[Special to The Advertiser.]

Nontreal, July 16.—Following the many forgeries of labels and the sale canada and the United States as in Canada and the United States as shown in the recent arrests at Detroit, two men were arrested yesterday afternoon here on two charges, first of having secured \$15,000 under false pretences for the sale of 500 cases of rye whiskey and a further charge of having torged the registered label and attached the same to spirituous liquors. be same to spirituous liquors.

The warrants for the arrests of the two men were sworn out yesterday by representatives of the Hiram Walker firm of Walkerville, at the instance of their legal advisor, Charles Gaudetki. It was alleged in the warrants that the two men arrested had forged labels of the Walker firm and had affixed these labels to goods exposed for sale general, it was stated that that district and sold with the intention of deceiving the public was named after the Cavendish family, the public. The two men were also charged with securing money under false pretences. This latter charge was laid by Mr. J. A. Davis of Detroit through his attorney, Peter Bercovitch, K. C. Mr. Bercovitch alleged that the accused had secured \$15,000 from his client by false pretences in selling him what was supposed to be Walker's Canadian rye. But which, he claimed, was really a paisonous substitute containing what was supposed to be Walker's Calladian rye. But which, he claimed, was really a poisonous substitute containing

County To Be Asked To Assist in Constructing New Building.

Revision of plans for additions to Victoria and Wortley road schools was recommended by the board of educaion at a special meeting Thursday afternoon after all tenders received for the work proved to be far in excess of the board's estimates.

Employment of W. H. Robinson, construction engineer, to superintend the wrecking of the Collegiate and other work was authorized after some discussion. No. 3 committee was em-powered to stand a deputation to other cities to look over collegiates there before any decided action is taken on plans for a new collegiate.

Although it was expected that tenders for the new buildings would be high, owing to the advance in building material costs since the first of the year, the prices, nevertheless, were a considerable surprise to No. 2 committie, which opened them prior to the board meeting.

a considerable surprise to No. 2 committie, which opened them prior to the board meeting.

Tenders High.

The estimated cost of the Wortley road addition was \$65,000. The only bulk tender received was from John Hayman & Sons Company, being \$83,000. Canadian Contractors and Builders of Brockville, submitted a tender of \$63,800, while R. G. Wilson & Son submitted one of \$66,441. Neither of these included plumbing and heating, for which the lowest tender was about \$22,024, making the total cost of the two latter contracts considerably more than the one bulk tender submitted.

Cost of the Victoria School work was estimated at \$67,000. R. G. Wilson & Son submitted a tender of \$100,953, not including plumbing and heating, which would add another \$28,000. No other bulk tenders were received.

Appointment of Mr. Robinson to give general assistance to Architect L. E. Carrothers at a salary equal to \$2,500 a year was opposed by Trustee Thomas Coleridge, who wanted the matter referred back to No. 3 committee for further consideration. He said the architect had never made official application for assistance and that he thought the salary somewhat excessive for the type of work undertaken.

application for assistance and that he thought the salary somewhat excessive for the type of work undertaken.

Defends Motion.

Trustee Thomas Rowe, who brought in the recommendation to the board, defended it and urged that to refer it back to the committee was needless delay.

"I am almost ashamed to belong to a school board which has let nearly three months elapse without doing anything to replace the collegiate," he said. "It is true that we were delayed somewhat by the collection of the insurance, but now that we have obtained it there should be no unnecessary delay in replacing the building. Mr. Robinson is a practical man who is not seeking a position, but who is already profitably employed in Sarnia. His appointment is approved by both our chairman, Mr. Hayman, who is a practical builder, and by our architect, who has made numerous applications to our committee for assistance." "I am almost ashamed to belong to

numerous applications to our committee for assistance."

Chairman Hayman concurred in this. He said that the wreaking of the collegiate required constant and expert supervision, as it was a dangerous job and might mean loss of life if not carried out properly. Trustees Wright and Udy thought the work might be done by contract, which would relieve the board from responsibility in case of accidents. The fact that Mr. Robinson will assist in other work, however, convinced a majority of the board of the necessity of his appointment.

county Co-operation.

Trustee Coleridge was responsible for the decision to ask the county of Middlesex to participate in the building of the collegiate. He pointed out that about seventeen per cent of the collegiate attendance is composed of county pupils. If the county wished to have these students educated in the city, he thought that it should contribute to the cost.

Otherwise the city should erect a building sufficient for its own needs and no more. A committee will be appointed to take up the matter with the county authorities.

Purchase Property.

The board adopted recommendations of No. 2 committee to purchase property adjoining the Simcoe street and the Wortley road schools. For the former \$3,500 will be paid to Mrs. Parick Carney; \$4,000 to Mrs. Margaret Shaw: \$3,000 to Mrs. Margaret Shaw: \$3,000 to Mrs. Mary Lawrence. For the Lewis property adjoining the Wortley road school, \$2,600 will be paid.

