THE GIBERSON MINE.

THE STORY IS NOT A MYTH.

A correspondent writing from the Tobique says: "The Giberson Mine is not a myth, as a local paper stated last week. It is a reality. The secret died with the finder, but there are numbers who have seen specimens of the quartz. Your correspondent remembers seeing a piece which was in the possession of an old California miner, some thirty years ago. There are some specimens in Andover, and the Crown Land Office has a sample. We trust that Mr. Baily has found the mine which has been searched for in vain for over forty years, instead of a score as you stated last week."

TO LEAVE THE COUNTRY.

It is with serious regret that we learn of Mr. W. B. Jewett's intention to sell out his business in this county. He has determined to remove to the States as soon as possible and is offering the stock in both the Woodstock and Hartland stores at cost to clear. The people of Hartland and vicinity have appreciated their jewelry store and will regret if it is closed up. It is to be hoped some other enterprising jeweller will find it profitable to start business here.

NARROW ESCAPE FROM DEATH.

James Culbert, living two miles below town, met with a distressing accident on Monday morning. He was thrown violently from a sleigh, attached to a runaway horse, and had his forehead cut on the ice in the road so that a dozen stitches were necessary. He was able to walk from the scene of the accident to the house. Dr Estey was at once summoned and attended to the unfortunate man's wound. The great wonder is that he escaped death, or at least a fracture of the skull. He is about 65 years of age.

BADLY CUT.

Frank Adair, of Carlisle, who was in the woods for McNair, on the Tobique, came out on Wednesday with a bad cut—an ugly gash extending across the back of his right hand. The cords of the thumb were severed so he will have partial loss of the use of that member. The wound was inflicted on Monday, and was not cared for by a physician until Wednesday, when the young man came to Hartland, and sought relief of Dr. Curtis. Adair is stopping at the Hartland House.

Bring your own bottles to the Drug Store and have them filled with essences perfumes, oils, &c. When buying small quantities you get twice the quantity for the money. Estey & Curtis.

DEATH IN CAMP.

THE UNWHOLESOME PORKER
CAUSED IT ALL.

GENUINE CASE OF TRICHINOSIS.

Many employees in McNair's lumber camps on Trowser Lake, Tobique, have been stricken with a strange malady. At first it was supposed to be typhoid fever, being contracted from drinking the lake water. Later investigations shows the disease to have had its origin in pork that was taken in last winter, and off of which, to make the load lighter, the toters had drained the pickle. About fifteen men were stricken down, and the utmost skill of Dr. Wiley of Andover was tried to bring the sufferers through. One young fellow, about 16 years of age, after being taken to his home in Sisson Ridge, succumbed to the disease.

One brave woman, on hearing of her husband's illness, walked 25 miles in to the camp to nurse him.

OLD RESIDENT DEAD.

On Monday Mrs Elizabeth Jenkins died of consumption at the residence of George Johnson. She had been sick for seven or eight years. Mrs Jenkin's maiden name was Davis and she was born 60 years ago in Hibernia, Queen Co, and lived there the greater part of her life. For many years she kept a general store at that place. About 35 years ago she was married, and later came to Carleton County where she lived at Coldstream a long time. She was a widow many years. She was a sister to Mrs G W Boyer, of this village, and a cousin to the late Hugh H H, and G W Davis of Woodstock. During her life Mrs Jenkins was known to have amassed considerable wealth, which she disposed of by a will. The funeral was held in Rockland on Wednesday. Rev John Perry preached the sermon.

LARGE HOGS.

A gentleman brought to market one day last week the, up to that time, largest porker of the season. It tipped the scales at 575 pounds, and was purchased by Mr. John Owens. On Friday, however, Mr. Albert Kilburn, of Mac'n'quack, brought to town the largest hog that has been seen here for some time. It was eighteen months old, and weighed 610 pounds when dressed. It was purchased by Mr. E. Estabrooks—F'ton Gleaner,

NEWS-NOTES.
FROM ROUNDABOUT.

BLOOMFIELD.

Notwithstanding the inclemency of the weather, a large crowd attended the Dedication services at Monticello, Sunday. The church which is quite a magnificent structure, with stained glass windows, cushioned seats, a fine church organ, and heated by a furnace was entirely freed from debt, nine hundred and eleven dollars being contributed in the afternoon service which was conducted by Rev Mr Boynton. They have a sweetly musical sounding bell which can be heard even at this distance.

