The copy filmed here has been reproduced thanks to the generosity of:

Thomas Fisher Rare Book Library,  
University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

## TO THE TRADE.

**W**e respectfully invite the attention of our friends in the trade to a few changes and additions now made in our price list.

We take this opportunity to express our thanks for the kind appreciation that has attended our previous endeavours and beg to assure our customers that our efforts in the future shall not be wanting to deserve their confidence.

Upon application we will be pleased to mail a separate list of the manufactures of JOHN WYETH and BRO., Inc. of Philadelphia.

### Terms.

Six months, or a cash discount will be allowed of 5% if paid within 30 days from date of shipment.

### Remit when Ordering.

Those with whom we have no regular correspondence, will please make remittance when sending orders; unless this request is complied with, we will be compelled to decline forwarding. This is made imperative owing to the fact that many purchasers of small amounts pay little or no attention to the payment of such accounts. Under no circumstance will we send goods C. O. D. unless the order is accompanied with check, draft, or P. O. order for at least sufficient to cover cost of transportation. Our prices are very moderate, and the small margin of profit necessitates our insisting upon the above requests being complied with.

### Cannot Exchange or give Credit for Broken Packages.

We cannot undertake to accept for credit or exchange, broken or opened packages, i. e., where stoppers (cap or cork) have been removed or seals broken, but will exchange any of our preparations, in original or unbroken packages, which may have undergone change from natural causes impairing their efficacy.

### Shipping Directions.

Customers are particularly requested when ordering goods, to specify by what line or route they wish them shipped, otherwise we will use our own judgment, studying the best interest of our customers.

### Mail Matter.

Liquids, poisons and articles packed in glass are by law unmailable, except when put up in expensive boxes as approved by the government. Articles sent by mail unless registered, cannot be traced, the cost of registration is only five cents in excess of the regular postage, when ordering please say if parcel is to be registered. When we have mailed goods as ordered, the consignee must assume all risk of safe delivery.

### Mail Packages Insured at Minimum Cost.

While we use every care to secure to our customers prompt delivery of mail packages, our responsibility ceases when these are placed in the hands of the postal authorities, but for a nominal consideration we are willing to indemnify the consignee to a limited extent; that is to say for a consideration of five cents, this to be charged in the invoice, we will hold ourselves responsible to our customers or consignee, in case of loss, to the extent of \$5.00, and for a consideration of ten cents, not to exceed \$25.00. Our customers, therefore, will kindly bear this in mind when ordering, indicating their wishes as follows: "Provide for mail insurance." Without such instructions it will be understood that we assume no responsibility in the matter.

### Cannot Supply Loose Labels.

We are quite often requested by our customers to supply loose labels for replacing those soiled or shop-worn, and while we recognize that in most cases, they are asked for with the feeling that our interests will be served quite as much as those of our customers, still we are obliged to decline, as we are unwilling to become responsible for goods not labelled under our own immediate supervision and direction, and feel satisfied if the matter is given a moment's thought, it will be evident that it would be both unwise and unsafe for us to pursue any other course.

### Cold Weather Shipments.

Owing to liability to freeze if exposed to a low temperature, shipments of Wyeth's Liquid Malt Extract - Distilled Witch Hazel, Wine of Tar and Dialysed Iron should be avoided during extremely cold weather. If shipment is ordered during such period, same will be at the risk of consignee.

### Breakage and Shortage.

We exercise the greatest care to deliver all goods in prime order to the Transportation Companies, who act as agents of the purchaser, and to whom all claims for loss or breakage in transit should be referred. If, however, our customers will report to us promptly on receipt of goods any shortage or breakage which may have occurred, we shall always be glad to promptly adjust any loss, whether from shortage, leakage or breakage directly traceable to any fault or negligence on our part, or to assist them in properly establishing their claim against the Transportation Company, but kindly note, that all claims to receive attention must be made within *ten days from receipt of goods*, and accompanied by packer's ticket, which will be found in the top of each case of goods shipped.

### Cartage.

We make no charge for original cases, or cartage in this city. All goods delivered free on board cars or boats.