No. 2 committee was asked to consider plans for a better heating system at the Princess avenue school.

Permission was granted to Mile. Guerin to address public school pupils in behalf of Franco-Canadian orphanages.

Sunday School.

in behalf of Franco-Canadian orphanages.

Sunday School.

Henry Pocock, in behalf of the Methodist Mission Board, offered to purchase a frame building on property purchased by the board for Ealing School additions. This would be moved across the road and used as a Sunday school. The school board could use it as long as necessary. The proposal will be placed in writing, and No. 2 committee will deal with it.

No. 2 committee reported that six carloads of coal had been purchased from the Sunbrook Coal Company, Detroit and was given authority to prepay the freight charges.

A christening ceremony was the final feature of the meeting. Knollwood School was chosen as the official name for the new school in the northeast section of the city.

### LONDON MAN HEADS ADVERTISING ASS'N

D. George Clark Appointed President of Canadian Advertisers.

Once more London has been distinctly honored in the advertising world by the appointment of D. George Clark, advertising manager of the McClary Manufacturing Company, of this city, as president of the Association of Canadian Advertisers. Mr. Clark succeeds W. C. Betts, who was forced to resign on account of a change in his business.

The Association of Canadian Advertisers is an incorporated organization, and is composed of some of the largest users of newspaper advertising in Canadia. W. G. Stuart of the Goodyear Tire and Rubber Company has been appointed vice-president. H. E. Mihell has been made a director. George Clark is an active member of the London advertising corporation, and in several of the activities recently promoted by the Advertising Club Mr. Clark has taken a very active part.

### **NEW SCHOOL NEARLY** STARTED SOMETHING

ever. Been Cleared Up Satisfactorily.

Finding a name for the new school in the northeast section of the city, now officially designated as Knollwood school, almost brought the board of education into trouble with Orange societies in the city, it was learned to-day. The matter proved to be a misunderstanding, however, and has been cleared up to the satisfaction of all concerned.

When the question of a name was

understanding, however, and has been cleared up to the satisfaction of all concerned.

When the question of a name was mentioned at a meeting of No. 2 committee, one of the trustees suggested that it be named Carson school, as a memorial to the late W. J. Carson, formerly public school inspector.

"That would never do. There would be a lot of windows broken," another trustee jocularly remarked, having, in mind recent political disturbances in Ireland, and the possibility of the Sinn Fein party having a few admirers here. The name finally chosen for the school was Knollwood, as it is situated in the Knollwood Park district, and a church in that district already bears a similar name. It was felt that as it is only a two-room structure that it would not be a fitting memorial to the former official, who was deeply respected throughout the city, and that the name should be conferred on a larger building, if one is erected later. The liftsh question had no bearing on the matter, as the name had no reference to Sir Edward Carson.

The matter was discussed by an Orange lodge last night, but inquiry in board of education circles today satisfied the inspectors that it was not the building.

PRISON TERMS FOR BORDER BOOTLEGGERS IS NOW THE ORDER.

[Special to The Advertiser.]
Windsor, July 15.—In future no lentency will be shown in border police courts to offenders of the bootlegger clan, and the next conviction registered will be accompanied by a prnson term. This was announced today by Magistrate Miers, who conferred with Attorney-General Raney and J. D. Flavelle, chalrman of the Ontario license commission, in Toronto, this week. Protests from various local bodies, including the Ministerial Association, urging that the maximum penalty under the Ontario temperance act be imposed, coupled with the attitude of the Government, has had the necessary weight to bring about the new order.

Finished in September.

The addition to the reservoir may be completed by the end of September. The completed by the end of september. The excavation has been finished and work has been commenced on the last stage, laying the concrete. As there is no possibility of the reservoir being used this summer, there has been no need for undue haste and it will be possible to do the work in a most thorough manner.

Its completion will provide storage for a ten-million sollon. ten-million gallon reserve supply. There will be no difficulty in accumulating such a reserve during the wet seasons of the year, according to Mr.

Buchanan.

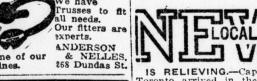

This would be available then for the summer drought, and would supply a deficiency of 5,000 gallons a day for 20 days, which would carry the city through a longer drought than any Buchanan. which it has experienced yet.

west London's storm water system will be in operation by autumn. City Engineer Brazier stated today that completion of the program of curbs and gutters would also mean completion of the storm water system and that every effort would be made to have it in readiness for the fall rains. This will not be a complete system for the whole district, as all the money appropriated for the purpose has been expended, and a further appropriation will have to be made if any extensions are to be made. At present the system is in a disconnected state, as no catch-basins have been installed. These will be built along with the gutters, and everything will be done until a sani-West London's storm water system No paying will be done until a sanitary sewer system has been built. Wounds Not Serious.

