MORRISSY BRIDGE OPEN TO TRAFFIC

Repairs to the Morrissy Bridge were completed on Saturday. The draw span was closed and the bridge once more opened to traffic. Because of the accident, the bridge was closed to traffic for one month, and the residents of both sides of the river were put to considerable inconvenience. On Saturday night, the number of people in town was a marked contrast to that of the same evening during the month the bridge was undergoing repairs. Now that traffic is once more crossing the bridge, the merchants look forward to an increase in trade, and it is the unanimous opinion of all interests on the Miramichi, that immediate steps be taken, by those in authority, to see that more care is displayed in future, by those in charge of vessels going through the draw, so that a repetition of the accidents which have occurred for two successive seasons does not happen again. People on the Miramichi are sick and tired of having this bridge put out of commission and feel that those responsible should be made an example of and severely dealt with, so that more care will be exercised in future.

MILLBANK HEARS VERY ENJOYABLE ENTERTAINMENT

The lecture given in the Bethel church Monday evening Sept. 10th entitled "Birds of a Feather" and delivered by Rev. Thomas Harrison of Black River, proved one of the most enjoyable and successful entertainments that had ever been staged in that community. Rev. L.H. MacLean of Newcastle was chairman and the building was filled to capacity. The speaker gave an address that lasted an hour and a quarter and one that was replete with thrilling interest from start to finish. Interlarded with humor, it caught the risibilities as well as the earnest attention of his audience and one and all enjoyed it immensely. Another very enjoyable entertainer was Mrs. Waldo Crocker of Newcastle who gave four enthusiastically received elocutionary numbers. The thanks of the audience was suitably expressed in a standing vote moved by Mr. E.A. Murray of the church, and John Elder. The proceeds which go towards the funds of the church, amounted to \$50.

WHILE JUSTICE WAITS—Shall the poor go in tatters? Dustin Farnum at the Opera House, Friday and Saturday.

INTERESTING SERVICE AT DERBY ON SUNDAY

An interesting event in the history of the Presbyterian Church on the Miramichi took place Sunday afternoon when the corner stone of the new Ferguson Church, Derby, was laid with appropriate ceremonies. The new building is to replace the old historic Ferguson Church, in which the Presbyterians of that section had worshipped for the past eighty years, and which was destroyed by fire on April 11th last together with the residence of Hiram Manderville, in which building the fire originated and spread to the sacred edifice. The estimated cost of the new church, which is being erected on the old site, is between \$4,500 and \$5,000. The contract has been awarded to Tozer Bros. of Newcastle, who are now at work at the erection of the building.

A specially interesting service was arranged for Sunday afternoon to mark the laying of the corner stone. The service was conducted by Rev. W. McN. Matthews minister of the Millerton and Derby churches, who also gave a brief sketch of the history of the church and congregation. An address in keeping with the occasion was given by Rev. L. H. MacLean of St. James Church, Newcastle. The musical portion of the service was also of a fitting character, while a unique feature of the ceremonies was the performance of the solemn rite of laying the corner stone by the senior member of the Kirk Session, Mr. George Harper, who for the past 41 years has held the high office of elder in the Ferguson church congregation.

CALIS BABINEAU SERIOUSLY INJURED

Calis Babineau, employed at the Fraser Co's. Mill at Chatham Head was severely injured on Friday night. While engaged at his work, his arm was caught by the cog of the rotary carriage and badly crushed. Owing to the nature of the machinery it was some time before the unfortunate man could be released. As soon as possible, he was taken to the hospital at Chatham. His condition is considered serious. Mr. Babineau is about forty-five; his wife and two small children reside in Newcastle.

G. W. V. A. PLANS FOR POPPY DAY

The Provincial Great War Veterans' Association have completed arrangements for the sale of poppies on Armistice Day in districts outside of the city. The Red Cross Branch of Campbellton is looking after Restigouche County; Women's Catholic League of Bathurst will cover Gloucester county; while the Moncton Branch of the G.W.V.A. will have charge of Westmorland, Kent and part of Albert. Northumberland county is divided between the Chatham and Newcastle branches of the association. The Woodstock branch of the G.W.V.A. will have control of Carleton, Victoria and Madawaska. Fredericton branch will have a portion of York county, Sunbury and Queens counties and the MacAdam Junction branch will look after the territory near the junction. Charlotte county will be in the hands of three branches—St. Stephen, St. Andrews and St. George.

Verdict In Buckley Insurance Case

Judgment was delivered Thursday morning in the Supreme Court in the case of the L.W. Buckley estate and the Royal Bank of Canada versus the Liverpool & London and Globe Insurance Co., and others, an action for the recovery of \$108,000 in fire insurance. The judgement was a very lengthy one, reviewing exhaustively the evidence given and the law on many points concerning it, and was to the effect that the court found a loss of only \$24,882. The plaintiffs had claimed a total loss, placing the value of the lumber and laths burned in the fire which occurred some two years ago upon their premises near Newcastle, N.B. at \$112,000.

Insurance was carried by the plaintiffs with some twenty-three companies. In order to try the matter the action was taken against the above named defendant company with writs issued to the number of twenty-three against the others on the risk. In the case of the defendant company its policy was for \$15,000 and the plaintiffs claimed a total loss. The court awarded only \$3,455.83 as its share to be paid. Interest was refused, but costs allowed. Messrs. E. A. Reilly, K. C. of Moncton, H. A. Deane, K. C. of St. John's, M. G. Teed, K. C. of Fredericton, and J. E. L. Taylor, K. C. of St. John's were counsel for the defendants. The amount of \$112,000 was one of the largest in recent litigation in the province.

OPERA HOUSE

WEDNESDAY and THURSDAY

"Who are My Parents"

The William Fox Special

May safely be recommended to all screen patrons in search of clean, wholesome yet vivid entertainment. The story in itself is so human and appealing that it does not need the name of any well known star to make it a financial success. The cast is a perfectly balanced one and has been so ably directed by J. Searle Dawley that the entire performance of the picture is a source of fine entertainment.

