THE GUIDE-ADVOCATE welcomes all items of interest for this column. Call Phone 11, send by mail or drop item in GUIDE-ADVOCATE Letter Box.

THE new hats at SWIFTS'. NEXT Thursday is Ascension Day. GIVE the Allies an inch and they'll take the Dardanelles.

THE trouble with most of us is that we want the rest before we've earned it. THERE is quite a slump in the picture post card business since the war tax came into vogue.

TAYLOR is special agent for Reach baseball goods.

THE rake, the shovel and the hoe will soon contribute to bringing down the high cost of living.

A Portland man fell six stories and landed in a hotel kitchen. Just dropped in for dinner, as it were.

THIS week's rain is worth considerable to the farmers in this vicinity. It is the first good rain this spring.

MADR in CANADA, not enough; made in Watford, that's the stuff. Your clothing at SWIFTS'.

DIED OF WOUNDS—Word was received Wednesday night that Col. Sergt. L. Gunn Newell died of wounds.

PRESENT prospects point to a splendid year in so far as fruit crops in the Niagara Peninsula are concerned.

A man can get just about what he wants in this world if he only wants it hard enough and is willing to pay the price.

THE Germans are making a desperate effort to reach the English channel, according to a despatch. "Desperate" is correct.

GOLD FISH, large size, 20 and 25 cents each. Ornaments, fish plant and shells now on sale at McLAREN'S.

WHEN you go fishing you never know what you will get. But when you raise a garden you are sure of visits from the neighbors' hens.

"Yes," said the dispenser of liquid refreshments, "since the war taxes were put on our prices have been going up, but our goods are still going down."

NEWS matter mailed to The Guide-Advocate in unsealed envelopes does not come under the postal classification of "letters" and will not require the special war stamp.

LADIES' gingham dresses for a Dollar, worth more.—SWIFTS'.

THE improvements on Mr. Ed. Clark's cottage on Victoria street are nearing completion. When finished the house will be one of the most attractive in that part of the town.

A MEETING of Watford Conservatives will be held in Barrister Fitzgerald's office this (Friday) evening at 8 o'clock, to appoint delegates to attend the convention at Alvington on May 12th.

THERE is an important feature in favor of oilseed roads which no one yet seems to have mentioned, and that is with regard to flies. Oilseed roads, it is claimed, prevent the breeding of flies in the road manure, which promotes the pleasure and health of a community.

TAYLORS' have made up new lot of wall paper remnants, 1c per roll up.

THE ladies of the Welsh choir certainly attended to their knitting. They were at it all the time—on the streets and in the hotel. It is rumored that the concert was delayed a spell until Madam had "turned the heel" of the sock she was engaged on.

If you want to lessen the amount of uric acid in your body refrain from eating liver, kidney, sweetbreads, the skin of any meat and "very tasty" meat of any kind. For instance, boiled beef and meat which has been used for soup are better than juicy steak.

SPECIAL sale of bathroom towels from 25c. pair to 50c. each.—SWIFTS'.

AS nearly as can be estimated, the new Methodist hymn book may be ready for public sale by about midsummer of 1916, or at all events by the end of that year. It will number approximately 650 or 660 hymns and 600 tunes. The book at present in use has 936 hymns and 338 tunes.

SECRETARY KENWARD of the East Lambton Agricultural Society has received notice from J. Lockie Wilson, Supt. of agricultural societies, that the government grants to the different societies will be paid in full, and also that Departmental Judges for fairs will be sent to those societies making application for same.

YOU'RE sure of finding the latest magazines at TAYLORS'.

LAMBTON boys were in the finest charge the war has seen or will see no matter what may be done in future. They helped to save the situation and the Empire. Hats off to our brave representatives at the front. Fight or Pay! They have fought. Are we doing our share?

AMONG those of the 1st Batt. reported wounded at the battle of Langemarck are Corp. Mathew Cunningham and Sergt. Thos. C. Ward (Oil Springs) members of the Watford company, Lance-Corp. Robt. Sterling Saunders Tobias, (Sutorville), Pte. Arch McLean (Corunna) and Pte. A. W. Stone (Petrolia), all of 27th Regt.

FRED HASKETT is home from Toronto. SEE the counter bargains at SWIFTS'. SUNDAY next is Mother's Day. Wear a flower for mother.

MRS F. K. MATTHEWS is visiting her parents at Mitchell.

THE light shower Friday evening laid the dust nicely for Saturday's big trade.

MRS. HARROWER has had her house on Erie street raised and moved a few feet back.

\$3.00 Hercules express wagons for \$2.50 at TAYLOR'S.

THE first appearance of the buds bursting into leaf last year was on May 8th, over two weeks later than this year.

OWING to the increase in my chopping and out rolling department, I have secured the services of Mr. G. Potter, who is an expert miller.—G. GHAMBERS.

THE Assessor has completed the assessment of the village and returned the roll. From it we find that the total assessment of Watford is \$371,720.00, and the population 1217.

STRAWBERRY plants are in bloom, and if nothing unforeseen happens it is expected that the berries will be on the market the first of June, the earliest in the history of the district.

CHILDREN'S hats, special prices, at SWIFTS', 45c. to 75c.

MRS. BARTINDALE, Hamilton, is visiting her mother, Mrs. Dougherty, and sister, Mrs. S. B. Howden. Mrs. Dougherty, who is now some better, enters her 90th year on Saturday.

SPRING stock of boots and shoes now complete, comprises ladies' and children's fine shoes of every description. New styles, well made and durable, reasonable in price. Call and see them.—S. B. HOWDEN.

THE educational anniversary services will be held in the Methodist church next Sunday at 11 a.m. and 7 p.m., and at Zion church, 2nd line, when Rev. S. V. R. Pentland will preach. Rev. F. G. Robinson will conduct similar services on the Brooke circuit.

PINK tailored suits at SWIFTS'.

WE are pleased to notice that Arthur M. Wynne, son of the late J. B. Wynne, formerly of Watford, has successfully passed his examination for Master of Arts at Queens University, Kingston. He also took the gold medal in the chemistry class. Congratulations.

THE Rev. J. A. Shirley, rector of Oaklake, Man., who is visiting his parents here, took part in conducting the evening service in Trinity Church last Sunday evening, and preached very acceptably from Matt. 16:24. Many of his old friends were pleased to embrace the opportunity to hear him.

SMART ready-to-wear pants for young men, \$2.00 to \$3.50.—SWIFTS'.

THE regular meeting of the Women's Institute will be held at the home of Mrs. C. Wilson on Wednesday evening, May 12th. A paper will be given on "Prosperity of Canada and memories of our Queen," also election of officers for the year, and renewal of membership. Members requested to be present.—SEC'Y.

In reply to the town subscriber who wished information as to the responsibility of the Council regarding a town dump, the Reeve authorizes us to state that the Corporation is not required to furnish such a place. The law says that cities and towns may furnish one but are not under compulsion to do so. Villages are not mentioned in that part of the act regulating the removal of rubbish.

CUT flowers for Mother's Day, Sunday, May 9th. White flowers in memory of mother, colored flowers for presentation to mother. White and colored carnations, sweet peas and roses on sale Saturday morning at McLAREN'S.

MANY parents seem to think it makes little difference whether their children are prompt in their attendance at school or not. They think that five minutes off the end of a half day now and then will be little hindrance to their child's progress. Well, the pupil will not lose much real information by being occasionally a few minutes late. But he will lose that which is more important—he will lose interest in school.

A RAINCOAT that keeps out the rain at SWIFTS'.

MONDAY'S London Free Press says: Upwards of 250 men are immediately required to complete the establishment of the 33rd Battalion. C. E. F., here, replacing those who have been drafted to go forward as reinforcements to the 1st Division, now at the front. The recruits will be taken on daily at the headquarters of the battalion in the art building at Queen's Park. Authority to enlist these men came from Ottawa to-day. A similar number is to be taken on by the 34th Battalion at Guelph, under identical circumstances.

RAILWAYS announce that when a ticket is bought from them and later returned unused, the war tax, which went along with the cost price of the ticket, will not be refunded with the original cost of the ticket. It would require a special act of Parliament in order to do this, the railway managements, who have taken the matter up with the Government, have announced. When the war tax has been paid, it is regarded as having been safely locked up in the vaults of the Dominion treasury, and there is no chance of its recovery.

THE fit of our \$12.50 ready-to-wear suit is fine.—SWIFTS'.

Now watch the garden truck grow, also the weeds.

WATFORD Court of Revision will be held on June 1st.

PERCY MITCHELL, of the 33rd Batt., was home for Sunday.

R. H. WILSON shipped a car of horses to Montreal this week.

MRS. BARR, Hamilton, is visiting her sister, Mrs. A. G. Brown.

MR. GEO. VICARY, St. Thomas, spent the week end with his aunt, Mrs. T. Harris.

BATHROOM towels, made in Canada.—SWIFTS'.

NINETEEN divorces were granted at the recent session of Parliament, twenty less than last year.

MISS LULU G. CLARK is spending a couple of weeks with her sister, Miss Laura E. Clark, London.

THE services in the Presbyterian Church next Sunday will be conducted morning and evening by Rev. J. Moore, B.A., of Springbank.

THE war is costing Great Britain \$10,500,000 per day. At that rate of expenditure Canada's little drabble would last about nine and one-half days.

