

---and the Worst Is Yet to Come

KNEW CAPT. WALLACE
SENT WORD TO ULSTERMinister of Militia Says He Is Not
Called Upon to Act.[Special to The Advertiser.]
Ottawa, March 30.—Capt. Tom Wallace
is not to get even a love tap for cabling
his Ulster message to Carson.Last week's trans-Atlantic news went
to Capt. Wallace's head and although he
is a member of the Canadian Parlia-
ment and one of the officers reserve of
the Canadian Militia he cabled the big
Ulster agitator:"Thousands of loyal Canadians are with
you in your magnificent fight to preserve
the best traditions of British citizenship
by resisting the coercion of Ulster. We
are ready, if necessary, to help you with
men and money to the last ditch."Today Mr. Proulx asked if the minister
approved of an officer of the Canadian
Militia sending such a telegram and if
not, what action would the minister take
to discipline Capt. Tom Wallace. In re-
ply Col. Hughes said he knew that the
message had been sent, that Capt. Wal-
lace was on the Canadian reserve of
officers, that "the alleged telegram does
not in any way relate to the duties of
Mr. Wallace as an officer on the reserve
and the minister is not called upon to ex-
press any opinion with regard thereto.
Any attempt to discipline Capt. Wallace
in the case suggested would be not only
improper but illegal."At 60 Enjoying
Perfect Health

Because He Takes GIN PILLS

A prominent Consulting Engineer of
New York City thus heartily indorses
GIN PILLS:29 Broadway, New York.
"I bought some of your GIN PILLS
at Victoria, B. C., last September. Your
remedy I find, at 60 years of age, to give
perfect relief from the Kidney and Blad-
der Troubles incident to one of my age.
I urgently recommend GIN PILLS to
friends as being the one thing that does
me good."
E. G. WOODFORD.By the time a man or woman is 60,
the kidneys and bladder need a little
help to keep in good working order. GIN
PILLS are what they need. GIN PILLS
keep the urine neutral, prevent colds
settling on the Kidneys or Bladder, and
ward off rheumatic attacks.Remember, every box of GIN PILLS is
sold with a positive guarantee to give
perfect satisfaction, or your money
promptly refunded.50c a box, 6 for \$2.50. Sample free if

Co. of Canada, Limited, Toronto. 176A CRIPPLE FROM
RHEUMATISMTortured Four Years Until He
Took "Fruit-a-tives"

Ridgeway, Ont., May 21, 1913.

"Your 'Fruit-a-tives' cured me of
Rheumatism. It was the only medicine
that made any impression on me. I
was a terrible sufferer from Rheuma-
tism. I was laid up for four winters
with Sciatica and Muscular Rheuma-
tism, and was a cripple completely, not
being able to do anything. I doctored
with four different physicians, but
they did not help me. Other advertised
remedies were equally unsatisfactory,
and I have taken several."Some neighbor of mine told me that
'Fruit-a-tives' helped him, and I took
them faithfully every day and the re-
sult was marvelous. I was up and about
in two years now I have been free from any
Rheumatic pains whatever, and give
'Fruit-a-tives' the full credit for mak-
ing a remarkable cure."
W. T. KACHER.If you are subject to Rheumatic At-
tacks, Sciatica, Lumbago or Neuralgia,
take 'Fruit-a-tives' right now, and
start the permanent cure which
'Fruit-a-tives' will complete if taken
faithfully. Fifty cents a box, six for
\$2.50, trial size 25 cents. At dealers or
sent on receipt of price by Fruit-a-
tives, Limited, Ottawa.BIG RADIAL MEETING
HELD AT ST. MARYSStone Town Hopes to be Hub
of Whole District—Co-opera-
tion Necessary.

[Special to The Advertiser.]

St. Marys, March 30.—Trunk radials,
radiating out from London, Stratford
and Goderich, with St. Marys the hub,
was the impulse of two meetings held
in the town hall today, but through the
making of St. Marys a railway centre
for hydro-radials was uppermost in the
minds of most of those attending the
meetings, the trinal projects of deepened
waterways, the conservation and devel-
opment of all possible water power on
the Welland Canal and other waterways,
and a network of hydro-radials for
Western Ontario, were all regarded as
allied.

Government Is Concerned.

"We think the Federal Government is
concerned after a visit of the depu-
tation last week, that we are the only
in Ontario to take these developments
and place Ontario in the forefront of the
world as a manufacturing country,"
said Mayor Graham, of London, who, in
the absence of Hon. Adam Beck, was
the chief speaker. Mayor Graham
brought felicitations from Hon. Mr.
Beck and regrets at inability to attend.

Urges Organization.

Dr. P. T. Copeland, chairman of the
finance and railways committee of St.
Marys, in outlining the objects of the
gathering, urged that the contiguous
municipalities should organize and be
ready for an early start in the construc-
tion of trunk radials. He stated that
Chief Engineer F. A. Gaby, of the hydro-
electric commission had so advised and
had stated that one trunk line, at least,
would likely be projected from London
to Stratford through St. Marys.

Better Facilities.

"We need rapid transit from the soil to
the market," said Mr. Copeland, adding
that there were many people west of St.
Marys who had to drive fourteen miles
to market.Engineer Jeffries, of the hydro commis-
sion, strongly advised the ratemakers of
St. Marys to remodel their local lighting
system by changing from a 60-cycle to a
25-cycle generator, and placing lights on
both sides of the streets. "Ornamental
lights on the main streets at least. Orna-
mental lights would improve the value of
property in the town. He estimated that
it would cost \$4,400 to do as he suggested,
but from that amount could be de-
ducted \$1,700 for scrap material.

The Annual Outlay.

The annual outlay, covering interest
and sinking fund, could be only \$1,200,
which would provide 250 "series" street
lights attached to poles on brackets.
Should the town decide upon ornamental
lights on standards, with wires under-
ground, the estimated cost was 62 cents
per foot frontage.Speaking of the province's desire to
develop power from the spill water of the
new Welland Canal, and all future power
possibilities, Mayor Graham, of London,
said: "The Government dares not refuse
to develop it for us. We have, surround-
ing Ontario, over 10,000,000 horsepower.The necessary legislation has not yet
been passed and we are going on Wednes-
day to discuss it with the cabinet minis-
ters and insist that it be passed this ses-
sion. We expect legislation empowering
the hydro commission to build and operate
radial roads for municipalities. We ask
the Government to guarantee our bonds
for 50 years instead of 30 years and take
care of the sinking fund for the first ten
years."Mr. Graham said that it was quite pos-
sible for St. Marys to have four trunk
lines running into the town and connect-
ing with outside municipalities. With
hydro on the farm, telephones and radials,
in fifteen years Perth, Middlesex, Oxford,
Kent and Elgin counties would have more
families on every 25 acres of land than are
now on every hundred acres, and with in-
tensive farming one man could make more
money out of 25 acres of land than on
100 acres under former conditions.As an argument for radials, Mr. Graham
stated that Lambeth, south of London,
had grown more in five years with the
traction line service than it had in 50
years without it. Yet when the traction
line was mooted the people of Lambeth
had feared that their village would be
absorbed by London.There were good attendances at both
meetings, and outside places repre-
sented were Blanchard and Down-
townships (Perth), Exeter and Osborne
townships and Goderich (Huron) and
London Township (Middlesex).Mayor W. R. Butcher presided, and
among other speakers were Philip Pocock,
London; Ex-Mayor Sanderson and Joseph
Maxwell, St. Marys.

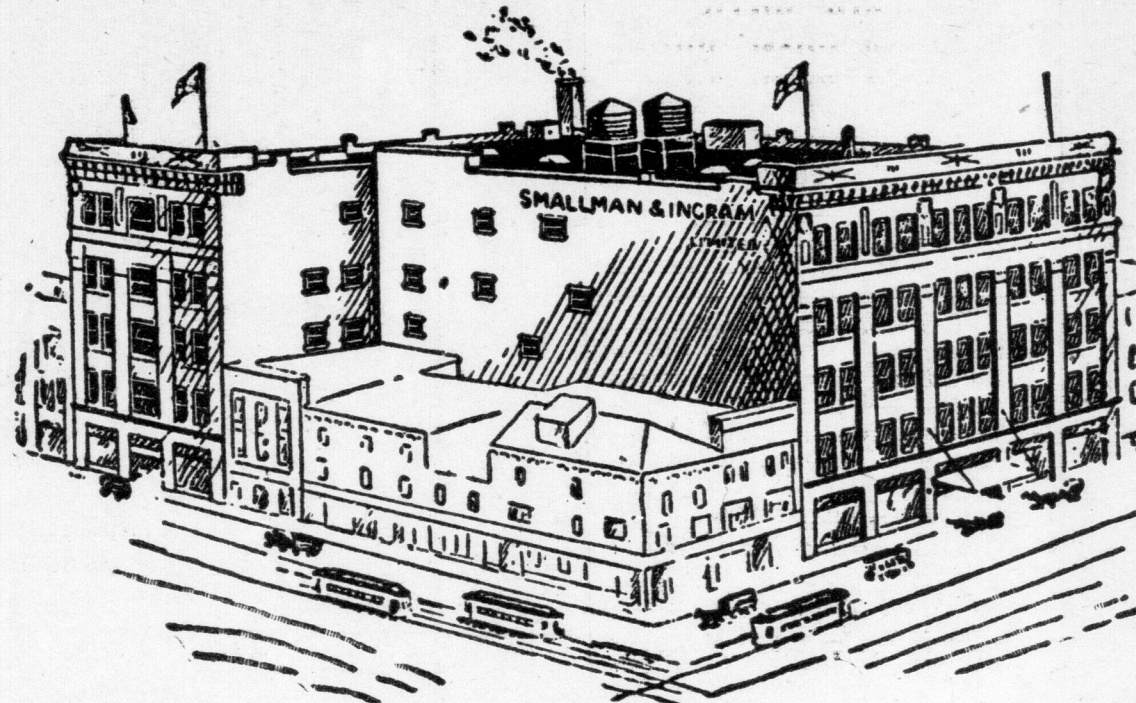

BILL'S SECOND READING

Measure Having an Easy Journey in
the Legislature.Toronto, March 30.—Among the bills
to be put through the second reading
in the Legislature today was that of
the city of London, which is enjoying
an easy journey this year, the formal
motion to its passing having been ac-
cepted so far at every stage.

