Mr. Meredith did not appear to be particularly impressed with Mr. McLaughlin's remarks. That gentleman proceeded to enquerate to his own satisfaction various reasons why that move was a mistake. One was thu: Mr. Meredith proposed to place the liceuse jurisdiction in the hands of an unknown quantity. And what is it? queried the; member from West Durham. "The people," said an Opposition member.

Mr. McLaughlin went on to prove that the changing of the power of appointing the changing of the power of appointing

license commissioners would not be a wise note. If county councils appointed three commissioners would that mere fact induce them to throw off their politics?

At this point one of the members, it might have been an Opposition M. L. A., yawned andibly.

But Mr. McLaughlin proceeded to finish his speech. "The Conservative," be said, "is a peculiar specimen of the genus homo." (Opposition laughter.) He was (the genus homo. As The World on a previous occasion remarked, the member from Kingston. As The World on a previous occasion remarked, the member from Kingston. Mr. Metcalf is indeed a true wit. He got off yesterday under the guise of humor a good many sharp hits against the Government. Among them was that about the Christian, moral and pous Premier. "I like the Premier," said the member from Kingston. "and I wish he was a good Conservative. But Socrates began to learn music when he was 85 years old, and perhaps the Premier will become a Couservative before he dies." Them Mr. Metcalf referred to the license question and the Premier's position thereon. Continuing, he said: "Of course he is the real figurehead of the mistitution. He represents the real, sold, religious element of this province, and the alter sauthement they call the wicked partners.

He says: "When first became infatuated with trotters the only stock farms of the least account were in Orange county, in this State, and Alexander's in Kentucky. They furnished the stock that was used and needed throughout the country. Since that time stock farms have sprung lato existence like mushrooms in nearly every State in the Union." ence like mushrooms in nearly every State in the Union."
On the matter The New York Herald says: That is true. The amount of capital now invested in the production of trotters is enormous. The number produced is rapidly increasing every year, the quality is steadily improving and the prices they command are rising higher and higher. True, more people are yearly becoming interested in the trotter. Still it may be doubted whether the demand can keep pace with the supply.

Gay Hampton is considered to have grown very much since last season, but the mest three-year-old in the Kingselere stable is Miguel, who is a really charming horse. It will be a great day at Kingselere when Friar's Balsam, Orbit, Napoleon, Gay Hampton and one or two others come upon the famous trial ground, as in all probability they will. Fleur de Lys, the sister to Ormonde, is now a very bair roarer, and as Ossory was the same, the Duke of Westminster may well despair of the blood. It is to be hoped that the beautiful two-year-old sister to Ormonde, now in training, may escape the curse. She is more like Ormonde than any other of the breed has been, and more especially she has his grand reach. There is too, in the stable, a most superb looking youngster called Blue Green, that may rival for Kingselere the doings of Blue Gown. So far, however, none of these So far, however, none of these

A Betting Case in Court. Betting questions are such a rarity in the

law courts that when one does come up it is worth the general attention of racing people. One of these cases was decided in New York on Tuesday. The facts of the case are these: On Aug. 10, 1887, ex-Assemblyman Michael J. Brennan went up to the mutuel boxes at Brighton Beach and bought twenty tickets He claimed that he asked for Elsie B and was given Bellevae tickets instead. Elsie B won, and the value of twenty tickets on her would have been \$755. Mr. Brennan claimed that the Association was responsible for this and sued for the value. The case came up on Saturday last before Judge Morgan J. O'Brien, who practically threw the case out of court on the ground that it was simply a gambling transaction. He then enunciated this very important axiom, that the Ives act did not legalize turf speculation; it simply suspended the criminal clause against it during the time between May 15 and Oct. 15 and on regularly established race tracks. dition and expect to place a strong team in the

Trying to reveal to an anxious reading pub lie the inner thinkings of such men as Bismarek and Gladstone and Salisbury, is apt to be rather unsatisfactory business at best. Let us content ourselves with noting the fact that ady the English press has begun to speculate on the possible results upon England's foreign policy, of the remarkable defeat o The Times newspaper, and of the great change in the general situation, as well as in the prospects of Home Rule, which is now to be ob-