J. Robinson, 162 Mell street, and Conductor Harry Howell of Horton street were injured by flying glass when a North Belt street car collided with a Richmond car on Richmond street just north of Oxford street at 12:13 o'clock this morning

According to passengers, the Richmond was on its last trip north, and the other car was returning after its final trip. At the place where the accident occurred there is a switch, where northbound cars wait for the southbound ones, coming down the single track, to pass them. When the North Belt was but fifteen feet away, the other car pulled out of the switch. William Patten, who was in charge of the Richmond, claimed, it is alleged, that he did not see the other car coming. Howell was on Patten's car. Robinson was standing at the rear end of the North Belt, and was struck in

of the Richmond, claimed, it is alleged, that he did not see the other car coming. Howell was on Patten's car. Robinson was standing at the rear end of the North Belt, and was struck in the face by the glass.

All the cushions on the seats of this car were thrown to the floor by the force of the blow. The front windows and fenders on both cars were smashed. The North Belt proceeded to the barns soon afterwards under its own speed. After an hour's work on the part of a wrecking crew the other car returned to the sheds.

Howell was taken home in the police ambulance.

One of the best programs that the ummer season has seen at the local layhouses is presented at Loew's theatre for the latter part of this teek. An excellent photoplay program combined with enough vaudeville to

offer a pleasant variety.

The feature picture, "Shore Acres," in which Alice Lake plays the leading part, which Alice Lake plays the leading part, is an exceptional one. It is based on the old-time drama of that name, but is brought up to the minute by the high-lest art of motion pictures. The plot, which is laid in picturesque old New England, is far ahead of that found in the average photoplay. It centres around the attempt of the scheming village banker to gain possession of Shore Acres, which has been the possession of the Berry family for three generations. His attempts to force Alice Lake, as Helen Berry, the young heroine, to marry him, are foiled when she eloped with Warren, her young lover, on the brig "Liddy Ann." Her father in a furious rage presents the father in a furious rage prevents the lighthouse on Shore Acres from being lighted, and the brig pounds to pieces on the shoals in a heavy storm. Tragedy is turned to joy, however, when the young couple are saved and all ends benefity.

some of the cleverest juggling stunts ever presented here are featured by Allan Gray in his act. He kept the audience in a continuous roar of laughter. Douglas Flint and company produce the same effect in a different produce the same effect in a different manner. The stage a clever one-act play that is a laugh from beginning to end. Four Volunteers present an original singing act that gives them opportunity for some real harmony. Smiling Bill Parsons is featured in another of his famous comedies.

AT THE PATRICIA.

"Human Stuff." featuring Harry Carey, is a photodrama, which differs in many ways from the usual Harry Carey films, as many of its scenes are laid in fashionable ball rooms. In the role of Jim Pierce Jun., Harry Carey appears as the son of a wealthy washboard manufacturer. He seeks to assist his father by an invention which he just completed. It is a metal washboard, and he explains to his father that the skeptical public will buy the article, as it can be clearly shown that it will last a life-time. This is not to the liking of the young inventor's father, as he wants a washboard which will wear out. Through the invention not being accepted Pierce Jun., is sickened of factory life and gets drunk to drown his sorrow. This breaks his father's heart, and when his son the day after the spree asks to be allowed to buy a ranch where he can raise sheep, his father censents. AT THE PATRICIA.

### THE CHURCH BETWEEN ELECTIONS.

The British premier, David Lloyd George, in Union, to be called henceforth the Union of church are the sole, real security against the pages are full of meat. triumph of human selfishness which, unchecked, would destroy any plans devised by politicians. Having in mind doubtless the political dissenchurches a spirit of tolerance, forbearance and death at Niagara Falls. charity towards each other. In his view the function of the Free Churches was not so much promoting any special political reform as in creating a moral atmosphere adverse to the perpetuation of evil and in which reform would in this atmosphere and spirit their application will be greatly facilitated.

