BYLAW TO PROHIBIT SUNDAY SLIDING GIVEN SECOND READING AND AMENDED TO APPLY ONLY TO CIVIC SLIDES

Controller McCarthy Succeeded in Having the Clause Stipulating That No Tobogganing Be Allowed on Natural Hill Slides Struck Out and Sunday Sport Will Continue Except on Prepared Slides.

Ald. Spence Refused to Vote in Favor of a Third Reading, Which Stands for Two Weeks—Mayor Geary Classes Arguments in Favor of the Bylaw as Absurd.

By a vote of 17 to 8, the city council yesterday passed the second reading of the bylaw prohibiting Sunday tobogganing with the amendment proposed by Controller McCarthy, which provided that sliding be prohibited only on the slides constructed and maintained by the city. The discussion upon the question lasted all afternoon, and at times the debate waxed very warm. Throughout the afternoon all but seven of the members expressed themselves on the subject, and the council chamber, which was filled with visitors, time and again resounded with hearty applause.

Endorsed the Action.
Mrs. Ward, representing the W.C.T.U., told the council that that organization, comprising 1200 young ladies, endorsed the closing of the slides.

Rev. W. M. Rochester then made his second appearance before council, and said that the appeals of counter deputations were not worth replying to. They only asked that the civic toboggan slides be closed. The Ministerial Association, he said, represented 150,000, and the members of that body had the interests of the citizens at heart. Organized labor did not represent the great body of labor in the city. The great body of citizens were opposed to the slides as a matter of principle.

Hon. Thos. Crawford, ex-speaker of the legislature, was the next speaker. As a citizen, he said, he wanted to put himself on record as endorsing the action of the council in stopping Sunday sliding. Sunday should be kept as a day of rest, and if the slides were allowed to remain open on that day, it would be but the thin edge of the wedge.

Controller McCarthy then moved that the Sunday sliding bylaw be read a second time. After this was done and carried he moved an amendment that the part eliminating sliding on the natural hillsides be struck out. The controller pointed out that the minutes here set out his original motion which was to the effect that tobogganing be prohibited only on the civic slides.

Adding More Absurdity.
According to Ald. Maguire this amendment was only adding more absurdity to an absurd situation. The issue, he said, was sliding on Sunday, and this amendment was nothing but an evasion, which, if passed, would only mean inconvenience to an innocent and healthful sport.

Controller Hocken said that the city council had been charged with doing something which they never intended to do; it was never intended to stop sliding on natural hillsides. Those who want to operate the slides on Sunday are asking us to do something which, if done by an individual, would be unlawful. The city, he said, was not required to maintain anything for Sunday amusements. The controller thought that the resolutions passed by the trade unions of Toronto did not represent the opinions of those unions. "The more you open up Sunday," he said, "the tighter you will close up on Saturday." He thought there had been a great hullabaloo over a trifling matter.

Anti Home Rule Meeting.

County Master W. Crawford presided at a meeting of the Toronto County Orange Lodge, to consider the position to be taken with respect to the projected mass meeting to protest against the Asquith government. The fact that Sir Edward Carson was unable to accept the invitation called to be the chief speaker at the demonstration, the initiative decided to leave the initiative respecting the further action to be taken to the meeting of the County Lodge, to be held in Victoria Hall to-night.

Massachusetts Masons to Honor Duke

MONTREAL, Feb. 5.—(Can. Press)—H.R.H. the Duke of Connaught, in his capacity of grand master of the Grand Lodge of Freemasons in England, is to be the recipient of a warm fraternal greeting, inscribed on parchment, from Col. J. E. C. Bendon, grand master of the Grand Lodge of Massachusetts, which boasts of being the oldest grand lodge on this hemisphere.

Hon. L. C. Southard, presiding worshipful master, and a former member of the Massachusetts Legislature, and Mr. Philip T. Nickerson, presiding worshipful master of the Winslow Lodge in Boston, arrived from Boston to-day, on their way to present the greeting to His Royal Highness at Ottawa.

Mr. Southard said that this was the first time that a grand master of the grand lodge in England had been on this continent since the Grand Lodge of Massachusetts was founded, over 140 years ago, and as the Grand Lodge of Massachusetts was instituted by the Grand Lodge of England, and the American and English Masons were on the best of terms, it was felt to be only fitting that the oldest lodge in America should present its greetings.

"We are also conveying to His Royal Highness a cordial invitation to visit us in Boston, and to meet the members of the craft," he said.

WORKS REORGANIZATION WILL BE SETTLED TO-DAY

Controllers Hocken and Foster Have Different Schemes, and Sooner Than Spend the Whole Night in Discussing Them the Council Adjourned.

Apparently the members of the city council had no desire last night for another series of the voluminous eloquence which characterized the afternoon debate on the Sunday sliding question, and when Controller Hocken introduced his motion regarding the reorganization of the works department it was feared that another lengthy discussion would result. After one vain attempt was made to have the meeting adjourn a second motion to this effect, was passed at 10.30, which provided for an adjournment till 3 o'clock this afternoon.

Some minor business was dealt with in the earlier part of the evening, and the discussion on Controller Hocken's plan to reorganize that department had only started a few minutes before. The controller explained that he wanted to separate with a strong administrative head, appointed over it. He thought that the city needed a construction department in charge of a competent engineer. The board of control, he said, should be given power to reconstruct the department upon these lines immediately.

This plan did not suit Controller Foster at all. It was too expensive, he said, and would only complicate matters if at a later time further reorganization was necessary. Controller Foster was still of the opinion that his original idea to provide one competent

executive head was the most feasible method. The controller's remarks were cut short by Ald. Weston's motion for adjournment, which was carried.

In the earlier part of the evening, a deputation headed by J. A. Macdonald, K.C., appeared before the council protesting against the dairy owned by H. Taylor at No. 43 Bloor-st. Mr. Macdonald claimed that this dairy did not meet the requirements of the bylaw. The noise, he said, had interfered with the neighbors' sleep, and the dairy was a nuisance generally. The medical health department reported that the dairy did meet with the requirements. The council finally decided not to concur in the board of control's recommendation that the license be cancelled on June 30.

A deputation protested against the extension of Oriole-road from Tyrrell-st. to St. Clair-ave. as a local improvement. After some discussion the council decided to strike the matter out.

Among the motions presented was one by Ald. Austin providing that the city engineer be requested to report on the advisability and cost of substituting a tunnel for the intake pipe. The matter was referred to the works department.

Ald. McBrien moved that the property commissioner be instructed to report as to the advisability of removing the present free baths at Sunnyside to a more suitable location.

Toronto Man in Toils at Ottawa

Thos. Bates Accused of False Pretences in Business Deal.

OTTAWA, Feb. 5.—Thomas Bates, who resides at 188 Gladstone-avenue, Toronto, and was arrested in that city Saturday morning on a warrant from Chief Ross for alleged false pretences in connection with a deal put thru in Ottawa, appeared before Magistrate O'Keefe this morning. Bates was not represented by counsel, and asked for an adjournment until the general manager of a firm he claims to represent in Toronto, could come to Ottawa.

It is alleged that Bates closed a deal in December with Dr. Church, a city physician, and Mr. H. W. Chamberlain, real estate dealer, Bank-street, whereby these men would take over the Canadian Time Test Tire Co., supposed to be located in Toronto.

According to the police the price paid was in the thousands. Bates received \$400 in cash.

He is now charged with alleged misrepresentation. According to the plaintiffs the plant, which they purchased for the manufacture of inner tire tubes for automobiles, was not what it was claimed to be.

