#### DRURY CALLS ELECTION FOR LAST WEEK OF JUNE; DISSOLUTION MAY 4TH

Premier Makes Recommendation Cutting Gordian Knot Resulting From Hicks' Charges and Resignation—Statement Follows Morning of Hurried Conferences.

#### OPPOSITION LEADERS READY FOR FIGHT

Toronto, April 12.—Premier Drury announced in a statement given to the press this afternoon that he would recommend to the house that the Ontario Legislature close its session on May 4 and a general provincial election be held the last week in June.

The prime minister will also introduce his proposed redistribution and electoral reform bill this afternoon and hopes to have it developed and adopted before the parliament prorogues.

Mr. Drury expressed the opinion that with proper co-operation the bill could be put through before May 4 and would be in effect for the elections.

TESTING THE ADVERTISER'S COAL FROM ALBERTA.

Here an Advertiser photographer shows Prof. J. W. Russell, head of the geology department of Western University, with the electric furnaces by which he secured an analysis of samples from The Advertiser's shipment of coal from the Aleso mines, which he secured an analysis of samples from The Advertiser's ship-

This Is Not a Drury Party, He Says, When Asked Intentions.

#### DIDN'T SEE LETTER

Says He Didn't See It, But Has All Facts About Questionnaire.

Of course, I will attend the caucus as usual. This is not a Drury party. It is the U. F. O. Andrew Hicks, resigned government whip, who raised the flag of rebellion against Premier Drury's leadership in a sensational speech in the Legislature yesterday afternoon, thus declared his purpose in an interview with The Advertiser over long-distance telephone from Toronto today. "I did what I felt was my duty to the farmers of Ontario," Hicks asserted. "In view of the knowledge of the premier's activities and policies that I possess, I find it impossible to continue under his leadership, but my action in voting against the motion declaring lack of confidence in the government should make it quite clear that it is not the government but the leader that I renounce."

#### We Stand As Always.

"Not at all," replied Mr. Casselman. "We stand where we always stood—for U. F. O. principles. We believe that they have been repudiated by Mr. Drury. He said that rather than allow any other element to get into Turn to Page 2, Columns 3 and 4.

#### TESTS OF ALBERTA COAL SHOW PURE-GRADE FUEL

Analysis of Samples From Advertiser's Shipment Made Yesterday by Prof. J. W. Russell Show Ash Only Three Per Cent—Local Dealers Give Opinions.

#### WIDESPREAD INTEREST AMONG BUYERS

The first shipment of Alberta coal brought to London by The Advertiser on Tuesday has already been tested, with interesting results. Professor J. W. Russell, head of the geology department of Western University, yesterday conducted an analysis of the coal, and in his report gives comparison with Pennsylvania anthracite. Well-known London coal dealers, whose years of experience have given them wide knowledge of fuel requirements, also submitted samples of The Advertiser's shipment to practical tests in their furnaces and offer authoritative comment. The consensus of the analysis and opinions advanced is that the western coal is of remarkably pure grade with a low percentage of ash. Opinions differ as to the quantity of smoke and gas produced in consumption, and doubt is expressed regarding its utility as a domestic fuel, partly because of "slack" and partly because of its rapid-burning qualities.

In general it seems to be a pure grade coal, producing great heat-surpassing American bituminous coals, but doubtful as compared with imported anthracite for domestic use. The details of Professor Russell's analysis and the verbatim opinions expressed by the coal merchants are given below. Further Test Today. Today The Advertiser has arranged further extensive tests of the western fuel. A second shipment reached London last night, and part of this was sent this morning to the Canada Cement Company in St. Marys. The Canada Cement Company has complete apparatus for fuel-testing, and by courtesy of its superintendent and chief chemist this equipment has been placed at The Advertiser's disposal for tests of the coal's heat units and further analysis. Staff reporters of The Advertiser and an Advertiser photographer are witnessing the test in St. Marys this afternoon, and the results will be announced in The Evening Advertiser tomorrow.

The arrival of Alberta coal in London has aroused widespread interest throughout the city. "How Much a Ton?" Samples of The Advertiser's shipment had been on exhibition in Flynn's window at Dundas and Richmond streets only ten minutes when a man called at The Advertiser's office wishing to purchase a ton. By the time The Advertiser had circulated through the city with its announcement of the coal's arrival, telephone calls were coming thick and fast with the same question: "How much a ton?" The Advertiser does not at present advise anyone to purchase Alberta coal, its utility for domestic purposes is unimproved, and The Advertiser's only object in bringing to London the first shipment is to conduct experiment. Other investigations are being made in Ottawa and in Toronto. If the general results seem favorable, the railway commission will then be obliged to consider questions of freight rate and costs will have to be settled. Until such general inquiries are complete, it seems unwise to encourage too strongly the hope that Turn to Page 2, Column 6 and 7.

#### HEALTH BOARD WARNS DELINQUENT OWNERS

States Amusement Places Must Install Proper Drinking Bubbler.

Those who conduct billiard parlors, bowling alleys, dance halls, and similar establishments must conform to the provisions of the Public Health Act.

Board of health officials stated today that they are now undertaking a campaign to insure that proper drinking bubblers are available for the general public in such places of business. Orders to this effect went forward this afternoon to certain firms with the warning that failure to comply within a reasonable interval will mean prosecution in the city police court.

#### 724 CASES OF TYPHOID REPORTED IN COCHRANE

Canadian Press Despatch. Hamilton, April 12.—Col. John I. McLaren, who is a T. and N. O. commissioner, received an appeal for aid from Cochrane. The message stated there were 724 cases of typhoid fever with 23 deaths. He waited upon Mayor Jutten and requested assistance from the city.

#### Strings of Pearls and Gold Watches For Best Spellers

#### How the 160 Prizes Are Arranged For The Advertiser's Big Spelling Match In London Schools.

Gold watches, long strings of pearls, and beautiful bracelets await the clever boys and girls who are winners in The Advertiser's city-wide spelling match opening next week.

All arrangements for the preliminary rounds of the contest are now complete. During next week grades 5, 6, 7 and 8 in all the city schools will be busy picking their best spellers to carry the battle further. Thirty-five hundred girls and boys will compete, and in the first round 700 of these will be chosen to enter the group elimination matches which follow in the week of April 23rd.

And now about the prizes. The Advertiser is convinced of the value of spelling ability and is anxious to give the city champions prizes which are worth while. The awards will total well over one thousand dollars and are arranged as follows:

- 4 First Prizes: For girls—White gold wrist watches. For boys—Gold watches.
- 36 Second Prizes: For girls—Strings of pearls. For boys—Gold watches.
- 120 Third Prizes: For girls—Bracelets. For boys—6-jeweled, lever movement watches.

In addition to these, each of the 700 contestants chosen in the first round next week will be given a certificate of merit. In all, there will be over 800 awards made.

In order that you may see the prizes for which you are working, they have been placed on exhibition in the window of John A. Nash, My Jeweler, on Dundas street. The Advertiser is glad that a London merchant is to supply all the prizes in the contest, and all the boys and girls and their parents are invited to look at them during the next few days.

But don't overlook the fact that you'll have to work hard if you hope to win. There are some difficult words to get over before the champions are declared.

#### TO REVEAL TODAY A PLOT TO BOOST PRICES OF SUGAR

U. S. Department of Justice To Have Evidence Warranting Legal Action.

Special to The Advertiser. Washington, April 12.—Evidence tending to prove a conspiracy of sugar gamblers, responsible for the recent boom of sugar prices, was to be laid before Acting Attorney General Seymour in New York today by Federal District Attorney Hayward, whose office gathered the data. Seymour left here last night, after a conference with President Harding, in which the department of justice's investigation into the mystery behind the sugar rise was thoroughly canvassed. The probe, which has been under way for nearly a month, is said to have reached a point where concrete evidence, warranting drastic legal action against those responsible for the boom, is in the hands of the department.

#### BYLAW ON BUSES AMENDED TO SUIT KNOLLWOOD PARK

Police Commission Reports Clause Now Reads "a Comfortable Load."

Once again the residents of Knollwood Park are assured of adequate transportation. Mayor Wenige, chairman of the police commission, announced today that the famous 1922 omnibus bylaw had been amended, allowing motor buses to accommodate a "comfortable load of passengers." In a communication to the chairman, in which he incloses a copy of the amended bylaw, City Solicitor Meredith gives approval of this change, adding that it is his understanding that both Judge Talbot Macbeth and Police Magistrate A. H. M. Graydon have voiced approval. "The bylaw is effective at once," explained the mayor. "As a matter of fact the understanding was that this change would be agreeable, conditional only, upon the city solicitor's opinion. This is now at hand and, therefore, the new clause is in effect without further consideration."

"This is 1923," stated the mayor further. "I went to Knollwood Park and told the people there that we would get them adequate accommodation, within our power. This has been done. There should be no further complaints now about the Knollwood Park bus, operated and maintained by the London street railway corporation." Under the provisions of the revised enactment the Knollwood Park bus operator, or in fact, any bus operator, may carry more passengers than clear-up in the States. For example, upon one stipulation—upon complaint from any passenger he must prevent over-crowding. "Who will complain as long as the bus is not over-crowded reasonably," asks the mayor. "If any person complains all the driver has to do is to ask the complainant to alight in order to lessen the load."

#### SUPPLIES BEING RUSHED TO TRAIL PATHFINDERS

Associated Press Despatch. Miami, Fla., April 12.—Supplies were being rushed today to the 22 members of the Tamiami trail pathfinders who, it is reported by three of their comrades who reached Miami early this morning, are about 60 miles west of here and making only small progress on their trip to this city. Hopes were expressed, however, that they would reach here by tomorrow night.

