J. F. TWEEDALE AND ROBERT MURRAY GO DOWN IN DEFEAT--TWENTY NEW FACES IN THE NEXT LEGISLATURE

Government Wins Four Seats in St. John City and One in County—Farmers' Ticket Sweeps Carleton, But Loses Its Deposit in York—Hon. J. A. Murray, Hon. Mr. Burchell, B. Frank Smith, Dr. McGrath and Others Are Beaten at the Polls—Foster Party in Precarious Condition as Result of Appeal to Electors.

With the provincial election over on Saturday, New Brunswick has again a Legislature. The contest brought relief to some, disappointment to a few, and caused general dissatisfaction throughout the province that one party or the other failed to receive a decisive and indisputable mandate from the people to carry on. The results are anything but satisfactory to the Government. They return to Frederickton predominating in numbers over any one party, but with fewer members.

They return with fewer members than they had before and with two of their ministers dropped by the wayside. Everything was in the Government's favor but they failed to rise to the occasion.

Something happened to the Government programme and the actors failed to do their part. Calling an election two years before their mandate had expired; calling it in face of repeated statements from the Government that there would be no election this Fall; fearing the temper of the people after the fiscal report for 1920 was in the hands of the people, the Government hoped, by calling a vote at this time, to receive a "snap" verdict which would return their full quota of the last House and possibly pick up a few more.

Three Less Than Before in Party

In this they again failed and will go back to Frederickton with their ranks reduced by three.

The announcement of the election came as a surprise attack from the Government. It found the Opposition disorganized, penniless and in the midst of changing leadership. Handicapped in every way the Opposition put up a glorious fight and have actually administered defeat to the Government. It has achieved a great victory in that it is shown that the Foster Government has fewer seats than it had before.

Government Lost Eight Seats

The Foster Government lost eight seats, dropping them in constituencies they regarded as strongholds and impregnable to Opposition attacks. They failed to realize expectations, and Northumberland, Restigouche and Victoria Counties, considered absolutely safe for the Government, rejected their candidates. In Northumberland the independent ticket won by a handsome majority, leaving at home the Provincial Secretary-Treasurer, Hon. Robert Murray, and the member of the House, the champion of the lumbermen's interests, the Hon. J. P. Burchill. The Northumberland electors decided the legislative halls were no place for "omnibus" and sent back to Frederickton a business man in place of Dr. McGrath. The Independents won in a walk.

In Restigouche the electors were sketched by the Foster rule and turned down the Government ticket, sending to Frederickton two strong Conservatives. In Victoria County the Farmers knocked the props from under the Government and elected their candidates by an overwhelming majority. Victoria delivered another blow at the Liberals by defeating Hon. J. Fletcher Tweedale, Minister of Agriculture. The Government gained four seats in St. John city and county, and one in Kings County, still leaving them three short of the number they had before election day.

Enters Upon Trembling

Looking at the election results from any possible angle, the Government was defeated and will enter upon another legislative career in fear and trembling. A stormy time awaits them, and their lot is an unhappy one. The Opposition lost four seats in St. John County and city, and one in Kings County, and two in Carleton, where they had no ticket. The Carleton County seats went to the Farmers and the St. John seats to the Government.

The United Farmers' ticket in Carleton, Messrs. Fred Smith, R. K. Tracey and S. J. Burlock, as was generally expected, swept the county. The Government candidates, Dr. M. E. Connors and R. L. Simms, and the soldier candidate, S. G. Barter, all lost their deposits. Hon. B. F. Smith put up a big fight, considering the result of the Federal by-election a short time ago, when "Tadwell's" majority was in the thousands, and was only 103 votes behind the lowest man on the Farmers' ticket, S. J. Burlock. The United Farmers were thoroughly organized, having branches in every polling district, and they voted the ticket fairly straight.

Returns for York County show that C. D. Richards led the poll with 3,373,

HON. DR. BAXTER

HON. JOHN B. M. BAXTER, Leader of the Opposition, who made such a gallant fight on very short notice in the Provincial contest ending last Saturday.

OPPOSITION, FARMERS AND INDEPENDENTS AGREE IN MANY WAYS

Hon. J. B. M. Baxter Says Next Session of Legislature Will Prove This Fact.

The Hon. John B. M. Baxter, leader of the Opposition, has issued the following statement regarding the election: To the Electors of the Province of New Brunswick: Ladies and Gentlemen: On behalf of the Opposition Party I beg to thank you for the magnificent work which you accomplished on polling day. Fifteen supporters of the party have been elected and the Government has been unable to obtain a majority of the House. Considering that the election was sprung at a time when the Opposition Party was practically destitute of organization and was just changing its leader, the result is an immense success. The Opposition though able to have put candidates in nearly every constituency did not do so as it did not propose by dividing the forces against the Government to give that body a measure of success to which, in the opinion of the people, it was not entitled. There are many points upon which the Opposition, the Farmers and the Independents are in accord and the next session of the Legislature will demonstrate this fact.

I regret that the services of several valuable men have been temporarily lost to the Opposition in the House by the defeat of some members of our party but I am confident that we can now proceed with the work of organization with a certainty of ultimate success. To do this the party must give due consideration and fairness to all.

MISSING HUNTER IS FOUND DROWNED

Special to The Standard. Fredericton, N. B., Oct. 10.—F. C. Kenny, a native of Glasgow, Carleton county, who was engaged with a Provincial Government survey party on the headwaters of the Miramichi about 45 miles north of Newcastle, was found drowned Saturday. The young man went off on a hunting trip Tuesday, and when not seen for some time, a searching party was sent out to find him. They found an upturned canoe in a lake not far from the camp, and later the body was found. The deceased was a returned soldier and the son of R. H. Kenny.

BURIED WITH MASONIC HONORS.

Special to The Standard. St. Stephen, N. B., Oct. 10.—The remains of the late James Shirley of St. Andrews, who died suddenly Friday were brought here this morning and were interred in the afternoon in the St. Stephen Rural cemetery with Masonic honors. Several members of St. Mark's lodge of St. Andrews accompanied the body and united with the members of Sussex lodge in the services.

HALF OF PROVINCE REJECTS FOSTER PARTY RULE OF FRENZIED FINANCE AND INCOMPETENCE BY HUGE MAJORITY

PREMIER FOSTER

HON. W. E. FOSTER, Premier of New Brunswick, who led the Government forces and succeeded in electing twenty-four of his candidates.

"SATISFIED" SAYS PREMIER FOSTER OF THE ELECTION

Show An Improved Position for the Gov't He Declares After Hearing Returns.

Premier Foster said last evening that he was quite satisfied with the results as known so far. "They show that the Government has lost two seats, while on the other hand the Opposition has lost seven. This indicates an improved position for the Government." The Premier further said that he would make a complete statement as soon as the complete returns have been received.

WILD NIGHT OF RIOTING IN IRISH CITIES

Sinn Fein Prisoners at Londonderry Wreck Cells Until Soldiers Are Called Out.

FIRE ON POLICE IN BEJ FAST STREETS

Shop Windows in Cork Are Smashed and One Officer is Killed and Another Hurt.

Belfast, Oct. 10.—The people residing in the vicinity of the prison at Londonderry passed a sleepless night owing to the din made by Sinn Fein prisoners, who wrecked the cells, smashed windows and played republican songs. Eventually troops were summoned and surrounded the prison. They first fired in the air, then suppressed the disorders. An attempt was made at Derry today to hold a huge political demonstration at the funeral of the 17 year old boy John Clifford, who was shot by a sentry Wednesday night. As the enormous assembly started, however, soldiers with fixed bayonets stepped in behind the hearse. Others marched further in the rear and prevented anything like an organized procession and the crowds being pushed to the side paths and side streets.

Fired on the Soldiers.

A lorry containing soldiers and policemen was fired upon last night by a group of men stationed in Albert street, near Falls Road, at Belfast. The attack occurred after curfew hours. The fire of the attacking party was returned from the lorry. Henry McConville, 45 years old, was wounded in the hip and taken to hospital. The other assailants escaped.

OTTAWA IS ONLY MILDLY SURPRISED AT THE RESULTS

Press Thinks Election Figures Show Wider Development of Political Groups.

