## KENTVILLE NEWS.

Dr. H. K. MacDonald, of Halifax, was in town yesterday. Don't forget the First-Aid Class in Advertiser Block this evening.

Mr. Pentz of Middleton, druggist, has been a guest of Dr. and Mrs. A. M. Shaw.

The young ladies of the town will meet for Red Cross work at the home of Mrs. M. Woodman, Friday afternoon.

Mr. Harold Pelton, who has been attending the Maritime Business College, Halifax, returned home Saturday.

Mrs. H. E. Burton, of Bridgetown has been spending the past ten days with Kentville friends.

Tonight there will be an Ice Cream Social and Band Concert in the vestry of the Baptist Church. A fine time may be expected. Admission 10 cents.

Mrs. Alex Ernest and little daughter of Mahone Bay are visiting in Kentville guests of the former's parents, Mr. and Mrs. A. B. Mennie.

Mr. H. L. Rudolphe has sold his farm at Sheffield Mills to Mr. Emmerson Taylor, and he and Mrs. Rudolph leave Wednesday for Brockton, Mass., where they will reside.

Private Arthur Lyons, of the 85th Battalion, who has been in Kentville for several weeks on duty in connection with the 219th Battalion returned to his company at Halifax Saturday.

Mrs. A. W. Covey of St. John accompanied by her little daughter, Miss Margaret, spent several days this week in town a guest at the Aberdeens. Mrs. Covey was en route to her former home in Dartmouth.

Corporal Harry E. Walsh of the 85th Battalion, N.S.H., Halifax, was in Kentville Monday on a short leave of absence, to visit his parents, Mr. and Mrs. R. B. Walsh, before leaving with his Battalion for Overseas.

The regular monthly meeting of the Kentville Board of Trade will be held Friday evening, 14th., at 8 o'clock in Town Hall. A full attendance is requested. Business matters of importance will be brought before the Board.

The regular monthly meeting of Kentville Fire Dept. will be held in the Dept's Room on Wednesday evening April 12th, 1916, at 8 o'clock prompt.

F. W. Crewe Bailey, Secy. Last week the Dominion Karakule-Arabi Sheep and Fur Co., Ltd., of Lawrencetown, paid its shareholders a cash dividend of fifteen per cent. The company has a number of shareholders in Kentville and Wolfville.

Mr. Hugh Sloan, who has been the efficient foreman of the newspaper department of The Advertiser for the last twenty years under its present publisher has enlisted for Overseas services and left yesterday for Antigonish. He has joined the St. Francis Xavier Band with the Hospital Corps and after a period of training the band will leave for the large hospital centres near the firing line in Europe. Mr. Sloan came to Kentville from Sackville in 1893 to assist Mr. F. H. Eaton, then owner of The Advertiser. In 1897 this paper was purchased by H. G. Harris, and Mr. Sloan was placed in the position of foreman. He is a most competent man and we feel that no one can fully fill the position he has vacated. His trip with the above band will be a chance of a life time to see many parts of Europe and help to cheer the wounded and sick soldiers in the hospitals. He has nobly answered to the call of the Empire as much as any other recruit. The best wishes of all go with him.

## KENTVILLE NEWS.

Mr. Manning is in town visiting his daughter, Mrs. Major Roop.

Mr. Frank Miller went to Kingston last week to spend a few days with his family.

Messrs Barclay Webster and A. E. Calkin were in Middleton on Tuesday last.

Major J. C. Ditmars of the 40th Battalion left for England on Saturday to rejoin his regiment.

Wanted—A capable maid for general housework in small family. References required, good wages. Apply at once at Advertiser Office. sw

Wanted at once—Help for Ladies Tailoring. Experience required. H. E. Bora, Ladies Tailor, Kentville. sw 31

Leghorns—Single comb white Leghorn eggs for hatching (Wicof famous laying strain). A few sittings at 75 cts. for 15. Hubert Lyons, Kentville. 1 a&ox

Some things you can get at the 5, 10 and 15c Store this week for FIVE CENTS: 3 yds. insertion, 2 yds. lace; 1 doz. dome fasteners; 3 yds. baby ribbon; 10 yds. lingerie tape; 3 pcs. tape; 6 Post Cards; 6 Easter bookmarks; 1 roll toilet paper; 2 mouse traps; 1 egg cup; 1 salt shaker; 1 pin tray; 2 papers pins; 2 doz. safety pins, and numerous other articles. Aberdeen Street, opp. Post Office. 1 a

## St. James Church.

The great event of this week will be the lecture, illustrated with stereopticon views by the Right Reverend Bishop White, of Honan, China, on Thursday evening at 8 o'clock.

This will especially appeal to all Missionary Societies of all the churches, and therefore a strong invitation is extended to all.

The Rev. J. D. Hull, Rector of Cornwallis, will assist by manipulating the lantern, etc.

As Bishop White will only speak in four places in Nova Scotia, Kentville is to be congratulated as being one of the places.

There will be a collection taken during the evening. Mr. Golden will give a demonstration of the Edison Diamond Disc Phonograph at 7:30 o'clock.

AN OPEN LETTER

To I. B. Oakes, Esq., President of the Kings County Liberal Association:

I have before me the Halifax Morning Chronicle of December 10th last, in which we have a report of the annual meeting of the Kings County Liberal Association held at Kentville the previous day, and in this report we are told that two resolutions were passed.

With the first one referring to Sir Frederick Borden and the promotion of Liberal principles I am in hearty accord. With regard to the second resolution I have somewhat to say. Why was it necessary to bring the subject of temperance before this meeting? Heretofore it always seemed to me that the association tried to avoid this subject. If my memory serves me correctly, at our last meeting for the nomination of candidates, a communication from the temperance alliance was totally ignored, they were not even given the courtesy of an acknowledgment of their letter. What has happened since then, to make our Association so much interested in temperance matters in the County?

