TRIAL BEGINS TO-DAY.

Bank Robbery Case the Topic Again at Nanapanee.

CHARGE OF THE JUDGE

To the Grand Jury Deals With Evidence to Be Adduced by the Crown.

THE FASHODA AFFAIR

And During the Absence the Mice Were Busy.

A FRANCO-ITALIAN TREATY

Was Arranged While Emperor William Was in the Holy Land.

NO DENYING THAT SENTIMENT IN REGARD TO THE CASE HAS VEERED TOWARD THE CROWN SIDE—LIST OF THE JURY PANEL—NOTES OF THE CHARGES, TRIAL, WHICH WILL LAST UNTIL SATURDAY.

Nanapanee, Nov. 21.—(Special.)—The excitement of the by-election in Nanapanee has given way to a greater in the trial of the alleged bank robbers. The topic of conversation by everyone, everywhere, is this case. There are two other cases on the docket, but nobody but the intimately interested parties cares a rap for them. All minds are centred on the one matter.

There is no use denying it, sentiment in regard to the case has veered toward the Crown side. You gather this not from spoken words, but from shrugs of the shoulders, signs and other ways that speak more pertinently than words. Men who three months ago were loud-spoken in declaring the main prisoner guiltless are now apt to say: "Ah, well, I would prefer not to express an opinion." This change is due to the ever-repeated, though as not yet verified, declarations of the Crown, that they have some startling evidence that is new and conclusive.

The coming of the expert safe cracker is attributed by many to a new party in the case. Some one has an interest at stake, and as one prominent citizen put it: "That company would be the first to shake hands with itself if Ponton went free."

The vigilance of the Crown authorities relaxes in no degree.

General George Finch is on duty all night long. With his old time rifle and dark lantern, while the Sheriff is losing sleep in his efforts to preserve his prisoners till justice does her due.

Toward the bank there is a feeling of sympathy, and the community is of the opinion that everything is being done, fairly and squarely, to bring the guilty parties to justice. There is no talk of persecution, and much of the sentimental veneration of the supporters of the popular ex-bank clerk has been irradiated. But this does not mean that Ponton is not popular. By no means. He is the best liked man in town. Yet his warmest admirers would be the last to say: "Go free." If he were guilty of the crime charged.

The case will not be reached till tomorrow afternoon at the earliest, and will last till Saturday anyway. Thanksgiving Day will be spent by the whole town in the court room, and roast turkey will be sacrificed amid conversation concerning the result of Nanapanee's trial.

In the Court Room.

The court room was jammed when Justice Ferguson entered this afternoon at 2:30 o'clock. Women were greatly in the majority. The members of the local bar, Messrs. W. G. Wilson, Morley Wilson, T. B. Getman, Madden, DeLoche, from Belleville, Messrs. E. Gus Porter and E. C. Clift, Q.C.; from Deseronto, J. B. Bedford, and from London, Mr. Hellmuth, were present. Sheriff Hawley never appeared to better advantage than when he ushered in the judge.

The Grand Jury.

The grand jury was empaneled by the aid of the Clerk of the Court, and when seated appeared as follows: George Anson Aylesworth, brother of A. B. Aylesworth, Q.C.; foreman; Bedford Dorland, M. N. Empey, John Harrison, George E. Hoffman, Joseph J. Johnston, E. J. Hastie, Sidney Pringle, Robert Paul, Addison Scott, B. B. Vanslyke, George Wirtman, James Brandon.

The whole of the afternoon was taken up by the judge's charge to the jury. He read the indictments against Pare and Holden, and Mackie and Ponton respectively, and said, though the two indictments arose out of two different transactions, yet they were to be presented separately. He thought it would be impossible to speak of the case against one without speaking of the other.

The Judge's Remarks.

The judge defined the charge against Pare and Holden as one of burglary, as the act was done within the curtilage of a dwelling house.

He reviewed the history of the robbery, and stated that if Pare's evidence was to be believed there was corroborative of it that implicated Mr. Ponton, while there was evidence of a continuous effort on the part of the parties to rob the bank. He laid stress upon that part of Pare's evidence in which he says that the combination of the inner vault was known and the information had been given by Mr. Ponton. This led the judge to remark that Pare was an accomplice. He was different from the others in that on his own admission he was a villain. He had been guilty of one crime. Pare told a good many things that were said that would not be evidence except against those present when it was said. Yet his evidence was good against Holden.

Evidence Against Holden.

The evidence against Holden was that of Pare, which was direct, besides the further evidence that some of the stolen property

THE FASHODA AFFAIR BELIEVED TO HAVE HAD AN INFLUENCE FAVORABLE TO SUCH AN AGREEMENT—NEGOTIATIONS WERE CONDUCTED WITH THE UTMOST SECRECY AND HAVE CAUSED SPECULATION.

Paris, Nov. 21.—It was quite unexpectedly announced to-day that a commercial treaty had been concluded between France and Italy, granting mutually favored treatment except for silk goods, which will remain subject to the maximum tariff. A bill embodying the agreement will be submitted immediately to the Chamber of Deputies.

The Government also introduced a bill in the Chamber to-day modifying the wine duties favorably to Italy.

The negotiations have been culminated in these arrangements have been on foot for two years, but nobody believed that a definite agreement was pending.

It is believed that the Fashoda affair was instrumental in inducing France to grant the necessary concessions, though it is noteworthy that the silk duties, which caused the breaking of the treaty in 1887, remain almost unchanged.

The negotiations have been conducted with the utmost secrecy. The exact effect of the concessions involved is not known as yet, but it is expected that they will have an important political influence for the removal of a long-standing friction between the two countries.

