PROPOSAL FOR STANDING COMMITTEE WAS DROPPED

Sir Joseph Ward and Premier Fisher Approved Plan, But it Was Opposed by Sir Wilfrid Laurier and General Botha—Harcourt Not Anxious to Press Scheme.

(Canadian Associated Press Cable.) LONDON, June 8.—The imperial conference yesterday resumed consideration of Rt. Hon. Louis Harcourt's proposal for a standing committee. Harcourt, since the previous week's discussion, had circulated a memorandum stating that the standing committee would, in effect, be a subsidiary to the conference, meeting at more or less regular intervals for the transaction of business referred to it by the secretary for the colonies, with the assent of the dominion governments. It has been by no means uncommon, he said, for the governments to nominate and use an advisory committee as an aid to administration. Ministers found them of great service as a method of securing interchange of views among public departments and commercial interests, both one and the other being adequately represented in the committee.

Composition of Committee. Harcourt proposed that the committee consist of a secretary for the colonies, the parliamentary and permanent secretaries of the dominions, the imperial conference secretary, the high commissioners for Canada, Australia, New Zealand, New South Wales, the representative of Newfoundland and the secretary to the committee.

While it was undesirable at the outset, he said, to define too precisely the duties of such a committee, it must be advisory and not executive. There was no necessity to confer voting power, however, on matters concerning a past conference or preparations for an approaching one. In all cases the dominion governments should be consulted by the secretary for the colonies, and the secretary for the colonies should be consulted by the secretary for the dominions.

Not Anxious to Press Matter. Harcourt wound up the memorandum by reiterating the desire to press the appointment of the standing committee upon the dominions if they were unwilling to accept the proposal. He said that the dominions were not to be asked to do anything until they had agreed to do it. He expressed the view that those who voted against the proposal were not doing so out of any objection to the proposal, but out of a desire to keep the matter open for further consideration.

Sir Wilfrid Laurier said he did not view the proposal with favor. He was prepared to hear the views of the other members upon it. Sir Joseph Ward thought there would be considerable improvement if some bridge were suggested to exist between an imperial conference and another, over which could be carried out the work of the imperial conference. While he did not agree with all suggestions in the memorandum, he thought that the existing machinery was not sufficiently complete. Harcourt's suggestions would meet the position.

Let Dominions Defend. Harcourt's deference to various criticisms, he proposed to omit reference to the high commissioners as representatives of the dominions, and to limit it to the permanent secretaries to whom they pleased to represent them on the committee.

Premier Fisher thought it would be better to have a body to carry on the work between conferences. This year the home government had taken the delegates entirely to their confidence in regard to matters of great concern to them all. It made it all the more necessary that there should be some subsidiary body to facilitate closer communications than had hitherto existed. He agreed that such a body should be purely advisory. The dominions should be free to appoint their own representatives, in view of the fact that the imperial conference would have to be held at shorter periods than four years unless larger powers were entrusted to some person or body than at present.

Hon. E. L. Batchelor of Australia, with regard to the suggestion that each dominion should only be referred to the committee with the consent of all the dominion governments, said that there would hardly be any doubt as to the advisability of the standing committee.

Botha Opposed. Gen. Botha said he could not accept the proposal as it stood. The object of the conference was to secure uniformity and to obtain the attendance of members of the same standing. This would need to be secured if some dominions sent high commissioners and others selected officials of a different kind. He was wholly unfavorable to a subsidiary conference, to which overseas ministers would refer the proposed standing committee ought not to discuss such matters. He referred to the relations between the dominions and responsible governments.

Mr. Mercer agreed with Botha. He failed to see how the committee could do the work any better, as it would limit the dominions to the dominions of the department already concerned. The present conference was a conference of the dominions, and it would be possible to accomplish, even if they had such a permanent committee. The fact that he proposed body would have no powers, would in itself merely lead to circumlocution and confusion.

Laurier Opposed to Change. Laurier said he would view with serious apprehension the interference of any body whatever between the home government and the dominions. He adhered to the position he took up four years ago, that the relations between the dominions and the mother country should be carried

Gift to Queen Mary

LONDON, June 8.—(C. A. P. Cable.)—The Queen Mary gift, presented to Her Majesty yesterday, came to a total of over \$100,000, the personal gift of diamonds consisting of part of the insignia of the order of the garter and a painting of the King and Prince of Wales. Lady Grey cabled \$3500 from the Marjory of the Dominion of Canada.

