SCARCITY OF LABOR ON FARMS IS SOLVED BY HYDRO MACHINERY

New Era in Agricultural Development Inaugurated Yesterday Near Cooksville When Threshing, Milking and Other Farm Work Was Done By Electricity.

A new era in agricultural development was inaugurated yesterday when Mrs. Beck, wife of Hon. Adam Beck, chairman of the Ontario Hydro-Electric Commission, switched on the electric power at J. W. Migh's farm, Cooksville, four miles north of Cooksville. The large attendance of farmers from the districts of Brampton, Port Credit, Clarkson, Malton, Cooksville and Meadowville, gave eloquent testimony to the widespread interest which had been evoked by the investigation into the utility of hydro-electric power on the farm.

The power was supplied by a cable connected with the Port Credit-Brampton transmission line, and the current passed through a transformer carried on a traveling motor wagon, which drove a motor installed on a second truck. There were also on view milking machines, pumping machinery, choppers and cream separators, and during the afternoon the visitors had ample opportunities of seeing the various labor-saving appliances in operation.

The demonstration was in charge of the Hon. Adam Beck, who had as his right-hand man, F. A. Gaby, acting chief engineer of the hydro-electric commission.

Domestic Appliances. Inside the farm house Mrs. Brown, who has charge of the domestic appliances at the hydro exhibit at the Exhibition, gave an interesting display of the many time and labor-saving devices placed on the market by the commission. Mrs. Brown had charge of the cooking exhibit at the recent electric show in Madison Square Garden, New York.

Three days will be spent on Mr. Migh's farm, and after giving demonstrations in the Brampton district, the exhibit will be taken to the Galt, Preston and Heepster districts; from there to the New Hamburg, Berlin, and Baden districts; then to the Stratford, Seaforth and Mitchell district. After that the following districts will be visited in the order named: London and Eyrton, St. Thomas and Port Stanley, Woodstock and Ingersoll, Tillsonburg and Norwich.

Prominent Visitors. In addition to the Hon. Adam Beck and Mrs. Beck there were present: Hon. James Duff, minister of agriculture; Gordon Wilson, M.P.; Richard Blain, M.P.; Sam Charters, M.L.A.; Reeve R. H. Lush, Deputy Reeve; William Rutledge, Deputy Reeve; Gordon and the councillors of the local township.

Cow's Novel Experiences. After the visitors had witnessed a practical test of the threshing machine the unique sight of a cow at Clarksons being milked by electricity generated at Niagara was afforded the crowd. The cow gave no sign that anything unusual was afoot, and the farmers and their wives were loud in their praises of the wonderful contrivance.

WORLD-WIDE MEMORIAL SERVICES TO GEN. BOOTH

SERVICE TO DEAD BECOMES VAST REVIVAL

Response to Call to "Mercy Seat" at Funeral Services of General Booth so Great the Police Were Needed—London's Largest Congregation Mourns in Impressive Way.

LONDON, Aug. 28.—(Can. Press).—Funeral services over the founder of the Salvation Army, Gen. Wm. Booth, were held at the Olympia to-night in accordance with the traditions of that organization, without pomp or symbols of mourning, but with a most moving fervor and impressiveness.

Thirty-four thousand people participated in the service. The body of the late general in a plain pine coffin rested high on a white catafalque in front of the big platform across the end of the hall, where all the chief officers of the organization were seated and where forty bands were massed.

While the front rows of chairs before the coffin were filled with representatives of various bodies, with the exception of the king, several mayors in their robes and chains of office, a delegation from the stock exchange, ministers and clergymen of all the Protestant churches, and Jewish rabbis, and while many notable personages were seated throughout the house, the rank and file of the great gathering was composed of the plain people for whom the army works and of whom it is composed.

Greatest Congregation. The service itself was not only a memorial, but was a mammoth meeting of prayer and praise. No other congregation comparable with it ever occurred in London, if in the world, save the funeral of the general's wife, which was held in the same hall 22 years ago this coming October.

The most solemn moments of the long meeting were when the coffin was borne along the centre of the hall to the sonorous music of the Dead March in Saul. A small procession representing many branches of the army's activity, including men and women, and a detachment of officers from the

Universal Sorrow. In his address the lieutenant-governor expressed his sympathy to the army for the loss of their great general. The lieutenant-governor said, "I was not only yester's, the civilised world mourned his death."

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. Today is industrial day. Manufacturers from all over the country are expected in great numbers.

COMPTON TO TESTIFY. HARTFORD, Conn., Aug. 28.—(Can. Press).—President Samuel Compton of the American Federation of Labor arrived today to testify in the suit against members of the United Hatters of North America brought by D. E. Lowe and others, in which damages of \$50,000 are asked because of an alleged conspiracy by labor unions to injure the business of the plaintiff. This far all the witnesses in the case have been summoned by the plaintiff.

GRAND TRIBUTE TO GENERAL BOOTH

Massey Hall Was Packed Last Night at the Funeral Service for the Late Commander—Brass Band of Over 200 Played in Front of the City Hall.

In reverence of the memory of the late General Booth the united Salvation Army corps of the city met at Massey Hall last night to pay a tribute to their departed commander in the form of a funeral service. On the platform sat the lieutenant-governor, members of parliament, members of the city council and representatives from all the denominations. The army bands, over 200 strong, supplied the music, and the service was one of the most impressive ever seen in Toronto.

Massey Hall was filled for the occasion, and thousands were denied admission. On the wall facing the congregation the general's picture was hung with a large white cross as the background. The service was simple, consisting only of music with addresses by Lieutenant-Governor Sir John Gibson and Commissioner D. M. Best. Only old standard hymns were sung, such as "Rock of Ages," "Crossing the Bar," and "When I Survey the Wondrous Cross," and in the singing of these there was unmistakable evidence of the deepest emotion.

In the opening of the service the congregation remained standing, while the band played a funeral march and the staff officers of the army, together with those who were to occupy the platform seats, entered the hall in procession form. The service proceeded in the usual regular order. Rev. Dr. Carman read the Scripture lesson from Revelations VII, 3-17, and the staff band made choir rendered several hymns.

Young Girl Employed as a Housemaid Found in Precarious Condition After Murdering Her Child

Maria Samula, a young girl working as a housemaid for Harry Hall of 6 Park place, is in a precarious condition in a private hospital in Toronto. She is an Austrian, and has been in this country not more than six months. She sailed from Liverpool half a year ago and when she arrived here was engaged as maid in the home of Mr. Hall. Yesterday morning she became suddenly ill. Mrs. Hall told her to go to bed and rest. About three hours later her condition was such that it was necessary to take her to a private hospital. Dr. John Duncan of 24 Roncesvalles avenue was called. His diagnosis was that a child had been born. As the child was not in evidence a search was made for it. After much endeavor the infant was discovered on the third floor of the house. The child had a tight string around its neck, and marks on its head led to the suspicion that some blunt instrument had been used.

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. Today is industrial day. Manufacturers from all over the country are expected in great numbers.

WESTERN CROP REPORTS. WINNIPEG, Aug. 28.—(Special).—Rains, which were pretty general over the entire spring wheat country, but especially heavy in the east central districts of Saskatchewan, during the past 24 hours, have about put a stop to harvesting operations, and in many districts the binder will not again be at work before Friday. Several points report bright, clear weather today, with the prospect of resumption of work in the afternoon on light and well drained lands. The harvest labor situation is naturally aggravated by delays of the last few days. Probabilities today say cool and partly fair, with showers in many localities.

ABE ORPEN ARRESTED. Abe Orpen and Izzy Wilks of 15 West King street, were arrested yesterday afternoon on a charge of running a hand book. They will appear before the magistrate this morning.

SCOUT PRIZE WINNERS

In the competition for general appearance and proficiency Troop 14, Centennial Methodist Church, Toronto, won the Kent cup, presented by J. G. Kent, president of the Exhibition. Chatham, Ont., won the silver bugle presented by R. S. Williams, Toronto. Commissioner H. C. Hammond was made the recipient of three silver trays from the coronation troop which visited England last year, as a token of their appreciation.

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. ACCUSED MEN RENOMINATED

Seven Aldermen, Charged With Bribery, Victorious in Detroit Contests—Results of Michigan's Primaries.

DETROIT, Aug. 28.—(Can. Press).—A feature of the local primaries was the victory of seven of the accused recently arrested on bribery charges in their contests for renomination. It was reported during the day that Ald. Thomas E. Ginnman, charged by the prosecutor with having received the largest bribe of any of the accused officials, was one of the victorious candidates. Later returns, however, indicated that he had been defeated by an extremely close vote.

Scattered returns that are still coming in from yesterday's state-wide primary election show clearly that the few contests that existed on the state tickets were all bitterly fought. Results from forty-nine counties give Amos S. Musselman of Grand Rapids 3488 majority over his only opponent, Secretary of State F. C. Martindale. A great part of the upper peninsula returns are not in yet, and the Martindale forces are claiming that the northern vote will seriously reduce Musselman's majority. It is generally conceded, however, that the latter had won the victory.

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. Eighty Troops of Boys Were Received by Their Chief at the Exhibition on Children's Day and the Splendid Spectacle Was Witnessed by 12,000 People—Highest Praise Expressed by His Royal Highness

"I am proud of you." It was indeed a thing of splendor to see 2700 boy scouts from the four corners of Ontario reviewed by royalty yesterday, and the Duke of Connaught's above comment, when he addressed the boys, was likewise the sentiment of over 12,000 people who witnessed the stirring spectacle. It was the most outstanding event that has happened in the history of the movement in Canada, and the scouts were prepared, as they always are. They showed the stuff that they are made of. They performed feats that the grown-ups would not even attempt to do, because they were never taught.

The fact that it was "Children's Day" made the review of the boys a greater feature. Probably 10,000 children alone witnessed the gorgeous ceremony. There were exactly 80 troops, which marched by the duke, and 50 of these were from outside towns. Even with such a turnout it did not comprise any more than one-third of the entire force of boy scouts in the province, which gives a clear conception of the grip it is getting on the young life of the country.

The Men Behind. Commander H. G. Hammond and Adjutant G. S. Gibbons were responsible for the great event. The scouts had never before the chance to show what they could really do before the public. And when they built built, picked tennis, erected bridges, put up a wireless station and transmitted and received messages by wireless, and did other things with remarkable skill they showed the disinterested and the disbelievers a few of the things they could do. The value of the teaching of the scouts' creed: "Be prepared" was borne home to thousands.

A Long Procession. These sturdy young scouts marched from their camp in the west end of the grounds between crowds of cheering men, women and children. Their lines were as straight as those of soldiers, their stride as brisk, and they paraded to the strains of their own bugle bands. Through the west end gate of the track, fronting the grand stand, they passed, and before the procession halted, the leading troop had reached almost the east end of the grand stand, thus showing the great number in the parade, which almost circled the half-mile track.

At 2:30 the dual party arrived in motor cars, which was the signal for the Grenadiers' band to strike up "God Save the King." Their royal highnesses, the Duke of Connaught and Princess Patricia and party strode along the canvas matting to the royal box. The duchess did not attend. The review was immediately begun, and the duke witnessed the march past on the driveway in front of the stand.

Were Like Soldiers. The boys were all small. They knew how to march and how to turn their eyes to the right when ordered to salute the scoutmasters, just as the troops were passing the duke. It was indeed a spectacle of splendor. To see boys about as big as the provincial militia marching abreast the hardened soldiers, every man in step, was well worth while. The Grenadiers and Queen's Own Bands played alternately various regimental airs—the kind that made them step lively, and more than

SUPT. ROGERS USED A BRICK INSTEAD OF BALL

Man Whose First Aim Was Poor Managed to Hit Negro's Head on the Second Trial.

