## Crerar's Criticism of Budget Draws Hot Counter-Attack Forest Fires in Northern Ontario Causing Grave Anxiety

### SIMPSON TAKES STAND ON HEVEY SLANDER ACTION

Admits Making Charges, But Claims Performance of Public Duty.

### SPRUNG ON PLAINTIFF

Yesterday, before Mr. Justice Orde and a jury, the trial was commenced of the action brought by W. J. Hevey, former secretary of Toronto and District Labor Council, against James Simpson for \$10,000 damages for alleged slander and libel. Plaintiff alleges that defendant, at a meeting held in the Labor Temple on Aug. 7, 1919, falsely and maliciously wrote, printed, published and spoke concerning the plaintiff in relation to his position, that he had made an application to the Employers' Association for a secret gift of bonus of \$5000, with which to treacherously serve the interests of the employers, while appearing to serve the interests of labor, and with which to attempt to ruin The Industrial Banner, official labor paper of this city.

The defendant admits the publication of the statement, but pleads that it was done in good faith, and in the performance of a public duty. A Farmer Jury. His lordship agreed to the request of Mr. Roebuck, counsel for Simpson, that those jurors who had served in the action of O'Leary against the present defendant, should not serve as jurors in the present case. Six of the jurymen thereupon left the room. Two carpenters were challenged by counsel, the jury serving being largely composed of farmers.

### FULLY 50 HOUSES WASHED AWAY

Many Bodies of Victims of Cloudburst in England Have Been Recovered.

Louth, England, May 31.—Twenty-seven bodies of those who lost their lives Saturday night in the sudden cloudburst which washed away many houses, and many persons are missing, also unofficial estimates still place the death toll at about 50. At least 10 houses were washed away and a thousand others damaged. Upwards of one thousand persons have been rendered homeless. The damage is variously estimated up to £200,000. The waters of the river have subsided.

Premier Lloyd George sent a message to the mayor of Louth, asking what assistance the government could render. The fury of the storm, which caused the overflow of the Louth, centered about Louth, but it swept across the country, its track being from North Wales to Sarosphen, thence to Lancashire, and Lancashire and subsequently to Cambridgeshire, where it exhausted its fury. Floods were experienced in many districts. Numerous cattle were drowned, and much material damage has been reported.

### BRITAIN HELPLESS TILL IRISH DECIDE

Lord Reading Says There Must Be No Departure From British Principle.

London, May 31.—The Earl of Reading, speaking in regard to the Irish question today at the Aldwych Club, an Anglo-American organization, said: "No British ambassador has ever gone to the United States without the intense desire in his heart to announce to the American people that the Irish problem has been solved, but with the faculty which seems to accompany the Irish question, fulfillment has always been dashed from his lips. Lord Reading added that until the Irish reach some agreement on self-government, it is difficult to see what can be done. He declared there must be no departure from the British principle that Ireland cannot sever herself from Great Britain, and England cannot allow Ulster minority to be coerced.

### SPECIAL CONGRESS TO DECIDE

London, May 31.—A meeting today of the "triple alliance" made up of the railway men, miners and transport workers, passed a resolution which was referred to the laborite parliamentary committee, urgently requesting the convening of a special trades union congress to decide on what the attitude of labor shall be toward the production and the handling of munitions for Ireland and Poland.

### FOREST FIRES ARE RAGING IN MANY PARTS OF TIMISKAMING

Smoke Palls Hangs Over Whole North Country, and There is No Sign of Needed Rain.

Cobalt, May 31.—Forest fires are raging in many parts of Timiskaming, according to reports here tonight. The sawmill, west of Hillview, owned by John McChesney, has been destroyed, together with the winter's cut of logs, and other mills are believed to have been burned. Conditions are particularly bad in the Timmins, Keelo, Bourkes, Boston Creek and Elk Lake branch of the railway districts and a heavy pall of smoke hangs over the whole country. There is no sign of the badly-needed rain and the fires are being fanned by a steady breeze.

### CUMBERLAND'S FOREST FIRES ARE STILL RAGING FIERCELY

Damage Will Reach Million Dollars, It is Estimated—Twelve Thousand Acres Burned Over and Three Mills Destroyed.

Hullfax, May 31.—The forest fires in Cumberland county raged all day, and were still burning tonight. Twelve thousand acres have been burned, three mills destroyed and the property loss so far is half a million dollars. River Hebert, with its population of 1000 people; Two Rivers, Shulee, San River and Maccan, are all in imminent danger tonight of the flames from the forest holocaust that has endangered this particular section of Cumberland county. Twelve thousand acres of land, the major portion covered with standing timber, has been converted into a desert of charred and scorched timber. The sea of green that covered the foothills of the Cobecoquids in this district is today covered with smoking debris and ashes.

Lumbermen today stated that the loss which has been taken into account would equal half a million dollars, and that after the fire burned itself out the damage would exceed one million dollars. Two valuable stationary mills and a large quantity of logs and sawn timber went up in flames today. The fire is now raging up thru the Maccan Woods and is only about three miles distant from the settlement on the main line of the railroad. At the same time it is fighting back against the wind toward the shore line.

A committee was formed to send at once blankets and other such supplies which are in the Red Cross stores, with a further assurance of financial assistance pending a report to the situation.

### DEFER DESIGNS AGAINST PERSIA TO A LATER DATE

Bolsheviki Instead First to Conquer Armenia, Georgia and Baku.

### PATRIOTS BY ACCIDENT

London, May 31.—It seems probable that serious Bolsheviki designs against Persia are not intended until after the hoped for overthrowing of Georgia and Armenia and the capture of Baku are accomplished, says a despatch to The London Times, from Teheran, dated May 20.

A small Bolsheviki force from Asmara on the Caspian Sea, which demonstrated its ability in the Enzeli was bombed, was withdrawn. But the force fell among thieves in the shape of the Shahsavand, after looting their own countrymen and enemies of the government, from time immemorial, turned patriots by accident, says the despatch.

London, before September 1, stating the address to which the cross is to be sent and giving the usual particulars regarding the soldier on whose grave it is erected. This will, of course, not take place for some time, so next of kin should keep the secretary informed of any change in the address.

### CRERAR SAYS NEW BUDGET PUTS TAX BURDEN ON THOSE LEAST ABLE TO SHOULDER IT

Leader of National Progressives, in Commons Debate, Says Fiscal Policy of Britain Would Suit Canada—Donald Sutherland Charges Crerar With Drawing Two Salaries While a Unionist.

Ottawa, May 31.—(By Canadian Press)—Formal notice that he will move for a holiday in the commons for celebration of the King's birthday on Thursday, was placed on the order paper by Sir Robert Borden tonight. The motion is expected to go thru on an unanimous vote of the house tomorrow. The senate will probably adopt like action.

### HOLIDAY IN COMMONS ON KING'S BIRTHDAY

Ottawa, May 31.—(By Canadian Press)—The budget debate is drawing to a close. A tacit agreement has been reached between the two sides of the house to terminate it tomorrow night if possible, but the best-laid plans of whips are apt sometimes to run astray. Today Hon. T. A. Crerar, one-time minister of agriculture in the Union government, now leader of the National Progressives, was the principal speaker. Tomorrow Hon. W. L. Mackenzie King, leader of the opposition, will continue the debate. Mr. Crerar's main criticism of the budget was that its whole object was to place the burden of taxation on the shoulders of the man least able to bear it. On the broad question of protection and free trade, he declared that the Canadian Council of Agriculture did not stand for absolute free trade, as so many seemed to think. It stood for placing on the free list such articles as the implements of production needed for the development of natural resources.