Taft Tries to Enlist Aid of Southern Senators

Tells Cotton Seed Oil Men How Reciprocity Will Benefit Industry They Represent.

NEW YORK, June 8.—President Taft went to a strenuous day in this city with an address to-night at the Hotel Astor at the banquet of the Cotton Seed Crushers' Association. He enlisted the co-operation of the members of that association in forcing senators from the south to vote for his pet reciprocity measure.

The president pointed out that his administration had secured a reduction of one-eighth on the duty on cotton seed oil exported to Canada thru the operation of the minimum clause of the Payne-Aldrich tariff. In the reciprocity treaty, however, he pointed out, the oil was to be admitted free. The growth of the trade was such as to justify the producers in expecting great advantage from the agreement. In 1908 the value of cotton seed oil introduced into Canada was \$215,000, whereas in the year ending March 31, 1911 it was \$1,047,000, or a total export of 2,500,000 gallons of this oil.

The complete removal of a tariff barrier, he pointed out, would greatly increase the trade. He said there was still broader ground for appealing to the interests of those who have the property of the south at heart. Under the treaty vegetables and fruits of all kinds would enter the Dominion free of duty. He pointed out that the free list bill for the moment, he emphasized, denied that the Canadian reciprocity measure, and criticized the action of those who were bound to their constituents to resist that the free list bill must be passed. He expressed the view that those who voted against the reciprocity measure were not doing so out of any objection to the proposal, but out of a desire to keep the matter open for further consideration.

Get \$400 a Year. "God Himself does not ask a man to live on less than proper food and raiment, yet some of our pastors receive stipends of \$400 and \$500 per year, out of which they have to keep a house and help everyone in need. They are not paying our ministers as much as compared with the increased cost of living, as they received ten years ago."

STUCK BY HEAVY POLE SAPPER HOOPER MAY DIE

Serious Accident at Niagara Camp Yesterday—Toronto Man Breaks Collar-Bone.

NIAGARA-ON-THE-LAKE, June 8.—The first serious accident of the military camp has occurred. While unloading a pole for the 50-foot observation tower to be erected by the engineers, Sapper John Hooper of the Second Field Engineers was struck by the small end of a pole 60 feet long, 12 inches thick at the large end and 8 inches thick at the small end, and rendered unconscious. He was taken to the hospital at the time of the accident and was then hurried to the field hospital, where it was discovered that he was seriously injured by a blow received in the abdomen. Under charge of a detail of two men he was conveyed to Toronto General Hospital on the 11th inst. He is now lying in the hospital with Pte. Augustus Buchel, 20th Regiment, who had his left arm broken, and Sidney Johnson, 20th Regiment.

While playing in a football game Alex. Laird, Toronto, private in the 1st Battalion, landed was running on goal when he fell and struck his head on the ground. He was taken to the field hospital and will probably be sent home tomorrow.

At the General Hospital it was found that Hooper's condition was very grave. The pelvis is fractured and there are other serious injuries, the exact nature or extent of which could not be immediately ascertained.

VICTIM OF MELANCHOLIA

Evidence at Inquest on Wm. Gilles Partly Cleared Mystery.

"Wm. Gilles accidentally met his dead whilst walking on the G.T.R. tracks, and no reason is known for his presence there." This was the verdict rendered by the jury at the inquest on Dr. H. Mason, the coroner. Chas. Gilles, brother of deceased, stated that his brother had been suffering from melancholia and insomnia and was somewhat absentminded. R. A. Miller, former of roundhouse; J. O'Connor, switchman at the Don Crossing; and G. E. Edwards, engine driver, all testified having examined the tracks, and finding no traces of blood upon them. Dr. Hopkins, who performed the post mortem, said that although Gilles' heart was abnormally small, death was due to hemorrhage and shock. Among the contents of the dead man's pockets were a manual of prescriptions, a small pistol of Landerum, and one of ammoniated tincture of quinine.

PERFECTLY SAFE!

SCOUT CONTINGENT GIVEN GOOD SEND-OFF

Presented With Colors and Accompanied to Station by Thousand Local Scouts.

Over a thousand Baden-Powell Boy Scouts assembled at the armories last night to give the coronation contingent a good send-off. District Scoutmaster A. E. Mercer was in charge of the parade of the evening and directed the martial movements of the boys, who were heartily applauded by the thousands of spectators who thronged all the galleries and occupied every spare inch on the ground floor.

