## FRENCH AVIATOR CAUSES MORE SENSATION

### Pegoud Flew Upside Down, Looped the Loop and Outdid All Previous "Stunts"—British Aviator Intends to Do the Same Thing in a Similar Machine.

LONDON, Sept. 26.—The French aviator, Pegoud, again performed marvelously at the Brooklands aerodrome today. Immediately on arriving he stepped into the machine and was strapped down. Amid a burst of cheering the engine was started and the monoplane began its swift ascent. When Pegoud was 6000 feet up there was a cry from the spectators, "He is coming down," and almost immediately he dived straight toward the earth. Then he over-turned the machine on its back, and for nearly a minute flew upside down. It seemed incredible that the machine could be in this position for so long, and most of the spectators thought their eyes must be deceiving them. When at the end of a minute he turned his machine right again, it was clear he had outdone his feat of yesterday.

One would have thought this was thrill enough, but in the same descent Pegoud turned his machine on its back again.

**More Sensations.**  
By this time he had dropped to about 1000 feet, and it was thought he was coming to the earth, but to the astonishment of the crowd he commenced his ascent. Again he climbed to about 6000 feet and then turned the nose of his machine sharp to the earth. What followed was even more sensational, for Pegoud actually looped the loop twice, one movement following the other immediately, and before he came to the earth he turned his machine on its back again. When he landed there was a wild burst of cheering, and the crowd broke thru the barriers and rushed to meet him.

The young British aviator, Gustav Hamel, said today that he hoped to emulate Pegoud's exploit. "I have just ordered a Bleriot monoplane of the identical type of Pegoud's," he stated. "M. Bleriot has promised to deliver it in ten days. As far as I can gather from Pegoud's exhibition and from what I know of angle flying, I am convinced that the whole problem rests with the human being. M. Bleriot tells me that my own flying with the short wings I used in the aerial Derby is far more dangerous than any of Pegoud's feats. He is convinced that, with my experience, I have been flying much longer than Pegoud—I shall be able to fly upside down the first time I try. At first I shall only try flying upside down for a few seconds. When I know what the feeling is like, I shall consider whether or not I have the nerve for more ambitious things."

## TARIFF BILL TO BE REPORTED ON MONDAY

### Full Agreement Has Been Reached on Every Feature Save Tax on Cotton Futures, Upon Which No Agreement Seems Possible—Mutual Concessions by Conferees.

WASHINGTON, Sept. 26.—(Can. Press)—The tariff bill is tonight a completed document, except for the provision taxing trades in cotton futures. After more than two weeks of constant work behind closed doors, the eight Democrats representing senate and house, as members of the conference committee, late today settled the last of their other differences and reached the final decision that they could not agree on the cotton futures tax.

The formality of submitting the conference report to the Republicans is not expected to take much time, and it is believed the report will be presented to the house on Monday afternoon by Representative Underwood. In the final session today a further futile attempt was made to settle the fight over the cotton futures tax. The senate conferees changed front and agreed to give up the Clarke amendment altogether, but the house members refused to permit this. The senate in turn refused to accept the proposed "Smith-Lever" compromise, and in the end it was determined to report a disagreement to both branches of congress and let the senate and house determine what should be done toward regulating or taxing the trading in cotton for future delivery.

**How They Compromised.**  
The final differences in the bill were adjusted as follows:  
The house receded from its rate of 12 1/2 per cent on lead ore, and accepted the senate rate of 10 per cent.  
The senate receded from its rate of 12 1/2 per cent on raw wool, tops and wash, and accepted the house rate of 10 per cent.  
The house gave up its demand that the woolen tariff rates go into effect at once, and agreed to the dates fixed by the senate, namely, woolen goods, Jan. 1, 1914; raw wool, tops and wash, Dec. 1, 1913.  
The house receded from its provision to cotton threads, yarns and cloths, accepting the senate amendment, which revised the schedules upon a basis of thread count.

## SWORE SULZER SUGGESTED SILENCE

### Superintendent Peck Staggered Defence by Alleging That Governor Told Him to Violate Oath in Testifying—Ambassador Morgenthau Also Told of Strong Pressure.

ALBANY, Sept. 26.—(Can. Press)—Governor Wm. Sulzer tried to persuade contributors to his campaign fund not to testify against him, according to evidence adduced at his impeachment trial today.

He asked Duncan W. Peck, state superintendent of public works, who gave \$500 to the fund, to violate his oath on the witness stand in the event of his being called to testify before the Frawley investigating committee. Peck swore. The governor, Peck asserted, had told him that he too would deny receiving contributions. This conversation, he said, occurred in the governor's office at the Capitol. The witness was examined by John B. Stanchfield as to the precise words used by the governor.

"What did he say?"  
"He said: 'Do as I shall do; deny it.'"

Told to Forget Oath.  
"I said, 'I suppose I shall be under oath.' He said, 'That is nothing. Forget it.'"

Attorney Hinman, cross examining for the defence, asked Peck if it were possible that he could be mistaken about a single word that passed between him and the governor.

"Not a word," Peck replied emphatically.

Peck at the time of his contribution held his present position, but he testified he told the governor there were no "strings" on the gift and that he did not feel that he was obliged to report it.

Peck was reappointed.

The governor asked Henry W. Morgenthau, ambassador to Turkey, who contributed \$1000, to be "easy on him," and to "treat the affair between us as personal in the event of his being called to testify. This Mr. Morgenthau swore to when recalled to the witness stand today. He said that the request was made by the governor over the long distance telephone on September 2 last.

**Defence Bewildered.**  
The governor's attorneys gave indication of being completely confounded by the testimony of these two witnesses. None of them had the faintest inkling, it was said, that such a plot existed.

## First Material for the New Welland Canal

Ties and Timbers Brought into Port Weller Over a Spur Line From the New C.N.R. Electric Road From St. Catharines to Niagara-on-the-Lake.

## NEW RADIAL LINE WILL DEVELOP SOUTH SHORE

### Electric Road From St. Catharines to Niagara-on-the-Lake Will Be of Great Benefit to Fruit Growers and Will Assist Materially in Growth of the District.

It was an eye-opener to some of those who went with the Canadian Northern officials on their inspection tour yesterday over the route of the new branch of the Niagara, St. Catharines & Toronto Railway, between St. Catharines and Niagara-on-the-Lake. The new road runs thru one of the greatest fruit districts in the world, and one thing that impressed the party was the apparent financial independence of the farmers.

A freight service hauled by steam locomotives has already been inaugurated between St. Catharines and McNab, a distance of five and one-half miles, and connection is being made with the steamers at Port Dalhousie for Toronto. At one time, yesterday twelve team loads of fruit were being packed in freight cars at McNab. It is expected that the balance of the twelve miles will be in operation before the winter, as at present nearly all the preparatory construction work is completed.

Crossing the Grand Trunk Port Dalhousie line on the outskirts of St. Catharines, the road runs on a direct line for three miles, striking within a quarter of a mile of the new townsite of Port Weller.

Land is Purchased.  
This new village has sprung up since the announcement of the location of the Lake Ontario entrance to the new Welland Canal. Also there are no other buildings on the site of the new town, other than houses of workmen on the canal job, a Toronto syndicate have purchased a large acreage in the vicinity, with the expectation of building a large town. A huge breaker will be built there to run out a mile and a quarter into the lake.

Where the railroad crosses the Ten Mile Creek, the river course, the canal will follow, a long trestlework has been erected. This structure will be replaced by a swing bridge to accommodate road and foot traffic. Two and a half miles further on is McNab, the centre of a community of extensive fruit growers.

When the overhead transmission wire can be strung, huge electric motors, capable of hauling thirty to forty loaded freight cars, will be put in commission. Also the extent of the passenger service has not yet been determined. It is expected that cars will run hourly between St. Catharines and Niagara-on-the-Lake. A larger type of radial coaches than in operation in Canada will be used and it will be capable of traveling sixty miles an hour.

**After Fruit Trade.**  
S. E. Seixas, the manager of the Niagara, St. Catharines & Toronto Railway, who had charge of the construction of the new road, in speaking to The World said: "Of course, the main object of the line will be the carrying of fruit to our boats at Port Dalhousie by way of St. Catharines. Hitherto the farmers in the district where we are

## ARRESTS FOILED ASSASSIN'S PLOT

### Murder of Portugal's Premier Was to Have Been Signal for an Uprising

LISBON, Portugal, Sept. 26.—(Can. Press)—A confession that they intended to assassinate the Portuguese premier and instigate a revolt was made today by five men arrested last night while placing bombs around the premier's villa at Praia das Maras, a watering place near Oporto.

