

PROTESTANTS' LEAD INCREASES

Providence Beaten in Sunday's Contest By Barrow's Men, With Briggs as Slab Artist.

JERSEY CITY WHITEWASHED BUFFALO

Montreal and Worcester Broken Even on Saturday and Rochester Beat Newark.

Providence's victory at Providence and Buffalo's triumph at Jersey City on Saturday give the coming champions a large gain of points on the day, and as the close of the season approaches the obstacle from the region of Canal-street seems to fade away.

The Jersey city team easily defeated the Buffalo nine on Saturday, having the game to hand from the opening innings, when they made three earned runs. They decisively outplayed and outpitched the Blues, who were unable to solve Worcester's pitching.

Montreal and Worcester split even in a double-header, while Rochester won at Newark. Only two games were played on Saturday.

Providence took another game from Providence. By her win the gap widened, as Buffalo again lost to Jersey City, Manager Stallings' outfit receiving a most complete thrashing administered in a telling way. The record:

AMATEUR GAMES ON SATURDAY.

Helmtmann and the Park Nine Shut Out Their Opponents.

Two good games were pulled off at the old U.C.C. grounds on Saturday afternoon. Both were well contested and fast ball was the order of the day.

Table with columns: Club, Won, Lost, Per. Cent. for Helmtmann, Park Nine, and other amateur teams.

Helmtmann's team defeated the Park Nine 10 to 0. The features were the pitching of Helmtmann, who was well supported by his team.

THE POSITION OF NEWFOUNDLAND. The South African war settled for all time the integrity of the British empire.

But even leaving politics out of the question, the South African war, which ever it extends in all parts of the world, must be respected.

"Hands off the British Empire" was the message which the sons of Britain gathered from every corner of the earth and mustered in the array on the verdant-thundered forth to the name.

Despite the report that Premier Bond of Newfoundland has chosen closer trade relations with the United States in preference to political federation with Canada, we may assert right here that the American Republic will not be permitted to get any hold on the ancient colony.

Newfoundland, as the key of the St. Lawrence, is especially important to the Canadian portion of the empire, and must not be allowed to drift into league with the alien.

But even leaving politics out of the question, Premier Bond makes a mistake if he thinks he can obtain any trade advantages from the United States.

Uncle Sam never makes a deal unless he secures by far the bigger end of the bargain, and Newfoundland will get the worst of it if she does business with him.

The long and short of it is that Newfoundland must be prevailed upon to come into the Canadian federation, and Canada is now big enough and rich enough to offer her sufficiently attractive terms to win her easy consent.

PROSPERITY AND POLITICS. The official announcement from Ottawa that Canada's total foreign trade for the fiscal year 1901-02 totalled \$423,910,444, an increase of \$37,007,287 over that of the preceding year, and an increase of \$184,885,084 over that of 1898.

proves most definitely the leading to the patriotic Canadian. Nor less pleasing is the more detailed information that our total imports for the past year were \$212,270,158, a gain of \$21,854,083 over the year previous, and an excess of \$94,258,050 over 1898; and that our total exports for the past twelve months were valued at \$211,640,288, an excess of \$15,132,054 over the preceding year, and of \$90,620,434 over 1898.

We refuse, however, to follow The Globe in crediting this remarkable trade development to the benevolent influence of a Liberal regime. Canada has under the bounty of Providence shared in an era of prosperity which has been practically world-wide in extent, and if we look for immediate reasons for the fine showing recently recorded we shall find them in the South African war, which absorbed vast quantities of our live stock, foodstuffs and fodder at high prices; in the enormous harvests with which the country has been blessed, and in the accompanying great industrial activity, which latter may be fairly regarded as one of the excellent cumulative results of the National Policy inaugurated and carried out for years by the Liberal-Conservative party.

MOVING THE CROPS. In both Canada and the United States this season of the year regularly witnesses a heavy transfer of money from the financial centres of the east to the grain centres of the west.

As the harvest progresses and the grain starts to move the west calls upon the east for the means of commerce, and this removal of funds has in the past frequently caused a decided financial stringency upon the west.

It is said, however, that, despite the heavy crops to be moved this season no shortage of funds will likely be experienced in the Eastern States. And, as far as Canada is concerned, the Canadian banks have strengthened their position during the past year or two by large additions to their capital. In fact, the Canadian banks feel themselves to be in such a good position that, after providing for Canada, they have already placed several hundred blocks of Canadian funds in the North-western States for crop moving purposes.