### REGULAR BANDS DECLINE TO PLAY WITH 'MUSHROOMS'

T.M.P.A. Considers Salvation Army and Other Competition Unfair. PARK PROGRAM UPSET. "The Band That Plays in the Park," altho the title of a song, is a summer event that is looked forward to by Toronto residents and children. The bands engaged by the city council for the present season should commence their performances tonight, but in all probability eleven of the bands will be out on strike if the threat contained in a letter received from the Toronto Musicians' Protective Association by the parks committee of the council is carried out. The association objects to certain bands, which they term mushroom bands, being employed by the council, and among the bands objected to is the Salvation Army Band.

In the letter sent by J. Weatherburn, secretary of the Toronto Musicians' Protective Association, to the council, Mr. Weatherburn states that he writes on behalf of the bandmasters and bands attached to the various regiments and the G.W.V.A. of the city, and who are members of the T.M.P.A., to advise the council that the bands who are members of this association will be unable to accept the parks department. After a few remarks on the Russian situation, Mr. Weatherburn states that his association decidedly objects to bands which spring up from time to time and are nothing more than mushroom bands, being encouraged to enter the competitive field with military bands. The letter bands, he claims, render a service to the city which would be very well be dispensed with, and ought to have every possible support. The same objection was made by Mr. Weatherburn. (Continued on Page 2, Column 1).

### ATTACK BY SUTHERLAND.

Donald Sutherland of South Oxford, who followed, had some strong criticism of Mr. Crerar. He charged that while a member of the government, Mr. Crerar was drawing a salary from the United Grain Growers Limited (of which he was president), equal to his salary as a minister and his indemnity as a member of parliament combined. Mr. Sutherland claimed also that the directors of the United Grain Growers put a curious "recall" into effect by procuring Mr. Crerar's salary from \$10,000 to \$15,000 a year, "to go into effect when he dropped out of the government." Charges by Archambault. Subsequent debate continued late Joseph Archambault, of Chambly, Vercheres, claimed that the government. (Continued on Page 2, Column 2).

### FORTY-THREE DROPPED BY PRINTING BUREAU

### ARMED INTERVENTION IN MEXICO UNLESS U.S. CLAIMS CONCEDED

Washington, May 31.—Armed intervention in Mexico by the United States should the new forces in control in the southern republic show inability or unwillingness to set up a stable government more friendly to Americans was recommended to the senate today by the foreign relations sub-committee, which has been investigating Mexican affairs. Should a stable government be established, the committee recommended that full recognition be accorded it and that financial assistance be offered by the United States. The committee said, however, that there should be no recognition without a treaty safeguarding the rights of Americans in Mexico. It was recommended that a commission be named at once to adjudicate the claims of Americans in Mexico, and that the commission be made up of men chosen by the two governments, its findings to be final, should the Mexican officials fail to agree to the terms suggested, the committee suggested that we send a police force, consisting of the naval and military forces of our government, into the republic of Mexico to open and maintain open every line of communication between the city of Mexico and every sea-

### SHOULD LIMIT SIZE OF U.S. NEWSPAPERS

President of Editorial Association Says Situation Demands Drastic Action.

Boston, May 31.—The newspaper shortage was discussed today by the National Editorial Association, in annual convention here. A resolution was adopted and forwarded to Chairman Porter of the House foreign relations committee at Washington urging the passage of senate joint resolution 12, which is designed to afford immediate relief in the emergency and especially to benefit country newspapers. John Hyde Oswald of New York, in his presidential address, said "the ubiquitous profiteer is abroad in the print paper field, just as he is in many other lines of trade, and an acute situation demands drastic action."

### REGULAR BANDS OBJECT TO PLAY

(Continued From Page 1)

sections, he states, apply to the Salvation Army Band, who, so long as they confine their efforts to the work of the Salvation Army, we have the kindest of feelings, but they persistently encroach on the musicians' grounds in a manner that is decidedly unfair."

Five Bands Barred. Mr. Weatherburn, in concluding his letter, gives a list of 11 bands out of the 16 selected by the council for the summer concerts, who should be only engaged, and who are all members of the association. They are: Queen's Own Regiment, 45th Highlanders, Grenadier Guards, Governor-General's Body Guard, 120th Regiment, Toronto Regiment, 10th Irish Regiment, Imperial Regiment, G.A.I.V., G.W.V.A. (Parkdale) and Mississauga Horse.

The association further claims that all the above bands comprise men who have rendered war service. The members of the parks committee exercised considerable annoyance at the latter and Alderman P. M. Johnston about summed up the general view when he declared that the latter was a great impertinence and the musicians had no right to come to the council to object to the Salvation Army band, which probably had more returned soldiers in its ranks than any other military band in the city.

Will Engage Others. After a brief discussion on the committee unanimously resolved to make no change in their program of music for the season and instructed the council to mission that in the event of any of the engaged bands declining to perform to engage others to take their place so that the public might not be deprived of their music.

The bands association objected to the Musicians Association or the Salvation Army, the Parkdale Band, the Rosedale branch of G. W. V. A., the Mississauga (15th Batt.) Regiment and Imperial Concert Band.

W. J. Reid who recently received the city's refreshment park tenders, was given the privilege of checking garments in High Park. The privilege will cost him \$405 per year.

The Ontario Educational Association has forwarded a resolution heartily approving the establishment of a botanical garden in the city and urging co-operation between the city, provincial government and the university authorities in the matter. The committee expressed sympathy toward the project but making it understood that such sympathy did not mean money.

When Alderman Mrs. Hamilton introduced a motion respecting the regulation of "modern" dances Alderman Beamish asked her if she meant those dances which were "slightly immoral" according to religion. As no one asked the alderman to explain his meaning it was left at that and the subject dropped.

Westmoreland Methodists Hold Annual Rally. Toronto west district of the Epworth League held its annual rally at Westmoreland Methodist Church, last night with over 800 members present. Rev. Mason Boyle gave an excellent talk to the young people, entitled "10 o'clock in the Morning."

Twenty-two leagues were represented and a beautiful silk Union Jack was presented to each of the two leagues having the largest percentage of members. The missionary treasury reported an increase of over \$1000 on last year's receipts.

The district is now supporting 16 missionaries, 11 of whom are located in China. Letters were read from three of the Chinese missionaries.

The following officers were elected for the ensuing year: Hon. president, Rev. A. J. Paul; president, J. T. Erwin; 1st vice, W. Hampshire; 2nd vice, Miss Ella Lightfoot; 3rd vice, R. G. Tompion; 4th vice, R. Burx; 5th vice, Miss Hazel Hill; secretary, Miss Lillian Wright; treasurer, H. Price; missionary treasurer, Miss H. Sheppard.

VIMY POST, G.A.C. HOES LONELY ROW. Amused and surprised was the attitude of Doublin Organizer J. Fred Marsh, G.A.V. relative to the feeling of Vimy Post, G.A.C., Montreal, against the amalgamation of the G.A.C. with the United Veterans. This, at least, was Comrade Marsh's attitude, expressed in an interview with "The World."

He stated that Vimy Post, G.A.C. was composed mostly of ex-army officers and others opposed to the gratuity scheme, and had practically become a defunct because it had paid no dues for nearly a year. "The official result of the referendum in the Dominion," said Comrade Marsh, "was 95 per cent. in favor of amalgamation."

### YORK COUNTY AND SUBURBS WOOL MARKET IN UNSETTLED STATE

Price Not So High as Last Year, Say Co-operative Growers.

The wool market at present is in a very unsettled condition. The World was informed yesterday, in making inquiries regarding the progress of the Canadian Co-operative Wool Growers' Association, who have completed another store to their storage building at Weston, for grading their north-western Canadian wool. The price of wool is not as high as last year, and it was believed this would be a raise. It was explained, however, that the price of wool from the farmers' point of view has very little to do with the price of clothing. A suit of clothes of an ordinary citizen would be asked \$30 for in the past and a month ago contained only three or four pounds of curdled wool. A single fleece contains only eight or nine pounds of wool in the raw state, the present price being from \$1.10 to \$1.15 per pound. Nobody is selling and nobody is buying. Besides the new Weston grading addition for the western wool, the other Canadian grading branches of the Canadian Co-operative Wool Growers' are as follows: Ontario wool, at Gasquet Fair building, Quebec; Nova Scotia; New Brunswick, Fredericton; Prince Edward Island, Charlottetown; and there is grading done in conjunction with other associations at Truro and Antigonish.