#### FREIGHT WRECKED AS WHEEL BREAKS, TRAFFIC BLOCKED

Eleven G. T. R. Cars Are Piled in Ditch Near Chatham.

#### NO LIVES ARE LOST

Wrecking Crews From London and Windsor Are Clearing Away Debris.

The derailment of sixteen cars in a forty-seven-car G. T. R. freight train three miles east of Chatham has resulted in the complete blockage of both east and west main line tracks at that point. Eleven cars are piled in the ditch and their contents thrown in all directions. The train crew escaped unhurt. Three hundred feet of track and roadbed was torn up. The damage to cars, track and merchandise is estimated at over one hundred thousand dollars. The traffic over one track will be opened soon. Wrecking crews from London and Windsor are working at the wreck. A broken wheel on a box car caused the wreck. Passengers from the westbound train, which left London at 11:40 a.m., were transferred to another train on the tracks west of the wreck. Fortunately the train crew were uninjured, and auxiliaries from Chatham have been sent to the scene of the accident.

The train which has been wrecked is No. 489, and is drawn by engine 884. Engineer Purry and Conductor Forbes, both of Windsor, were in charge of the train, which left London at 12:39 last night.

In addition to trains running east and west from the wreck, a detour has been added, and trains from London to Windsor will travel via Port Huron. Later information from Chatham says that six of the fourteen cars that left the rails were thrown into the ditch. The remainder are now cleared off the east-bound track, and traffic was resumed over the east-bound track at 2 p.m. It is stated by railway officials at Chatham that it will take two or three days to salvage the cars that were derailed, and to repair the west-bound half of the right-of-way.

#### Special to The Advertiser.

Toronto, April 12.—Waiting the word of Premier Drury, as to whether the legislature is to be dissolved and an early election held, there was certain tense expectancy in the atmosphere at the parliament buildings today. Almost an hour earlier than usual the cabinet gathered for a conference which lasted some time. Premier Drury had arrived at his office about 10 o'clock but he refused to see any callers. From time to time, he sent for certain of his lieutenants. Cabinet ministers seemed very busy and very silent previous to the cabinet council. There was some significance in the fact that three ministers, who are known to be favorable to an early election, were closeted together for some time this morning. They were Hon. Manning, Dochert, Hon. Peter Smith and Hon. F. C. Biggs, but there was no intimation as to the result of their talk.

Conjecture on the part of members of both sides in the House, however, placed the date of the coming elections as early as the end of May while others held the view that the Drury government go to the country.

Will the premier ask former Whip Hicks, who precipitated the present crisis by his criticism, to take a seat in a portion of the house other than the government side? It was a question asked today. Rumors which could not be confirmed had it that both Hicks and Casselman would be asked to take new seats during the afternoon session.

#### Calls It Stage Play.

"It was fine piece of stage play, but the darn curtain fell and spoiled it all," was the phrase in which the veteran legislator, Alan Clarke, Liberal M.P. for Northumberland, summed up the events of last night.

"When I came to the house I noticed about 100 men cars outside, and the thing had been all prepared, and staged, and the tip was given to the

#### Tory supporters to troop up to the house and so on.

They imagined it would be something like the Gamey sensation, probably, but the curtain came down too soon, and the thing fizzled out. At least, the government the two of them turned around and voted for it. Mr. Clarke thinks it would be better to go to the country in May or June and get it over with in a short and sharp campaign, would be better than one drawn out until October. Went Dessart U. F. O.

All idea of deserting the U. F. O. was repudiated by the members of the government side of the house who yesterday joined with W. H. Casselman in attacking the administration of Premier Drury, charging him with a betrayal of the party. All interviewed by The Advertiser declared that in the next election they would be found in the U. F. O. line-up, if they receive nominations.

Mr. Casselman was the only one of the malcontents who voted against the government when the division was taken. W. H. Casselman, who moved the motion of no confidence in the government, declared that the action of Mr. Hicks and himself was taken of their own volition, and that Conservatives had nothing to do with it. "Do you think that you represent the feeling of your constituents?" Mr. Casselman replied to Casselman. "This thing has been smoldering, not for months, but for years."

"It does not mean that you are leaving the party, and going back to your old alliance—the Conservative party?" "We stand as always."

"Not at all," replied Mr. Casselman. "We stand where we always stood—for U. F. O. principles. We believe that they have been repudiated by Mr. Drury. He said that rather than allow any other element to get into Turn to Page 2, Columns 3 and 4.

#### TEST BANKRUPTCY ACT ON CONSTITUTIONALITY

Ask Permission This Morning To Appeal in the Case of Marquis vs. Gilbert.

Special to The Advertiser. Quebec, April 12.—Constitutionality of the federal bankruptcy act is to be tested before the supreme court, following an application made this morning to the court of King's bench, asking permission to appeal in the case of F. Canac Marquis vs. N. H. Gilbert.

The petitioner will contend before the supreme court that the federal bankruptcy act comes in direct conflict with the constitution, because the Province of Quebec has been given exclusive rights to legislate on contracts, property and civil rights. The case will come up at the next term of the supreme court in Ottawa.

Pampered Living Is a Policy That Will Lead to Ruin, Says Chaplain.

Special to The Advertiser. Montreal, April 12.—"If we think we have heard the last of war in this world," we are making a great mistake," pronounced Rev. Canon F. G. Scott, C.M.G., D.S.O., of Quebec, in the course of an address at the annual meeting of the Women's Canadian Club.

"We do not want wars," proceeded Canon Scott. "We will do our best to avoid them. The qualities that serve in war, preparedness, equipment, physical prowess and morale, serve also in peace. But if we bring up our men on more pampered lines and selfish ideas of life, we will become a nation that will someday have a rude awakening, for that policy is on the down-grade to ruin."

# BRITISH GOVERNMENT BOYS WILL OF OPPOSITION

## BRITISH PROTEST ON CONCESSIONS BY TURK AWAITED

Government Will Act If Chester Agreement Embraces Mosul Oil Fields.

Associated Press Despatch. London, April 12.—Great Britain purposes entering an energetic protest against the granting by the Turkish nationalists of certain concessions in Anatolia to the United States interests, headed by Rear Admiral Colby M. Chester, if these concessions are found to embrace the Mosul oil fields, it was declared here today.

It is generally believed in London that, in its present form, the Chester agreement with the Turks differs materially from the original "Turco-American" convention, although no exact details have been received from Constantinople. British information is that the present United States plan is concerned chiefly with the opening up of Anatolia by an extensive railway system, and the granting as payment of property rights upon a large scale.

In view of the official protest already made by France, against these commitments to United States citizens, as being in contravention of the Franco-Turkish railway and ports agreement of 1914, it is considered certain the whole subject will be aired at the approaching peace conference in Lausanne.

How far the Washington government can discreetly identify itself with the project is regarded here as a problematical, inasmuch as the Ankara government's action in awarding these concessions to United States citizens after they are understood to have been previously given, at least in part, to other countries, will undoubtedly raise issues calling for judicial or even international settlement.

It is presumed in interested quarters here, that the United States state department will associate itself with the enterprise, either by the means of obtaining the impartial adjudication of the United States promoters of the concessions, wherever they may conflict with the interests enjoyed by nationals of other countries.

**VIOLATION OF PACT.**  
Associated Press Despatch. Paris, April 12.—Commenting on the adoption by the Turkish National Assembly at Ankara of the Chester concessions relating to the Mosul oil region, railway development and mineral exploitation, the Matin declares that if the scheme which was adopted by the Ankara Assembly in connection with the Chester concessions completely annuls the French concessions in Turkey it can only be regarded as Paris as a deliberately unfriendly act, capable of prejudicially influencing not only the private negotiations between the government and Anglo-French subjects, but also prejudicially affecting the forthcoming negotiations at Lausanne.

## FUNDS AVAILABLE FOR A CIT GRANT TO WESTERN FAIR

James Bell Says the Treasury Can Meet \$10,000 Demand.

Should the city council feel impelled on Monday next to consent with the mayor and guarantee the Western Fair Association any sum up to \$10,000, there will be funds available, reported City Treasurer James Bell today.

At last night's session of the finance committee Aid. John Greer quizzed his worship upon three occasions, in order to ascertain what this money was coming from. "We have it up our sleeves," quizzed Mayor Wenige. "Ask the city treasurer."

The adviser asked the city treasurer this morning and learned a little more about "careful financing" in that department. There will be in June available a sum of perhaps from \$5,000 to \$7,000 he reports, which is not included in the tax rate.

"This will be derived, he explains, as the result of an undertaking of two years ago, when the city placed certain money overseas, when the rate of exchange was much lower than at present. This money will be perfectly legitimate," assures the city treasurer, "and we will have it available for any such purposes as the Western Fair grant, or any other project that the council may see fit to undertake."

Mayor Wenige and the city treasurer are continually springing these little surprises upon the council.

**TENSE EXCITEMENT.**  
Toronto, April 12.—Queen's Park this morning is filled with rumors as to the future of the Drury government, following the exciting incidents of yesterday afternoon and last night of the Ontario Legislature. Most of these rumors and prophecies are as to whether there will be a provincial election in June or will the Drury government hold to what was believed to have been the original intention, of going to the country in the fall.