As this resolution not only defends our Local Representatives in their treatment of me, but commends them for so doing, why was I not noticed that it was to be brought before the meeting, and an opportunity given me to be heard in the matter? Nothing would have given me greater satisfaction, than to have met these gentlemen before our Association, and Dr. Oakes from your professed friendship for me I would have expected this, but I have learned that with some persons at least, Party is the first consideration.

In the commending of our representatives, in this resolution by our Association, Scripture is verified, "Like people like priest."

Now Dr. Oakes is that resolution true or false? Has the illegal sale of intoxicating liquor in the County been lessened by my dismissal and the appointment of additional magistrates? I will leave it with those who are acquainted with the facts to decide as to the truth or falsity of this statement.

If our representatives were so much interested in the suppression of the illegal sale of liquor in the County, and they believed that I was not doing my duty as the magistrate before whom these liquor cases were brought, they certainly could have had these additional magistrates appointed without taking my commission from me, and could have used their influence to have had the liquor cases brought before the new appointees and my other work as justice of the peace would have been left to me, and I would not have to carry to my grave the stigma of having the small office of a justice of the peace taken from me, as being incompetent to hold the office.

In taking my commission from me without an investigation, which was asked for, I believe Premier Murray did something which was against his better judgment. His hand was forced by our representatives and if you think that the incident of my dismissal is closed by the passing of this resolution, you are much mistaken. The last word has not been spoken.

I know of at least one of our leading Liberals who refused to second this resolution, when asked to do so.

The action of the Association in this matter reminds me of what they tell us of the ostrich, namely, that when frightened, he sticks his head in the sand, and thinks all danger of discovery is passed.

Notwithstanding the fact that Mr. Wickwire, in his place in the House under cover of relationship and personal and political friendship, "knifed me under the belt," I am interested in his welfare, remembering the family connections I cannot be otherwise, and I want him to put himself right before the

people of the County, and in my opinion, the only way he can do this, is to publicly acknowledge that I have been wrongly dealt with. If this were done, the matter as far as I am personally concerned shall drop. He owes it to me, and still more to himself to do this, and let him place the blame where it properly belongs for being put in this unfortunate position.

Now I wish to say, that I was not dismissed because my judgment in the Rand case was wrong. No Government would dismiss an official for a wrong decision in a suit, and it has not been decided by any Court that my decision in this case was wrong. I was dismissed solely on the strength of the affidavits of Illsley and Harris, which I have said over and over again, and now repeat, were false. I never made the statement alleged in these affidavits. I am a victim of the liquor interests. I want you Dr. Oakes and the public generally to know this, and if you and they believe me, what do you think of the treatment I have received?

Those who voted for that resolution, "hold up their hands in holy horror" at the thought, that respectable conservatives should think of supporting Mr. deWitt Foster after as they say, he had taken graft in connection with the purchase of horses for war purposes, and yet they uphold men who attempt to injure one's reputation, and on such evidence as was used in my case, which deserves the most condemnation? I would ask you and those who voted for that resolution to put yourselves in my place and imagine how you would feel to have been treated as I have been. Perhaps there is no better way of judging rightly in a matter than by putting oneself in the other fellow's place.

EDWARD M. BECKWITH  
Canning April 3, '16.

A SURPRISED MINISTER

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomei, which brought complete relief. Hyomei has been a veritable godsend." Rev. Charles Hartley, Sardinia, Ohio. Thousands of catarrh sufferers have given up in despair. They have tried stomach dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable.

But J. D. Clark, druggist, holds out hope to all distressed. He sells a remedy called Hyomei which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup. Hyomei (pronounced High-ome) is medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ ridden membrane, it always the inflammation, kills the germs, and drives out the disease.

A complete Hyomei outfit, including a hard rubber inhaler, costs but \$1.00, and an extra bottle of Hyomei, if afterwards needed, costs but 50 cents. See J. D. Clark about it today.

Tool Chest Courtship

It is 'plane' that I love you, he began.

Is that on the 'level?' she asked.

Haven't I always been on the 'square'?

But you have many 'vices,' she remonstrated.

Not a 'bit,' he asserted.

What made you 'brace' up? she queried coquetishly.

The fact that I 'saw' you, he replied with a bow.

I ought to 'hammer' you for that, she answered saucily.

Come and sit by me on the 'bench,' he urged.

Suppose the other should 'file' in? she murmured. You should not let your arms 'compass' me.

I know a preacher who is a good 'joiner,' he suggested. And they rushed off for the license.—Building Age.

HARNESSING THE BAY OF FUNDY

Kentville, 31st March, '16  
Dear Mr. Harris:

Referring to your inquiry of a few days ago I may say that although at one time I took some interest in this matter that interest was rather more of a casual and speculative than practical character. Some 25 years ago, while the Kentville Electric Light and Power Company was being promoted, I had some discussion with Judge Chipman, Mr. P. Innes, Mr. Freeman, and possibly with one or two others, as to the possibility of utilizing the rise and fall of the Bay of Fundy tides for electrical purposes, but as I was neither an electrician, engineer, inventor or capitalist these discussions were barren of result.

It seemed to me then, as it has seemed to me ever since, and still seems, that ought not to be beyond the daring genius, the inventive faculty, the engineering skill and the constructive ability of man to conceive, formulate and develop a practical plan to release and harness the incalculably stupendous potential force imprisoned in the diurnal tides of Fundy, which rise and fall an average of 30 feet every 12 hours, and transform it into electrical energy which could be easily transmitted and distributed far and wide over immense areas, to stimulate manufacturing and industrial enterprise, and the manifold commercial activities of our own and coming times.

