ROBIN HOOD FLOUR

IS DIFFERENT

IT HAS ROUSED THE CURIOSITY OF THE WHOLE WEST

"Do you really think?" one housewife will say to another "that this new flour can be better than the flour we are using?"
Madam, there is no doubt about it. But there is just one way you can be convinced. You must use it yourself.
Our claims will not satisfy you, but we back up our claims in such a way that you will lose nothing by trying Robin Hood.
Your grocer will tell you about our guarantee which gives you back your money if you are not satisfied.

PLASMON COCOA

PLASMON COCOA differs from ordinary Cocoa, inasmuch as it contains 60 per cent. of PLASMON mixed with 40 per cent. of the best Cocoa, and is therefore 10 times more nutritious than any other Cocoa on the market.

The "Lancet" says:—"Plasmon increases the food value of Cocoa enormously. Plasmon Cocoa contains all the constituents able to support life. It is mildly stimulating, whilst highly nourishing."

The "Hospital" says:—"Plasmon Cocoa is an ideal Food, as it contains the best of all nutrients, namely, Milk Protein, Plasmon, and is a proper diet if we wish our children to be strong and healthy."

PLASMON COCOA may be obtained at the following stores in the city: Messrs. Ayre & Sons, T. J. Edens, James Stott, C. P. Egan and P. J. Shea.

Which Was The Heir?

CHAPTER VI. (Continued.) WERE you afraid when I didn't come last night, Ronnie? he asked, presently. 'I forgot a little about you, my lad—I forgot everything except one thing—'he sighed—'I'm sorry if you were afraid.' She drank in his softened tones, the expression of regret. 'No, I wasn't afraid—much,' she replied. 'Though it was rather lonely. And I didn't know where you were, or that something hadn't happened to you. You must take me with you, Geoffrey, next time you go off,' she added, lightly. He shook his head, and his lips closed on his pipe. 'No; I'm best alone at such times, Ronnie,' he said—'best alone. I get the blue devils sometimes, and when they've got possession of me they

drive me, as they did the man in the Bible, into the wilderness, where I can fight them off; or to the brand which helps me to forget them. But I'm sorry you were frightened, and I won't leave you again, Ronnie, if I can help it. I'll go down to the camp now.' 'Won't you rest a little?' she said. 'But he said that he would go down at once; he had been away too long; and, taking some of the birds for the men, he went off, Cottle saying that she would follow him directly. After he had gone, she sat down in his chair, with her head in her hands, and thought. Perhaps he was so unhappy because he could not get back to England. If so, then it was time for her to act. She found a small basket, and, with it on her arm, went down to the camp. Geoffrey, who had been received with a nod and a short greeting by the men, was already at work, and as she sauntered up, swinging her basket, she remarked casually: 'I'm going up the valley for some

YOUR BACKACHE WILL YIELD To Lydia E. Pinkham's Vegetable Compound. Rockland, Maine.—'I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends.'—Mrs. WILL FORGE, 6 Columbia Avenue, Rockland, Me. Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Care the cause of these distressing aches and pains and you will become well and strong. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women. Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

of those blue flowers to plant in front of the hut, Geoff.' 'All right,' he responded; and, taking no notice of Moser's grunt of disapproval, she went up slowly, and singing as she went, to the place where she had marked out her claim. With a piece of iron which she had secreted in the bottom of the basket, she dug up a few roots of gentian, and then seating herself on the boarder, as if in sheer laziness, she stealthily dug away at the surface. She was trembling with excitement, but she kept on singing in a careless fashion. Very soon she came upon what she sought, and placed the precious yellow lumps at the bottom of her basket, carefully covering them with the plants. Then she strolled half-way up the hill, and was making for the hut by a detour which avoided the camp, when she heard a shout. It had been uttered unwarily by one of the men, and looking down, she saw that they had thrown down their tools and had clustered round Geoffrey. At the same moment she heard him call up to her. She hesitated, but she knew that she would have to go, and she set down her basket; but it was too precious to be put out of her hand, and she took it up again and went down to the camp. The men were talking excitedly and examining something which Geoffrey held in his hand. It was a huge nugget. Geoffrey stood calmly holding it in his hand, the only person cool and unexcited; indeed, there was something like a moody bitterness in his eyes. Ronnie uttered a cry of delight as she gazed at the precious find. 'What does it weigh? What is it worth?' she asked. 'A couple of hundred pounds,' he answered. 'That's under the mark,' said Warner. 'There's likely to be more where that came from,' remarked Moser, eagerly. 'Let's get to work again! And you take a pick, young 'un, and do your share. What's that trumpety you've got in the basket there? Here, give it to me!' Cottle drew back and put the basket behind her, as Moser made an angry grab at it. 'Let him alone,' said Geoffrey, and in the excitement Cottle sheered off. She went up the hill, entering the cottage, shut and barred the door, and breathlessly dug a hole in a corner of the room. In this she deposited the gold, carefully filled in the hole and stamped it down level, and heaped some meagre bags over it. She returned to the camp, after planting the gentian outside the cottage, and, taking her pick, fell to work with the rest. It is needless to say they worked with even more than their usual eagerness; but they found no more nuggets that day. As they ceased for the evening, Moser, breathing heavily and wiping the sweat from his brow, regarded the nugget thoughtfully. 'We've got a pretty tidy pile together, Geoffrey, by this time,' he said; 'and I don't quite like the idea of having it in my tent. If the boys from Blue Pig were to come down upon us, they'd search the tent the first thing. I think you'd better take it up to that hut of yours; they won't think of looking there, even if they spotted the hut.' Geoffrey assented listlessly, and Moser went off to his tent, and, placing the nugget with the gold they had already obtained in a canvas-bag, bore it out with him. He took it and wished them good-night, and he and Cottle dragged themselves homeward. She was very silent, for she was possessed by the thought that Geoffrey might hit upon the same spot for the concealment of the camp gold; and her heart leapt to her mouth, when entering the cottage, he looked round for his spade, and, taking it up, went straight to her corner. 'No, not there,' she said, as casually as she could. 'Anyone would be sure to search the corners first. Put it in some other place.'

