BEAR BODY OF KING TO PALACE

Greek Soldiers Who Fought Turks Provide Escort

SOBBING CROWD LOOKS ON

King Constantine to Take Oath of Office in Athens Tomorrow—Affecting Scene at Greeting of New Monarch and Brother

(Canadian Press)

Saloniki, March 20.—The body of King George of Greece, after continuing, was moved from the hospital to the palace yesterday. A humble military stretcher, borne by Prince Nicholas, son of the late ruler, and several of the king's aides de camp, was the centre of the procession of mourning.

It was as a king that George lived, but it was as a soldier that his popularity was at its height, and it was as a soldier that his body was carried through the streets. Close to the wooden platform were military men of high rank, resplendent in their gold braid and splendor of their positions, while back of them came the rank and file of the army, whose clothes were tattered, whose bodies bore wounds won in fighting, under the leadership of the king, the nation's foe—Christian and Moslem—man, civilian and soldier, Crete and Greek, brought the stretcher.

The procession passed by the spot where King George was shot down yesterday. Before the palace, a troop of light infantry, glistened in their blue and white uniforms, was drawn up. The wide entrance way was clear and at the head of the steps, just inside the hall, the king's body was laid out. Before it stood the metropolitan.

The procession slowly mounted to the hall and the stretcher bearers placed their burden upon the bier. The Metropolitan then read a prayer while the thousands of heads within sight, were bent. These sobs were not more dry eyed than the civilians. Then the soldiers and the people were allowed to kiss the body of the hero, the honor guard, composed of priests and military men, remained close to the bier, kneeling.

Arrival of the New King
These ceremonies were over when King Constantine arrived. He hastened directly to the palace and met his brother Nicholas. The king embraced his brother sobbing. After he had recovered his composure he was led past the body of his father.

Later, from another room in the palace, the king assumed command of the troops and then gave orders about the removal of his father's body to Athens. The king himself will leave here tonight for Athens and will arrive there at eight o'clock tomorrow morning. He will take his oath of office tomorrow.

(Constantine XII)

Athens, March 20.—The hope is expressed that the king will be proclaimed as Constantine XII. The late Byzantine emperor was Constantine XI. The Chamber of Deputies will be summoned to take the oath of fealty to the new king after which the ministry will resign.

Messages of condolence and sympathy for the royal family, the Greek government, and the Greek nation poured into the capital all day. The first message from the head of a nation received by Queen Olga came from President Wilson.

All Greece mourns the death of a sovereign who had done so much, particularly during the last year, to advance the prestige of the nation. Emblems of sorrow are displayed on all sides, and manifestations of grief are even more marked among the poor and lowly than among those of the higher classes.

Belgrade, Serbia, March 20.—A requiem for King George of Greece was celebrated in the cathedral here yesterday. The presence of the ministers of the Serbian cabinet and the members of the entire diplomatic corps, King Peter, and other prominent figures, was unable to attend, but His Majesty was represented.

Rome, March 20.—The Pope has sent, through the apostolic delegate to Greece, his deep condolence to the royal family on the death of King George. He expresses profound abhorrence at the atrocious crime.

Athens, March 20.—Premier Venizelos, on announcing the death of King George to the Chamber of Deputies, eloquently eulogized His Majesty's services to his country during his long reign and referred in laudatory terms to his successor, King Constantine.

When the premier asked the chamber to acclaim Constantine as the new king, the deputies responded with cheers and the people in the galleries joined in the manifestation. The leaders of the parliamentary opposition afterwards paid tributes to the late king. The chamber of deputies decided to go into mourning for six months and a proposal to erect a national monument in honor to the dead king was voted by acclamation.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis.—The western disturbance has now reached Lake Michigan and there are indications of the development of a storm off the middle Atlantic coast. Mild weather prevails from the lake region to the maritime provinces and the cold conditions continue in the west.

Rainy for Holiday.
Maritime—Southeasterly and easterly winds increasing in force; rain tonight; Friday, gales with rain.

HOUSE PROLOGUED; 111 BILLS PASSED

Five Were Withdrawn—Game Exhibit Sent From New Brunswick to Sportman's Show Has Gone Astray

(Canadian Press)

Fredricton, N. B., March 20.—The house met at ten o'clock and, after some bills had been given a third reading, took recess and resumed at 10:25 o'clock. Mr. Fisher presented the report of the public accounts committee.

His Honor Lieutenant-Governor Wood came into the chamber and assented to the bills passed during the session, and prorogued the house with the following speech: "Mr. Speaker and Gentlemen of the legislative assembly—I desire to thank you for the close attention which you have given to the general business of this session as well as to those special matters which I have submitted for your consideration, and I also thank you for the liberal provision which you have made for the several important services of the province. In now relieving you from your duties, I have to congratulate you upon the conclusion of your labors which shall be a lasting benefit to the province, and I take leave of you with most sincere wishes for your individual happiness and prosperity."

The clerk announced that it was His Honor's pleasure that the legislative assembly be prorogued until Thursday, April 24.

READY TO GO AHEAD

Local Men of Suburban Railway Company Say Surveys Will be Begun as Soon as Possible

The action of the legislature yesterday in passing the bill to incorporate the St. John Suburban Railway Company has been received with general satisfaction around the city today. The company's proposals have received popular approval as they have looked on as offering the opportunity for expansion so greatly needed by the city.

H. P. Robinson and Percy W. Thompson, the men in Fredricton in the interests of the company, returned to the city this morning. They expressed themselves as well satisfied with the outcome of the matter and said that, although the bill as adopted by the legislature involved some changes, these would be satisfactory to them and they believed they would also be acceptable to Messrs. Graham and Campbell of Bangor, who are also interested in the company.

BRITISH MONEY FOR HOMES IN CANADA

Edmonton May go into the House-Renting Business

Edmonton, Alta., March 20.—British capitalists are ready to supply some of the funds necessary if the city of Edmonton desires to go into municipal houses, writes Sydney V. Kendall of London, in a letter to Mayor William Short and the council. The plan outlined by Mr. Kendall is to erect a large number of artistically arranged dwelling houses, to be rented to bona fide residents at low rates.

Mayor Short has referred the letter to the board of commissioners. The municipality already owns and operates the street railway lines, telephone, electric light and water plants, and will install a paving plant of 10,000 yards capacity this year. The rate payers recently sanctioned a debt issue of \$110,000 for a central public market.

HALIFAX TO ADOPT SOMERS SYSTEM IN THE ASSESSMENT

(Special to Times)
Halifax, N. S., March 20.—The Somers system of real estate valuation is to be adopted in Halifax. In the meantime the assessors under the old system, which is antiquated enough, have increased the assessment by about \$1,800,000.

They advanced this all round, bringing some properties up to very near their real value and taking advantage of the boom.

NEW TUG IS WELCOMED
The new tug Neroid made a trial trip through the falls this morning. This tug was built to replace the old tug Neroid which has been in the service of her owner, J. Willard Smith, for about twelve years. The engines and machinery in the new tug are the same as were used in the former vessel. The new Neroid was given a noisy welcome by the harbor craft.

NEW PAVING PROGRAMME
The street paving programme for the summer was under consideration at the meeting of the commissioners this morning. Owing to the action of the property owners in protesting this programme has been practically wiped out and the commissioners were considering what they will do this year. It is their intention to proceed with some work, and the commissioner of public works expects to be able to announce the new programme by Monday next.

SCHOOLS CLOSED TODAY.
The public schools of the city closed today for the Easter holidays. They will re-open on Wednesday.

WIFE CHARGED WITH THE MURDER OF HUSBAND; REAR ADMIRAL EATON

WOOD PULP AND PAPER MATTER

No Decision of Customs Courts in States at Present

CANADA INTERESTED

Case of Test Imposition at Buffalo—Section 2 of Reciprocity Agreement Enters Into It—Tariff Revision in States

(Canadian Press)

Washington, March 20.—The customs court will not decide the question of the right of European nations to send wood pulp and paper into the United States free of duty until it has considered the validity of section two, the only operative clause of the Canadian reciprocity agreement, under which Canada is given free entry of wood, wood pulp and paper, provided no export restrictions are imposed. Under the "most favored nation" clause of treaties with this country, Europe claims the same free entry privileges granted to Canada.

The Chief Paper Company, a test shipment of wood pulp, imported at Buffalo, from Canada, raises the question of the validity of section 2, contending that Congress adopted all the reciprocal legislation provided for by the agreement. As the treaty failed of ratification by the dominion, it is contended that no portion of it is in operation.

When the collector of customs admitted the shipment, the collector of customs made a protest against that duty be assessed, was made to the board of general appraisers, which upheld the collector's decision. The customs court is asked to reverse that decision.

The government has filed briefs to sustain the decision of the board and maintains that the purpose of section 2, was to permit the great pulp mills of the country to obtain as much as possible of the woods of Canada in view of the fast disappearing American forests. The government asked the court to consider the question of validity and the question of European treaty rights jointly.

Washington, March 20.—The tariff revision agreed upon in the House committee on ways and means has been carefully analyzed by the tariff commission. The committee desires to retain most of the administrative sections of the present tariff, while the income tax has yet to be formally voted upon, bringing upon the analysis of the tariff the four-teen schedules of dutiable articles.

London, March 20.—"Arson squads" of militant suffragettes, were out during last night, when they burned down the unoccupied fine country residence of Lady Alice White, widow of Field Marshal Sir George White, hero of Ladysmith, and also the buildings on the golf links at Weston-Super-Mare, a fashionable summer watering place of Somersetshire.

Lady White's house was a big mansion in spacious grounds at Englefield Green, in Surrey, near the river Thames. The fire was first seen at one o'clock this morning. Traces of oil and inflammable materials were found while work on prominent spots outside of the grounds, were papered with the words: "Stop torturing our comrades in prison." Votes for women.

NEW PREMIER MUST BE IN FAVOR OF THE THREE YEARS MILITARY SERVICE

Calgary, Alta., March 20.—Charles Henry Mitchell, ex-alderman, formerly assistant city treasurer, and this year a candidate for city commissioner, was arrested last night on three charges alleging embezzlement of \$8,800 from the city.

Mitchin was released on bail of \$34,000. It is reported the thefts were discovered in an audit covering nine years. Formerly a monthly audit had been made, but it is said that the accounts were altered following each monthly audit. These audits were not checked back by the city auditor and because of this, the alleged manipulation of figures escaped attention until an independent audit was instituted last month. Public telephones attached to lamp posts communicating with cashiers were being experimented with by the post office.

REPORTED ACTION FOR LARGE SUM AGAINST ST. JOHN RAILWAY CO

It was reported today that the wife of a prominent St. John lawyer is bringing action for damages for a large sum against the St. John Railway Company on account of alleged discourteous treatment received by her from one of the employees of the company on a street car.