Now, the Christian Gospel relates to the whole range of life and activity reaching endlessly forward. Its application varies with the conceptions, endowment and vision of accredited exponents. This is presented with great clarity by Rev. G. Campbell Morgan of England in a recent work from the vantage ground of over thirty years pre-eminent ministerial experithroughout Canada next spring, arranged by some has been given gifts as apostles to propa- war. gate the body of Truth; to some prophets to ings of life and love; and to others, pastors and teachers for instruction and upbuilding. In was employing 70,000 mer. Mr. Powell writes: some measure these qualifications have to be combined, but Phillips Brooks could not be a Moody, nor Dr. Jowett a Gipsy Smith. Each has

his honorable and effectual place. Being a union of those who possess an energy of Divine life the church must have a message and an adaptable function. At the outset, the possessions of believers were pooled for those in need, but that communism was not imposed on the future. Primarily, and fundamentally the message is to awaken and revivify the individual, but it must spread out in wide fruitage. Nineteen centuries of Christian evangel has wrought amazing changes. Conceptions of life and conduct in 1920 are not what they were 100 years ago. We do not drive little boys to their death with a red hot stick up dirty chimneys, hang folks for half a hundred offences, or auction slaves like cattle; but all history may be ransacked in vain for more callous and calculated deviltry than sinking the Lusitania or shooting Nurse Cavell. An American church has been moved lately to institute an inquiry into the alarming increase in cases of delinquency and the tremendous number of persons in penal institutions. From one city no less than 400 cases of forgery and petty thieving were reported, mostly by young people this concern was Mr. Grace writes: of what were called "the best families." Plainly, man requires more than veneering. So while many conditions have changed as a result of Christian effort and this beneficent work must proceed, the elemental facts of human nature remain and for its needs the unimpaired evangel of the Gospel stands without a rival. If the life be truly awakened and the moral sense enlightened through the Divine voice of the church, then the individual will be fortified against assaults in hours of moral peril and prepared wisely to steer a righteous course in times of electoral turmoil, particularly if the issue at stake be of an unmistakable moral character. With such causes the church militant of America deems it an imperative duty to share actively toward the attainment of re-

### A CHILDREN'S NEWSPAPER.

Arthur Mee has been known for some years as a genius in the provision of good reading for children. He is also a famous pacifist and prohibitionist, but it is as editor of the wonderful child's encyclopaedia and of "My Magazine" (cleverly named) that he has become a power in the world. To these creations he has added "the Children's Newspaper," a weekly now in its 70th number, published in London, England, at 1%d a copy.

This paper is as wonderful as "My Magazine" and different according to its purpose. Mr. Mee has a strict love of truth and presents it to the child with simplicity, fancy and verve. The paper is generously illustrated with pictures and delightful maps or charts. Good sense, not sensation, is its distinguishing mark, and the moral tone is irreproachable, yet never depressing; always life and go.

Mr. Mee is occasionally a little acid in re-

in the number of June 26, headed "Little London Has a Big Day: the Toad That Hopped Out of the Concrete: Celebrating Something That Did Not Happen: A Sham Sensation." the editor raps the good people of our town who believed

a toad could exist walled up for 17 years in stone without any sustenance, "defying all the known laws of the universe," as a local conemporary put it. The C. N. observes that "it is a pity that the lovers of wonders in London, Ontario, did not use their ingenuity to discover how the imprisoned toad was provided with such slender means of life as helped it to exist so long, instead of shutting their eyes to facts and trying to build up a sham wonder of encasement in concrete. Knowledge begins with the love of truth that understands the mysteries of life, and its greatest enemy is the falsehood that thrills shallow minds with a shallow surprise." The C. N. thinks that the total had been buried not in the concrete, but in the earth underneath. With its zeal for facts it might have noted the opinion of Professor Dearness that the toad was not even "buried" in the

### HON. MACKENZIE KING'S SPEECH.

(Labor for industrial peace appreciated by great American concerns.)

I should like to place on Hansard two or three of the letters which were sent in reply, and which will speak for themselves. Honorable gentlemen will see in a moment that they are from some of the largest and most important industries in the ence. And, by the way, his expected mission United States, industrial concerns that had very much to to with the production of war materials and the furnishing of war supplies. Bethlehem Shipbuilding Corporation, Limited, Bethlehem, Pa., September 22, 1919. Mr. W.-L. Mackenzie King,

The Roxborough, Ottawa, Ontario. Dear Sir,-I am very glad to take this opportunity to tell you in a form that you may use as you may see fit, that we found your advice and counsel at the time we called on you in the spring of 1918, in connection with the labor situation in our shipyards, of very great benefit in assisting us to arrive at a plan of action that would help us to preserve industrial peace and to improve relations between the company and its employees.

At the time we asked for assistance there was a great deal of unrest among our labor, and we believe that the advice you gave us was of material assistance in reducing this unrest and in correspondingly increasing the

efficiency in the production of ships. As this company is far and away the largest shipbuilding concern in the world, and as it produced a very large percentage of all the ships actually completed in this country during the period of its participation in the war. i. e., something like 60 per cent of the destroyers and over 20 per cent of the merchant craft, your assistance was evidently of real value from the standpoint of helping to win the war.

