VOL. VIII, No. 176

ST. JOHN N. B., MONDAY, APRIL 28, 1913

TEN PAGES—ONE CENT

COTTAGES AT \$12.50 A MONTH

The Times on Saturday printed a picture of brick cottages in Brantford, Ontario, which were built to rent at \$10 per month. In the heading over the picture the rental was incorrectly said to be \$12. The picture which is presented today shows a better class of cottage renting at \$12.50 per month. These houses have six rooms and bath. There are three rooms downstairs and three upstairs. The buildings are partially built of concrete or brick and partially of wood. There are many people in St. John who would be very glad to get a self-contained cottage like one of these at \$12.50 per month. If in Brantford, why not in St. John?

FIRST BAND CONCERT IN SQUARE MAY 5

The Sons of England Band have volunteered to open the band concert season by giving a free concert in King Square on the evening of May 5. Their offer was accepted with thanks by the city commissioners this morning. The band has secured club rooms in St. James street and they will be formally opened tomorrow evening on which occasion the mayor and commissioners have been invited to be present.

CONDENSED DESPATCHES

Bryson, Que., April 28—W. Johnson, governor of the County of Pontiac jail, here, died yesterday of apoplexy. He was 70 years old.
Woodstock, Ont., April 28—Thos. Cudmore, aged twenty-three, of Dunbar, was sentenced to two years in Kingston Penitentiary with forty lashes for a crime against Myrtle Duncan, fourteen years of age.
London, April 28—Miss Francis Margaret Harper, the first woman to receive such honor, has been granted a diploma in tropical medicine and hygiene. It is granted jointly by the Royal Colleges of Physicians and Surgeons.
Baldwin, Wis., April 28—Two trainmen were killed and a dozen injured last night when a passenger train on the Omaha road collided head-on here with an extra freight.

SURVIVORS OF FIRE WHICH DESTROYED THE PENOBSCOT HAVE REACHED NEW YORK

New York, April 28—Elerica, survivor of a fire which destroyed the American Bark Penobscot on March 23 at Conception, Uruguay, reached New York today on the steamer Vaara. They said that the fire started while the vessel was at dock, loading a consignment of bones for Philadelphia.
The bark was a total loss and the crew were sent home by the United States consul, leaving Captain Grace behind to look out for the owners' interests.
The Penobscot was of 964 tons and was owned by John E. Emory of Boston. She sailed from Campbellton, N. B.

Trains in Collision

Quincy, Mass., April 28—Several Italian workmen and two passengers were badly cut and bruised in a head-on collision today on the west Quincy branch of the New York, New Haven & Hartford railroad. It was said that the accident was due to a misunderstanding of signals and a heavy fog. The locomotives were shattered.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. E. Sturtevant, director of meteorological service.
Synopsis—Several depressions exist on the continent, the most pronounced of the series covering the middle Atlantic states. Rain has fallen heavily in the peninsula of Ontario, while a few local showers are reported from the maritime provinces and snow buries in Alberta.
Showery
Maritime—Fresh southeast winds, showery tonight and on Tuesday.

NEW EQUIPMENT FOR FIRE DEPARTMENT IS UNDER CONSIDERATION

The purchase of a combined gasoline pumping engine, chemical and hose wagon for the fire department is contemplated by the commissioner of public safety and this morning he was given authority to proceed with negotiations for securing one. He submitted a photograph of such a piece of apparatus as is in use in Halifax and other cities where conditions are similar to those in St. John. The commissioner will secure estimates of the cost and will submit them to the council before making a purchase.
Approval was given to the commissioner's recommendations for the award of contracts for fire hose as follows:
500 feet "Keystone," at \$110—Canadian Consolidated Rubber Co. Ltd.
300 feet "Sadler," at \$1—George I. Polley & Co., Ltd.
500 feet "Boston Fire Jacket," at \$1—E. McAvily & Sons.
500 feet "Universal," at 90 cents—Henry K. Barnes & Co., Boston.

GOSTLY WORK

Estimates for Sewerage Pipe at Marble Cave
An estimate of \$24,000 as the cost of laying a sewer pipe in Marble Cave to carry the sewerage out past the Power Boat Club to the deep water was submitted to the city commissioners this morning. The cost was regarded as prohibitive and the method of settling the matter was dropped.
The commissioner of water and sewerage also submitted an estimate of \$8,000 as the cost of constructing an outlet along the shore which might serve the same purpose and a further report will be secured on this project. The matter was taken up at the request of Commodore Gerow of the St. John Power Boat club.

TWO STORY LIMIT FOR NEW WOODEN BUILDINGS IN CITY

The construction of wooden buildings in St. John in the future will be limited to two stories. This will apply to buildings of all purposes. Notice of motion to amend the building laws to this effect will be given by the commissioner of public safety at the meeting of the common council this afternoon and the amendment will be incorporated in the revised code which is being prepared.
One reason for the change is to lessen the fire risk. The commissioner has another reason also in view and that is one affecting the future growth of the city. He regards it as inevitable that when scientific town planning is adopted it will be necessary to do away with many buildings of old ones. Extensive expropriation projects are being considered to do away with two story buildings than higher ones, high establishments.

"MOVIES" MEN SEEK GORILLA IN THE WILDS OF AFRICA

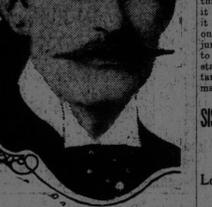

London, April 28—James Barnes and Cherry Kearton have sailed for Africa to take moving pictures of rare fauna, especially of the buffalo, elephant, zebu, gorilla and okapi of which no white man has ever seen the last of the species alive. They will devote much time to the gorilla.

C. N. R. MAY GET ANOTHER LINE

Winnipeg, April 28—A. E. Warren, general superintendent of the C. N. R., with Assistant General Manager Cameron left last night for Duluth. It is said they are to carry out an inspection of the Twin City and Lake Superior railway, negotiations for the transfer of which to the C. N. R. have been going on for some time.

MORGAN'S DEATH MAKES HIM WALL STREET POWER

Truth tells a metaphor from stock exchange slang. It points out that the trouble with the Exchange since the time of the "existence of old standing, respectable firms of jobbers and dealers like Mrs. Pankhurst's ally with the time she had her finger in the pie and drove the new firm to the pavement. The Pankhurst group therefore proceeded to bear the brunt of an indignity which it is impossible not to admit.

SISTER OF J. F. TWEEDALE IS DEAD AT NILE BROOK

Local Government May Make Highway Appointments at Meeting This Week
Frederick, N. B., April 28—Mrs. Maud Gibson, formerly Miss Annie Tweeddale, of this city, and sister of J. F. Tweeddale, ex M.P., is dead at Nile Brook. Her death was sudden. She is survived by her husband and two children.
Eric MacDonald, son of Rev. Dr. J. H. MacDonald, who lately removed to Ottawa, has been appointed to a position in the civil service.
Thomas Lacey, who has managed a dry goods store in Maryville for twenty years, is to remove with his family to St. John this week.
The river in the river here has risen two feet since Saturday and is still coming up fast. John Kilburn left for the headwaters last week to begin his stream driving.
A meeting of the local government is to be held tomorrow. It is understood that a lot of appointments will be made under the new highway act of last session.

PHILIP GAYNE, KILLED NEAR MONCTON, WAS INSURED FEW WEEKS AGO

Moncton, N. B., April 28—An inquest into the death of Philip Gayne was resumed this morning and adjourned till Wednesday evening.
Gayne had taken out an accident policy for \$1,000 only this month. Inquiry fails to substantiate a report that he was under the influence of liquor.

MOVING DAYS

These are troublous times in the houses of our citizens who are looking forward with disturbed feelings to Thursday, next, May 1, when the unchristianized operation of moving will be in progress. Already several have started in the removal of their household goods, but the most of this work will take place on Wednesday and Thursday. Teamsters and express men say that they expect the number of those moving to be about up to the average, although in some sections the heavy increase in rentals has forced a general movement to other localities.