The treaty, it is noticed, was concluded during the absence of Emperor William from Germany, and there is much speculation regarding its probable result upon the European alliances.

Came as a Thunder Clap.

London, Nov. 22.—The Rome correspondent of The Daily News says: "The conclusion of the Franco-Italian treaty came as a thunderclap. Looking to the hitherto strained relations between Paris and Rome, the treaty may be considered the important political event as regards Italy since the conclusion of the triple alliance."

PATTI'S LAST VENTURE.

British and Russian Royalty Sending the Old Girl Congratulations.

London, Nov. 21.—Adelina Patti has fixed her marriage to Baron Kederstrom in the first week in February.

She has received already warm letters of congratulation from the Prince and Princess of Wales, the Duke and Duchess of York and the Czar and Czarina.

The story that Baron Kederstrom was at one time the director of the Swedish gymnasium in London is inaccurate. The Baron was noted in Sweden as an athlete and is one of the most expert exponents of the Swedish gymnastic system. Consequently his advice in organizing gymnasiums on the Swedish system has been much sought in London, Berlin, Vienna and Paris. It was while he was engaged in a similar undertaking at Paris early this year that Adelina Patti met him.

His gymnastic performance is the acme of manly grace and has won for him in former years medals and trophies in amateur competitions in Sweden.

Kederstrom is a typical, handsome Norseman, with a perfect physique and winning manners. He is also a gifted vocalist.

A WELCOME PROMISED.

Yankee Warships Will Have a Warm Reception at Portsmouth, Eng.

London, Nov. 21.—In consequence of rumors that an American squadron of warships is to visit Portsmouth, the Mayor of that place has written to the United States Embassy promising to give the Americans a cordial welcome. Mr. Henry Waite, United States Charge d'Affaires, in reply, has thanked the Mayor of Portsmouth for his courteous letter, which he will not fail to transmit to Washington. Mr. Waite, however, added: "I have not yet received information of the visit, but my government will not fail to be gratified by the knowledge that such a welcome awaits our squadron in the event of a visit."

Rumors of a German Crisis.

London, Nov. 22.—The Berlin correspondent of The Daily News says something of a sensation has been caused there by the announcement in the leading type in the semi-official North German Gazette that Dr. Von Miquel, Prussian Minister of Finance, instead of Prince Hohenlohe, the Chancellor, presided over the Cabinet Council held yesterday (Monday).

The Daily News correspondent says: "The fact that Prince Hohenlohe is in the best of health and can be seen any day walking the streets gives some color to the rumor of a Chancellor crisis."

Report Sent Out That the Peace Negotiations at Paris Had Been Broken Off at the Instance of the Spanish Commissioners and That a Crisis Had Arrived—It All Turned Out to Be a Hoax—Who is to Blame?

Some news fakir got in his work in good shape yesterday. A report was foisted on the Associated Press to the effect that the peace negotiations at Paris, between Spain and the United States, had been discontinued, and that a crisis had arrived. Although it was reported from Washington that nothing had been received there of such crisis, the "news" was taken as genuine in most quarters. At 12:30 o'clock this morning, however, the bubble was pricked by the following:

Editors—Important notice—Please kill the Paris bulletin sent this afternoon, which says: "The president of the Spanish Peace Commission, Senor Montero Rios, has refused to continue the negotiations."

A ho-kay Washington despatches commenting on the breaking off of negotiations.

Enquiries made show that the bulletin was not sent from Paris by the correspondent of the Associated Press. It was not sent with his knowledge or by his agent. The message was received over the wires of the French Telegraphic Cable Company, and it appears on enquiry that the cable sheet handed in at the Paris office was endorsed in the name of the Paris correspondent of the Associated Press. The cable company was imposed upon.

In reply to a special message of enquiry, the Paris correspondent of the Associated Press says regarding the bulletin: "I have sent no such statement." He suggests that the message was sent by stock jobbers. The Associated Press.

THIS IS THE REPORT

Which Was First Sent Out and Afterwards Amplified.

Paris, Nov. 21.—The Spanish and American Peace Commissions met in joint session at 2 o'clock this afternoon. The Americans declared the United States must have the entire Philippine archipelago, and for a treaty session of the islands, the Americans tendered to Spain \$20,000,000.

It is further declared that it is the purpose of the United States to maintain the Philippine Islands as an "open door" to the world's commerce.

On the terms named, the United States proposes a mutual relinquishment of all claims for indemnity, national or personal, subsequent to the outbreak of the last Cuban insurrection.

Nov. 28 is fixed as the date on which the United States Commission desires a definite response to to-day's propositions, and all other subjects in issue here.

It is also declared that the United States desires to treat of the religious freedom of the Caroline Islands, as agreed upon between the United States and Spain in 1883, and also of the acquisition of one of the Caroline Islands for an American naval station, and of cable landing rights at the respective islands in Spanish jurisdiction, and the revival of certain Spanish-American treaties as heretofore.

The meeting was then adjourned until Wednesday.

The Final Proposition.

Paris, Nov. 21.—The United States Peace Commissioners have undoubtedly made their final proposition here. When the conference opened this afternoon Judge Day, addressing Senor Montero Rios, and his colleagues of the Spanish Commission, reiterated the protracted negotiations and reaffirmed the desire of the American Commissioners to reach an amicable conclusion. Then, handing the American presentation to the interpreter, Judge Day concluded his remarks by saying that the Americans preferring not to break the armistice or to resume hostilities, had determined to present another and final proposition, which he hoped would lead to a speedy and amicable adjustment.