THE "National" bicycle has Dunlop tires, Hercules coaster brake, roller chain, mud guards and a good spring saddle. TAYLOR sells it for \$30.00.

COLLINGWOOD BULLETIN—A Chicago woman has been fined \$50 because she told a judge to "go to the devil." When will women learn that they cannot talk to judges like they talk to their own husbands?

THERE are 173 public school teachers in Lambton County. Of these only 28 are males. The highest salary paid to male teachers is \$900 while the highest salary paid to a female is \$800. The average male salary is \$619 and the average female salary is \$570.

BEST dollar overalls in Canada, Snagproof.—SWIFTS'.

THE next regular meeting of the Watford Council of Chosen Friends will be held in their hall here on Tuesday evening next, May 11th. A full attendance is requested. Proposed amendments to constitution of order and other important business is to be considered.

MOTHER'S DAY is to be observed throughout Canada and the United States on Sunday May 9. Miss Jarvis of Philadelphia, who started the movement for such an observance several years ago, has again selected a white carnation symbol of mother's devotion, as the flower for that day.

THE G.T.R. will issue excursion tickets for the Victoria Day holiday as follows:—Single fare, good going and returning Monday, May 24th, only. Fare one and one-third good going May 22nd, 23rd and 24th, return limit May 25th. Tickets good between all stations in Canada. Minimum fare 25c.

A REMOR that a former well-known resident of Watford had taken the water route to the far-off land got well circulated in the forepart of the week, but a letter was received from him on Wednesday, stating that he hoped to go to the front and send a few Germans to the happy hunting ground before going there himself.

COPIES of the by-law for an extensive drain through the north part of Watford, Arkona and Bosanquet are being served on the interested parties this week. The drain passes through 77 lots in Watford, 173 in Arkona and 20 in Bosanquet. The by-law was printed this week at the Guide-Advocate office and makes a pamphlet of fifteen pages. It is probably the lengthiest by-law ever gotten out in this district.

It is rumored that radical changes are about to be made in the G.T.R. timetable that will cause much inconvenience to the travelling public and seriously injure the business of Watford. Would it not be better to prevent the changes being made than to have the matter rectified after the time-table is adopted and printed.

PETROLIA ADVERTISER—"An outside firm conducting a sale in town paid \$100 license fee under the Transient Traders' Act to Town Clerk McHattie on Saturday morning. This fee although high, should be made prohibitive. Our town merchants can take care of all trade in this locality." The above will also apply to Watford. Transient traders are of no benefit to any community and should be made to understand that they are not wanted. If a firm has reliable goods to sell it is not necessary to go from town to town every few days to sell them.

JUSTICE RIDDELL had some stinging things to say to the laggards who make excuses for staying at home when they might be nobly employed at the front, in the course of his address to the graduating class of the Ontario Veterinary College in Convocation hall. "I was told by a young man recently," said the Judge, "that it required more courage to stay at home than to go to the front." What brave young men we have in Canada at the present time! Most of them are to be found on the baseball field or in the bar room. There was a time when the men of Great Britain shed their blood for us; now the tables are turned, and we must be ready to do the same for them."

MR. GEORGE POTTER, late with the Petrolia Grist Mill Co., has been engaged at Chambers factory, and is moving his family and household effects back to Watford.

SPRATHROY AGE—The town fathers now have under consideration a proposition from Geo. Rivers of Arkona, for the establishment of a berry box factory in this town. Mr. Rivers, who has had much experience in this line of business, is not asking for a bonus or a loan from the corporation, preferring to use his own capital and build up a business gradually. He expects the corporation, however, to extend him the usual concessions of free water and light and exemption from taxation. He will employ at least ten men the first year. The conditions of the agreement have not yet been decided upon but we hope that the parties will come to a satisfactory understanding and that before long the proposed factory building will be under way.

SHAN TUNG blouses at SWIFTS'.

THE WELSH CHOIR sang to a full house at the Armory on Thursday evening. The concert was an excellent one and every number was well received. The choir has a repertoire that embraces all classes of music from grand opera. Every member of the company is an artist and their voices range from baritone to high soprano. They are as much at home in a plantation melody as an operatic selection. The program, which comprised solos, duets, trios, quartets and choruses, had sufficient variety to please everyone. It was given with remarkable smoothness and was a feast of melody and harmony from start to finish. The proceeds amounted to about \$85, and the 27th Regt. got a nice percentage of this amount. Come again, ladies, and bring your knitting.

MRS. JAMES O'ROURKE, an old and much esteemed resident of Watford for many years, died at the home of her daughter in Detroit on Saturday, May 1st, in her 79th year. Mrs. O'Rourke was the daughter of the late Dan and Ann Raney. She was born in Longford, Ireland, and was brought to this country in the arms of her parents. The family settled in the township of Warwick. Some 53 years ago she married James O'Rourke, of Warwick, who predeceased her about 36 years ago. They spent many years of their married life on the second line, moved into Watford about 39 years ago, purchasing property on Ontario street west of the public school, where her husband died some three years later. Several years ago she gave up housekeeping and went to spend her declining days with her daughter in Detroit. She leaves three children to mourn her demise, Dan R., of New York city; Frank C., of Buffalo, N. Y. and Mrs. Frank Darvoux, of Detroit, all of whom attended the funeral. Charles Raney, of Warwick, is a brother. The funeral took place on Monday, high mass being said at 8 o'clock in Detroit. The remains were then brought to Watford and were committed to the grave in the R. C. Cemetery by the Rev. Fr. Quinlan. The pallbearers were D. Roche, Jas. McManus, J. S. Williams, W. Scott, A. McDonald and S. W. Louks.

Daughters of the Empire

The regular monthly meeting of the I.O.D.E. was held at the home of Mrs. Tye on March 4th, Mrs. Thompson assisting hostess, the Regent in the chair. After opening prayer roll call was responded to by quotations in keeping with "Mother's Day," and expressed many beautiful thoughts. There were 20 members and 6 visitors present. The members spent the time sewing and knitting. The program opened with the singing of "The Maple Leaf" by the Chapter; solo by Miss Richardson, "Come to me love at Twilight"; Mrs. Thompson reading Japanese program; instrumental by Miss Swift (Liszt), Miss McCaw, humorous reading; solo by Mrs. Kelly, "Time's Roses"; reading by Miss Mitchell, "The Japanese Renaissance," written by Mrs. Thompson Connolly for Christian Endeavor World; reading by Mrs. Swift, "England's Patron Saint"; Mrs. T. G. Mitchell, humorous reading, "Little Mary on Nerves." This concluded a well-rendered programme, which was enjoyed by all present. Tea was served on small tables, which looked very attractive and inviting with beautiful cut flowers. The singing of the National Anthem brought a most pleasant meeting to a close.

Next place of meeting at Mrs. T. Woods'. We acknowledge a bale sent by the women of Kingscourt, through Mrs. John McCormick, to be forwarded with our shipment to the Belgians.

BROOKE

The May meeting of the Brooke Women's Institute will be held on Thursday afternoon, May 13th, at the home of Miss Nettie McEachern. This being the annual meeting every member is expected to be present. After the business meeting Mrs. Dan McDonald will give a paper on "Training of young girls for womanhood." Roll call—renew your membership. Visitors welcome.

A man always feels contemptible when he lets a girl kiss him against his will. "In union there is strength"—so a meek and lowly man with a strenuous wife says.

WARWICK.

Dr. J. Elmer Thompson is home from Toronto, for the holidays.

Rev. J. Moore, B. A., of Springbank, will preach at 2:30 on Sunday afternoon at Knox Presbyterian church.

Word has been received that Mrs. Wm. Bryce, of Wainright, Sask., formerly of the 4th line, is suffering from a paralytic stroke and little hope is held for her recovery.

The yearly business meeting of the Women's Institute will be held in the Foresters' hall on Thursday afternoon, May 13th. The box for the Belgian Relief fund will be packed. Any contributions for this fund will be gladly received. Roll call response, the renewal of membership.

An item in the London Free Press last Saturday says that Private Gordon Patterson, a Watford recruit with the 33rd Battalion, is suffering from a serious attack of spinal meningitis. When he was first taken to Victoria Hospital, Private Patterson was in 'bad shape, and his chances for recovery were said to be small.

Russell Hayward, a farmer of the Plympton-Euniskillen-Warwick town line, died at his home on Sunday morning. While attending the funeral of his father-in-law, James Squires, on Friday, he was stricken with pain, which physicians pronounced appendicitis. An examination on Saturday showed that the disease had made too great headway to allow an operation and he gradually sank until Sunday morning, when death put an end to his suffering. He was 31 years old and leaves a wife and infant child. The funeral was held on Wednesday at the Wyoming cemetery, the Rev. T. M. Mead, of the Watford Baptist church, officiating.