Bitter Feeling Against Germany

Sentence Passed on London Lawyer for Alleged Espionage Called "Judicial Scandal."

LONDON, Feb. 5.—(Can. Press)—Indignation in this country is rapidly growing at the sentence imposed upon Bertrand Stewart, a prominent London lawyer, who recently at Leipzig was found guilty of espionage and ordered confined in a fortress for three and a half years. Stewart's trial lasted five days and when the verdict was announced he declared vehemently that he was innocent and that he wanted everybody in England to know it. It is suggested that a movement be organized for the boycott of British tourists of all German holiday resorts, as a protest against what is almost universally characterized by the newspapers as a "judicial scandal" and "a gross miscarriage of justice."

The feeling has become more embittered than ever.

Good Chance for Fur Bargains.
There is a very fine display of real fur garments on view in Dineen's big fur sale. After stock-taking the company finds there is something over two hundred and fifty thousand dollars' worth of goods on hand, an unusually large amount to carry into next season. To make a reduction everything has been marked down from twenty to fifty per cent. All garments were made in the Dineen workrooms from specially selected pelts.

MEASURE TO AID FISHERIES

Two Speedy Cruisers for the Pacific Coast—Fishermen Are Allowed Wider Market.

OTTAWA, Feb. 5.—(Special)—All the Back Waltons in parliament from Hon. J. D. Hazen down, were on the job to-day, the Conservative speakers throwing harpoons into the administration of the British Columbia fisheries by the late government.

The minister of marine and fisheries announced that two swift protection cruisers would be built to replace the present vessels, which E. H. Sheppard (Nanaimo) declared to be the laughing stock of the Pacific coast. The licenses, said Hon. J. D. Hazen, had been administered in the past for the benefit of the canners alone. He had repealed the regulation which prohibited fishermen from selling their catch elsewhere. He also announced that an arrangement was being sought with the United States for the mutual regulation of the whaling industry.

The Monopolistic Jap.
H. H. Stevens (Vancouver) declared that the Japanese controlled the entire British Columbia fishery.

Arthur Meighen (Portage la Prairie) spoke for nearly an hour on his proposed amendment to the Railway Act. The destruction of set lines or hand trawls; (2) the destruction of the spawning ground; (3) the capture of immature fish.

Protect Pacific Fisheries.
H. S. Clements (Comox-Atlin) pleaded for an adequate protective service for the fisheries of the Pacific coast. Over 500 foreign vessels were fishing off the coast at the present time, with an average catch of 65,000,000 pounds a year. The Japanese were engaged in the best interests of the fisheries of the Dominion. They were depriving the whites of their rights.

C. H. Barnard (Victoria, B.C.) said that the present patrol vessels, the Quadra and the Kestrel, were the laughing stock of the Pacific coast. A new patrol vessel for the Canadian navy, it was a joke.

Ten Thousand Jap Fishermen.
H. H. Stevens (Vancouver) declared that 10,000 Japanese were engaged in fishing on the coast of British Columbia. The whole industry had passed into the hands of an alien race. This was

Comments Mr. Maclean.

At a large and enthusiastic gathering of the North Toronto Liberal-Conservative Association, held in the Masonic Hall last night, the following resolution was moved by John P. Patterson, seconded by R. H. Trimble, and unanimously adopted:

"That this meeting of the North Toronto Conservative Club highly commends the action of our member, W. J. Maclean, M.P., in getting thru the resolution for parcel post for the Dominion of Canada."

PEACE DOVE OVER BELFAST

Unionists Now Seem Satisfied That Churchill Hold Rally in Nationalist Quarter.

BELFAST, Feb. 5.—(Can. Press)—Self-denying resolutions passed by the Unionists and Orangemen to-day give promise of a peaceful meeting on Feb. 8, when Winston Spencer Churchill, first lord of the admiralty, and John E. Redmond, leader of the Irish parliamentary party, will deliver addresses before the Ulsterites on the question of home rule for Ireland.

The Unionists profess to be satisfied at having forced Mr. Churchill to speak in a Nationalist quarter, and in a ring fenced by bayonets. The Liberal Association to-night proposed to the Unionist council that both should cancel their engagements at Ulster Hall for Feb. 7 and 8. A decision on this matter will be taken to-morrow.

High Power Engine Gives Germany Naval Advantage

British Admiralty Advised of Invention That May Put Dreadnoughts on the Scrap Heap—Can Develop 18,000 h.p.—Boilers and Smokestacks to Go.

LONDON, Feb. 5.—(Can. Press)—The British admiralty has received news from a reliable source that a type of internal combustion engine has been brought well towards completion by German engineer experts, which, if it fulfils the expectations of its designers, should give the German navy an immense advantage in its race for supremacy against the British and against all other navies of the world.

A prominent engineer, who has learned of the main details of this engine—which its designers have endeavored to keep secret—said to-day: "I can conceive that a vessel may be designed, using these engines, which would make the latest Dreadnought obsolete, and it would look as if the revolution was imminent. For such a vessel, the radius of steaming might be multiplied by three or four, or the thickness of

TRIED TO CROSS NEW ICE BRIDGE

Alertness of Policemen Only Restraint on Foolhardy Ones—Bodies Irrecoverably Lost.

NIAGARA FALLS, Ont., Feb. 5.—(Special)—Even after yesterday's terrible calamity, the worst in the annals of Niagara, when three people were carried to death when the ice-bridge disintegrated, it required the vigilance of several officers on both sides of the river to-day to prevent venturesome spirits from attempting to cross the mass of slush ice that formed another bridge immediately the fatal structure floated away with its human victims. Authorities on both sides of the river will take immediate action as to closing ice-bridges to tourists in future.

Also many river fatalities have disturbed the peace of mind of residents of the twin power cities, nothing has cast such a gloom over neighboring municipalities as yesterday's accident. In many humble homes prayers were offered up for the repose of the souls of the river victims. The accident was the only subject discussed to-day. People spoke of it in hushed voices, tears springing into the eyes of strong men.

MEMORIAL IN QUEEN'S PARK

Deputation Urges Dominion Government to Honor Heroes of 1812—Premier is Favorable.

OTTAWA, Feb. 5.—(Special)—The premier was waded upon, this afternoon by a large and representative deputation from the "Memorial to the Heroes of 1812-1814 Association," accompanied by a number of Conservative members of parliament, who asked that the federal government should erect at the entrance to Queen's Park, Toronto, a fitting memorial in granite and bronze to the men who fell in those campaigns.

Major W. Hamilton Merritt introduced the deputation, which included Col. D. M. Robertson of the 48th Highlanders, and many stalwart imperialists of the stamp of Alexander McNeill, ex-M.P.

The premier gave a reply which was regarded as favorable, but the deputation will have to wait for the supplementary estimates to see whether they were successful or not. He stated that the noble example of the United Empire Loyalists had been always an inspiration to Canadians.

NATIONALISTS WILL STICK.
MONTREAL, Feb. 5.—(Special)—Le Devoir publishes a special from Quebec this evening, to the effect that Mr. Lesperance, M.P. for Montmagny, had stated that the pre-election promises of the Nationalist members would be fulfilled to the letter, and that a motion to repeal the naval bill would be introduced during the present session.

DR. VOGT'S CHOIR TRIUMPHS AGAIN

With Theodore Thomas Orchestra, Canada's Premier Choral Organization Opens Festal Week in Massey Hall With Miscellaneous Program.