One of the most exciting episodes at the Exhibition this year happened last night on the "midway." At a ball-throwing stall toward the east end of the grounds, a coon whose head is the target for baseballs for those who wish to spend a nickel for three throws was given a nasty blow by a brick. A man, who had spent about a nickel and could not hit the dark head became so "mope" at his aim that he picked up the missile nearby and threw it. It struck the negro right on the cranium, stunning him for an instant. When he recovered he gave chase, and was followed by one constable, a couple of boy scouts and about four hundred people, who were in the neighborhood. They pursued the assailant over several hundred yards, around the grand stand, several tents, and away over to the north end where the cattle sheds are located. Finally the boy scouts scored their second victory of the day when they ferreted him out from under a buggy. The man was taken to the station and charged with assault.

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. Today is industrial day. Manufacturers from all over the country are expected in great numbers.

SEVEN MEN ARRESTED

Several complaints arriving at the provincial police at Queen's Park, led to the arrest of seven young men for indecent assault on two young girls at Muskoka Station, on the Canadian Pacific Railway. They are Robert Kidd, Robert Maclean, Walter McNiel, P. Ambrose, Ernest Clarke, Melbourne Welch and Leslie Hibbert.

CARPENTER FELL AND WAS KILLED

John Leybourne Slipped While Fixing Guide Ropes at the Central Prison Farm, Guelph.

John Leybourne, a carpenter, employed at the Guelph Farm, met death yesterday by falling 25 feet down the improvised elevator shaft, which is used for the purpose of carrying the concrete to the different floors of the buildings.

Leybourne, accompanied by another carpenter, had gone up to attend to the guide cables attached to the hoist; the night before and it was at the resumption of their work yesterday morning that the fatality happened.

Today is industrial day. Manufacturers from all over the country are expected in great numbers.

Record breaking is becoming a common thing at the Exhibition. Even with yesterday's intermittent showers and with the sky always threatening to unload a deluge, the attendance was larger than on the same day last year. Fully 84,000 people passed through the gates. This was indeed a great surprise to the Exhibition management, for they expected to have a set-back of about 5000 in their race for the million mark. Today is industrial day. Manufacturers from all over the country are expected in great numbers.

DEAD AT 101

ST. CATHARINES, Aug. 28.—(Special).—The oldest resident of this section passed away at the Lincoln Industrial Home yesterday in the person of John Whinney. His age was 101 years, and he would have been 102 years old next October. He came here from Muskoka and until a short time ago was still able to be about.

DOUBLE TRACKS WANTED IN WEST END

City Council May Ask Courts for an Order Compelling the Toronto Suburban Railway to Change Plans for Single Tracks—Money for Overflow Sewers.

As a result of the Toronto Suburban Railway Company's announced intention of laying single tracks on Pacific avenue, from Dundas street to Bloor street, and on Annette street from Jane street to Keele street, the city may take legal action to secure double-track lines.

The franchise the company hold to run cars on these streets is somewhat obscure, and it is doubtful whether the city have the right to insist upon double tracks.

The board, however, questioned whether a single track system would give an adequate service. Other points about the franchise have as yet to be settled, and hence the board decided to deal with the whole matter in a private session on Friday.

Mayor Geary stated that the appropriation for the storm overflow sewers was not sufficient to install an adequate system, and it was decided to instruct Commissionaire to make a report on what extensions will be required over and above the appropriations.

Open Every Night. The handsome piano warehouses of Heintzman & Co. Ltd. and their large and beautiful Victrola parlors, 193-195-197 Yonge street, will be open every night during period of exhibition until 7 o'clock.

SCOUTS' REVIEW MORE HARVEST A SPLENDID SPECTACLE SPECIALS TO GO WEST

Highest Order of Merit Presented to Scout Campbell of Toronto, While Thousands of Hats and Flags Were Waved and Cheers Given for Royal Chief.

The government has sent a request to the Canadian Pacific and Grand Trunk Railways asking them to run two additional farm laborers' excursions to the west in order to meet the shortage of labor there.

Notable Leaders. Leading the procession were three noted Toronto men, who are honorary commissioners of the movement. They were: John C. Eaton, Noel Marshall and W. K. George, and Capt. R. S. Wilson of Ottawa.

Presented With Badges. The duke, accompanied by his staff officers, Commissioners Eaton, Marshall, Kent, George and Wilson, and Mayor Geary, Hon. G. F. Flower, W. K. McNaught, M.L.A. and other notable people, walked onto the stage of the grand stand show and there waited for his address Scout Campbell of Toronto was brought out and introduced to his royal highness, who placed the green and white ribbon, which is the emblem of general proficiency, or that of a qualified member of the "Order of the Silver Wolf" around his neck.

In his speech the duke said: "Boy Scouts of Ontario—I wish to tell you how pleased I am to meet you today, and how proud I feel as chief scout of Canada in having seen you on parade up and down the line."

General Baden-Powell, to whom we owe the boy scout movement, is the other day that he considered the scout movement in Toronto and Canada was better organized than in any other part of the empire.

Twenty gum boxes have been robbed in Toronto by juvenile thieves. Two of the youths were caught redhanded at McCaul and Queen streets Tuesday evening.

New Ferry Wharf at Sarnia. SARNIA, Ont., Aug. 28.—(Can. Press.)—Plans for a landing place being raised to buy Clark's dock and offer it to the ferry company for a landing place.

LARGE HERD OF THORBREDS AT THE EXHIBITION

Seven hundred of the finest thorbred and high-grade cattle ever assembled at an exhibition are already in the stable.

FORESTERS' TENT IS LARGEST IN EXHIBITION SOCIETY ROW

The first and largest tent in "Society Row," which fronts on the lake just at the west of the big ring before the grand stand at the exhibition, is that of the Independent Order of Foresters.

These in charge of the tent are very enthusiastic about this, pointing out that the members of the order who have been visited in the hour of sickness, comforted by the presence of the members and the tender care of the order, will be able to take over the duties of the big society go out with new pride in the order and added zest to their determination to bring more to share in the benefits of their participation.

Then you will hear of the disability benefit, which is another wonderfully attractive feature of Forester insurance. This gives the member assured that should be permanently or totally disabled he has great friends in the order which will care for him in his time of need.

This single feature should be enough to arouse the young men to the great importance of making early application for membership in a society which will guarantee them full protection against an order which, when they have reached such an age as precludes them from active participation in the battle of life, allows them instead to participate in the benefits of a brotherhood which will care for them in their declining years and smooth out the road before their living feet so that they may become a primary path upon warm friendliness rather than a rough and lonely road of desolation.

Young Men May Save. Those in charge of the tent are very enthusiastic about this, pointing out that the members of the order who have been visited in the hour of sickness, comforted by the presence of the members and the tender care of the order, will be able to take over the duties of the big society go out with new pride in the order and added zest to their determination to bring more to share in the benefits of their participation.

Thousands Paid Out. The order has paid out during the past year in sick and funeral benefits alone, \$27,504.54. Such a sum of money should be sufficient to waken the many men and women who have yet to make provision against sickness and death, to make application immediately, for at the back of all the promises they make their members, they have a surplus of over nineteen millions of dollars.

A strong invitation is tendered every Forester and every friend who is interested in fraternal work, to make the I.O.F. tent a visit, and there receive a souvenir as well as a booklet explaining the different branches that this order has undertaken to adopt. It is one of the very best spots where friends can receive a cool, refreshing rest, and any friend who is anxious to help in the fraternal branch of the order, can see the sanitarium and orphanage stamps, which go towards helping to care for the afflicted.

The Theosophical Society will receive visitors during the Exhibition in Room 205, 22 College street, from 3 till 5 every afternoon. Address on Sunday evenings at 7.15.

KIDS WHISTLE AND SING TO SCOTS GUARDS' MUSIC

Glorious Day for Children Who Fairly Swamped Grounds And Buildings in Thousands

Japanese Fireworks Were Eagerly Sought as Souvenirs, and Review of Boy Scouts Was Principal Attraction—Lost Children Well Cared For.

There were kids of all colors, kinds and sizes, and they found their way into every nook and corner of the big grounds and peered with every degree of grin and open-eyed wonder at the brilliantly decked exhibits. They collected souvenirs from every exhibitor who had anything to give away and the grounds were barred everywhere where there was an animal there to watch a hundred kiddies or more just to watch it even if it had no tricks to perform. It was a trick animal, then there were several hundred kids to watch its capers.

The Japanese fireworks made a big hit with the youngsters, and when an old lady in a yellow wrapper came to root in a tree before the press building, they gathered in force, while one of the youngsters, who had been seen peering up among the branches and secured the airy old dame. Another flying figure came down opposite the grandstand and a tall gentleman with an umbrella thought he had it sure. But as he lowered his rain shield all kiddies jumped for it and the balloon was carried off in triumph. When another figure of the Siamese Twins variety straddled upon the wires at the west end of the grandstand hundreds of little ones waited the better part of an hour when the wind finally dislodged it and then there was one prize scramble.

On the Midway. The kids made one descent into the midway and through the day their shrill call of the barker and even got a little the best of the steam calliope all times. They roller-coasted and merry-went-round and had their pictures "took" in automobiles, looked at fat ladies, saw ships sink and all the time in force they were watching the trained animals and diving Venuses. They peered into the catie pens and fraternized with their friends the ponies in the dog and cat show, while even the dignity of dogs grown stiff and sedate with much prize winning unbent for the proverbial friend of dogdom, the small dog.

The Lost Children. Then there were the poor little lost children, fearful or trying so hard to smile as they were gathered into the police station by the friendly police. There could be seen the wisdom and unworldliness of their parents. The kiddies who had been taught and in a glimpse of their friend to be sought in time of trouble sat and waited for their friends, secure in the assurance of the blue-coated station dutyman that they were safe and would be sought. Those whose parents had been foolish to use the police as a bogey to frighten them were pitifully and anxiously sought by even these big gentlemen and kindly smile of Charlie Harrison, who does the honors at the Hotel de Cop, usually successful in bringing them home.

A Fine Ride. One too of scarcely any years at all passed thru the grandstand proudly in state before a mounted police.

Exhibition Notices

ORIENTAL RUGS EXCEEDINGLY BEAUTIFUL

Exhibit of the Oriental Carpet Manufacturers, Ltd., is One of the Most Attractive and Interesting at the Fair.

Beauty in the home calls to all from the exhibit of the Oriental Carpet Manufacturers, Ltd., in the west side of the manufacturers' building at the fair. There is a tastefully arranged display of the most beautiful products of the eastern weavers. The eye is alternately soothed or dazzled as it turns from the chaste beauty of the Turkish Savonnerie, three beautiful specimens of which are hung upon the south wall of the exhibit, to two Shah Abbas on either side of a handsome Meiss rug on the north wall. There are heaped upon the floors samples of many other exquisitely colored rugs of smaller size.

All these rugs are made by their most expert weavers of the orient in Asia Minor, Turkey, Persia and India. All are hand tufted and none but the highest products of these skilled workmen are handled by the company, whose business is purely wholesale and who supply only a selected list of customers in the wholesale and retail trade.

The exhibit at the Exhibition, while of great beauty and variety, is but a small part of the wonderful display which may be seen at the company's new show rooms at 54, 56 and 58 West Front street. Those premises and the exhibit at the fair are in charge of Mr. W. F. Cramer, who is ready to give any information to those interested at either place, and while the company does not retail these rugs, at

MANY CHILDREN LOST ALL FOUND AT LAST

CAT SHOW OPENS AT EXHIBITION

Large Entry of Long Hair Felines Which Are Eligible for Championship Honors.