A Change Will Come

Mr. Mowat has decided for the time to retain his grasp on the license machinery of this Province. He and his partners well know what a power it is; they know that by pulling the lever here in Toronto they can make usands of the citizens of Ontario cower in

Mr. Mowat had every opportunity to see what a terrible power this license machinery is and what vile abuse has been made of it. It cannot be denied that this machinery has een used both to extort money for Reform campaign funds from hotelkeepers and to compel them to surrender the sacred rights of free choice in using the franchise. What is the reply of the Government to the charge that such abuse has is the reply of the Government to charge charge that such abuse has carried on? Hon. Mr. Hardy says "he has been told" that no subscriptions were asked from hotelkeepers who were not Reformers and Hon. A. M. Ross flaunts the document signed by hotel and saloon keepers in Toronto, stating that no such coercion had been practised. Does Mr. Ross mean to say shat nine-tenths of the men who signed that

be heard in Canada on the subject of Canada's destiny, if either of them chose to speak, as Congressman Butterworth or Mr. Erastus Wiman. Now the same opinion is being advanced by more than one of four contemporaries. Says The Montreal Witness:

Canada would welcome leading British statesmen and would listen with pleasure to the words of such men as Mr. John Morley, Mr. Goschen, Lord Rosebery, Lord Perby, Lord Raudolph Churchill and Mr. Chamberlan, and if Mr. Gladstone could find time to come over he would probably be done to death by people eager to honor him. We do not see why they should not plead in Canada for Imperial Federation. Britons should be at liberty to speak on Imperial politics wherever the British flag flies. There should be no faeling of intrusion on either side. Canada has faeling of intrusion on either side. Canada has faeling of intrusion on either side. Canada has the Army & Navy stores to ellerc, but we faeling of intrusion on either side. Canada has the Army & Navy stores to ellerc, but we faeling of intrusion on either side. From the writings of H. M. the Queen's Physician in Scotland, T. Granger Stewart, M.D., F.R.S.E., on kidney disease, the following statement is taken: "Dropsy in the form of an asarca is almost constantly present in the early stage and during exacerbations of the inflammatory form." Consequently the attention should be turned to the restoration of the kidneys to a healthy condition on the first appearance of any puffiness or swelling about the eye-lida, ankles or any part of the body. It is not difficult to make a selection of the remedy, for Warner's Safe Cure has long been before the public and given universal satisfaction.

Unprincipled Party Papers.

From The Whitby Chronicle.

It is amusing to notice how smart The Glob. It is amusing to notice how smart The Globe and Empire think they are. One day last week The Empire stated there had been a Grit cancus at Oitawa, and gave the contents of a circular that had been sent to the Grit heelers, to urge them to look after it and get the start of the Tories in making up the next voters lists. The next day The Globe gave a similar circular as the result of a Tory caucus. And each of the two papers glorified itself for being so mighty smart as to get the start of the opposite party. To say the very least of it, each of them did a low, sneaking trick in publishing the opposite party.

The hardware stock of Risley & Kerrigan was sold yesterday afternoon at Suckling, Cassidy & Co.'s auction room to Messrs. M. & L. Samuel, Benjamin & Co. at 77 cents on the dollar, net cash. There was a large attendance of hardware men and the bidding was keen. Among those who bid for the stock were the Hobbs Hardware Co., London; Mulholland & Brown, Cobourg; J. H. Ashdown, Winnipeg, and H. S. Howland, Sons & Co., Toronto. Messrs. M. & L. Samuel, Benjamin & Co. have secured the premises of Risley & Kerrigan in Front-street.

that nine-tenths of the men who signed that document would dare to refuse to put down their signatures? The hawking around of that document was coercion on top of coercion. Robert Davies and Charles Doherty were the men who went round with it. As to thumbscrewing hotelkeepers to vote for the Government or remain silent it is not necessary to give cases. They can be pointed out all over this Province.

