### The Kind of Settlers Canada Can Get

MONTREAL, April 4.—(Special.)—According to a despatch to the Grand Trunk offices here, 33 cars of settlers' effects arrived at Scott, Sask., today, from points in the United States, and a second train of 22 cars will arrive to-morrow.

They represent the effects of 610 settlers, who have, in cash and personal property, in their possession an average of \$10,000 each. They are going to the Tramping Lake district, south of Scott, on the G. T. P. Railway.

### NO COMPETITION FOR ONTARIO POWER LINE

Laurier Declares That Reason for Opposition's Fight Against St. Lawrence Company's Bill is "Out at Last."

OTTAWA, April 4.—(Special.)—Sir Wilfrid Laurier made a discovery to-night, he affirmed at 11:30 p.m., in addressing the evening's debate on the bill of the St. Lawrence Power Transmission Co. This is the bill which caused the all night session of parliament three weeks ago.

Major Sharpe (N. Ontario) had pointed out that no board of trade or public body of any weight had supported the bill—rather they opposed it. Besides, the lines of transmission which were proposed to charter would duplicate the Ontario government's hydro-electric line.

Thereupon, Sir Wilfrid Laurier, in a two minute speech declared that a cat was out of the bag. He had been wondering, with others, the real reason for the determined opposition to the bill, and Major Sharpe had revealed it. It was simply that the members did not want any competition with the hydro-electric. The hydro-electric was built to compete with other lines, but the opposition did not want this line, that competed with other lines, to have competition.

"I am glad that people now know the real reason for this opposition," he concluded.

Pardee Fights Delay.  
When the deputy speaker read over the first clause of the bill this evening, Col. Sam Hughes asked that the bill stand over for a week to allow further study. F. F. Pardee, chief Liberal whip, and sponsor for the bill, said he saw no need of delay, but Col. Hughes insisted that there were developments since the notice had been given by Mr. Pardee of an amendment to the bill.

Richard Blain of Peel asked the premier if there had been any correspondence with the Ontario Government on this bill.  
The premier answered that there was not, so far as he knew. He denied that the government had any connection with the bill, and was quite indifferent as to its fate. For his part, he quite shared the apprehension which was entertained by the public, but it came into this bill, that in some way or other the object of the promoters was to take a step forward in the legislation which was adopted years ago in regard to the damming of the St. Lawrence. He had no hesitation in saying that such a scheme would not agree to such a scheme at present.

When the present bill was introduced there were perhaps features which might have led to the conclusion that there was something ominous behind it. However, he thought that it had been born of all possible mischief, and that it might safely pass the house.

Dr. Reed of Grenville saw no great rush for the bill now. The only thing, he pointed out, was that there was to be a meeting to be held in Prescott and Brockville to supply the bill now.

Mr. Graham supported it.  
Hon. George E. Foster supported the bill, if it had anything to do with a dam, he would hesitate in supporting it, he said, but the bill had nothing to do with the damming of the St. Lawrence.

Dr. Spruille: Did they ever ask for power from the hydro-electric commission?  
Mr. Graham: Yes. They asked for bread and got a stone.

J. G. Turriff (Assiniboia) said he was not still sure there was not a nigger in the fence.  
R. L. Borden moved the following amendment: "That the governor in council shall not give his approval to the construction of any further canals, watercourses, raceways, dams, wing dams, sluices, locks or other works on the River St. Lawrence to the St. Lawrence Power Co., Limited, until the plans thereof shall have been first submitted and approved by parliament."

W. B. Northrup asked why the St. Lawrence Power Co. should not transmit its own electricity. He pointed out that in 1901, when the auditor-general objected to payments in connection with that bill, and took legal advice, Mr. Aylesworth supported him.

Emmerson Won Over.  
W. S. Middlebro (North Grey) contended the bill as nothing more than a measure to supplement the powers of the bill of 1901.  
Hon. Mr. Emmerson thought the objections to the original bill were pretty well removed by the amendment.

The bill will be taken up again tomorrow evening for an hour.  
The house met at 11 o'clock this morning and proceeded without delay to take up private bills. The Restigouche-Boom Co.'s bill, the New Brunswick enterprise, was put thru after some discussion, as were the Northern Empire Railway Co. bill, and the Ottawa, Brockville and St. Lawrence Railway Co. bill.

**ROOSEVELT HELPS BRIAND**  
Incident in Rome Will Play Part in French Election.  
PARIS, April 4.—(Special.)—Nowhere in Europe has the failure of the Pope to grant an audience to Mr. Roosevelt created greater interest than in France on account of the long separation fight, and it is expected to prove a strong card for the government in the coming election, as supporting the contention of M. Briand, the premier, that the recent agitation of the French episcopate was inspired by the present transparent and intolerant attitude of the Vatican.

POLITICAL FISHERMAN: I've been striking snags ever since I've been in the blame place.

### WOMAN IS SUFFOCATED IN A BLAZE AMONG RAGS

Conflagration in Rag Shop on West Adelaide Street Costs Life of Mrs. A. Barker—Fireman Overcome by Smoke.

Lying lifeless between two paper presses in a corner of the burning rag shop of E. Pullan at West Adelaide and Maude-streets, the body of Mrs. A. Barker, 177 West Richmond-street, a paper sorter, was found where she had succumbed to suffocation yesterday afternoon. She was taken to the morgue.

When the first alarm of fire was given, Mrs. Barker, Miss Irwin and Mrs. Miller were working in the rear of the shop, directly above the place where the fire is supposed to have started. They hurried to the stairs, as did twenty men who were also working on the same floor. Just as the two women ran down Mrs. Barker exclaimed she had left her coat and some clothes behind. She turned to go back for them and was never again seen alive.

It is thought that she became confused by the dense smoke, which quickly filled the building, for, although the stairs were within a few feet of the hole in the floor used to feed the paper presses and fell thru onto the press in the next story.

Found Between Presses.  
From there the unfortunate woman rolled to the floor, and lay between two presses until discovered some fifteen minutes later. The firemen did not receive any word of their being any one in the place until they had been working at the fire for about six or seven minutes. The first intimation

### G. T. BLACKSTOCK ILL

Unable to Act as Prosecutor at North Bay Assizes.

NORTH BAY, Ont., April 4.—(Special.)—George Tate Blackstock, K.C., the eminent Toronto lawyer, who was assigned as crown prosecutor at North Bay assizes, opening to-day, was taken suddenly ill this morning and is confined to his room in the Pacific Hotel. He will not be able to act, and the department has appointed his partner, H. E. Rose, K.C., to act.

### SIR JAMES DENIES RUMOR

"I can't waste my time and that of the reporters in contradicting all the ridiculous rumors afloat," remarked Sir James Whitney yesterday in regard to the story that Hon. J. F. Foy was to retire and be succeeded in the attorney-generalship by Hon. I. B. Lucas.  
"You can rely on the fact that there is no truth in these stories," the premier added.

