Body of Michael Collins Rests in Glasnevin

Sorrowing Throng in Dublin Cathedral and Many a Pitying Eye on Kitty Kiernan, Sweetheart of Slain Leader.

Dublin, Aug. 28—Michael Collins was laid to rest today in Glasnevin, after a demonstration of national grief such as has been seldom seen in the long duration of Ireland's troubled history.

Arthur Griffith was buried with all the honor due a great leader; Collins went to the grave amid the tears of a nation that worshipped him personally as a gallant patriot, in whom were combined all these traits which Irishmen hold dear.

Good humor, the power of oratory and a laughing disregard for death—all were his, and while immense throngs filled the great cathedral and lined the road to Glasnevin, congregations gathered in every city, town and hamlet throughout Ireland to mourn his passing.

It was a military funeral. Fellow-officers last night bore the body into the cathedral, just as Collins a short fortnight ago helped bear the body of his colleague, Griffith. They were there this morning when solemn requiem high mass was celebrated before a multitude which overflowed the edifice into the streets.

Sister Mary Celestine came from her convent in England to pray for her "baby brother." Beside her knelt Sean Collins, the general's brother. But it was upon the trembling young woman nearby that the eyes of all fell most pityingly—Kitty Kiernan.

Outside, lining the miles of Dublin streets through which the funeral cortege later passed, thousands took part spiritually in the solemn mass of requiem, many kneeling in prayer on the pavement at the moment of the elevation of the Sacred Host.

After absolution, the body was borne from the church in a state-of-the-art carriage, and as it passed along the route to Glasnevin many knelt in prayer. The crowd packed every street along the way, people filled every window.

The body was buried in the plot of ground reserved for those who have fallen in the cause of the Irish Republic in the existing war of rebellion.

REBELS ATTACK BRITISH PARTY

Queenstown, Aug. 28—A party of seven British soldiers under Captain Kennedy, from Bere Island, in Bantry Bay, landed on Friday from a launch at Castletown to draw pay for the week.

They had proceeded only a short distance when they fell into an ambush of rebels.

Fierce fighting ensued and all the ambushing party were either killed or wounded. Captain Kennedy and most of the members of his party also were wounded, some of them seriously. The object of the attack is believed to have been robbery.

Fighting at Blarney.

Dublin, Aug. 28—Intense fighting has taken place in the Blarney district, following upon both sides attacks against the national's positions in two hotels in the village and the famous Blarney Castle grounds.

The national's suffered minor casualties. Since Thursday the rebels are reported to have lost twelve killed and many wounded in reported attacks in this area.

VOTE AGAINST PROHIBITION

Referendum in Sweden Made Day of Great Excitement Throughout Country.

Stockholm, Aug. 28—Incomplete returns in the referendum on the question of prohibition indicate a strong tendency against prohibition. In the ballot thus far reported 188,000 voted and 120,000 for such a measure.

It was a day of great excitement throughout Sweden. In all the big cities, the squares were crowded by thousands of people awaiting the results. Street car traffic was suspended owing to the congestion in the streets.

Stockholm, Aug. 28—The "dry" have lost the day in the Swedish prohibition plebiscite, according to the latest provisional returns available. The figures received this morning are 772,747 for and 646,538 against.

WELCOME HEAD OF THE SHRINERS

James S. McCandless, Imperial Potentate of the Mystic Shrine of America, arrived in the city on the Montreal train this afternoon. He was met by members of Luxor Temple of which he is a guest, and driven to the Victoria Hotel. A procession of automobiles was headed by six mounted members of the Arab Legion. At 2 o'clock the imperial potentate was driven to the Union Club where luncheon was served. Despite inclement weather plans were made to take the distinguished guest on an automobile drive to Gondola Point and other places of interest.

ALL WORKING WELL

The road engineer, G. G. Hatfield, and Clifford Price, superintendent of streets, made a tour of the city this morning and found that all catch basins were functioning properly in spite of the heavy strain being put on them by the rain storm.

Turks Launch Attack On Greeks in Asia Minor

Offensive Begun by Effort to Break Through Front—Repulsed, Says Smyrna Report.