Man Who Finds Radium Will Also Own the Ore

[Special to The Advertiser.]
Toronto, March 30.—An important amendment was made today to the radium bill by Mr. Hearst, providing that the man who discovers this valuable mineral will not only have the \$25,000 reward but will also own the ore, which, however, is to be subject to an option to the Government and can be purchased by the Province at the prevailing market price.

TO HUNT OPENING FOR BRITISH MANUFACTURERS

English Paper Sending Representative to Canada to Make Report.

[Canadian Press.]
Montreal, March 31.—A London cable to the Gazette says: "The Daily Express announces having secured the services of George Henry Scraggs, sales consultant, to visit Canada and investigate and report on possible openings for British manufacturers."
Mr. Scraggs, who sails next month, told a member of the press staff that everything in the past had been done for the English immigrant agriculturalist, but nothing for the deserving British businessman.

"TIZ" FOR SORE, TIRED FEET—AH!

"TIZ" Is Grand For Aching, Swollen, Sweaty, Calloused Feet or Corns.

"Pull, Johnny, Pull!"

Ah! what relief. No more tired feet; no more burning feet; no more swollen, bad smelling, sweaty feet; no more soreness in corns, callouses, bunions.
No matter what ails your feet, or what under the sun you've tried without getting relief, just use "TIZ." "TIZ" is the only remedy that draws out all the poisonous exudations, which puff up the feet. "TIZ" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.
Get a 25-cent box at any drug store or department store, and get instant relief. Wear smaller shoes. Just once try "TIZ." Get a whole year's foot comfort for only 25 cents. Think of it.

Tobacco Habit Easily Conquered

A well-known New Yorker of wide experience has written a book telling how the tobacco or snuff habit may be easily and completely banished in three days with delightful results.
The health improves wonderfully after the nicotine poison is out of the system. Calmness, tranquility, clear eyes, normal appetite, cool digestion, normal vigor, strong memory and a general gain in efficiency are among the many benefits reported. No more of list nervous feeling; no more need of pipe, cigar, cigarette or chewing tobacco to fuel the morbid desire. The author, Edw. J. Woods, 524 Sixth Avenue, 5th Fl., New York City, will send his book free on application, to anyone who writes to him.

SCALES JAIL WALL; GETS CLEAR AWAY

Edward Miller, Sentenced for Stabbing, Escapes at Simcoe—Supposed to be Carrying Water.

Simcoe, Ont., March 31.—Edward Miller escaped from jail yesterday morning by scaling the wall between nine thirty and ten o'clock. He was carrying water from the cistern to fill the reservoir, and while doing so made a clean get-away. A plank had been wrenched from the wall and the authorities have no doubt that by the use of the plank Miller managed to scale the wall. No one was with him in the yard.
Miller was sentenced to jail for twenty-three months on March fourth, for stabbing a young man named Wilson. He has a long police record, having received many sentences for being drunk and disorderly. He is forty-three years of age. He did not cause the slightest trouble to the jail authorities since being incarcerated, until he made his escape yesterday morning.

NO NAVAL AID UNTIL VOTE ON HOME RULE

Vancouver Orangemen Would Withhold It Until Electors Decide Irish Question.

[Canadian Press.]
Vancouver, March 31.—At a meeting of the Vancouver Orange Lodge, a resolution was passed pledging the members "individually and collectively" to oppose to the utmost of our power any movement on the part of the Canadian Government towards aiding the British navy until the home rule question has been submitted to the electors of the United Kingdom.
Money for Both Sides.
Dawson, Y. T., March 31.—At a largely attended meeting of those in sympathy with the opposition of Viceroy to home rule, a fund was opened, and as a result a large sum was raised. Sir Edward Carson, on the other hand, the supporters of home rule cable John Redmond a large sum also.

EAST WILLIAMS PIONEER DIES IN HER 92nd YEAR

Mrs. Catharine Matheson Passes Away at Home of Her Daughter.

Mrs. Catharine Matheson, 96 years of age, died at the residence of her daughter, Mrs. J. B. Kennedy, 591 Princess Avenue, last night. She was one of the oldest residents of the city. She was born at Barrie, Scotland, and was a pioneer settler of East Williams Township, living for many years on the Centre road. Her husband died 40 years ago.
She was well known for her kindly acts of charity, and no one in need or distress ever applied to her for help in vain.
She is survived by one son, Hector Matheson, of Parkhill; two daughters, Mrs. J. B. Kennedy and Miss Rachel, of this city; four granddaughters, Addie and Ethel Matheson, Lansing, Mich.; Mrs. St. Clair Ross, Montreal, and Mrs. Ernest Moule, of Brantford. Interment will be made at Naim Cemetery.

WOMEN OF ILL-REPUTE HAVE PROTECTIVE SOCIETY

Businesslike Institution Discovered in a Raid in Montreal.

Montreal, March 30.—A society for the aiding of women of ill-repute when arrested, has, according to Lieut. Savard, of the local police department, been discovered in Montreal. The books and papers of the society, all kept in a businesslike way, were discovered in a raid on a disorderly house on Cadieux street, this morning. The women paid a dollar a week into the society, and in return their fees and the cost of their defence were paid for them.

HYDRO SYSTEM CANNOT LIVE WITHOUT TORONTO

So Declares Mayor Hocken, in Discussing Financing Questions.

Toronto, March 31.—"I am perfectly satisfied with the methods of the Toronto Hydro. There never was a better conducted business."
This was the answer of Mayor Hocken today to the criticism of the financing of the Toronto Hydro-Electric Commission.
"Discussing the question of the reduction of rates, the Mayor declared there could be no reduction this year without speculating on this year's business and endangering the basis of the concern."
"I don't know what the Provincial Commission will do with reference to the rates," said his Worship. "They might order us to reduce the rates after they have seen our report. I don't know. It seems to me that the Provincial Hydro cannot succeed without the city of Toronto, and if we are compelled to proceed along lines which would discredit the system here it will go a long way to destroy the confidence of the public in the whole system. If you take the city of Toronto out of the Provincial Hydro-Electric system, the Hydro cannot live."

DO AMERICANS FEAR CANADIAN COMPETITION?

Secretary of Commerce Chaffs Seattle Audience—Supports President Wilson.

[Canadian Press.]
Seattle, Wn., March 31.—William C. Redfield, secretary of commerce, speaking at the headquarters of the Democratic State League last night, complained naturally of the disloyalty shown, he said, by members of the Washington delegation in Congress in opposing the Wilson Administration after all that Administration had done in the way of developing the Pacific northwest and Alaska.
The secretary thought it would be wiser for the representatives to co-operate with the administration. "They abuse the very people," he said, "who are trying to help their state."
Taking up the predictions of disaster to Washington industries as a result of Canadian competition, he asked: "Is it possible that British Columbia is peopled by a race of beings so superior to you that you are unable to do things as well as they do them?"

NOTED IRISH PATRIOT AND JOURNALIST DEAD

Timothy Sullivan Was Home Rule Agitator in Parnell's Time.

[Canadian Press.]
Dublin, March 31.—Timothy Daniel Sullivan, the Irish patriot and author of "God Save Ireland," died here today in his 87th year.
Timothy D. Sullivan, who was a journalist by profession, was a native of Bantry, County Cork. He was one of the most prominent agitators in favor of home rule for Ireland at the time when the late Charles Stewart Parnell was in his prime. For twenty years he was a Nationalist and a member of the House of Commons, and for two years in succession, 1886 and 1887, was lord mayor of Dublin.

One occasion Mr. Sullivan served two months in jail for his part in the coercion act, and he was prosecuted several times, but escaped punishment.
Mr. Sullivan was a prolific writer of verse and prose.

PRESIDENTIAL CAR FOR VISITING ROYALTIES

Prussian Prince and Princess Honored in Argentine.

[Canadian Press.]
Buenos Ayres, Argentina, March 31.—Princess and Prince Henry of Prussia, who arrived here from Germany on Sunday, left today by railroad for Chile. They travelled in the presidential car. The Argentine minister of foreign affairs, thinking German minister to Argentina, the mayor of Buenos Ayres, the military suite of the president and a large gathering of prominent personages went to the station to bid them farewell.

MRS. HENRY SEIGEL ASKING FOR DIVORCE

[Canadian Press.]
New York, March 31.—Henry Segel, the bankrupt banker and merchant, under indictment for grand larceny and violation of the state banking laws, is named in a suit filed in a district court, which counsel for Mrs. Marie Vaughn Segel said would be filed today. It is understood that two co-respondents are named.

STOLE SOME MONEY TO HELP A MINISTRE

[Canadian Press.]
Edmonton, March 31.—Alva Chamberlain, charged with stealing a check for \$119 and \$50 in cash declared in the district court that it was her love for an underpaid minister of the Gospel, who was in need of money, that led her to commit the theft. She pleaded guilty to the charge and Judge Taylor remanded the case.

FREIGHT HANDLERS WANT SHORTER HOURS

Crews of Tugs and Lighters Strike at New York.

[Canadian Press.]
New York, N.Y., March 31.—The crews of the twelve tugs and steam lighters that handle freight in New York harbor for the Baltimore and Ohio Railroad struck today for shorter hours. The captains and engineers did not join the strike and the railroad's marine department said that the movement of freight was not delayed and that conditions would be normal by night.

WILL FORM CABINET.

[Canadian Press.]
Tokyo, Japan, March 31.—Viscount Keigo Kiyoura, former minister of justice and minister of education, today accepted the task of forming a new cabinet to take the place of that under the premiership of Count Yamamoto, which resigned office owing to the naval scandal.

ADVISE LAKE BOATS OF APPROACHING STORMS

U. S. A. Weather Bureau To Publish Daily Beaufort Scale.

[Canadian Press.]
Buffalo, N. Y., March 31.—Beginning tomorrow, shipping interests on the Great Lakes will be accurately advised by the weather bureau of approaching wind forces. This will be done by the publication daily of the Beaufort scale, which has been adopted by the United States weather bureau.
By consulting the table it will be possible for vessel owners to keep closely informed of approaching winds and their relative range.
The new scale conforms to the scale now used by the British navy, and has been used in England and other countries for a number of years to protect shipping.

