

GOOD THINGS COMING TO THEATRES OF ST. JOHN "FAUST" IS HIGHLY PRAISED BY CRITIC

Montreal Star Again Lauds Boston English Opera Co.

The joys and sorrows of Faust and Marguerite, the devotion of Siebel and the rectitude of Valentin are never depicted in vain. Hard-hearted and cynical indeed would be the audience that would not respond to Valentin's song as he starts off to war, or rejoice to see him beat back the devil with his sword-cross and "unsympathetic" would be the just charge brought against any assembly that failed to pity Marguerite. The audience that saw Mr. Sheehan's production of "Faust" was not wanting in sympathy, and every well-loved air brought forth spontaneous applause.

Witness a gentleman, a confession and then what? You will be convinced that it is safe to play "Within the Law."

CONDENSED NEWS

A. Bastien, organizer for the province of Quebec of the American People's Party of Labor announces that he will be a candidate in Dorion division, Montreal, running in the labor interests for the provincial legislature. The new finance bill of the French government foreshadows the early discontinuance of the policy of purchasing a clear loss to the government. This would eliminate an expenditure of 5,000,000,000 francs, of which 2,000,000,000 is a clear loss to the government. Isaac Johnston, aged 100 years, died at his home near Halifax yesterday. The electors of Halifax are today choosing a mayor and a city council. The candidates for mayorality are Mayor Hawkins and John S. Parker.

CORN AND OATS

Chicago, May 28.—Although May delivery of corn rose today to the highest price yet this season, the market weakened later owing to enlarged receipts and to prospects that the liberal movement would continue. Covering by shorts was responsible for the initial upturn in values. When this demand was satisfied, however, support became lacking. Opening prices, which ranged from 1-4 off to 1-4 advance with July \$1.66-3-4 to \$1.67, and September \$1.28 1-2 to \$1.29, were followed by a decided setback all around to the same as yesterday's finish or to well below.

Oats were governed by the action of corn. After opening 1-8 down to 1-4 to 1-8 advance, including July at 68-1-2 to 68-5-8, the market underwent a material sag.

Provisions swayed with grain. An early advance was succeeded by moderate declines.

The case of Matthew Friars was resumed in the police court yesterday afternoon. Fred Dobry, proprietor of car hire that evening to a man named Ritchie and others said that he did not know whether he saw the defendant Friars in Dock street or not. The magistrate deferred his decision.

DEPUTY HEAD FOR FISHERIES

Minister of Marine Makes Announcement—Superintendent for Maritime Provinces

Ottawa, Ont., May 28.—The Minister of Marine and Fisheries made a statement of importance last night regarding the fisheries of Canada. For some time representations have been made to the government that the fisheries should be under separate deputy and greater attention given to their exploitation generally. He has in his estimates an increase of \$100,000 to be applied to the further expansion of the fisheries of Canada.

Canada will be divided into three sections—Atlantic provinces, Prairie provinces and British Columbia—each being under a deputy superintendent for each district in the different sections who will give him whole time to the work. Special guardians will also be appointed at certain times of the year. More steam trawlers will be encouraged to engage in the business.

There will also be a superintendent for the department at Ottawa. A strong publicity department will be organized and extensive advertising methods to popularize the consumption of fish will be adopted.

The minister referred to deputations which had waited on him from the Fish Dealers' Association, urging certain changes some of which would be adopted. Their most urgent plea was for a separate head for fisheries, and this change will be made before next session of parliament. There will also be officials appointed who will give attention to marketing of fish, study markets and transportation methods and be able to advise the department generally.

The methods of appointing and paying overseers and guardians was criticized by Messrs. Sinclair, Loggie, McKenzie and others. Mr. McMaster (Brome) criticized the increase in estimates and asked for particulars.

The minister said that he expected increased efficiency with fewer officials but better paid. He also foreshadowed a bill which he would introduce by which he hoped to get additional revenue of \$200,000. More attention will be given to oyster culture.

Mr. Sinclair (Gaspereau) criticized the administration with regard to closing the lobster hatcheries and resented the fact that members from the maritime provinces were not consulted on the policy of the department in this respect. He thought a great mistake had been made.

Mr. McKenzie doubted the value of one superintendent for the enormous fishing mileage of the maritime provinces, which he could never properly cover in one season. He favored selection of right local men to do the work.

THE CONNOLLY CASE

Buffalo Judge to Decide Today Whether or Not to Hold Erecment for Grand Jury

Buffalo, May 28.—Yesterday at the closing session of the preliminary hearing of Arthur Erecment, former Canadian M. P., charged with complicity in the alleged theft of \$50,000 from Michael J. Connolly, a Montreal contractor, through a wire-tapping scheme, evidence was introduced in an effort to establish an alibi for Erecment. At a previous session Mrs. Agnes Ayres, stenographer in the office of a real estate agent, identified Erecment as the man who had accompanied A. E. Francis, who leased the offices in which the swindle is alleged to have taken place. Yesterday Leon W. Duffon, an employee of a Buffalo bank, testified that he was the man who accompanied Francis.

Counsel for Erecment declared that no evidence had been produced to connect Erecment with the alleged larceny and that on Connolly's own admission nothing had happened to him which had not happened to Erecment.

In denying a motion for the dismissal of the charges, Judge McClelland said he would be willing to take into consideration any explanation which Erecment would care to make. Counsel for Erecment, however, declined to allow his client to take the stand. Decision as to whether Erecment will be held to the grand jury will be made today.

CITIZENS MEETING Mayor Hayes intends to call a meeting of citizens next Monday evening regarding a possible relation of a memorial to the municipal housing difficulty brought about by the destruction of the court house. He intends inviting patriotic societies and associations, as well as citizens in general.

A KINDLY ACT That returned soldiers of the Canadian army are good-hearted, despite the horrors of war and the brutalities of the Hun, was evidenced in a Charlotte street today. A small dog was run over by an automobile and then kicked by a horse that was passing. Its piteous cries attracted Walter Henry, John C. Oran, Ralph Mann and Raynor Searle, four returned soldiers, who were passing, and they picked the unfortunate animal up and tenderly bound the cuts on its head and body. Their work would have done credit to graduates of the Blue Cross Aid Society.

OAK HALL MAKES ADVANCE DEPARTURE

First Store in Maritime Provinces to Establish Children's Haircutting Shop

Following in line with the well known Filene, and Jordan-Marsh stores of Boston, and Goodwin's of Montreal, Scott Brothers, Ltd., have equipped a beautiful haircutting shop for children, in connection with the boys' shop on the fourth floor.

This children's haircutting shop is modern in every way and exactly the same as those to be found in any of the big stores in the larger cities. It is completely equipped with every modern device, such as antiseptic sterilizers for the brushes and combs, and many other things for the kiddies' welfare. Altogether this children's haircutting shop will be a place where the kiddies will love to go and the mother will be pleased to take them.

Scott Bros. have this shop practically ready to open so an early announcement of the actual date may be expected.

The Evening Times and Star

ST. JOHN, N. B., MAY 28, 1919

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE STRIKE SITUATION.

Hon. Gideon Robertson, minister of labor, is quoted today as saying that the present strike situation in Canada is a move by radicals to assume control of governmental affairs, and that the "one big union" idea is the cause of the whole trouble.

THE CHILDREN'S PLAY.

The Times-Star prints on another page an article telling something of what the city of New York does for its children. The following from the New York Evening Post of May 28 will interest St. John readers and show how very far behind we are in this city in matters relating to proper provision for healthy play for the children.