According to the bands the men were delegated by a syndicalist group to explode the bombs in Dr. Alfonso Costa's garden. He was to be attracted in this way, and they intended to shoot him down when he appeared at the window to find out what had happened.

Dr. Costa's death, they declared, was to be the signal for a revolt. Armed bands, they said, were ready to rush the prisons amid the confusion and to liberate the prisoners.

The syndicalists, they asserted, had plotted also to kill the minister of war.

The Mundo avers that the Royalists, Radicals and Republicans were implicated in the conspiracy.

**PREPARE FOR INVASION.**  
MADRID, Sept. 26.—(Can. Press)—Bands of Portuguese Royalists have gathered along the Portuguese frontier, according to dispatches from Badajoz, where they intend to carry out a carefully laid plan to create slight disturbances at various points, so as to attract the attention of the Portuguese while the main body of a royalist army marches on Lisbon from the north.

OTTAWA, Sept. 26.—(Special)—Sir Wilfrid Laurier, in Montreal trying by political strategy to induce Hon. Mr. Monk, ex-minister of public works, to resign the Nationalist position in the Chateaugay by-election. It is hoped that this would help in the Ontario by-elections.

## FIVE KILLED AT LEVEL CROSSING

### C. P. R. Express Struck Carriage Containing Family Lived at St. Elzear.

MONTREAL, Sept. 26.—(Can. Press)—Five people were instantly killed by the C.P.R. Quebec express, ten miles from this city tonight, when the carriage in which they were riding was struck by the pilot of the engine.

The dead are: Formidas Allaire, 49 years; Mrs. Hortuldas Allaire, 48 years; Wilfrid Lortie, bachelor, 43 years; Albina Lortie, his sister, unmarried, 43 years; Victoria Lortie, another sister, 37 years.

All the victims lived at St. Elzear, Que.

The party were driving to their home at St. Elzear over a private road known as Monte Du Moulin, which runs from Park Laval to St. Martin. The road is not much more than a rough track, and at the crossing where the accident took place there is no light or habitation. The train was en route to Montreal.

The engine driver, realizing that there had been an accident, pulled up, and the train crew picked up the bodies of the party, which had been thrown in all directions, one of them being found on top of the engine. The carriage was smashed into splinters.

Four of the victims were dead when picked up, the only one showing any sign of life being Albina Lortie. All were placed on the train and brought into Montreal.

At the Mile-End Station an ambulance from the Royal Victoria Hospital was waiting. Miss Lortie was placed in the vehicle, but died before reaching the hospital.

Just how the accident happened no one seems to know, as the point where the carriage was struck is far removed from any farm house. The party carried no light, and the engine driver claims that the first intimation he had was when he felt the impact of the engine and carriage.

The bodies were placed in the Montreal morgue, and an inquest will follow.

## ICE SCATTERS POLAR PARTY

### Karluk Only Ship of Stefansson's Fleet to Arrive at Its Winter Quarters—Schooner Wrecked.

NOME, Alaska, Sept. 26.—(Can. Press)—The four-masted schooner Transit is a total wreck on the shores of Point Barrow, where she was driven by the ice, and five other vessels are imprisoned in the ice in the same neighborhood.

Captain J. B. Backland, owner and navigator of the Transit, and his crew of seven are on their way to Nome in a launch. The old whaler Karluk, bearing Vilhjalmur Stefansson, is the only vessel of the Canadian explorer's fleet to clear the ice and make winter quarters. The power schooners Maize, Sialka and Aialka, and the steamer whaler Belvedere, bearing part of the explorer's outfit are fast in the ice. The other towboard vessels are the power schooners North Star and Polar Bear.

While the five imprisoned vessels are in danger of meeting the same fate as the Transit, no fear is felt for the safety of those on board, as it would be easy to leave at any time over the ice.

## PANAMA CANAL TO HAVE RIVAL?

### English Capital Said to Be Prepared to Back Colombia in Big Scheme.

LONDON, Sept. 27.—(Can. Press)—The Standard, in a long editorial today, hints that English capital, represented by Pearson & Son, will give Colombia a chance to avenge herself against Panama by constructing an ocean-to-ocean canal by way of the Atrato and Cupica Rivers.

"What," says The Standard, "is to prevent Colombia, if it has sufficient support from foreign capitalists, from making this canal itself and thereby setting up a formidable rival to the enterprise which is now rapidly approaching completion?"

The assertion of the Monroe doctrine to prevent the building of the canal would be, according to the editorial, equivalent to the assertion of sovereign rights over every American republic, which so far is not a pretension American statesmen have put forward.

## NOTHING DOING

## MOTOR DRIVER UNDER ARREST

### Henry Pancott Charged with Criminal Negligence as Result of Accident on Spadina Ave.

Arthur Kenyon, 257 Spadina avenue, an employee of the City Storage Company, lies in the Western Hospital in such a serious condition that little hope is entertained for his recovery.

Henry A. Pancott, 137 Dundas street, driver of a motor truck, owned by the Elias Rogers Coal Company, is under arrest at Claremont police station on a charge of criminal negligence in connection with the accident.

The furniture van was standing at Spadina crescent and Russell boulevard, near Knox College. Pancott was driving the heavy coal truck along the street, and it skidded. Kenyon was standing near the hub of one of the rear wheels of the wagon and was severely crushed when the motor truck struck the wagon. He was taken to the Western Hospital, where he was found to have sustained several fractured ribs and internal injuries. He is not expected to recover.

It is alleged that Pancott was driving too close to the wagon and showed general negligence. He was arrested by Constable Weatherupp (209).

## THROWN BY HORSE BOY WAS INJURED

### Hector Stewart May Die as Result of Accident on Station Road, Mimico.

Thrown from his horse while galloping along Station road to Mimico late yesterday afternoon, Hector Stewart, aged 13, of the Ritchie House Hotel, sustained very serious injuries. The little boy is now at his home in a critical condition, and his recovery is doubtful.

Young Stewart had been to the post-office, and also out for a little ride. He slipped the horse to make it run faster, but when the animal shied at a paper and jumped to one side while traveling at a good rate the lad was unable to cling to him, and fell head first to the road. Dr. Carman Ricker of Mimico was summoned.

## PRINCESS STILL CRITICALLY ILL

### Ex-King Manuel's Bride Cannot Be Moved and Her Relatives Are Greatly Disturbed.

BERLIN, Sept. 26.—The 14th of Princess Augusta, who was recently married to Manuel, the pretender to the Portuguese throne, still continues to cause grave anxiety, although tonight's bulletin reports the assurance that there is no fever, but the patient continues to require absolute quiet and rest, it says, and very careful nursing.

The Princess receives her husband daily and two or three other visitors only. A transfer of the patient to Sigmaringen is now stated to be out of the question for a long time, and her relatives therefore are greatly disturbed. The Sigmaringen population cannot understand the sudden illness of the formerly exceedingly healthy and very popular princess. People there are disposed to criticize the official bulletins and angrily deny the medical details of her disease as given exclusively by The Tagblatt yesterday evening.

ARNOLD AND MOYES COMPLETE VALUATION RE RAILWAYS DEAL

Needs Only to Be Written Out Neatly and Forwarded, Says Mayor Hocken on His Return From Chicago—Controller Church Sorry for His Morning's Behavior.

When Mayor Hocken returned from Chicago yesterday his countenance showed that his conference with Elton J. Arnold and John W. Moyes had been very satisfactory.

"They have finished the valuation of the street railway property and the ends of the radial," he said, "and they are now reducing their report to writing. The report will be along very soon."

"Until we adjust the rapid transit service of the city the man of small capital or on salary will have no chance to better himself," Controller O'Neill declared. "He must live concentrated in the area controlled by the Toronto Street Railway Company, with high rents and high prices of land. It is very probable that we have now the opportunity to so adjust the rapid transit service that cheaper homes will be available for every man now here or who comes to Toronto to reside, and he can make his choice of residence in the city or in the Metropolitan area."

Controller Church made a scene in the board of control yesterday that was most distressing to his colleagues, but which appealed to the large crowd of citizens on deputations as so loud a roar that they indulged in a little after-noon peal of laughter. He continued to be so glib and cantankerous that his colleagues had to call an adjournment to give him a chance to cool down. He was then asked to sign a paper which would allow him to resign before they would allow a survey.

