible of nerve diseases, we counsel you to give Paine's Celery Compound an immediate trial. It has permanently cured others; it will, without fail, meet your case. Mrs. T. McMaster, Toronto, Ont., says:

Ten years ago I was attacked with neuralgia and though treated by six doctors the disease grew worse and nearly made me insane. Day after day I suffered the most intense agony, and I became utterly disheartened. One day my deliverance came. A lady who had suffered as I had told me that Paine's Celery Compound had cured her. I used the compound and it simply made a new woman of me. The pain vanished, I grew well, and I never felt happier in my life. All this is due to Paine's Celery Compound.

A farmer in Kansas lost a valuable horse in a peculiar way the other day. While driving through his corn field a high wind loosened an ear of corn, which, dropping nearly a hundred feet, struck the horse across the back, killing him instantly.

Messrs. C. C. Richards & Co. Gentlemen,—In June '98 I had my hand and wrist bitten and mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT, which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly, A. E. ROY. Carriage maker, St. Antoine, P. Q.

Yes, said the engaged girl Robert is very methodical. He gives me one kiss when he comes and two when he goes away.

That's always been his way, returned her dearest friend. I've heard lots of girls comment on it. Thus it happens that they cease to speak to each other.

Womany Troubles. SHOULD NOT BE ALLOWED TO UNDERMINE HEALTH AND BEAUTY, BUT SHOULD BE TREATED AT ONCE BY FERROZONE.

It is impossible to go into details on this subject, but the experience of many a poor woman who is crippled for life, just because she didn't use a good remedy in time, should be a warning to others.

When the first stages of womanhood appear in a young girl, a great deal depends upon getting over this critical stage, so that in years to come she will not develop green sickness or consumption. As soon as she complains of flushed face, headache, bearing down feelings, give her at once a course of Ferrozone treatment, which will carry her past the crisis.

In the adult woman if any irregularities occur, Ferrozone will be found a remedy of remarkable potency and power. Ferrozone is the ideal regulator for the monthly period and causes all the organs of the body to perform their work properly, and at just the expected time.

It purifies the blood, tones up the nerves and vital energies. The stomach is strengthened, and digestive and assimilative processes are improved by the good work of Ferrozone. It regulates the bowels, cures constipation and piles, and replaces disease and decay by health and strength.

There is nothing better for the complexion than Ferrozone. It removes the dark circles from under the eyes, removes and cures all manner of skin eruptions, gives brightness and brilliancy to the eyes, a rosy tint to the cheeks, whitens the teeth and develops a well rounded plump and handsome form.

Ferrozone is the ladies' favorite, and should find a place in every household. It is prepared in the form of a chocolate coated tablet, convenient and pleasant to take. Price per box 50c., or three boxes for \$1.50. Sold by all druggists, or by mail from N. C. Folsom & Co., Kingston, Ont.

In Hackney church yard can be found the following combined pun and epitaph; As still death poor a eter lies, And stiller when alive was he; Still not without a hope to rise, Though stiller than he still will be.

It was very probable that Peter Stillier composed his own epitaph. Narrow headstones and lengthy lines of inscription have ever been a source of trouble to the monumental mason, but the following, from Folkestone churchyard, will be difficult to equal or beat. It runs:

A virtuous woman is 5s. to her husband.

It should have been, a virtuous woman is a crown to her husband, but the stonemason, not having room, substituted 5s. for a crown to get the words into one line.

TO CURE A COLD IN ONE DAY Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents.

The Composer—Is that what the editor said?

The Devil—No, but dat's what he meant. I can't cuss like he did.

STOPS THE COUGH AND WORKS OFF THE GOLD. Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

He had sprung so many gags at her expense that she thought it time to get even.

Henry, she exclaimed, as he came home to dinner. I heard something this morning that opened my eyes.

What was it Nellie? he demanded, excitedly.

Why, the alarm clock, goose. Minard's Liniment Cures Dandruff. Minard's Liniment Cures Burns, etc. Minard's Liniment for sale everywhere.

Alice (finding a roll of bills under her plate)—You were out awfully late, Arthur. Is this conscience money?

Arthur (timidly, from behind his newspaper)—No my dear—hush money!

A FAMILIAR NAME In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book author. He is known for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure what others fail.

WHEN LIFE IS NOT LIFE "Without health life is not life; it is only a state of languor and suffering, a lounge of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and infuses new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

THE CAUSE OF DEAFNESS. Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale CATARRHOZONE as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, cleans the ear, nose and throat, and allays, inflammation, congestion and soreness. Ear Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as efficacious as CATARRHOZONE. Complete outfit for two months' use, price \$1.00; trial size 25c. Druggists, or N. C. Folsom & Co., Kingston, Ont.

