SAY DEMPSEY'S CHANCES SLIGHT

Carpenter's Sparring Partners Enthusiastic

Champion Frets Under Idleness and Takes Secret Road Run—More Heavy Hitting in the Big Baseball Leagues

Manhasset, N. Y., June 2—Sparring partners who have entered the ring for workouts with Carpenter decided today that Dempsey's chances of winning were extremely slight. Jack Goldberg, a welterweight from Panama, declared he never seen such a powerful right hand.

Sam McVey, a negro heavyweight, bore out the statement concerning Dempsey's condition on July 29. Jack Dempsey today began to show indications of cracking under the spell of his enforced four days of idleness.

Baseball. New York, June 2—Two major league players making four hits in one contest yesterday, were Bancroft of the New York Giants and Barabre of the Boston Nationals.

Kelly, of the New York Nationals, made his ninth home run, tying Meusel for the league leadership. Babe Ruth is setting the major league with 16.

Toronto, June 2—At a meeting of the executive of the Royal Canadian Association yesterday, it was decided to rescind the new stymie rule as adopted by the U. S. Golf Association and revert to the old stymie rule used by the Royal and Ancient Clubs of Great Britain.

Golf Championship. Turnberry, June 2—With both Canadian entrants eliminated, and spectators from the U. S. also out of the running, the British women's golf championship narrowed down today to a contest between old country players in which Miss Cecil Leitch, the present champion, remained a strong favorite.

Coronation Cup. Epsom Downs, June 2—(Canadian Associated Press)—The Coronation Cup race today was won by Silver 11 to 4 with Abbott's Trace 109 to 7 second and Blum Dun 3 to 1, third.

St. Cloud, June 2—Wm. T. Tilden, of Philadelphia, world's grass court tennis champion, defeated Mrs. M. Janet Jackson, Irish champion, defeated Mrs. M. MacBeth, of Hesketh, at the 19th hole.

Excavation progress is being made in the pavement work at Douglas avenue. More than 300 feet of sidewalk have been excavated and the task of re-setting curbstone began this morning.

A very small section of Europe, that is commanding so much attention at present. It produces one-eighth of the world's coal, and is immensely rich in iron. Bismarck once said: "The country that controls Silesia controls Europe."

Germans Attack French Forces But Are Held In Check

More Serious Situation Develops in Upper Silesia—Presence of Polish Insurgents Complicates Matter.

Oppeln, June 2—French soldiers forming the garrison of Beuthen, a city in Southern Silesia, near the old Polish frontier, have been attacked by forces organized by the German inhabitants of the town. Reports state the Germans in the fighting numbered 8,000.

The French have used tanks in charging on the Germans, and said to have gained the upperhand in the battle. There have been many German casualties, it is reported, but the French have not suffered losses.

The situation at Beuthen is complicated by the presence of Polish insurrectionary forces around the city. The Poles began a fight with Germans in the outskirts of the town on Sunday, and when the French were attacked the Poles rushed to their assistance.

German dead and wounded have been removed from the scene of the fighting. Tanks were rushed to the scene, and the Germans, who were armed with pistols, attempted to capture the machines, but were repulsed, and were driven into adjacent buildings from the windows of which a hot fire was opened.

Members of the Black Watch, constituting a part of the British forces sent into Silesia, have reached Stoborz, about six miles northwest of Gross-Strehlitz, and Polish sentries are on duty only a short distance away.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornebeam, "what is an addend?" "Aint you got that wrong?" responded Hiram.

THE JUNE BRIDES

Maritime Provinces Must Get Fair Deal

Representatives of New Brunswick, Nova Scotia and Prince Edward Island Tell Government Relief Must Be Granted

Ottawa, June 1—Representatives of New Brunswick, Nova Scotia and Prince Edward Island in interviewing Premier Meighen and his colleagues today left him with no loop hole for misunderstanding as to what recent railway developments and freight rate increases are doing to the industries and business of the maritime provinces.

Want Monotonous Headquarters. They also asked that the management should be centered at Moncton so that it would be in close touch with the needs and problems of the maritime provinces.