Ottawa, Oct. 10.—Now Brunswick election results were received with mild surprise at the capital tonight. While the general expectation had been that the Premier Government would have at least a small working majority over all opponents, predictions as to the probable outcome of the vote have usually been qualified with the observation that elections are harder to forecast than they were in the days when contests were confined to two parties.

Shows More Groups.

Montreal, Oct. 10.—Referring to the election of the Gazette says: "The election of a legislature for the Province of New Brunswick on Saturday showed that the development of political groups had been greater than observers generally anticipated. On the face of the situation, it cannot be said what the outcome will be, but unless full returns change the representation of parties somewhat the government, like that of Manitoba, which faces a similar situation will have the advantage."

shops in Patrick street were smashed during curfew hours last night.

Otherwise, however, the night passed quietly. Commenting on a statement made at Dublin Castle that the bomb explosions in the city hall here yesterday morning were believed to be due to a rumor that the military was going to take possession of the building. Local newspapermen said they were unaware that such a report had been circulated. An officer of the Royal Air force named Richardson, was killed, Lieut. Robertson, of the medical corps was dangerously wounded and three soldiers received wounds when the lorry in which they were travelling was ambushed about 20 miles from Cork at 11.30 last night. The attack occurred near Bandon, County Cork.

Out of Forty-Eight Seats Government Lost Twenty-Four, Fifteen Going to the Opposition, Five to the Farmers and Four to the Independents — Opposition Leaders Made Wonderful Fight in Province in the Brief Time Government Gave After Calling An Election — Many Changes in the Representatives.

Election day is over. The vote on Saturday last in the Province of New Brunswick picked the forty-eight electors who are to control the destinies of the province for the next Legislature. The old House of 27 Liberals and 21 Oppositionists has been replaced by 24 Liberals, 15 Oppositionists, 5 Farmers and 4 Independents.

The fight was a short one, only three weeks passing between the announcement of the contest and the voting day. But in spite of that handicap each party made a strong fight and the interest in the struggle was intense.

The premier of the province spoke in many places with his colleagues and his nominees, while the Hon. J. B. M. Baxter, chosen leader of the Opposition after the call to vote was issued, made a gallant fight to lead his party to victory. He toured the ridings for a week and ended his campaign with a great rally in the Imperial Theatre here on Friday evening.

OPPOSITION TO LOYD GEORGE NOW UNITED

Irish Problem Brings Grey,
Asquith and Morley
Together.

COX'S LETTER A BLANK CARTRIDGE

Ireland Must be Given Some
Proof of Sincerity of Eng-
lish Before Peace Comes.

By GARL W. ACKERMAN.
(Copyright, 1920, by Public Ledger.)
London, Oct. 9.—The Liberal opposi-
tion against the Lloyd George govern-
ment is in full swing. Since Viscount
Grey launched the attack by his letter
on Ireland to the Westminster Gazette
there have been three distinct addi-
tional moves against the cabinet, and to-
night for the first time in months it
looks as if the opposition to the pres-
ent government's policy toward Ire-
land were united.

Although Viscount Grey, Lord Mor-
ley and Mr. Asquith do not stand abso-
lutely together in their Irish
policies, still as the Times emphasizes
in its leading article, they agree on one
fundamental point, the necessity of
giving the Irish people some incontro-
vertible proof of English sincerity, in-
stead of present appearances. The
opposition is united because the
fundamental platform of fair play to-
ward Ireland and honesty toward the
Irish people.

The newspapers, however, attack
Mr. Asquith's letter to the Times on
the ground that he has turned com-
pletely to the right. This is because
of his suggestion that the Irish should be
permitted to have an army and a navy
if they desire.

Cox's Message a "Blank Cartridge."
Governor Cox's message has been to
the Manchester Guardian nothing more
than a "blank cartridge." Today's
editorial says:

"Governor Cox's latest reference to
Ireland in his presidential campaign
seems rather odd at first, but like
the Cheburek it fades gradually
away. If you go on looking at it
nothing but a blank cartridge is left.
Mr. Cox is tired of saying that Ire-
land has the right to separate from
Great Britain and to establish her own
government. It is not his place, say
to this and any other such inter-
national agreement as seems necessary to
accomplish that result.

"What is this but an old friend-
ship of the right of rebellion, maintain-
able only by the force of your own power
of bringing it off? We exercised it in
1830. The Indians exercised it in the
last century and last century from us.
Sir Edward Carson, Lord Birken-
head and Bonar Law spent many
months in working up a part of Ire-
land to exercise it in this. It is
mere trash for Cox to say or imply
that a subject nation's conduct when
it rebels is not immoral, as stealing
or breaking a contract. It is a crime
with which America were regarded
extremely familiar when almost the
whole of our governing classes were
taking the rebel states at the time
of the American Civil War that the
South had a perfect right to separate
from them and to establish its own
government in any form it chose. What
Ireland's conduct might be.

Uster Influence in the Cabinet.
Commenting upon Uster influence
in the cabinet, the Westminster Gas-
ette says:

"Mr. Edward Carson will no doubt
again interpose his veto on Mr. As-
quith's proposal, as he already has
done on Lord Grey's proposal, and
Lloyd George will probably again
want to be satisfied before he moves a
step that Mr. De Valera will accept.
Mr. Asquith's proposal in full satisfac-
tion of his demands. Posing with this
question, Mr. De Valera will, no
doubt, remain on his high horse, talk
about his sovereignty and independence
and demand recognition of his republic be-
fore he will consent to talk, and then
once more Lloyd George will say: 'I
told you so, and Sir Edward will talk
threateningly of his pledge and in-
wardly rejoice that everything is safe
for Uster at least. This is what will
happen if responsible men will still
in the face of what is happening in
Ireland, consent to play this fool game
which justifies everybody's folly by
someday.'"

"We believe that ultimately the
only way is, as Lord Grey suggests,
to leave to Ireland the responsibility
of finding the right Irish solution, and
we share his confidence that if they
can be led to work in a responsible
manner, many of the difficulties which
now loom largest will disappear. They
never will disappear so long as Na-
tionist Ireland does not believe in
the good faith of the British Govern-
ment and Uster relies on British sup-
port to maintain her in any attitude
she may take up.

GERMANY NOT POOR, THE FRENCH INSIST

Declare She Avoids War
Debts Simply Because She
Does Not Want to Pay.

(Copyright, 1920, by Public Ledger.)
Paris, Oct. 10.—When President Wil-
lison declared in his speech of ac-
ceptance before Parliament that the
Versailles treaty henceforth must be
the "map of new Europe" he sounded
the death knell of the Brussels finan-
cial conference as far as Belgium and
France are concerned. It is also
likely he was aiming at the future
conference in Geneva when the meth-
od of German reparation payments
will be discussed if the conference
actually does take place.

France is now registering an atti-
tude of superior scorn for Germany
and the reports of her representatives
at Brussels and is openly declaring
that Germany is up to her old tricks
in the "Blarney game." Thus, the
splendid theories are being propound-
ed by mathematicians, economists and
experts, the opinion at the Quai
d'Orsay is simply expressed to the
effect by an authority. "The confer-
ences from now on ought to be care-
fully indexed so we can keep track
of them."

It is more than likely the confer-
ence of Brussels will take its place
side by side with all the conferences
of the past. It is also a question just
where the commission on reparations
named in the treaty will leave off its
functions and the conference of Gen-
eva assume them. Just now the repa-
rations commission is merely a "spea-
tator."

NO DIVORCE ON ISLAND OF JERSEY

(Copyright, 1920, by Cross-Atlantic.)
London, Oct. 9.—The island people
married in the island of Jersey, its
for good. Jersey is the island of No
Divorce as well as the home of the
Jersey cow. In fact, if you're mar-
ried in Jersey you won't get divorced
if you can't find a minister anywhere you
live. Here are a few of the things you
will find in Jersey if you do:

1. You take your partner literally
until death do you part, as there is
no divorce in the Jersey law.
2. If you are a woman you cannot
start your bank account without your
husband's permission.
3. You will have to live with your
husband's mother unless he can
provide her with a dowry house.
4. Your husband will be entitled to
sell your property and grab every-
thing you possess unless you have
your possessions divided under the
Jersey Separation Act.

Quite recently a far-seeing Jersey
couple did not fancy the prospect of
being unable to procure a divorce if
they should want one, so they em-
barked for Southampton on their wed-
ding day and went through the cere-
mony there instead of in their island
home.

