TURKISH ARMY CANNOT HOLD OUT MUCH LONGER Sixth Air Attack on England Since Last Tuesday CANADIAN PLANTS MAY PRODUCE 3000 BIG GUNS FOR BRITAIN

SIXTH AIR RAID ON ENGLAND RESULTS IN LITTLE DAMAGE, AEROPLANE WAS CHASED OFF

Kentish Coast Visited By Hostile Airman, Whose Bombs Caused Injury to Four People and Damaged a House.

LONDON, Sept. 13, 11.30 p. m.—An official statement issued by the press bureau says:

"A hostile aeroplane visited the Kentish Coast this afternoon and dropped some bombs, which resulted in a house being seriously damaged and four persons being injured. The aeroplane was chased off by two naval aeroplanes."

It is officially announced that Admiral Sir Percy M. Scott, former director of naval gunnery practice, has been appointed to take charge of the gunnery defences of London against attacks by enemy aircraft.

Official announcement was made yesterday of a Zeppelin raid on the east coast Sunday night. There were no casualties. Yesterday afternoon's raid makes the sixth since Tuesday night. In all, 37 persons were killed and more than 100 injured.

GERMAN TOWNS BOMBED BY FRENCH IN REPRISAL

Half Dozen Places Visited, Including Donaueschingen, on Danube—Bank of Empire and Station at Treves Hit by Hundred Shells.

Special Cable to The Toronto World.
PARIS, Sept. 13.—Not less than half a dozen German towns, stations and military objects, were bombed by French aeroplanes today in reprisal of the recent bombardment of Lunville and Compiègne by German aeroplanes. Sensible damage was done. The French official statement on aerial operations follows:
"In retaliation for the recent bombardment of Lunville and Compiègne by hostile aeroplanes, a squadron of 13 aeroplanes flew over the Town of Treves this morning, dropping about a hundred shells. The station and the Bank of the Empire were undoubtedly reached. The same squadron, after having returned to its base, in the afternoon dropped fifty-eight shells on the station at Dommary and on Baronpout.
"Other aeroplanes bombed from a low altitude the stations at Donaueschingen, on the Danube, and Harbach. In one region where the movements of troops were reported the efficacy of our fire against the objects aimed at was established, including a train in transit, which was obliged to stop."

BILLION DOLLARS SOUGHT FOR ANGLO-FRENCH LOAN

New York Report Says Money Will Be All Spent on This Side of the Atlantic in the Purchasing of Wheat, Cotton, Meat and Munitions.

NEW YORK, Sept. 13.—The present plan of the joint Anglo-French financial commission, it was reported tonight, is to borrow \$1,000,000,000 in the United States on straight French Government bonds without collateral.
If this vast sum is obtained it is to be spent in the United States in payment of wheat, cotton, meat and other commodities, including munitions of war. It will be classified as a commercial loan.
Whether the neutrality of the United States would be questioned in case the bankers financing the mammoth loan should accept straight British and French Government notes, as security, has been given serious consideration. It was said United States financiers believe that Washington would not object.
"We are not in a position to make a statement at the present time," Lord Reading, chairman of the commission, said, "because we are studying the prominent bankers and other gentlemen, who are interested in the stabilization of New York and elsewhere in relation to American exchange on London and Paris. We have received very considerable number of persons, very of exchange."

PRIVATE COMING TO TORONTO EXPLANATION IS EXPECTED

"Rest Easy Until I See My Lawyer," He Telegraphs to Toronto—Can Have All Space He Wants in Toronto World.

Arthur Private is in Montreal and hopes to be in Toronto on Thursday, so The World was informed last night. The World will give Private all the space he wants in this paper to answer the questions which it has asked him and to give a complete accounting of his activities in Canada. One telegram which he sent to a Toronto man yesterday read something like this: "Rest easy until I see my lawyer."
Up to last night no meeting had been held or other step taken by his associates in Toronto to make the public explanation which The World has demanded. They are all waiting for Private to come and do it himself.
In the meantime The World has come into possession of two postcards from soldiers in the trenches who have received allotments of tobacco thru Private's efforts.
One is from a soldier in "E" Company, 4th Battalion, Seaforth Highlanders (The British Army). It says: "Your handsome gift of cigarettes to hand the other day while I was in the trenches, where I still am. I am enjoying it daily and thank greatly to you for your kind contribution."
A printed line says: "The smokes sent with this postcard were supplied to the Tobacco Fund by Martin's Limited, 210 Piccadilly, London, W."
The second card came from a Canadian soldier at the front, whose battalion number is not stated. The card was received by a man in Radville,

IMPORTANT MEETING

Leading Business Men Discussed War Equipment Question at Ottawa.

