Saturday's Satisfactory Suggestions. Famed in many ways, we like best of all to be known as the satisfactory store. It is a satisfaction to a purchaser to be sure of getting what he thinks he is getting—no misgivings, no disappointments. More and more Saturday becomes a very active shopping day, and it is worth anyone's while to watch the crowds that visit the store that day. We always make special inducements for the day in a class of goods that are more than likely to be needed at the end of the week. Special goods and special prices: Saturday for Hosiery, Ladies' Hosiery, Men's Hosiery, Children's Hosiery, Specials in Men's Clothing, Specials in Men's Furnishings, Specials in Men's and Boys' Hats.

SATURDAY'S SATISFACTORY SPECIAL IN MEN'S SHOES. Our special for Saturday is a pair of Black and Tan Lace Shoes, whole-toed, fair width, needles and pointed toes, regular \$3.00 and \$2.50, all sizes. Saturday 1.50.

WORD TO OUR YOUNG MEN

How Sturdy Ones Can Spend
Their Vacation

PROSPECTING IN ONTARIO,
Where Still Lie Thousands of Acres
of Unexplored Mineral Lands.

The crash is on in the Huron Lake District
—One Hundred and Fifty Men Working
at Huron Lake for the Season—A
Fifty Stamp Mill for the Sultana—A
Gigantic Deal in Nova Scotia Gold
Mines.

With the long-delayed development of
our mineral resources opportunities are
offered for many Canadians to better
their fortunes, and they might wish
to point out to our young men the
one way in which they can take advan-
tage of the chance accorded them.

In the great gold fields of Algoma,
Thunder Bay and Hastings lie thousands
of acres of unexplored mineral lands,
richly capable of being developed into
Mikado, Ag Sultana and Reginas.
These areas are owned chiefly by the
Government, and can be taken up at a
slight cost by discoverers of mineral de-
posits upon them.

And now to make our chief point.
Let the young men of the province, when
they take their summer vacation this
year, combine work and play, and spend
their holidays this summer in prospecting
for gold. The gold fields of Northwest-
ern Ontario are threaded in every direc-
tion by little lakes and streams of water,
by means of which the prospecting can-
paign may go whither he will. The out-
fit necessary for an excursion of this
kind is easily procured at a slight ex-
pense, and the whole outfit should not
cost a man more than a holiday spent
at any favorite.

By taking this form of vacation you
stand a good chance of finding a for-
tune for yourself, and even if you do
not, you will come back bronzed and
healthy from your healthy sojourn amidst
the water and woods of Ontario.

Every indication points to a tremen-
dous rush into the Huron Lake gold
fields this season. Besides those of
Eastern Canada, the Eastern States and
England going in via the C.P.R. many
are crossing the line from the Central
and Western States. The other day, a
large steamer from the West Coast, the
superior, a steamer left Duluth with 250
gold seekers on board, and was com-
pelled to return to Duluth because of
reaching Port Arthur. It is also said
that 150 men are waiting at Huron Lake
for the Huron River steamer.

One indication of the excitement, says
the Huron Lake Journal, is shown in the
fact that property in the Huron Lake
gold fields. Reports reach us of prop-
erties that are unsurveyed with only the
prospectors' reports as guides, and the
values of the ore in the Huron Lake
district are ranging from \$250 to \$1000.
In one case one went for
\$100000. One good feature about the
transaction is the readiness of sellers
to retain an interest in the property, and
to use the purchase money in develop-
ment. Locations with some develop-
ment work are being offered for \$25,000
and a few exceptionally fine
pieces of property have brought higher
prices.

The region can no longer be consid-
ered an experiment. Contact veins are
now proved by a depth of over 400 feet
in the district and fissure veins to 300
feet. The mining of the ore in the Huron
Lake district has proved them to be essentially
free-milling in character, and of the sort
that yields handsome dividends. The value
of the ore is well distributed throughout
the rock, and it is not of the sort called
"specimens" in other regions. The lar-
gely of the values in the ores, the free-
milling character, the superabundance of
water and fuel, regularity of water,
power, and being situated in the
heart of the American continent, all
tend to make the Huron Lake district
the Mecca of fortune-seekers from all
over the world.

THE NEW B. C. MINING BILL

It Takes Five Persons to Form
a Company.

TEN PERCENT. TO BE PAID UP
In Cash Before a Company Can Com-
mence to Do Business.

Shares Sold at a Discount Without Further
Liability Must be Marked "Non-Personal
Liability." The New Act Provides for
Two Classes of Companies, Provincial
and Extra-Provincial—Activity at New
Denver—General E. C. Mining News.

One of the most important measures
that have occupied the attention of the
British Columbia Legislature is the bill
relating to mining corporations. It
amends and consolidates all the Acts
now on the statute books bearing on the
incorporation of joint stock com-
panies, and also amends the law on the
subject. The amendments are chiefly
of a technical nature, and on the main
question recently passed by the Ontario
Legislature.