We have seen in Russia what happens when orderly government gives place to a radicalism that knows nothing of the science of government and merely obeys the dictum of leaders who are as autocratic as any czar, and whose commands are executed with an utter disregard for the rights of others.

THE AMERICANS SUCCEEDED.

The United States seaplane N. C. 4, under Lieut. Commander Reed, has reached Lisbon. He flew first to Newfoundland, then to the Azores, and now to Lisbon. He bridged the Atlantic in three strides, and made a new record in the mastery of the air.

The Christian Science Monitor says: "At a meeting of a carpenters' union in Massachusetts, the other day, a plan is said to have been suggested for financing a strike which many a private citizen and occasional employer of the carpenter would probably like to see tried."

The St. John Women's Institute is doing a notable community service in providing courses in household economy and nursing. There is great need of such community centres as it has opened in the Congregational church building, and such service as it will render to all who can be interested in its work.

Spirit of Industry

A policy of "wait and see" caused the downfall of a Government.

Applied to business, the same policy is equally fatal. Where, as, action generates progress.

Our business is barometrical. It presents an absorbing study in creative human nature.

The first evidence of a creative mind at work is apparent in the demand for Power Transmission Equipment.

This new Spirit in Business has not been confined to war plants.

Other men have sensed the close of an epoch, and the birth of a greater industrial future.

We are proud that many of these firms have hastened to avail themselves of our experience as power transmission engineers.

They know it has made us more efficient.

We rendered magnificent service to customers during the war; but we see now that that was merely a preparation.

The latent possibilities of our organization were a revelation to us; and we do not intend that the high mark of service rendered in 1915, '16, '17, '18 shall be lowered.

Victories of peace are second only to victories of war in their demands upon human energy.

But Canada will rise to the occasion, and we are translating this faith into action for every firm that calls upon us.

Other men have sensed the close of an epoch, and the birth of a greater industrial future.

We are proud that many of these firms have hastened to

NO BLAME ON MR. HATCH

The coroner's jury last night exonerated Willoughby Hatch, driver of the car which figured in the accident resulting in the death of Jean Verdon Landry in Waterloo street on Thursday, returning a verdict of "purely accidental," and recommending that parents should be more careful in allowing their children in the streets without guardians.

The jury was composed of Ira B. Kierstead, foreman; W. Thompson, R. E. Morrell, Joseph Northrup, F. A. Hollis, F. S. Purdy and John Hamilton.

Hall's Wine

builds lasting strength!

READ THESE (Every original bottle on file)

OVERWORK

"Being terribly run-down through overwork, I took Hall's Wine, and it braced me so effectively that I never since."

WEAKNESS

"I am glad to say Hall's Wine has strengthened me more than I had believed possible."

ANAEMIA

"I was ill for over three years, and had given up hope after taking half a bottle of Hall's Wine I felt new energy returning, and now feel better than ever in my life."

NEURALGIA

"I was a sufferer from dreadful neuralgia, but thanks to Hall's Wine I am glad to say I feel a different being."

INFLUENZA

"I had a severe influenza cold, and was run down. Hall's Wine did me a world of good."

WHENEVER you are overwrought with work or strain or worry, remember there is nothing in the world like Hall's Wine for repairing the damage and keeping up your full strength.

Hall's Wine is from the prescription of a member of the Royal College of Surgeons, London, Eng.

Many and many a hard-worker is strong and happy and doing well to-day who, but for Hall's Wine, would have been off work and laid by long ago.

The first glass of Hall's Wine proves its strengthening power—and the benefit is real and lasting.

#### RECENT DEATHS

The death of Mrs. Ann Selye, widow of Judson Selye, occurred at her home, St. George, on Sunday morning. Mrs. J. Sutton Clark is a step-daughter.

Captain James McLeod, lighthouse keeper at Bliss' Island, died on last Wednesday, aged seventy-two, leaving his wife and one daughter.

#### DEATH OF NEGRESS WHO HAD \$250,000 HOME IN NEW YORK

New York, May 28—Mrs. C. J. Walker, known as New York's wealthiest negress, having accumulated a fortune from the sale of so-called anti-ink hair tonic and from real estate investments in the last fourteen years, is dead at her country estate at Irvington-on-Hudson. She was proprietor of the Madame Walker hair dressing parlors at 108 West 186th street and other places in the city. Her death recalled the unusual story of how she rose in twelve years from a washerwoman making only \$1.50 a day to a position of wealth and influence among members of her race.

Born fifty-one years ago, she was married at fourteen, and was left a widow at twenty with a little girl to support. She worked as a cook, washerwoman, and the like until she reached the age of about thirty-seven. One morning while bending over her wash she suddenly realized that there was no prospect on her meager wage of laying away anything for old age.

She had often said that one night soon afterward she had a dream and something told her to start a hair tonic business, which she did, in Denver, Col., on a capital of \$128.

In a few years she had accumulated a large sum, and invested in real estate in the west and south and in New York state, nearly all the property greatly increasing in value. She then owned a \$50,000 home in the northern part of this city, which some years ago she gave to her daughter, Mrs. Lelia Walker Robinson, associated with her in business.

In 1917 Madame Walker completed at Irvington, on the banks of the Hudson, a mansion which cost \$250,000, and since then had made her home there. The house, which is one of the show places in the vicinity, is three stories high and consists of thirty or more rooms. She had installed in this home an \$8,000 organ with furnishings, including bronze and marble statuary, cut glass candelabra, tapestries, paintings, said to be of intrinsic beauty and value.

#### ACADIA LADIES SEMINARY

The graduation class of Acadia Seminary held their annual class day exercises at Wolfville yesterday afternoon. An enjoyable musical programme included a solo by Miss Marie Wilson. In the evening at the formal closing of the academy the valedictory was delivered by Harold Camp of Woodstock, and D. McGillivray of Halifax gave the address to the graduating class. After a few words by Dr. Archibald and the presentation of prizes and diplomas, Mr. McGillivray announced his intention of adding two prizes to the list for subjects to be determined by the faculty.

#### ROTHESAY STUDENTS GIVE COMEDY WELL

The comedy "What Happened to Jones," was well played by the members of the Rethesay Collegiate School and Senior Debating Society at College Hill last evening. The hall was crowded and the audience most enthusiastic. The actors received many compliments. Between the acts an enjoyable solo was given by Fred C. McNeil, and the Rethesay School orchestra played several fine selections. Those taking part in the play were: Richard C. Gorham, Carl D. Dennis, John A. Taylor, John C. McCready, A. Courtney Tufts, W. Arthur Bowman, Murray S. Skinner, Robert Young, Fred McNeil, P. A. S. Jones, Douglas H. Pugsley, S. Ronald Jones, R. Bayard Manser. The committee acting for the Senior Debating Society consisted of Mr. Haines, John McCready, Richard Gorham, Murray Skinner, Fred McNeil, Ronald Jones, Leslie Jones.

The proceeds of the entertainment are to be given to the Red Triangle Fund.

Uncle Carl Miller, the mail carrier between Alton and Thomsville, Mo., for the last twenty-four years, has just taken a new four-year-contract to carry the mail, at the age of eighty-three.