TRUTH SCORES MRS. PANKHURST

Money and Fame, Her Object Says Paper A STINGING CRITICISM

Charge That Suffragettes Chances Have Been Killed One by One Because With Cause Won Occupation Would Be Gone

(Canadian Press)
London, April 28—Truth today devotes one of its series of articles on "Minor Statements" to Mrs. Emmeline Pankhurst and her daughters, Christabel and Sylvia. It suggests that these three are more influenced by love of notoriety and money than by the cause of the "suffragettes." Truth recalls that when Doctor Pankhurst died, the family was in poor circumstances. Mrs. Pankhurst at first secured a position in the office of the registrar of births and deaths. Later on she became a professional agitator, according to Truth, and after this she "gradually emerged from the obscurity of Manchester and blossomed forth in Trafalgar Square as a dowager. She was arrayed like a duchess and her daughters were dressed like debutantes. Then, according to Truth, followed her alliance with the wealthy Mr. and Mrs. Pethick Lawrence. This agreement was made for the purpose of placing "the votes for women crusade on a business footing." The only problem which remained was as to how to keep the comedy going.

"DEBATABLE," SAYS WILSON ABOUT THE CANAL CHARGES

President Tells Callers This is What He Thinks—Believe He Does Not Approve of American Course

Washington, April 28—President Wilson told callers today that he considered the controversy with Great Britain over the payment of tolls through the Panama Canal, a very debatable one. While the president never has given his views on the subject for publication, the opinion was quite general among his advisors that he did not approve the exemption for the reason at least that it was a subsidy.

WOMAN'S AUXILIARY WILL OPEN SESSIONS HERE TOMORROW

The tenth annual meeting of the Diocesan branch of the Women's Auxiliary will begin in Trinity school room tomorrow morning at 9.30 o'clock with the reception of Holy Communion and a sermon by His Lordship Bishop Richardson. Meetings will be held on Tuesday, Wednesday and Thursday. The diocesan officers are: Honorary President—Mrs. Richardson. President—Mrs. Walker. 1st Vice-president—Mrs. G. F. Smith. 2nd Vice-president—Mrs. L. R. Harrison. Recording Secretary—Mrs. W. B. Howard. Treasurer—Miss L. R. Symonds.

ANOTHER AIRMAN OF BRITISH ARMY KILLED

Nearly Thousand Miles in Trip of French Aviator—Balloons in Race
London, April 28—Lieut. Roger Harrison of the British army's aviation corps, was killed while flying at Farnborough yesterday. He was attempting a steep descent from a height of 400 feet.
Kollum, Holland, April 28—A distance of nearly 1,000 miles in an air race was down in an aeroplane yesterday and today by a French aviator, Ernest Francois Guilloux. He made only two stops. He started from Biarritz in the extreme southwest of France, on Sunday morning at 4.12 a.m., and arrived here early today.
Dresden, Saxony, April 28—Out of seven for the choice of the German representative in the Gordon Bennett race in the fall, four were reported at four o'clock this morning from the vicinity of Copenhagen, Denmark. All were proceeding in a northwesterly direction over the North Sea.
Villacoublay, France, April 28—Two flying men started from here this morning for Warsaw in the competition for the Pommery cup valued at \$1,500. The prize goes to the aviator making the longest flight in a straight line between sunrise and sunset. Pierre Ducasart, a Frenchman, was awarded the prize on the last occasion for his flight from Valenciennes to Biarritz, 530 miles.

MONTENEGRINS QUIT FORTRESS

King Nicholas Says Order to Evacuate Scutari is Unjust—Defeated Turk Styles Himself King of Albania

(Canadian Press)
Vienna, Austria, April 28—Crown Prince Danilo of Montenegro and his troops have marched out of Scutari toward the north, according to official despatches received here today. Only five batteries of Montenegrin artillery were left in Scutari.
Vienna, April 28—Government circles in Vienna regard the movement of the Montenegrin troops from Scutari as tantamount to the evacuation of the fortress, which had been insisted on by the European powers.
London, April 28—The representative of the Montenegrin government in London today received instructions from Cetinje ordering them to protest formally against the demand of the European powers for the immediate evacuation of Scutari by the Montenegrins, which is demanded by the government of King Nicholas, as "unjust and cruel."
The demand of the European powers is couched in the following terms: "We have the honor to declare collectively to the royal government of Montenegro that the taking of the fortress of Scutari does not in any way modify the decision of the European powers relative to the delimitation of the frontiers of Northern and Northeastern Albania, and consequently the city of Scutari must be evacuated with the briefest possible delay and must be handed over to the European powers, represented by the commandants of the international naval forces lying before the Montenegrin coast. The royal government of Montenegro is invited to give a prompt reply to the communication. The Montenegrin representative in Lon-

STRIKING PAINTERS RETURNING TO WORK; 7,000 WERE OUT

Chicago, April 28—About 7,000 union painters expected to return to work today, pending the arbitration of their dispute for the first year, and 70 cents an hour the second year, but differences regarding working conditions still remain unsettled.

CAMP BURNED

Wm. Ingraham, of the staff of the St. John Railway Co., received word this morning that the summer camp at Bedford had been destroyed by fire on Saturday. It was a cosy little summer abode, and known as Camp Bedford, the scene of many good times. The furnishings it a stove, some fixtures, furniture, etc., and the loss will be about \$150 with no insurance. The fire is supposed to have caught from a blaze in some grass nearby.

"POTATOES" IN BAGS WERE 25 FLASKS OF WHISKY

Portland, Me., April 28—H. Stevens of Portland saw James A. Woods on an electric car with a potato bag apparently well filled with spuds and when the officer asked him what he had, the reply came that the bag contained potatoes. This answer did not satisfy Stevens, who invited Woods to accompany him to police headquarters until the contents of the bag could be examined.
After reaching the station the bag was opened and 25 half pints of whisky were found each in a potatoe bag made after the style of the average potatoe medicine bottle.

FIRE EATER HAS THE FLOOR

Washington, April 28—"A war speech" in support of the proposed California anti-alien labor law was delivered in the house today by Representative Sisson of Mississippi. "If we must have war or submit to this indignity, I am for war," cried Mr. Sisson. "I am with the people of California in their efforts to prevent these aliens from acquiring land."
Montreal, April 28—With tenders for the construction of a large section of the work opened comes definite assurance that within the next three weeks, gangs of men will be making the preliminary excavations for the conduits which are to bury all the overhead wires in St. Catherine street, between Atwater and Papineau avenues.

SHERBROOKE FIRE AND POLICE CHIEF IS DEAD

Sherbrooke, Que., April 28—Robert Davidson, for thirty nine years chief of the Sherbrooke fire and police departments, died yesterday. He was born near Aberdeen, Scotland in 1846 and came to Canada in 1864. Four children survive him—Robert G., formerly chief of Edmonton fire department; William S., of Shanghai, China; Mrs. J. J. Burbeck of Edmonton and Mrs. J. E. McKee of Sherbrooke.
FIGHTER MAKES CHARGE
Vancouver, B. C., April 28—Ray Campbell, had hitting Seattle light weight, will be substituted for "Kid" Scalar, in a bout with "Fighting" Dick Hyland, at Stevenson on next Sunday afternoon. Scalar received a wire last night to the effect that he had been matched with Freddie Welch to fight in Edmonton on May 24 and did not think it advisable to take a chance with Hyland for fear of hurting his hands.

UPRISING IN LISBON FAILS

Hundred and Fifty Malcontents Arrested

REVOLVERS AND BOMBS

London, April 28—Early on Sunday morning groups of ruffians armed with bombs and revolvers, appeared before the various barracks and cheered for the "radical republic."
The government, however, had information that the monarchists and certain disaffected republicans planned a concerted movement, and had taken precautions accordingly. The ruffians were dispersed by troops and police. About 150 of them were suspected of having organized the movement were placed under arrest. A few bombs were exploded and some shots were fired in various parts of the city but no one was injured.

DEMOCRATIES WITH OUT BLOODSHED—EVIDENTLY NOT WELL ORGANIZED AND GOVERNMENT HAD WORD OF IT AND WAS PREPARED

BLASTING MATTER TO POLICE COURT

The blasting operations at Canning Bay are to be the subject of an investigation in the police court on Tuesday afternoon at 2.30 o'clock. A. W. Sheppard, superintendent of the Courtyard Construction Company has been summoned to appear in court and the municipality will be represented.
The chief trouble is believed to be due to what is known as "surface blasting." In this process the charge of dynamite is laid on the surface without drilling, but is covered with refuse as a safeguard.
While there have been complaints about the blasting the matter was brought to a head on Saturday when one great blast in a thirty-seven foot window, including several full sashes in the Municipal Home.