By a Staff Reporter.

OTTAWA, Sept. 13.—The imperial government has intimated that it will place orders here for 2000 to 3000 heavy guns, to be delivered within a two years' period, if the Canadian manufacturers are able to make them. Gen. Mohan, who is here from the war office, conveyed this information to a conference of leading manufacturers and bankers whom Gen. Sir Sam Hughes had invited to Ottawa to consider the question.
This conference was one of the most representative gatherings of business men ever held in Canada.
Compared with the making of big guns, the manufacture of shells is simple but successfully has Canada been playing her part in the furnishing of shells and other munitions of war, which have been sent to her, that the war office has decided to invite Canada to produce also the heavier war material. The big guns asked for include field guns and 12-inch howitzers, and the Canadian workshops turning out at present the smaller arms and munitions would require much new and costly equipment.

Large Central Plant.
Gen. Mohan suggested to the conference that the various parts of the (Continued on Page 2, Col. 2).

Premier Borden Repeats That Adequate Transportation is in Sight.

TASK IS IMMENSE

Great Preparedness of Germany Forces Grudging Admiration of Foes.

By a Staff Reporter.

OTTAWA, Sept. 13.—Sir Robert Borden in opening the Central Canada Exhibition made an appeal for the largest agricultural production of which Canada is capable. If the farmers realized the situation they would see that this was the duty that lay before them. The transportation of supplies had been satisfactorily arranged for and this paved the way for Canada to supply the mother country with necessities. The prospect of a record-breaking harvest placed the Dominion in a position where she could supply the allies with foodstuffs and other essentials.
"The only thing which remains is that the Canadians generally will realize the greatness of the task before them and will realize their duty. If this is done there can be only one conclusion being the war, a victorious one of honorable peace," declared the premier amid cheers.
Preparation, he added, was an essential to success. The great preparedness of Germany had forced the grudging admiration of its foes.
Adequate measures must be taken for the future, and it was necessary that the citizens should be aroused, and the agricultural interest of the country must be preserved, and their efforts would tend towards solving the problem in a great measure.
The example of France was held as worthy of emulation. Sir Robert declared that he had witnessed fields being tilled even to the line of trenches by women, old men and children.
"The French people are realizing to the fullest measure the struggle they are engaged in, and are making every provision to meet it. This spirit should also be shown by Canadians," declared Sir Borden.

ROUMANIA HAS MOBILIZED GREAT FORCE OF TROOPS

Action Said to Be Taken to Counter Unexpected Concentration of Austrians in Transylvania—Railway Traffic Suspended on Frontier.

ATHENS, Sept. 13, 2 p.m., via Paris, Sept. 14, 120 a.m.—It is reported in diplomatic circles here that there has been a heavy mobilization of Roumanian troops, including several regiments of cavalry, to face an unexpected concentration of Austrians, which is directed presumably against Roumania.
Railroad traffic in northwestern Roumania is declared to have been suspended in favor of the troop movements. All horses have been requisitioned. The second series of reserves are now with the colors.
It is asserted that the Austro-German allegation is that the concentration is directed toward the suppression of espionage in Transylvania, but this statement is not taken seriously.

WILSON STICKS TO HIS DEMAND FOR REPARATION

Attack by German Submarine Upon Arabic Must Be Disavowed.

AWAIT BERLIN'S REPLY

Von Bernstorff Was Plainly Told of Views Washington Holds.