"I am inclined to take the position that my duty is now in the direction of advising his honor the lieutenant-governor that the business of the house should be closed up and then we should have the election in the fall," said Premier Drury in the course of his statement last night in the debate following the announcement by Andrew Hicks, U. Continued from page one. Alberta coal may prove a permanent solution of fuel problems. Following the tests made here, The Advertiser is arranging for an investigation in Montreal under the direction of Fraser J. Keith, secretary of the Engineering Institute of Canada. The results of this inquiry will be given to Mr. J. A. Stevens, recently appointed chairman of the fuel investigation committee of the London branch of the Engineering Institute, and will be published in The Advertiser.

It is understood that another shipment of western coal is expected in the city at the end of the week, samples of which will also be tested by Mr. Keith. The Advertiser's shipment has already been forwarded to Montreal, where, as a matter of convenience, it will probably await the arrival of the later samples.

**Result of Analysis.**  
Analysis of The Advertiser's coal sample by Professor Russell yesterday gave the following results:

2—Volatile ..... 25.05 %  
3—Fixed carbon ..... 64.25 %  
4—Ash ..... 2.97 %

Explaining this analysis Professor Russell makes the following statement: "The samples should be regarded as a good grade non-cooking bituminous or soft coal."

# ENGLAND STUNNED AMAZED AT GOVERNMENT DEFEAT

## LABOR VICTORY IN PARLIAMENT STUNS ENGLAND

Taking of Early Vote Results in Government Defeat By Seven.

## MERELY TECHNICAL

Businessmen Fear Party As a Menace to the Welfare of Britain.

By HERBERT CASSON. Special Cable to The London Advertiser and The Philadelphia Public Ledger. London, April 12.—At this moment England is stunned by the amazing defeat of the government. The vote was taken at 9.15 instead of 9.50 and the government was defeated by seven votes. Normally the government majority is about seventy-five, but on this occasion it was caught with only a hundred and thirty-eight supporters.

## Common Political Trick.

It is a mere technical defeat—a common trick of political procedure, but it is a severe and unexpected blow for the government. It is serious not because it shows the weakness of the government but because it shows the strength and cleverness of the Labor party. It proves the easy-going days of the Coalition government are over and that this government must be eternally vigilant to maintain its existence.

## Naturally the Labor party is jubilant.

It has scored its first Parliamentary success. It has proved it can play the parliamentary games as well as either of the other two political parties. This Labor victory in short has suddenly compelled business men to take a more serious view of the Labor party. It has pointed out a new danger that must be met.

## Demands Capital Levy.

As yet no practical proposal has come from the Labor party. It is demanding a capital levy which would pull down the whole industrial and financial structure on the heads of the British people. It is pro-German in sympathies and was very little "left" during the war. No less than fourteen of its present members in parliament spent the war period in jail as conscientious objectors. Its full strength in this parliament is one hundred and forty-four members out of a total of over six hundred. It is less than one-quarter of the house of commons members and consequently not likely to dominate the house.

## URGES CHANGE IN EXAM FOR THE CIVIL SERVICE

Past President of Association Does Not Favor Present Methods.

Canadian Press Despatch. Ottawa, April 12.—F. W. Patterson, past president of the Associated Federal Employees' Union 66, giving evidence yesterday before the special committee of the house on civil service, suggested that there should be a change in the character of some of the written examinations for positions in the civil service. Less emphasis should be placed on former office experience and more on general education. The slapdash methods of carrying on correspondence in office life were not the methods in the government service.

## NURSE EDITH CAVELL'S DOG WILL JOIN NOTABLE CANINES

Associated Press Despatch. London, April 11.—A little dog which belonged to Nurse Edith Cavell at the time of her execution, died recently in Brussels. Its body has been brought to London to be placed with other stuffed "notable canines" in the zoological department of the British Museum. On the day before her death Nurse Cavell gave the dog to her devoted friend, Princess de Croix, who cared for the animal until it died.

## STEAMER FROM DETROIT MAKES RUN TO SARNIA

Special to The Advertiser. Sarnia, April 12.—The steamer Waupac arrived here last night from Detroit on the first run of the summer schedule. Marine men now set the date for opening of navigation to the western head of the lakes for May 1 at the earliest and in St. Marys River.

## FARMER MOVEMENT.

Special to The Advertiser. Chatham, Ont., April 12.—A debate, "Resolved, that the farmer movement in Canada is not in the best interests of good government," was held at the Macaulay Club, featuring the meeting of the "Get-Together" Club of First Presbyterian church this week. Mr. Fancher and Mr. Fred Wood took the affirmative, and Mr. S. J. Smith and Mr. Lowell the negative. Jack Stevenson presided and two well-rendered vocal solos were given by Miss Maud Lane and Miss Mary Cocker. Mr. McCubbin gave the decision in favor of the affirmative. Refreshments were served at the close of the program.

## FINES INDIAN \$300 FOR HEWING TREES NOT HIS PROPERTY

Brantford Magistrate Tells George Miller Laws Must Be Obeyed.

## OTHERS IMPLICATED

Case Arises Out of Refusal of the Reserve Council To Recognize Will. Special to The Advertiser. Brantford, April 12.—"The Six Nations Indian must realize that the laws in Ontario and Canada are pre-emptive and must be obeyed," declared Magistrate John Blake when he imposed a sentence of \$300 or three months on George Miller, Indian, for trespassing and cutting and removing timber from land not belonging to him. Sentence was stayed for three weeks.

## Refused To Vacate.

The case first came into prominence when Mrs. Amelia Garlow, owner of the lands, appeared before the Hon. Charles Stewart, minister of Indian affairs, some months ago and stated that although she had been let some property along the Grand River by her father, the late Josiah Hill, she could not obtain possession of it. She said that the council of chiefs of the Six Nations would not recognize her father's will as she had forfeited her right to the land by marrying off the reserve. She appealed to the department which ruled that the will was quite legal, and instructions were given that Miller, who was on the land with the consent of the council, must vacate. He did not. Mrs. Garlow then laid a charge against him in police court, and after dragging along for weeks it was settled today.

## MILLER, IN HIS DEFENCE, CLAIMED THAT HE THOUGHT THE AUTHORITY OF THE INDIAN COUNCIL COULD NOT BE CHALLENGED, AND THEREFORE HAD STAYED ON THE LAND, ALTHOUGH HE KNEW IT BELONGED TO THE STATE.

Miller, in his defence, claimed that he thought the authority of the Indian Council could not be challenged, and therefore had stayed on the land, although he knew it belonged to the state. He never intended to stay on the land for good, but only for the timber. The magistrate based his fine at the rate of \$4 per acre on the court's ruling that Mrs. Garlow was the owner of the land, and that she alone had the right to the land. He will not vacate it, all other parties must keep off.

## Will Arrest Others.

A warrant was issued against Walter Styres, charged with the same offence as Miller. He will be arrested and appear with his two brothers, Claude and Clifford Styres, three weeks hence, at which time the case of all four will become effective. Prosecuting lawyer asked that bail be demanded, but the magistrate refused that an Indian was not allowed to give bail. He merely placed Miller on his honor to appear at the stated time.

## GERMANY PROHIBITS SELLING OF ABSINTHE

Government Passes Law Which Delivers Body Blow At France.

Special Cable to The London Advertiser and The Philadelphia Public Ledger. Berlin, April 12.—The Reichstag delivered a double blow against drink and France yesterday by adopting a law prohibiting absolutely the importation and sale of absinthe under heavy penalty. The vote showed that the insidious poison, which, though forbidden in France itself, is regularly exported, has no friends in Germany except its own addicts. The wet lobby, which is spending a mint of money to fight absinthe, was completely routed. The bill passed without objection.

## THE DRY SCORED ANOTHER VICTORY BY FORCING THE GOVERNMENT TO CANCEL ALL LICENSES FOR ADVISING ALCOHOLIC BEVERAGES ON DINING AND PASSENGER CARS AND IN RAILROAD STATIONS.

The dry scored another victory by forcing the government to cancel all licenses for advising alcoholic beverages on dining and passenger cars and in railroad stations. They were prepared to rejoice also over a strike of Bavarian saloons and restaurants, which planned to suspend serving beer, owing to the high toll exacted by breweries and the internal revenue department.

## WILL NOT ADMIT SHIPS TO CANADIAN REGISTRY

Canadian Press Despatch. Ottawa, April 12.—The effect of the decision of the United States Shipping Board as announced by the state department at Washington will, it is said, mean that none of the ships sold with special conditions will be admitted to Canadian registry. The Canadian government, it is emphasized, has not objected to the U. S. shipping board selling its ships with the condition attached that they shall not be used by the new owners for rum-running. The point taken here is that ships cannot be admitted to Canadian registry with anything but the usual conditions governing. The Canadian department of marine, it was argued, was not prepared to concede to the government of the U. S. the right in any way to exercise jurisdiction over ships registered in Canada beyond such as might from time to time be applicable to the vessels of foreign register while in U. S. waters.

## BOY STRUCK BY AUTO REMAINS UNCONSCIOUS

Marshall Jones, Chatham, Lies At Home In Critical Condition.

Special to The Advertiser. Chatham, April 12.—Struck by an automobile while playing in front of his home Monday, Marshall Jones, the eight-year-old son of Alfred Jones, 55 Harvey street, lies at his home in a critical condition. It is thought a man named Walker was the driver of the car. The boy, according to a report filed with the police, ran out in front of the car, and the driver did everything possible to avert an accident, but was unsuccessful. The front mud-guard struck young Jones on the temple, and he has not yet regained consciousness.