That portion of the presentation setting forth the new proposal—the proposal that the United States must have possession of the entire Philippine archipelago, with a tender of \$20,000,000 for a treaty session of the islands—was then read. Without betraying their mental attitude, the Spanish Commissioners suggested an adjournment to Wednesday. The new proposition, with its collateral, was embodied toward the end of the American memorandum, which filled 30 typewritten sheets. Only this part was read in the joint session, the memorandum then being delivered to the Spaniards for translation by their own staff.

PERFECT PETRIFICATION
Body of a Woman Buried in a Woodstock Cemetery Ten Years Ago Found to Be Solid.

Woodstock, Nov. 21.—Caretaker Porter of the Episcopal Cemetery here received instructions a day or two ago to remove a body which had been buried in the wrong plot by mistake, to another spot in the cemetery. The burial took place 10 years ago. When the earth was thrown out, it was found that the casket had rotted to such an extent that it was impossible to raise it. An effort was made to do so, but the black box crumbled to pieces, leaving the interior of the coffin exposed to view. After 10 years the grave-digger expected to find nothing but bleached bones, and instead he found a perfectly preserved corpse. The form and features were perfect, and even the skin had retained the wax-like color which death imparted years ago. On closer examination it was found that the process of petrification, ossification, solidification, or whatever it was, had decided to raise the body without the casket, and with some difficulty it was lifted and placed upright in the grave. It was then raised out of its long resting place, a new casket procured, and the body reinterred in its proper plot.

DIED FROM HEART TROUBLE.

Mr. H. F. McMullen of Belleville Passed Away Yesterday.

Belleville, Nov. 21.—(Special.)—Mr. H. F. McMullen, a life-long resident, and one of Belleville's most widely-respected citizens, died here last night, aged 68. He had suffered for some time with heart trouble, which, in his advancing years, ultimately caused his demise. He had been in former years employed with C. E. here, and many mechanical contrivances which have facilitated labor, and improved its output, bespeak his adaptability and success as a Mason. He leaves a widow and three sons, and was the eldest survivor of a large family of U. S. Loyalist stock.

RUNAWAY AFTER A FUNERAL

Liveryman Winn's Team Dashes Down Gallow's Hill.

A FRIGHTFUL COLLISION

When the Horses Struck a Telegraph Pole—Mrs. Joseph Scott Thrown Through the Carriage Door and Her Nose Broken—Mrs. Louisa Boquet's Shoulder Blade Broken and Driver Winn Seriously Injured Internally—The Carriage Was Demolished.

After attending a funeral yesterday morning at St. Michael's Cemetery, an accident occurred, which resulted in three persons being seriously injured. Mr. John Scott, who resided at 8 Allen-avenue, died on Saturday night at the age of 65 years, after an illness of only 10 hours. Yesterday morning at 9 o'clock the funeral took place. Among the mourners was deceased's daughter-in-law, Mrs. Joseph Scott, who resides at 10, Allen-avenue. Spotted beside her in the same carriage were Mrs. Louisa Boquet of 42 Allen-avenue and two other women. Two of the cabs were engaged from Mr. Frederick W. Win, liveryman, 44 Bolton-avenue. Mr. Winn drove one carriage and the other one was in charge of William J. Pollard, who resides at 120 Bolton-avenue. On the return journey everything was quiet until Gallow's Hill was reached, when an approaching street car scared the horses attached to the carriage driven by Mr. Winn. The horses started off at a furious pace at the top of the hill and ran down the incline. The cab that Mr. Pollard was on was in the front of the runaway team, and on seeing the dashing horses he attempted to cross in their path and avoid what looked like instant death to the occupants. Adjacent to the carriage was a telegraph pole, and the on-coming team crashed into it with great force and also struck Pollard's cab. Mr. Winn hung bravely onto his horses until they came in contact with the pole, when he was thrown from his seat onto the ground and fell on his head. Mrs. Scott was thrown through the glass door and also struck her head, and Mrs. Boquet fell to the bottom of the carriage. The three injured people were carried into the Howland Hotel and Dr. C. M. Foster of 1101 Yonge-street was summoned. After temporarily looking after their wounds, he sent them to their homes in carriages.

Mr. Winn was taken to his residence and the family physician, Dr. Stark, and Dr. Fraser were called in. It was found that Mr. Winn had received a bad scalp wound and that his spine was injured, besides numerous cuts and bruises. The physicians cannot be found until this morning.

Mrs. Joseph Scott was lying at her home last night when a World reporter called, and besides a bad scalp wound, which extends from the top of her forehead to her nose, she has a broken nose and bad cuts on her arms and legs. Dr. Sneath of Broadview-avenue is in attendance and holds out hopes for her recovery.

Mrs. Boquet was also confined to her bed and had three bones in her right shoulder broken and cuts on her head and body.

Mr. J. Pollard escaped serious injury and will be all right in a few days.

The carriage was entirely demolished and the horses badly hurt.

FOUR LIVES SACRIFICED

A Farmer, Jealous of His Wife, Killed Her, His Child, Himself and an Outsider.

Paducah, Ky., Nov. 21.—Edward Ross, a farmer, killed himself last evening, after murdering his wife and child and John Walker, a newcomer to the neighborhood, had been paying attention to Mrs. Ross. The men quarrelled. Yesterday Ross and his wife and baby were in Paducah and were going home. When they reached Clark's place Ross left his wagon and went in to see Clark. While he was away Walker came up and began talking to Mrs. Ross. They had left the house when Ross returned and found them in close conversation. He began to abuse Walker and the latter resented it, when Ross shot him. He then turned and shot the woman, killing her also. Going to the wagon he shot his baby and then turned the pistol to his own head and fired, falling dead.