Although the marriage laws of Jer-
sey have been handed down through
the ages, practically unchanged since
they left the hands of their Norman
conquerors, the little island has led
under lands in one instance. A Jersey
woman has been allowed to marry
the deceased wife's sister for more than
a hundred years.

The Separation Act plays a big part
in Jersey's life, and it is the only
married couple's property has al-
most become a feature of the wed-
ding ceremony. As soon as the bride
has been married the minister with
all his worldly goods, she spends
her post-nuptial life in Jersey.

TO POPULARIZE TEACHING.
In order to make the teaching pro-
fession more popular—it has lost its
popularity on account of the low re-
muneration—Buffalo has devised a
plan whereby ambitious students may
go through two years of Normal school
without the payment of any tuition
and may then go through the Univer-
sity of Buffalo, receiving a teacher's
salary at the same time.

Ireland powers as extended as those
which Mr. Asquith contemplates. But
despite appearances, we do not believe
this aspect of the controversy to be as
immediately fundamental as that of
King's men to pursue a reason-
able majority of the Irish people that
England is not antagonistic to their
political freedom and their prosperity.
"With Mr. Asquith's advocacy of
fiscal independence for Ireland we are
and long have been in agreement. It
is indeed a necessary incident of
dominion status and if freely granted
to Ireland even within the limits of the
sandy defective government of Ireland
bill now before parliament, it would,
we believe, go far to convince fair-
minded Irishmen of English sincerity."
Ireland is the valuable spot in the
present British Government. Lively
debates are expected when parliament
meets in the political tangle between
Lloyd George and his Liberal oppo-
nents, for not until the meeting of Com-
mons will it be possible for the coun-
try to witness a test of strength be-
tween the opposing factions. Mean-
while, the fight for Irish independence
becomes more and more persistent.

VOTE IN CALIFORNIA FEARED IN JAPAN

Ex-Premier Okuma Sees Re-
ferendum Increasing Race
Prejudice Elsewhere.

(Copyright, 1920, by Public Ledger.)
Tokyo, Oct. 9.—Undoubtedly every
effort is being made to tranquillize pub-
lic opinion in press comments on the
California question, but underlying is
the fear that when the referendum
passes, public opinion will be un-
controllable unless some hope of a settle-
ment is held out. The proposal for the
appointment of a high commission
probably was actuated by desire to
satisfy the public hope through re-
turning the question undecided. The
veteran ex-premier, Marquis Okuma,
says:

"The suggestion that an agreement
be concluded restricting immigration
and providing that the vested rights of
Japanese now legal residents of the
United States be safeguarded, will
bring the solution in line with the
policy in accord with American ideals
of justice. That 120,000 Japanese in the
United States, or 50,000 Japanese in
California, or 10,000 Japanese in
California or California is absurd. If any
meeting is called for the purpose of an
appeal to the people, it must be reason-
able, avoid passion, avoid jingoism and
prevent agitation. I fear the psychol-
ogical effect of the referendum in Cal-
ifornia through political propaganda
of the past. It is also a question just
where the commission on reparations
named in the treaty will leave off its
functions and the conference of Gen-
eva assume them. Just now the repa-
rations commission is merely a "spea-
tator."

If there is no solution there will
be a permanent blot on American pres-
tensions to justice and humanity. I
leave, personally, every confidence in
the character of the American people
and their essential quality—the love of
righteousness—proved in the Decla-
ration of Independence and also by re-
ason of Japanese respect for Ameri-
can rights. The complexity of state rights
and constitutional executive and con-
gressional control is difficult for the
Japanese public to understand. I fear
the possibility of making a treaty due
to the necessity of ratification by the
Senate by a two-thirds vote. During
the Taft administration a treaty of ar-
bitration affecting Anglo-Japanese ar-
bitration was proposed. The British
Government requested Japan to modify
its clauses, Japan agreed, but the
Senate has not confirmed the treaty,
notwithstanding the fact that a gen-
eral arbitration treaty would contrib-
ute toward peace. If an agreement
within the power of administration
were reached, some solution satisfac-
tory to both nations should result."

Asked regarding the Ashai interview,
he said:
"The Ashai misquoted me, and said,
'The United States forces an aggres-
sive war on Japan, she would fight,
but at all costs, unless the United
States takes the offensive.'"

CLEVELAND WON SERIES GAMES ON SATURDAY AND SUNDAY

Indians Now Have Three Wins to Credit and Expect to Make it Four Today—Sensational Playing and Heavy Hitting Yesterday.

Cleveland, Oct. 10.—In a game filled with sensational sensations beyond the dreams of fiction, the Cleveland Americans defeated the Brooklyn Nationals in the first contest of the world's series here this afternoon. An unassisted triple play by William Wambegans, a castre-born son of Cleveland, and home runs by Elmer Smith and Jim Bagby were individual feats that will linger in the memory.

The victory broke the existing between the teams and tonight Cleveland is confident that the world's series banner is within its grasp. The Dodgers, crushed by the two reverses of Saturday and today, are clinging desperately tonight to the hope that the Indians, their left hand, may be able to check the savage batting onslaught of the Indians tomorrow, but in the view of Cleveland, everything is over but the shouting. The Indians believe they have solved the mystery of the Brooklyn pitching staff.

Two records established during the hectic hour and forty minutes established by today's contest. Never before in a world's series had a triple play been made by one player. So seldom has this feat been accomplished in any league that many fans record the occasion from memory. A home-run with the bases full was the other epoch-making incident. Another home run, four doubles and a score of hitting and batting feasts were thrown in for good measure.

Wambegans' feat is a "Cleveland special." The Indians second baseman is a Cleveland product and Cleveland was the scene of a similar play 11 years ago. If the annals of baseball are to be relied on triple plays unassisted have been accomplished only eleven times and only twice in major leagues. Neal Ball, of the Cleveland club of 1909 carried off a triple play unassisted. In a game between the Boston Red Sox and the Indians played on July 19 of that year Stahl was on first and Wagner at second with McConnell at the bat, when Ball pulled his great play. Today the stage setting was much the same.

Both Kilduff and Miller had singled to center in turn at the beginning of the fifth inning and were perched on second and first respectively when Mitchell came to bat. He drove a hot liner high and to the left of second base. Wambegans leaped into the air and speared the ball. Thus, before the spectators could grasp the play he had sprinted to second and stepping on the bag eliminated Kilduff who was well on his way to third. Miller was making for second in the belief that the hit was a safe one. It was an easy matter for Wambegans to run up the base line and touch him, completing the first triple ever made by a single player in any world's series.

Cleveland's attack opened with another play that would have been a feature under any other circumstances. With the bases loaded with Indians who had singled in succession off the slants of Burleigh Grimes, Elmer Smith stepped to the plate and catching one of Grimes' that spit balls on the very end of his bat lifted the sphere up and over the screen that tops the right field fence for a home run. The ball was so hard hit that it not only cleared the screen, but struck a house across the street from the ball park. The thing was contagious. In the fifth, after O'Neill had been purposely passed, Picher Bagby hit another homer, when there were two men on bases.

Bagby's hit furnished another novel feat in world's series ball. Never before in such a series have the first seven runs of a game been scored on home run hits.

Sensational Playing
There were many other sensational plays and Catcher O'Neill of Cleveland was responsible for two of these. In the first inning he threw his body full length back of the plate and

Frederickton Won From St. John High

Hard Fought Football Match Saturday Ended With Score Six to Three.

The Frederickton High School boys defeated St. John High 6 to 3 on the Shamrock Grounds Saturday afternoon thereby winning the second game in the inter-scholastic football series. The game was a hard fought one throughout. St. John scored within the first five minutes of play and at first all things pointed towards an easy victory. The capital players buckled down, however, and proved themselves a well drilled machine, their opposition had a bad effect on the St. John boys who gradually went to pieces and failed to take advantage of openings that offered.

The game was rather slow with the scrimmage working hard all the time. The St. John boys seemed to have the advantage in weight in first of the game, but became ragged as the play progressed, while Frederickton improved. The latter held well and their quarters played a snappy game in getting the ball out to the halves. St. John's good tackling saved several scores.