There would seem to be no limit to the possible attainments of the Mendelssohn Choir. At last night's concert Dr. Vogt advanced another degree in that order of ideal perfection in which the grandmaster remains over the lowliest neophyte. It was a wonderful performance, scarcely to be heard elsewhere, and yet it was only a prelude to the mightier things to be done to-night and to-morrow night. The choir has retained all its positive majesty and grandeur of tone, and it has gained since last year a delicacy and refinement to an extent, especially among the male voices, which almost seemed impossible. All those qualities for which Dr. Vogt's forces are proverbial, attack, precision, unanimity, enunciation, perfection of response in light and shade, sustaining quality, reserve power, an almost limitless crescendo, a diminuendo, whose close only differs from silence by its subtle beauty, a superb concentration in fortissimo work and nobility of conception throughout, were all present in more masterful measure, and in the miscellaneous program almost every variety of choral beauty was illustrated.

There was the usual magnificent audience, in fashion, in intellect, in appreciation the greatest gathering Canada attracts annually. It is a proud boast for Toronto that she is to America in a large sense what Bayreuth is to Europe. Those who gather from afar in this festal week will bear out the comparison. To Dr. Vogt is the honor and glory of the occasion. It is he that has made it so.

Music, of all the arts, demands the most and leaves the best trace behind it of a material nature. Its true record must be indelibly marked in the inner world of the heart of the people, or the nation that listens to its heavenly voice. Such a combination for the sake of beautiful and harmonious expression among hundreds of people in chorus and orchestra, and hundreds more—may, thousands-of those who listen and aspire, is not attained without a grand spiritual power in the life of the nation as well as of the community. If it be true in Tennyson's verse that Galahad's strength was as the

HAMILTON RAPPINGING

BUSINESS BLOCK FIRE DID DAMAGE OF \$75,000

Robert Duncan & Co., Bookbinders, Suffered Severely—Firemen Did Good Work.

HAMILTON, Feb. 5.—(Special.)—One of the most serious fires which have visited Hamilton in years, and one which in its early stages threatened destruction to a block of business-houses in the city, started at 2 o'clock this morning, and spread to the most part of that building, burned stubbornly all day, and was not finally extinguished until tonight.

The loss caused by the fire will approximate \$75,000. Two-thirds of this sum represents the damage to the Duncan plant, which is practically destroyed, and the remainder is divided among Cioke & Son, stationers, etc.

The fire started in the cellar of the book bindery, where the furnace located, and it is thought, was caused by some shavings on the floor there being ignited from the furnace. The blaze was discovered by some employees of the Duncan plant, who raised the alarm at 2 o'clock, and at that time was not considered particularly serious.

The building which was the seat of the fire was the core of an almost solidly built structure, and its interior was occupied by stores and offices, fronting on North James-street, West King-street, North Macdonald-street, Market Square. It was separated from the other buildings in the block by an alley on three sides, and was joined to another building on the west. Four small passages led to it from the streets, and these afforded the only access the firemen could obtain.

Complaint was lodged with Mayor Lees early this morning by the fire underwriters. While the fire department did not know how to work the hydrants, and that this was the reason why the fire obtained such headway. An investigation was at once ordered. Chief Clerk and the members of the fire, police and jail committee, which held a meeting last night, declared that the firemen were in a way to blame for the delay in turning on the water, but that Chief Ten Brock and the firemen were entitled to the greatest credit for the manner in which they handled the water admitted to be a most difficult situation.

Consensus of opinion is, that, but for the exceptional work done by the fire department, the whole block surrounding the Duncan Bindery would have been entirely destroyed by the raging flames. This was the opinion also expressed by R. A. Robertson of Robert Duncan & Co., who thought that he thought the work of the local fire-fighters to-day was the best that had ever been done in the city.

At the time the fire was discovered the temperature was down to 4 degrees below zero, and the weather continued almost as cold all day, this making conditions uncomfortable, and even dangerous, for the firemen in their arduous task. Sheets of ice formed on their clothing, and miniature icicles hung from the moustaches of those who wore such hirsute adornment, as a result of this water, which froze as it fell on them. One fireman had his nose frozen, and had to seek medical aid. The Duncan building to-night, after the fire was

How To Banish Wrinkles Quickly

(From Guide to Beauty) If the average woman only knew it is not so difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or blotchy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off. As a matter of fact, the most effective remedy in the world is one that any woman can easily make herself at home in a moment's time. Let her take one ounce of pure powdered sassafras, which she can purchase at any drug store, and dissolve it in a half pint of white hazel. Apply this refreshing solution to the face every day. The results are surprising and instantaneous. Even after the very first application a marked improvement is apparent. The wrinkles are less in evidence and the complexion comfortable, snug feeling of firmness that is most delightful.

MEASURE TO AID FISHERIES

A direct result of the immigration policy of the late government. Whence were we to expect to man the Canadian navy unless that policy was rooted out? he asked.

The contention in this loose naturalization of the Japanese was that we get control of our fisheries, but we do not and should not give this "horde of Orientals" the right to vote. The argument that the canneries could not afford to pay white fishermen, he declared "absolute twaddle."

Mr. Stevens declared that the protection of the fisheries should not be in charge of the naval service. F. H. Shepherd (Nanaimo) claimed that the analysis of boats came into Canada and waters to poach. Hon. J. D. Hazen did not think this statement at all exaggerated. The fisheries protection and patrol services had been hopelessly inadequate hitherto. In the estimates now before the house was a sum of \$75,000 for the acquisition of two fast vessels for fisheries protection and another for patrolling the British Columbia coast and enforcing our laws within the three mile limit. These he hoped to be able to build in British Columbia. The Keestel, he said, would be sold. While the new vessels were building two whaling steamers would be chartered to do patrol work.

As to the argument that this work should be transferred from the naval to the fisheries department, he was not impressed by it. It was a question of administration, both being under the control of the minister of marine and fisheries. The fisheries protection fleet was in a sense a militant fleet, being largely engaged in keeping out poachers. No licenses had been issued in British Columbia and none would be issued in future, except to bona fide fishermen. It was indefensible to issue a license for \$25 to a person who would sell it in a short time for a considerable sum.

The administration of the British Columbia fisheries in the past, said Hon. Mr. Hazen, had been largely in the interests of the cannery. So many licenses had been issued for each cannery, and these men could only sell their catch to the cannery. If the cannery said on a certain day that it would only take so many fish, the fishermen had to dump the rest into the sea. This regulation had been repealed last Saturday, and the fishermen was at liberty now to sell his catch at other places than the canneries.

As to the whole fishery, that could only be dealt with by international arrangement, as it was carried on outside the three mile limit. Capt. Bernier of the Arctic had reported that this industry was being destroyed.

How To Absorb An Old Complexion

(From Popular Monthly.) A girl sighing herself "discouraged" writes she has "tried everything" for her "coarse, horrid, mummy complexion," and asks, "Is there no really effective remedy?" Doctoring your complexion with stuff that comes out of jars and bottles is liable to make it more unsightly. The only sure way to rid yourself of a bad complexion is to remove its cause, which is the offensive skin. Ordinary make-up, procurable at your drug-gist's, will do this. Apply at night, as you would cold cream, a wash in the morning. This wash absorbs the dirt, and dries out the skin, revealing clear, healthy and beautiful skin underneath. Naturally all surface defects go, too, as pimples, blotches, itches, moths, patches, freckles and blackheads. The treatment causes no discomfort. No one can tell you are using it, the old skin coming off gradually.