### HARD LUCK

### MATERS HOLD BOARDS AT THE ROYAL ALEX.

Earl Grey Musical and Dramatic Competition Opens at Alexandra Before Distinguished Audience.

The fourth annual musical and dramatic trophy competition, organized by His Excellency Earl Grey, commenced at the Royal Alexandra Theatre last evening before a distinguished audience, before their Excellencies Earl and Countess Grey, and His Honor, Lieutenant-Governor Gibson, Mrs. Gibson and party.

While the dramatic competition was the chief attraction of the evening, the musical numbers were cordially received. The vice-regal and gubernatorial parties arrived promptly at a quarter past eight, and on the conclusion of the National Anthem the curtain went up. Out of respect for the competitive nature of the program this week The World will refrain from expressing any criticism upon any performance.

In addition to the trophy competitions, gold, silver and bronze medals were offered by the local committee for amateurs under twenty-three years of age, for which the following appeared: Piano Solo, "Polonaise in A flat, op. 58," Chopin, Miss Muriel Lillie, Cobourg; Solo, "The Lord is My Light," Allstair, Mr. Arthur Brown, Toronto; Violin Solo, "Reverie," Vieuxtemps, Mr. E. Frederick Singer, Toronto; Solo, "My Heart at Thy Sweet Voice," Samson, and Delilah, Saint Saens, Miss Victoria Stairs, Hamilton.

In the musical competition, the numbers rendered by the choir of the Bloor-street Presbyterian Church could only bring forth words of praise. Peter C. Kennedy, organist and director, received many congratulations on the results achieved by his songsters, and as one musical critic said to The World on the completion of the performance, "Kennedy will be heard from here on later." The numbers submitted were: Chorus, "Hymn to Music," by Dudley Buck; Motet, "Come Unto Him," Gounod.

The dramatic feature of the program was contributed by the associate players of the Margaret Eaton School.

Continued on Page 7, Col. 5.

### GOVERNMENT TO INDICT CITY COUNCIL

Conditions at Toronto Jail Declared to Be Worse Than Siberian Prison—Members Liable as Individuals.

No description of a Siberian prison is worse than the place where these poor creatures are supposed to be taken care of," said Dr. Bruce Smith yesterday afternoon in regard to the finding of the coroner's jury on the body of James O'Sullivan, the silent lunatic, who died in Toronto Jail Sunday. "The jail," he continued, "is a lamentable and disgraceful condition."

Dr. Smith, who is acting in the absence of Hon. W. J. Hanna, remarked that the city council would in all probability be indicted as a corporation and individually, under section 24, chap. 32 R.S.O., for not having provided any place for the detention of the insane, and owing to the fact that the hospital room at the jail is in an overcrowded and unsanitary condition.

This state of affairs exists in spite of the fact that, ever since 1905, every year the department has issued a mandatory recommendation that this be proceeded with at once.

The County of York is not held liable, owing to an agreement by which the city assumed all obligations in the matter.

Two years ago, at the request of the crown, Crown Attorney Drayton indicted the city for its negligence. The city council waited on the department and begged a withdrawal of the indictment, promising that special provision should be made that year.

"In a moment of weakness," added Dr. Bruce Smith, "the indictment was withdrawn." The city did nothing to implement its promise.

Although Dr. Smith says "probably" with regard to the indictment, it is understood that the papers have actually been drawn up. The section of the act under which proceedings are being taken provides that "the council, and the members and officers thereof, shall be liable for contempt, if, upon being required to make proper provision for prisoners (including the insane) by alterations or additions, they fail so to do."

Governor Chambers admitted at the request that the jail hospital was utterly inadequate. The insane man came to his death by tubercular bronchio-pneumonia.

**RAILWAY MEN'S WAGES.**  
OTTAWA, April 4.—(Special.)—A board of conciliation and investigation has been appointed to enquire into the wages of G.T.R. and C.P.R. trainmen, being J. G. O'Donoghue, Toronto, for the men; Wallace Nesbitt, K.C., Toronto, for the companies; and J. E. Atkinson, Toronto, chairman.

### MR. BORDEN HAS LOST GRIP IN QUEBEC

French Conservatives Themselves to Blame for Studied and Persistent Refusal to Mention His Name Publicly.

MONTREAL, April 4.—(Special.)—The "Lafontaine Club crowd," as the French Conservative machine adherents are designated in this city, have one weak spot in their armor when agitating for the withdrawal of R. L. Borden, M.P., from the party leadership, or for an absolute change in his policy. If Mr. Borden is weak in the Province of Quebec, the moving spirits of the Lafontaine Club are responsible for that weakness, for during the past two or three years they have never mentioned his name, either at their banquets or at other party meetings.

When Sir Wilfrid Laurier's school policy in the new western provinces was announced, the French Conservatives took such extreme ground with a view of making cheap capital against the government of the day that it was impossible for them to support Mr. Borden when the leader's hand was first shown on that question. From that time the French Conservatives persisted in a policy so contrary to that of the leader that all subsequent utterances these men were either forced to denounce Mr. Borden or to abstain altogether from mentioning his name. They chose the latter course.

Only One Journalistic Friend.  
The word of command appeared to be given and although public meetings were held every week, either here or in other parts of the province, the name of R. L. Borden was systematically ignored all over the province, both on the hustings and in the press. The only exception, in fact, was L'Evenement of Quebec, which did at times speak favorably.

The French Tories of course supposed they were building up their party in the country, but they forgot that the French habitant was not behind the separate school movement, inaugurated by Bourassa, who declared at a crowded meeting at the Monument National that he would carry the banners of the Alberts and Saskatchewan to the foot of the throne, and that if they did not get rid of Quebec, they would get out of the country. The Tories here cheered such utterances just as they cheered Bourassa's pro-Bourassa utterances and his anti-Bourassa utterances, and yet all this time the French-Canadian is voting for Laurier and his policy of hands off the western provinces.

The French Tories and their fellows from the university and colleges are certainly with Bourassa, a man, but the voters of the same race seem to be solidly against him. No one is more disgusted than the hundred thousand good Conservatives in this province, who have always voted against Laurier, at seeing their party abandoned by the old principles of Cartier and flirting with the men who attempt to set Quebec against the other provinces.

Mistake in Reference.  
The Conservatives of this district, or at least the Conservative leaders, have almost made the position of an English-speaking chinaman of the French-Canadian. They have almost destroyed Sir John by interfering with the New Brunswick school question, and the thanks of the Anglo-Saxons in this province may be found in the words of Bishop Sweeney, who, meeting the Hon. Mr. Mason in Ottawa, told him, in as many words, to mind his own business, as the Roman Catholics of New Brunswick could look after their own affairs.

