INTRODUCTION.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in the Dominion.

A Provincial Act incorporating the Governors of King's College received the Royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approbation "all Statutes, Rules and Ordinances" of the Board of Governors are subject, but King's College is open to Students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, with the exception of Divinity.

In 1871 a Curriculum was issued for a course of Civil Engineering, and the University has subsequently granted Degrees and Diplomas in that science, as well as in Arts, Law and Divinity.

During the past Academical Year many improvements have been made in the Meteorological Observatory. The Philosophical Apparatus, for purposes of general instruction, has also been improved, and largely increased, so that the College now possesses all that may be required for illustration in the most advanced course of Physical Science.

A system of Local Examinations has been instituted for those who are not members of the University.

Candidates for Matriculation may now be examined at distant centres, under special regulations, which will be found in the calendar.

The Examiners for the past Academical year, outside the Faculty, were as follows :—

The Ven. Archdeacon Gilpin, D. D.

The Rev. Canon Maynard, D. D.

Professor Liechti.

Rev. E. E. B. Nichols, D. D.

Rev. Canon Brigstocke, M. A.

E. Gilpin, Esq., M. A., Inspector of Mines, N. S.

All the information required by candidates for admission may be gathered from the pages of the Calendar.

MATRICULATION IN ENGINEERING.

The same as in the School of Arts, with the omission of the *Classical Subjects*.

Matriculated Students are required to attend the Lectures and Examinations in all the Departments in their course, and to procure from the Professors certificates of attendance, without which they will not be allowed to proceed to the Examinations held at the end of every term.

ATTENDANCE AT LECTURES.

Attendance at all Lectures, except those which shall be announced as optional, shall be compulsory upon all Undergraduates.

Professors will note upon the Lectures Attendance List the presence or absence of students immediately before beginning the exercises of the class: any Student entering thereafter will be registered as absent, unless a satisfactory explanation be given to the Professor.

No student shall be allowed to absent himself from any Lecture except by special permission obtained from the Professor.

COURSE OF STUDY.

The object aimed at is to secure a good general education for all Matriculated Students, while every facility is afforded for the prosecution of special studies. Accordingly, every Matriculated Student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the sixth Term of residence. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student is desirous of taking Honors at his B. A. Examination, he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise Regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B. A. are permitted to attend the lectures of any of the Professors subject to all the usual Regulations.

The schemes of Responsions and B. A. Examination will afford a general idea of the usual Curriculum, which, within certain limits is varied as circumstances require.

- 2.—Mechanics and Civil Engineering as they bear on all matters relating to Railroads, motive power for them, and all other modern aids to the human hand.
- 3.—Languages of Modern Europe—German, but more especially French, as the almost universal medium of communication in Europe.

His Excellency has decreed that should no candidate be found duly qualified, the amount in that case, in any year, shall be applied to the purchase of books in the department for the College Library.

TERMS.

I. The Williams Prize in Mineralogy applied to Mining.—The preparation for such competition shall be, in addition to a brief sketch of Geology, a study of the general principles of Mining, and of specimens of metals and minerals, particularly the natural products of the British North American Provinces, such as ores of gold, copper, iron and other metals; coal, antimony, gypsum, manganese and other useful minerals.

The candidate shall be required to produce satisfactory certificates of attendance and attention at Lectures on chemical physics and inorganic chemistry either in the College or elsewhere, in addition to the like satisfactory certificates of attendance at the special Lectures by the Professor.

II.—The Williams Prize in Engineering.—The course of study preparatory to this competition shall embrace, *first*—that part of Engineering comprehended under the general name of Engineering Geodesy, which depends upon Geometrical principles alone, such as surveying, both with the chain and by angular measurements, levelling, setting-out works, copying, enlarging and reducing plans, together with a philosophical account of all the instruments used in these operations. *Second*—a summary of the principles of stress, stability and strength. *Third*—the principles according to which structures are combined into extensive works of Engineering, such, as roads, railways, natural and artificial water channels, inland navigation, tidal and coast works.