"Members of the council are more concerned in the survey than are the heads of the departments," Controller O'Neill declared. "The survey is not a matter of the city but a matter of the province. It is a matter of the province and the council refused to get a list of properties owned by the city."

"Should Have New Mayor," he said, "I've been presiding nearly all year," said Controller O'Neill to Mayor Hocken. "While you have been running around here, I've been presiding over the city. The whole business of the city has been upset all year by your running around on the street railway case. We should have a new mayor and board."

"You've had a bad night," Mayor Hocken remarked, and a roar of laughter followed. Board Forced to Adjourn. "It is hard to be a gentleman around here," Controller O'Neill declared, meaning that Controller Church is so glib and cantankerous that little heads will be made with the business of the board.

"You talk about a man being gentlemanly," Mayor Hocken said to Controller Church. "I know of no man in the council who interrupts more than you do."

bureau investigate these ideal conditions. On the other hand, should any betterment be advised thru the survey we should be willing to give it most serious attention."

"The American bureau is made up of theorists," said Controller Church. "We want to rid our town of Yankee experts. They have caused a considerable cost already. I resent interference by those who are not members of the council. I move that the request for a civic survey be sent to the heads of the departments for a report."

Mayor Hocken took out his watch and placed it before him on the table. "What's the matter?" Controller Church demanded, looking at the gold timepiece. "I will speak for an hour if I like."

"Go ahead," said Mayor Hocken. "Ald. Wentworth took notes of Controller Church's lengthy tirade against a civic survey, and will probably quote them in council."

"We should not go over the heads of the departments," Controller O'Neill said. "Controller Church has discredited the board of control time and again by his remarks. The heads of departments have more opposition from the board of control in carrying out legislation than from any other quarter. I want the civic survey made, but the board should first have a conference with the heads of departments."

Foster Favors Survey. "Tammany would be in it with Toronto if we did not have an investigation from time to time of the Controller," Foster said. "I favor a civic survey."

The heads of departments have already agreed to assist a civic survey. In every possible way," Mayor Hocken said. "Any head of a department would be objecting to a civic survey would be the first to have his department investigated."

"I favor a survey if the heads of departments are first conferred with," said Controller O'Neill. "Never," Controller Church cried. "The board of control has nothing to cover up, and neither have the heads of departments," Mayor Hocken said. "Keep 'Yankees Out.'"

How People Feel When They Have Tape Worm

Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is of pear shape, having two, four and six suckers. It lays the eggs, which are only connected together with slime. They develop and form a body, which is the worm.

Each joint is an individual, having a sucker or mouth. The worm grows much longer than the bowels where it is located, and sometimes a whole colony of them are found, enough to fill a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an eternal demon, and causes its victim to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe the patient is suffering from some other disease as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the lungs, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of bowels, appendicitis, and other complaints, when one or more of these internal demons were eating their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people who are afflicted with them and are not aware of the fact. The letters and testimonials the professor has in his possession are enough to convince you of his amazing fact. Some of the most prominent symptoms are ravenous appetite, dizziness, headaches, cramps in the bowels, a feeling of something moving in the bowels, also a feeling as if something was crawling up the intestine, and a feeling of having one in the system is when segments or joints are seen, which come away almost any time. These are all signs of the parasite.

Prof. Mulveney's world-famous Tape Worm Remedy is safe, harmless, and does not cause any danger, is not disagreeable to take. One dose nearly always effects a cure. Who drafted the McNaught bill? Controller Church asked. "I have," Mayor Hocken answered. "Your chief complaint is that you were not taken into the negotiations and you missed the boat. It is a matter of discussion," Controller McCarthy said to Controller Church.

"We're going to make the best bargain we can, and submit it to the people," Controller O'Neill said. That ended the discussion.

JAPANESE TRADE HAS RECORD YEAR Exports and Imports Show Big Increase Over Former Figures.

Japan's foreign trade in 1912 was greater by \$95,227,420 than for the previous record year of 1911. From \$507,783,206 in 1911 the 1912 advance in exports brought the grand total up to \$603,010,626. These figures are for Japan proper, Taiwan (Formosa), and Chosen (Korea), but exclude the Kwantung leased territory, which serves largely as a gateway for Japanese industrial effort in Manchuria and the other northeastern provinces of China. In 1912, therefore, Japan's foreign commerce exceeded all previous records.

The most striking feature of the year recorded unprecedented results. Good crops as a rule at home and in the United States, and the demand in the United States for raw silk, Japan's chief staple export, continued to expand. The year as a whole proved to be the most successful in the history of Japan's rapidly expanding foreign commerce. No doubt the most significant feature of the year was the remarkable advance in the exports of raw cotton. Heretofore the percentage of the total exports in raw cotton to the far east, as compared with European countries, has been decidedly unfavorable, but for 1912 American, including Hawaii and the Philippines, led in Japan's exports.

Japan continues to find the United States its chief customer, that country consuming one-third of all that Japan sells to the entire world. On the whole, 1912 was a record breaker in the foreign commerce of Japan, in both imports and exports.

Paris, Sept. 26.—Dr. Jacques Barillon has published in Le Journal a critical study of the effect of the higher education of women upon marriage, using as a basis the statistics profession opened wide to them. He returned by Mount Holyoke College, South Hadley, Mass. These figures show that whereas from 1842 to 1849 15 per cent of the graduates remained single and 85 per cent got married, from 1900 to 1909 24 per cent only found husbands.

Bertilion emphasizes as factors in the question the absence of marriage dowries in the United States and the relatively small part played by money in American marriages, mentioning the completion of marriage only from men of relatively inferior class. He also emphasizes the facts that the completion of the education of women goes on to point out the abnormal percentage of sterile women among American college graduates, which is 26 per cent, against the normal ratio of 10 per cent, concluding that only a few educated women marry while an extremely small number stay celibate, the benefit of their education by bearing children.

He shows that the child-bearing productivity of educated women, as compared to uneducated women, stands at the proportion of three to twenty. In conclusion, the scientist recommends that the French Government should immediately organize an exhaustive study of the problem of woman's education, which he says should be given by the United States, which Bertillon regards as sufficient justification for such inquiry.

LAWYERS TO GOVERN FLIGHTS THRU AIR Property Rights Are Considered by Framers of International Regulations.

many, Sept. 26.—(Can. Press).—The conference under the auspices of the international law committee of aviation today adopted the following principles on which they will endeavor to secure international legislation for the uniform control of aviation: Rights of private property do not extend to the air. The air is a public domain, and the right of the land holder to prohibit aviators flying over their lands if such flying is done without occasioning inconvenience, but any abuse of this privilege by a flyer will make him legally responsible.

The owner of an air craft shall be responsible for damages to persons or property, except to persons on board an aircraft, but the owner of the air craft may recover against a person whose negligence or carelessness may be proved that damages were due to persons beyond human control. After passing these proposed measures the conference adjourned.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Long, long ago there lived in an ancient castle a highly respectable cat and his wife, who had two children.

"Well, to be sure!" she exclaimed to herself, as she drew near the rosette.

"Oh, nothing to speak of," said Whishie, frowning tooth and claw upon the bird, and very much wiser, her coat had devoured the larger share of it.

"Willingly," replied Contenta; "but have you had no breakfast?"

Raggs' Weekly Letter

Toronto, Sept. 25, 1913.

My Dear Toronto-Ontario: Isn't music a beautifully humanizing art? Humanity is primarily emotional and it is, of course, only civilization that has confounded sweetest sentiment with sentimentality, teaching us to repress the significant of human strength with the latter—a sure sign of inhuman weakness, spiritual, mental, or physical.

Will any living language, I wonder, ever express human joys and sorrows so perfectly as does music? The artist is afraid that we have so cheapened our most expressive words and phrases that we have made meaningless symbols of them.

How can we enthuse as the idea of an "entrancing beauty" when we so often find them a disappointment or, to be more exact, a disappointment they are cracked up to be.

But, to return to the subject you ever noticed how that the art of the

A DOLL PARTY

Girls who think they are too grown up to play longer with dolls cannot deny that their love for their old playthings is still keen.

A teacher is made over a rag body; if small, a hickory nut will do for the head. A ruffled cap must cover the back of this, the face may be painted with oil colors, her dress may be any dark print, but a three-colored kerchief must be pinned across her shoulders to hide the fact that she has no arms.