The annual meeting of the Bethel Sunday school, for reorganization, was held in the church on Wednesday evening, April 28th. The pastor, Rev. H. J. Fair, occupied the chair. The secretary, John Cable, recorded the minutes of the meeting. After receiving the reports of the secretary and treasurer, the superintendent, J. F. Smith, gave a brief account of the year's work, which showed the school to be in a very satisfactory condition, the missionary offerings this year amounting to \$63.38, a good increase over preceding years. The election of officers was as follows:—J. F. Smith, superintendent; Wm. Vance, assistant; Fred Graham, secretary; W. Cable, assistant; John Cable, treasurer; Mrs. Goodhand, organist; Vera Richardson, Monty Coffin and Jan Smith, assistant organists; T. S. Smith and Wm. Cates, librarians; Mr. Goodhand, teacher class 1; J. T. Smith, teacher class 2; Miss Vance, teacher class 3; Mrs. H. Vance, teacher class 4; Mrs. H. Clark, teacher class 5; Mrs. J. T. Smith, teacher class 6; Mrs. George Brent, teacher class 7; John Coffin, H. Cable, Harvey Vance and Mrs. Will Vance, assistant teachers; Will Vance, superintendent of H. D.; Mrs. Will Vance, superintendent of cradle roll, Miss Myrtle Goodhand president of organized A.B.C. class; Miss Jean Smith president of girls' secondary division organized class; Fred Graham president of boys' secondary division organized class. The officers of this school extend a hearty invitation to all who may become members during the coming year. Visitors will also receive a cordial welcome.

From Old Subscribers

James McClure, Hartshorn, Alta., writes: Please find enclosed \$1.00 for your much valued paper. It comes weekly and answers for many a letter. The seedling has started and the weather is very favorable and dry; hardly ever have any spring rains here in Alberta. Wishing you a prosperous year.

Smith—Long

London May 4, 1915.—A quite but pretty wedding took place in St. Paul's Cathedral at high noon on Tuesday, May 4th, when Mr. John George Smith, London, and Miss Elizabeth Long, formerly of Glencoe, were united in marriage by Rev. Canon Tucker. Miss Mable McIntyre and Mr. Lawrence Long supported the bride and groom. The young couple left on the 1.40 train for points west, and on their return will reside at 573 Elizabeth St., London.

ARKONA

Report of primary room, Arkona public school, for April. Class II. Percentage given.—Joyce Fuller 98, Sara Hostetter 94, Iva Johnston 93, Queenie Kemp 92, Ida Eastman 89, Kathleen Copeland 85, Florence Austin 79, Lois Baldwin 73, Nellie Langan 71, Thelma George 71, Elma Augustine 70, Peter McNaughton 63, Elsie Weedmark 47, Kenneth Herrington 33, Pt. II.—Harold Wilson, Vera Stephenson, Harry Richter, Mary Connolly, Clara Smith, Ena Smith, Florence White, Arnold Lucas, Niven Watt, Charles Johnston, Charlie Baynes, Willie Johnston, Jack Thoman, Sr. I.—Howard Meadows, Willie Baldwin, Franklin Martin, Everett Herrington, Marvin Eastman, Jr. I.—(Doris Huffman, Doris Kent) equal, Anna Morningstar, George Holmes, Marion Wilson, Leatha Smith, Wilton Connolly, Rheta Wilcocks, Paul Hostetter, Jack Herrington, Carl Wilson. Average attendance 41.—R. M. BROWN, Teacher.

in place of Mr. Swift, casualties are about 22% in this battalion. He got orders to charge and so eager for the fray, were not required, so I in the time comes the good account of them to be, yours truly, A. OWENS.

MRS. MABEN WAS MADE WELL

By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It.

Murfreesboro, Tenn. - "I have wanted to write to you for a long time to tell you what your wonderful remedies have done for me. I was a sufferer from female weakness and displacement and I would have such tired, worn out feelings, sick headaches and dizzy spells. Doctors did me no good so I tried the Lydia E. Pinkham Remedies - Vegetable Compound and Sanative Wash. I am now well and strong and can do all my own work. I owe it all to Lydia E. Pinkham's Vegetable Compound and want other suffering women to know about it." - Mrs. H. E. MABEN, 211 S. Spring, St., Murfreesboro, Tenn.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Why Lose Hope. No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

HARRIS & CO. PROPRIETORS. WATFORD, MAY 7, 1915.

NOTE AND COMMENT

Canada must furnish some mighty efficient soldiers, an American exchange observer. Britain is calling for more of them.

Guelph Herald: - If the dominions are to have a hand in settling the peace terms we can promise that someone is going to get a good spanking when this war is over.

No educational institution of any kind which is supported in whole or in part by public money shall employ a teacher who smokes cigarettes. Such are the provisions of a bill introduced recently in the Wisconsin Assembly.

Huntsville Forester: - Lack of underdrainage in the cultivated area of Ontario is responsible for the loss of one hundred million dollars. Under-drainage ought to be made the subject of an extensive educational campaign by the Ontario Department of Agriculture.

"Billy" Sunday's vocabulary is neither reverential nor refined. His sermons equally expose the poverty of mind and the paucity of proper present. This noisy fellow makes a travesty of religion and a mockery of spiritual thought and things. That the Supreme Being, the Ruler of the Universe, needs an advocate of the Sunday type is unthinkable. - Montreal News.

If every business man could do business on a strictly cash system, it would be a blessing to us all. If

we all had to pay cash we would learn to live within our means. It would save business men the loss of bad debts, for which some one has to pay. If we could gradually work into this strictly cash system, how much better it would be for the public in general.

Lost it may be thought that Canadians are more outspoken than their ancestors in characterizing the actions of the German soldiers, this is how Wellington put it in 1870: - "I can assure you that from the general of the Germans down to the smallest drum boy in their legion, the earth never groaned with such a set of murdering, infamous villains. They murdered, robbed and ill-treated the peasantry wherever they went." We wonder what Wellington, who was a patient man, not given to strong language, would say about them to-day and of their actions in Belgium.

The first thing to be considered in scholastic affairs, is the education of the child - the opening up, broadening and strengthening of the youthful mind. The process should be gradual and continuous. By announcing to a child two months ahead, that it is not to be allowed to try a certain examination the development of that mind is at once arrested, and the interest wanes. The child naturally becomes careless, and it is reasonable to suppose that the major portion of the teacher's time will be given to the children who are going to compete. The Herald has a great deal of sympathy with the teachers, and knows how discouraging their task is at times, but we cannot ignore the fact that the first duty is toward the child and everyone should be given equal privileges and opportunities, no matter whether the teacher's percentage is high or low. It is better for a boy or girl to try and fail, than to be prohibited from trying. The training of the two months is valuable, and the experience of the first time may be a great help when they try again. - Thamesville Herald.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood of constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

F. J. CHERNEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

No Place For Letters. A learned young woman of Boston was spending her vacation in a little country place. To the local bookshop of the village she went one afternoon and made known her mental wants to the clerk: "I should like the 'Letters of Jane Welsh Carlyle.'" "I beg your pardon, miss," said the clerk, "but this ain't no postoffice." - New York Globe.

The Hohenzollerns. The family name of the German emperor is Hohenzollern. If the emperor were just a plain man of the people his name would be William Hohenzollern. The family began to gain political distinction about 1417, when Frederick of Nuremberg became elector of Brandenburg.

Belated Anxiety. Maid (knocking in the morning) - Madame, I've forgotten whether you wanted to be waked at 7 or 8. Madame - What time is it now? Maid - Eight - Lustige Blatter.

Too Painful. "Why did you throw up that job I got you as collector for Jones?" "Why, hang it, I owed money to about all the men he sent me to dun." - Boston Transcript.

Feathered His Nest. "What do you think of this? Jimson says he's divorced from politics." "Is he? Then I bet he's got the alimony." - Baltimore American.

He that's ungrateful has no guilt but one. - Young.

"Rough on Rats" clears out Rats, Mice, etc. Don't Die in the House. 15c. and 25c. at Drug and Country Stores. mrl2-m6

Farm and Garden

PREVENTING POTATO SCAB.

Method of Treating Large Quantities With a Minimum of Labor. The value of treating potatoes for scab is well known, but most methods are tedious and impracticable when large quantities of seed are to be treated, writes T. M. McCall in the Country Gentleman. Growers cannot afford to take the time to dip potatoes in sacks for forty or more acres or even to handle the dipping solution more than once, so they seldom treat more than is needed for the seed plot. The writer, to do away with the tediousness of treating in sacks or barrels, has devised a simple method by which one man can treat and cut enough potatoes in a day to keep a one row planter busy. An old 150 gal-

POTATOES GROWN FROM SCAB FREE SEED.

lon tank is equipped with a shoveling board across one end. Ten bushels of seed are poured in and immersed in seventy-five gallons of formalin - one pound of formaldehyde to thirty gallons of water. After two hours these are shoveled out on a draining hopper and another ten bushels are immersed. The draining board is set at an angle so as to slope down to the potato cutter. With the seed supply handy and the tanks and cutter conveniently arranged, one man can cut ten bushels in two hours and can thus treat and cut enough stock to keep one planter busy.

Many growers prefer to cut the seed in the field at the time of planting. In such a case the tank may be hauled directly to the field and filled with the solution, one charge being enough to last a day. Care must always be exercised to prevent reinfestation of seed after it is treated. Cost of treating does not exceed 75 cents for fifty bushels of seed - less than 20 cents an acre. The cost may be less if all the treating materials are convenient.