The teams lined up as follows:
Frederickton: Full St. John
Wainwright Low
Kear Halves
McIntyre Melneron
Flood Tansman
Cain Chow
McCaffrey Fraser

Quarters
Currie Williams
Dagget Murphy
Davidson Wilson
Forwards
McIntyre Dalton
Slyster Kilian
McLellan Curran
Yerxa Atkinson
Lamar Campbell
Webster Morris
Bradley Wilson

Spares
Robison Elman
Davidson Taylor
Williams Hollis
Touch judges:—Frederickton, Parvis; St. John, McCreary.
Scored:—McCaffrey tried and one try awarded when Kear was tackled when running for the ball. Williams made the try for St. John.
Both Frederickton's tries were made by the ball being kicked over the line and being closely followed.
N. R. Debraay refereed to the satisfaction of all.

The players felt very grateful to Commissioner Frink, who made the game possible by having men at work on the grounds in the morning cutting grass and filling up holes. With some more work the field should be in great shape for next Saturday's game, when the St. John boys play Debraay.

An Saturday's game indicated St. John has the material this year to make a splendid team. Once they have acquired the knack of working together they should prove themselves with little difficulty the winners of the league.
The game was witnessed by a good crowd, and rosters for both teams were heard at frequent intervals. The yell of the High School girls did much to hearten the teams in critical moments.

Schooner Race Again Postponed

Contest Called off at Halifax Because of Light Winds.

Halifax, Oct. 10.—A marine picture of rare beauty was presented in Halifax harbor on Saturday when the nine schooners entered in the ocean race crossed the starting line just after noon and shot seawards with a speed that was surprising for the very light air then prevailing. There was no race, the contest being called off three hours later when a half mile of the forty mile course, but Halifax saw a beautiful spectacle and the skippers and crews of the competing craft had some real sport. The race is scheduled to commence at 10 o'clock Monday morning, if there is sufficient wind.

From fifteen minutes before the start to an hour or afterwards the contest on Saturday was crowded with exciting incidents. Enough happened to furnish discussion and argument for weeks among the crews of the vessels and keep the local waterfront agog over the burning question as to "which boat had the best of it." As it was, although the race was called off, some of the skippers made a race of it, six of the schooners rounding the inner automatic buoy, 2.4 miles from the starting line, before heading homeward, thus establishing a time test of their relative speed in the weather of the day. In this race honors undoubtedly went to the bowsprit schooner Delevana, Captain Thomas Himmelman, which rounded the mark five minutes ahead of the second vessel, the knockabout schooner Gilbert B. Walker, Captain Angus Walters, though the latter gained somewhat on the run home. It was demonstrated on Saturday that, in very light and variable winds, there is not much to pick a choice between the two types, but the question is still open as to their respective merits in moderate and heavy weather.

The combined statement of the American Smelting & Refining Company and the American Smelters Securities Company for the six months ended June 30 shows total net earnings of \$3,481,385 compared with \$5,713,779 in the corresponding period of 1919.

After the payment of the dividend on the preferred stocks of the American Smelting & Refining Company and the American Smelters Securities Company there was a balance available for the common stock of \$1,516,424, equal to 3.12 per cent on the \$60,988,000 American Smelting & Refining common stock outstanding, compared with \$2,406, equal to 0.40 per cent in the half year ended June 30, 1919.

Toronto Defeated Montreal Team

Losers File Demand No Game Counted Because of Dispute.

Montreal, Oct. 10.—(By Canadian Press)—Argonauts of Toronto defeated Montreal in the opening match of the Inter-Provincial Football union here yesterday by a score of 10 points to 6. The Montreal club has filed a demand with the president of the union, R. B. Isbister, of Hamilton, that the game be not counted because of a dispute over a decision of the referee, Dr. Ed. O'Leary, of Ottawa. The disputed ruling came near the end of the game. Montreal was leading by a point and it looked to the crowd as if the game was as good as won. The people were actually leaving the field. With three minutes to go the Argonauts staged a spectacular offensive. They bucked up the field for tremendous gains, tearing wide holes in the Montreal line. Pugh, the Argo quarter, booted up a high one and Barwick, of the Montreal back division, missed it. The Montreal officials, who claim they are supported by Ben Simpson, of Hamilton, who acted as assistant to Dr. O'Leary, argued that Barwick fell on the ball. The Argonauts and Dr. O'Leary contended that it went to Toronto player. The incident took place only a few yards out from the Montreal line. The Argonauts backed for a try and on the second down Hay was rammed over the line. Montreal officials state that had their team not been dispossessed of the ball it could have played out the remainder of the time and won the game.

TOURISM ONCE MORE BREWING IN SILESIA
(Copyright, 1920, by Public Ledger).
Berlin, Oct. 10.—The situation in the plebiscite district of Upper Silesia is reported dangerous again and this time the cause is the re-establishment of the "Euse Police." The authorized German police force formerly used on Jugo-Slavia is also dangerous. When the French district commander demanded the reintroduction of the Blue Police in a meeting with the town authorities of Myslowitz, forming part of his efforts to disarm the unorganized Polish police forces, the Poles threatened to shoot the first Blue Policeman they met, the commander having to leave the assembly 30, 1519.

on account of the tamout.

In an interview with a French correspondent, Herr Severing, Prussian Minister of the Interior, stated that the government was willing to grant Upper Silesia federal autonomy if remaining German and desiring it. He said the actual date of the plebiscite was less important than the question of absolute freedom for the voters.

German reports describe the situation in the plebiscite area of Carinthia (a southern Austrian district bordering on Jugo-Slavia) also as dangerous. The Germans assert that the Serbian General Major is gathering 2,000 irregular troops to invade the plebiscite district on Sunday, the day of the voting, when fighting may be expected. The Bulgarian correspondent of Vossische Zeitung, telegraphs that the French and their representatives have protested, demanding the departure of General Major, but the Serbian government has not replied. The Germans charge the Jugo-Slavs with disturbing the German meetings by causing fights. The Jugo-Slavs also said to have attacked a food transport, killing four Austrians.

BRITISH ASK FOR DUTY ON GERMAN HOSE

Market Being Flooded With Cheap Hun Hosiery and Gloves.

F. W. WILLE.
Copyright, 1920, by Public Ledger
Washington, Oct. 5.—The F. A. H. board of trade is being pressed by the Midland Hosiery interests as a report just received here to stop unmarked German hosiery imports which have so flooded the British market that unemployment and short time are now prevalent in the British hosiery industry.
Among the demands which have been made on the board of trade, says the report, are the absolute barring out of German hosiery unless marked with the Country of origin; the imposition of an ad valorem duty; the restriction of such imports to the quantity absolutely necessary.
The British fabric glove industry is in similar trouble. As was pointed out some time ago in London this trade in England was, before the war, practically a German monopoly. The fine cotton hosiery and fabric glove industries which were established during the war by enterprising British manufacturers now claim to be threatened with ruin because of the German goods which are going into England in quantities and at prices with which the British product cannot compete.

Toy Industry Kicking

It is also reported that complaints are again being heard from the British toy industry. Some months ago the manufacturers endeavored to induce the Prime Minister to put toys on the list of industries which were to be given special encouragement and protection against foreign competition. At that time they enjoyed the support of many retailers who for patriotic reasons would not handle the German products offered. Due however to the higher prices of the British product and the less skilled workmanship on the finer toys practically all these retailers are now found to have stocked German toys for the Christmas market and the British toy industry which has been providing employment for many disabled service men is experiencing difficulties.

The manufacturers are alarmed, says the report but are not dismayed, and are understood to be planning a cooperative advertising campaign to stimulate British interest in the home product.

Rubbers Must Fit to Wear

THE leading shoe stores realize this. That is one reason why they always stock Dominion Rubber System rubbers.

Dealers know that rubbers must fit perfectly—must have the exact toe, heel and width of the shoe being worn—in order to be comfortable and to give long and satisfactory service. They know, too, that

Dominion Rubber System Rubbers

include shapes and sizes to perfectly fit the shoes of every member of the family—men, women, boys and girls.

They know, too, that Dominion Rubber System rubbers have the sturdy quality and expert workmanship to give you the kind of wear you have a right to expect.

These are some of the reasons why the leading stores sell and recommend Dominion Rubber System rubbers, and why you should insist on having them.

THE RESULT.