The chief event of the evening was the presentation of colors to the contingent, and this ceremony was performed by the Rev. George, after Rev. A. D. Casler of Beaverville, local scoutmaster, had led the whole gathering in repeating the Lord's Prayer. The colors were presented to the contingent by G. Brander, Wallaceburg; D. Stoddard, one of the speakers of the contingent, and by the Rev. George, Braceridge. The Band of the 48th Highlanders then played "Onward, Christian Soldiers," the scouts and spectators standing with heads uncovered.

Addressing the coronation contingent, W. K. George, provincial president, congratulated them on the honor of being chosen to represent the whole body of Ontario Boy Scouts. He looked to them to do credit to the empire, the Dominion and the province. One of the speakers of the contingent, the Ontario Council who goes to England in charge of the contingent, expressed himself as greatly pleased with the clear and frank reference that he was to take charge of. He was positive that in every word, deed and act they would prove themselves worthy of the name of British Empire. He said that he was proud to be a Canadian and intelligent and loyal leader forward to their return as stronger, better and nobler citizens.

What the scoutmaster regarded as the best compliment of all to the coronation contingent was the presence in the parade of a troop of the Holy Trinity Church band. After the ceremony at the armories, the contingent, headed by the Highlanders' Band and accompanied by the Union Station, where they were trained for Montreal at 10:15. They will be accompanied by a contingent of local scouts, and will sail for England on the Megantic on the 10th.

Fourteen members of the contingent belong to Toronto troops. They are: E. H. Redman, Fred P. Besser, Richard Austin Brown, Douglas W. Ferris, Herman C. Jarvis, Walter M. Moore, Edward H. Pooler, Roslyn N. H. Russell, Wilfred J. Preston, C. J. Skalker. The rest of the contingent are from other parts of the province. They are: E. H. Redman, Fred P. Besser, Richard Austin Brown, Douglas W. Ferris, Herman C. Jarvis, Walter M. Moore, Edward H. Pooler, Roslyn N. H. Russell, Wilfred J. Preston, C. J. Skalker.

TWAS STERN WHISKEY CASE

But Intrepid Constable Landed Two Northland Smugglers.

Eternal vigilance is the motto of the provincial police these days. Information was received last week that two men were at Vico running a cargo of whiskey into the Great Pacific area, as fast as their canoes would travel. Instructions were dispatched to Constable Storey of Suburby to hit the men already had two days' start. "Follow them to the north pole, if necessary," was the constable's instructions. He was accompanied by a couple of Indian guides and a canoe. One night he made a portage of 14 miles and shortly afterwards braved the rapids of Sucker Creek. At this stage the Indians collapsed thru exhaustion and Constable Storey borrowed a trader's boat to continue the journey.

His quarry was sighted north of Port Matagorda, where he discovered the men putting the kegs in shallow water. He succeeded in capturing the two gentlemen, and afterwards got possession of the five packs of whiskey, each of which weighed about 150 lbs.

FIRE IN ACADIA UNIVERSITY

HALIFAX, June 8.—Fire in the college residence of the Acadia University has received a new shipment of damaged several thousands of dollars. The blaze originated in a dust fire leading from the basement to the fourth storey. Flames were first seen from the roof. The fire department were soon on the scene and were able to prevent a complete loss. The damage is covered by insurance.

SEPARATION OF QUEEN'S QUESTION FOR ASSEMBLY

Political Intelligence

What Are the Prospects of an Early Election?

As far as The World can make out parliament to-day stands adjourned to meet on July 18, and the government in a way is pledged to carry this out; but they could advise the governor-general to dissolve parliament before that date, and then there would be nothing in sight but an early appeal to the people to elect a new house of commons. On this issue, however, the government is bound by their pledge and by the statements made by ministers in the past few days, to pass, or to try and pass, a redistribution measure, giving increased representation to the new provinces before any appeal is made, and especially to give this increased representation to the western provinces, who are likely to be entitled to it, and who, it is claimed, are more anxious for reciprocity than any other part of Canada. Furthermore, the government and its newspaper friends have been saying that there will be no attempt to carry such a measure of increased representation; so that the government would have to violate its pledges in this respect if it attempted to go on with the supply bill, and as soon as they could the enumeration of people to introduce their redistribution measure. It will take some time, according to present prospects, to complete the census in so far as even the probable fate of the people is concerned, and it may well be into August before the figures are in shape sufficient to found a bill in the senate of the United States. If by any chance—and the chances are many—the senate refused to pass the bill, the chief topic of discussion was the editorial management of the University Monthly, a magazine, which purports to be the voice of the board of governors and of the alumni.