Burning Dead Hogs. There is a trick to the job of burning the carcasses of dead hogs, and where they have died of cholera the trick should be learned. Dig two trenches crossing each other. Make them several inches deep. Pile the fuel at the crossing of the trenches. Lay a large iron wheel or strips of metal to hold up the carcass. Open the carcass completely, spread it open and lay it belly down on the support over the fuel. Sprinkle kerosene liberally inside the hog before putting it in place. Light the fuel. The carcass will burn fiercely, especially if the hog is fat. The trenches and the metal supports are for draft, and the dimensions of these things depend on the size of the carcass. This system is recommended by the Nebraska station. - Farm and Fireside.

Don't Overfeed the Birds. Intensive poultry keeping involves of necessity heavy feeding, but one should constantly be on the lookout to guard against overfeeding, which puts the bird into a state of lowered vitality in which its natural powers of resistance to all forms of infectious and other diseases are reduced. The feeding of high protein concentrates, like linseed or cottonseed meal, needs to be particularly carefully watched in this respect.

WATFORD DRUGGIST PLEASES CUSTOMERS

Taylor & Son report customers greatly pleased with the QUICK action of simple buckhorn bark, glycerine, etc., as mixed in Adler-ika. This simple remedy drains the old foul matter from the bowels so THOROUGH that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or grassy stomach. It is so powerful that it is used successfully in appendicitis. Adler-ika never gripes and the INSTANT action is surprising. Taylor & Son, druggists.

Lacrosse

Government encouragement for the game of lacrosse, out of the funds of the Militia Department, seems to be strictly in order. Lacrosse has been on the down grade in Canada for some years, having given place to such effeminate sports as "soccer" football and even cricket. But when it comes to hurling hand-grenades in the trenches—which is the original function of the British Grenadier, but which everyone supposed had become extinct—it is your lacrosse player who is the one best bet. Fortunately there were in the Canadian Contingent quite a number of survivors of the palmy days of the national Canadian sport, and their skill and dexterity with the "stick" are making a tremendous, not to say explosive, impression upon the Germans. It is abundantly evident that cricket and football players are not in it for a moment in the matter of throwing grenades; if you punted a grenade or swatted it with a bat the chances are that it would turn again and rend you.

At the same time, I confess a hope that the players of the newly-revived game of lacrosse will not take a leaf out of the war book and try to introduce the use of hand-grenades in place of balls in the game itself. There has always been a tendency among lacrosse players to assimilate their game to the operations of a Neuve Chapelle or a La Basse; but for myself I find it quite warlike enough without the introduction of explosives.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and an entire cessation of manifestations of internal trouble.

True piety elevates the spirit, enables the heart and strengthens the courage.

If a son doesn't take after his father it is usually because the old man left nothing to take.

Some wives spend a lot of time regretting the fact that they are so much better than their husbands.

FARM WISDOM.

There is no reason why the farm home should not be just as attractive as the city home. In arranging farmhouse plans those that are adapted to the city can easily be changed to suit farm needs. Make your wife's workshop as attractive and convenient as any to be found anywhere.

The inside of a modern dairy barn looks very different today from the inside of a dairy barn twenty years ago. We are beginning to realize that sunshine is a necessary part of dairy sanitation. In fact, it is the principal factor.

The time is rapidly approaching when dairy products, the same as all other commodities used for food, will be paid for according to quality.

The septic tank deserves a place on every farm. It is one means of bringing city conditions to the farm home.

RUNNING AN INCUBATOR.

Cooling and Turning the Eggs Should Be Regularly Performed.

Cooling and turning the eggs in the incubator is a part of the work that must be attended to promptly, regularly, writes W. C. Thompson in the Country Gentleman. The mother hen turns her eggs in the nest each day and leaves them to cool at about the same time each day if she has her way about it. After the third day of the hatch the eggs should be turned regularly each morning and evening. This may be done by removing a few and gently rolling the others about in the tray. The idea is to change the position of the developing germ within the shell and keep it free from the shell. Changing the position of the eggs on the tray is also of advantage, as there may be a slight variation of temperature in different parts of the egg chamber.

The eggs should be cooled once a day. Start on the third day, when the

eggs are first turned. It is necessary to cool them only the length of time that it takes to turn them. From the third day to the nineteenth day they should be cooled regularly. As the chicks develop they may be cooled longer each day until during the latter part of the hatch they may be cooled for almost an hour without any injury, and with great benefit.

On the nineteenth day the chamber should be closed, to remain closed until the chicks are hatched. On the fifteenth, seventeenth and nineteenth days the eggs should be sprayed with warm water to furnish sufficient moisture to aid the chicks in picking their way through the shell. If a sand tray is in the machine this spraying is unnecessary. The flame should be turned down slightly during these last two days, as an increased temperature results from the animal heat in the chicks' bodies. The chamber should be darkened if there is a glass front in the machine. This will tend to prevent the chicks from forcing their way toward the front of the machine. They are supposed to sleep for twelve hours after coming from the shell. If the chamber is light they will not do this.

Hog Breeding Crates.

The method of construction of the crate for breeding swine is shown plainly in the accompanying illustration, says National Stockman. The inner arrangement is the part hard to understand. The long pieces with the holes in them (see cut) can be raised up or let down as required by the

CRATE FOR BREEDING SWINE.

height of sow, using the gas pipe for the back end and an iron rod for the front. If the height cannot be properly estimated before the sow is driven in it can be quickly changed afterward. The shelves on each side of the sow for the fore feet of the boar can rest at the ends of gas pipe and rod.

In most cases the shelf on one side can be made stationary or the other made in two parts so it can be widened or made narrow. These can rest on the rods at the ends and can be put in place in a moment after the sow is put in the box.

Care of the Brood Sow.

The quality of your spring crop of pigs will be determined by the kind of care you are now giving your brood sows. Don't keep them on dry feed. They need mighty little corn, but lots of roughage. Alfalfa or even clover hay will be relished. Mangels or other roots could not have a better use. With this kind of feed the sows will have plenty of milk and they will not eat their pigs.

Build Up the Farm.

If you are living on a poor farm—that is, if the land is poor—the chances are it is your own fault. There is some land, but not very much, that can't be improved. By keeping the right kind of stock and by building up the soil through rotating the crops you are pretty sure to improve conditions on the home acres.

IT WAS A GOOD PORTRAIT.

And It Had a Sobering Effect Upon "Hollering Jones."

A well known illustrator who makes interesting western pictures once made the acquaintance of a noisy but good humored cowboy who rejoiced in the appellation of "Hollering Jones."

In physical appearance this man was typical of his kind, and the artist made several studies of him, both in repose and in his favorite diversion of "hollering." Some of the studies were sold by the artist to an eastern magazine. They showed Jones in his most violent state.

A year later the artist again visited the region. He was soon approached by Mr. Jones himself, bearing one of the pictures, which he had torn from the magazine in which it was printed. Pointing to it, he said:

"Is that me?"

"Well," replied the artist evasively, "I got the general idea from you, of course, but—"

"Oh, I ain't takin' no offense," Jones made haste to say. "It's all right; only if it's me say so."

"If you put it to me that way," said the artist, "I can only reply that it is a fairly good portrait of you."

"The men here on the ranch agree with you. So I look like that when I holler, do I?"

"I think you do."

"In that case," said Hollering Jones, "all I've got to say is that Hollering Jones has hollered his last holler. Hereafter, when I celebrates I does so with a tin horn. In my opinion no man has a right to look like that—not round white folks, anyhow."—Youth's Companion.

Every Man His Own Dictionary

The English language is not dead, just because it is embalmed and wrapped up in dictionaries like an Egyptian mummy in his sarcophagus. Every now and then some word comes to life, sits up, turns over, smashes a piece of the sarcophagus, tears a yard or so out of the winding-cloth, and goes to rest in an entirely new attitude. Take the word "Allies." There is not a dictionary of English anywhere that will not tell you to pronounce that word with a strong accent on the last syllable. English, Scottish, American, they are all agreed. But we, the English-speaking people who are amongst the "Allies" of this greatest of alliances in all history—we have changed all that. A word which has for generations reposed in dusty histories had been heard only in the stillnesses of dusty classrooms and lecture-halls, that word has suddenly become once again the property of all the people; and all the people have given it a new pronunciation. I do not care what Webster, Worcester, Stormonth, the New Encyclopaedic, the Oxford and Cambridge, or any dictionary says about it. We, the people, have remade that word, and henceforth the pronunciation has the accent on the first syllable—of course with the long I distinctly pronounced in the second. We leave it to the Germans to put the accent on the "lies."

It Rubs Pain Away.—There is no liniment so efficacious in overcoming pain as Dr. Thomas' Electric Oil. The hand that rubs it in rubs the pain away and on this account there is no preparation that stands so high in public esteem. There is no surer pain-killer procurable, as thousands can attest who have used it successfully in treating many ailments.

Tea-Table Chatter

Marriage may be a lottery, but a man can only buy one ticket at a time.

Memory is simply a quality that enables a man to forget judiciously.

Some people can never find anything when they want it, except faults.

It isn't a good plan to collide with a man who is riding his hobby.

It's all right to save time, but some people lose a lot figuring how they can save a little.

The mermaid is perhaps the only female creature in the world that has no kick coming.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, the best remedy of the kind that can be had.

Jack slowboy—May I er kiss you? The Girl—What do you want, written permission?—Boston Transcript.

When the clock stops do not throw it out or take it apart, but saturate a ball of cotton with kerosene, and place inside the clock. The fumes will open out the dirt and it will go on its endless tick.