HEARSAY TO GIVE ENGLAND CREDIT

Washington, March 20.—Aeroplane experts in the war and navy department scout the idea that the British army has evolved a flying machine superior to any in the possession of other nations, as announced in the House of Commons by Colonel John Seely, British Secretary of State for War.

WINTERPORT NOTES

Head liner Intouchment Head sailed last night about 6 o'clock for Belfast with general cargo, including a quantity of grain and deals.

The Manchester Corporation, of the Manchester Line, sailed at 8 o'clock this morning for Manchester with a large general cargo.

Donaldson liner Letitia will sail tonight for Glasgow direct with about 50 passengers and a large general cargo.

Luxurious suites have been fitted up on the steamer Empress of Britain for the Duke and Duchess of Connaught and the Princess Patricia will embark at Halifax.

President Wilson Declines Presents
Washington, March 20.—President Wilson does not intend to accept gifts of value. He received a razor strap mounted in gold, but sent it back to the donor with a letter of regret. The strap came to the president because of his remarks on the value of a strap as a barometer.

Numerous other gifts have been returned. Mr. Wilson does not believe the president of the United States should accept special favors from any one.

Two C. P. R. Linemen Killed
Hamilton, Ont., March 20.—William Aslugs of Toronto and Thomas Sharp of Peterboro, both about twenty years old C. P. R. telegraph linemen, were run down by a T. H. & B. engine last night and instantly killed. They stepped out of the way of a freight train from the line engine.

TRAGEDY OF HIGH LIFE IN NEW YORK

Waiter's Skull Broken by Heavy Cut Glass Piece Thrown in Fight in Hotel Rector

New York, March 20.—A fight among a party of men and women diners, all in evening clothes, in the Hotel Rector in Broadway early today, may cost the life of a waiter who hurried and stepped in support of the dining room, well filled with late supper parties, was the scene of intense excitement when two men were seen to engage in a fist fight, while their women companions tried to separate them.

One of the men, however, reserved a heavy cut glass water bottle and, with a long swing, let it go at the man who had struck him.

The bottle went wide and struck Bonozzi, whose tray of dishes was upset as he dropped to the floor in a heap, unconscious. At the hospital it was said his skull was broken and that he would probably die. The party in which the fight had centered escaped without injury because the first blow in the face, and was about to fall for the door, when he seized a heavy cut glass water bottle and, with a long swing, let it go at the man who had struck him.

FORMER TREASURER OF CALGARY ARRESTED; CHARGE OF STEALING

Books Found to be Tampered With—Amount Placed at \$8,800

Calgary, Alta., March 20.—Charles Henry Mitchell, ex-alderman, formerly assistant city treasurer, and this year a candidate for city commissioner, was arrested last night on three charges alleging embezzlement of \$8,800 from the city.

Mitchin was released on bail of \$34,000. It is reported the thefts were discovered in an audit covering nine years. TAXI STRIKE ENDED; THE MEN ARE WINNERS

But Now the Non-Strikers View The Situation With Alarm

London, March 20.—The London taxicab strike is ended. All the firms belonging to the Motor Cab Proprietors' Association yesterday accepted the men's terms. The strike began on January 1, when the proprietors sought to make the men pay thirteen pence a gallon for fuel instead of eight pence. The men declared they could not earn a living at the former price.

The trouble developed into what is known as a happy strike, for the drivers of taxis outside the association, who continued working, were able, owing to the constant demand for their services, to make handsome contributions to the strike fund and the strikers thus suffered no hardships.

Non-strikers do not view the general resumption of work with unmixed pleasure. "The end of the strike means the beginning of our trouble," said one. "There is no room for 10,000 taxicabs in London, and instead of fares looking for us, we shall be looking for fares."

The scarcity of cabs during the strike added a new plague to London life. Whistling for taxis developed into such a nuisance that the authorities were racking their brains to discover a method whereby to avoid it. Public telephones attached to lamp posts communicating with cashiers were being experimented with by the post office.

BANKERS WITHDRAW

New York, March 20.—As a result of the statement by President Wilson that his administration would not request the American bankers heretofore interested in the negotiations for the six power loan to China to continue to seek their share of the loan, the three banking houses in the so-called American group last night announced their entire withdrawal from the loan negotiations.

FEAR END OF PONTIFF NEAR

Pope's Physician Says Can Not Last Long

CARDINAL FALCONIO NEXT?

Paris Report Says Former Delegate to Canada Would be Strong Man—Pope Plus Unable to Leave Bed on Name Day

(Canadian Press)

Rome, March 20.—During the last two days, the Pope has suffered from insomnia and loss of appetite. The liquid diet which he has been taking has failed to overcome the weakness resulting from his illness. Today, on his name day, the feast of St. Joseph, he was compelled to remain in bed, and for the first time since he was ordained a priest was unable to celebrate mass on this occasion.

Professor Marchisava, the Pope's physician, said last night that he was afraid that the Pope would not last long. In any case, he will not resume his audiences for a month.

Professor Marchisava refused to allow the Pontiff to receive general Porfirio Diaz, former president of Mexico, today as he considered that it would be dangerous owing to his weakened condition.

Paris, March 20.—Rumors which reached here from Rome yesterday in regard to the serious illness of Pope Pius X. started gossip as to his possible successor. The name most frequently mentioned is that of Cardinal Diomede Falconio. A prominent Catholic prelate, he last night.

"Cardinal Falconio is the man above all others who would satisfy the clergy and laity. He is noted for his energy, being a member of the Franciscan order. There could be no objection to him from any quarter."

"How about Cardinal Rampolla, the secretary of state under Pope Leo XIII?" asked a correspondent.

"Well," replied the prelate, "it was thought some time ago that he would be a strong candidate for the succession but things have changed. The present Pope has broken up all the old cliques and relegated the former prominent men to the background. Besides that, Rampolla is too old. If he were elected, it would be necessary to elect another Pope in a few years. Falconio is comparatively young."

VERDICT OF \$50,000 IN AN ALIENATION SUIT

New York, March 20.—Mrs. Grace Tracer's love for her husband was worth \$50,000 in the opinion of Superior court Justice Guy, who directed a jury to find a verdict for that amount for the husband George W. Tracer, a wealthy physician.

In his suit against Samuel McCurdy, an advertising man, the jury obeyed Justice Guy's instructions.

Doctor Tracy sued McCurdy for alienating Mrs. Tracer's affections. In his bill of particulars he said that he was married in Boston in 1902, and lived happily with his wife until last July, when, he says, McCurdy enticed her to his home in New York, N. J. Since then, Doctor Tracy alleges, the wife's affection for him has been destroyed. McCurdy filed no answer to the suit. Mrs. Tracy was Miss Grace Whitney, a society woman of Nashua, N. H.

Egg Shampoo Mixtures
THERE is no better shampoo for the hair than some egg mixture. This being my opinion, I have chosen several recipes which I would ask you to look over, selecting the one which most appeals to you. This is the way a well known hairdresser gives the ordinary egg shampoo. First, she fills the wash bowl with hot water into which she throws half a teaspoonful of borax. Then she cracks two eggs together over her patient's head and lets the yolks and whites run over the flowing locks. After this, plunging her hands into the hot water and dabbing it over her hair, she rubs and kneads the eggs into the hair and scalp until the head looks like nothing so much as a snow-ball. When this happy time arrives, she concludes it is time to begin rinsing operations, so she seizes on a hair spray—previously prepared to the hot water faucet—and floods the soapy hair with warm water until not a particle of the grimy lather remains. You can see it is no trick at all to shampoo the hair with eggs. One only needs a little knowing how.
The rosemary egg shampoo is very much liked. I will print the formula, as you may prefer to use it in preference to the one given above.
ROSEMARY AND EGG SHAMPOO.
One ounce of rosemary spirits.
One pint of hot rainwater.
Yolk of one egg.
These ingredients should be well beaten together and yubbed well into the scalp and over the hair. After the proverbial nine rinsing waters have been used and one's tresses are free from grime and frothing egg, all in the sun until every hair is dry as a bone.
A most excellent shampoo for the women with oily hair is made thus: Shave one-half bar of white soap and boil in one pint of water until of the consistency of jelly. When mixture is cool, stir in one teaspoonful of good toilet water and

PAID ORGANIZER TO BE ENGAGED
Proceedings of Orange Grand Lodge — Grand Master Speaks of Progress
Chatham, N. B., March 19.—The annual message of the grand master read at the opening ceremonies of the Provincial Grand Lodge L. O. L. today was in part as follows:—
"The matter of extending the order was never lost sight of during the two years required of your grand master. It has been a growing thing, 'righting' shores of phenomenal has been the growth of the order. It is a matter for special satisfaction that we are able to count the increase by thousands. This fact, added to the fact that in all Canada we have a far more well night the half-million mark, makes the order a mighty power that must be reckoned with."
The grand master, in his address, strongly urged the appointment of a field agent at a stated salary to work for the further organization. This was most enthusiastically received.
At today's session it was decided to set apart a substantial fund for the furtherance of the order. It was also agreed that an organizer should be obtained in conformity with the grand secretary's recommendation.
Among other business today was the voting of \$150 towards the Orange Orphanage at Pictou (Ont.).
Considerable discussion took place on the advisability of establishing a provincial orphanage, but it was felt that there was not time for such a project here, though the opinion of the meeting showed that the feeling was strong, and that it would eventually materialize.
The committee of correspondence reported sixteenth deaths during the year.

LITTLE ONE WHO WAS TREATED BY THE GERMAN DOCTOR
The Skin
A famous skin specialist's own soap
Learn what it will do for you
John H. Woodbury devoted his entire life to a study of the skin and its needs. From his experience with thousands of cases of skin troubles, he developed the formula of the now famous Woodbury's Facial Soap.
In the 12-page wrapper around every cake of this soap the causes for all common skin troubles are given—conspicuous nose pores, sallow skin, blackheads, etc.—and the proper treatments to relieve them.
If there is any condition of your skin you want to improve, get a cake of Woodbury's today and follow carefully the directions given in this wrapper. In ten days or two weeks your skin will show a marked improvement—a promise of that livelier complexion which the steady use of Woodbury's always brings. Woodbury's Facial Soap costs 25c per cake. No one hesitates at the price after their first cake.
Woodbury's Facial Soap
For sale by Canadian dealers from coast to coast.
For 4c we will send you a sample cake. Write today to the Andrew J. Perry Co. Ltd., Sherbrooke St., Perth, Ontario.

TO SETTLE HERE.
A. S. F. Marshall of Gateways, B. C., and D. Johnston of the Kootenay Valley, arrived in St. John yesterday to complete preparations for taking up farms on the St. John River Valley. Mr. Marshall says that many farmers and ranch ranchers of British Columbia are planning to move to New Brunswick, the chief attraction being better fruit lands at much lower prices and easier access to larger markets. Former New Brunswickers in the west are becoming especially interested.
HOME FOUND FOR HIM.
Yesterday morning about eleven o'clock Deputy Chief Jenkins and Detective Kullen called at the Salvation Army Home to see the boy who was placed in their care yesterday. Evidently frightened at seeing the policemen, he had made his escape. He was found again in the street last night. Arrangements have been made by Adjutant Cummings to have the boy sent to St. Patrick's Industrial Home, Silver Falls.