The fuzzy felines had their innings at the Exhibition yesterday, when the Cat Show opened before a large crowd of animal admirers. The judging operations occupied the entire day. There were all kinds and descriptions, and they were of many nationalities. The following is the long-haired class eligible for championship honors:

- Class 1, white male, blue eyes—1. T. Patterson's Saladin; 2. Mrs. T. Patterson's Scottie.
Class 2, white, female, blue eyes—1. Mrs. T. Patterson's Purdy; 2. Violet Ward's Lady Aberdeen; 3. Mrs. T. Patterson's Lily White II.
Class 3, black, male—1. Bert McBride's Nemo; 2. Bert McBride's Jack Johnson.
Class 4, black, female—1. Myrtle E. Donnelly's Babe Catalpa; 2. Mrs. F. E. Hewitt's Puff; 3. Miss Alice M. Fisher's Mona.
Class 5, blue, male—1. Mrs. A. J. Finlayson's Prince Boy.
Class 6, blue, female—1. Myrtle E. Donnelly's Vic; 2. Mrs. J. R. Reynolds' Silvette; 3. Myrtle E. Donnelly's Miss Lily.
Class 7, cream or fawn, female—2. Mrs. C. J. Sawyer's Sally.
Class 8, silver tabby, male—1. Mrs. John Tomlinson's Moki; 2. Mrs. Wellington's Marco.
Class 9, shaded silver or masked silver, male—1. Mrs. Worthington's Buller.
Class 10, silver or chinchilla, female—1. Mrs. L. A. Hanson's Lady Schultz; 2. Lillian Giles' Chinchilla.
Class 11, silver tabby, female—1. Mrs. Geo. Fields' Henderson; 2. Mrs. Flah Torrington.
Class 12, brown tabby, male—1. Mrs. C. J. Sawyer's Billy Baxter; 2. Mrs. J. C. Sawyer's Persimmon; 3. John Fordham's Darrell.
Class 13, brown tabby, female—1. Mrs. J. R. Reynolds' Pluff; 2. John Fordham's Brownie; 3. H. H. Pringle's Prince Billik.
Class 14, tortoise shell, male or female—1. Mrs. C. J. Sawyer's Dolly Yarden.

the new scientific product of the Greenville Board and Pulp Co. in the shape of a scientifically manufactured wall board made of fibre, which presents all the durability of wood, is lighter and of equal or greater strength. An attractive little house constructed of this material is to be seen at the first corner on the left hand side as you enter the Duffin memorial gate at the Exhibition. This complete model house gives a practical demonstration of just what may be done with this new and serviceable building material.

Nearby's Restaurant and Grill. At both ends of the grand stand at the fair you will find Nearby's restaurants, where for 50c you will get the best meal in the grounds.

At the west end of the grand stand, a new feature, a grill room, where the most exacting taste will be satisfied. This is a place where you may take your guests, being assured that you will add one more pleasure to their visit to the Exhibition.

At Brown's restaurant tent, at the west entrance of the process building, is to be had one of the best meals at the fair grounds. The food is and all appointments are scrupulously clean. Here there is no smell of cooking nor the clammy heat of a wall-enclosed building, for the restaurant is in a capacious tent, open to the cool breezes on every side. The price is 25c and 35c.

Birds for Meals. At Bird's dining hall, just across the road from the grand stand, is where you will find one of the most attractive places in the grounds to dine. At Bird's the cooking and food are of the highest order. The price of a meal at the highest table for the restaurant is in a capacious tent, open to the cool breezes on every side. The price is 25c and 35c.

Wagstaff's Preserves. Wagstaff's, Limited, of Hamilton, Ont., might have learned from mother just how to make preserves in a way to preserve all the original flavor of the fruit. A beautiful and attractive exhibit of the wares is to be seen in the manufacturers' building. The fruits are prepared in copper kettles and boiled in silver pails and in the exhibit are shown a wide variety of these fam-

SLEEPING SWINE ARE HIGH CLASS

Judging Will Commence This Morning—Butter and Cheese Exhibits of Special Interest.

Expert authorities paid high tribute yesterday to the quality of the entries of swine in judging of the contest will commence this morning. The judges are: J. D. Brien of Ridgeway, W. A. McKelroy of Powassan, W. E. J. Cousins of Harrington, J. C. Duncan of Lewiston, N.T., John Gardhouse of Hildfield.

The judging of swine will begin tomorrow. The judges are: F. J. McEwen of Keston, J. E. Keston of Burford, Ont.; A. C. Hallman of Breslau, E. D. George of Putnam, Ont., and J. C. Nichol of Hubby.

This year's butter and cheese competition are of special interest. The judges of butter are L. A. Zuefelt of Kingston and J. H. Steinhoff of Stratford. The cheese judges are: James Birrell of St. Thomas, W. H. Morton of Montreal and W. W. Gray of Stratford.

Wagstaffe jams, jellies and preserves. Extensive as is this exhibit it has been possible to convey in the space allotted the extent and excellence of this homey and most important product.

Famous Toronto Canoes. The canoes that made Toronto famous are on exhibition under the grand stand. They are built by Walter Dean, the manufacturer of the winners of the A. C. C. championships since 1908, the most graceful, racy, sporty and thoroughly up-to-date canoes in the world.

The Martin-Orms Piano Co., Ottawa. This company is showing this year, in addition to their regular wall-mounted lines of pianos and player-pianos, a small player only four feet four inches in height, which contains all the most modern scientific means for the humanizing of the touch and the elimination of machine-like expression formerly only thought possible of installation in their largest instruments. The players shown have a power and range that is most remarkable and the intention to produce an ideal instrument for the usual sized modern apartment has been carried out by this firm with entire success.

Sanitary Cups at Exhibition. At considerable expense these machines have been brought up from New York City and York onto the walls at the entrance to all the principal buildings close to the drinking fountains. These individual cups are furnished in less than one cent.

Place one unbleached Canadian cent in the slot and pull the hook. These machines will hand out a stiff, round, roll-rimmed cup, which will also serve as the fountain for those who desire them.

Worth While Looking Into. Visitors to the Exhibition should investigate the possibilities of the mail course for the Canadian Correspondence School with a Record—the Canadian Correspondence College, Limited. You will be made welcome at their offices, 15 Toronto street.

J. D. Cooper & Sons, 49 McCaul St., Toronto. Invite you while at the Exhibition to be sure and see their exhibit of bedroom slipper soles. It is right under the grand stand.

Fine Cement Display. Skeptics regarding the suitability of concrete for high velducts over wide ravines can obtain edifying light on the issue at the Exhibition. All they have to do is to visit the magnificent annex at the east end of the grand stand, and spend a few moments at the Canadian Cement Co.'s display. Its location is on the west side of the gallery, some finding the first visit, but it is well worth looking for. Those who call concreters invariably find the spot too interesting for one inspection.

It is in charge of the Cement Company's information department, and as an educational bureau gives many object lessons in publicity work and how to interest and instruct the public. The walls of the exhibit are luminous with the extensive series of electric lighted colored views of a wide range of concrete buildings. Toronto citizens will be impressed by the picture of the imposing concrete viaduct at Philadelphia, and another concrete structure at Cleveland. A knowledge of the uses of concrete is also being extended by lectures in a pavilion tent near the art gallery at 10.30, 2 and 4, and the free distribution of 14 different publications.

Christie, Brown & Co. Biscuits. It is Merchants' Day at the Christie, Brown & Co. exhibit in the manufacturers' building throughout the whole two weeks of the fair. Thousands of children yesterday peered thru the hand-some plate glass show windows at the tempting box display of choice biscuits. Visiting merchants from all parts of the Dominion and many United States cities talked biscuit with the office staff within. The manager explained to other callers who wished to buy the Donkey and many United States cities talked biscuit with the office staff within. The manager explained to other callers who wished to buy the Donkey and many United States cities talked biscuit with the office staff within.

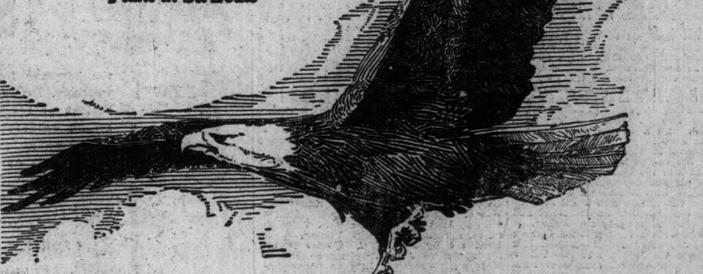

Daily Recitals Without Charge. From 4 to 5 p.m. every day this and next week free Victrola recitals will be given by the old-time firm of Heintzman & Co., Ltd., in their new Victrola parlors and recital hall, 192-195-197 Yonge street, when you will have an opportunity to hear the best selections of Caruso, Melba, Schumann-Holke, Sembrich, Calve, Gadek, Harry Lauder and other world-famed artists. Everyone is welcome—Toronto people, and the many visitors in the city.

MIDWAY DRAWS CROWDS OF YOUNG SIGHTSEERS

Budweiser

At the Top Because of Quality and Purity

Total Sales, 1911—1,527,832 Barrels Budweiser Bottled Beer Sales, 1911—173,184,600 Bottles R. H. Howard & Company Distributors, Toronto, Ont.

HARNESS RACES GREATLY MISSED

Many People Miss Them in the Afternoon Grand Stand Attractions—Extra Good Classes of Horses.

The fact that the Canadian National Exhibition Association decided to cut out the harness races for 1912, is a disappointment to the many patrons of the biggest show on the continent. For the masses nothing seems to fill the bill so well as some well appointed harness racing, which has been one of the many features in the past. Thousands who never go to a race track are anxious for exhibition time when they have hitherto been treated to the finest harness races in Canada.

C.P.R. MAN HURT AT CROSSING CO. WON'T PROTECT

WOODSTOCK, N.B., Aug. 28.—(Can. Press.)—A. Harshaw, superintendent of the northern division of the Canadian Pacific, was injured here today when his railway motor car struck a team at a crossing near the town limit.

LOW RATES FOR LABOR DAY VIA CANADIAN PACIFIC RAILWAY.

On account of Labor Day, the Canadian Pacific Railway will issue return tickets at single first-class fare (minimum charge, 25c) between all stations in Canada, P.E.I., and east, also to Niagara Falls and Buffalo, N.Y., Detroit and Sault Ste. Marie, Mich. Good going Aug. 29 and 31, Sept. 1 and 2, return limit, Sept. 4, 1912.—Full particulars from any C. P. R. agent.

Advertisement for Carling's Special Ale. Text: 'If you are one of those persons who prefer AN EXTRA MILD ALE, an Ale that combines richness, extra fine flavor and sparkling clearness, you should try CARLING'S SPECIAL SELECT ALE, put up in crown-stoppered bottles. It is a Special Brew, and has won renown for its delicacy of flavor. It can be easily digested and assimilated by those who are unable to drink a heavier Ale. Especially adapted for HOME USE, it is guaranteed to please the most fastidious. Costs no more than our other brands. ORDER from all dealers, cafes and hotels. Demand CARLING'S.' Includes illustration of a hand pouring beer into a glass and a bottle of Carling's Special Ale.

HISKY LAD, 20-1 WINS AT WINDSOR

Otherwise First and Second Choices Clean Up the Card — Leochares Takes the Handicap.