Athens, Aug. 28—The expected offensive by the Turkish Nationalists against the Greek forces in Asia Minor appears to have begun, although the extent of the operations is not yet known here.

The Kemalists hurled several divisions against Afium Karahi-Shar yesterday in an attempt to break through the Greek front, but an official statement received from Smyrna says they were repulsed.

Information from both foreign and Greek sources indicates that the condition of the Greek army is excellent.

Much Damage To Roads and Bridges; Crops Suffer Also

Chief Highway Trouble on Secondary Roads, According to Early Reports at Fredericton—Seven Inches of Rain in Two Days.

Fredericton, N. B., Aug. 28—Reports of extensive damage to roads and bridges in New Brunswick as a result of the storm during the week end are coming in to the provincial public works department offices here today.

Burton M. Hill, chief highway engineer, said at noon that reports received up to that time did not indicate that the damage was so great as in the previous July, but no different territory had been affected. This storm sweeping over the southern counties especially, while the sun's rays damaged territory north of Woodstock.

"Reports of washouts which have been received so far," said Mr. Hill, "have been confined to the secondary roads, where there are still the old wooden culverts. Some of these had been partially filled up with leaves and dirt and where they have also been in a state of decay the force of the water has been more than they could withstand. Preliminary reports do not indicate that the damage will be so heavy as in June, when the damage amounted to approximately 200,000 but it is not too early to make an accurate estimate."

Mr. Hill said that the damage in Kings county appeared to be heavier than elsewhere. There smaller culverts had been carried out and one span of twenty feet had been carried completely away by the great rush of water.

The rain has also nullified the effect of a great deal of patrol work done upon the trunk roads throughout the province, and central portions of the province, the highways being flooded in many places.

The extent of damage to the crops will depend largely upon how long the rain keeps up, it was said at the provincial department of agriculture. In the southern part of the province the rain has meant another setback for the farmers who have still a young crop of their hay crop to harvest. In the central counties many fields of oats have been flattened. Continued rain, which would make it impossible to carry on spraying, would, it was said today, result in heavy losses to potato growers as well as to other crops.

Other crops, it was said, would also be damaged by the rain, but it was said it was yet too early to report from the department's representatives in the various districts.

The Fredericton section of the province escaped the torrential rains but had a heavy rain in the last three days, about three inches since Saturday morning. On Sunday night 1.88 inches fell.

Telephone reports from Van Buren, Maine, are that there had been no rain there for a week up to this morning. With no rain up river the level of the St. John will not be greatly affected. The department of Lands and Mines has been informed that there had been rain at Campbellton and other northern points but not so heavy as in the south.

That there are no indications of better weather was the discouraging report given out this afternoon from the Meteorological Observatory. Up to noon today a total of seven inches of rain had fallen since Saturday morning at four o'clock. This is considered the heaviest on record in such a short space of time.

The result of the torrential downpour has caused havoc in low areas, especially in the country, while in the city proper many cellars are flooded. Perhaps the heaviest sufferers are farmers in the country, who report that potato crops, as well as their grain, are practically ruined. The oat crop was one of the heaviest in recent years, and the rain has beaten the majority of it flat, and it is feared that in many cases the entire crop will be ruined.

Reports from the sections near the city are that roads were in some places submerged this morning, and in general conditions were very bad.

So far as could be learned this morning there was no damage around the waterfront as there was little wind with the storm. Fog has prevailed in the harbor and bay for the last three days. The steamer Hallgard, which grounded while entering in the fog on Saturday, was reported by the United Kingdom on Saturday night. The Governor Dingeldey made her way out on Saturday night. There was also one or two coastwise boats and sailings this morning. The other steamers in the harbor have been held up both by rain and fog, the rain preventing them from loading sugar for the last three days. It is indefinite when they will be able to get away. Several schooners are ready to sail with lumber for United States ports, but they are held up by the weather also.

At Musquash the down pour gave a great reserve of water to the dam and the power house.