The Manitoba was the next scene of the French "blue" operations, and although the Conservatives were sincere enough, they played into the hands of the Liberals, and, as a matter of fact, when the Conservative party was almost split in two over a few west-end halfbreeds, a majority of the voters of Quebec turned around and voted for the Laurier and McCarthy alliance, and still the French Conservatives do not realize that the election, as a whole, take little or no interest in their co-religionists in the other provinces.

Hasn't Been Tactful.  
All these things have made it very difficult for Mr. Borden to make any headway here in Quebec, for every word that he has taken has already been condemned by his supporters in this province. One thing is certain, however—they all admit that Mr. Borden is honest and an exceedingly able man, and that if he would be a little more careful in the selection of his immediate allies, and display a little more tact, he would win out in the end.

One instance may be cited. Col. Sam Hughes had just attacked the clergy of old France, and although the Conservatives here did not attach great importance to the incident, the fact remained that every French Liberal paper in Canada was holding Sam Hughes up to public execration as the friend and adviser of Mr. Borden, the leader of the Conservative party. Now what was the result? A dinner was taking place at the Lafontaine Club, and, for a wonder, Mr. Borden was present. Who did he bring with him? No other than the same Col. Sam. Of course the club members were too polite to say anything about the matter, yet these three incidents, taken together, show a den, able and honest old man, whose reputation he now enjoys in this province.

Themselves to Blame.  
In a word, the French Conservatives are very much to blame for the present situation, but the fact remains that Mrs. Borden has not been tactful in his dealings with the French wing of the party.

### WAIT AND SEE SAYS ASQUITH

Declines to Outline His Program, But Does Not Say That Budget May Be Altered to Satisfy Irish.

LONDON, April 4.—(C.A.P.)—The official opposition amendment to the resolution of the premier on the veto power of the house of lords, moved in the house of commons by Sir Robert Bannatyne Finlay, declaring in favor of a strong and efficient second chamber and expressing willingness to consider proposals for the reform of the upper house, but declining to proceed with the government proposals, was defeated in the commons to-night by a majority of 106, the house dividing, 357 to 251.

"Wait and see," was Premier Asquith's answer to the inconvenient curiosity of several opposition members, who endeavored to obtain enlightenment regarding the government's program and any possible alterations in the budget.

Replying to Ansten Chamberlain, however, the premier said he had not authorized Churchill's statement that the budget would be passed without alteration. This is taken as indicating that some of the objections of Irishmen will be met.

A new phase of the situation is the recognition by irritated Liberals that Redmond's desire to keep a grip on the budget is inspired not merely by hostility to the lords, but by his distrust of the government, but for what will finally happen the country must wait and see.

The debate on the premier's motion to go to a committee to consider his proposals on disabling the lords was concluded to-night. Right Hon. M. Lyttelton, who opened, warmly protested against Churchill's statement last week that the lords, having used the veto to "affront the prerogative of the crown," and invade the rights of the commons, it had become necessary for the "crown and commons" to act together and restore the balance of constitution, which he described as "ungenerous and unseemly."

Col. Seeley said that if the commons had not taken immediate steps to secure effective control over financial legislation, the self-governing dominions would think it was not fit to manage its own affairs. The argument that there was anything contrary to colonial policy in an attempt to restrict the hereditary powers could not be sustained.

The debate concluded with a spirited duel between Bonar Law and Lloyd-George, the latter saying that the Liberals had only asked for fair play.

### WINDSTORM IN OHIO

Several Buildings Damaged and Five Persons Hurt.

YOUNGSTOWN, Ohio, April 4.—A cyclone struck the Lansingville section of this city at 2:30 o'clock this afternoon, during the progress of a heavy rainstorm, wrecking a dozen buildings and unroofing several others.  
Five persons are reported to be injured, none seriously.

### MRS. OSLER ILL

Mrs. E. B. Osler is seriously ill at her home, 13 Beau-street, Rosedale. Late last night her condition was reported as unchanged.

### Rehoboam Goes to Guelph.

Rehoboam Lodge, A. F. and A. M., will go to Guelph in a special Grand Train at 3:30 this evening, 100 steps to exemplify the first degree.

### Halley's Comet Itinerary

In a letter received from John S. Plaskett, who is chief observer at the Dominion Observatory, Ottawa, and a graduate of the University of Toronto, he says, regarding the comet:  
"Halley's Comet is now west of the sun, and may be seen probably with a field glass before sunrise. I have no doubt that in a week or so it should be visible to the naked eye in the east before sunrise, but will probably not be very conspicuous until about May 29, when it will be in the evening sky after sunset."

HAMILTON HAPPENINGS WINE CLERKS THREATEN TO RESIGN THEIR JOBS

Disatisfied With Their Terms of Labor—Annual Meeting of the 20th Century Club.

HAMILTON, April 4.—(Special.)—The wine clerks are said to be in a state of unrest.

The Hamilton policemen who participated in the recent round-up of the cock-fighters in Waterdown are sore because they have not been paid by the county.

Because he was dissatisfied with his pay Robert Smith of the fire department tendered his resignation at the meeting of the fire, police and jail committee to-night.

Summons have been issued for Jas. McLary, Terminal Hotel, for selling liquor on Sunday, and for four men found in the bar.

John Coulton, 281 North Wellington street, lost three fingers of his right hand while at work in the Canadian Screw Co's plant this afternoon.

Where's Mr. Zimmerman? Sporting and social circles here are shocked by the sudden resignation from his business and departure from the city of J. M. Zimmerman.

# EATON'S DAILY STORE NEWS

## Continuing the Great Dress Goods Value Giving With Another Specially Priced Lot at 39c

Wednesday's announcement contains news of better buying than ever in dress goods, for included in this lot are qualities for summer dresses, and what could be of more interest to the many who are already preparing their wardrobe for the summer season? Or perhaps you need a dress for some present social function. You'll find the material here Wednesday at this very low price. It's goods we should have been selling weeks ago, but unfortunately for us—though fortunately for you—the floods in France delayed their coming till this late date.

Colors for everyone here—besides a good range of black goods, such as fancy and plain wool voiles, there are in colors fancy grenadines, wool voiles in fancy and plain weaves, fancy silk stripe wool taffeta, etc., and many odds and ends we've added to complete the good assortment. All most desirable goods, widths from 42 to 46 inches. Wednesday, yard . . . . . **.39**

See Yonge Street Window.

### About Material for Your Holiday Wash Suit

You are contemplating a wash suit? See our special Linen Suiting Counter. Note the array of new weaves. One linen to which we would particularly draw your attention is called mercerized "linen poplin." It has a lovely rich finish and launders perfectly, retaining its exquisite appearance, no matter how often it visits the tub. If it shouldn't, let us know about it and we'll make it right. It comes in different shades, 27 inches wide, per yard . . . . . **.35**

MAIN FLOOR—YONGE ST.