Now you have a figure, very like a brownie, that will give joy to baby-kind and that may be finished as elaborately as one likes.

Paint the faces with water colors, make the carmine cheeks first and color the hair and set aside to dry. The brows and eyes and nose and mouth are first drawn in with a hard pencil and then colored.

These last are very simple to make. Use fancy hose, past mending. Cut them down the back seam, remove the feet, and double lengthways.

John Chinaman doll is a great favorite. He may be cut from Canton flannel and his two-piece dress made gorgeous with braid and beads.

- 1. Bread and butter, cold meat sliced thin, pickles, cocoa. 2. Sweet sandwiches, fancy cakes, salted nuts, lemonade. 3. Boston brown bread and butter, coffee and cakes. 4. Chicken salad, olives, rolls, ice cream, small cakes. 5. White bread and butter, or hot biscuits and honey with hot chocolate and individual cup custards.

EDUCATION BOARD HEAR PROPOSALS

Frederick Street Owners Ask Them to Share Expense of Water Main.

HEBREWS WANT A LOAN

Loan Considered if Letter of Application Guarantees Canadian Spirit.

A delegation representing 21 property owners on Frederick street, North Toronto, waited on the property committee of the board of education yesterday and asked the committee to share with them the expense of laying a water main 1,980 feet north of St. Clair avenue.

Superintendent of Buildings Bishop recommended the purchase of the property south of Huron Street School, owned by Mrs. Campbell Brown, for \$2850. The purchase was approved by the committee.

Deeks Wanted. A letter was received from the Jewish residents in West Toronto asking for the loan of 100 desks for use in the Voluntary School of Schneidermann's Hall.

Owing to complaints from the residents in the vicinity of Whitrow Avenue School about the sand from around the school grounds blowing on to their verandahs and filling their eaves, the trustees of the school have decided to immediately order the sand with two or three hundred loads of loam and have the same seeded.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

Soil and Plants for Rockwork.

Continuing our work among the rockeries, we shall now talk of the proper soil for the filling of rockeries.

Alpines will not thrive under their new conditions, that is, in gardens, unless they have an abundance of good soil from which to draw food.

As a rule, the soil from the surrounding neighborhood is not suitable. Remember, also, that once the rockwork is built, and the plants planted, it will not be possible to alter the soil contained in the rockwork.

Therefore it should be good soil to start with. Plenty of sand for warmth, and drainage, good black loam for rich food, an abundance of fibrous material, also for drainage, and lastly, but not by any means least, a fair amount of limestone grit will be very helpful.

The following, then, are rapid carpeters, easily grown and dainty as "carpeters," as we will call them, are easily obtained, and are easily grown.

Arabis, arabetris, alyssums, Iberis, myosotis, cerastiums, veronicas, pinkies, portulacas, phloxes, and pinkies.

Tomorrow, we will look at a few of these, preparatory to selecting and describing in readiness for spring bloomers.

least, clever Rose Beaumont, as the scrubwoman's daughter, assisting Mr. Van and the Beaumont sisters are Jack McIntyre, Ed. Doremus, and Nat. Whitestons. As a special extra attraction on the bill for the week, Manager Shea has secured Frank Hale and Signa Patterson, American tango dancers, who come to Shea's Theatre direct from the Folies Marigny, Paris. These agile and clever young people have been playing all summer in Paris. Another welcome feature of the week's bill is Willis Holt Wakefield, who sings her own songs in her own inimitable way, as she plays her own accompaniment. Miss Wakefield's personality is radiant and she never fails to impress her audience. She is a favorite in Toronto and her welcome will be warm.

"Oh I Say." Interest should be manifested in the forthcoming engagement of "Oh I Say," the musical farce in three acts from the French of Keroul and Barre-announced for one week at the Alexandra Theatre, beginning Monday, Sept. 29th, with the usual Thursday and Saturday matinees. The production when originally presented in London and Paris made a sensational hit and it is believed that the American organizations with its musical equipment as arranged by Sidney Blum and Douglas Hoare, while the music is by Jerome D. "The Firefly." Captivating little Emma Trentini in the record-breaking Casino Theatre (N.Y.) success, "The Firefly," will be presented by Mr. Arthur Hammerstein at the Alexandra Theatre week of October 6th. "The Firefly" tells the story of an east side street singer (Miss Trentini) who, thru peculiar circumstances, is thrust into the company of a wealthy yachting party which, as the story opens, is about to start on a cruise from New York to Bermuda.

Big Week at Shea's. Manager Shea will offer patrons of Shea's Theatre another big bill next week. Heading the list is the Toronto favorite and comedy entertainer, Billy E. Van, with the Beaumont sisters and a clever company, presenting the one-act musical comedy, "Prop." The scene is laid on the stage at the time of rehearsal on Monday morning and Mr. Van names the place as the stage of the Gaiety Theatre at Podunk. An audience is always interested in what is going on behind the scenes and Mr. Van and his company give a lively travesty of the doings on the bare stage of the Gaiety Theatre at Podunk. Mme. Melba's Concert. In Mme. Melba's girlhood she became an expert in the art of whistling, an accomplishment which she later put to use when studying dramatic roles. This attainment was supposed to be peculiarly shocking to the sentiments of her Presbyterian school teachers, a fact of which small Nellie was quick to take advantage of by whistling popular airs from one end of the house to the other. Often by way of variety, her small schoolmates would cluster round her and say, "And now, Nellie, make that funny noise that you use when studying dramatic roles. It is the earliest appreciation of the natural trill, for which she subsequently has become so famous.

Stratford-on-Avon Players. A company of fifty trained actors, headed by the most experienced and scholarly producer of Shakespeare in the world, will be seen by lovers of the theatre when Mr. F. R. Benson brings his Stratford-on-Avon Players to the Princess Theatre on October 27th. For a quarter of a century Mr. Benson has been director of the Shakespeare Memorial Theatre, the most beautiful playhouse in England, and has arranged the annual festivals which attract tourists from all parts of the world.

"The Old Homestead." Dear to the hearts of millions the country over, the grand old play of them all comes to the Grand next week. Year after year audiences so large as to test the capacity of the largest theatres throughout the country have greeted Joshua Whitcomb, Cy Prime, Seth Perkins, Eb. Gansey, Aunt Matilda, Rickett, Ann, Happy Jack and all the other characters in Denman Thompson's famous drama of New England life, "The Old Homestead," and have laughed and wept by turns over the quaint, homely bits of comedy and pathos which constitute its chief charm. Moreover, the atmosphere of "The Old Homestead,"

rehearsal showed the chorus to be of even greater strength than last year, and in all round splendid shape, the already fine basso section having been added to in order that the extreme low written notes in the Russian capella music should receive adequate rendering. Especially interesting was the number "Jubilate Amen," by Max Bruch, and the addition of Mme Marie Rappold as soprano soloist at the January concert will give it added interest. Mr. Friedheim will be heard weekly for the balance of the season.

DEMIMONDINE DIES IN AN OPIUM DEN. Place Was Frequented by People of Good Position, Police Assert. LET AEROPLANE TRAVEL ALONE. PARIS, Sept. 26.—For twenty minutes in a wind exceeding eleven miles an hour an aeroplane, piloted by Moreau, and carrying Naval Lieut. Laton as a passenger, safely sailed in the air at Melun, the aviator during the time not having touched one lever or handle in the machine. The aeroplane thus won a prize for automatic stability in a contest which had long been open under the management of the National Aerial League. The machine got into winds blowing over forty miles an hour and rolled so much that the officer often shouted to the aviator to give up the contest and seize his levers, but Moreau steadily refused to touch anything. The aeroplane righted itself every time and he won the prize.

BOSTON, Sept. 26.—No one of the four pitchers used by Philadelphia was effective against Boston today, the local winning 10 to 4. Leonard pitched good ball. Boardman, a recruit, lasted but one inning. Houck was hit even harder during his one inning. Pennock's wildness during the fourth inning when he passed three men in a row, caused his removal.

GIANTS ONE STEP NEARER PENNANT

Hit Allen Hard and Downed the Dodgers—Brown's Great Work.

BROOKLYN, Sept. 26.—New York drew a step nearer the flag by beating Brooklyn 4 to 2 this afternoon. They scored all their runs in the first three innings, during which Allen was hammered for eight hits. Then Elmer Brown made his local debut and caused a sensation by holding the Giants hitless and runless for the remainder of the game.