The situation with regard to the highway from St. George is rather bad and it is reported that the road is covered with mud and is very high tide. The mud is very bad and a good many cars have been held up on account of the danger attending travel along this route. The detour from Musquash to Lepreau was by Dipper Harbor and Mac's Bay, as the main road along the coast was washed out in one place near Brasco's farm and travel was held up. Some reports from residents along the river are that the water is nearly three feet higher than normal.

In Nova Scotia.

Halifax, N. S., Aug. 28—Heavy rain fell over Nova Scotia yesterday. A fall of one and a half inches was recorded here. Considerable crop damage was reported in the vicinity of Truro and highway damage was reported at other places.

BURN PROPERTY; TRY TO GET NEGRO

Trouble at Wichita Falls, Texas, Follows Attack on Young White Girl.

Wichita Falls, Texas, Aug. 28—A restaurant used by negroes was burned, an attempt was made to burn the negro Baptist church, and 600 men late last night surrounded the combination city hall and jail at Electric, near here, where John Love, 25, negro, is held in connection with an attack on a young girl. Fifteen deputy sheriffs guarded the jail.

NO HOME WORK

Brockville Pupils in Lower Grades to be Freed From It.

Brockville, Ont., Aug. 28—A move for the abolition of "home work" in the public schools on the grounds that in some instances it is oppressive and detrimental to the health of pupils, is being made by the board of education, which has decided upon a trial of a system whereby all pupils below the entrance grade will not be required to do "home work."

WHOSE LETTER?

A letter has been received at city hall, postmarked St. George and addressed to Mrs. Bessie Blakey, care the mayor of St. John. On the back is a notation that "if not called for in ten days, return to James Garnett, postmaster."

CONTEST OVER NORTHCLIFFE WILL, DISPOSING OF VAST ESTATE

London, Aug. 28—Doctors, probably will have the last word in the approaching legal contest over the huge estate left by Viscount Northcliffe, according to the Daily Express.

The executors of the first will, dated March 22, 1919, contend that the second will, made just before the publisher's death and witnessed by the attending physicians, was drawn up while he was not in his normal mind. The doctors and mental specialists are expected, therefore, to decide the issue.

Being a four prominent British doctors, a celebrated U. S. physician summoned from New York, was also at the death bed, and is expected to testify.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbush, in my somewhat chequered and foolish career there are some high spots which I survey with a small degree of relish. There was the Sunday when I got on a nice new suit and went out in the sun and leaped up against a tree that had a contract to exude balsam by the gallon. Then there was the time when I made some curious observations about a bull, not knowing that he was within easy reach, had to face it out, but I lost about six pounds while he was squaring me, and I lost about six pounds while he was squaring me. There was also the time by the gate in the evening shadows when a coy maiden said she never kissed the boys—and she didn't. But I guess all this won't interest you."

"Me," said Hiram. "You better not get me started on my experiences. Hiram catches me laughing sometimes when I think of the foolish tricks I used to do, but I guess I got bumped for being too smart—but I wouldn't dare tell her. Well, I guess we got the concert party we were to give for the benefit of the St. John, under which the company may continue to operate."

TO STAVE OFF THE COLLAPSE OF AUSTRIA

Chancellor Has Announcement of Foreign Minister of Italy.

Vienna, Aug. 28—A brief statement was issued today by Dr. Seipel, Austrian chancellor, on his return from Verona, Italy, where he conferred with Signor Schusner, Italian foreign minister.

The statement concluded with an announcement that Dr. Seipel is in a position to make concrete proposals to the government which will preclude the immediate collapse of Austria, which has been held up by the nature of the proposals.

It is believed that the proposals are either based on some form of agreement with Italy, or on another attempt to demoralize the crisis through the League of Nations.

ROBBERS IN MONTREAL GET \$4,000 AND AUTO

Burglars Hold Up J. B. Lefebvre, Chain Store Man, and Get Big Haul.