## Lack of Space and Carloads of Furniture Arriving

CAUSE EXTRAORDINARY PRICE REDUCTIONS—SOME HALF PRICE AND LESS

We've simply got to have room—we're crowded as it is, every available foot of space on our acre furniture floor is utilized and here comes word of carloads of furniture on the way. "Get the present stock out, we must have the space it occupies" is the order—and as a result such a price lowering has taken place as is seldom witnessed even with us. It's an illustration of the determination and thoroughness that characterizes every undertaking of the Store.

More remarkable is this case on account of the very high grade quality of most of this lot—for instance there's one sideboard going for \$100. That's much less than half price. Of course that's the most conspicuous reduction of all, but it shows to what length the price lowering has gone.

Think what an opportunity is here afforded those furnishing a flat—a room, a house or an office—they're nearly all important pieces and mostly but one of a kind, and that makes it quite essential that you make your selection first thing in the morning.

## Two Exceptional Values to Arouse Early Buying Interest in the Stationery Section

Always ready to meet the requirements of office and home the best possible way, the Stationery Section frequently has opportunity to save its customers money on goods of proven quality. Wednesday we offer two big price benefits of the kind that is generally taken quick and full advantage of. When you're here you'll see many other appealing values throughout the section that will make your trip more than worth while. Here are the items:

One-Quire Box Stationery, .7—Fine linen finish and fashionable shape. Several lines, all brought down under the one wonderfully little price of, each, .7.

Fountain Pens, .75—Splendid smooth writer, gold point with medium tip; barrel of chased vulcanite, with screw cap which makes it absolutely unbreakable. Offered at less than half the usual price, each, .75.

MAIN FLOOR—JAMES ST.

## Sterling Silver Flatware 85c Per Ounce

The price is one that makes a landmark for future selling. The Designing and Workmanship are of high order. The "Queen" pattern with its flowing lines and elegant simplicity is the one chosen. All the pieces are of good weight. Per ounce . . . . . **.85**

On this basis the following price list is made.

Coffee Spoons, per dozen 4.00. Bouillon Spoons, per dozen 9.00. Pie and Cake Forks, per dozen 15.00.

MAIN FLOOR—YONGE ST.

## Get a Sweater Coat, Boys, Wednesday Only 50c

Boys' buttoned sweater coats, with and without pockets, colors are navy blue, brown or grey, some plain, others have colored trimmings; sizes in the lot to fit 6 to 14 years, many worth a good deal more than we ask.

## Neat Styles in Neglige Shirts For Men, 50c

We have just received a new shipment of our special 50 fancy colored negligee shirts, they are made from fine shirting materials, fast washing colors, neat and fancy stripes; sizes 14 to 17 1/2.

## It's Time For the Lighter Underwear

Men's Fine Double-thread Egyptian Balbriggan Underwear, shirts or drawers, soft, smooth finish, sateen facings and pearl buttons, in sky blue, pink and natural cream color; sizes 34 to 46. Each . . . . . **.35**

MAIN FLOOR—QUEEN ST.

## The Hat of Quality, \$3.00

The average business and professional man looks for good quality in hats and we think this one will satisfy him. His requirements as to durability of felt in keeping natural color and shape and in stylish appearance will be found in our 3.00 English Black Felt Derby, the product of one of the most noted makers. Neat, dressy, with roll brim and medium full crown, pure silk trimmings and Russian calf leather sweatband. It is the new block . . . . . **3.00**

## 50 Dozen Boys' Varsity Caps

In the popular close-fitting style, unlined, with taped seams and leather sweatband. A neat maple leaf emblem gives it a smart appearance. Price . . . . . **.39**

## Men's Boots at \$1.25

On Sale TO-DAY at 12.15

As a rule, we put announcements of the following day's offerings in the morning papers; but, believing that many men read the morning papers in time to take advantage of this special low-priced offer, to-day we make this announcement to remind you.

Men's Box Calf Boots—Of a good serviceable quality, made in Blucher style, neat in appearance and designed for comfortable wear; good soles and heels; solid leather insoles; sizes 6 to 11. At 12.15 . . . . . **1.25**

SECOND FLOOR—QUEEN STREET.

## Children's Spring Coats and Dresses

Children's Sailor Dresses, all-wool serge, deep sailor collar, with braid and tie of self; embroidered anchor on shield, full sleeves, cuffs with braid, pleated skirt, lined throughout. Color navy; sizes 2, 1.25; 4, 1.50; 6, 1.75; 8, 2.00; 10, 2.25; 12, 2.50.

Children's Colored Wash Dresses, in fancy stripe and check percale, high collar, yoke of blue chambray, piped with white, strappings and buttons, others low neck with colored strappings, 3/4 sleeves with deep shaped cuffs, others plain color with plaid strappings, and wide pleat down right side, piped with plaid. Full sleeves with cuffs, pleated skirt, pink, navy, sky, red, black and white; sizes 6 to 14 . . . . . **1.25**

Children's Delaine Dresses, low square yoke effect of lace insertion, frill of lace, with fine pin tucking, and straps of lace insertion on either side, wide pleat over shoulder, long sleeves, deep cuffs with lace insertion and edged with lace, full pleated skirt, colors navy and white, sky and white, pink and white, brown and white. Price 6, 4.25; 8, 4.50; 10, 4.75; 12, 5.00; 14, 5.25.

Children's White Lawn Dresses, square yoke, five rows of lace insertion set in, tucked shoulder pieces, edged with lace, full skirt with deep flounce, rows of lace insertion and tucking, with lace; sizes 6 months, 1, 2 and 3 years. Price . . . . . **.49**

Children's New Spring Cloth Coats, 3/4 length, box effect, turn down collar and cuffs, with fancy silk braid, buttons and patch pocket, others with braid around neck and down front; colors black and white, navy and red; sizes 2 to 4 years. Price . . . . . **2.50**

Children's Separate Pleated Skirts, fine serge, made on waist lining, colors navy blue, brown and cream; sizes 2 to 12 years. Prices from .65 to . . . . . **1.75**

SECOND FLOOR—CENTRE.

## Men's New Spring Overcoats Wednesday \$5.95

Made from an English vicuna cloth in plain black. Tailored in the fly front Chesterfield style, 45 inches long; the lapels silk faced. Down the inside of coat fronts also is silk facing, the rest of the body being lined with a plain cloth. Sizes 34 to 46. A coat that certainly could not profitably be made up for the money.

## Men's New Spring Suits, Wednesday, \$8.95

Cut from English worsteds and fine finished tweeds, in the three-button, single-breasted sack shape with medium broad lapels and close fitting collar. A variety of grey, brown and fawn grounds, with neat effective stripes in contrasting tones. Twilled Italian cloth lining; sizes 36 to 44. You profit substantially by this price.

## \$1.98 For English Worsted Trousers

A solid, good wearing, imported material in medium and dark shades, with various colored stripes. Well tailored, with extra good trimmings. Two side and two hip pockets and a watch pocket; sizes 32 to 44. Anticipate future requirements, men, with such an extraordinary price on high-grade trousers.