but she was greatly puzzled. Was it in England that he had killed his man, or don't that which had brought the black fit on him? CHAPTER VIII. NEARLY every day Cottle managed to convey some of the gold from the 'pocket' to the hiding place in the corner of the hut; sometimes she concealed the gold at the bottom of her flower basket, at others she brought it home in her pocket; and she contrived so cleverly that the men did not even suspect her. Fortune, with her traditional fickleness, sent her nearly all the luck; for the men were not doing very great things, and were growing slack, as they always do at gold diggings when the luck is turning against them. Geoffrey went off with his gun more often than before, or cut wood in the forest, or patch up the cottage. He had had no return of the black fit, and his face resumed its old cheerfulness and devil-may-care expression; here will then be less weak lungs and consumption in later life. Did you ever think of it in this way? It is the neglected cough and cold that leads to the dreadful lung disease sooner or later. From repeated attacks the lungs are weakened and they come pneumonia or consumption with their dreadfully fatal results. Because it is prepared from linseed, 'peppermint' and other simple but wonderfully effective ingredients, Dr. Chase's Syrup of Linseed and Turpentine is particularly suitable as a treatment for children's coughs and colds. Croup, bronchitis and even whooping cough yield to the influence of this great medicine. Mrs. John Chesney, Innerkip, Ont., writes: 'Dr. Chase's Syrup of Linseed and Turpentine cured my little boy of whooping cough when the doctor had given her up and since then we always keep it in the house as a treatment for coughs and colds. It is the best medicine we ever used.' There is no getting round statements such as this. Children's Colds Must be Cured

Children's Colds Must be Cured. Here will then be less weak lungs and consumption in later life. Did you ever think of it in this way? It is the neglected cough and cold that leads to the dreadful lung disease sooner or later. From repeated attacks the lungs are weakened and they come pneumonia or consumption with their dreadfully fatal results. Because it is prepared from linseed, 'peppermint' and other simple but wonderfully effective ingredients, Dr. Chase's Syrup of Linseed and Turpentine is particularly suitable as a treatment for children's coughs and colds. Croup, bronchitis and even whooping cough yield to the influence of this great medicine. Mrs. John Chesney, Innerkip, Ont., writes: 'Dr. Chase's Syrup of Linseed and Turpentine cured my little boy of whooping cough when the doctor had given her up and since then we always keep it in the house as a treatment for coughs and colds. It is the best medicine we ever used.' There is no getting round statements such as this. A Money Maker A Money Saver. A Singer Sewing Machine in her home enables a woman to economize in many ways. Helps to save dressmakers' bills and seamstresses' charges—its easy running saves strength, its quickness saves time—and there is never any cost for repairs, always necessary with the ordinary, thrown-together, dealers' machines. SINGER Sewing Machines are sold only at Singer Stores or by Singer Salesmen—never through dealers or under other names. Only Store in St. John's is at 339 Duckworth Street.

your luck, Geoff,' she said. 'Aren't you glad?' 'Oh, yes,' he said, suppressing a sigh. 'Not that it matter much to me.' 'Not matter!' she exclaimed. 'Why, it will help to take you back to England, won't it? I thought it was such a splendid place, and that you were dying to get back there.' 'Oh, it's all right enough,' he assented, moodily. 'It's a splendid place, as I said, for most men; but it's not much use to some others of us. And I am one of the others. We won't talk of England to-night, Ronnie, my lad; I've been thinking too much of it, and too much of my own fate lately. Let us have some supper.'

She dropped the subject, of course: 'That's under the mark,' said Warner. 'There's likely to be more where that came from,' remarked Moser, eagerly. 'Let's get to work again! And you take a pick, young 'un, and do your share. What's that trumpety you've got in the basket there? Here, give it to me!' Cottle drew back and put the basket behind her, as Moser made an angry grab at it. 'Let him alone,' said Geoffrey, and in the excitement Cottle sheered off. She went up the hill, entering the cottage, shut and barred the door, and breathlessly dug a hole in a corner of the room. In this she deposited the gold, carefully filled in the hole and stamped it down level, and heaped some meagre bags over it. She returned to the camp, after planting the gentian outside the cottage, and, taking her pick, fell to work with the rest. It is needless to say they worked with even more than their usual eagerness; but they found no more nuggets that day. As they ceased for the evening, Moser, breathing heavily and wiping the sweat from his brow, regarded the nugget thoughtfully. 'We've got a pretty tidy pile together, Geoffrey, by this time,' he said; 'and I don't quite like the idea of having it in my tent. If the boys from Blue Pig were to come down upon us, they'd search the tent the first thing. I think you'd better take it up to that hut of yours; they won't think of looking there, even if they spotted the hut.'

Are You Troubled with INDIGESTION

Does Your Food Distress You After Eating? **WOULDN'T YOU LIKE TO FEEL "GOOD AND HUNGRY"** every time you sit down to your meals? That's the way one should feel, but you never can unless your digestion is perfect.

The Remedy is

"JO-RI-CO" DYSPEPSIA TABLETS

Manufactured by The JOHNSON-RICHARDSON CO., Limited, Montreal, Can.

One of these Tablets taken about the middle of a meal, and one at the end, will digest your food perfectly. Digestion will not have been accomplished by these Tablets alone, as is the way with most Indigestion Tablets, but by their helping the stomach perform what it fails to do by itself. That's the splendid thing about these "Jo-ri-co" Dyspepsia Tablets. You don't "get the habit." They are not only an aid, but a cure for Indigestion and all Stomach Troubles. A trial proves it. 25 Cts. a Package, from Your Druggist, or Dealer.

The Evening Chit-Chat

By RUTH CAMERON

—teaching, needlework, taking boarders, work in cotton factories, typesetting and domestic service, women could now be found in all but two walks of life, which two are telegraph linemen and United States soldier or sailor.

And yet when you come right down to it, how very few women comparatively go beyond the beaten tracks. At college the commonest answer when a girl was asked what she was planning to do when she finished her course was, "Oh, teach I suppose. There doesn't seem to be much else to do."

School teacher, librarian, typist, stenographer or private secretary, musician, or artist, manicure or shampooist, telegraph operator, clerk, factory worker, waitress, or housework girl—how many women do you know who are not one of these things?

Very few I reckon. Therefore it seems to me that it ought not to be uninteresting if I devote this column occasionally to telling a few of the other things women can do and are doing in this world.

Percance I may convey a suggestion to some woman who has her living to earn and yet to whom none of the more beaten paths particularly appeal.

Beginning with April 10, 1910, a new census of the United States is to be taken, and the announcement has just been made by the census director that there is nothing in the act

providing for the taking of this census to prevent women from being employed as enumerators. For a woman who prefers trudging about in the open air to being cooped up in an office, why is not that a good opportunity for a year's outdoor work?

A unique position is that of Dr. Amy Tanner, who has been chosen to supervise the work of measuring and testing defective children at the Institute for child study, which has just been opened at Clark University.

Somewhat similar is the field of corrective gymnastics, which brings young women have been entering lately.

This work is the correcting of deformities by the application of the proper gymnastic exercises. It requires a gymnastic and semi-medical training and is very lucrative. I know one young woman who is earning \$1,500 a year at it.

Although very few women, of course, are fitted to follow in her footsteps, it may be interesting to womankind to know that Ruth Bryan Leavitt has been making good to a very remarkable extent as a lecturer. The title of her lecture is "A Pilgrimage Through Palestine," and so successful has she been that she had an offer from a lecture bureau of \$1,000 a week for platform work for next year.