The outstanding feature of Saturday's polling is that the Foster Government is beaten. There is no getting away from this fact. What the immediate outcome is going to be it is impossible as yet to forecast; it will depend, we presume, upon the ability of the Government managers to induce some of the independents to throw in their lot with it. Walpole once remarked of some of his political opponents, "All these men have their price, and I know the price of every one of them." Whether Mr. E. S. Cartier can say the same thing about the independents and farmers we do not know, but we shall no doubt learn in time.

If ever a government was well equipped to run an election, the Foster Government was. It apparently had an unlimited supply of money to spend, and it must be said that it spent it in no niggardly fashion. It was in a position to buy everything in sight, and anything and everything that might help along its cause it bought. Yet, despite it all, it lost its campaign.

As matters stand today, it would seem that twenty-four Government supporters were returned, and also twenty-four Opposition. Fifteen of the latter being straight Opposition, and nine independent, farmers and labor. The latter entered the contest opposed to the Government, and it may be presumed that, having been elected on that basis, they will remain in opposition.

Many forecasts have been made some of which were wildly extravagant. The Standard stated a day or two ago that there were twenty-seven seats the Government would not win, and when everything is settled up it will probably be found that our prediction was not more than two out. The Opposition realized that it had a stiff fight in the city and county, though it did not expect to see its whole ticket defeated in the former. Gloucester, Westmorland and Moncton were foregone conclusions for the Government, and Queens and Sunbury were thought to be anybody's fight. Kent was believed to be fairly safe for the Opposition, but proved a disappointment. York kept staunchly to the Opposition, despite the fact that that party's supporters had to face a farmers' ticket preponderantly Conservative in politics. In its favor, however, was the fact that the Government ticket was the weakest ticket ever put up by any party in that county in the whole of its political history. In Kings the loss of Mr. J. A. Murray is a matter for great regret; otherwise the Opposition ticket carried. Perhaps the greatest surprise in that county was the fact that W. H. Huggard, who was supposed to be running both in the Farmers' and Government interests, was left at home. Restigouche, Albert and Charlotte returned members opposed to the Government, which, as matters now stand, finds itself with three members less than it had in the last House. So much for the Premier's efforts to obtain a snap verdict. His attempts to duplicate his Nova Scotia brother's success have signally failed.

It is of course idle to speculate upon what is likely to happen. This depends upon Premier Foster, and just at present he does not know quite where he is. He may meet the House and make an attempt to carry on, but he will be sitting on a volcano the whole time, never knowing when it may blow him up. He announced at the Imperial the other evening that unless he was returned with a sufficient majority of his own party behind him to enable him to carry on a government he should not attempt to continue. The result of the polling is that he has not such a majority, and it remains to be seen if he is a man of his word or not.

TWO GOOD MEN.

During the campaign, and for some time preceding it, no effort was spared by the Government party in Kings County to vilify Mr. Geo. B. Jones, because his name happened to be mentioned in connection with certain matters that cropped up as a result of the Premier's meek-making investigations. A glance at the returns from the various polling stations in the upper part of Kings County, where Mr. Jones is well known by every voter in the district, shows that he beat his competitors out by 573 votes, and it was in the districts in the lower part of the county where the vote went more strongly against him. A pretty accurate barometer of a man's character is the opinion held of him by those who know him most intimately, and these gave a ringing answer to the slanders that have been so freely flung far and wide by his political opponents. The same may be said of Mr. J. A. Murray, who received a big vote in the districts in which he is well known, but who was defeated in the portions of the county where the slanders were able to get in their work. Both Mr. Jones and Mr. Murray are men who have served faithfully and to the best of their ability, and whose names are known to those who know them intimately as the best testimonials they could have. General regret will be felt that Mr. Murray went down to defeat by so narrow a margin. In exchanging him for Mr. Wetmore the county has made a very bad bargain, as it will sooner or later find out.

Probably the sicker man in New Brunswick today is the Hon. Walter Foster. He went to the polls holding twenty-seven seats, and expecting not only to hold them all, but to capture several more. He has lost, and he doesn't know why. If he had paid a little less attention to Mr. Tweeddale, and kept him in his place, he might not have found himself in the position he goes today. It was the resignation of Dr. Smith which precipitated the election, for which Mr. Tweeddale was responsible. Dr. Smith is a man for whom the people had some little respect; for Mr. Tweeddale they have never had anything but utter contempt. Even his own people refused to recognize him on polling day.

A few days ago we remarked in these columns that the Opposition did not expect to carry all the twenty-six seats that it was contesting, but it did expect to carry such a number as with those carried by the Farmers would make it impossible for the Foster Government to continue in office, and that what would happen then could be settled later. Our prediction appears to have come true; the Foster Government cannot carry on. It is dead; though perhaps, as the Irishman said of the eel which he had just decapitated, but which still continued to wriggle, "It is entirely dead, but it's not yet conscious of it."

THE REASONS.

The net result of Saturday's polling would appear to be that the people of New Brunswick are not so enamored of Premier Foster's administration of affairs as he thought they would be, or ought to be, although in the statements he gave to a representative of this newspaper he expressed himself as quite satisfied with the result. He has one reason for gratification at any rate; the people rid him of two useless members of his Cabinet, that he saw no other means of ridding himself of. Just what particular reasons operated most strongly in the minds of the electorate to cause it to take the course it did are not announced, but the verdict is emphatic enough. Three years' unrelenting extravagance, continuous over-expenditures, an enormous increase in the public debt, and a general disregard for prudent administration are matters which the average elector cannot well overlook, and which the promise of hydro-electric development

It is said that Mr. E. S. Cartier left town early yesterday morning "for parts unknown." It is understood, however, that he went with the intention of searching the hillsides in the northern parts of the province in an endeavor to find two or three more sheep for the Foster fold, to get which he is prepared to pay any amount he is asked.

Out of forty-seven candidates who signed the pledge put to them by the Temperance Alliance promising to support a resolution asking for a referendum on the importation of liquor, thirty-two were left at home. The only one of the successful candidates in the city who refused to make the pledge headed the poll by a large majority.

In the light of Saturday's pollings, the articles which have illuminated the editorial columns of the other city newspapers during the last ten days or so make very amusing reading. Their readers were told to "watch The Standard on Monday." Well, The Standard at any rate has not to crawl down.

and a greater improvement of the roads are not sufficient to offset—more particularly as the carrying out of these projects will entail very large additional expenditures.

It may be doubted, too, if the campaign of vilification of certain members of the late Government which Premier Foster and his colleagues, and the press which supports them, have carried on has helped them very much. It is all very well to investigate as long as such investigation is undertaken in the public interest, but all such investigations as have been made by the Foster Government have had as their principal—in fact it might almost be said their only—object the vilification of some of their political opponents in the hope that some political capital might be made. Premier Foster was less concerned about improving the province's position than he was with injuring his opponents, and this sort of thing after a while begins to react. It was admitted that certain looseness of method had been allowed to creep in in one or two matters with which the late administration had been concerned, but Premier Foster's endeavor to fasten personal dishonesty upon some of the members of the late administration was resented more generally than he probably thought would be the case, and such resentment has now found expression at the polls.

Mr. Foster is today a sadder, but possibly wiser, man. He called on the election at a time when it was least expected, in the hope that he might obtain a snap verdict. The net result of these tactics is that he finds himself with three fewer supporters than he had before, and, further, an expression of opinion that his administration of affairs has not been so good as he thought it was.

WHAT OTHERS SAY

Rather a Contract. (Kingston Whig)
 The want ad. page of a Montreal newspaper recently displayed three advertisements that should start people thinking: "Window cleaners wanted; we pay \$35 to \$40 per week." "Pressors on men's coats wanted: \$40 or \$45 a week." "Protestant teacher for Cole St. George school, County Seaboard, salary \$40 a month."

Boys and Their Kingdom. (London Times)
 However other boys may occupy their minds, your London boy can talk of little but machinery. There are few exceptions to the rule. He knows every type of aeroplane and motor car. He makes models when he ought to be learning his lessons. His highest ambition is to be a pilot or a chauffeur. Short of this he would like to drive a locomotive. For a generation or two we have known such boys, but there has never yet been a time when all boys—for the exceptions hardly count—were so keen on machinery.