I confidently believe that the solving of this, at present, seemingly insoluble problem will be successfully accomplished in the not distant future, and that it will take rank among the great achievements of human genius. The synchronism of "the Hour and the Man" is now awaited. Can the hour by any fortunate chance be now? Can the Man be the gallant President of Acadia University, who at the call for his country has temporarily forsaken the quiet retreats and cultured leisure of Academe for the tents of Beldona and "the pomp and circumstance of war?"

Believe me,  
Yours faithfully,  
J. W. KING.

PRODUCTIVE ORCHARDING

By Fred C. Sears, M. S.

315 Pages, 155 Illustrations,  
8 vo. Cloth, Net \$1.50

Professor Sears is not only a successful teacher of the science of orcharding, but he has had charge of a large orchard for years, and has put all theories to the test of practice. His book will be a surprise to the average owner of orchard trees, whether these are an adjunct to the general farm, or form the grower's chief dependence for a livelihood. It not only gives the latest and most thoroughly tested knowledge upon the entire subject from selecting the land to marketing the fruit, but it is full of original ideas and helpful suggestions for making the crop pay after it is ready to be harvested. A complete guide to the orchardist who wishes to succeed in the business, and the farmer who needs a contributory source of income from his orchard trees, is the result, as the author looks at the problems from a solid commercial standpoint. The editor of this journal has received a copy of the above and it is one of great interest to all our readers. Prof. Sears was formerly at the head of the Horticultural Department at Acadia and while here was recognized as an authority. He has reproduced in his book much of the experience he has gained since he left our fruitful valley.

185th Loses Fine Quarters in Big Broughton Hotel

Sydney, N. S., April 6—The Broughton Arms, the principal building at the mining town of Broughton, where the 185th battalion is quartered, was destroyed by fire this afternoon. The building, which was a large structure, contained over 200 rooms, contained the hospital, officers' quarters, mess rooms for two companies and reception rooms.

The cause of the fire is not known but it is attributed to a defective chimney. It did not spread beyond the hotel.

The officers in particular were hard hit as their living quarters were burnt out and their personal effects destroyed. Most of the officers had just finished the purchase of their equipment and had it about installed when the fire broke out. Captain and Adjutant Jackson was an especially heavy loser, as in addition to his ordinary regimental belonging and uniforms his loss includes his medals and diplomas.

TRUE, ISN'T IT!

The suburban teacher had been telling her pupils of different wild animals. The last named was the rhinoceros.

Now, James," said she, name something that is very dangerous to get near to and that has horns.

Little James stood up and with much emphasis replied: Automobiles.

Loomer, thence easterly to the North River (so called) thence southerly by said River to lands of William Harris, thence westerly by said Harris land and lands of Harris Beckwith, Watson W. Ellis estate and said Jedediah Ellis to said Jedediah Ellis, north west corner, thence southerly by said Ellis land to the place beginning containing sixty acres more or less.

ALSO a certain tract or parcel of land situate in Cornwallis aforesaid and bounded and described as follows:—Northwesterly by lands of Benjamin Eaton, northwesterly by the highway, easterly by the Habitant River, southerly by lands of John and Zachariah Power and southerly by lands of Sylvanus Bishop containing sixteen acres more or less, and the buildings, hereditaments, easements and appurtenances to the same belonging.

TERMS OF SALE—Ten per cent deposit at time of sale. Remainder on delivery of deed.

FRED J. PORTER, High Sheriff in and for the County of Kings  
 J. FRANK OUTHIT, Solicitor for Plaintiff  
 Dated at Kentville, N. S., March 18, '16

1912. A. No. 1927

### In the Supreme Court

Between—MASSEY-HARRIS COMPANY, LIMITED, a body corporate, Plaintiff and JAMES ATWELL Defendant

To be sold at Public Auction by F. J. Porter, Esquire, High Sheriff in and for the County of Kings or his Deputy at the Court House in Kentville, in the County of Kings, on

**Saturday, the 15th. Day of April, A. D. 1916**

at the hour of ten o'clock in the forenoon: ALL the estate, right title, interest, property, claim and demand either at Law or in Equity of the above named Defendant, James Atwell, at the time of the registering of the judgment in the above cause in the Registry of Deeds for the said County; or at any time since of, in, or out of all that certain lot of land and premises situate at Melanson, in the County of Kings, and bounded as follows:—On the North by lands of William E. Anjerson, on the West by lands formerly belonging to the Stephen Allen Estate, on the south by the Allen Road, so called, and on the East by lands of William Morine, containing thirty-three acres more or less.

TERMS—Ten per cent at time of sale, balance on delivery of deed.

F. J. PORTER, High Sheriff in and for the County of Kings  
 BARRY W. ROSCOE of Roscoe & Roscoe, Plaintiff's Solicitor.  
 Kentville, N. S., March 13th, 1916.

## ANNUAL FLOWERING PLANTS

The annual flowering plants will give much enjoyment and add materially to the attractiveness of the home surroundings. Some of the hardier kinds may be seeded in the open ground as early as the ground can be prepared. The seed of the most varieties however, are very small and care is necessary in order to secure good germination. They cannot be put in deep and the surface must be kept moist until they start.