TO EXTEND UNITED STATES. The construction of the Isthmian Canal will give the possession of the principal West India Islands by the United States an importance which it did not have a few years ago. In the immediate future the march of American empire is to be southward instead of, as heretofore, westward.—St. Louis Globe-Democrat.

Here is a frank enough declaration of national policy by an influential United States newspaper. The acquisition of the Philippines has only whetted Uncle Sam's appetite, and not altogether Oliver Twist-like he cries for "more!"

The refusal of Congress to grant Cuba reciprocal trade treatment, and the consequent hard times there, may result in the absorption of that island, and thus constitute the first step of "American empire southward." Next in order come the numerous islands belonging to European nations, and we may expect in the next few years some remarkable amplifications of the Monroe doctrine.

RIFLE RANGES DELAY. Editor World: Allow me space to take exception to a paragraph under the heading, "Rifle Ranges closed," in an issue of delay attributed to the government or contractors, or both.

In the first place, neither the government nor myself is responsible for the delay; the contract which I held was completed by Aug. 1, according to contract. It was the exception of placing the new target frames in position. These were to be supplied by the government. The contract was given to a Montreal firm, some portions of the steel having to be imported from England, causing the delay.

With regard to the telephone system, the contract was let only on Wednesday last, Aug. 20, and the installation of 14 "phones" could not possibly be completed by Saturday, and required a few days more to work all day on Saturday in order to have everything in readiness by Tuesday, the day when the completion of this part of the work.

As to one of the mounds being 35 feet short, I may say the mound in question was an old one, and not intended to be used on the new range, till it was found impossible to have the new targets in time for the matches, consequently this old mound had to be used and was discovered on Friday to be too short by 35 feet. This mound was not in my contract at all, and it was only instructed on Friday to have it extended the necessary length.

FAST STEAMSHIP SERVICE

Mr. Hays Thinks Montreal Would Not Be Overlooked as a Terminal.

CONTRADICTS A PRESS REPORT

In the New Project for the Government Should Effectually Safeguard the Country's Interests.

Montreal, Aug. 24.—In the matter of a fast steamship service, I do not think the government would overlook Montreal, where the conditions both as regards freight and passengers are much superior to any other St. Lawrence port, was one of the remarks made today by Charles M. Hays, who has just returned from Great Britain. He declared that the present condition of Grand Trunk affairs gives the greatest satisfaction at home, and don't you think they have good reasons to be satisfied?" asked the general manager.

He said that there were no further Grand Trunk projects on the tapis, except those already known on this side the water, and did not know of any early contemplated change in the existing arrangement.

"I saw in the papers," he said, "that I had been appointed to the position of general manager of the Grand Trunk, and that the newspapers sometimes make mistakes."

Referring to the terminal question, Mr. Hays pointed out that this port had railway facilities, hotel accommodations and other accessories which Quebec possessed only in a relative degree, and which the Ancient Capital might be able to furnish.

He was not inclined to think that the Canadian government would sacrifice Montreal by the Dominion only for a terminus for any steamship proposition that may be organized and established by the Dominion.

As for a 25-knot service across the Atlantic all the year around, Mr. Hays said he would not follow the contract, but could a weekly service compete with three or four fast steamers leaving New York weekly?

The National Regatta. The National Yacht and Skiff Club held a regatta on Saturday last.

Four of the classes—the yachts, special, pleasure, and dingy—were sailed by Mr. Larry Covrage, who is a lover of the water.

They sailed for glory and in the 16-foot class, Shegola got away with a lead. Trial was second, General Breeze third, and the 18-foot class was sailed by Mrs. Murtha.

"I see the name Annie written over your head," she said to Mrs. Murtha, "and I see you are going back to the States."

"Yes," confessed the party addressed. "And I see William. They always called him Willie. Is that correct?"

"Yes, you can," said the medium. "Wait! Wait!" she said as she brushed back her hair and shook her head in front of her face. "No! No! You always called him Billy," persisted Mrs. Murtha, but still had to go back to spiritland disowned by his friend.

The spirit of a little child was successful in finding its mother and mother-in-law. "Mamma, I have come as a star of light to bring you joy." The spirit seemed to make mamma feel bad.

This Came Out Right. Following that of the little child came a woman's spirit. "I see a dentist's chair. Did you sister pass out in a dentist's chair?" asked Mrs. Murtha of one lady.