The efforts of the father to prevent his daughter from marrying the man she loves starts a series of emotional complications that are brought up to a powerful climax. Humorous incidents of child life relieve the dramatic tension of the serious scenes.

Town Topics Tid-bits on the Tip of Everybody's Tongue

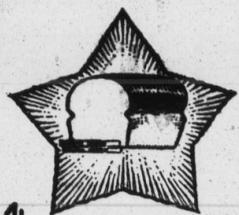

Vol. 1 No. 5 NEWCASTLE, N. B. SEPT. 18, 1923 FREE

A Tourist Tip:

An American visitor, who has been coming to Canada for holidays the past eleven summers, says he squares himself when he goes home by always bringing a five cent package of Moir's Chocolates.

and says he wouldn't be allowed back without them.

Canadians like Moir's Chocolates, Americans when they get the change, are crazy about them. A little girl was seen in the Halifax Public Gardens lately feeding the ducks. She had a can and a bottle of Moir's Chocolates and was feeding the ducks with them. Another boy was seen feeding the ducks with Moir's Chocolates.

If you want to excel in bread-making use **North West Flour** THE BREAD FLOUR

Milled from the finest hard spring wheat it has the unrivalled bread-making qualities which have made Canadian Prairie wheat famous.

For success with pies and cakes use **Sensation Flour** FOR CAKES AND PASTRY

"Sensation" is the ideal pastry flour. Milled from Ontario soft, winter wheat, it has the light delicate pastry qualities which no hard wheat flour can give. It is an economical flour too.

Let your next order for flour be; "North West" for bread "Sensation" for pastry

PUTS JAPAN'S LOSSES UNDER \$1,000,000,000

First Estimate Exaggerated, Says Insurance Expert

Experts now agree that the material losses in Japan, estimates of which have ranged as high as \$5,000,000,000 were grossly exaggerated in the first reports of the disaster which reached New York.

Secretary of Commerce Hoover has characterized a \$5,000,000,000 loss as "absurd" pointing out that industrial Japan was largely outside the devastated area. He prophesies that the great mercantile firms in Tokio and Yokohama will probably be in a position to re-establish their business within ten days.

The most exhaustive and what is regarded as the most accurate survey of the damage done has been completed by Howard P. Moore, general manager of the Foreign Insurance Association. Moore is back from a recent visit of several months to the principal Japanese cities. After delving into insurance reports, government year books, maps and other data he comes to the conclusion that the figures for damage to property by earthquake, fire and flood in Tokio and Yokohama should be put at \$843,213,750. He does not believe the total will exceed \$1,000,000,000.

NO EARTHQUAKE INSURANCE

Insurance in Japan is of comparatively recent origin. In the last big earthquake in 1855, no insurance of any kind was carried. According to Moore, the recent earthquakes and fires will also be a total economic loss without any insurance to act as a cushion.

Japanese companies saw from the beginning, says Moore, that it was impossible to get an average on earthquake business, because no obtainable rates on premium would pay the current losses and provide a surplus for the succession of earthquakes throughout the years which they learned was inevitable.

Practically all the insurance companies doing business in Japan are protected by clauses in their policies exempting them from liability for losses occasioned by volcanic eruptions, earthquakes, typhoons or any consequences of these occurrences. The entire losses, therefore, will have to be borne by property owners.

Goes To Campbellton Boy

The father of Charles R. Atherton Sussex, has notified the Lord Beverbrook Scholarship Trust Governors that he is in a position to provide for the education of his son and would be glad if some less fortunate pupil was given the award. The Governors have agreed that the scholarship be awarded to Harold S. Wilson of Campbellton. He is the son of a widow who is now earning a living for herself and family by nursing. It is his intention to pursue his arts course at Dalhousie.

GILLETT'S 100% PURE FLAKE LYE

This famous household cleaner and disinfectant is now made in *Crystal Flakes* instead of powder. It is the best household lye on the market. Use it for cleaning and disinfecting sinks, closets, drains, etc.; destroying vermin; softening water; making soap; cleaning floors, greasy pots and pans, etc.; removing paint, etc.

Avoid inferior and dangerous substitutes. Get the genuine article in cans as reproduced below.

"Friends" to Avoid

An old Persian proverb runs, "Think twice before you make an enemy, and thrice before you make a friend." True—even if we think that "twice" and "thrice" should be transposed. As a matter of fact, however, they are in their right places.

Most of us, before experience teaches us wisdom, take to ourselves friends far too easily. We continue the friendship because we don't quite know how to end it; but in our hearts we wish certain of our "friends" a thousand miles away—permanently!

There's the painfully "candid friend," for a start. He—or she—tells us of our faults, our defects, our shortcomings, and rules in hard all the things we know but would like to forget.

"I'm sure no one would tell you but myself, old man, but do you know you are getting fat?" Or when a new hat appears—"My dear, I know you don't mind what I say, but it doesn't suit you a bit: It would be all right for a girl of sixteen, but—"

Had I my time over again I would never have one of these candid friends. I've searched my memory and cannot remember when candid praise was given. It is always criticism. Candid friends are life spoilers. Keep them out of your life.

Then there's the easily offended friend. Never have a friend of that type. Or if you have any, seize the first opportunity of letting them go out of your life. They will age you, worry you, and make a slave of you if they remain. You will always be apologizing, explaining, smoothing them down, begging their pardons. Your soul will hardly be your own, for you never will be free to do what you like. They might be "offended!"

They are tyrants, and their tyranny grows worse the more you pander to their "touchiness." Get rid of them! Buy—as I did—a new hat, and tell them nothing about it. They are sure to be "offended;" and then let them remain so.

Finally, there's the "friend" who uses you when her real friend isn't available. "Uses" is the right word! You are in reserve—to be used as required. That type should be barred too.

Choose your friends carefully.

MARRIED

At the Manso, Newcastle on Wednesday, the 15th inst., by the Rev. J. H. ...