The Mignonette starts well if sown in the open. The seed is large and can be put in about one-eighth inch deep. The pretty annual Gypsophila elegans is fine for making up table decorations and starts readily from seed sown in the ground. The Sweet Alyssum and Candytuft are two low growing white flowers easily grown in this way. The Codetia starts readily also from seed sown in the open, as do the annual Larkspur. The Calliopsis drummondii of which the Golden Wave is a good variety will make a splendid show from early seeding. The Phlox Drummondii also comes on rapidly as do also the Swan River Daisy (Brachycome). The Sweet Sultan or (Centaurea Imperialis) should also be included. The everlasting flowers Helichrysum and Acrolinium are readily grown in this way also. The Dianthus usually called Pinks also should not be missed in this collection of hardy annuals for starting outside in case a hotbed to start the plants in not available.

It is well to keep in mind that the seed of the plants named above should be sown early in May as soon as the ground can be prepared, and that the only requirement is to keep the surface soil moist (not wet) until the plant becomes rooted. After this the ground should be kept loose by frequent stirring of the soil. It is better to sow the seed in rows made 6 inches apart. This row is best made by pressing the edge of an inch board into the soil about 1/4 inch and covering with soil to the required depth usually about 1/8 inch deep. It is well also to press the soil over the seed after covering. After the plants are well established they should be thinned to 4 inches apart.

Mention was not made of the different Poppies of which the Shirley Poppy is one of the best. The California Poppy (Escholtzia) should also be included.

It is well to keep in mind that seed of all the varieties named above can be collected in the fall from your own plants and in this way save the expense of buying fresh seed every year.

The Aster is one of our best flowers and we have grown some fine late blooms from seed sown in the open. It is however, advisable to start this seed in flats and plant to the open early toward the latter part of May to get good early bloom. The early branching varieties as a class are very satisfactory. The Queen of the Market is an exceptionally early variety. The Truffants Peony flowered are good. The Daybreak type are also advised. The Phlox Drummondii if started in a hotbed by the middle of April will give fine plants for setting out toward the latter part of May. This is one of the best fall flowering plants we have and keep in bloom late into the fall.

The Snapdragons (Antirrhinum) are liked by everyone and these can be started early in April and set out the latter part of May. The Semi-Dwarf varieties will be the most satisfactory. The Salpiglossis is also difficult to start except in the hotbed, although with care it can be grown in the open from seed. The pretty little blue flower Lobelia can also be started early in a box in the window or hotbed and later set to the open. This plant starts very slow and should be seeded early.

The Verbena is a rather low growing plant which produces abundant bloom in the fall. This should be started early in the hotbed to get early bloom. The

stock is one of the most satisfactory of our annuals and if for no other reason than for their delightful fragrance should be included. They are best grown by starting the seed about the middle of April and planting to the open after well hardened off early in June. The Cosmos is particularly desirable for effective planting and table decorations. Sow the seed as for Stocks and plant out as early in June as possible. It is desirable that this plant be started early in order to get early bloom.

A number of our annual plants require much more heat than those named above in order to start them properly. The Celosia one of the plants giving a variety of color in foliage and bloom usually is lost through the seedlings having been kept too cool, or the seed not having started owing to lack of heat. The Balsam, Castor Oil Bean, Zinnia and Nasturtium are all heat loving plants and it is useless to put in the seed too early although on a dry location these can all be sown in the open toward the last week in May. The plants however, if started in the hotbed are much better for early bloom.

We have neglected to mention the Petunia. This is one of the plants requiring plenty of heat and when warm weather approaches grows with great rapidity. Seed can be sown in the hotbed about the middle of the last of April and the plants set out after danger from frost is over.

The Hollyhock, Sweet William, Fox Glove, Forget-me-not Gaillardia and Canterbury Bell are all biennial and seed should be sown every year. The best way is to seed during August or as soon as the seed is ripe. Give the necessary protection and moisture and these plants will be excellent for bloom the next year. It is difficult to get bloom from such plants the first year, although by seeding in March in the hotbed this can be done. The above as well as pansies can best be grown in this way and the plants can be distributed in the following spring to where they are wanted. They can be covered in the fall with a light amount of straw to protect the crowns of the plants from freezing and thawing too rapidly.

## TEMPERANCE ADVERTISING

To the Editor of The Advertiser

Dear Sir:— I would like to ask the temperance people of Kings County why this would not be a favorable time to institute a vigorous campaign of temperance advertising? Or temperance education if you like to call it that.

True, we have, from time to time, excellent letters and paragraphs appearing in the press, advocating temperance and prohibition, and deploring the evils of intemperance. But what we now refer to is genuine, systematic, up-to-date, paid advertising. The kind that compels attention.

There have been some spasmodic attempts along this line lately some of them excellent, others, the efficiency of which might be questioned.

The liquor men have not been slow to grasp their opportunity and during late years have been carrying on a systematic campaign of drink advertising or drink education.

The time was when a liquor ad. would read something like, "10 barrels of Triple X booze just received," or words to that effect. That style is now about obsolete. The up-to-date ad. would run more like this,—"McGinty's Scotch Whiskey is a cure for consumption. Doctors recommend it." "So and So's Rye is good for nursing mothers" (nothing like training you know). Or again, "Rum is the salvation of the British Army, were it not for their daily grog, many men would die of pneumonia," etc., etc.

Liquor makers and sellers so kindly disposed toward the newspapers that they hand over their hard earned (?) coin without expectation of returns? I don't think so. I take it that a goodly chunk of the 175 or more millions spent in Canada for liquor comes to those interested through newspaper advertising.

And again, don't let any of us deceive ourselves into thinking that these ads. are read only by those who are looking for the goods. Our papers which display booze ads. also cater to the literary fancies of all ages including children.