The Meighen Tariff Policy. (Vancouver World)
 Where the Meighen Government stands in relation to the tariff issue has been put tersely and squarely by the Premier himself. The tariff will be maintained for revenue but it will fulfill a further function as well. "In the Premier's own language, "the policy of the Government is to give Canadian industries of every kind just enough advantage in the Canadian market as to make it pay better to stay here and expand than to diminish their plants or leave."

This is a fairly good definition of what most people understand by a scientific tariff. It is not a tariff designed to make fortunes for the "capitalists" or to give them opportunities of collaring markets wherein the public must buy or go without. It is a tariff intended to produce revenue and at the same time to maintain an industry against foreign competition which otherwise would strangle it. It is protection, of course, but it is "scientific" protection designed not for class benefit but for the general advantage. On much the same lines was Mr. John Chamberlain's tariff reform policy for Great Britain conceived—with the addition of the Imperial preference element.

THE LAUGH LINE

Clever.
 "Smart couple."
 "What makes you think so?"
 "Why, they feed the baby garlic so that they can find it in the dark."

Positively.
 "Have you heard my last joke?" asked the Post, as he stopped the Grouch on the street.
 "I hope so," replied the Grouch, as he kept on travelling.

Another Twain Story.
 "When Mark Twain was a reporter, he inserted this paragraph into a report of a wedding:
 "Conspicuous among the wedding gifts was a ten of coal that had been in the bride's family for five generations. This was much admired by reason of its quaint, old-world manliness, it being much heavier than the tons of coal of today."

He Knows.
 Teacher—Edwin, what is the best time for pickles apples?
 Edwin—When the farmer ain't lookin'.

Long-Distance Proposal.
 "Auntie, did you ever get a proposal?"
 "Once, dear. A gentleman asked me over the telephone to marry him, but he had the wrong number."—New Haven Register.

Sweet Sympathy.
 Boy Scout (to old lady)—"May I accompany you across the street, madam?"
 Old Lady—"Certainly, sonny. How long you been waitin' here for somebody to take you across?"—Judge.

Famous Whoppers.
 "I have been intending to write to you for a long time."
 Dad Knows.
 "Father, what is innocence?"
 "Innocence, my son, is a woman who believes that her husband likes clothes."
 Uncertain Yet.
 "Firing your car?" asked the passer-by as a gring man crawled out from under an automobile.
 "No!" responded the gringy one with a withering look, "merely dabbling in oil."—Judge.

Judging by recent events in the U. S. political and sporting, the motto of that country, "In God we trust," seems to have been amended by the addition of "provided we have fixed things up to win."

RUSSIA AND CHINA REACH AN AGREEMENT

Contract Signed for Operation of Chinese Railroad Under Joint Directorate.

By ROGER AMES BURR. (Copyright, 1920, by Public Ledger.) Peking, Oct. 10.—M. Radeff, manager of the Russo-Asiatic Bank, and Yeh Kung Chao, Minister of Communications, have signed a contract based on the provisions of the Chinese-Russian agreement of 1898 and providing for joint operation of the Chinese Eastern Railway on a strictly commercial basis and with the greatest possible Chinese participation in the direction of the line.

The bank guarantees that it is itself a Russian limited company not connected with any Russian political party, and declares expressly that only Russian and Chinese have an interest in the railway. The bank pledges to issue to the Chinese Government railway bonds of the value of 10,000,000 to 12,000,000 taels, 5,000,000 being the amount not paid to China on the completion of the railway, according to the Chinese-Russian agreement of 1898; the balance covers accrued interest at 6 per cent. The exact interest is undetermined, owing to a difference of opinions as to the year the line was completed, China claiming 1903 and the bank 1907.

As far as the bank is concerned, China is entitled to take over the political sovereignty of the railway zone formerly assumed by Russia. A presidential mandate announcing this is now in the process of drafting.

35,000,000 LIVES COST OF WORLD WAR

France Lost Seven Per Cent. of Her Total Population.

(Copyright, 1920, by Public Ledger.) Paris Oct. 10.—The cost of the world war to the human race is estimated at 35,000,000 lives, according to the figures of the Danish statistician, Loening. The figures, published here today with comment on the losses, equal the present population of France. Of the total living counts 10,000,000 killed in action or died from wounds, 2,900,000 from the increase in mortality among the civil populations during the war, but the largest group estimated is the loss of 20,000,000 due to abnormal decrease in the birth rate.

Concerning France, in particular, whose losses stand next in order after Austria, Hungary, Poland, the Balkans and Russia, the total population, according to Doring, diminished seven per cent. Franchises between the ages of 20 and 44, decreased at the rate of 20 per cent, which contributed to the present day ratio of 126 women to every 100 men. While the losses in eastern Europe were proportionately greater than France, they were not all military deaths, but the great majority were due to famine, epidemics and especially typhus, which is ravaging many regions.

Comb Sage Tea In Hair To Darken It

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair in good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use mixture, and it is so simple to use with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delight to ladies who wish to keep their hair in good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

REDS DEPORT GIRLS FROM SOUTH RUSSIA

Thousands of Women Seized and Sent to Chinese Camps on the Western Front.

(Copyright, 1920, by Public Ledger.) St. Petersburg, Oct. 10.—Thousands of young women of the educated classes have been deported by the Bolshevik authorities from southern Russia and placed at the disposal of the Soviet Chinese troops on the Polish front, according to statements made by two Russian refugees who escaped from Odessa and have just arrived here after drifting about for several days in an open boat in the Black Sea.

Several weeks ago, they declare, the Bolsheviks drew a cordon of Red troops around the city of Odessa and began systematically rounding up all "bourgeois" who were not occupied in manual labor. The cordon was drawn closer every day, and escape was almost impossible. At first, the orders sent from Moscow to arrest and deport only women not engaged in work useful to the state were carried out rigidly, but soon the Bolshevik commissaries began seizing every woman unfortunate enough to take their fancy.

Terrible Scenes Presented. Terrible scenes were presented when wives were torn from their husbands, and young girls, not out of their teens, brutally wrested from their parents. The Soviet authorities explained they were forced to take these measures because the Chinese troops had threatened that otherwise they would stop fighting.

Incredible as these Red atrocities may seem, it is every reason to believe they are true, for statements made by the two refugees, man and wife, have been checked carefully with information from other sources and found to be accurate. Revolt is continually being taking place in Odessa, but they are suppressed cruelly and are invariably followed by numerous executions. The most recent revolt was fomented by the German colony, which had secreted stores of arms and ammunition in a lathery-chamber. Many Bolsheviks were killed, but eventually the Reds triumphed, after receiving reinforcements.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Actual Value of The Nash Six Has Never Been so Clearly Recognized As it is Right Now

That is because motor car buyers are scrutinizing and comparing automobile values now as they have not done for years. A market such as this always brings into sharp relief values that are really sound. It shows which cars are overpriced and which cars are worth every dollar asked for them. This process of comparison is emphasizing anew the superiority of Nash Six value. It is making plain just how low priced the Nash Six is in comparison with those cars which even approximate it in cost.

It is gratifying to Nash Six owners and those contemplating its purchase to find that while the increased price of other cars since 1917 has averaged 76%, the Nash Six has increased but 31%; really 24% considering the addition of cord tires and other equipment as standard. The soundness of Nash policies has been demonstrated. You may purchase a Nash Six now or at any time with the positive assurance that the price represents actual, intrinsic value plus the smallest possible manufacturer's profit.

- All Fat People Easily Reduce The world owes a debt of gratitude to the author of the new famous Marmola Prescription, and it is still more indebted for the reduction of this harmful, effective remedy to tablet form. They are so convenient to take, and as pleasant as candy. One after each meal and at bedtime will quickly reduce your weight. Two, three or four pounds a week, and leave no evil effects such as loose, flabby skin and unsightly wrinkles. Just go on eating what you like—leave exercise to the subject—take your little tablet as directed and soon you will be your natural self, slender in form and trim muscles. Marmola Prescription Tablets may now be obtained at all drug stores, or by writing direct to the Marmola Co., 27 Gerrard Building, Detroit, Mich., and their reasonable price—one dollar for a good size box—leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal proportions.

BROMPTON LEADS WITH SMALL GAIN; SUGAR IS STRONGER

Asbestos, After Activity of Friday, Was Inclined to Go to Lower Levels.