REV. MR. NOBLES SPEAKS ON SIGNS OF THE TIMES

Rev. B. H. Nobles in Victoria street church yesterday morning gave a practical and interesting sermon on "Signs of the Times." He spoke of the neglect of prayer and the spirit of commercialism which were manifest throughout the land, saying that little attention was paid to prayer while in the latter instance dollars and cents seemed to be the object of many even within the walls of the church.
This was not as it should be, he said. More favorable were the signs from the Far East, he said, where a great awakening had taken place, notably in China, which had lain in darkness for centuries, but which was now coming to see the light of God and welcome His missions. There was much to be thankful for in this respect, he said, and he urged his hearers to take a fervent interest in the work of the missions which were serious problems of the present day.

Little Beauty Chats

By BLANCKE BEACON

The Veil Habit

If any among you are addicted to wearing veils that are decorated with large and ornamental dots, let me give you some worth-while advice. You will not take it, in all probability, as good advice is a drug on the market, but I will offer it just the same.

Look through your dresser drawers and whenever you come across a dotted veil, I know, but what would you do? Dotted veils are deadly enemies of the eyes, so, of course, should be dispensed with.

Perhaps you are wild with curiosity to know the why and the wherefore of this putting away of the enchanting dotted veils. Am I right as to this? Don't all say you at once!

It is the pretty, fluffy girls who look at the world—when out taking a constitutional—through a veil ornamented with dots that eventually find their dismal way to the oculist. Eyes that are constantly being strained to avoid the obstacles in their way are naturally weakened and irritated and this means a mighty oculist's bill. Wear veils if you will, but taboo dots.

put it aside. Continue in this way until you have succeeded in separating the black sheep from the white, or in other words, the plain net veils from the dotted face coverings. Now steel your heart, and if necessary, avert your eyes from the glory of the mass of dotted veils, as it is your manifest duty to take them, one and all, down to the basement and put them in the furnace. These are strenuous mea-

"CHICAGO HUSBANDS FEAR FOR THEIR LIVES," SAY PREACHERS AND COURT OFFICIALS OF THAT CITY

Dietz Case, Latest of Many Husband Killings, Has Set Chicago Folks To Wondering About Their Jury System

MRS. AUGUSTA DIETZ

(Times' Special Correspondence) Chicago, April 26—Is Chicago the most dangerous city in America for husbands to live in? Does the Chicago husband stand a chance of having his mortal coil clipped off by a jealous or revengeful wife almost any moment?

Preachers and the district attorney's office answer "Yes." And they point to the holding of Mrs. Augusta Dietz for an investigation of her husband's murder.

They say that the Dietz case may be just another "husband killing" case like the many that have filled the criminal courts during the last two years.

In some of the most notorious Chicago cases in the last two years in which husbands were killed and their widows arrested on murder charges the crimes were alleged to have been committed by Mrs. Jane Quinn, Mrs. Rena B. Morrow, Mrs. Louise Lindoff, Mrs. Elizabeth Buchanan, Mrs. Florence Bernstein, Mrs. Lena Russo, Mrs. Louise Vermilya, Mrs. Lulu Blackwell, Mrs. Sadie Blahs, Mrs. Gertrude Paterson.

All were acquitted excepting Mrs. Vermilya, who received a 25-year sentence, and Mrs. Blackwell who got thirty-five years. "It's cheaper and easier for a Chicago woman to kill her husband than to get a divorce."

FOR A BAD STOMACH PAPER'S DIAPEPSIN

Time It! In Five Minutes You Will Wonder What Became of The Gas, Sourness and Indigestion

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Paper's Diapepsin. It makes such misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapepsin. It's so wonderful to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Paper's Diapepsin "really does" regulate weak, out-of-order stomachs that give it its millions of sales annually.

Get a large fifty cent case of Paper's Diapepsin from any drug store. It is the quickest, surest, stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant preparation which truly belongs in every home.

New Story by Colin McKay

Few men have survived a stranger or more terrible experience than James Edmond Smith and Samuel Atwood, of Lower Shag Harbor, who as young men were imprisoned for nearly 100 hours without food or water in the captured schooner, "Cod Seeker" of Barrington. The wreck of the "Cod Seeker" is one of the most interesting stories in the annals of the Shelburne coast. No better illustration of the indomitable spirit and hardihood of our fishermen could be found than the story of the way Messrs. Smith and Atwood, then little more than boys, survived the sufferings and horror of their flight.

CHAMPIONS.

"So they are married?" "Yes, they were married last Friday in East Liverpool." "He is a champion golfer, I understand." "Yes, he's a champion golfer." "And the girl?" "Is a champion bridge player." "Where do they propose to live?" "With the bride's father. He's a champion bricklayer."

Symptoms Warn to Remove the Cause

The ordinary doctor spends his efforts in arresting symptoms rather than removing the cause of trouble. He is often compelled to do this against his better judgment in order to satisfy the demands of his patients. Symptoms are removed at a dreadful expense to the organs of the body. As an example, consider the effect on the nervous system of drugs so powerful as to immediately stop headaches and other bodily pains.

BROADENING OF THE 'FIELD OF RECREATION'

'All the world loves a lover' runs the old song, and some part of the world, notably Mr. George A. Parker, superintendent of Parks in Hartford, Connecticut, fears not to acknowledge the fact that it is fit him. Mr. Parker has become famous among park superintendents for his slogan, 'The Right of Every Girl to be Courted under Decent Conditions,' and he will speak upon this topic at the Recreation Congress in Richmond, Virginia, May 6 to 10, 1913.

HOG CHOLERA

Thanks to wise government regulations faithfully carried out Canadian swine raisers suffer comparatively little loss from hog cholera as compared with those of many other countries. From time to time, however, this disease appears in various parts of the Dominion where the infection has been brought in some way or other. This disease which is entirely confined to hogs is extremely contagious and accompanied by a high death rate. In order to put owners of swine on their guard the veterinary director, Dr. F. Terrance, has issued a plainly written bulletin setting forth such information as should enable the lay reader to readily detect the malady and understand what course to pursue in the case of an outbreak in his herd.

It is stated that the disease is caused by a germ which may be transferred in various forms in many different ways such as on the boots of attendants, the feeding of uncooked garbage containing raw pork which may have come from a diseased pig, wandering dogs, domestic pigeons, or in the water of a stream flowing through an infected pasture or yard.

Infected hogs last appetite, become sluggish and, if moved, may cough. They rapidly become thin and weak, linger for a time or they may die in a few days. Other symptoms that will help diagnose are described in the bulletin which contains a number of clear photo engravings of hogs in various stages of illness, as well as sections of internal organs showing characteristic diseased conditions.

Whenever the disease is noticed, the owner is bound by law to notify a Veterinarian Inspector. Failure to do this may be liable to a heavy fine besides the forfeiture of compensation for the loss of slaughtered animals.

On account of the nature of the subject treated this bulletin, No. 13 of the Health of Animals Branch, is not being sent out to names on the regular departmental mailing list. Persons who desire copies may receive them by making application to the Publications Branch of the Department of Agriculture at Ottawa.

SUMMER POSITIONS FOR U. N. B. ENGINEERING MEN. (Fredericton Mail). The foremen in the U. N. B. are getting porters for the summer, and it is hoped that the majority will be placed before noon or soon afterwards at least. Of the seniors, K. R. Machum takes a position with the C. P. R. Forestry branch, and H. B. Murray is the only man to go to British Columbia under H. MacMillan, chief forester, a classmate of Professor R. B. Miller. R. K. Shives will go to Prince Albert, Saskatchewan, and in his party as assistant will be H. S. Laughlin, of the junior class. G. P. Melrose of the same class is also with the Dominion forestry branch as well as A. M. Gunter and Don A. McDonald, who will be assigned to the Dominion experimental farm, where they will make studies of growth in the arborvitae.

Jack Hipwell, Harry Holman, Frank MacGibbon and Gordon O'By, the latter an engineer, have received positions with the C. P. R. forestry branch in Calgary. All these are ex-sophomores. C. L. Armstrong and C. R. Townsend of the Freshman have been placed, as well as Sam Weston. Mr. B. Ross, not forester, was sent to Nova Scotia for the C. P. R. K. Yavarsky, and C. E. Maitland, leaving here last week for that work.

The forestry department at the U. N. B. is steadily growing in popularity and the usefulness of this science is becoming more generally recognized. The number of students in forestry, it is expected, will be largely increased next year.

IN PARLIAMENT Ottawa, April 27.—The government will not bring up the favel matter this week owing to the time being somewhat broken through the holiday on Thursday next. From today government bills will be proceeded with. The government has been forced to admit that the opposition was not obstructing the passage of any legislation in the country's interests. Premier Borden has realized that the house must get down to real business in the face of stress of financial and other interests brought to bear.