Hon. F. B. McCurdy, minister of public works, introduced the delegation and the Hon. K. E. Finn spoke on behalf of the delegation first and then introduced in turn Hance J. Logan, Ivan Rand, representing the New Brunswick government, H. R. McLellan, secretary of the Commercial Club, St. John, and W. S. Fisher, president C. M. A., St. John.

W. S. Fisher said that during the last forty or fifty years there had grown up a large number of industries depending very largely through the lack of home markets on marketing their products in Quebec, Ontario and the great west.

H. R. McLellan. H. R. McLellan quoted the Hon. George Brown as saying to Ontario that the rejection of the plan to build would leave the people of Ontario a prey to

Peebles, 99, Quit Flesh  
Meat at 39.

id Worry, Have Strong  
ll, Keep Calm," His Ad-  
e to Those Who Would  
e to Ripe Age.

ages, Cal., June 2.—Dr. James  
eebles, physician and author,  
long ago celebrated his 99th  
anniversary and who wrote a  
"How to Live a Century and  
4 Gracefully," ascribes his long  
age measure to abstinence from  
flesh. Dr. Peebles stopped  
meat when he was thirty-nine  
years old. He wrote his book on  
the living when he was sixty-two.  
what he considered the greatest  
cause to his long life he in-  
cluded:  
"Later came telegraph, telephone, rail-  
roads, electric lights and machinery,  
cannot strengthen life by living

on death. I cannot bear the idea of  
eating dead cows and dead hogs; and  
it is not necessary. See how strong are  
horses and oxen; they do not live on  
dead flesh." Other rules he made for  
himself and which he said he believed  
had helped him to reach his advanced  
years included:  
"Go to bed every night at 8.30. Out  
of bed every morning at six. Never use  
tobacco. Never use intoxicating liquors.  
Never complain.

"Avoid all worry and keep an har-  
monious mind. Worry is among the  
worst things in the world. Have a  
strong will-power. Always look for the  
new. Keep calm."

On his 99th birthday, Dr. Peebles  
walked erect only occasionally using a  
cane; his sight was good although he  
used spectacles for reading; his hearing  
"as good as ever," and his appetite and  
digestion he declared excellent. His  
long white beard and hair gave him a  
truly venerable appearance.

Asked what his plans for the future  
were he replied:  
"To live a number of years more and  
to write at least another book. This  
will be on the progress of Christianity  
as it is preached, showing how preachers  
are leaving hell fire, brimstone, purgato-  
ry and many other old-time dogmas  
behind.

"What a variety of mighty changes  
since my birth!" he exclaimed. "Napole-  
on then had just died on the Island of  
St. Helena; old 'Hickory Jackson,' as he  
was then called, had just been elected  
president of the United States; Ohio  
was then a budding state and the great  
west was dotted with Indian wig-  
wams.

"Later came telegraph, telephone, rail-  
roads, electric lights and machinery,

wireless flashes on ocean and land, air-  
ships sailing through the skies and au-  
tomobiles dashing madly across the con-  
tinent.

"There is life in everything. Crush  
the acorn to earth and the germ looks  
toward the mountains. In every marble  
block there is an angel's form awaiting  
the sculptor's chisel. God is good. There  
is no absolute evil in the universe, be-  
cause God made it."

Dr. Peebles was born March 23, 1822,  
at Whittingham, Vt., and was graduated  
from Oxford Academy, Chenango  
County, N. Y., in 1841. He has traveled  
around the earth five times.

PROPOSAL TO TAKE  
OVER S. AMERICAN  
PACKING HOUSES

The Undertaking Would Cost  
Uruguay, Argentina, Brazil  
and Paraguay \$100,000,000  
— Mostly Controlled by  
Foreign Capital.

Montevideo, Uruguay, May 3.—A pro-  
posal that the governments of Uruguay,  
Argentina, Brazil and Paraguay take  
over by expropriation the packing houses  
in those countries has been made by a  
committee of the Uruguayan House of  
Representatives.

Most of the packing houses in those  
countries are controlled by foreign capi-  
tal, a large part of which is North Amer-  
ican. It is estimated that the total  
cost of such an undertaking would be  
over \$100,000,000 and that the cost in  
Uruguay alone would be \$22,000,000.

The committee recommended that a  
convention of delegates of the four South  
American countries be held to arrange  
joint action and suggested the issuance  
of domestic and foreign loans to raise  
the funds necessary to acquire the pack-  
ing houses.