WOMEN SHOULD BE PROTECTED
Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.
Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramp and had headache and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEMA BERRUNS, Sikeston, Mo.
Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but I decided so that I began taking your Compound. I got along so well that I gave up the doctors and was saved from the operation."—Mrs. CHARLES MOORE, R. B. No. 3, Murrayville, Ill.

SOME TWENTY DEFENDANTS
Hearing in the case of Catharine M. McManus vs. Francis McManus et al., was held in chambers this morning before Mr. Justice McLeod. This is a petition for the sale of certain lands. Adjournment was made to allow Mr. Mallin, K. C. for the plaintiff, to file further affidavits. There are about twenty defendants. All but three are represented by Dr. R. F. Quigley, K. C.

An interesting personality has passed away from the ranks of the Irish National School teachers through the death of Patrick Doyle, who for nearly forty years was principal of Ballyphilip National School, Portlaffery, County Down. Mr. Doyle had remarkable gifts as a mathematician, and was complimented by the late Lord Kelvin for his solution of a difficult problem.

"Was the bracelet Tom gave his sister-in-law on her birthday set with precious stones?" asked a few stones.

STAR FOR THE WEEK-END
The Little Star Theatre in Union Hall, North End, is presenting a programme of film plays that elicited much favorable comment last evening. The prime factor in this show is a gripping Pado-American western story called "The Clutch of Conscience." Laughing material supplied in the highly hilarious comedy, "Sweeney's Millions." A workman is left an immense amount of money and starts right in to enjoy it, with side-splitting effect. "By a Fiddle Turn of Fate," is a strong European story with a cast of famous Parisian players. On Good Friday the Star will have a matinee starting at 2 o'clock. DR.

HON. MR. FOSTER'S VIEWS

The Conservatives in Canada sometimes wish that the Hon. George E. Foster did not possess such a power of clear and forcible expression. He is very useful in a political campaign or in a debate in the house when he speaks in support of their views, but they are not anxious just now to quote what Mr. Foster said in the house in 1909 on the subject of ship money. It is on record, however, and is worth quoting at this time. Referring to the question of sending a money contribution to the Admiralty Mr. Foster said:

"It bears the aspect of hiring somebody else to do what we ourselves ought to do; as though a man, and father of a family, in lusty health and strength, should pay his neighbor something per month for looking after the safety and welfare of his home, instead of doing that duty himself. That seems to me, when you work it out, to be a basic objection to this form of aid. It goes still further than that. Suppose you contribute this year your sum, and next year your sum, and thereafter year after year. After ten or twelve, or twenty years, you will have paid out an immense amount of money. You will have been protected in the meantime; but in Canada itself there will be no coast straits there will be no residue left, there will be no preparation of the soil, or beginning of the growth of the product of defence. Yet some time or other, no one can doubt that with resources and with a population constantly increasing, we must and will have in this country a naval force of our own for our coast and home defence."

No Liberal speaker today is more ardent in opposition to the policy of tribute than the Hon. Mr. Foster when he made this speech. Let us quote another paragraph:

"The interest that we take in a contribution paid by another is not the interest that I desire for Canada. I want to see something granted on the soil of Canada's nationhood which takes root and grows and develops until it incites the spirit of defence in this country, leads to a participation in the defence, leads to that quickened interest in it, its glories, its duties, and its accomplished work, which is after all the one great thing that compensates a people for great expenditures, either on land or on sea, in the way of defence and of the maintenance of the rights of the country."

Mr. Foster agreed that the beginning must be small, but he declared that a beginning should be made at once toward a Canadian navy, as "an Imperial adjunct to the British Navy, for the defence of Canada and the defence of the Empire, in which Canada has some of her body, her bones, her blood, and her mental power, her national pride."

In another speech Mr. Foster advocated the fleet unit policy which had been endorsed by the Admiralty, and which Australia and Canada under Sir Wilfrid Laurier proceeded to carry out. Note with what enthusiasm Mr. Foster spoke:

"What a splendid idea! Australia with its unit, New Zealand and Britain combined with their unit, India and China and Britain, with their unit, Canada with its unit! Sweeping the broad waters of the Pacific for the defence of the Canadian shore, and the eastern shore of New Zealand's little island, and of the great island continent of Australia—the fleet of some participants, strong with their Drednoughts and strong with their equipment for effective naval warfare."

The arguments presented with so much clearness and force by the Hon. Mr. Foster ought to have weight with Conservatives today. The conditions have not changed. If Canada has \$35,000,000 to spare for naval defence, the greater part of it should be spent in Canada; for, if a Canadian navy is not established, the policy of paying ship money will have to be continued year after year.

PRACTICAL RELIGIOUS WORK

The work that is being done by the Presbyterian Mission at East St. John is likely to attract considerable attention, because of the very practical and eminent sense policy which has been adopted. The building which is to be erected will have bath, gymnasium and a reading room, as well as a room for meetings. Mr. George T. Knight, who is in charge of the work, which of course is only beginning, takes a very practical view of the situation, and is cordially supported by the Presbytery, which has now approved of a grant for the purchase of a moving picture machine. During the next few years very large numbers of men will be engaged in construction work at East St. John, and a Mission of this sort, which aims to benefit them physically and mentally, will appeal to them with a great deal of force. It is a kind of practical religious work which gains the confidence of men and is not regarded by them with suspicion. When all the churches in their ordinary church work adopt the same policy that is to be pursued by this small mission, there will be less complaint about the indifference of men to practical religious work. The working man of East St. John is not troubled about theological distinctions, and perhaps is not very much concerned about the next world. He knows that in this world he would be improved by an occasional bath, an opportunity to enjoy a good entertainment, to play games or read a good book or magazine. There are some men, of course, to whom the at-

tractions of the saloon and gambling house appeal much more strongly; but it is desirable to provide other means of employing leisure time, for the sake of those who in its absence might be tempted to seek diversion in places where both their morals and their pocketbooks would suffer.

The somewhat surprising news came from Turkey yesterday that the Turks had won a decided victory over the Bulgarians, and occupied a number of important positions which the latter had held on the Tchatalja lines.

The action taken by the legislature last night makes the prospect for a better and more extended street railway service in St. John and its suburbs very bright. The city has waited long for the desired extensions and will heartily welcome the change.

Mr. J. K. Pinder was formerly called in derision by his opponents the "King of the Nachtwijk." It is quite evident that Mr. Pinder possesses some royal qualities. He has got another government guarantee for his railway, which is more than most members of the house get singly and alone.

Even the jail shares in the general prosperity. It has no less than eighty-four boarders, and would have more but that the magistrate is disposed because of its crowded condition to be lenient. And yet there are some people who think there is no need of a prison farm. Such an institution must be provided or the jail must be enlarged.

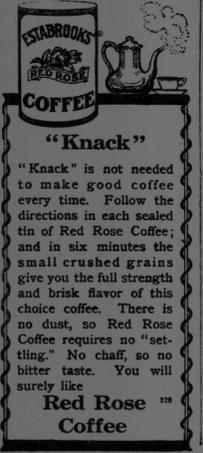

Quite a number of Conservative newspapers have lately been quoting the St. John Globe as a Liberal paper. The fact that the Globe is so eagerly quoted by such papers speaks for itself, without any reference at all to the powerful aid which it has lately been giving to Sir Wilfrid Laurier, Hon. Wm. Pugsley, Mr. F. B. Carvell, Hon. H. H. Emmerson and others in their struggle to uphold a true Canadian and Imperial policy with regard to the navy.

The Liberal party at Ottawa will steadily continue to resist the effort of the government to force the naval bill through parliament in its present form. The government will of course endeavor to carry its point because it is afraid to go to the country. Any attempt to introduce the bill, however, will be sternly resisted, for the Liberals are convinced that in this affair they are fighting the people's battle and have the support of the people.

The St. John Arboriculture Society did good work last year in setting out trees along some of the streets of the city, and would be able to do very much more if it received sufficient financial support. The fruits of its labors will not be clearly manifested for a number of years, but it is doing a most valuable work in its efforts to aid in beautifying the city. It should have not only the sympathy, but the hearty support of the citizens at large.

A very encouraging feature of the general situation in New Brunswick at the present time is the interest that is being manifested in proposals to establish new industries, not only in St. John, but in other parts of the province. There is talk of a great pulp and paper industry at Bathurst, and we should soon hear something definite about the proposed developments at Grand Falls. As a result of its publicity campaign Fredericton has received a number of enquiries from manufacturers, concerning the prospects for new industries in that city. The present year no doubt will bring to St. John some new industries of one kind and another, and the whole industrial outlook has undergone a remarkable change for the better within the last few years.

Bids were opened in Pittsburgh recently for the construction of \$10,000,000 belt line railway around the city's industrial district.

BIRTHDAYS OF NOTABILITIES

THURSDAY, MARCH TWENTYFIFTH.

The Hon. O. T. Daniels, member of the executive council of Nova Scotia since 1907, and now attorney general of the province, celebrates his fifty-third birthday today. He is a native of Annapolis County and is a barrister by profession. He was elected to the provincial legislature for Annapolis in 1906.

His Honor Alexander Dawson, judge of the eastern judicial district of Manitoba, is sixty-four today. He was born at St. Mary's, Ont., and was in early life a school teacher. He went to Manitoba in 1881 and was called to the bar the same year. For some years he was police magistrate of Winnipeg, and was elected to the bench in 1907.

Lord Somers, an English peer who recently took up his residence near Whitby, Ont., where he engages in farming, is twenty-six years of age today. He is a descendant of Charles Cocks, M. P., who was at one time Lord Chancellor of Great Britain and whose grandson became the first baron. The present Lord Somers succeeded to the title in 1899.

FRIDAY, MARCH TWENTY-FIRST.

Hon. A. E. McPhillip, prominent lawyer and public man of British Columbia, celebrates his fifty-second birthday today. Born in Ontario, he went to Manitoba early in life and took up the study of law, being called to the bar in 1882. In 1891 he went to Victoria. He sat in the legislature for one session during which he was attorney-general.

W. H. Rowley, president of the Canadian Manufacturers' Association, and president of the E. R. Eddy Company, Ottawa, was born in Vermont, N. E., on March 21, 1851. As a youth he entered the service of the Merchants' Bank and became manager of the Ottawa branch. He joined the Eddy Company in 1887 as secretary and treasurer and became president in 1900.

CAUTIONS

"Come right on in, Sambo," the farmer called out. "He won't hurt you. You know a barking dog never bites." "Sure, boss, ah knows dat," replied the cautious colored man. "but ah don't know how soon he's going to stop barking." —Success Magazine.