GLOOM DISPENSERS ARE TAKEN TO TASK

A call to municipal and provincial authorities to realize just how heavy a burden taxation is on industries was sounded at the Central Canadian Exhibition Directors' Luncheon by R. Percy Sparkes, president of the Canadian Association of Garment Manufacturers. He coupled his remarks on the subject with an optimistic speech on the commercial aspect of the country, as a whole, and decried the "whisper of death" propaganda and calamity howling that he said was being promulgated.

"So far as I have been able to ascertain there is no need for pessimism in this country; Canada is not going to repudiate her debts and industry is prepared to put its back into business and carry on." Canada's exports amounted to \$500,000,000 while home production of goods amounted to \$400,000,000 in value. It was a mistake to be pessimistic in the face of these facts, said Mr. Sparkes, as this country was bound to prosper commercially.

Mr. Sparkes emphasized that the 8,000,000 to 9,000,000 people living in Canada, were second to none, physically, mentally or morally and fully as capable as any, and, from a commercial standpoint, Canadian manufacturers could produce goods that would compete with the best in the world.

The problem of taxation was the biggest one facing these people, said Mr. Sparkes. Industry was really under a frightful burden by this taxation. He instanced the new sales tax whereby the country expected to reap about \$110,000,000 next year. To four clothing manufacturing establishments in Ottawa this meant roughly \$150,000 in one year in extra taxation.

LUXURIOUS STALL FOR THE CHAMPION

When Papyrus crosses the Atlantic to race the champion U.S. three year old, he will travel in a specially designed compartment on one of the lower decks of the liner Aquatania. This luxurious stall will be lined on all sides with huge air cushions in order that the Derby winner may make his ocean voyage in comfort, whatever the weather may be. Papyrus will even sleep on an air cushion, for his owner Ben Irish, believes that an ordinary bed of straw might not be comfortable enough for his great thoroughbred.

The colt's luxurious compartment together with accommodations for his trainer, attendants, food supply and special water tanks, will occupy space equivalent to the area of a dozen first class passenger in the same compartment. It is calculated that the cost of transporting the aristocrat of the English race track will amount to more than \$10,000. Bar Gold Papyrus' stable mate will make the

"I Had Terrible Backache From Kidney Disease"
Mrs. M. A. McNeill, Canaan Sta., N.E., writes:
"I was troubled for years with terrible backache, resulting from kidney disease. At times in each month I remained in bed, the pain was more than I could stand, and to walk was almost impossible. I used about \$50.00 worth of other medicines, but with little results. Now I am completely better, after using only five boxes of Dr. Chase's Kidney-Liver Pills."

BACK TO SCHOOL

The sound of the school bell is again heard in the land. The long summer vacation in which the young people have been storing up new strength and vigor is over. Many children will make their first entry to the schools, but what about the boys and girls starting into their teens? In this country where common school education is free, it does not make any difference how many are in the family, the opportunity to secure an education is open to rich and poor alike. This being so, it is unfortunate that so many, especially boys, drop out of school at from thirteen to fifteen years of age, just at the critical time in their lives and just when they have presumably laid the foundation for a liberal education. In some cases this may be unavoidable, but these are few in number. The average girl seems to be more diligent, ambitious and persevering than the average boy, so far as securing a good education is concerned. Many boys who wish to be considered good sports fail to measure up the very fundamental idea of a true sport—which is self-sacrificing effort. They do not play the game. They are not willing to endure the patient training and discipline necessary to make them athletes in scholarship, as they do make themselves athletes in sport. Many parents would have their boys continue longer at school but are met by a spirit of rebellion and unwillingness to respond to their wishes. Many such boys have lived to repent of their folly, when repentance was unavoidable. This is an appeal for every hesitant boy to be a sport, to play to most serious consideration concerning this all important matter. It is an appeal for every hesitant boy to be a sport, to play the game, to submit to the discipline year to welcome the training which will fit him for the higher prizes of life. There is always a demand for well-trained men, for disciplined men, for men who are willing to make sacrifices to win prizes. For shirkers, for dodgers, for truant players the world has little use. It is up to the teen boy to face this question honestly and seriously. If he does so and he has good sense he will Get Back to School.—Wesleyan.

A COUNTRY OF MUSICIANS

It is said that Wales is a country of musicians. Practically every body sings and nearly everybody plays a musical instrument. of some sort. This does not apply to the educated people alone. It applies to the population generally. Whether a man is a doctor, lawyer, college professor, business man, a miner or a laborer, he is more or less of a musician. This state of affairs has been brought about by a process of evolution. The children have received musical instruction in their schools for generation after generation, until the musical tendency is a characteristic of the race. It is doubtful if there is any place in the world where you hear more beautiful singing than you do in Wales and when Welsh choirs tour the world they are very popular in every place they visit.

Unrefreshing Sleep

If You Are Tired Out When You Arise in the Morning Read This

The woman who is tired out, who aches all over when she arises in the morning, who feels depressed most of the time, needs just the help that Dr. Williams' Pink Pills can give her—new blood and strong nerves.

The number of disorders that are caused by thin blood is amazing and most women are careless about the condition of their blood. Quickly the nerves are affected and the patient becomes irritable, worries over trifles, does not sleep as well as formerly and is not refreshed by rest. There may be stomach trouble and headache. This is a condition that calls for Dr. Williams' Pink Pills.

Give Dr. Williams' Pink Pills a fair trial and the first sign of new life will be noticed in your appetite. You will be hungry by meal time. As the blood becomes enriched it feeds and soothes the irritated nerves, sleep becomes sounder and more refreshing, your worries become less, your work lighter. These are some of the things that these tonic pills do. Try them for any trouble caused by thin blood.

You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

"Who Are My Parents?" A Big Emotional Film

Written by Anonymous Author, Story is Intensely Human, Appealing to all

Produced with a specially selected cast and every accessory in the way of settings, lighting and proper locations, the William Fox special, "Who are My Parents?" is said to be one of the most successful pictures of the season. The writer of the story is "Mr. X," whose first adventure in the field of screen authorship has met with signal success. So favorably impressed was the Fox organization with his first contribution to the screen that it immediately secured several more stories from him.