WASHINGTON, Sept. 13.—Conferees today between President Wilson and Secretary of State Lansing and Count Von Bernstorff, the German ambassador, brought the situation facing out of the German submarine activities to the following status:
(1) The German ambassador has been furnished with the evidence of officers and survivors of the Arabic, all agreeing that the liner was torpedoed peacefully when torpedoes without warning, and has been advised that the United States desires a disavowal of the attack and reparation for the American lives lost.
(2) The evidence will be sent by Count Von Bernstorff to the Berlin foreign office, to which it has not been available before, and probably ten days will elapse before Berlin can be heard from. In some quarters it is believed possible that the foreign office, upon examining the evidence, may change its position and disavow the action of the submarine commander, who it was claimed in the last note, sunk the liner because he thought she was about to attack him.
All Facts Collected.
(3) The United States has all information on the case as it now stands and is ready to decide upon its course. Her action may be delayed until Count Von Bernstorff has had time to exchange communication with his government.
(4) While the United States will not consent to arbitration of a principle nor of a question involving the safety of American lives, it has accepted Germany's assurances that peaceful liners will not be torpedoes to arbitrate amount of indemnity and the question of whether the Arabic actually attempted to attack the submarine or whether her actions justified the submarine commander in believing he was about to be attacked, that probably would be agreed to.

Muscovites Win Considerable Success in Galicia—Germans Admit Retreat.

LONDON, Sept. 13, 9:45 p.m.—By one of those baffling offensives which, although costly in men and munitions, have invariably been successful, Field Marshal Von Hindenburg's army has at last got foot on the Rovno-Petrograd railway between Vilna and Dvinsk. The whole Austro-German forces have been striving to gain this railway since the fall of the Polish fortresses.
The offensive, which began toward the end of last week, was carried on from three directions upon Dvinsk and while further south the invaders advanced towards Vilna. The Russians, before superior forces supplied with the usual mass of artillery, were yesterday forced back to the lake district which the railway penetrates, and are now making a stand there. Simultaneously, the Germans pushed their way eastward towards Sionim and Pinsk, both of which are on roads which join the main railway line, while the Austrians, with whom there are many German units, are fighting hard to reach Rovno, the southern terminus of the line.
Germans Retreat in Galicia.
With this railway partly in the hands of the Germans it is probable that the Russians will be compelled to make a further retirement, although their offensive in Galicia, which commenced on the 7th, has been checked.

BRITISH PARLIAMENT WILL CONSIDER TAXES

New Levy to Be Made—Compulsory Service Under Discussion.

LONDON, Sept. 13.—The session of the British Parliament, which opens Tuesday, will be chiefly occupied with arranging to finance the war. This will include the levy of new taxes. However, under the British system, whereby ministers can be questioned and debates raised, many other matters will be discussed. Compulsory service is certain to come in for consideration, and on this the cabinet is said to be divided.

German Staff at Constantinople Informs Berlin That Effective Aid Must Be Sent Soon or Turkey Must Quit.

ATHENS, Sept. 13.—It is learned from a quite reliable Turkish source that the German staff in Constantinople have informed the imperial military authorities in Berlin that it is impossible for the Turkish army, unless it receives effective help, to hold out longer than Sept. 25. In further reference to statements regarding the reported Austro-German plan to attack Serbia, it can be said that up to three days ago, airman's reconnaissances led to the discovery of a force of only 30,000 men on the frontier. The airman penetrated a considerable distance into the enemy's country and did not see any additional troops or any signs of a concentration of hostile forces.

NEWFOUNDLAND IS DOING ITS SHARE

Twelve Hundred Sailors Among Three Thousand Who Volunteered.

ADMIRALTY PLEASED

"Send Us Some More," is Message Sent to Island.

By a Staff Reporter.
OTTAWA, Ont., Sept. 13.—"All the Newfoundland volunteers for overseas service enlisted as privates. They were all sent to England, and it was left to the war office to appoint field officers from the imperial army and to promote them from the ranks."
These were two of the statements made today by P. T. McGrath, the well-known Newfoundland newspaper man and politician, who is in Ottawa.
The Newfoundlanders were the first non-Scottish regiment ever allowed to garrison Edinburgh Castle. The first battalion will go on from Egypt to the Dardanelles.
Of the 2000 enlisted, 1500 are sailors, and there is a training ship at St. John's. Two were with Sturdee's squadron, one was with Bessy when the Blucher was sunk, others are with the Queen Elizabeth in the Dardanelles. Sixty perished in three naval disasters last winter. Many are being used on trawlers and mine-sweepers. They are found to be very effective look-outs and for handling small boats. The admiralty is highly pleased with them and has asked for all Newfoundland can give. There were 102 on the Canadian ship Iloha, and they are going on to England.