"I don't know what the Provincial Commission will do with reference to the rates," said his Worship. "They might order us to reduce the rates after they have seen our report. I don't know. It seems to me that the Provincial Hydro cannot succeed without the city of Toronto, and if we are compelled to proceed along lines which would discredit the system here it will go a long way to destroy the confidence of the public in the whole system. If you take the city of Toronto out of the Provincial Hydro-Electric system, the Hydro cannot live."

THE COTTON WORKERS OBJECT TO HOLIDAYS

So English Employers Will Not Close Mills As They Intended.

[Canadian Press.]
Manchester, Eng., March 31.—The general stoppage during Easter week of the mills in this district spinning American cotton, decided on last week by employers, was abandoned today owing to the strong objection raised by the workers. The condition of the cotton trade has led the employers to arrange a cessation of production, but the Master Spinners' Association has resolved to leave individual firms to act according to their own desires.

OTTAWA WILL GET WATER FROM RIVER

Ratepayers Vote to Establish Mechanical Filtration Plant—Cost of Two Millions.

[Canadian Press.]
Ottawa, March 30.—After one of the most bitterly contested municipal battles in many years—a pure water supply for the capital being the issue—ratepayers flocked to the polls today and gave the project to mechanically filter Ottawa River water at an approximate cost of \$2,000,000 a majority of 1,308.
In opposition to this plan was a scheme to take the water from Thirty-One Mile Lake via a pipe line fifty-two miles long at an estimated expenditure of \$5,000,000. This latter scheme was reported on by Sir Alex. Binnie, an eminent English engineer and the victorious project was recommended by Mayor McVety and reported on by Archibald Currie, city engineer of Ottawa.

STRIKING RAILROADERS FIRE ON FREIGHT TRAIN

Some Disorder Attends Labor Dispute on Pennsylvania Road.

[Canadian Press.]
Pittsburg, Pa., March 31.—Reports of disorder during last night along the Monongahela division of the Pennsylvania railroad, where trainmen are conducting a strike, reached officials here today. A fusillade of shots greeted a freight train, and no one was hurt. Bridges are being guarded by railroad police. Passenger traffic continued to move without interruption.

GLENCOE LOSES OLD RESPECTED RESIDENT

Mrs. Currie Was Born in England, But Came Early to Canada.

[Special to The Advertiser.]
Glencoe, March 31.—At her residence on Victoria street, after a lingering illness of several weeks, another of Glencoe's oldest citizens passed away, aged 73 years.
Elizabeth Trevelin Currie was born in Cornwall, England, and came to Canada when but nine years of age with a family of four girls and two boys, her father and mother settling first at Port Stanley, then coming to Talts Corners, South Elfrid, and living on the farm now owned by their nephew, James Trevelin. The sisters are the late Mrs. James Leithbridge, Mrs. C. J. Dowling, Pontiac, and Mrs. W. R. Dobin, Mossa. The brothers were the late William and John, both of Elfrid Township.

Mr. and Mrs. John Currie were married in January 21, 1868, and celebrated their golden wedding in January, 1906, when many attended to offer congratulations to the respected couple.
Nine boys and one girl were born to Mr. and Mrs. Currie. V. A. A., merchant, of Glencoe; J. T. and A. A., farming in Alberta; Nathaniel and Hugh, farmers, in Mossa Township; George S., contractor, Windsor; Dr. C. W., at Thamesville; J. N., merchant, Glencoe; Eddie and Alice on the homestead, Grand Farm, Longwoods road, Mossa.

The funeral will be from her residence, the homestead, on Longwoods road, on Wednesday at 2 o'clock. Interment at Oakdale Cemetery.

STOP ALL THE RAVAGES OF COUGHS, COLDS OR CATARRH

Use Pure Essence Mentho-Laxene—It Acts So Quickly That You Are Sure To Rejoice.

You can take it in doses of 10 drops concentrated and strong—or make a sugar syrup and mix it into a pint—the best pint of medicine you ever discovered. Full directions with each bottle.
The very first dose proves its effectiveness. You can actually feel its beneficial action as it penetrates the bronchial tubes, air cells and nostril passages by inhalation. The head clears up, the cough is relieved almost instantly, and then it keeps up the good work by invading the system through the stomach, bowels and blood.

We can't tell you of all the good it will do, but are willing and anxious to prove it by offering money back to any purchaser who is not more than pleased. Sold by druggists.

Cleans Cut Glass and all Glassware—easily, thoroughly and quickly. Leaves them bright and highly polished—absolutely clean. For every kitchen use Panshine is equally effective. It keeps woodwork and paintwork spotless. Panshine is a pure, white, and clean powder without any disagreeable smell—

PANSHINE
the magical kitchen cleanser.
Sold in handy sifter top can 10c.
At All Grocers

LIBERALS' DEMAND FOR COMMISSION GRANTED

R. A. Pringle, K.C., To Investigate Charges Re Southampton Railway.

[Special to The Advertiser.]
Ottawa, March 30.—R. A. Pringle, K.C., of Ottawa, has been appointed to investigate the charges made some time ago in the Commons by Mr. Carvell, in regard to the Southampton Railway in New Brunswick, and the allegation that the road had been built out of Government subsidies, with \$26,000 left over for private profit and party campaign purposes.
The announcement was made by the acting minister of railways, Hon. Dr. Reid, during the course of Hon. Frank Oliver's speech this afternoon. Mr. Oliver pointed out that under the Liberal Government a great work involving the expenditure of over \$140,000,000 had been carried on without the suggestion that a dollar of the people's money had gone into private profit or party campaign funds. Charges had been made in the House recently and substantiated, even from the Government side of the House, that under the present Government on a railway of thirteen miles there had been a make-off of \$25,000.
The Opposition demand for an investigation has finally been granted.

OPERATORS' REFUSAL BRINGS ON A STRIKE

[Canadian Press.]
Martin's Ferry, Ohio, March 31.—Because coal operators of this county refused to sign a new scale, based on the run-of-mine law, which becomes operative May 20, 6,000 miners quit work today. Operators say they will not pay for mining on the new basis until compelled to do so by law.
[Canadian Press.]
Washington, March 31.—All new tariffs filed by railroads, eliminating allowances for industrial railroads, were suspended today by the interstate commerce commission until July 30, with the exception of those affecting the United States Steel Corporation and other iron and steel companies, which were permitted to stand.

SUSPENDS NEW TARIFFS

[Canadian Press.]
Washington, March 31.—All new tariffs filed by railroads, eliminating allowances for industrial railroads, were suspended today by the interstate commerce commission until July 30, with the exception of those affecting the United States Steel Corporation and other iron and steel companies, which were permitted to stand.

EXPLORER MARRIED.

[Canadian Press.]
New York, March 31.—A cable to the Standard Melbourne says: Dr. Douglas Mawson, the Antarctic explorer, who has just returned from a trip, during which his two companions lost their lives, and made his way back to the base after 30 days of suffering in blizzards, was married today to Miss Delprat, daughter of a mine owner.

"THE DIFFERENT" PLAYER-PIANO.
All lovers of music will be interested in the special features of the new model Player-Piano made by Te Oldie Firme Heintzman & Co., Ltd., 242 Dundas street, London. This is something very distinctive about this instrument, and readers are invited to examine it, and witness demonstration of its excellence in every way.

LODGE BUILDING BURNED.

[Canadian Press.]
Newburgh, Ont., March 31.—The Newburgh drug store, owned by Prince of Wales Lodge A. F. & A. M., and occupied by the lodge, a druggist and central for the Bell and Camden rural telephone systems, was burned last evening, together with all the contents. The insurance on the building and contents of the lodge is twenty-two hundred and on the contents of the store twenty-eight hundred.

Gently smear with Cuticura Ointment; wash off in five minutes with Cuticura Soap and hot water. Sample of each free with 32-page book. Address "Cuticura," Dept. 24A, Boston, U. S. A.

How to Treat Pimples

Use Pure Essence Mentho-Laxene—It Acts So Quickly That You Are Sure To Rejoice.

You can take it in doses of 10 drops concentrated and strong—or make a sugar syrup and mix it into a pint—the best pint of medicine you ever discovered. Full directions with each bottle.
The very first dose proves its effectiveness. You can actually feel its beneficial action as it penetrates the bronchial tubes, air cells and nostril passages by inhalation. The head clears up, the cough is relieved almost instantly, and then it keeps up the good work by invading the system through the stomach, bowels and blood.

We can't tell you of all the good it will do, but are willing and anxious to prove it by offering money back to any purchaser who is not more than pleased. Sold by druggists.

Lamb-like
or
Lion-like

It will soon be at an end. Which makes very apropos a question as to whether you have your new Spring Suit.

At \$15 to \$20

We offer Suits of very attractive style, in many new shades and materials. Like everything sold at Raphael's, they are—even the lowest-priced ones—of honestly good quality.

TORONTO REPRESENTATIVE.

F. W. Thompson, 56 Mail Building.
The London Advertiser Printing Co., Limited.

LONDON, TUESDAY, MARCH 31.

A lot of states with spring floods are in states of discontent.

Inspiration seldom visits the man who waits for her with an open note book.

March came in like a lion or a lamb and will likely go out as a mud turtle.

March may be preparing to give us an April fool by going out like a lion.

Felix Diaz says that he is in the hands of his friends, which is about the most unsafe spot in Mexico.

"Who put the 'ire' in Ireland?" asks the Toronto Star. Must have been the same folks who put the "str" in Ulster.

A dispatch from Mexico says that Huerta is bottled up, but as he has a reputation for opening bottles, that should not bother him.

A noted English critic declares that Tennyson is a minor poet, but the music of his verse sometimes runs to major tones, which are undying.

When he applied for a position with one of the Antarctic expeditions, Doc Cook was turned down. It was probably decided that this was a case where more than one Cook was too many.

A refined Frenchwoman told the women of Hamilton that in Paris refined women did not wear the extreme styles that are seen on the Canadian streets. The demi monde set the styles for the ultra fashionable world.

THE DEADLY PARALLEL.