PARTINGTON COMPANY'S LUMBER (Fredericton Mail). Ex-Senator N. W. Jones and Thomas McLaughlin of John's representing the E. Partington Ship & Packing Company, were in the city on Friday and spent some time inspecting the company's property at Maryville. It has been decided to repair the dam which crosses the Nashwaque river, and the dam will be carried away by the tide and water in the river. It is announced also that a portion of the lumber on the Nashwaque river will be manufactured at the Maryville mill, but how much of the total cut of 14,000,000 feet will be saved there is not yet known. As in 1912 a large quantity of the lumber will be sent to the mill and will be made into pulp at the pulp mill there. Preparations for rafting the lumber at the mouth of the Nashwaque are going on steadily.

FUNERALS ON SUNDAY The keen regret of a great number of friends in the death of Michael E. Reedy, of North End, was shown yesterday afternoon when his funeral was conducted from the home of his sister, Mrs. Frank Walsh, in Simonds street, to St. Peter's church, where Rev. Father Holland conducted services. The funeral was one of the largest seen in North End for some time, and in the cortege were citizens of all walks of life by whom Mr. Reedy was held in high esteem. The members of the city and North End salvage corps and fire department, with whom he was a favorite, attended. The City Cornet Band played the funeral marches, proceeding at the head of the salvage corps and firemen, who walked in uniform. Chief Blake, District Engineer Jackson and Commissioner McLaughlin accompanied the men. Two barrels filled with floral tributes were part of the funeral procession, while the number of citizens walking in the ranks was extremely large.

Amongst the floral emblems were many handsome remembrances, including the following: A beautiful floral cross, standing some feet high on a pillar of roses, with the words "At rest," from the members of the salvage corps and fire department, with the figure of a dove, with inscription, "Our 'Chim,' from several intimate friends; Mrs. W. G. Powers, in St. James street. Burial was in Fernhill cemetery and interment was conducted by Rev. Messrs. Donnelly, Dawson and MacKeigan.

The funeral of William Sloan took place yesterday afternoon from the residence of Hugh Sloan, his brother, in Middle street, west side. Rev. H. E. Thomas conducted services and interment was made in Greenwood cemetery.

PLEASANT POINT NOVELTY SHOWER The home of Mr. Charles McLaughlin at Pleasant Point was the scene of a pleasant gathering on last Tuesday evening when Mrs. McLaughlin assisted by her niece, Miss Helen McLaughlin, was hostess to some thirty guests. The entertainment of gifts was made by Mrs. Dalton of Fairville. Supper was served about midnight after which music and dancing were enjoyed.

Guests to the number of about forty, responded, among whom were Mrs. C. P. Sutton, Miss Dorothy Sutton, the Misses Beatrice and Helen Reed, Miss Sadie Allison and Gertrude Lowell, Mrs. Dalton, the Misses Florence and Hazel Cripps, Mrs. S. J. D. Allan, Mrs. Boyd Allan, Mrs. Geo. McLaughlin, Miss Marion McLaughlin, Miss George Engall, the Misses Grace and Ella Harris, Miss Straight, Miss Cora Osborne, Miss Nettie Gregory, Miss Nettie Gregory and Meas. Burton Reed, Frank Smith, Benjamin Lawton, Winifred Allingham, H. P. Allingham, Dr. Allingham, George Flower, Charles Humphrey, John McManus, Frank King, George King, Ralph Black and Frank Fawcett.

MORNING LOGS Several I. C. R. station agents met at the Victoria Hotel on Saturday evening at dinner. The following were present: O. A. Forchye, Toronto; S. G. Charles, Point du Chene; R. M. Gross, Anagnone; R. A. Brown, Salisbury; J. E. Keith, Sussex; A. E. Gills, Sackville; L. C. Powell, Paines Junction, and R. M. Scribner, Paines Junction.

The subscriptions to the Mount Allison Endowment Fund received in last week's campaign in Fredericton amounted to \$6,000, which was more than had been expected.

A heavily laden street car jammed the rails in Douglas avenue yesterday afternoon and continued going until it reached the curb. The passengers suffered somewhat from the sudden jolt and more from the shock to their nerves, but no serious damage was done.

as it certainly will do, causes a further advance, the Canadian consumer would be amply justified in demanding a reduction in the Canadian tariff. In the course of a clear analysis of the situation as it now appears, Mr. Eckardt, in a special article in the Financial Times of Montreal says:—

Mr. James Allen, minister of defence for New Zealand, who is now in Canada, has made it clear in an interview that his country will not endorse a policy of contribution. It stands for the policy which was adopted by Canada, Australia and New Zealand, and endorsed by the British Admiralty, when Sir Wilfrid Laurier was at the head of the Canadian government.

The London Nation severely criticizes Mr. Winston Churchill for the course he has pursued in connection with the naval policy of the Borden government. It points out that Mr. Churchill and Mr. Borden have caused serious friction in Canada, although the Admiralty had previously accepted the policy which was adopted by the late Liberal government at Ottawa.

WILL TRAIN REFORMERS TO KILL WHITE SLAVERY

Washington, April 28.—"White slavery" is to be fought through the education of trained reformers, according to a plan on foot for the establishment here of a school of social welfare work. Under the direction of Stanley M. Finch, special commissioner of the department of justice for suppression of the white slave traffic, a campaign was started here to enroll about 100 students before the school is formally organized next month. It is proposed that the school will serve as a model for others and that the educational movement will spread to cities throughout the United States.

The idea was born as the result of a church lecture by Mr. Finch on the white

ANIMALS RESENT INVASION

Elephant Details Locomotive and Lion Makes Attack on the Iron Stranger—White Ants That Eat up Road Beds

(Times' Special Correspondence)
London, April 16.—World-wide interest in the approaching completion of the Panama Canal has served to divert attention almost completely from another mighty project, namely the Cape-to-Cairo Railway, to build which, over territory entirely British, was one of the dearest dreams of that great empire builder, Cecil Rhodes. When the German annexed the whole of the east bank of Lake Tanganyika and declined to cede a mile of it to Britain, it looked as if Rhodes' vision of an All-Red Route through the Dark Continent never would be realized, but the Belgians, evidently wide-awake to the value of the Congo to the British flag, so the Cape-to-Cairo line will be "All-Red" after all.

Meanwhile, vast strides have been made with the work and through trains from the Nile to the Cape, 8,000 miles away, will be running within three or four years from now.

According to Percy V. Cooper, one of the constructing engineers, who is now in England, the line northward has crossed into the Congo from north-west, which formerly consisted of a collection of anti-parallel railways, and now runs regularly. From Cairo, the rails have been pushed southward for 2,200 miles, through the heart of the Sudan. Accordingly, if advantage is taken of the upper reaches of the Nile and the great African lakes, the Albert Nyanza and the Victoria Nyanza, by placing steamers upon them and running these in connection with the railway, less than 900 miles will need to be built.

Great Difficulties
"It has been a stupendous work," said Cooper, "and the difficulties have been immense. There has been the hostile attitude of the natives to contend with and overcome, encounters with elephants, lions and other wild beasts in northwestern Rhodesia, and then, as the Congo was approached, the ravages of malaria and other termites had to be reckoned with. It was here, also, that the line entered the area where sleeping sickness was rampant."

"It was in May, 1905, that the railway passed the Victoria Falls, and plunged northward to Broken Hill, a district rich in all kinds of minerals, and along this section of the route natives turned out in thousands to gaze on 'this wonderful animal' belonging to the white man that ran on rails and took the natives to the 'cine'—that is, oil—to keep away the fever, lions and other beasts, and a long-continued trouble there, too, happened, which, on the night of the 15th, a lion and a lioness and four native workmen armed with crow-bars and pickaxes. Through all of them were badly mauled, they managed to keep the brute at bay until a party armed with rifles arrived on the scene and shot both lions.

"At another time, a construction train was pulling along with a heavy load of material, near Gwelo, when a full-grown lion was sighted stretched right across the line, and backing, though all the men in the party were armed with rifles, they were unable to get the brute looked up, but did not attempt to move. The train from his behind and stoker to drive him off the line by pelting him with bullets of wood were no better rewarded."

"The train was on the point of coming to a standstill when the lion leapt his temper. He took a sudden spring at the engine, seeking its vain for something on its smooth surface into which he could drive his claws, and thus secure a foothold. Again and again the beast sprang, falling clear of the engine every time. The driver then realized that the best thing to do was to go full steam ahead and trust to the weight of the trucks behind him to keep the train on its line and clear the lion from his path."