WOMAN'S SUFFRAGE

Harry Phillips Says That Women Should Have Same Privileges as Men.

Harry Phillips the well-known exponent of female suffrage, of London, England, addressed an audience composed mostly of women at Association Hall last night.

The theme of his address was "The Evolution and Revolution of Woman." He argued that woman's place was not, under modern conditions, necessarily in the home, but in every walk of life, and that since she has assumed the responsibilities and ambitions of a man she should therefore be allowed to share the suffrage. The speaker was warmly applauded.

WOMAN'S SUFFRAGE

Harry Phillips Says That Women Should Have Same Privileges as Men.

Harry Phillips the well-known exponent of female suffrage, of London, England, addressed an audience composed mostly of women at Association Hall last night.

The theme of his address was "The Evolution and Revolution of Woman." He argued that woman's place was not, under modern conditions, necessarily in the home, but in every walk of life, and that since she has assumed the responsibilities and ambitions of a man she should therefore be allowed to share the suffrage. The speaker was warmly applauded.

JOHN FOX JR. SEES HIS WIFE IN NEW PLAY FOR FIRST TIME

John Fox, Jr., the celebrated novelist, particularly well-known in Toronto as the author of the "Little Shepherd of Kingsford," has just arrived here. Mr. Fox has been so occupied with the dramatization of his novel, "The Trail of the Lonesome Pine," and with rehearsals of it that this is the first time he has had an opportunity to see his wife, Miss Fritzi Scheff, in "Nightbirds"—the celebrated Fiedermass by Strauss, in which she is appearing at the Royal Alexandra Theatre. Mr. Fox expects to remain for a few days in Toronto.

PROBING WOMAN TEACHER'S DEATH

UNBRIDGE, Feb. 5.—The inquest as to the cause of the death of Miss Evelyn Baker of Saintfield, the young school teacher who died suddenly at her father's home on Saturday evening, Jan. 18 last, was to have been held to-day, but has been postponed until Friday, Feb. 9. It will then be proceeded with before Coroner Mellor of Port Perry at the village of Saintfield.

Three Shades of Chiffon. A charming waist for evening is made as shown here, a steely blue "baby" being used as a foundation. The low cut neck is partially filled, front and back, with gold and white net, having a white lace rose in applique. Three circular chiffon trills, having a soft blue tulle, are placed as shown. The upper trill is black, the middle one white and the lower one pink. Each trill is edged with velvet and a black satin grille is worn. A large rose with green foliage is placed at the joining of the trills.

Black or Mixed Sealed air-tight packets only. Never Sold in Bulk Form. Fritzi Scheff, La Charmeuse, Walks and Talks WITH MARGARET BELL

Madame Scheff will not be interviewed. Oh, non, non! Journalists, reporters, critics, whom you will, all come under the category of pests who wander the corridors of hotels, and infest the public places where celebrities are wont to congregate, for the sole purpose of publishing personal anecdotes not permissible outside madame's private domicile.

But Madame Scheff is human, and a favorite at afternoon performances. There is a species of hero worshipper in every city, known as the matinee girl. She is familiar to every well-known actress, and manifests her interest by repeated bouquets of flowers and little perfumed notes of admiration. This accorded the only way left. I had played the role of journalist and falled. I haunted the hotel lobby and the alleyways, and finally the chance came. Madame Scheff invariably takes an afternoon walk, and it was necessary for her to leave the hotel some time during the day. When she turned the corner leading down past St. James' Cathedral, I turned too. I could not mistake the white caracol suit, the small hat with the beautiful aigrettes, the large bunch of orchids, the sable furs, the tulle ensemble of Viennese chicness. I carried a large bunch of them, which might be worthy a place on madame's dressing table. I speak French like a native of Spokena. Nevertheless, I was obliged to attract her attention.

"Madame, veuillez-vous me donner le plaisir de presenter ce petit bouquet de violettes?" The small hat turned with a jerk. Evidently I looked harmless. Madame Scheff smiled a radiant French smile, which seemed to attract her attention. She actually crossed the modest little flowers which I offered to her. With the most charming "Mademoiselle est tres bonne," she evinced the slightest desire to continue her walk, and not alone. It was so easy, after all.

We saw a number of women in luxurious limousines, all closed in from the crisp Toronto air. Madame Scheff frowned a little and shrugged her Viennese shoulders. "Oh, is it? Why do women persist in riding when the streets are so good, and the air so fresh? Women are excellent travelers in many lands in behalf of temperance, died in this city. Mrs. Leavitt was born in Hopedale, N.H., in 1830, and married Thomas Leavitt at Theford, Vt. in 1850. Mrs. Mary Leavitt Dead. BOSTON, Feb. 5.—Mrs. Mary Leavitt, for 40 years an American president of the World's Woman's Christian Temperance Union, and a traveler in many lands in behalf of temperance, died in this city to-day. Mrs. Leavitt was born in Hopedale, N.H., in 1830, and married Thomas Leavitt at Theford, Vt. in 1850. She traveled 300,000 miles, and with the aid of interpreters, spoke to people in 37 languages in behalf of temperance, morality and Christianity.

Don't let force of habit spoil your porridge.

Force of habit says "porridge should be cooked all night." But that habit was formed a long time ago when people had to make porridge out of oatmeal instead of rolled oats.

Even yet some women through force of habit, are cooking Tillson's all night, though 15 minutes is ample. They forget that where oatmeal was coarsely ground oats, Tillson's is thin rolled oats. So filmy and thin are the Tillson flakes that they can be cooked as thoroughly in 15 minutes as the coarse particles of old-fashioned oatmeal could be in a whole night.

Tillson's Oats

Pure of Oysters. Bring a quart of oysters to boil in your liquor. Drain. Chop the oyster liquor to the fire. Add two tablespoons of Tillson's Rolled Oats. Simmer fifteen minutes. Add the oysters, but only cream, cook carefully until heated. Season and serve. If too thin add one beaten egg yolk.

CHURCH UNION IS DISCUSSED

Toronto Presbytery Will Deal With the Subject at Its Meeting in Temple Building To-day.

Church union will be the chief topic at the meeting of Toronto Presbytery, at the Temple Building to-day. Considerable progress was made at the last meeting with the basis of union, which is being dealt with clause by clause. Should the discussion not be finished to-day, a special meeting is proposed to deal with any remaining clauses.

Rev. R. C. Tibb, clerk of presbytery, stated to The World last night that he was not aware of any of the churches yet having completed a vote on the church union ballot.

"The congregations," said Rev. Mr. Tibb, "have several weeks to do this, and they will probably want to have the matter placed before them before voting." The returns for Toronto Presbytery have to be in my hands by March 15. I have then ten days in which to place them in the hands of the general assembly's committee, of which the late Principal Patrick was convener.

"The reports will go to Rev. Dr. Somerville, who is acting as secretary of the general assembly's committee. That com-

mittee will probably not meet until after March 25."

The Methodist vote will be taken by the official members during this week, and by the general membership in March.

Both sides of the church union case will be presented before the congregation of Chalmers Church on Sunday morning, Feb. 18. Rev. Robert Had-dow will present the affirmative side.

SPANISH BATTLESHIP LAUNCHED

FERROL, Spain, Feb. 5.—(Can. Press.)—King Alfonso and Queen Victoria were present to-day at the launching of the battleship Espana, which was made the occasion of elaborate ceremonies. The Espana is the first of the battleships of the new Spanish navy to take the water. King Alfonso was present at the laying down of her keel in July, 1909.