WINDSOR, Aug. 28.—Favorites and second choices cleaned up the card, except the mile event, that went to Hisky Lad at 20 to 1. Leochares best Rockwell in the handicap. Summary: **FIRST RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Union Jack, 59 (Fisher), even, 1 to 2 and out. 2. Miss Nell, 100 (Hopkins), 12 to 5, 1 to 2 and out. 3. G. G. (McCabe), 10 to 1, 5 to 1 and out. **SECOND RACE**—Purse \$500, steeplechase, 4-year-olds and up, about 2 miles: 1. Ethel Lechare, 122 (Martin), 9 to 5, 1 to 2 and out. 2. Miss Nell, 100 (Hopkins), 12 to 5, 1 to 2 and out. 3. G. G. (McCabe), 10 to 1, 5 to 1 and out. **THIRD RACE**—Purse \$500, handicap, all ages, 4 furlongs: 1. Hester Barbes, 114 (Lofthus), 7 to 5, 1 to 2 and out. 2. Fatsy Glass, 122 (Martin), 9 to 5, 1 to 2 and out. 3. Coy Lad, 96 (Connelly), 20 to 1, 7 to 1 and out. **FOURTH RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Leochares, 106 (Lofthus), 11 to 5, 1 to 2 and out. 2. Rockwell, 122 (Martin), 9 to 5, 1 to 2 and out. 3. Ballymore, 93 (Hopkins), 40 to 1, 6 to 1 and out. **FIFTH RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Elmer Lechare, 102 (Martin), 4 to 1, 2 to 1 and out. 2. Elma, 93 (Connelly), 7 to 10, 1 to 2 and out. 3. Detroit, 107 (McGarrig), 5 to 1, 1 to 2 and out. **SIXTH RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Dr. Holabur, 106 (Adams), 5 to 1, 1 to 2 and out. 2. Lad of Langdon, 106 (Martin), 3 to 1, 4 to 5 and 1 to 2. 3. Fatsy Glass, 122 (Martin), 9 to 5, 1 to 2 and out. **SEVENTH RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Flying Fleet, 109 (Bore), 7 to 10 and out. 2. Dr. Holabur, 106 (Adams), 5 to 1, 1 to 2 and out. 3. Lad of Langdon, 106 (Martin), 3 to 1, 4 to 5 and 1 to 2. **EIGHTH RACE**—Purse \$500, 2-year-olds and up, selling, 5 1/2 furlongs: 1. Flying Fleet, 109 (Bore), 7 to 10 and out. 2. Dr. Holabur, 106 (Adams), 5 to 1, 1 to 2 and out. 3. Lad of Langdon, 106 (Martin), 3 to 1, 4 to 5 and 1 to 2.

The World's Selections BY CENTAUR

Wood of Boston Wins 14 Straight Games

At Boston—Boston won two games from Chicago, 5 to 2 and 3 to 0. Wood won his fourteenth straight game, displacing Walter Johnson as a seaker after Marquard's pitching laurels, and made it 22 victories for the season in the second game. Scores: **First game**—10220000—R.H.E. Boston—Wood 10, Olson 2, White 1, White and Kuhn 1. Chicago—Wood 10, Olson 2, White 1, White and Kuhn 1. **Second game**—00000000—R.H.E. Boston—Wood 10, Olson 2, White 1, White and Kuhn 1. Chicago—Wood 10, Olson 2, White 1, White and Kuhn 1.

BASE BALL PARAGON SCORE BOARD

All games played by the Toronto Ball Club away from home will be shown daily at **MASSEY HALL** Starting Monday, Sept. 2 **FREE** A Big Group Picture of the Toronto Team will be given free to those attending morning or afternoon games on Labor Day, Sept. 2nd, when Toronto plays Rochester. Morning game starts 10.30. **ADMISSION 25c. BOYS, 15c. Ladies with Gentlemen Free.**

Grays Beat Bisons In Ten Innings 6-5

BUFFALO, Aug. 28.—The Grays and Bisons were able to play but one game of their scheduled double-header today. Cold weather and rain cut down the attendance to almost nothing. Providence won out in the tenth inning, 6 to 5. Scores: **Buffalo**—A. B. R. H. O. A. E. Truesdale, 2b, 5, 2, 1, 0, 0, 0. Deisinger, 1b, 5, 1, 1, 0, 0, 0. Eison, cf, 5, 0, 2, 0, 0, 0. Murray, cf, 5, 0, 2, 0, 0, 0. Bues, 2b, 4, 1, 0, 0, 0, 0. Beck, 1b, 4, 0, 2, 2, 0, 0. Stark, ss, 4, 0, 1, 1, 0, 0. Schrag, c, 4, 0, 0, 1, 0, 0. Jamison, p, 4, 0, 0, 1, 0, 0. Stroud, p, 4, 0, 0, 0, 0, 0. **Providence**—A. B. R. H. O. A. E. Shean, ss, 5, 0, 1, 4, 2, 1, 1. Lathers, 1b, 5, 2, 1, 0, 0, 0. Street, c, rf, 5, 1, 1, 0, 0, 0. Bauman, 2b, 4, 0, 0, 0, 0, 0. Mitchell, c, 4, 0, 1, 0, 0, 0. Aiz, 2b, 4, 1, 0, 3, 0, 0. Gillespie, cf, 4, 1, 0, 0, 0, 0. Lafitte, p, 4, 0, 0, 0, 0, 0. **Totals**—Buffalo 28, Providence 25. **Providence**—0 0 0 2 0 0 1 1 2-5. **Bases on balls**—Off Jamison 2, off Lafitte 1. **Struck out**—By Jamison 4, by Stroud 1, by Lafitte 1. **Three-base hit**—Beck. **Two-base hits**—Murray, Stark. **Sacrifice fly**—McCabe. **Sacrifice bunt**—Deisinger. **First on errors**—Buffalo 2, Providence 2. **Left on bases**—Buffalo 8, Providence 8. **Double plays**—Aiz to Stroud; Stark, Stroud. **Umpires**—Byron and Kelly. **Time**—2:10.

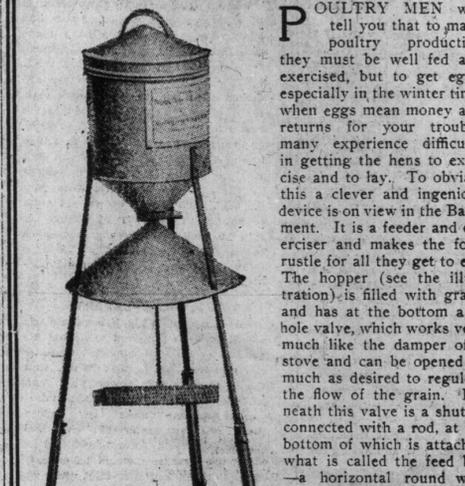

JOE PATCHEN II WINS THE PURSE

Knigh Onwardo Had to Do His Best to Get Second Money in Feature Race at Readville.

READVILLE, Mass., Aug. 28.—Joe Patchen II carried away the honors in the Neponset here today, the second day of the Grand circuit meeting. Track and weather were perfect for fast time. From the word in the first heat to the finish of the last one, Joe Patchen II was never pressed. The contest was for second money, which Knigh Onwardo secured by getting the place in the second heat. Cox finished very fast in the second heat with Mansfield coming from fourth position in the stretch. Grand Opera made Joe Patchen II pace the last heat in 2:10.30, driven by Frank Jones. The first three horses in the summary are all Canadian-owned. There was a big surprise springing in the second heat, when Knigh Onwardo, who had been a half-mile track, made two weeks ago. After taking the place in the first heat, Knigh Onwardo was driven by Frank Jones in the second heat, when Dillon Axworthy overtook her fifty yards from the wire and was first by a little more than a neck. Nathan Axworthy, too, beat the Massachusetts filly for second position by a narrow margin. It was easy for Dillon Axworthy in the third heat after Nathan Axworthy had raced on even terms with him to the home stretch. Dillon Axworthy is the property of A. B. Cox, Fall, Pa. The time of the race today rates next to the world's record for heat races, made by two-year-old trotters, led by Justice Brook, at Columbus, Ohio, three years ago. The Blue Hill was for amateur drivers. J. Dodge of Middletown, N.Y., was the winner without an effort, after losing the first heat to E. W. Ford, driven by Frank Jones of Cleveland. Summary: **The Neponset**, 2:10 class, pacing, purse \$200, amateur drivers: 1. Joe Patchen II, b.h., by Joe Patchen (Fleming), 2:10.30. 2. Knigh Onwardo (Ray), 2:11.00. 3. Grand Opera, b.m. (Snow), 2:11.00. 4. Mansfield, b.m. (Parke), 2:11.00. 5. Franconia, b.m. (Parke), 2:11.00. 6. E. W. Ford, b.h. (Jones), 2:11.00. **The Plymouth**, foals of 1910, trotting, purse \$200: 1. Dillon Axworthy, b.c., by Axworthy (Serrill), 2:11.00. 2. Nathan Axworthy, b.c. (Parke), 2:11.00. 3. E. W. Ford, b.h. (Jones), 2:11.00. 4. Franconia, b.m. (Parke), 2:11.00. 5. E. W. Ford, b.h. (Jones), 2:11.00. 6. Franconia, b.m. (Parke), 2:11.00. **Time**—2:14.5, 2:28.4, 2:11, 2:14.

EATON'S Automatic Chicken Feeder and Exerciser Creates Great Interest

A Clever Device to Make Poultry Productive

POULTRY MEN will tell you that to make poultry productive they must be well fed and exercised, but to get eggs, especially in the winter time, when eggs mean money and returns for your trouble, many experience difficulty in getting the hens to exercise and to lay. To obviate this a clever and ingenious device is on view in the Basement. It is a feeder and exerciser and makes the fowl rustle for all they get to eat. The hopper (see the illustration) is filled with grain, and has at the bottom a 3-hole valve, which works very much like the damper of a stove and can be opened as much as desired to regulate the flow of the grain. Beneath this valve is a shutter connected with a rod, at the bottom of which is attached what is called the feed bar—a horizontal round wire cage in which corn is placed. The fowl peck at this corn through the wire gauge and it swings from them, turning the bar and automatically releasing a shower of feed from the hopper, which dropping down strikes a conical drum below and scatters the food over the ground. This splendid device is built entirely of galvanized iron and is proof against rats, sparrows, and weather, and cannot rust. The legs are adjustable and can be made to suit any inequality of the ground, or lowered so the little chicks can get at the feed bar. Full directions accompany each feeder and exerciser. If you've been in the habit of throwing your feed to the fowl and have them gorge themselves without any effort, then sit around until next feeding time, you'll appreciate this device. We offer a number of them Friday at a very special price. Each 2.90—Basement.

Trade in Horses Good At Union Stock Yards

The management at the Union Stock Yards had no complaint whatever to make with the business done at their weekly Saturday market of horses. The market has been very good this week, with prices remaining about the same as last week. The stables were well filled with extra fine horses, especially in the heavy-draught classes. We were informed that a large number of exhibition visitors had called and inspected the stables, and expressed themselves as well pleased with their visit and surprised at the large accommodation for the horse trade. Sales were made to A. E. Quickfall, Bridgeport, Ont.; Grant Carriage and Foundry Company, Hamilton, who shipped an extra good pair of heavy-draught; Queen City Oil Company, a beautiful dark-grey horse, shipped to Clinton, Ont.; and a brown mare to Bradford, Ont. A. C. McDonald, city; J. E. Bell, Cobleskill, N.Y.; E. Turrel, Hammarville, Robinson & Boyce, city, and others. Several loads of fresh horses are expected in by the end of the week.

DR. SOPER DR. WHITE

DR. SOPER DR. WHITE 25 Toronto St., Toronto, Ont. Private Diseases and Weaknesses quickly and permanently cured. Call or write. Medicine in plain package. DR. STEVENSON, 111 King St. East, Toronto. **RICORD'S SPECIFIC** The only Remedy which will permanently cure Gonorrhoea, Gleet, Stricture, etc. No matter how long standing. Two bottles cure the worst case. No signature on every bottle—none other genuine. Those who have tried other remedies will be disappointed. Sold in this city at 61 per bottle. Sole agents, SCHOFIELD'S DRUG STORES, 111 KING STREET, COR. TAVELLY, TORONTO. **MEN'S DISEASES** Involuntary Emissions, Debility, Blood Disease affecting Throat, Mouth and Skin, Unnatural Discharges, Loss of Vitality, Kidney and Bladder Affections, and all diseases of the Nerves and Genito-Urinary Organs a specialty. It makes no difference who has failed to cure you. Call or write. Consultation free. Medicines sent to any address. Hours—9 to 12, 1 to 5, 7 to 9. DR. J. REEVE, 18 Carlton Street, Toronto. Phone North 812. **Balm Beach Tourney** The Balm Beach lawn bowling tournament opens on Saturday. Entries close to-night at six o'clock with the secretary, C. Bamford, 49 Isleworth avenue, Toronto. The draw will be made at 6.30 the same evening and will be given in Friday morning's World.