"This was done, with the result that the lion—a magnificent specimen—was cut to pieces by the engine wheels."

Quite a number of natives, according to Cooper, have lost their lives by being carried off by lions while asleep in their camps, and for this reason strong palisades are built around them, and cattle kept in specially constructed corrals.

"A Scotchman working on the line," continued the engineer, "was surprised one day to receive a letter from his brother-in-law in Scotland saying she had made up her mind to come out and join him, as he must be very lonely living among the blacks, and having no one to cook for him in due course she arrived, which the engineer had ordered to be built, was incom-

Elephant Details Locomotive

"What about elephants?" the interviewer asked.

"They have given us a lot of trouble," replied Mr. Cooper, "by tearing up the road-bed, pulling down the telegraph wires and upsetting the posts. Some little distance north of the Victoria Falls a herd of elephants regularly crossed the railway, night and morning, and from their watering grounds."

"This went on for months, until one day the herd was in the act of making the passage when an express train came along. Seeing five elephants in front of him the driver endeavored to frighten them off by opening all his valves, making as much noise as possible. It failed to have the desired effect, and after seeing the locomotive suspiciously for a few minutes, the herd decided to charge it. He came at full speed down the road, head lowered, trumpeting viciously, looking the very picture of a determined foe."

"The driver at once reversed speed, but the collision came, and the shock was such that the engine was derailed, though not overturned, and the elephant securely pinned by one of its legs under the weight of the engine. It was then killed."

"The white ants," Mr. Cooper added, "has been one of our greatest bane. Elizabethville station was a mass of their hills," being from twenty to sixty feet in height. These have been all cleared away, and a thriving Central African town has sprung up there. As these insects destroy everything except iron and steel, the crosses for the road-bed are of special pattern and made of hard steel."

MONEY FROM EUROPE FOR INDUSTRIES IN DOMINION OF CANADA

Visit of British and German Manufacturers to Investigate Conditions and Look For Sites

(Times' Special Correspondence)
London, April 15.—Canada will receive more attention this year from the manufacturing interests of Europe. Even as its emigration has increased and the volume of money invested has become larger, and arising from the same reason—that those who have gone before have found it good—so are the manufacturers appreciating its enormous possibilities. Many delegations from Europe have been arranged and more are in contemplation. One of the most important of these will be that from Germany.

This country has deliberated long before participating in the development of the dominion, but is now about to make headway. In Dresden last year your correspondent met chief councillor H. H. Weber, owner of "The Illustrated Journal" of Leipzig, one of the most widely read and influential illustrated papers in Germany. He had just returned from Canada and was full of enthusiasm as to its industrial openings. He spoke of his intention to educate German manufacturers with the object of organizing a trip to Canada to study the conditions.

It is now announced that a party of more than 100 representatives of the principal manufacturing interests of Germany will make a two months' journey through Canada during the coming summer. They will look particularly into the opportunities for establishing plants in Ontario and the western provinces, and it is expected that the visit will be productive of big results.

Another important visit this year will be that of the Machine Users' Association of Great Britain. Three men whose names are famous in the world of machinery—Sir Francis Cavley, M. P., a big Lancashire manufacturer, Sir William Houldsworth, a member of several royal commissions, and Lord Rotherham, cotton spinner of Manchester—will probably accompany the party. The arrangements for this tour are very thorough. A leasured examination of the prospects all over middle and western Canada will be conducted by a committee which will prepare a report detailing the opportunities for the establishment of industries for submission to the members of this organization.

That this will be no superficial enquiry is shown by the fact that the consulting surveyor to the association will be included in this committee to add his technical knowledge to their deliberations. Much good is expected from this visit in stimulating the already awakened interest of British manufacturers in the dominion. These are among the signs of a growing and extensive realization in Europe of Canada's possibilities.

I. C. R. FATALITY

Brother of St. John Woman and Man Killed Near Moncton

Moncton, N. B., April 27.—Gapsing his head cut and mangled remains almost beyond recognition, Phillip Gayne, an employe of the I. C. R. water department, was killed on the I. C. R. track near Hill's Creek bridge, half a mile or more from town, about 6 o'clock this morning. A few minutes later Gayne's brother had withered out retaining consciousness, and leaving the circumstances surrounding his terrible death somewhat of a mystery.

The unfortunate man was found by Alfred Orr and John Stultz, two I. C. R. employes, who were en route to their houses in Lewisville and Sunny Brae from work.

The unfortunate man had lost both legs and an arm and received severe wounds around the head and body, but was still living when found. A passing train was signalled to carry him to the hospital, but he died before he could be moved. Gayne had been in Moncton the day before and returned to his home in Sunny Brae with his daughter about 10 o'clock. He seems to have left the house afterwards to return to Moncton. His dog was found in the ditch nearby with a broken shoulder which was probably sustained while trying to rescue his master from the approaching train.

He was 49 years of age, and is survived by his wife, two daughters and a son. One of the daughters is Mrs. Lewellyn Muller, of Sunny Brae.

A sister, Mrs. Phinney, and a brother, Edward Gayne, reside in St. John; another brother, William, lives at Gallagher Ridge, while two others, John and Bonny, are in New York.

"ALFY" RIGGS IN ENGLAND

Friends in St. John will be interested to learn that "Alfy" Riggs, well known as a carver of wood in this city, where he resided for some time ago, but became discouraged and was forced to enter St. George's workhouse at South-west, the same institution which sheltered Oliver Twist. Here he has piled his tools, simple as they are, in the carving of beautiful figures, his latest being a handsome lectern which has won admiration and which may be the stepping stone, says Lloyd's Weekly News, to his making his fortune. He has presented it to the workhouse chapel, and the newspaper says it would be a handsome piece of furniture in any church.

DOCTOR'S ORDERS.

"My husband is just getting over a spell of sickness and I want to buy him a shirt," said Mrs. Binks.

"Yes, man," replied the clerk. "Would you want something in a stiff bosom?"

"No, sir," said Mrs. Binks. "The doctor says he must avoid anything with starch in it."—Cincinnati Enquirer.

Had Pimples on Face And Back Was Literally Covered With Them.

Bad blood is the direct cause of pimples breaking out on the face and body, and it is impossible to get rid of them unless you cleanse the blood of all its impurities.

Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old and reliable remedy has been used for over thirty-five years, and has a reputation unequalled by any other for purifying the blood.

Mr. Peter La Pierre, Assistant Postmaster, Touchwood Hills, Sask., writes: "The fall before last, I was very much troubled with pimples on my face and back. My back was literally covered with them, and I could not lie on it at night, they were so painful. One day my sister advised me to use Burdock Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly disappeared, and now I am completely cured."

BIG PRODUCTION OF GRAND OPERA

"Lily of Killamee" Tomorrow Evening at Opera House

With a cast of more than 100 people, the grand opera, "The Lily of Killamee," under the direction of Mr. John Lloyd, will be given in the Opera House for four nights beginning tomorrow evening. This occasion will mark the first operatic production by local talent in years and the event has created much interest throughout the city. The stage settings and costumes are on an elaborate scale and an entertainment of much merit is anticipated. The proceeds will be given toward the Home of the Good Shepherd.

KING MAY BE IN CANADA NEXT YEAR

The London correspondent of the Brooklyn Eagle says that he is able to say definitely that King George will pay a visit to Canada during the fall of 1914. The king is anxious to be the first English sovereign to visit Canada, and will do so unless bereavement in the family or a European war prevents his going. The Prince of Wales will accompany him.

PROFESSIONAL THEATRICAL COMPANY ON WEST SIDE

For the first time in many years a professional theatrical company will appear in City Hall, West St. John, on Thursday and Friday evenings of this week. "The County Sheriff," a western drama, under the management of Wes Lambert, of New York will be the attraction. This company was due to play in the Opera House, but, owing to previous bookings in the latter, the performance will be given in City Hall instead. The company carries all its own scenery, and the play contains many good dramatic situations as well as abundance of comedy.

MORNING NEWS OVER THE WIRES

A fire loss of several thousand dollars resulted on Saturday afternoon when the mill of the Smith Lumber Co. at Woodstock was destroyed. The company will probably rebuild at once.

Fred Ryan of Fredericton, has been awarded the contract for the erection of the Agricultural and Fisher Memorial Library in Woodstock.

It was ninety in the shade in Woodstock, N. B., on Saturday.