Your son failed as a chiropodist, eh? Yep. What's he doin' now? Oh he's a blacksmith.

HAMILTON'S PILLS ARE EFFECTIVE.

Mrs. Dash—What is that dreadful noise? Mr. Dash—Well, those folks next door have caught a burglar or else they're playing pingpong.

A TRUE NERVE TONIC. Will act, not so much directly upon the nerves as upon the digestive functions, and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The nervous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves, compares with Ferrozone. Price 50c., at Druggists, or Folsom & Co., Kingston, Ont. Sold by A. E. Shaw.

Visitor (at insane asylum)—My! These are bad cases, aren't they? Guide—Yes, sir; this is the pingpong ward.

SURE JUKE FOR SICK STOMACH. Such maladies as Nausea, Sick Stomach, Cramps, and Colic, yield instantly to Pepsin and Nerveine, and if you suffer periodically from any of these complaints just keep Nerveine handy and take a few drops in water for quick relief. A large 25c. bottle of Nerveine is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerveine? Try it.

Dear little Molly was wearing new boots, and no one had admired them, at which she was terribly disappointed. At last a brilliant idea struck her, and when there was a pause in the conversation she exclaimed:

How many feet are there among us all?

This had the desired effect, much to her delight.

The New Observatory. Messrs. Vian and Lachance, of Hull, have commenced work on their contract for the new Dominion observatory, which is to be erected on the grounds of the Central Experimental Farm, about 250 feet from the Metcalf Road entrance. The building, which will be of stone, will have a frontage of 150 feet, and a depth of about 50 feet. It will cost \$75,000. The new telescope for the use of the Dominion astronomer's staff is now being constructed at Cleveland, Ohio. It will have a diameter of 15 inches.

ONE LOVE TOO MANY.

(Continued from page six.) Her bridal finery she was the fairest creature my eyes ever gazed upon. Her face, too, was pale but perfectly calm, and her long, slender fingers trembled but slightly upon her lover's arm.

There were no attendants, and the two stepped forward to their place before the minister. Both made their responses in clear and audible tones, and at the conclusion of the ceremony turned to receive their friends.

All of Jim's friends were there, and many of Charley's, and the odd mixture gave to the occasion a greater freedom and unconstraint than is usual at such a time, and the newly-made husband was soon laughing and talking the gayest of the gay. But Bel stood grave, dignified, and almost haughty in her bearing.

Miss Valine approached, and after tendering the most extravagant congratulations to the bridegroom, turned lightly to Bel. But the latter had found some other friend who so engrossed her attention that she failed to notice the outstretched hand of her old-romant rival.

This slight offended Miss Valine, who quickly planned a little scheme of revenge, and she turned again to Charley with a little shrug and opened upon him her batteries of mocking felicitations. Upon the surface, however, all went smoothly enough, except that the musicians had not arrived, and all were waiting them to begin the dance.

Jim, after the completion of the ceremony, had returned to the next room, where he sat alone before the fire, a rough picture of perfect content. Bel stood talking to an acquaintance, and Dore was still fastened upon Charley—indeed, so closely did she cling to him that one might have fancied her to be the bride.

Some such thought passed bitterly through Bel's mind, and she quickly disengaged her arm from Charley's, and went into her father's room. There she stood by his side, silent and abstractedly held out her hands before the blaze. Jim caught hold of one of them and stroked it softly. The music arrived, and they heard the first preparatory strains.

"Bel," said her father, "the music done come. Whar's Mr. Charley?" "I don't know, father," she answered, quietly.

"Well, you ought to know," he said, with a laugh. "If I was his bride I'd know pretty quick whar my ole man was! This is his dance with you, so you'd better be huntin' him up."

"It is his place to look for me, father," she said in the same queer, even tones.

This did not exactly seem to Jim the correct course to take with a March.

"Fshaw child! he's lookin' for you now, som'er, I reckon. You oughtn't a come away jest as the dance was on hand. How is he to know whar you are? Go 'long in, Bel," and he gave her a gentle push.

She walked slowly to the door, and looked in; the quadrille was forming, there was a little scramble for places. She heard a voice crying:

"Look here, Marshall, that's not exactly his thing, is it?" and Charley's tones in reply:

"Well, she's forsaken me, you see, and Miss Valine has persuaded me I ought to be revenged."

And then came Dore's musical tones:

"What does it matter? Small customs must courtesy to great kings." There was a jubilant triumph in her tones, and Bel looked eagerly over the heads of the crowd. In a moment she saw them—saw Charley standing in a dance with Dore Valine.