Resolutions Passed at United Boards of Trade Meeting

The second resolution I was wrong to say. Why was I wrong to bring the subject before this meeting? I am sure that the association would have met these gentlemen for our Association, Dakes from your projected this, but I have had with some persons Party is the first commending of our resolves, in this resolution association, Scripture is "Like people like

Oakes is that resolution or false? Has the ill-intoxicated liquor party been lessened by the appointment of additional magistrates? We have it with those who have complete knowledge of the truth or falsity of the statement. Representatives were so interested in the suppression of liquor, and they believed was not doing my duty as a magistrate before whom liquor cases were held out. They certainly could have pointed without taking commission from me, I have used their influence to have had the liquor right before the new and my other work left to me, and I have to carry to the stigma of having the ice of a justice of the peace from me, as being sent to hold the office. My commission without an investigation was asked for, I remember Murray did something against his judgment. His hand was our representatives to think that the incident is closed by the passing of this resolution. The has not been spoken. of at least one of our liberals who refused to his resolution, when do so. The matter reminds me of the ostrich, that when frightened, his head in the sand, is all danger of disappeared. I ought to have standing the fact that twice, in his place in the under cover of a personal and political friendship, "knifed me in the back." I am interested in your welfare, remembering your connections I cannot be wise, and I want him to himself right before the

Spidell-Parker and Victory

Liberal-Conservatives Nominate Two Strong Men as Candidates

On Saturday the nominating convention of the Liberal-Conservative party of Kings County was held at the Nicklet Theatre. President Dr. G. E. DeWitt was in the chair and never before in the history of the County was there such a large representation of delegates from the different wards. The delegates and friends of the party completely filled the large auditorium, former conventions being held by both parties in the Court House which will not hold half as many people. The popular leader Mr. C. E. Tanner, was present and gave an address. He received a most enthusiastic reception and recited briefly many of the questions which have been before the public of Nova Scotia. He outlined the temperance work which had been accomplished. Everything that had been gained has been by little, and that on account of the indefatigable work of the Nova Scotia Alliance and its secretary, Rev. H. R. Grant, and the support of the Conservatives in the Assembly. Mr. Murray and his followers were opposed to the furtherance of temperance law all through the years until 1916, when a wave of sentiment for temperance had swept all over the Dominion.

He then contrasted the way Premier Murray now deals with temperance in refusing to take government responsibility for it. How different have conservative governments done under similar circumstances in Ontario, at Ottawa, and in British Columbia, where the governments are assuming full responsibility for the bills introduced. The Murry Government in their attitude want to have one leg on the temperance side and the other leg in the saloon, while conservative governments say they will enforce the law, but Mr. Murray says it cannot be enforced and would take thousands of detectives and constables to enforce. As this temperance Bill is likely to be come law, and the Government has refused to be responsible for enforcing it. Mr. Tanner said that when the Conservative Government come into power in Nova Scotia they will accept full responsibility for enforcing the law. Applause.

MILITARY NOTES

Lt. Col. N. H. Parsons has been appointed temporary Officer Commanding the 219th Battalion, N.S.H. Colonel Borden and party returned to Halifax and are busy making preparations to leave shortly with the 85th Battalion N.S.H., for Overseas. Lieutenant-Colonel Day has also arrived in the City. The 51st Battalion of Edmonton, Alberta, arrived in Halifax, Friday afternoon en route Overseas. This Battalion has been mobilized fourteen months. It is the oldest Battalion in Canada, and one of the very finest. In the casualty list issued

said the money was for labor and supplies, but could show no proof that it was for labor, but on the contrary, that Mr. Wickwire's statement was untrue. Mr. Tanner said he wanted to assure the people here that we are going to clear up the ground as we go. We have made a good start in Halifax, and we feel sure we will make a great sweep in the coming election. He hoped there would be two liberals left in the house so that they would know how it felt to be alone as he and Mr. McLeod were for five years between 1901 and 1906.

Mr. Tanner then urged strenuously upon the party united and aggressive work. He knew from this great convention that the Conservatives here were ready and eager for the contest. He referred to the Attorney General and his connections with the Mills concern, the misappropriation of road funds, and several other questions. The following resolutions were then put to the meeting and carried: Resolved, that this convention records its enthusiastic appreciation of the services performed by the Conservative Opposition in the House of Assembly and its hearty approval of the stand in support of temperance legislation.

Further resolved, that we express our confidence in the integrity and ability of C. E. Tanner, to whom as the next Premier of Nova Scotia we tender our continued loyal support. The second resolution which was passed was: Resolved, that this convention of the liberal conservative party of the County of Kings, take this opportunity to record its unbounded confidence in the leadership of Right Hon. Sir Robert Borden and to express its admiration for his masterly administration of the affairs of the Dominion at this time of unparalleled stress and trial.

The convention then proceeded to the selection of two candidates. The first ballot resulted in the selection of Lieut. J. D. Spidell, of Kentville, and Fred L. Parker of Berwick by a majority of the votes. N. W. Eaton and J. E. Knehan also received a number of votes. On motion of N. W. Eaton, seconded by J. E. Kingsman, the nomination was made unanimous amid hearty cheers. A short but spirited address by Lieut. Spidell, accepting the nomination and other addresses by B. Webster, Dr. DeWitt, and T. P. Calkin, closed the meeting. The feeling here is that two very strong candidates have been selected who can carry the Conservative banner to victory.

from Ottawa, on the 9th inst. Corp. Charles H. Slaenwhite of Mahone Bay, N. S., is reported "Killed in action."