## JAIL GOVERNOR SETS RECORD FOR ECONOMY

Elgin County Feeds Prisoners For Eleven Cents a Day.

Special to The Advertiser. St. Thomas, April 12.—Governor Luton, of the Elgin county jail, established another record for economy and efficient feeding of prisoners during the last quarter. The average daily cost of each inmate was eleven cents. During the previous quarter the average daily cost was twelve cents per prisoner, which shows that living costs are slightly reduced this year. Forty prisoners were registered in the jail during the first three months of 1923, staying 672 days. The eleven cents per day average is reflected in many months, the average for the four quarters last year being around the 12c mark.

## NORTH DRESDEN BAPTISTS HEAR REV. C. J. CAMERON

Special to The Advertiser. Dresden, April 11.—The annual business meeting of the North Dresden Baptist church took place Monday night. Splendid reports were presented and an historical sketch of the church compiled by Mr. J. W. Wilkins was read by the clerk, Chas. E. Wilkins.

## ELECT OFFICERS.

Special to The Advertiser. Chatham, April 12.—Mrs. Manson Campbell was elected president of the Heather Club of the general hospital yesterday, when the monthly meeting was held at the home of Mrs. Clarence Merritt. Other officers are: First vice-president, Mrs. W. McGeachy; second vice-president, Mrs. John Park; corresponding secretary, Mrs. A. I. McCall; secretary-treasurer, Mrs. C. C. Bragg. Plans for the annual bazaar in the fall were talked over and the ladies decided to hold chas. tea, the first at the home of Mrs. G. A. Gray.

## DORTCH HANGED TODAY.

Special to The Advertiser. Lethbridge, Alta., April 12.—With the words "One more step to heaven," Otis Dortch passed to his doom on the scaffold without flinching at the provincial jail promptly at 6 o'clock this morning. Dortch was convicted of the murder of Charles Kelly on a farm near Vulcan, Alberta, last October.

## FINANCE COMMITTEE DECREASES ESTIMATES

Guelph Body Refuses Requests For Several Local Grants. Special to The Advertiser. Guelph, April 12.—The civic finance committee will present a report before a special meeting of the city council Thursday night, recommending that Guelph's tax rate for 1923 be fixed at 33 mills, an increase of several mills over that of last year. The larger rate is accounted for by the large expenditure necessary in building the new collegiate vocational institute.

As a result of the large application for school needs, the civic financiers have found it necessary to practice the strictest economy in other departments, and \$77,000 in all was sliced off the original estimates presented by the various committees. This includes \$15,000 from the fire, light and water committee for the purchase of a triple combination fire-fighting apparatus from the winter fair buildings. In addition to cutting the committee estimates to the bone, the financiers have also made no provision for improvement to the winter fair buildings this year, failed to consider a request from the board of health for \$3,000 to build a small police hospital, sliced \$200 off the Children's Shelter grant, turned down an application for an increased grant to the Victorian Order of Nurses, refused to deal with the request of a grant of \$1,000 to the Travelers' Aid, and protested the payment of \$37,000 to the provincial government on highway work in this district and that on highways to be paid by the issuing of debentures.

## George's Wife, She Smoked All Day, And for Phone Calls Used His Pay

Special to The Advertiser. Detroit, Mich., April 12.—Declaring his wife smoked any but silk underwear, that she smoked incessantly, that she squandered his moderate salary, talking over the long distance telephone with friends in other cities, and that she had twice deserted him, Harold G. George, 119 Windsor street, yesterday filed suit for divorce against Olive George, who George alleges that two days after the marriage on August 25, 1922, his wife disappeared, and that he had no word from her until February of this year, when she wrote to him from Toronto, asking that he go to that city to bring her back to Detroit. When he had complied with her request, she remained only a short time and then deserted him again. Her refusal for deserting him, it was stated, was that she "liked travelling about."

## STRATFORD JAIL HEAD REPORTS EXPENSES

Costs Twelve and One-Half Cents a Day To Feed Prisoner. Special to The Advertiser. Stratford, April 12.—The report of Governor Arthur Tretheway of the Perth county jail for the first quarter ending March 31 shows there were 17 commitments for criminal offences and seven for non-criminal ones. The total number of days served by prisoners was 439. The cost of feeding for the quarter was about twelve and one-half cents per prisoner per day. The report throws an interesting light on the question now under discussion of taking in the prisoners from Huron county.

## BLENHHEIM MAN SUES FOR LOSS OF TURKEYS

C. Cohen Enters \$1,300 Action Against Elgin Humane Society. Special to The Advertiser. St. Thomas, April 12.—Charles Cohen, a poultry dealer of Blenheim, has started action for \$1,300 damages against the officers of the Elgin Humane Society of St. Thomas.

In December Cohen made a shipment of turkeys to Buffalo, but the car was side-tracked at St. Thomas and a complaint of cruelty to animals was laid against the shipper. Cohen alleges the turkeys were removed from the car and many were lost and stolen. He claims that what were left were too late for the market at prices and that on account of the delay and escaped birds he suffered a loss of \$4,000.

## MRS. REBECCA FORTSYTHE DIES AT PORT STANLEY

St. Thomas, April 12.—Mrs. Rebecca Forsythe, relict of George Forsythe, passed away after a long illness at the residence of her sister, Mrs. W. C. Payne, Port Stanley, Tuesday in her 64th year. She was an honored member of the Presbyterian church, and always took an active interest in the work of the church.

## SHOWS SHIPPERS LOST BY LAKE GRAIN RATES

F. W. Grant Justifies Last Season's Charges Before Royal Commission. Canadian Press Despatch. Ottawa, April 12.—The freight rates on grain during last summer, when the shipping combine was alleged to exist, were justified before a royal commission yesterday by F. W. Grant, K. C., counsel for the Great Lakes Transportation Company, which are the Playfair interests.

## ARREST CHATHAM MAN ON NON-SUPPORT CHARGE

Special to The Advertiser. Chatham, April 12.—William Brown, a local colored man, has been arrested in Hamilton for the local police on a charge of non-support preferred by his wife. Notification of the arrest was received by Chief Groves in a telegram this morning. Brown, according to the city police, appeared in the police court here about two years ago on a similar charge.

## BAKER AIDS LADIES.

Special to The Advertiser. Chatham, April 12.—The resignation of Mrs. Gow, president, and Mrs. Warming, secretary of the Women's Auxiliary of the G. W. V. A. were accepted last night, and Mrs. S. Turnbull was elected president, and Mrs. W. Emms was appointed secretary. Plans were made to raise money for the War Memorial, and Roy Young, baker of Queen st., has kindly consented to give the auxiliary the proceeds of his sales on Saturday of next week. The ladies arranged a luncheon party for this evening.

Warn Contractors of Dangerous Excavation For \$10,000,000 Plant.

## DISCUSS TAX RATE

Aldermen Predict Scale of 25 Mills For the Coming Year. Special to The Advertiser. Windsor, April 12.—Unless steps are taken immediately to insure the safety of pedestrians on Sandwich street and Belle Isle avenue, Ford, the council of that municipality will ask for an injunction to compel contractors to stop work on the \$10,000,000 plant of the Ford Motor Company of Canada.

Members said the meeting of the Ford council Tuesday night although the company had been notified of dangerous excavation of property on which the new Ford motor plant is being constructed, no action has been taken.

The building inspector was notified to warn contractors that an injunction must be asked if the instructions of the council are not carried out. A committee was appointed to consult the postmaster at Windsor regarding meeting the Ford City post-office to Walkerville. The government is to be requested not to close the office.

## HONOR FLORENCE COUPLE.

Special to The Advertiser. Florence, April 12.—Mr. and Mrs. Jas. A. Beattie were pleasantly surprised Monday night when the Young People's Adult Bible Class of the Methodist church met at their home following their marriage of recent date, to present them with an oil painting as an anniversary gift. A social hour was spent in a dainty luncheon.

## HICKS BOMB WAS "MADE IN LONDON" SOME DAYS AGO

U. F. O. Whip Leaves Drury Camp Because Premier Had Strayed From "Principles."

## PARTY SPLIT SURE

Report That Drury Has Made Overtures for Fusion With Liberals. Special to The Advertiser. Toronto, April 11.—The U. F. O. upheaval precipitated this afternoon by the announcement of the resignation of Andrew Hicks, government whip, and his declaration that he can no longer follow Premier Drury, is reported to have been the outcome of a series of conferences carried on in Western Ontario points during the past week, and staged for dramatic effect at a time to coincide with the return of the premier from his trip to Ottawa and Montreal.

Started in London. According to reports in circulation here, Mr. Hicks held a conference with several men who share his views in London some days ago, when he wrote his resignation and intended to send it through to the premier. It was on Mr. Drury's desk for perhaps forty-eight hours before its contents became public.

According to reports at the parliament buildings there have been ominous rumblings within the agrarian party for several weeks, but the rift did not become an actuality until the report reached the anti-broadening out camp that Mr. Drury had been in serious consultation with his more trusted followers, and the Liberal chiefs to make a fusion effective before the next election.

## AGRIANS SUSPICIOUS.

The suspicion grew within the past few days that Mr. Drury's visit to Ottawa was for the purpose of reaching agreement with the federal chiefs of Liberalism. At the moment when feeling was at an intense pitch, a letter intimated only for Mr. Drury would occupy the attention of the agrarians stepped into politics and swept their way to power.

## WHY HICKS QUIT.

The miscarriage of the Ottawa letter had a bombshell effect on the Morrisites and was, according to report, the direct cause of the resignation of Mr. Hicks and the band he has lined up against Premier Drury.