Ninety-One Per Cent. in Excess of Last Year's Inferior Yield.

THREE MILLION BUSHELS

Manitoba, Saskatchewan and Alberta Are Leading Provinces.

By a Staff Reporter.
OTTAWA, Sept. 13.—In a bulletin issued today the census and statistics office publishes its annual preliminary estimate of the production in Canada of the principal grain crops.
The preliminary estimate of this year's wheat crop in Canada is a total of 306,939,800 bushels from 12,986,400 acres, representing an average yield per acre of 23.7 bushels. This total is 147,569,800 bushels, or 91 per cent. in excess of last year's inferior yield of 161,370,000 bushels, 77,122,800 bushels, or 33 per cent. in excess of the previous highest yield of 231,717,000 bushels in 1912; and 112,514,000 bushels, or 58 per cent. in excess of the annual average yield of 196,020,000 bushels for the five years 1910 to 1914. In acreage, average yield per acre and in the total yield the present estimate is the highest on record for Canada.
Of oats the total yield for 1915 is estimated at 488 million bushels from 11,366,000 acres, an average yield per acre of 42.94 bushels.

Sixth School of Artillery Opens—Soldiers' Convalescent Home About Ready.

By a Staff Reporter. KINGSTON, Ont. Sept. 13.—Notwithstanding the heavy rains during the summer months the farmers in the townships of Pittsburg, Howe Island, Storrington and Loughboro report their grain the largest yield they ever had.

The farmers in these townships responded to the cry for increased production in great style, and as a result most of the barns are filled to the roof with threshed grain.

Ernest Prevost, 25, single, employed as a cheesemaker at Mount Chesney, was found dead in his bed by his brother.

William Allison, a prominent farmer of Pittsburg Township, was seriously injured when his horse ran away when frightened by an automobile and motorcycle.

Major R. J. Gardner, acting assistant director of medical services of the third division, will open Kingston's first convalescent home for soldiers in the course of a few days in the beautiful home of Hugh Macpherson, offered to the government for that purpose.

Monday afternoon the Sixth School of Artillery opened here. Since the school was started 726 men have attended these courses, including 325 commissioned officers and 400 non-commissioned officers. The fifth school closed Saturday.

Following a short illness the death occurred at noon yesterday at his residence in Collingwood of the Rev. Gregory Kernahan, the parish priest of the town.

The late Father Kernahan was born in St. Catharines, but lived for many years in Toronto. He was ordained in 1897 and immediately took up duties in St. Michael's Cathedral, shortly afterwards being appointed curate at St. Mary's. In 1911 he was made curate to the Rev. James Walsh of St. Helen's Church, West Toronto, and early last spring became secretary to His Grace Archbishop McNeil. He was appointed rector of Collingwood four months ago. FACTIONAL FEELING IN DUAL MONARCHY

Dumba Affair Has Caused Split and Feeling Against Germany.

TOOL OF BERNSTORFF

Baron Burian Said to Have Resented Evident German Domination.

GENEVA, Switzerland, Sept. 13.—The Vienna morning newspapers are replete with leading articles on the news concerning Dr. Dumba, the Austrian ambassador to the United States, considering the affair one of vital interest. From these articles it would appear that the request for his recall has divided Austro-Hungarian statesmen into two camps. Those of the party of Baron Burian, the foreign minister, apparently are persuaded that Ambassador Dumba acted under the influence of Count von Bernstorff, the German ambassador to the United States, without orders from the home government. The Hungarian party, on the contrary, believes that Dr. Dumba did his duty in order to prevent arms and ammunition reaching the powers of the quadruple entente. It is gleaned from the newspaper articles that Emperor Francis Joseph was displeased when he learned of the action that had been taken by the United States in the case of the ambassador. It is likewise said that telegrams of somewhat bitter tone were exchanged on the subject between Foreign Minister Burian and Dr. von Bethman-Hollweg, the German chancellor. The question of diplomatic relations with the United States is being discussed by the papers.