## Two Moderately Priced Spring Suits For Boys

Fancy Russian Suit, 4.50—Pretty grey imported materials with neat, small pattern; coat fastens up side with military collar and has leather belt. Bloomer knickers; sizes 21 to 25.

Bloomer Suits, 4.00—Single or double-breasted, new fancy tweeds in pretty grey and brown patterns. Full fitting bloomers with strap and buckle fasteners; sizes 24 to 28.

### IMPROVING CITY GOVERNMENT.

Last night The Evening News and The Evening Telegram each had suggestions to make about the improvement of the city hall government. The Telegram wants to do away with the works committee and to give the medical health officer relief from the scavenging work which he has had in hand for some years. The News follows the lead of our editorial yesterday and urges the appointment of an eminent legal counsel and of a specially qualified advising engineer to act in concert on the big problems now before the city.

The Evening Star recommends the electors to vote for the hospital and the water supply by-laws—very good advice indeed. Neither The Globe nor The Mail and Empire had any advice to offer yesterday upon the situation.

The feeling among business men is growing very acute. Something must be done. And it must be done right. There has been too much experimenting. There has been too much muddling. There has been too much hoping for the best with one eye on next year's ballot box. The result is that we have an expensive, incompetent and badly informed administration.

Only big and able men are capable of conducting the affairs of a city like Toronto in a way that makes every dollar count and gives the ratepayer the value of his money. Only big and independent men are able to look ahead and see when a large expenditure is needed to save a much larger one later, and at the same time exert the will to carry out such a policy. We have been postponing our requirements until the sum of the money is appalling. And yet when heroic measures are needed all that the board of control can do is to try and pare a cent of a mill off the tax rate.

Toronto needs men of an altogether greater calibre than this. It cannot possibly get them without paying the salaries that corporations pay for similar services. The city must learn that cheap men mean high taxes, bad service and poor management generally.

The city is now dealing with William Mackenzie and his \$10,000 a year manager and several lawyers worth from \$20,000 to \$30,000 and upwards a year. None of the chief engineers in Mr. Mackenzie's employ would work at the salaries or under the conditions the City of Toronto now offers. There is no big commercial house with a revenue of \$1,000,000 a year which would entrust the conduct of its affairs to the class of men that Toronto is trying to be governed with. If any of the board of control or aldermen were wanted in a \$7,000,000 concern they would not be available for the government of the City of Toronto. This is not said in ingratitude for the services that these gentlemen endeavor to render, but as a simple statement of fact that the people of this city must have rubbed into their understanding. It is the people's business, and it, after knowing the facts, they prefer to have their affairs muddled. It will be their own lookout. They cannot buy the service they need at the prices they now give.

What Toronto needs is a commission, or a board of control. If the name is preferred—any other name will do as well—composed of from three to five men. There should be an engineer of the highest standing. There should be a man of affairs, skilled in finance. There should be a man who knows all there is to know about city sanitation and all the problems of a health department. There should be a man of the highest legal standing that Canada can furnish to take charge of the colossal interests of its leading commercial centre. And there ought to be a railway and electric traffic expert who can wrestle with any problem which the affairs of the city might present. These men cannot be had for much less than \$25,000 a year each. This may take Controller Foster's breath away, but it would be much better to do that than have the breath of the taxpayers taken away by the situation that will presently confront them. The amount is a trifle compared with the interests involved, and the percentage is low for salaries, compared with the expenditure for similar purposes in large corporations. If Toronto is not willing to make a step in the direction of efficient administration, and this is clearly impossible, then her only salvation is in getting men who can carry on her business on business principles.

### WOMEN'S SUFFRAGE IN MANY LANDS.

In the spring of last year Miss Alice Zimmerman of Girton College, Cambridge, a well-known international educational expert and author and an ardent supporter of the movement for the enfranchisement of women, published a small handbook under the title "Women's Suffrage in Many Lands." It gave in clear and succinct form a

review of the history and progress of the agitation in 21 countries and as the information supplied had been carefully selected from the most reliable sources the little volume was admirably adapted to enlighten public opinion and stimulate public interest in the cause. To those who regarded the agitation for woman suffrage as sporadic and evanescent the facts and circumstances noted by Miss Zimmerman could not but come as a real surprise and as an assurance that the revolt against the exclusion of women from sharing in the duties and responsibilities of government and legislation was too serious and general to be ignored or disregarded.

A new and revised edition of Miss Zimmerman's handbook has just been issued and in the preface to it the author observes that the ten months which have elapsed since its first publication have been full of change and development. Great Britain has seen the formation of several vigorous new societies, and suffragists were almost as prominent as the candidates in the recent general election. The federation of South Africa has altered the whole position of the franchise movement and has drawn together women from the four states into one league for enfranchisement. In Canada, Miss Zimmerman says, the suffrage movement has sprung into new life; in France a vigorous and hopeful campaign has been initiated and in other of the smaller European nations there is good hope of success at no distant date. Even in countries whose political systems differ greatly from those of freer and more advanced communities, the movement is making headway and compelling respect.

Dr. Sheard is reported to regard the telegram sent him by Mr. J. Ross Robertson as incomprehensible. This is not surprising, for with the genial proprietor and director of The Telegram there is not one but many incomprehensibles.

Halley's comet goes at the rate of 166 miles a minute, and is still gaining speed. It may be admitted at once that the mayor of Toronto is not in this class.

How far real dominion over the air is from attainment has been vividly shown by the recent fatal accidents. Balloons are still largely at the mercy of the winds, while in the case of heavier-than-air machines, as their buoyancy is dependent on motion, any failure of the motor machinery renders them peculiarly liable to loss of equilibrium. Nor does it yet appear if these risks can be overcome with sufficient certainty to make aerial navigation reasonably safe and certain in all weathers.

Office must, of course, be the final aim of an opposition, because it cannot hope to carry out its ideas except in office. But if it does not have its first concern. It must not be sterner sitting on the fence to observe which side the government drops on. The modern man cannot be got to believe that a government is always in error and that the opposition is invariably right. A platform that consists mainly of negations of government policy is not an inspiring one.

Did you suppose, dear reader, that this was The Globe's advice to Hon. A. G. MacKay? Alas! no. This is The Globe's advice to R. L. Borden.

### YOUNG OTTAWAN KILLED IN OTTO ACCIDENT IN CALIFORNIA.

OTTAWA, April 4.—John Anson Howard, aged 23, son of a clerk in the city service, was killed last night at San Jose, Cal. The machine which he was driving, plunged from a mountain ledge of five miles from Del Monte, and lodged in the top of a tree.

Howard was pined in the branches and lived only long enough to bid good-by to his companions, former Mayor Robert F. Johnson of Monterey, who escaped unhurt.

