

Plant of The Morning Albertan is Destroyed by Fire; Publication is Resumed After 24 Hours

GOVERNMENT WILL HAVE 40 SUPPORTERS; 37 SURE; TWO DEFERRED; THREE IN DOUBT

Table with 2 columns: Party Name and Number of Seats. Includes Liberals (37), Conservatives (14), In Doubt (3), and Deferred (2).

The latest returns show that the government has at least 37 seats in a house of 56 members. Three seats are in doubt with the probability of two going for the opposition.

The three elections still in doubt are Clearwater, which the government hopes to win, Innisfail and Medicine Hat. Last night, J. A. Simpson, the Liberal candidate, reported that with one poll to hear from he was six behind in Innisfail.

With 17 polls to hear from, Hon. Mr. Mitchell was 170 votes behind in the Medicine Hat riding. When speaking to the Albertan he was not too hopeful. The district to be heard from will greatly reduce the majority of his opponent.

It is possible that Hon. A. G. McKay will yet be elected in Edmonton. He is 119 votes behind Mr. Ewing, but about 500 votes are tied up, of which the Liberals claim a fairly large majority.

Turgeon Winning in Redoubts. Edmonton, Alta., April 18.—Thirty-four polls out of 39 in Redoubts give Turgeon a majority of 94. The five polls to come will probably increase his majority.

Edson, Cross now has a lead in Rocky Mountain poll, which went for the Conservatives, but figures not given. Whiteside has majority of 61 in Coronation with 21 favorable polls to hear from.

Edmonton, Alta., April 18.—According to the latest figures, which may be subject to revision in some particulars, the Liberals carried nine out of the fifteen newly-created constituencies, with three going to the Conservatives, two to Independents, and one not as yet heard from.

Edmonton, Alta., April 18.—Returns from 19 polls out of 33 give Puffer, Liberal, a majority 183. Further returns are not likely to change this materially. The town polls went Liberal by 55.

Edmonton, Alta., April 18.—Returns from 19 polls out of 33 give Puffer, Liberal, a majority 183. Further returns are not likely to change this materially. The town polls went Liberal by 55.

Edmonton, Alta., April 18.—Returns from 19 polls out of 33 give Puffer, Liberal, a majority 183. Further returns are not likely to change this materially. The town polls went Liberal by 55.

Sick Pontiff Better

Physicians of Pius X Report an Amelioration of Holy Father's State

Rome, April 18.—Today's morning bulletin issued by Prof. Marchisava and Dr. Androsio, chief surgeon, their usual consultation at the Pope's bedside, was as follows: "There is further amelioration of the Pontiff's catarrhal trouble and bronchial affection. His general condition is also more satisfactory today. His temperature this morning was 97. (Signed) 'Marchisava, Androsio.'"

Bury Says He Is Surprised

Winnipeg, April 18.—Geo. S. Bury, vice-president of the Canadian Pacific Railway, was seen today with respect to the reported transference of himself to Montreal as senior vice-president to succeed D. McNeil, who may retire from that position here. He stated that he was surprised that such a report should have got into print, and gave an emphatic denial.

Store Is Burglarized

The burglars who forced an entrance into the People's Clothing Store Thursday night were apparently not very well posted for their trade, 200 1/2 lbs. having been secured. This is the third time within six months that H. Franklin and St. Boniface, proprietors of this establishment, have been the victims of thieves, and Mr. Franklin complained bitterly of police neglect.

HULL DEFEATS GIBSON

London, April 18.—In a postponed second division football game played yesterday Hull City defeated Glasgow by the score of two to nil while in a postponed Southern League match Northampton drew with Swindon Town, each netting a goal.

The fire which destroyed the Allan Block, corner First Street East and Ninth Ave. early Friday morning, was one of the worst visitations of the downtown district in recent years. MacLeod Bros., Dry Goods and Clothing Store; the Calgary Millinery Co.; the City Bowling Alleys; the Majestic Realty Co.; the Rex Cafe; Burnand's Job Print; L. H. Kennerly Realty Company and the Albertan Publishing Company were rendered homeless, and the various plants and premises completely destroyed, entailing a total loss of between \$200,000 and \$250,000.