Newark Ten Innings Win From Montreal

MONTEREAL, Aug. 28.—Newark made it two straight from Montreal in a heavy-hitting game today. Both Ennamann and Smith were hit hard, but the former got perfect support. The locals made four mistakes. Pitcher McGuire figured as a pinch hitter in the ninth, when Montreal tied the score, and he made a triple. The visitors returned to the attack in the tenth and notched the winner. The second game was barely started when rain interrupted. Scores: **Newark**—A. B. R. H. O. A. E. Today, ss, 5, 1, 0, 0, 0, 0, 0. Collins, cf, 4, 1, 0, 0, 0, 0, 0. Bamford, rf, 4, 1, 0, 0, 0, 0, 0. McGuire, p, 5, 0, 0, 0, 0, 0, 0. **Totals**—Newark 28, Montreal 10. **Umpires**—Nallin and Carpenter. **Time**—1:30. **Umpires**—Nallin and Carpenter. **Time**—1:30.

Owen Sound Wins C.L.A. Semi-Final

OWEN SOUND, Aug. 28.—The Intermediate Alexandras defeated the Fergus Thistles here today in a semi-final C.L.A. fixture by a score of 5 to 6. The game was played in a downpour of rain, but the playing was close and fast, considering the unfavorable weather conditions. Many of the Alexandras and Mitchell of the Thistles played stellar games, being responsible for the greater part of the scoring. Owen Sound's victory was due to a strong game and saved his team from a much more severe beating. Teams: Owen Sound—McGarrig, Conroy, McIntyre, Wilkin, cover, Hair, defence, Elliott, Moore, Young, centre, Lee, home, Neving, Murray, Windsor, inside, Yee, outside, Bellamy. Fergus—Chapman, defence, Murphy, Black, Anderson, centre, L. Chapman, home, Conroy, Farrell, Mitchell, inside, Brown, outside, Collier. Referee—Frank Doyle.

Owen Sound Wins C.L.A. Semi-Final

Fergus Beaten 8 to 5 in Close and Fast Intermediate Game in the Rain.

At Harve De Grace

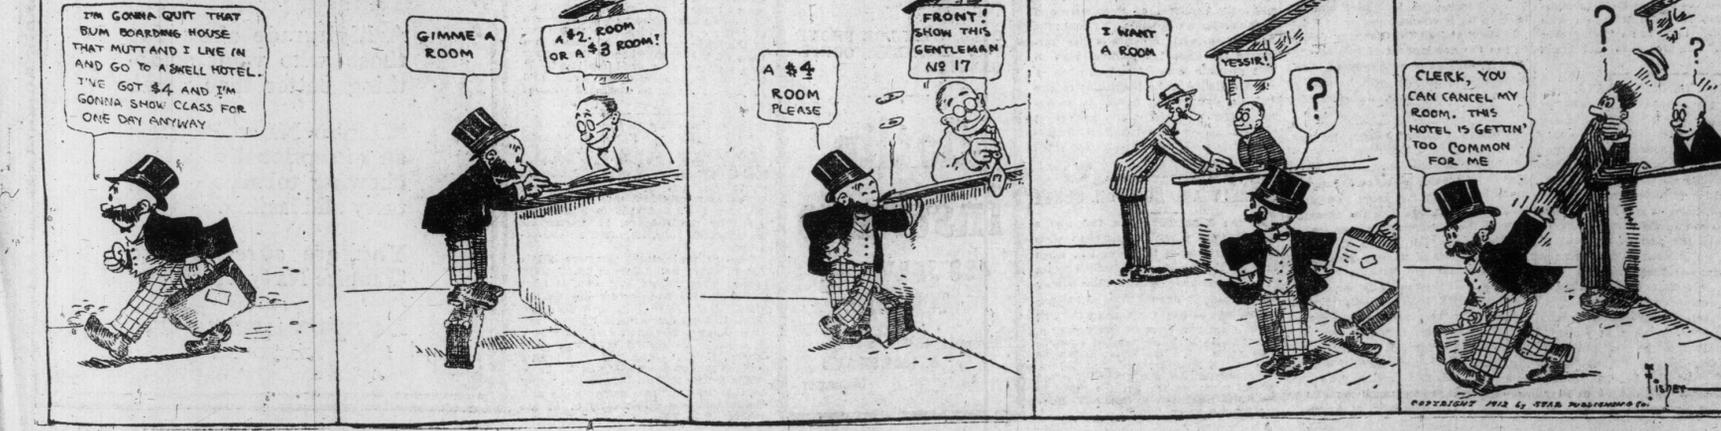

HARVE DE GRACE, Aug. 28.—Entries for Thursday:
FIRST RACE—Two-year-olds, selling, 5 1/2 furlongs: 1. Tea Rose, 109 (Bore), 7 to 10 and out. 2. Yenghee, 107 (McGarrig), 5 to 1, 1 to 2 and out. 3. Falconet, 102 (Martin), 4 to 1, 2 to 1 and out. 4. Sprigly, 109 (Bore), 7 to 10 and out. **SECOND RACE**—All ages, handicap, 4 furlongs: 1. Penobscot, 102 (Martin), 4 to 1, 2 to 1 and out. 2. Springboard, 99 (Bore), 7 to 10 and out. 3. Bob B., 101 (Bore), 7 to 10 and out. 4. Holloway, 93 (Connelly), 7 to 10 and out. **THIRD RACE**—Three-year-olds and up, selling, one mile and seventy yards: 1. Lady McGee, 115 (Lofthus), 7 to 10 and out. 2. Dr. Swearingen, 104 (Lofthus), 7 to 10 and out. 3. Door Mat, 101 (Lofthus), 7 to 10 and out. 4. Friend, 105 (Lofthus), 7 to 10 and out. 5. Kind Sir, 99 (Lofthus), 7 to 10 and out. **FOURTH RACE**—Three-year-olds and up, selling, one mile and seventy yards: 1. Bunch of Keys, 92 (Lofthus), 7 to 10 and out. 2. Popgun, 92 (Lofthus), 7 to 10 and out. 3. Federal, 108 (Lofthus), 7 to 10 and out. 4. Stravinsky, 95 (Lofthus), 7 to 10 and out. 5. Mendelssohn, 95 (Lofthus), 7 to 10 and out. 6. Ambrose, 92 (Lofthus), 7 to 10 and out. **FIFTH RACE**—Three-year-olds and up, selling, one mile and seventy yards: 1. O. U. Buster, 105 (Lofthus), 7 to 10 and out. 2. Michael Angelo, 105 (Lofthus), 7 to 10 and out. 3. Black Mate, 105 (Lofthus), 7 to 10 and out. 4. Double Five, 105 (Lofthus), 7 to 10 and out. 5. Overlook, 91 (Lofthus), 7 to 10 and out. 6. Hushie Quint, 91 (Lofthus), 7 to 10 and out. **Apprentice allowance claimed.** Weather clear; track fast.

Buying Them Back

CINCINNATI, Aug. 28.—The National Baseball Commission today gave out the list of players whose releases have been purchased by major league clubs from minor league clubs since Aug. 25, 1911, under agreements filed with and approved by the commission. The list does not include players recalled by major league clubs on Aug. 29, 1912, under optional agreements, which list was promulgated on Aug. 22. The list includes: **By New York**—From Newark, Hanley. **By Brooklyn**—From Toronto, Burch, Madden, Humphreys and Farrell; from Newark, Kirkpatrick. **American League**—Perry. **By Detroit**—From Providence, Redden and Main. **By Philadelphia**—From Baltimore, Walsh and Murphy. **Affidavits not received**, and therefore, subject to annulment: By Washington, from Montreal, Gandil.

THURSDAY MORNING, AUG. 29, 1912

THE MERGER AND THE MELON

Nearly every newspaper in this country, some of them sincerely, others under the pressure of public opinion, advised the government against hasty action in the matter of the big merger between the Royal Bank and the Traders' Bank of Canada. There was a general consensus of opinion that the matter should stand over until parliament dealt with the decennial revision of the Bank Act, now three years overdue. The impression certainly got abroad that neither the treasury board nor the governor-in-council would sanction the merger in the absence of the prime minister and during the parliamentary recess.

Now what happened was this. Last Saturday the treasury board held a meeting and recommended that the purchase of the assets of the Traders' Bank by the Royal Bank be approved; that recommendation, if it was in writing, must have reached the council chamber before the ink was dry and was approved by order-in-council immediately. No one was given an opportunity to be heard in opposition; no one knows what arguments were presented for or against the merger, to either the treasury board or to the governor-in-council.

The smooth way in which the merger was put over of a Saturday night without attracting any particular attention, is hailed as a hopeful augury by those who desire a government license for the proposed melon cutting by the Canadian Pacific Railway Company. They think the government is easy and they fear parliament. They would pluck and eat the melon now, and discuss the matter with the owners of the patch, some time or another after Christmas.

The Montreal Gazette, an excellent newspaper, but always pro-corporation, lets the cat out of the bag when it says:

The plan of amalgamation of the business of the Traders' Bank with that of the Royal Bank was sanctioned by the treasury board and the privy council as a matter of course. No searchers objected and none of those who thought there was a public menace in an arrangement calculated to secure economy and strengthen the bank's power of holding commerce had a word to say. There is a lesson in the situation as it developed which may serve a good purpose on other occasions. Not everybody who shouts that he is a friend of the people and demands that his views be regarded in the regulation of others' business needs to have attention paid to him.

FOR HYDRO-ELECTRIC OPONENTS

The Kingston Standard, like some other papers, is unable to discriminate between the hydro-electric power of the city and the street railway company's power, which has broken down so often and left the cars stalled. Will the rural papers please note that the street railway here is not operated with hydro-electric power?

So that this is not a valid argument, as the Standard uses it, for spending \$5,000 on a steam plant for Kingston. Nor has the Standard nor the other opponents of hydro-electric grasped the fact that an expenditure of \$35,000 on useless plant is a decided handicap in the effort to get cheaper power. Hydro power without a needless load of \$35,000 will be cheaper than with that load to carry. This point is ignored.

Nor have the opponents of the hydro-electric system recognized the constant lowering of the price, which goes on with the increase in consumption. Nor the other essential fact that the price paid for power also pays for the plant, which is not the case in the rival company's offer. And then again with hydro-electric there is no "living over a volcano." Hydro does not break down.

WISER THAN EXPERTS.

One of the greatest difficulties of municipal government is the solution of the problem that arises over a difference of opinion between a city council and a man of professional reputation and ability in their employment. An old British principle insists that a man should have trial by his peers. But the average alderman believes himself to be the peer of anyone. It is usually an abnormal development of self-opinionatedness—we do not suggest conceit—that enables him to secure election.

The Contract Record dwells on the case of the city engineer at Ottawa, who has fallen into the bad graces of the Ottawa City Council. "This enlightened body," says the Record, "found that a scapegoat was needed to bear the blame for the recent epidemic of

typhoid, and after some deliberations as to the merits and demerits of the case, they decided that City Engineer Ker would be the most generally acceptable victim."

It was nothing to the purpose that Mr. Ker had submitted two plans for a water supply, both of which the council refused to adopt, insisting on their own plan, which has proved so disastrous, and for which they would now fain hold the engineer responsible. We are familiar with this weakness of aldermen in Toronto. Again and again the city engineers have made recommendations, which the aldermen, for one reason or another, reject. What follows is then attributed to the engineer. The St. Clair avenue bridge, for example, was recommended in the first place by the engineers. The council decided on a fill. Now a bridge has to be built. The difference of cost which is due to the council, is debited by them to the engineers. The people, who have to pay, do not yet seem to appreciate the folly of paying for expert advice, and allowing themselves to be guided by absurd people who think they know better than the doctor.