It is proposed by the committee that  
the establishments be placed under the  
control of directors comprising cattle-  
men and government officials in the re-  
spective countries. Another directorate  
would be formed of government repre-  
sentatives who would control the man-  
ufacturing of the products abroad and fix  
prices, acting jointly in all of the four  
nations.

THE LEAGUE OF  
NATIONS' SOCIETY

(Canadian Press Despatch.)

Ottawa, June 1.—Pursuant to the reso-  
lution passed at the inauguration of the  
League of Nations Society last night  
the nominating committee then appoint-  
ed met today and took steps towards  
completing the organization.

The following vice-presidents were  
nominated: The lieutenant-governors of  
Ontario, Quebec, Nova Scotia, New  
Brunswick, Manitoba, British Columbia,  
Prince Edward Island, Saskatchewan,  
Alberta, Right Hon. Sir George E. Fos-  
ter, Right Hon. Charles J. Doherty, and  
Hon. Newton W. Rowell, K. C.

It was decided that the members of the  
nominating committee should transmit  
to the president not later than June 15  
a list of the persons whom they suggest  
as members of the general committee of  
the society.

Sealed Tight Kept Right

Still 5c  
WRIGLEY'S has steadily kept  
to the pre-war price. And to  
the same high standard  
of quality.  
No other goody lasts so long  
—costs so little or does so  
much for you.  
Handy to carry—beneficial  
in effect—full of flavor—  
a solace and comfort for  
young and old.

Sealed Tight—Kept Right

Your unfailing Assurance of a Mattress  
both Sanitary and Built for Sleep

WHEN a woman finds herself nagged by a  
lingering doubt as to the cleanliness of the  
average mattress—she is often nearer the  
truth than she knows.

There are no Dominion-wide pure bedding laws.  
Nothing to prevent mattresses from being made in  
sweat-shops or disease-ridden tenements. Nothing to  
stop anyone from "remaking" old, dirty or infected  
mattresses and selling them for new.

Nothing but the conscience and intent of the  
manufacturer.

Here is a situation that comes  
home to every man, woman and  
child in the Dominion.

For your guidance—here is the  
Label of Simmons Limited.

This Label is your unfailing sign  
of a Mattress built of pure, clean,  
new cotton.

A mattress built in great sun-  
flooded work-rooms.

A mattress sealed in a carton  
roll at the work-rooms—delivered  
sealed to your dealer—and never  
opened until you take off the seals  
in your own home.

Pure, clean mattresses, new  
through and through—and built  
for sleep by Simmons Limited,  
originators of Beds, Springs and  
Mattresses built for sleep.

Mattresses resilient, luxurious.  
Built for sleep.

Ticking of the best.

Stitching and tufting close, firm,  
uniform.

Roll edge.

These pure, clean, new Simmons  
Mattresses are made in four  
styles, distinguished by  
Labels of different  
color

Blue Label—\$35 Green Label—\$19.50  
Red Label—\$25 White Label—\$12.75

There is not a woman of sanitary  
ideals anywhere but will welcome  
this news.

To your dealer it means as much  
as it does to you.

Between yourself and him, as-  
sured sanitary quality takes the  
place of doubt and questioning.

And in your own home, to every  
member of your family comes com-  
plete ease of mind.

Canada has no Pure Bedding  
Laws—but Simmons Limited has!

GOES AGROUND

Montreal, June 2-Soon after leaving  
her dock here last night for Rio De  
Janeiro, the freighter, Canadian Seignior,  
3655-ton net, of the C. G. M. M., ran  
aground in the river. The accident is be-  
lieved to have been due to faulty steering  
gear.  
Captain R. E. Tedgord, marine super-  
intendent of the C. G. M. M., said it  
would be necessary to lighten part of her  
cargo. It is not thought that the ship has  
suffered any material damage.