"Yes," came the answer in a rather startled tone.

It transpired that the lady whose spirit passed out while she was getting her teeth fixed had left a little child, whose spirit is going to join the mother's. "Sister, I have come to bring you greetings. We did not argue about some things, and I have come for forgiveness. I am so happy."

The lady addressed admitted to the medium that she and her sister had not been able to see some things in the same light.

Found the Grand. A man rather inclined to believe in spiritualism had a visit from the spirit of a little child, and was amazed at the correctness with which the medium related circumstances.

"When the coffin was lowered into the grave, did not the rope underneath it nearly fall off?" she asked.

"I can't remember," was the reply. "Who is it you call Jim in your family?"

"I don't know."

"Oh, yes, you do; yes, you do. Had you a grandfather named Jim—Grandpop Jim?"

"No, I had not."

"Had you a child a grandfather named Jim or James?"

"Yes, yes," said the medium excitedly, "and he is in this room and you did not sit together in case the medium should get between you."

Whereat she picked out Grandpop Jim from the audience.

The man's Uncle William was reported to have said that his nephew was getting batty.

There were are just a few of the spirits that came along. In some cases Mrs. Murtha greatly mystified the audience, while in others she had her spirits a little mixed and they did not turn out right. Shortly after 9 o'clock she discontinued her seance.

HAVANA STRIKE SPREADS. Havana, Aug. 23.—Some of the city laborers were sent to the wharves at noon today to await in unloading cement used in connection with public work. On arriving at the wharves they refused to work on account of the strike of dock laborers and others, and marched to the palace, where they were dispersed by the police. The crowd cheered for Spain and for Gen. Weyler.

SCHWAB AND SCHEMTH. Bobbygone Independent; Charles Schwab of the millionaire steel trust, is reported to be off his nut, and is to go to some quiet spot with his doctor. Bill Schmitt, who commenced life some time ago as Schwab, is pegging away at \$50 a day, but Bill is in and "reasons of delay" attributed to the government or contractors, or both.

In the first place, neither the government nor myself is responsible for the delay; the contract which I held was completed by Aug. 1, according to contract. It was the exception of placing the new target frames in position. These were to be supplied by the government. HARVESTING THE MANITOBA CROP

How the Army of Farm Laborers Will Be Sent to Their Destinations.

More important than any other topic at this particular time is the gathering of the anticipated bountiful harvest in Manitoba and the Territories this and next month.

"Please say what arrangements you will have at Winnipeg for sending farm laborers to certain localities where they will be sent to go.

The following is Mr. McKellar's reply, which concisely sums up what the government has done in the way of preparing for the distribution of laborers from the East.

"The question you raise is the one that impressed itself most forcibly upon me last year, in considering any change in our method of distributing harvest hands.

"You will see, therefore, that there is no interference with men who know their destination, and that every assistance possible is to be given by the officials of this department in locating those who may come to assist us for the first time.

It is hoped that the Eastern Canadian press will put this matter in its proper light, so that no one may be deterred from going for it may be readily seen from the above letter that men will be allowed to go to whatever destination they desire, with no interference on the part of those who have no special preference will be assisted in every possible way.

CAUGHT LIKE RATS IN A TRAP

Two Miners in Josie Mine of the Le Roi No. 2, Rossland, Meet Sad Deaths.

TONS OF WATER FALL ON THEM Two Out of Four Escape By Climbing Thru the Deluge.

Rosslund, B.C., Aug. 23.—Charles Hokin and Josiah Lobb were drowned in the Josie Mine of the Le Roi No. 2 group this morning, under circumstances that are rarely paralleled. The two men were at work in the bottom of the Josie shaft, 900 feet below the surface, where they were cutting a continuation of the shaft. In another section of the mine, a disused shaft is located, and this had filled with water until it contained many thousands of gallons. This morning the water broke thru the wall of this section, penetrating thru a seam of talc and greasy clay for a distance of 50 feet into the workings beneath. From the workings immediately beneath the water flowed in a cataract along the 300 foot level to the Josie shaft and dropped 600 feet into the bottom of the Josie shaft, where four men were at work. A shower of boulders was carried down in the cataract, and it is presumed that Hokin and Lobb were stunned before being drowned. Their partners, Hocking and Thomas Strick, climbed the shaft thru the falling water and escaped alive. At 8 o'clock tonight the bodies were recovered. The Josie shaft was filled for 60 feet, and pumping operations were immediately started.