FINX IS ON TRAIL OF THE M'GRAWITES

Larry Doyle and Snodgrass Out of the Game—Larry's Shoulder Injured.

BROOKLYN, Sept. 26.—The supporters of the New York Giants in the world's series got a double shock today when they learned that Captain Larry Doyle had been injured in an automobile accident and Outfielder Fred Snodgrass had sprung a "Charley Horse" in the game at Ebbets Field. Both are not likely to play again for a week and may be out of the series with the Athletics for the world's championship.

Doyle received his injury last night as he was driving home in the automobile he won as the best all-around National League player of 1912. Pitcher Fromme of the Giants was passenger. Doyle became bewildered by the fog and doled the machine into a tree. Doyle was thrown out on his right shoulder. Fromme escaped with only a slight shaking up.

Doyle did not realize until this morning that his fall had possibly injured him seriously. A physician said the right arm was dislocated or the shoulder bone possibly broken. Manager McEraw said he would have Doyle placed under the X-ray.

"They Set the Pace in the Quality Race"

O'Keefe's Quartet of Beer excellence has never been beaten in any field or under any conditions. Competitors study their form and try to imitate their style; but the real excellence of O'Keefe Beers places them in a class by themselves.

O'Keefe Favorites

For a light Beer O'Keefe's Pilsener Lager, "The Light Beer in the Light Bottle" excels all other Lagers imported or otherwise. Ask for the "Light Beer in the Light Bottle" otherwise also described by its friends as the beer that is driving imported lagers out of Canada.

Lovers of mild ales find O'Keefe's Special Extra Mild Ale a constant delight. Pure, sparkling, delicious, mild in stimulating properties, it is "the Beer that is always O.K."

O'Keefe's Gold Label Ale is for the man who desires a stronger full-bodied Ale of rich, creamy, mellow flavor. It is the "Beer with a Reputation."

"The Beer that Builds" is O'Keefe's Special Extra Mild Stout. A Stout rich in tonic and nutritive values; but extra mild and guaranteed not to make you bilious.

Play one of the O'Keefe Favorites to-day for home use. Order a case from your dealer.

### BABE ADAMS IN FORM CUBS NEARLY BLANKED

PITTSBURG, Sept. 26.—Pittsburg took the final game of the season at Forbes Field from Chicago by the score of 6 to 1. Adams pitched fine ball for Pittsburg, and but for two passed balls by slugs in the eighth inning Zimmerman would not have scored with Chicago's only run. Adams struck out ten men, the season's record at Forbes Field. Sauer was his victim three times. Score: P. H. E. Chicago . . . 0 0 0 0 0 0—1 1 1 Pittsburg . . . 0 1 1 0 4 0 0—6 1 1 Batteries—Smith, Slack and Brennan, Harrove; Adams and Simon.

### ZINN'S HOMER GAVE PHILADELPHIA BRVES A VICTORY

PHILADELPHIA, Sept. 26.—Boston got an even break in a double-header here today, Philadelphia winning the first game by 5 to 3, and the visitors the second by 10 to 2. Philadelphia made only four hits off Dickson, who twirled the first six innings, but all of the safeties aided in the scoring of runs, while Rixey was very effective, except in one inning. A home run by Zinn won the second game. Scores: First game—P. H. E. Boston . . . 0 0 0 2 0 0 0—3 5 2 Philadelphia . . . 2 0 1 2 1 0 0—5 5 2 Batteries—Dickson, Ferde and Rixey; Rixey and Doolin. ### Society Revives Childhood Games

Young Society Maids Are Indulging in Many Long Forgotten Pastimes. Society has gone back to its childhood games. Following the example of Lennox and Newport, the younger society set along the north shore is whirling away the few remaining weeks before returning to the city by indulging in almost forgotten games of childhood. The blues set at Lennox started the fun because they were so tired of bridge and tennis and riding. But now they are taking it up because it is really such good sports. They romp all over the lawns and hide behind every shrub and bush. They shriek like 3-year-olds, and one 45-year-old matron, who certainly doesn't look a grandmother, rivals her 4-year-old grandson in peals of laughter and in lightfooted sprints across the grass. The really pet game is a revival of "blind man's bluff." Only this time they have a doubly hard task. The girls first pick possession of noses or eyebrows, "toys" or "magnifying glasses," and fastening them in the buttonholes of the young men and in the hair of the girls they command the "blind man" to catch the person and tell the flower from the smell, and then the name of the person. "Hide and seek" is another favorite, and the old pet running games, "tag," "sheep-run" and "throw the stick." One of the fastest footed girls has invented a new amusement, which is to hide a stick somewhere around the grounds. The rest of the company goes hunting for it, and as any one

### BOEHLING VERY WILD BUT GOOD IN PINCHES

NEW YORK, Sept. 26.—Boehling was very wild today, but whenever the New Yorks had a chance to score they hit into a double-play. Washington made no fewer than five of these plays, which killed all of the local chances for victory, the visitors winning by a score of 3 to 2. Boehling pitched a good game for New York, but the Senators bunched their hits. The score: P. H. E. New York . . . 0 0 2 0 0 1 0 0 0—3 3 0 Washington . . . 0 0 2 0 0 1 0 0 0—3 3 0 Batteries—Boehling and Almsmith; McHale, Keating and Sweeney.

### BRIDE COULD WAIT TILL HE FOUND DOG

CARLETON, Pa., Sept. 22.—So anxious was Charles Hamer, noted wing shot, to recover a black and white pointer that he had lost that he forgot that it was his wedding day. When he was told an hour before the wedding by his kenneled keeper that the dog had disappeared he rushed out of the house and started hunting. The prospective bride was in tears at her home. The wedding guests were beginning to whisper and to nudge one another, and the minister who was engaged to tie the knot tumbled at his prayer book and tried to look unconcerned. In the meantime Hamer had found the dog and was arguing its ownership with a magistrate when one of the wedding guests called him on the telephone and reminded him it was his wedding day. "Gee, I clean forgot all about it," Hamer cried. "He leaped into the automobile of a friend and was hurried to the home of the bride, where they were married a few minutes later.

### AMATEUR BASEBALL

Intercollegiate ball teams play today at Broadview field. The Toronto Street Railway team and the C.O.F. team play for the title at two o'clock. The big game will be at four, when the West End Y. M. C. A. will battle with St. Paul's. This afternoon at Vermont Park, Barrie, one of the Northern Senior League will battle with Case Curzon's Tourists in the second game of a series for \$100. Charlie Teasdale, Andy Kyle and Connie Murphy will be on the line-up for the all-stars at three o'clock, with Norman McGuire handling the indicator.

### TIMELY HITTING BY CHICAGO WHITE SOX

CHICAGO, Sept. 26.—Fisher Levenson of St. Louis made his Chicago debut today, and, although he held the locals to five hits and struck out ten men, he lost after the ten innings, 2 to 3. A large delegation of Levenson's friends, in addition to a great many bankers, who are attending the State Bankers' Convention, were present. Captain Harry Lord and First Baseman Hal Chase did not arrive from the east in time to play today. P. H. E. St. Louis . . . 0 1 0 0 0 1 0 0 0—2 9 1 Chicago . . . 0 1 1 0 0 0 0 0 1—3 3 0 Batteries—Levenson and Agnew; Benz and Senkhal.

## EXPANSION YEAR AT OAKVILLE FAIR

Banner Turnout on Fine New Ten Acre Park—Horses Splendid.

## FRUIT AWAY AHEAD

Some Fine Shortorns and Holsteins Among the Live Stock.

"Some fine horses" was the most frequent remark heard at Oakville Fair yesterday, and it was well said for Oakville, as usual sustained its reputation for having one of the best horse exhibits in Ontario. The pony class led the way this year and some fine riding was done by the boys from Appleton School. The Ennesclaire Hunt Club also contributed largely to the day's entertainment with a fine turnout of the splendid hunters.

**Good Roadsters.** The showing in the roadster class was much finer than last year. Mr. Martin of Hamilton carrying off the first prize with an extra fine horse. Emmerson Featherstone of Oakville won the special prize for the best hunter and J. H. Kennedy of Toronto won the silver cup donated by H. C. Cox for the best carriage horse.

L. H. Kemp of Oakville secured first for the best single high stepper and Mr. Allan of Hamilton was awarded first prize in the single pony class. The 12.2 to 13.7, and also secured first for the best single turnout.