"Ten years ago this month, if my memory serves me right, I made in this House a statement similar to the one I now find it my duty to repeat. And that is this: That never at any time did I or anyone connected with me receive, directly or indirectly, one dollar or one cent from the Standard Oil Company of Ohio, or any of its subsidiaries, or any of the companies under the Sherman anti-trust law, from the state of Ohio. One of the subsidiary companies is the Imperial Oil Company of Canada, with headquarters at Ohio, and which has a pipe line running from the state of Ohio into Ontario. It would have been just as well for the Hon. W. J. Hanna to have acknowledged his long service with the Standard Oil Company in the first place. His quibbling statement that the Imperial Oil Company was a Canadian company, and his suggestion that it had no connection with the great American octopus were accepted as a technical explanation at best. Everyone knows whether or not the Standard Oil Company has any Canadian connection and the proof of its family connection in the courts of the state of Ohio will be regarded as a straight declaration that it has the Provincial Secretary of Ontario as one of its 'holdings.'"

Mr. Hanna's words had the tone of abhorrence, as he placed his denial of connection with Standard Oil on record. It must have been in his thoughts that a connection with such a company was a bad thing for the public to know. This Imperial Oil Company could be made to appear as some sort of benevolent and fraternal institution, but Mr. Hanna roared at the suggestion that he should be considered a minion of the Rockefeller juggernaut.

What Miss Ida M. Tarbell would have to say of Mr. Hanna if he were secretary of state or state senator across the border can be imagined. Even in Canada, which has not had to contend with Standard Oil because of the nation's youth, his position as a public man is greatly weakened by his superficial attitude. The light of publicity from Ohio may show Mr. Hanna close to the vast corporate interest that has ever fattened itself at the expense of a nation. He will have to explain his explanation.

MANITOBA LIBERALISM.

EVIDENTLY the Liberals of Manitoba are neither dead nor sleeping. They have just closed one of the largest and most enthusiastic conventions in the history of the Province. And they have adopted an advanced program which should appeal strongly to the electors. While attending to economic questions, matters relating to social and moral reform have a leading place. Tax reform is advocated; a fair wage clause and an eight-hour day's work is asked for on all Government contracts; legislation in aid of workmen's compensation has a place; electoral reform, and the speedy punishment of electoral and political corruption are among the planks. Temperance legislation, the

most advanced of any Manitoba has yet known, receives attention; the abolition of the bar, and more stringent regulations in the sale of liquor should enroll the support of all sincere friends of temperance. And they have gone still further in taking up the question of woman suffrage. Politicians are sometimes inclined to fight shy of this matter. But the Liberals of Manitoba come out squarely in its favor. Only they throw some of the responsibility for its adoption on the shoulders of the women by requiring that at least 15 per cent of those who might be women voters shall ask for it. We have doubts about this provision. If it is the duty of women to vote, that duty should be imposed on them, and they should be urged to its performance, whether they ask for the franchise or not. Still, we suppose, some concessions have to be made to the lukewarm in any advanced movement.

The Liberals in the Prairie Province have no easy task before them. The Government and its party are strongly entrenched. Their leaders are past masters in all the devices of political trickery. They have a hold on the liquor traffic, and by that and their retrogressive educational policy they have some control over the large foreign population. Liberalism will have to fight hard to win. But the main thing in its favor is that it is on the side of progress and reform. Their principles must prevail, and they will win with these eventually. Reports from the west indicate the growing strength of the party. And with right on its side, it will succeed. The next election will be a bitter contest no doubt. But the Liberals are more hopeful than ever, their policy is better than ever, and they are justified in anticipating a successful issue.

A STRONG MAN.

IT IS Premier Asquith and not Sir Edward Carson who is making history. The little puff of smoke in Ulster will quickly float away. But Mr. Asquith has shown England and the whole world the strength of British constitutionalism. He has added to its strength and has the country behind him at this moment in the assertion of Parliamentary government.

Mr. Asquith has the knack of making difficult things easy. In his hand a crisis turns out to be almost an ordinary matter. He is like a felder who takes difficult chances so easily that he may even miss some credit with the populace.

The honorable care with which the Premier proceeded to resign his seat on the assumption of a second salary of office, the secretaryship for war, is also an example that will go down in history with the rest of the acts of 1914. And the final carrying of the three great bills over so frantic an opposition will place Mr. Asquith among or near to the greatest of British premiers.

AN IMAGINARY PARALLEL.

IT IS just possible to imagine a parallel to the Ulster situation arising some time in Canada.

Suppose Newfoundland taken into confederation as a Province, and some influx of other Canadians into a section of the island. Then conceive that the new Province might decide to insist for various good reasons upon a larger measure of local autonomy than that enjoyed by the other Provinces, and the Ottawa Parliament passed an act granting this, but the Canadian section of Newfoundland, against the wishes of the great majority, both in Newfoundland and in the rest of the Dominion, demanded that no change be made and threatened a rebellion. How the majority of Canadians, anxious for peace, law and order, constitutional government and the greatest good to the greatest number, would rejoice to find that the officers of the militia refused to obey the Government's orders, that the bluff rebellion would likely therefore become an actuality, that the country was in for civil war, vast expense and business ruin, and that lodges of one sort or another and even cabinet ministers in Great Britain were sending messages of encouragement to the rebels in Newfoundland.

Such a case may sound as absurdly impossible as it would be unwelcome. But the Ulster fact is as strange as the fiction we have conjured up.

A RETREATING LIBERAL.

SIR MELVIN JONES, president of the Massey-Harris Company, has announced that he will no longer support the Liberal party, because it is in favor of reducing the tariff on agricultural implements. In so doing he is, of course, exercising his undoubted right. Whenever a Liberal becomes dissatisfied with the policy of his party it is both a duty and a right for him to express his opinion, more especially if he conscientiously believes that he is acting in the public interest. Liberalism has frequently had to meet with defections from this cause, and while it is not very pleasant for the leaders of the party, and may even cause a temporary setback to the party, in the end the welfare of the people, is sure to prevail.

A great many men, however, of both political parties, are largely influenced in their views on public questions by their own personal affairs. That may not be the highest form of political morals, but it is perfectly natural. If Sir Melvin thinks that the business of the Massey-Harris Company will be injuriously affected by the imposition of lower duties on the articles it manufactures, it is not unnatural for him to oppose the reduction. The fact that some slight diminution in the profits of wealthy manufacturers can be off-set by increased benefits for the masses, does not appeal to human selfishness.

But we are not prepared to admit that the fears of Sir Melvin and those who

On the Spur of the Moment
by Roy K. Moulton

Millionaires' Row.
The mansions are built without thought of expense. In Millionaires' Row. The gardens are fine and the lawns are immense. In Millionaires' Row. There's silver and gold on the table all right. The families all eat their dinners at night. But you don't hear the chirp of the cherubic mite. In Millionaires' Row.

They all own a dozen or so of machines. In Millionaires' Row. They have the correct and their fine limousines. In Millionaires' Row. They have all the gasoline wagons in style. They smash the speed limit and sport round a pile. But baby cabs? Gosh, there ain't one in a mile. In Millionaires' Row.

Their liveried servants are always on hand. In Millionaires' Row. Their talk is correct and their manners are grand. In Millionaires' Row. The luxury in every home is complete. The lights are ablaze and the music's a treat. But you don't hear the patter of baby's small feet. In Millionaires' Row.

Those people are poor who pretend they are rich. In Millionaires' Row. Without a small voice raised to high concert pitch. In Millionaires' Row. There's one joy in living of which they can't tell. I'd rather hear my kid give one hearty yell. Than to own all the mansions in heaven or—well, In Millionaires' Row.

think with him are fully justified. Britain is one of the greatest manufacturing countries in the world, and it manages to flourish, and sell its goods, though without the bolstering process of customs taxation. The United States has for years followed a policy of protection, but now it has changed that policy for a true tariff reform. It has abolished some of its duties and materially lowered others. The fear of injury

professed by Canadian manufacturers, if an honest one, is based on the admission that they cannot compete with other countries. But why? Are our businessmen less capable, or our mechanics less skillful than those in the States? Will it cost any more to manufacture goods in Canada than in the States? Does the Massey-Harris Company pay any higher wages to its employees than are paid in the States? Are their expenses any higher? These questions need only to be asked—and answers are self-evident. Even with the high tariff formerly in force in the United States our people sold quite a few dollars' worth of goods across the line. Now that the tariff has been reduced, what is the matter with Canadians that they cannot go into the markets to the south of us, and compete successfully?

The inference that the average man will be disposed to draw is that some of our manufacturers want to control the Canadian market, and secure large profits at the expense of the Canadian consumer. If that is the chief cause of the opposition to reduced duties then it is one which deserves no sympathy. A reasonable profit on their work is due to all men, but exorbitant profits at other people's cost is not. Fair profits on their business manufacturers in Canada can have, even though they should be required to meet competition. More than that they ought not to expect. With reduced duties on agricultural implements the Massey-Harris Company will be in no danger of bankruptcy. Its business is more apt to increase. It ought to be able to retain the larger share of its Canadian business, and it is in a position now to invade the markets of the United States. If it cannot continue to prosper there must be something wrong with its management or its workmanship. But its profits will not be reduced below a figure which is legitimate. And in any event the farming community upon whose prosperity Canada depends, will gain some help in the struggle for existence.

SEELY.

THE resignation of Col. Seely deprives Great Britain, for a time at least, of an able administrator. Forty-six years of age, he is still comparatively young. His career has been a brilliant one in various ways.

Educated at Harrow and Cambridge, he was called to the bar in 1897, and later served with the Imperial Yeomanry in the Boer war. He won distinction in South Africa, and before that had been awarded a gold medal by the French Government for saving life at sea. Seely is a man of courage and high honor. An upper class Liberal of the right wing, he may not be so generally popular with his party as the more radical leaders, but the last has not yet been heard of him.

WAY TO GET EVEN.
[Atlantic Constitution.]
Take your troubles by the hand—
Neither sigh nor weep.
But when they drift to Slumber Land,
Swat 'em while they sleep!

CLEVER MR. ASQUITH.

Mr. Asquith's courage in refusing to sacrifice Col. Seely will appeal even to those radicals who hold that the War Secretary made a grave blunder. The most amazing asset of the Prime Minister is his facility for getting out of tight corners, and that facility largely consists in his readiness to ignore precedents and

Musings of a Pessimist.
One of the pleasant things of this life is to buy a hat for your wife for \$21 and take it home and then have her tell you where she could have got the same thing exactly for \$9.95.