JOSEPH A. SULLIVAN

On Wednesday morning, June 1st,  
1924, occurred the death of Joseph A.  
Sullivan, youngest son of Mrs. Elizabeth Sullivan  
and the late Daniel Sullivan of Kouchibou-  
guac. Deceased, though only in his  
thirtieth year, had been ailing for some time  
and recently underwent treatment in  
Hotel Dieu Hospital, Chatham, and  
later in Moncton General Hospital, yet  
death claimed him in his early life and  
comes as a severe and sorrowful affliction  
on his immediate relatives and  
friends.  
Surviving him to sustain their great  
loss are his aged mother, six brothers,  
and four sisters. The brothers are Wil-  
liam of Victoria, B. C.; Daniel, John  
Charles and James, all prosperous resi-  
dents of Kouchibouguac. The sisters are  
Mrs. M. Connor of Harcourt, Mrs. J.  
McLaughlin of Grand Falls, Mrs. W. A.  
Culver of St. John, each of whom pre-  
vailed to marriage taught school for sev-  
eral years in the public schools of New  
Brunswick. Another sister, Mae, wife  
of T. J. Mulhern, general merchant at  
Grand Falls.  
Mr. Sullivan was a well educated  
young man of excellent qualities, had  
travelled extensively and conversed  
readily on all topics of public and social  
interest. This, together with a cheer-  
ful and kindly disposition, made him a  
lovable companion and won him many  
warm friends, who sympathized deeply  
with his sorrowing relatives. The fune-  
ral will take place on Friday, 3rd inst.,  
interment being in the family lot beside  
the body of his father, who died about  
1900.

THE BUSINESS COLUMN

EDITED BY MANSFIELD F. HOUSE (Continued)

Claim Retail Slogans Overrated.  
Most advertising slogans, and especially those used by retailers, are used so far as expressing the central thought behind a business is concerned, and worse yet, because they are seldom remembered.  
That at least, is the belief of some members of the Indianapolis Advertising Club, and that opinion was based upon a vast investigation which was made a while ago.  
Somebody wanted to know whether slogans, even after being repeated in advertisements for many years would associate the slogan with the name of the store. So a list of slogans was prepared, and only those were selected which have been used in advertisements. This list was handed out to a group of members of the Advertising Club. They were asked to write opposite each slogan, the name of the advertiser.  
Perhaps it is fair to presume that men who make their living in advertising have to be at least up to the average in the habit of reading advertisements. But very few of the slogans had impressed themselves upon the minds of the men. In many instances they did not even know there was such a slogan, though some of them had in-  
deed used it. In other cases, and not used in that of the slogan applied to a furniture store "Out of the High Rent District," slogans were credited to from two to four stores to which the slogan might apply.  
Oddly enough, the two slogans with the highest score were those of a beer location. The poorest of the slogans, apparently, were those which made reference to the price of the goods. Such loose claims, it appeared, make the least possible impression on the minds of people. In fact, made a score of exactly zero.  
3,000 Mugs a Day  
Sells Root-Beer Recozed  
R. W. Simpson, proprietor of the Palace Root-Beer stand, in Visalia, Calif., uses a revolving root-beer mug on the roof of his root-beer stand. It is somewhat suggestive of the old days when various places offered the "biggest schooner in town" for the best root beer in the place.  
A construction engineer by profession, Simpson got an idea that if root-beer were marketed in this way there would be a great volume of business from the retailers. He studied the making and then set about to fix up a bar. He had the best in the city, and he had the best in the city. Simpson fitted up a large, narrow room much the same as a root-beer bar. He had a bar, a draining tin back of the bar, but made the place spotlessly clean in his mahogany and white and shining metal and sparkling stools for his customers, clean jackets for himself and his helpers, clean walls, and clean floors.  
"Our trade seems to agree with us. There have been days when we passed for the 3,000 mark on root beer alone. Five of us are kept busy in the summer. Strange as it may seem, more of our customers are women than men.  
Advertising has been a help to the stand, as Simpson says newspaper copy to boost the quality of his patronage and to encourage the trade of women as well as of men. It helped him to get people acquainted with the merits of his product. He also has a personal card which when presented to the bar, is good for one order of root beer. These cards he and his people hand out about the country and the recipients come back. But they do not often offer the cards. They prefer to pay cash.  
Loses Only 1/4 of 1 Per Cent of Money Due.  
Every retailer will admit that there is no water-tight method of collecting bills, but up to now, according to expert opinion, one of the finest retail flower stores in the country on a credit system which he considers as water-tight as it is possible to make "em. Situated in one of the best residence districts, this pay store does a large business of more than 90 per cent credit, and the owner is content if he gets his money within sixty days.  
When the store bills are sworn off from letter duns and collection agencies and he shuns litigation, since the small amount of the average flower bill is not worth the cost of legal expenses.