A WEAK, ACHING BACK Caused Her Much Misery Kept Her From Sleeping Nights.

Weak back is caused by weak kidneys, and on the first approach or evidence of kidney trouble Doan's Kidney Pills should be used, and serious troubles avoided.

Doan's Kidney Pills go right to the seat of the trouble, cure the weak aching back, and prevent any further complications arising.

Mrs. W. R. Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For this last year I have been troubled very much with nasty sick headaches, and a weak aching back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at nights. I tried many kinds of pills and medicines, but it seemed almost in vain. I began to give up in despair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a sore back or sick headaches. I will always say Doan's Kidney Pills for mine and can highly recommend them to any sufferer."

Price, 50 cents per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct, specify "Doan's."

LOCAL NEWS

is liable to happen somewhere in the world any time. The London financial journals last week were convinced that peace was so imminent as to make any further doubts of no account.

But the whole concert of Europe is plunged into discord once more upon Austria-Hungary's ultimatum that the Montenegro must be proceeded against by the powers in forty-eight hours, or else, Austria-Hungary will herself march upon Serbia. And Russia looms up as a defender of the little new nation, the cortex of the triple alliance seem to tighten and draw Italy and Germany into the cauldron of war. But patients and observation will prevail. Much of the war talk comes through influenced channels.

So enter a situation, however, make for caution. Meantime, the smoke from the tariff battle over here is beginning to rise and opinions on the effects of the result run all the way from the highest optimism down to prediction of ruin to many industries and the battering to a standstill of the whole country's business.

Here and there a glimmer of light is discerned. The freer's arbitration is over and satisfactory to both sides, furnishing an example for the avoidance of all strikes in the future. Some time, that will be accomplished. But the railroad look for meeting demands from the conductors and trainmen—and an amicable outcome.

But all meaning giving expenses and tight rubs for future dividends. Iron prices are declining, but steel concerns, which do not have their own furnaces, will benefit. To those which do, it will make no difference. Nevertheless, consumption of finished material has decreased somewhat, and the stocks cannot improve healthily until Europe is settled but good bonds are a standby for investors, even in hard times, and some of them are yielding extraordinary incomes—for S. S. BACHE.

Wall Street Notes

New York, April 28—Americans in London mostly 1/2 to 3/4 higher; consols 7/8. Supreme court to meet today.

Attorney-General McKeown says that government cannot open American Tobacco case.

Telegraphers talk of strike.

The action of the market at the close of last week was about as bad as could be. Think the absorption of stocks was rather better, good stocks and bonds look cheap. The food list stocks have gone into the discard, this helps the others. A bull leader now would have plenty of following. Stocks are going lower, but I do not believe in selling them now. Would rather buy on further recovery.

PALMIST LEAVES NEW WHOLE ESTATE TO FRIEND

Estimated That John W. Fletcher, Suicide, Was Worth \$35,000

Boston, April 28—The will of John W. Fletcher, a palinist, who committed suicide, at the Hotel Pelham on last Tuesday afternoon. It was made in 1908. It is estimated that the testator left about \$35,000.

Cameron A. Patchin of New York, where Fletcher had an office, is the chief beneficiary, being willed all the property in Mr. Fletcher's New York suite in addition to receiving a straight bequest of \$1,000 to be paid within sixty days of Mr. Fletcher's death, a bequest of \$5,000 over three months for a period of three years, and the income from a trust fund established by turning all the residue of the estate after the gifts are taken out, into a trust for the benefit of his wife.

At the end of six years the entire fund is to go to Patricia, and in the case of his death before that time, the fund is to go to the Lowell General Hospital for free beds, in memory of the testator's son.

The private bequests include \$5,000 and a homestead at 49 Powell street, Lowell, N. H., \$1,000 each to Annie L. Gossage of Westfield, Dr. Hanson A. Greene of Lowell, Daniel E. and Nancy Mason of North Ferrisburgh, Me., Albert H. Hewes of Reno, Nev., is bequeathed personal effects, including a ring said to have been formerly the property of the King of Bavaria.

Thos. H. Preston, colored servant in the testator's office, is bequeathed \$200 for "faithful service."

The residue of the estate is willed to Patricia under the terms of a trust.

QUEBEC PREMIER, HOME FROM ENGLAND, BRINGS GOOD REPORT

Montreal, April 28—Sir Lomer Gouin returned from Europe yesterday well satisfied with the position occupied by the Province of Quebec and the dominion at large in the financial and business conditions of the old world and more especially in the capital of the British Empire.

The prime minister was several days in London, interviewing the prime minister of England, meeting with the colonial secretary and several other leaders of political thought in the capital of the empire. Nothing surprised the Quebec premier more than the exhaustive knowledge of the several British statesmen he met, regarding the affairs of the province.

"They know," he said, "our rivers, our lakes, and the extent of our agricultural resources as well as the productive qualities of the individual provinces. In fact, every paper in London seems to take great interest in the progress and general development of the dominion, as well as the several provinces."

TONY EDITOR ARRESTED ON CHARGE OF BIGAMY

Oshawa, April 28—W. J. Watson, police magistrate here, and lately editor of the "Victorian," a Conservative paper, was lodged in the local jail last night on a warrant charging Watson with bigamy. Civil proceedings are also being launched by D. A. J. Swanson, who is acting as private prosecutor.

Architect's Action Against Mayor

London, Ont. April 28—A. K. Nutter, former city architect, has instructed his solicitors to issue a writ against Mayor Graham, on an allegation. This action arose out of statements made at the last meeting of city council. The mayor it is said charged that the cost of the repairs to the court house and jail had been considered excessive because the original estimate of Architect Nutter had been too small. Mr. Nutter considers the statements a reflection on his professional ability.

Haywood Arrested

Peterborough, N. J., April 28—Wm. D. Haywood, leader of the Industrial Workers of the World, was arrested in Passaic today on his way here from New York to surrender himself under an indictment charging him with inciting riots among the silk mill strikers.

ACCIDENTS

Three slight accidents occurred yesterday and today in No. 7 shed at West St. John. Last night Harry Hanson of the West Side, had his foot crushed by the falling of a large package. This morning Thomas Graham of Carleton, had a finger crushed. All three were taken to the Emergency hospital where their injuries were attended to by Dr. F. L. Kenny.

WANT TO KNOW ABOUT US

This morning's mail brought a large number of inquiries about St. John to the office of the Industrial Workers of the World, for statistical information were the Bank of Montreal head office, and also the Montreal Chamber of Commerce.

London, April 28—O. N. Armstrong, railway promoter of Montreal, has accepted the nomination for Colne Valley, Yorkshire in the Unionist interest. The present member is a Liberal.

THE LATE SIR RICHARD SCOTT

London, April 28—Winston Spencer Churchill appeared today before the parliamentary committee investigating the Marconi contracts. T. Powell, editor of a financial paper had stated to the committee that he had heard rumors, which he did not believe, that Mr. Churchill had had a "flatter" in Marconi shares.

"It is a most insulting charge and implies that I have been skulking in the background while my colleagues have come forward and explained their position. It is grave beyond words that a committee of my fellow members of the House of Commons should have thought it right to lend their sanction to the putting of such questions to me."

Having delivered this lecture to the committee, Mr. Churchill proceeded: "I have had no dealings directly or indirectly nor any investment or interest of any kind in Marconi shares in any country. If anybody said so that person is a liar and a slanderer and if anybody repeated such a statement and stated that he believed it to be false the only difference between him and a liar is that he is a coward as well."

The members of the committee tried to mollify Mr. Churchill, but he rejected their excuses and indignantly left the room.

QUEBEC PREMIER, HOME FROM ENGLAND, BRINGS GOOD REPORT

Montreal, April 28—Sir Lomer Gouin returned from Europe yesterday well satisfied with the position occupied by the Province of Quebec and the dominion at large in the financial and business conditions of the old world and more especially in the capital of the British Empire.

The prime minister was several days in London, interviewing the prime minister of England, meeting with the colonial secretary and several other leaders of political thought in the capital of the empire. Nothing surprised the Quebec premier more than the exhaustive knowledge of the several British statesmen he met, regarding the affairs of the province.

"They know," he said, "our rivers, our lakes, and the extent of our agricultural resources as well as the productive qualities of the individual provinces. In fact, every paper in London seems to take great interest in the progress and general development of the dominion, as well as the several provinces."