One of the new clauses fixes the num-
ber of persons necessary to form a com-
pany at five. Those who are now re-
quired for three persons to organize a joint
stock company under the provisions of
the Provincial Act, and also those who
are necessary for seven persons to sign
the memorandum of association, it is
now provided that five persons shall be
sufficient for the purpose.

Another clause provides that the nomi-
nal value of the shares of a company
must be paid up in cash, besides
the nominal value of the shares, and
this provision was taken from the
Ontario Act. It is a requirement which
is not found in the Provincial Act, and
practically evaded by dishonest pro-
moters, while it may frequently be a
source of embarrassment and difficulty to
bona fide and legitimate enterprises. The
provision has been accordingly omitted from
the revised draft of the bill.

Another clause provides that the nomi-
nal value of the shares of a company
must be paid up in cash, besides
the nominal value of the shares, and
this provision was taken from the
Ontario Act. It is a requirement which
is not found in the Provincial Act, and
practically evaded by dishonest pro-
moters, while it may frequently be a

HAMILTONIANS AT BUFFALO.
A Deputation Interviewed Officials of the
Bison City as to the Success of
Niagara Power Transmission.

Buffalo, May 13.—H. Carcellen, the
well-known Canadian lawyer, and a de-
putation of prominent citizens of Hamil-
ton, are at the Tift House.

They came to Buffalo for the pur-
pose of consulting with the mayor and
city officials as to the success of Niagara
power transmission so far as this city
is concerned. Should the report that
they receive be favorable, it is highly
probable that electric power will be
transmitted to Hamilton in much the
same manner as it is now being trans-
mitted to Buffalo. The Cataract
Power Company of Hamilton, capital
\$250,000, now applying for a franchise
which will permit it to furnish
electric power to that city. Should it
be successful in this about 2000 horse-
power will be furnished the manufactur-
ers of the city inside of six months.

It is intended to generate electric
power at Deceus Falls, 20 miles from
Hamilton, and claim that there is
a water fall there of 220 feet. From
the turbines the water will be conducted
to a water wheel of 220 feet. The
water will be conducted to a water
wheel of 220 feet. The water will be
conducted to a water wheel of 220 feet.

HAMILTONIANS AT BUFFALO.
A Deputation Interviewed Officials of the
Bison City as to the Success of
Niagara Power Transmission.

Buffalo, May 13.—H. Carcellen, the
well-known Canadian lawyer, and a de-
putation of prominent citizens of Hamil-
ton, are at the Tift House.

They came to Buffalo for the pur-
pose of consulting with the mayor and
city officials as to the success of Niagara
power transmission so far as this city
is concerned. Should the report that
they receive be favorable, it is highly
probable that electric power will be
transmitted to Hamilton in much the
same manner as it is now being trans-
mitted to Buffalo. The Cataract
Power Company of Hamilton, capital
\$250,000, now applying for a franchise
which will permit it to furnish
electric power to that city. Should it
be successful in this about 2000 horse-
power will be furnished the manufactur-
ers of the city inside of six months.

It is intended to generate electric
power at Deceus Falls, 20 miles from
Hamilton, and claim that there is
a water fall there of 220 feet. From
the turbines the water will be conducted
to a water wheel of 220 feet. The
water will be conducted to a water
wheel of 220 feet. The water will be
conducted to a water wheel of 220 feet.

Another clause provides that the nomi-
nal value of the shares of a company
must be paid up in cash, besides
the nominal value of the shares, and
this provision was taken from the
Ontario Act. It is a requirement which
is not found in the Provincial Act, and
practically evaded by dishonest pro-
moters, while it may frequently be a
source of embarrassment and difficulty to
bona fide and legitimate enterprises. The
provision has been accordingly omitted from
the revised draft of the bill.

WHAT THE COMMONERS DID

Estimates Still Under Consideration.

QUESTIONS AND ANSWERS.

Some Information of Interest Given Out by Ministers.

Northwest Farmers Owe Dominion Government a Lot of Money for Seed Grain.

Mr. McMillen Wanted to Know About Alf Jury and Sunday Cars.

Mr. Taylor Asked the Government to Settle the Tariff and Let the Estimates Stand.

Ottawa, May 13.—(Special.)—The afternoon's proceedings in the House opened with the introduction of Mr. Perry, member for West Prince, P. E. I., by the Minister of Marine and Mr. Yeo.

Replying to a question by Mr. Daykin, Mr. Sifton said that 8388 farmers in Manitoba and the Northwest owe the Government for seed grain, the total amount of their indebtedness being \$158,002.

Mr. Douglas enquired whether the basis for duty on farm implements from the States was to be the retail or wholesale price, a matter which the Finance Minister said was now being considered.