From various remarks during the meeting and especially from a resolution, which met with defeat, however, when put to a vote, it was quite evident that the alumni are not ungrateful in believing that the articles sent in for application in the Monthly are published in their original shape. That there is an undercurrent of disapproval was evidenced by a motion introduced as follows: "That the alumni association cease publication of the Monthly, or as an alternative that its editorial management be given over to the board of governors."

The fact is that this publication has not in the past received sufficient support from the alumni and the board of governors to constitute an annual grant of \$1200 to keep the magazine going. Hence, some of the alumni claim that the articles are not colored to suit the viewpoint of the board of governors.

Professor A. B. Macallum scouted this idea and the majority present agreed with him. Prof. Macallum added that some of the articles were from time to time abbreviated and too personal paragraphs omitted, but that was done on the judgment of the board of governors and not from any outside influence.

Finally a resolution was passed to have the Monthly continue publication until the present. President Falconer stated that he would like to see the Monthly conducted as an independent journal, without any financial assistance from the board of governors, but it seemed impossible from past experience to have this done.

More Graduate Representation. A motion on behalf of the alumni was also introduced by N. F. Davidson and seconded by Mr. Mitchell, asking that an increased number of graduates be recommended to the government for appointment as representatives on the board of governors, so that the interest of the graduates in the university would be sustained.

Prof. A. B. Macallum thought this was rather a delicate subject for so small a meeting to tackle and Judge Riddell shared Professor Macallum's views. Assurance was given, however, by the supporters of the resolution that the minister of education would not regard it from any ulterior motive. The minister said that in any case the attitude of the government towards the university and its board of governors would not change. The motion on being put to a vote was defeated.

The officers of the Alumni Association for last year were all re-elected, with the exception of Mr. C. Robinson, K.C., who retired from the executive council in favor of Professor M. A. Mackenzie.

The treasurer's statement shows a surplus for the year of \$265.55 in the accounts of the alumni association, and a deficit of \$310.68 against the University Monthly, covered by the guarantee of \$1200 from the board of governors.

PANAMA HATS—NEW SHIPMENT. Panama hat time is back for the rest of the summer. The Dineen Company has received a new shipment of splendid Panamas, direct from the tropics, and in new blocks for young men and the older sort. All good weaves, starting at five dollars, sold elsewhere at eight dollars, and with special blocks up to twenty dollars.

Big Problem to Be Thrashed Out by Highest Court of Presbyterian Church at To-Day's Session—Missionary Work and Question of Immigration Was Debated Yesterday.

OTTAWA, June 8.—One of the biggest questions for the Presbyterian general assembly, in fact, ranking with church union for first place, is the proposed separation of Queen's University from the church. This constitutional change was dealt with in the college report, presented by Principal Gordon, but so important was it considered that it was made the first order of business for to-morrow.

The committee on church union had been named and will hold its first meeting to-morrow morning. The committee is a large one, with Prof. Ballantyne of Knox College, Toronto, as convener.

The missionary work in the west was the feature of the meeting of the general assembly to-night. Rev. Dr. McLaren, home missionary secretary for the western section, spoke of the bright and less favorable features of the situation.

A great deal of interest was centered in the address of Rev. J. Bodrug, the Ruthenian or Gothic representative at the assembly. He said that the missionary work was never going on better in the west. There was never a better received and a better time when the Presbyterians of Canada were more liberally supporting this great cause. He pictured great things for the west, if the people would send themselves to the great work of peace and righteousness.

Hard to Get Accurate Statistics. Rev. Dr. Somerville, on connection with his report on statistics, pointed out that in the west great difficulty was encountered in securing accurate statistics. There were so many changes, both in ministers, missionaries and congregations, that reports could not be obtained from a great number of them. There should be a general assembly was entitled to know these statistics in cases where it was making grants. He said that the general assembly was entitled to know whether five or twenty-five families were being served. Any missionary who failed to make this report should be called upon.

CONGREGATIONAL UNION

Zion Church, Toronto, Now Dropped From the Roll.