Do not weep when you break a valuable vase, but mend it with powdered asbestos and waterglass. When nicely set heat paraffin and pour into place where the crack or break has been. When this hardens it may be used for flowers.

Nights of Agony come in the train of asthma. The victim cannot lie down and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

Liberal Conservative CONVENTION

A Convention of the Liberal Conservatives of the new riding of East Lambton, as constituted for Dominion purposes, will be held in the

MUSIC HALL, ALVINSTON

ON—
Wednesday, May 12th, 1915
AT 2.30 O'CLOCK

For the election of officers and the nomination of a candidate to represent the Riding in the House of Commons.

RICHARD BLAIN, M. P.

War Summary

Ottawa, May 2.—Casualties of the Canadian overseas division in the fight at Ypres last week are now reasonably complete. It is reported that 5,700 men, or more than a fourth of the 21,000 men in the division, were put out of action in the three days' fighting. It is stated that 700 officers and men were killed, 2,600 missing and 3,000 wounded.

The 2,000 missing men are the 13th and 14th battalions of Montreal Highlanders, each a thousand strong, which the Canadian official eye-witness reported left behind near the village of St. Julien. "The German line," the eye-witness says, "rolled over the deserted villages, but for several hours after the enemy had become master of the village sullen and persistent rifle fire showed they were not yet master of the Canadian rearguard."

London, May 4.—A Mytiline dispatch to the Daily Herald says:—"The bombardment of the Dardanelles continued Saturday. Refugees say that the Queen Elizabeth's guns did tremendous damage to the Turkish trenches. The town of Dardanelles was totally destroyed. The forts in the narrows were considerably damaged, but the action of the fleet was hampered by mines, the clearing away of which has been made difficult by the mobile Turkish batteries above. The possession of Gala Tepeh is expected to enable the Allies to place guns which will silence these batteries."

London, May 2.—The British admiral stated this evening that two German torpedo boats had been sunk in the North Sea. The British torpedo boat destroyer Recruit was sunk. London, May 4.—The rumors concerning the operations against the Dardanelles were confirmed to-night when the British war office and admiralty issued reports stating that after besting off Turkish attacks the Allied forces had taken the offensive on the Gallipoli Peninsula and now were advancing into the interior.

The Turks, on their side, continue to report the defeat of landing parties and damage done to Allied warships, which are keeping up a lively bombardment of the Turkish forts, both in the Dardanelles and at Smyrna. It was reported to-day that the Vali of Smyrna was negotiating with the Allies for the surrender of his territory. No confirmation of this report has been received.

London, Eng., May 4.—Reports received from Dunkirk, via Amsterdam, state that the Canadians have again been in action, and that on Friday last they had to surrender their trenches.

"On Friday morning," the message says, "the Germans began an attack aided by a north-easterly gale and the use of gas clouds. Although the Canadians gallantly fought with bayonets the Germans finally took possession of the trenches, but only at the price of very heavy losses.

"Six German airmen supported their artillery. Two of them were brought down early in the morning, and Lieut. Weber and a soldier-aviator named Kreuz were made prisoners.

London, May 6.—An official statement issued to-night says:—"The general situation remains unchanged. Fighting is in progress on Hill 60, southeast of Ypres, on which the Germans obtained a footing this morning under cover of poisonous gases, which were excessively used and were favored by weather conditions.

London, May 5.—Replying to Mr. Donald MacMast in the Commons to-day, Mr. H. J. Tennant said that Canadian casualties up to May 2 totalled: In the Canadian division: officers—233; other ranks—6,024. In Princess Patricia's officers—20, other ranks—308.

James Leavitt, Forest, was destroyed by fire on Sunday. Loss \$2,400.

Miss Katharine Gleason, of Petrols, became the wife of Mr. John Duggan, of Emiskillen, at the R. C. Church, Petrols, on Thursday last at 8 a.m.

The Ladies' Patriotic Society of Glencoe have raised \$947.34 in cash since last September, and have prepared and forwarded to the front 192 shirts, 15 pairs of bed socks, 70 cholera belts, 148 pairs of socks, 127 pairs of wristlets, 23 Balaclava caps, 81 scarfs, 61 housewives, 3 bed jackets, 8 hospital shirts, 7 night shirts, 6 dressing gowns, 5 dozen rolls of bandages. Ten boxes of clothing were sent to the Belgians beside the above articles.

A deliberate attempt to burn the Western Hotel Sarnia, in which 40 guests were slumbering, was made Thursday morning. Someone had taken a canny pail, filled it with kindling saturated with oil, and after the castings and woodwork in the far end of the hotel had been also saturated, the pail was ignited and thrust inside. So well was the outrage planned that if the flames had once eaten through the door into the hallway there would have been no escape for the guests save by the windows.

After a lie has prevailed some men call it the truth.

Matrimonially speaking, a baseball catcher isn't always a catch.

An Example

Just by way of showing what can be done by persistent application and good use of time, we quote the following: "Charles Roman, who for some years has been a dining-car porter running on the fast G. T. R. train from Port Huron to Toronto, has passed medical examinations, and is now a full-fledged doctor. While an employee of the G.T.R. he spent his spare moments well, and at each run's end would take himself away in seclusion and there pore over medical works, whose knowledge he eventually imbibed, with the result that he is Doctor Roman. It was through hard work he achieved success."

Old Time English Recruiting

Recruiting in the great war which ended in the fall of Napoleon was a vastly different matter from that which prevails to-day. Take the militia act of 1803, for instance. In each subdivision of a county a list was made of all men between the ages of 18 and 45, classified into (a) those under 30 and without children, (b) over that age, (c) men with no children under 14, (d) men with only one child under 14 and (e) all others. If the men required equaled the number in the first or second or any set of consecutive classes they were taken. If not, all the names were put in a bag and drawn until the requisite number was obtained. Any balloted man could purchase exemption for five years on paying a fine of \$50, raised to \$75 in 1805, the money being paid for a substitute. The men paying fines were exempted from the second ballot, and the money was devoted to enabling the men in the second ballot to obtain substitutes. On this vicious principle the only man really obliged to serve was the poor man drawn in the first ballot.—Dundee Advertiser.

BEFORE you decide on that wall papering come into this store and see the latest designs that we have just taken into stock. Much of the value of wall paper depends on effect and artistic combination.

Let our experience with hundreds of other customers help you. Come in to-day.

Have you seen our spring stock of Shoes? Some odd lines clearing out regardless of cost.

Dr. J. H. Pickering is Liberal Choice in East Lambton

[London Advertiser.]
 Alvinston, April 30.—Two hundred delegates attended the East Lambton Liberal convention this afternoon. It was one of the most enthusiastic gatherings ever held in the Music Hall.

Twelve prominent gentlemen of the riding were nominated, but with unanimity of spirit and avowals of hearty support, eleven retired in favor of Dr. J. H. Pickering, of Forest. The other nominees were: Dr. C. O. Fairbank, Petrolia; John McCallum, Alvinston; H. J. Pettypiece, Forest; Dr. J. McEachern, Alvinston; Charles Jenkins, Petrolia; William McDonald, Bosanquet; J. F. Dickison, Arkona; Stephen Sturgess Camden; Dr. Brandon, Watford; John Cowan, Sarnia.

Stirring addresses were delivered by Duncan C. Ross, M. P. for West Middlesex; A. B. McCoig, M. P. for Kent, and F. F. Pardee, M. P. for Lambton.

A general organization of the riding was decided upon, with the following officers: President, D. J. McEachern, Alvinston; vice-president, D. White, Thedford; second vice-president, Dr. McDonald; Dresden; third vice-president, John Kingston, Watford; secretary-treasurer, A. B. Connor, of Alvinston.

The Chapman House, Sarnia, will in future be conducted by George Flesher, former proprietor of the St. Clair House.

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions, and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health giving blood.

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

War and Postage Stamp Regulations

Post Office Department, Ottawa, Canada.

Enquiries having been received in regard to postage stamps being used for the prepayment of war duties on bank cheques, bills of exchange, promissory notes, express money orders, proprietary or patent medicines, perfumery, wines or champagne, as well as upon letters and postcards, postal notes and post office money orders, notice is hereby given that this use of postage stamps is in strict accordance with the provisions of the special War Revenue Act, 1915, which provides that postage stamps may be used in lieu of inland revenue war stamps in fulfillment and discharge of any requirement under the Act that adhesive stamps be affixed.

The public is at liberty at all times to use postage stamps for any purpose for which inland revenue war stamps may be used, but it is specially provided in the Act that inland revenue war stamps are not to be used on letters, postcards, postal notes or post office money orders, the only stamps allowed on these being ordinary postage stamps on which the words "War Tax" have been printed.

The Railways and Cheap Gravel

Petrolia, May 4.—According to information received here, the railways have for the time being at least blocked the "free gravel" scheme advocated notably by J. E. Armstrong, M.P.

Following the petition recently sent by a representative gathering held in Petrolia to the Federal Railway Commission, asking for a rate of one cent a ton per mile on gravel delivered from the River St. Clair to inland points, the commission called a meeting of the railway officials, who resolutely refused to grant the rate, and although the present rate has been lowered materially, yet it is not satisfactory.