PREMIER LAUDS NEW BRUNSWICK IN GOOD TALK

Hon. Mr. Foster Interviewed By Canadian Gazette

Matter of Provincial Office in Empire Capital - Advantages for Settlers Here - The Hydro Development.

(Canadian Gazette, London.)  
The Hon. W. E. Foster, premier of New Brunswick, who was in London last week, has distinguished himself by having been made premier without any long experience of the provincial parliament. Few men in provincial politics have jumped more suddenly into the front rank. The object of Mr. Foster's visit to this country is, as he explained to the representative of the Canadian Gazette, mainly to go into the matter of the province's representation in London. The former London office in Southampton Street had been closed, and the representation of the province had now an office in the Canadian Emigration Office. Mr. Foster said that he was looking over the situation to see whether it was advisable to establish a new office in London in a better position than the old one.  
Advantages Offered to Settlers.  
Speaking of the province and what advantages it had to offer, Mr. Foster said: "The province offers good prospects to those who desire to go to Canada. It is only a six days' run from this country to New Brunswick, and I cannot understand why people when they arrive to settle in Canada should make a long inland journey, when just as good advantage can be offered to them within a few hours' journey from St. John. It is true that there is some unemployment in the province, but it is confined to a few industries, and the opportunities for work along agricultural lines are abundant and the advantages are as good as ever."  
New Brunswick consumes more foodstuffs than she produces. There is therefore a good home market for all general products of the province. We can offer inducements to people with moderate means, as cleared lands can be purchased at reasonable prices in the province, and in cases where a man does not possess enough to purchase a farm, the government has available machinery for leasing part of the money on easy terms. At present, there are no sufficient to meet all requirement, and it is practically only those who are ready to take up a farm who are needed.  
"To make a success of a man must be willing to work hard; otherwise it is useless for him to come to the province. On the other hand, the man who will put his back to the world will be amply rewarded. There are many advantages which the province possesses. One is abundant railway mileage per head of population than any other province. Another point is that education, which is under the provincial government, is excellent, and there are good schools everywhere. The province has much to attract sportsmen, possessing plenty of moose and deer and smaller game, and good salmon and trout fishing."  
The Lumber Industry.  
"New Brunswick, like all sections of the dominion, in common with the rest of the world, is suffering from depression, although not so acutely as some places. Lumber is the chief industry, and in the case of other commodities, people are not buying much at present. There is a good lot of manufactured timber in stock, and it is a matter of waiting until the market recovers. The government has been able to purchase crown lands which yield from 250 to 300 million superficial feet of lumber a year. The pulp and paper industry is making progress and in a few years will have been established. They have hitherto supplied their own power from coal, but the government have now evolved a scheme for the development of water-power generally in the province. We hope by this means to feel the effects of the establishment of new mills. For years past a great deal of our raw material has been going into the United States, and the feeling the effects of the short-sighted policy which allowed their timber lands to become depleted. The wood exported from private lands, as an example, has been put on the export list of lumber a year. The pulp and paper industry is making progress and in a few years will have been established. NEARLY CRAZY WITH ECZEMA

No rest day or night for those who are afflicted with that terrible skin disease, eczema, or as it is often called, salt rheum.

GIRLS! LEMONS WHITEN THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an itching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Two More Leagues.  
More organized baseball leagues sighted for the first time last night in the horizon of the baseball world. The leagues are under the auspices of the South End Improvement League. One senior league and includes five teams, namely, the Imperial Oil team, Beavers, the Sugar Refinery team, Peter's second team and the Royals, who were last year's champions. There are teams in the junior league. The arrival of the big league in port is signalled with a certain amount of pomp and circumstance when his Majesty, Mayor Schofield, will throw the ball in the first game which is scheduled for next Monday evening on the South End grounds between the St. Peter's and St. George's.