NO WALKING FOR HIM

"What walk in life has your son adopted?" "No walking at all; he's in the auto business." —Baltimore American.

SHE KNEW IT

One day a teacher was having a first grade class in physiology. She asked them if they knew that there was a burning fire in the head of every man. One little girl spoke up and said: "Yes, when it is a cold day I can see the smoke." —National Monthly.

Divides \$100,000 Among Employees

Hundreds of employees who have been long in the service of the McCall Company, which publishes McCall's Magazine, were surprised and delighted last week when they opened letters, each of which contained a check from James H. Orlitzky, who was president and chief owner of the business for more than nineteen years. In all Mr. Orlitzky divided a round \$100,000 among the 827 employees of the company, making the allotment to each in proportion to the total amount each has received from the company in his or her term of service.

Mr. Orlitzky sold the property in February and retired from its management. He desired to reward some of his loyal employees and adopted this method, at the same time extending to them his best wishes for their health and prosperity.

When Mr. Orlitzky purchased the business in 1894 the company had nine employees, of whom two, William Vander Clute, the assistant secretary, and Harry E. French, the superintendent, still remain. When he retired last month he left 827 employees, of whom 208 had been employed by the company three years or more and who received the larger proportion of his gifts. The factory workers received larger gifts in proportion to their salaries than did the members of the executive staff.

On account of the small amount of snow which has fallen this winter, the gun pickers in Maine expect this to be a banner year in their business. More than 10,000 pounds of spruce gum are harvested annually in Maine.

London, March 19—Sir George Paish, editor of the Statist, speaking on the condition of the European money market, said: "The continuance of the Balkan war, uncertainty of the real relations between the great powers and the decisions of the governments of both Germany and France to make great additions to their standing armies, as well as to spend huge sums on additional fortifications, are keeping the people of the continent in a state of anxiety which is reflected in the desire of nearly everyone to refrain from enlisting new capital and so inducing many, especially in France, Germany and Austria, to hoard large sums of cash."

The financial situation is thus affected first, by the difficulty of raising capital, and secondly, the denudation of banking reserves through the hoarding of cash, which makes banks inclined to lend for short periods except on high interest. Money probably will be in very strong demand until the end of March, but in April some relaxation may be shown. Everything depends on the international political situation. In my judgment the outstanding political problems are in the course of adjustment and no fresh complications need be feared."

Chicago, March 20—Fred Piepper, fifteen years old, of Strasburg, was found in a hospital here, the victim of a practical joke—a joke which might have cost the lives of twenty other pupils in the schoolroom with him had he not risked his life. Two of Piepper's school-mates brought a stray white poodle dog into the schoolroom as a joke. Piepper noticed that the dog was fawning at the pupils and he pushed back a little girl as she was about to pet the animal. While he was carrying the dog from the room it bit him on the neck. The next day the dog bit four pigs and a horse, all of which later died of rabies. The boy's parents became alarmed and after treating him with home remedies for several weeks, brought him to a specialist in Chicago. The case was too far developed and all that could be done was to relieve the suffering.

Amos A. Wilson has purchased from Maynes & Riley, Ltd., their property, including the corner mill, at 174, 175 and 181 St. John street. It is understood that the stock of the company is also being taken over by Mr. Wilson and that the business will be carried on as before, but on a more extensive scale. It has not yet been decided whether the same name will be continued. Local business men are associated with Mr. Wilson in the purchase. On March 16, Mrs. Wilson purchased from Fred Moloney a leasehold property in Chelmsley street.

New York, March 20—A London cable says: The Livingstone centenary was celebrated yesterday. At a memorial service in Westminster Abbey, the explorer's only surviving daughter, Mrs. Livingstone-Wilson, placed a floral wreath on his grave. The Archbishop of Canterbury in the evening presided at a celebration in Albert Hall. He said Livingstone made the very fibres of the nation tingle with his quiet heroism. Sir Henry Johnston said that when he thought of Livingstone's treatment, he sometimes felt ashamed to wear the medals of the order of St. Michael and St. George.

Premier Asquith in a letter referred to Livingstone as a man whose memory would never perish.

Truro, March 20—Reports in London concerning future industrial conditions there are largely confirmed by advice from St. John and Fredericton. This practically confirms the statement of a Londonderry man that the Drummond interests in this county are to be abandoned and the place turned into a scrap heap. The abandoning proposal of the Canada Iron Corporation is to be abandoned in favour of a more extensive one. The New Brunswick government has been brought about what promises now to be a catastrophe of considerable proportions.

WOMEN AS INVESTORS

It is a woman who is today considered one of the shrewdest investors in Wall Street. But few women have the native financial acumen of Mrs. Hetty Green. The average woman with surplus available for investment should first seek the experienced advice of a reliable banker. More women have lost their money through failure to do this than in any other way.

PROMINENT MOOSE HERE TOMORROW

Congressman Lentz to Visit St. John - Purchase of Trueman Property Confirmed With Enthusiasm

The purchase of the Trueman residence on Hazen street as a permanent home for the Royal Order of Moose, which was announced exclusively by the Times yesterday created general interest around the city, especially in view of an incorrect announcement made by another paper to the effect that the order had decided upon the purchase of another property. The action of the committee in closing for this property was confirmed with enthusiasm at a meeting of the order last evening and the work of remodeling the building to suit their purposes will be commenced promptly, as they have to vacate their present quarters by May 1.

At last evening's meeting Past Dictator W. Wigmore was appointed a delegate to a convention to be held in Cincinnati in July. H. J. Smith was created a past dictator in order to qualify as a delegate and was appointed substitute in case Mr. Wigmore finds it impossible to go.

Hon. John J. Lentz, a United States congressman and one of the most prominent members of the order, will arrive in the city tomorrow. It was the intention to have him address a public meeting, but as his engagements prevent him from doing so, a meeting could not be arranged on Good Friday, this plan had to be abandoned. A committee consisting of R. W. Wigmore, Blanchard Fowler and Percy Campbell, was appointed to meet Mr. Lentz and show him around the city. He will leave on the late train for Halifax and will address a meeting in Truro on Saturday evening.

The Moose organizers are at work in Moncton, and when the new lodge in that city is to be instituted, the local members of the order are planning to run an excursion, for members only, to assist in the ceremony.

The Order of Moose met last night and elected the following officers: J. A. Barry, dictator; H. J. Smith, vice dictator; R. W. Wigmore, past dictator; A. Thompson, prelate; A. W. Cover, secretary; Percy Campbell, treasurer; Frederick Fuller, junior guard; Robert Henderson, outer guard; J. L. McAvity, W. E. Munnally, J. C. Henderson, trustees.

The local membership is now 630 and there are 248 applicants.

LONDON NIGHT SCHOOLS ARE MINUS PUPILS

Popularity of the Movies Given as One of the Causes

Some 2,600 Classes Out of 13,000 Closed During the Last Session—British Employer Also is Held to be Blame

(Times Special Correspondence) London, March 19.—London's night schools, most of which are carried on by the municipality itself, are in a bad way for want of pupils, and the astonishing slump in evening instruction that has come to pass here, all in the last three years, is chiefly due to the counter attractions of the halls of cinema which have sprung up as thickly in London as they have in most other cities, big and little, the world over.

"These picture palaces," writes one of the principal contributors to this report, "have, for at least a time, taken hold of the imagination of the people, and both young and old apparently cannot resist the charm of the living canvas."

This is a mighty serious matter for England is falling behind in the race with the United States and Germany for trade supremacy, and will be nowhere if technical education is neglected by the rising generation. "No one, however," writes another commentator on the present situation with regard to evening instruction, "can read the education committee's report without being struck with the thought that the present generation is not making the sacrifice that is necessary if the industrial competition of the world is to be successfully met."

Whatever the cause may be, the practical failure of the night schools is a grim reality. There now are ninety-three fewer of them than there were in 1905, and during the last session, out of 13,000 classes opened, 2,600 had to be closed. Five hundred authorized classes were closed before the session was one month old, and between September, 1911, and Easter, 1912, no fewer than 100 classes in bookkeeping and 180 classes in shorthand had to be closed owing to low attendances.

However, if the cinema is mostly to blame for this sad state of things, it is not all to blame, the education authorities pointing out that a considerable number of students start missing the classes on account of their late business hours. The British employer is blameable, too, it seems, for according to the report, "it is unfortunately quite exceptional for the master to take an active interest in the evening education of his employees."

THE TWO DOLLAR BILL

Did You Ever Notice How People Have a Strange and Unexplainable Prejudice Against It?

Thousands of people have gritted their teeth or shaken their heads mournfully as they complained of \$2 bills. Tens of thousands have sworn vengeance upon the man who invented the pesky thing, but still the United States treasury goes on issuing them.

Push a \$2 bill across the counter at a customer and he usually shakes his head. Offer one to a conductor on a street car and he bites his tongue, and is not happy again until he passes it off on some unwary man. Accept one in a store and the clerk shaka you. Try to bet one at a race-track and the "booky" runs. Wherever and whenever the things go they are unwelcome.

Even beggars look uncertain when a \$2 bill is offered them. Some people simply will not take one, others want to fuss over them, others want to cry, but nobody was ever seen who really preferred one. If there can be such a thing as a money pest the \$2 bill is it.

Just why the \$2 bill is unpopular is shrouded in mystery, but there is a tradition that the aversion to the unwelcome things began among the members of the sporting fraternity, popularly known as bookmakers. According to this yarn, a man went broke at a race track many years ago, and had only a \$2 bill left. He had a "hunch" on a 100-to-1 shot in a race and raked to play it.

"Nothing less than \$5 bets taken here," said the bookmaker to whom he went. "But please take the \$2. I must get it down on this race." The 100-to-1 shot won and the bookmaker finally took the bet at the long odds. The 100-to-1 shot won and the better pulled in his pile of greenbacks. He was not satisfied, and on the next race chose another long shot, and put up all his winnings. Again his horse romped home ahead.

Time and again the better played and each time he won, until at last he left the race track carrying most of the money from all the bookmakers with him and leaving sadness in his wake. The news about the \$2 bill quickly spread, and from that time to this, so the story goes, bookmakers hate a \$2 bill like poison.

But outside of this hard-boiled story from the side of the bookmakers there are real reasons why nobody wants a \$2 bill. The two-cent pieces went out of fashion long ago simply because nobody wanted them.

Time and again people meaning to give \$1 bills, make a mistake and give a \$2 bill instead, if they happen to have one of the things in their pockets. Nobody seems to be able to remember that there are such things as \$2 bills until one has brought trouble of some kind.—Washington Post.

THE "ALL-NIGHTEST" TOWN IN THE WORLD—BERLIN!

(Times Special Correspondence) Berlin, March 1.—Paris is not the "all-nightest" town in the world. That honor has passed, in recent years, to Berlin. New York's boasted Broadway is still the quiet, farmland country road that it used to be 100 years ago, as compared with the play district of the German capital.