The first prize for the best saddle horse went to W. F. Davis of Oakville, and Miss Hazel Chisholm was acclaimed the best lady rider. Miss Marriot securing second.

**Shortorns and Holsteins.** Live stock was considered to be a little below the average this year, although the George E. Morton milk cow showing of pure bred Shortorn cat-tails and E. F. Daler sent a splendid exhibit of Holsteins, one remarkable specimen being "Sir Mina," a three-year-old Holstein bull weighing 2150 pounds. Another of Mr. Morton's exhibits, a smaller bull of the same breed, he donated as a special for the best grade heifer, and was won by Biggar Brothers of Trafalgar.

**Excellent Fruit.** Fruit and vegetable exhibits were away ahead of previous years in size and quality, one end of the big tent being entirely occupied by an exhibit of packed fruit shown by the Oakville Fruit Growers' Association, and a demonstration of apple packing was given. The baked apples of the fruit shown by the association was grown in the neighborhood of Oakville and Brantford.

Smith Brothers of Oakville made a fine showing with peaches and apples, carrying off two prizes, and P. A. Batt was awarded two prizes for plums. Thomas Brown secured a number of prizes with a fine exhibit of grapes and pears.

**Miss Minnie Robertson** was very successful in cut flowers, besides being awarded two prizes for bread and cake making.

H. Wilson exhibited some very fine Salvia plants in pots, which made a fine splash of color in the middle of the tent.

**Three Rings Needed.** The directors of the Ontario Agricultural Society are to be congratulated upon the success of the first show in the fine new fair grounds, and the provision thereof for future expansion by securing ten acres for the purpose. Three rings were required yesterday to accommodate the various equestrian events, and there was something going on all the time in every one of them.

While tents had to be utilized for produce exhibits this year, it is the intention of the association to erect permanent exhibition buildings on the grounds.

**Anniversary Service.** On Sunday anniversary services will be held at Mount Pleasant Church, Merton, at 2.30 p.m., and 7 p.m. The Rev. Mr. Dobson, of Toronto, will be the preacher. The choir of Mount Pleasant Church have charge of the singing.

On the Monday evening following a concert and social will be held. The best of talent will render the program. The members of Court Connaught, Ancient Order of Foresters, No. 3223, will attend divine service in St. Jude's Church tomorrow, September 29th, at eleven o'clock. The Oakville Fair will lead them. A number of visiting brethren are expected. The rector, Rev. H. E. D. Woodcock, will preach to them.

The Annual Children's Day Service will be held in the Presbyterian Church tomorrow, when Rev. J. E. Munro, B.A., will preach a special sermon. School children are invited to meet in the schoolroom at a quarter to eleven.

## VAUGHAN TOWNSHIP SCHOOL FAIR

In Township Hall, Vellore, October 1—Agriculture and Physical Culture.

Vaughan Township Rural School Fair will be held in the township hall at Vellore on Oct. 1. C. P. Bailey, assistant deputy minister of agriculture; C. W. Malloy, public school inspector for North York, and other guests will be present. A number of prizes for physical culture will be given in addition to the usual prizes. This gathering will take the form of a picnic, everybody being invited.

## DANFORTH AVENUE

The need of a public library is badly felt in this district. The nearest being at the corner of Broadview and Queen. A good location for one in this district would be at the corner of Broadview and Danforth.

The formation of the new Ratepayers' Association is looked upon with great approval by the residents of the district, and there is no doubt it will be the means by which big accomplishments will be attained.

## FODDER IS DEAR MILK MUST SOAR

Farmers and Retailers Meet to Discuss the Winter Prices.

## MEET AGAIN MONDAY

Producers Want an Advance of Thirteen Cents Per Can.

A joint meeting of the executive of the Toronto Milk and Cream Producers' Association and the representatives of the Toronto Retail Milk Association was held in the Albion Hotel on Friday afternoon to discuss the price of milk for the ensuing winter months. Although they were unable to come to an agreement as to price, a winter term of seven months was agreed upon. The farmers are asking for an advance of 13 cents a can over last year, because of the dry weather of the past few months, which caused a shortage in the root and corn crops and dried up the pasture. Another reason is the advanced price of milk feed and the increase in price of beef cattle has resulted in higher prices for milk cows.

The price asked by the producers of the Montreal district this year is \$1.92 a can, whereas the price asked by the Toronto milk producers is \$1.75, but the retailers refuse to pay it.

An emergency meeting of the producers' association will be held in the Labor Temple on Monday, the 29th, to further discuss the situation.

## LONG RECORD OF FAITHFUL SERVICE

Late Robert Johnstone Held Many High Positions in Public Life.

Robert Johnstone, registrar of Peel County, passed away at his home in Brampton yesterday after a lingering illness in his 60th year. The late Robert Johnstone was born at Mono Mills, in the Township of Caledon, in 1852, when he was elected warden of the township. He took a great interest in public affairs, having been president of the Cardwell Liberal-Conservative Association for years. In 1890 he was elected warden of the township. The same year he ran for the Dominion House as a member from public life, and was elected, retiring from public life when Cardwell was wiped off the map in 1903. He is survived by a widow, a daughter of Mr. John McGowan, ex-M.P. for East Wellington, who was Mr. Johnstone's desk mate at Ottawa. The funeral will be held on Saturday at St. Andrew's Presbyterian Church, Caledon, and interment made in family burying grounds.

A stable at the rear of the old registrar's office, Queen street, and occupied as a residence by Mr. John Williams, was burned to the ground yesterday afternoon. The fire started in the kitchen, and the fireman's ladder was quickly extinguished. Children playing with matches is given as the cause.

During Mark Twain's first visit to our home, William Schuler, Allen in the Strand, a full register, was signalled a step in our acquaintance, that such a scene as might be out of one of his own books. The usual and mysterious was to take place during the afternoon. We persuaded Mark Twain to sit with us, and a peculiar boat which had been warned.

As the steady old steamer with its burden of light-hearted humanity calmly steamed down the river, it was startled by the appearance of a ship's hull, bearing a formidable gun, and full of fierce-looking pirates! They were armed to the teeth and wily astute.

Our ship was halted, but on receiving reply three shots were fired across our bow, which quickly brought our anchor. They boarded us so eagerly that we were obliged to surrender. The pirates, the crew and passengers, were hoisted on board, and the ship was taken to the pirates' headquarters. The pirates, the crew and passengers, were hoisted on board, and the ship was taken to the pirates' headquarters.

The Keele street firemen were called out on a useless run yesterday afternoon about 5 o'clock to a lane in the rear of Glenora avenue. The fire had started in a pile of rubbish behind the 299 Glenora avenue, which is vacant, but a few barrels of water from the neighbors had been extinguished before the firemen's arrival.

Strenuous discussion on the annexation question is expected at the meeting of the Runnymede Ratepayers' Association, which will hold session on Monday evening in the Public Library, 104 Broadview avenue. ## COMMERCIAL USES OF LIME PRODUCTS

Demand Greater Than Ever Before—Pennsylvania Has Biggest Output.

In the year 1912 the demand for lime by the fertilizer industry toward Canada, according to the United States Geological Survey, and the resulting production was 1,174,747 tons, as compared with 1,125,000 tons in 1911. The total production of lime in the United States in 1912 was 1,174,747 tons, valued at \$13,689,054, in 1911, \$12,475,473, and in 1910, \$11,842,420. The increase in the number of producers was due in large part to the activity of small kilns operated by farmers for burning lime for local use as a soil sweetener, and in part to the tendency of the industry toward concentrating plants into larger units.

The quantity of lime used in the fertilizer industry in Pennsylvania, a state in which it has been a common practice for many years, is estimated to be about 549,159 short tons, valued at \$2,678,420. The uses to which lime is put are many. The quantity of lime used in 1912 was 1,174,747 tons, valued at \$13,689,054, in 1911, \$12,475,473, and in 1910, \$11,842,420.

MACDONALD BROKE TO LOWEST POINT

Belief That Dividend Will Be Passed Now Generally Held.

OR. PAPER DECLINED

Cannons Also Slumped—Barcelona Recovered After Early Weakness.

