Germans Rushing Units From Other Points to Face British, REPORTS SHOW But Assaults on Thiepval Fail—British Report Heavy Fighting During Night and Advances at Important Points | Pressure on Central Powers

[Canadian Press.]

Press Camp in France, July 5.-The British have taken eleven guns. The relatively small number captured is due to the fact that the Germans, in anticipation of the attack, withdrew their guns to longer ranges. It is reported by prisoners that the Germans are sending in reserves hastily from many points on the western front.

(Canadian Press.)

London, July 5, 1:51 p.m. — A Reuter dispatch from the western front says the Germans made a counter-attack on the new British positions at Thiepval after a heavy bombardment, but were easily repulsed. Prisoners are quoted as having stated that German units are being rushed to the Somme front from as far as Verdun to the east and Lens to the north.

According to this dispatch, a German officer who surrendered 150 men in a body, said he thought they would be of more use alive in Germany after the war

MADE FURTHER PROGRESS.

"Heavy fighting continued throughout the night in the neighborhood of the Ancre and the Somme," ays an official statement, timed 1 p.m., which was given out here today. "We made further progress at certain important points.

"German artillery has been intensely active in certain sectors. In the neighborhood of Thiepval two determined attacks on our new trenches were beaten off with loss to the enemy.

There were no important developments on the rest of our front."

BAYONETS OF TOMMIES TOO MUCH FOR BOSCHES IN RUSH TO SURRENDER

(BY FREDERICK PALMER.) British Headquarters in France, 4.-Correspondents at the front have been permitted to see a good deal at close quarters of the fighting in the most hotly dis puted area.

This resulted yesterday in their seeing the surrender of virtually an entire battalion of the 186th Prussian infantry after they had been driven out of their trenches between Mametz and Fricourt.

Smart Bit of Work. "It was a smart and effective piece of work on the part of the British infantry, strongly supported by bombers. As British advanced the Germans threw hand grenades and started rifle fire, but apparently they had no machine guns. The British infantry dashed into the southern end of the trench with fixed bayonets.

Ran For Their Lives. "The Germans ran for their lives to the opposite side, and with up-

lifted hands and white handkerchiefs waving widly in the air, rushed across to the British lines yelling 'Kamarad! Kamarad! Do not shoot. We surrender!"

"The Tommies did not shoot, and presently twenty officers and 600 men were marched in to the British lines as prisoners of war.

"The German battalion which surrendered had been sent up to that position only a short time before to take the place of some troops which had been badly maul-It did not take them long to decide that they, too, had had enough."

Sport Coats Are In Popular Favor

The first days at the seaside are interesting, and are tersely described The first days at the seaside are interesting, and are tersely described by Mrs. Westerman, the fashion artist, nationally known for her charming illustrations.

The weatherman must be a sufferer from nervous prostration if he tries to keep us with "clouds and sunshine" at the seashore these days, and it is at these watering places where one sees the sport coat in all its varied beauty. No matter what Old Sol may say today, it is

not safe to venture further than one's veranda without a coat. Ah! but here is the real reason: Coats are fashionable. Every smart woman wears a coat, or earries it over her arm.

The exclusive shops (and your store's not one whit behind) of the avenue, as New Yorkers love to call it, are showing great numbers of silk jersey coats in stripes and plain cloths. But the coats growing in favor are of a velvety woolen texture, resembling velour. Tweeds are much worn by women who motor a great deal. Tennis and golf have their favorites, generally of wool jersey cloth or silk. Above all else, to be essentially smart, coats must be very loose, long coats falling in ample folds from the shoulders, actually enveloping the body several times if the chill winds blow too energetically.

Exclusive Styles in Sport Coats

These are coats people stop and gaze at, exclusive novelties of exquisite beauty; materials, as well as styles, are exclusive.

Endowment Insurance at Ordinary Life Rates

The Imperial Accelerative Endowment Policy is a combination of all that is best in life insurance.