Montreal, Aug. 28—Attacked by three held up men, opposite his home, 1817 St. Hubert street, yesterday, J. B. Lefebvre, owner of a shoe factory and a chain of stores in the city, was robbed of more than \$4,000 in cash, proceeds of Saturday night sales in his stores. The burglars then jumped into Lefebvre's automobile and made off before help could be obtained.

SPION ISLAND CASE

Robert Crawford, provincial constable, will leave this evening for Gagetown to prosecute a case against two brothers named Thompson, who are held in custody on suspicion of cutting a cable, destroying a gasoline engine and blowing up a boiler at the Mooney quarry at Spoons Island, yesterday.

The defendants were arrested by Constable Crawford recently after he had investigated the case.

AGED 126?

John Drysdale, Dead in Ontario, Said to Have Been Born in 1796.

Clarkburg, W. Va., Aug. 28—John Drysdale, a farmer, said to be 126 years of age, died at his home near Craigsville, according to a dispatch received here yesterday. Drysdale was born in Scotland and a family record gives 1796 as the year of his birth.

GENERAL VAN DEVENTOR DEAD

He was Second in Command to Smuts in the South African War.

Johannesburg, Union of South Africa, Aug. 28—Lt. Gen. Sir Louis Jacob Van Deventor, commander-in-chief in East Africa, 1917-19, died suddenly yesterday.

Gen. Van Deventor served in the South African war as second in command to Gen. Smuts, 1899-1902.

FROM BOSTON.

A report was received here from C. N. R. officials here today that there are 111 passengers coming to St. John on the Governor Dingley tomorrow en route for Toronto and that it was deemed wise to wait until Wednesday.

MINE AFIRE; SEVENTY-FIVE MEN TRAPPED IN PIT

San Francisco, Aug. 28—Seventy-five men are entombed in the Argonaut Mine, Amador county, as a result of fire which broke out at midnight, according to a report from the superintendent of the mine. A rescue crew early today tried to effect a rescue of the men held in the mine below the 3,000 foot mark.

Another Impossible Offer Comes From The Power Company

Bodell Would Now Have Joint Committee Take Up Matter of Rates—Further Effort to Delay City Work—Discussion on Question at City Hall on Wednesday.

The hydro question at city hall took another turn this morning with the arrival of a new offer from J. J. Bodell, one of the men who has secured options on the common stock of the New Brunswick Power Company, and the decision of the council to discuss the proposed contract for the Musquash energy with members of the New Brunswick Electric Power Commission and the city solicitor.

The new offer of Mr. Bodell is contained in a letter which reads as follows:—

To His Worship H. R. McLellan, Mayor, St. John, N. B.

Dear Sir,—I am advised that the plan and proposal which I have submitted to you for the acquisition of the N. B. Power Co. by the City of St. John has been rejected by a vote of the city commissioners, which action I take as a rejection by the city of the plan as submitted.

I offer for your consideration the following proposal:

That a committee of three be appointed, one by the city and one by the company, and a third to be appointed by the distribution of the Musquash power through the agency of the New Brunswick Power Co. or through the joint use of the steam plant of the N. B. Power Co. and the Musquash water power.

If the appointment of such a committee is acceptable to you, we, on our part, will agree to nominate immediately a man to represent the New Brunswick Power Co. on this committee, and our representative will be instructed to make every reasonable effort to agree on a schedule of rates satisfactory to all concerned. If this committee is willing to inaugurate and maintain such a schedule of rates for a sufficient time to give the power company a fair opportunity to demonstrate to you that we are willing to undertake the purchase of the common stock which we have under option, elect a new board of directors and operate the property under the management of Messrs. Sanderson and Porter.

It should be understood that in order for us to spend any additional money upon the property unless the arrangement as suggested is for a sufficiently long period so as to insure the success of the operation to the city and to ourselves.

Your very truly,

J. J. BODELL.

"There is the letter," said the mayor. "What do you want to do with it?"

Commissioner Frink said that he could not see how, after the action of the people last April, proposals of this kind could be entertained. He said he voted for civic distribution against his own judgment.

"It is not in my will," he concluded, "it is the will of the people!"

LOCK PARIS UP A DAY BY STRIKE

Demonstration Scheduled for Tomorrow by Two Communist Organizations.