The Espana is a four-screw steel vessel, 485 feet in length. Her displacement is 15,450 tons and her estimated speed 19.5 knots. She will carry eight 12-inch guns, twenty 4-inch guns and a number of quick firers and machine guns.

DEATH OF DAVID DOWSLEY.
BROCKVILLE, Feb. 5.—(Special.)—The death is announced from Brockville of David Dowsley, a prominent figure in the Township of Kitley. For more than half a century he had the honor of occupying the post of president of the township agricultural society. Of the three sons surviving, two are doctors, G. C. Dowsley of Manitoulin Island, and D. H. Dowsley of Ottawa. He was in his 86th year.

BOUNDARY QUESTION HAS BEEN SETTLED

Sir James Whitney, However, Not in a Position to Make an Announcement.

There is ground for belief that the Manitoba boundary question is settled. Nothing official in the way of an announcement may be expected till the legislature opens, but the remarks of Sir James Whitney yesterday afternoon would tend to the belief that something definite with regard to the boundary question is on the way from Ottawa, and may be officially received by the premier of this province at any moment.

"I have heard and read rumors about the boundary question," said Sir James yesterday, "but I am not in a position to say anything that would be interesting as coming from me. Should I receive any information in the near future, I shall be glad to say something on the matter."

PRESS MEN MET AT BOWMANVILLE

Interesting Discussions Were Held on Various Phases of Country Newspaper Work.

BOWMANVILLE, Feb. 5.—(Special.)—The Lake Shore Press Association met here yesterday. There was a good attendance of members, and temporary President James was in the chair. After organization was completed, the following were elected officers of the association: President, W. J. Watson, Vindictor, Oshawa; 1st vice-president, S. Farmer, Star, Port Perry; 2nd vice-president, I. Wilson, Sentinel-Star, Cobourg; secretary, A. E. McLeese, Reform, Oshawa; treasurer, John Murray, News, Pickering; executive committee, the above officers and G. W. Lapp, World, Cobourg.

The discussion on the papers read were very illuminating of various phases of country newspaper work, and more than one member remarked at the close of the session that they had not attended a more profitable meeting, even at the Canadian Press Association gatherings. The following were the papers read: "Advertising," by W. J. Watson; "Country Correspondence," by M. A. James; "Editorial Policy," by S. Farmer; and "Job Printing," by C. A.

Goodfellow. Mr. Lapp of The Brighton Ensign contributed some valuable information on the question of country correspondence.

Mr. J. M. Imrie of Toronto, secretary of the Canadian Press Association, gave one of his interesting and valuable demonstrations on "Cost," and the members generally will take the matter up in their own offices, either partially or as a whole.

The Lake Shore Press district is an influential newspaper one, and comprises the towns and villages of Uxbridge, Markham, Stouffville, Port Perry, Pickering, Whitby, Oshawa, Bowmanville, Orono, Newcastle, Port Hope, Cobourg, Millbrook, Colborne, Brighton, Hastings, Warkworth and Campbellford.

TWO MEN INJURED WHEN HORSE RAN AWAY

Crossing Yonge-street into Agnes-street in front of an upbound car at 5 p.m. yesterday, two men in a cutter escaped serious injury by a narrow margin when a southbound car bore down on them, signing their slight between the two rollers and crushing it to shivers. A Golding 611 West Queen-street, was badly scared and had to be taken home in a police ambulance; the other, J. Rashland, 31 St. George-street, was badly scared and shaken. To add to the excitement of the home-going crowds the startled horse broke away and ran a half-dozen blocks up Yonge-street, littering the remains of the cutter all over the street.

MR. COCKBURN'S FUNERAL

Remains of Well-Known Financier Buried After Special Services.

The remains of the late George R. R. Cockburn, former principal of Upper Canada College, and widely known in public life and financial circles, were buried in St. James' Cemetery at 2.30 p.m. yesterday. The funeral services, extremely impressive, were held in St. James' Cathedral, conducted by Rev. Canon Plumtree, rector of St. James', and Rev. T. C. Street Macklem, provost of Trinity College. Dr. Albert Ham presided at the organ.

His son, Major Charles Cockburn, V.C., and Sir Thomas Tait, were the chief mourners. The governors and many of the students of Upper Canada College were present, as were also many prominent business and professional men.

The pallbearers were: Chief Justice Sir Charles Moss, Chief Justice Sir Glenholme Falconbridge, Chief Justice Sir William Meredith, chancellor of Toronto University, of which the late Mr. Cockburn was a governor; Chief Justice Sir William Mulock, W. H. Auden, principal of Upper Canada College; Francis Hodgins, K.C.; J. K. Macdonald, D. R. Wilkie, V. B. Wadsworth and C. W. Yarker.

Sir Edmund Walker and a number of the faculty represented Toronto University, while a number of the masters and boys of Upper Canada College were also present.

Wreaths from Upper Canada College students and former pupils of the late Mr. Cockburn, now living in England, were among the many floral tributes.

POLICE CENSUS IS COMPLETED

Figures Give Toronto a Population of 425,407, Which is Considered to be Fairly Accurate.

Toronto has a population of 425,407 according to the figures of the police census, which were announced by Chief Grassett yesterday afternoon. The figures compiled last July by the assessment department give the population as 374,667, while the Dominion census figures were 375,240. The Night Directories, Ltd., estimated the population at 442,751.

The population by wards was as follows: Ward 1, 82,704; Ward 2, 60,284; Ward 3, 54,758; Ward 4, 71,660; Ward 5, 72,387; Ward 6, 83,089; Ward 7, 18,235. Total, 425,407.

The census was taken on Sunday, Jan. 21. The cost was a little over \$200. In the hands of the local officials, were these figures as accurate as could be obtained. Mayor Geary stated yesterday that the efficiency shown in the gathering of the census, and the small expenses reflected the greatest credit upon the police department.

The statistics show that on Jan. 27 there were 2902 vacant dwellings, 976 vacant stores and 57 vacant factories in the city. There were under construction 1425 dwellings, 103 stores and 43 factories.

The large and good consignments of horses brought a large attendance to the exchange yesterday. Several of the buyers were on the floor and secured the biggest part of a load, which they completed after the auction sale.

Socialist Wave Strikes Bavaria

With Liberals as Allies Lead of Clericals and Conservatives is Cut Down.

MUNICH, Feb. 5.—(Can. Press).—The Diet elections, which have attracted uncommon interest, resulted to-day in considerable losses to the Clericals and Conservatives, and gains to the Liberals and Socialists.

A novelty of the campaign was the alliance of the Liberals and Socialists with two peasant organizations in an effort to overcome the huge Clerical majority. With the aid of a small Conservative and Agrarian party coalition they succeeded in reducing the Clerical strength by 11 and the Conservatives by 16. The Lib-

Murder Will Out

OTTAWA, Feb. 5.—(Special).—Canada awaits with breathless interest the answer of the minister of railways to a request placed on the order paper by H. Botley (Rimouski), "for a copy of all papers, documents, letters, etc., connected with an enquiry made by the Intercolonial authorities into the loss of a horse killed on the Dalhousie branch, belonging to Mr. Xavier St. Laurent of Causapsal, since 1905."

How this horrible tragedy has escaped for seven long years the fierce spotlight that beats upon a ministry that rank with the historic query: "Who struck Billy Paterson?" and Mr. St. Laurent will no doubt go down into history as a rival to the chanfeur of the Trojan horse.