Mr Burt of Centreville, and Mr Pritchard in the interest of the Teachers Association, were at G H Stokoe's Tuesday.

Miss Viola Stokoe came up from Woodstock last Saturday to spend a short time with relatives and friends, here and at Monticello.

BRISTOL.

Since the snow a few days ago there has been very good going and as a result business has been quite lively. The stores are now beginning to put on their holiday attire.

Mr. and Mrs. D. S. Jones went to Woodstock on Monday.

Miss Mattie Bell has returned from New York and will take charge of the primary School again after vacation. Miss Lepage, the present teacher having resigned.

M A Tompkins has been confined to his house during the past week, with a severe attack of la grippe.

The Orange Lodge held their annual collection on Monday evening, and the following are the officers for the next year: Geo Boyer, W M; H J Cluff, D M; Dr Atkinson, F S; G S Wiggins, Chap; John Farley, R S; W B Tompkins, Treas; A A Brittain, Lect; R W Bridges, D C; Rev D Brooks, S C.

The lodge will hold a social in their hall on the evening of the 29th instant.

UPPER KENT.

We have had a very windy autumn. One of Mrs Barker's buildings was blown down and several turkeys killed.

The Widow Wortman had a barn unroofed which has been replaced with a new one.

John R Armon has bought Ed Whorton's farm and moved in.

John S Armour is about moving into the place vacated by John S Armour.

Mrs Martha Cox of Bath has moved up here and intends to live this winter with her nephew Seth Salmon.

R. P. & Co want 200 Porkers, and must have them right away, highest price, trade or cash.

Packed Without Glass. TEN FOR FIVE CENTS.

This special form of Ripans Tabules is prepared from the original prescription, but more economically put up for the purpose of meeting the universal modern demand for a low price.

DIRECTIONS.—Take one at meal or bed time or whenever you feel poorly. Swallow it whole, with or without a mouthful of water.

They cure all stomach troubles; banish pain; induce sleep; prolong life. An invaluable tonic. Best Spring Medicine. No matter what's the matter, one will do you good. One gives relief—a cure will result if directions are followed.

The five-cent packages are not yet to be had of all dealers, although it is probable that almost any druggist will obtain a supply when requested by a customer to do so; but in any case a single carton, containing ten tabules, will be sent, postage paid, to any address for five cents in stamps, forwarded to the Ripans Chemical Co., No. 16 Spruce St., New York. Until the goods are thoroughly introduced to the trade, agents and peddlers will be supplied at a price which will allow them a fair margin of profit, viz.: 1 dozen cartons for 40 cents—by mail 45 cents. 12 dozen (144 cartons) for \$4.35—by mail for \$4.55. 6 gross (720 cartons) for \$20.25. 48 gross (5,760 cartons) for \$100. Cash with the order in every case, and freight or express charges at the buyer's cost.

A Hartland merchant in endeavouring to make sale of a few carloads of oats in St. John met with this discouragement: Ontario oats can be landed at Carleton for 30 cents a bushel, and the buyer would rather pay that than 24 cents for Carleton Co. grain. The reason given was that our oats were simply not as clean as those coming from P. E. Island or Ontario. At Thursday night's meeting this matter was discussed and the consensus of opinion was that our oats were as plump as any other and the trouble in great measure lay with slip shod farmers and the dealers. One thrifty farmer will raise 500 bushels of prime oats, carefully clean them, bring them to market and sell them for the same price as the lack-thrift gets for poor grain; his is dumped into a bin containing a few oats, some buckwheat, a lot of gravel, and a lot of thistles and straw, so the whole lot is spoiled. If the merchants would pay a little more for good oats than for poor ones the farmers would have an incentive to improve the quality whereas at present the more impurities the more money. What is true of oats applies also to butter.

At the public meeting on Thursday, the merchants were conspicuous by their absence. Can it be they are not in sympathy with the pork-raising movement? If that is the case, they are unlike J. K. Fleming, of Peel, who expressed himself as believing the question the most vital one before us. He is desirous that the farmer should prosper, looking at the question from the point that if they do well merchants and professional men will likewise increase in wealth.

CAN RAISE MORE PORK.

THE FARMERS' MEETING ON THURSDAY—SMALL ATTENDANCE, BUT HOT INTEREST.