### Gripped with Lamé Back

THIS RESULT OF LONG STANDING KIDNEY DISEASE WAS OVERCOME BY DR. CHASE'S KIDNEY-LIVER PILLS

This letter gives you some idea of the definite and certain results you obtain by using Dr. A. W. Chase's Kidney and Liver Pills for kidney disease.

"This medicine is very prompt in action and very direct in effecting cure. You do not need to keep up the treatment long before you find most marked improvement.

"Mrs. Richard Patterson, Haldimand, Gaspe Co., Que., writes: 'I want to tell you that I was cured of kidney disease of long standing by the use of Dr. Chase's Kidney and Liver Pills. I used to suffer a great deal, not knowing just what was the cause of the trouble and got so bad that I was almost crippled with lamé, sore back.

"Before I found my two boxes of these pills I had my back better and less than three boxes more the cure complete. I have never had a sore back since and believe the cure to be lasting.

"Backache, headache, bodily pains, scanty, painful urination, deposits in urine after standing, fickle appetite, indigestion and irregularity of the bowels are among the symptoms which warn you of seriously trouble from kidney disease.

"You can be perfectly certain that Dr. Chase's Kidney and Liver Pills will help you and help you quickly. Make the test for yourself to-day. One pill a dose, 25 cents a box, all dealers, or Edmondson, Yates & Co., Toronto. Write for free copy of Dr. Chase's Receipts.

### THROW HOSPITAL OPEN TO ALL DOCTORS ALIKE

#### J. W. Flavelle Makes Plea for Medical Men at Canadian Club.

J. W. Flavelle pleaded the cause of the General Hospital yesterday before the Canadian Club, the members of which turned out in force for the occasion.

An interesting guest was Henry Fraser, son of Sir Andrew Fraser, who spoke to the club just a year ago yesterday. He was received with a warm applause when introduced by the chairman.

Among others at the guest table were: President Falconer, F. C. Larkin, N. W. Rowell, K. C., Ald. McCarty, Ald. R. H. Graham, Dr. Ross, Bruce and McPherson and W. E. Runnie.

Mr. Flavelle spoke of the past and honorable career of the General Hospital since 1875, when it was established as a military and surgical hospital in the village of 1000 people of that day, with Dr. Christopher Widmer at its head. He died in 1888 and his portrait hangs in the board-room.

The hospital was built upon what was then called the hospital block, where the Arlington Hotel now stands. The site was originally owned by the late testimony to the vision and courage of the early settlers, said Mr. Flavelle. The hospital had had grants of land at this site, as in the street end and 20 acres in the west. Part of this land was still held and the rentals last year amounted to \$31,900. The property is still in the possession of the hospital trustees at King and York streets, west to the Princess Theatre and south to Rock's, the corner at Queen and Spadina, and two blocks north the Arlington; 165 houses altogether.

Mr. Flavelle mentioned some of the hospital statistics and gave details of the cost of maintenance and the source of revenue. In spite of all that was done, the present facilities were inadequate and many sick were denied admission for lack of beds.

Special isolation needs.

"Distress of a very cruel character suffered by the hospital patients was the subject of some comment, in the course of which Mr. Flavelle narrated one of his own experiences, in which a child, ill with measles, was compelled to tramp about the city all day in search of a place to stay. A hospital patient, the greater care of whom is insured by the constant supervision and instruction under which patients are kept, is not allowed to leave the hospital unless accompanied by a physician or nurse, and the fact that surgeons and physicians are quickened to perform their best work under such supervision, was recognized, and the club applauded the statement.

Mr. Flavelle pointed out that operations for which the highest fees were paid in private treatment, were performed with the same care and attention and fidelity upon the hospital patients as in the wealthiest family.

All minor difficulties and jealousies and misunderstandings would be laid aside for the common good which would be felt if the character of the work performed in the hospital was understood.

### HORSE SHOW NOTES

Corrections Have Been Made in the Regulations in the Hunting and Jumping Classes.

In the rules and regulations, a green hunter should have been described, one that had not won a first prize in any hunter or jumping class, at any recognized horse show, except a township show, prior to the first of January, 1910.

Also in classes 47, 48 and 49, the hunter championships, performance over the jumps, in all cases, is necessary.

The entries close on April 14 with the secretary, W. J. Stark, 12 East Wellington street, Toronto.

### Cases Upset; One Drowned.

TWO DEFENDENTS TO BE JURY TRIED, an employee of the Seymour Light & Power Company, was drowned in the Clare River. He and his companion had taken an owl gun canoe for a paddle and it upset.

### Another Balloon Fatality.

BRESLAU, Germany, April 4.—Prof. Aebeg, a noted German scientist, was killed to-day in the wreck of his balloon, which burst at 800 miles northwest of here. The balloon, which had become unmanageable, descended with a crash.

### A Vertical Follow-up File that will Cut Your Work in Half

### ROOSEVELT AND THE POPE

ROME, April 4.—Now that Roosevelt has made public documents which the Vatican considered confidential, Cardinal Merry del Val, papal secretary of state, wishes the entire history of the negotiations for the audience which the former president sought of Pope Pius X to be known.

Following the exchanges between Mr. Kennedy and American Ambassador Leshman and Roosevelt's decision not to be received under the terms imposed, John Callan O'Loughlin, who was assistant secretary of state in 1909, and a personal friend of Roosevelt, introduced upon the cardinal, bearing a letter of introduction from Mr. Roosevelt, to the cardinal, stating that he was here for the president of the United States. "The cardinal said: 'Then what are we here for? It is useless to discuss the matter. If you do not represent Mr. Roosevelt, you cannot make any arrangements or speak for him.'

Mr. O'Loughlin replied: 'What is considered important is to tell your eminence that if the two dispatches sent by Mr. Kennedy are retracted, I can assure you that Mr. Roosevelt will accept an audience.'

Cardinal Merry del Val said: 'I will not discuss Mr. Roosevelt's rights, but give me confidential assurance that, if having been received by him, or perhaps on the same day, as according to your statement, he may leave Rome on the same day of the papal audience, thus having only between noon and evening Tuesday on which to see the Holy Father.'

"It is of little consequence whether he is a Catholic, Protestant, Jew or Buddhist. All religious men merit the same esteem. The important thing is to be honest and sincere. So far as the form of belief is concerned, I believe that all honest people will be always on good terms with God."

"40th Highlanders' Band" Excursion to Buffalo, \$2.10, Sat. April 9th, via Grand Trunk 9:30 a.m. "Buffalo Express." Return limit April 11. Re-embark the Grand Trunk in the only double-track route. Secure tickets at city ticket office, northwest corner King and Yonge streets. Phone Main 1259.

Little Boy's Fate.

April 4.—A number of children from Beaufield, 20 miles west of Toronto, went into the woods to pick gum. All returned but George McGilchey, aged 5 years. A search was made, and he was found next morning lying dead in a snowbank with his little dog watching beside him.