I wonder if some among my readers are saying "My work is quite as unusual and interesting as any of these things." I hope so. Because I want to hear about it if it is, and I am going to ask any reader who has some unique vocation or business to find a moment to write me about it. Tell me how you prepared for it and if it pays.

Yes, I know you are busy, but wouldn't you enjoy a chance to talk in this column instead of always being talked to?

Almost Died of Malignant Tonsillitis.

Another Case Proving that Catarrhizone Cures When All Else Fails.

The case of Mr. James E. Barton, the well-known publishing agent, of Stratford, is most remarkable. For seven years he suffered from weak throat, treated with numerous physicians, used a score of remedies—but was not cured. Among the symptoms from which he suffered were: **Badness of Breath, Bronchitis, Nasal Catarrh, Hoarseness, Weak Throat, Croupy Cough, Frontal Headache, Sore Chest.**

For years I suffered from a chronic weakness of nose, throat and lungs. My chest was sore, my throat irritable, and I had a harsh, croupy cough that was always worse in the morning. During bad weather I was completely prostrated with Catarrh, bronchial irritation, and all the manifold discomforts of influenza.

"When I began using Catarrhizone a beneficial effect was noticeable at once. My breathing became free and easy. I slept better, my chest was eased, and the thick phlegm and coughing that made me so sick passed away. Once, when my son was threatened with malignant tonsillitis, Catarrhizone cured him in two days."

Catarrhizone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes.

To those in fear of changeable weather—those who easily catch cold—those who work among lung-chilling surroundings, or where dust, impure air, fog, or damp can affect them—let them get Catarrhizone and use it several times daily. Large size, sufficient for two months' use, guaranteed, price \$1.00; smaller sizes 25c. and 50c. Beware of imitations and substitutes, and insist on getting "Catarrhizone" only. By mail from the Catarrhizone Company, Kingston, Ont.

Intercollegiate Hockey.

The first match in the second round of the intercollegiate hockey games took place in the Prince's Rink yesterday forenoon, between the Fieldians and St. Bon's. There was quite a crowd of spectators present, and the game resulted in a walk-over for the Fieldians, who continuously bombarded St. Bon's goal. The latter team did not find the net once and the Fieldians won by the big score of 23 to nil.

ST. JOHN'S M. I. A. — An open meeting of St. John's Mutual Improvement Association will be held in the Congregational Lecture Hall this evening, commencing at 7.45. Mr. J. E. Ray, Canadian Trade Commissioner, will read a paper on Dr. Johnson and James Boswell. All are invited.

NOTE OF THANKS.—The family of the late Henry Gosse desire to publicly thank Dr. Duncaan, Miss Field (the matron), and Messrs. Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OR KNOWN COMPOSITIONS. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

Fads and Fashions.

Immense hairpins of tortoise shell, or small ones with curved tops, set with tiny brilliants, keep the hair in place.

A bright bow of velvet at the neck, either in contrast with or matching the suit and hat, will be worn this spring.

For evening, fewer jewels are seen, as the rich embroideries and spangles seem to be sufficiently brilliant by themselves.

Very pretty are the flowers of stiffened lace or great roses of gold or silver gauze, which are often the only trimming of a hat.

Many of the tailored suits have wide striped silks for their linings. Colored linings are more in vogue than for some seasons past.

All the odd shapes that were used in cloths and silks this winter are reproduced in linens and other washable materials for the coming summer.

On colored dresses, beads are usually of the same color as the material, the different shapes and sizes lending variety to ensemble.

Skating costumes entirely of broad-tail, seal or jaunty little Russian pony coats with velvet skirts, the latter very short, are the thing.

There is every reason to believe that black footwear is to be permanently modish this spring, and even in the ballroom black is worn in many cases. With the return to favor of the

three-quarter and elbow length sleeves, which are promised on the new spring modes, the long glove will again be worn.

Novelties in shoes of patent leather or black satin, covered with coars white net and ornamented with pretty net rosettes clasped with buckles of jet, are finding favor.

A new material of wonderful softness, thick yet featherweight, is Worumbo Polo cloth. This is intended for coats for golfing, for the seashore and mountains.

New parasols are shaped like a Chinese pagoda, with the ribs turning up at the outer ends. An ivory ring runs on a silk cord to keep the folds in place.

Pendants of dull enamel, of topaz, aquamarine or turquoise, set in quaint golden scrolls, or moonstones in silver, are the accompaniment of the tailored costume.

Hatpins are enormous, and are in the form of grasshoppers, gigantic beetles, bats and toads. Prettier are metallic ones, showing a half-blown rose in natural colors.

Turbans of Circassian or Arabesque design are made of loosely plaited fancy straw or raffia, folded and draped to imitate the familiar turban of velvet and fur of this winter.

Mottled and mixed effects are much in evidence, and many mannish suitings will be chosen for chic tailored costumes. The unfinished worsteds are to have a decided vogue in dark, soft tones.

BILLIARD MATCH.—Mr. E. Cooper won the handicap billiard match at the Star of the Sea Hall last evening, defeating M. King. The game will be continued to-night.

W. J. HERDER, Proprietor. . . . W. F. LLOYD, Editor.

St. John's, Newfoundland, February 24, 1910.

In the Assembly.

Yesterday Sir Robert Bond presented petitions from Peter's Arm on education; from Beaver Cove on roads; from Exploits for telegraph extension, and from Moreton's Harbour about a ferry.

The city dentists petitioned for an amendment of the Dental Act. Mr. Howley presented the petition which was sent to a Select Committee for consideration, made up of Mr. Howley, Minister of Justice, Mr. F. J. Morris, Mr. Kent and Mr. Clift. Other petitions were presented by Hon. S. Blandford from Salvage Bay seeking to be made a port of call; from Coward's Island for a ferry; from Greenspond and St. Brendan's about bridges, and from Fair Island about the seal-factory; by Mr. Devereaux from Arnold's Cove about education; from St. Bride's for a road, and from Lance Cove for a bridge.

Commercial Cable Company Contract.

In reply to the following questions the Premier read written replies. The questions and answers were as follows:—

1. If the Contract entered into between the Government of this Colony and the Commercial Cable Company, under date February 19th, 1909, has been repudiated by the Government?

ANS.—No contract was entered into; consequently, there could be no repudiation.

2. If not, is it the intention of the Government to take such action in the premises as may be necessary to carry out the said contract?

ANS.—This is answered by my reply to the previous question.

3. What are the present relations between the Government and the said Company in respect to the said contract?

ANS.—The present relations are simply these:—The alleged contract was perfectly valueless without the approval of the Legislature. Both parties to the alleged contract were aware of the fact. The present Government upon its accession to office, adopted the only course commensurate with the rights of the Legislature, and the interests of the Colony, and at the same time considered and straitforward towards the Commercial Cable Company. That is, when they became aware that the Commercial Cable Company was presuming upon the validity of an alleged contract without the sanction of the Legislature behind it; without the approval of the House of Assembly, which created a monopoly for twenty-five years; making free grants of Crown Lands and free rights of way over Crown Lands; agreeing to the remission of taxes provided by special Acts of the Legislature; and, notwithstanding the Revenue Acts, importing certain goods without payment of duties and, the Contract being one which the Government were satisfied was not in the best interests of the Colony, they immediately warned the Commercial Cable Company of the real nature of the situation. There was no repudiation. There was nothing to repudiate.