IMPORTANT RESOLUTIONS.

The public meeting held Thursday evening for discussing the possible increase in the production of pork was meagrely attended, but warm interest was manifest. M. P. Orser was elected to the chair, and Squire Brown was chosen secretary.

B. N. Shaw was the first speaker and said the first question in hand was or should be of vital interest to every farmer. To begin with there was need of reform in the modes and methods of farming. He figured the cost of raising oats at 30 cents a bushel, so in selling them at 20 cents the farmer is out a dime for every bushel sold. Every ton of hay shipped away impoverishes the farm to the amount of \$5.00, and likewise do oats detract from the richness of the soil. The speaker cited the Jacksonville farmer's failure in hay, the depopulation of that section, and the going into pork-raising. The Toronto company will start a pork-packing house in this province if they can be assured of 25,000 hogs per annum. To Mr. Shaw's mind the farmers could raise pork at a profit for 4 or 5 cents a pound, and he was of the opinion that next year the production from this district could be doubled and in a few years increased ten-fold.

C. J. Connelly speaking next thought the farm produce should be fed to stock instead of shipping it away, and impoverishing the land. He was of the opinion that pork can be raised cheaper than beef; the pig doesn't have to be fed through the winter, and returns are quicker. He thought pork could be raised at a profit for 4 cents. He said farmers generally were to careless with the dressing allowing two-thirds of it to go to waste. His experience was that the cheapest way to make manure was to buy hay and feed it to stock.

Some difficulty was experienced in bringing J. K. Fleming to his feet, but speaking, he agreed with what had been said—he had a little experience in farming and considered the present issue a live one. He was surprised at the small attendance—the farmers should take an interest in a matter of so vast importance. The selling of hay and oats was not successful, the farmers were not getting rich with oats at 25 cents, and if the farmers were not doing well nobody else could, since they were the back bone of the country. He spoke of the importance of dairy products; while our butter is perhaps second-class, our cheese had a splendid reputation. He thought these should be a bonus to aid the export of New Brunswick dairy produce, and cited how the government had furthered the cheese industry in P. E. Island. Pork, butter and cheese, he said were the most important products. The supply of pork could be largely increased if the farmers had a sure market and a fair price.

D. H. Keswick said in his farming experience he had found pork the most

profitable. This fall he killed a pig dressing 250 pounds that cost him \$7. to raise. He could increase his production ten fold.

Dr. Estey gave his experience, having been brought up on a farm in York county. He told of one hog that brought in \$49; and said his father never sold oats, or shipped hay away, but fed to stock.

The chairman being called upon endorsed what had been said and spoke about the raising of oats.

B. N. Shaw moved the following resolutions which were discussed and finally carried:

1. That in the opinion of this meeting the number of pigs raised here could be trebled in '98, and increased ten fold in a few years.

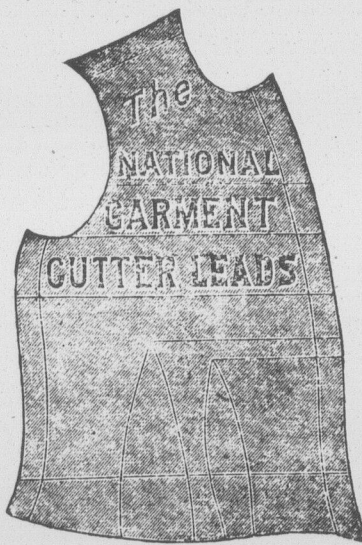

2. That more than 2000 hogs could be shipped from this immediate district next year.

There will be another Farmers' Meeting on January 6th, 1898.

C. W. S. Barker of Four Falls Vic Co has sown an acre of Fife Winter Wheat. It was sown the 2nd of Oct. It came up strong and vigorous and if it succeeds he will be able to supply the farmers of Victoria with seed next year. The farmers here are much interested in the experiment, as the wheat is much better than spring varieties; is heavier grain and the flour is of a superior quality. We see no reason why it cannot be grown on the right kind of soil in this county as well as the North West.

To New and Old Subscribers!

A Special Offer

We have made arrangements to get for our subscribers a valuable set of premiums, and are able to offer them almost free of cost.

FARM NEWS.