The following are among the casualties to Nova Scotians reported since our last issue: Pte. Arthur Stanley Davis, admitted Etaples hospital March 27th, wounded severely in back; privates Edwin Beacon and William S. Mills, Amherst killed in action; R. Walters, Upper Kennetcook, wounded; pioneer Michael C. McLellan, New Waterford, wounded; William B. Bell, Halifax, killed in action; private Guy P. Harnish, Laquille, wounded; pioneer Duncan K. Moore, Sydney, wounded; Angus McNeill, Grand Narrows, seriously ill; Harry McLean, Amherst, wounded; private Sydney Anderson, Stellarton, wounded; pioneer Joseph Gillies, Ashmore, Digby wounded; Stuart Graham, artillery, Wolfville, wounded.

Kentville Town Council

The Town Council met in special adjourned meeting on April 3rd with all the members of the Board present. Councillor Newcombe reported that a communication had been received from Windsor in reference to Manual Training and Domestic Science and on motion the Council decided to continue these services for the present.

On motion it was resolved that the sum of \$1200 be placed in the estimates for Streets and \$600 for Police and Nova Scotia Temperance Act for 1916.

The Council requested the Street Committee to wait upon the Kentville Electric Light Co. and make arrangements in reference to change in street lighting.

The estimates were further discussed and consideration of an increase of the dog tax and poll tax.

Council adjourned. April 5th... The regular meeting of the Town Council was held on Wednesday evening last, the Mayor, all the Councillors, Recorder and Deputy Clerk were present.

Monthly Reports.

Streets—Chairman Newcombe reported expenditure of \$69.52 for the month or \$230.53 to date. The recent heavy snow storms would cause an extra expenditure of \$150.00.

Water—Chairman Hiltz reported an expenditure of \$85.07 or \$188.09 in all.

Finance—Chairman Caldwell reported that there was yet due of 1915 taxes the amount of \$2,486.83 and the Bank overdraft is \$5,182.54.

Schools—Chairman McBride reported expenditure of \$619.20 or total for this year of \$1,947.28.

Police—Chairman Lamont reported Ritchie making a disturbance, fined \$5.00, paid; Morse, drunk on railway platform, fined \$10.00, paid.

N. S. Temperance Act—Inspector Davis reported the collection of two outstanding fines of \$108.90 against W. Sharp. All reports were received and adopted.

The Street and Lighting Committee were given an extension of time to report on light on School Avenue.

On motion the request of petition for street crossing on Main Street near the residence of Mrs. R. Masters was granted.

A number of bills were read, fully considered and ordered paid. A bill of \$30 from Hiltz Bros. for basket for pauper service was reduced to \$25 and suggested that in the future the sum of \$10 or \$15 be the highest to be paid for similar service. This was an occasion when Hiltz Bros. had not time to order a cheaper basket.

After some further consideration of the estimates it was resolved on motion that the estimates for the year be fixed at \$2 per \$100. Coun. Lamont and McBride considered that according to the estimates passed a rate of \$2.20 would be necessary to pay our bills.

On motion it was resolved that the assessment interest rate for sewers be 10 cents per hundred for the Central District and 18 cents per hundred dollars for the Eastern District. The committee to revise the rate book was composed of Councillors Newcombe and Caldwell. Meeting adjourned.

### WINNIPEG MAYOR'S NOTE OF WARNING

Manufacturing, Rather Than Wholesale Selling, Necessary to Build up Community—Convincing Statistics

In a recent speech to the Canadian Credit Men's Association, at Winnipeg, Mayor R. D. Waugh gave some very interesting statistics showing the deterioration of Winnipeg as a manufacturing centre. No one can accuse Mayor Waugh of being an exponent of protection or interference in manufacturing enterprise; he simply spoke as the civic head of the greatest city in Western Canada—as a business man, who analyzes a source of economic loss to his community.

The mayor stated he might be too optimistic, yet he ventured the opinion that we in this favored land of Western Canada had passed through the critical period in the great economic crisis which the world is experiencing. He trusted that this period in our history would be the beginning of a new era of sane productive development of our great natural resources and possibilities. The promotion of manufacturing interests is one of the live topics of the day, and in this connection his worship gave the following facts and figures. These figures refer to the manufacture of goods in Winnipeg, and the importation of goods into Winnipeg, comparing the past two years:

1914	1915
Output of...	25% loss
Mfrs. ... \$ 43,000,000	\$ 32,000,000
Lab. hands 18,000	12 to 14,000
Wages ... 10,000,000	7,500,000
Imp. goods 140,000,000	.....
Total goods maa. and imported 183,000,000	.....

**Working Day and Night**  
It is a known fact that Eastern factories are working day and night to keep ahead of orders. Compare, for a moment, the citizens of Montreal, Toronto and Winnipeg, considering the estimated population, in 1914 and the value of manufactured products in 1914, and how much this amounts to per one hundred thousand population:

1914	Manufactured	100,000
Population	Products	Population
Mon. 650,000	\$300,000,000	46,000,000
Tor. 450,000	200,000,000	44,000,000
Win. 200,000	43,000,000	21,000,000

This clearly shows that Eastern manufacturers are increasing their output tremendously per 100,000 population, while in Winnipeg we show a large decrease as compared with 1914. As closely as can be estimated Winnipeg will not average \$16,000,000 worth of manufactured goods per 100,000 people, or \$5,000,000 less than in 1914. In that year it was estimated that Winnipeg manufacturers employed approximately 18,000; in 1915 fourteen to fifteen thousand at the outside. Wages of the workers consequently will decline from \$10,000,000 to a little over \$7,000,000, with a corresponding decrease in the purchasing power of the individual.

In 1914, Winnipeg imported goods to the value of \$140,000,000. This makes a total of manufactured and imported goods of \$183,000,000. "If," said Mayor Waugh, "we could manufacture one-half of this amount in the city of Winnipeg, it would make a payroll, on the basis of these figures of approximately \$22,000,000, and instead of employing 18,000 people we would have over 40,000 at work in our factories."