Need For Free Trade Emphasized

Lord Robert Cecil Says Every One Must Lead a More Strenuous Life to Help to Remedy Economic Conditions London, England, May 28-At the first annual meeting of the friends of the League of Nations committee, Lord Robert Cecil repeated the warning which he recently uttered in the House of Commons regarding the unparalleled seriousness of the economic conditions in Europe and said that the remedies were the removal of all restrictions on free intercourse and commercial interchange and the leading of a harder and more strenuous life by every one. As to a diminution of the coal output, he announced that any such diminution approached the "enthusiasm of the general European populations were almost starving and the difficulty was largely one of transportation as well as of supplies. Regarding the peace terms, he urged a patriotic abstention from discussion of them and advised the government itself to be just and to fear not. Regarding the League of Nations covenant, Lord Robert paid a tribute to General Smuts' able and loyal assistance and said that he considered that the British government might claim as great a share as any government in the framing of the covenant. The league, he said, was a healthy infant and had, he believed, the support and enthusiasm of the great majority of European peoples at its back. As to the charge that it was not sufficiently democratic, the assembly was a real and important body and would be hoped, he thought, to be thoroughly democratic. After dealing with other criticisms, Lord Robert said that one of the league's first acts must be the establishment of a court of international justice and further it must undertake the great task of disarmament, which would thoroughly test its mettle. Foreign politics, he added, could no longer be left to statesmen and diplomats exclusively, for "they were too vital nowadays to every member of the community."

Housing Fund In New York State

Chairman of Reconstruction Commission Reports \$25,000,000 to Start Building Houses to Accommodate 25,000 Persons Albany, N. Y., May 28-The state Reconstruction Commission has been holding conferences with Alfred E. Smith, governor of New York, here this week. Adram I. Elkus, chairman of the reconstruction committee, reported a fund of \$25,000,000 to bridge the gap between actual cost of construction and first mortgages on new buildings to house 25,000 persons, and thus to relieve to some extent the housing conditions in New York city. This fund is expected to start a general movement of house construction. When the war began New York city was over-built, Mr. Elkus said, which resulted in the landlords not being able to keep up the property by rents received, and much had been taken by foreclosures. With the war over and the housing problem at hand, the committee was confronted with this situation, that labor had increased 60, 70 and 100 per cent, and materials 40 per cent. The great lenders, the insurance companies and the banks, were at first afraid to lend, but a number of men representing several companies conferred and agreed that the construction cost of labor and materials probably would be maintained at least five years and decided to finance a building campaign. Mr. Elkus considered the rent profiteering question would be solved not by passing legislation, but by giving the people a living wage, good working conditions and good houses. WOULD ABOLISH THEM IN OLD LAND ALSO. London, May 26-(C. A. P. Delayed)-The Manchester Liberals in a programme for submission to the National Liberal Federation, recommend that no new hereditary titles shall be created within the United Kingdom that existing hereditary titles, with the exception of those of the royal family, shall cease at the death of the present holders. It was moved to confine the titles to the king and queen, but this was not passed.

BILLS FOR ENFORCEMENT OF PROHIBITION ENTERED

Washington, D. C., May 28-Two bills to enforce war-time prohibition and the eighteenth amendment, providing for permanent prohibition, were introduced in the senate today by Wesley L. Jones, Republican senator from Washington, and Morris Sheppard, democratic senator from Texas. Congress, it is said, will give an early opportunity to vote on these bills as an answer to the President's recommendation for the removal of the restrictions on wine and beer. One objection between the two bills is that the latter would prohibit alcoholic liquors used for beverage purposes, while Mr. Jones would prohibit liquors containing one half of one per cent alcohol by volume. A measure for repeal of the War-Time Prohibition Act in so far as it relates to women church affairs was introduced in the senate today by Wesley L. Jones, Republican senator from Washington, and Morris Sheppard, democratic senator from Texas. A measure for repeal of the War-Time Prohibition Act in so far as it relates to women church affairs was introduced in the senate today by Wesley L. Jones, Republican senator from Washington, and Morris Sheppard, democratic senator from Texas. Congress, it is said, will give an early opportunity to vote on these bills as an answer to the President's recommendation for the removal of the restrictions on wine and beer. One objection between the two bills is that the latter would prohibit alcoholic liquors used for beverage purposes, while Mr. Jones would prohibit liquors containing one half of one per cent alcohol by volume. At a meeting of the free kindergarten association yesterday afternoon Mrs. H. H. Pickett presided. Some distressing conditions were brought before the association in this city, for instance, where some of the children are unable to attend the kindergarten on account of not having shoes. It was suggested that a special fund for this purpose be given the teachers for deserving cases.

CURTISS BUYS BACK 2,176 ARMY PLANES. Machines Will Be Put Into Order and May Be Offered to the Public for Private Flying.

New York, May 28.—The Curtiss Aeroplane and Motor Corporation has closed a deal with the government for the purchase of 2,176 Curtiss airplanes and 4,608 motors used in the army, according to an announcement made by W. W. Mountain, vice-president and general manager of the corporation. Although Mr. Mountain would not talk on the subject of the amount of money involved in the sale it is understood the price paid for the airplanes and motors was \$2,700,000, the figure set by the government when the Curtiss Corporation opened negotiations for the property several months ago.

AMENDMENTS TO C. N. R. BILL ARE DEFEATED. Ottawa, May 28.—The bill for the incorporation of the Canadian National Railway Company was read the third time in the senate yesterday, after two amendments from the opposition had been defeated. One provided for an annual audit by an independent firm of auditors, and the other that two of the board of directors should be named by the employees of the road.

CAMPAIGN AGAINST BOOTLEGGERS BRISK DOWN IN TENNESSEE

Nashville, Tennessee, May 28.—Notwithstanding that bone-dry laws are in force in Tennessee and that the state legislature recently ratified the National Prohibition Amendment, the menace of the bootlegger remains to be effectually dealt with in the three grand divisions of the state.

Judge J. D. DeBow, of the Davidson County Criminal Court, who since the assuming office last September has been the avowed opponent of bootlegging in middle Tennessee, has announced his intention of going before the general assembly to ask the appointment of thirteen deputies to serve under his direction in the campaign against the bootlegger. He will urge that the men who may be named in this capacity shall be sufficiently compensated to enable them to secure co-workers of intelligence, honesty and courage.

Judge DeBow, who appears confident of receiving the co-operation of the legislature, will also ask that body to pass a law providing for the confiscation of all captured automobiles used by the illicit whisky traffic in running the blockade.

"I believe that will solve the problem," said Judge De Bow. "I know several of the leaders of the 'syndicate' own strings of automobiles which are used to bring whisky into Nashville. When one of these cars falls into the hands of the law it is immediately replevined. If I can have the confiscatory law passed, an ardent conviction will mean the loss of the car by the bootlegger."

"No doubt the 'syndicate' controls a sufficient number of automobiles to conduct its business for some time despite confiscation, but with special force of deputies, confiscation will come so fast that the 'syndicate' will soon find itself playing a losing game."

LICENSES FOR SALE

Boston, May 28.—A bill requiring the licensing of all the coal dealers in the state, a substitute for the measure which met with considerable objection, is being considered by the house committee on ways and means of the Massachusetts legislature, which is said to look upon it with favor.

The bill divides coal into two qualities, and unless the second quality, no anthracite shall be sold or offered for sale for domestic purposes at retail which contains more than 5 per cent by weight of slate or bone in the size known as broken furnace or egg coal, or more than 10 per cent in stove or chestnut coal, or more than 14 per cent in pea coal, or which contains an excessive amount of dirt or dust as a result of improper screening.