The Albertan's Temporary Offices

THE ALBERTAN PUBLISHING CO. has resumed business in temporary quarters in the Herald Bldg. The business offices are located in the offices formerly occupied by the Herald-Western and The Farm and Ranch Review, telephone M2166.

The News and Editorial offices are located in suits 3 and 4, second floor, Herald Block. Editorial telephone, M2320; News telephone M6183.

The Albertan Job Office will be located with the business office, telephone M2380; orders will be filled as usual.

The Morning and Weekly Albertan will be published regularly as heretofore.

SUFFRAGE QUESTION TO BE DISCUSSED IN HOUSE OF COMMONS MAY 5 AND 6

London, April 18.—The influence of Lloyd George and Sir Edward Grey prevailed against Premier Asquith to secure May 5 and 6 for the house of commons discussion of woman's suffrage, but seeing that this is the eve of the Easter recess, many supporters of the measure are expected to begin lobbying on Saturday, May 3, in order to escape the responsibility of voting for the measure in the face of the militant's criminal conspiracy.

PRINCE EDWARD ISLAND CONSIDERS LEGISLATION AGAINST THE AUTOMOBILE

Charlottetown, P.E.I., April 18.—The legislature is considering a government measure to raise the prohibition against the use of automobiles on the island introduced by the government. It provides for their use on Mondays, Wednesdays and Saturdays, under very strict regulations. Chauffeurs must be licensed and the fees devoted to the upkeep of the highways.

THE EGRIA, DREAM OF THOSE WHO WOULD ESTABLISH A TRAINING SHIP IS A FAILURE

Vancouver, April 18.—The Egria is for sale. After a year's effort the Navy League has been compelled to give up its scheme for establishing a training ship in Vancouver, and the famous old vessel now anchored off Deadman's Island will be disposed of. It is regarded in shipping circles as most regrettable, but absolute indifference of the public and lack of interest in the scheme precluded the Navy League from carrying out its plans.

BLOW, TWEEDIE AND HILLOCKS ELECTED AS LEGISLATORS OF THREE CITY CONSTITUENCIES

All three of the Conservative candidates in the Calgary riding were elected Thursday by substantial majorities, the vote of Dr. T. H. Blow, in St. John's, being the largest polled for any candidate in the province. Dr. Blow's total vote was 3,483 as against 1,335 registered for Mr. Clifford T. Jones. The net majority of Dr. Blow is 2,148. In Centre Calgary Mr. Tweedie, the former Conservative member, was re-elected by a majority of 483, polling 1,557 votes as against 718 polled for Rev. John McDougall. A substantial majority was given Rev. B. Hillocks in North Calgary, Rev. Mr. Hillocks having 1,238 votes, Alderman George H. Ross, 717, and R. King 248. Rev. Mr. Hillocks' majority over the vote of his nearest opponent was 521, and over the combined vote of the two remaining candidates a majority of 373 votes was recorded.

The Liberals attribute defeat to a lack of organization. It was generally conceded that the Sifton government as an administrative body would be returned to power, and in viewing the probabilities of the larger result, slight loss of the smaller local issues. The result was an indifference to the local situation which proved disastrous. Another point was the utter absence of Liberal funds. Such a few automobiles as were used were operated by their owners. There were no hired cars and money was not employed for entertainment purposes of any kind.

The Liberals attribute defeat to a lack of organization. It was generally conceded that the Sifton government as an administrative body would be returned to power, and in viewing the probabilities of the larger result, slight loss of the smaller local issues. THE LIGHT WILL SHINE ON!

The fire broke out in the partition between the Albertan press room and the basement of MacLeod Bros' store. The fire originated in a miniature stove which had been placed near the chimney. The fire spread rapidly, and the firemen were unable to contain it. The firemen were unable to contain it. The firemen were unable to contain it.