Premiums payable under this contract are only slightly higher than the Ordinary Whole Life rates, and one does not have to "Die to Win" because, under any circumstances, the face value of the policy is payable to the assured himself not later than at age 75.

All the usual options of dealing with the profits at the end of each five year period are provided. In addition, two special options are granted under which the profits may be used, to reduce the number of premiums payable, or to hasten the maturity of the policy as an Endowment. An Accelerative Endowment will ensure your own

independence in old age, if you live; the independence of your family, if you die. Write now for our booklet which explains in detail

the distinctive features of this most desirable policy. THE IMPERIAL LIFE

NEWS OF ALLIES' OFFENSIVE IN EAST AND WEST FRENCH CLEAR WAY FOR ADVANCE TO THE SOMME

Only German Soldiers in Open Field Formations To Be Met, Says Gen. Maurice

OFFICER EXPLAINS PART BRITISH HAVE BEEN TAKING IN WARFARE

Followed the Wishes of General Joffre in Standing By and Making Preparations For Great Offensive.

[Canadian Press Cable.] London, July 4 .- "Only German solopen field formations now stand between the French and the River Somme," said Major-Gen. F. B. Maurice today, referring to the part of the river which flows northward to the east of the sector along which the French have made their greatest gains. "The last of the enemy's defensive works in that sector have been captured by our allies."

In giving the Associated Press summary of the results attained by the Allied offensive on the western front, Major Maurice, who is a direc tor of military operations of the imperial general staff, continued:

"Much undeserved obloquy has been heaped upon the British army by English, French and American people because we apparently did nothing to assist the French in the desperate fighting on the Verdun front. But all this time we were doing the part requested by

For certain tactical and moral reasons, which need not be dilated on, it was necessary that the French should not lose the east bank of the Meuse, and Gen. Joffre informed us that he could hold the positions which command that part of the river until the end of June, so we knew we were going to strike at the beginning of July.

"The blow planned by the Allied general staffs included offensives by the Russians and Italians which, I do not need to tell you, already have begun. We are not disappointed with our own advance, which we expected to be slow, and we are enormously pleased with the wonderful progress made by the French, who with comparatively light losses are sweeping forward to the Somme.

Realize Change Has Come in the Relations of the Combatants.

[Canadian Press Cable.]

LONDON, July 4.—10:05 p.m.—The wo British official dispatches issued today record little change in the situation on the British front. An entirely new offensive has been opened against Prince Leopold's Bavarian forces in the region of Baranovichi, where the Russians have plerced the German lines at two places; while the Italians are maintaining strong pressure along their entire front.

Great Moment Has Come The British newspapers consider that these events prove that the moment of "the great squeeze" has at last arrived, and not since the war began have hopes run so high. Nevertheless, almost every British correspondent on the western front warns against being over-sanguine, and daily reiterates that the progress must necessarily be slow and methodical.

Up to the present the Anglo-French captures in the battle of the Somme total more than 14,000 prisoners, 12 heavy guns and 28 field guns. This booty represents for the man in the street a very satisfactory result of a little over three days' fighting.

INSULT OR JOKE?

OW MANY American people subscribe to the belief that the United States is in danger of invasion "from the north?" How many believe that Canadians are not only capable of carrying war into the neigh boring republic's domain, but that our men would commit deeds fashioned after German brutality toward women and children in Belgium? Few will be found on either side of the border who would set up such a possibility. Yet

for July appears an article under the title "Peace at Any Price," by Earle Harrison, described as "one of the scotched it. fellows who has got to do the fighting."

along the Mexican border and we shall in Canada! hear stirring tales of his valor. The article is an appeal for the United States to arm, thus achieving "peace at any price." Enemies exist on every side. He says: "The only two friends we've got are the Atlantic and Pacific oceans." But his great "break" comes when he has a nightmare concerning the fate of his women folk at the hands of the awful Canadian: invaders. Under the sub-heading, "Think of Your Daughters." he writes:

Just before this war we were working ourselves up about "white slavery." The loss of only one pure girl was given pages of space in the But imagine your newspapers. country attacked from outside; put half a dozen drunken foreign soldiers in your house and the loss of your own daughter will be such a small incident that nobody will no-

for peace at any price.