Whether the deceased equine, in a moment of over-confidence, sat down to wait for the train to catch up, or whether he contracted blood poisoning from playfully biting the caboose as it trundled on its way is a question to which the public rightly demand an answer.

BYLAW TO PROHIBIT SLIDING WAS GIVEN SECOND READING

Continued From Page 1.

matter; it was only the principle which was important.

Unfortunate Criticism. Ald. McBride said tobgobgaming was not a sport; it was only a healthful recreation. He thought that the criticisms in both directions were very unfortunate.

Ald. Hiltun made an interjectional remark which roused the ire of the speaker, who retorted that Ald. Hiltun should stay at home on Sunday and not go over children with his automobile. After the chairman had called for order the alderman went on to say Controller McCarthy's motion would only cause trouble and inconvenience. People would then be able to slide, but there would be no police protection and accidents would be numerous. He wanted the question to be submitted to the people. He intended, he said, to bring in a motion to repeal the bylaw and he would bring it in just before the elections next year.

Ald. Rawlinson thought that the petitions against closing the slides were not given enough consideration. Thousands of people, he said, could only get off on Sunday afternoon, and thus they had no other time for recreation. He pointed out that many wealthy people played golf on Sunday, and yet this had never aroused any such resentment as Sunday tobogganing.

All laws, said Ald. Rawlinson, have some effect on personal liberty, and it was quite natural that the Sunday tobogganing bylaw should be considered. He thought that the Massey Hall meeting was a huge joke. The speakers, he said, had misrepresented themselves before the audience and many of them were heralded as representing associations where they were not even members.

Ald. Austin thought that the city had a perfect right to legislate over its own parks, and he thought those who criticized should remember that.

No Legal Right. According to Controller Church the city had no legal right to shut these slides on Sunday. He pointed out that many of the members had voted to keep the bathing houses open on Sunday, and had taken the same attitude regarding the tobogganing slides on Sunday. He turned up clippings from the papers and read some of the speeches of members on similar questions last year. He advised that the council should leave well enough alone, and if any action were taken the people should be consulted first.

Ald. Rawlinson thought that the question should never have been introduced into the council.

Ald. Sanderson thought that people would not go to the slides if they had a half holiday on Saturday.

Controller McCarthy said there was no open Sunday in the world that did not come by stages, just like the one under discussion. He said that the city was not in favor of open slides, and that the world they received the best treatment in those countries where there was the tobogganing slides.

The city was not asked to bring up children, but it was expected, he said, that the city would do anything to the difficulty of the task. The question, he said, was, "shall the

Latin lends itself to song, and the long run, it must needs be true of great art that it is strong and noble and beautiful as it arises out of the perfection of the men and women who achieve it.

The Theodore Thomas Orchestra of 34 pieces, led by Frederick Stock, was as usual a commanding feature of the concert. The orchestra has gained in power since last year and it was evident from the Humperdinck number that it had lost nothing in sweetness. The opening number was Anton Dvorak's Dramatic overture "Huetaika."

This begins with a picturesque combination of majestic chords by the heavy doses in the strains of a Moravian hymn. The theme passes by the harp and strings to a fuller development and merges in the main theme, which is the waltz of John Huss and the Imperialists. Dvorak manages to elicit a good deal of cacophony out of the Kriegerlied. One little girl put her fingers in her ears at once arrests attention, while the intricate complexity of the new orchestration, musicians find it of intense interest. Another post-Wagnerian revelation was in the Tchaikovsky Fantasia, "Francesca da Rimini." It commences with a noise like a starting elephant in the zoo, accomplished with a gong and a double bass, and there ensues a representation of the inferno to which Vrrral conducted Dante. If the inferno be really the place of unsatisfied passions and desires, the longings of the lower animal nature, then the Russian composer was not in error in going to the animal creation for the shrieks and cries and lamentations of the damned which he extracts from the instruments. It is more convincing than theory, either old or new. But as this horror of torture dies away there ensues a passage of thrilling beauty representing Francesca's story of her immortal love. The pastoral loveliness of this section well repays those who have passed unscathed thru the earlier terrors.

The Humperdinck suite, "Die Koenigkinder" is a composition of extraordinary beauty and full of exquisite orchestral effects. The use of the harp is particularly striking, and the three movements supplied the most charming contribution of the orchestra. It was the Tchaikovsky Fantasia, however, which received most applause. Mr. Stock being twice recalled.

Many of the choir members were old favorites. Loti's Motet, "Crucifixion," has been sung in former years, but never with a more celestial perfection than the soprano imparted to it last night. It received more wonderful than ever as the pianissimo introduction crept over the silence, gradually swelling out into the cry of a suffering soul. He was Crucified. The soprano

city tobogganing an amusement Sunday?" He pointed out that the open Sunday was its own enemy and workmen all over the world wherever it had been introduced had triumphed or were at the present time turning against it. "There are," he said, "70,000 boys and girls in Toronto whose future manhood and womanhood depend upon their reverence for Christianity and the Sabbath. Any Sunday sport which counteracts that reverence is, in my opinion, against the best interests of the city."

In the United States, declared Ald. Wanless, thoughtful men were trying to bring about a religious Sunday. He thought that many of the opponents of Sunday tobogganing were new-comers. He believed the interest of the Liberal Government last September was partly because people had an idea that party politics would bring with it the American Sunday.

A Cure for Nerves. Ald. Ryding said that the slides were a cure for nervous prostration. Ald. McBride said that it was the working men who suffered wherever there was an open Sunday.

Ald. Rawlinson argued that the discussion had been quite irrelevant to the point. It was unfair, he said, to belittle the efforts of the labor unions and other organizations.

Ridiculous Remarks. Mayor Geary said that almost everything which could be brought under the subject had been discussed in connection with the tobogganing. He thought that most of the remarks regarding the thin edge of the wedge and most of the historical references were ridiculous. He pointed out that the day was not any better or worse because of Sunday sliding. There had been no additional expense on account of them. The argument that the city was going into competition with the churches was just as absurd as to say that the tobogganing was a threat to the churches. His worship was most emphatic in stating his opinion that there was no harm in healthful innocent Sunday recreation. He thought that if the slides were closed the same movement would naturally want to go to keep them open.

The vote on Controller McCarthy's amendment that sliding be prohibited only on the natural hill slides was then the subject of Sunday recreation. The bylaw had passed. In both cases the vote was the same, and hence both were passed by 11 to 8. The line up for (or against) Sunday sliding was:

Controllers Hocken, McCarthy, and Foster; Ald. Anderson, Austin, Chalmers, and Deane; Ald. Hiltun, McBride, Rawlinson, Sanderson, Spence, Weston and Yeomans-17.

Against—Mayor Geary, Controller Church, Ald. Maguire, Coburn, McMurrie, O'Neill, Rawlinson and Ryding—8.

The motion was then made to give the bylaw its third reading. This required a majority of 12. The motion was carried by 12 to 8.

When came the "Main Song" by Howard Brockway, dainty and ethereal in its suggestion of "wings from the wind" and the well-known "Lullaby" by Elgar, the latter accompanied by the orchestra, and done with the grace and deftness of a demander. Great enthusiasm followed the performance of the other Elgar number, the choral dialogue from "Caractacus" with its pomp and patriotic magnificence. The whole force of the choir was allowed free play in "The Light Descends From Heaven" and the conclusion was a wonderful climax of power.