MILLIONS WASTED BY FOREST FIRES  
(Clyde Leavitt in Conservation.)  
With the opening of another fire season, the question of forest fire losses becomes of direct personal interest to every Canadian.  
Forest protective organizations, dominion, provincial, and private, are increasing in strength and efficiency, but still the provision made is far from adequate in every forest province of the Dominion. Our average annual losses from forest fires still run into the millions of dollars. Most of these forest fires are preventable.  
To check this enormous drain upon our resources, it is necessary that the individual citizen should interest himself and make his interest felt in the matters of improved administration, and protection of our forests. Governments and legislative bodies are, for the most part, alive to the situation, but they are keenly susceptible to enlightened public opinion, and, in fact, require its support when measures are under consideration involving large expenditures or material changes in policy.  
Expenditures on forest protection should be regarded as an investment not only for the future but for the present as well. If existing merchantable timbers will be kept from destruction, for immediate use, and if the vast areas of young forest growth are to be preserved, very substantial expenditures must be incurred for this purpose and to be administered them that non-agricultural lands will be kept in a permanently productive condition.  
The forest is a crop which may be perpetuated by wise use, but which will inevitably be destroyed by unwise use. Irrefutable evidence of this may be seen over thousands of square miles in both Canada and the United States, where the forest is being destroyed, and the timber industry is being ruined.  
Educational propaganda for greater care by the general public in preventing and extinguishing forest fires is of incalculable value, and can scarcely be over-emphasized.  
It is of the greatest importance to the Canada to perpetuate the source of the raw material upon which are dependent the great timber industries of the Dominion. These industries provide em-

THE AGRICULTURAL WEALTH OF CANADA  
A table given in the report of the Dominion Minister of Agriculture for the year ending March 31, 1926, places the value of all the field crops in that year at \$1,912,912,500, and the value of dairy products at \$247,851,832. The number of horses in the country is given as 3,687,869, the number of milch cows as 3,548,487, other cattle as 6,538,874, sheep as 8,421,958 and swine as 3,940,070. Except in swine these numbers are slightly in advance of those given in the previous year and swine are quoted as more numerous than in 1925, 1916 and 1917. A noteworthy statement is that in three years of the war the Imperial War Office was supplied under the supervision of the branch of the department with hay, oats and flour to the value of \$38,623,598, representing 481,200 tons of hay, 74,495,221 bushels of oats and 984,782,080 pounds of flour, for which approximately 24,000,000 bushels of wheat were required. Another statement of special interest is that the live stock that came under the supervision of the officers of the markets and intelligence division of the live stock branch during the year was in excess of 2,800,000 head, valued at over \$200,000,000. During the year, 3,788,138 pounds of wool were graded by the branch for farmers' cooperative organizations. The dairy business is shown to have developed greatly, especially in the prairie provinces, where the output of creamery butter has increased in a decade from 5,478,394 lbs. to 25,266,711 lbs. The number of publications issued during the year by the publications branch of the department was 2,400,000, including 200,000 market reports. A vast variety of information is given in the departmental report, which details in a comprehensive, well digested way, the operations during the year of

### ENGAGEMENTS.

Mr. and Mrs. J. Murphy, of Sussex, announce the engagement of their daughter, Alice M., to Daniel McCormac of P. E. Island, the marriage to take place at an early date.

The engagement of Miss Bertha Elizabeth Higgins of this city, daughter of the late Thomas L. Higgins, to Alfred Lionel Gaudet, son of Mr. and Mrs. M. D. Gaudet of Moncton, has been announced. The marriage is to take place in June.

### CIVIL COURT CASE.

Judgment for the full amount was given this morning in a civil action brought against Vincent Dufresuis by C. Robinson, a colored man, for the sum of \$45 which it was alleged the defendant owed the complainant for board. This case arose out of an assault case the defendant having brought a charge against Robinson alleging that he assaulted him in the street. The defendant said that he was the son of the British consul in the West Indies.

### PROVINCIAL G. W. V. A. MEETING.

The Provincial Great War Veterans Association will hold its annual session in Moncton on Saturday. The delegates from the local branch who are expected to attend are N. P. McLeod, W. J. Brown, G. Earl Logan, J. G. Day, William Pink, Wm. Munro, J. Herbert Crockett and A. J. Machum. Mr. McLeod is the president and Mr. Brown the acting secretary. The morning will be devoted to a meeting of the executive committee and in the afternoon at 2 o'clock the convention will open in the City Hall.