JOHNSTON DEFENDING EX-PREMIER ROBLIN

Crown Will Be Ready to Proceed With Charges Today.

WINNIPEG, Sept. 13.—Sir Rodmond Roblin and Messrs. Montague, Coldwell and Howden appeared at 2:30 this afternoon before Magistrate F. MacDonald, in accordance with their demand for preliminary hearing on charges of conspiracy to defraud the Province.

E. F. B. Johnston, K.C., and Gideon Grant of Toronto acted with local counsel for the defence, and R. A. Bonnar had charge of the prosecution with J. B. Coyne.

Mr. Coyne announced that no witnesses would be called this afternoon but the crown would be ready to proceed tomorrow morning. Mr. Johnston agreed that the case stand over until tomorrow, in order that production might be completed, and also because he thought there should be severance of the interests of the defendants. He personally would represent Sir Rodmond, A. J. Andrews would represent Dr. Montague, F. M. Burbridge would represent Mr. Coldwell, and Mr. Howden would be represented by W. H. Hastings. Johnston said he himself would undertake the major portion of the cross-examination. The court adjourned until 10:30 tomorrow.

Retire From Warsaw-Petrograd Trunk Line to Swampy Area.

(Continued from Page 1).

There is now no doubt of Russian successes in this district, as following the Austrian admission of their retreat, the Germans admit their position after repulsing Russian attacks they occupied a favorable position situated some kilometers west of a former position.

Doleful Reports of Foes.

The conditions under which the troops are fighting in the marshy country in the centre and on the southern end of the line are described by German correspondents as most terrible. The country is practically all under water, thru which the Austro-Germans have to advance against well prepared Russian positions. The eastern bank of the Sereth, from which the Russians are delivering their counter-attacks, is a veritable fortress from which the Russians emerge every time their opponents approach, taking heavy toll of them in killed, wounded and prisoners. According to the Russian accounts nearly 30,000 prisoners have been taken in the fighting along this river.

Artillery Duel in West.

The operations in the west are marked by the continuance of the great artillery battle from Belgium to the Argonne. A duel between guns of all calibres along the entire front has now been going on for nearly three weeks, and during the week-end has been particularly violent around Arras, in the Argonne and Champagne.

At several points the German infantry, after a heavy bombardment, attempted to storm the advanced trenches of the allies, but the French reports say that these attacks all failed. Fighting of a somewhat similar character is proceeding along the Austro-Italian front.

This makes two raids in two nights. Saturday night's was likewise futile. "Hit Enemy's Pocket." The demand is made by The Globe for effective measures of reprisal for the Zeppelin raids. "It is useless to disguise the fact that nothing big or strong will be done unless the govern-

Live Better on Less Money

Toronto citizens who want a really serviceable answer to the 1915 problem: "How to live as well this year on less money than last," will find it in Hydro service.

You believe in lighting your homes by Hydro Electricity, yet many forget that Hydro Service does not stop at house lighting. Hydro offers the same comfort, convenience and economy all through the house.

Wash Your Clothes

Hydro Washing Machines solve your wash-day problems. Madam herself can do the work—what little there is. The newest machines do the actual rubbing and wringing. All you do is feed the clothes in and out of the tub.

Iron Your Clothes

The blessings of a Hydro-Electric Iron in the house are second only to the virtues of Electric Light itself. No woman has ever used an Electric Iron but finds an hour's real enjoyment with the Iron, a basket of clothes and a comfortable chair. No walking, no half-heated or over-heated irons. Prices, \$2.60 up.

Cook Your Food

Electrical Cookery is here to stay. It's a big money-saver in every way. Cooks better—far better, and at less cost. The monthly cost per person, for an average family, to use Hydro current for cooking purposes is only 35 cents.

Sweep Your House

Hydro Vacuum Cleaners, in wide variety, from \$35.00 up, enable you to house-clean every week, banish the dust evil and save the family health. Come in and see how they work.

Warm Your House

From large fireplace heaters down to wee portable "stoves" that you can carry about, priced at \$4.50, you can get every style and size of Hydro Electric Heaters. Clean, smokeless, odorless and cheap—that's Hydro heat.