THE ELECTION RESULTS

At the present moment it seems certain that the government will have at least 42 and perhaps 44 seats in the new legislature. The result is an enthusiastic endorsement of the Sifton administration.

The newspapers supporting the opposition seem to be somewhat over the result and refer to the fact that the Conservatives gained a few seats and are entering in the new house in the old one. That is rather cold comfort, they should imagine.

In the last session the opposition had eight members, seven Conservatives and one Socialist. In the new house the opposition will have not more than fourteen or fifteen in a house of fifty-six members.

It must be remembered, too, that the opposition practically allowed the fight to go by default in 1908. The election was practically won on the day of nomination when seven or eight Liberals were returned without opposition.

There was no real contest and the result at all corresponded to the strength of the parties. But this election was a strong, hard fight. The parties grappled in practically every constituency. The parties were both well organized and neither, as far as organization was concerned, at any decided advantage.

Under the circumstances the result was a decided and very pronounced victory for Premier Sifton. It was an endorsement which cannot be questioned.

This is very satisfactory not only for the Liberal party, but for good government in Alberta. The campaign against him was bitter, vicious, personal and unfair. The opposition made a set upon him and endeavored in every possible manner to discredit him in the eyes of the public.

The high school is a large brick building where young men and women are taught everything except spelling and the location of the capital of Canada. It is a costly edifice, and is usually built with the aid of a double-barreled tax which causes the proprietor to stand out on the brow of the public.

High schools are established for the purpose of introducing ambitious students to a collection of languages which are never used in ordinary conversation. By the time a student is able to talk fluently on his fingers in the original Greek, Hebrew and Sanskrit, he is fitted to do anything except keep books in his father's store or adjust a corn planter so that it will skip over the hills at one go.

The most effective hold which the high school has nowadays is higher arithmetic, which is drilled into the sweet girl graduate as thoroughly as possible. This is the only thing for which the girl graduate gets married she will have fully as much use geometry and trigonometry as a blind man for a reading glass.

There are thousands of high school graduates who have their eyes shut, but who don't know whether Aaron Burr was the second husband of Pocahontas, or a trademark for a new brand of sleeve-buttons.

The high school is presided over by fifteen or twenty teachers who take their kind of teaching and fill the full of decimal fractions, German vowels, Shakespearean sonnets and other matters, which in some way handy when the graduate begins to do the grocery business. The high school also teaches a style of singular penmanship which the address has no use for.

High schools are a great blessing, but they would be more popular if they taught the grocery business, biology and more in single entry book-keeping.

DOMINION BANK CLEARINGS FOR THE PAST WEEK
Toronto, April 18.—Following are the bank clearings for the principal cities of the Dominion for the week ending today, with comparisons with the corresponding week last year:

Table with columns for City, 1912, and 1913. Includes Montreal, Toronto, Vancouver, Calgary, Edmonton, Victoria, Hamilton, Quebec, Saskatoon, Regina, Halifax, London, St. John's, St. Catharines, and Brantford.

The Poet Philosopher
By Walt Mason
Oh, what is the profit in sorrow, and what the advantage of woe? We've troubles today, but tomorrow the most of them surely will go. Say, where are the troubles that were yesterday's? They're away like the bubbles, and so will the troubles that are today's. And where is the bitter affliction that drove your heart from all hope? It's traveled from your jurisdiction in vain were the weeps that you weep. It's foolish to grieve for sorrow, it's naught but a habit of mind; the dawning of every tomorrow leaves yesterday's burden behind. This life has so much that is pleasant, tomorrow's so loaded with joy, the cheap little griefs of the present should fall to distress or annoy. Tomorrow's so pregnant with promise, Richard and Henry and Thomas should pass up the life of today. Tomorrow is happy and smiling, a goddess bedecked with a wreath of glory, and she's waiting, let us let us quit gnashing our teeth. Let's be like the bygone tomorrows, and wear just such smiles as that sorrow's a snare that no longer has snore.