### FOR BRIDES-TO-BE.

Miss Alice Russell was the guest of about twenty-five girl friends this evening at the home of her sister, Mrs. William Hampton, 305 Princess street, when she was tendered a novelty shower in anticipation of a happy event which is to take place this month. She received many beautiful and useful presents. The evening was spent in games and music and refreshments were served. About twenty friends called last evening at the home of Mr. and Mrs. Kyle Johnson, 181 Leinster street and tendered her sister, Miss Alice M. Murphy, a novelty shower in honor of her marriage which will take place in June. Dainty refreshments were served. The evening was pleasantly spent in games and amusements. The party broke up at midnight, after an enjoyable evening.

### LOCAL BASEBALL.

Baseball fans throughout the city should have ample opportunity of enjoying their favorite pastime this evening and tomorrow. In the city baseball league this evening St. Peter's and the Pirates will play a regular league game on the East End. The Pirates will play an exhibition game on St. Peter's diamond in the evening.

In the Inter-Society Intermediate League this evening the Y. M. C. I. nine and the Y. M. A. team will play in a league fixture on St. Peter's diamond. The game will start at 7 o'clock sharp and will continue until 8.45. The Leaks wish to challenge the young St. Paul's to a game of ball to be played on the diamond back of the High School on Friday afternoon at 2 o'clock.

## BRIEF SESSION OF CITY COUNCIL

In the absence of Mayor Schofield, who is in Ottawa, Commissioner Frink, acting mayor, presided at this morning's committee of the common council. All the other commissioners were present. Very little business was transacted.

James A. Golding wrote stating that when he purchased the Monahan house Lancaster from the city, depositing \$100, he understood there was a driveway on both sides of the house, and he was now owning the property on both sides had staked out their lines and left no driveway around the house. He asked the city take the house off his hands and return the deposit.

Mr. Bullock said that the city engineer had reported there was a right of way to the house. The matter was referred to Commissioner Bullock, the city engineer and recorder for a report.

Commissioner Thornton asked for authority to make repairs to city hall, West St. John. The only revenue from the building he said was from a motion picture show. The necessary cost was \$500. The necessary authority was given.

Mr. Thornton said that the building was in good condition. He had proposed some time ago to turn it into a school, but the proposal had met with strenuous opposition. The present revenue was about \$600 a year.

Commissioner Frink remarked the excellent approach to the building and regretted it was not on the east side. Commissioner Jones said he had a chart of the location of new fire hydrants in Lancaster, which would be installed under the direction of the city engineer and at the expense of the parish. On motion Mr. Jones was given authority to negotiate and carry out the work and report back.

Commissioner Thornton suggested that where steps encroached on the sidewalk in Douglas avenue, the steps be raised and the concrete sidewalk put under them. Under the present law Commissioner Frink said, those steps which were in existence before the 1877 fire had the right to encroach but could not be replaced if they were removed. Commissioner Frink said he would take the matter up with the engineer.

Commissioner Thornton presented a petition from the people of Charendon street for the erection of an electric light. He was given authority to arrange for the installation.

Regarding the upkeep of railway trestles at West St. John, Commissioner Bullock said his negotiations had come to a deadlock but he hoped to take up the matter with President Beatty when he is in the city.

Mr. Bullock said the report from the fire underwriters on the proposed oil tank site of the Imperial Oil Co. would not be presented until the mayors return. Adjourned.

## TWENTY-SIX IN OLD LADIES' HOME

### Annual Report of Board of Directors—Deficit in Year Smaller Than Was Anticipated.

At the annual meeting of the subscribers to the Old Ladies' Home, this afternoon, the directors reported as follows for 1920-21:

Of the twenty-five inmates in the home on April 30, 1920, two have died, namely, Mrs. Carman on July 22, 1920, and Mrs. Emily Coy, on December 31, 1920. Three ladies have been admitted during the year: Mrs. Mary White on July 27, Mrs. Mary V. Smith on January 20, 1921, and Miss Mary S. L. Black on April 8, 1921. Consequently there is one more inmate in the home than at this time last year, the hospital room as well as all the private rooms being occupied.