Johnston presided, and there was a large attendance.

### DENIS MCCARTHY DECIDES TO RESIGN

Secretary York Township Amalgamated Ratepayers for Division of Control.

Denis McCarthy, secretary of the Amalgamated Association of York Township Ratepayers, has tendered his resignation owing to pressure of private business. In conversation with "The World" yesterday Mr. McCarthy said, after three years of successful executive work in connection with the organization he felt that it was more than he could do to keep pace with his other private business engagements, unless with assistance. He was given careful consideration to the needs of the township, as put forward by the delegates of the various associations, both in the east and the west and he arrived at the conclusion that the western and eastern sections have their own problems to solve and that two separate amalgamated bodies would be more satisfactory for the ratepayers residing east and west of Yonge street.

The western section, Mr. McCarthy pointed out, has already to a large extent secured its water and lights, which the eastern district is yet waiting for. Co-operation and united action has achieved much for the various sections during the three years of the central organization's existence, but two central bodies would accomplish more. Mr. McCarthy paid a tribute to the work of the York Township Council, which, in his opinion, is endeavoring to meet the needs of the people as far as possible.

Loretto Alumnae Hear Mrs. Devine of Ottawa. Mrs. Robert Devine, Ottawa, was a special guest of the Loretto Alumnae Association, at their annual meeting yesterday. Mrs. Edmund Kelly, president of the alumnae, presided and summarized the activities of the year. Other guests were the alumnae graduates of the year, the Misses Gertrude Walsh, Dorothea Cronin, Kathleen Costello and Frances Redmond. The same officers were retained for another year.

Pratt, chairman of the board of governors, and members of the Union of Steam and Operating Engineers, regarding the demands. Mr. Pratt made a counter-proposition, which the hospital engineers rejected. The chairman agreed to call a special meeting of the board for Wednesday.

### HASSAN INQUEST HAS OPEN VERDICT

(Continued From Page 1). The murdered man's body was later found, and that Adosey had expressed himself as satisfied that Hassan was not there.

Could Not Answer. "Can you tell the jury why Adosey seemed so anxious to find Hassan, and why he was so interested in digging for him?" asked acting County Crown-Attorney Snyder. "The detective could not answer this."

Snyder then asked further questions regarding Adosey's interest in the case, winding up with: "Was there anything suspicious about Adosey?"

"Well, I thought I saw more about the case than he told us," answered Bayne.

Arzhaman Sellin, on taking the stand, was asked if Hassan had told him Adosey owed him (Hassan) any money. Sellin said that Hassan had said that Adosey owed him \$460.

In nearly all murder cases within recent years in this city, foreigners have been involved. I think that the immigration authorities ought to exercise more care in letting them into this country. ## TRACES EVOLUTION OF CHRISTIANITY

Rev. S. G. Bland Forecasts New Era of Tolerance and Brotherhood.

Rev. Dr. Salem G. Bland's new book, "The New Christianity," just published, is the epitome of historic idealism of that new sense of Christian democracy which is fast superseding the old order of orthodoxy, exemplifying as it does the running of old waters in an entirely new channel, in other words, the substitution of democratic toleration for the ancient and limited ideal of hell fire and brimstone and all that it implies.

This new history, past, present and future of the Christian movement in civilization, deftly traces the movement thru the days of autocratic government by kings; this superseded by the even more autocratic government by the barons and nobles and on thru the still later stages of procedure, when Protestantism was looming on the horizon as the deliverer of the world from an almost intolerable era of bigotry and cruelty.

Must Co-operate or Fail.  
The book then continues its treatment of the Christian evolution, until finally it reaches the stages of essentially democratic ideal, in which the two forces in the social fabric of the world, labor and religion, must work in harmonious co-operation or fall together into ignominious oblivion.

Perhaps this is most apparent, it points out, in the newly-awakened conviction of what may be termed American Christianity, the movement which has many ramifications, has many interests, and is undoubtedly the most tolerant of all the phases thru which the movement has passed. This is the lesson of Dr. Bland's great work, the reaction of Christianity from the repressive bigotry and intolerance of a past age into the sublime mission of tolerance and all embracing love, as yet but a small glimmer on the horizon, but soon to assume the proportions of a star of great magnitude in the firmament of religions.

FURTHER RULINGS  
ON LUXURY TAX

Certified Cheques, Affidavits  
and Duplicate Entries  
in Vogue.

The Toronto storekeepers are due to  
make their luxury and sales taxes re-  
turn today and to pay up the amounts  
they have collected for the govern-  
ment.

The detailed information for hand-  
ling the returns were received from  
Ottawa yesterday. The local collector  
was advised that until complete plans  
are matured covering the collection  
sums remittance of these taxes he is to  
be governed by the following instruc-  
tions:

The taxes are to be divided into  
three classes, namely, luxury manu-  
facturers' and sales taxes, and the  
return on each must be shown sep-  
arately. The luxury taxes will be col-  
lected as already stated, on the 1st  
and 15th of every month and the  
manufacturers' and sales taxes on the  
1st of every month. Entries for luxury  
taxes must be sworn to and shall be  
accompanied by the duplicate sales  
slips or invoices to which the entry  
refers and also an accepted check or  
cash for the full amount of the tax  
payable.

Entries for the manufacturers' and  
sales taxes must also be sworn to and  
shall be accompanied by a sworn  
statement of the manufacturer or  
wholesaler as to the total amount of  
sales shown by his books and a cer-  
tified statement of the chartered  
accountant in his employ. These re-  
turns must also be accompanied by a  
certified cheque or cash for the full  
amount of the tax payable.

All entries are to be filled out in  
duplicate by the persons paying the  
tax. A temporary entry form for the  
taxes is to be used pending the re-  
ceipt of regular forms. The sworn  
declarations called for by these in-  
structions may be made before any  
inland revenue officer, including tem-  
porary officers and officers of cus-  
toms, a commissioner of the supreme  
court of the province or a justice of  
the peace.

Checking by Department.  
Upon the receipt of a tax entry  
the collector must also receive trans-  
mit one copy of the same to the de-  
partment of inland revenue with all  
statements, sales slips or invoices  
relating to each entry firmly attested  
thereby. The collector must also cer-  
tify of the sales slips will be  
done by the department and any cor-  
rections or enquiries that may be  
necessarily will be made before any  
other correspondence, the instructions  
state.

For the present ledger accounts  
need not be opened for each person  
paying a tax. The ledger is to be  
at an early date all necessary books  
will be supplied according to sugges-  
tions received.

Partly important rulings have  
been made. The sales tax of one per  
cent, it is ruled, applies to all sales  
of lead, copper and zinc when sold  
by a producer as well as when man-  
ufactured or wholesaler. Silver and  
gold, however, when sold by a pro-  
ducer, are exempt.

Repairs Not Taxable.  
Bona fide repairs made for con-  
sumers or users are not taxable ex-  
cept in the case of repairs to fur-  
nitures. The latter are subject to  
the luxury tax if the cost for re-  
pairs is over \$75. Sheep linen vests  
are exempt from luxury tax. Sales of  
houses or real estate by auctioneers  
are not subject to the sales tax.  
Articles placed with antimony are  
subject to the tax on platedware, when  
used for household purposes.

Canadian raw leaf tobacco sold by  
the cultivator is not subject to the  
sales tax of one per cent, nor are  
raw hides sold by farmers. But sales  
by manufacturers or wholesalers to  
consumers are liable to the sales tax.