4. If the Contract has formed the subject of correspondence between the Government and the Secretary of State for the Colonies; and, if so, to lay upon the table of the House a copy of such correspondence?

ANS.—The Contract has formed the subject of correspondence between the Government and the Secretary of State for the Colonies, but it has not reached the stage when the consideration of laying it upon the table of the House can be taken up.

The House went into Committee on Resolution for the Encouragement of Woolen Manufactures in the Colony, by giving a premium of 5 per cent. on wool raised locally or abroad, which is manufactured here into apparel, blankets, rugs, carpets, etc. Woolen textile machinery is also exempted from duty.

The Premier commended the resolutions to the favourable consideration of the House. The Committee then rose and reported some progress.

On motion of Premier the House went into Committee on certain Resolutions on Education.

The resolutions provide that teachers holding certificates before April 1st, 1912, shall not be

LAI D UP FIVE YEARS

Until Half a Bottle of Father Morrissey's Liniment Cured His Shoulder.

Mr. Jos. J. Roy, a prominent tinsmith of Bathurst, N.B., July 16, 1909:—
"I cannot let this opportunity pass without letting you know what benefit I received from your Liniment. For five years I had a sore shoulder, which prevented me from working or from sleeping at night. I had tried everything possible and still could find no relief, until I was advised to try a bottle of your Liniment, which I purchased without delay. I only used one half of the bottle when I was completely cured, and now I feel as if I never had a sore shoulder. I would advise anyone suffering from Rheumatic pains to give your Liniment a trial, for I cannot praise it too highly."

A Liniment that will do that is the Liniment you want. It is equally good for sore throat or chest, backache, toothache, ear ache, sprains, sore muscles, cuts, bruises, burns, frost-bites, chapped hands or chilblains. Rub it in, and the pain comes out. 25c per bottle at your dealer's, or from Father Morrissey Medicine Co. Ltd., Chatham, N.B. 64

All locally trained teachers may enjoy the benefits of the Pension Act. Output training schools for teachers may be recognized.

The Diamond Jubilee Scholarship is to be worth \$400 a year. The Loan Fund of \$100,000 may be used for equipment as well as the building and the remodelling of schools; \$5,000 a year is provided also for this purpose.

Three thousand five hundred dollars is granted to St. John's Board; \$2,000 to the Colleges; \$4,500 to Superior Schools; \$3,000 for training teachers; \$6,000 for sparsely settled localities; \$1,000 to assist broken down teachers.

The Pension Bill passed the third reading, and the Copper Smelting Bill the second reading.

Received a Swindling Letter.

Mr. J. J. Tobin, of Duckworth St., received one of the famous Spanish swindling letters by last mail. The writer claims to be Alphonse Ponce de Leon Tobin, whose ancestors fled from Ireland after the siege of Limerick and settled in Barcelona, where his great grandfather had been created a Don for his distinguished services on behalf of the King. He also acquired much wealth and real estate which descended to the writer in the usual way. After the execution of Ferrer the writer was arrested and imprisoned for the expression of opinions that were considered revolutionary. After the lapse of three months the long term sentence was commuted to a fine, which he is now unable to pay owing to his estate being embarrassed. He now asks for a temporary loan of \$1,000, for which he promises to advance fifty per cent interest and a fourth interest in the estate when the mortgages shall be paid off in 1912.

Owners of Sealing Steamers Meet.

A meeting of the owners of sealing steamers will take place in Downing Bros. office this afternoon at 3.30 to consider certain suggestions that have been made as to the prosecution of the sealing voyage this year. These are that the fleet sail on the 12th March instead of the 10th; that the old type of ship sail at 8 a.m., and the rest at 6 p.m.; that the wooden ships be allowed to sail from any port, the new to be compelled to clear from St. John's, and that no seals be taken before the 15th, with the proviso that a violation of these regulations will entail dismissal for the offending commander. The Gulf ships will sail from Channel this year on the 10th and can begin killing on the 12th.

An Old Song.

So long as from the Cabot Tower
The signal flags shall fly,
So long as Amber's beacon gleams
Against the dark'ning sky;
So long as City Fathers wake
Sorely for the time that is doin',
While commerce is by dollars ruled
And lovers by the moon.

If you love me as I love you,
What pair as happy as we two.

So long as temperance shall war
To "dry" this quiet town;
So long as G.O.D. supplies
The country up and down;

So long as beer is on the tap,
And Black and White is known,
While "number one" is drunk, and
good

Perfection holds its own.
We'll drink a glass, myself and
you,
And I shall stand another too.

So long as sealers seek the Funks
And "jowlers" miss the fat,
So long as sports who watch the wind
Know where the patch is at.

So long as baleful flunkers can
Hoo-doo the bravest ship,
So long as the unlooked-for man
Brings in the bumper trip.

If you love me as I love you,
No knife shall cut our love in two.

So long as spite of auditors
The public money goes;
So long as spite of Budget bluffs
This land's deficit grows;

So long as taxes can be raised
In city, port or town;
Tho' upward goes the cost of grub
And prices of fish goes down.

If you know me as I know you,
We'll pay the price and feel it too.

By hood and harp, by bedlamer,
By sweepstake, gaff and gun,
By masterwatch who leads his men
To slaughter on the run;

By berg, borealis, Bartlett,
By Jackman, Pike and Ash;
By the injustice that we bore
The winter of the crash.

If you love me as I love you,
There's lots of things we must do.

By pension, ballot box and booth,
By heeler, place and pay;
By promises and perquisite,
Sundries, et-cet-er-a.

By Government debentures, bonds
And tricks as yet untraced,
By whatsoever money still
Remains within the chest.

If you know me as I know you,
We know the sum of two and two.

First Hospital in the World

It is said that the first hospital ever built in America was erected by the Spaniard Cortez in the city of Mexico in 1524. It was endowed out of the revenues obtained from the properties conferred on him by the Spanish Crown for his services in the conquest of Mexico. The endowment was so arranged that it still exists and is paid at the present day. A supervisor is named by the lineal descendant of Cortez at present.

In this hospital women occupied positions as nurses and physicians, and in their care were all cases of obstetrics, and women's diseases. Considerable was known by the Indians of medicine. The Mexican hospital is a fine building, with arcades and courtyard. It is an interesting landmark in the history of hospital construction and administration.

Police Unable to Cope With Strikers.