A keen knowledge of human nature and deep sympathy with the joys and sorrows of life have enabled "Mr. X." to construct a tale of love and suffering that hits home. The serious moments are cleverly balanced by touches of child life and humorous incidents introduced in the action.

J. Searle Dawley directed the picture. The cast contains the names of Roger Lytton, Peggy Shaw, Florence Billings, Ernest Hillard, Robert Agnew, Niles Welch, Aleksei Prince and Marie Reichardt.

DEMSEY RETAINS CHAMPION TITLE

Jack Dempsey retained his world's heavyweight title, knocking out Luis Angel Firpo, the Wild Bull of the Pampas, in the second round of one of the fiercest, fastest and most spectacular battles in the history of pugilism, at the Polo Grounds, New York, on Friday night. The champion floored his Argentine challenger five times in the first round and twice in the second round before a short uppercut to the jaw sent Firpo down for the last time. But in the three minutes and 57 seconds of whirlwind, terrific mauling, Dempsey himself once was knocked clear through the ropes on the press benches and groggy under a bombardment of mighty rights, once sank to his knees. Before Firpo went hurling down to defeat carrying with him the shattered hopes of a continent, he gave a vast, frenzied throng of 85,000 one of the most thrilling and courageous ring exhibitions of all time. Battered, bloody and groggy, he showed his marvellous stamina by coming back with a whirlwind, crushing drive toward the close of the first round that had the title-holder tottering, closer to losing his crown than at any time in his career. Firpo fought the best fight of his career. The challenger's mighty right was never mightier. Against the relentless power and versatility of the champion's furious attack, he went down, but in defeat he gained more glory than in any battle of his career. He was beaten but his menace to the heavyweight throne was not removed.

WHAT IS YOUR AMBITION?

Years ago it was every man's ambition to own a home of his own, now the aim is to own a car. The present growth of the automobile business has become a menace. People buy cars who can't afford to do so and should not buy them. The recent offer of the Ford Company to sell on installments is the worst yet. A man, who buys a car on the deferred payment plan is tied hand and foot from the start. In addition to making his monthly payments he must pay for his gasoline and upkeep and when his car is paid for, he has a second-hand outfit, worth little more than half of what he paid for it. If the same man, instead of buying a car had put his money into a home, he would be doing something worth while; something to be proud of; a real investment—but what's the use of talking; people "have got the bug to buy autos, and anything like sensible advice falls upon deaf ears."

DIM YOUR LIGHTS

Of the many car accidents that occur at night, it is safe to say that these could be averted through the exercising of a little care and common sense.

On almost every car is to be found a simple system for dimming of headlights. This system is on the car, not to look at, but for a purpose and is of great value when used.

When a car is approaching your machine in front it means greater safety for yourself and the occupants of your car, if your lights are thrown into dim, the other fellow doing likewise. If the road is not of sufficient width to effect a sure and safe passing, draw to a safe position on the right and allow the other fellow to pass. If you are signalled on, proceed. Take your time,—there is no hurry and even if you are in a hurry, you will get along much faster and safer if you use some common sense.

With an ever increasing number of cars on our highways, accidents will continue to occur, but the number of mishaps may be greatly reduced if more common sense and less accelerator, is put into the motor when cars meet and their drivers hope for an uneventful and successful passing.

Double-Ender and Driver.

In the passing of Charles Clarke at his Toronto home, the Canadian Pacific lost one of its oldest locomotive engineers. In the pioneer days of Canadian railroads, the late Mr. Clarke used to drive an old wood-burning engine known as a double-ender, and the engine on which he made his first run as engineer on the Canadian Pacific is shown above. He was born in England 76 years ago and started railroading at the age of eighteen with the old Midland line, joining the company from whose service he was retired about twelve years after.

Methodist News

The Scriptural question, "Where are the nine" with its note of reproach did not need to be asked last Monday night at Delphine Clark's home when the young ladies' Mission Circle met. The nine were all there and with Delphine made ten. They were there not only to pay homage to the Lord of all good life but in a missionary way to have a share in the far flung empire programme of Jesus.

Not many in Newcastle may know of his little organization and the splendid work done by it from year to year for eighteen years. A small bunch of girls that raise \$100 out of titling and little extra efforts in a year, because they have caught the vision splendid, deserve to be brought out of their obscure corner once in a while. Hence this note. It is as true as you live that the lack of recognition by the world can hurt a soul till it bleeds the glory of its life away and not always because there has been an ignoble desire for fame. Little obscure societies like this that meet quietly and make no fuss may be missed, or may be dismissed as unimportant and uninteresting by the large majority of folk whose craze for speed and fun, show and noise, but, thanks

be, the Almighty is the God of the obscure.

One of these young ladies got married last week, and so, locating elsewhere, will be much missed. Of that Campbell—Allison wedding we will let some abler pen describe the lovely union of two hearts, the bridal arch and the wedding march and all the rest of that fine nuptial celebration. Those who know these young women feel that their high interests and service of today are ensuring their future in choice and influential homes to be, and in community leadership of the highest type.

Next Sunday morning a special Recognition service of this Mission Circle is arranged for at the Methodist Church. It is going to be interesting! these ten and some more will see to that. The preacher is going to pass by some mountain characters of the old Book in that service and talk of a rose, a white, white rose of the Scriptures—Rhoda, a rose, in God's garden.

The evening service will follow on that, fittingly, with a talk on a woman whose girlhood and some other precious things had lamentably faded but one day she hears. Not the Whisper of Death, but the Trumpet of Life.

GOLD IN JAPAN

Japan has gold balances of approximately \$500,000,000 in the United States and London, according to reliable estimates made on Wednesday, and a sum of equal size in the Bank of Japan at Tokio. While the gold in the Bank of Japan is believed to be buried in debris, the vaults and their contents probably can be saved. With, perhaps, 1,000,000,000 in gold on which to draw, it is stated by bank-ers that Japan will not be seriously handicapped in a financial way, even if the proper loss should run into billions.