Chinaman Used Knife  
And Heavy Fine is Imposed  
In the sessions yesterday, Harry  
Chow, a Chinese restaurant man, was  
fined \$300 by Judge Coatsworth for  
assault committed upon a woman  
in a restaurant. The woman, who  
was injured, was the wife of the  
party. According to Skein a dispute  
arose over the price of a meal which  
he had consumed at the accused's  
restaurant. The Chinaman attacked  
him with a knife, first in the shop  
and twice afterwards on York street,  
whenever he followed. The Chinaman  
said his cash register had been de-  
stroyed before and that he decided to  
be ready for the next one who at-  
tempted a similar proceeding. Hence  
his use of the knife on this occasion.

and a son, share equally in the estate

Hogg, valued at \$19,417.  
Under the will of the late Mrs.

who, along with the youngest son,  
a granddaughter of the deceased, are

at \$18,125.  
Under the will of the late Val  
Hornibrook, an insurance in-  
spector, made on the day of his death, and  
upon which the estate was to be mar-  
ried, the deceased directed that the  
wedding presents were to go to  
Miss Winifred Beaumont, Glen Wil-

Hughes directed that his estate, val-

maintenance of his widow and three  
children until the youngest should

widow is to inherit absolutely.

estate left by the deceased Joshua  
Smith, are his two sons and two

PEARSE FAVORS  
PLENUM SYSTEM

School Finance Committee  
Approve Heating Advocated  
by Architect.

If the board of education should  
ever again make the mistake which  
some of its members claim has been  
made in the past in regard to the  
heating system or systems which from  
time to time have been placed in the  
schools, it will not be for want of in-  
terest and discussion on the subject.  
Yesterday almost the entire meeting  
up with the hearing of and discussion  
of the report of the delegation which  
went recently to the United States  
to investigate systems in their schools.  
Mr. Pearse gave the report of the  
findings in detail, the summary be-  
ing in favor of the Plenum system.  
At a former meeting held by the pro-  
prietor committee, Mr. Pearse had re-  
ported as in favor of the system and  
it was this report that the finance  
committee had also to decide upon or  
against.

Dr. Noble pointed out that it was  
a very important question, and that  
on former occasions the city had lost  
over a million by putting in wrong  
systems. He pointed out that in the  
schools which already have the sys-  
tem under consideration installed, if  
a window is opened the system is  
spoiled. The speaker went into de-  
tails and then declared that "what  
is an expensive fraud and failure."  
School boards in the States were  
sometimes appointed by the mayor  
and many on the board had sales in-  
terest. Dr. Noble also quoted Dr.  
Waugh (provincial inspector, as not in  
favor of the plan. He moved that the  
committee vote against the adoption  
of the system. Despite this Mr. Pearse  
wished to be recorded as still in favor.  
Mr. Doughty, chief engineer was de-  
claredly opposed, the expressing  
himself as ready to do what the board  
wished. He quoted the Bank of Tor-  
onto which has the most expensive  
plant in the city and which has been  
found to be "no good."  
Dr. Hunter at first demurred about  
supporting Dr. Noble's resolution, on  
the grounds that if experts differed  
as to the merits of the system, how  
could laymen have an opinion. Miss  
Boulton said she would like to get  
more information on so important a  
matter before deciding. In the end  
the resolution against the system was  
carried. It will be thrashed out by  
the board.

It was announced that in accordance  
with the wish of the king, Thursday  
will be a holiday for the schools.

MEASLES EPIDEMIC  
THROUGHOUT PROVINCE

Over Two Thousand Cases  
Reported With Forty-  
Five Deaths.  
The reports of communicable dis-  
eases for the province for the month  
of May show the epidemic of measles  
has increased. Of the 3763 cases of  
communicable diseases reported,  
there were no less than 2264 cases of  
measles with 45 deaths. If measles are  
eliminated, the increase in all the other  
diseases are only a little over 400,  
with practically the same number of  
deaths as in the corresponding month  
of last year.  
Diphtheria, which has been preva-  
lent in some localities for some  
months, shows a marked decrease in  
the death rate from 15.2 in 100 in  
February to 11.5 in May.  
Scarlet fever caused three more  
deaths, while the cases are eight less.  
The deaths from influenza, infan-  
til pneumonia and primary pneu-  
monia are nine less than in May, 1919.  
For venereal diseases there is a de-  
crease in the number of cases reported  
by the medical officers of health.  
This may be attributed to some ex-  
tent to physicians who do not comply  
with the regulations, and fail to make  
reports of the cases they may have  
knowledge of.  
One death from sleeping sickness  
was reported from McKillop township,  
Huron county.

that the Canadian Pacific gave be-  
tween its Yonge street station and  
Leaside, both ways, also of the regu-  
lar shuttle service given morning and  
evening by the Canadian National  
Railways between the same.

The World hasn't any doubt but  
that a daily belt line service over the  
Canadian Pacific and Grand Trunk  
around Toronto would be a real boon  
to these thousands, and pay the rail-  
ways; also, that the railways owe it  
to the public to give such trains.  
The C.P.R. ran two trains carrying  
over 1,700 people to the Thorncliffe  
race track; the C.N.R. carried 365  
people who work for that company at  
Leaside. They carry this number  
every day, twice a day. The C.P.R.  
could do this work better than the  
C.N.R. and run, starting, say, from  
New Toronto, via Lambton, West Tor-  
onto, Dufferin, Bathurst, Avenue  
road, Yonge street, Leaside and Agin-  
court.

The Grand Trunk could complete  
a belt line service by running over  
its tracks from Agincourt, via Scar-  
bore Junction, East Toronto, Wood-  
bine avenue, Riverdale, Don, Union  
Station, Dufferin, Bathurst, Avenue  
road, Yonge street, Leaside and Agin-  
court. Citizens and suburbanites who want  
to see such a belt line service should  
send representatives to Mayor  
Church's conference, to be called at an  
early date to arrange for a motion  
picture such as service before the  
board of railway commissioners.

CANADA NAVY LEAGUE  
WANTS NAVAL POLICY

The second annual meeting of the  
Dominion Council of the Navy League  
of Canada will be held at the King  
Edward Hotel on Wednesday, June 2.  
The council is composed of the presi-  
dents of the provincial divisions, and  
it is expected that the meeting will  
be represented by two or more dele-  
gates. The immediate necessity for  
the introduction of an adequate naval  
policy for Canada will be one of the  
outstanding questions to be consid-  
ered. The matter of a broader  
system of educational work in regard  
to the development of sea trade routes  
and maritime commerce will be taken  
up, as well as the question of methods  
of obtaining sufficient funds to look  
after the relief claims, which are pour-  
ing in from dependents of those lost  
at sea. In this regard, the council will  
discuss the advisability of a big cam-  
paign this fall to raise enough funds  
to meet the demand. The sessions  
of the Dominion Council will be open  
to all members of the Navy League.

PROVINCE SUCCESSFUL  
WITH SALVARSAN

The provincial board of health au-  
thorities stated yesterday that the  
manufacture by the province of sal-  
varsan has progressed so favorably  
that in three weeks they will be able  
to supply all demands. Experiments  
with it in the prisons and reformator-  
ies have given good results, and show  
the proportion to be equally as good  
as German manufacture. Clinics to  
be supplied free with salvarsan will  
be opened at once in London, Ottawa,  
Bramford, Windsor and Toronto. The  
province, in addition, will give a grant  
for equipment besides a per capita al-  
lowance for all cases of venereal dis-  
eases treated.

HOUSEBREAKERS SENTENCED.

In the sessions yesterday, Judge  
Coatsworth sentenced Robert Dey and  
James Hewitt to six months in jail,  
and Joseph Parker to three months  
in four charges of housebreaking and  
theft. His honor also directed that  
each of accused should receive dur-  
ing their incarceration four spankings  
of five slaps each.

REFORMATORY AND LASHES

In the county police court yesterday,  
Magistrate Brunton sentenced Albert  
Edward Locke to one year in the On-  
tario Reformatory for a serious of-  
fence. His honor also decreed that  
the prisoner should receive ten lashes  
at the end of the first month of his  
confinement, and ten more lashes at  
the end of the second month.