KINGSTON, June 8.—(Special.)—T. B. Macaulay, Montreal, managing director of the Sun Life Assurance Co., was elected chairman of the Congregational Union to-day. On the recommendation of the membership committee, Zion Church, Toronto, now formally disbanded, was dropped from the roll. The statistical report, read by Rev. G. Margitt, showed a total membership in the churches of 12,204, an increase of 908. The value of church property amounted to \$1,547,986, an increase of \$23,092. The money raised was \$210,888, an increase of \$11,770. The treasurer of the foreign missionary society reported contributions amounting to \$830.

Under the head of designated funds, reference was made to the gift from Mrs. William Freeland, in commemoration of her late husband, and his conversion at Oshawa, Ontario, Toronto, many years ago. The income of the fund will be used for the education of native workers.

T. M. Macaulay, the new chairman, is a strong advocate of the Bahamas being brought into confederation with Canada.

REJECTED SUITOR ENDS LIFE

Italian Waiter Took Compound of Carbolic Acid and Whiskey.

Grief stricken because he had been repulsed by his Canadian sweetheart, Frank Perriera, aged 22 years, an Austrian waiter at the King Edward Hotel, determined to die. Repulsed to his room at 140 Shuter street, at 5:30 last evening, he mixed carbolic acid with a quantity of whiskey and drank the mixture. His landlady heard him groaning, and finding him writhing on the floor with the head in his hands, she called upon five neighboring doctors, but failed to find any of them at home. The police ambulance was also called, but the man was dead when it arrived. The body was removed to the morgue and the chief coroner notified. An inquest is unlikely.

GUILTY OF PERJURY Ran Off With Young Girl and Sworn Falsely to Her Age. WOODSTOCK, June 8.—James Young, a local man, who ran off to Ingersoll with a girl in her teens, was brought back by his young bride and compelled by the court to live apart from his wife, who has been held as a witness. It was charged that he had sworn falsely to the girl's age, and today he was tried for perjury. The magistrate suspended sentence on the condition that he should be solemnized in the regular way, that he work steady from now on and support his wife, and that he provide bonds to the amount of \$50 for his future good behavior.

G. T. R. Conductor Killed. OTTAWA, June 8.—James Thomas Ruppelle, Grand Trunk Railway Conductor at Boothby Mills, was run over by a train to-night. He is supposed to have fallen off a car. He was a Ottawa man 36 years of age, and leaves a widow with six children.

# Now for the Outing Suit Season

WE have placed on sale for to-morrow several lines of two-piece outing suits, coats one-half lines of and full hip trousers, regularly priced at \$12.00, \$15.00, \$18.00, \$20.00 and \$22.00, to clear for \$8.50, \$11.00, \$12.00, \$15.00, \$16.00. These are all this spring's new fashions and are very smart, handsome suits. We find that our stock is much too heavy and must be reduced.

Combined with this sale we are clearing out one line of Men's Auto Dusters for \$2.79 that have been selling for \$4.50, splendid grass linen shade and strong material.

White Duck, Khaki and Outing Trousers of all kinds \$1.25 to \$6.50.  
Fancy Vests from 59c to \$6.50.  
Men's Silk Coats and thin clothing of the proper fabrics \$1.50 to \$10.00.  
Be sure and see our splendid showing of Mohair Outing Suits, the finest of their kind in all Canada and the most comfortable summer suit you can possibly buy.

**ONTARIO LIQUOR LICENSE ACT**  
Notice is hereby given that a meeting of the Board of License Commissioners for the City of Toronto will be held on Thursday, June 8th, at the hour of 2.30 p.m., to consider the following application for the transfer of license:  
D. J. Murphy, 60 Augusta Avenue, asking to transfer his shop license to the premises of J. O. Johnston, 100 St. George Street, Toronto, June 8th, 1911.

### HAMILTON HAPPENINGS

WILL TRY TO EKE OUT CELEBRATION ON \$300

But if Anyone Wants To Contribute to Hamilton Coronation Fund It Will Not Be Spurned.

HAMILTON, June 8.—(Special.)—"I object to members of this committee being turned into professional mendicants," said A. T. Bratton to-night at a meeting of the coronation celebration committee in protesting against soliciting public subscriptions with which to buy prizes for the coronation day sports here. The suggestion to raise money in this way had been made when it was found that only \$300 was available for the program, and the sum was deemed insufficient. The members will be spared the stigma of mendicancy, as a finance and sports sub-committee was appointed, who were instructed to arrange a program on the \$300, unless voluntary subscriptions to the fund come in. It was decided, however, to let the public know that more money can be used than is now at the disposal of the committee. If any Hamilton or Toronto individuals or firms feel disposed to add to the fund, their contributions will not be spurned.