Regular subscription price, 50 cents. Farm News now reaches more than 80,000 families. It holds this large and loyal following of subscribers because they regard it as one of the chief essentials of their success in farming. It keeps in touch with the most progressive agriculture of the day, it is scientific in its spirit, and at the same time is never obscure in its meaning, nor stilted in its style. It's the kind of a paper the farmer values in his every day work, because in it he finds what other successful farmers are doing, and how they do it. Its 16 pages contain no "dead weight"—no "fillers." Every line counts. If you know anything about the farm and farm life, examine Farm News and you will understand how much its subscribers appreciate it. And how it grows better every number. Compare it with any other farm paper, and it stands ahead in practicability and real value.

WOMANKIND.

Regular subscription price, 50c. A handsome 20-page magazine containing stories, poems sketches, bits of travel, and such generally literary matter as appeals most strongly to the average reader, who wants pure and wholesome literature of the entertaining kind. Its practical departments devoted to the kitchen, the flower garden, the care to children, dressmaking, home decoration, etc., are greatly valued by every woman who has ever read them. Extensive improvements have been made in *Womankind* during the past year, and as a result its circulation has been increased from 20,000 to 60,000—a growth that could only possibly be obtained by giving the people what they want. We invite comparison of *Womankind* with other papers of its kind.

OUR PREMIUM BOOKS

"Butter Making."

A series of prize essays in which farmer's wives and daughters, who are in the habit of getting the top prices in the markets, tell how they feed their cows, how they care for their milk, how they make their butter. It is a most valuable book.

PRICE, 25 CENTS.

Womankind Cook Book.

This Cook Book covers the entire range of the culinary art. The recipes in it were selected from the favorite recipes of *Womankind* readers so that in this you have the best things from several hundred practical housekeepers.

PRICE, 25 CENTS.

Farm News Poultry Book.

Written to meet the needs and demands of the farm poultry pard, rather than that of the fancier. It tells all about different breeds, their characteristics and what may be expected of them; tells about feeding and hatching, about diseases and their cures, and is, in short, a complete guide to making hens pay.

FRIENDSHIP WITH OUR NEIGHBORS.

A late issue of the Youth's Companion is always preaching friendliness between the United States and Canada. It says in a recent issue:

The recent visit of Sir Wilfrid Laurier, the Canadian premier to Washington, accomplished several highly desirable objects. In the first place it gave our government and people an opportunity to express the cordial good-will and sincere respect we entertain toward the leading statesman of Canada and the country which he represents.

It must also have dispelled from Sir Wilfrid's mind the idea—if it ever had a lodgement there—that the United States is hostile to Canada, jealous of Canada, or covetous of Canada. Too many Canadians have fancied that certain laws which were intended solely for our own reasonable benefit, were aimed at the Dominion, and had their origin in spite. All Americans know the falsity of that proposition. Sir Wilfrid can now assure his countrymen that we have nothing but friendliness toward them.

Politicians may think that the third result which we shall mention is the greatest. We are not so sure of that. An agreement has been reached, unannounced, by the seal experts of Canada and the United States, as to the effect of the slaughter of seals in the open ocean. Moreover, it has been agreed that an effort shall be made to negotiate a treaty between this country and Great Britain which shall cover and settle all points in dispute between Canada and this republic: the sealing question, the fishery question, the immigration question, alien labor laws, the Alaska boundary matter, access to the Klondike region, and all the rest.

There will be an attempt, at the same time, to discover some way of improving the trade relations between the two countries, by reciprocity agreement or otherwise.

All this is strictly in the line of peace and friendship, and of living as good neighbors with a country which—no less than the United States—has a great part to play in this great world of ours.

A USEFUL INVENTION.

A combined sash balance and lock is a recent invention of a Fort Fairfield gentleman. It is a substitute for all other window fixtures. The pressing of a button in the window case causes the sash to raise to any desired height; releasing the button locks it, and then it cannot be moved up or down without again pressing the button. The device consists of a sprocket wheel, actuated by a spring, the whole set into the window jamb, similar to the manner in which a lock is set in a door. The sprocket meshes into cogs on the inner side of the sash. Pressing the button sets the device in operation by releasing the spring. To close the window a light downward pull on the sash is all that is necessary. The invention is so far ahead of anything else in the way of a window fastening that it is of special note.

Geo. M. Shaw, of this town, has a working model, which is worth looking at.

HUXLEY AND ARNOLD.