MORE DISPUTES  
IN LABOR WORLD

International Body Resents  
Employment of Canadian  
National Hoisting Men.

While the dispute has not as yet  
reached the stage of calling any men  
off the job, the alleged refusal of the  
superintendent of the Wallace avenue  
job of the Peter Lyle Construction  
Company to discharge the hoisting  
engineer, who is a member of the  
Canadian National Union, and replace  
him by an international man, has  
caused friction which may not be set-  
tled for some time. Officials of the  
International Union of Steam and  
Hoisting Engineers stated to The  
World that the superintendent had  
been approached by the representa-  
tives of the Building Trades League  
in the matter, and that he had prom-  
ised to take on an international man  
on Monday, but that at half-past one  
on Monday, when the international  
man came on the job he found no  
work, the former hoisting engineer  
being still on the job.  
"Let me say this to the officials of  
the Canadian Hoisting Engineers,"  
said Frank Dennis to The World,  
"they do not need to go around mis-  
leading superintendents of jobs by  
telling them that international men  
are not employable. It is only natural  
that when all the others on the job  
are international men, the hoisting  
engineer should also be an inter-  
national."

Mr. Dennis stated that the interna-  
tionals had no quarrel with the  
Peter Lyle Construction Company it-  
self. The officials of the Canadian  
Hoisting Engineers practically cor-  
roborated the statements of the in-  
ternational officials that the superin-  
tendent had refused to take on the  
international man when he presented  
himself at the works. The matter  
may be taken up further by the  
building trades council.

STREET RAILWAYMEN  
HAVE NO FAITH

Rather Smile at Possibilities Aris-  
ing Out of Situation  
to Date.  
"Do you think it will be incum-  
ber upon the street railwaymen to  
accept the award of the board of con-  
ciliation which is to arbitrate the  
grievances of the men between now  
and June 15?" ex-Controller Robbins,  
secretary of the union, was asked yester-  
day afternoon by The World.  
"Oh, no," was his quick reply.  
"Do you think that the decisions  
of boards of conciliation regarding  
street railwaymen in other cities will  
have any bearing upon the Toronto  
situation?" asked the reporter.  
"No, I agree that conditions in other  
cities like London and Bristol are so  
entirely different as to form no  
criterion for Toronto. In Toronto we  
do as much work collecting fares and  
driving the cars as street car men  
in the cities would do in an entire  
day."

Replying to The World the secre-  
tary of the union stated that he had  
received no word of any proposed  
mass meeting, and that had one been  
considered he would be one of the  
first to know of it. While he assumed  
an attitude of much hope, the men  
themselves are apparently deter-  
mined to fight hard for their 85 cents or  
75 cents at the minimum. William  
H. Moore has been selected by the  
Toronto Railway Company as its re-  
presentative on the board. The men  
themselves decide upon their selec-  
tion at a special meeting to be held  
in the Labor Temple tonight.  
The schedules in operation in dif-  
ferent cities in America are in part  
as follows: London, 85, 65 and 65  
cents an hour; Hamilton, 38 to 52  
cents; Ottawa, 42 to 55 cents; Lon-  
don, 44 to 52 cents; Toronto, 50 to 65  
cents.

PRIVATE HOSPITAL  
AGAIN ADVOCATED

For Fourth Time, Property  
Committee Recommend  
Scheme to Council.  
On three occasions the committee on  
property of the city council has passed  
a recommendation for the estab-  
lishment of a private hospital at 71  
Grosvenor street, and on three occa-  
sions the council has turned it down.  
For the fourth time the committee  
yesterday passed the same recom-  
mendation, and it will be interesting  
to note what action the council will  
now adopt.  
The committee had a long sitting  
yesterday, but the principal business  
concerned with the erection of gar-  
ages—erection, pulling down or turn-  
ing round. In one case, Mr. McPherson,  
the late provincial secretary in the  
Ontario government, appearing in  
behalf of a client before the commit-  
tee. A long argument on points of law  
ensued and brought forth from Ald.  
Baker the remark that he possessed a  
thinking cap of his own and that  
the committee wanted justice and no  
law.

On an application for the erection  
of an apartment building at the south-  
east corner of Avenue road and St.  
Clair avenue, Controller Maguire sug-  
gested the matter be deferred for two  
weeks for the owners to produce plans,  
which could easily be made in that  
time. Mr. Starr, who was one of the  
deputation in favor of the erection of  
the building, said the controller's sug-  
gestion was an absurd one. The con-  
troller denied this, and said if the  
plans were given to the council's archi-  
tected department they could be prepared  
in the two weeks. (Cheers.) In the  
end, the matter was left over to take  
a vote of the district.  
The St. Michael's Hospital authori-  
ties were given permission to use  
wood sash frames instead of metal in  
the new nurses' home they are build-  
ing. This concession will save the  
hospital an expenditure of \$18,000.

JAIL FOR SHOPLIFTERS.

Two eighteen-year-old youths, Walter  
Irwin and James Alexander, were  
sent to the jail farm for four months  
yesterday by Magistrate Kingsford  
for charges of shopbreaking. Alexander  
"bet his boots" that he  
would not stay at the jail farm, and  
while Mr. Corley suggested that an-  
other judge order a spanking in  
such cases, a magistrate thought  
there was no law to justify such a  
proceeding.

RUSH TO PAY TAXES.

There were so many people at the  
city hall yesterday afternoon paying  
their taxes that the powers that be had  
to open a relief office in the woman's  
court and install five tellers to relieve  
the pressure.

COAL SITUATION  
IS DESPERATE

"Despair rules the coal situation today,"  
says "Coal Age" in its Weekly Review of May  
27th. "Production," it says, "is again on the  
decrease" and "Consumers are calling for coal  
that the mines cannot ship."

"Every anthracite shipper is now on a new  
price basis." "The fixing of hard coal has added  
85c a ton to the wholesale prices of the leading  
sizes, with a ten cent monthly addition be-  
sides." "Stocks of bituminous are running  
dangerously low." "Chicago faces fuel  
famine, dealers are supplying their domestic  
trade in half-ton lots."

These facts are startling. The press has  
only awakened to the seriousness and is warn-  
ing the public of the dangers of a fuel famine.  
With the fuel situation so desperate in United  
States, on which country we are dependent for  
fuel supplies, what will be the condition here  
this fall and winter?

Can you answer this question?  
In September and October it will be too  
late to start to think about it. Now is the time  
to protect yourself. The Fuel Administrator  
has asked co-operation to assist him to avert  
the threatening distress, and our Company is  
doing its best—but it can do more, if you will  
co-operate with it now.

The new Oakal plant at the foot of Booth  
Avenue will be ready to turn out twenty tons  
of briquettes per hour in August, if not sooner.  
This plant is the finest in America, and will  
produce the best fuel ever mined or manufac-  
tured in America. They are spending over  
\$100,000 to make it so, and will operate two  
units at 20 hours per day each to turn out fuel  
for you and others, if you will assist them in  
the effort to instal the second unit on a cash  
basis, as they are installing the present unit.  
This Company has scores of carloads of coal  
dust on the ground now; hundreds of tons are  
to arrive each week. They can increase this  
to thousands per week, if you will get in with  
them now. (While the coal supply is scarce  
there are mountains of this coal dust waiting  
for this Company).

Today Oakal stock is selling for \$5.00  
per share. The Company has unencumbered  
assets double the value of the stock already  
sold—and therefore Oakal stock will sell  
within sixty days for \$10.00 per share, on the  
basis of only 200 tons—in ten hours—output;  
and on the basis of only 50 cents per ton profit  
—Oakal dividends will be at least 20 per  
cent., which will make the value of the shares  
\$15.00 each. On a basis of \$1.00 per ton  
profit, dividends will be at least 35 per cent.  
But producing 400 tons daily in 20 hours,  
figure out the dividend values, and the multi-  
plied value of Oakal stock!