Special to Evening Telegram. PHILADELPHIA, Feb. 23. The police officials of this city virtually acknowledged today their inability to cope with the present strike situation when a request was made of John Grooma, Supt. of the State Police, that the 200 members of his command be brought to this city for police duty. This request was made notwithstanding serious rioting was less frequent to-day than on any day since the strike of the street car men went into effect last Saturday. The State Police are expected here tomorrow morning, and will doubtless be sent to the Kensington District, where the State constables had such an unpleasant time yesterday. The State Police will not bear trifling with, and if the strike sympathizers attempt the same liberties as with the city police yesterday, there will be a serious clash. The efforts of the police to-morrow, as they were to-day, will be directed against clearing the Kensington District of the mobs which have invested it since the opening of the strike. For the first time during the present strike the Kensington Transit Co. succeeded in running its cars until 6 o'clock on the Franford line, which penetrates this unruly territory. At that hour cars were stopped. Four policemen guarded each car on this line.

Revolutionary Plot Discovered in Portugal

Special to Evening Telegram. LISBON, Portugal, Feb. 23. The Government apparently is greatly perturbed by the discovery of a widespread revolutionary plot. Arrests of suspects are being made daily. Confidential informants have reached the authorities that a cargo of arms and ammunition for the revolutionists is being brought from Germany. A keen watch at all ports has been ordered and the coast is patrolled by troops.

Lawlessness in Philadelphia.

Special to Evening Telegram. PHILADELPHIA, Feb. 23. Two dead, three lying at the point of death in hospitals and more than a thousand persons injured is the toll exacted by the reign of lawlessness which has existed in this city for three days and which may be renewed to-day, as the Phila. Rapid Transit Co. expects to have more cars in operation than on any day since the car strike started. The failure of the State Fenibles and independent military organization to intimidate the strikers in the northeastern section of the city was a basis of the evidence which was called for to-day between Governor Stuart, Gen. Stewart and Mayor Reyburn. The day's developments are the subject of a debate which will decide whether the entire National Guard will be called out or whether the police authorities shall be given further time in which to strengthen their abilities to cope with the situation.

Tariff Reform Talk.

Special to Evening Telegram. LONDON, Feb. 23. Affairs political now appear likely to simmer for some weeks until the matter of finance is disposed of, unless the revolt of the advanced radicals spreads. In the House of Commons Premier Asquith in replying to a question stated definitely that the Government had no intention of introducing a Home Rule Bill for Ireland during the present session. In moving the Tariff Reform amendment to the Address in Reply to the Speech from the Throne in the House this afternoon, Austen Chamberlain made a plea for a fiscal system that should afford: first, a preference to home productions, so as to give employment to the people; and second, a preference to British productions overseas to the end that the Empire might be more closely consolidated. The test of any fiscal system, he said, is in the provision it makes for the comfort and subsistence of the largest number. The situation in the United States is consequently referred to, he continued, but they have duties on all of comparison with anything suggested here. It is not the American tariff that has preserved the status of the United States, but the weakness of the great nations in America and the central authorities in America, and the ability of any public authority to bring the law to bear successfully upon them. So long as we remain a united Parliament we will have no such difficulties to affect us here.

McMurdo's Store News

THURSDAY, Feb. 24. For Heartburn and Stomach Indigestion, Soda-Mint or Soda-Mint and Pepsin Tablets are highly recommended by medical authorities. A few kept in the pocket will often save much discomfort. We have some handsome Ebony-back mail polishers, which are really a bargain at 4c. The pad is made of the best chenille, and is soft and pleasant in use. The "Fleatheric" Rubber Sponge is of very handy shape. It is soft, yet durable, never gets slimy, and is absolutely germ-free. Three sizes. "Ruberest" Shaving Brushes are still to the front. They are giving our customers better satisfaction than any shaving brushes we have ever sold—adv.

Quit the Orphanage.

A couple of days ago a young lad who has been some years at Mount Cashel left the place surreptitiously, and has not returned. The matter was reported to Supt. Grimms last night, and he instructed the officers on night watch to if possible apprehend the lad and bring him to the station, where he is to be taken into custody.

M.C.L.I. Debate.

One of the most interesting debates which ever took place in the M.C.L.I. rooms was that of last night. Mr. Geo. Peters presided and the subject discussed was, "Would the energy devoted to the further development of the fisheries be more beneficial to the country at large if applied to agricultural pursuits?" Messrs. J. S. Currie, R. S. Edrue and J. G. Joyce led for the affirmative, and Messrs. Jos. Moore, A. Soper and E. V. Wylie for the negative. Interesting, fluent and very logical speeches were given. Many members took part, and on a vote being taken the affirmative side won by a majority of 6. Next week's subject will be "Does modern scientific knowledge tend to destroy the influence of the church?"

B.I.S. L. & A. Club.

The officers for the year were elected at a meeting of the B. I. S. Literary and Amusement Committee held last night in the music room of St. Patrick's Hall. All the officers of last year were re-elected, viz.: Chairman, P. Laracy; P. Brown, Vice-Chairman; J. Campbell, Treasurer; R. T. McGrath, Secretary. The different sub-committees were then appointed. Much enthusiasm prevailed, and from the expression of opinions by the officers it was quite evident that nothing will be left undone to make 1910 a record year. The Dramatic Committee has already begun work and on St. Patrick's Day will give two performances of that beautiful and popular Irish drama "Shaun Ruc." The Debating Committee will also carry out an interesting programme during the season.

Your Lame Back Will Feel Fine.

Out-of-order kidneys are regulated and bladder misery ends after first few doses. The most effective and harmless way to cure backache and regulate out-of-order kidneys, or end bladder trouble, is to take several doses of Pape's Diuretic.

You will distinctly feel that your kidneys and urinary organs are being cleaned, healed and vitalized, and all the miserable symptoms, such as backache, headache, nervousness, rheumatism and darting pains, inflamed or swollen eyelids, irritability, sleeplessness, or suppressed, painful or frequent urination (especially at night) and other distress, leaving after taking the first few doses. The moment you suspect any kidney or urinary disorder, or rheumatism, begin taking this harmless preparation as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker, or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence. Don't be miserable or worried another moment with a lame back or clogged, inactive kidneys or bladder misery. All this goes after you start taking Pape's Diuretic, and in a few days you feel and know that your kidneys, liver and urinary system are healthy, clean and normal, and all danger passed.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—wherever in the world.

Organ Recital.

Those who had the pleasure of being present at Mr. Allan's organ recital in the Cathedral yesterday enjoyed a rare musical treat. Mr. Allan showed himself once more to be a thorough master of the instrument. The programme included several classical selections which are difficult of execution and which are always calculated to test a musician. Mr. Rheinberger's Sonata in A Minor; op. 18; Schumann's Sketches for the Pedal; Chopin's op. 58; Saint Saens Rhapsody on Breton Tunes; op. 7, No. 2; S. S. Wesley's Andante Cantabile in G Major; and Bach's Allabreve in D Major, vol. 8, No. 6.