The Philippine Question Settled.

While folks are wondering what the Americans are going to do about the Philippine Islands, General Merritt seems to have settled the question the way the British usually do—by taking possession of everything in sight. This fact was forcibly brought to view by the receipt on Saturday of a letter from Manila. Instead of the usual Spanish stamp, there is on the letter a postage stamp bearing the familiar features of U. S. Grant—United States Steamship Co. G. W. Miller received the letter from his Manila correspondent, advising him of a shipment of the Manila, comprising the famous La Perla del Oriente and other brands. They will be here in plenty of time for the holiday trade.

HAMILTON NEWS

WHAT KILLED MRS. HARVEY

Finding of the Jury Regarding Her Sudden Death.

HAD BEEN DEAD FOR DAYS.

And Doctors' Testimony Shows That Apoplexy Was the Cause - The Thanksgiving Concert Postponed - King's Daughters Meet - Salt-Struck on the Mountain - Charges of a Stock Broker - Hamilton News Notes.

Hamilton, Nov. 21.—(Special.)—Little evidence of importance was given at the inquest to-night on the death of Mrs. Elizabeth Harvey, Catharine-street north, who was found dead in bed on Saturday last.

Dr. O'Reilly and Rosebough, who made the post mortem examination, stated that death must have taken place over a week ago, and that it was due to apoplexy.

A verdict in accordance with this testimony was brought in by the jury.

Conservative Club Concert Postponed.

Owing to the alterations in the assembly room of the Conservative Club the Thanksgiving concert has been postponed until next week.

A meeting of the club will be held on Friday evening to arrange a series of games to be held during the winter. It is proposed to play the East against the West.

King's Daughters.

The annual meeting of the King of Cold Water Circle of the King's Daughters was held in the Public Library lecture room this afternoon.

The following officers were elected: President, Mrs. H. S. Brennan; vice-president, Mrs. W. Turnbull and Mrs. T. Watson; secretary, Miss H. Redfield; treasurer, Miss Laura. The Circle has over \$200 on hand.

Struck Salt Now.

Drillers have been at work for gas on the Marshall farm, in the Mountain, and small quantities of gas have been blowing for a few months—enough to illuminate Mr. Marshall's house.

This afternoon, however, the drillers were rewarded by striking gas in such quantity that they have as yet been unable to get it under pressure.

It came in a flow of salt water, and the water is being thrown up in a distance of over 80 feet. As it falls it coats the engine and boiler with salt crystals. The salt is in the article, and Mr. Marshall may have it bonanza in salt as well as gas.

DEATH OF MRS. GEORGE FLINT

At the Residence of Her Son-in-Law, Mr. Campbell, of Rose-Ave.

Mrs. George Flint, an old and beloved resident of the northeast end of the city, died on Sunday night at her late residence, 88 Rose-avenue. Mrs. Flint, who was 73 years old, had only been confined for her bed for a few days.

The funeral of Mrs. Flint will be held at 10 o'clock on Monday morning at the residence of her son-in-law, Mr. Campbell, of Rose-avenue. The funeral will be conducted by Rev. F. H. DuVerne.

The Public School Board held a special meeting in the Town Hall to-night, and from the opening until after 10 o'clock, discussed the advisability of re-engaging Mr. McNamara as teacher of Swansea school.

Mr. Smith of Swansea appeared before the board, and opposed the re-engagement of Mr. McNamara. Trustee Smith also stated that complaints had been made to him, and the names of rate-payers were cited by other members of the board, who were opposed to the re-engagement.

VICTORIA-SQUARE SCHEME.

The Proposition Now Taken Up With the Right Sort of "Go."

MAKING CONVERTS DAILY.

City Solicitor Permits His Personal Views of Etiquette to Stand in the Way of the Citizens' Interests—That Vestibule Suit—Voice of Labor Not to Be Represented on the Industrial Exhibition Board—Red Tape Rules in the Way—General City Hall Gossip.

The Victoria-square proposition is reviving to a vigor it never knew before. It is making converts daily. Of these perhaps the most notable has been ex-Mayor Alexander Manning. Mr. Manning, who has perhaps \$1,000,000 worth of property within a quarter of a mile radius from the corner of King and Yonge-streets, and who is perhaps the most highly assessed man in town, has changed from inveterate hostility to the scheme to the opposite extreme. Petitions with some thousands of signatures were presented to Council at last meeting by Ald. Leslie, the new parks' exponent.

The Mayor is in a very thoughtful and convertible mood himself. It took him a long time to see the virtue in market improvement. But he saw it at last. Those who have had his confidential ear say that in a few days, in which time it was promised at yesterday's Board of Control that Victoria-square would come up for settlement, he will see the merit of the new proposition. At any rate Council are ready to promise for the thing, so that an old issue has risen from its own ashes and will be heard of between now and election time.

Architect Sheard's Report This Week. Meantime Architect Sheard is expected to have his revision of the Dominion-Sydney estimates and plans for the remodeling of St. Lawrence Market completed last week. He has so promised, and in the ordinary sequence of events the by-law will be ready for next Monday's Council. If not it will be necessary to call a special meeting in order to begin the advertising before Dec. 10.