Yours very truly, Bethlehem Shipbuilding Corporation, Limited. By (Signed) J. W. POWELL,

Vice-President. The next communication is from the Bethlehem Steel Company of South Bethlehem, Pennsylvania and is written by Mr. E. G. Grace, the presiden of that company. At the time I visited Bethlehen this concern was employing about 50,000 workers.

South Bethlehem, Pennsylvania, September 26, 1919. Dear Mr. King .- My attention has just been called to an article which appeared recently in the London Telegraph relating to the accomplishment of the ministry of munitions of the

British Government in the late war. Naturally I was interested in reading a statement, referred to therein, made by deputy minister of munitions, and in which

"Reference was made by Mr. Asquith to the fact that large orders for shells were placed in the United States of America and Canada before the ministry of munitions was started. Such orders were placed. They were orders for complete rounds, but when the time came for delivery the components were not forthcoming, and the shell bodies had to be brought over and completed in this country with com-ponents produced by the ministry of munitions. An exception to this statement must be made in regard to the Bethlehem supplies, which were well delivered and proved of im-

mense service to the armies." I think it is now well recognized that if it had not been for the assistance our plants were privileged to give to the Allies previous to the entry of this government in this war the result might have been different.

In reflecting the credit for the achievements of this country, which is shared by every one of our employees who contributed to the result of the outcome, I cannot in this connection refrain from calling to mind with much appreciation the great work to which you gave your time and talent during the world's crisis.

At a crucial time when we were contending with an unprecedented industrial unrest, your counsel and advice in the construction and development of a plan which when installed proved most conducive to promoting cordial relations with our employees during the emergency, resulting in the obtaining of the maximum efficiency in the production of war munitions, constituted I feel a real service not only to this country, but to the Allies during the war. Yours very truly,

# Cox's Chances of Winning the Presidency

While Senator Capper's Topeka Capital (Rep.) considers Republican victory at the polls not even in question, declaring that "after November the Democrats will know that a political party cannot carry a presidential election in this country by sprinkling a little booze on its clothes," other Republican papers agree with the New York Tribune that it "would be most foolish if they (Senator Harding's supporters) did not frankly recognize the formidableness of the Cox and Roosevelt ticket." The Chicago Tribune (Rep.) says that the bosses nominated Governor Cox because they thought he was "the best vote-getter and the best goat-getter democracy had."

If you would obtain a practical idea of Governor Cox's chances of winning the election, as pointed out by newspaper editors of all shades of political opinion, you will do well to read THE LITERARY DIGEST for this week-July 17. The leading article is a careful summary of American newspaper opinion of the Democratic nominee and the advantages and disadvantages that will be his during the campaign. MHe. Guerin To Spend Month in London in September.

Mile. Guerin has been in the city again making arrangements with the board of education to launch a campaign for her Franco-Canadian orphanage in the public schools here. Having been granted permission to do so she will return to the city about the middle of September, spending a month here in an effort to induce the children of each public school to undertake the adoption of one French child. This will mean that the French child provided for is given a good education, and then taught some trade whereby he may earn his own living.

Already 130 children have been kept in the orphanage and 190 in the family. Of these eight have been provided for by London individuals or institutions. Mr. Hobbs, Mr. Saunders, the collegiate institute, Girls' Club, the Princess Patricia Chapter, Municipal Chapter and the Women's Canadian Club have each adopted a child in the orphanage each adopted a child in the orphanage, while Mr. Saunders and Mrs. Miller have adopted children in the family. Mile. Guerin says that London should be proud of her adopted children, as two of them took first medals in dressmaking and embroidery competitions held in the French schools. They were children supported by Mr. Hobbs and the Princess Patricia Chapter.

### Tribe Make Tenth Win Look Like Steal

Gather Thirteen Hits Off Winers, While Delotelle Allows Only Six Distributed Ones-Errors Plenty, But Sun Is To Blame Largely.

Teams were switched yesterday, but the Krazy Krew acted in the same un-ridled way, making it a 7 to 3 victory over the Battle Creek Custers. There was nothing of the last stand about yesterday's affray except that that great Irish pitcher Delotelly stood the Custers on their heads with a fair amount of good pitching, and by fielding the whole infield himself in spots. The risitors scored three runs, but the whole three came across as the result of errors. Kuhn got a homer, but Carroll called a balk on Winters and the best

Kuhn could do after that was an infield out. As for the Tribe everybody hit and Winters watched thirteen snowflakes going hither and you around the scenery. Joe Briger got himself a homer yesterday, and when one considers Joe as burning up the paths it must be conceded a real legitimate four-ply swat. They spent minutes looking for the ball while Joe was blinding himself in his own dust and then he slid in on his emonpoint, which is a nice thing to have concealed around the person when sliding the good old-fashioned way.