Investments. Several changes were made by the finance committee in the securities held by the home that resulted in slightly increasing the income as well as the par value of the investments. They also invested the money paid by Mrs. White for maintenance. The invested capital (par value) of the home is at present \$80,446.66, as compared with \$72,366.66 a year ago.

Despite the increase of the amount charged new inmates over that paid by those whose places they took, the total amount of board collected this year is slightly below the amount collected the year previous. That is accounted for by the unusually large number of amounts in arrears collected the year before. This year arrears of board were still further reduced and the amount outstanding at present is practically nil.

There was an increase of over \$900 in the amount of interest received last year compared with 1919-1920. To offset the deficits of the years 1917-1918, 1918-1919 and 1919-1920 and the expected deficit of the then current year, your directors started in June last year a campaign for contributions, with the result that \$4,408.50 was collected, against which there were expenses of \$14,796 for printing, postage, publishing, acknowledgment (10 p. c.) and Mrs. M. Ross on collecting \$391.50. There are a few small bills of expenses in this connection still to be passed and paid, and there is \$176 subscribed, but not yet received, that is not included in these totals.

General Expenses. These are less than the previous year by about \$700. There were substantial reductions under the headings "Repairs and Replacements" and "Fuel" and under "Salaries and Wages," but the reduction under the latter heading is more apparent than real, as the previous year included matron's salary and servants' wages for twelve months, while the year covered by this report included only eleven such monthly payments. There were small decreases in "Light," "Insurance and Taxes" and "Sundries" and a small increase in expenditure for "provisions."

Deficit. The general expenses for the year exceeded the income, excluding subscriptions, by \$748.69, which is much less than your directors anticipated. Since the deficit started they have been as follows:—  
 1917-1918 ..... \$ 557.86  
 1918-1919 ..... 424.80  
 1919-1920 ..... 1,600.09  
 1920-1921 ..... 742.69  
 \$3,325.82

As the net amount collected last year in subscriptions as an offset to those deficits amounted to \$4,850.54, there is a balance of \$1,524.65 remaining to apply on the anticipated deficits of the current year and the year after.

All necessary repairs have been carried out, necessary replacements made and charged to general expenses.

During the year Mrs. A. H. Hanington's resignation as a director was respectfully received and Mrs. W. White, Lady Hazen and Mrs. L. P. D. Tilley were added to the board, but later Mrs. White retired.

### POLICE COURT

The case of William Lean, charged with having beer stronger than allowed by law for sale in his beer shop, was to have been continued this morning, but was postponed until Tuesday. The beer, which was analyzed here by the provincial analyst, M. V. Paddock, was, on the request of the defence, sent to Ottawa to be analyzed.

In the case of Daniel Britt, charged with having liquor in his possession unlawfully, the defendant forfeited his deposit of \$200.

Joseph T. Elliott was arrested yesterday, charged with obtaining money under false pretences by passing bogus checks, and was before the police court this morning, but was remanded without any evidence being taken. E. C. Weyman appeared for the defence.

One man charged with drunkenness was remanded.

### FINES FOR SPEEDING.

Five automobile drivers were before Magistrate Allingham, Fairville, this morning, on charges of exceeding the speed limit. Two of the cases were disposed of, one driver being fined \$5 and the other 2. The other three cases were adjourned until Tuesday for further evidence.

There were two cases before Magistrate Dalton in Renforth last evening, and a fine of \$3 was imposed upon each defendant for violating the speed regulations on the Rothsay road.

Three automobile owners were fined \$5 each for speeding by Magistrate Joseph Thompson at Grand Bay on Tuesday. These reports were made by Constable Robert Crawford and his assistant.

### BRIDGE CONFERENCE POSTPONED.

The projected meeting of the provincial government in St. John to go into the matter of the falls bridge question, which was scheduled to have taken place here today, has been postponed on account of the fact that Mayor Schofield is in Ottawa, and G. S. Cushing, one of the shipping men interested in the question, is in New York.

### HOSE DRIVER REINSTATED.

James Dever, the driver of a city hose wagon which collided with a farmer's cart at the foot of Carmarthen street last week and was suspended by Commissioner Thornton, has been reinstated. Mr. Dever, it was said today, made good the damage done by the collision.