The things that a feller likes to eat and drink ain't good for him, and anyhow they cost too much.

When a man wears good clothes it's a cinch that somebody has to work for them, either himself or his wife.

If all the young gentlemen who hang around poolrooms would go to work this life would be a lot easier for the rest of us.

I never yet saw a postmaster who was against the government—at least not until he got out of office.

Signs of the Times.
Prices of \$10,000 and \$40,000 are to be given for achievements by women. Let it be hoped that the lady who invented the hook and eye will not be overlooked.

It is contended that women over thirty are eligible to the governorship of Illinois. That makes it safe. No woman will ever admit she is over thirty.

As the government is about to dissolve the tobacco trust again, it might be well to hurry and save all the coupons possible.

Thus far there is no report to the effect that anybody has got drunk on New York.

A Vassar (Mich.) man 110 years of age is looking for work. It seems as though he should have found it by this time.

Two Turkish aviators fell into the ocean and had to swim out. News to fall into the ocean more than a Turk.

In other words, Detroit has suppressed every sort of vice excepting the tango.

suit his tactics to whatever necessity arises. Those who build up the political strategy on the old text-books cannot anticipate him because he is his own textbook and no one amongst them can read him.

TO HAVE AND TO HOLD.
[Judge.]
"Does Tightwad keep Sunday?"
"I expect he does, if he ever gets hold of it."

IN SOCIETY.
Debutante—A girl who sleeps all morning drinks tea all afternoon and walks backwards all night.

SURE CURE.
[Cleveland Plaindealer.]
"Doctor, I'm feeling awful. I can't eat. I can't sleep. I can't—"
"I can cure you," said the doctor, "it'll take my advice. Go and ask her to marry you!"

THE MATERIAL INSTINCT.
[Tit-Bits.]
Marjorie, aged five, had been given some chocolates of various sizes. Picking up a little one, she said: "This is a baby chocolate" and of a large one: "This is a mamma chocolate." She then swallowed the little one, and lifting the larger chocolate to her mouth to eat that also, she said: "Don't cry, baby, your mamma is a-comin'!"

FOOLISHNESS.
[Herald.]
There is something like a panic in Germany over the steady and rapid increase in the Russian army, and the German press is full of anti-Russian stuff these days. But the official press of Petersburg retorts that the recent additions to the German army made the strengthening of the Russian army necessary. And so it goes. Probably nothing but Armageddon can end the foolishness.

EQUAL RIGHTS.
[Ottawa Citizen.]
If the people of Ulster are to be allowed to arm themselves in order to resist laws in which they do not believe, there would seem to be no reason why labor should not adopt similar tactics.

UNITED FARMERS OF ONTARIO.
[Regina Leader.]
The declaration of a representative gathering of Ontario farmers to organize the United Farmers of Ontario, which is to be an association of Ontario farmers similar to the Grain Growers' Associations of Saskatchewan and Manitoba and the United Farmers of Alberta, is a step in the right direction.

It is important that the agriculturists of Eastern Canada should become fully organized and thus be able to speak with one voice and take united action upon those great questions and policies which so directly and materially affect their interests. The manufacturers are organized from the Atlantic to the Pacific and it is well that the farmers also should be so organized.

The farmers of the West by reason of their organization have accomplished great good, and with the eastern farmers organized and acting in sympathy and conjunction with the western farmers, the voice of agriculture should become a powerful factor in molding future policies in Canada.

KING LOSING SLEEP.
[Brantford Expositor.]
"Uneasy lies the head that wears a crown," which being interpreted probably suggests that our own King George may be missing a little sleep these days.

FOR PARK PURPOSES.
[Berlin Telegraph.]
The purchase this week of the Cressman bush on the Grand River between Berlin and Doon for park purposes, by a syndicate made up of Galt, Preston and Berlin gentlemen, is generally regarded as the first step in a larger movement looking to the preservation of the natural beauty of the valley of the Grand River between Berlin and Galt.

LAW PROTECTS SHADE TREES.
[Woodstock Sentinel-Review.]
A newspaper paragraph tells how a man in Collingwood secured a verdict of \$32.57 against the water and light commission of that town for the damage done to some shade trees by the agents of the hydro commission. The paragraph adds that, according to the law as interpreted by the courts nobody, even when backed by the authority of the municipal council, has a right to cut down or mutilate any shade trees without the consent of the owner of the property in front of which the trees are standing. It is well that this should be kept in mind. One can never tell when such information may prove useful.

AN OBJECT LESSON TO FARMERS.
[Guelph Herald.]
Farm economics find a stalwart exponent in Dr. G. C. Credman, of O. A. C. At all times he courageously advances the plea that farmers are not making enough money because they are not being made to produce farms as much as they ought to, and what is more, the genial head of Ontario's Agricultural College has the proof to show that he is correct in his argument.

Farmers often advance the plea that they know enough practical farming not to require to be taught by theorists. But this argument is not proof against the assertion that the agriculturists of this province are not reaping near from the results of their labors that they might secure did they but adopt the methods which are in use by farmers in other countries, and which experiments have shown can be just as effectively used in Canada.

THE HOROSCOPE

HOROSCOPE
WEDNESDAY, APRIL 1, 1914.

He who would have power should watch each passing hour. Early today the stars are kindly in their influence. Astrologers find the sun and Uranus in benefic aspect in the morning, and, later, when Saturn and Mercury are adverse, Jupiter exercises a beneficial sway.

It is an auspicious time for conducting large negotiations. Selling is under a favorable sign. Clothiers and dealers in woolsens should benefit. The day is a fortunate one for judges, lawyers of every rank, legislators and ecclesiastics. Fame is coming to a priest who is a reformer.

Again promotion in the army and navy are foreshadowed as the result of activities in protecting the country from neighboring foes.

Owing to the influence of the sun all who hold the fate of others in their power should be peculiarly lucky in carrying out their most ambitious projects.

There is a promising indication for persons who handle gold, jewelry and snuff, miners of money and assayers should prosper while this government prevails.

There is a prognostication of a great discovery in mineral deposits in a western state.

The planets are not helpful to writers, sculptors, artists, students and professional men, who are warned to delay any important work until conditions are better.

The omen is threatening for old persons. They should guard and conserve physical energy. The signs foretell many deaths, and those to whom great success has come are said to be especially in peril.

The seers prophesy troubles for the Panama exposition, and repeat the prediction that obstacles will continue to hamper the management, which is to win great success in the end.

The moon is in a sign believed to increase ambition. It also favors investigations and public inquiries. There is a prophecy that a congressional bill will attempt to start a nation-wide movement to purify political conditions.

Persons whose birthdate it is probably will have a year of balanced good and evil. Gains and losses, pleasures and disappointments are promised by the stars. Changes are subject to a fortunate way. Young women should be exceedingly discreet.

Children born on this day have the guidance of friendly stars. Boys will be successful in business. More than one marriage is presaged. Girls will be happy in love affairs.

(Copyright, 1914, by the McClure Newspaper Syndicate.)

WOES OF MRS. NEWLYWED

"I spend an awful lot of money on soap," remarked Mrs. Newlywed. "How much I make it last longer!"

"Soap that is allowed to dry and harden lasts twice as long as if used when fresh. Therefore, it is cheaper to buy in quantities and keep it in a dry place," advised Mrs. Neighbor.

Tired Blood

That which is lacking in vitality, debilitated, weak and thin, cannot possibly give proper nourishment and strength—it must be purified, built up and vitalized by HOOD'S SARSAPARILLA.

FASHIONABLE SHOES FOR THE UP-TO-DATE WOMAN

The masculine accent in woman's footwear which was struck early in the fall, and which manifested itself in broad toes, low heels, and low, broad shanks, has never achieved any noticeable degree of popularity. In smaller towns, where the women indulge in long walks in the open country, or in cities among those women who have a fancy for country air and walks and who indulge themselves considerably in that same fancy, these boots have met with success, but such success is limited at best and its influence is too scant to meet with any continued notice from Dame Fashion.

There is small chance, indeed, that anything will come of the rumor that the broad effect will be brought in for dancing use also.

There is one new feature which is so decidedly effective that here is every reason to believe that much of the made of it this spring, says a Chicago Tribune writer. "It is the practice of

leaving off the hook and using in its place what might be termed an invisible eye, doing away with likelihood of catching the skirt in the hook. Shorter vamps, together with higher toes, are splendid models for the woman who does any amount of walking, while the longer vamp is more modish, but not so comfortable.

The use of fabrics for evening slippers, which was predicted to be so popular at the beginning of the season, has suffered a considerable lapse of public usage. Brocade, satins, silks, and other modish materials have such a decided tendency to make the foot ill-shaped that women naturally preferred to give up the brilliancy of the foot attire that the broadness afforded for something more quietly attractive and more serviceable. Kid, however, stays in prominence, and deservedly so. It takes the beaded trimmings well, and with this elaborate beaded note comes an infinite variety of buckles, clasps, and ornaments.

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letters can be answered privately.]

From Far Regina.

Dear Miss Grey, I have been a constant reader of your column and seeing that you have helped so many I will ask you a few questions.

1. Will the Turkish towelling hats be worn this summer?

2. What is the meaning of Maude, Susie, Mabel, Harry, Annie and Ruth?

3. Is it proper for girls of 14 years to go to parties at night and stay till 1:30 o'clock?

4. Should girls of 14 or 15 wear long waists or short waists?

Yours Truly,

TWO WESTERNERS.

Ans.—Not to such an extent as last year from present indications, but still some of the outing hats will doubtless be made of the towelling fabric.

2.—Maude, a heroine; Susie, a girl; Mabel, a lovely; Harry, head of a household; Annie, grace; Ruth, beauty.

3.—Generally speaking, I think not. 4.—I am not just sure what you mean by "long" and "short" waists. The slightly lowered waistline, as worn in baltan blouses, or the normal waistline, is best.

To Color a Switch.

Dear Miss Grey—I seen in the woman's page the request for the song, "I Stood on the Bridge at Midnight," so I am sending it, and would like if you can tell me what will color a light red switch?

A.—Thank you for sending the song. It appeared on Saturday last, as you will have noticed.

Make a strong solution of coffee; pour off the hot liquid and dip in a strand of the hair. If this makes it the desired color then dip in the entire switch, rinse once, and dry. This is the only way I know of; it might be better to have a professional dye it.