Light Your House

Not only with current at cost, but with the latest Electric Lamps of all sizes and styles. One of the first things to plan to do is to have Hydro Service connected on—the system that made light cheap in Toronto.

Make Tea and Toast

To say nothing of coffee—Hydro Tea Pots, Hydro Toasters, Hydro Coffee Percolators and many other services are, perhaps, amongst the minor uses for Hydro, but the good work they do at insignificant cost more than justifies their presence in the home where "comfort that saves money" is the watchword.

A phone call brings our solicitor, without obligation to you. Better still, come in and see what we have, and talk it over with our courteous sales staff.

HUGE STEEL ORDERS HELP N. Y. MARKET

Prospect of Considerable Amelioration in Demand if French Loan Succeeds.

CREDIT YET UNCERTAIN LATER CAME REBOUND

Bonds Irregular Owing to Further Offerings From Abroad.

NEW YORK, Sept. 13.—Wall Street's absorbing interest in the diplomatic situation, and the outcome of the impending French loan, today averaged a steady decline in the dullness of today's trading. The market was a state of suspended animation for the greater part of the session but became active and strong in the last hour on reports that the French and Berlin had agreed to submit the main points of the Arabic incident to arbitration.

British Supplies Apparently Show Unusual Decrease for Season.

CHICAGO, Sept. 13.—Fear that wet weather in the northwest might prevent timely deliveries on contracts made this week today averaged a steady decline in the dullness of today's trading. The market was a state of suspended animation for the greater part of the session but became active and strong in the last hour on reports that the French and Berlin had agreed to submit the main points of the Arabic incident to arbitration.

GOLD! GOLD! GOLD!

Northern Ontario is rapidly becoming the greatest gold mining region in the world. Porcupine is already a very rich camp. In the Murray-Lesson in Munro, has produced fabulously rich ore, and Kowkash is now attracting much attention. We can sell at a very reasonable price a limited number of shares in one of the best companies in the North. This company has the gold, the real yellow metal. One hundred shares were found was guarded day and night, but notwithstanding this, it is estimated that high grade removed over \$30,000 in gold. There are many rich veins on this great property. These statements we can absolutely prove. We have the report of a leading expert and other data which will be sent on request. We have also for sale a limited number of shares in one of the best companies in the North. We keep in very close touch with conditions in the mineral district, and deal only in the safest and most profitable investments. Get all particulars and be fully convinced.

NEW SHAFT AT DOME WILL SPEED UP ORE

COBALT, Sept. 12.—Owing to the fact that the present Dome shaft is entirely in ore, it has been decided to sink a new shaft which will be from the mine will be hoisted. This shaft will be sunk on an incline from a point between the office and the mill. The ore will first of all be crushed to six inches in the new all-steel jaw crusher, then brought to the surface by the new incline shaft in fast running dips. It is probable that an entirely new crusher plant will be installed at the new shaft, and the ore will go direct from it into the bins of the mill. By this rearrangement it will be possible to speed up productions very materially. At present more ore can be broken in the mine than can be handled in the mill, but the capacity of the mill is going to be enlarged very shortly.

SURPLUS OF SUPPLY ON THIS CONTINENT

James J. Hill says: A careful estimate shows that total requirements of Continental Europe for coming year will be about 550,000,000 bushels of wheat. The United States will have not less than 375,000,000 bushels to sell of its big crop.

MONTEAL STOCK MARKET.

LONDON, Sept. 13.—The money market was busy today preparing for the payment of tomorrow's call on the war loan amounting to about \$40,000,000. Discount rates were steady.

U. S. STEEL THE BUY.

J. G. Beatty had the following at the close: We have felt for some time that United States Steel is the stock to buy if we are to see much improvement in the general situation. Recent developments tend to confirm this view. Some of the railroad stocks are also likely to improve.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, Sept. 13.—There continues to be a steady demand from foreign buyers for Manitoba wheat for export. Business was done, but exporters stated that the bids for future shipment were not so high. Course grain quiet. Flour steady. Milled flour. Butter firm. Cheese quiet. Eggs firm.