Under the provisions of the bill any purchaser can have his coal examined and tested by the state commissioner of standards, and if the coal is not up to the standard required, the dealer shall make such price adjustment as is ordered by the commissioner.

Died While Visiting Brother. Kingston, May 28.—It is announced that the body of J. I. Hart, former president of the Canadian Locomotive Works, who died in London, England, of influenza on Feb. 23 last, are to arrive in Kingston on Tuesday afternoon for burial.

Mr. Hartly died while visiting his brother, Mr. Hartly, Jr., staff captain 2nd Canadian Divisional Artillery.

Hawker and Grieve Talk of Ocean Flight

PILOT WAS SEASICK

Experiences as Their Plane Bounced About on the Waves—Grieve Speaks of Run Above the Clouds

London, May 28—Describing the trip of Hawker and Grieve in their attempt to cross the Atlantic a Daily Mail correspondent says that Hawker remained on the whole time, but that Grieve moved about kneeling to examine the drift indicator, standing up for observation of going forward for the rudder. Each of them ate a sandwich and drank four cups of coffee out of a vacuum flask.

Buffeted By Waves. "And the next thing I ate," said Hawker, "was about seventy-two hours later, adding with a laugh, "Yes, we did not take enough calories. The fact is I was very seasick when we got down to water, and afterwards for two days in the ship. It was like being in a smaller motor boat in a heavy sea, when we were blown high waves and were bumped about quite badly."

Describing their position when the plane alighted, Hawker and Grieve said that they were in water up to their knees and the waves were close to the motor boat in a heavy sea, when we were blown high waves and were bumped about quite badly."

"I had to laugh," said Hawker, "when one big wave came up under the top plane, which up to that time had been flying and shinning. It lifted us right out and I saw the trailing edge of the top plane break clean away."

Hawker said they spent their time discussing how the Mary was handled and whether she could save the machine and its appliances. All this time the little boat carried by the Sopwith machine was afloat beside the plane dancing about like a cork. "When the ship's boat reached the plane," said Hawker, "she banged right into the machine and we hopped on board. The ship slung a rope out and hauled the boat back and we climbed aboard the Mary."

"We had been waiting so long that we felt callous to the whole thing. We had a jolly good feeling when we saw the ship missing about. Looking for a ship for two hours and being seasick the whole time was not very merry and bright."

What Grieve Says. "We certainly had a feeling of thankfulness and relief when we saw the ship," said Grieve. "After that we were all right. The machine was floating well on her gear. Even when the engine held air and there were, of course, air spaces in the planes and petrol tanks."

"We were rescued at 8:30 o'clock, Green's time," said Grieve, "and lost everything. We went aboard the Mary without caps or boots. All my log had been washed out of my pocket except one small page of rough notes."

Both were reluctant to describe their feelings at the time, but summed them up as follows: Grieve—"I did not feel excited in the slightest, either at the start or when rescued."

Hawker—"It seemed a very uneventful affair. When we started we felt it was a one hundred to one chance for us."

Hawker said: "The weather was no hindrance and we should have made the flight but for the trouble occasioned by the water boiling in our cooling system. We could have got through the worst of the weather in a couple of hours."

"The wireless was not a great success," said Grieve. "We had a new set from England. I sent out messages every half hour, but the few who have been heard if any ship had been near, but never had any reply. My chief object was to let them know we were still in the air. During the last few hours, when the engine was throttled down, the speed of the machine was insufficient to drive the wireless equipment and no spark could be generated, but I sent 28 O. S. signals every fifteen minutes on an off chance of the spark operating. We fired no lights at night. One vessel has reported having seen a light, but the observers' board may have mistaken the red glow of the exhaust."

"We preferred to navigate chiefly by celestial observations and my position, which I worked out by the stars, was virtually correct. I found when picked up, I used a cloud horizon instead of a sea horizon, as the sea was hardly visible any of the time we were in the air. During the first four hours after leaving we

FURTHER SHERIFF A. R. ANDERSON NOW ENDORSES TAILAC

Prominent Houston Man Says: "Money Could Not Buy the Good it Has Done Me."

"Money couldn't buy the good Tailac has done me, and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson, of Houston, ex-sheriff of Harris County, Texas, recently.

Mr. Anderson is unquestionably, not only one of the best known but ever held public office, in the "Lone Star State." After serving as deputy sheriff of Harris County for twelve years, Mr. Anderson was elected chief of police of the city of Houston. He had occupied this position only a short time when the sheriff of Harris County died. Mr. Anderson's friend persuaded him to make the race for the unexpired term of Sheriff to which he was easily elected. He was honored with re-election seven times and served the people in this important office for fifteen consecutive years. Four years ago, Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this interesting and prosperous city.

"I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and never felt like getting up in the mornings. I was so tired. I had the worst form of indigestion, suffering all the time from gas on my stomach and was continually belching up undigested food. I have to take my coffee without sugar, as when I drank it with sugar I would just belch for hours. I would vomit and swell up like I was poisoned, and suffered with neuralgic pains of the worst sort, and nothing seemed to help me only in a temporary way. I just can't tell you how I did suffer for two or three years and up to the time I began taking Tailac, a few weeks ago."

"When I read the testimonials of some who had been relieved of troubles like mine I just felt like I couldn't make a mistake by taking Tailac, and it has done me even more good than I had expected. I began to feel better after taking my first bottle and have just now started on my third and I'm different man already. I sleep like a log now and eat just anything and everything I want without the slightest discomfort afterward. I can endure Tailac because it does the work and I'm telling all my friends just what I'm telling you. I never felt better in my life since taking Tailac. I am willing for my personal statement and let every suffering person who may wish to know my experience with this great medicine."

Tailac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tailac representative.—(Adv't.)

ANTI-ANARCHY BILL IN MASSACHUSETTS

Boston, May 28.—The substitute Anti-Anarchy Bill was passed by the lower branch of the Massachusetts Legislature last week, after a long debate. The measure provides that "any person who shall by speech or by exhibition, distribution or promulgation of any written or printed document or paper or other representation advocate, advise, counsel, or incite assault upon any public official or the killing of any person or the unlawful destruction of real or personal property or the overthrow by force or violence of the government of the Commonwealth, shall be punished by a fine of not more than \$1,000 or by imprisonment for a term of not more than three years, or by both such fine and imprisonment; provided, however, that this act shall not be construed as reducing the penalty now imposed for the violation of any law."

PARTICULARLY DESIGNED TO PROTECT JEWS

Paris, May 28.—(By the Associated Press)—Acting on instructions from the Council of Four a special committee of experts is drafting treaties with the newly created states designed to protect minorities, and particularly protect the Jews, against discriminations of race, language and religion leading to disorders, riots and pogroms.

passed over fog banks. The clouds below were like a sea, giving me a perfect horizon. I had only to judge our distance above then and take the sun as on a sea horizon. About 7 o'clock, Green's time, I saw the sea for a few seconds through a hole in the fog or cloud bank. I thus obtained some idea of the drift of the machine by noting the experts in drafting treaties with the newly created states designed to protect minorities, and particularly protect the Jews, against discriminations of race, language and religion leading to disorders, riots and pogroms.