Mr. Fisher, who was also then City Health Officer, admitted that the facts were as stated, but the further fact that, although Dr. Duncan had been subsequently detained, he was not, in fact, a danger to the public.

Mr. Fisher, who was also then City Health Officer, admitted that the facts were as stated, but the further fact that, although Dr. Duncan had been subsequently detained, he was not, in fact, a danger to the public.

MR. BROUGH'S SUCCESSOR As Manager of the Bank of Montreal in Toronto to Be Named Within a Week.

Montreal, May 13.—(Special.)—The general manager of the Bank of Montreal told The World to-day that no decision had yet been reached regarding the management of the Toronto branch, but a nomination would probably be made within a week.

A prominent banker, in conversation with The World yesterday, said the appointment would probably be given to one of the other three gentlemen mentioned: Campbell Sweeney, Vancouver, B. C.; Angus Kerland, Winnipeg; Man. W. J. Anderson, Ottawa, at present manager of the branches at the places named. All these gentlemen are prominent bankers and well fitted to occupy the position of manager of such an important branch as Toronto.

THE POLE IS STUBBORN. Mr. Armstrong Proclaimed Yet, and the Sultan Shows Signs of Obduracy Against the Powers.

London, May 13.—Pessimistic reports from Constantinople lead to the belief that the Sultan is almost gone of renouncing the Porte, even to the partial pliancy which he displayed before the war, is believed to be a scheme of retorsion for the Ottoman Empire, which became due on April 15, 1897. He is wholly abandoned.

The agreement between Russia and Austria will not improve the situation, because the attitude of France is becoming more obstinate, in sympathy with England. The Constantinople correspondent of The Standard, adhering to the pessimistic view, declares that the proposal for an armistice is far from being a success. It is probable that they will be deprived of the fruits of their victory. He adds that, in view of the excited state of public feeling, it is to be hoped that the powers are prepared to accept the possibility of having to force their demands.

Hitherto Russia alone has been in a position to furnish arms and equipment. It is likely to be exacting in its demands, and the transports are ready to land them anywhere in 30 hours. At the same time, Russia is not prepared to evacuate Thessaly.

Sultan Shows Resentment. The telegraph's Constantinople correspondent says that the attitude of the Sultan shows resentment against the powers for not showing more sympathy. He is believed to be in a state of mind to refuse to accept an armistice with Greece directly, he is believed to be in a state of mind to refuse to accept an armistice with Greece directly, he is believed to be in a state of mind to refuse to accept an armistice with Greece directly.

They Hoist Their Colours. Patrol Sergeant George Peckham of the Toronto Police Force died last night of cholera. He was employed at the cause of death was heart failure, although deceased had been on the sick list for some time. He was a widower, one son and one daughter.

The announcement of Sergeant Peckham's death caused a gloom to pass over the Police Headquarters last night. Deceased had been in charge of the patrol since the inauguration of the ambulance patrol sign system in early August. He was a very popular man, and his associates.

THE LATE W. P. KEELING. Many sorrowing friends attended the funeral of the late William P. Keeling yesterday afternoon. He was a prominent member of the C. O. O. P. E. and the various clubs of which Mr. Keeling was a popular member.

HORRORS IN SOUTH AFRICA. Barbarity on the Part of the Natives—People's Hands Cut Off, Baked and Sent to Officials.

London, May 13.—A representative of the Associated Press to-day had an interview with Rev. Mr. Sibson of the American Baptist Mission to the Upper Congo, who has just returned to London. He said: "When I left in February, matters in the Upper Congo were as bad as ever. The commission which the King of the Belgians appointed to enquire into the atrocities committed, the victims being natives, has had almost no result. The officials are inclined to act on missionary evidence, and only a few cases of barbarity were punished. The iniquitous rubber traffic continues. When the natives are unable to obtain rubber, the state troops burn the villages, murder the natives and cut off their hands, which are afterwards smoked and sent to the state officials. Paris of the warlike."

AT OSGOODE HALL. Speculation in Wheat Results in a Law Suit—The Alleged Misconduct of Fireburn.

In Lake of the Woods Milling Company v. Apps, Chief Justice Meredith refused to grant judgment under rule 747. The defendant, Alfred Apps of Valley Mills, Brantford, accepted a draft of plaintiff's for \$400, which became due on April 15, 1897. He speculated in wheat and then found that his liabilities were \$400 and that the worth of bills receivable and his equity in his store and warehouse in Brantford, amounted with a \$200 mortgage. He sold out to the William Apps Company, Limited. The writ to recover on the draft was issued in the action on May 11, 1897, and by order of the Master in Chambers served substitutionally. The plaintiff's agent filed an affidavit showing that the debt was not disputed, the liability of the defendant was in a position successfully to impeach the business could be successfully impeached and that the transfer of the draft to his mother and brother must have come out of the business. The named Charles Apps, a farmer, is all confined in P. I. No. 105 to refuse the motion. If plaintiff is in a position successfully to impeach the transfer of property, he can bring an action, and obtain an injunction to restrain the defendant from dealing with it, or the proceeds of it, and the writ will be granted. The plaintiff's agent heard, which they have not on the present motion, and thus it is not shown that the plaintiff will be benefited by obtaining judgment in the usual way.