OAKAL is the Best Coal Substitute on  
the market—The reports of Fuel Testing Sta-  
tion at Ottawa prove it; the report of a New  
York Fuel Expert Engineer; tests made at the  
Queen's Hotel, Toronto; tests made at the  
Windsor Hotel, Montreal; tests made at the  
Chateau Laurier, Ottawa; tests made by Mor-  
ris, Armour and Guggenheim Packing Com-  
panies at Chicago; and hundreds of tests in  
Toronto all prove it.

The City representatives from Saskatoon  
reported to the Council of that City that "Oak-  
al briquettes were equal to, if not superior to  
anthracite coal." Surely this is evidence en-  
ough for you to protect yourself for your  
winter's fuel supply, and to make a hundred  
or a few hundred dollars invested in Oakal  
multiply their worth. You do not have to be  
a shareholder to secure OAKAL, but being a  
shareholder insures your supply, and insures  
dividends and multiplied value on your invest-  
ment.

TUESDAY MORNING, JUNE 1

Dear England.

Is there consolation or exasperation in the story that living is only the merest shade dearer in Canada than in England? Comparison between lists of things that average people use is said to show only a dollar's advantage to the English family.

These statements, given out by a Canadian government official, might have been elaborated. There is a great difference between the price of English-grown and those of Canadian and Danish bacon, because government control was removed from the English bacon, and was continued on imported bacon.

Here, for instance, is a big advertisement offering stocks of jam at prices that will save twenty-five per cent. as against the predicted cost of this season's product, the sugar in which, it is asserted, will cost twenty-eight cents, and the total manufacturing cost of which will average forty cents per pound.

Provocative illustrations of the revolt of certain brands of public opinion against certain exercises of constituted authority are furnished from Winnipeg and Atlanta. Leave has been given to a representative of organized labor in Winnipeg to visit St. John's Mountain Penitentiary to obtain the signature of a convict there to his nomination for election in the Manitoba legislature—which means that R. B. Russell is prepared, if elected, to take the oath of loyalty to King and constituted authority, which membership of a Canadian legislature involves.

A citizen yesterday asked The World two questions concerning the budget: Is gas a manufacture? Is a bet a luxury?

This citizen called The World's attention to the editorial in the current issue recording the paying of four cents sales tax on a bag of lawn fertilizer, and asked whether the Gas Company is going to pay the government one per cent. on all its sales, without mentioning the matter to its customers.

Asked whether he wanted an extra one per cent. on his gas bill, he said he certainly did not, for he was already being ungenerously treated in the matter of discount. He used to get ten per cent. off the full cost of the gas, whereas, with a rise in price of twenty per cent., the discount has been reduced fifteen per cent.—as a little arithmetic will show this is 15 per cent. less than 10 per cent.

These are questions easier to ask than for hurried budgeters to settle. It is not a mere irritation to put them into print—except so far as all budgets that impose new taxation are first-class irritants. Sir Henry has been asked a levitating pebble into our pool, and the resultant circles seem to have no bound.

What New Jail Philosophy? The time is approaching for a new philosophy of jails and jail deliveries. In Windsor last Saturday evening, a large and insistent company of citizens attended at the city hall, where a McLean was detained on a charge of being disorderly, and used their persuasion so mightily that the chief of police released the McLean.

This is said to be the first time in Canadian history that a release by intimidation has happened—certainly in the staid east. Whether it is to be regarded as a phase of the Americanization of the Border Cities does not yet appear; but it does seem to indicate that jail-keeping is tending to become a matter of local option—that where a considerable body of public opinion declares that a legal offence should not be treated as a social offence, the offender should be given his liberty.

"HOME FROM THE CITY, FARMER JOHN"

garded as a phase of the Americanization of the Border Cities does not yet appear; but it does seem to indicate that jail-keeping is tending to become a matter of local option—that where a considerable body of public opinion declares that a legal offence should not be treated as a social offence, the offender should be given his liberty.

In Atlanta prison, Debs, in stripes, listened to an address notifying him that he is a party's candidate for the presidency of the United States. Debs is serving a sentence of ten years for hostility to his country's share in the great war.

Things like these mean something to the bodies politic of Canada and the United States. But few are bold enough, and still fewer are wise enough, to be sure they know all they portend.

Queenings Today.

It is freely remarked in certain exalted quarters that it is no cinch to be a queen, or an ex-queen, of whom there is now quite a stock in the world. Something startling in regal information is cabled from Holland. The ex-queen of Prussia (also the German ex-kaiserin) is reported to be sick from over-exertion during the furniture-moving from Amerongen to Doorn; and the doctor has ordered her to take as much rest as possible. There is a lovely touch about that "as much rest as possible." The matronly Augusta Victoria's exertions as a spring flitter cannot be entirely ended till the household gods are straightened out, the pictures are hung, and the kitchen outfit has been properly placed. There is a disadvantage in this toil, because friend husband has a short arm, and short arms are not conducive to swift picture hanging and squaring stuff around.

In Rumania they have the handsomest queen in this present generation. She is a grand-daughter of Queen Victoria, and therefore, cousin of the tired housewife of Doorn, and knows what it is to be hustled out of her country. The awkward question about it is asked at Ottawa—whether Rumania has paid the first instalment

of interest on the money Canada lent her to buy Canadian goods with. The Rumanian queen has been negotiating with a movie producer, but she wanted more money than the director would pay, and so she must go on writing the inside story of her son's marriage, as the result of German intrigue during the war, and other stories such as majesties used to keep to themselves.

The Queen of Spain is another grand-daughter of Queen Victoria, and first cousin of King George, as well as of William Hohenzollern, Esq. Her majesty adorns the most punctilious and self-exalting court in Europe. But lately this younger Victoria visited Seville and sat generalizing for over an hour in a very popular cafe, while thousands of her subjects gaped and huzzaned outside.

And there you are—one ex-queen tires herself almost to death moving

themselves discussing contracts and sitting in plebeian places so that they won't have to move home. News is eagerly awaited of what is happening to the ex-queens of Austria, Hungary, Wurtemberg, Saxony, Bavaria, Greece, Bulgaria, Montenegro, Portugal (it is a little difficult to remember whether all the kings now in exile had queens when their throne-rooms were swept and garnished). Until they are heard from it can be assumed that they are getting along as well as can be expected. Meantime, the lady who is said to be the national soothsayer of Austria predicts that within a year royalty will be at all the old European states, including Paris.

Federal Customs Receipts Advance During Two Months

Ottawa, May 31.—(By Canadian Press).—An increase of \$11,815,018 in the customs receipts for the Dominion for the first two months of the fiscal year, which ends today, as compared with the same period last year, is shown by customs department returns. For the two months of April and May, 1919, the customs receipts were \$23,639,490, while for the same two months this year they totaled \$35,454,508.

BECK HITS BACK AT A. B. INGRAM

Later's Sympathies Declared to Be Consistently With the Corporations.

London, Ont., May 31.—"Mr. Ingram is at liberty to have any opinion of me he sees fit," said Sir Adam Beck today, referring to the statement of A. B. Ingram of the Ontario Railway Board, reported in a Toronto paper Saturday, that the man is crazy and you can tell him I said so. "He has known for some years my opinion of him as a member of the Ontario Railway Commission, and his attitude on many occasions in matters affecting the public. While a member of the government, I had ample opportunity to become convinced that his sympathy was invariably and consistently with the corporations."

"The remarks attributed to me by Mr. Ingram, I presume, have reference to what occurred a week or so ago, when in a very heated way, he accused me of being a blocker and a knocker. I asked him whether he referred to my opposition to increased fares at Windsor and the city council's opposition to increased fares in the city of Toronto."