Here is the substance of a testimonial received from a gentleman, whose name will be given on request. "For a long time this man suffered excruciating pain, and at times positive torture from stones in the bladder. He tried many remedies without obtaining relief, and an X-ray photograph failed to locate the cause of his trouble. Finally, he was advised to try Gravel or Stone in the Bladder. Before long he passed the stone and obtained a complete relief from his previous suffering. This man is a mechanic of about 35 years of age, with a wife and little girl to look after. Think what it has meant to him to become strong and well again!"

WELLS' DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things:

Either they eat on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and tend to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach, it is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water, will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the result is a naturally and healthfully without need of peppin pills or artificial digestants.

NURSE AMPUTATES SOLDIER'S LEG WITH OFFICER'S RAZOR

Drama, Macedonia, April 10.—(Correspondence)—With a razor, a spoon of ether and chloroform, Miss Maria P. Kourouyev, an American Red Cross nurse, performed a life-saving amputation here, as the result of which, combined with her other errands of mercy, she has become to be known as "the American angel" by the hopeless and aching Greek refugees.

Born of Greek parents, Miss Kourouyev is a graduate nurse of the Massachusetts General Hospital in Boston. Because of her knowledge of Greek the American Red Cross sent her to Macedonia, where typhoid, smallpox and cholera tread on each other's heels, and where the refugees bury their dead beneath the floors of their shell-shattered shacks so that the breath of an amputated member of their family shall not be taken up.

A Greek soldier, one of whose legs had been crushed in a small portion of the box car on a railroad siding in which Miss Kourouyev was living. Something had to be done for him at once. Miss Kourouyev spent no time in talking. Borrowing a razor from Lieutenant Aber, J. Cobb of Denver, Colo., an American Red Cross doctor, she proceeded to amputate by candlelight in the box car, Miss Kourouyev anaesthetized her patient with her small supply of ether and chloroform, then she cut through the artery and vein.

Despite the prophecy of a local doctor that the patient would not live through the night, Miss Kourouyev's time later received a visit from him. He said he had never seen a more heroic member of his race in the American Red Cross relief work in Athens.

Dangerous Antiseptics And Germicides Are Unnecessary

A dependable antiseptic has come to be considered a necessity in most homes. Especially is this true since Absorbine, which has been repeatedly tested and found that this liniment is not only a powerful antiseptic and germicide but it is also a powerful disinfectant for the house. It is not poisonous and it cannot do harm even if the children do get hold of it. That is a big point to consider.

SIR EDWARD KEMP MAKES HIS SPEECH

Overseas Minister of Militia in Commons at Ottawa

Reviews Operations of Various Branches of Service and Says Headquarters Staff Had Done Duty Well

Ottawa, Ont., May 28.—On a motion to go into supply in the Commons yesterday, Sir Edward Kemp, overseas minister of militia, spoke on the administration of the Canadian overseas forces. He sketched the work of the Canadian forces in various war theatres, and paid a tribute to General Sir Arthur Currie who, he said, "had made a great place for himself in history. It is my opinion," said Sir Edward, "that he was considered the man under whom we have always exercised patient foresight."

He dealt particularly with the various arms of the service. In regard to criticism that there had been undue delay in sending home Canadian members of the Royal Air Force he said that everything that the Canadian authorities in England could do to get these men home was being done.

Referring to the formation of the two squadrons of Canadian air force now in England, Sir Edward expressed the view that it would be advisable for Canada to continue these two squadrons instead of allowing them to be disbanded. He would be a shame if the men were disbanded and allowed to drift wherever they pleased. He said that the Canadian soldiers had been caused suffering in the hospitals.

W. F. Nickle asked the minister whether Sir Edward would be sending word to Canadian hospitals in England were correct. He said that returning officers had said that owing to lack of cooperation and inefficiency, Canadian soldiers had been caused suffering in the hospitals.

The minister said that the medical service both in France and England was excellent. He then turned to the Canadian war records, stating that the collection of the Dominion was a very fine one. Referring to the representation of the crucifixion of a Canadian soldier, Mr. Lemieux asked Sir Edward what he had done to ascertain the facts, as the crucifixion had been denied.

Sir Edward in reply said the Germans had sent out a wireless denying the crucifixion. He then gave instructions that an effort should be made to see if the story could be substantiated. Affidavits had been obtained from soldiers who saw it, one being a man with a Victoria Cross. He did not think there is any doubt that it happened," said Sir Edward.

Sir Edward Kemp said that the conditions of the British troops in England were admirable, and better than that of other forces. It was somewhat amusing since the armistice to read of the accusations against the Canadian soldiers. The Canadians were put in an unfair light because certain happenings in connection with the British troops were withheld from publication while incidents in connection with the Canadians were widely circulated.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the messy mixing at home. As drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wetly's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, leaving one strand at a time, by moving the gray hair disappears, but what delights the ladies with Wetly's Sage and Sulphur Compound, is that, besides beautifully darkening the hair, it does a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

HAD WEAK AND FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious. Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless.

Leaps To His Death From Burning Plane

Pilot Frank McCusker of Air Mail Killed—Plane Blazed up as he was Leaving Chicago for Chicago

Cleveland, May 28.—Hundreds of persons saw Frank McCusker, aged 23, of New York, pilot of a mail airplane, leap 200 feet to his death from a burning machine here. Fifteen minutes before, he had announced that he would attempt to establish a record on his flight to Chicago.

The cause of the accident is not known. Witnesses say puffs of black smoke came from the rear of the DeHaviland. When the machine was at a height of between 300 and 400 feet, McCusker was seen to climb from his seat to the frame. Then the airplane plunged and the pilot was seen to leap. The empty machine flew forward 200 yards before it plunged to the ground.

KAISER'S SON NOT YET CONVINCED OF HIS LOW E STATUS

Berlin, May 27.—He who believes that the former German royalty has disabused itself of the idea that it rules, predominated by "God's grace," is mistaken, says Vorwarts, quoting the announcement of the "Johanniter Order" just engraved in a Berlin shop which begins: "We, Wilhelm Eitel Friedrich Christian Karl, by God's grace, Prince of Prussia, herewith proclaim that we, after invitation and on its invitation, have accepted the position of honorable knight of the order, wherefore we as master of Brandenburg, have attached our highest individual signature."

"Inevitably," says Vorwarts, "one thinks while viewing this comedy, of the valiant Lieutenant Eikhild in Ibsen's 'Wild Duck,' whose greatest bliss is to put on in a closed room the uniform he dares not wear in public. In the circle of the Johanniter Order, Eitel Friedrich still feels himself 'by God's grace.'"

BALLANTYNE SAYS WILL BUILD SHIPS IF FIRMS WILL QUOTE FAIR TERMS

Montreal, May 28.—Hon. C. C. Ballantyne, minister of marine and fisheries, met representatives of the Canadian Marine and Labor Federation, embracing all shipyards east of Port Arthur to the Atlantic, in Ottawa yesterday. H. Kedwin, president of the federation, asked the minister if the government contemplated increasing their shipbuilding programme, and if so, to what extent and how soon.

The minister said the government was doing all it could to relieve unrest by endeavoring to provide work for the present year and probably part of next, and had forty-five ships in the course of building at a cost of \$38,000,000. He expected to place the government's future shipbuilding programme before the cabinet this week if the business of the government permitted. He added that the government could not give any time price to shipbuilders, and they would have to reduce their prices. He said that the government paid no bonuses, and there was no duty on ships. The government would build ships if the firms would quote fair terms.