Answer to "Scrib."

A.—1. It would depend absolutely upon which subject the girl has talent for. Some who recite well cannot sing or play, and vice versa.

2. I should think that any recitation bearing upon child-training or development should be interesting. Ask at the public library for books containing readings and recitations.

3. It would obviously be impossible for me to recommend any particular teacher. In this column.

4. Please be a little more definite about the camping—is it to be by the lake, and how long? Garments of the middie blouse type worn with a dark woolen

Appetizing Ways to Prepare Grape Fruit

May Be Made into Salad or Jelly, or Served Plain.

To prepare grapefruit for the first course of luncheon or dinner, cut it in two in the middle, remove seeds and slice with a sharp knife. Then run the knife around the outside of the pulp, just inside the rind and six or eight times to ward the rind from the centre. The question of adding sugar depends upon individual taste and upon the acidity of the fruit.

Grapefruit Cocktail.

The following grapefruit cocktail may also be served as an appetizer. To make it take a glass nearly full of shaved ice and pour on it four tablespoons of currant juice, one tablespoonful of sugar syrup, one tablespoonful of maraschino juice. Stir together, strain and put into a sherbet glass with one tablespoonful of grapefruit pulp. This rule is enough for one portion.

Grapefruit Salad.

To use grapefruit as a salad remove the pulp from the rind and add to lettuce leaves with chopped nuts or celery. Serve with either mayonnaise or French Grapefruit Jelly.

A delicious jelly dessert can be made with the following ingredients: One-third of a cupful of sugar, one-half tablespoonful of granulated gelatine, one-half cupful of grapefruit juice, one tablespoonful of lemon juice and a few grains of salt.

Make a syrup by pouring one-third of a cupful of boiling water over the sugar in a saucepan and boiling for three minutes. Remove from the fire and add the gelatine which has been soaked for a few minutes in one-half tablespoonful of cold water. Add the grapefruit juice, the lemon juice, the suggestion of salt, and strain through a fresh piece of gauze into a jelly mould or into individual cups and chill.

There are some lips from which even the proudest woman loves to hear the capture which appears to disprove indifference.—Bulwer Lytton.

A good woman is a hidden treasure; who discovers her will do well not to boast about it.—François de la Rochefoucauld.

skirt, a raincoat, sweater, and bathing suit, would be classed among the necessities, I think.

To Waterproof Cotton.

Dear Miss Grey, I am making an awning for my window and am afraid it won't keep but water. Could you tell me what to do with it and oblige.

Ans.—This is said to be a sure method of waterproofing cotton or cloth. From personal experience I cannot say if it is reliable, but should be worth trying at least. Dissolve separately equal parts of alum, soap, and kerosene, in sufficient water to make a tolerably strong solution. Then mix all together and with a brush apply the mixture on the wrong side of the cotton. Then dry, and give a second treatment if thought necessary.

Voile, Cakes and Pans.

Dear Miss Grey—I have a voile dress, a white one, which is soiled round the bottom; also there is a brown ring caused by cleaning one pane of window with it. What would you advise me to do with it, and could you tell me the reason that my cakes always burn on the top before they are done through? I also have a double boiler, but the bottom part of the saucepan is caked with lime; could you let me know what would remove it, as I use that only for water, but if I could get it off I could use it for anything?

Wishing you every success in your work, hoping you will oblige me by putting it in The Advertiser as soon as possible, as I am fond of reading your column, and oblige, yours truly, TIBBY.

Ans.—The frailty of voile renders it very hard to clean. You might try dipping it into gasoline and rubbing gently, then dry in the open air and press with a moderate iron. It is almost impossible to get a "ring" removed from fabric of any kind. I feel sure that the most satisfactory results will be obtained if you send the dress to a cleaner's. Always remember in using gasoline to conduct the process away from fire or open light.

2. There must be a defect in the oven, Tibby; is there no way of regulating the heat better, so that the bottom will heat up quicker? If not, I fear I can only give this homely advice: put two or three thicknesses of yellow paper over the cake as soon as it is nicely beginning to brown. This will prevent the cake browning too much.

3. The lime may be loosened and removed by boiling a little sal soda and water in the pan for half an hour or so. Afterwards, scald thoroughly with clear water two or three times.

4. Please be a little more definite about the camping—is it to be by the lake, and how long? Garments of the middie blouse type worn with a dark woolen

More and more is the negligee becoming a formal affair—as a satisfactory as that may sound, in which a hostess may appear before guests and which saves indoor wear and tear on street clothes. Here is a dainty one developed in that soft clinging stuff, tango crepe, which undulates with the movements of the figure. Over it is posed a sheer drape of machine embroidery in Colbert lace pattern, held with rosettes of rose velvet, contrasting with the pink of the tango crepe.

GRAY HAIR

Dr. Tremain's Natural Hair Restorative used as directed is guaranteed to restore gray hair to natural color or money refunded. Positively not a dye and non-injurious. On sale at Anderson & Nellie's drug store, 268 Dundas street, London, Ontario, \$1.00 (postpaid). Write Tremain Supply Co., Dept. T., Toronto.

Pot-Pourri

Conducted by "THE NOMAD."

Queen Mary's example has brought about a revival in the popularity of needlework among society women, says the London Standard. Woman throughout all the ages has been renowned for the products of her needle, but in recent years "useful" arts have come rather to be looked down upon by women of leisure. Many leading schools for girls have omitted from their curriculum "plain" knitting—to replace it with various complicated forms of needlework more ornamental than useful.

But the Queen has reformed all that. She is rarely seen "at home" without some needlework in her hands. Year by year she has contributed woollen petticoats and similar articles of attire of her own making to charities.

Princess Mary, too, has learnt all about useful sewing. Princess Christian is rarely without some "work," while the German Empress, the Queen of Norway, and Queen Amelia are all admirers of needlework. Thus by the force of royal initiative we are to revert almost to the Victorian days, when girls took a pride in the shawls and lace collars their nimble fingers evolved.

No Berlin Wool.

"Though there is a great revival of the needlework beloved by Victorian misses, the work produced is far more beautiful than that which excited admiration in those days," explained the secretary of the Royal School of Art Needlework at South Kensington to a Standard representative yesterday.

"Berlin wool creations are dead! Many society women are very excellent workers for needlework, they find it an excellent means for the 'brain-fag' and 'nerves' that are apt to beset them."

"I know quite a number of aristocratic young women who are engaged in making their wedding veils. Whether they will be able to finish them before the date of the wedding is, of course, another matter."

"Lace making is perhaps not quite so popular as embroidery, for the latter is more quickly finished, and is less trying to the eyes. One of the most popular forms of needlework now is a dainty little picture on silk or satin, a portion being sewn and the rest painted in. Small pieces of tapestry are also often executed."

A boom in old lace has followed as a natural sequence to the fad in needlework. Fine specimens are fetching enormous prices, and some firms are kept busy repairing old lace. Many of the pieces entrusted to them have been found in old dowry chests, and with them comes a faint smell of lavender.

How does
that strike
you, Earl?
But listen!
The worst is
yet to come.
Get tomorrow's
paper and
see how they
try to spend it.
Remember, a fool
and his money
are soon strangers.
Fisher's MARK.

CANADIAN LEAGUE PLAYERS WILL REPORT NEXT WEEK

First Lot of London Players Arrive in Marietta on April 7—
Main Squad Reports a Week Later—Baseball
Season Close at Hand.

(BY JINX.)
The baseball season is advancing with leaps and bounds. In a little over a week, the major leagues will lift the curtain and the 1914 season will be under way. A little over a month and the Canadian League will also launch out into the 1914 pennant race. And yet it is only a little over a week ago that the players were all brought up over the hockey game between Berlin and Western University.

Local Report April 7.
A week from today, the first of the London Club recruits will report to Manager Reising at Marietta, Ohio, and in two weeks the whole London team will be at work preparing for the season in the Ohio city. From then on until the opening game time should speed quickly for local enthusiasts. The London Club's players will probably report earlier than the players of the other clubs. The Peterborough team will not report at Youngstown until April 15, while Shantou until April 20. The Erie Club will train in Erie, starting about the end of next week. Manager Yates will likely have his Hamilton players report about the first of next week, while Brantford and St. Thomas players will have not all been picked yet, but some of them are working out with the International Leaguers at Marietta. The grounds at Marietta are in fine shape, and all ready for the team. The Marietta College Club is at present using them for working out.

A TORONTO PROSPECT

FRED SCHULTZ, outfielder, who made a splendid record with El Paso last year, now training with the Toronto team.

"Dad" Stewart Will Likely Sign With Brantford Club

Former London Right Fielder Has Not Yet Signed For the Coming Season But Deneau Is Said To Be After Him.

[St. Thomas Times.]
"Dad" Stewart, the former manager of the Saints and London's right fielder last year, is still unsigned. "Dad" is at present holding down a job as brakeman on the Wabash at his home here, and the strenuous life on the railroad has kept him in good shape. There's no doubt that when the ball season opens the Wabash will be short one good brakeman and some team in the Canadian League will get one good outfielder, and a good sticker in the bargain. Dad, it is understood, is in communication with several of the Canadian League managers, but owing to the fact that his home is in St. Thomas, he prefers to remain with the Canucks. He is in the lucky position of being a free agent, his contract with London last year being for one season only. Consequently he can choose his own masters. He was the choice of a section of the directors of the St. Thomas team as manager for 1914, but now that is settled he is being sought as first lieutenant to some of the other managers. Dad's many years of baseball experience, together with his value as a fielder and as a hitter, especially in the pinches, makes him a valuable man on any team. This was shown by his work with the Cockneys last year. One department in which Stewart excels is in getting runs over the plate that a majority of players in the league would lose on close decisions. Dad has the faculty, when closely pressed for time at the plate, of doing a fadeaway slide to either side, that generally leaves a catcher feeling around among the dirt or atmosphere for some place else to place the ball. This has been the deciding point in games. It has been the deciding point in games. From the present outlook it would not be surprising to see Stewart back with Brantford. Deneau is getting together a good team for Brantford, and is said to be figuring on the services of the man who helped him put London in second place last year.

FINES ELIMINATED FROM PRO. HOCKEY

Players Will Be Ruled Off Instead Next Season.