Vest Pocket Essays
By George Fitzh
PEORIA.
Peoria is the second city in the third place in the union, which ought by all rights to give it a population of half a million. But Peoria, according to the latest census had 84,000 people including Chinese, Orientals and millionaires not included in the census.

Tennessee Teacher!

Tariff Caucus Converted Into an Income Tax Class
By Cordell Hull

Washington, April 18.—With Democratic members of the house in the role of students today, Representative Cordell Hull, of Tennessee, converted the tariff caucus into a class in income taxation after the caucus had disposed of amendments to a few items on the first list presented over from yesterday. Several members sought to have a small duty levied on raw rubber, raw silk and tungsten ore.

Representative Hull wrote the income tax section of the Democratic bill about which members of congress particularly evince a desire for information as to its effect before trying to criticize its provisions. The Tennessee member elucidated his plan in a lengthy address, and on nearly every provision he was asked a dozen questions.

How the ways and means committee had arrived at \$4,000 as exemption limit for the income tax was the first subject of inquiry; some members asking if \$3,000 would not be better and others demonstrating an idea that the exemption should be lower.

A lower exemption, Mr. Hull explained, would necessitate a bill with many special exemptions that it would be difficult of enforcement, and also would entail so much administrative work as to make it unprofitable. By fixing the exemption at \$4,000 special exemptions are not necessary, and it was stated that the operation of the act and the collection of tax were made comparatively simple.

Considerable opposition to some of the features of the acts are developing, though the leaders declared many members were under misapprehensions as to the exact working of the act.

Sidewalk Sketches

By Howard L. Rasm

High schools are a great blessing, but they would be more popular if they taught the grocery business, biology and more in single entry book-keeping.

Offers Government Free Site
Vancouver, B. C., April 18.—A free site for a dry dock has been offered the government at Rocheport, in Vancouver harbor.

No Trace of John McLennan
Vancouver, B.C., April 18.—It is almost one month since John McLennan, accountant in the Main street branch of the Montreal Bank, disappeared, and his disappearance has been sought for all over the Pacific coast, not the slightest shred of accurate information has been obtained concerning him. His disappearance is one of the most baffling that has ever been recorded in Canada.

TRANS-ATLANTIC TRIP IS DEFERRED; GAS ESCAPES
La Palmas, Canary Islands, April 17.—Joseph Brucker failed to start as scheduled today on his proposed transatlantic flight to the West Indies in the dirigible balloon Suohard II. Just as all preparations had been completed for the flight at daybreak this morning, the gas escaped in some manner through the valve which had been inflated, and the dirigible was deflated. Urgent telegrams were sent to Germany for further supplies.

Engineer Kruger, who had been engaged to navigate the dirigible at the last moment, made some demur about undertaking the hazardous voyage, and the vessel was ordered to look out for itself. Brucker took out a \$50,000 insurance in his behalf.

Brucker expressed extreme annoyance over the accident, a large crowd which had waited for hours hoping to see the departure of the airship manifested much disgust at the postponement of the voyage.

Three Men Entombed; Two May Die
Quebec, Que., April 18.—While working at the Canadian Northern car shops, where a gang of men are pulling down an old building to build a new one, three men were entombed under the debris of a brick wall which fell on them.

Police Chief Suspended
St. Paul, Minn., April 18.—Acting Chief of Police Martin J. Flanagan of St. Paul was suspended from duty today pending an investigation tonight by the police commission of charges of neglect of duty. No appointment of another acting chief was announced, and it is expected that he will be reinstated.

Pugsley, Edwards Clash in House

O. Baldwin's Case Causes a Heated Interchange of Remarks in Parliament

Ottawa, Ont., April 18.—There was a decidedly lively scene between three and four o'clock when Mr. Pugsley introduced the question of the dismissal of O. Baldwin, a customs house official at Coaticook, P. Q., because, during the 1911 election campaign he had written a letter directing speeches made by Nationalists and referring to Mr. Pugsley, the Conservative Nationalist candidate. Mr. Pugsley said this man had been dismissed without an investigation and his only offense was that he was an extreme loyalist.