MThe World did not bring up the license question for the purpose of injuring the Mowat Government. Its object was to point out to the administration the existence of a pernicious system, under which grave wrongs were being perpetrated, and to effect a change in that system. Mr. Mowat and all of his colleagues have had these wrongs brought plainly before them. It yet remains for the change to be made, but be made it will, be certain of that. The people of this Province have seen the foul effects of the system, even under the administration of Mr. Mowat's pure party, and they will not permit such an engine of tyranny to remain in the hands of any Government.

the new subway of King-street, under the new of the Grand Trunk and the C.P.R., and

ance, expediency, or intentionally? One can be dishonest and yet say nothing.

A clerk who lets a customer buy a damaged piece of goods, a witness who holds back the truth which would clear a prisoner, a medical practitioner who takes his patient's money when he knows he is doing him no good,—all are culpably dishonest.

It is generally known that doctors bind themselves by codes, resolutions and oaths not to use any advertised medicines. Now, there is a medicine on the market which, for the past ten years, has accomplished a marvelous amount of good in the cure of Kidney and Liver diseases, and diseases arising from the derangement of these great organs,—we refer to Warner's Safe Cure. So widespread are the merits of this medicine that the majority of the doctors of this country know from actual evidence that it will cure Advanced Kidney Disease, which is but another name for Bright's Disease.

The medical profession admit that there is no cure for this terrible malady, yet there are physicians dishonest enough to procure Warner's Safe Cure, put the same into plain, four-ounce vials, and charge their patients \$2.00 per vial, when a sixteen-ounce bottle of the remedy, in its original package, can be bought at any drug store in the world for \$1.25.

Perhaps the doctor argues that the cure of the patient justifies his dishonesty, yet he will

bought at any drug store in the world for \$1.25.

Perhaps the doctor argues that the cure of the nation justifies his dishonesty, yet he will boldly stand up at the next local medical meeting and denounce Warner's Safe Cure as a patent medicine, and one which he cannot and will not use.

The people are waking up to the truth that the medical protession is far from honest, and that it does not possess a monopoly of wisdom in the curing of disease, doctoring the many symptoms of kidney disease, instead of striking at the seat of disease—the kidneys themselves,—allowing patients to die rather than use a remedy known to be a specific, simply because it has been advertised, and when patients are dead from Advanced Kidney Disease, still practicing deception by giving the cause of death in their certificate as pheumonia, dropsy, heart disease, or some other accompanying effect of Bright's Disease.

Those of the gentle sex who have experienced the pain and anneyance caused by excoriated nipples and inflamed breasts, can well appreciate the value of a remedy which removes the trouble. This is precisely what Dr. Thomas Eclectric Oil does, besides curiug, when used

This year will see a great improvement made in West Toronto Junction. The large four story factory built by the Heintzmans along; side the Canadian Pacific Railway track, has just commenced operation. In a few weeks the full staff of hands will be at work, numbering about 150. The new factory built east of the Canadian Pacific Railway station by the Dodge Wood Split Pulley Co. is being set to work. This factory will employ about 10b hands. When these two factories commence running there will be an addition to the population of close on a thousand. The other factories located here are all busy. The Dominion Show Case Company is also turning out large quantities of manufactured goods. West Toronto Junction on account of its unrivalled shipping facilities is such a favorable point for the establishment of factories that sites are being sought after by manufacturers. the country as well as city people are preparing to build. As far as convenience to the centre city is concerned people might as well live here as in Bloor-street. Residents can get to town cheaper and quicker than people living in Bloor-street north of the Park, or for that matter in St. George-street. Distance is computed by the minute now, not by the mile. Thus the Junction is only three minues by train from Parkdale and between ten and fifteen minutes from Union Station. As to car utes from Union Station. As to car fare, yearly return fares are sold at 2½ cents each way, or about half street car rates. Add to the cheapness of the fare the speed with which residents can get into town the country location so desirable, especially in summer, and you have the advantage there is in living at the Junction,