**Buy Home Products**  
"Most of the food products made in Canada are manufactured under a government standard. Therefore, the goods made in Winnipeg are just as pure as those manufactured anywhere in the Dominion, furthermore, they are decidedly fresher and have less shrinkage, from the consumers' standpoint. If we are to be a greater commercial centre we must develop our manufactures and support our manufacturers by purchasing home products whenever possible."

These figures clearly indicated that we are unconsciously endeavoring to construct a warehouse city. We import \$140,000,000 of goods in a year—not for the consumption of Winnipeg, be it remembered, but for transportation and re-sale to the urban and rural population of the Canadian West. That the vast proportion of this great Western order is not made in Canada would seem evident. Comparison is at times a useful factor. In Western Canada we have neglected manufacturing and the

building of the home market, consequently we must decrease the population of our cities, for the factory workman, if he can, follows the job.

**Tariff and the States**  
A protective tariff has made the United States the wealthiest nation in the world. Doesn't it seem foolish to destroy the source of our national prosperity by turning it over to all the other nations of the world?—(Exchange.)

### SIGNALS OF DISTRESS

**Kentville People Should Know  
How to Read and Heed Them**

Sick kidneys give many signals of distress. The secretions are dark, contains sediment. Passages are frequent, scanty and painful. Back ache is constant day and night. Headaches and dizzy spells are frequent. The weakened kidneys need quick help. Don't delay! Use a special kidney remedy. Booth's Kidney Pills cure sick kidneys, backache, and urinary disorders. Kentville evidence proves this statement.

James Foster of Gaspereau, N. S., says:—"For several months I had been very much troubled with lame and sore back which inconvenienced me very much in working. The pains in my back were so severe at times that I would have to stop my work. The kidney secretions had also been highly colored and contained a heavy sediment. I had tried various remedies to relieve me but without receiving any benefit from them. I then learned of Booth's Kidney Pills through an advertisement and procured a box at J. D. Clark Pharmacy and found in them almost immediate relief. Today I feel as if I had a new back as it does not trouble me in the least. The kidney secretions have disappeared and I feel better generally. Sold by Dealers. Price 50 cents." The R. T. Booth Co., Lt. Fort Erie Ont., Sole Canadian Agents.

### Frightfulness of German Warfare

Rev. Dr. MacDonald, editor of the Maritime Baptist, but who is now a member of the 5th Field Ambulance of the Canadian forces, in a recent letter home, tells an interesting story. He says that two German aeroplanes were brought down by the British guns. One fell in front of the Canadian trenches in "No Man's Land." Rather than let the men have the machine in good repair, they turned their machine guns upon it killing one of their own aviators and wounding the other. The wounded German was rescued from his own men by Canadians and when he regained consciousness he denounced his people and gave the Allies some valuable information.

### Another British Victory

London, April 6—The town of Felahie, in Mesopotamia has been captured by the British, it was announced officially today. All the positions gained have been consolidated, and counter-attacks by the Turks repulsed. Felahie is in Mesopotamia, below Kut-el-Amara, where a British force under General Townshend is beleaguered. It has been the scene of several engagements between Turkish troops and the invading British forces. This is the second victory of the British to be reported officially in the last two days. Announcement was made yesterday of the capture of Umm-el-Henna, on the Tigris, about twenty miles below Kut-el-Amara.

### Substitutes for the Bar

Calgary, Alta., March 30—The city of Calgary will establish municipal bowling greens, quail pitches and golf links. Mayor Costello in suggesting this action declared it was one way of providing a substitute for the bar.

### King George Makes Donation of £ 100,000 To the Treasury

London, April 2—King George has placed £100,000 at the disposal of the treasury. A letter accompanying the donation says: "It is the King's wish that this sum, which he gives in consequence of the war, should be applied in whatever manner is deemed best in the opinion of His Majesty's Government."

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

Acquirer who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The act of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C.M.G., Deputy of the Minister of the Interior

**NOTICE**

All bills due me must be settled by Feb. 1st, 1916. After Dec. 31st, 1915 all blacksmith work will be strictly cash.

**Rev. F. S. Porter, To Be Chaplain of the 104th Battalion**

St. John, April 4—Rev. F. S. Porter, pastor of the Germain Street Baptist Church, received yesterday the appointment as chaplain of the 104th Battalion. In regard to his appointment, he was called up to make a choice between the 104th and the 69th. Rev. Mr. Porter was very active in the recruiting campaign for the 104th. He has been given the provisional rank of captain and expects to take up his new duties within a fortnight.

Rev. F. S. Porter was born in Fredericton and received his rudimentary education at the Fredericton High School. After graduating from that institution, he served a term in the People's Bank, A. F. Randolph then being president, and which was later absorbed by the Bank of Montreal. It was there Rev. Mr. Porter received his commercial education.

He then entered Acadia University and graduated in 1906. He led his class for four successive years and captured the Nothar and Low gold medal for the highest general average in the entire college for three consecutive years. He also took the Keirboyce-Tupper medal in his junior year for oratory. He took both his B.A. and M.A. degrees at Acadia University and later attended Rochester Theological Seminary at New York, where he secured his Bachelor of Divinity degree. Following this he was at Liverpool N.S., for two and one-half years. In 1910 he came to Germain Street Baptist Church, where he has been ever since.

Since his pastorate at Germain Street the church has been in a most flourishing condition and the new institute which has been erected within the past few years was for the most part a child of his genius and executive power. He is a man beloved of his people and it will be with heavy hearts that they see him depart, although happy in the thought that he is eager to do his "bit" for King and country. He will leave behind him a wife and two small children and the sacrifice he makes is by no means small. It is nevertheless the desire of his heart to do his share in the defence of the empire.