Is the Solicitor Easily Jolted? The Solicitor's Department is engaging the thoughts of some of the aldermen just now. This particular matter applies to Ald. Bowman. There is a strong suspicion in the mind of the latter that the city's legal representatives are rather easily jolted by opposing counsel. Ald. Bowman, after various efforts, got a motion through Council which called upon the Street Railway to put vestibules on the cars. The agreement plainly read that they could be so compelled. The City Solicitor, in taking the action of the Police Court, was hindered by an application from the company for a prohibition preventing Police Magistrate Denison from trying the case. Last week Mr. Justice Kay, after refusing the prohibition, and thereby confirming the jurisdiction of the Police Magistrate to try the case. It came up in the Police Court on Friday, but Ald. Bowman and the Mayor were surprised to learn from Saturday morning's papers that the city's legal adviser had concentrated his attention for a week, because of a promised appeal by the company against the judgment of the Police Magistrate.

Extreme Professional Courtesy. There was not then nor is there now any legal reason why the case should not be pushed, and it is understood that the Magistrate was willing to hear it there and then. Bowman, equipping on Saturday as to why the case had not been proceeded with, was noticed to learn from City Solicitor that he was delaying to wait for a notice of appeal from Mr. Bicknell, the city's solicitor.

Why did you anticipate a notice of appeal in this way? asked the alderman. He was told that it was done out of courtesy to Mr. Bicknell, who had then taken up his hands, in the shape of his client's appeal against arrest, and was unable to handle another brief.

Bowman Vents His Wrath. Ald. Bowman could not understand this little display of professional etiquette, and told Mr. Caswell so. When he came away he relieved his perturbed mind to the world.

"Fancy," said he, "the city's legal advisers facilitating an appeal against assessment. Supposing he had private property instead of a job, how long would he stand for a job of that kind? Or supposing the conditions had been reversed, would a corporate body have extended the same courtesy to the city? This thing must be settled at next Friday's court. We don't want to have the company jolting us along on this thing until spring, when the agreement will cease to apply until next August. But at the present rate that's what it means."

It was only yesterday that the notice of the company's appeal reached the city's hands. Even now the city's legal adviser, well, the company may be proceeding with the hearing of the appeal. If the appeal does result in a reversal of the judgment, the dues, if any are indicated, could be refunded.

Union Men Fall Again. The Parks and Amusement Committee yesterday afternoon, after wrangling for a couple of hours, sent back to the Board of Control the drafted conditions of the new lease to the Exhibition Association, practically with no amendments to the recommendation sent back to them from the Board of Control. A feature of the discussion, though the shortest part of it, was the rejection of a motion by Ald. Woods relating a clause to guarantee membership on the association to one member of the Trades and Labor Council and one of the Federated Council of Building Trades. Ald. Leslie headed the opposition to it, basing it on the clause in the charter which provides that new organizations may be affiliated with the association only by vote of the association. Ald. Woods stuck out to have recognition of the unions on the conditions of lease renewal, but his motion was lost on the following division:

Yeas—Ald. Leslie, Lynd, Sheppard, Davies and Crane—5. Nays—Ald. Woods, 1. Chairman of the Offender. But clause 3 was the scene of a long drawn-out battle between Ald. Sheppard and Leslie. It reads thus: "That the association hand over to the city on Feb. 28 next all the money in its possession, to be applied to the incurrence of the debt which shall be retained by the association, as required by its charter, and kept on hand for exhibition purposes."

Two Ways of Giving \$100,000. Ald. Sheppard contented that, according to Manager Hill, there was only a bank deposit of \$23,000 to meet an accumulated overdraft of \$20,000, there was \$10,000 for the association to retain. There was instead a deficit in cash of \$7000. The surplus of \$131,000 assets in buildings, etc., over and above the mortgage of \$88,000, held by the Canada Life Assurance Company, was not considered in the discussion, which involved only cash. Ald. Sheppard, therefore, considered the business methods to be to pay off the \$7000 deficit and give the association \$10,000 in cash. Ald. Leslie, on the other hand, objected to having to leave this for the estimates. He did not want to leave the association stranded and penniless until next estimate. He wanted to allow the association to retain \$10,000 of the surplus of \$23,000 left by last year's show, to devote the \$13,000 remaining to pay off part of the \$20,000 overdraft, and to wait for events to meet the other \$17,000.

Death in the Air.

The chief cause of consumption is the poisonous matter exhaled by the lungs. The breath of the patient, nor in the exhalations or excretions from the body, except when the bowels have become affected, is the source of the disease. It may be found in the stools. Consumption is in the air, and its deadly germs find lodgment in the membranes of the throat and lungs. This explains why consumption is associated with coughs, colds and sore throat.

James Crowell, of Plainsville, P. E., proprietor of the Shiloh remedy, the two brothers were taken down with bronchitis and inflammation of the lungs, and doctors seemed to be of no use. We were induced to try Shiloh's Cough and Consumption Cure, and found that it gave immediate relief, curing them within a very short time. Shiloh's Consumption Cure is sold by all druggists on a guarantee that the purchase money will be refunded in case of failure. 25c, 50c, and \$1 a bottle in Canada and the United States. In England, 1s. 2d., 2s. 3d. and 4s. 6d.

But the relaxation of the afternoon came with the application for a rebate of the \$25 license fee. The City Treasurer, Mr. J. E. Davenport, who held forth at 10 cents admission at 98 Yonge-street. His appeal was made through "Bro." E. C. Davenport of City Treasurer Condy's department. Mr. Davenport forwarded a letter, couched in part as follows: 957 Ellicott-square, Buffalo, N. Y.