London's Piccadilly Circus is dead at midnight, and it is only at this hour that Berlin really begins to live. Berlin's night goes something like this: The hundreds of cafes begin to fill at 6 o'clock. There is music everywhere, the best music in the world. Even earlier in the day the parade of the street has begun, for Berlin is so far advanced in vice that it sins without a blush in the day light. The tide turns toward the theatres. There are two great circuses that run constantly and that outside the famous New York hippodrome in the expansiveness of their spectacles.

By midnight, the opera houses and the theatres being emptied, the pleasure seekers turn to the cafes with cabaret entertainments. These places are scattered throughout the city and are native to it. Some of them undoubtedly are places for family gatherings, but most of them are enclosures of vice, and the Germans have

NOT A VILLAGE IN ALL CANADA

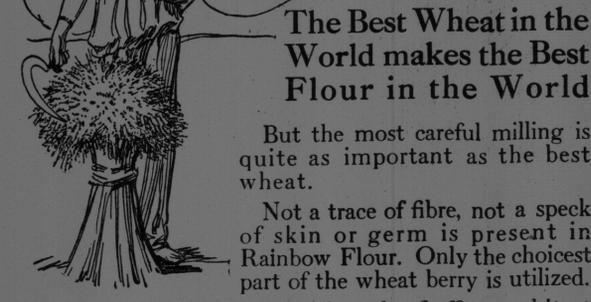

But Can Tell of Genuine Cures by Dodd's Kidney Pills

Dunnet, Ont., Man Tells How Quickly They Built Him up and Brought Him Back to Perfect Health.

Dunnet, Ont., March 19.—(Special)—That there is not a village or post office in Canada that cannot provide a genuine cure by Dodd's Kidney Pills has been shown again and again. In this little village many people bear grateful testimony to the wonderful curative powers of this simple remedy. Mr. Alex. Roy is one of these.

"I used Dodd's Kidney Pills for a running system," Mr. Roy states. "My head ached, my limbs were heavy, and my skin had a harsh dry feeling, and would itch and burn at night. Three boxes of Dodd's Kidney Pills cured me."

Dodd's Kidney Pills simply cure the kidneys. The work of the kidneys is to strain all the waste matter out of the blood. If the kidneys are out of order they fail to do their work, the waste matter remains in the blood, putrefies and causes serious diseases. The natural cure is to make the kidneys do their work. Dodd's Kidney Pills always do this.

You May Publish My Letter About "Fruit-a-lives"

Mr. Jones is proud to acknowledge the great debt of gratitude he owes "Fruit-a-lives." He is glad to have his letter published in order that other sufferers may be induced to try these wonderful tablets made of fruit juices.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for "Fruit-a-lives." I decided to give "Fruit-a-lives" a trial and they have now taken them for some time and find they are the only remedy that does me good. I have recommended "Fruit-a-lives" to a great many of my friends, and I cannot praise these fruit tablets too highly."

Hunts For Coal at St. Stephen. Eastport, March 20.—Dr. John Hunter of this city, whose ability to foretell the future has brought him more or less celebrity, has returned to St. Stephen to locate a supposed coal pocket on the premises of a well-known resident of that town.

Several years ago the doctor spent some months prospecting for a hidden treasure on a farm in Charlotte, near Kingston and after digging all over the orchard abandoned the search. Since then, the orchard has been producing quantities of fine apples each year, providing a fine income for the owner, so that the months of labor were productive of some returns, if the coal was not actually discovered.

GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR

Mixed With Sulphur it Makes Hair Soft, Beautiful, Cures Dandruff

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy, and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But the brewing at home is messy and out-of-date. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get a large bottle for about 30 cents. Some druggists make their own, which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

There are these and many other penalties, but Berlin pays for them with the same studied fervor that it wears when it sins and goes on in the old way. Those who call Paris or New York the modern Gomorrah, do not know about Berlin. The so-called abandon of New York is Puritanism compared with Berlin's sinning.

MINISTERS' NARROW ESCAPE. Amherst News.—Rev. L. A. Buckley had a narrow escape from drowning at Five Islands on Saturday while on his way from Farnborough by coach. A freak had caused the Harrington River to overflow its banks and block the road. While attempting to ford the stream the driver miscalculated the force of the current and horse and sleigh were swept into the torrent, throwing the men into the icy water.

After a long struggle among the cakes of ice they succeeded in reaching a point of land which saved them from being carried into the main river.

NEW TERMS FOR SUBURBAN BILL

Given Second Reading in Legislature Last Night

PROVISIONS AMENDED

House Gives Utilities Commission Power to Compel Extensions of Street Car Lines Under Certain Conditions—The Highway Act

Fredriksen, March 19—After considerable negotiation the Suburban Street Railway bill passed its second reading in the house tonight.

The report of the corporations committee recommended that the company should begin construction within six months, expend \$200,000 within eighteen months and build twenty miles of railway within three years.

An amendment to this, Mr. Tilley moved that the company should expend \$50,000 in actual construction before January 1, 1914; a further sum of \$60,000 by January 1, 1915, and a further sum of \$100,000 by January 1, 1916, also to arrange for electrical energy developed from some water power.

Mr. Tilley very briefly explained that this proposition afforded substantial evidence of the bona fides of the Suburban company. The development of the water power at Macquidville and Lepreau would cost \$600,000 and \$750,000 respectively.

In accepting the amendment, Premier Fleming thought the recommendation of the corporations committee was reasonable and was based upon the representations made by the promoters at the public hearing before the committee. Still he did not wish to see conditions imposed that were considered onerous and he advised the adoption of the amendment moved by Mr. Tilley.

The bill, as amended, permits the Suburban to start from Barhill's Corner, instead of at the Suspension bridge, and go to Loch Lomond as well as Rothesay and Westfield.

Permit is also given to construct a line to Millville, subject to the consent of the city of St. John and such conditions as they may impose and such compensation as may be arranged.

The amendment to the public utilities act is most important and makes it possible for a stated number of residents within an adjoining district to a street railway, to ask for an extension and if their petition is granted and the extension is made the company can be penalized \$20 per day, and if the extension is refused the company can be dissolved.

The house adjourned until 10 a. m. tomorrow for the third reading of bills and prorogation.

The house went into committee with Mr. Dickson (Albion) in the chair and took up consideration of the highway act.

Hon. Mr. Murray said that some amendments had been proposed to the bill, while a few minor changes were also proposed.

Mr. Baxter said that there were still special acts relating to rates and taxes in St. John county that it would be necessary to apply to this act as they had to precede ones. He moved to amend the bill to provide that the provisions of the special acts relating to the parishes of St. Charles, St. Martin, Lancaster and Musquash would apply to this bill.

The amendment was carried. On motion of Mr. Baxter, St. John, the bill was amended to provide that it should not apply to the parish of Lancaster.

Bills providing for the appointment of four geographers for the county committee respecting the Southampton railway and amending the liquor license act were agreed to. The house went into committee and agreed to the bill to incorporate Cedar Hill cemetery.

A bill was introduced by Premier Fleming to guarantee \$20,000 more of the Southampton Railway bonds, whereby J. K. Pinder, M. P. for York, scored one more. The first guarantee was for \$100,000, and he has built thirteen miles of railway which the C. P. R. has agreed to lease.

Section 7 was amended to provide that any municipality in the province may increase the rate of road tax for that municipality or any parish thereof.

Section 8 was amended to provide that road taxes shall be expended in the parishes in which they were collected.

Section 9 was amended to provide that resident ratepayers of any division may perform labor in lieu of money payment of road taxes, at the following rates: For one man, twelve and one-half cents per hour; for a double team with a competent teamster and proper and necessary implements, twenty-two and one-half cents per hour.

The bill was agreed to as amended. Hon. Mr. Grimmer introduced a bill to amend the liquor license act and explained the provision for the destroying of liquor which had been seized when illegally shipped into a prohibited district.

The house went into committee with Mr. Stewart (Gloucester) in the chair, and considered the bill to incorporate the St. John Suburban Railway Company.

Section 20 of the bill was amended to provide that the capital stock of the company might be increased from time to time as required by the company and subject to approval of the lieutenant-governor-in-council, and the provisions and requirements of the New Brunswick Joint Stock Companies act, and any regulations thereunder.

Section 3, providing that the joint stock and property of the company shall be alone responsible for its debts and engagements, was stricken out.

Section 12 was amended to provide that amounts borrowed by the company should not exceed at any time seventy-five per cent. of the authorized capital stock.

Section 13 was amended to provide that the company should also have power to construct their lines to Loch Lomond, in the county of St. John, and that streets, roads, highways and bridges to be used should be agreed upon between the councils of the respective parishes, with the wardens of the county and the company.

Section 17 was amended to provide that the company should maintain and keep in good order that portion of the streets or highways used for track, between the rails and to a distance twenty-four inches outside the rails.

Section 21 was amended to provide that any disobedience to the regulations providing for the removal of ice and snow on streets or highways along the line of railway that the company shall be liable on summary conviction of a penalty of \$20 for each day that they fail to comply with the regulation.

The committee then considered the bill to enable the St. John Railway Company to extend its railway into Kings county.

CREDIT FACILITIES FOR FARMERS

The question of providing better credit facilities for farmers has become pressing in the United States and much public interest has been aroused in it. In March 1912, President Taft directed the department of state to instruct the diplomatic officers abroad to report upon the agricultural credit systems in those European countries where such systems are in operation. The reports were sent to Myron T. Herrick, the United States ambassador at Paris, who was instructed to prepare a general report.

Mr. Herrick presented a preliminary report to President Taft, who, upon receipt of it, invited the governors of the various states of the union to confer with him on the subject at the annual congress of the December issue of the Monthly Bulletin of Economic and Social Intelligence, published by the International Institute of Agriculture.

In his letter President Taft stated that a study of the reports furnished by the diplomatic officers and of Mr. Herrick's recommendations had convinced him of the adaptability to American conditions of the Raiffeisen system of co-operative credit. He suggested also the establishment of mortgage banks under state charters and the formation of co-operative mortgage-bond societies on the lines of the German system.

The need for the establishment of an adequate financial system as an aid to the farmers of the United States was now quite generally recognized. The interest in a later step he favored the enactment by congress of laws permitting the organization of national land-mortgage banks to be operated under strict government supervision, with the power to guarantee and market the guaranteed mortgage bonds of the state land-mortgage banks or co-operative societies.

On motion of Mr. Baxter, St. John, the bill was amended to provide that it should not apply to the parish of Lancaster.

Bills providing for the appointment of four geographers for the county committee respecting the Southampton railway and amending the liquor license act were agreed to. The house went into committee and agreed to the bill to incorporate Cedar Hill cemetery.