A decline in 18 3/4 in Macdonald shares yesterday supplied further evidence that the street is looking for a passing of the dividend on the shares at the next meeting of the directors early in October, while not strictly necessary, would be advisable under the circumstances, but that resumption of the five per cent. rate would, assuming that the directors decide on the more conservative policy for the present, be warranted in the not distant future. In a general way the trouble with Macdonald appears to be that while sales are constantly expanding, being now about 20 per cent. in excess of those a year ago, the money tightness, particularly in the west, is making it difficult to keep cash collections up to date. Whether the market has fully discounted advance news is a matter for conjecture, but the heavy liquidation of yesterday, both in Toronto and Montreal, must have disposed of a good deal of weakly held stock. Locally Macdonald, opening at 23 1/2, the point at which it closed on Thursday, rapidly sold off, and in the afternoon the stock touched 18 3/4 here, while in Montreal it dipped a point lower than that figure.

TORONTO PAPER OFF.

Toronto Paper, despite assurances that its eight per cent. dividend can easily be met, lost five points at 70 and was offered there at the close. Spanish River, however, seems to be pretty well sold out; it was almost entirely neglected and fell 1 1/2, showing no change. Cannons of the same group was weak, showing a 6 1/2 loss of more than three points from the opening and five points from the recent level, also, as with Paper, it is definitely stated that the dividend is quite safe. Barcelona was another weak spot, but rallied to 35 1/4 after declining to 34 1/4. The sharp advance which began about two weeks ago has now been practically wiped out and traders are awaiting more information as to earnings and prospects. Brazilian closed almost unchanged at 11 1/2 yesterday, but the tone was heavy and at one period a loss of a large fraction was shown. Bank of Commerce was in some request at 208 1/2, a shade under the previous quotation. Twin City was also steady.

TORONTO TRADE IS GROWING BRISKER

Dun's Bulletin reports trade in Toronto as follows: Wholesale trade is fairly active in Toronto. The satisfactory condition in which the crops have been garnered has had a good effect on commerce and industry. Returning confidence is apparent in nearly all lines of merchandise, the shipments of which have been large both to the west and east. The demand for money is still active, with the market firm. It is generally thought that conditions will ease up some by December. Larger shipments of grain than ever before are being made at this time and these early shipments will naturally hasten the relief from the stringency. The dry goods trade is fairly active with the prices of staples steady. Payments are a little better. A moderate trade in hardware and metals is reported. Groceries are firm and active, with large shipments of heavy linings to the west. The leather market continues very firm, with an active trade. The hide market is firm. There is a little more activity in grain circles. A good demand for Ontario wheat on the part of millers, with prices firm. Manitoba are easier with fair offerings and weaker cables. Oats and barley steady. Provisions generally are steady with poultry easier. There were eight failures reported in the district this week.

EDMONTON LOAN ON STIFF TERMS

LONDON, Sept. 26.—(C.A.F.)—Arrangements are proceeding for an issue of City of Edmonton 5 per cent. bonds for £200,000 at 96. This price is three points below the present quotation of 5 per cent. sterling bonds for a little over a million were issued in April last at 100 1/2. Edmonton last year raised £600,000 in 4 1/2 per cent. debentures at 99 1/2, and now issues a 5 per cent. loan at 4 per cent. discount which proves how municipalities all over the world have to realize the tightening of London's purse strings.

CAFETERIA FOR MONTREAL

Announcement is made that Fleming and Marvin have been successful in securing the capital needed to establish a cafeteria in Montreal along the lines of the two in Toronto. The amount asked for, \$50,000, has been over-subscribed. The cafeteria will be located in the Scroggie building and will be open on Nov. 1.

TORONTO SELLING CAUSE OF BREAK

Macdonald Slumped Heavily at Montreal—General Market Was Quiet.

MONTREAL, Sept. 26.—A sharp break in Macdonald, carrying the price down 4 1/2 to 17 1/2, was the one feature of the local stock market today. The rest of the list was quiet. A higher range of prices for C. P. R. was virtually ignored as a bull factor, and where prices moved at all, the movement was generally in a downward direction. Power held steady at 21 1/2 in sympathy with C. P. R.'s firmness, but Brazilian eased off 1/2. Iron 3/4. Toronto Ralls 3/4. Cement and Laurentide recovered small fractions. The general tone inclined to heaviness in the morning and the outbreak of liquidation in Macdonald in the afternoon militated against any improvement in the second session.

Bank Circulation Shows Increase

OTTAWA, Sept. 26.—The September bank statement, which has been awaited with considerable interest, was issued today. The increase in bank circulation by six millions is the most striking feature of the statement. The movement of the western grain crop is given as the cause. Current deposits decreased by \$2,314,541, while the demand deposits, on the other hand, showed an increase of \$1,786,723. There was a decline in call loans in Canada of \$775,372, but call loans outside of Canada increased by \$775,075. Current loans in Canada declined by \$406,458. In Dominion notes held by the bank there was a decline of \$1,833,878, and a decrease of \$23,722 in the amount of other currency held by the banks. The circulation of bank notes increased during the month by \$6,663,608.

Movement of Western Grain Deposits.

Forecast of tomorrow's bank statement indicated a gain in cash holdings of about \$8000. Cash has been flowing in steadily through the week. The movement is influenced by the deposit in the south and west of government funds, part of which is finding its way to New York. According to one estimate \$10,000,000 of the money deposited by the treasury department has been forwarded to New York. Canada's needs for gold at this season of the year were met by the withdrawal today of \$1,000,000 of the metal for shipment to the Dominion, in addition to the engagement of \$500,000 yesterday. Bonds developed a good tone, with pronounced strength in the Rock Island issues.

LONDON MARKET WAS IRREGULAR

LONDON, Sept. 26.—Money scarce. Discount rates easier. The stock market was distinctly erratic with prices irregular. New York and Berlin generally supported favorites, while Paris sold De Beers and Rio Tinto in connection with the settlement of the labor troubles. WHEAT FAILED TO HOLD ITS ADVANCE

Firm Cables Caused Strength at Opening - Corn Sold Off.

CHICAGO, Sept. 26.—Bullish cables today lifted the wheat market here, but the advance was not well maintained. The market closed nervous at a range varying from last night's figures to 1-1/2c down. Corn finished 5-8c to 1-1/2c down, oats with a gain of a shade to 1-3/4c and provisions unchanged to 2/16c off.

New support for wheat turned out to be poor. The chief call came from shorts, the market easing decidedly after the bid had been supplied. Covering by the bears, however, was quite general and prolonged. The incentives lay in expected lighter shipments from Russia, lessened pressure of Canadian exporters brought about a sharp advance from India and in a setback for British consols.

Reports from Minneapolis that the country districts tributary to that city were restricting sales helped prevent any decline in wheat prices. A little export business here in hard winter grades tended also to keep the bulls in countenance.

Corn on the Move.—Favorable weather for the movement of crops told adversely on the corn market. Special support from influential sources brought about a sharp rally, but the effect failed to last. Selling grew rapidly in volume on the upturn, although most of the reports on yields were bullish.

Oats bulged suddenly on account of the strong local buying. Later the market went back with equal swiftness because of heavy selling by a leading elevator company. There were continued advances from Canadian competition east.

Packers realized on provisions, taking advantage of early strength due to a bulge in the price of hogs. The only material decline was in September pork on light trading. September pork closed off.

ST. LAWRENCE MARKET. Receipts of farm produce were 18 loads of hay, but no grain. Hay—Eighteen loads sold at \$14 to \$17 per ton.

Grain.—Wheat, fall, bushels, \$1.28 to \$1.30; Barley, bushels, \$0.88 to \$0.90; Rye, bushels, \$0.90 to \$0.92; Oats, bushels, \$0.85 to \$0.87; Buckwheat, bushels, \$0.51 to \$0.52.

Meats.—Pork, \$11.75 to \$12.00; Beef, \$11.00 to \$11.25; Mutton, \$10.00 to \$10.25; Veal, \$10.00 to \$10.25; Dressed hogs, \$12.00 to \$12.25; Spring lambs, \$14.00 to \$15.00.

FARM PRODUCE, WHOLESALE. May No. 1, car lots, \$11.50 to \$12.50; Straw, car lots, \$0.90 to \$1.00; Potatoes, car lots, \$0.75 to \$0.85; Onions, car lots, \$0.35 to \$0.45; Butter, separator, \$0.24 to \$0.25; Eggs, new laid, \$0.21 to \$0.22; Honey, extracted, \$0.30 to \$0.31.