sirable investments in the west. It is right between High Park and Parkdale fronting or the Lake Shore road. The land is in comparatively few hands and is offered at very low rates considering the location. Windermere which is just west of Sunnyside and High which is just west of Sunnyside and High Park, is the site of the bolt works, the rolling mill and the terminus of the C.P.R. spur line down from West Toronto Janction. A fine large wharf is to be built near the mouth of the Humber, thus giving splendid facilities for traffic by rail and water. Sunnyside has full benefit of the suburban railway trains and is at the terminus of the Queen-street street cars. By next fall the King street cars will also terminate at Sunnyside. Mr. R. McDonell of No. 9 York Chambers is one of Toronto's leading laud brokers who is largely interested in Sunnyside and in West Toronto Junction, and he has every confidence in the values which these districts command at present, and even more confidence in the certainty of their rapid rise by reason of the many advantages which they possess. advantages which they possess.

used in this and every other civilized country, and is recognized as the most beneficial remedy known to man. It has long been recognized (though not publicly) by the medical profession as the most valuable compound for the general restoration of the human system, by putting the kidneys in a healthy condition, as when these great organs are restored to a healthy action then the poisonous wastematter is expelled by the only blood-purifying organs of the system.

New are aware that the kidneys are the only organs that can purify the blood. only organs that can purify the blood.

Fancy the danger of poisoned blood continually coursing through the body—65 gallons of blood per hour, of 48 barrels per day, pass through the kidneys, yet the unsuspecting regard them as of little importance until they are stricken down. Poisoned blood engenders daylilly and the stricken down. general debility, pneunonia, lung and bronchial troubles, paralysis, apoplexy, heart complications, rapidly failing eye-sight, scrofulous and cancerous sores, and other serious maladies, which might be averted if the kidneys properly performed their work and expelled the poisonous waste matter.

When the medical profession will strike at the root instead of hewing the branches, then we can hope for a happy relief from many of the ills of the present day. When diseases are called by their right names, and the real are called by their right names, and the rea auses of death are made known, instead of death from symptoms of kidney disease, it is then that the people will become more fully swars of the terrible fatality of diseases caused by imperfect action of the kidneys.

The great demand for a pleasant, safe and reliable antidote for all affections of the throat and lungs is fully met with in Bickle's Anti-Consumptive Syrup. It is a purely Vegetable Compound, and acts promptly and magically in subduing all coughs, colds, bronchitis, inflammation of the lungs, etc. It is so palatable that a child will not refuse it, and is put at a price that will not exclude the poor from its benefits.

and just now it is hovering over the village of Mimico, which is to be Toronto's new suburb on the west since Parkdale has become part of the city.

Easy of Access.

The remarkable growth of Toronto, the inclusion of Parkdale, the laying out and development of High Park, the large manufacturing industries that are springing upon on the city side of the Humber and the uncqualled advantages that Mimico has and the still greater ones it is likely soon to obtain more than justifies the enterprise of these men in selecting Mimico as the new Parkdale or the western suburb of Toronto, The facilities for reaching it now enjoyed are of such a nature to secure cheap, rapid and comfortable transportation all the year round without interruption of any kind, making it as accessible to the centre of Toronto as many of the northeastern and northwestern portions of the city which are connected only by street car lines.

Other Advantages. The next great feature of Mimico is that it is right on the lake front, occupying one of the most delightful situations which command the blue waters of Ontario. From the mouth of the Mimico river westerly there is a magnificent beach and already a driveway has been planned along it, forming, as it were, an extension of the lake shore road. The view of the lake, of Humber Bay, the Island, the city, from Mimico is a glorious sight by

night or day.

The next important feature is the water supply, which can be made of the most ample character at a very small expense for pumping engues and street mains. The water is of the nurser combine.

engines and street mains. The water is of the purest quality.

The next feature is that of drainage. The new district slopes gradually down to the lake and no trouble need be found in constructing the necessary sewers and securing for them a satisfactory fall.

Still another feature is that the new municipality is within half a mile of High Park, which is already in the way of becoming one of the finest-public resorts owned by any city on the continent.