The resignation of John A. McKenry as secretary of the committee was received, with the explanation that Mr. McKenry was unable to properly fulfill the duties of the position on account of pressure of other work. The resignation was accepted and a vote of thanks tendered Mr. McKenry for his assistance. W. H. Childs was appointed secretary in his place.

**Sympathy, But no Damages.**  
Judge Snyder this afternoon non-suited the action of David Ritchie against Alex Stuart for \$200 for personal injuries. Ritchie was employed by Stuart in the construction of a building from which he fell and sustained injuries which rendered him unable to work for several weeks. Judge Snyder expressed commiseration with the plaintiff for his injuries, but decided that the defendant was not to blame.

Another conference over the question of moving the street railway and radial tracks along the inlet was held this morning before the board of control and the railway interests, represented by W. C. Hawkins and G. H. Levey. The city proposes to fill in the inlet one foot above water level, and asks the railway people to transfer their right tracks to the right of way to be filled in by the city. Mr. Hawkins agreed to submit the proposition to his company, but would make no promises as to what he would say in regard to it. The board of control this morning

heard the vigorous protest of George Lynch-Staunton, K.C., against the petition of residents of the southwestern part of the city to make that a purely residential section. Mr. Staunton represented a grocer who intends to build a store in the district. A by-law relating to the matter will be dealt with by the council on Monday night.

**Damages for Malicious Prosecution.**  
John C. Belack, who brought action against William and Joseph Strong for malicious prosecution, obtained judgment against the defendants in county court this afternoon for \$500 and costs. Belack was employed by the Stronges to grade some lots for them, and it was charged that he sold some surplus earth from the lots, which he had no right to do. He refused to pay for the earth, and at the instance of the defendants in this case, was arrested, but the action against him was dismissed.

For the alleged theft of money from W. Acres, Joseph Douglas, 31 Kings William-street, was arrested by Detective Sawyer this afternoon.

Ollie Hudson, Gibson-avenue, was arrested to-night, charged with aggravated assault.

### UNIVERSITY GRADS LET LOOSE ON WORLD

President Falconer intimates that Real Struggle is Only Just Beginning.

Backed with palms and evergreens and with Union Jacks entwined above the platform, convocation hall was an attractive spot last night. The graduating classes, many in academic regalia, occupied the rostrum, while the balconies were comfortably filled with members of the faculty, alumni and the general public.

Addresses were given by President Falconer and Dr. R. L. Gould of New York City. The latter also a number of violin selections given. But the most interesting event of the program of the evening was the address of the president, which had nearly all the earmarks of a banquet. The reception hall was filled with the graduates and their friends, and the president's remarks were showered with complimentary remarks from the sandwiches and ice cream appeared on the scene.

President Falconer's address was one of encouragement and showed the world as university man and women among those who were just starting out from college halls into the real world. He urged every man and woman to set the standard of excellence in whatever community they might locate.

Dr. Gould of New York gave an interesting talk on life in general, and demonstrated the fact that he has a good fund of humor. He eulogized the efforts of the leading nations towards universal peace, and urged everybody present to interest themselves in public affairs.

Who has spent eight years of his life in Europe and thirty odd years in Canada, Dr. Gould's address was a Canadian parentage and birthplace, and regards Canada as the most thoroughly governed country in the world.

### SLOCUM CO. ASSIGNS

#### HURTS TEACHER'S PURSES

Controller Hocken Forced Hand of Levee's Company—Levee Says He Has Been Persecuted.

As a result of the winding-up order filed in court by the Controller, Hocken, creditor, the Dr. T. A. Slocum Co., manufacturers of pronouncements, has assigned its business to the Slocum Co. The trials of this unhappy party medicine company, augmented by the publicity sense some details of the education enquiry, have aroused much public interest, and no it was known that the affair had hurt Chairman Levee's business. It was not thought that damage to such an extent had been done. Mr. Levee claims that he has been persecuted, and that he is ruined financially, although still maintaining his proud seat as chairman of the board.

The Trusts & Guarantee Co. have the affairs of the business in hand, and report that the large sales of stock right up to the day they took things in hand. They have not yet prepared a definite statement of assets and liabilities, however.

Many school teachers who had bought shares in the company will probably be bad losers. Chief Inspector Hughes will be especially hard hit, being the second largest shareholder.

### FEWER PASTORS OR BETTER REWARD

Continued From Page 1.