That Windsor Church Case. David Ballard, James Ballard, James E. Corbett and William Reid, farmers of the Township of Collingwood, in the County of Grey, a farmer, are all confined in P. I. No. 105 to refuse the motion. If plaintiff is in a position successfully to impeach the transfer of property, he can bring an action, and obtain an injunction to restrain the defendant from dealing with it, or the proceeds of it, and the writ will be granted. The plaintiff's agent heard, which they have not on the present motion, and thus it is not shown that the plaintiff will be benefited by obtaining judgment in the usual way.

You Might Be Surprised

—if we told you that, during the last month, we sold a larger number of Men's Suits than in any previous month in the history of our business, and you'll remember that in the past we've done some very large suit selling, too.

This season's big selling is easily accounted for by the large and very handsome variety and the exceptional values we are offering you.

All-wool Suits; half dozen styles of fabric, well made, no wonder they are becoming the talk of the town. Now, an all-wool suit may be poor suit—because the fabric may have shoddy woven in. Our word for it, no shoddy or other poor stuff goes into a mill in England made into these suits. A contract was placed with the large and very handsome variety and the exceptional values we are offering you.

Men's Suits \$10.00. Perfect in cut, be the price \$7.00 or \$25. Of course Why not? No more expensive to use right patterns than wrong. But the Tailoring is more and more of it hand-made as the prices go up.

Spring Overcoats. English Worsted Overcoats, \$7.99, all-wool linings, mohair sleeve linings, fashions, latest colorings and shades. At \$10, though, we have the nobby, newest styles, beautifully trimmed and finished and thoroughly well made.

HATS. Men's Fine Silk Hats, very latest New York and London, Eng. Shapes, best satin plush covering, light weight body, pure silk bands, swelled silk lining, Russian leather sweats, regular value 5.00, Saturday 3.99

Men's Soft Hats, Fedora and Tourist Shapes, newest colorings, including black, slate, cigar, coffee and pearl shades, made on the latest summer blocks from the finest fur felt, pure silk trimmings, calf leather sweats, regular 2.50, Special 1.99

Men's Staff Hats in finest fur felt, latest summer shapes, American and English corded silk trimmings, best leather sweats, medium roll or flat-set brims, in black, nutria, new brown, pearl and tan shades; regular \$2.50, special 1.99

Youth's fine Felt Fedora Hats, wide silk band, bound edges, leather sweat, medium and narrow brim, in black and brown; special .75

A complete range of Bicycle Caps in tweed and serge; also club colors for bands in stock.

BOOTS AND SHOES. 120 pairs Men's Tan Lace, new opera toe, serviceable and stylish; regular \$1.75, Saturday 1.00

180 pairs Men's New Chocolate Shade Lace, imported Russia calf, coin and needle toe; regular \$3.00, Saturday 1.98

90 pairs Boys' Custom-Made Cordovan (Horsehide) Lace Boots, just right for rough wear, but neatly made; regular price \$1.50, Saturday .99

160 pairs Boys' Chocolate Tan Lace, very swell, new coin and opera toe; regular \$2.00, Saturday 1.35

We can please you in Tennis, Cricket, Golf, Baseball and Spiked Running Shoes.

Store open Saturday evening till 10 o'clock.

PHILIP JAMESON, The Rounded Corner - Queen and Yonge Streets

Your Boy will be perfectly pleased if he gets his suit from Oak Hall Clothiers, 15 King St. E. Their store is a schoolroom of fashion and their prices are object lessons in the economy of buying.

Attention Is Called To our stock of OPAL RINGS. We are selling a line of Solid Gold, Real Opal, Solitaire Rings of exquisite taste and beautiful play of colors at \$3.00 each.

For instance How hard it is to get your flavor tea! So with seed. But birds cannot voice a complaint when given food not suiting them. So, be sure to get the best—Cottam's. It's the only food packed by an experienced fancier.

TRADE IN CANADA.

R. G. Dun & Co.'s Daily Bulletin says: No special activity has yet been developed in Canada. The movement of merchandise is moderate and is characterized by a moderate demand for goods. Money does not come in freely, but in several quarters some little improvement is noticeable. The demand for goods is somewhat speculative, and is not very active. The demand for goods is somewhat speculative, and is not very active.

Outside Shippers.

Of produce would do well to buy A. H. Canning & Co., Wholesale Fruit and Vegetables, 57 FRONT ST. EAST, TORONTO. They make quick returns.