SOME CHANGES IN RULES

No Offences From Goalkeeper, and No Faceoffs Within Ten Feet of Nets.

Montreal, March 30.—That there will be almost a complete revision of the playing rules for professional hockey for next season was practically assured at a meeting of the representatives of the National Hockey Association and the Pacific Coast League, held here today. The session was a long one, as not only the playing rules and the penalty system were discussed, but two of the three men allowed the Coast League by draft were selected. Each of the clubs in the N. H. A. is allowed in alternate years to reserve any three of their men, while the Coast League has the choice of the others. The two men chosen by the Pacific Coast League today were "Skeene" Roman, of Ottawa, and George O'Grady, of the Wanderers. The third man will be chosen from the Quebec club as soon as they have finished their season.

The most important change suggested is in the penalty system. It was almost unanimously decided to do away with fines, and for any infringement of the rules a player shall be ruled off for the stated period. The time set for the minor and major penalties was not decided on, but it is likely that it will be of the same duration as the penalties used in the recent Stanley cup matches. A player will be given a warning, after which he will be ruled off for five minutes, and for a second offence his penalty will be increased. The rule introduced the latter part of the season not allowing players to "body" check one another into the fence, will also be adopted. To Help Catch Loafers. The rink will be divided into three sections by colored lines drawn across the ice so as to assist referees in catching loafing. It was decided to continue next season with six-man hockey in the N. H. A., and seven-man hockey in the Pacific Coast League. There will be no offside from a goal-keeper, and there shall be no face-offs nearer than ten feet of the nets. So as to eliminate the scrapping of players during a face-off, it was suggested to make the other players on a team stand five feet from the net facing the puck. The suggested changes were passed by the representatives and they will pass at the annual meeting of the N. H. A. in June without a doubt.

WOODSTOCK TENNIS ONLY WON ONE GAME

[Special to The Advertiser.]
Brantford, March 30.—Four teams of basketballers from the Woodstock "Y" played the local "Y" teams tonight, the visiting small boys winning the first game 9 to 7. The second junior game went to the locals, Brantford 29, Woodstock 15. The local intermediates overwhelmed Woodstock 50 to 6, while in the senior game the score was 50 to 6 again.

INGERSOLL NOXONS WILL ENTER THE W. F. A.

Will Also Place a Strong Team in Town Football League, Which Meets Wednesday.

[Special to The Advertiser.]
Ingersoll, March 30.—A meeting to discuss the football prospects has been called for the council chamber at eight o'clock Wednesday night. The primary object of the meeting is to reorganize the town league, which has been very successful during recent years in fostering the game and developing new material. Judging from the interest that has been manifested up to the present, there will be a large attendance at the meeting. The Noxons, it is understood, have a very strong team, and under any circumstances they will probably enter the W. F. A.

WOODSTOCK LACROSSE ENTHUSIASTS TO MEET

Will Organize an Intermediate Team at Tonight's Gathering—Good Material to Pick Team From.

[Special to The Advertiser.]
Woodstock, March 30.—A meeting will be held in the council chamber tomorrow night for the purpose of organizing a lacrosse club to represent Woodstock in the O.A.L.A. The men who are interested believe there is enough material to place a strong intermediate team in the series, and feel if a good group comprising London, St. Mary, Brantford, can be formed that the game will flourish here. There is quite a lot of good material in the city at present, and the lacrosse fans can feel assured of seeing some fast games this summer. Officers will be elected and delegates appointed to attend the O.A.L.A. convention in Toronto on Good Friday.

These organized baseball owners who have been worrying for the Feds. because they might have trouble controlling their men forget that a player who has only one job in sight is likely to protect himself by behaving. Judging from a glimpse of the error of their ways, Heinie Zinn is in mid-season form already. John E. Madden is going to race Margaret Parrish this year. Under the new rule she is eligible to the green classes, although she trotted a public mile in 2:05 1/2 as a 4-year-old.

BLANDING AND KAHLER ARE GETTING PREPARED

See Attorneys in Order to Plan Course of Action in Case Federalists File Suit.

Cleveland, Ohio, March 30.—Pitchers Fred Blanding and George Kahler, against whom the Federal League has threatened to bring suits to enjoin them from playing with the Cleveland Americans, spent today here in consultation with the attorneys of the Cleveland Club. They arrived secretly this morning from the training camp at Athens, Georgia, and left tonight to join the team at Atlanta. The visit was for the purpose of planning a course of action in case the suit is filed.

As to that new caddies' organization the first rule should be a stroke-a-hole discount for all players paying double caddy rates.

TOM L. HAYGARTH SAYS:
"A hat worth one hundred dollars."

"Wednesday morning I will show in the window a special imported silk hat, made by the Peerless Hat Co., of New York City. It is size 7 1/4 and is worth \$100.00. This is hat week at the Semi-ready Store. I will buy your old hat for 50c. The only condition is that you buy your new spring hat of us." The Semi-ready Store, 182 Dundas Street.

SAINTS WILL INVITE DUKE TO SEE THEM PLAY ERIE

Governor-General of Canada to Get Invitation to St. Thomas Park for Ball Game.

[Special to The Advertiser.]
St. Thomas, March 30.—The management of the St. Thomas baseball club will invite the Duke of Connaught to attend the game scheduled at St. Thomas Park on May 12, with George O'Neill's team. This is the day his royal highness is to visit St. Thomas, and Mayor Johnson has declared it a holiday. It is thought likely the duke will inspect the Twenty-fifth Regiment and Collegiate Cadets at Pinetown Park, and an effort will be made to have him witness a few innings, if unable to stay for the entire game.

PORT ELGIN WILL ENTER TEAM IN THE O. A. L. A.

Enthusiastic Meeting Held Last Night—R. C. Crawford Elected President for Coming Season.

Port Elgin, March 30.—At a most enthusiastically attended 40 local young men, a lacrosse club was organized today. It was decided to enter the team in the O. A. L. A. The town has a lot of good material, and with Dr. Power as manager and William Hartley as coach a winning team should be produced. This year lacrosse has been revived all over Canada and the game is to be played in nearly every town school. It is up to everyone to get busy and boom Canada's great game and this year have a team in Port Elgin equal as fast as those of a few years ago. Following are the officers elected: Patrons, C. M. Bowman, M. P. P. Hugh Clark, M. P. D. J. Izard, R. J. Ranney, C. Currier, H. Mulveney, F. R. Barber, C. F. McPherson, A. E. Nelson, W. Baker and J. Coulter. Honorary president, Dr. Wells; honorary vice-president, J. Hepler; president, R. C. Crawford; vice-president, E. Roy Staley; secretary-treasurer, E. W. Martin; manager, Dr. Power; coach, William Hartley; managing committee, William Hartley, secretary-treasurer, S. Morton and J. O'Leary.

MEMPHIS PITCHERS TOO STRONG FOR THE REDS

Memphis, Tenn., March 30.—Liebhardt and Steel, pitching for the Memphis Southern League team, were effective at all stages of today's game against the Cincinnati National League "regulars," which Memphis won 4 to 0. Frank Baker only got three hits out of the first five times at bat this spring, and not one a homer. He's slipping. You may sell, you may transfer, the Cubs if you will. But the Murphy-like odor will cling to them still. One consolation is that there will be small opportunity for scalping tickets at the Chicago Club park this season.

FOUND OUT WHAT HE GOT DAT MONEY.

BY FULLERTON.

A small Colorado Clara person cleaned up the crap game. He went to the nearest saloon, displayed his roll and called all hands to drink. The town bully, a giant black, was standing by the bar and

he demanded, "Niggah, whar yo' git dat money?"
"None yo' business whar I got dat money. Dat money my money."
"Gib me dat money, niggah."
"Barn, bam, blowie, blowie bam—and the bully was stretched on the floor, blinking, with the yellow man standing over him. The bully blinked and, standing upward, inquired:
"Niggah, who is you?"
"I see de niggah you thought you wuz when I come in."

Knap McCarthy thinks well of his 2-year-old by San Francisco, out of Ethel Mc., 2:07 1/2.

MACKMEN AND PHILLIES BEGIN SERIES WEDNESDAY

Both Teams Will Use Their Regulars
—Mack's Recruits Are Still
in the South.

Philadelphia, Pa., March 30.—Baseball will take its place on the sporting calendar of Philadelphia this week. The world's champion Athletics, who arrived yesterday from their training trip, had planned to play the University of Pennsylvania at Shibe Park today, but the game was called off because of wet weather. The two teams will play at Shibe Park tomorrow.

HERBERT S. MILLS ADMITS HE IS AFTER THE CUBS

Will Not Discuss Matter Other Than
Saying He is at Head of
Syndicate.

Chicago, Ill., March 30.—Herbert S. Mills admitted today that he was the head of a Chicago syndicate formed to purchase the Chicago National League Baseball Club.

SOME FAST TIME MADE BY SOUTHERN SPEED BOAT

Hydro-Bullet, of Chicago, Did 43.9
Miles in An Hour—Oregon
Kid Wins.

St. Augustine, Fla., March 30.—The southern championship speed boat races for 1914 opened today. The first event, a half mile trial against time, was won by the Hydro-Bullet, of Chicago, which travelled at the rate of 43.9 miles an hour. Earl C. Deakin is the Hydro-Bullet's owner.

FUTURITY TO BE RUN AT SARATOGA IN AUGUST

New York, March 30.—Announcement was made by the Jockey Club tonight that the Futurity, the chief two-year-old event of the American turf, will be run at Saratoga in August. The race this year, it was stated, was made possible through the contribution of \$2,500 guaranteed by the Saratoga Racing Association, making the purse \$5,000, as provided for in the conditions of the race.

FULLERTON STUDIES "CLASS" IN TRAINING CAMPS, AND FINDS AS MUCH OF IT IN LEADING MINORS AS IN MAJOR LEAGUES

By Hugh S. Fullerton.

Hot Springs, Ark., March 30.—Class in baseball is a subject that has been discussed ever since two leagues named themselves majors and lettered the others. This spring there is a lot of discussion as to whether or not the Federal League will "class" with the majors.

