The copy filmed here has been reproduced thanks
to the generosity of:

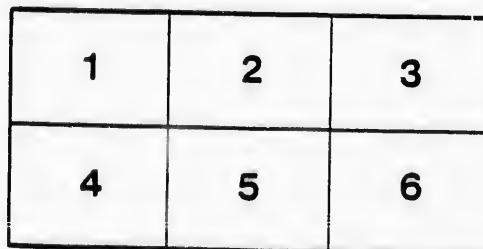

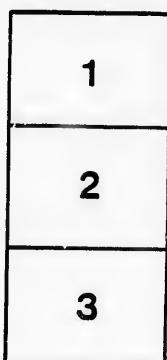

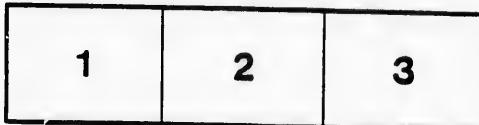

Manuscript Division
Public Archives of Canada

The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impres-
sion, or the back cover when appropriate. All
other original copies are filmed beginning on the
first page with a printed or illustrated impres-
sion, and ending on the last page with a printed
or illustrated impression.

The last recorded frame on each microfiche
shell contain the symbol ➤ (meaning "CON-
TINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

L'exemplaire filmé fut reproduit grâce à la
générosité de:

Division des manuscrits
Archives publiques du Canada

Les images suivantes ont été reproduites avec le
plus grand soin, compte tenu de la condition et
de la netteté de l'exemplaire filmé, et en
conformité avec les conditions du contrat de
filmage.

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plat et en terminant soit par la
dernière page qui comporte une empreinte
d'impression ou d'illustration, soit par le second
plat, selon le cas. Tous les autres exemplaires
originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole ➤ signifie "A SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
reproduit en un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,
et de haut en bas, en prenant le nombre
d'images nécessaire. Les diagrammes suivants
illustrent la méthode.

To the Right Honourable the EARL OF C
Government of the Province of Canada,
Forces in British North America, &c., &c.

The Petition of the Inhabitants of the Township
North Easthope, South Easthope, Ellice,
McKillop,

Humbly showeth,

That your Petitioners reside in the interior of the Country, at a distance of 20 to 80 miles communication with Lake Ontario, and that all the produce of this important section of country only mode of Conveyance your Petitioners have, or can avail themselves of, for the transport of wants of a large and increasing population, is by the ordinary modes of carriage by Waggon's conveyance are always attended with a heavy expence, even on good roads, and on bad roads by Your Petitioners feel grateful for the facility afforded them by that portion of the D. Gas and W. nication with Lake Ontario. The works on this Road having been commenced at L. h. ends at c. the work; for want, therefore, of the necessary means, the centre (which is the worst part of the R. to us, and much less productive in point of revenue. Your Petitioners believe if this Road was f. produce a revenue sufficient to redeem the principal within a reasonable time.

Your Petitioners beg leave further to represent to your Excellency, that a part of the adamanized Road at Galt, passing through part of the Townships of Dumfries and Waterloo, and the hilly and uneven character. If a Government Grant of the small sum of £2000 was given to aid a. of this part of the line, and this expended under the direction of a skilful Engineer, and management ditching the low and swampy parts, your Petitioners would be able to convey as much over such a R.

Your Petitioners would beg leave respectfully to remind your Excellency, that while Canal and River St. Lawrence, the advantages of which are equally participated in by the neighbouring Roads, the wisdom of which your Petitioners are not disposed to question, nothing for many years has changed the situation, and the growing importance of their District, have strong claims on your consideration.

Your Petitioners therefore humbly pray that your Excellency would take into your serious labour under, on account of the distance they are obliged to convey their produce to market over Waterloo Road, and a further grant of £2000 to be expended on the best and most direct line of Road f.

And your Petitioners, as in duty bound, will

Colonies of Canada, and Commander-in-Chief of Her Majesty's
Forces in America, &c. &c.**

Linthope, Ellice, Downie, Fullerton, Logan, Hibbert, and**

distance of 20 to 80 miles from the termination of the Desjardins Canal at Dundas, the head of Water-forts must find its way to that point for Shipment to a Foreign Market. That the Produce of, for the transport of their Produce, and importation of Merchandise and other articles, to supply the Carriage by Waggons during the Summer, and Sleighs during the Winter Months, which modes of carriage, and on bad roads by a ruinous loss, the expence being not less than one-sixth of the whole Crop. The Dundas and Waterloo Road already finished, which Road is upon their direct line of communication at both ends at one and the same time, the appropriation was not found sufficient to complete which is the worst part of the Road) is left unfinished, thereby making the Road of comparatively little value. I believe if this Road was fully completed, it would not only pay the Interest on the Money expended, but

ellency, that a part of the Road, namely, commencing at the terminus of Dundas and Waterloo Mac-fries and Waterloo, and the whole length of the Township of Wilmot, to the Huron Road, is of a very £2000 was given to aid and assist the voluntary labour that would be freely given for the improvement Engineer, and management of men of prudence and practical knowledge, by grading the hills, and properly-vey as much over such a Road, during eight months in the year, as over any Macadamised Road.

Your Excellency, that whilst Hundreds of Thousands of Pounds have been expended on the Welland Canal by the neighbouring States, and large appropriations made for the London and Port Dover nothing for many years has been done for this part of the country. They feel therefore that their isolated

would take into your serious consideration the great difficulties and disadvantages your Petitioners produce to market over bad roads, and grant the necessary means to complete the Dundas and Waterloo most direct line of Road from Galt to the East boundary of the Huron Tract, near Helmer's Inn. Petitioners, as in duty bound, will ever pray.