TONY EDITOR ARRESTED ON CHARGE OF BIGAMY

Oshawa, April 28—W. J. Watson, police magistrate here, and lately editor of the "Victorian," a Conservative paper, was lodged in the local jail last night on a warrant charging Watson with bigamy. Civil proceedings are also being launched by D. A. J. Swanson, who is acting as private prosecutor.

BENNIE THE KORN KID

Fourteen-Year-Old Boy Shows Farmers of His State How to Increase Their Production of Corn By Scientific Cultivation

Bennie Beeson And a Bushel of His Corn

The sum-total of wisdom and years and whithers do not always grow on the person. This is not written to bring out anything new, but simply to call attention to the fact that sometimes the lightning of intelligence strikes a brain that is not worrying over age or afflicted at the sight of a razor.

For instance, go down into Lincoln county, Mississippi. If the farmers are asked to point to the wisest person in Lincoln county they will turn sharply to the right or left and point with the concerted effect of a burlesque chorus in the general direction of one Bennie Beeson, who has not yet turned fifteen years.

For Bennie Beeson, he is known in a quiet, unassuming manner, has demonstrated to the farmers of Mississippi that if farmers can raise only one-tenth the crop crop he raised out of the ground on his place they would increase their aggregate income by something like \$8,000,000 annually.

Bennie raised one acre of land and he patted and patted and jollied that acre to such an extent that he produced a total of 224 1/2 bushels of corn from it. And he did that at a cost of fourteen cents a bushel. Bennie's corn-raising neighbors raise an average of nineteen bushels an acre and the average cost of production in the corn belt is thirty-three cents a bushel, all of which gives some idea of what Bennie's achievement amounted to and why he is greeted with what is commonly termed "acclaim."

With it all Bennie is just a regular boy. He was born and raised in the section where he started corn raising and knows the land so well he can call it by all its chemical names. He became interested in corn raising when D. S. A. Knapp of the United States department of agriculture was sent into that country to help eradicate the boll weevil.

Dr. Knapp organized boy's corn clubs. And Bennie was one of the original members.

MAKES YOUR BACKACHE VANISH, DRIVES RHEUMATIC PAINS AWAY

Eases Stiff, Sore, Swollen Joint and Muscles, Relieving Backache and Bladder Disorders After Few Doses are Taken.

This is what Croxone, the new scientific discovery, does for sufferers of such troubles. It promptly relieves these diseases because it reaches the cause. It soaks right into the walls and linings of the kidneys and cleans out the stopped-up, inactive organs like water does a sponge—neutralizes, and dissolves every particle of uric acid and makes the kidney sift from the blood all the waste matter and poisons that lodge in the joints and muscles to scratch and irritate and cause rheumatism. It soothes and heals the delicate linings of the bladder and leaves the kidneys in a clean, strong, healthy condition, so they can filter the blood and keep you well.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies,—your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Rexall Orderlies Come in tablet form, taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, grip, cause nausea, looseness, nor the inconvenience attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate persons as well as for the most robust. They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associate organs or glands.

Make Us Prove It We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promises and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 50c; 36 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store.

Canadian Colony is Growing Up Near London

Gathering in the Thames Valley—Plans to Secure General Wolfe Home

(Times' Special Correspondence) London, April 15.—We are at present experiencing a decided Canadian and American invasion of the Thames Valley. There is a very great demand for houses near London and yet sufficiently in the country.

During the last twelve months some hundreds of Canadian and American have settled in and around Putney Hill, Wimbledon and Richmond, which are by far the most favored districts, and have become quite the centre of a Canadian and American colony. The surrounding country is beautiful. A bracing air, golf, polo, and the river offer a collection of attractions to which our Atlantic visitors have willingly succumbed.

Mr. and Mrs. Harold Baker, of Quebec, have a fine residence at Wimbledon, not far from Mr. Vanderbilt, America's coaching enthusiast, who calls his house "Cassidy's Camp." Another Paris Lodge has been purchased by Charles Urban, a cinematograph expert. Mr. and Mrs. Duncan Bell, of Toronto, have taken up residence on the Putney Hill. Extensive alterations are required by Canadians to bring homes up to modern heating and extra garage accommodation are the most usual.

There is a probability that Quebec House, Wolfe's old home, will be acquired by Canadians in Great Britain with the object of maintaining it as a permanent memorial of the hero of Quebec. Negotiations which have been going on since the property came into the market have advanced to a point where the satisfaction of successful fulfillment seems reasonable. Canadian interest here has been quickened by the fact that several wealthy Americans and an English millionaire have been and indeed still are considering the purchase of the old Tudor mansion which holds so many memories dear to Canadians.

For many years Quebec House has been a centre of Wolfe traditions and associations and thousands of Canadians visit it each year. It dates from about the year 1500, a date established only a few years ago when an overmantel carved with the arms of Henry VIII. was discovered behind the oak panelling of one of the rooms. Lord Roberts once said that Wolfe inspired him more than any other general. He made that observation after a visit to the house when he inspected the Wolfe relief, among them a lock of his hair which was bequeathed by a Quebec lady many years ago—a bunch of seals, several military volumes with marginal notes in his handwriting and a volume of his manuscripts.

If the plans under consideration mature it is intended to form a collection of Wolfe relics and to bring together as complete a record as possible.

PRESENTS HIGH IDEAL TO BOYS IN EVERY DAY CLUB ADDRESS

With a lead pencil as a text, Rev. J. H. A. Anderson preached a little sermon to the boys of the Every Day Club last evening that appealed to them and held their close attention, and was not less interesting to the older folk. Mr. Anderson noted the points of similarity between a boy and the lead pencil. The latter had an outside and an inside; the boy had a body, and the mind and soul within the body. The inside of the pencil was the most valuable, and so was the mind and soul of the boy. Some pencils were too hard, or scratchy, or too soft, and so with the boys. The outside part of the pencil also added or detracted from its value, and so with the body or physical part of the boy. The pencil was used to make a mark, and so every boy should strive to make the highest mark in business, in honesty, in kindness and love toward his fellows. It was possible to rub out pencil marks, but the marks made by a boy in his life were not to be erased, and he should therefore guard himself and make as few bad marks as possible. A pencil to be useful must be sharpened, and so the boy was sharpened by the school, such physical and moral training as that of the Every Day Club, and other means of strengthening body and mind.

In simple, forcible language, Mr. Anderson held up a high ideal and so with the boys counselled them to play the game and play it fair, and have ever before them the example of Him who loved them, and gave His life for love of them. The chairman announced that through the courtesy of Col. McCarty, on the solicitation of Sgt. Sullivan, the boys of the club would be permitted to play their game of baseball on the Barrack square, under proper supervision, and that they would be organized this week.

IN THE CHURCHES

Anglican Missions Spoken of In Special Sermons—Centenary Sunday School

Mission work was the subject for special sermons in the Anglican churches of the city yesterday. In St. James' church and St. George's church, His Lordship Bishop Richardson spoke in a general way of Missions. He said that there were three different classes of workers in the missionary movement, enthusiastic workers, those who were not in favor of any progressive step, and those who understood the needs of missionary work, but were indifferent.

Bishop Richardson spoke of the development of the work, how it had commenced in the home country, and had gradually spread over the entire surface of the world. The value of the work that was being done in the country parishes, he emphasized, saying that during the last ten years the work had received a great impetus, and had made much progress. This, he said, was due to two principal causes, the starting of the women's auxiliary and the Laymen's Missionary Movement.

Bishop Richardson then referred to the progress of the Church of England in New Brunswick, and mentioned the fact that there were now fourteen or fifteen. These conditions, however, he said, were not peculiar to the Anglican church, but were shared alike by churches of other denominations. In the other Anglican churches of the city different aspects of the mission work were taken up by the various preachers. At St. Paul's church the camp missionary, Rev. Mr. Leatherbarrel, spoke of the missionary efforts of the church in New Brunswick. He said that, according to a prominent lumberman, there were in this province during the winter, 22,000 men employed in the woods. The speaker then went on to outline the work that was done by the Church of England missionaries amongst the lumbermen, and its great necessity.

Other speakers spoke of foreign missions, referring to the lack of interest by a great many people. This Rev. Mr. Hooper put down to ignorance on the part of the people. Many church goers did not know of the work being done, or, perhaps, did not read the missionary magazines which gave particulars of the efforts being made in the foreign field.

Special services marked the 73rd anniversary of Centenary Methodist church (Sunday school) yesterday. In the morning Rev. J. L. Dawson addressed the school, and in the evening there were special music by the choir, who were assisted by the school orchestra, the superintendent of the school giving a review of the work done in the school.