MILL SAW BILLS

We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

THE ADVOCATE

LIQUOR EXPORT

At a meeting of the New Brunswick government in Fredericton on Tuesday, an order-in-council was passed, abolishing liquor export warehouses. This action had been forecast in announcements previously made by Premier Ventor. It was not announced when the order would become effective, but it had been understood that the proprietors of the warehouses were to be given an opportunity to dispose of their stocks.

ADVOCATE OFFICE

PERSONALS

Mr. H.S. Tozer was a visitor to Moncton on Thursday.

S.J. Simpson was a visitor to St. John yesterday.

Mrs. Annie Cluston is visiting her sister, Mrs. Sarah Fowler.

Mrs. H.B. Cassidy is attending the Fredericton Exhibition this week.

Mrs. F.V. Dalton was visiting friends in St. John last week.

Miss Marion Reid of Amherst, N.S., is the guest of Miss Annie Bell

Hammond Atkinson has returned to Fredericton to resume study at the U. N. B.

Miss Edith Clark, accompanied by her sister, Margaret, has returned to Montreal.

Miss Blanche Teed of St. John is the guest of Mr. and Mrs. W. H. Teed.

Dr. and Mrs. J.A.M. Bell, were registered at the Dufferin Hotel St. John, yesterday.

The many friends of Lawrence Coughlan are glad to hear that he is recovering from his recent illness.

Miss Marguerite Hutchison is spending her vacation at her home in North Esk Boom.

Mr. and Mrs. A. Astle and Miss Constance Astle left to-day by auto to attend the Fredericton Exhibition.

William Campbell has entered St. Francis Xavier University, Antigonish, where he will take an Arts course.

H. P. Zinck, accountant of the local branch of the Bank of Nova Scotia is spending his vacation at his home in Chester, N.S.

Miss Beatrice Dolan left last week for Brooklyn, New York, where she will enter St. Mary's Hospital as a student nurse.

V. J. McEvoy and Charles Morris have returned to Halifax where they will resume their studies at Dalhousie University.

Mr. and Mrs. R.W. Crocker and family have returned from a motor trip to Andover, where they visited Mrs. Crocker's brother, Mr. C.H. Elliott.

Mr. Fred C.N. Parke of Bangor, Me., was in town yesterday renewing acquaintances. He left today by motor for Bathurst.

Mr. and Mrs. Robert Russell of Tomahawk, Wis., are visiting friends and relatives at Whitneyville. They are the guests of Mrs. Russell's brother, Mr. Alfred Sinclair. It is forty years since Mr. Russell left Whitneyville. He sees many more houses and homes along the river, but very little more cleared land.

John H. MacFarlane, formerly of Chatham, but now of Boston, intends visiting his former home and will sing in St. Luke's Methodist Church at both services, on Sunday, Sept. 23rd. Mr. MacFarlane only intends staying two weeks and his friends in Newcastle should take advantage of the opportunity of hearing him.

WEDDINGS

ASHMAN—McCOLM

A quiet wedding was solemnized on Sept. 3rd, at the Pro-Cathedral, Calgary, by the Rev. A.P. Hays, Archdeacon of Calgary, when Marion Gladys eldest daughter of Mr. John McCole and the late Mrs. John McCole of North Esk N.B., became the bride of Mr. Alfred Ashman youngest son of Mrs. Anne Ashman and the late A.W. Ashman of Radstock, England. After a short honeymoon spent in Alberta, Mr. and Mrs. Ashman will reside in Alaska.

ROBERTS—McCOLM

A quiet wedding was solemnized on August 14th at the Presbyterian Manse, Spokane, Wash., when the Rev. Mr. Kirkman united in marriage, Sara White McCole, third daughter of Mr. John McCole and the late Mrs. John McCole of North Esk, N.B. to Clarence Victor Roberts of Spokane, Wash. After a honeymoon spent in California and other southern states the happy couple will reside in Spokane.

VANSTONE—MURRAY

At the Presbyterian Manse, Newcastle at one o'clock Monday afternoon, Miss Katherine Murray, R.N. daughter of James W. Murray of Newcastle and Charles L. Vanstone son of Mr. and Mrs. James Vanstone, Chatham, were united in marriage by Rev. L. H. MacLean.

Immediately after the ceremony the happy couple left by motor on a wedding trip which will include Fredericton, St. John, Moncton and other provincial points. On their return they will reside at Gaspe Harbor, Quebec.

The bride has been for some time past, night supervisor of the Miramichi Hospital and the groom who is a former member of the Miramichi Lumber Company's office staff, Chatham, is now engaged in similar work with the Ste. Maurice Lumber Co, Gaspe Harbor, Que. Their many friends in Miramichi and elsewhere extend to Mr. and Mrs. Vanstone hearty congratulations and best wishes for happiness in their new life.

CAMPBELL—ALLISON

A very pretty wedding of much local interest took place at two o'clock Wednesday afternoon at the home of Mr. and Mrs. John R. Allison, when their youngest daughter, Susan Evangeline, and Quincy Elliot Campbell, son of Mr. and Mrs. Martin Campbell of Dorchester were united in marriage by Rev. A. W. Brown. The bride was given away by her father and looked charming in a gown of white duchess satin and radium lace, with bridal veil and orange blossoms. She carried a beautiful bouquet of Ophelia roses, sweet peas and maiden hair fern. She was attended by her niece, little Jean Allison, who, acting as flower girl was dressed in old rose and carried a basket of sweet peas and ivy. The ceremony was performed under an arch of ferns, ivy and cut-flowers and the room was artistically decorated. The wedding march was played by Miss Bessie C.P. Crocker.

Mr. and Mrs. Campbell left on the north-bound limited for a short honeymoon and on their return will reside in Chatham. The bride's going away costume was a brown suede cloth suit, brown hat with fox-tail plume and mink choker.