Custers Quiet For Six. The Custers went along until the sixth without anything showing up in their favor. With Horne departed at second on Hooker's fielder's choice and Kaylor doing the advance agent stuff with a single through first to right field, Joe Briger was preoccupied. Kelly, the man at bat, had waited long for four man at bat, had waited long for four balls and when it came Joe apparently forgot the Hooker (which no one else we know would forget these days), and threw the ball at second to get Kaylor and Bill Dowling, having arrived at a quick decision that Joe didn't mean it, didn't bother with the ball. The result was that the spheroid rolled out to centre, while Hooker was coming in with a run. ing in with a run. 579 Boots again was on call in the sev-533 enth. MINT PATTER

Delotelle had a Horne and a Hooker before he started in real earnest. If you don't believe, look earnest. If you don't believe, look at the Battle Creek batting order. Almost anybody could pitch win-ning ball with that combination.

But there was a Case up in the press box, so nobody was peeved. Sun curtains are certainly needed because the shortfield and second stations are suffering as a result. Shay had a couple of justifiable ones yesterday, and Manager Rubber Krapp gave orders to let them

Aside from pitching. Delotelle was covering first wonderfully well. In the very first, after Kuhn and Dowling had handled the ball, he ambled over to the first station and got the put out. "Hot Dogs," as Pittenger would say.

'Round the end of the 20 games, Manager Wetzel will just need to flip a coin. Some decisions are left to the press box, but when it comes to a coin deciding it, it will have to be decided elsewhere

GUELPH, July 15.-Claiming that he Provincial Government was imune from any financial responsibility n connection with hydro radials, Sir Adam Beck told a small Guelph audience in Griffin's opera house tonight, who had gathered to hear him discuss the railway situation, that he was at loss to understand the attitude of he Drury Government on this ques-ion at the present time. Sir Adam contended that because

the attorney-general of Ontario had discovered a legal technicality in the hydro radial agreements, the whole hydro radial agreements, the whole scheme was being held up.
"But," said he, "there was never a time when an attempt was not made to thwart the will of the people by legal technicalities." Sir Adam said the legal advisers of the commission and the loyal supporters of hydro for the last eighteen years all differed with Mr. Raney, and he believed that the people would triumph in the end.

Regarding the Guelph road, Sir Adam said that during the last six months he had dreamed of seeing the people enjoying the privilege of outside radial connection with Puslinch Lake, Hespeler, Preston, Galt, Hamilton, and on to Niagara Falls and Buffalo. "But," he said, "here we are in a position of having one more river to cross, and no assurance that we are going to cross it." No Man More Slandered. Mayor Westoby presided at the meeting and, in introducing Sir Adam, stated that there was no man in Ontario more slandered or abused than the hydro knight. His worship also announced that as far as Guelph was concerned they were going to insist on the Government carrying out its agreement with the people

Regarding the statement of Premier Drury that the Government was not in possession of sufficient information as to hydro radials, Sir Adam said this had cut deep into the hides of the mem-

bers of the hydro commission, in view

Audience Restless.

The audience graw very restless before Sir Adam had half finished his address, because he brought no new information regarding the transfer of the local road to the hydro commission. This was the question those present wanted to hear about, and when there

ment with the people.

J. W. Lyon, president of the Hydro Radial Association of Ontario, dealt with the members of the royal commission appointed by the Government to investiate the hydro radial scheme. He stated it was purely an anti-hydro commission.

Other speakers were Mayor Mercer of Galt, who said that hydro radials would come despite any effort of the Drury Government to defeat them; ex-Warden Boyd of Wellington County, who warned Hon. Mr. Raney that it was foolish of him, as the representative of East Wellington, to oppose hydro, and Reeve McQueen of West Luther. When Sir Adam concluded a long address only half the audience was left.

### **CANADIANS WILL** DISCUSS COAL **AT WASHINGTON**

Situation Serious - Carvell and McLean of Railway Board Leave Hurriedly.

OTTAWA, July 15 .- (By Canadian ress.)-The sudden departure for Washington this afternoon of Chief Commissioner Carvell and Commissioner McLean of the railway board to confer with the United States Interstate Commerce Commission, in regard to the fuel situation in Canada and the United States, is an indication of the serious view of the coal problem taken by the Dominion and United States authorities. The trip to Washington is being made on the invitation of the I. C. C., which apparently is dealing with the fuel shortage across the border.

The Canadian commissioners will arrive in Washington on Friday, night and the conference will be commenced on Saturday. They are not expected back in Ottawa until Tuesday next.