"I think the attitude of the railway board in declaring the London Street Railway a bankrupt company, if not crazy, certainly ridiculous. The railway board in its report values the London Street Railway at \$1,400,000."

"One difference between Sir Adam Beck and A. B. Ingram is that while the one is a faithful servant, the other is an hireling," said Vice-Chairman Philip Poock of the London and Port Stanley Commission today, referring to the published statement credited to Mr. Ingram. "Sir Adam is called crazy; well, there is one quotation that apparently fits it: 'It is this—by their fruits ye shall know them.' The public can judge for itself the accomplishment of the two men."

Mr. Poock also stated that the reference made by Mr. Ingram regarding the fares on the L. & P. S. is not strictly correct. "The fares on this no labor to it, lower than those charged on the electric lines of the C.N.R. and the C.P.R.," said he.

"The rates on the London road are reasonable and they will compare well with those of any other road," he added.

Expect a Thousand Delegates At Good Roads Convention

Alberta Crop Conditions Are Reported "Very Fair"

Calgary, May 31.—The most of the wheat in Alberta is seeded, there are still a number of districts that are behind, the reports indicate that this will be finished this week. Out seeding varies from 20 to 70 per cent., seeded with other coarse grains about the same. In many places the early wheat is up and the conditions generally throughout the province are very fair. High winds are prevailing everywhere, in some cases doing considerable damage. The general outlook, however, is optimistic.

THE GIRL WHO SMILED THRU

By MARION RUBINCAM

AN UNFORTUNATE INCIDENT.

Chapter 98. "Alice, oh Alice!" Clara called across the street. "But Alice walked on. She had not even heard. "Now that's queer," Clara remarked to the girl who was with her. "That's the first time Alice Fairbanks has acted absent-minded. She didn't even hear me. I wondered, what the trouble is?"

The two girls turned into the post office together and went to the main window. Other girls were standing about, reading letters or in line waiting for them, and there was the pleasant feeling of expectation in the air that is always so noticeable when mail is due, or a train or boat is about to arrive.

"She was reading a letter and was awfully absorbed," the other commented. "It must have been from a man."

"Yes, she was reading. Oh, is this all?" And Clara took the single letter the clerk handed her, trying to look indifferent as she glanced at the handwriting.

"Well, you got a gray letter too," her companion remarked, glancing curiously at the envelope Clara held, and scanning the post mark.

"Too!" Clara questioned indifferently. She wished she had not run into this other girl, she wanted to be alone. Her letter was from Lawrence and she wanted to read it.

"Yes, Alice had a gray letter—that's what she was so absorbed about."

"Oh," she was wondering how she could get rid of her companion without being rude. She did want to be alone to read her letter.

"But she did not lose the girl so easily. They walked back to Joyce's together, the undesired comrade chattering cheerfully and little guessing the harm she was doing."

"So your letter is from New York," she remarked. "I didn't know you knew anyone there."

"Yes, several people," Clara fibbed. "You see, I'm going there in a few weeks for the summer, to learn more about running a children's specialty shop."

"I'm sure I don't know," Clara answered so curtly that she stopped all further questions.

After the girl had left, she tore open Lawrence's letter and read it eagerly, sitting on the steps of her porch and unmindful of the chill that crept into the spring air as the sun went down.

It was a long chatty letter. Lawrence told her, as he had told Alice, of concerts and theatres; he mentioned several shows that would run all summer, probably, and that he would take her to see when she came on.

"I've found a nice place where you can live," he wrote. "You probably have heard Alice mention Christine, her room-mate when she was at college. I saw that young lady, who can be very amusing when she wants to be, and she knows several of the college girls who are going to take a summer course and who are renting furnished apartments over the warm weather. They can get them cheaply because so many people go away to the shore and rent at low rates rather than carry their apartments at a dead loss. You can stay with two girls who are taking a small place."

"I'm sure I don't know," Clara answered so curtly that she stopped all further questions.

## CHEVROLET WINS FIVE HUNDRED MILE AUTOMOBILE SPEED RACE

### Going Over Eighty-Eight Miles Per Hour, Second Best in History of Great Contest at Indianapolis.

Indianapolis, May 31.—In the most spectacular finish ever witnessed on the Indianapolis speedway, Gaston Chevrolet, driving a car of American design, rode to victory in the eighth renewal of the 500-mile automobile race today, before a record-breaking crowd of 125,000 persons. Chevrolet's time was 6:40:16.14, an average of 88.16 miles an hour, the second best time in the history of the event. In addition to winning the \$20,000 first prize Chevrolet also won approximately \$5,000 more in lap purse competition and cash prizes offered by accessory firms. Thomas was second, 6:48:02.23. His average was 87.45 miles an hour.

Tommy Milton pulled up in third place and Jimmy Murphy, winner of the Santa Monica road race, finished fourth.

All of the thrills came in the last thirty miles of the race, when Ralph De Palma, the favorite, with a lead of ten miles to his credit, seemed certain of winning, but with victory in his grasp. De Palma's car burst into flames on the north turn of the two and one-half mile course, and a few minutes later, the car driven by Joe Boyer, who led during the first 250 miles, skidded, overturned and crashed into a brick retaining wall.

De Palma was seriously injured. The accident, which snatched victory from De Palma, was tragic. The Italian was racing at breakneck speed, and the flames locked his way to his gasoline tank. While the mechanic heroically fought the flames, De Palma, broken-hearted over the accident, undaunted, resumed the grind, but after going a mile his car was again wrapped in flames. De Palma quickly extinguished them and managed to reach the finish line. He was given a tremendous ovation when he thundered across the finish line.

Misfortune trailed De Palma from the start of the race. He had the favored position at the home of the race, but the starter caught him unaware, and he was among the last to get away. Then,

### BRITISH LADY WINS.

Paris, May 31.—Andre H. Gobert and William H. Laurentz yesterday won the international men's double tennis championship in straight sets. The scores were 6-4, 6-2, 6-1. Their opponents were Nicholas Mishu of Rumania and Blackbeard, 18-year-old South African player, whose remarkable game has caused experts to consider him a possibility for coming events in tennis.

In the women's games, Miss Holman, British, won the finals in the ladies' championship singles from Sonnetta Sabarera in straight sets, 6-0, 7-5.

Miss Golding and M. Laurentz, France, won the mixed doubles championship by default. Miss Ambrard was injured and unable to play with her partner, Max Decouis.

### SPENCER BEATS KRAMER.

Newark, N.J., May 31.—Frank Kramer was beaten for the first time this season in a match cycle race at the Yvelon-drome yesterday when Arthur Spencer of Toronto took his measure in two out of three heats of a mile match. The Toronto boy showed all sorts of speed and took the second and third heats after Kramer had won the first.

### ST. CHRISTOPHER WINS THE MIDGET TITLE.

At Central Y.M.C.A. Saturday night was played one of the fastest games of the season when St. Christopher's midget team defeated Bellefair, with a score of 20 to 13.

Moore and McKnight for Bellefair played excellent ball, but were weak on shooting. The St. Christopher quintet played well together and it would have been impossible to single out any individual stars. Posen dropped in 6 out of 8 foul shots.

This was the first season for both teams, and all who witnessed the game are looking for big things from these boys next year.

St. Christopher—Forwards, Lister (2); centre, Posen (8); defence, Batteries—Barnes, Douglas and Smith; Manaux and Millan.

## DOUBLE DEFEAT IS HANDED TO DUFFY

### Colts Make It Three Out of Four From Leafs—Failed to Hit.

Rochester, N.Y., May 31.—(Special.)—Rochester made three out of four today's double-header from the Maple Leaf, making three out of four for Irving in the afternoon game. The afternoon game was a tight battle, ending until the last half of the ninth innings, when, after Bowen had singled and been sacrificed to second by Matthews, a short fly to right centre by Hollahan, Bowen romped, Bader and Spencer and fell between Bader and the winning run, which gave Rochester a three to two victory.