A bill was introduced by Premier Fleming to guarantee \$20,000 more of the Southampton Railway bonds, whereby J. K. Pinder, M. P. for York, scored one more. The first guarantee was for \$100,000, and he has built thirteen miles of railway which the C. P. R. has agreed to lease.

Section 7 was amended to provide that any municipality in the province may increase the rate of road tax for that municipality or any parish thereof.

Section 8 was amended to provide that road taxes shall be expended in the parishes in which they were collected.

Section 9 was amended to provide that resident ratepayers of any division may perform labor in lieu of money payment of road taxes, at the following rates: For one man, twelve and one-half cents per hour; for a double team with a competent teamster and proper and necessary implements, twenty-two and one-half cents per hour.

The bill was agreed to as amended. Hon. Mr. Grimmer introduced a bill to amend the liquor license act and explained the provision for the destroying of liquor which had been seized when illegally shipped into a prohibited district.

The house went into committee with Mr. Stewart (Gloucester) in the chair, and considered the bill to incorporate the St. John Suburban Railway Company.

Section 20 of the bill was amended to provide that the capital stock of the company might be increased from time to time as required by the company and subject to approval of the lieutenant-governor-in-council, and the provisions and requirements of the New Brunswick Joint Stock Companies act, and any regulations thereunder.

Section 3, providing that the joint stock and property of the company shall be alone responsible for its debts and engagements, was stricken out.

Section 12 was amended to provide that amounts borrowed by the company should not exceed at any time seventy-five per cent. of the authorized capital stock.

Section 13 was amended to provide that the company should also have power to construct their lines to Loch Lomond, in the county of St. John, and that streets, roads, highways and bridges to be used should be agreed upon between the councils of the respective parishes, with the wardens of the county and the company.

NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH

Men and women—do you want a splendid head of luxuriant hair free from scalp itch and dandruff? Do you want hair so bewitchingly radiant that it compels the admiration of all who see it? Do you want a scalp as immaculately clean and bright as a newly-minted coin? Do you want to use a hair-dressing that will surely prevent baldness, that always refreshes and invigorates and makes your entire head feel fine? Then spend 50 cents this very day and get a bottle of PARISIAN Sage at any drug store or toilet goods counter. Use it as directed and you will never care to use ordinary tonics again.

CENTURY OLD FIRE ENGINE FALLS TO SAVE ENGLISH VILLAGE FROM SERIOUS LOSS

(Times' Special Correspondence) London, March 8.—At various London music halls Alfred Tester, who was the original melancholy jockey in "The Arcadians," has been making audience screams of late, with an original sketch called, "The Village Fire-Engine." Needless to say the brigade therein depicted—consisting of Lester and another man—is highly inefficient, but what makes audience laugh hardest is the fire-engine around which most of the action centers, an antiquated contraption whose workings the two members of the brigade understand only dimly and in the inner parts of which hell are kept.

NO SALTS AND PILLS, "CASCARETS"

If Constipated, Bilious, Headachy, Stomach Sour, Get a 10 Cent Box of Cascarets—Take One Tonight

You men and women who can't get relief from that "stomach" which has headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a wide, watery, diarrhoeal stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important. Cascarets work while you sleep; cleanse and regulate the stomach, remove food and feces; take the excess bile from the liver and carry off the poisons of the constipated waste matter and poison in the intestines and bowels.

A Cascarets tablet will straighten you out by morning—10-cent box from any drug store will keep your stomach sweet, liver and bowels regular and head clear for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

TWO ITALIANS KILLED IN VALLEY RAILWAY WORK

Woodstock, N. B., March 19.—A horrible fatality happened this afternoon, about six miles from town, on the works of Scott & Kelly, contractors on the Valley Railway. Two Italians, Angelo Spagetti and Romolo Romano, were engaged in blowing with dynamite the frozen mud in a cut, when a terrific explosion occurred and the two unfortunate men were literally blown to pieces, portions of their bodies being found 200 yards from the scene of the accident. The heads of both men were blown off and frightfully mangled.

LECTURES LAST EVENING

Rev. J. B. Cropper, for sixteen years missionary in British Guiana, lectured in St. Andrew's Presbyterian church last evening on the work and conditions in the country. Mr. L. M. Curran sang My Redeemer and My Lord, and the choir of the church led in the opening and closing hymns.

After the lecture, which was greatly enjoyed, a vote of thanks was extended to Mr. Cropper by Rev. Dr. MacVicar, who acted as chairman.

Rev. J. H. A. Anderson read the last lecture in the Bible series in St. John's Presbyterian church last evening. His subject was the Coming City, and the speaker dealt with city problems and pointed out the necessity for town planning. The lecture was finely illustrated and was greatly enjoyed.

CANT GET WORK BECAUSE THEY LIVE IN PERIWINKLE STREET

(Times' Special Correspondence) London, March 5.—If you should set out to look for Periwinkle street when next you are in London, it is not likely that you will find it; not under that name, anyhow, for the denizens of Periwinkle street, which is a dingy little thoroughfare in the grubby East End district of Stepney, are bent on getting its appellation changed, for the reason that it implies continuous ridicule, and also has serious economic results.

It appears that, all because of the name of their thoroughfare, the bread-winners of the Periwinkle street find it difficult to get new jobs should they happen to lose that it implies continuous ridicule, and also has serious economic results.

Now, a "periwinkle" as the term is used in these islands, is a small, edible shellfish highly popular at the seaside where it rivals the succulent whelk in favor with the masses.

Periwinkle street, Stepney, has been Periwinkle street for seventy years or so, why, goodness knows—and nobody ever complained actively until the other day when a respectable Periwinkle—a tank maker—wishing to better himself, applied for a more ample job in the reservoir line.

His references were good, and he was on the point of being engaged when the foreman happened to ask the simple and natural question, "Where do you live?"

"Periwinkle street, sir," replied the tank-maker, blinking.

Instantly the foreman became profane and ejected the maker of tanks with violence, informing him that he had come to the wrong place for "larking."

"The other day I half-murdered a man who said he came from Winkle street," he remarked savagely. "And now it is Periwinkle street! There ain't no such place."

The ill-used fabricator of tanks and reservoirs tramped moodily home and told of his experience to the street. It was then discovered that other Periwinklers had undergone similar slighting experiences and not only they but their tender offspring on the way to school and homebound had been sneered at and "boomed"—most rudely—with such remarks as "Yah, Periwinkle street! Go back to your shell," and "Lead us your winkle-pin."

All agreed that this was carrying the thing too far, hence the petition to the municipal big-wigs of Stepney.

The solitary individual in Periwinkle street who declined to sign the petition is an old man, once a pedagogue, but now retired, who is steeped in the works of Shakespeare. Therein he finds his excuse, and it is a right good one, for resting what he calls the "proposed vandalism" of changing Periwinkle's name. It is obvious, of course, that Juliet's famous query: "What's in a name?" does not apply in this case but this elderly scholar declares, and more eminent men uphold him, that "periwinkle" originally was a flower and that no other than the one mentioned in "A Midsummer Night's Dream" it was accidentally shot by Cupid's arrow, you may remember, which

"Tell upon a little western flower—Before, milk-white, now purple with love's wound—"

And maidens call it love-in-idleness." That is the real periwinkle. And now it seems likely that all the poetry the periwinkle ever possessed will be wiped out and the street renamed. Ratcliffe Cross street, "Shame!" cries the old pedagogue.

It was engaged as a blacksmith by the Bruce Stewart Co. of Charlottetown, and sometimes every stroke of the hammer would cause the finger to bleed freely. I tried various ointments and salves, and then went to several doctors in and around Charlottetown.

"One medical man, after treating me for some time and he did not think I could ever be cured. Another put my finger in some fluid, which seemed to burn it terribly, and then put 'a straight jacket'—as I called it—on the finger for two days. Trying one thing and another I spent over \$50.00, and all in vain.

"I saw an account of some of the great cures which Zam-Buk has worked and decided to try it. The first box did me a lot of good, and the finger showed traces of healing, so I kept up the Zam-Buk treatment, and a few boxes worked a cure. There has been no return of any trace of the disease, so I know the cure is permanent, and I am so thankful for my cure that you are at liberty to use these facts as you like."

Apply a Blue-jay plaster and the pain will end at once. In two days take the plaster. The corn will be loosened. Simply lift it out. There'll be no pain or soreness.

You will never feel that corn again. Others may come if you still pluck your feet. But that corn is ended forever.

You can prove this with one plaster, in two days.

A in the picture is the soft B & W wax. It loosens the corn. B stops the pain and keeps the wax spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

A Constant Change In Body's Tissues

"Our bodies," says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing." The tissues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease.

In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesium, potash, etc., and when these are not supplied in sufficient quantities the body is weakened and liable to aid nature by the use of some restorative preparation.

Most people find Dr. Chase's Nerve Food particularly effective under such circumstances, because it is composed of the very elements of nature which go to form new, rich blood, create new nerve cells and rebuild wasted tissues.

This great food cure is radically different from medicines which are usually employed in the treatment of nervous diseases. For, while they stimulate tired nerves to overexcitement or by narcotic influence soothe and deaden them, Dr. Chase's Nerve Food revitalizes wasted nerve cells and so accomplishes lasting beneficial results.

Such symptoms as sleeplessness, irritability, indigestion, migration, brain and feelings of fatigue and discouragement soon disappear when the system is built up by use of

Had a Dry, Tickling Sensation In Her Throat.

DOUGHED ALMOST ALL NIGHT.

A bad cough, accompanied by that distressing, tickling sensation in the throat, is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the healing virtues of the Norway Pine tree, and for this reason it will quickly soothe the dry, tickling throat which swells at night.

Miss Margaret MacDonald, Port Hood, N.S., writes:—Just a few lines to let you know that Dr. Wood's Norway Pine Syrup did for me. I took a severe cold, coughed almost all night, with that dry, tickling sensation in my throat. The first bottle did me so much good, I thought I would try a second one, which I am pleased to say resulted in a complete cure. I can strongly recommend it to any one suffering from a cough or any throat irritation.

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, 3 pine trees the trade mark; price, 25c and 50c.

THE LAST STRONGHOLD OF THE GHOP

Noble Old London Restaurant Which Declines to Give Way To The Stock Exchange Rush—Still is as in Dickens' Day

(London Daily News.) An American doctor who has been investigating diet in New York has discovered that the richest men have the lightest luncheons. He found that in all the great financial houses the only man who has a generous meal is the doorkeeper.

It is a brave sight. The chairman chats to his neighbors, and smiles at the whole room. He curves as well, gravely and with the hand of a master. And when the cheese is done he rages again on the table, and stands up and says: "Grace, gentlemen, please!"

So that the old city luncheon hour is not quite dead yet. These brave old places still survive, and people from all over the world come to do them homage.

DISCLOSURES MADE BY A SOCIETY FORTUNE TELLER

(Caswell's Saturday Journal.) The assurance that, without training or experience, a man could secure a wide reputation as a fortune-teller within a few months, and justify it, may seem incredible to those who do not know how little is needed of the professor, and how much he is unconsciously helped by his dupes.