The report of the secretary and treasurer showed that the school had a successful year, that prospects were good, and that the membership was most encouraging. The amount raised for school purposes for the year was \$355, and for missionary purposes \$138.

Reports of the officers were read at the annual meeting held on Tuesday last, and were very encouraging. The following officers were elected: Honorary superintendent, Thomas J. Jenkins; superintendent, James E. Arthur; associate superintendent, D. McKendrick; K. Spear; secretary, A. G. Lacey; assistant secretary, L. LeLachur; special missionary secretary, J.

W. L. Hennigar; secretary of periodicals, V. E. Dinmore; treasurer, H. A. Lyman; librarian, Roy McKendrick; assistant librarians, H. A. Lyman, F. T. Barbour; superintendent of primary department, Miss M. Barbour; superintendent of home department, Miss Annie Hea; superintendent of temperance department, K. M. Smith; superintendent of cradle roll, Miss M. Seeley; pianist, Miss Galley; leader of orchestra, M. L. Harrison; auditor, E. T. C. Knowles.

C. F. McTavish, addressed the Saturday evening temperance meeting at the Sea-

men's Mission, and a hopeful address was given at the Sunday meeting by Rev. W. F. Gatz, while Miss Gatz sang a solo which was very much appreciated by the men.

A service in memory of Dr. G. U. Gray was held yesterday morning in German street Baptist church. The pastor, Rev. F. S. Porter, delivered a special sermon which had for its inspiration the life of the late Deacon Gray.

"That man talks a great deal, but you must admit that he's wide-awake." "Well," replied Farmer George, reflectively, "you couldn't expect a man to fall asleep during one of his own speeches."

TOOK THREE DRINKS BECAUSE OF TOOTHACHE; GETS INTO POLICE COURT.
When one of five men, each charged with drunkenness, told Magistrate Ritchie this morning in the police court that he had taken three drinks to ease the pain of a toothache, and the three had been too much for him. His Honor said that a few years ago he might have paid a fine with the class of liquor now sold here, but being served in this city, it was not possible. Much of the liquor sold here, was being made here also, said the magistrate and it was pretty bad stuff. Three of the prisoners were remanded, one fined \$4 and one fined \$8 on the charges, while two others, John Clifford and Wm. McGoldrick were fined \$8 each on a charge of lying and lurking in a box car in the I. C. yard.

Wm. Connell and Arthur Doyle were further remanded until tomorrow at three o'clock on a charge of breaking and entering Maurice Guss' junk shop and stealing some goods. Officer Briggs gave evidence. E. S. Ritchie is appearing for the prisoner.

IN FAIRVILLE CASE

Henry Hill Charged With Attacking Two Women on Saturday Night

Henry Hill appeared before Magistrate Allingham in the Fairville police court this morning to answer two charges of assault, alleged to have been committed near Fairville on Saturday night. The first was made about 8.30, when a woman who had been shopping in Fairville was returning to her home in Lancaster and was attacked by a man. She struggled with him and succeeded in freeing herself and ran to her home. Later in the evening another woman was passing near the spot where the first attempt was made when a man took hold of her. Her screams were heard by Dr. Travers and Alexander Stewart, of the Provincial Hospital, and they were quickly on the scene, and saw a man running up the road. Mr. Stewart and Mr. Forbes of Carleton, ran after the man and he was caught, and Policeman Stinson, who had received word of the affair, arrested him. The defendant's story is that he heard the screams and went to assist the woman and, seeing a man running away, gave chase.

The preliminary hearing in the case was begun this morning and two witnesses were examined on the first charge. The husband of one of the women said that his wife returned home on Saturday evening a little before ten o'clock in a very nervous condition, her lips out and her clothing torn. She said that she had been attacked on the way up the street. The witness said he went down the road with his wife and she pointed out the spot where she had been attacked. He picked up his wife's purse and backcomb. The woman herself gave evidence and said that she was returning home between 9 and 10 o'clock, and when near the Provincial Hospital she heard a woman scream. After proceeding along the road for a short distance she was attacked from behind by a man who placed his hand over her mouth. A man drove along the road in a carriage and the man who had attacked her ran away. When asked if she could identify the prisoner the witness said that he looked like the man. Hill has been working here, but does not belong to St. John.

ST. JOHN'S GARDEN CITY

Appreciative Comment By Conservation For April

Conservation for April, published by the Commission of Conservation, Ottawa, presents by courtesy of F. A. Todd, landscape architect of Montreal a plan of the garden suburb to be developed at Coldbrook, and says:

"Garden cities are something of a novelty in Canada. Their adaptability to Canadian conditions is necessarily something of an unknown quantity. Nevertheless, the great advantages derived from them for parks and play grounds, and their introduction a matter of great interest. The progressive city of St. John, N. B. has been selected as the site of one of these garden cities, a plan of which is shown in the above diagram. The plan includes an area of about 400 acres, all of which is under the control of the promoting company. The erection of houses and other buildings and the construction of a park will be proceeded with during the present year. "The westerly portion of the city, near the city of St. John, has been designated as a residential district. The streets depart from the old fashioned 'gridiron' design and follow broad, sweeping curves. The cross streets converge upon a centre where the municipal buildings will be erected. Ample provision has been made for parks and play grounds. To the south of this district, factory sites have been provided, and one large factory is already under construction. The uplands to the east have been divided into garden plots, varying in size from one to fourteen acres. A water supply will be obtained from a nearby stream, a dam and storage reservoir being under construction. An efficient sewerage system and all other requirements of a modern city will be carefully constructed and regulated. "Coldbrook garden city is a piece of constructive work in city planning, the development of which will be watched with great interest by city dwellers in every part of Canada."

SEATS FOR THE WOMEN

King Square Offers Opportunity For Gallantry or Official Action

The benches on King Square should not be monopolized by men. It was noticeable last evening, however, that there was very little room for ladies on the benches near the fountain. It would perhaps be wise to have certain seats, especially near the fountain, reserved for ladies and children, since the native gallantry of the men does not prompt them to make way for the ladies and the little ones.

OUR DOMESTIC DRAMA

The second act in a little domestic drama which is of absorbing interest to the members of the staff of the Evening Times was staged this morning. The mother pigeon whose nest is on a window sill on a bare brick building near the Times office is no longer sitting on a nest of three eggs, but has three tiny pigeons under her wings. They are very small, very fluffy and of a very retiring disposition, but there they are, and there is not a prouder mother in the city of St. John today than the mother bird spreading her wings over them to protect them from the rain, which falls upon the outer edge of the window sill, but does not reach the nest.

To the Man Who Must Be Personally Tailored

The Oak Hall Men's Custom Clothing Shop desires to say that the new Spring and Summer fabrics are an exceptionally fine lot of goods, sufficiently varied in color, pattern and weave to satisfy every taste. Not only are the best grades of English wools included but there is also a choice in the best Domestic fabrics.

This is the tailor shop that satisfies. We don't make suits at random, or by rule o'thumb, but to meet in every detail the exact requirements of the customer—his idea prevails, although we are always glad to help by advice and suggestion.

We don't know of an equally good investment for any man who is clothes-particular than the suit we make to his measure and taste from his choice of these fabrics.

- MEN'S BUSINESS SUITS TO MEASURE \$18.00 to \$36.00
- MEN'S EVENING DRESS SUITS TO MEASURE 30.00 to 35.00
- MEN'S FROCK SUITS TO MEASURE 25.00 to 35.00
- MEN'S TROUSERS TO MEASURE 5.00 to 9.00

Some One Gets Too Big a Profit Out of Men's Clothing, But You Need Not Pay It.

An investigation is now being held in Chicago concerning the high cost of farm products to the consumer, and the low price that is paid to the farmer. For instance, potatoes which are sold by the farmer for 30c a bushel cost the consumer 75c to \$1 a bushel. The investigation is to determine who gets this excessive profit.

Now the same condition exists in the clothing industry. The manufacturers of course are entitled to a fair profit, but the expensive method of most retailers doubles and sometimes triples this profit, so by the time the consumer gets it he pays a price far in excess of its intrinsic worth. This is the general condition, but it doesn't exist at Pidgeon's, because when you buy from Pidgeon, high rents and expensive selling methods are eliminated, and the consumer gets all he pays for and more, too. This accounts for the great difference between our prices and other stores' prices. This is why you can buy from us for \$15 a suit which costs \$18 and \$20 down town. If you want 100 per cent. value for every dollar you spend, then you'll do well to investigate this condition.