Timmerman's District Extended.

MONTREAL, April 4.—H. P. Timmerman, industrial commissioner for the C.P.R., who formerly had jurisdiction over the Atlantic division of the railway, has had it extended over the Ontario division, and that part of the eastern division east of Carleton Place, which had its headquarters in Montreal.

### Your Nerves

Your nerves must be fed with pure, rich blood, or there will be trouble. Poorly fed nerves are weak nerves; and weak nerves mean nervousness, neuralgia, headaches, debility. Weak nerves need good food, fresh air, and Ave's non-alcoholic Sarsaparilla.

Ask your doctor if alcoholic stimulants are not often very disastrous when given to nervous people. He will tell you why. S. C. Ave & Co., Lowell, Mass.

### Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHNAN,  
1214 Catharine St.,  
Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eye, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

Restorative Nervine soothes the irritated nerves, and assists the nerve cells to generate nerve force.

DOMINION SECURITIES CORPORATION, LIMITED 26 KING STREET EAST, TORONTO

SOVEREIGN BANK AGAIN IN LEGAL LIMELIGHT Action Resumed in Assize Court to Recover \$59,000 From Each Director.

The celebrated Sovereign Bank case was resumed in the non-jury assize court yesterday morning and was marked by the contradictions made by W. K. McNaught, M.L.A., to the evidence given before the commission at New York by General Manager Stewart.

The action is one in which the curator, W. E. Stavert, wishes to recover \$59,000 from each of the directors, namely, Randolph Macdonald, Alex. A. Allen, Senator Archibald Campbell, A. E. Dymont, W. K. McNaught and Senator Donald McMillan.

STEWART'S EVIDENCE WAS READ IN COURT YESTERDAY. The case grew out of his action in attempting to maintain the standing of the bank by using the funds to buy its own stock.

Small Fruit Growing Proper Conditions For Strawberry Plants

White currants and gooseberries are not so universally used now by the average housewife as other species of small fruit, they occupy a very important place, and generally command good prices in limited quantities.

There are four species of currants known to the botanist, but only one is commonly grown for its fruit, viz: Ribes rubrum, which furnishes all the red and white varieties.

Only two species of gooseberries are commonly cultivated. One of these is a native of North America (Ribes cynosbatioides), and the other (R. Grossularia), is a native of Europe.

The currant and gooseberry are natives of a cool climate, hence their cultivation is confined for the most part to northern portions of the United States and Canada.

For garden culture, four feet apart each will do very well, in a field culture the rows should be five or six feet apart.

Keep the plants well cultivated during the winter, and in the spring cut them back to a small size by using coal ashes simply as a mulch.

Fall Down Elevator Shaft. Harold Berwick, aged 15, fell down an elevator shaft at the Toronto Building Company's works in Jefferson-avenue, yesterday, fracturing his right thigh bone.

# Good "Skypieces"

## Spring Hats for Spring Days

This is the weather for new "Skypieces" We have gone to some trouble to get the very latest either in England or the United States, in the hat line. We, besides handling all the big lines anywhere to be found, represent solely in Canada Henry Heath of London, and Dunlap of New York.

We have also some special lines in outing hats and hats for all kinds of sport—college caps and mortar boards—all reasonably priced.

Derby Hats \$2 to \$5  
Alpine Hats \$5 to \$10  
Silk Hats \$5 to \$10

## DINEEN

Day's Doings YORK COUNTY West Toronto North Toronto East Toronto

### SEARCHERS FAIL TO FIND MISSING MISS CONNOR

North Toronto Lady Eludes Her Friends—Fall Where a Great Crop—County News.

NORTH TORONTO, April 4.—(Special.)—Magistrate Ramsden held court here this morning, the principal matter under jurisdiction being in connection with the alleged theft of pigeons from Mr. Hunt by five young lads. Having missed his pigeons from time to time Mr. Hunt set an alarm, and was successful, with the aid of Chief Collins, in corraling the lot. After hearing all the evidence Magistrate Ramsden remanded the boys until next Wednesday, bail being accepted in \$100 each.

Chief Collins returned to-night after another hard day's work spent in tramping the woods to the east and north of the town in search of Miss Connor, the missing girl. A number of parties report seeing a young woman answering the description, but the supposed clues have so far been fruitless. The chief and some others will resume the hunt in the morning to the northwest of the town. The father of the missing girl offers a reward of \$25 for her recovery.

Chairman Lawrence presided at a meeting of the by-laws recommended was one imposing a fine of \$25 for sending a false alarm of fire, \$10 of which goes to the informer. Parties building will be required to place an overhead protection over the sidewalk. So great is the interest in the evangelistic meetings in the Methodist Church that the services will be continued on Tuesday and Wednesday evening. To-night's meeting was the largest yet.

FALL WHEAT LOOKS FINE.

Reports from all parts of York County serve to confirm the World's earlier statement that fall wheat had come through the winter better than in years. So far the outlook is most encouraging, the proportion of roots killed apparently being very small. Some large fields are seen up in Markham and King, where there is hardly a break in the rich, green, luxuriant sward. While it is not very rank, the warm weather and refreshing showers are working wonders. But it is yet too early to count on a crop.

"Seeding all over the county is going on well, and personally a day and a half will complete my seeding," said A. J. Reynolds of Scarborough Junction, last night. As secretary of the Toronto Milk Producers' Association and the Farmers' Dairy Company, Mr. Reynolds knows York County pretty well, and he confirms the report that the fall wheat is looking exceptionally well.

KEW BEACH.

Ward One Aldermen Said to Have Lost Interest in East End.

KEW BEACH, April 4.—(Special.)—Egyptian darkness is the best description to apply to the state of Wheeler-synone these evenings. Without one single street light to give the pedestrian any clue to his whereabouts, the

condition of this street after dark is a standing evidence of the apathy which the fire and light committee display towards Kew Beach municipal matters.

Provided with only one wooden sidewalk, which takes sharp and unexpected turns, indeed do not care to venture on the avenue at night time without an escort, and residents are asking for a return of that lively interest which waits one alderman displayed in Kew Beach affairs prior to the January election.

WESTON.

WESTON, April 4.—(Special.)—Henry Pearson has sold his farm in the Township of Weston to F. W. Smith of Rockford, for \$500.

T. L. Culver of Toronto has shipped to Michigan the imported grey three stallion bought a few days ago from J. M. Gardhouse of Highview.

The number of pupils on the roll of the Weston public school during March was 286, with an average attendance of 242. There are only two non-resident pupils.

At the regular meeting of the Epworth League on Tuesday evening, Rev. A. H. MacGillivray will deliver an address.

Rev. J. Hughes Jones is now convalescent after being confined to the house for a few days.

TODMORDEN.