The same vocal strength was given rein in the Wagner Chorale, when the volume of voices was perfectly complementary to the full strength of the orchestra. A happy Toronto! with three days more of it.

OTTAWA, Feb. 5.—(Special).—Contrary to the rumors that have been prevalent during the past few weeks, the budget will not be brought down to the house until the first week in March, or at the very earliest, the latter part of the present month.

The Hon. Mr. White is prevented from announcing his budget in a few days by the attention which he is bestowing upon the bill for the appointment of a tariff commission. Originally, it was thought that the Hon. Geo. E. Postey would be the parent of the scheme, but as it was found that all the work of the commission, its findings and its investigations, dealt directly with the tariff of the country, it was decided that Hon. Mr. White would take charge of the bill. Day and night he is devoting himself to it.

QUEBEC'S HISTORIAN PASSES.

QUEBEC, Feb. 5.—(Can. Press).—In the death of Sir James Lemoine, which occurred this morning, Quebec mourns the loss of one to whom she owes a deep debt of gratitude. It is safe to say that no other historian, living or dead, has devoted the amount of time and labor to the collection of material relating to the early history of the province as that which has been given to it by Sir James Lemoine.

Sir James Lemoine was born in this city on Jan. 24, 1825, and had consequently completed his 87th year only ten days before his death.

LAROSE, COBALT PIONEER, DEAD

OTTAWA, Feb. 5.—(Can. Press).—The blacksmith who originally discovered the silver mines of Cobalt died to-day in Hull. He was J. B. Larose, once partner in the Larose-McCormick mine. He has been wealthy since the famous stroke of luck that brought him and Ontario fortune. He had lost much in litigation proceedings, and the usual story of wealth drifting into other hands will be shown in his estate.

WHITE BUSY ON TARIFF HENCE BUDGET DELAY PROLONGING SESSION

OTTAWA, Feb. 5.—(Special).—Contrary to the rumors that have been prevalent during the past few weeks, the budget will not be brought down to the house until the first week in March, or at the very earliest, the latter part of the present month.

The Hon. Mr. White is prevented from announcing his budget in a few days by the attention which he is bestowing upon the bill for the appointment of a tariff commission. Mr. White would take charge of the bill. Day and night he is devoting himself to it.

Granted that the budget is brought down in the beginning of March, the house cannot prorogue until Easter at the very earliest. It was anticipated that it would do so about the middle of March, but this is very improbable now.

Sir Wilfrid Laurier. In the Liberal camp all does not go well. Sir Wilfrid Laurier wishes last September to go to California, but was prevented by the exigencies of his party, and submerged his personal interests for the good of the opposition. He has now definitely decided to go to California for his health, and will do so at the earliest opportunity. That depends upon the return of Hon. Geo. Graham to parliament, and if that be accomplished, then Sir Wilfrid will depart at the end of the month. Whether or not the late minister of railways comes back to parliament, Sir Wilfrid will go to California, and as there is no one of lesser's calibre left to fill his place, a rather premature prorogation may be expected, and the debate on the budget may be after all a rather tame affair.

Congratulates King and Queen.

OTTAWA, Feb. 5.—(Special).—The safe arrival of Their Majesties the King and Queen was greeted by Canadians by the following cabigram, sent to their majesties by the governor-general to-day:

"The government and people of Canada humbly desire to offer their heartfelt congratulations upon your majesties' home coming, and they rejoice in believing that the series of stately and splendid pageants which have marked your majesties' progress thru India, testify that the spirit of affectionate loyalty which animates the people of Canada is shared in equal measure by our fellow-subjects in those far off lands, from which thru the blessing of God, your majesties have safely returned." (Signed) "Arthur."

California for his health, and will do so at the earliest opportunity. That depends upon the return of Hon. Geo. Graham to parliament, and if that be accomplished, then Sir Wilfrid will depart at the end of the month. Whether or not the late minister of railways comes back to parliament, Sir Wilfrid will go to California, and as there is no one of lesser's calibre left to fill his place, a rather premature prorogation may be expected, and the debate on the budget may be after all a rather tame affair.

LEGISLATIVE POWERS

City Wants to Assess Cost of Keeping Streets in Repair

Against Property Benefited, to Issue More Than \$250,000 Worth of Debentures, and Asks Other Powers.

Eleventh-hour applications for legislation still continue to arrive at the parliament building. Another assignment of these applications was announced yesterday.

The John H. Stratford Hospital in Brampton will hereafter be known as the Brampton General Hospital. If the legislation which the city is asking for be granted, the thriving municipality also wants to issue debentures to provide for the share to be paid by the Grand Valley Railway and the Brampton Street Railway.

Legislation is also asked to enable the city council on a three-fourths vote to assess the cost of cleaning, watering, lighting, grass-cutting, tree-trimming, to the property abutting on the street receiving any of these services; to issue debentures for \$5,000 for hospital purposes, \$30,000 for public school purposes, \$50,000 for construction of sanitary sewers, \$25,000 for sidewalks, \$25,000 for parks and pavements.

Perry Sound wants permission to raise debentures for \$85,000, a bonus for the Standard Chemical, Iron and Lumber Co. of Canada.

The City of London asks permission to raise debentures amounting to \$35,000, regarding the North Midland Railway Co. to raise debentures for \$50,000 to pay the salary of a commissioner of industries, the salary not to exceed \$3,000.

Orillia wants to raise \$80,000 to build a pole line to the Simcoe Power Co. plant at Big Chute, on the Severn River; to give a fixed assessment to the National Hardware Co., Ayres & Hewitt, proprietors; it wants to purchase electrical energy from other producers, and to construct a power line to these sources; it wants to raise a contingent fund of \$200,000 of the earnings of the Orillia Power Company.

Orillia must also be developing a sense of militarism; the municipality wants the right to purchase the property of the East Simcoe Agricultural Society, and to build an armory there, which may be used by the Agricultural Society for the holding of its annual fair.

Force of Habit.
A visitor to the Oswatimie insane hospital recently was watching an attendant taking a bunch of patients out for a walk. One patient wouldn't stay in the road, but went all the time to run off into the woods.

What the master with that man? asked the visitor.
"Well," said the attendant, "that man was an engineer on the Missouri Pacific one time and he imagines that he is still running an engine on that road."—Kansas City Journal.

TORONTO STOCK MARKET SHOWS FIRM UNDERTONE

Trading Windles Away, But Prices Are Easily Maintained—Toronto Ralls at Advance.

World Office, Monday Evening, Feb. 5. The Toronto market showed a generally firm tone in the opening session of the new week, prices showing a slight upward trend as a result of the consistent buying demand noted practically throughout the whole list. Net changes for the day, however, were in the main small, and on the whole the transactions attracted little interest. Trading was of a generally restricted nature and during the afternoon board dwindled down to small volume.

The movement in Toronto Ralls in Montreal last week was carried on further here to-day, the stock selling up above 135, a net gain of about two points. There was no news out of the security and the movement, which was expected to have emanated from Montreal, was rather unexplainable on this account.

Rio Possibilities.
The South American situation was extremely dull and showed no dominant tendency. Rio sold up a small fraction to 112, but failed to hold its gain at the close, when the best bid was at 112 5/8. Interest in this stock is still concerned, of course, as to the prospects for an increased dividend this year. It has been estimated that after deducting fixed charges and appropriations, Rio will have between 9 and 10 per cent. available for dividends in addition to the surplus to be carried forward. Although the recent increase in the capitalization has to some extent discouraged the idea that a dividend increase is in prospect, Rio bulls are still pointing to the statement as a reasonable ground for expecting a greater distribution.