AUTOMATIC EXPERTS.

The Kingston Whig has an electric expert "who is prepared to defend his opinion against all comers," who declares, according to The Whig, that the Kingston civic power plant can produce power as cheaply as the hydro-electric people, "unless they reduce their rates very materially." We had similar experts in Toronto who told us the hydro estimates would be exceeded two, three and four-fold; that we would be bankrupt in a year; and that power could never be delivered. These experts are all trained by corporation authorities and go thru the motions when the corporations give the sign. If the people of Kingston do not know this, they will find out something by and by. Meanwhile they should observe what has happened when the advice of experts, such as The Whig relies upon, has been followed, and how much better off the people are who have adopted hydro power. They should also note that The Whig does not like Mr. Beck. A man is known by the company he doesn't keep.

THE GLOBE AND ROOSEVELT.

The Globe is often inaccurate in matters of detail, when it discusses American politics, but it has sensed the real issue in the present campaign and is against Theodore Roosevelt. It opposes him instinctively. Roosevelt's ideas are not popular with the by-partisan combiners who prefer the rule of corporations to the rule of the people.

The Globe thinks a great deal of Lloyd George, but it does not want any of Lloyd George's ideas to gain a foothold on this continent. Neither does it desire primary nomination, the recall of members of parliament nor any other progressive device for preventing the setting up of governments and parliaments by special interests. Like The Toronto News, it hides under the bed and holds its breath when there is a live issue like the bank merger or the railway melon up for discussion.

Now The Globe is insinuating that Col. Roosevelt's agents received money from the Standard Oil Company under circumstances which made its receipt tantamount to the acceptance of a bribe by Col. Roosevelt personally while holding the office of president of the United States. Further The Globe declares that he must make a specific denial: that he cannot get away from the evidence against him by a mere denial. The Globe should know that the members of the investigating committee are practically in hiding, some of them in this country, to prevent Col. Roosevelt from making the specific sworn denial which The Globe is demanding. A more dastardly conspiracy to assassinate a public man than this bi-partisan Standard Oil conspiracy cannot easily be recalled. But it will fall of its purpose precisely as the murder of Roosevelt failed of its purpose.

The Globe ought to know that George W. Perkins has not been a member of the firm of J. P. Morgan & Co. for many years; that Morgan & Co., Kuhn Loeb & Co. and the Standard Oil interests are united in the money trust; that there is no conflict or contest between J. Pierpont Morgan and John D. Rockefeller; that the Standard Oil combine is fighting Roosevelt to the death, because he is honest and not because he is crooked.

FARMERS' CORPORATION IN SASKATCHEWAN.

On previous occasions The World has noted the great advantage secured by agriculturists in the more advanced countries of Europe thru the organization of the co-operative societies of various kinds. In Denmark, for example, all sorts of grain, vegetable and dairy products are handled by these societies, and their operation on strictly business lines has not only directly benefited growers and manufacturers, but thereby established a high and consistent standard of quality which has gained the confidence of foreign markets. Canadian agriculturists have not hitherto shown much inclination towards the introduction of co-opera-

tive methods, but a beginning has been made in several provinces, and the movement will probably be accelerated and strengthened by the remarkable success attending the first full year's transactions of the Saskatchewan Co-operative Elevator Company.

At the annual meeting of shareholders held in Regina on Wednesday, August 22, the directors had the pleasure of submitting a very favorable report. After meeting the expenses of operation and providing for depreciation and the interest on the loan obtained from the provincial government, a surplus profit remained of \$52,461.50. This permitted of a six per cent. dividend on the amount paid up on shares allotted prior to April 1 last. The balance of \$48,799 was divided between the reserve fund and the trading reserve; the latter a fund to provide the capital necessary "to enable the company to enter the business of supplying its supporters those commodities which the farmer purchases in wholesale quantities." Following the practice of European companies of this character, the maximum dividend is limited to six per cent., so that with increasing business the company will build up its reserves more rapidly and become all the better and sooner able to initiate and extend the other branches covered by co-operative organizations.

The remarkable growth of the company can be realized from the fact that the total subscribed capital now amounts to \$1,177,000, held by 892 farmers. At the conclusion of this year's building operations, the company will possess 140 elevators, representing, as the general manager remarked, an approximate capital outlay of \$1,115,000. Up to the end of the financial year ending on July 31 last, 3,261,000 bushels of grain were handled thru the elevators, whereof 1,474,845 bushels of wheat had been purchased by the company and 1,786,155 bushels specially binned for farmers. Large as these figures are, the total would have been much increased but for delays in construction. Last season, too, was unfavorable and the condition of much of the grain rendered satisfactory marketing very difficult. Despite these handicaps the result warrants the belief that the co-operative movement will be vastly encouraged in Canada by the success of the Saskatchewan company.

GOOD ARCHITECTURE.

Let us have stone in the construction of the new technical school, by all means. If it does cost an extra \$100,000, that is about a quarter of a dollar a head of the population, and the school will be a monument for all time and a memorial over the earth in the hearts of those who are trained there and go forth to world-wide labor. Toronto is growing beyond the stage of doing things on the cheap, and we do not need to wear moleskins in our civic apparel. The effect of good architecture on the state of students, technical or otherwise, is profound, and good taste is one of the most important elements in the world's work today. Canada must place herself consistently on a level with Germany, the United States, Great Britain, if her students are to compete with the students of these countries, and in the shell of the technical school will compare but poorly with the great buildings abroad if we confine ourselves to cheap material.

BRITISH BROTHERHOOD.

It is unfortunate that the people of India are receiving such unbrotherly impressions of Canada. It might not matter so much if Canada alone were concerned, but Canada is a favored child of the empire and the empire has to shoulder the responsibility of the fact that Canada does not want people from other parts of the empire to claim any brotherhood in our broad dominions. Even Chinese and Japanese are better regarded than British Asiatics whose national blood has red red for the Union Jack. There is a clever Parsi in Toronto at present for whom assertive Britons of Canadian training have nothing but repellent advice.

Are we developing a strong element of national hypocrisy in the British character? Is it as true as it has been boasted that all men are free and equal under the British flag? The profession is nothing if the act belie it. And there may be some foundation in the complaint from India that Britons do not look upon their darker-skinned neighbors as brothers, but only as people to be exploited as completely and as plausibly as possible. No doubt the association with Americans has corrupted the Canadian point of view in this respect. But Australia has a similar dislike to be hospitable to any but the soap-white races. A recognized enmity between the suborned and the soap-white races of the British Empire is not going to be a good thing for the empire.

LOYALTY AND COMMON SENSE

At the King Edward a few nights ago, a jolly party of travelers were enjoying the good things of life, when one of the number remarked that "Canadians are certainly loyal—they always take Radnor instead of imported water, with their whiskey." One of the Canadian boys promptly replied, "That's not much loyalty as common sense. We feel that Radnor is the choicest and purest of table waters. Why should we use these imported waters when we can get the finest in the world right here in Canada? Radnor for me every time."

Your doctor would recommend it. Image of a doctor and a bottle of O'Keefe's Special Extra Mild Ale.

PROF. Gaertner, in his "Manual of Hygiene" states that one quart of beer is equal in food value to three and one-tenth pounds of bread (as to the quantity of carbohydrates), and to two ounces of bread, or nearly one ounce of meat (as to the quantity of albumen).

O'Keefe's Special Extra Mild Ale is strong in stimulating food values—rich in nutriment—yet so light and mild that everyone may enjoy it.

A FINE MAGAZINE

The "Teller" issued by Sterling Bank Staff Splendid Piece of Work.

A copy of the first edition of The Teller, edited by the staff of the Sterling Bank, has reached this office. Topographically The Teller is a splendid piece of work and quite different. Contents embrace new items, regarding the different members of the staff, a short sketch of the general manager, Mr. F. W. Houghall, and several articles of interest to bankers in general. The bank has every reason to be proud of the efforts of their staff, and editor and chief of the magazine, Mr. R. D. Little.

C.N.R. HOTEL FOR CALGARY. Magnificent Structure, Costing More Than a Million Dollars, to Be Built on Block on 17th Avenue.

The Canadian Northern Railway have prepared plans for a magnificent hotel to be erected in Calgary, Alta., at a cost of more than a million dollars. This is to be erected on the block bounded by the C. N. R. on 17th Avenue and adjoining the property on which it is understood, the new C. N. R. station and freight sheds are to be located.

A new hotel will be one of the finest in western Canada and probably the equal of any in the Dominion. It is seen that it will be built along the lines of the New Vanderbilt Hotel in New York, which Sir Donald Mann, Vice-president of the C. N. R., inspected when he was in New York early this summer and of which it was stated the C. N. R. had secured plans. At the time it was thought that the plans for this hotel being prepared by the C. N. R. were intended for the erection in Toronto of a large hotel similar to the New York one. It is now learned that it was for the new Calgary hotel for which the plans were being prepared.

FRATERNAL INSURANCE.

Hamilton Spectator: When a society increases its rates to the level of the Hunter scale, that is not the end of its difficulties. If it has been long in existence, it has a large number of members, who, from their entry, have been getting protection below cost. No doubt, if all along they fancied they were putting away money as in a savings bank. In reality they were buying protection at less than current cost, and getting into a bad habit. The longer they have been doing this, the more deeply they are in debt. It becomes necessary, therefore, not only to bring the rates to a sound basis, but to start everybody all over again at attained age or near it. It may be possible—The United Workmen are doing— to start the older members over again at several years less than attained age; but in any case, the change is very severe upon the older members, many of whom have not the earning power they once had, and quite naturally they remonstrate. Sometimes also the society is doing—members are given an option on attaining the age of seventy, and allowed either to continue to withdraw and take what ever may be due them, but if they withdraw before reaching that age, they must lose everything.

On account of the urgent appeal from the west for additional farm laborers, the Grand Trunk Railway have decided to run two more farm laborers' excursions on September 4 and 5 from all stations in Canada, \$10 to Winnipeg, plus half cent mile from Winnipeg to destination, but not beyond MacLeod, Calgary or Edmonton. Returning half cent mile to Winnipeg, plus \$18 to destination in Eastern Canada. The farmers along the Grand Trunk Pacific pay the maximum wage and this is an excellent chance for young men to visit the west. The route via Chicago is an attractive one, as many large cities and towns are passed en route, which breaks the monotony of the journey, as there is something new to see all the time. The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg, Saskatoon and Edmonton.

Satin spots may be removed from foulard by sponging with diluted aqua ammonia and water.

RULE BY LANDLORDS

Toronto News: With the real estate market in its present condition, ownership of property cannot be deemed a guarantee of permanent residence in Toronto. Considerably less trouble is experienced in selling a house than in having furniture removed. Yet for some inexplicable reason landed proprietors are given special privileges at municipal elections. They slice the fat of money bylaws and in so doing they settle the trend of municipal policy. A leading business man who lives in a rented house is affronted so far as really important questions are concerned. Until a citizens party is formed and able men are secured to serve on council, it cannot matter very much who are chosen from each year's crop of candidates, but the fates of the money bylaws are of the greatest importance. A small percentage of the householders of the city can check all progress. If the present system is continued, the city may have to do without a duplicate waterworks on Scarborough Heights. Is there any chance of a majority of land-owners voting for the purchase of the street railway when the franchise expires? Will they continue to control, what if they are the franchisees? Will they build a federal square and diagonal roads to create circles at street intersections and to widen main thoroughfares? What does the city intend to do with the restriction of the franchise on money bylaws is a relic of the days when voting power was granted with grudging hand. It is a pernicious form of class rule, and as such it should be abolished without delay.