FIRST HARVESTER HURT. Port Arthur, Aug. 24.—The first accident to occur to any of the excursionists going to the West happened to-day east of Schreiber. A man named Martin of Wexford, Huron County, aged 73 years, bound for Winnipeg, is thought to have walked off one of the trains in his sleep. He was picked up by a following train and brought to the hospital here. He is in a critical condition, a number of bones being fractured.

SCALDED TO DEATH. Montreal, Aug. 24.—A fatal accident occurred yesterday at St. Jude's, a parish adjoining St. Hyacinthe, where a young boy, named Bergeron, was playing in a yard, while his mother was engaged in washing in hot water from milk cans. While the children were amusing themselves, one of them, named Joseph Bergeron, was accidentally pushed by his elder brother and fell into the tub of boiling water and was literally boiled alive. Altho promptly relieved by his mother, the child's back was so badly scalded that death resulted the unfortunate child within an hour.

Omaha, Neb., Aug. 23.—At to-day's session of the United Association of Plumbers and Gas Fitters, the salaries were readjusted and the president, secretary, treasurer and grand organizer will each receive a salary of \$1500 a year. J. Prestly of Toronto was made a vice-president.

Tested by Time.—In his justly-celebrated pills, Dr. Parmentier has given to the world one of the most unique medicines offered to the public in late years. Prepared to meet the want for a pill which could be taken without nausea, and that would cure without delay, it has met all requirements in that direction, and it is in general use not only because of these two qualities, but because it is known to possess alternative and curative powers which place it in the front rank of medicines.

Mr. Wales of London, Eng., one of the directors of the Sapphire Conundrum Company, has been in the city for a few days, after a visit to a company's mine in Barwick Township, Peterborough County, Ont. Mr. Stratton placed his yacht at the disposal of Mr. Wales in going to the mine, and he enjoyed the trip very much.

Winnipeg, Aug. 24.—William Mackenzie of the Canadian Northern arrived from the east this morning, coming in over the new line via Fort William. Mr. Mackenzie states that the work of putting the line in first-class condition for hauling this year's crop is progressing, and his road will be able to do their share of the work this fall and winter. In spite of the scarcity of laborers, work on the new extensions is being pushed, and as much of the new road as possible will be ironed this fall.

On Thursday evening at Hotel Hanlan ball room the guests will hold a smoker for their island and other friends. A fine program is being arranged. Mr. H. C. Hammond has kindly consented to preside. A testimonial, in form of an illuminated address, from the residents of the Island will be presented to Mr. L. Solman, manager of the Ferry Company, signed by the Toronto Rowing Club, hotel guests, Toronto Swimming Club, Tecumseh Lacrosse Club, Ward's residents, L.A.A., West End Islanders, and other Island interests, while the Island lacrosse team will give Capt. L. Solman a gold locket. Robert Noble will receive a suitable presentation also. All Island residents are invited to the party.

TRUBLE FOR THE SOO. Danger of Being Told to Go Away Back and Sit Down.

REV. MR. KEAY DEAD. Former Pastor of Parliament-St. Baptist Church Passes Away.

MORGAN WOOD DECLINES. Cleveland, Aug. 24.—Rev. Dr. Morgan Wood, who has announced that he cannot accept proffered Democratic support for Congress in opposition to Congressman Burton, in the pastor of the Plymouth Congregational Church of this city, and a notable admirer of Mr. Johnson's political and economic plans for reform. He was a warm advocate of President McKinley's election, and even preached a sermon in favor of the late President's return to Washington. Dr. Wood is a big man physically, morally and intellectually. He was formerly a pastor in Canada and in Detroit, and it took an offer of \$3000 a year to induce him to come to Cleveland. Now his salary is \$2000. His congregation has overflowed the capacity of the church since his arrival.

AT THE THEATRES. The Grand opens this evening with Murray & Mack's comedians in the latest musical extravaganza, entitled "Shooting the Chutes." The vehicle of amusement is said to be a jolly affair from start to finish.

WHAT WILL SIR GORDON DO? Sprigg is a Reed Shaken By the Wind, But Chamberlain is Behind Him.

AID OF THE DUTCH RACE INVOKED To maintain in South Africa the Principles on Which Canada is Governed.

