THE COURIER.

FRIDAY, JULY 26, 1800.

In another place we publish that portion of the Yotes and Proceedings of the House of Assembly which we deem of aufficient importance. In fature the people will know exact y what is done by their Representatives, but not what is spid. There is an old story of Bass Bassessell, that he once threatened to put the Parney or Walks out of fashion and bring in Old Grounds—the Reporters are about to do the same thing with the Upper and Lower Houses; as the Lower House will not behave itself, it is to be put out of fashion, and the Parney Mouse is a label way. will not behave itself, it is to be put out of rashion, and the Upper House is to be taken up; if, therefore, he Government, hes to make explanations which the lamperatively necessary should go abroad to the people, they will have to make them in the Legislative Council. We do not think that this Lower House will have any bad effect; it is torious that many a speech is made in that use which would not be made but for its untied effect out of doors; it is also equally note rious that many of the speeches so made are con-spicuous for nothing but their arrant nonsense and

attempted interference with the liberty of the Press, in the revival, by "Fossil" Robert Baldwin, of that antiquated rule of the House of Commons which declares the presence of strangers, and still more of strangers who are to report its pro-ceedings, a breach of its high privileges, is a thing not to be so easily passed over. The resolution brought forward by Mr. Baldwin, reviving this ancient absurdity, is a direct blow at the liberty of the subject, through that press which is devoted to the welfare of the people; and not the least extraordinary part of the business is, that for this unholy work, is evoked an act quated custom re themselves from the undue exercise of the prero-gative by tyrannical Sovereigns; in the hands of dwin it is made an engine against the liberties of the people; an Eng'th precedent in favor of free debate against kingly preregative, is turned in Canada against popular rights! But the most absurd part of the business is this, that the Commons of England and of Canada, while protesting with one side their mouths that the prence of strangers and the report of the proceed side vote for the fitting up of galleries for the es ecial accommodation of strangers and these very leporters ! Can inconsistency go much further ?

reporters? Can inconsistency go much (urther? This petty tyranny must be prom; tly ; ut which we suggested when this outrage first came to our knowledge, that is, the immediate prosecuthe very first of the Speaker, or SengatureAmer, whichever of them is in a legal annea or

CHALLENGE ACCEPTED. CHALLENGE ACCEPTED.

THE MONTREAL COMPANY have to compare, there was no occasion for Mr. Mura seeking notoriety by foreing his Engine alongside the Montreal on Wednesdey, at the General Turn-Out of the Brigade, thereby interrupting the arrangements of the day, and the probable cause of the disobedience of orders by the Union Company, and the insult offered by them to our worthy Mayor. We should have given Mr. Mura's Engine a Fair Trial, at a proper time, if he had requested it. The Montreal, built by Mr. Lepage, took the Prize from the Union, built in Boston, at the Trial in 1846.

Mr. Mura's Engine, (built by Mr. Perry.) is, I believe, a most'excellent piece of workmanship, and having the other Engines as models may, be no improvement on them, but that remains to be Tried.

Preliminaries and time of Trial to be settled by

ninaries and time of Trial to be settled by

Preliminaries and time of 17th to Friends from each party, and no communication through the Press will be noticed. We shall feel it no diagrace to be beaten by improvements in Home Manufacture.

R. HAMMOND,
Captain Montreal Company,
July 27, 1850.

163

CHALLENGE.

CHALLENGE.

INDING that the Challenge, which I gave the Captain of the MONTHEAL has been misinderstood by the acceptor, I would say that the
biject was as stated, to "test the comparative
merits of the two Engines," and obtain a "lair
trai." In order to do this, it is necessary in ascertain the superiority of either Engine in the
three ways of trying an Engine, viz:—Perpendicularly, Horizontally and Washing. The Engine
doing the best in two out of the three ways, will
be the victor; and this course is essential to the
trail. Should the perpendicular only be tried, the
superiority of either on the other two points would
still be in dispute, and defeat the only object of the
Challenge. I would, therefore, rafer to my former
Challenge, as explained above, and request its
acceptance or return within three days.

Should the MONTREAL praier a friendly
trial on the above points, and not risk the loss of
the money, I am willing to accede to it, my only
object being to actic definitely the comparative
merits of the two Engines.

WM. MUIR.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and lodine they contains and are acknowledged appetront all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatiset degree in the most oppressive theat of Summier, and that without altering or affecting injuriously the health of the person using them, apon the contrary they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of eases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

Mr. Wat Booles.—Six.—The preparation invented by you for the hair, has been extensively need in my family and they give it the decided preference over all other perspectations of the kind. It invegrates and beautifulation in the later of the la

WIXSLOW LEWIS.

BOGLE'S AMOLE, BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derixed from the shaved, or "some plants," or California, an article used by the univer of shaktoountry for westing; a sid thus the used of stong akais, so hurtist for the skin, is a driven of the stone of the

Fough and ready. Traveler, or the one.

The following a from Summer F. Barrett, Sanataga Street, East Boston, Feb. 8, 1847.

Mr. William Bogle.—Dear Sir; For several years past, thy wife has been troubled with baidness on the Crown of the head, hout six, or seven inches in rireumiserence.—After repeated failures of other so-called temelies, and by the advice of irendes, she was induced to use your Hypperion as a wash, for the purpose of restoring her has perion as a wash, for the purpose of restoring her has used only two bottles, and that very irregularly; had she used only two bottles, and that very irregularly; had she growth of the hair would have been accelerated. It and Sir, yours respectfully, SUMNER F. BARRETT.

EOGLE'S HEBEAIONA,

FOR REFRESHING AND BEAUTIFFING THE COMPLEXION,
Fracticating Taus. Pimples, and other eruptions of the skin, and rendering it fair, delicate, and biscoming. It is equally effections in protecting the skin from the hot sum of summer, and fraccing bisate of writter, and is the misst fragrant and dulticious article to be found at the toile? of fashiout.

All the above grateles have stood the test of the stretest investigation, and are warrants superior to saything.