Notwithstanding the fact that the rate of one cent per ton per mile is more than the average freight rate charged by either the Grand Trunk or C. P. R., on their whole systems and the material advantage to the railroads of having good roads leading into their terminals, the officers have refused to accede to a reasonable offer.

Mr. Armstrong still holds out the hope that the railways will come to reasonable terms, and for that purpose he has asked Mr. Drayton, the chief commissioner, that they meet with the people's representatives from Western Ontario in Petrolia at as early a date as possible.

Thos. Wark, a resident of Caradoc for 65 years died on Wednesday of last week. He was a native of Scotland and came to Caradoc when eight years old.

Toronto

Toronto, May 4.—Receipts at the Union stockyards to-day were 930 cattle, 202 calves, 855 hogs and 23 sheep and lambs.

A light run to-day brought cattle prices up strong all round. The demand for stockers, both for home and the United States market, has suddenly assumed very large proportions, and dealers here cannot begin to fill the orders, which are coming in fast. Stocker prices are already 25c to 30c up and may go higher. The demand for stockers gives an added stimulus to the butcher trade and packers are beginning to find it hard to meet requirements. The present rather excited state of the market may continue until grass-fed cattle begin to come in: in the meantime prices will in all probability rule high.

There were very few extra quality cattle offering to-day, but a few sales were made at \$8.10 to \$8.25. Fat cows are very firm, choice quality going up to \$7.25 and \$7.50. Bulls also very firm.

Calves very steady to firm. Sheep and lambs steady. Hogs firmer at \$9.00 of cars, \$9.15 being paid in some cases for select lots.

**The Pastor of Trinity
Memorial Church**
**A Story of an Easter
Sermon.**

By EDITH V. ROSS.

The Rev. Edgar Tyndale, aged twenty-six, upon being graduated from the theological seminary had no difficulty in getting a church, though the salary, even for so young a man was small. He had been marked during his seminary course for eminence in his career, for he had the faculty of speaking offhand, his voice was excellent, and his heart was in what he said. But Mr. Tyndale's first effort was a failure. His congregation expected their pastor to tell them of wickedness generally, not particularly. He made the mistake of holding up to them those sins that beset them. The result was that a party was soon formed in the church to get rid of him. Hearing of it, he offered his resignation, and it was accepted.

The young clergyman, a bit discouraged in this first effort in his ministry, to introduce a better Christianity into a congregation that considered itself beyond improvement, was thinking of turning his attention to a different element when he received the following note:

Dear Sir—Your name having been suggested to me for the pastorate of Trinity church at Pennington, which I have recently built in memory of my deceased mother and which pastorate is in my gift, I wish to say that you are invited to prepare a sermon to be delivered in the church on the morning of Easter Sunday, next. I will be there, and if I am satisfied to leave the church in your hands you will receive the appointment. The salary will be \$2,000 a year. Should you desire further information I will be pleased to have you call at my house, No. 21 Eliot street, Pennington. Very truly yours,
ELIZABETH WINKLE.

Mr. Tyndale, after spending some time wondering what friend had suggested his name for the position, began to consider the proposition. He would call on the writer and learn whether he would be permitted to attempt to make the congregation better. If so, he would deliver the Easter sermon according to the invitation. If not, he would look elsewhere for a field.

He found Elizabeth Winkle a little old spinster, with a couple of short white curls flanking a cheery face on each side. When asked who had suggested his name to her she said that she was familiar with his work in the church he had just left, that she was aware that he had been forced out on account of his having preached against individuals instead of the man for her memorial church. She had built it in the slums, and a pastor was required who would preach to sinners. This accorded with Mr. Tyndale's wishes exactly, and he told Miss Winkle that he would be happy to preach a sermon in her church on Easter Sunday. He would, in the meantime, inform himself somewhat as to the needs of the congregation and make his remarks conform to those needs so far as he could. Before leaving he added: "I have no desire to preach to those who are already as good as the world

**COULD NOT SLEEP,
COULD NOT EAT**

**Woman So Weak and Nervous
Could Not Stand Her Children
Near Her—Vinol
Changed Everything for Her**

Plant City, Fla.—"I wish I could tell everybody about Vinol. For nine years I was in bad health. I got so I could not sleep, and I could not stand it to have my children come near me. I could not even sew or do any heavy housework. I was simply tired all the time. I tried so many medicines I could not recall them all, but nothing did me any good. One day a friend asked me to try Vinol and said it was the best tonic she ever saw. I did so, and soon got the first good night's sleep I had had for a long time. Now I sleep well, my appetite is good, my nervousness is all gone and I am so strong and well I do all my housework and work in my flower garden without feeling tired or nervous. Vinol has made me a well and happy woman."
—Mrs. C. H. MILLER, Plant City, Fla.

Vinol contains the curative, healing principles of fresh cod livers (without oil) and tonic iron.

We ask every weak, run-down, nervous person in this vicinity to try Vinol, our delicious cod liver and iron tonic without oil, on our guarantee to return their money if it fails to benefit.

T. B. Taylor & Sons, Druggists, Watford.

express them to be. I have no especial interest in them nor have they in me.

"What is wanted in this case," replied the old lady, "is a sinner to preach to sinners."

Whether Mr. Tyndale considered that he filled the first part of this requirement he was quite pleased with his frankness. He went to Pennington, a manufacturing town, and found Trinity Memorial church in the center of the district taken up by laborers. He inquired as to the conditions of the people to whom he would be required to preach and the principal temptations by which they were beset. He visited a number of families and noted their physical as well as spiritual requirements.

Among those families that he visited he found some necessities—sickness and poverty—which, not having any income, he did not feel able to relieve and concluded to call again on Miss Winkle and report them. His call was responded to by a young lady about twenty years old, who informed him that her aunt was indisposed and had asked her to inquire if there was anything she could do for him. Mr. Tyndale gave an account of the misery he had witnessed, and the young lady withdrew, telling him that she would refer the matter to her aunt.

When she returned she was in street costume and told Mr. Tyndale that she would visit the sufferers and should be obliged to him if he would pilot her. She had called up a chauffeur, and they found a car at the door. On arriving at their destination the young lady entered upon an examination of what was required, made a note of everything, spoke words of comfort, left some money for an emergency with each family, re-entered the car and, with the clergyman, was driven away.

Stopping at stores, she ordered the requirements noted, telephoned a doctor to visit the families in whose homes there was sickness—in short, attended to everything in such methodical fashion that Mr. Tyndale was both surprised and delighted. They reached her home at noon, and she invited Mr. Tyndale to have luncheon with her, an invitation he accepted with alacrity.

"Your aunt," he said while they were seated at the table, "must be a woman of great practical generosity."

"Auntie has a very tender heart," was the reply. "Let me help you to some more of this dish. Our drive in the fresh air has doubtless made you hungry."

After luncheon the young lady lighted a fire on the hearth in a cozy sitting room and invited Mr. Tyndale to rest before departing. It seemed evident to him from her conversation that she was desirous of learning what manner of man he was, likely by order of her aunt, who she admitted intrusted her with the administration of many of her charities.

"Auntie is getting old," she said, "and can't get about as she once could, so you see that the brunt of the work falls on me."

"I presume," remarked Mr. Tyndale, "that she has made provision for these dispensations after her death?"

"Everything she has will go to charity," Mr. Tyndale did not pursue the matter further, but was struck with the fact that she seemed quite satisfied that the old lady's fortune should go elsewhere than to herself.

Mr. Tyndale had received Miss Winkle's note the middle of March, and on Easter Sunday that year fell on the 4th of April. Since he spoke extemporaneously, he did not even need to write a sermon and devoted all his time to visiting the people to whom he would preach, not only to study their needs, but to relieve them. He found many necessities of a practical kind, which he reported to Miss Winkle, and they were either relieved through him or her niece went with him to relieve them. It is questionable whether the beneficiaries were more pleased at these visits or the young clergyman who was instrumental in bringing them about, for he found charitable work in the company of a pretty girl very attractive. Then, too, the reporting of what was needed involved frequent visits to the donor, who in most cases sent her niece to receive the visitor and act in her stead.

By the time Easter Sunday came around the reverend gentleman had abundant material for an Easter sermon. In other words, the sermon had been growing up within him for a month and had only to be poured out, a message of comfort and encouragement to those who must work hard under the disadvantages of education for their living, and not only had the sermon been prepared by active work, but the congregation had been provided. Trinity Memorial church had not been well attended. Several clergymen had been tried with a view to drawing the working people living near it to worship there, but they had all failed. What was the cause of their failure does not concern this story. One thing is certain—Edgar Tyndale had endeared himself to hun-

dreds of people by relieving their temporal wants. When it came to speak to them in church of their spiritual necessities they were ready and anxious to hear him.

Easter Sunday was one of those mellow days that come in April, when the contrast between the cold past and coming warmth is most apparent, when the sunshine is developing the buds, when the birds are fitting about gathering material for their nests. A throng of working people poured into the Memorial church, many in better clothes than they wore on week days, some confined by necessity to their soiled garments. Every seat was occupied, and persons were standing several rows deep in the rear of the church.

When Mr. Tyndale stepped into the pulpit he looked among the front pews for Miss Winkle. She was nowhere to be seen, but among those who were standing was her niece, who declined to take a seat so long as others needed to be provided.