Suffrage Victory In French Chamber

Motion Adopted by 344 to 197 to Bestow on Women Whole Political Rights Hitherto Reserved to Men—Paris, May 28.—By an enormous majority of 344 to 197 the French chamber of deputies has given its consent to the bestowal on women of the whole political rights hitherto reserved to men. This result is the more remarkable from the fact that the debate had its beginning in a timid report of the commission advocating municipal franchise and nothing more. The whole tone of the discussion was changed by Rene Viviani, who in a magnificent speech appealed to the justice and patriotism of the deputies, pointing to the danger of France being left behind even Germany in a time of crisis.

Antide Briand spoke in the same vein, and amid the cheers of both house and galleries the motion was adopted. Victory for women's rights has yet, however, to be won in the senate.

CURED OF DYSPEPSIA BY USING BURDOCK BLOOD BITTERS

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and searing of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting.

To get rid of dyspepsia a careful arrangement of the diet is necessary and due time must be given for the digestion of the meal. You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that the dyspepsia soon disappears.

Dr. Robt. Baldwin, Winifred, Alta., writes: "I cannot speak too highly of Burdock Blood Bitters for curing dyspepsia, of which I have been a sufferer for years. I have tried a good many doctors and proprietary medicines, so one day I thought I would try something different. The diet is said to be B. B. from our local store, as it was about the only remedy he kept, and I can certainly say that I was more than pleased with the result, as I got better right away. I will always recommend it to other sufferers."

THE CHILDREN AND THE FUTURE

Montreal, May 28.—"All the faces of the world are marching forward on the feet of little children, and the fate of the nations of the earth is bound up in the coming generation," said Dr. Helen MacMurtrei of Toronto in an address to the Imperial Order Daughters of the Empire last evening. She said, "The final test of civilization is: Can you take care of your children; do they leave you or do they stay with you?"

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N. J.—"For three years I suffered with a severe female trouble, was near death, had backache and a pain in my side most of the time. I had dizzy spells and could not walk across the floor. The doctor prescribed medicine, but I could not have an operation. I read about Lydia E. Pinkham's Vegetable Compound in a newspaper, and tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound—that is what makes me feel well and look well. I recommend it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills."—MRS. MARTHA STANISLAWSKI, 124 Penn St., Perth Amboy, N. J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

To Keep the Face  
Fresh, Clear, Youthful

More important than the cosmetic care of the complexion is its physical care. To keep the face clean, fresh, youthful, there's nothing better than common mercurochrome. It absorbs the soiled or faded worn-out skin particles. Cosmetics simply add unwholesomeness to the complexion. That's the difference. By all means, acquire the mercurochrome habit. It's so easy to get an ounce of the wax at the druggist's, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off as gradually as you see. It's like underlain is fully in view—well, you won't want, or need, a make-up complexion. This process means complete ridance of all cutaneous blemishes, like freckles, pimples, blotches and blackheads.

riding and thrills, "The Man of Might," came Fred Rogers. In blackface make-up he started a lively, jingly, jazz song and then cut loose with his feet and put over some of the best step and eccentric dancing this city has ever seen. Double jointed, possibly triple jointed, feet this chap possesses; at any rate, they flew around in a maze of intricate steps that had everybody "pepped up" and burst of applause that fairly shook the house marked his finish. He could have come back and done it all over again if the audience had their way.

Next came Thorndike and Carren, two boys from the navy, sweet singers and legitimate comedians, who offered a choice collection of bright wit and comedy hits that kept the laughs rippling one after the other in quick succession. Marshall, Wayne and Candy were next announced. There is a great surprise in this act and it would not be fair to tell of it here but it is a fact that the offering scored an immense hit and is one of the most novel and entertaining vaudeville acts seen here for a long time. If you enjoy real good music, and who does not, there is in this act a girl with a voice, who knows how to use it, and it is a treat to hear her sing.

so easy that it looked simple to do until one tried it. A dazzling ride down a ladder on a single wagon wheel brought a real good show to a close.

COLONEL W. G. BARKER'S V. C.

Colonel William G. Barker, winner of the Victoria Cross and one of Canada's greatest heroes, arrived at Halifax the other day on the steamer Aquitania from Southampton. He is credited with bringing down fifty-one German planes and made flights across the English Channel with the Prince of Wales. He believes the Atlantic can be crossed in a single flight and that it will be done this year.

Colonel Barker won his V. C. when he attacked single-handed sixty enemy machines. After doing severe damage to several he was himself crashed, being severely wounded in both legs and one

TO HELP ENFORCE LAW.

A meeting of representatives of the various temperance societies and Evangelical Alliance was held in the Y.M.C.A. building last night. Rev. Dr. Hutchinson occupied the chair. The present situation was carefully reviewed and it was considered that great improvement in general conditions had followed the prohibition of intoxicating liquors. Plans were formulated to help in the further enforcement of the law, especially with a view to giving assistance to the police and inspectors. A strong resolution was passed requesting the government to hasten the application of the law regarding lemon extract, etc. It was felt that all parties, the government, the police, the inspectors and the people,

What New York Does For Its Children

Mrs. T. N. Vincent of St. John Tells of Wonderful Work of Playgrounds

A May Day Festival

Thousands of Children With Parents and Play Teachers Enjoy Competitions in Sheep Meadow, Central Park - Sixty-one Play Leaders.

In a note from New York to the Times-Star, Mrs. T. Newton Vincent, president of the St. John Kindergarten Association, writes:

"It is perfectly wonderful what this city is doing for its children."

Mrs. Vincent encloses a copy of the printed programme of a great May Day in Sheep Meadow, Central Park, where children, parents, and play leaders of the park playgrounds of Manhattan assembled in thousands for a May Day celebration with contests between the 400 playgrounds in 41k dancing, flag relay, original costumes, 40-yard dash for mothers, 60 yards dash for fathers, over-head relay and artistic May Pole. These exercises were under the direction of the bureau of recreation, department of parks, boroughs of Manhattan and Richmond. There is a field staff of four directors for the playgrounds and no less than sixty-one play leaders.

Mrs. Vincent also enclosed a clipping from the New York Herald, with illustrations, and the following account of the May Day exercises:

Several thousand children, for many of whom the mere treading on green grass is a rare privilege, spent a glorious afternoon on the Sheep Meadow in Central Park yesterday evening in a continuous round of May Day festivities that sent them home happy, bright eyed and with flushed cheeks. They were the children of the park playgrounds of Manhattan, and, of course, they took their parents and aunts and uncles with them, and their play leaders were there to see that everything went off in an orderly, well regulated manner.

It was a day of fairs and wood nymphs, nursery favorites and Maypole Old King Cole was there and Mother Hubbard and the little lady whose meal was interrupted by a spider and ever so many others from the nursery world. They were there in all sizes from little ones, for whom the mere act of walking was an accomplishment, to girls who had learned to dance with real grace. The programme, which was preceded with a luncheon on the green, was in six parts, each consisting of a contest of some kind. First came the folk dancing which brought out many sets of striking costumes, Scotch, Irish, French, Italian, Japanese, and others not representative of any particular nation. In this the little dancers from the Hamilton Fish playground won first prize with their Japanese folk dance led by a little dark haired girl with an American flag. The Carl Schurz playground took second prize with an Italian folk dance. The original costume contest won enthusiastic applause from the spectators, especially the Kerwin wedding staged by the Seward Park children. A score of little ones, dressed in the

scant costume of the famous dolls, marched out in dignified manner with the very tiniest one of all as the bride. And there was a sedate little minister who performed the ceremony with all the decorum that could be desired. This exhibition captured the first prize, but the Astoria playground with its flower garden pageant, won honorable mention while others which did almost as well were the Five Points Playground with "Little Maids of Olden Days," John Jay Park, with "Vegetables," St. Gabriel's, with "Nursery Rhymes," and Colonial, with "Children of the Woodland."