Paris, Aug. 28—While the strike situation seems to be clamming down at Havre, the agitation is gaining in Paris, and the Unitary General Labor Federation and the extremists' union unions of the Seine department, both communist organizations, have voted a twenty four hour general strike. The demonstration is scheduled to begin tomorrow and appeals have been sent to the syndicalist organizations through France co-operate. It is regarded as likely that the Conservative-Labor organizations also will decide to share in the manifestation.

The policies yesterday were ordered to arrest Gaston Monmousseau, one of the secretaries of the Unitary Labor Federation, but found he had disappeared.

PICNIC POSTPONED

The Rotary Club picnic for the south and east end boys' clubs was today postponed until Wednesday afternoon, to leave King street east at half-past ten that day. The grounds at Torrey were burned and it was deemed wise to wait until Wednesday.

MAINTENANCE MEN'S DEMANDS

Spokesman Presents Them, Backed by Strike Vote

More Coal Mines at Work Today—The Outlook in Cape Breton—Massachusetts Mills Open Doors to Employes.

(Canadian Press)

Chicago, Aug. 28—Railway maintenance of way employes comprising approximately 400,000 track workers and crossing flagmen, whose threatened strike with the shopcrafts last month was held in abeyance pending new wage hearings, placed their demands for increased pay before the United States railroad labor board here today. Of the 202 class one railroads, 108 were parties to the dispute.

The maintenance men based their claims for higher wages on increased cost of living. E. F. Greble, president of the trackmen, said the twenty-three to thirty-five cents an hour scale provided by the rail board's July 1 decision was "less than a living wage."

Mr. Greble is entering the hearing today was armed with a strike vote which his organization approved as the shopcrafts walked out.

A Tie-Up.

St. Louis, Aug. 28—Passenger and freight services on the Western Division of the Chicago and Alton railroad was at a complete standstill today as the result of the walkout of engineers, firemen, conductors and switchmen in protest against armed guards at Slater, Mo., and Hoochville, Ill., it was announced here today.

To Dig Coal.

Pittsburg, Aug. 28—District headquarters of the N. M. W. announced last night that mines employing 6,700 men have signed the Cleveland agreement setting the last 48 hours and will resume work today.

Approximately 80 per cent of the 45,000 miners who struck on April 1, in the Western Pennsylvania field have officially been authorized to return to work, the announcement adds.

In Cape Breton.

Sydney, N. S., Aug. 28—When the miners of Nova Scotia go to the polls on Thursday, they will not only decide the fate of the new wage agreement, but will also elect a vice-president and two tellers for District 26, U. M. W. At the general election on August 16, Alex C. McIntyre, New Aberdeen, was high man but did not secure a majority of all votes cast, this under U. M. W. rules making a by-election imperative. The same thing occurred in the election of two tellers. There was a large field of candidates, and a scattered vote. President Livingstone has issued orders to hold the referendum and by-election simultaneously.

Alex S. McIntyre will run against Kent Foster of Springhill for the vice-president. Joseph B. Moss, Springhill; John D. Gillis, New Waterford; J. D. MacKinnon, Caledonia; and James McPherson, New Waterford, are the candidates for tellers. Moss and Gillis were the high men at the general election.

The strike situation remains unchanged today. It is the general opinion here that the Sydney Mines and Florence miners will vote solidly for acceptance of the proposed wage agreement offered as a result of the Sydney conference which was announced on Saturday morning.

Mills Resuming.

Lawrence, Mass., Aug. 28—The Monomack, Katama and Acadia Mills opened their gates to employes today on a schedule which restored the mills in effect before the twenty per cent reduction which resulted in the textile strike in this city last March. All three, which are controlled by the same interests, have maintained operations throughout the strike with greatly reduced forces. The three mills normally employ about 2,000.

One man was arrested on a charge of intimidating in a slight disturbance near the Pacific mills this morning. These mills have announced restoration of the old wage scale on October 2, retroactive to September 1, and the United Textile Workers have voted to have their members return to work there on Sept. 1.