Bro. E. C. Davenport: Dear Sir—Trusting that you are well, and that the good Lord is keeping you and ward every day and yours. I write this to ask what disposition His Honor the Mayor made of my petition in regard to the refunding of the license fee. The money (\$25) that we paid to conduct our anti-gambing crusade in your city.

Mr. Davenport wrote me that if a refund were contemplated, it could be sent to 10 Court-street. But the sending of this address proved quite unnecessary for Ald. Burns voted the sentiment when he remarked, "I thought the churches were exempted to keep down gambling."

Next the Board was crossed by a book agent, who implored them to spend \$40 for the five volumes of the new work "Columbia: An Encyclopedia of the Coast," published by the Rev. J. C. Castelli, Hopkins, "contributed by the best known authorities," and prefaced by Lord Aberdeen, Sir Wilfrid Laurier, Sir Charles Tupper, Sir Samuel Strong and Sir Alex. Leacock. Ald. Leslie thought it would look nice in the Mayor's reception room and the Mayor's office. The Board was not settled about going into the reference library business, and the Board will pass awhile.

Mr. J. E. Davenport offered to be Toronto's agent at the Falls for his office, about \$600 a year. The Board will think, but seemed to favor waiting until next year.

City Hall Notes. The Assessment Commissioner's official statement respecting the assessment on the vineyard tract, fixing the assessment on the chosen lot at the corner of Front and Spadina, at \$8500, and on the other lot, \$10,000, for 10 years, was presented to yesterday's meeting of the Board of Control. The Mayor has written to Lady Minto, inviting them to become guests of the Council, and to stay here from Dec. 14 to 16.

Mr. H. E. Crawford of Montreal, commissioner for the Greater Britain Exhibition, is in the city furthering the interests of that enterprise. The Greater Britain Exhibition, which is to come of next year, will be the fifth and most important of a series of similar exhibitions which have been held at Earlscourt, London, under the present management. It will afford to all the British colonies and dependencies an opportunity of bringing their arts, manufactures, products and inventions before the public of the United Kingdom and the world in general.

A Nova Scotia Murder Case. Weymouth, N. S., Nov. 21.—The body of Samuel Burns, aged 33, was found in a swamp near his home this morning, and foul play is suspected. An investigation is being commenced. Deceased leaves a widow and three children.

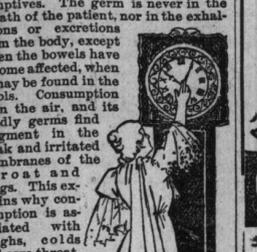

A Call From Vancouver. Rev. E. F. Scott, pastor of the Paul's Methodist Church, Vancouver, B. C., Dr. Eby, the present pastor, will come to all those who are interested in the Ontario and Join the Toronto Conference.

A BRAVE SOLDIER Tells How He Contracted Rheumatism on Service. His Sufferings Were Terrible and He Could Get No Relief Till He Began Using Dodd's Kidney Pills—Then His Cure Came Quickly.

Windsor, Nov. 21.—"I have suffered for many years from chronic rheumatism," writes Mr. F. G. Fenton of this city. "I have seen active military service on different occasions, in different climates, and the hardships I have borne soured the seeds of the disease in my system, and nourished it, till it had me completely in its grasp. I went through the Northwest campaign, 1885, and after my return home I thought I would never be of use again. "My sufferings were past the power of words to describe. Every joint was a furnace of fiery burning pain. Every movement seemed to tear my flesh asunder. I used remedial drugs, but with all my pains, I was unable to get any relief. "Finally, thank God, I was advised to use Dodd's Kidney Pills, I did so, and the result is told in three words—they cured me. "I have served in the 33rd (British) Regiment, through an eye and a leg, and I am now a private in the 2nd (Queen's) B. C. I. and my comrades in the latter corps can vouch for the truth of these statements. "Mr. Fenton is a man who has earned an honorable record in the service of his Queen and country. He knows whereof he speaks, and his word cannot be doubted. Dodd's Kidney Pills are sold by all druggists at 50c a box, six boxes \$2.50, or sent on receipt of price, by The Dodd's Medicine Company, Limited, Toronto, Ont.

Will Meet His Accuser. A. Macdonald has received a letter from H. S. Jenanyan, saying that he is obliged to leave the city for a short time, but will return and will be quite willing to meet his accuser before a committee of Christian gentlemen and answer all charges preferred against him.

Black Pearls and dark teas are two precious things that come from Ceylon. But all the black pearls and dark teas that come from Ceylon are not alike in perfection. Just as much difference between Monsoon Tea and other Ceylon teas as there is between perfect and faulty Ceylon pearls.

TRANSPORTATION NEWS.

Commercial Travelers Ask for a Better Train Service Between Brockville and Ottawa. Superintendent Tait of the C. P. R., who came up to the city on Saturday from Montreal, returned yesterday.

Superintendent Tait of the C. P. R., who came up to the city on Saturday from Montreal, returned yesterday. He is the only superintendent of the Ontario Division of the Dominion Express Company, who has been on a tour through the Eastern States for the last few months, on business and pleasure, returned to his duties yesterday.

Mr. J. Hardwell, division freight agent of the Intercolonial at Montreal, arrived in the city yesterday for a short visit. Mr. F. P. Belcher, who for a number of years was agent for the Northern Pacific, with his headquarters at Toronto, and during the past summer was connected with the Georgia Bay and Lake Superior Steamship Company, with headquarters at Winnipeg, as general agent, will be with the Northern Pacific again this winter. Mr. Belcher will remain at Winnipeg and act in the capacity of agent.