The sermon was what might have been expected, a counterpart of what the speaker had done among the congregation during the past month. As he had then given bodily comfort he now gave spiritual comfort. He told them of what Easter was the promise—not the promise to the world generally, but to each one of them individually. Hundreds of faces, each denoting deep interest, were turned up to him and made him feel that what he gave was taken in the spirit in which he gave it.

It had been intimated to Mr. Tyndale that there was little or no doubt that he would receive the call as pastor of the church, irrespective of his sermon, because he had demonstrated that he was a worker. He was invited to dine at Miss Winkle's after church, and, joining Miss Winkle's niece at the door, he walked home with her. When dinner was served she apologized for her aunt's nonappearance on the usual ground. Mr. Tyndale and the niece dined alone. Mr. Tyndale found on his plate a notification that he was called to the pulpit of Trinity Memorial church with a salary of \$3,000 a year.

"Will you express for me," he said to the lady sitting opposite him, "my thanks to Miss Winkle for the honor she has done me?"

"You may express them to Miss Winkle direct if you like."

"When?"

"Now."

"Then I will go to her at once."

"There are two Elizabeth Winkles, my aunt and myself. Trinity church has been founded by me in memory of my mother. Miss Winkle's honor has no property, except a small legacy left her by her brother, my father."

Mr. Tyndale continued through life to refer cases of needed charity to the founder of Trinity Memorial church, not as Miss Winkle, but as Mrs. Tyndale.

EGGS FOR HATCHING.

Can you look at an egg and tell if it will hatch? Probably not, but you can greatly increase the hatching power of the egg by following these suggestions, which are offered by W. A. Lippincott, professor of poultry husbandry in the Kansas State Agricultural college:

Select eggs which do not weigh less than two ounces, rejecting all exceedingly large and abnormally shaped eggs. The unusual shaped eggs will probably hatch, but pullets raised from such eggs will probably lay abnormal eggs.

Never wash eggs before setting them. Keep the eggs in a dry place at a temperature between 55 and 65 degrees, turning them at least once every other day. An egg in which the germ has become fastened to the shell will seldom hatch. The germ spot is always in the uppermost part of the egg, and if the egg is not turned the germ will stick to the shell if evaporation takes place.

The eggs should be gathered at least twice a day unless they are to be put into the incubator immediately.

Tulips of Haarlem.
Holland is famed for its bulb growers, and Haarlem is a specialized horticultural nursery for all Europe and the United States. The tulip, of course, is the typical bulb, the symbol of this amazing Dutch industry and a standard of value—as what is the agricultural barometer and pig iron the industrial indicator. The Dutch growers produce 2,000 varieties of tulips. They sell \$1,000,000 worth of bulbs to the United States every year.

"Fruit-a-lives" Cured Paralyzed Bowels and Digestion

ST. BONIFACE DE SHAWINIGAN, Que.,
Feb. 3rd, 1914.

"It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2 1/2 years, I have been cured by 'Fruit-a-lives'. While I was a student at Berthier College, I became so ill I was forced to leave the college. Several pains across the intestines continually tortured me and it came to a point when I could not stoop down at all, and my Digestion became paralyzed. Some one advised me to take 'Fruit-a-lives' and at once I felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, also, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take 'Fruit-a-lives' for they are the medicine that cures!"

MAGLOIRE PAQUIN
"Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

Inferior Lightning Rod

Again I wish to warn the farmer Ontario against inferior lightning. One of the same companies that the farmer with iron-centred rod is reported to be selling this rod again this year. Watch out for there is no difficulty in spotting rods. The outside covering is sheet of copper. Inside of the coil a strip of galvanized steel or iron half inch wide and two galvanize or iron wires about No. 10. The sheath is twisted around the str wires giving the rod a corrugated surface. The steel or iron will rust from five to ten years. For phot of what happened to a rod of this in less than eight years see Fig Bulletin 220, which may be had writing the Department of Agriculture, Toronto.

An Illinois firm is circularizing trade and others advocating the Lightning Rod System. They that twisted cables are positively claiming they act like "chocolate" tubes unless they are used. Insulators must be used, etc. If essential essence of error these claims surpass anything else I have seen. Beware of the man with the centred rod and the man who claim twisted cables are dangerous. The Department will be glad to be in regarding the operations of either.

"Neu-Tone" for the Walls

It is so easy and so economical to have a beautifully decorated home, with "NEU-TONE" Flat Finish.

The soft, restful "Neu-Tone" tints will delight the woman and man who appreciate refinement and delicacy in the home.

When you "Neu-Tone" the walls, you save all fuss and bother of washing and scraping the plaster to re-decorate. Simply apply another coat of "NEU-TONE" in any shade or tint desired.

"NEU-TONE" is cheaper than wall paper. It is truly economical—absolutely sanitary—can't fade, scale or rub off—AND IS WASHABLE. Soap and water cleans a "NEU-TONE" wall and takes away dust, stains and finger prints.

Marble-ite Floor Finish will withstand all the wear and abuse to which a floor varnish is subjected; it can be used on hard or soft wood floors; every can carries with it a money-back guarantee.

"MADE IN CANADA"

We have for you a copy of each of our two books on home decoration—"Harmony in Neu-Tone" and "Town and Country Homes". Ask for them when you come in.

J. McKercher, Watford, Ont.

Inferior Lightning Rods

Again I wish to warn the farmers of Ontario against inferior lightning rods. One of the same companies that buncoed the farmers with iron-centred rods last year is reported to be selling the same rod again this year. Watch out for them. There is no difficulty in spotting these rods. The outside covering is a thin sheet of copper. Inside of the copper is a strip of galvanized steel or iron one-half inch wide and two galvanized steel or iron wires about No. 10. The copper sheath is twisted around the strip and wires giving the rod a corrugated appearance. The steel or iron will rust out in from five to ten years. For photograph of what happened to a rod of this kind in less than eight years see Figure 34, Bulletin 220, which may be had by writing the Department of Agriculture, Toronto.

An Illinois firm is circularizing the trade and others advocating the "Mast" Lightning Rod System. They declare that twisted cables are positively dangerous claiming they act like "choke-coils," that tubes only should be used, that insulators must be used, etc. For concentrated essence of error these circulars surpass anything else I have seen. Beware of the man with the iron-centred rod and the man who claims that twisted cables are dangerous. This Department will be glad to be informed regarding the operations of either.

CURIOUS WAYS IN JAPAN.

One Thing in Particular That Pained a Visitor From Missouri.

I knew before I got here that Japan was queer, but I had no idea that everything was backward. I can't get used to sitting on the floor and sleeping with a tomato can with a napkin around it for a pillow. The easiest way to figure out how the Japanese would do a thing is to think what would be exactly backward in Missouri. When two Japanese meet they bow and bow, giving their heads short jerks as if trying to get salt water out of their eyes. When they separate they tip their hats. When they come into a store they tip their hats. When they buy a ticket they tip their hats. Their elbows are always bent toward their hats.

Japanese never kiss. This pleasant pastime has not yet been imported into cherry blossom land. It is only recently that a few of the Japanese have learned to shake hands. We travelers are hoping that they will take up other great American institutions. Japanese look upon kissing as being low and vulgar, believing that a few moments spent in bowing is much better. The girls feel that way about it, too—they say.

When an ardent young Japanese suitor slips his arm around the girl's waist and whispers into her shell-like ear that she is the only woman who has ever understood him and when she looks up confidingly into his eyes and breathes "You are so strong!" he does not clasp her to his bosom in an ecstasy of joy and plant a delicious kiss on her trembling lips—no, instead of that he gets up and bows politely and thanks her in a few courteous phrases.

One cannot help feeling sorry for them when thinking how many pleasant evenings they miss. From my limited experience I wouldn't give a good old fashioned Missouri kiss for ten minutes of bows.—Homer Croy in Leslie's.

A safe Pill for suffering women.—The secluded life of women which permits of little healthful exercise, is a fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Parmelee's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

CROWN GALL AND HAIRY ROOT

Rules by Which These Diseases May Be Reduced to a Minimum.

[Prepared by M. T. Cook, plant pathologist, New Jersey experiment station.]

That crown gall and hairy root are serious diseases cannot be doubted. That they may be much more serious in some localities than others and upon some plants than on others is equally true. Heavy applications of fertilizer tend to reduce the injurious effects on many varieties, but it would be more profitable for the grower to feed healthy plants than diseased plants.

The great difference of opinion concerning these diseases expressed by various workers in the past can be readily explained by our increasing knowledge of the subject. It is very generally conceded that the distribution of these diseases is largely due to nursery stock; that cane fruits, espe-

APPLE STOCK AFFECTED WITH CROWN GALL. Usually red raspberries, are notorious carriers of these diseases, and that certain varieties of apple, such as Wealthy, Yellow Transparent, Wolf River, Ben Davis and Northern Spy, are especially susceptible. Certain varieties of grapes and berries are also more susceptible

at temperatures above 32 degrees, but not to exceed 35 to 40 degrees.

Plant as early in spring as soil conditions permit.

Handle grafts carefully in planting so as not to make any wounds upon the roots or disturb the callous formation upon the cut surfaces of scion and stock.

Avoid injury to plants in subsequent cultivation.

Seventh.—Propagate by budding so far as possible the few varieties most susceptible to crown gall and hairy root.

Eighth.—Avoid heavy, wet soils.