A large number of friends were assembled at the station to extend best wishes to the happy couple. Their many attractive gifts of cut glass, silver and cheques gave ample evidence of the popularity they enjoy. Among them was a substantial cheque from the Lounsbury Co. Ltd. with whom the groom is employed at Chatham. The groom's gift to the bride was a mink choker, to the flower girl a bracelet and to Miss Crocker a pearl brooch. The wedding guests included only

immediate relatives and a few friends. Those from out of town were Mrs. Martin Campbell and Miss Emma Campbell, Dorchester. Mr. and Mrs. Wm. McKenzie and two sons, Nelson; Mr. and Mrs. Henry Peters, Fredericton, and Miss Ethel Atkinson, Toronto.

Miss Whitney Safe

Word was received last week by Mrs. Moses Whitney, that Miss Elsie Whitney, who has been residing in Japan for the past two years, had arrived safely in California. It was feared that possibly Miss Whitney had not sailed from Japan before the earthquake on Sept. 1st. Her relatives and friends here were gratified when they learned that she was safe and had not experienced the awful tragedy of the disastrous earthquake.

Women Organists

So many women play the organ in church these days that it is surprising that none has as yet achieved any very great distinction, considering the lightness of the touch of the modern organ. Probably the first women to attain distinction in this field were Ann and Elizabeth Mounsey, two English ladies who lived in the first half of the nineteenth century. The elder of these, Ann Shepherd, held important posts in London, and we learn with interest that in 1843 she gave the first of six series on Classical Concerts at Crosby Hall, London, for one of which Mendelssohn composed "Hear My Prayer," for voices and organ, first performed January 8, 1845.

The younger sister, Elizabeth, was for many years organist of St. Peter's, Cornhill. Besides the organ and piano, we discover with some amazement she was also a virtuoso on the guitar, and appeared as a performer on the instrument in public. This is as bad as Dussek, the virtuoso pianist, who also played the musical glasses.

BLACKVILLE BRIDGE IS BEING REPAIRED

The Miramichi Foundry Co. of Chatham has been awarded the contract for repairing the steel bridge at Blackville, which was damaged in the freshet last spring, and the work is now being done under the supervision of Charles Raddock of the Miramichi Foundry Co's staff.

WOMAN SUFFERED FOR MONTHS

Weak and Nervous. Made Well by Lydia E. Pinkham's Vegetable Compound

Webbwood, Ont.—"I was in a very weak and run-down nervous condition, always tired from the time I got up until I went to bed. Sleep did not rest me at all. My sister recommended Lydia E. Pinkham's Vegetable Compound to me and others told me about it, but it was from my sister's advice that I took it. It did not take long until I felt stronger, headaches left me and my appetite came back to me. I am a farmer's wife and have many things to do outside the house, such as milking, looking after the poultry, and other chores. I heartily recommend the Vegetable Compound to all who have the same trouble I had, for it is a fine medicine for women."—Mrs. LOUIS F. ELSASSEN, Hillcrest Farm, Webbwood, Ont.

Another Nervous Woman Finds Relief
Port Huron, Michigan.—"I suffered for two years with pains in my side, and if I worked very much I was nervous and just as tired in the morning as when I went to bed. I was sleepy all the day and didn't feel like doing anything, and was so nervous I would bite my finger nails. One of my friends told me about Lydia E. Pinkham's Vegetable Compound, and it helped me so much that I soon felt fine."—Mrs. CHARLES EELER, 501-14th St., Port Huron, Mich.

Women who suffer from any feminine ailment should try Lydia E. Pinkham's Vegetable Compound.

HAS OLD EARTH BECOME FEVERISH

Does It Find Vent in Disturbances?

The recent catastrophe in Japan, following close on severe volcanic eruptions reported from various quarters has given rise to a theory that the internal heat of the earth is becoming more intense and is finding vent in the disturbances which have cost so many human lives during the past few months. Some of the scientists believe that the earth is getting feverish, and even suggest that it may finally again become a molten mass.

To ascertain the truth or falsity of this theory it is now proposed to take the temperature of the earth. The scientists have a special thermometer, to take the temperature of their giant patient. The bulb of this thermometer will be buried fifty feet in the earth, and the tube will be seventy five feet long.

By an arrangement, similar to that employed in the recording barometers to be seen in almost any optician's window a pen is made to trace a line on a piece of paper driven by clockwork. A very small change in the temperature of the bulb will move the pen up or down.

Four feet below the surface of the earth the temperature never changes more than a degree or so, winter or summer; at fifty feet down the hottest summer, and coldest winter will not have the slightest effect.

By a more ingenious device the new thermometer will only register changes that occur around the bulb, and those changes, if any, must arise in the earth itself. It will be no three minute business taking the earth's temperature; indeed, it may be a year before there is anything to show that it is really getting hotter.

If the earth is getting hotter, it is the belief of some scientists that it is the mysterious element radium that is bringing about the uncomfortable state of affairs. Enough radium has now been found to enable the men of science to make a rough calculation of the total quantity in the world. The result of this calculation is to suggest that there is more radium than the world can deal with.

Radium is giving out heat and energy all the time; and the world is losing heat all the time; but the radium is giving out more heat than the world is losing, so, according to the argument, the earth must be getting hotter.

Maritime Students Get Scholarships

The Imperial Order Daughters of the Empire have made awards of bursaries in the Maritime Provinces for 1923 as follows:

New Brunswick: Ralph H. McKee, Fredericton, N.B., son of G.H. McKee, 26th New Brunswick Battalion, who died in active service in 1925. Mr. McKee has attended the High School in Fredericton, where his record is good. He will enter the University of New Brunswick.

Nova Scotia: Elsie E. Maxwell, Halifax, daughter of Major Maxwell 64th Battery, C.F.A. who died on active service in 1917. Miss Maxwell has attended the Halifax Academy where her work has been excellent. She will enter Dalhousie University.

As there were no candidates in Quebec, and Prince Edward Island the bursaries have been awarded to Charles M. Jones, Dalhousie, N.S. son of Major Jones of the 132nd Battalion, J.E.F. Mr. Jones has attended the Superior School at Campbellton. Mr. Jones will probably enter the University of New Brunswick.

The bursaries are valued at \$1,200.