London, Aug. 24.—The slow drift of events in South Africa has been accelerated by the passing of the Cape parliament. Sir Gordon Sprigg is a reed shaken by the wind, but Mr. Chamberlain is behind him, and the progressives who are opposing him have not ventured to abandon him outright. They have advocated the indefinite suspension of the constitutional government of Cape Colony because they have considered it impracticable for Sir Gordon Sprigg to settle the indemnity claims, to provide for the restoration of social peace and to restore social peace to a distracted colony rent asunder by racial disputes. They have been supported by Lord Milner, but have failed to convince Mr. Chamberlain that responsible self-government is impossible. They have taken up momentarily a neutral attitude under Dr. Jameson's leadership, but evidently expect Sir Gordon Sprigg to resign in consequence of their defection. Sir Gordon Sprigg, in resisting the agitation of the loyalists for the suspension of the constitution, has been driven into the arms of Sir Robert Bond, and Mr. Chamberlain, by the logic of his own despatch on this question, is prohibited from interference in the internal politics of a self-governing state. Mr. Chamberlain and Sir Gordon Sprigg have virtually invoked the aid of the Dutch race in South Africa to maintain in South Africa the principles on which Canada and Australia are governed. They have also warned those who are constantly invoking the aid of the imperial government that the two militant races in South Africa must unite in the establishment of free institutions. The situation is anomalous, and there is little probability that Sir Gordon Sprigg can carry out the work which he has undertaken, nor is it clear that any successor can appeal with commanding influence to the patriotism and loyalty of the Dutch and English races.

EMANCIPATE CATHOLICISM. London, Aug. 25.—In a despatch from Rome the correspondent of the Daily Chronicle says, the Right Rev. Benjamin J. Kelley, bishop of Savannah, Ga., had an audience with the Pope prior to visiting other Italian cities, and took advantage of the occasion to urge upon the Pontiff the wishes of a large number of American bishops for the emancipation of American Catholicism from the jurisdiction of the Congregation of Propaganda, Rome, on the ground that the congregation was only intended to supervise religious affairs in infidel regions.

COAL STRIKE SITUATION. New York, Aug. 24.—The Journal says: Not since the civil war has this country faced a more serious situation than that brought about by the coal strike. The failure of the mines to produce coal, combined with the high price of meat, means a famine in New York this winter among the large proportion of the population who depend upon the coal for their daily sustenance. The possibilities of suffering are appalling, and from one end of the country to the other the cry goes up that the strike must be ended at once.

BARON DE STAAL TO QUIT. London, Aug. 24.—The Daily Telegraph this morning says it has heard of the impending retirement of Baron De Staal, Russian Ambassador to Great Britain, and that his successor will probably be Count Beckendorff, the present Russian Minister to Denmark.

To Those of Sedentary Occupation.—Men who follow sedentary occupations, which deprive them of fresh air and exercise, are more prone to disorders of the liver and kidneys than those who lead active outdoor lives. The former will find in Parmentier's Vegetable Pills a restorative which cures the most obstinate cases of indigestion, and they are surprisingly cheap, considering their excellence.

Fatal Trolley Accident. Norfolk, Va., Aug. 23.—A head-on collision between two cars in the Bay Street Terminal Line late in the afternoon, three people were killed and 16 others badly injured.

HAVAGES OF CHOLERA. Manila, Aug. 24.—On the 14th cholera statistics show a total of 23,664 cases and 18,040 deaths.

SOUTHERN RUSSIA'S YAST CROPS. London, Aug. 24.—"The crops of Southern Russia," cables the Odessa correspondent of The Standard, "show the largest yield of the last ten years."

THE SITUATION IN SALT. The tone of the salt market is firm and prices seem to have settled on a good solid basis. Jobbers and handlers of the article generally throughout the summer have been hampered by the tardiness of the manufacturers in making deliveries to the wells. The producers seem to have made an agreement amongst themselves to curtail the output until the reserves are exhausted. It is believed that the foreign article obtaining a hold on the markets of Canada. But, in no case is it in favor of the tastes of Canadians.

MATERIAL FOR RUSSIAN SHIPS. St. Petersburg, Aug. 24.—A decree of the Minister of Marine was gazetted to-day, requiring the exclusive use of materials of Russian origin in the construction of all Russian ships, with the exception of vessels built abroad. The decree may be modified in the case of ships which are to ply in foreign waters.