Service Means Success

You can't question that Marshall Field & Co. are the largest retailers of dry goods in the world. You might question how their enormous business was obtained. Was it obtained by selling merchandise cheap?

No! Thousands of Field's competitors sell merchandise cheap. Was it obtained by selling merchandise at a low price?

No! You won't have to walk far to a shop where merchandise can be depended upon. Was it because they were always reliable?

No! There's an army of reliable merchants. Was it because every transaction must be satisfactory to the customer?

Again, no. Field has many competitors doing the identical thing. Was it because their store was better located, more elegantly furnished? Not on your life.

Field never had a monopoly on this. Was it on account of service? What's that? Service. Say it again. Service, that's it—service. Field built his business by service, and service for Field spelled S.U.O.-E-S-S.

If service meant the combination of dependability, reliability, and right prices, it also included promptness, courtesy, a beautiful store, and that the customers were always right—"not he." The same thing applies to the Neel method of treating the drink habit. In the success of our nine institutes due to the fact that we are the only institution of its kind that treats the drink habit?

Diseases of the nervous system are very common. All the organs of the body may be sound while the nerve centres may be affected.

Many women become run down and worn out by household cares and duties, the never ending, and sooner or later find themselves with shattered nerves and weak hearts.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, do not wait until your case becomes hopeless.

Get a remedy which will quiet the nerves, strengthen the heart, and build up the whole system.

Mrs. E. Beers, Upper Main River, N.B., writes:—I have taken Milburn's Heart and Nerve Pills for over three months. I was so nervous I was unable to do anything. I was completely cured me.

OWLING

On Black's Alley. In the City Bowling League on Black's Alley last night the Insurance team defeated the Wanderers, 3 to 1. Total pins were 1220 to 1228. Chase had the best game for the winners, 84.13, while union of the losers had 87.23. Tonight's game—National vs. Market.

ASKETBALL

To Play Off. In the Y. M. C. A. Basketball League it is night the Crescents beat the Red, 23 to 16. The Crescents are now the Tigers for first place and a play-off will be necessary. The deciding game is set for next Wednesday night.

HE TURF

Fredericton Plans. If the plans of the Celestial City Driving Club are carried out, says the Gleaser, there will be a number of matinee races during the coming season. The team which will make the trip will be the strongest ever sent from the maritime provinces. The team will be picked from the following: Goal, Morrison; point, Allan Wilson; cover point, Rex Murphy; centre, Lester Gregory; left wing, Jack Murphy; right wing, Neil Wilkie; spares—Thurston Cook, Jack Trivette and Lester Lowther.

Quebecers in West.

Brandon, Man., March 20.—The Quebec horsemanship of Canada, arrived here yesterday afternoon and had

will be opened at Alan, Idaho, 26 miles east of Spokane, on April 19 for a sixty-one day meet. The announcement is made by Frank W. Smith of Spokane, secretary of the Coeur d'Alene Fair and Racing association, who says: "We have stables at Alan for 900 horses, and will have between 500 and 600 animals at the meet. The Idaho law forbidding betting becomes effective June 20, so we will close June 29. Owners will start shipping from Juarez March 25 and we will get some big strings from the Mexican track. Already there are three strings at Alan, and more are expected daily. More than 100 horses now quartered at Vancouver and Victoria. B. C. will be shipped here in a few days. I anticipate the most successful race meet in the history of the west. We will have some of the biggest owners in the country with us."

FOOTBALL

Local Match Tomorrow. An interesting football match will be played on the Barrack Square on Good Friday between the St. John team and the Caldonians. The latter are a new team just formed by the young Scotch and Englishmen of St. John. Play will commence at 11 o'clock in the morning.

ROCKEY

Cubs to Boston. The New Glasgow Cubs were to leave for Boston this morning to play the Toronto Tecumsehs, on next Saturday and Monday evenings. The team which will make the trip will be the strongest ever sent from the maritime provinces. The team will be picked from the following: Goal, Morrison; point, Allan Wilson; cover point, Rex Murphy; centre, Lester Gregory; left wing, Jack Murphy; right wing, Neil Wilkie; spares—Thurston Cook, Jack Trivette and Lester Lowther.

Frenchmen Are Beginning to Kick on Proposed Mixed Match

By TOM ANDREWS

Even though Jack Johnson is well enough and can get away from Chicago in time for his proposed match with Al Palmer in Paris there is considerable doubt about it taking place. From information at hand from the other side there is strong opposition beginning to appear in the French capital against the bout. The following letter was received from a well known sporting authority of London a few days ago:

"Probably it will interest you to know that Al Palmer, who is here with his manager, Tom O'Rourke, of New York, visited Paris yesterday and conferred with M. Vinme of the big boxing club there regarding the proposed bout with Johnson. Copies of the contract have been mailed to Chicago for the colored man's signature, but I fail to see how the match will come off if the colored man is still held by the law and is also ill, as reported here. Even if Johnson does come there is no certainty that the match with Palmer will take place. Just now there is no apparent objection to the match, that is between a black and white man, but from what I have learned the past few days there are influential people in Paris who have taken the matter in hand and who say they will take a stand against it should the promoters really try to go through with it. The bout will have to be very widely advertised to be a success and that will draw lots of opposition to it. It was through the same extensive advertising that the proposed Wells-Johnson fight here two years ago was stopped. I am inclined to think that the match will never come off in Paris, and I feel sorry for O'Rourke, who has gone to considerable expense in coming over to get it fixed up and who appears to be a fine fellow. Should he fail there he will no doubt have a chance to match Palmer up with some of the British or French heavy weights."

It is evident from the above that the French people are not so easy when it comes to boxing affairs as they were a few years ago. They are learning all the tricks of the trade rapidly and they realize now that a match that will attract so much attention as the one proposed may not do the game any good. The chances are that if Sam Langford was substituted for Johnson against Palmer it could go through without a hitch and it would also prove one of the best cards that could be offered in the pay city. Langford is a big favorite over there, the Frenchmen having appreciated his work against Sam McVea when they fought two years ago. And by the way it would be some scrap, too, between the "Tar Baby" and Big Al.

a workout last night. Though bitterly cold, the crowd was the largest this year. After a late start, six a side was played. Hal led one side in which was Mummy, Moran and Malone, while on the other side were Craghton, Crawford and others. The Hall side losing by a small margin in the long score.

AQUATIC

Canadian Henley. The executive of the Canadian Association of Amateur Oarsmen have decided on Friday and Saturday, August 1 and 2, for the annual Canadian Henley regatta at St. Catharines.

Coronation Cup.

Halifax and Sydney yachtsmen are building new yachts to race for the Coronation cup this year, and the rivalry is keen. The race will be held at Baddeck in July.

The Lipton Challenge.

Belfast, Ireland, March 20.—The Royal Ulster Yacht Club today called to the New York Yacht Club asking for a reconsideration of the refusal of Sir Thomas Lipton's challenge for the America's cup.

ATHLETIC

Con Walsh Makes Record. Con Walsh established a world's record at an indoor track and field meeting in Seattle on Saturday in throwing the 35-pound weight 19 feet 6 1/2 inches high. Six men measured the distance with a steel tape to insure its acceptance as a world's record.

THE RING

Regina Allows Bout. Regina, Sask., March 20.—The Regina police commission has decided to permit boxing contests provided they do not degenerate into prize fights. Discretionary powers were placed in the hands of the chief of police.

Canadian Championships.

Toronto, March 20.—Because of inability to get dates at the arena earlier, the annual boxing championships of the Amateur Athletic Union of Canada, will be held here on April 22 and 23, and entries will close with Secretary Crow on April 15.

Comes To Battle Smith.

London, March 10.—Herbert Synnot, Irish Australian heavyweight, who fought a fifteen round draw with Joe Jeunette and later was defeated by Sam McVea, will sail for America on Saturday to seek a bout with "Gambler" Smith, who knocked out the English champion, Wells in New York last week.

Attell Knocked Out Kirk.

New York, March 19.—Abe Attell, former featherweight champion, knocked out Ollie Kirk, of St. Louis, in the third round of a scheduled ten round bout here tonight. Anderson and Brown Matched Again. Los Angeles, Cal., March 19.—Bud Anderson and Knockout Brown, who fought 20 slashing rounds to a draw at Vernon last Saturday, reached an agreement today for a return match. It will be fought either on the afternoon of April 12 or the night of April 15.

American Beat Frenchman.

Paris, March 19.—Willie Thomas, the American middleweight pugilist, won the decision on points tonight from the French middleweight, Marcel Moreau. The American throughout showed the better form. Many fashionable women and prominent actresses were at the ring-side.

Ring Notes.

Bambardier Wells has sailed home to England from New York. The home of "Big" Fitzsimmons, ex-champion prize fighter, at Dumellen, N. J., was robbed of \$1,000 worth of silverware some time within the last few days while the family was away.

Showing how popular Lethbridge McLeary is in New York, Gambler Smith was introduced at the Fairmont A. C. as "heavyweight champion of the world."

Felix, a Welsh English lightweight champion of the world, is to sail for New York on Saturday. He is bringing along a heavyweight who weighs 200 pounds, stands six feet, and is fast.

BASEBALL

New York, March 19.—College baseball, already started with some minor games, will get into full swing in the south before the week is up. Princeton's team, the first of the big college teams to get into action this year opened its season today with the North Carolina university team at Raleigh. Other games for the day included "openers" for Lafayette and Georgetown and Holy Cross and Virginia.

Tomorrow will be Pennsylvania state with North Carolina. Yale will begin its season on Friday with Washington and Lee. The first game in the north will be played on Saturday when the College of the City of New York will start at Fordham. On the same day the Maryland state and Pennsylvania will open their seasons at Annapolis. Harvard will be the last of the big colleges to get into action opening with the Boston American league nine in Boston on April 8.

Phillies Purchase Capron.

Philadelphia, March 19.—The Phillies yesterday purchased the release of Capron, an outfielder, from Pittsburgh. He will report immediately.

White Capron has been on the reserve list of the Pittsburgh club during the last two years, he played last year with the St. Paul team of the American Association. He batted .528 and batted .376 in eighty-eight games.

Hale to the West.

Fredericton last season, has, according to Sporting News, St. Louis, signed with the Victoria, B. C., club of the Northwestern League and will spend the season on the Pacific Coast.

After last season Hale left for the Canadian west, intent upon going into the real estate business in Winnipeg. One of his best performances was in the deciding game with the Houston Reds which clinched the championship for Fredericton.

Wood Injures Bateman.

Hot Springs, Ark., March 19.—Bob Byrne, third baseman for the Pittsburg Nationals, was struck on the head by a ball pitched by "Smoky" Joe Wood today, knocked unconscious and tonight his condition is regarded as serious. Physicians state it may be several days before they can determine whether he will play ball again. Byrne was at bat in the second exhibition game between Pittsburg and the world's champions when he was hit.