The Dominion Railway Board had the Canadian fuel situation under review on Wednesday and it was expected that its first order would have been issued today, but no order will now be forthcoming until after the Washington conference. sioner McLean of the railway board

HOPE TO REDUCE

PRICES OF COAL NEW YORK, July 15.—A reduction in the price of bituminous coal was predicted today by members of the subcommittee of railroad officials and coal operators, meeting here to complete details of a plan to relieve the coal shortage in New York City, New England, and the northwest states.

By a scientific distribution of cars, the committee hope to provide a steady stream of coal to the affected districts. Under this plan, the committee members believe, the coal speculators will find it impossible to exact the high prices that the acute shortage has made possible.

### TO SAVE MOTHER OF TWINS FROM DEATH SENTENCE

We Will Have a Million Signatures, Says Montrealer With Petition.

MONTREAL, July 15 .- "We will have million signatures as the result of our canvass with a petition for the comnuting of the capital sentence now nanging over the head of Marie Gagnon of Quebec, who was found guilty of the ceath of her stepdaughter last January, to life imprisonment," is the statement made by Robert Bickerdike, president of the Prisoners' Welfare Association of Canada, today. He added that since the birth in

prison of the twin children of Mary Gagnon the women in the United States, as well as in many thousands in Canada, are strongly adverse to the hanging.

Mrs. Gagnon was condemned to hang next October for brutal and inhuman treatment of her step-daughter, extend-

ing over a period of months, which re-sulted in the latter's death. RACING ASSOCIATION ON TRIAL ON CHARGE OF VIOLATING LAW

Detectives Testify to Purchase of Tickets On Races.

Windsor, July 15 .- Before Magistrate Miers the case of the Crown vs. the Western Racing Association, for running a common betting house on the Devonshire track last week, was heard. Edwin Bailey, K. C., assisted by Crown Attorney Rodd, prosecuted, and J. Walter Curry, K. C., defended. Decision was held over until a later date. On the stand Wm. D. Greer, chief inspectors of commissions in the stand with the sta the stand Wm. D. Greer, chief inspector of criminal investigation, testified having visited the Devonshire track on the 6th day of July and bet on the fourth, fifth and sixth races, having bought tickets on three different horses, but lost on all three.

Detective Hannah, who accompanied him, also bet on three horses, and picked two winners.

CONFERENCE CONCLUDED.
WINNIPEG, July 15.—(Canadian Press.)—The commission of conversation conference on soil fertility and soil fibre, which has been in session here for the past two days, concluded its business this evening.

# and only one price

For the past month the newspapers have been crowded with big type advertisements of clothing "sales"—each dealer trying to shout louder than his competitor.

Now we've been making Tip Top Clothes and selling them through our own stores for a good many years—so far as we know we are the largest one-price tailors in the world—we think we can make and sell dependable clothing as cheaply, if not more so, than any concern we know of - but we have yet to discover any method by which any dealer can suddenly offer "greatly reduced prices" for one part of the year unless he has profiteered for the other part.

You read in the American newspapers of prominent clothiers having been prosecuted for profiteering — one New York clothier was sent to jail the other day for selling at \$75 a suit of clothes that cost him only \$33.

We believe that this dealer deserved to be sent to jail. But we do not think he committed any worse crime than the clothiers of Canada who had their goods marked away up early in the season and are shouting "sales" now.

We wish it understood that Tip Top Tailors are in thorough sympathy with any movement that will tend toward lower prices -but we do not believe that there should be any camouflage about it. Tip Top Tailors' method has been to sell goods at a fair price all year round, and we think that is the best method we know of to build up a solid business and lower the high cost of living.

And if our policy was not right, and we did not have the confidence of the people, we do not think that we would have just finished the largest June business in our history—despite the noise of the "Reductions" and "Sales."

Don't be misled—good clothes are not plentiful by any means—and the time has not come when they can be bought at "greatly reduced prices." If you are interested in buying clothes. see our assortment of materials—and remember that everything in any Tip Top Store is \$27, made to measure—and because of our enormous coast-to-coast tailoring plan you save \$10 as compared with what you can buy the same quality for elsewhere, whether the prices you see elsewhere are announced as "reduced" or otherwise.

### TELLS WEIRD TALE OF FINDING DRUGS

Joseph Ruddy Says He Was Going to Give Them to Policeman.

Joseph Ruddy, a member of the per-

to the barracks under a military escort."

The black leather case, if Ruddy's story is correct, was no doubt lost by a local physician. It contains one long compartment on one side, with several bottles of emergency medicines therein, while a shorter compartment on the other side contains bottles of morphine, codeine and opium. Larger bottles in a compartment on the same side contain dark red colored fluids. Many of the bottles had their contents labeled, and the case has a leather handle and nickel trimmings, including a lock. The police are holding it for the original owner to claim.

Norman Stewart, G. E. Essery and Maurice White transgressed the motor vehicle act, and paid \$5 and costs each, while Edward Axt was assessed \$2 and costs for breaking a city bylaw.