The certificates must be signed by the various Professors whose courses of lectures they have attended, and no Undergraduate shall be allowed to present himself at any Degree Examination, unless he shall have complied with the above regulations. Or, if Undergraduates shall not have attended the whole time at King's College, they shall be required to produce similar certificates from the University they have attended.

A public Examination for Degrees shall be held towards the end of Michaelmas and Easter Terms. Students shall not be permitted to offer themselves for this before their ninth Term, except those who intend to offer themselves for Honours, who may be examined in the Ordinary Degree subjects in their seventh Term, between the Responsions and this Examination. In such case, the Student must pass an examination in the Honour-subjects chosen by him before being admitted to a Degree.

The Third Class shall comprise those who shall have shown great proficiency in *all* the subjects of the Pass Examination, but who shall not have taken Honours.

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1789. Several contributions in money had previously been received, but it was not until that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. John Inglis, son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester, William Wilberforce, Sir S. Bernard Morland, John Eardley-Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange, and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for promoting Christian Knowledge.

Among later benefactors must be mentioned Dr. Greswell of Worcester College, Oxford; the Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, D.C.L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq.; The Dominion Government; The Secretary of the Interior, United States; The Institution of Civil Engineers; The Society of Engineers; The Royal Society; The Rev. G. McCawley, D.D.,

Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; the present Bishop of Nova Scotia; and Her Majesty the Queen.

This large collection of books, now numbering over 6000 volumes, contained till the year 1870 in a single room in the College building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In Modern History and Belles-Lettres it is very poorly supplied.

In Science some recent Standard books have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the General Williams prize moneys, and the benefactions of friends of the University.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

THE Geological specimens, many of which are very fine, illustrate the most prominent features of general geology, but the majority have been collected in Nova Scotia and are speci-

ally adapted to shew the characters of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows :—

1. The Almon collection, presented about twenty years ago by Dr. W. J. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Prof. How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then Agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861, by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Denison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Prof. How. It contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Denison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of

great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland Co., presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How.

The mineralogical specimens represent the most important species of minerals—some of them are of great beauty. They consist of those in the Almon collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George, Rev. Dr. Robertson, Rector of Wilmot, H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College, Rev. Mr. Ambrose, Rev. J. C. Cochran, C. B. Bowman, Esq., J. Bowman, Esq., Rev. D. W. Pickett, Hon. W. Odell, and Prof. How, have presented interesting specimens.

ZOOLOGY.

The Willis collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes, contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consist of Nova Scotia Algae and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East Indian Plants, presented, in 1805, by Sir T. Strange.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., W. J. Almon, Esq., M. D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins.

The most interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the Leaning Tower and the Baptistery at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Luknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house, in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the Museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases, all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves, or distributed in different parts of the Hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the

Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and faithfully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities addressed to the LIBRARIAN, and of Natural History specimens to the NATURAL HISTORY CURATOR, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations recorded in the yearly calendars as heretofore.

REPORT.

THE Executive Committee of the Associated Alumni of King's College, Windsor, have much pleasure in presenting their thirty-second Annual Report, in which they are able to record the continued prosperity of the University and of the Collegiate School, which it was at one time feared might suffer from the rumours respecting its sanitary condition which had been spread abroad.

These have been happily contradicted in the report of a Committee appointed by the Board of Governors to enquire into the matter, and published by permission in the daily papers, to the effect that having made a thorough examination, they had found the drainage, ventilation, &c., in every respect most satisfactory, and were unable to discover any defect—and further, that they had much pleasure in stating that the result of their inspection shewed there was “no foundation whatever” for the report of defective drainage.

As well as in an analysis of the well water made by Professor How, on 8th April, when he says “I have just finished analysing the well water from behind the Academy, and I find the filtered water furnished to me to be entirely free from all deleterious matters, and to be a perfectly wholesome drinking water.”

Both of which, it is felt, will tend to allay any fears which parents might have had in sending their boys to the Institution.

As year by year passes we have to note the departure of some of our number, and the lessening of the names on the Roll.