Mr. Edwards soon after stirred up trouble by declaring that Mr. Pugsley was not sincere in suggesting that the House was no longer making progress with the estimates. It was just that, Mr. Pugsley did not desire to do a business, he said. The e-minister of public works demanded that Dr. Edwards should clearly and definitely withdraw the word "bluff."

This was finally done at the request of the chairman, but before there had been a lot of interchange of remarks across the floor of the house. Mr. Edwards said that Sir Wilfrid Laurier and other Liberals had been guilty of unpatriotic remarks in the past. This aroused the ire of P. B. Carvell, who made a number of heated references to the member for Frontenac. He said that he had, on one occasion, and it was brought from the mail carriers of his constituency.

Dr. Edwards said that Mr. Carvell had lied. After another scene he withdrew the remark, but offered to repeat it in the corridor.

Mr. Pugsley then read the letter written by Mr. Baldwin in support of the minister to restate him. Premier Borden said that Mr. Baldwin had entered the political arena and the government had no choice but to dismiss him. Soon after an item probing for public works demanded that Dr. Edwards be brought up and the house rose just before four o'clock.

Three Men Entombed; Two May Die
Quebec, Que., April 18.—While working at the Canadian Northern car shops, where a gang of men are pulling down an old building to build a new one, three men were entombed under the debris of a brick wall which fell on them.

St. Paul, Minn., April 18.—Acting Chief of Police Martin J. Flanagan of St. Paul was suspended from duty today pending an investigation tonight by the police commission of charges of neglect of duty.

Plant of Morning Albertan is Destroyed by Fire
(Continued from Page 1)
from the office boy at 8:30 yesterday morning. Not all those interested were in the room when the fire broke out. Some were in the slumber, and others did not have house phones. Little visible excitement prevailed, but it was evident that those who were interested in the destruction of their effects were keyed to a high pitch of excitement.

Some interesting incidents are related about the streets in connection with the fire, and some hair-breadth escapes are recounted. A bicycle owned by W. Davidson was left standing in the business office when the men made their dash for safety. When the door and roof collapsed, the bicycle was hurled half way across the office and turned upside down under a mass of debris, but when the machine was dug out yesterday afternoon there was not a mark or a scratch on it, and he proudly rode it home to dinner.

Some interesting incidents are related about the streets in connection with the fire, and some hair-breadth escapes are recounted. A bicycle owned by W. Davidson was left standing in the business office when the men made their dash for safety.

House Dresses Just In and Priced as Low as \$1.95

Vote of Censure on Rogers Moved in House, Subject of a Critical Discussion

OTTAWA, Ont., April 17.—The Prince Albert land transaction was again brought to the front today by Hon. Frank Oliver on motion to go to a committee of supply and the majority for Edmonton moved a vote of censure on Hon. Robert Rogers...

Mr. Oliver said that the agent of the Dominion lands at Prince Albert had been asked to make a report. Ten days later the assistant secretary of the department wrote in similar terms to the agent at Prince Albert. It was apparent, he said, that the matter had been simulating in the department from April 8 to April 13, and it was reasonable to suppose that some echo of it had got to Prince Albert because on April 16 Arthur Donaldson, the son of S. J. Donaldson, applied for the land as a homestead entry and got it at the usual cost of \$10.

Mr. Oliver said that the agent of the Dominion lands at Prince Albert had been asked to make a report. Ten days later the assistant secretary of the department wrote in similar terms to the agent at Prince Albert. It was apparent, he said, that the matter had been simulating in the department from April 8 to April 13, and it was reasonable to suppose that some echo of it had got to Prince Albert because on April 16 Arthur Donaldson, the son of S. J. Donaldson, applied for the land as a homestead entry and got it at the usual cost of \$10.

stand a very poor chance of getting value out of that homestead. As a result of the investigation being presented, Mr. Oliver asked what was to be the position of the government in respect to matters such as this.