OUTLOOK IS FOR IMPROVED TRADE

Reports East and West Tell of Growing Feeling of Optimism. Toronto reports to Bradstreet say that there is only one thing to complain of in business and that is collections. From the west they continue bad. While some firms say they are normal, eastern sections, and others claim they are somewhat behind the not nearly so bad as from the Canadian west. But already, returns from crops are imminent and money is beginning to circulate more freely and even cautious business men say prospects are bright.

Winnipeg Grain Market. Winnipeg, Sept. 26.—Prices were slightly higher on the local grain exchange today, principally due to steeper Liverpool cables. The close showed an advance of 3/4c to 1c. Cash demand was good, with offerings fairly heavy.

HOLLINGER HELD AT GOOD ADVANCE

Great Northern Also Strong - Pete Lake Shows Tendency to React.

Advances in Hollinger and Great Northern were conspicuous features of the local mining market yesterday. It is becoming increasingly evident that there is a very restricted supply of Holly shares floating about just now, so that the price responds very readily to any buying orders. A few of these loomed up yesterday and the price of the stock promptly jumped up to 17 1/2, the top figure for some time. The steady absorption of Hollinger by a big British syndicate, largely responsible for present conditions.

Great Northern is still bubbling because of the important discoveries on Kirkland Lake properties, in which it has a big interest. It sold up 14 3/4. When it is recalled that not many days ago the shares were inactive between 7 and 10, the extent of the movement is to be realized. Peterson Lake at 25 3/4 was evidently under selling pressure, as was also Pearl Lake at 27 3/4.

TO SEE PROPERTIES AT KIRKLAND LAKE. SWASTIKA, Sept. 26.—(Special.)—Charles Kinsey, engineer formerly in charge of the colonial mine at Cobalt, has gone into Strickland Lake to make inspection of some properties for sale. He is expected to return in a few days.

NEW TARIFF BILL READY WEDNESDAY. Conferees Are Making Good Progress on All the Disputed Points. WASHINGTON, Sept. 26.—(Can. Press.)—Another day's work on the tariff bill was done today by the conferees on the Underhill bill. The conferees today with the exception of the tariff on cotton yarn and cloth, lead and zinc ores, were in agreement on the tariff on wool and the new woolen goods. The tariff on wool and the new woolen goods, including flannel, and differences over the tariff on cotton yarn and cloth, lead and zinc ores, were put off for settlement. It was definitely understood that a complete agreement would be reported on the tariff bill over next week.

COW RUNS AMUCK IN TOWN STREETS. Brockville Children Charged by Wild Heifer and Tossed on Its Horns. BROCKVILLE, Sept. 26.—(Special.)—A heifer that was being transferred from the eastern hospital farm to the slaughterhouse escaped from the keepers, and for three hours thrashed through the streets of Brockville, creating considerable excitement.

Drafts on Foreign Countries. Every Branch of the Canadian Bank of Commerce is equipped to issue, on application, drafts on the principal cities and towns of the world, drawn in the currency of the country in which the drafts are payable.

PROFIT-TAKING. On advances, it is usual to expect some profit-taking, and a consequent reaction. This is the present situation in PETERSON LAKE, and we again urge its purchase on any further decline. The market as a whole has the earmarks of improvement, and we think BAILEY, GREAT NORTHERN, KERR LAKE, TRETHEWEY can be bought to advantage. We have interesting information on TEEK-HUGHES which will be mailed on request.

## Beautiful New Oriental Rugs Just Arrived

Carefully Selected Pieces. Moderate Prices

Great care has been exercised in the selection of these Choice Rugs, both with a view to value and suitability in the matter of design, color and sizes. Many different types are represented, and amongst them those peculiarly suited to different rooms in the house.

For the Dining-Room—A suitable choice may be made from either of the following weaves—Gorvan, Anatolian, Meshed or Free India, from which we quote four prices as follows—

Meshed, Rich Rose, Blue and Tan, 14 1/2 x 10 1/2 ..... 22.75

Anatolian, Tan ground, Blue and Rose, 12 1/2 x 9 1/2 ..... 22.75

The India, Chinese design, Copper ground, 12 1/2 x 9 1/2 ..... 19.00

Gorvan, Bold Medallion design, 14 1/2 x 10 1/2 ..... 16.00

For the Drawing-Room or Living-Room—There are many different styles, which may be adapted to conform correctly with various decorative effects, including delicate French styles or the Chinese motif, combined with late Eighteenth Century English Furniture.

Note the following beautiful specimens—

Anatolian, Pale Blue, Cream and Rose, 11 1/2 x 8 1/2 ..... 13.50

Pink Kirmanah, Rose, Tan and Blue, 10 1/2 x 8 1/2 ..... 13.50

Chinese design, beautiful Blue and Yellow, 13 1/2 x 10 1/2 ..... 17.50

For the Parlor, Library or Hall—Rich, lustrous Kazaks in bold designs, made beautiful by their wonderful coloring in copper, tan and deep Oriental blues; also handsome Meshed Rugs and unusual Hamadans, any of which will fulfill the necessary requirement in the matter of durability, clearness of detail and weight of color. From these we quote the following to illustrate their respective costs and sizes—

Kazak, Blue and Gold, 10 1/2 x 15 1/2 ..... 25.00

Kazak, Copper, Blue and Tan, 7 1/2 x 9 1/2 ..... 22.25

Turkish, Persian, Blue and Blue, 10 1/2 x 8 1/2 ..... 10.00

Hamadan, Blue-Mirror design, 9 1/2 x 6 1/2 ..... 10.00

Heavy Kirmanah, Copper and Blue, 10 1/2 x 8 1/2 ..... 15.00

Bedroom Rugs—Naturally these must be in most cases light and moderate in cost. For these essentials we recommend and provide from the three following weaves—Gorvan, Free India and Sparta, any of which are suitable for a decorative effect, and their cost is exceedingly small—

Sparta, Nile Green color, 11 1/2 x 8 1/2 ..... 6.50

Anatolian, beautiful Cream and Rose, 11 1/2 x 8 1/2 ..... 7.50

Gorvan, Rose and Cream, 11 1/2 x 8 1/2 ..... 6.50

Free India, Cream ground, 10 1/2 x 8 1/2 ..... 6.50

Select your Small Oriental Rugs from hundreds, all of which, no matter how inexpensive, have been carefully picked from thousands of Rugs, representing almost every rug-producing district in the Eastern countries—Daghistan, Mossul, Hardite, Khivas, Kazaks, Pergama, Kirmanahs and Saraks. Note these low prices—

Small, especially Good Parcel of Kirmanahs, sizes averaging about 6 1/2 x 4 1/2, in soft, mellow colors, Silk, Thick Mossul and Kazaks, in Browns, Blues, Old Copper, Rose and Tan, from 5.00 to 6.00 up to 8.00 x 5 1/2. Prices graded from 5.00 to 8.00 up to 10.00 x 6 1/2. Especially Bargains in Small Daghestans, Karabachs, Mossul and Hamadans, from 4 1/2 x 3 1/2 to 5 1/2 x 4 1/2. Specially priced from ..... 5.00 to 19.75

## Exceptional Opportunities for Drapery Buying

Many a fabric for permanent or loose covers on Furniture, Wall Coverings, Window Hangings and other Draperies.

Reliance Taffeta, 36 inches wide, at ..... 45

Oxford Taffeta, 36 inches wide, at ..... 45

These two are perhaps two of the daintiest and most effective of washing fabrics, suitable for all bedroom covers, loose furniture coverings and light upholstery.

English Chintz, 34 inches wide, at 15c—A good selection in both light and dark colors.

English Chintz at 25c—A remarkable showing of really serviceable chintzes, in almost every color combination imaginable. This chintz was bought at a specially low rate, much below the usual cost, and is very special value.

Fillet Nets—In cream, ivory and white. The most effective net made, and also the most durable. Laundered perfectly, without shrinking. The reproductions in block designs and figures are very fine; 50 inches wide. Priced at 75c, 85c and \$1.00 per yard.

Couch Covers, \$2.00 Each—Size 60 x 100. Trimmed around with fringe in Oriental or Roman stripe effect. In blue, green and crimson.

Couch Covers, \$3.00—Heavy Tapestry Couch Cover, in Oriental designs, with medallion effects, plain serge edge; very durable; in rich shades of green, brown and crimson—\$3.00 each.

Rope Portieres, \$4.50—Tapestry band and chenille cord alternately, to fill an arch 7 x 7. Most effective and economical. Priced specially at \$4.50 each.