This year two who notably during the term from the first entry of their names on the College List till the last day of their lives, ever evinced the warmest interest in the welfare of the College, which in their several spheres they laboured to promote.

The Rev. George McCawley, D. D., and Frederick Allison, Esq., M. A.,—the former as Student, President and Life Governor for a period extending over 60 years,—the latter as Student, Alumnus, President of the Corporation and Member of the Board of Governors from 1848.

Master and pupil, alike gone to their reward—the first in a good old age—the last at a time of life when we naturally look forward to length

of days, and continued usefulness. One other has been called away, Dr. Stiefelhagen, who for many years as Professor of Modern Languages went in and out amongst us, gaining the esteem of his pupils and the affection of his associates. Failing health obliged him to resign his position, and seek by residence and rest in his Fatherland the restoration of his failing powers.

We regret to have to announce that the negotiations for giving the Bishop of Fredericton a status at the Board of Governors, and inducing certain of the young men of that Diocese to complete their studies at King's College, came to a termination in the decision of a majority of the Synod to found a Divinity School, at Fredericton, in connection with the Cathedral under the immediate supervision of the Bishop, notwithstanding the most strenuous advocacy of our interests by our Alumni resident in New Brunswick.

For some years it has been felt and desired that some effort should be made to effect the working of Bye-law 5, of June, 1848, relating to vote by proxy, as the power thus delegated was liable to abuse—but although from time to time this had been attempted nothing definite had been determined upon.

Mr. Wiggins' notice of motion for the repeal of this Bye-law, made at the last annual meeting, with especial reference to the election of members to fill the vacancies occurring at the Board of Governors, has enabled your Committee more fully to consider the matter, and to suggest "That it is advisable that a change be made in the manner of election of Governors—the mode to be somewhat similar to that adopted by the University of Halifax in the election of their Senate."

The Treasurer's account to May 1st is herewith submitted, shewing a balance in hand of \$223.32.

The other business for the consideration of the meeting is the election of four Governors in the place of Henry S. Poole, Esq., M. A., and Edward W. Dimock, Esq., whose term of office has expired, and the late Rev. Dr. McCawley and Mr. Frederick Allison, deceased. The election of a President in the place of Henry Pryor, Esq., D. C. L., and three members of the Executive Committee in the place of George C. Wiggins, Esq., Charles H. Carman, Esq., and Edward Jennings, Esq., M. D., who in the order of their election go out of office, but are eligible for re-election.

By order,

CHARLES H. CARMAN, *Secretary.*

RULES AND RESOLUTIONS

PASSED AT DIFFERENT TIMES.

That no resolution or proceeding inconsistent with or modifying any resolution or proceeding adopted by a general meeting be entertained by the Executive Committee in Halifax, except upon a month's notice to the Committee being given by the person proposing the same, and that no such resolution or proceeding be carried into effect until the same shall have been confirmed by a general meeting to be summoned for the consideration thereof, if necessary to be arranged before the annual general meeting.

That a corresponding Committee of three residents in Windsor or its neighbourhood, the chairman whereof shall be, if possible, a member of the Executive Committee, be appointed to meet on the second Wednesday in every month, and at such other times as may be expedient, upon summons of the chairman, to confer with the officers of the College or Collegiate School upon any subject, to be submitted to them either by such officers, or by the Executive Committee in Halifax, in reference to the College or School, and to report thereon to the Executive Committee.

A month's notice shall be given of all resolutions affecting the rights of members, or creating new offices or salaries.

No individual shall be entitled to vote under a parochial certificate unless he be authorized by a parish meeting.

All annual general meetings of this Association shall be holden at Windsor.

That the Treasurer make up his annual account to the 30th of April in each and every year.

All undergraduates, resident at College, shall be competent to compete for the prize or certificate for Modern Languages.