Montreal, Oct. 10.—Brompton continued to hold the leadership of the market Saturday with sugar second, while the Asbestos stocks were quiet and the Spanish River issues continued to hang in the background. Breweries, usually active, was not traded in.

Except in Detroit, the recent awakening in the utilities appeared to be only temporary. Power not being traded in to the extent of a board lot, nor Shawinigan while both Brazilian and Quebec Railway continued quiet, and on the lower side of the market. Detroit again sold at 108, closing showed a net gain of a large fraction at 91 3/4 the day's best.

BEARS ON WALL STREET CRUSH THE PRICES TO LOWERS

Twenty Point Drop in Week in Secondary Rails But Clearing House Reserve Better.

New York, Oct. 9.—Professional pressure against speculative issues of various descriptions featured the stock market today, bears availing themselves of the short session and next week's holiday to effect further recent depreciation. Total sales, including Standard Rails, losing 1 to almost 2 points.

Selling continued to centre in the secondary rails and oils, also shippings, but made no little impression among independent steel equipments, motors and their specialties, food shares and many miscellaneous issues. Texas and Pacific, which has been a few sales, again transported, a further decline of 3 5/8 or a total of almost 20 points for the week, and Wisconsin Central broke 7 points on the few sales, after transportation, including Standard Rails, losing 1 to almost 2 points.

Clearings are improved. Last week's deficit of actual receipts by clearing house banks was corrected today, the item increasing by slightly over \$1,000,000, leaving a little over \$36,000,000 in excess of legal requirements.

Actual loans and discounts continued to expand, however, an increase of about \$29,000,000 lifting the total to the new high record for the year of \$5,453,899,000.

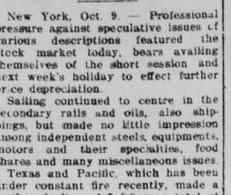

The September tonnage report of the United States steel Corporation was in line with forecasts, disclosing a decrease of 430,234 tons in unfilled orders and reduced bookings to the level of 1,414,000 tons.

Bond were irregular and relatively inactive. Liberty issues and railway convertible forfeiting more of their recent advances. Total sales, par values, aggregated \$5,578,000.

Old United States bonds were unchanged on call during the week.

UNLISTED STOCKS MOST ACTIVE ON MONTREAL MARKET

Paper Stocks Led With Rior-dan New Common and Dryden the Strongest Features.

Special to The Standard. Montreal, Oct. 10.—The market for unlisted stocks has been very active during the past week, even during the early part of the week when the listed market was rather dull, according to Balfour, White & Co.

The paper stocks as a whole led the activity. Rior-dan new common and Dryden Paper being the leaders. The former stock opened on Monday at 54 to 55, being a point lower than last week's close, it recovered this loss during the week but has again ceased off to 54 to 55, and many hundreds of shares changed hands between these figures. Dryden has been very steady around 37 with many sales at this figure. Mattagami has been rather inactive with a sale on Wednesday at 68, being six points lower than the previous sale some little time ago.

Whitson Pulp and Paper has again been rather neglected, the common stock being now offered at 41 with no buyers. The preferred is unchanged, being offered at 68, a small lot having sold at 58 1/2.

North American Pulp is now quoted 6 1/2 to 7, being fractionally higher. Many sales having taken place at 6 1/2. Western Canada Pulp made its appearance on the market, being quoted 45 to 46 1/2, but there were not transactions.

Loews Theatre Stock. The Loews theatres stocks have shown more activity than for some considerable time, probably on account of the progress being made in connection with the proposed merger of the Canadian theatres. Loews Ottawa common has been in strong demand, selling as high as 12; Loews Montreal common selling at 65.

Montreal oil sold at \$1.40, and is now offered at \$1.50. Frontenac Breweries again came into demand after several weeks of inactivity, selling at 75 and jumping to 77, the present quotation being 76 1/2 to 77. There was one sale of the preferred at par.

Cuban Canadian Sugar preferred was actively traded in towards the end of the week at 75, sold at 13 to 14, and Laurentide Power at 62. There were several transactions in Western Grocers' preferred at 70, Alberta Grain preferred sold at 79 3/4, Southern Canada Power at 29 1/2 and Macdonald Wireless at 2 1/2.

Therunited Bank stocks were again rather dull. Provincial Bank being in strong demand at 125, with none quoted 108 to 115. Montreal City and District Bank offered at 170, and Home Bank is slightly weaker, being offered at 98 1/2.

The unlisted bond market has been extremely quiet. Stirling Bank is offered 108 to 115. Montreal City and District Bank offered at 170, and Home Bank is slightly weaker, being offered at 98 1/2.

RUSSIA IS CALLED "ONE VAST PRISON"

Sokolov, Former Member of Duma, Gives Graphic Description of Conditions.

(Copyright, 1920, by Public Ledger.) Paris, Oct. 9.—"All Russia is nothing but one vast prison," that was the first impression which Boris Sokolov, former member of the Russian Duma, gave to the Paris Journal L'Information after his sensational escape from Russia. Sokolov was thrown into prison, and after being condemned to death, he was released, because the authorities could use his knowledge of medicine in fighting typhus. He was again jailed in Moscow and released when the English mission started for there.

Sokolov traversed Russia for three months and was imprisoned again in Samara because he had photographed the execution of seventy-two striking workmen by the Bolsheviks, but he again escaped and is now in Paris. In his interview Sokolov said: "I arrived in Russia with a conciliatory attitude toward the Soviets, but soon found that the masses of the peasantry were dead against Communism, whose methods are so violent that it is hard to comprehend why they still exist. The only explanation is that the government uses the most cruel repressions against the people to prolong its regime. In the prisons there were men of all parties—Bolsheviks, Socialists, Revolutionaries of the right and Left, Mensheviks and others."

"For several months past, they have put in practice the mad idea of military control and military regulation of the whole country. At this moment there is a 'petite bourgeoisie,' which cares nothing about Communism, and en-

gaged altogether in speculation which is thriving. "There are many things in Russia but to see them it is necessary to go in a different manner from most of the official delegations, who usually see nothing. They live in good hotels to which the Soviets take them. One must live as the people live, and eat the bread they eat at the present time. The girl smiled, and he went on, working the same excuse all down the line."

"It is reported that this stock will be listed within the course of a few days. Montreal common selling at 65. LAKE OF THE WOODS MILLING COMPANY HAS GOOD YEAR

STATEMENT ISSUED WEDNESDAY

The Annual Statement just issued by the Lake of the Woods Milling Co. is distinctly favorable from all angles. That the Company was materially affected by the Government's regulations in connection with flour milling is shown by a decrease in the profits derived by the Company in that field of operation. The limitations that were placed upon the flour manufacturers caused many of the best known brands to lose their identity and to become almost unrecognizable. This, of course, did away almost entirely with competition, and the Company is to be congratulated upon its activities in other fields, the results of which are shown in the item "Profits from Other Sources."

This item shows an increase over last year's figure which is almost sufficient to take care of the decrease on the milling, and, now that Five Roses Flour and the other popular brands of the Lake of the Woods Company are to be restored to their old time standard of excellence, steady improvement may be looked for throughout the current year.

The profits derived from milling are shown in the statement as \$410,521, and the profits from other sources as \$321,711, which amount has been apportioned in the following manner: Interest on Company's bonds, \$54,000; Dividend of 7 per cent. on Preferred Shares, \$105,000; Dividend of 12 per cent. on the Common Stock, \$294,000. \$100,000 has been written off on Property and Good Will Accounts and \$179,232 has been carried to the Surplus Account, making a total surplus of \$1,161,647.11.

SEALING TENDERS will be held at the office of H. E. Warburton, Common Clerk, City Hall, on Thursday, the 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, and 31st of the month of October, 1920, at 11 of the clock a. m. for painting the exterior of Fire Station No. 7 West St. John, and the specifications to be seen in the office of the Commissioner of Public Safety.