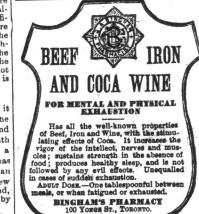

Headache, fickle appetite, failure of eyesight, tube casts in urme, frequent desire to urinate, especially at night, cramps in calf of legs, gradual loss of flesh and dropsical swelling, any one or more of the above disorders are symptoms of advanced kidney disease, or Bright's Disease, and Warner's Safe Cure should be freely used according to directions. Dr. Wm. H. Thompson of the City of New York says: "More adults are carried off in this country by chronic kidney disease than by any other one malady except consumption. The late Dr. Dio Lewis says, over his own signature, in speaking of Warner's Safe Cure: "If I found myself the victim of a serious kidney trouble I should use your preparation." hould use your preparation."

dysterious Healing Power By "Laying on of Hands." PROF. LEMON, Esoteric Physician and Magnetic Scientist.

Dr. Lomon is no doubt the most powerful esoteric and magnetic physician in the world. I hereby certify that my daughter, Miss Lily Lucas, who has suffered from "Ulcerated Catarrh" for the last 8 years, is now perfectly cured after two months' treatment by Prof. Lemon. (Signed) G. N. LUCAS.

Miss M. C. H. of 77 Huron-street writes: "Doctor, you have saved my life. I was a very great sufferer from chronic dyspepsia for years. When you first saw me I was a wreck, dying by inches, could not bear anything on my stomach and the pain was nearly as great when empty, nearly sleepless, stools white, urine thick, red, bricky, obstinate costiveness. Now I can eat, sleep and digest good."

Jno. B. Partridge of Massey, County Grey, stiff knees from rheumatism, very painful, could not work, crooked, contracted, went home rejoicing, walking freely without pain, limbs straight in a week.

L. Pears, Esq., Davenport, received renewed hearing, and can now hear sermons from any part of the church.

This is to certify that I have been a great sufferer for some length of time from NEURALGHAOF THE NERVES, and am happy to state that Lam feeling much better from the "magnetic treatment" of Prof. Lemon, M.D.

(Signed) Mrss. BATE, 67 Gloncester.

A young married lady under treatment for chronie womb disease was speedily relieved, able to be about as well as ever in 4 weeks. A middle-aged lady suffered from neuralgia of the heart many years so she could scarcely draw a long breath, never slept on the left side, sleep bad any time! Cured.

A lady deaf 15 years, could not hear a watch; after five minutes' manipulation heard well. She presented the doctor with a valuable Bible in gratiude.

Dr. Lemon is the only regularly educated and leady and heart and heart who well.

### ITS SITUATION

Is too well known to need description. As it lies between the City and West Toronto Junction it is rapidly filling up with houses and shares in the prosperity and growth of both places.

### SEWERS AND WATER

Are being laid on some of the streets and a great many houses are building.

### Factories Are Springing Up

Around it owing to the excellent Railway facilities.

The present terminus of the Street Cars is within a few minutes' walk.

Suburban stations of the Grand Trunk and C.P.R. are at hand.

### WE ARE OFFERING BLOCKS ON

Churchill, Cooper and Campbell-avenues, Albert, Mackenzie, St. Clarens and Emersonavenues. (The three latter have been opened out to Bloor-street). Also, Wallace and Lappin-avenues.

Which shows the activity of the market and the confidence of the public in the prosperity of the City, and we propose to make the total Haif a Million. Carriages always ready to drive out intending purchasers.

VICTORIA-ST.

Youge-street is the gateway to Toronto. It is the only thoroughfare for the immense traffic from the populous north. The traffic along Youge-street is far greater than that along any other street, as is illustrated by the fact that the toll-gate in Youge-street collects as much money as any other seven suburban toll-gates. The progress of events proves that the expansion of the city northward will be as great as in any other direction. Means of communication with the north are already as good as with any other section by street car service and all that is needed is the additional rapid transit to be given under the Belt Line Railway Act, which has now passed its third reading. Present prices are not one-quarter of those asked for land at corresponding distance from business centre along king, Queen, Dundas, Bloor, etc., as the following comparison shows:

\$25 TO 30 YONGE-STREET IS THE GATEWAY TO TORONTO.