At the Annual Meeting held at Windsor, June 29th, 1856, Dr. King moved the resolution, notice of which was given at the last annual meeting by the Rev. Dr. Twining, in reference to the mode of election of Governors, viz: that the present mode of voting for each individual separately and in alphabetical order be discontinued, and that the usual mode of putting all the names proposed on the same ballot, out of whom those having the highest number shall be declared elected, should be adopted; which motion was seconded by Dr. Almon. After considerable discussion Mr. A. M. Cochran moved in amendment that the following proviso be added:—"Provided that no person shall be declared elected as Governor unless he have a majority of votes cast." The amendment was seconded by Nepean Clarke, Esq., and carried. The original resolution of Rev. Dr. Twining as amended by Mr. Cochran's proviso, then passed.

At the annual meeting June 25th, 1873:—

"That in the election of Governors the order of names be such as to place the name of the candidate obtaining the smallest number of votes at the head of the list, and so in succession."

At the general meeting, October 17th, 1856:—

"That the right of voting by proxy be in no way interfered with."

At the general meeting, June 24th, 1857:—

"That the ballot be not sent round for any officer of this Association, or of the Board of Governors, whose name has not been previously proposed and seconded by some member of the Association; and that the ballot be not taken until all the names of all persons intended to be proposed for any office be given."

At the annual meeting, June 27th, 1860, the following resolutions passed:—

"That the Executive Committee of the Associate Alumni be empowered at their monthly meetings, during the interval between one annual general meeting and the next, to elect members of the Incorporation, provided that no black beans be cast against them."

"Whereas, The funds of this Association are pledged, and consequently, no funds are left for providing the Alumni scholarship and the usual prizes.

"Resolved, That honorary certificates be granted in the several departments instead of the prizes as heretofore."

At the annual meeting, June 28th, 1865 :—

"That any member of this Society whose annual subscription shall remain and be unpaid for three years shall cease to be a member of this Society, and can only be admitted as a new member by being proposed and seconded and duly elected pursuant to the Bye-Laws."

At the annual meeting, June 23rd, 1869 :—

"That the Board of Governors be requested to furnish, previous to the annual general meeting of the Associated Alumni in each year, for their information, a copy of the Treasurer's account.

"That all officers of the Associated Alumni shall have been members of the Association, for at least one year previous to their appointment."

At the annual meeting, June 25th, 1873 :—

"Whereas, The Library is suffering from the want of the literature of the day, for which there are no funds available since the nominations have in effect abolished all fees payable by the Students.

"And whereas, It was suggested some time ago, that the holders of such nominations should in using them subject the nominee to the payment of the Library fee of five dollars annually, but such suggestion has not been generally complied with.

"Resolved, That the Governors be requested in publishing the Calendar to append to the article on nominations a note requesting that such nominations should be made subject to the payment of such Library fee, and that it be the duty of the Secretary of the Governors to ascertain whether the party nominating except the Library fee from the exemptions."

At the annual meeting, June 24th, 1874 :—

"That the Board of Governors be requested to submit the minutes of their meetings to the the annual meeting of the Alumni."

A report from the Committee appointed at the last annual meeting on the subject of adding a Department of Mining Engineering to the College was submitted.

The report recommended a course of Lectures of six weeks a year for two years. In the opinion of the Committee it would require a sum of at least \$200 per annum to pay the Lecturer's salary, and \$100 per annum to purchase apparatus for the first two or three years.

"Resolved, That the report be received and be referred to the Governors, with the regret that the Alumni had no funds to carry out the objects contemplated."

At the annual meeting, June 26th, 1878:—

Notice of motion by Rev. Mr. Ambrose.

"That in order to increase the number of the Alumni, but more especially to extend an interest in the University of King's College, the annual subscription to the Association of the Alumni be reduced to two dollars, and that the commutation fee be forty dollars, instead of eighty as at present."

Deferred to Annual Meeting, June 23, 1879, for further consideration.

On motion of Rev. Stanley Boyd, M. A., seconded by Rev. John Ambrose, M. A.

"Resolved, That a committee of six members be appointed to ascertain how many new subscribers to the funds of the Incorporated Alumni at the rate of \$2 per annum can be procured, to report the same at the next general meeting of this Association.

COMMITTEE.