### **UNSKILLED LABOR IS** UNREASONABLE, SAYS REV. ROBT. NORWOOD

Sees Redistribution of Dominant Power Coming Before Long.

A visitor in the city this week is Rev. Robert Norwood, formerly rector of the Cronyn Memorial Church, now of Philadelphia, who is in Canada lecturing on subjects pertaining to the destiny of Canada

subjects pertaining to the destiny of Canada.

Asked by The Advertiser how industrial conditions in the States were, said:

"Labor is still running wild, due to the unreasonableness of unskilled labor. The intelligent working class are being overruled by the ignorant and illiterate, who create the Bolshevik spirit wherever labor is concerned. The capitalist in the States, as in Canada, has not forgetten that he once was in power, but when occupying that position abused it. The workingman is now on top, but the day is not far hence when there will be a redistribution of the dominant powers."

### HAVING A BOTTLE IN HIS POSSESSION COST GRAY \$200

East London Man Was Stopped and Searched by P. C. Tomlin.

Arrested at Rosewood avenue and Elm street by Constable Tomlin late last night with a bottle of whiskey in his possession, Richard Gray, 15 Rosewood avenue, was fined \$200 and costs in police court today. He paid the fine. P. C. Tomlin testified that he saw two men coming along the street, whom he stopped and searched, but found nothing. Gray the next pedestrian, was also searched, yielding a bottle. He informed the constable that he lived on the Hamilton road.

Cross-examined by E. W. M. Flock, counsel for accused, Tomlin stated that one of the men searched by him was a member of the Michigan piker party.

Gray, on the stand, admitted ownership of the bottle, and stated that he was taking it from his home to his mother-in-law, who was sick. He informed the court that he received a shipment of ten cases recently, and had almost the entire quantity left.

"I can show the empties," he deciared.

FEW FOLKS HAVE **GREY HAIR NOW** 

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre,

or when it fades, turns grey, dull and ifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the grey hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and

TORONTO STOCK EXCHANGE.

Toronto, July 16.—Trading on the Toronto stock exchange today embraced a variety of issues, but transactions were small in volume and the market developed a weaker tendency. Canada Car and Foundry was about the only stock to show weakness, a sale of one block of 125 shares showing an advance of 4½ points at 60. Practically all pulp and paper stocks shared in the general decline. Spanish River, preferred, and paper stocks shared in the general decline. Spanish River, preferred, and a fraction, and Abitible was weak at 33, after opening at 84. Canada Steamships, common and preferred, and Quebec Railway lost half a point each.

Previous to this, according to the Chinaman's story, Wylie, with a companion, had gone out of the cafe saying, "We will go and finish the cook."

Not content with the swearing, Wylie went back into the kitchen with the avowed intention of fixing the cook.

Used Red-Hot Poker.

Frank Lem followed, and Wylie, halleges, hit him in the eye, breaking his glasses. In the melee which followed a red-hot poker in the hands of the cook was used with disastrous effects on Wylie's face. In the police court this morning Frank Lem had Wylie up on a charge of assault, but July 15, Aug. 12, Sept. 9.....Imperator July 31, Aug. 28, Sept. 22....Aquitania Aug. 5, Sept. 2, Sept. 30....Mauretania

Sometimes the excuse for this has been "our financial circumstances; sometimes it has been "health and strength unequal to the strain"—both damnabe lies. But the tragic part of this preak human error is that these misguided young married people have assumed to know better than God knows what is fearful responsibility on the property of the survives the dangerous way shelects to follow, comes the appalling realization that no children are to bless 'he home.

Here is a bit of wisdom from a real mother with a daughter who seems to have chosen another way through life: Dear Dr. Brady:

You rartiele ... something should be done to open the eyes of young people ... I am a young, old-fashioned mother; that is, I'm forty-five years old and I've borne seven children, six of whom are living. We welcomed our children are help of the living to borne seven children, six of whom are living. We welcomed our children are they came whether we were trying to buy a home or whether we considered we were able to raise them as we wished. We did the best we could, and they were and are an incentive to do more. Our children have always been a joy, a comfort, as well as a worry. But childless parents have my deepest sympathy, although they often seem to believe I need theirs.

I am continually astonished at the living of the continual part of the said that a home the write i said that a home through the other than a said that a home though the other than strain. The strain is an advanced to have a fast the said that and speak only in whispers. We have a oor little creatures whom I have seen poor little creatures whom I have seen trooping into the midday meal provided by the American relief mission, and administered through the American and English Quaker organizations. These are only the worst cases of starvation. It is based on the general standard of the childred which the resources of the American relief cannot touch. member of the male sex Karelling, and