Mr. Oliver: "Well, it wouldn't take many prizes at \$100,000 each to go round."

This matter, he declared, was important, because if the public property of Canada was to be used without regard to precedent, rule or law, for the purpose of advantage to party friends, it was desirable that the country should know it and realize what it means.

Mr. Oliver: "No doubt we did overlook it as far as looking after it was concerned."

Hon. Robert Rogers said that for some time he had been the recipient of considerable attention at the hands of the honorable gentleman opposite, and of their friends outside, and of their press. There were probably but very few men in public life who were so much misrepresented and misrepresented.

Mr. Rogers said that he would say now, as he had said before, that he had had no knowledge of the history of the land in question. He recalled the deposition that came down from Prince Albert, and if they had asked if there was any land available for homestead entry close to Prince Albert, knowing the conditions, he would have had no hesitation in saying no.

Mr. Rogers proceeded to discuss the granting of the adjoining homestead to Mr. Everett by the late government. He said the land agent wrote to the minister stating that a bridge was being constructed across the Saskatchewan which would make the land valuable. The correspondence showed that the suggestion had been made as to whether the land should be withdrawn or granted to a "particular applicant."

NO MORE MOTOR CARS FOR OFFICIALS OF THE CITY

Must Content Themselves With Speedy Runabouts Which Are Less Expensive

THERE will be no more touring cars for city officials. Instead, the officials will be provided with small, light, speedy runabout cars, costing less than half the original price. These can be kept in repair at a fraction of the cost of the big cars, and when worn out, can be scrapped at no great loss to the city.

STEAM ROLLER TACTIC TO FORCE THE NEW TARIFF THROUGH

Washington, April 17—Despite the widespread protest against the tariff bill with its low rate on wool, undergarments and other textiles, the supporters of President Wilson are driving the measure through by steam roller tactics, it became virtually certain today that there would be few changes made in the case or on the floor of the house.

Verdict Is Accidental Death

Winning, Man, April 17—A verdict of accidental death, attaching blame to the discoverer by one of the dead, was held on the bodies of George Schubert and Konstantine Derzack, victims of a poisoning at the Ideal bath house on Jarvis avenue, Monday.

Finds Relics of Early Explorer

Le Pas, Man, April 17—The recent discovery of a battle battle by Chevalier de La Verandry, recalls the discovery of the remains of the explorer in 1743, called it the "Riviere du Pas" in honor of his name.

Beladonna Cocktail With A Kick

Oakland, April 18—A new concoction with a "kick" in it similar to that of a stiff drink of the strongest liquor was introduced in the city by a pharmacist.

Private Car Costs \$100,000

Philadelphia, April 18—President George F. Baer of the Reading railway has just received one of the handsomest and most beautiful private cars ever built in the country, built for his exclusive use.

A Frugal Clergyman

Los Angeles, April 18—Because her husband insisted that she should not burn more than eight matches a day and that she should not buy more than six cents worth of soap, Mrs. F. E. Cornwell, wife of a clergyman, took an empty match box into court today and attempted to obtain a divorce.

HOW SHE WORKED IT

An actor says that in the early days of his career he was attached to a "fly-by-night" company doing melodramas in the small towns of the west. The sobriety of this company possessed, in addition to her histrionic abilities, considerable skill as a pianist. For a long time the young man in question had been desirous of affording the audience some example of her dramatic work, and finally her inventive genius evolved a scheme.

OUR ESTIMATE OF MAN

Man has become the great I am. As great as his Creator. And everything we look upon, His name is there as maker. He builds ships great and small, And sends a wireless ray to the seas. The Great man does not fail. He knows about the many stars, Their distance from the earth. Can tell us when they rise and set, And what each one is worth. The power of man is very great, It is, without a doubt; But yet there's many a thing For man to fathom out. He lives a life in strife and toil, And often heaves a sigh of woe. When he's to pass to realize That "he" has got to die. God says, behold your fellow man, And love him as your "brother"; This is the only lacking part, Man yet fails to discover.