REV. STANLEY BOYD, M. A.
 REV. JOHN AMBROSE, M. A., Digby.
 MR. I. ALLEN JACK, St. John, N. B.
 REV. CHARLES BOWMAN, D. D.
 REV. GEORGE W. HODGSON, M. A., Charlottetown, P. E. I.
 MR. CHARLES H. CARMAN, Halifax.

Notice of motion by Mr. Wiggins.

"Whereas, For some years past the election of Governors of this College has almost entirely been in the hands of some one individual, using proxies solicited by himself and perhaps thoughtlessly given, a practice which, if continued, cannot but fail to have an injurious effect on the College, by deterring the Alumni who now attend the annual meeting from doing so. Knowing that they have no control in the election of officers, their united vote being liable to be overridden by a large number of proxies held by one individual, they naturally dislike being made ridiculous in their efforts to promote the interests of the College, and possibly may soon leave us altogether.

"Therefore resolved, that in future the election of Governors shall be conducted as follows:—

"All candidates shall be proposed and seconded at the annual meeting prior to the one at which they will be balloted for.

"The Secretary shall prepare a list of those nominated, with the names of the proposer and seconder of said candidate, and have a sufficient number printed, one of which with a voting paper he shall send to each person entitled to vote. The form of which shall be similar to those used by the University of Halifax in the election of their Senate, or such other form as may be deemed suitable by the President and Committee of the Alumni.

"That on the ballot being taken, the vacancies in the Board of Governors shall be filled by the candidates having the largest number of votes, and that a majority of votes cast shall not be necessary for the election of a candidate as at present required.

"That all Bye-Laws incompatible with this resolution be, and are hereby repealed."

Deferred to Annual Meeting, June 23, 1879, for further consideration.

At the annual meeting, June 25th, 1879.

On motion of Rev. Charles Bowman, D. D., seconded by Hon. Wm. J. Almon, M. D.

"That the sum of forty dollars be devoted to the purchase of Philosophical Apparatus, and the repairs of that in present use, under the direction of the College Board."

On motion of Rev. H. Pryor Almon, D. C. L., seconded by Hon. Wm. J. Almon, M. D.

“That application be made to the Legislature in order to provide that in the event of a Governor absenting himself from the meetings of the Board for one year, except by special permission of the Board, his seat be declared vacant, and a successor be appointed at the next annual meeting of the Alumni.”

On motion of Rev. Chas. Bowman, D. D., seconded by Rev. John Ambrose, M. A.

“That the Alumni have heard with much satisfaction that the Board of Governors have followed the example of the ancient Universities of England, in providing for the examination of females, with a view to the attainment of literary distinction.”

On motion of Henry How, Esq., D. C. L., seconded by Rev. John Ambrose, M. A.

“That the

REV. H. PRYOR ALMON, D. C. L.,
REV. CANON MAYNARD, D. D.,
HON. S. L. SHANNON, D. C. L.,

be a Committee to draw up suitable resolutions for presentation to the friends of the deceased members.”

And on motion of Thos. Trenaman, Esq., M. D., seconded by Hon. Wm. J. Almon, M. D.

KING'S COLLEGE SCHOOL,

WINDSOR, N. S.

HEAD MASTER: THE REV. C. E. WILLETS, M. A.

*Graduate and formerly Scholar of Corpus Christi College, Cambridge, late Sub-Rector
Bishop's College School, Lennoxville, Quebec.*

This School is in direct connection with King's College, and is subject to the supervision of the President and Vice-President of the College, under instructions from the Board of Governors.

The object of the School is to provide a sound religious, classical, mathematical and general education, in conformity with the principles of the Church of England; but it is open to all denominations without restriction.

Pupils belonging to the Church of England will attend the Services in the College Chapel, but those of other denominations may, if required by their parents, attend the Sunday services of the denomination to which they belong. In the latter case certificates of proper attendance and good conduct will be required from the minister.

While ample provision is made to prepare boys for the University and higher Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions, and enable them to take that position in society which is conceded only to men of liberal education and refined habits.