## CAUSES OF TROUBLE.

One of the causes of dissatisfaction is said to have been the allegation raised against the Drury administration that some expenditures have been needlessly excessive. Though it is admitted that the government's roads policy has brought a wonderful improvement in all parts of the province, it has also caused some dissatisfaction on the ground of expenditure, in view of the fact that the proposed scheme for a limited provincial highway system was one of the outstanding features of the electioneering of the U. F. O. in 1917.

Wellington Hay, the Liberal Leader, Also Declares That No Arrangement With U. F. O. or Premier Exists—Drury Government Sustained by 62 to 29 on Want of Confidence Motion.

### ELECTION MAY FOLLOW PARTY WHIP'S BOLT

Special to The Advertiser by a Staff Reporter.  
Toronto, April 12.—The Casselman amendment was voted down in the legislature at 12:35 this morning by 62 to 29 and the main motion to go into committee on supply passed on the same division, thus sustaining the government.

Conservatives voted solidly for the Casselman amendment, and did four Liberals, J. C. Tolmie of Windsor; W. E. N. Sinclair, North Ontario; H. S. Cooper, Northern Ontario; A. P. McWhinney, Bruce.

Mr. Casselman was the only U. F. O. member to vote for the amendment, leaving Mr. Oke and Fox voting with the Government.

Special to The Advertiser by a Staff Reporter.  
Toronto, April 12.—Although Premier Drury refused to make a positive declaration that the legislature would dissolve, the members of parliament last night stated that the House will be dissolved within a few weeks and Ontario will have a general election. What the premier did say in his budget speech was "I am inclined to take the position now that we will tell His Honor the Lieutenant-Governor that the House be dissolved and that we go to the country."

Such a statement was accepted as a definite declaration by the opposition members and was cheered by the government supporters.

On the question of redistribution, the declared that without a majority he felt that he did not have a mandate to go on with that policy, although he spoke strongly in favor of proportional representation, which he said should at least be tried out. He denied the charges of Mr. Hicks made earlier in the day, that he had betrayed U. F. O. principles and that he had dickered with the Liberal leader with a view to amalgamation of the parties.

Wellington Hay, Liberal leader, emphatically denied the existence of an arrangement with the U. F. O. government. These declarations followed a long debate on the budget, during which Andrew Hicks, the U. F. O. whip, read a statement to the effect that he could no longer follow his leader, and charged the latter with betraying U. F. O. principles. A motion of want of confidence in the government was moved by W. H. Casselman (U. F. O., Dundas) and seconded by Milton Fox, who, however, stated that he did so under a misapprehension.

The news that the U. F. O. whip had bolted, and the further development, the measure of the want of confidence motion by W. H. Casselman (Dundas), and Milton Fox (South Essex), spread like wildfire in the city. When the night session of the legislature opened the galleries were crowded by eager, expectant people. In the recess both Conservatives and Liberals held councils, but no word was given of any plan of action was given out. Mr. Fox, who seconded the motion, said the want of confidence motion, and who announced before the evening session that he would withdraw his name as a seconder, said that he intended to remain with the U. F. O. So did Mr. Hicks, the chief of the opposition, saying it could be called. While censuring Mr. Drury, he said that he was not leaving the party, and that when he did so he would drop out of public life.

Absolute denials were made that Conservatives were appraised in advance of the charges against Mr. Drury. Mr. Raney, who was the first minister to enter the chamber, came in smiling. Col. Carmichael, minister without portfolio, smoked a cigarette with nonchalant air. Mr. Premier Drury entered amid deafening thumping of the U. F. O. desks.

member," said Mr. Casselman, "and asked if it met with his approval." He would not object to the withdrawal of his name.

Regrets Failure.  
"The sentiment in that resolution represents just what I think," he declared.

"He left it in the hands of the House. You can do what you like with it," he said.

The resolution regretted the failure of the government to live up to the principle which brought the government into power.

Col. Curry (South East Toronto) seconded the resolution, but the speaker ruled that as a minute had elapsed since the seconder withdrew his name, the motion stood on the order paper as a dropped motion.

The attorney-general said the government was willing to have the name of Col. Curry substituted. The speaker then asked if there was any objection to Mr. Fox withdrawing, and immediately Col. Curry and Mr. Ferguson objected. Finally, the speaker declared that unanimous consent not having been given, Mr. Fox's name must remain.

Mr. Drury arose amid a burst of applause. "In all the history of the legislature there was never a parallel case like that which arose in the House this afternoon," he said. "Never before has a member of any party chosen the House as a place to accuse any member of the House of betraying his honor on the floor of the House."

Casselman Objects.  
Mr. Casselman rose to object and Mr. Drury asked the speaker that he rule that no one interrupt while he was "defending his honor on the floor of the House."

Mr. Drury referred to the ideals of the farmers, who hearing that the government had neglected, took action. They were not to be deceived by the big and broad enough to be supported by others than his farmers. When representatives were elected they were to be loyal to the government, but they found another group whose policy, if not identical, was similar. The labor movement in Ontario was something they might well be proud of. If the policy of the farmers was the land, the policy of labor was the conservation of the human body.

WILL LIKELY GO TO COUNTRY.

Although Premier Drury's government was sustained by 62 to 29 in the legislature early this morning in the vote on a want of confidence motion arising out of the Hicks charges, the premier's public statement is taken as an intimation that the house will be dissolved very soon and a general election called.

son's soldier settlement scheme "There was a most lamentable state of affairs when we came in," he said. My honorable friend knew everything about the north except the most essential thing, that not all men are pioneers. It was to look into the past, to see what had happened, and the government had formed their first royal commission, continuing the government's work from its report referring to heavy expenses.

Refers to Redistribution.  
"You're a good one," interjected Dr. Forbes Godfrey and there was a flurry of laughter. The premier ignored the interruption and turned his attention to the matter of provincial highways. In permanent work which he said would be good 100 years from now, between 60 and 65 per cent of the total cost had been expended, said he.

From public roads to railroads the premier jumped and proclaimed why the government had neglected railway development in Northern Ontario. He pictured the mines, the water powers, all the resources and pictured a country that was being neglected.

Hay Repudiates Circular.  
Mr. Hay repudiated the party's connection with the circular sent out and signed by B. H. McCreath on behalf of the Liberal Clubs Federation asking the members if they were in favor of amalgamating with the Progressives, and if favored trying the proportional representation in one or two of the larger constituencies and the transferring vote system.

Currie Lauds Premier.  
"I said that I don't know that it brings to you, and I will use it," said Col. Currie.

Mr. Currie said that he had no doubt as to who the house and the provinces would believe. "A man who does that under the original code is designated as a thief," he declared. "It was marked private and confidential, and I believe that the letter was for me."

Club Members Held by New York Officers.  
Associated Press Despatch.  
New York, April 12.—Three hundred men, members and guests of the Twentieth Assembly District Republican Club in Brooklyn, found one narrow door too small to pour through when police raided their room early today to stop an exhibition dance by five women said to be too meagerly clad.

Two hundred and forty-five of the men and the five women were taken to jail.

## CURRY LETTER WAS ADDRESSED TO WRONG MAN

Intended for J. Walter Curry, It Goes to Col. John A. Currie.

PURELY PRIVATE  
Writer, Senator Hardy, Did Not Send It as Official Communication.

Special to The Advertiser by a Staff Correspondent.  
Ottawa, April 11.—The reference made in the Ontario legislature to a letter written by an Ottawa senator to a Liberal member in Ontario, but which finally found its way to the Conservative camp, brings out an interesting political story. From sources that The Advertiser correspondent believes to be reliable, the event came about in this way:

Some two weeks ago, J. Walter Curry, Liberal member for Seat A in Southeast Toronto, in the Ontario legislature, was in Ottawa. While here he had a long conversation with a Liberal senator, claimed to be the Hon. Arthur C. Hardy, of Brockville, and matters concerning the Ontario situation were discussed along with other political topics.

When the senator came to address the letter, so the story going the rounds in Ottawa tonight says, the mistake came of addressing it to J. A. Currie, Parliament Buildings, Toronto. In due time the letter was received by Col. John A. Currie, Conservative member, who has a name so much like that of the Liberal for whom it was intended.

Berlin, April 12.—Germany's floating debt in discounted treasury bills at the end of March was 6,600,000, and was proposed to increase to 800,000,000 marks during the last ten days of the month.

## Hicks Created Sensation In Speech Three Years Ago

The surprising action of Andrew Hicks yesterday recalls one other incident which happened in this city, when the eyes of the whole province were drawn upon him. His attitude at that time was as difficult to comprehend as his present about-face.

Following a speech at an East Middlesex U. F. O. picnic at Queen's Park, this city, in 1919, Mr. Hicks was quoted by an imaginative reporter as saying: "The amount of money which certain interests attempted to use to influence the Drury government was appalling."

Immediately the whole province was in an uproar, and in every city the papers demanded an investigation.

INTERIM SUPPLY BILL COMES BEFORE SENATE

Casgrain Seeks Information Concerning Peat Fuel Testing Plant at Alfred.

Canadian Press Despatch. Ottawa, April 12.—In the Senate yesterday the interim supply bill, granting to the government one-sixth of the total estimates, was introduced. It is expected to be put through the remaining stages tomorrow.

Senator Casgrain asked for information regarding the government peat fuel testing plant at Alfred, Ont. He had been informed, he said, that some \$900,000 had been expended on the plant; that 15 tons of peat had been produced, and that none had been sold. This meant that the \$900,000 was expended without value to the people of Canada, he declared.