Perpetual Pension.

A Lucky Boy Peer is to Receive £2,000 State Annuity. The Hon. George Bridges Harley Guest Rodney, who has just succeeded to the title of Lord Rodney, besties his inheritance under his father's will, will also receive the State pension of £2,000 a year granted to the first Lord Rodney, the naval hero, the allowance having been voted to him and his successors in the barony for all time. The new peer, a youth of 18, is the eighth baron. The culmination of the famous Admiral Rodney's naval triumph which gained for him his peerage and perpetual pension was his defeat of the French fleet commanded by Comte de Grasse on April 12, 1782, an achievement which led to the peace of Versailles.

DIED.

Last evening, John J. Hart, eldest son of the late Michael and Anastasia Hart, aged 31 years. Funeral to-morrow, Friday, at 2.30 p.m., from his sister's residence, Mrs. L. Byrne, 2 Stephen Street. Friends and acquaintances please accept this, the only, intimation.—R.I.P.

WINCARNIS advertisement. This popular tonic needs no introduction, it is now so well-known North, South, East and West of the Island, as well as in the city. It is looked upon as one of the best health preservers or restorers ever placed before the public. For those recovering from protracted illness and want building up there is nothing to equal it. It is recommended by men occupying foremost positions in the Medical profession of Great Britain, from whom over 15,000 testimonials have been received. Held for Bunco Game

Harry S. Britton Accused of Getting Ninety Dollars From Two Would-be Governesses. Harry S. Britton, of Syracuse, a tall, fine-looking man, well dressed and having a Van Dyke beard, was held in custody by Magistrate Smith in the Long Island City Police Court to-day, charged with buncoing Matilda Raus, of 339 Eighth avenue, Manhattan. The complainant alleged that last month she answered an advertisement for a governess to go South, and found that Britton was the advertiser. She said she wanted a governess to look after her sister's children at Palm Beach, Fla., and told her a ticket would cost \$44 and the berth \$2. Miss Raus alleges that she drew \$50 out of the bank, sent Britton in Long Island City, gave him the money, after which he disappeared. Another charge was made against Britton by Julia Carter, who said she also answered an advertisement and Britton wanted her to go to Pasadena, Cal., to look after a sister's children there. He got \$43.50 from her, she says. The police say Britton has been in jail thirteen years for buncoing.—Brooklyn Times.

Romance Has Happy Ending.

Ship Captain Who Rescued Girl From Sea Marries Her. New York, Feb. 16.—The steamer Eva sails to-day for the Mediterranean, and her skipper, Capt. Alfred W. Howard, will carry with him his bride, who was Miss Emma A. Deakon, of St. John, New Brunswick. They met two years ago. Capt. Howard was then mate of the barque which sighted the wreck of the New Brunswick, a lumber schooner, off Cape Breton. Miss Deakon was lashed to one of the spars and he rescued her.

Parents Object to Rough Hockey.

The Brooklyn Eagle says: Southern was so badly hurt in the St. Nicholas-Vanderers game that, although he is now up and around, he has promised his parents that he will never play again. Brock Putnam and Chew are two more St. Nicholas players who have given up the game. The parents of both players have objected to the game, claiming that the sport as played this year is entirely too dangerous for amateurs. For many years hockey has been a leading and not a business in New York. It has been the winter recreation among amateur athletes, who throughout the winter months find their pleasure in playing golf, tennis or in sailing boats. These men do not care to turn up at business looking as though they had run foul of a buzz saw. They receive nothing for playing, and they desire to see that the sport is kept clean. It is hard to impress this idea upon new players, particularly those who have learned the game across the border. So clean has hockey become here, that what is considered a "rough house" contest in the Amateur Hockey League would not receive more than a passing adverse comment in Canada.

Ate 50 lbs. of Food.

Drank Two Gallons of Beer, and Has Only a 40-Inch Waist Line at That. Washington, Feb. 10.—Any hungry man who thinks he can eat more than ten pounds of ham and forty pounds of kale, and drink more than two gallons of beer at a single sitting, has a fine opportunity to make a reputation for himself. He can challenge "Boots" Repetti, a laborer at the Navy Yard, who has just won the all-round, long-distance eating championship of the capital by putting away the aforementioned meal. The dainty little affair took place last night in a saloon so full of interested spectators that "Boots" had scarcely room to work his jaws. On a former occasion Repetti put away a ten-pound turkey, three quarts of sauerkraut, one quart of cranberries, a half-gallon of raw oysters, a pint of ketchup, a half pint of olive oil, one gallon of beer, one loaf of bread and twelve stalks of celery. "Boots" is forty years old, five feet ten, and has a waist measurement of only 40 inches before he begins to eat.

The License Test Case.

Sgt. Byrne vs. W. H. Ellis. This was an action for a breach of the second section of the License Act in selling liquor without a license. The defence was that the defendant was licensed and the license signed by Judge Conroy was put in evidence. Sir James Winter, K.C., for the prosecution claimed that he had a right to tender evidence to show that the license was void. It was objected by Mr. Furlong, K.C., on behalf of the defendant that the court was bound by the license and could not go behind it, and that evidence of any facts outside the license were irrelevant and inadmissible. The court held that it was bound by the license and could not accept any evidence which attempted to go behind the license, which was apparently good on its face, and dismissed the case.

At Canon Wood Hall.

Mrs. Carnell served tea in aid of the C. L. B. Armory at Canon Wood Hall last evening. Owing to the disagreeable condition of the weather the attendance was not as large as it would otherwise have been. A fine musical programme was rendered, which included solos by Miss Carter and Miss Herder, and a recitation by Miss A. Hayward. A very nice sum was realized. Next Wednesday Mrs. Tasker Cook will serve tea.

Unfair Treatment.

One of the heeled who has been given a job as doorkeeper of the Assembly is making himself obnoxious to the public in that he is discriminating as to whom he admits into the building before the session of the Assembly begins. Yesterday he compelled a number of respectable men to remain on the steps in the snow storm while he admitted some few Tory cronies. Such treatment is justly resented by those subjected to it.—Com.

Canon Dunfield's Lecture

Canon Dunfield's lecture to-night in the Synod Hall on "Dickensiana" promises to be a most interesting and instructive event to the large audience that is sure to attend. The Canon's ability as a lecturer are well known. This is the first of a series of lectures to be held under the auspices of the Field-Spencer Association. A number of our best speakers have promised to lecture for the Association.

So Says Charles Bell of Dodd's Kidney Pills.

He had Rheumatism for Ten Years and the old Reliable Kidney Remedy Cured him completely. NORTH RANGE, Digby Co., N. S., February 23.—(Special).—"I am so filled with gratitude to Dodd's Kidney Pills that I cannot praise them too highly." These are the words of Mr. Charles Bell, well known here, and they are echoed by many another who has been freed from the tortures of rheumatism by Dodd's Kidney Pills. "I suffered terribly from rheumatism for ten years." Mr. Bell continues, "I was so bad I could scarcely get in and out of bed. After trying various medicines without getting relief, a friend advised me to try Dodd's Kidney Pills. Six boxes cleared the Rheumatism right out of me."