Ninth.—Burn all diseased plants. Do not prune the evidently diseased parts and market the stock. The disease may have penetrated farther than you can determine.

The fruit grower should—

First.—Refuse all diseased stock. His time, land and fertilizer are too valuable for him to gamble with diseased plants of any kind.

Second.—Set the plants on land as free as possible from the disease. Avoid land that has been used for cane fruits.

Third.—Never use cane fruits as inter row crops.

Fourth.—Avoid injuring the trees by cultivation so far as is possible.

Fifth.—Keep trees as free from borers and similar pests as possible and paint the wounds made in removing borers with white lead paint or coal tar.

Sixth.—Rotate old orchard and berry lands to grains, potatoes or similar crops if possible.

Reversing a Phonograph Record.

A remarkably curious experiment may be performed with any ordinary phonograph. The sound box is reversed so that the needle slopes the other way, enabling the disk to be turned backward by the finger being placed near the center. The effect produced is extremely astonishing. You hear the human voice singing songs backward; you hear the harmony of Wagner backward—plain English sounds like a Chinese language. The most remarkable effect is perhaps to play a chime of bells in this reversed manner. The sound rushes up and up, but there is never a single strike or clash of a bell. The strike on the ear is reversed and is nothing but a sharp "cessation of sound."—Strand Magazine.

A Scene Before the Mirror.

What the jungle ladies of Africa lack in clothing they make up in hair adornment. Some styles are pleasing, while others are very grotesque. Their hair combs are made of a very tough wood, and they need be tough, for one of the feminine customs is to put gum all through their hair to keep it in place. A very strong comb is needed to get it apart, but the women contrive somehow to do it, and as time is not money in Africa they are never in a hurry. One is not surprised to learn that sometimes it takes a woman a week to have her hair properly arranged.—Christian Herald.

Aftermath.

"Aftermath" is a persistently ill used word. Early July is the time of the "math"—that is, the first mowing of the meadow. The short grass with a sufficiency of rain will grow again, and later will come the "second mow," or "aftermath." The phrase "The storm and its aftermath" seems a favorite with some story writers, but it is difficult to understand how a storm can have a second mowing.

than others.

These diseases are so widely distributed that their eradication is practically impossible, but they can be very greatly reduced. The buyer of a tree is entitled to a healthy tree, and no fruit grower can afford to set inferior or diseased plants. The inspection laws in the different states are becoming more and more strict every year with stock likely to carry these diseases. By observing the following rules these diseases can be reduced to a minimum:

Nurserymen should—

First.—Grow their stock on ground as nearly free from these diseases as possible. Never use ground which has recently been set with cane fruits.

Second.—Avoid injuring the young trees by cultivation.

Third.—Use the best grade, healthy seedlings for budding and grafting.

Fourth.—Use scions and buds from trees known to be absolutely healthy. The roots, trunk and branches of trees from which the scions are cut should be free from all forms of the disease.

Fifth.—When root gall is prevalent budding is much to be preferred to root grafting, especially with susceptible varieties such as Wealthy.

Sixth.—If root grafting is practiced the following precautions should be taken:

Make close fitting grafts, leaving no exposed cut surfaces.

Wrap each graft well with soft waxed cloth.

Avoid wrapping with waxed string or raffia.

Store root grafts in clean moist sand

"PAGE FENCES WEAR BEST"

A LESSON FROM THE AEROPLANE

THE force that makes the aeroplane—a heavier-than-air machine—over-
come the law of gravity is the propulsive power of the motor. Stop
the engine and gravity exhibits its law.

In much the same way the pro-
pulsive power of advertising makes
a business triumph over dragg-
ing-down tendencies, personal inertia,
quiet times, and general business
depression.

Advertising is the propeller. The
merchant is the pilot. His business
is the machine. His community is
his sustaining medium.
If you want business to soar, start
the motor of advertising.

TO THE PEOPLE IN AND ABOUT WATFORD

The pilots of every dominant and progressive business in Watford
are using the propelling force of advertising in some form or other. The
most powerful form of advertising is newspaper publicity.

ADVERTISEMENTS SAVE YOUR TIME AND MONEY

BROOKE COUNCIL.

Alvinston, May 1st, 1915.
Council met pursuant to adjournment.
Members all present. Minutes of pre-
vious regular meeting and those of special
meeting read, and on motion of Mr.
Johnston, seconded by Mr. Kennedy,
were approved.

Mr. John Beattie complained that water
flowing from the Collier-Davis Award
Drain was injuring his land and crops.

Johnston—Kennedy, that the Reeve
consult the solicitor as to action to be
taken, and follow it.—Carried.

Campbell—Johnston, that order for
\$52.83 be granted. Treas. of Finniskillen
in settlement of equalization of expendi-
tures on townline in 1914.—Carried.

By-law No. 10 introduced and read, to
levy pro rata the costs of repairs to the
McNally Tile Drain in 1914.

Kennedy—Johnston, that bylaw be
read third time and passed.—Carried.

By-law No. 11 introduced and read to
levy a deficit of \$472.53 on lots and roads
assessed for the Parker-Sisson drain.

Bourne—Kennedy, that by-law be
read a third time and passed.—Carried.

By-law introduced and read to levy a
deficit of \$520.80 on lots and roads assessed
for repairs to the 12-13 con. road drain
and to issue of debentures spread over a
term of three years in payment.

Bourne—Johnston, that by-law be read
a third time and passed.—Carried.

By-law No. 13 introduced and read to
levy a deficit of \$1570.00 on lots and
roads assessed for the 3-4 sideroad and
8-9 concession drain, and to spread pay-
ment over a term of five years by the
issue of debentures.

Johnston—Kennedy, that bylaw be
read and passed.—Carried.

Bourne—Johnston, that the Clerk be
instructed to prepare and advertise for
sale the following: one cent. drain
debentures, viz. 12-13 Con. Road Drain
\$520.80; Stevens-Zavitz drain \$850.00;
deficit Bourne drain \$1434.35; deficit 3-4
sideroad and 8-9 con. drain \$1570.00.—
Carried.

Frank Bell notified Council that he
wanted the work finished of repairing the
Martin Creek and Townline drains, also
a culvert at the corners and his
reasons therefor.

Johnston—Bourne, that the commis-
sioner be instructed to notify the con-
tractors for these drains, to commence
work by 15th inst., or jobs would be re-
jected.—Carried.

Kennedy—Campbell, that the adjourn-
ed Court of Appeal on the Monro drain
be reopened, the Reeve in the chair.—
Carried.

Bourne—Kennedy, that the assessment
on lots in 8th and 7th concessions and
lots 10 to 12 inclusive in the 8th con.
be struck off, the assessment on lots 2 to
9 inclusive in the 8th con., lots 10 to 13
inclusive in the 9th con. and lots 12, 13
and 14 in the 10th con. be reduced 40
per cent. These reductions amounting
to \$942.88 to be levied and added pro
rata to the lots assessed for benefit, and
the amount charged to township for
roads. Parties interested to be notified
of these changes and court adjourned to
open at 2 o'clock p.m. on Saturday, the
29th of May, 1915, in Cole's Hall in the
Village of Alvinston, to give interested
parties an opportunity to show cause why
these proposed changes should not be
approved and consented.—Carried.

Petition received from D. McKellar
and Jos. McTaggart asking for the con-
struction of a ditch under The Drainage
Act on parts lot 20, con. 6.

Johnston—Campbell, that engineer be
instructed to examine area, lay out drain
and report to council.—Carried.

Tenders opened as follows for the work
on Stevens-Zavitz drain, Angus Stewart
\$850.00; A. W. Wallis \$638.50; James
Stevens \$735.00 and William Neil \$688.50.
Kennedy—Campbell, that tender of
Wm. Neil being the lowest be accepted.
Carried.

Clerk stated the unfinished work of
1914 was about completed, and wished to
be relieved of the position.

Bourne—Campbell, that Council ad-
journ to meet in the Village of Alvinston
on Saturday, the 29th May, 1915, and to
open as a Court of Revision on the
assessment roll for 1915, at 2 o'clock p.m.—
Carried.

W. G. WILLOUGHBY, Clerk.

N. HRRBERT, Clerk.

SAVED BABY'S LIFE
Mrs. Jos. Desrosiers, St. Alphonsus, Que., writes: "I cannot say too much in favor of Baby's Own Tablets, as they saved my little one's life. Before giving him the Tablets he was greatly troubled with worms and was like a skeleton and cried day and night. The Tablets soon expelled the worms and now baby is the picture of health." Baby's Own Tablets also break up colds and simple fevers, cure constipation and indigestion and make the teething period painless. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Our Correspondents
It is not necessary to put an extra stamp on envelopes containing correspondence, so long as the envelopes are not sealed and are not overweight. Copy for newspapers goes at circular rates and does not require a war stamp. Write "Printers Copy" on face of envelope.

Douglas, the youngest son of Dr. Kelly of Ailsa Craig, was found drowned in an old well near S. Kerby's on Tuesday afternoon. The little fellow was 2 years, 8 months and 22 days old and had wandered away for the first time from home, and going to the well, which was caved in somewhat, slipped through. He was found by his father who jumped in to the well to save him, but he had taken his flight. Douglas was supposed to have been in the well for about forty minutes. Everything was done to restore life, but without avail.