TODMORDEN, April 4.—(Special.)—Henry Cosburn, who about nine weeks ago was removed from his father's home to the General Hospital, suffering from appendicitis making a good recovery. It is expected that he will be able to return home within a few days. Young Cosburn was most popular, and a host of friends will learn with pleasure of his convalescence.

WEST TORONTO.

WEST TORONTO, April 4.—Stanley Lodge, A. F. and A. M., will be officially visited on Tuesday night by Right Worshipful King of the Grand Lodge, D. G. M. of Toronto, and a number of city lodges will be there also.

The St. Cecilia Literary Club gave their final progressive euchre tournament and dance at Mrs. Meyer's to-night. About 150 were present and a delightful evening was spent.

Mrs. W. J. McDowan, 497 St. Clarence-avenue, died on Sunday after a three weeks' illness in her 26th year. The funeral took place to Prospect Cemetery to-day.

The model parliament of the Royce-avenue Presbyterian Church will hold a debate on Tuesday night as to whether or not money should be devoted to agricultural purposes.

The Women's Guild of St. John's Anglican Church will hold a meeting Tuesday afternoon in the basement of the church.

The election for school trustees of school section 22 takes place on Saturday, April 16.

RICHMOND HILL.

RICHMOND HILL, April 4.—(Special.)—A meeting of the members of the Richmond Hill Curling Club will be held in the council chamber on Tuesday evening.

Division court will be held on Friday.

EAST TORONTO.

EAST TORONTO, April 4.—(Special.)—A delightful event was the concert progressive euchre party and luncheon given at the Hotel, I. O. F., in their lodge rooms, Smith's Hotel, to-night. The hostesses for the evening were Mrs. Mitchell, Mrs. Baker, Mrs. Burnett, Mrs. Shaw and others. An address by Mr. Henry was a feature of the evening. Altogether it was most enjoyable.

No More Rabies Patients.

No rabies patients have been received at the General Hospital for over a week. Three were discharged on Sunday.

### DON'T WANT TO ABOLISH INDUSTRIES BRANCH

Legislation Committee Had Close Vote, However—Would Retain Island Committee.

While the civic legislation and reception committee yesterday declared itself opposed to the abolition of the department of industries and public utility, the vote was so close as to indicate that strong difference of opinion exists, and the future of that branch of civic service is clouded with uncertainty.

Chairman Ald. Maquire stirred up only a limited amount of enthusiasm when he suggested that, as a preliminary step, the board of trade and leading hotel men should be invited to remark that in United States cities it was customary for these bodies to attend to the exploitation work. Ald. Graham appeared to voice the consensus of opinion in his statement that the members of council having been elected to do the city's business should not seek outside advice.

Ald. McCarthy produced a sheet of letters, the result of correspondence with United States cities. The information gleaned was that in Rochester, Albany, Detroit, Chicago and Grand Rapids, the conditions as to industrial buildings were as stated by Ald. Maquire.

Ward for Abolition.

Controller Ward was for giving the ward over to a clerk in the assessment department. There was no city of Toronto's size in America which ran a municipal department of industries, he asserted. His motion that the department be abolished was then lost on the following vote:

For abolition—Controller Ward, Ald. Rowland and Graham.

Against—Ald. Phelan, Anderson, McCarthy and Maguire.

Ald. Phelan catalogued at length the qualities requisite for the proper performance of the duties of industries commissioner. It was an imposing list, calling, in fact, for a sort of Admiral Crilston, but Controller Ward wasn't convinced.

"An up-to-date clerk would know all that," he said.

Ald. Graham thought the duties should be placed on the capable shoulders of Property Commissioner Harris, but the others believed the commissioner had his hands full already.

To Retain Island Committee.

Another of Controller Foster's ideas received a jolt when the committee voted against abolishing the island committee at the end of the year. Arthur Dinns, president of the Island Association, protesting against such a declaration, declaring that the island interests were important, and that little enough was now being done in recognition of them.

The committee couldn't see the advantage of wiping out the committee. Incidentally, it would mean cutting off the regular interest on a bond of \$100.

Ald. Phelan's motion against abolition went harmoniously.

Bells on Bicycles.

Ald. Dunn presented a bill to support his favorite bylaw to compel all bicyclists to equip their silent steeds with bells or horns to sound the same when approaching pedestrians, but he had no need to use persuasion. As the city solicitor reported that mere compliance with the bylaw would not exempt a rider from claim or damages in case of an accident, the bylaw was sent on to council.

The Ontario Motor League, thru Secretary E. M. Wilcox, asked that a bylaw be passed ordering all vehicles carrying passengers to display a red light in the rear at night as autos do, so as to lessen the risk of rear-end collisions. There was a chorus of protest from the committee. "An unnecessary number of red lights would be a hindrance to motorists," said Ald. McCarthy's view and the others shared it.

Barbers' Grievance.

It appeared from the statements of Ald. McCarthy and Maguire, that a spirit of rebellion is afoot among the local barbers. The reason is that the city engineer's department has been waging a relentless war on all advertising matter affixed to telegraph poles. Even the red and white paint designating to attract wayfarers to the tonorial emporium has been ordered covered over.

Mr. Rust explained apologetically that there was a civic bylaw which explicitly said telegraph poles should not be used for any advertising, but he agreed to suspend its enforcement.

Cattle Inspection Adequate.

Dr. Sheard does not agree with the finding of the jury in the sessions Saturday to the effect that the city's inspection of cattle at the local markets is not adequate. He says that the bulk of the cattle that reach Toronto are merely in transit, and that, as there are only certain market days, the single inspector can attend effectively to his duties.

The impression that the letter of E. S. Scott, resigning his position as deputy engineer, criticized the works department, is corrected by City Engineer Rust, who says that the letter alluded to pleasant relations between Mr. Rust and himself.

### Catarrh Bronchitis Weak Throat

You may not have thought of giving a name to the unpleasant symptoms that affect your throat, nasal passages or your bronchial tubes. Where a thick viscid mucus is coughed up or falls into the throat or stomach from the nasal passages—where the nostrils are swollen—the throat sore, and the breathing tight and difficult—these are absolute proofs of catarrh. Sometimes it affects the head, or the eyes are watery and weak-looking when the breath offensive. Catarrh, as you know, poisons the whole system. Science at last has discovered a remedy that is breathed into the throat or stomach from the nasal passages—where the nostrils are swollen—the throat sore, and the breathing tight and difficult—these are absolute proofs of catarrh. Sometimes it affects the head, or the eyes are watery and weak-looking when the breath offensive. Catarrh, as you know, poisons the whole system. Science at last has discovered a remedy that is breathed into the throat or stomach from the nasal passages—where the nostrils are swollen—the throat sore, and the breathing tight and difficult—these are absolute proofs of catarrh. Sometimes it affects the head, or the eyes are watery and weak-looking when the breath offensive. Catarrh, as you know, poisons the whole system.