Why Youths Are Fired

If the average youth starting in on his first job realized that the odds were nine to one against his holding it he might become discouraged and if so he would probably be one of the nine. On the other hand if he had the right stuff in him he might insure his chances in becoming the lucky tenth. According to Mr. A.D. White, statistician, for Swift and Company, it is a fact that only one boy out of ten holds his job and he presents his analysis of the reasons for the fact.

The reasons are five—and every boy who has a job or expects to have one should check off these five and see which of them apply to himself.

- (1) Lack of sense of responsibility. He neglects work and lets somebody else do all the worrying.
- (2) Unwillingness to work hard. He arrives late and leaves early, takes extra time at the lunch hour, and wastes his employer's time in social and telephone conversations. He shirks hard or unpleasant tasks.
- (3) Lack of thoroughness. He is unwilling to master one thing before going on to another.
- (4) False notions of salary and promotion. He doesn't realize the truth that the key to promotion is to do more than he is paid to do. Instead, he expects to be paid for more than he does—which would ruin any worker.
- (5) This is shown by concealment of mistakes, untruthfulness and constant making of excuses. The youth who will avoid the errors here indicated will keep his first job until asked to take a better one.

Yours to Enjoy

"Thank God for Tea! What did the world do without it—how did it exist? I am glad I was not born before Tea."

Thus wrote the brilliant Sydney Smith in the early days of the nineteenth century, and countless thousands have echoed his sentiments since. But if Sydney Smith could so enthuse over Tea as it was then, what would he say of it to-day, when science in growing and art in blending have brought your cup of Tea to such a high point of perfection.

And what would he think of to-day's 'cost? At an incomparably lower price you are able to enjoy Tea of a deliciousness Sydney Smith never knew or imagined.

REDUCED TO PHYSICAL WRECKS BY ACTS OF GERMANS

Montreal, Sept. 11.—Evidence heard here recently before the war reparations committee revolved about two women who it was asserted had been reduced to physical wrecks by the acts of the Germans in torpedoing the Hesperian and Lusitania in 1915. Mrs. Thomas Harris of this city had suffered paralysis of one side from being on the Hesperian when torpedoed, and had been bedridden for the last two years. In respect of this and losses of personal effects by her husband and daughter, she claimed \$18,176. Mrs. WE. Edmond of Quebec was the second claimant and she asked the sum of \$30,000. Her doctor declared that she was now an "acute tuberculosis case" consequent of shock on hearing of the death of her husband on the Lusitania. Mr. Edmond was the purchasing agent for a firm of Quebec furriers and he annually made a trip to Europe in their interests. The claim included \$25,000 for loss of husband's support.

NOTICE OF SALE OF Real Estate for Taxes

Notice is hereby given that there will be sold at Public Auction in front of the Town Hall in the Town of Newcastle in the County of Northumberland in the Province of New Brunswick on Tuesday the Eighteenth day of September next at Twelve o'clock noon the several pieces of land and premises mentioned and described in the Schedule hereunder. The said sales will be made under and by virtue of warrants issued by The Town Treasurer and Collector and Receiver of Town Taxes of and for the said Town of Newcastle, delivered to me for execution under and by virtue of Chapter 166 of the Consolidated Statutes of New Brunswick, 1903 for the purpose of realizing the amounts assessed as in the said Schedule stated against the persons also therein stated for ordinary Town Taxes in the said Town of Newcastle.

SCHEDULE

Estate of the Late John Jardine: Assessments for years 1918 to 1923 both inclusive amounting to \$60.40; the lands and premises following, premises situate in the Town of Newcastle aforesaid bounded Northerly by Canadian National Railway Lands and the Branch therefrom leading towards French Fort Cove, on the lower or Easterly side by the Lawlor Lane so-called Southerly or in front by lands of James R. Lawlor and by lands formerly owned by the Late Thomas Herbert and on the upper or westerly side by the Homestead property of the Late Allan Ritchie: Ernest Mullin; Assessments for years 1913 to 1923 both inclusive amounting to \$332.95; the lands and premises following, namely: All that lot of land and premises situate in the Town of Newcastle aforesaid bounded Southerly by the King's Highway, on the upper or Westerly side by the property of Frederick E. Locke, on the lower or Easterly side by the property of Joseph Jardine and Northerly or in the rear by lands of John Hashey. DATED this Thirteenth day of August, A. D. 1923.

FIVE YEARS' AGONY ENDED

When He Took "Fruit-a-tives" For Rheumatism
The Medicine Made From Fruit
There can be no doubt that "Fruit-a-tives" is the long sought remedy for Rheumatism and Lumbago. From all over Canada come letters testifying to this fact. Mr. John E. Guilderson of Parrsboro, N.S. writes: "I suffered badly with Rheumatism for five years—tried different medicines—wastreated by doctors in Amherst—and here at home—but the Rheumatism came back. In 1918, I saw an advertisement for "Fruit-a-tives" and took a box and got relief, so I took them for about six months and the Rheumatism was all gone and I have never felt it since". 50c. a box, \$ for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

SCHR. HENRY FORD MAY BE CHOSEN

The Gloucester fishing schooners will race about October 12 for the honor of challenging for the International Fishermen's Cup, won last year by the Nova Scotia schooner Bluenose. This date has been tentatively set for the American elimination series, although the American race committee has not yet fixed its plans finally. The new Columbia, built early this year for a Gloucester syndicate is now on the banks salt-fishing, but Captain Alden G. Lee has promised to leave for home Sept. 20, in order to be ready for the elimination. The Henry Ford, runner up to the Bluenose last year, and winner of the Lipton Cup in the race held off Gloucester in August, in connection with Gloucester's 20th anniversary celebration programme, is regarded as another certainty for the elimination tests.