The City does not bind itself to accept the lowest or any tender. No offer will be considered unless accompanied by the full amount to be had in the office of the Commissioner of Public Safety. Check or a certified check for the amount of the amount of the tender must accompany each bid. Bids will be returned to all bidders who do not bid. The City will hold itself responsible for the return of the bid until the satisfactory completion of the work. Dated at St. John, N. B., Oct. 10, 1920. JOHN THORNTON, Commissioner of Public Safety. PARIS HEARS RED REGIME IS TOPPLING. Morale of Russian Armies Broken and Famined Greatly Feared. FRENCH FEAR HUNS MAY GAIN CONTROL. Keeping an Eye on Berlin Signs of Exploitation Russian Empire. Copyright, 1920, by Public Ledger. Paris, Oct. 10.—There are grave persistent rumors circulating in France tonight to the effect that the Bolshevik regime in Russia is toppling about the tyrants of the czar. Despatches from all quarters of the Empire bring the gloomiest news for Lenin and Trotsky, and it is more than probable that the Russian enterprise, which has started all the world, will collapse completely this winter, unless the impending crisis with the government.

French officials are so certain that the Moscow government is getting off in the extreme that they are already are discussing what will stop into Russia—what will be made and what provisions taken to keep Germany from the whip hand. Many Causes for Worry. The broken morale of the Russian army since the Polish victories, military defeats piling up for the army of the south front and the advance of Wrangel's nationalist Russian army, the fact that the Bolsheviks are in a state of disarray, in addition to the general impoverishment of the Red armies, is the grim rumor of a famine in the north and central Russia, which, if it is forecast, will be more terrible than the famine of 1891. It is no white bread and no sugar, possants have not worked the land, the desperate methods, and the military dictators, and the necessary wages by the red leaders has driven the army to desperate methods, and have been producing for their roads.

Russia has been ostracized political society, especially by who it was thought would be friendly; and both France and land decline diplomatic relations with the Soviet Government. Trotsky has been selected to an inquiry. General Brusilov has been called before a war tribunal. M. Kamenev has been sent to Siberia. Both soldiers and officers are clamoring more and more for "at least a piece of bread." Added to the losses of a rich land in the South is a report that General Wrangel has just taken Simonsk, which is one of the important metallurgical centers of Russia. The "commissioners of the

PARIS HEARS RED REGIME IS TOPPLING. Morale of Russian Armies Broken and Famined Greatly Feared. FRENCH FEAR HUNS MAY GAIN CONTROL. Keeping an Eye on Berlin Signs of Exploitation Russian Empire. Copyright, 1920, by Public Ledger. Paris, Oct. 10.—There are grave persistent rumors circulating in France tonight to the effect that the Bolshevik regime in Russia is toppling about the tyrants of the czar. Despatches from all quarters of the Empire bring the gloomiest news for Lenin and Trotsky, and it is more than probable that the Russian enterprise, which has started all the world, will collapse completely this winter, unless the impending crisis with the government.

French officials are so certain that the Moscow government is getting off in the extreme that they are already are discussing what will stop into Russia—what will be made and what provisions taken to keep Germany from the whip hand. Many Causes for Worry. The broken morale of the Russian army since the Polish victories, military defeats piling up for the army of the south front and the advance of Wrangel's nationalist Russian army, the fact that the Bolsheviks are in a state of disarray, in addition to the general impoverishment of the Red armies, is the grim rumor of a famine in the north and central Russia, which, if it is forecast, will be more terrible than the famine of 1891. It is no white bread and no sugar, possants have not worked the land, the desperate methods, and the military dictators, and the necessary wages by the red leaders has driven the army to desperate methods, and have been producing for their roads.

FRENCH FEAR HUNS MAY GAIN CONTROL

Keeping an Eye on Berlin for Signs of Exploitation of Russian Empire.

(Copyright, 1920, by Public Ledger.) Paris, Oct. 10.—There are grave and persistent rumors circulating in the French capital tonight to the effect that the Bolshevik regime in Russia is toppling about the tyrants of Moscow. Despatches from all quarters of the Soviet empire being the gloomiest tidings for Lenin and Trotsky, and it is more than probable that the great Russian enterprise, which shocked and startled all the world, either will collapse completely this winter or meet the impending crisis with a new government.

French officials are so certain that the Moscow government is going to fall in the supreme test this winter that they already are discussing what will be done in the event of a Russian revolution. It is expected that the French will be taken to keep Germany from getting the whip hand.

Many Causes for Worry.

The broken morale of the Russian armies since the Polish victories, the military defeats plunging up for the Reds on the southern front and the advance of Wrangel's nationalist Russian army driving both Petrograd and Moscow. In addition to the general impotency of the Red armies, there is the grim rumor of a famine spreading in northern and central Russia which, it is forecast, will be more terrible than the famine of 1891. There is no white bread and no sugar. The peasants have not worked the land under their bondage to the Communist dictators, and compulsory service waged by the Moscow leaders has driven the farmers to desperate methods, and they have been producing for their own needs.

Russia—Outraced Politically.

Russia has been outraced from political society especially by Italy, who it was thought would remain friendly; and both France and England decline diplomatic relations with the Soviets. Trotsky has been subjected to an inquiry, General Budenny has been called before a war tribunal, and M. Kamenev has been sent off in disgrace. Both soldiers and peasants are clamoring more and more for peace "at any price."

Added to the losses of grain and land in the South is a report that General Wrangel has just taken Ekaterinopol, which is one of the most important metallurgical centres of Russia.

MEDICINE BALL WORRIED OFFICIALS

(Copyright, 1920, by Public Ledger.) Modena, France, Oct. 10.—Hundreds of tourists coming from Italy into France on one of the continental expressors have just had the novel experience of being delayed at the French border by a harmless American medicine ball. It was half-past two in the morning. Here passengers were pulled out of their berths, led like sheep out into a shed along with their baggage for customs inspection.

There was a pyramid of trunks all marked O. K.; there was a long line of sleepy travelers passing through passport inspection back to the train, peevish and out of sorts, when a little French guard in horizon blue interrupted the proceedings. He called the other guards; he pressed a finger

PARIS DANCE HALL BANNED

Paris, Oct. 10.—The Paris City Council has decided that the municipal building in the Champs-Elysees, familiar to all visitors as the Palace de Glace, formerly an ice-skating rink, should be opened as a city dancing hall. And thereby hangs a tale—for the decision of the City Council has led to the development of an acute controversy which is raging in Paris between the municipal authorities and the Prefect of the Seine. As the Government officials in supreme control of Paris, the Prefect of the Seine has vetoed the proposal.

THE WEATHER.

Toronto, Oct. 10.—Pressure is highest over the southern states and lowest in the far northwest portion of the continent. Rain has fallen along the British Columbia coast, otherwise the weather has been fair throughout the Dominion.

AROUND THE CITY

FIFTEEN DRUNKS.—The excitement brought on by the election may have been responsible for the large number of week-end drunks who will face the Judge this morning. Eight arrests for drunkenness were made on Saturday and seven on Sunday.

THE NET RETURNS.—The net returns from the Bishop's picnic at Torriburn were announced yesterday as \$2,219.64.

MEMBERSHIP DRIVE.—The Y. M. C. is considering a membership drive this week. At the different Masses at the Cathedral yesterday Bishop LeBlanc spoke of the necessity of financial support for the institution.

ATTENDED PLEASANT SOCIAL EVENING

Between fifty and sixty members of the Boys' Work department at the Y. M. C. A. attended a pleasant social evening held in their institution Saturday evening. The International Identification badges, which were worn by ten of the local boys, were presented to the winners by the chairman of the Physical Committee, S. T. Barbour. An interesting "The Wild Tribes of Central Africa," and several recitals of songs were given.

Victoria St. Church Rally Day Services

The Rally Day services of the Victoria street Baptist Church were held yesterday, and they were marked by a very large attendance. The services were featured by the singing of the Young People's choir, composed of twenty-five voices.

MARSH BRIDGE MISSION RALLY

Great interest was taken by members of the Marsh Bridge Mission in their rally day held yesterday afternoon. An attendance of 115 gave much encouragement to the teachers and others interested. Rothsay McLoughlin presided and a short address was given by William Baxter, honorary superintendent. Rev. Mr. Styles, of Carmarthen street, was the principal speaker, referring in his address to rally day and urging all present to go forward in the good work of the mission.

First Meeting For The Season

The Baraca Brotherhood class of the Central Baptist church held its first meeting for the season of 1920-21 yesterday afternoon, and the class re-organization took place. The meeting was largely attended and the outlook is very bright. The regular meetings will be held on Sunday afternoons, while it is the intention to hold literary and musical evenings on different occasions during the season.

DIED.