Mr. Allan said he would far rather see fewer ministers in the field receiving living salaries, and for them to cover smaller territories, than for the districts to be wide and scope and the living of the pastor also be spread out. He strongly advocated thoroughness in preference to scattering a few words here and there.

**Must Clean Up Down Town.**  
Rev. S. W. Falls delivered an address on "The Downtown Problem," and stated emphatically that before another great revival takes place the city streets have to be cleaned, the slums tidied up and preparations made for all citizens to enjoy fresh air. The he had never been in the dark spots of Toronto, and he was thoroughly convinced that odors arising from nearly every locality in this city is not a suburb of heaven. Conversion of the city, he said, was not the only mission of Christ. He came to teach men morals and how to live under sanitary conditions, not to hoard wealth and sleep in hovels too small to turn around in, and to have a place of business, and that factories should be built in districts where fresh air is plentiful. He said that all residences should be detached and built with the idea of proper ventilation.

**Stand by Wesley.**  
At the morning session Rev. Dr. Carman, general superintendent, delivered a forceful address, advocating holding fast the Christian doctrines as proclaimed by John Wesley. He voiced his own standing in emphatic language and left an unmistakable impression of his time-proven convictions. He stated that at the time of his or-

FRIDAY MORNING, JUNE 9, 1911

CANADA UNVOICED.

Sir Wilfrid Laurier's one mainstay is a solid Quebec, and the sorry exhibition he is now making in London is dictated by this fact, especially with a general election right at hand.

ELECTRICITY AND ETHICS.

Mr. H. L. Drayton, K.C., on his return from Ottawa confirmed the statement made three days ago by us that no deficit was contemplated by the civic hydro-electric department, but that power was to be delivered at cost, and as soon as a profit was realized further reductions in the rates would be made.

CANADIAN AND AUSTRALIAN INTERNAL POLICIES.

Longer in coming than has been the case in Canada, Australia has now entered upon a process of expansion which, if it continues, will make it comparable to that of Canada.

TUBERCULOSIS PREVENTION.

It is unfair to state that Dr. Hastings' proposal for an extension of the necessary treatment of the tuberculous problem involves duplication of the present activities.

THE RECIPROCAL DEAL AND ITS COST.

Do not take too much stock in the reports that the senate will pass the reciprocity deal. The real opposition to it has not yet shown its hand.

PERNICIOUS LITERATURE.

In the letter from Mr. George Wright of Halifax, which we published yesterday, dealing with the suppression of indecent publications, there is evidence of the ill-judged and indiscriminate attitude of those who might do much to abate the real evil.

WIDENING YONGE STREET.

Editor World: Since the proposal to increase the street space at the corner of King and Yonge-streets is still engaging the attention of the civic authorities, may I be allowed to state the position of the civic guild in the matter?

SUPPORT THE M. H. O.

It is scarcely likely the city council will stultify itself by opposing the proposals of the medical health officer, when it appointed him with the express object of enforcing the law as he now wishes to do.

INADEQUATE PROTESTATION OF PROTESTANTISM.

Editor Toronto World: Let any other organization, religious or secular, do the things that say the things that Roman Catholics do and says, and it would bring upon itself the universal anathema of all mankind.

IMMIGRATION DISCRIMINATION.

Editor Toronto World: On coming across from Detroit to Windsor, last week I witnessed an incident, which shocked me and lots of others on that train, and as true Canadians we were sorry to see and hear of our officials on the border termed emigration officers, who used such bad judgment and let his bad feelings run away with him.

FRIDAY MORNING

Hollinger Pins Up a New Record at \$14--Rea Up 40 Points

Porcupine Gold Camp Porcupine Stocks Turn Strong Hollinger Ups a Dollar a Share

Mining Market Has Another Spasm of Bullish Trading--Cobalts Generally in Better Demand.

World Over. Thursday Evening, June 8. The market for Porcupines came into its own again to-day, a sharp upward movement being in effect almost from the opening of the exchanges and continuing right up to the close. Big advances were made by the leaders, and in the smaller issues more buoyancy was displayed than for some time, the buying being of the most responsible nature.

Hollinger had another of its characteristic advances. It had constituted the last feature of the session. Opening at \$12.25, or twenty-five points above the real night's close, the shares gained an additional seventy-five points during the day, touching \$14 before the movement culminated. This represented a net advance of a dollar, and established a new high record, the pre-established high being \$13.22, which was reached some weeks ago.