For an instant her heart stopped beating. The sea of heads swayed mistily before her eyes. She caught hold of the doorknob for support, but presently turned and walked unsteadily back to her father's side.

"Father," she said in a low and trembling voice, "lend me your knife to cut a fresh rose for my hair."

"Oh," grumbled Jim, "women are all alike. Here you are a-stoppin' of the whole party while you deck yourself out with fresh roses. You'd better go along and dance some prettier ones into those pale cheeks of your'n," but he reached down in his pocket for the knife.

She took it and turned swiftly away. She entered the door, and pushed her way through the crowd to where her husband stood with Dore Valine. They were standing near together, her lavender draperies brushing against his feet, and her face turned up expectantly to meet his gay, admiring eyes.

Bel burst upon them with uplifted arm.

"He is my husband," she cried, furiously; "how dare you come between him and me?" and with a wild cry of "Charley! Charley!" she stabbed the unfortunate girl once, twice in the breast.

With a piercing shriek Dore Valine threw up her hands, and fell to the floor, the blood staining with a deeper red the rose upon her bosom, and trickling slowly over the pale lavender of her dress.

Charley stood spellbound, his face of ashen paleness. Bel did not move, but gazed wildly upon the prostrate form at her feet, and the horror-stricken crowd seemed turned to stone.

AUTUMN.

When the Autumn tints have touched with tender glory
All the leaves on all the trees on all the hills,
When Nature seems to speak her sweetest story,
And every sound and sense with rapture thrills.
When the sun is shining down with softer splendor,
And the sky above is deeply, darkly blue,
When the grass is dazily green and deeply tender,
With the buttercups and daisies peeping through.
When the crickets are a chirping in the meadows
And we hear no more the murmur of the bees,
When the spirits seem to slumber in the shadows,
And the leaves are softly falling from the trees.
When the holy harvest moon is high in Heaven
And a benediction broodeth from above,
Then, surely, to the soul of man is given
The purest proof that God indeed is Love.

At Sydney Friday at a mass meeting of citizens a resolution was unanimously adopted that parliament pass a liquor law on the lines of the Götterburg system.

About thirty-five members of the Engineering class of U. N. B., Fredericton, came over Saturday night to see the span placed in the railway bridge. They stayed at the Waverley while here.

A serious fire occurred at Shediac, last Wednesday morning, by which some 13 buildings, including the Bank of Nova Scotia and the post office, were destroyed; loss estimated at from \$100,000 to \$150,000, with insurance probably about \$20,000.

The millinery openings last Saturday were in every way a success. A large number of hats were on exhibition at both Mrs. Quilty's and Mrs. Morris' and the number of visitors were larger than usual. Both report that this opening was more successful than other years.

We have made more overcoats this year already than any other previous year we have been in business (and that is saying a lot) and yet we believe our overcoat trade has not started properly. We are on the elephant's back and all we want is orders—McMURDO & Co.

We have made arrangements whereby you will be able to see copies of a large illustrated paper entitled, New Brunswick Illustrated. This will contain many fine views of the Province with a good write up of the town of Newcastle. Send 10 cents to the town of Newcastle. The edition will be ready early in December.

Another span was placed in position at the Railway bridge on Sunday. Owing to several drawbacks it was not placed in position at the time expected, 8 o'clock, and it was not until nearly 10 o'clock Sunday evening that the work was successfully completed. A large number of people assembled Sunday afternoon and watched the progress of the work.

Two religious communities are to settle down in Rogersville. They are the Eudist Fathers, a teaching and preaching order, and the Trappists, whose mission it is to teach theoretical and practical agriculture. The Trappists are considered the best farmers and the most competent educators in regard to the work here. They work themselves, and their fields are wherever they are established a credit to any country. They are expected this month and the installation will likely take place on the 28th instant at 10 o'clock a. m. Father Richard is said to have given the Murphy mill and a thousand acres of land to them.

The Strength Makers.

After sickness or when run down from hard work, then is the need of a reliable strength maker. The three agents highly beneficial are Beef, Iron and Wine.

BEEF Is the great common nourishment of mankind. Beef extract carries strength to all parts of the body.

IRON Is the important element of blood and bone. It is always lacking in quantity and quality in all cases of weakness and exhaustion.

WINE In medicinal doses is a tonic to the weary organs, reviving strength and encouraging to new efforts.

Our splendid combination of Beef, Iron and Wine is needed by those who need a true strengthener. Dalton's Beef, Iron and Wine makes you strong, acts as a food and a medicine. The effect of one bottle is wonderful. PRICE, 75c a FULL PINT.