A Side Trip to the Falls.

Your visit to the Canadian National Exhibition should also include a side trip to historic Niagara Falls via Port Dalhousie and the garden of Canada route.

The extremely low rate of \$1.50 to Niagara Falls and \$1.75 to Buffalo offers by the Niagara, St. Catharines and Toronto Lines, is indeed an inducement. The palatial steel steamers "Dalhousie City" and "Garden City" leave Yonge street wharf at 8 a.m., 11 a.m., 2 p.m., and 5 p.m. during the Exhibition. Boats leave Port Dalhousie 8:30 a.m., 11 a.m., 2 p.m., and 5 p.m. On August 28 and 29 and September 2, 5 and 7, a special boat will leave Port Dalhousie at 8 p.m., returning to Toronto at 11 p.m. For tickets and all information apply to the ticket offices, corner King and Toronto streets (Main 5179) or at the wharf (Main 2562).

A KNIGHT VICTORY.

The Knight Type Motor Shown to be Superior, This Time in Belgium—The Sleeve Valve Knight Engine is Victorious in a Two Days' Race.

Another triumph has been added to the long list of victories gained by Knight type motor engines. In the recent contest held under the auspices of the Royal Automobile Club of Belgium, the Minerva and the Mercedes cars—both fitted with the sleeve valve Knight engine—clearly demonstrated their superiority. Not only did the sleeve valve Knight engines maintain a much higher speed throughout, but during the two days' race they never once fell down.

The course was thirty miles. Each car has to make twelve laps a day, covering a distance of 360 miles, or 720 miles in the two days; if a car stopped for more than 15 or 20 minutes, it was disqualified.

The world's best automobiles are now equipped with this wonderful sleeve valve knight type. The famous Knight engine is on view in the 1912 Russell Knight car. It may be seen in the transportation building at the Canadian National Exhibition.

Another Appeal for Harvesters.

\$10.00 to Winnipeg. On account of the urgent appeal from the west for additional farm laborers, the Grand Trunk Railway have decided to run two more farm laborers' excursions on September 4 and 5 from all stations in Canada, \$10 to Winnipeg, plus half cent mile from Winnipeg to destination, but not beyond MacLeod, Calgary or Edmonton. GRAND TRIBUTE TO LATE GENERAL BOOTH

Continued From Page 1.

that the affairs of the community will go on with that benefit to the community which it has been in the past.

Commissioner Reeves, who was the late general's chief representative for Salvation Army operations in Canada, told many touching incidents of his association with his departed chief.

The general, he said, "looked upon the poor of the world as his parish. He lived for others. We have listened to some beautiful tributes, but it seems to me that the obituary of John Wauwaniaker of New York was the greatest of all."

"Farewell to thee who never thought of thyself, but only thought of others."

The commissioner told of General Booth's method of transacting business. Always at the conclusion, he said, the general would kneel and ask God's blessing. Had his blessing would have passed away misunderstood by the world and in all probability misjudged.

Among those on the platform were: Lieut.-Gov. Gibson, Mayor Geary, Hon. J. J. Fox, Hon. George E. Foster, Hon. Thomas D. Sturges, Hon. W. H. Hanna, Hon. Dr. Pyne, Hon. J. J. McLaren, Hon. A. B. Morine, Alderman Wantless, Maguire and May, City Treasurer Coady, W. W. Curry, K. C. Conroy, McCarthy and Church, Property Commissioner Chisholm, Rev. Dr. Carman and Rev. Dr. ...

STANLEY PARK IS CHOSEN FOR ABATTOIR SITE

Special Committee Decide to Build on Park Property on Wellington Street After Inspection of Other Locations

New Warehouse for the Massey-Harris Company.

That the municipal abattoir should be located in Stanley Park on the north side of Wellington street was decided yesterday afternoon by the special committee appointed by council to deal with the matter.

The location on the north side of Wellington street was decided yesterday afternoon by the special committee appointed by council to deal with the matter.

At the meeting held in the city hall at the trial of Inspector Dr. Hastings, it was stated that the impression that an abattoir would be built in Stanley Park was entirely incorrect.

The Baby Show.

There will be a record entry in the baby show at the Exhibition on Labor Day.

Mr. and Mrs. H. Prisco of Colborne Taken Into Custody at Conclusion of Inquest on Their Child.

Following the verdict brought in by the jury under Coroner Graham last night at the inquest in the city morgue into the death of the daughter of Mr. and Mrs. H. Prisco of Colborne, Ont., who died on the train from Colborne to Toronto about a week ago, while being brought to this city, Acting Detective Nesbitt arrested the father and mother of the child last night.

Both were locked up in No. 1 police station. The verdict rendered was that the child came to its death through criminal negligence on the part of the parents. According to the evidence given there was an apparent conspiracy between the witnesses to tell just what they wanted to tell in reference to the case. The youngest was seven months' old child. Coroner Graham in his summing up to the jury, made a scathing indictment against the persons responsible for the child's death and death. It was being brought to the infants' home here, when it died en route.

Retail Dealers Say Something Else Goes Into Soles—Desire Boxes Uniform Size—Other Complaints.

The Retail Boot and Shoe Dealers' Association, at their first provincial convention, held in Toronto, under the auspices of the Retail Merchants' Association of Canada, yesterday, decided to put a strong fight against the practice of manufacturers in using imitation leather in the soles of shoes. It was pointed out that the imitation used, instead of solid leather, does not give satisfaction, and is injurious to the health of the wearer. In fact, they attribute this as being one of the principal causes of sore feet. The substance, when it once gets wet, can be rubbed off the sole of the shoe, and the wearer suffers as a consequence. They are also opposed to the practice of wholesale dealers selling their counters to large stores and others of placing second-grade rubbers on the counters and selling them as first grade. A request will also be made to the manufacturers to make the shoe boxes a uniform size. The shelves of the dealers are made for boxes of one size, but the manufacturers have apparently not taken this into consideration and send the shoes out in boxes of various shapes and sizes. It was decided to send in a request to the manufacturers to try and put a stop to these practices. Placed themselves on record as opposed to giving mail order houses a further special advantage over those they now have. They endorsed the proposal to have a credit reporting system adopted throughout the province, so as to tabulate "bad pay," and also endorsed the action of the Retail Merchants' Association of Canada in asking that retail merchants be asked from the proposed Association.

"BOILER PLATE" WAR Two American Press Associations Declare Each is Breaking Law. WASHINGTON, Aug. 28.—(Can. Press.)—The American Press Association and the Western Newspaper Union recently announced that they had agreed to a joint anti-trust law from enacting in any unfair business methods, have filed charges that one another are violating the decree. It is understood that the charges that resulted in the agreed decree, will be investigated. The original move of the department was the outcome of a bitter trade-war between the concerns, which furnished "boiler plate" and "ready print" to an aggregate of about 15,000 small newspapers. The suit was filed in the federal court at St. Paul, Minn., and the department of justice announced, to prevent the companies from competing in the market, they would drive one or the other to the wall, equipping the survivor with the power of complete control of about 60,000,000 readers.

CHARGED WITH PERJURY Harold Prialux Denied Making a Bet in Dice Game. HAROLD Prialux, of 427 Sunnyside street, stood before the magistrate this morning on a charge of perjury. Prialux and three other men were dining in the restaurant, when two officers caught them. They appeared before the magistrate yesterday morning. At the time of their arrest Prialux was betting 50 cents. The officers saw him make the bet. He said that he had made it while interrogated by the police magistrate.

Three Weeks' Old Girl Found in Basket at 159 East Gerrard St. An unknown infant was found in a basket at 159 East Gerrard street last night by boarders in the house. Two of the boarders heard the baby crying and going to the back of the house, found the little one in a basket on the back porch. It was a female child, about three weeks old. It was taken to the Children's

Timisk. Up on News of High-Grade Shipment--Cattle Markets

WHEAT MARKET FAILS TO HOLD ITS ADVANCE

Sharp Bulge in Chicago Felt Wiped Out in Late Trading--Net Change for Day is Small--Corn and Oats Firmer.

CHICAGO, Aug. 28.—Charters of vessels from here to load more than a million bushels of wheat for Buffalo tended to give the cereal strength. Although the final tone was easy, the market closed a shade to 3-8c and 1-8c above last night. Corn finished a sixteenth to 3-8c up, oats varying from a shade off to 1-8c advance and provisions stringing out from a decline to 5c increase in cost.

Aggressive action by short sellers of wheat started as soon as the market showed a disposition for an upturn. Erratic prices changed followed, but the bulls held firm in the reaction, most of the time and took profits on a large scale during the last hour. News of the big lake charters did not become public until late in the session, but speculators inclined early to a belief that only the stiffness of ocean freights kept foreigners out of the buying side of the market. The gains were relatively small for September, as important liquidating sales for long acted as a drag. December swung from 94 1-4 to 95 5-8c and in the end was 1-4c net higher at 94 5-8c.

Car scarcity complaints by country dealers, who have old stock to ship, made the corn market firm. The trade ignored the fine weather for maturing the crop. September ranged from 73-3/4 to 74 3-4c, closing steady at 73 7-8c, a net gain of 3-8c. Cash grades were in good demand.

In the oats crowd shorts covered freely, but longs realized in a liberal way, so that in the end prices showed little difference. Outside limits touched for Sept. were 32 5-8c and 32 1-2c to 32 3-4c to 32 7-8c.

Most of the business in provisions consisted of September holders, packing and shorts took the offerings. Last night's average level of prices was well maintained.

Receipts of wheat at northwest points, with usual comparisons, follow:

City	To-day	Wk. ago	Yr. ago
Chicago	237,151	231,151	231,151
Minneapolis	237,151	231,151	231,151
Winnipeg	237,151	231,151	231,151
Duluth	237,151	231,151	231,151

European Markets. The Liverpool market closed today 3/4 to 3/8 higher on wheat and 3/4 higher on corn, compared with yesterday.

ST. LAWRENCE MARKET. Receipts of farm produce were six loads of hay.

Hay—Six loads sold at \$14 to \$16 per ton.

Wheat, new, bush, \$0.94 to \$0.95
Wheat, old, bush, \$0.92 to \$0.93
Rye, bush, \$0.85 to \$0.86
Oats, bush, \$0.43 to \$0.44
Peas, bush, \$1.00 to \$1.01

Manitoba flour—Quotations at Toronto are: First patents, \$5.70 in cotton 10c more; second patents, \$5.30 in cotton 10c more; strong bakers, \$5. in jute.

Barley—For malting, No. 6 (4-b. test), for feed, 45c to 50c, outside, nominal.

Corn—No. 3 yellow, 57c. Track, Toronto, on track, at Collingwood, 52 1/2c; No. 2 mixed track, Midland, 51c.

INTERNATIONAL REVIEW OF WHEAT SITUATION

Crop Failure in Britain Affects Supply and Demand Conditions—Broomhall's Comment

Broomhall's special international review of the wheat situation, issued in Liverpool yesterday, is as follows:

The prolonged period of wet weather during the harvesting season in the United Kingdom has culminated in a disastrous condition to the crop, as regards yield and quality. This situation will materially affect the general markets throughout the world. Although the British crop is relatively insignificant, yet the markets will be sentimentally influenced by the extraordinary demand which will aggregate fully 16,000,000 bushels in excess of the earlier estimate. The damage is not confined exclusively to the United Kingdom, as the weather in Northwestern Europe has been equally as bad as here, and the demand from Europe for winter wheat is much larger than a year ago. Mediterranean demands are much larger buyers, aggregate demand, including Europe and the Orient, will be heavily drawn upon. The whole problem here is the quality of the wheat, as an ample amount raised will insure quite sufficient for consumption.