The afternoon game was marked by frequent disputes in which the members of both teams participated. In one of these, Riley aroused the ire of the Leafs, and was put out of the game. Toronto had several chances to win in the afternoon game, but sharp fielding and inability to hit Acosta when hits meant runs, and sensational work at the initial bag by Rodriguez, Rochester's first star batter, prevented them from doing so. ### NOT MONEY, HEARTS DESIRE OF CHURCH

Rev. Russell MacLean Pleads for Continuity of Historical Downtown Church.

A most enjoyable function was held in the hall of Garrison Church, corner of Portland and Stewart streets, last evening, the occasion being a social and supper tendered by the male members of the church to the ladies. Ex-Ald. John McBrien occupied the chair and there were about 150 present.

Assistant Bishop Reeve spoke on the spirit of life to the congregation and the great necessity of holding up before the people of the present day the banner of a Christian character.

R. W. Allen spoke in relation of the congregation to the great work of the church. He considered too many congregations were marked with too narrow parochialism, each samll one living for itself, and he advised that to get the best results, all must unite in the work throughout Canada.

A Historical Past. Rev. J. Russell MacLean, minister of the church, reminded those present that St. John's Church had a historical past. It had been built to meet the spiritual wants of the military, who were at one time stationed close by; and he earnestly urged that there was as much need just now for the church in the district as ever there was and asked all present to help bring about this result.

A splendid musical program of music was rendered by the Band of H. M. Army & Navy Veterans, under the baton of Mr. H. Chessell. In addition there were a number of songs and musical renditions, which were much enjoyed by those present.

The male attendants, under the capable direction of Mr. Tom Proctor, performed their catering duties in a most creditable manner.

AMPUTATIONS WEAR BIG BRIGHT SMILE. Tag Day Receipts Top Thirty-Five Thousand Dollars, Not Including Cheques.

Those who were responsible for the organization of the Amputations' Association "Fragments from France" campaign were wearing a splendid smile when it was announced yesterday that the tag day receipts were \$35,000. This figure, it was stated, was the largest ever secured on the streets of Toronto in a tag day, the nearest figure to that being \$29,000.

The grand total of \$35,000 does not include several large cheques. These, added to those which the special subscriptions committee are out for, will, it is hoped, make the final figures at least \$20,000 more. With this amount it is thought the endowment will be sufficient to carry on the club without further appeals.

"If the good people of this city could only see how grateful the men are, if they could only know what their great generosity has meant to these men, they would feel amply repaid for making the day such a success," said one of the women officials. This spirit prevailed everywhere yesterday among the workers who were so loyal to the maimed and blinded soldiers.

### JAPAN WILL RENEW BRITISH ALLIANCE

Considers Pact Desirable as a Negative Instrument for Peace.

Tokio, May 31.—The cabinet has decided to open negotiations for a renewal and revision of the Anglo-Japanese alliance which Great Britain is said to be willing to maintain with modifications, according to The Yomi-Uri Shimbun.

Marquis Shigenobu Okuma, former premier, has issued a statement saying that altho the downfall of Russia and Germany has removed the original positive reasons for the alliance, the uncertain conditions in China and Siberia and the agitation on the part of the Mohammedans of southern Asia make a renewal of the pact desirable as a negative instrument of peace.

On resuming in the afternoon, Ken McKay, reporter with The Star, said that his recollection was that Hevey had said to him in answer to a question if he had any objection to The Star publishing Simpson's statement, that he had no objection.

Walter Redpath, a pattern maker, who was present at the employers' meeting in substance corroborated the evidence given by Davies. He had been shown an affidavit made by some other person in regard to the matters in question and he agreed that its terms were all right.

Heid Radical Views. To Mr. Lucas, witness said he held radical or progressive labor views. In this category he placed Simpson. Hevey and O'Leary he classed as moderates. Witness was in favor of political action, but opposed to direct action.

Witness admitted that he had no personal knowledge of the fact stated in his affidavit that Hevey and O'Leary had made a canvass of the manufacturers personally and had got the money.

Mr. Barker, in the employ of the Dominion Shipbuilding Company for three years, when shown cheque was asked: "Do you recognize this cheque?" when Mr. Lucas objected to the line of evidence, but after a long argument the judge allowed the question.

Witness then answered the question in the affirmative and stated that the cheque was endorsed by The Labor Leader. He said it was not an unusual thing for his company to subscribe to labor papers.

Considers Pact Desirable as a Negative Instrument for Peace.

Tokio, May 31.—The cabinet has decided to open negotiations for a renewal and revision of the Anglo-Japanese alliance which Great Britain is said to be willing to maintain with modifications, according to The Yomi-Uri Shimbun.

Marquis Shigenobu Okuma, former premier, has issued a statement saying that altho the downfall of Russia and Germany has removed the original positive reasons for the alliance, the uncertain conditions in China and Siberia and the agitation on the part of the Mohammedans of southern Asia make a renewal of the pact desirable as a negative instrument of peace.

On resuming in the afternoon, Ken McKay, reporter with The Star, said that his recollection was that Hevey had said to him in answer to a question if he had any objection to The Star publishing Simpson's statement, that he had no objection.

Walter Redpath, a pattern maker, who was present at the employers' meeting in substance corroborated the evidence given by Davies. He had been shown an affidavit made by some other person in regard to the matters in question and he agreed that its terms were all right.

Heid Radical Views. To Mr. Lucas, witness said he held radical or progressive labor views. In this category he placed Simpson. Hevey and O'Leary he classed as moderates.

Witness admitted that he had no personal knowledge of the fact stated in his affidavit that Hevey and O'Leary had made a canvass of the manufacturers personally and had got the money.

Mr. Barker, in the employ of the Dominion Shipbuilding Company for three years, when shown cheque was asked: "Do you recognize this cheque?" when Mr. Lucas objected to the line of evidence, but after a long argument the judge allowed the question.

Witness then answered the question in the affirmative and stated that the cheque was endorsed by The Labor Leader. He said it was not an unusual thing for his company to subscribe to labor papers.

PETERSON ANNUAL QUITE EXCITING

Interesting Wrangles Between Shareholders and Company's Officers.

One of the most interesting meetings held in the city for a long time was that annual of the Peterson Lake Company held yesterday in the Royal Bank building.

Sam Forst started the trouble by objecting to the adoption of the minutes. These, he claimed, referred to him having been named as one of a committee to go into the previous auditors' report.

President Lampert, heatedly: "You are the only one in the company that talks about dirty work and the only one capable of dirty work."

To this Forst retorted that he had sold out most of his stock, and this prompted Chairman Lampert to offer to buy any he held left at the present market price.

J. McCausland: Oh, go on with the business, Mr. Chairman, this man Forst is temporarily insane on Peterson Lake affairs.

The president followed by a lengthy explanation of the financial statement showing how the item of \$60,000 for 400,000 shares of treasury stock came into the assets.

Another shareholder, Mr. McCabe, challenged a vote endorsing the report of the directors near the close of the meeting and demanded the eyes and ears.

Secretary Goff, who weighs about 400 pounds and stands over 6 ft., Mr. McCabe excitedly remarked, "You don't know your business."

Mr. Goff, who was sitting on the opposite side of the table, raised his ponderous figure to full height and in a stentorian voice shouted, "What's that? What's that?"

Director Carter complimented the company on the past year's business and the deal made with the Dominion Reduction Company for the treatment of the 220,000 tons of slimes at cost plus 35 cents a ton.

It was hoped that the company would receive \$200,000 for its slimes and there were good prospects of getting other ore on the property.

The old board of directors was re-elected.

### Delay Is Dangerous

—Particularly with regard to Fur Storage. To make sure of the safe preservation of your fine furs, phone Main 7841, Women's Fur Department, and have our driver call for them. Throughout the hot summer months they will be kept in our Fur Storage Vaults, where a dry, freezing temperature will not only protect them, but will enhance their lustre and value.