Are Canadians a nation of bestial brutes, who would set upon the land with which they have been at peace for more than one hundred years, for the purpose of committing outrages upon women and children? Would our battalions be made up of "a dozen drunken foreign soldiers?" The Harrison person and his magazine tell us just that. and he emphasizes in italics his belief that a lot of other imbeciles believe that "it will come" and "from the north." This writer may be merely demented, or he may possess a hatred for Canada, which he is free to indulge in such a magazine. At any rate he is attempting to raise a "scare" and to create a feeling in the United States that we are a nation of vandals, ready to leap upon his helpless country of 100,000,000 people. VOICE OF THE PEOPLE

Opposes Daylight-Saving. To the Editor of The Advertiser:

In your editorial of June 30 you say ou have endeavored to gather expressions regarding the change of time. I do not know when or where you endeavored. You say Hamilton wishes the scheme had never been born. So do . If the Rotary Club and a few sporty merchants want more daylight, let them get up in the morning and get it, as others of us do. You say London sticks to daylight-saving, obtaining increased health, wealth and wisdom. Personally, nealth not so good, wealth no better, but if the scheme will increase the wisdom of a number of the council, well, let her go. I believe it to be the biggest fool-stunt I have every heard of. Will not take any more of your space, but will give reasons why I object to the scheme, if requested. Yours truly, ANDREW ROBSON. 289 Oxford street, city.

Krumbles

The New Whole Wheat Food with the *Delicious* Flavor originated by the Kellogg Toasted Corn Flake Co.

BATTLE CREEK, MICH. and TORONTO. CANADA

OR the first time in the history of things to eat, the whole of the Wheat appears on the table as a delicacy.

KRUMBLES, the new Kellogg food with the delicious flavor, brings to you all the nourishment of the wheat, with a full, rich flavor that you've never known before in a wheat food.

The discovery of Krumbles is an achievement of the Kellogg Toasted Corn Flake Co. It is the whole of the wheat, cooked, "krumbled," and delicately toasted by a special and exclusive method.

Krumbles has a fine sweetness of its own-and the more you chew it, the sweeter it tastes.

Made in Toronto, Canada. In the WAXTITE package—10c.

One just wonders how old this "Old Lady" is to be so energetic as to make four blocks, and the neatest of hand sewing, too! "Just Nineteen's" block is deserving of special mention also. She has worked some dainty em broidery on it, and the whole effect is very dainty and charming. "Mother of Four" has also shown ingenuity

placing her own name in the centre white patch, and the names of the four" in the corner white blocks. This is certainly going to be a uniqu uilt, with names of many points in Western Ontario, and I'm sure a lot of love has been worked blocks for "Aunt Nannie."

BITEFALO. July 3 .- Buffalo took two games from Toronto today 2 to 0 and 4 to 2. Toronto lost the morning 27 game chiefly through poor fielding.

Rolling 'em with P.A. is mighty-fine-fun!

The fact that Prince Albert tobacco stays put, can't bite, can't parch and is long burning and long on satisfaction isn't any stronger tip to your smokeappetite than its bang-up flavor and fragrance! Why, there's such a combination of makin's joy in P. A. you'll never grow weary talking about it!

And you let that statement get right into your spirit because you'll find it's a fact quick as you invest in a try-out supply. If your dealer cannot supply you, ask him to secure Prince Albert from his wholesaler.

Prince Albert is manufactured by a patented process, controlled exclusively by us, that cuts out bite and parch. Prince Albert has always been sold without premiums or coupons. We prefer to give quality!

the international joy smoke

And the sooner you know P. A. as you should the quicker you'll get down to real "rolling" joy or jimmy pipe joy, for Prince Albert just beats-the-band for pipe-peace as well as makin's peace!

Get the personal experience with Prince Albert! Fire up a few "rolls" for what ails your smokeappetite and you'll get a new idea of just what tip-top tobacco really is! It's a fact, you and P. A. will be real old pals before the day winds up!