That's what Dodd's Kidney Pills do to Rheumatism—clean it right out of you. They do this simply and naturally. Rheumatism is caused by uric acid in the blood. When the kidneys are healthy they strain the uric acid out of the blood. With no uric acid out of the blood, with no uric Rheumatism. Consequently to cure Rheumatism, cure your kidneys. Dodd's Kidney Pills always cure the kidneys.

League Hockey

The Championship Matches---8th Fixture St. Bonaventures versus Feildians---Game Protracted Through Defective Lights---The Juniors Play a Brilliant Game, but Drop the Points to Feildians by a Score of 4 Goals to "Love."

The prospective champions and junior team of the League battled for the points on a fine sheet of ice at the Prince's Rink last evening, a fast, exciting and fairly clean game being the result of the meeting, the points going to the seniors after a somewhat protracted match, occasioned by defective arc lights at both ends, the eastern lamps being fixed after two or three attempts and the western ones at length being left out, and the game finished without their friendly aid. There was quite an average crowd of spectators present when the players entered the enclosure and faced each other---Feildians at western end---in the following order:--

Table with 2 columns: St. Bon's and Feildians. Lists players and their positions (goal, power, rover, etc.).

THE GAME.

First Half.

A start was made at 7.47. Feildians at once assumed aggressive tactics and inside of a minute, after some lightning passes, Piusnet tallied for his team. Again rushing matters from re-face a second score seemed imminent, but off-side play nullified. Hustling play with even exchanges succeeded and was kept up for a few minutes, several scrimmages taking place round St. Bon's goal. Play then opened out a bit and ranged from end to end, both teams giving a good exhibition of combination with fairly even exchanges. Then the first delirious "lights out" was occasioned, and Vall, who got a blow on the mouth, retired for repairs. Reassuming St. Bon's got very aggressive, Strang and Jeffrey having to hustle in clearing. Give and take play followed, both keepers being tried in turn, but the defence on both sides was safe, no scoring resulting. Then when the game was getting most interesting and exciting the western lamps gave out altogether, which caused a big delay. Reassuming at length, without aid of the lights, the game waxed hot and furious, ranging from end to end with occasional point lifts in evidence. St. Bon's had hard luck on two occasions, just missing by inches, and pressed their College rivals hard without effect. There was only some six minutes of the half to go, and amidst

shouts and cheers from their admirers both sides rallied in determined fashion, bent on scoring. Eventually Piusnet got possession at three-quarter rink and eluding all opponents, with a rapid shot close in, beat Walsh and registered the second Feildian score. From the re-face game got a bit slushy, and Power of St. Bon's got a three minute period of looking on. When he was in the box a nice little bit of tricky passing took place in Feildian front line, which was ended by Simms registering No. 3 for Feildians. Then with play in St. Bon's territory the bell rang for the interval. Half time score---Feildians, 3; St. Bon's, 0.

Second Half.

On a resumption of play a very fast pace was put on. St. Bon's were the most aggressive and made an onslaught on Strang's citadel, but an impenetrable defence was put up at cover point and in goal and no scoring resulted. Feildians then rallied and some individual work was then put in by rover Tait, Simms and White. This was followed up by some neat, tricky passing efforts in front, and at length when the half was 10 minutes old White registered the fourth and final score of the match. Another rush from centre by Feildians called out Walsh, the Bon's keeper, who made a miraculous save. Then a lightning shot from Tait without effect, Sam Walsh being brilliant at net guarding. Feildians who were the more active lot now, displayed the best combination and pressed their opponents hard. St. Bon's however put up a brilliant defence and held their own till the end, the all-over bell ringing off the match. Score---Feildians, 4; St. Bon's, 0---the players having been on the ice for 90 minutes and thus affording our friend Vinnicombe (Nix) the extreme pleasure of being able to say (and he did) that he held the record for having refereed the longest game for the season.

The officials were:-- Referee---N. J. Vinnicombe. Timekeepers---W. J. Martin and Bulley. Penalty Timekeeper---W. Hearn.

HOW A WOMAN CAN BUILD UP HER HEALTH

This Open Letter From Mrs. L. Hermann Will Be Interesting to All Women Readers.

The following letter, written from her prettily situated home in Ossining, on the banks of the Hudson, gives Mrs. Hermann's experience with "I-health."

"I was never very strong. 'Thousands there are just like me, who have to pay double toll for very little extra effort or exertion. When the weather was fine and I was able to get about, enjoyed life and held my strength. But something always happened---a little too much done or some small sickness would put me back, and I would stand, unable to sleep or enjoy my meals. I decided to take the most nourishing and strengthening tonic made and, was strongly urged to use 'Ferrozone.' After the first box I saw Ferrozone was doing me good, so I followed closely the 'Gained Rules for Health,' and 'gained' steadily. At first I didn't get as well as I once did---I couldn't expect to. But there was a gradual improvement in my appetite, and this buoyed up my hopes, and convinced me Ferrozone was what I needed. It is less than a year since I commenced Ferrozone and already I am like a new woman. I eat more, sleep better, weigh more, am stronger, healthier, better looking than ever before."

No tonic has such a universal reputation for restoring health to girls and women---it's a woman's medicine that does good; try one or two Ferrozone Tablets with your meals---watch the result. Fifty cents a box, six for \$2.50, all dealers, or The Cattaraugus Co., Kingston, Canada.

Friday night, Crescents vs. St. Bon's. Will the rink authorities kindly attend to the lights before the match starts and give ticket holders (skating) a chance to get all the skating time possible in this rather erratic season? ON-LOOKER.

Horse Ran Away.

Ok's horse took fright about 6 o'clock last evening when coming along Gower Street just east of Victoria Street. The animal turned down over Precost St. in wild career with castanaran. When by Ok's factory the horse attempted to turn in, but the shaft struck his hind legs which caused him to bolt off again which towards Water Street. When near the window of Horwood's grocery a man standing on the sidewalk captured the horse and prevented further damage. The horse's hip is injured a good by a fall near the Royal Stores steps.

His Grace the Arch-Bishop Preaches His Third Lenten Sermon.