Boston won the game, 7 to 2. Pittsburg won the first game of the series. Seven more games will be played.

Pirates' Last Holdout Signs.

Hot Springs, Ark., March 19.—Third baseman, Bobby Byrne, Pittsburg's last holdout has signed his contract with President Dreyfus. Byrne says he is satisfied with the size of his stipend which, it is generally understood, will contain the figures he sought, providing he accomplishes certain things during the championship season.

Marquard on the Way.

Rube Marquard, of the pitching staff of the New York Nationals, left Los Angeles yesterday to join the team in Houston, Texas. He is accompanied by his wife.

Redness of The Nose

This affliction is often a cause of great worry to both men and women. Such of the former as coachmen and bus drivers, who are exposed to all kinds of weather, are often troubled with this skin affection.

It is generally put down to drinking too much wine, spirits, or beer, but there are many people with a red nose who are total abstemious. In the case of women it is generally brought on by indigestion, through not taking sufficient care of what they eat, and when they eat. Students who bend a great deal over their books, and girls whose occupations keep them very much indoors, which debilitates them often suffer from this complaint. Sometimes this comes on as a temporary flushing after meals, in another stage red streaks are seen on the cheeks and nose, which mark dilated blood vessels, and occasionally red pimples appear; later on the nose swells and little nodules or small lumps rise on the skin.

It is necessary to be extremely careful in regulating the diet and taking no indigestible foods. Stimulants of all kinds must be avoided, and even tea and coffee unless very weak and tepid should not be indulged in, as they cause flushing just as wine and spirits, although in a less degree. It is a bad plan to read over meals, or to do any kind of work which necessitates stooping immediately after. Imperfect circulation is often accompanied with a red nose, so that physical exercises taken as soon as rising will be beneficial, at the same time, outdoor exercises should not be neglected. All underclothing should be of wool, sometimes a salamine lotion will be found to reduce the redness, but it is bet-

ter not to use any external application without consulting a doctor. Condiments must not be taken, especially pepper and mustard, as they alone will bring about redness of the nose.—A Physician.

A NEW RECORD. The receipts from the amateur entertainment given this week in the Opera House in aid of the orphans have set a new standard for St. John, the grand total to be given to the Sisters of Charity having reached the little one, being \$1,022.25. This is regarded as an excellent achievement, and the members of the Y. M. S. of St. Joseph who gave the performance are congratulated upon their success, for the net proceeds are the largest from any amateur production in this city.

WAS KNOCKED DOWN. Last night about nine o'clock, a horse and carriage driven by a young man and woman, ran into and knocked down an old man near the corner of Union and Broad streets. The driver did not stop to ascertain if the man was hurt but continued on his way, remarking that the man who was struck should have kept out of the road. The old man was picked up by a bystander and although he was not seriously injured, he was painfully bruised about the arm and shoulder. The driver's name could not be learned at the time, but it is said that he is known by some of the people who witnessed his action.

THE LATE H. A. PHILLIPS. News of the death of Hugh Alexander Phillips, which was received yesterday from Dorchester, Mass., and published in the Times last evening, was received by his many friends here with deep regret, for he was well liked by all who knew him. Sympathy was expressed for his wife, who was formerly Miss Annie Toomey, of West St. John, as well as for the members of his family of nine children, of whom two sons, Vincent and Joseph, and Miss Kathryn are very well remembered by old friends in North End. For many years Mr. Phillips and his brother, John, conducted a retail shoe store in Main street, but removed to Boston about eight years ago, where they were very successful. Mr. Phillips had not been very long sick, and news of his death came as a surprise to friends here. Mrs. James Phillips of Main street received a telegram early this morning telling of his death. Burial will take place in Dorchester from St. Peter's church.

SEEK ENLARGED POWERS. Cannon Brothers, Ltd., of Black's Harbor, are planning for supplementary terms patents to extend the powers of the company. The powers asked for are numerous and varied and may indicate that the company is preparing to enter several new lines of business. They ask permission to operate a general lumbering and saw-mill business in all its branches; to own and operate water powers, wharves, steamships and other vessels; etc.; to carry on theatrical and moving picture businesses and operate dance halls and other amusement features; to engage in a general ranching business; to raise furs and other fur-bearing animals; to deal in furs, pelts and hides; to acquire patents and rights; to carry on general farming and agricultural business; to carry on cold storage and general business and to carry on any other business, manufacturing or otherwise, which may be convenient or carried on by the company in connection with the objects and purposes thereof.

WILL RELEASE YOUTH; FUNDS NEEDED TO SEND HIM TO MOTHER IN STATES. Magistrate Ritchie received a wire this morning from the minister of justice to release a young Russian lad named Kraska, who was sent to jail about three months ago for stealing some clothing from one of the schoolmen that was in port at the time. Speaking to the Times this morning, the magistrate said that the young fellow's mother was in New York and was unaware of her son being in jail and the boy desired to go to his mother as soon as he was allowed his liberty, but he did not know where he could secure the necessary money to pay for his trip. His Honor said that they had a fund for such purposes as these at the central station but at present there was not enough on hand to buy the boy a ticket and he thought it would be a worthy object for some of the business men of the city to contribute. The magistrate intends, however, to call on some of the individual countrymen first and endeavor to obtain the necessary capital to start the young fellow on his way.

COMPLICATIONS OVER AMNESTY BILL. Havana, March 20.—Serious complications apparently have arisen as negotiations for the submission to arbitration of the claims presented by the ministers of Great Britain, Germany and France for damages on behalf of their respective people in the revolution of 1895-98, aggregating \$2,000,000.

W. B. WALLACE IS GRAND MASTER

St. John Man Head of Orange Order in Province

AN ALL NIGHT SESSION

Neil J. Morrison Fifteen Years Secretary and H. G. Wadman of Moncton Eleven Years Treasurer—H. Sellen One of The Auditors

W. B. Wallace, of St. John is grand master of the Orange Order in New Brunswick. A special despatch to the Times from Chatham says: The seventeenth annual meeting of the Provincial Grand Lodge of New Brunswick I. O. O. A. came to an end on Thursday morning at six o'clock after an all night session to finish up the last item of business. The most important part of this session was the election of officers for the ensuing term and this resulted as follows: Grand master, Dr. Wm. B. Wallace, St. John; Deputy grand master, Hon. J. H. McManis, Grand director of ceremonies, J. W. Clark, Moncton; Grand lecturer, E. H. Clarkson, Stanley; Grand director of finances, J. W. Clark, Moncton; Grand auditor, Harry Sellen, St. John; Grand secretary, S. W. Smith, Mount Pleasant; Grand treasurer, Rev. R. H. Corcoran, Westmorland county; Grand chaplain, Rev. F. C. Simpson, Douglstown; Grand treasurer, H. G. Wadman, Moncton; Grand secretary, Neil J. Morrison, St. John; Assistant secretary, S. W. Smith, Mount Pleasant; Grand lecturer, E. H. Clarkson, Stanley; Grand director of finances, J. W. Clark, Moncton; Grand auditor, Harry Sellen, St. John; Grand secretary, S. W. Smith, Mount Pleasant; Deputy grand chaplain, Rev. C. S. Sterling, of McAdam, Rev. R. H. Corcoran, of Westmorland, Rev. J. G. A. Byles of Douglstown, Rev. B. H. Penwarden of Milltown and Rev. E. H. Corcoran of Westmorland county.

It is noteworthy that the grand treasurer was first elected to that office eleven years ago when the grand lodge was meeting in Chatham and he has filled the position with great acceptance ever since. The grand secretary of committees were first finished and then began the election of officers with the results given.

At twelve o'clock supper was served in the banquet hall of the lodge rooms and about 150 sat down to table. The session was then resumed and the incoming officers were installed by Past Grand Master Colonel A. J. Armstrong, assisted by Grand Director of Ceremonies, J. W. Clark. Short addresses were given by the new grand master, the deputy grand master and the chaplain after which the grand lodge closed to meet again next year in Andover.

Among the grants decided upon was one of \$100 towards the A. W. MacKae monument in St. John. An entertainer whose powers were much appreciated at the banquet was Barry Allan of Fredericton who delighted those present with a recitation and monologues. The convention was one of the largest ever held in the history of the order and a point of unanimity and progress was one of the most successful that the members ever attended.

PATRONAGE COMMITTEE AGAIN IS UNDER FIRE

Dennis Connolly, caretaker of Partridge Island Fog Alarm, Made to Give Way to J. A. Day

Dennis Connolly has been removed from the position as caretaker of the Partridge Island fog alarm station and J. A. Day appointed in his place. Mr. Connolly was temporarily appointed some three months ago, and has given every satisfaction to everybody except Mr. Day and the patronage committee. All those who are qualified to speak say that the station was never kept in better order or the lights in better condition.

It is contended by those responsible for the removal of Mr. Connolly that he was not a certificated engineer, but to this it is replied that like the vast majority of men in charge of some other government stations and that therefore an exception should not be made in the case of Mr. Connolly. His friends are naturally indignant at the treatment he has received.

He will take charge of the southern coast district which covers the region west of the summit of the Cascades and from the International boundary to the north end of the E. & N. railway lands east of the island divide.

G. H. Prince, of the U. N. B. class of 1912, forestry, has been appointed assistant forester in the Cranbrook district, under Mr. Gilmore, a Toronto graduate. The official headquarters is at Cranbrook, B. C.

PULP MILL AT BEAR RIVER

W. G. Clarke, of Bear River, informs the Halifax Chronicle that a powerful group of local and outside capitalists are interested in a project to establish a big sulphite pulp mill at Bear River, and have practically decided to embark in the enterprise of generating 4,000 horse power at that place. There is a good water power, and it is adjacent to great quantities of raw material for pulp mills.

Should an Early Easter Cost the Boy a Suit?

It seems hardly fair, does it? Yet there are a great many boys in town who will appear in old clothes Sunday—and not because their parents cannot afford to get them new suits. But father and mother have been so absorbed in getting their own spring outfits and Easter came so quickly that they overlooked the smaller members of the family. There is still plenty of time to get the boy's suit—in the Oak Hall Boys' Clothing store.

- BOYS' SPRING SUITS, many styles, \$3.00 to \$13.00. BOYS' SPRING TOP COATS AND REEFERS, 2.70 to 6.50.

When it Comes to Buying Spring Clothes, Mr. Man

the great point to remember is that you cannot get the most value for your money unless you buy them at Oak Hall.

All the quality, all the style, all the good features, and more, too, that you can get in any clothes you will get in Oak Hall clothes, and you will get them for one-fourth and more in less than you'd have to pay elsewhere.

When you buy of Oak Hall you buy directly of the makers and you save the middleman's profit. That's the reason.

- SUITS, \$6.00 to \$30.00. OVERCOATS, 10.00 to 30.00.