The final event was a maypole dance in which the children holding to ribbons skipped about twenty flower bedecked poles, all in good time to the music of the band. In this event St. Gabriel's playground captured first honors.

In between the main events were a flag relay, won by the Thomas Jefferson playground; overhead relay won by Tompkins Square playground, a forty yard dash for mothers, won by Mrs. Willie Poggi, of No. 134 White street, and a sixty yard dash for fathers, won by Arthur Thaler, of Montgomery street.

The children had the greatest thrill of the day when Lieutenant Jack Martha, formerly a playground supervisor of St. Gabriel's, looped the loop over the park in an airplane.

The judges of the contests were Mrs. Josephine Fabricant, Miss Anna E. Chaires, Miss Rosalie Manning, Mrs. Julius C. Brenchin and Miss Marie W. Lambin.

And when the games were ended the children rode home in motor trucks bearing big placards with the inscription: "We don't want our ice cream and soda water taxed."

ARMY HONORS 'PHONE GIRL.

Coblenz, May 22—(Associated Press)—Before a crowd of admiring officers and enlisted men Miss Grace B. Banker of Passaic, N. J., received the Distinguished Service Medal from Lieut.-General Liggett at army headquarters today.

Miss Banker is chief operator of the army telephone service here and has been overseas one year at general headquarters and with the first army. The citation reads: "By exceedingly meritorious and distinguished service, and by untiring devotion to her exacting duties under trying conditions, did much to assure the success of the phone system during the operations against the St. Mihiel salient and north of Verdun."

OHIO NOW DRY

Most of Its 6,000 Saloons Were Closed Last Saturday Night to Avoid Payment of Extra Tax

Cleveland, May 28—The state of Ohio yesterday passed under the operation of the recently enacted law prohibiting the manufacture or sale of intoxicating liquors within its boundaries. Thus a state with 5,000,000 population and extending from Lake Erie to the Ohio River, joined forces with its sister states to the south, West Virginia and Virginia, making a continuous dry territory from Cleveland to Newport News, Virginia.

John R. Rutledge of this city, who for seventeen years has been at the head of the Anti-Saloon League of Ohio, which next to the Women's Christian Temperance Union, founded by Frances Willard, is the oldest organization having this great object in view, said: "The Ohio prohibition law becomes effective on May 27, but the year for payment of taxes is known the day after, and \$200 each for the privilege of keeping open the extra day, today.

"There are, according to the best information gathered from reliable sources, 6,000 saloons in Ohio paying the Dow tax, and it is estimated there was spent in the state of Ohio \$10,000,000 in the saloon annually. The closest estimates which we could make indicated that for the last five years there has been spent in the city of Cleveland from \$22,000,000 to \$25,000,000 a year for intoxicating liquor."

"In spite of the fact that Saturday night saw the culmination of several days revel and several weeks of continued staying away of liquor for future use, we all know what the ultimate benefit this newly enacted law will be in the town of Vermillion the largest of the finest restaurants the town has ever had and the second largest is already prepared to dispense ice cream and soft drinks."

COMMON COUNCIL

Mayor Hayes, at the council meeting yesterday afternoon advocated the appointment of a commission to study the fund under the housing act. Action was deferred. Applications from J. H. McNeil for \$8,000 and from Robert Crawford for \$1,600 under the act were referred to the commissioner of public lands. Mr. Thornton said that unless there was a reduction in automobile speeding in the city he would have to ask for money to employ spotters and that the fine be increased.

The report of the commission on the leasing of Firemen's Park, Fairville, from year to year, at a nominal rental; recommending co-operation with the board of health to prevent pollution of the city's water supply; awarding to Frank Wade the contract for setting the record in City Road and Douglas avenue at forty-nine cents per lineal foot.

An application from Sarah N. Carleton, west side, asking for permission to put up a gasoline tank on her property, was referred to the public safety department. The record on the City Road and Douglas avenue at forty-nine cents per lineal foot. It was felt that nothing could be done this year, but that it would be included in next year's budget.

George Carwell asked that the by-law respecting the proximity of garages to churches be changed to allow him to erect a garage in Cliff street. The letter was referred to committee. A resolution was read from the St. John board of trade suggesting that the city should secure legislation to enable it to proceed with its paving programme under the local improvement act, and that it be made necessary for half the abutters to sign a petition of protest instead of one-third. The question was referred to committee.

In accordance with an agreement with the Booth Fisheries Limited, in January, 1918, the council passed a resolution exempting the plant from taxation, excepting school assessment, for five years.

Mr. Fisher discussed the application of the New Brunswick Power Company to put in a switch at the corner of Union and Sydney streets, advising that it be granted. To give the other commissioners a chance to look over the situation, the matter was referred to be taken up in committee.

On the recommendation of Mr. Fisher \$300 was voted to assist in grading and putting in condition the south end playgrounds.

GIVING Give thy heart's best treasures, — From fair no more, ask not, Wait not a return; And the more thou spendest From thy little store, With a double bounty, God shall give thee more. —Adelaide A. Proctor.

The Salvation Army, having obtained options on five more saloons, now has 25 former cafes in New York for operation as temperance clubs after July 1.

RED CROSS BULLETIN SPEAKS OF THE WORK DONE AT THIS PORT

A bulletin published by the Canadian Red Cross Society, summarizing the work done by that organization during the war, and which also traces the origin of the society, has been received.

In an article entitled "Welcome to Canada," many expressions of gratitude are cited as coming from the lips of the English brides of soldiers when landing in the port of St. John, N. B. The women coming into this country were filled with stories that when they landed here they would be greeted with showers of eggs thrown by Canadian women, but instead they were greeted with every kindness possible. During the long waiting for trains after they disembarked from the steamers at St. John, Red Cross representatives were continually in the midst seeking for something to help them and make them comfortable.

Two cuts in this bulletin show the committee at pier in St. John which handled soldiers' dependents and the Red Cross nurses and V. A. D.'s in the port rest room at this city. The committee handling the dependents is composed of F. S. West, secretary Patriotic Society; Mrs. H. Lawrence, Red Cross port committee; Mrs. George F. Smith, Soldiers' Wives League; Mrs. G. A. Kurling, commandant V. A. D.; Miss Perry, secretary Y. W. C. A.; Mrs. Conde, Salvation Army. The Red Cross nurses and V. A. D.'s accompanied all trains carrying the dependents to destinations and rendered all the help to the women that was possible. The soldiers' dependents on coming to Canada received an excellent reception and were made to feel at home from the beginning.

The bulletin goes on to describe work of the society in Siberia and in other parts of the British Empire as well as in each of the provinces in Canada. It also describes its good work done during the period the influenza epidemic raged throughout Canada.

An interesting article describes the work of the remnants of the Indian

GOVERNOR SIGNS SYNDICALISM BILL

Lansing, Mich., May 28—The Governor of Michigan has signed a bill passed at the last session of the state legislature which has the title, "Defining the Crime of Syndicalism and Prescribing Punishment Thereof," which was introduced by John P. Fitzgerald, representative from Detroit.