ASSERTS BRITISH NAVY GOING DRY

The British navy is going dry, according to Rear Admiral W. F. Ainsley, K.N.. "Things are very different in the navy now," Admiral Ainsley said. "When I first became an officer there were certain traditions to uphold. It was then a navy of hard men and hard drinks. But now water is coming into its own. "At the last naval dinner I attended most of the officers present drank the King's health in water." "I came over partly to see how Americans like prohibition," the former naval officer said. "I do not expect Scotland"—Admiral Ainsley is the head of a firm of engineers in Glasgow—"ever to go dry. But great headway toward temperance is being made through education. We are learning that much can be done by limiting the hours of the public house and by means of inculcating ideas and illustrations and the like. "For example, we tell the children how athletes train and how they avoid liquor and tobacco in training. We tell them that Peary discovered the North Pole on tea and sandwiches and that the first Pole on the same beverage—nothing carrying liquor."

\$200,000,000 LOSS FROM RATS YEARLY

Damage by rats to produce and property in the United States amounts to more than \$200,000,000 a year, according to estimates made by the Federal Department of Agriculture. This loss is apportioned so that all have to bear the burden, even those of sufficient public spirit to spend time and patience necessary to keep their premises free from the pest. Besides this damage, rats, the department states are carriers of disease. So far as known, rats serve no economic purpose, whatever, and they are, therefore, an unmitigated nuisance. It is explained that the only way of keeping down the plague is for co-operation by every person living in each community, because when left undisturbed they breed with almost "unbelievable" rapidity and use unceasingly their highly developed instincts at the ever-increasing expense of the householder, farmer, or business establishment harboring them.

Warship Will Visit St. John

Lieutenant Governor Todd has been advised by C. J. Desbaretts, acting Minister of Defence, of the proposed visit to New Brunswick of Vice Admiral Sir Michael Culver-Seymour, R. N., commander-in-chief of H.M. ships and vessels in North America and West Indies stations, who will visit St. John on his flagship H.M.S. Cape Town for a period of three days from Sept. 24 to 27.

HENRY FORD AT SIXTY

Mr. Henry Ford, the American, mobile "King," has just reached his sixtieth birthday. He tells his friends that he does not feel in the least bit old, and that he believes his life will extend well beyond the threescore and ten mark. In fact, he says, he is really just beginning to feel of some use to humanity. In his opinion, a man does not reach a stage where his judgement is sound until he is well into the fifties, and when he is in the sixties he can do his most useful work if his health is sound. For himself, he contemplates turning his main energies in future toward the harnessing of water power, which more than anything else will promote general employment, wealth and happiness.

LLOYD GEORGE TO SPEAK IN MONTREAL OCT. 6 OR 7

David Lloyd George, former Prime Minister of Great Britain will arrive in the United States October 5 and go direct to Montreal where he will deliver the first address of his American tour at Montreal on October 6th or 7th says a despatch to the New York Tribune from its Washington bureau. The Tribune claims to have come into possession of the official itinerary of "the little Welshman's" American tour.

How to make your skin fresh and clear

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap

Made in Canada

Every woman passes as pretty if only her skin is fresh, smooth and young. It is within the power of every woman to possess this attraction to make her complexion as beautiful as she longs for it to be. The secret? Cleopatra knew and practiced it in the days of ancient Egypt. She observed a daily ceremonious cleansing. The cleansers she used were the same you may have today, Palm and Olive-oils. These beautifying oils are scientifically blended in famous Palmolive Soap. They give it mildness, wonderful soothing qualities, prouise, creamy and refreshing lather. Cleansing with Palmolive is a beauty treatment in itself. No woman should say her skin is too sensitive to use soap until she has tried Palmolive. The attractive green cake, the natural color of the oils, is within the reach of every one who appreciates that cleanliness is the greatest beautifier. You can buy Palmolive Soap at all first class dealers.

Bathurst to Fredericton Sunday...
night, accompanied by Madam...
Veniot and his son, Francis, P...
Veniot, manager of the Veniot Phar-...
macy at Bathurst. The Premier...
was able to sustain a rate of twenty...
five miles per hour with a heavy...
car and he speaks in the highest...
terms of the highway improvement...
work being done in Northumberland...
County between Irenous and Boles-...
town.

KEEP TO ONE SIDE
It would be appreciated very much...
if teamsters and car drivers would...
discontinue driving in the centre of...
the King's Highway and other...
streets where new roads are being...
made throughout the town. If they...
would drive a little to one side in-...
stead of continually in the middle...
the road would become packed all...
over and a deep rut in the centre...
would thus be avoided and in con-...
sequence a better road would be...
the result.

PROHIBITION MATTERS
J.B. Hawthorne, chief inspector...
speaking of the general prohibition...
situation, said last week, that it was...
his intention to see that the prohi-...
bition law was enforced as strictly...
as it could be enforced and that...
vendors or others who took chances...
in evading the law would be invit-...
ing trouble. One St. John liquor...
vendor has closed his place of busi-...
ness and Mr. Hawthorne stated...
that there were a couple of other...
vendors in the city, whose business...
activities were being investigated...
and he would not be surprised if...
they should not continue as vendors...
for very long. He also said, there...
were a few others, in various parts...
of the province whose cases were...
receiving attention.

DOMESTIC SCIENCE CHANGE
A change has been made in the...
program of the teaching of domestic...
science in Harkins' Academy. The...
girls of grades six, seven, eight...
and nine will now receive this...
instruction instead of the girls of...
grades seven, eight, nine and ten...
as was formerly the case. The...
change was made so as to give a...
larger number of pupils the benefit...
of this instruction and to reach...
pupils who leave school early and...
who may have greater need of the...
training.

LESS TALK AND MORE WORK
Newcastle business men, as a...
rule, do not advertise enough. Many...
sit back and talk about poor busi-...
ness without trying to improve it...
If some would spend their idle mo-...
ments in making their stores more...
attractive, in cleaning up and doing...
some real thinking, followed by...
hard work, the results would prove...
more gratifying. Some people, who...
hardly spend a dollar a year in...
advertising, talk long and loud be-...
cause Newcastle people, attracted...
by snappy advertising, go out of...
town to do their shopping. No one...
can get away from the fact that...
advertising pays and pays well. It...
is only a question of advertising...
intelligently and keeping ever-lasting...
ly as it.