The Canadian Pacific elevator at Owen Sound counts at present 800,000 bushels of western wheat, and 600,000 bushels more afloat, including 800,000 bushels awaiting shipment on the docks. The company are desirous of a faster service from Brockville to Ottawa, and this season is the biggest that the C. P. R. has ever experienced in the way of shipments of grain.

During the past week the Grand Trunk has sent east 25 trainloads of freight every day, which shows to a great extent the busy season that is at hand. Each train consists of 25 cars, and they were heavily laden with general merchandise.

Brookville and Ottawa. A deputation of the travelers of Eastern Ontario will visit the officials of the Canadian Pacific in regard to the present train service on the Brockville-Ottawa branch of the road. The interested parties want a faster service from Brockville to Ottawa, which they say is at present too slow, and will ask for a revision of the time-table.

The remains of the late John Palmer Johnson, who passed away on Saturday at the residence of his brother, on Phoebe-street, were removed to the Union Station yesterday morning by undertaker W. K. Murphy. The deceased lived at Midland and, while visiting in Toronto, died suddenly of a heart attack on the Grand Trunk 8:05 train and taken back to his home for burial.

The Canadian Pacific is already making arrangements for the Christmas traffic. Cheap rates will be announced from Manitoba and Northwest points to all places in Canada.

Ticket Agents Will Meet. The freight agents of the Grand Trunk will hold a meeting in Montreal to-day. Questions pertaining to freight matters will be discussed and everything put in readiness before the general monthly session.

The Railway and Transportation Committee of the Board of Trade has called, in going for to-morrow afternoon. A report on freight rates in connection with Toronto will be drawn up for discussion.

Work was resumed yesterday by the local officials of the Dominion Express Company that their superintendent, Ronald Stewart of St. Paul, had resigned to take a similar position with the Great Northern Express Company. He will be succeeded by Mr. S. A. Davis, who is at present connected with the American Express Company at St. Paul. The members of the Railroad Y. M. C. A. were tendered a tea last night by the ladies on the occasion of the monthly meeting. About 20 were present, and the evening was occupied by Col. Nelles. The reports were presented, which showed that the membership was steadily increasing, and that a large number of new facilities had been added to the departments of the institution.

THINGS BUSY AT ROSSLAND

Toronto Men Now Buy a British Columbia Town.

C. F. R. Line to Trail Pushed to Handle the Freight Offered It - Ore Shipments at the Camp - Review of the Mining Operations - Copper Mining on Michipicooton Island - Notes - Mining Exchange.

One sure indication that Rossland is progressing in fact is the fact that the railway running into the town are heavily taxed with the freight they are called upon to handle. The C. F. R.'s narrow gauge line into the camp is said to be almost unequal to the traffic in perishable goods being rushed in, while freight that comes under the ordinary classes is being moved only slowly. This has delayed to some extent the delivery of the War Eagle's new machinery at the mine, and as a result some of the Eagle Company some time ago offered the C. F. R. 300 tons of ore per day for delivery to the trail smelter, but so far the road has not been able to handle much over 200 tons daily. The broadening of the gauge is being pushed, and when this work is completed the line will be in better shape to meet the increasing demands upon it.

Toronto Men Buy Grand Forks. The rumor is quite true that Toronto syndicate has closed the deal to purchase the townsite of Grand Forks in the Boundary country, British Columbia. Already two or three of our leading banks are arranging to start branches in this town. An English syndicate have, it is said, agreed to erect a large smelter at this point in order to treat the ores of the Boundary country. By Jan. 1 a daily newspaper will be published at Grand Forks, as arrangements have been made to purchase a plant and start publication.

A number of professional men from Toronto have already decided to leave Toronto in the course of a few weeks and begin life anew in this central point in the Boundary country. It is estimated by the most prominent mining men that some of the camps in the neighborhood of this town will be as important as Rossland in the future. The Canadian Pacific Railway Company has secured a large interest in the townsite and will make it one of its leading points in the Kootenay country. It is situated in a beautiful valley six miles wide, where all varieties of fruit can be grown successfully, and will furnish supplies of fruit and vegetables for the miners of the various camps.

Prominent mining men say that the Boundary country is one-half of British Columbia and that Grand Forks will be its leading centre. It is stated that this is the most important real estate deal that has been closed in British Columbia since the starting of the city of Vancouver. With Grand Forks in the hands of Toronto men this city should have a good share of what the Boundary country can yield.

Development at Rossland.
 The development of the Iron Mask. The Rossland Miner observes: The superintendent of the property, Sam W. Hall, is carrying on most of the development of the mine at the west end of the property in the neighborhood of the ore bodies in dispute between the Iron Mask and the Centre Star. In the west ore body Mr. Hall is sinking a winze, which is now down about 25 feet. The ore at this point is the best that has been encountered in the property. The ledge is the full width of the winze, four feet, and recent assays have developed about \$50. It is the intention to raise the chute thoroughly at

ANOTHER PERMANENT CURE.
THIS TIME OF A
RUNNING SORE.
B. B. B. Cures Mr. D. Burch of Renton, Ont., of a
Bad Sore on the Leg in 1892.
IT HAS NEVER BROKEN OUT SINCE.

Look around you and see if you can find any other remedy with such a record of permanent cures to its credit as Burdock Blood Bitters.

Not a little patching and mending up of the system to last a short time, but a thorough renovation, whereby disease is uprooted completely and health permanently restored.

Take the case of Chronic Sores of all kinds, which everyone knows are hard to heal with ordinary remedies.

To make a thorough and permanent cure the blood must be cleansed so that pure nutritious blood shall be supplied to the affected part, and supplant the decaying tissues with healthy flesh.