The bill provides a penalty of ten years imprisonment and a fine of \$5,000 for any person, who "by word of mouth or writings, advocates, or teaches the duty, necessity or propriety of crime, sabotage, violence, or other unlawful methods of terrorism, as a means of accomplishing industrial or political reform; or prints, publishes, edits, issues, or knowingly circulates, sells, distributes, or publicly displays any book, paper, or document or written matter in any form, containing or advocating, advising or teaching the doctrine that industrial reform should be brought about by crime, sabotage, or other unlawful methods of terrorism; or becomes a member of, or voluntarily assembles with any society, group or assemblage of persons formed to teach or advocate the doctrines of criminal syndicalism."

Sidelights On Sport

It may be of interest to fans to know that Clifford C. Cravath of the Philadelphia National League club was born in San Diego, Cal., on March 23, 1882. Despite his advanced years, from a baseball standpoint, he is today leading the league in hitting.

With Hendrix in the box and Tom Daly, formerly of this city, at the receiving end, the Chicago Cubs shut out the Braves in yesterday's fixture played at the Hub.

Cravath registered another home run yesterday when he drove the ball over the right field wall with two men on bases on the home grounds in Philadelphia.

Cleotie, pitching for Chicago, out-pitched Walter Johnson yesterday and the White Sox kept their lead over Cleveland.

Binghamton's loss and Toronto's win yesterday places the Canadian team out in front by a few points. For the last few days they have been jumping from the lead to fourth place and then back again.

In recent issue of "Tammany" Herald, the official organ of the St. John High School, the editor points out the crying need of an athletic field where the boys of the city can indulge in open air sports.

The following riders qualified in the Grand Prix of Newark, a \$50,000 purse race, the semi-finals of which will be ridden Decoration Day and the final next Sunday.

the boys of the city can indulge in open air sports. His contention is true and it is time St. John had such a field.

Cold weather prevented the opening of St. Peter's Y. M. A. League last evening and the first game is now booked for Thursday evening.

Owners of tennis courts are busy getting the ground in condition and overhauling their nets, rackets, etc. This is a good game and should not be allowed to die out.

"Dutch" Leonard, former star of the Boston Red Sox, won his first game pitching for Detroit yesterday.

The evening was pleasantly spent in games and music and dainty refreshments were served. The company joined in wishing Miss Spencer much happiness in the life which she is about to enter.

### OPEN BASEBALL LEAGUE SEASON HERE TONIGHT

With favorable weather conditions, and the Queen Square diamond in pretty good shape, the St. John Baseball League will open their series of games this evening. Four teams are in the league—Carleton, St. Peter's, Y. M. C. I. and Fairville. The initial contest this evening will be between the Y. M. C. I. and Carleton and should be both interesting and keenly contested as both teams will present their strongest line-up. Commissioner Thornton will open the season by pitching the first ball. The grounds are being rolled today and the diamond is in better condition than ever before. The game is scheduled to start at 7:15 sharp and play will continue until the termination of nine innings or until darkness sets in.

### KINGS COUNTY WANTS COLORS THE 26TH USED

Ceremony Planned For Next Sunday Will Not Take Place

They Were Property of 104th, Loaned to 26th and Used in March Into Germany—Now Are Claimed; Meanwhile Battalion's Colors Are in Bank Vault Here

The arrangements for depositing the New Brunswick colors, carried by the 26th Battalion through France, Belgium and Germany, in Trinity church on next Sunday morning are all off. An unfortunate situation has arisen which has made it impossible to carry out the program as originally arranged and, unless another change occurs, the memory of the New Brunswick battalion which fought through the greater part of the war will not be honored by the permanent display of the battle-inscribed colors they carried in the days of victory. The colors have been claimed by representatives of Kings county and the 26th must surrender them.

When the armistice was signed the carrying of colors was permitted, for the first time since the beginning of the war, but the 26th had no colors to carry. When this information was cabled home Senator George W. Fowler, former O. C. of the 104th Battalion, cabled an offer of the 104th colors which then were in London. An officer was sent to secure them and on their triumphal march into Germany the colors were carried at the head of the famous New Brunswick battalion. As the colors actually carried by the 26th, they were entitled to receive the inscription of the battle honors won by that unit and would have formed an emblem of the greatest historic interest in which the whole province would have taken the deepest pride.

Arrangements were under way to deposit the colors in Trinity church on Sunday morning, with appropriate ceremonies, and there they were to hang in evidence of the blood that was shed and the gallant deeds that were performed by the men of this province.

When news of these plans reached Sussex, it was said today, Mayor McKenna telegraphed to Senator Fowler protesting that these colors had been provided by money contributed solely by Kings county people on the understanding that, after the war, they were to be deposited in the court house in Hampton, and asking that this program should be carried out. Senator Fowler has wired in reply that this statement of facts was correct and that, if it were the wishes of donors, the original plans might be followed. Kings county apparently will get the colors they paid for but which, as the colors of a battalion which never reached the front as a unit, will not be entitled to battle honors.

The Royal Standard Colors.

After the return of the 26th it was learned for the first time by the officers of the unit that colors had been provided for the battalion by the Royal Standard Chapter, I. O. O. F. E. These colors had not been presented to the unit, had not seen service, and the battalion was not even aware of their existence in the vaults of the Bank of Nova Scotia, where they still repose. While it has been suggested that they might be inscribed with the battle honors won by the New Brunswick fighters and duly presented and preserved, they would lack the interest and significance of those actually carried by the battalion and their right to the honors of battle colors might be questioned. It was not the intention of the 26th to claim the others as their own colors, but rather to honor them as New Brunswick colors which had played their part in the triumphant close of the war campaign.

### MEN OF AMMUNITION COLUMN HOME TODAY

Greetings at Depot in Early Morning—Reached Halifax on Cedric

The men for military district No. 7 who arrived in Halifax on the S. S. Cedric reached St. John this morning at 6 o'clock. They were accompanied from Halifax by Charles Robinson, secretary of the New Brunswick Returned Soldiers' Commission, who went to meet the boys. They were met at the station by members of the reception committee and representatives of the Knights of Columbus Army Huts, who distributed light refreshments and cigarettes. Relatives were also there. There was no band but the big electric welcome sign was illuminated. After greetings, the boys proceeded to the armories where they had breakfast and were discharged. The men who live out of town will go to their homes on the evening train today.

About 178 men arrived this morning in the unit which were the 2nd and 3rd sections of the divisional ammunition column of the first division, Canadian expeditionary force, headquarters at No. 1 section came on May 17 when the 26th arrived. Of the men arriving today 100 were from the west who had been attached from other units. They will proceed to their homes when they get their discharge. Captain Routier of Quebec commanded No. 2 section and Captain L. F. Jackson of Ottawa was in command of No. 3. Major Routier of the 22nd Battalion, who was the only original officer to return with the battalion, is a brother of Captain Routier. He arrived on the Olympic on her last trip to Halifax.

### For Those Who Like Something Different ---The Reed Furniture

Reed Furniture is the choice of those who aim to have a furniture that is different from the usual set wood pieces, and the Reed idea is ever popular. Light, bright and airy, it seems to completely lift the room of the home in which it is used away from the others and proves a restful change.

We are showing this popular material in Chairs, Rockers, Tables and Reading Lamps, and in these finishes: Old Ivory, Fumed and Natural. Upholstered in Tapestry and Striped Cretonne—loose cushions and chairs with spring seats; also a comprehensive line of Crex and Fibre Furniture in various settings.