The third in the series of Lenten sermons was preached by His Grace Archbishop Howley at the R. C. Cathedral last night in presence of a large congregation. The text was: "Come Unto Me all you who are weary and are heavily burdened and I will refresh you." These words of our Divine Lord, said the Archbishop, were addressed to the people living at the present time as well as to the Jew and the Gentiles of the day on which they were uttered. The invitation was intended for sinners to whom special graces and privileges are conferred during the season of Lent. There was no peace and no joy greater than that which came to the soul of the sinner after a sincere confession of his sins and absolution from the guilt of the same in the Sacrament of Penance. The Archbishop then went on to give a clear explanation of what the Sacrament of Penance was and the way to receive it worthily. One of the principal essentials was a hearty and sincere sorrow for the sins committed. Sorrow on account of temporal loss would not do. One should have supernatural sorrow for sin on account of the injury done to God by rebelling against his holy law. If the sinner is only sorry because his sins have caused him to lose friends, pleasures, money, health, etc., he has not the right kind of contrition to ensure forgiveness of his sins. Confession, or declaring one's sins to a Priest duly ordained was also essential to the Sacrament of Penance. Some people declare that it is enough for the sinner to throw himself on his knees in the privacy of his own room and say Lord have mercy on me a sinner that this is a confession full and valid, and that their sins would be forgiven. All things are possible with God, but he has instituted another way to accord to the sinner the forgiveness of his sins, and that is the Sacrament of Penance. The Catholic Church from the very beginning, in order to forgive sins it is necessary that they be declared or confessed to another duly and validly ordained. As a Judge in a civil court cannot decide on a case unless he has the evidence, in like manner the Judge in the confessional must hear the penitent's case before the conditions of the Sacrament of Penance is fulfilled. Our Divine Lord forgave sinners on several well known occasions during his life on earth when they avowed themselves to be sinners. This is quite true but as Christ was God as well as man he knew the most secret sins of the hearts of those who expressed their penitence in this way, and there was no necessity for detailed enumeration of sins. Moreover this was prior to the formal institution of the Sacrament of Penance and prior to that occasion when he said to the Apostles: "Receive ye the Holy Ghost, whose sins ye shall forgive they are forgiven them, whose sins ye shall retain they are retained."

Only those who had recourse to auricular confession knew the great peace and spiritual consolation which came into the soul on such occasions. His Grace exhorted the congregation to prepare well to make a good confession during the Lenten season and not fail to receive Holy Communion before Lent is over.

About Young Olsen.

"Health and Strength," an English Magazine, contains in the last number an article on Young Olsen which is very complimentary to him and in which it is predicted that Olsen would win the lightweight championship. The strange thing in connection with the matter is that the writer of the article is the referee who afterwards disqualified Olsen from finishing the contest on account of a "prohibited hold."

A Painful Accident.

As Mr. Peter Quinlan, boiler-maker, was working on the Prospero at the dry dock yesterday afternoon a rivet which he was driving into a plate flew with great force and struck him square in the left eye. A nasty wound was inflicted and for a while it was thought the sight of the orb was destroyed. The man suffered terrible pain and fainted from the effects of it. He was taken to his home on Bambrick Street and was attended by Dr. Paterson.

A grand Soiree will be given by the Ladies of the Congregational Church, in the Lecture Hall, on Wednesday, March 2nd, commencing at 8 p.m. This promises to be one of the best ever held, so be sure and attend. Admission, 30 cents; children, 15 cents. L. COWAN, Sec.--Feb.24, 1910.

Gower St. Church.

Rev. J. K. Curtis opened with the hymn "Lead Kindly Light" (Newman) at the evangelistic service in Gower Street Church last night. Rev. M. Fenwick then led in prayer, and after singing, that other beautiful hymn:

"Jesus the very thought of thee With sweetness fills the breast; But sweeter far thy face to see And in thy bosom rest."

Rev. Mr. Curtis then read St. Paul's Defence before Agrippa, which was followed by more singing and a number of testimonies. Rev. Chas. Hackett then delivered the address of the evening, "The conversion of souls of Tarsus." Men like Matthew the publican and Zaccheus who to some would not seem worth bothering about, the Lord went out of his way to save. This radical tent-maker, defiant and strongly passionate and a rejoicer in the stoning of Stephen and the persecution of the Nazarenes is caught up suddenly for a moment as he asks, "Who art thou?" The work of conversion was begun in his soul and henceforth it is a changed man. The Lord wants apostles to-day. He lays his hands upon them. It is easy to do the work now. There is little or no persecution abroad now. The work in the vineyard is smooth and easy compared with Paul's time. Our responsibility is now therefore greater. The Lord's call cannot be ignored. "Come unto Me" must not be resisted. The congregations were deeply moved and joined with gusto in the hymn, "Have you any room for Jesus?" and "Almost persuaded, now believe." Several were forward and were converted. After the closing hymn, "Arise, my soul arise," Rev. Mr. Dunn pronounced the Benediction.

Noted Sportsman Gone.

Editor Evening Telegram. Dear Sir, On my return from last night's hockey match I learned with deep regret, through friend Collins, the mail clerk on the Bruce express, of the death of a much esteemed friend, viz. John Waugh, the famous Topsisail Road trout and general sportsman's guide. The Waugh family, beginning with old Sergeant Waugh, the father, have been noted for the past century in connection with the partridge shooting and trout fishing seasons all over the Peninsula of Avalon; a fact that has been well established and can be amply verified by hundreds of sportsmen, but it is only my revered friend John, just passed away, that the writer wishes to pay a passing tribute of respect and esteem.

Your good guide is dead, that you referred to in your Christmas notes for the past year. This is friend Collins' opening sentence in his note to me, the Christmas notes alluded to being a reference to Onlooker's Trout Reminiscences as published in "Christmas Chimes" issued by Barnes & Co., and in which I relate my recent trout excursion in Newfoundland, around the Topsisail ponds in the year '82 with "Jack" Waugh as companion, guide and trout mentor. The annual consolatory and successful routing trips with old "Jack" Waugh as my guide and chum---for on many a day off have we rambled together---and in which I have crossed marshes, and waded rivers and ponds in quest of the real, genuine "native" (mud trout). I can never forget, nay, rather the stalwart form of old "Jack" as I knew him some twenty-eight years ago is ever before me in memory's book, as he trod the "sleepers" down the old Horse Shoe Bend Pond at cart's dawn.

Like the writer "Jack" Waugh was a descendant of Scotch Borderland anglers and he was undoubtedly a keen sportsman. Yes, what our departed friend didn't know about mud trout wasn't worth learning, in fact, he was in the writer's opinion the indisputable "Iszak" Walton of Newfoundland. Well, poor old Jack has gone away to that far away "hunting ground" from which no hunter or angler returns, and in the words of an old Scotch song:--

Now he's awa, its wi' sorrow we add him; As one o' the guid men, no seen here again.

Thus old and new landmarks are being removed by the grim reaper, leaving us all the sadder for the loss of our earthly sojourn on land or water is ever fleeting, and that our present everyday aims should be directed towards capturing the best and biggest prizes offered in that pleasant and Happy Hunting Ground far beyond earth and sky. To the family and relatives of a good guide and friend whose life he extended the heartfelt sympathy of--

**HOW CAN WE COUNTER-ACT
THE INCREASED COST OF LIVING?**

A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.

EAT MORE BREAD.

There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Bread made from

contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.