It was reported that much of the buying of Hollinger to-day was for foreign account, representing straight investment purchases. Brokers had cable orders early in the day, and as the price of the stock was good, the price mounted rapidly by fits and starts to its high level.

The movement in Hollinger was carried through the whole list, only of course to a much less extensive degree. Rea sold up forty points to \$5.50, this being the highest figure reached by the shares in some time.

Swastika Shareholders Vote to Increase Capital to \$2,000,000. The special meeting of the shareholders of the Swastika Mining Company, called for the purpose of ratifying a bylaw to increase the capital stock from 1,000,000 to 2,000,000 shares, was held at the offices of the company yesterday afternoon.

MATTSON CLAIMS SOLD. Langmuir Properties Change Hands and Will Be Actively Developed. It was announced yesterday afternoon that the six claims of the Mattson-Bella syndicate, located in the south of Langmuir Township, near the Miller Langmuir Mines, had been sold to the price paid were available, but it was understood that a good figure was obtained for the properties.

Porcupines in London. The following is a list of the Porcupine stocks traded in London at the close of the day: Hollinger, 14.00; Rea, 5.50; Cobalt, 4.00; etc.

PROMISING RESULTS IN MUNRO DISTRICT

Active Operations at Detroit-New Ontario Mines Prove Value of Whole Section.

MATHESON, June 4.—The Munro mining section, after the first rush of excitement following the finding of free gold in quartz leads, gradually settled down to a quiet mining life, and very little was heard of the work on the outside.

Foremost in the development work is the Detroit-New Ontario company, and to-day the claim known as the "Chance," the company's prize winner, shows traces of 15 veins in the fractures on the rock.

On the "Chance" claim are located the company's plant and camp buildings, the other four claims extending back to the north a distance of three-quarters of a mile with the Big Elk property in between. All four claims are well within the confines of the scidic belt.

The power and shaft house are built on the east side of the camp, and within a few days after the construction of the shaft house, where a rock had been made to receive the monster power producers.

With the installation of a power six-cylinder engine, the shaft house is now operating by the middle of the month.

Like the run of the belt in Porcupine, the strike of the ridges here, as well as the strike of the belt made up of free from glacial drift, is a series of ridges of acidic rock.

On the east end of the "Surprise" vein to the west of where it strikes into the American Eagle property, free gold in the rusty quartz may be seen. Nothing but getting out the quartz for assay purposes has been done on this vein, but the country is well covered with it to the southwest.

The width of veins Nos. 3, 4 and 7, 8, 9 can be seen in the cuts, No. 4 being the one on which the main shaft is sunk, runs from four to eight feet, with the country formation intersecting in the vein matter.

STEEL LAID THRU GOLDEN CITY.

PORCUPINE, June 8.—(From our special report.)—The steel was laid across Queen-street, Golden City, at 10.45 a. m. to-day. A double force of workers and construction is being pushed with all possible speed.

**SIMPSON** Store Opens 8 a.m. Closes at 5.30 p.m. H. H. Fudger, Pres. J. Wood, Manager PROBS. Moderate authenticity and southerly winds; fair and warmer. **SIMPSON**

# Don't Wait for an Eight o'Clock Breakfast Tomorrow!

---Because that is the hour at which you should be in our men's store; even if you have to excuse yourself during the meal, make sure of being at Simpson's when the doors open---what awaits you is worth more than a little inconvenience. Here it is:

**Three hundred and fifty Summer Suits, selling in the regular way for fifteen, sixteen, eighteen, twenty and twenty-two dollars will be put on sale tomorrow at Seven-ninety-five.**

"It's ridiculous," said the manager of our men's store, when we pleaded for this price. "We sold similar suits a year ago Saturday for eleven-ninety-five and had a big day." "Yes," we replied, "but you had a whole Saturday's selling then; to-morrow you have only five hours." So for the sake of big morning business these suits go on at an unprecedented price.

Don't miss the sale of Outing and Neglige Shirts Saturday morning at 69c and 89c, or the 7,000 garments of Summer Underwear, worth as much as a dollar, for .39

These are sample and overmakes of the best ready-to-wear clothing which we cleared from a manufacturer who specializes on the better grades; the materials are fine Imported English Worsteds and Scotch Tweeds in this season's newest designs and colorings, light and medium grey and a variety brown tones cut on the correct two and three-button sack models; sizes 34 to 44. One sale Saturday morning **7.95**