Sores or ulcers, no matter how large or how long standing, heal up readily when Burdock Blood Bitters is applied externally and taken internally according to directions.

The statements of Mr. D. Burch of Renton, Ont., given below, prove this, and again establish the claim made for B. B. B. that it is the greatest remedy in existence for not only giving temporary relief, but making permanent cures.

This is the letter written by him, dated February 24th, 1894:

"In the year 1888 I was taken ill with Typhoid Fever. When I had recovered from the fever I got what the doctors called Phlebitis, which left my ankles a very dusky color, and my leg

swollen to the knee all the time until the spring of 1892 when it broke out half way between my knee and the ankle joint.

"I went to the doctors and they prescribed for me but to no effect. I quit taking any medicine for a while when I was persuaded by some friends to try Burdock Blood Bitters.

"I had not much faith that it would do me any good, but after using it for three days I could see that my leg had started to heal up.

"I kept on using the B. B. B. until I had taken five bottles in all, when my leg was healed up completely, and as sound as ever it was. If any one wants more particulars let them write to me enclosing a three-cent stamp for return postage and I will gladly answer them."

(Sgd.) D. Burch.

DEPTH BY MEANS OF THE WINZE. The same chute has been explored above the tunnel level by a raise nearly in line with the present winze. From the raise most of the ore was taken that has been shipped recently, and a machine is still at work there breaking down a very good grade of rock. Shipments from the Iron Mask continue to be made, and the foundation of the new electrical compressor plant is completed, and everything is now ready for the trail smelter, which has been shipped from the factory.

ROSSLAND'S ORE SHIPMENTS.
 Following are the ore shipments from the mines adjacent to Rossland from Jan. 1 to Nov. 12, 1898:

Tons.	
Le Roi	69,317
War Eagle	1,810
Centre Star	2,057
Poorman	3,298
Iron Mask	433
Velvet	140
Monte Cristo	350
Deer Park	416
Giant	114
Total	112,971

THE TUNNEL. The tunnel is now in somewhat less than 115 feet, and has passed the old shaft about 10 feet. There is no change in the showing, and the face of the workings still shows considerable scattered iron.

Lilly May. Work was recommenced in the shaft, and it is now down about 185 feet en route to the 400-foot level, where crosscutting will be commenced. The shaft is in the ledge, and there is nothing new to report in it beyond the showing. W. J. Harris is superintending the property.

THE BEAR. Drifting to the east is in progress at the 200-foot level in the White Bear. Some mineral is met.

Novelty. The surface cut has exposed the ledge to a depth of 10 feet, and the vein continues to show yellow quartz, impregnated with white iron. The intention of the management is to drive a shaft in the south side of the ledge, which was made parallel with the first crosscut, has shown the trend of the ledge to be northeast by southwest, and its dip is to the northwest.

THE MAIN VERTICAL SHAFT. The main vertical shaft is now down 370 feet, and it will be carried on to the 500-foot level before any crosscutting is done. Superintendent McPherson is making excellent progress in driving the shaft. It has been sunk from the 300-foot level in about a month, and is timbered all the way down. The property is now employing 40 men. All work is now being concentrated in the shaft.

SUNSET NO. 2. The long crosscut at the 300-foot level is being continued, and satisfactory progress is reported. There is no change in the showing, and nothing as yet in the way of a change in the showing. About 14 men are at work.

A DISCLAIMER.
 Editor World: Kindly let it be known through the medium of your mining news, that I have not employed, neither do I intend employing, anyone to act as my agent in the sale of any mining stocks here in Toronto. Certain statements having been made in this connection, I must state this matter in order to clear myself from any liability on my behalf, or in connection with any mining deal, or in the offering of any shares, be it so entirely without my concurrence, and in direct opposition to my way of doing business.

F. W. L. Foster, 42 St. George Street, Toronto.

understand that in so far as he is concerned, our business relations are at an end—and that if any broker has wired out certain stocks to investors through him, it will not be delivered.

Gold in Quebec Province.
 The World is in receipt of a copy of the annual report of the Department of Colonization and Mines of the Province of Quebec, on the production of gold in that part of Canada.

Michipicooton Island Copper.
 The Sault Ste. Marie Star says: "The steamer Telegram left early on Wednesday morning with a heavy load of supplies and a number of miners in charge of Michipicooton Island. About 80 men will be employed during the winter opening up the old copper mine on the island, the property of Joseph Cosens of this town. Mr. Leopold of Chicago, Rockefeller, Flager and other prominent directors of the Standard Oil Company have taken a large interest in the property. These gentlemen are heavily interested in the copper mines of the south shore of the St. Lawrence, and Michipicooton Island, if this venture proves a success, means an enormous development, as millions are behind these gentlemen."

SHOWED THEIR FAITH.
 Directors of the Dundee Copper Mining Company purchased \$10,000 worth of shares.

A meeting of the Dundee Gold Mining Company was held on Saturday evening for the purpose of devising ways and means for paying for the aerial tramway, the concentrator and hoisting and drilling plant. The shares of the Dundee Copper Mining Company have been placed principally in the London market and, owing to the dullness there at present, it was deemed inexpedient to place the treasury on sale there. It was decided that each should take shares at the prevailing market price to the extent of \$2000 each. There are eight directors and this will give the company \$16,000. With this sum it is calculated that the plant can be paid for and the mine placed on a paying basis. The directors are: W. H. Gallinger, Charles Dundee, Ernest Kennedy, J. L. Parker, C. F. Conyne, N. D. Barclay, Donald Kennedy and Col. Hoberk.