Prince Albert ir sold throughout Canada, generally, in the %-lb. tidy red tin, also in pound and half-pound humidors.

NIGHT WORKER OBJECTS TO DAYLIGHT SAVING

Wants to Get Back to Standard Time and Sunday Cars Again.

To the Editor of The Advertiser: Nightworkers are usually peaceful souls-I am one of them-and are so accustomed to being buffeted by life's inconveniences that you rarely hear from them. But this new fiddle-de-dee of daylight saving is about the roughes bit of bunk handed to us yet. Getting home to bed about 5 a.m., and being called up at 12 to have "dinner with the family," who come home from school or work, may be all right for a Tom Edison, but the ordinary mortal needs to hug the feathers longer than that if he is to keep alert and in good fettle. Let's class: special get back to standard time and Sunday SUNRAISE.

PLAYGROUNDS QUESTION

Board of Education Will Consider Summer Opening of School Yards.

The board of education will hold a ecial meeting to discuss the question opening the school playgrounds durg the summer months. A notice of tion to this effect was given by Trus-W. M. Manning at Tuesday's meeting, and Chairman Silverwood will call special session to deal with this aspect

f the matter. Some years ago the board did open playgrounds, with the result that Hughson. property owners near the schools sed such strenuous objections that y were closed.

Now the Mothers' Clubs wish them ened. The concensus of opinion is at there will be no advantage gained pening the playgrounds unless there oper supervision, which would mean te a sum of money.

Young Londoner Writes of Magnificent Work Done by Artillery.

A letter written following the heavy fighting in which the Canadians were engaged recently has been received by Mrs. Calhoun from her son. Sergt. Gordon Calhoun of the 2nd Field Ambulance, 1st Canadian Division, Belgium. He gives the following interesting description of the engagement:

Dear Mother,-I am just writing you a line to say that I am O. K., although fighting. We came off very lucky con-

I suppose you have seen in the paper long before this the splendid victory the Canadians achieved. It was well planned in every detail, nothing lacking, and worked out like clockwork. I guess Fritz had a pretty good opinio

have. He had a batch of German prisoners lined up, and you would have smiled to have seen him. He was mud from head to foot. I think he escaped without a scratch. He didn't see me, al though I tried to catch his eye. You would have felt sorry for the poor Allemandes (French for Germans) if you had seen them after they were lined up after being captured. Some of them were not over 16 years. One said he was 14 years old. They looked pale and yellow, and a perfect picture of distress. I have seen plenty of German prisoners, and none ever impress very much, but these! Oh, my,

they looked as if they had been in hell for days. Our artillery fire was grand. You should have heard our infantry praise them. Our shells were dropping right on top of the German front line trenches like a curtain. Fritz wasted a lot of ammunition afterwards. His guns were very inaccurate to say the

RETURNS FOR QUARTER

Total Cost Per Day for Prisoner Now Reaches 10.79 Cents.

The quarterly report of the Middlesex county jail, ending June 30, shows a slight increase in the average cost of ach prisoner's daily rations.

The cost of maintenance for each prisoner's food for the quarter just ended is 10.3 cents, without medical attendance, and 10.79 cents with medical attendance. The figures for the preceding quarter are slightly less, 9.88 cents for each prisoner without medical attendance, and 10.59 cents with attendance.

Foods Dearer. The difference is attributed to the gradual increase in food supplies. The number of prisoners committed during the quarter were 268, and the number of whole days represented during their total confinement was 2,326. The total amount paid out for food supplies was \$254.94.

Strong for Syrup. From this amount 1,024 pounds of leat was purchased, 2,956 of bread, 15 meat was purchased, 2,956 of bread, 15 bushels of potatoes, 7 1-3 bags of oatneal, 77 gallons of syrup, and a proportionate amount of salt, pepper, milk, sugar, etc. Considering the gradual advance in all commodities, the increase is considered nothing more than was to be expected.