Reports of the Russian situation from various agents indicate a crop below expectations, notwithstanding the extreme estimates placed by the International Institute at Rome, which places the crop at 30,000,000 quarters over last year. This estimate, in any case, is in line with the indicated large crop in both the United States and Canada, should further estimates in any other places be plentiful, but the United States and Canada will be heavily drawn upon. Experience of former years proves that a heavy import demand always causes a firm market, even when supplies are liberal, and I see no reason to think that this season will be an exception, especially in view of the high prices and rates and the world's good trade outlook.

LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, Aug. 28.—The market opened firm and later further advanced. With October and later contracts freely on the first. Short covering was done in the market. American offerings, and the forecast of the market by the International Institute, and the United States and Canada, should further estimates in any other places be plentiful, but the United States and Canada will be heavily drawn upon. Experience of former years proves that a heavy import demand always causes a firm market, even when supplies are liberal, and I see no reason to think that this season will be an exception, especially in view of the high prices and rates and the world's good trade outlook.

WHEAT MARKETS

LIVERPOOL, Aug. 28.—Closing—Wheat—Spot market—No. 1 Manitoba, 48 1/2c; No. 2 Manitoba, 47 1/2c; No. 3 Manitoba, 46 1/2c; No. 4 Manitoba, 45 1/2c; No. 5 Manitoba, 44 1/2c; No. 6 Manitoba, 43 1/2c; No. 7 Manitoba, 42 1/2c; No. 8 Manitoba, 41 1/2c; No. 9 Manitoba, 40 1/2c; No. 10 Manitoba, 39 1/2c; No. 11 Manitoba, 38 1/2c; No. 12 Manitoba, 37 1/2c; No. 13 Manitoba, 36 1/2c; No. 14 Manitoba, 35 1/2c; No. 15 Manitoba, 34 1/2c; No. 16 Manitoba, 33 1/2c; No. 17 Manitoba, 32 1/2c; No. 18 Manitoba, 31 1/2c; No. 19 Manitoba, 30 1/2c; No. 20 Manitoba, 29 1/2c; No. 21 Manitoba, 28 1/2c; No. 22 Manitoba, 27 1/2c; No. 23 Manitoba, 26 1/2c; No. 24 Manitoba, 25 1/2c; No. 25 Manitoba, 24 1/2c; No. 26 Manitoba, 23 1/2c; No. 27 Manitoba, 22 1/2c; No. 28 Manitoba, 21 1/2c; No. 29 Manitoba, 20 1/2c; No. 30 Manitoba, 19 1/2c; No. 31 Manitoba, 18 1/2c; No. 32 Manitoba, 17 1/2c; No. 33 Manitoba, 16 1/2c; No. 34 Manitoba, 15 1/2c; No. 35 Manitoba, 14 1/2c; No. 36 Manitoba, 13 1/2c; No. 37 Manitoba, 12 1/2c; No. 38 Manitoba, 11 1/2c; No. 39 Manitoba, 10 1/2c; No. 40 Manitoba, 9 1/2c; No. 41 Manitoba, 8 1/2c; No. 42 Manitoba, 7 1/2c; No. 43 Manitoba, 6 1/2c; No. 44 Manitoba, 5 1/2c; No. 45 Manitoba, 4 1/2c; No. 46 Manitoba, 3 1/2c; No. 47 Manitoba, 2 1/2c; No. 48 Manitoba, 1 1/2c; No. 49 Manitoba, 1/2c; No. 50 Manitoba, 1/4c.

GRAIN AND PRODUCE

Local grain dealers' quotations are as follows:

Oats—Canadian western oats, extra No. 1 feed, track, lake ports, 45c; Ontario, No. 2 mixed track, 43c; outside points, 42c to 42 1/2c.

Wheat—No. 2 red, white or mixed, 51c; No. 2 mixed track, Ontario fall, 49c; No. 2 mixed, 48c per bushel.

Rye—No. 2, 70c per bushel, outside, nominal.

Peas—No. 2, 90c nominal, per bushel, outside.

Buckwheat—0c per bushel, outside, nominal.

Rio and Sao Paulo Up---Brazilian at 93---New York List Easier

TRACTIONS AT C. P. R. Fails To Maintain Its Advance

Consummation of Merger Lifts Rio and Sao Paulo Shares—Toronto Stock Market Quiet and Steady.

UNTIL something more definite is learned concerning the attitude of the government regarding the Canadian Pacific stock issue, the street does not expect the price of the stock to hold very steady. The stock opened strongly this morning at an advance of 1/4 over yesterday's last sale and worked its way up to 277 before the noon hour, but the market did not look over-bought, and the responsible figures, as at the noon session it became weaker and steadily declined to 276, which would indicate that a great many holders are dropping out owing to the uncertainty occasioned by the reported opposition to the new issue at Ottawa.

Richelleu sold at 144 and 14 1/2, closing at the latter price, which is an advance of 1/2 point for the day. Richelleu is one of a group of stocks which have been showing a heavy tendency of late, although it is claimed that the traffic is not so good as it was, both in the matter of passengers and freight. The freight returns are bound to be unusually good this year as a result of the high and there is no end of freight offering.

Quebec Railway did not hold its advance yesterday, selling down to 274 and 25, which is one point lower. Shawinigan was also weaker, and on a very light trade sold off 1/4 points to 145 1/2. Rio was strong and on sales of 200 shares advanced 1/2 point to 147 1/2. Toronto Street was dead in the water, being an advance of about 1 point. Crown Reserve was more active than yesterday, being advanced 1/2 point to \$1.23. The volume of business transacted for the day amounted to 3241 shares of stock, 2333 mines, 234,000 bonds, and 3600 debentures.

DOWN TURN IN WALL STREET

Liquidation Was General Throughout New York List—Money Conditions Curtail Speculation.

NEW YORK, Aug. 28.—The most conspicuous feature of today's stock market for the greater part of the session was its underlying strength in the face of persistent and heavy selling. Pressure centered largely around Reading and United States Steel, but that did not prevent the latter from establishing its best price of the year. Dealings in the stocks named over-shadowed all others in volume, the Harman and Hill issues as well as copper and other speculative favorites showing relative neglect. In the late trading business fell away, with frequent periods of utter stagnation, but another selling movement ensued shortly before the close, which sent many leading issues a point or more under the preceding day's final quotations, greatest weakness being displayed by Union Pacific, Lehigh Valley, and Amalgamated Copper. Goess attributed much of the selling of copper to leading out-of-town investors, with a revival of reports that the Interstate Commerce Commission is soon to render an important decision affecting these operations.

Canadian Pacific's proposed capital increase, Louisville and Nashville and Atlantic Coast line were strong on light dealings in connection with the approaching meeting of the directors of the first named road, at which developments favorable to shareholders are expected. Rock Island issues, Erie first preferred, Great Northern Ore, and other stocks of a more miscellaneous character shared in the early rise, only to fall back towards the close.

London was a purchaser here on balance, taking moderate amounts of Steel, Amalgamated and Union Pacific. Firmness manifested in Paris with activity and strength in Berlin. Local banks suffered another drain of cash with a \$1,300,000 gold shipment to London. A slight stiffening in long maturities was reported.

THE DOMINION BANK

Notice is hereby given that a Dividend of Three Per Cent. has been declared upon the Capital Stock of this Institution for the quarter ending 30th September, 1912, being at the rate of Twelve Per Cent. per annum, and that the same will be payable at the Head Office of the Bank and its Branches on and after Tuesday, the 1st day of October, 1912, to shareholders of record of 20th September, 1912.

LONDON LOOKS FOR RISE IN BANK RATE

LONDON, Aug. 28.—Money was plentiful today. Discount rates were strong on the increasing supply of American bills and in anticipation of an advance in the bank rate tomorrow. While rubber shares and the rest of the stock market were generally cheerful, shipping stocks were buoyant under the lead of Royal Mail, which jumped 2 points. Peruvian securities were strong in the foreign section, and speculation broadened in Kaffirs. Great Eastern Railway shares eased off on flood reports, and Sao Paulo rails advanced on news of fears of competition.

BIG SUM IN DIVIDENDS NEXT MONTH

Dividend payments in Canada during September, while not up to the level of the month immediately preceding, nevertheless will aggregate a considerable sum. Large amounts will be paid in the form of quarterly interest payments by thirteen of the institutions falling due early in the month. Some of the principal dividend payments of the month are as follows: Transportation companies, Camaguey Co. Ltd., 2 per cent; Detroit United, 1 1/4 per cent; Richelleu & Ontario, 2 per cent; Miscellaneous—Canada Tea common, 1 1/4 per cent; preferred, 1 3/4 per cent; Crown Reserve Mining, 5 per cent; Kerr Lake Mining, 3 per cent; Lake of Woods, common, 2 per cent; preferred, 1 3/4 per cent; Montreal Cottons, common, 1 3/4 per cent; preferred, 1 1/2 per cent; Montreal Loan and Mortgage, 1 1/4 per cent; Ogilvie Flour Mills, preferred, 1 3/4 per cent; Faton Manufacturing Co., 5 per cent; Sawyer-Massey preferred, 3 1/2 per cent; Smart Bag common, 1 3/4 per cent; preferred, 1 3/4 per cent; Tooke Bros. preferred, 1 3/4 per cent; Hamilton, 2 3/4 per cent; Hochelaga, 1 1/4 per cent; Home, 1 3/4 per cent; Merchants, 2 1/2 per cent; London & Can., 1 1/2 per cent; Ottawa, 3 per cent; Union, 1 3/4 per cent; Royal, 2 per cent; (for two months); Sterling, 1 1/2 per cent; (for two months); Union, 2 per cent.

WALL STREET VIEW OF OUR RAILROADS

Commenting upon the excellent report of the Canadian Pacific for the fiscal year ended June 30, which showed a balance available for dividends on the \$150,000,000 common stock of nearly 20 per cent, and also upon the latest weekly earnings of that company, the Grand Trunk system and the Canadian Northern, all of which reveal large increases since July 1, an active Wall Street interest yesterday said: "Those three railroad systems reflect good management of properties in a rapidly growing country. They could not make such exhibits if Canada were disturbed by politics continually as the United States is, nor if the railroads themselves were constantly harassed by the activities of political leaders, as our railroads are."

MONEY IS FIRMER IN WALL STREET

Erickson Perkins & Co. (J. G. Beatty) wired: "Stocks sagged off perceptibly this afternoon, with some little selling pressure throughout the active list. Banking interests did not care to see any further rise for the moment. Abundant reason for the attitude of the banks is found in the movement of money. Yesterday's banks lost \$4,500,000 to the sub-treasury and today Canada took \$1,200,000 from local banks. It is apparent that Saturday's bank statement will show some decrease in surplus unless loans are reduced. This money market is hardening with 1 1/4 per cent advance in time money this week. We do not look for stringent rates, but they may move up a bit."

COPPER AT 17 1/2 CENTS

NEW YORK, Aug. 28.—The copper market displays a firm tone, sales of the metal for September and October delivery being advanced 1 1/2 and 1 1/4 cents a pound. It is understood that the United Metal Selling Co. made sales above 17 1/2 cents, but transactions were limited owing to the fact that there is very little copper available for delivery in September and October.

POLITICAL FACTORS

*Charles Head & Co. to J. E. Osborne: No changes noted in underlying conditions, crops and business being still favorable for higher prices. On the other hand the political factor is bound to cause conservatism, especially with Roosevelt planning to stump the country. The Vermont elections will give an idea as to the possibilities, these are taking place next week. It is reasonable to suppose that trading will be quiet and professional during the remainder of the week, which means only two days for the stock market. We still are conservatively bullish on the situation and believe there is little risk involved in buying the standard issues on recessions for higher prices.

MONEY MARKETS

Bank of England discount rate, 3 per cent. Open market discount rate in London for short bills, 2 1/2 per cent. New York call money, highest 3 per cent, lowest 2 1/2 per cent, ruling rate 2 1/2 per cent. Call money in Toronto, 3 1/2 per cent.