Senator Harmer was informed that the government had paid a total of \$614,859.23 in rent for a office space in 15 Ottawa buildings during the calendar year 1922. This had been for a total floor space of 995,799 square feet.

Lick Observatory Accepts Proof of Einstein Theory

Corroborates Result of Observations Made in Australia by Prof. C. A. Chant and Other Canadian Scientists.

Associated Press Despatch. San Jose, Cal., April 12.—Dr. Albert Einstein's theory of relativity has been so proved by experiments made by the Lick observatory expedition, which photographed the eclipse of the sun in Australia last year, that no further experiments will be made. Dr. W. W. Campbell, director of the observatory, announced last night. Dr. Campbell's report corroborated the result of observations made in Australia by a party of Canadian scientists headed by Prof. C. A. Chant of the University of Toronto. On April 5 Professor Chant reported that analysis of the photographic measurements and the calculations made by the Canadian scientists provided evidence distinctly favorable to the Einstein theory.

Mike Wiksych Found Guilty of Murder at Kenora.

Canadian Press Despatch. Kenora, Ont., April 12.—Kytro Wiksych was found guilty of the murder of Wasyli Podlyky at the assizes here last night before Mr. Justice Masten, and was sentenced to be hanged on June 13. Mike Kosham, a partner in the crime, pleaded guilty to manslaughter. He made a confession to the police, and gave evidence at the trial of Wiksych yesterday. The crime for which Wiksych was sentenced, occurred nearly four years ago, on August 24, 1918, when Podlyky was found foully murdered on the Canadian Pacific Railway track between here and Keewatin. His purse, containing a large sum of money, was gone. Police found absolutely no trace of the murderer, but gradually suspicion fastened upon these two men, who were afterwards sentenced to Stony Mountain penitentiary for a hold-up near Port Arthur. Their movements were traced, and two months ago Kosham confessed.

FOURTEEN IN BAND Sheriff With Posse Starts Hunt for Armed Men.

Special to The Advertiser. Peoria, Ill., April 12.—Fourteen armed and masked bandits held up a Santa Fe freight train near here for nearly two hours at midnight and escaped with more than \$30,000 worth of liquor and alcohol. Four of the robbers boarded the train as it pulled out of Peoria, according to reports to Sheriff Nauhaus, and forced the engineer and train crew to stop at Candall Crossing, where the other ten waited with trucks. While the confederates kept the trainmen lined up, the cars containing liquor were broken into and the loot leisurely loaded on the trucks. Posing a volley reminiscent of "Wild West" days, in the air the bandits drove away. "Poses led by Nauhaus are in pursuit."

THURSDAY, APRIL 12, 1923.

No Scandal at Toronto.

The resignation of Andrew Hicks, M.P.P. of South Huron, as whip of the U. F. O. party at Toronto, was dramatic in every sense of the word. He pursued a most unusual course in bringing such a matter as an attack on the honesty and integrity of the premier of Ontario up on the floor of the House before mentioning his grounds in party caucus.

It seems strange that Mr. Hicks should find it possible to work with Mr. Drury, and live in his political camp, and be in very close touch with him for almost four years, and then on the eve of an election find out that the premier is a man who has trafficked on the honor of the U. F. O., and placed himself on the auction stump to await the highest bid from the Liberal party.

Surely Mr. Hicks could not have been so thoroughly deceived all that time? As the whip of the U. F. O. party he was in the confidence of the premier. If the premier's conduct had been treacherous all along it certainly was the duty of Mr. Hicks to speak out before this. It is highly suspicious that this onrush of stricken conscience should come so late in the day.

There have been discussions at many places regarding the wisdom of bringing the Liberals and the U. F. O. together in Ontario. The majority of the U. F. O. people in the province are Liberal in the real sense of the word, and the Liberal party at Toronto has been most considerate of legislation brought in by the U. F. O. government.

If there is conspiracy the Liberal leader in the House must be in it. Mr. Hay is ready at this or any other time to present a statement of every move he has made. He has been fair and honorable all through in his dealing with the Liberal party, and he certainly is not now nor has he been a party to throwing Liberalism overboard in Ontario.

There is nothing in the situation on which to build a scandal. There is nothing to show that Mr. Drury has tried to betray the U. F. O. or the principles for which it stands.

It looks as though the man from Crown Hill, who has given four of the best years of his life to the province, is being wounded in the house of his friends.

The Moose Jaw Result.

Although the Liberals of the late Moose Jaw riding hoped that later returns would alter the verdict against them in the first polls heard from, there is no doubt that the Progressive candidate, E. W. Hopkins, has a fairly substantial lead.

Mr. R. M. Johnson, the Progressive who formerly held the seat, was disqualified on a charge that was largely technical—he had not included in his election expenses the money paid to a band that was hired to celebrate his victory. There was no charge of corrupt practice lodged against him. The fact that he was disqualified left no stain on his character.

It might be argued that it was poor politics for the government to put a candidate in the field; that it would have been better to show goodwill by allowing the Progressives to have the seat without a contest. Against this is the fact that the government would have been strengthened in the House by gaining the seat, and if there was a fair chance of having a Liberal member from Moose Jaw the government was quite within its rights in making the attempt.

This contest is simply an incident in the working out of a situation that must eventually show that the Progressives can best serve their constituency by working with the Liberal government. The points on which they agree are greater by far than those on which they differ.

The Premier Is Right.

Premier King met a deputation organized by the Canadian Good Roads Association. They had gone to Ottawa to urge upon the premier the advisability of continuing federal assistance to the building of roads, a matter which is not strictly within the limits of the British North America Act, under which the parliament of Canada functions.

In giving his negative decision in this matter Mr. King stated that there were many claims being urged upon the government, technical education, agriculture, housing and unemployment, together with demands from all over the country for public works. The government's big problem was finding sufficient revenue to operate under present expenditure.

position of the country; he and his advisers know very well the limitations that are set to increased levies being made, and his firm but reasonable refusal to go on spending money will find a wholesome response in the minds of ratepayers all over the Dominion.

It is the height of folly to keep on crying out at Ottawa that expenditures must be cut and the burden taken off the people, and at the same time burn up mileage to the capital to tell the government how to spend another few millions of the people's money.

Wrong Names.

It is easy enough to make mistakes in the names of men and women. It always has been done, and, unless some newer and more severe system is devised, it always will occur. Newspapers offend in this regard, in spite of all the care they can exercise. Many names come in over the telephone, and J. sounds like A. or K., and C. is not much different in sound from B., G. or E., and so on.

A concrete case showing how mistakes will creep in is found in a list of corrected names in the *Glengarry News*. The names were being collected to place on the war memorial tablet of the town, and were taken from the records. It might be imagined that these records would be correct in every way, but a glance at the list shows just where all the slight mistakes came in:

WRONG NAME SHOULD BE  
Donald McArthur Donald MacArthur  
Duncan MacDonall Duncan Macdonell  
George Macdonald George Macdonell  
Clifford Merley Clifford Merleley  
William McPhee William P. McPhee  
John McPhee John H. McPhee  
Joseph Macdonald Joseph Macdonell  
W. T. Govan Walter Tate Govan  
Dolphus Crepe Dolphus Crate

No glaring mistakes, all of them easily made and easily understood. There are men who have themselves to blame for mistakes in their names. They do not sign them decently. Many a man who is very careful about other matters seems to go out on a regular spree when it comes to signing his name to a letter or anything else.

Neither the printer, the reporter, nor the proof-reader can be saddled with all the blame for names not correctly spelled. It is annoying and vexatious to the people concerned, and yet those agencies that can do much to remedy the thing, viz., the people themselves, seem to be content to keep on broadcasting their names on letters, etc., in a way that courts and invites error.

Some U. S. politicians shriek at the idea of the League of Nations being in politics. But if one party takes up the idea favorably, and the people of United States have a chance to vote on it, what harm can be done? It is much better to approach it through politics than not at all.

St. Catharines reports that senior lacrosse is in jeopardy there because there are no fenced grounds on which to play. It is to be hoped that they get a good place fenced in, and because St. Catharines is now, and has been for years, a good lacrosse town. That place has always seemed to be able to grow lacrosse players husky enough and fast enough to take care of all the imported talent that other cities could secure.

The discussion about church union is bringing some professional letter-writers into action. They center mostly in Toronto and Montreal, and bombard papers all over the country with carbon copies of their thoughts. These letters cannot be given much consideration, as they have taken upon themselves the rank of propagandists. The Advertiser welcomes its own readers to use its columns to discuss matters of general interest, but these carbon copy writers are not included in this invitation.

London's mayor and some of the aldermen are indignant because the Ontario government has refused to grant an elective police commission. It should be remembered that this matter was never voted on by the people, nor was the government at Toronto ever committed to such a course. The Ontario government used its own discretion in the matter, and we believe they acted wisely in turning down the request.

The Advertiser referred recently to a brave letter in the *Listowel Banner*, in which the charge was made that people came late to the Presbyterian Church to show off their Sunday trappings. Now the *Banner* hustles along to tell us this all took place 25 years ago. This may be so, or it may have been that the *Listowel* editor was waited upon by a deputation from the *Listowel* kirk.

TELL US HOW.

Exeter, Ont., April 8, 1923.