Wilkes-Barre, Pa., Aug. 24.—The Public Alliance of this city, which waited on Senators Quay and Penrose at Atlantic City last week and urged their good offices to bring about arbitration in the coal strike, performed a like mission in this city to-day, when they called on President Mitchell and requested him to co-operate with the Pennsylvania Senators in bringing about a settlement of the strike. Mr. Mitchell said he would do anything that was honorable to bring about an adjustment, and he furnished the committee with the statistics of the strike from the miners' point of view, which were forwarded to Senator Quay to-night.

PERHAPS TO SEE MORGAN. Hazleton, Pa., Aug. 24.—D. J. McCarthy, chairman, and Matthew Long and Harry Silverman, members of the Executive Committee of the People's Alliance of Hazleton, went to New York to-day to endeavor to put into operation some plan looking to a termination of the strike.

ROOSEVELT CALLED ON. New York, Aug. 24.—President Roosevelt will be called to call the session of Congress to take action to end the coal strike. This was decided at a meeting of the Executive Committee of the Union, representing 250,000 workmen.

STATE TO BUY COAL MINES. Rochester, Aug. 24.—Leonard Henkle of Rochester has a scheme which he is going to Harrisburg to-day to lay before Governor Stone, relative to the settlement of the coal miners' strike. He proposes that the State shall interfere and in time shall acquire the mines, paying for the property a price determined by a commission.

BRAVE ARTHUR NOBLE. Arthur Noble, son of Deputy Chief Noble of the Toronto fire brigade, on July 23 last rescued a young son of William Fair of Oakville while bathing in Sixteen Mile Creek near Oakville.

WITH HIS FAMILY GO. Maharajah of Jaipur Departs From England for His Home.

London, Aug. 24.—The departure of the Maharajah of Jaipur, the most important guest from India at the coronation, was an event redundant with odd and peculiar circumstances. The baggage of the Maharajah was divided into two classes, sacred and secular. The sacred articles were carried in a palanquin, and the secular articles were carried in a motor car. The Maharajah himself was accompanied by a personal escort. Other articles in the religious collection were carried in a motor car, and only a few of the members are empowered with the authority to touch these articles.

KING'S WAR MEDAL. London, Aug. 24.—The design for the second South African war decoration has been approved by the King. It will bear on one side the effigy of His Majesty. The medal will have two bars—one inscribed 1900-1901, the other 1901-1902. Service throughout the whole campaign will entitle men to both bars.

NARROW ROYAL ACADEMY. Philosophical Association, Without Herbert Spencer, Philosopher.

London, Aug. 24.—The establishment of the British Academy is the chief literary event of the past week. It starts with 40 members, who are identified with historical, philosophical and philological studies; but poetry, fiction and belles lettres are excluded from representation. It is a sectional philosophical academy, with Herbert Spencer, the great English philosopher, left out, and not an academy of letters for men like Swinburne, Hardy, Kipling, Meredith, Dobson and Hewlett are not included. If the academy had been formed on similar lines at the opening of the Victorian reign, Macaulay, Gladstone, Freeman and Froude would have been numbered among the immortals, but Wordsworth, Thackeray, Dickens, Ruskin, Austen, Tennyson, Browning and Carlyle would have been shut out. The utility of an academy organized on so narrow a basis is questionable.

COTTON ALONG THE NILE. London, Aug. 24.—Major Count Gleichen, secretary to the ruler of the Egyptian forces, Major-General Wingate, addressing the British Cotton Growers' Association at Manchester recently, said that experiments made on the banks of the Nile show that the quality of the cotton grown there is equal to any in the world.

Fairweather 2.00 Goes a Long Way

Dominion Organ and Piano Company and Employes Hold Satisfactory Conference.

RAILWAY TRACKMEN ORGANIZING Two Hundred and Fifty of Them Have Lately Joined the Newly Formed Unions.

The strikers in the Dominion Piano and Organ Company's works, Bowmanville, on Saturday held a demonstration which was participated in by a large number. A parade was formed at the strikers' headquarters on King street, and proceeded toward the main street of the town to the Fair grounds. At the grounds a baseball game was played between the strikers and a team from the R. S. Williams & Sons' Company of Oshawa. The game resulted in a victory for the team of the strikers. Speeches were made by Samuel Moore of this city, international organizer, who is conducting the strike, and E. Welsh, president of the strikers' union at Bowmanville. The Bowmanville Brass Band furnished music for the occasion. On Saturday evening a meeting of the strikers held a conference with officials of the firm, with the result that a satisfactory settlement may soon be effected.