Rev. Gordon Lawrence is at present the Episcopalian chaplain of the 104th, stationed at Sussex, and in all probability Rev. Mr. Porter's duties will take him to Fredericton and Woodstock.

**Dutch are Inclined Toward the Allies**

(By M. Holbert, Proprietor of the Amsterdam Telegraaf.) Amsterdam, April 7.—Ninety per cent of the Dutch favor the Allies. The Dutch people are essentially calm, but they were excited for a day or two after the sinking of the Tubantia.

The German concentration on the Belgian front has not worried the Dutch nation, but any movement of German troops on the eastern frontier would be taken seriously. Britain would be unable to land troops in Holland without saying "Choose between us and Germany."

An increase of duties for the army has been considered, but Germany has intimated that such an action would be taken as unfriendly. Holland has a neutral alliance, but perhaps she will join the United States in a protest against Germany's submarine campaign. She has been unable to take any action in the cases of the Turbantia and Palembang until proof has been received that the ships were torpedoed by the Germans. I think the war will last for eighteen months longer.

Printed and bound books for public weighing scales, with carbon and copying leaves sufficient for 50 weighings. Price 25 cents each or 3 for 70 cents postpaid. at Advertiser Office.

Minard's Liniment for sale everywhere.

**Household Linens.**

No housekeeper can ever have enough attractive linen for her table and her bedrooms. She may have enough for actual service, but it is wise to keep just a little ahead of the actual need in extra towels for guest room and bathroom. It is also advisable to keep a little ahead in the supply of linen for the table.

Every set of napkins and each tablecloth should have the housewife's surname initial or her monogram embroidered upon it. There is a question as to the proper place to put the initial or monogram, but the majority prefer the letter on tablecloths to be in the corner, where they will come just off the rounded edge of the table.

Napkins should have the initials in the corner or in the middle of one side, where they will be on top when the napkins are folded. Tea napkins are the only ones on which a wreath can appropriately be placed. It is quite permissible to place an initial within the wreath or other decorative motif. Tea napkins can also be finished with hemstitched or scalloped edges.

Some women may argue that they have n't time to put fancy work on household linen. This is a poor argument, for almost every woman has a few moments during the day when she sits down to chat with a neighbor or when she is waiting for the homecoming of her husband to his evening meal. It is during these odd moments that a great deal can be accomplished, especially in the way of fancy work. Pick up work is good for the nerves.

**MURRAY GOVERNMENT TAKES COLD FEET**

Pulling Wires to Manufacture Anti-Election Sentiment. No Longer "Trust the People"—Would Like to Dodge the People.

Amherst, April 5—It is quite evident that Hon. George H. Murray is abandoning his old time motto to "trust the people." Following a visit to Halifax last week of H. J. Logan and J. R. Douglas, of this town, a movement was launched to create a sentiment that might give an excuse to the Murray Government to try and get a further lease of life without consulting the people at the polls.

Mr. Logan got the executive of the Canadian Club to consent to call a public meeting here Friday night, at which he hopes to influence public opinion in favor of his scheme.

If this political strategy of Mr. Logan meets with any success here, the plan is to pull the wires elsewhere by Mr. Murray's political friends.

The movement is regarded on all sides as a confession that the local government anticipates certain defeat at the coming elections.

Provincial elections have been held in Prince Edward Island, and Manitoba within the past year, and elections will take place in Quebec and British Columbia this spring. As local governments do not carry on war, there is no more reason for putting off provincial than civic or municipal elections.

**The Badge of the King's Messenger.**

Captain Stanley Wilson, M. P., at the time of his capture on board ship by the enemy was carrying despatches as a King's messenger. In the bad old days when it was all in the game to steal despatches the messengers ran the risk of murder, but now apart from war conditions, they make their journeys like ordinary travellers, except their baggage is exempt from search at frontiers. At one time King's messengers wore uniforms, but now their only badge of office is a silver greyhound carried around the neck, but not always displayed. They receive a salary of £400 a year, with an allowance of £1 a day when on duty.

**Capt. Shaughnessy Killed in Action**

Montreal, April 2—Captain the Hon. Alfred Thomas (Fred) Shaughnessy, of the Sixtieth Battalion, second son of Lord Shaughnessy, President of the Canadian Pacific Railway, was killed in action in France Saturday morning by a shrapnel shell. Word to this effect has been received from Lieutenant Colonel Gascoigne, of the 60th Battalion, who stated that Capt. Shaughnessy had been instantly killed by shrapnel in action.

Captain Shaughnessy was born in this city twenty-eight years ago. He was connected with the Canadian Pacific Railway for some time, but for the past four years had been a member of the brokerage firm of Charles Meredith and Company, Montreal. He left a widow, who is a daughter of Judge Bradford, Nashville, Tenn., and two children.

**King Albert's Birthday**

April 8, the birthday of King Albert of Belgium is to be observed in St. John publicly. This is the result of a representation made by a number of ladies connected with patriotic work in the city to Mayor Frink. They asked him to endorse the proposal that on that day flags of the Allies, especially that of "gallant little Belgium" be flown wherever possible to make a collection for the Belgian relief fund on that day, but nothing of the nature of a tag day is to be attempted.—St. John Globe.

The London Times states that on his coronation day, Nov. 10, the Emperor of Japan was presented with a bible, printed in English and bound in white leather—the first English Bible, it is said, that has entered the imperial palace of Japan. It was the gift of 4,000 Japanese members of Christian churches in America.