Dean Farrar records in his "Men I have known" an amusing and perfectly good-natured retort which Mr. Matthew Arnold provoked from Professor Huxley, for the better appreciation of which it may be added that the "sweetness and light," of which Mr. Arnold wrote, were exemplified in his own very airy and charming manners:

I sometimes met Huxley in company with Matthew Arnold, and nothing could be more delightful than the conversation elicited by their contrasted individualities.

I remember a walk which I once took with them both through the pleasant grounds of Paris Hill, where Mr. Arnold's cottage was. He was asking Huxley whether he liked going out to dinner parties, and the professor answered that as a rule he did not like it at all.

"Ah," said Mr. Arnold, "I rather like it. It is rather nice to meet people."

"Oh yes," replied Huxley, "but we are not at all such everlasting cupids as you are!"

OSTRICH'S ODD TRAP

The oddest predicament in which an ostrich ever found itself lately befell one of the huge birds belonging to a South African farmer. This ostrich stole and bolted while steaming hot, a big dumpling. The bird's regret was immediate and visible. In his struggle to get rid of the fiery thing within him, Mr. Ostrich twisted his supple neck around one of his legs and succeeded in tying it in a knot. It required three men and half an hour's time to extricate the bird from its self-made trap.

A LIFE SAVER TO MANKIND

is what Mr. George Benner, Warton, Ont., styles **Dr. Chase's Kidney-Liver Pills.**

Not that I am at all fond of having my name put in public places, but as a life saver to mankind, I hereby state what Dr. A. W. Chase's K.-L. Pills did for me. For nearly four years I was greatly troubled with Constipation and general weakness in the kidneys, and in my perilous position was strongly advised to use Chase's Pills, and to-day I can safely and truthfully state that they have saved my life.

GEO. BENNER.

To all who find themselves with health gradually slipping away, Kidneys and Liver so disorganized that they are incapable of keeping the system free from poisonous waste material, Stomach Disordered, Bowels Constipated, Head Aching, Back Pain, take Dr. Chase's Kidney-Liver Pills. The quick way they help you back to health will surprise you.

THE RAILWAY ENGINEER

IS EULOGISED BY THADDEUS.

Did you ever ride in a railway cab with the engineer? If you have not, then a new and unique experience awaits you. I have profound respect for an engineer, especially for the one who drives a train. Sometimes he is grizzled and old. Sometimes he is little more than a boy, but there is strength in every line of his frame, as with hand on throttle he watches the line, noting by some occult power what even your keen eyes do not see. How he loves his engine! How he carresses her! (the engine to the engineer is always of the feminine gender) How he studies her moods, for like her sex she has them—sometimes touchy: sometimes snappy: but always lovely and bewitching. If I were a wife or a sweetheart of an engineer I should be jealous of only one rival and that would be his engine. If you think you are creeping along in your slow train ask for permission to ride in the cab and then you will see with what strength and ease and rapidity the miles slip behind you. After that ride with the engineer you will always touch your hat when you meet him, and think how superior he is to the car load of dudes and dudines behind him. God bless our engineers and guard them! They are brave, strong, self-reliant men, and on many a river and many a sea and many a dark crossing they have held with blistered hands the throttle "till every galoot was on shore".

SENSE AND NONSENSE.

A famous musician was once asked by two vocalists to decide which of them sang the better. The day being appointed, both parties exerted themselves to the utmost, and when they had finished, the musician, addressing the first said:—

'As for you, sir, you are the worst singer I have ever heard in my life!'

'Ah! ah!' said the other, exulting, 'I knew I should win the wager.'

'Stop,' said the doctor, 'I have a word to say. As for you, sir, you cannot sing at all.'

Please call and examine the Massey-Harris cylinder root pulper it goes with roller bearings and goes awful easy, Shaw & Dibblee.

'Ye orter have seen yerself smirkin an primpin when ye asked the lady fur a piece o' pie,' remarked Meandering Mike. 'Anybody 'u'd a thought ye considered yerself a beau ideal.'

'That's wot I am,' replied Plodding Pete. 'I'm a hobo ideal.'

Dasher—That man Archer whom you introduced me to is very appropriately named, isn't he?

I don't know about that. What makes you think so?

Crasher— I don't know about that. What makes you think so?

Dasher— Why, he is not only bow legged, but he is a narrow minded man as well.