Editor of The Advertiser:

Sir,—In the morning edition of today's issue of your paper, you publish a statement which is somewhat misleading. It has to do with the Kent County farmer, who say he made a profit of \$428.96 on feeding a bunch of eleven cattle in 140 days. He says, after figuring cost of feeding and taking care of cattle, he made this profit. He did not place any value on his feed or time either, as I find on figuring out the gain at 7 cents a pound and the difference of 1 1/2 cents a pound on the weight when he bought them, I get \$428.96, the amount he claims as net profit. If he can explain how he fed them on such a cheap ration it would sure help some others and be the means of keeping more of our boys on the farm. Yours truly,

HERBERT BISSETT, R. R. 3, Exeter, Ont.

SOMETHING IN HER FAVOR.

Your Health

WHY WALKING MEANS MUCH TO HEALTH AND LONG LIVING.

By Royal S. Copeland, M.D., United States Senator from New York, Former Commissioner of Health, New York City.

Years ago I used to know Mr. John E. Andrus of Yonkers, N. Y. The other day I was pleased to read a newspaper account of his 82nd birthday. Mr. Andrus is a very rich man, but he does not roll on the seats of a richly upholstered limousine. Instead, he travels to his office, 29 miles distant, by means of the subway. The papers referred to him as "the world's richest straphanger."

In discussing his habits, Mr. Andrus said on his birthday: "I use the subway because I like to be among the masses. I can get more useful information from hearing the views of the common people than from the other class. I prefer their company to the associations of those who are always trying to get money out of one."

"My health is good. In fact, I feel splendid. I think one recipe for long life is careful eating. One should eat very little meat. There is a saying: 'Strong as an ox, but an ox does not live on meat.' If I get more pleasure with my family at home than going around with people who wear swallow-tailed coats and silk shirts, I never devote any time to society."

"I get more pleasure with my family at home than going around with people who wear swallow-tailed coats and silk shirts, I never devote any time to society. 'If you wish to live long, take care of yourself, keep out of drafts, take moderate exercise and eat carefully. Everybody who lives to a ripe old age thinks he knows the reason why. If he uses tobacco, it is because he did use it. If he never used tobacco, it is because he is afraid to give up the habit. As a matter of fact, long life depends on the foundation of a reasonably sound body, and then good sense in its operation. In my opinion, the newspaper writer gave the Andrus story the right 'lead,' to use a newspaper word. It was the subway and straphanger experience that appealed to the journalistic sense of the reporter, and this, in my judgment, is the key to the secret of Mr. Andrus' long life. He is not afraid to use his muscles, to exercise his body, and to depend on his own powers of locomotion."

I know a lovely woman past middle life. She is miserable in body and unhappy in mind, because she never walks. Elevators and limousines are the curse of her life. I have tried to make her see it, but she won't. You cannot be healthy in body or active in mind unless you use your body and mind. Exercise of the muscles by much walking and exercise of the mind by using it to help solve the problems of the world will make you strong physically and alert mentally.

Answers to Health Questions.

H. L. F. Q.—Will you kindly tell me how to cure vernal catarrh of the eyes?

A.—It is almost impossible to cure this condition. However, treatment will check its progress. You should be examined by a doctor and follow the treatment he will then prescribe.

B. J. R. Q.—I suffer from a slight stroke I experienced some time ago. Will you kindly advise me regarding this condition?

A.—Your letter is too vague. If you will write, restating your question in full detail, I will gladly furnish full particulars.

you kindly tell me what my correct weight should be?

A.—For the age and height you mention, you should weigh about 148 pounds.

M. E. P. Q.—If a child has symptoms of measles and a rash does not appear would you advise giving the patient a hot bath?

A.—Yes, it would be advisable to give the patient a hot bath under the circumstances you mention. In measles, there must be a rash.

G. C. S. Q.—Will you kindly tell me whether massaging cocoa butter into the face causes blackheads? A.—No, cocoa butter will not cause blackheads if the face is washed frequently with good soap and hot water to keep the pores from becoming clogged. It is a current game in the cinema world to invent fables about movie stars, and the latest has it that a young millionaire showed a black eye to a beautiful young film star, and said reproachfully: "Why did you knock me down when I kissed you in the dark conservatory?" BAXTER PRESSES FOR DEVELOPING CANADIAN PORTS

Former Minister of Customs Outlines Railway Claims of the Maritime Provinces.

DIFFICULTIES GREAT Are Striving For Secession.

Ottawa, April 12.—"I am not a secessionist. I do not think anything could make me a secessionist, but there are people—and they are largely in the province of Nova Scotia—and there are some in New Brunswick, who are beginning to talk of getting out of confederation."

The declaration was made by Hon. J. B. Baxter, minister of customs in the late government, in pressing railway claims of the Maritime Provinces in the House yesterday. Why should Canadian trade find its way to United States seaports, Mr. Baxter asked. He would go to the extent of having a differential on shipments to Portland, British preference he suggested, should be restricted to goods entering Canada via Canadian ports.

In reply Hon. G. P. Graham, acting minister of railways, intimated that Sir Henry Thornton and the National Railways Board had in mind the development of Canadian ports, but their difficulties were not announced further than that he would later submit to parliament what was proposed for the management of Canadian ports, and it was a policy which Mr. Graham felt confident would be eminently satisfactory to the House and the country.

Mr. Baxter returned to the question of keeping the railways out of politics. In so far as policy was concerned, he believed it was impossible for Parliament to make any part of the country had fair treatment and that the C. N. R. would meet the aspirations and needs of every province. He asked if there was a national railway policy. A national railway could not be made of rails, ties and rolling stock alone. There must be a national spirit behind it.

Be Further Developed. There has been suggestions that expenditures were proposed at Providence, Rhode Island. This would indicate that the National Railway's business in the United States ports was to be further developed. He could not thus far secure any official information on this. But the people were entitled to information. They should be informed of whether the policy of these railways are national or international.

The national system reached only Halifax and St. John of the eastern Canadian ports during part of the year. If there was a national policy which would see that every thing possible was done to develop those ports instead of allowing traffic to be diverted to ports in another country.

Miss Important Point. A return brought down in the House into Halifax that the Canadian National did not handle a single ton of grain into Halifax last year while the United States handled 17,000,000 bushels to Portland.

Hon. W. S. Fielding said that he was largely in sympathy with the remarks of Mr. Baxter, but he felt that the member for St. John had missed an important point. By acquiring the Grand Trunk Railway, Canada had acquired another maritime port. Were the rails to Portland to be allowed to become rusty in order that Halifax and St. John

TELLS DYSPEPTICS WHAT TO EAT

Avoid indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and moderation, and counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisulphate of Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisulphate of Magnesia, and it is widely used for this purpose. It has no direct action on the stomach, and is not a laxative. But a teaspoonful of the powder or a couple of green tablets taken in a little water with the food will neutralize the excess acidity which may be present and healthfully with-out need of peppin pills or artificial digestants. Get few ounces of Bisulphate of Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate, and in the bisulphate form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."—Adv.

CONGREGATIONALISTS' VOTE GREATLY FAVORS UNION

Secretary At Guelph Convention Reports Out of Eighty Churches Balloting, Seventy-Seven Have Expressed Willingness To Enter Affiliation With Other Institutions.

Special to The Advertiser. Guelph, April 12.—The morning session of the Western Association of the Congregational Church opened with a quiet talk on "The Lord's Prayer," by Rev. G. A. MacKenzie, Stratford.

Rev. Frank Sanders, president, was in the chair. Committees were appointed as follows: Nominations, Rev. W. G. Martin, Rev. G. A. MacKenzie, Mr. W. A. Allison; membership, Rev. J. W. Newberry, Rev. J. W. Mann, W. A. Hollinrake, K.C.; business, F. W. Robins, Rev. W. M. Cox, E. Eadie; resolutions, Rev. T. De Courcy Rayner, Rev. H. E. Storey, J. B. Waugh.

Freedom of Faith. Rev. Dr. W. T. Gunn, of Toronto, general secretary of the Congregational Union of Canada, addressed the association on the progress of church union. He said in part: "Jesus was more concerned about leaving behind Him on earth spiritual unity rather than ecclesiastical organization. There is no form of church government revealed in the New Testament as given by Jesus himself. The only foundation upon which spiritual unity can be built is freedom of individual faith and thought."

"As congregational union is a voluntary association of churches, it had no authority to act in the matter of church union," he said. "Individual churches expressed their desire, hence the present vote was being taken."

Reports have been received from eighty churches, seventy-seven voting to enter the united church. Of the remaining three, two were Swedenborgian churches, and one an association of their own national in the Western States. The only church so far to vote against union was a small country church.

Regarding the outlook for union, the Congregationalists are proceeding upon the assumption that the Methodist and Presbyterian churches will proceed to carry out their expressed intentions of entering the united church.

Elect Officers. The election of officers then took place as follows: President, J. E. Waugh, Stratford; secretary, Rev. M. T. Walker, Hamilton; treasurer, W. A. Hollinrake, K.C., Brantford; registrar, Rev. A. Mann, Scotland; home missionary representatives, Rev. Frank Sanders, Guelph, and C. B. Hamilton, Brantford; credentials committee, Rev. H. H. Jackson, Eganville; Rev. Dr. Hugh Pedley, of Montreal, was nominated as candidate for chairman of Congregational Union of Canada.

Revs. J. L. Alexander, H. E. Storey and H. N. Jackson were re-elected to the association, and Rev. J. Murray was transferred to the Quebec Association. The afternoon session opened with prayer in the chair. After devotional exercises, the membership should have business? When the government of that day acquired the Grand Trunk Railway, it acquired also a right to St. John and Halifax. The house adjourned.