There was comparatively little doing in the general list and outside of a slightly firmer tone to Steel Corporation and Rogers common, the day's events occasioned little comment. The activity in Winnipeg Ralls was not sustained and the price dropped back to 283, a loss of 2 points from Saturday. Porto Rico was also easier at 75 1/2, a loss of about 1 point.

Apathy the General Rule.
The floating supply of stock is maintained at a small level, and any improvement in the speculative demand might quickly change the underlying trend.

ESTIMATED EARNINGS OF U. S. RAILROADS

NEW YORK, Jan. 5.—A prominent financial publication estimates that the fiscal year ended June 30, 1912, Union Pacific 14, Southern Pacific 8, Great Northern 10, Illinois Central 10, Louisville & Nashville 14, New York Central 11, Norfolk & Western 10, Reading 13, Pennsylvania 8 and St. Paul 8 per cent.

It is reported that investment income of the Union Pacific is now large enough to pay the entire fixed charges. This year's returns should increase during the next year.

JANUARY GOOD MONTH FOR U. S. STEEL CONCERNS

NEW YORK, Feb. 5.—January was a good month for both U. S. Steel Corporation and independent steel companies. The former is estimated to have received orders for about 1,000,000 tons of steel, while independents are credited with about 700,000 tons. Railroads furnished a large part of these.

SPECIALTIES ADVANCE IN MONTREAL MARKET

Steel Corporation Scores Sharp Rally and Other Steel Issues Respond—Toronto Ralls Up.

MONTREAL, Feb. 5.—Gains of about half a point for the steel stocks, and further recovery for Toronto Railway were the chief features on the stock exchange to-day. Dominion Steel Corporation continues to maintain a commanding lead in the trading, contributing to-day 4864 shares to the total of 9025 shares sold, and the price movement in the stock, notwithstanding the large amount of the shares coming out, continues to be in an upward direction. Trading was of a generally restricted nature and during the afternoon board dwindled down to small volume.

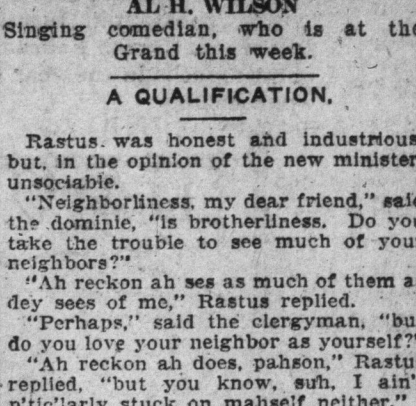

The movement in Toronto Ralls in Montreal last week was carried on further here to-day, the stock selling up above 135, a net gain of about two points. There was no news out of the security and the movement, which was expected to have emanated from Montreal, was rather unexplainable on this account.

JANUARY FINANCING IN U. S. ESTABLISHED NEW RECORD

According to compilations by The Journal of Commerce, the January output of new bonds, short term notes and stocks by railroad and industrial corporations in the United States broke all records for the opening month of any year. The total was \$540,892,896, compared with \$281,159,459 in the corresponding month last year, an increase of \$116,733,446.

HEAD OFFICE MINES and WORKS

Suite 239, Confederation Life Chambers TORONTO RED WILLOW, ALTA.

The property of the Red Willow Coal Company comprises 2,720 acres in Red Willow, Alberta.

We have been offering at par the 7 Per Cent. Preferred Shares (Par Value \$1.00) which have been carrying with them a bonus of 50 per cent. of Common Shares. Owing to the fact that a firm of English brokers have secured a large block of shares; on and after Thursday, the 15th inst., no more Preferred Stock will be sold at par, and the offer of bonus stock will be withdrawn.

Of the merits of the enterprise there is absolutely no question. The location of the 2720 acres of land which the Company has purchased could not be better. It is in the heart of the finest section of Alberta, about sixteen miles northeast of Stettler, on the Canadian Northern, Edmonton to Calgary Branch. Nothing need be said as to the fertility of the soil. The whole world looks on amazed at the enormous yield and high quality of the Canadian grain. Men and money are pouring into this section of our Canadian West, forming one of the richest and most progressive centres of that province. They are building many large towns, and will consume coal as fast as it can be mined.

The Company is engaged in a great commercial enterprise to meet the increasing demands of the ever-growing West. The coal companies operating at present in the West are building up a great and growing industry, and should the Red Willow Coal Company, Limited, devote its attention to the production of coal alone, it should be in a position to pay handsome dividends on the common stock, after taking care of the preferred. The report of the Company's coal property by Mr. Norman Fraser, a well-known coal expert and engineer, speaks for itself.

It is a matter of common knowledge that with the growth of towns in the West (300 new towns having been started last year, and over 1500 in the past eight years) the obtaining of building material has been a serious problem. A valuable asset of the company, therefore, is the unlimited supply of clay for the manufacturing of red and white brick. It is the purpose of the Company to install a plant to manufacture 50,000 bricks a day, and also a plant to mine 500 tons of coal a day.

A very important avenue of profit will be the sale of lots in the Town of Glen Hayes (\$25,000 worth of which has already been disposed of), which has been conservatively estimated to yield the Company a net profit of at least \$150,000. Glen Hayes is destined to become a very important centre. Within a radius of six miles, over 1,000,000 bushels of grain were shipped last year.

A recapitulation of the profits to be derived from this extraordinary safe investment, which will be drawn from four magnificent avenues of business, namely, the land yielding at least \$20,000 per annum, the brick manufacturing plant at least \$30,000, the coal mines, taking out 500 tons a day, a net yield of nearly \$150,000, and from the sale of town lots \$150,000; we say this four-fold source of revenue absolutely guarantees the payment of the 7 per cent. dividend on the Preferred Stock, and a very large dividend on the Common Stock.

The Directors of the Company are all shrewd men, of unusual business ability, men of sterling integrity, men of the highest principles, men who may be trusted to the very limit in any and all business transactions. One has the assurance, therefore, that the affairs of the Company will be handled to the very best possible advantage. Get into the Company whose destinies are guided by men of this stamp, when ITS FUTURE IS BEFORE IT—NOT BEHIND IT.

The Red Willow proposition is an absolutely honest, straightforward, money-making business enterprise for business men, and every man who has been over the ground says that this Red Willow proposition is the best he has seen, and we cannot too strongly recommend it to you as an AT investment.

The stock is now selling very rapidly, and as this is an investment of an exceptionally meritorious nature you cannot afford not to investigate. WRITE US AT ONCE FOR ILLUSTRATED BOOKLET giving full particulars of the Red Willow Coal Company, Limited, which will be mailed to you without any obligation or expense on your part.

Subscriptions will be filled in the order received, but we reserve the right to reject any or all subscriptions.

MORE PAY FOR MILITIA

Both Permanent and Non-Permanent Forces to Share Benefits.

OTTAWA, Feb. 5.—(Can. Press).—The Canada Gazette announces a general change in the pay and allowances of officers and men in the permanent and non-permanent forces of the country. The pay of the men of the non-permanent forces has been increased from 50 cents a day to 75 cents a day. The schedule of efficiency pay has been done away with, and the schedule now is a flat rate of 75 cents a day and 85 cents a day for those serving two years in succession, with an efficiency allowance of 15 cents a day. The old rate was a flat one of 50 cents and an efficiency and service allowance of 20 cents to 40 and 50 cents a day. The increase to non-commissioned is on the same relative basis.