There is a glorious opportunity to study "class" here at Hot Springs. Right now, and it is interesting. I'll wager that not one in a thousand baseball fans can go to the three parks here and tell by their playing whether they are watching the Boston Americans, the Pittsburgh Pirates or the Indianapolis Association team, unless they know the men and the uniforms. An expert might find blemishes in the individual actions of the Indianapolis team, but the article of baseball that Jack Hendricks' boys are exhibiting is just as good as that of the Pirates, and, frankly, just between us, and fearing to be accused of heresy, it is more advanced, modern and up to date than the kind the Boston Red Sox are showing at the other end of the valley.

Jack Hendricks is a major league manager. He has proved this fact with every club he has ever handled: Springfield, Fort Wayne, Denver. He knows a ballplayer, and he knows how to handle ballplayers. He gets results, and it is an experience to see him this spring handling a bunch of players mostly unknown to him, whipping a new team into shape, and making a team that must fight for prestige in Indianapolis against the Reds, and in the Association against stronger teams.

Hendricks' team is composed of cunningly-chosen players. He has five men who, a year ago, were looked upon as major league promises. Evidently Hendricks spotted them at that time, and thinks, with a year more of experience, they are better than when the major leagues found them wanting in something. He has a corking pair of youngsters, one in the infield, one in the outfield, and it looks as if he had a pretty fair array of pitching talent.

The Indians have, to my way of thinking, the best training grounds at the Springs, sheltered between two mountains. It is protected from wind on three sides, and gets the sunshine. The catching staff is good enough. Paddy Livingston has been a corking catcher for many years. Vann is a good man, and McCarthy, from Troy, is very promising.

The pitchers are getting a chance to show their merits. Willis and Burk, who once were with the Cardinals, and Harrington, who once promised to be a Chicago find, are with the team. La. Roy, the Indian, Mertz, Schardt, Gaskill and Wetzel make a promising array.

WANT HALF-HOLIDAY FOR FEDERALS OPENING

[Canadian Press.]

Annapolis, Md., March 31.—The House of Delegates late last night unanimously passed a joint resolution to make April 13 a half-holiday in Baltimore City in honor

Indianapolis A. A. Team on Their Training Field at Hot Springs, Arkansas.

Photographs By Durborough.

of the opening of the Federal League baseball season.

WANT DATE CHANGED.

[Canadian Press.]

New York, March 31.—Many professional golfers have attached their names to petitions requesting the Metropolitan Golf Association to change the date for the

ing by the scouts. He hits a ball as solidly almost as his brother Otis does. Kelleher, once with the St. Louis Cardinals, has class enough for the

open championship at Seaside from August 12 and 13 to the week earlier, in order to give the "pros" more time to reach Midlothian for the national open championship and get practice.

BOSTON SHUT OUT ATLANTA.
Macon, Ga., March 30.—The Boston Nationals today defeated the Atlanta Southern Association Club here 1 to 0.

major. Galloway is another Cardinal recruit.
Cole, from Lincoln, Niles and Reilly make up the outfield.

Walter R. Cox has bought Peter Scott (2), 2:28½, now a 5-year-old, for a reported price of \$10,000. This son of Peter the Great is said to have trotted in 2:07 last year.

Four early closing events are announced at the West Michigan State Fair, September 2 to 5.—They are \$1,000 apiece for 2:24 and 2:14 trotters and 2:19 and 2:12 pacers.

Canadian League Dopelets

Thrillkill, the new third baseman, signed by Midge Craven, of the Saints; is an Indian. He batted .248 last season and fielded .934. St. Thomas will have Nevitt, another Indian, on its line-up this season.

Dispatch from Macon: Trout looks bigger than a year ago, and has every hope of staying in class AA ball.

Manager Yates, of the Hamilton club, will report in that city on Wednesday. The Hamilton management will then be wised up as to the players that have been signed up for this season.

Ottawa has become enthused over the fact that Frank Smijkel has signed up for 1914. Smijkel was a joke last season, and it is hard to see why Ottawa should show any interest in his return to the club.

Bill Baker has not yet signed up with the Saints. Bill is "pursuing the even tenor of his way" at the London Hospital for the insane, where he is employed, and he is not worrying any. The Saints cannot get along without him and they'll come across, all right.

Little is heard about the Erie club

this spring, but there is no doubt that Manager Smith is doing some signing up on the quiet and he will have a fine collection of players when the season opens.

The Senators will train at Chatham this spring, but London would make a better training place than the Maple City. This city has a fine ball park and springs that equal those at Chatham, while the weather is just as good.

Toronto Telegram: Joe O'Hara, the diminutive Toronto outfielder, is popular with the club, and the members are all hoping he will make the Toronto Canadian League team, for a place on which he is a candidate. A quiet and gentlemanly little chap. Everybody is pulling for him.

According to Dr. Reising, Dummy Taylor should have no trouble making good at Erie. The former Giant has a great head on him and lots of experience. Many of them get by on less.

Bradshaw, the Berlin pitcher, drafted by Toronto, will hardly do for the International League team, but it is likely he will be found with the Canadian League.

EDDIE HOLLY WILL MANAGE TORONTO

Released by International
League Team Yesterday.

ISACCS WILL ALSO PLAY

McCaffery Releases Three Players
From International League Team
to Canadian League.

Toronto, March 30.—President James J. McCaffery of the Toronto Ball Club today announced the release of Eddie Holly, Pitcher McGinn, Infielder Charlie Isaacs, and Catcher T. C. Burns to the Toronto Canadian League Club. Burns, McGinn, Isaacs and Isaacs are all three Toronto boys, and Isaacs were with the Port Huron League last year, while Isaacs was with the New York State League. The release of Eddie Holly settles the question of the manning of the Canadian League team.

EX-ST. THOMAS PITCHER TRYING TO LAND BERTH

[Special to The Advertiser.]
St. Thomas, March 30.—Bert Molineux, formerly pitcher of the St. Thomas baseball club, who was also with Knott's Lee's Hams and the Ottawa Senators, drifted into town this morning, looking in the pink of condition. "Molly" would like to join Craven's squad, but Midge has too many twirlers and cannot use him. He, however, should get a berth with some Canadian League team, as he has some good games in the 1913 season. Molineux was with Dayton, Ohio, part of last summer.

Pittsburg has a pitcher named Mammaux, but released Pitcher Pappa before Fair, September 2 to 5.—They are \$1,000 apiece for 2:24 and 2:14 trotters and 2:19 and 2:12 pacers.

PITTSBURG FEDERAL CLUB ATTACHED BY SHERIFF

Charles H. McGurgan Claims There
Is \$3,460 Owning Him, So At-
tachment Is Made.

Pittsburg, March 30.—A foreign attachment in a suit in assumpsit against the Exposition Park Association, owners of the Pittsburg Federal League Baseball Club, was entered in the local courts today by Charles H. McGurgan, who claims that the association is indebted to him in the sum of \$3,460 for salary and commission for selling stock of the association. Three local banks and the Baltimore and Ohio Railroad were named as garnishees. The sheriff was directed to attach the leasehold and the Federal League franchise and all personal property of the defendant in the hands of the garnishees. Bail to dissolve the attachment was fixed at \$6,920.

CUBS BLANK EVANSVILLE.
Evansville, Ind., March 30.—The Chicago Cubs shut out the Evansville Central League players today 10 to 0.

GIANTS BEAT HOUSTON.
Houston, Tex., March 30.—The New York Nationals defeated the Houston Texas League team here today 5 to 3.

MEALS HIT BACK? DYSPEPSIA, GAS, SOUR STOMACH—PAPE'S DIAPEPSIN

Try It! In Five Minutes Indigestion Goes and Stomach Feels Fine.

Millions of men and women now eat their favorite foods without fear—they know it is needless to have a bad stomach.

Get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Stop being miserable—life is too short—you're not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without fear of rebellion in the stomach.

Pape's Diapepsin belongs in your home. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement, it is handy to give instant relief.

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "Fruit Laxative" Cleanses Stomach, Liver and Bowels.

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, salivaceousness—take "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels.

A tablespoonful tonight means all constipation, poison, waste, indigestion, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of "California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative does not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Syrup Company." This city has many counterfeit "fig syrups," so watch out.

When Run Down

in physical condition it is usually because the action of the organs of digestion has become irregular or defective. Then there is need for a safe and speedy medicine to relieve the ills which occasionally depress even the brightest and strongest. The one remedy you may take and feel safe with is

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World)

The first dose gives speedy relief in sick-headache, biliousness, constipation, lack of appetite, heartburn, dyspepsia, and lasting improvement follows the timely use of this favorite and reliable home remedy. You will become healthier and stronger, and more cheerful if you let Beecham's Pills

Pick You Up

Directions with every box point the way to health and are especially valuable to women.

SLIGHT DROP IN THE PRICE OF MAPLE SYRUP

Hay Continues Main Offering—Eggs Firm at Recent Prices.

Tuesday's market was a small one, featured only by about a dozen loads of hay, which sold slowly. The price per ton was around \$13.50 and \$14. Several loads of straw were on the square, but the demand was also slow, and prices kept below \$7.50 per ton.

Dressed hogs were slow at the low price of \$11.50 and \$12.25, and are expected to drop even lower as the weather becomes warmer.

Potatoes were slightly cheaper at 90c and 85c per bag retail, but the prices remain unchanged.

A few dozen eggs brought the quoted prices, 18c and 19c per dozen wholesale, and 25c per dozen in five dozen lots, and sometimes by the single dozen.

Maple syrup was scarce, and is likely to continue so, selling at \$1.30 and \$1.40 per gallon, which is slightly cheaper than Saturday's price. The quality in most cases is good.

Per Cwt.

Wheat, per cwt.	\$1.67
Oats, per cwt.	1.25

Winthrop

March 30.—Wheat prices were weak from the opening and quite a sharp decline was recorded. Liverpool cables were lower at the opening and this time and the influence of the wheat prospects lowered values considerably. The only support was from export buyers who were buying from time to time for future delivery.

Oats opened unchanged, but weakened later. Flax was unchanged at the opening, but closed with a loss of 3c to 3 1/2c. The cash demand for flax from export buyers was few, while exporters were buying for future delivery.

Cash oats were in fair demand while there was a rate of 10c to 11c lower. Cash wheat closed 1/4c to 1 1/2c lower. Closed 1/2c lower and cash flax closed 1 1/2c down on all grades.

The total shipments Saturday were 213 cars, against 464 last year, and in sight were 215 cars.