The amounts and valuation of the ammunition received from Great Britain after the war together with disposal of these shells came before the house again today when estimates of the department of national defence were laid before the committee. The particular item was one of 325,000 for the Dominion arsenal, Quebec.

W. A. Boys (Conservative, South Simcoe) asked for a statement regarding the ammunition imported from England. Hon. G. P. Graham stated that a total of 169,000 rounds, valued at approximately \$3,000,000, had been brought to Canada. He had been advised by his chief of staff, however, that it was against the practice of war offices in a court-martial to state publicly what amount of ammunition was kept in the country and if he gave details as to how much this had been used he would be giving the information.

Mr. Boys asked if all the imported ammunition would not be used before it became useless in 1925. "Not at the present rate of consumption," the minister replied. The member for South Simcoe asked if the amounts then left would not be probably used.

J. D. Chaplin (Conservative, Lincoln) said the minister had given the full information of the last year. "Yes, and I was told that I had blundered. I was warned that I should not have given it," the minister stated. "The cabinet session held in Toronto last week, when the boys cabinet under the leadership of Milton Walker of London met to discuss the different topics of Tuxis work. He brought back with him a shield donated by the Ontario Boys' Work Board to be held by the square having the majority of points in Lambton county. Points will be given for attendance at church, badges earned, and for attendance at the weekly meeting."

The square having the largest number of points between April 8 and June 21 will receive the shield.

MUST GO BACK BEFORE DRAMA LEAGUE PLAYS

Arthur Holman, Actor-Producer, Has One Regret, Visiting Home Town.

Mr. Arthur Holman, third generation of the famous Holman family to make a name for himself in the world of stage, is spending a few days in town with his mother, Mrs. A. D. Holman.

Leaving the footlights to assume the role of producer of plays in New Haven, Conn., he laughingly remarked to The Advertiser that he is now strictly behind the scenes, no longer in the limelight, no longer appearing in the letters on play-bills in stellar roles.

"My name comes in small print now as producer," he said. "There is just one big regret in connection with this visit to his old home town, where he spent his boyhood days. He would like to see the beginning of next week, and that will prevent him from staying to witness the London Drama League production Monday and Tuesday evenings."

"My eye caught the ad in The London Advertiser on the way over from the railway from St. Thomas," he said, "and I immediately made up my mind I was going to see those plays. Then I saw the dates, and my teeth went right down. And that is no idle talk to be quoted in a newspaper, either. I mean it very sincerely."

"A few years ago when I was here, at the time they used to have the Earl Grey competitions, I saw an advertisement for the Drama League. I thought it was a very interesting thing, and I immediately made up my mind I was going to see those plays. Then I saw the dates, and my teeth went right down. And that is no idle talk to be quoted in a newspaper, either. I mean it very sincerely."

"I was very much interested to see London had a Drama League. It makes me proud to have had all kinds of fine things about the talent here, and extent of this talent here, and the splendid type of plays produced. It makes me proud that ever of my old home city. The program for these Drama League productions looks mighty interesting and ambitious."

Lambeth Epworth Club Appoints New Officers. Special to The Advertiser. Lambeth, April 11.—The local Epworth League held its annual election of officers Tuesday night. The officers elected were: President, Mrs. Holtby; first vice-president, Ross Sadler; second vice-president, Violet Trot; third vice-president, Hilda Earle; fourth vice-president, Orville Earle; Annie Sadler, treasurer; Thomas Mickleborough; pianist, Thelma Vanstone; assistant pianist, Aileen Jefferson; floral convener, Edna Routledge.

Wellington Considers Erecting New Bridges. Special to The Advertiser. Palmerston, April 12.—At the regular meeting of Wellington County council to be held during April, the chief item of business will be consideration of the bridge building program for 1923 which promises to be an extensive one.

One of the most important matters the council will have to handle is as to whether or not work on the proposed bridges on the town line between Proton and Leith and Normandy and Minto Townships, which it is estimated will cost over \$40,000, will be undertaken this year. In addition to the expense in building the bridges there will be a heavy outlay for a retaining wall and a fill.

J. Carmichael is Laid to Rest in London Tp. The funeral of James Carmichael, prominent London Township resident who died in Victoria Hospital Monday, was held from the family residence, 1014, on Monday, 10, yesterday afternoon, at Bethel Presbyterian church, after which interment was made in Decker's Cemetery.

Stratford Boy Scouts May Have Commissioner. Special to The Advertiser. Stratford, April 12.—Expectations that before long a Stratford Boy Scout Association will be established, with a district commissioner in charge, were expressed to The Advertiser today by Earl Davidson, field secretary of the Boy Scouts of Ontario, who was in the city for a short time conferring with Rev. S. A. McDonnell, local Scout master.

Study Home Hygiene. "Home Hygiene" was the subject of a most interesting lecture by Dr. C. B. Oliver at the regular meeting of the St. John's Ambulance Nursing Division, Chatham, this week. Mrs. G. A. Gray presided, and the members decided to hold another meeting in two weeks.

SASKATCHEWAN I.O.D.E. AGAINST IMMIGRATION

Will Not Encourage Bringing In of People Under Present Conditions.

Special to The Advertiser. Regina, Sask., April 11.—The provincial I. O. D. E. convention opened in Regina yesterday morning, with the president, Mrs. O. M. Balfour, in the chair. Fifty-two delegates are in attendance.

The activities of the order for the past year have been many and varied, including the raising of large sums of money. One chapter alone secured as much as \$9,600, the total for the province being \$62,998.

One thousand five hundred dollars has been given by the various chapters to the support of tubercular children in the Qu'Appelle Sanatorium. The next largest item was \$950 to fire relief in Northern Ontario. Considerable amounts have also been donated to relief work in Russia, educational work in India, to the Canadian National Institute for the Blind, and for aiding indigent tubercular mothers to secure treatment.

Four Canadian university scholarships have been established, and one overseas scholarship. A series of historical pictures, of great educational value, are being distributed to various schools in the province, each set containing a copy of the primary chapters to do the same.

They will not lend their support to the encouraging of immigration under present conditions.

Fall From Freight Car Injures St. Thomas Man. Special to The Advertiser. St. Thomas, April 12.—Slipping as he adjusted an air-brake on a freight car in the Pere Marquette yards Tuesday night, Norman Alexander, a yard conductor residing at 56 Chestnut street, fell from the top of the car to the ground, striking a severe shaking up. No bones were broken, but Mr. Alexander will be confined to his home for several days.

Will Permit Peroxide Sale in All Stores. Toronto, April 12.—After two hours' discussion the municipal committee of the legislature yesterday passed a bill whereby hydrogen peroxide may be sold at any store instead of the sale being confined to drug stores. The bill passed committee by a vote of 14 to 15. Opposition came from the druggists and drug manufacturers.

Lambeth Brotherhood Re-Elect All Officers. Special to The Advertiser. Lambeth, April 12.—At the annual banquet and election Monday night all the officers were re-elected. A lengthy address was given by Rev. Jefferson, and the Lambeth orchestra, assisted by Mr. Andrews of London, played several selections.

Ald. "Billy" Wants Taxes Increased

Ward Two Representative Asks Raise in His Assessment.

Ald. W. A. Wilson, ward two, is a real aspirant for the hall of fame. Listen to this: "How about the assessment department? Are they raising my tax this year?" he questioned at last night's session.

"We don't know," replied his conferees. "Well they raised it last year when I asked them and if they don't raise it this year again I'll ask them to as I am not assessed high enough." Curtain.

Put Larger Fire Hose on M. C. R. Yard Engines. Special to The Advertiser. St. Thomas, April 12.—E. R. Webb, divisional master mechanic, stated today that the switch engines in the local M. C. R. yards have been equipped with more efficient fire-fighting devices.

A new fire hose, much larger than the one formerly in use, has been installed on each engine. The device, Mr. Webb said, was used to fight fires either in the shops, yards, or cars along the line.

Organized 41 Years. Special to The Advertiser. Chatham, April 12.—The annual Easter Thank Offering service of the W.M.S. of Park St. Methodist church was held this week.

Mrs. Crews, wife of the pastor of the church, gave one address and spoke on "The King's Highway." She referred chiefly to the work done by Park Street W.M.S. organized 41 years ago, and paid tribute to the work of Miss Lola Clark, daughter of Mr. and Mrs. L. C. Clark of Chatham, who is a missionary at Kofu. The church was beautifully decorated with daffodils and ferns.

NEED PRE-NATAL CARE TO OVERTHROW GRIM REAPER

Note Emphasized At Annual Meeting of Child Welfare Association.

MISS POWER SPEAKS Congratulates On Splendid Results With Small Budget—Col. Gartshore President.

The supreme importance of placing pre-natal care in the infant clinics and pre-natal care in the infant clinics and pre-natal care in the infant clinics...

Miss Mary Power, chief of the child welfare division of the Department of Health, who had a prominent part in initiating the child welfare movement in London six years ago, made this the burden of her message in the close of her address, a prominent feature of the afternoon's program.

Announcement, which was greeted with appreciation was made to the effect that the Western Ontario Academy of Medicine has appointed a board of medical men to work in closest co-operation with the Child Welfare Association.

Revisiting the London Child Welfare Association, Miss Power expressed her great amazement that such remarkably good results had been achieved, the cutting of the infant death rate practically in two in five years, an astonishing bit of evidence, considering the very small financial outlay.

"It is almost unbelievable to think how much is being done," she said, "when it is known that the estimated budget is only \$6,000, and reference has been made here today to the value a car would prove to the worker."