GIANTS SEVEN GAMES IN LEAD

Chicago 'Takes Saint Louis' Place Next in Line—Races Postponed.

New York, Aug. 28—Taking their third straight game from the Cardinals at St. Louis, the Giants lengthened their lead in the pennant race to seven games, while St. Louis dropped to third position, being replaced as runner-up by Chicago, who won from the Phillies, 5 to 1.

Cincinnati took both ends of a double-header from Boston and moved into the first division, Pittsburgh being idle, dropped to fifth place.

In the American League, Washington, though outbid by Detroit, won 7 to 2. The New York Americans and the Browns were prevented from playing by rain. They will if the weather permits, play off the game today, but rain early this morning made the prospect doubtful.

Renwick, Mass., Aug. 28—The Grand Circuit races scheduled for today were postponed until tomorrow because of rain. The racetrack will run four days.

BASEBALL FOLK
ARE IN HARD LUCK

Fredericton and Auburn
Teams Both in St. John
Awaiting Pleasure of the
Weather Man.

So far as the local baseball arrange-
ments are concerned it is evident that
fans are being treated unkindly by the
weather man. One of the best pro-
grammes of the year was arranged for
this week, but from present indications
the rain will disrupt the series. Tonight
and tomorrow night St. Peter's were
booked to play Fredericton here, but
conditions for this evening are unfavor-
able. The Fredericton players are in
the city at the Clifton House. Fans are
hoping that conditions will be more favor-
able for tomorrow night, as they are
anxiously awaiting a meeting between
the fast Capital team and the local
champions.

Berlin, Aug. 28—A sharp outlook is
being kept along the Saxon frontiers in
an effort to prevent the province from
being "sold out" to foreigners, the gov-
ernment of Saxony having adopted string-
ent measures designed to check whole-
sale exports which have been prevalent
recently. The steps are aimed chiefly at
Czech traders who are taking advantage
of the latest increase in the value of the
crown. In the Zittau district roads lead-
ing to the border have been barricaded
with wire and all vehicles are being
closely searched.

Planning Brighter
Winter Surroundings

There must have been a fair migration of
new love birds this spring to nests in the coun-
try, judging from the number who come here
for ideas in fixing up a flat for the Autumn on-
ward.

Wherever we can help, but the stock is
there to speak for itself; its wealth of fresh
suggestion, its wider range of choice and the
cunning little ways presented for saving money,
for making a little show up and act up to a
reputation for quality.

As usual here, when the question of price
crops up, it is found down.

ANGER AROUSED
BY COLLINS' DEATH

People Threaten to Take the
Law Into Their Own Hands
—Army of Irregulars Dis-
persed.

(Special Cable to the New York Times
and Montreal Gazette.)

Dublin, Aug. 26.—The death of
General Michael Collins has aroused
the nation to fierce anger and pressure
is already being brought upon the gov-
ernment to adopt severe repressive mea-
sures against those who brought about
his death. Anxious as the ministers are
to continue the dead commander's policy
of clemency they may soon be compelled
to give way to the great tide of public
indignation. When the irregulars killed
Michael Collins they killed a man who
had done more than anyone else to save
them from themselves. It was he who
had insisted on dealing with them
leniently, so that when the victory for
which he fought was won, there should
be left behind no seeds of bitterness.
Now the people have seen the fruits of
this policy and they are insisting that
no longer should the captured irregulars
be allowed that immunity from punish-
ment they have hitherto enjoyed.
The people are already threatening to
take the law into their own hands and
from Cork there is a report that an in-
furiated crowd have attempted to storm
the goal with the object of lynching Re-
publican prisoners. No continuation of
the report can be obtained and it is re-
garded as probably untrue, but the
rapid manner in which it has spread
shows in what direction the people's
thoughts are turning.

What the irregulars could once boast
was their army in the field has been dis-
persed. Their forces consist of but
scattered bands who prey upon the coun-
tryside and descend upon outnumbered
isolated forces of the National troops to
kill and run. On all sides the demand
is being voiced that those of them who
are caught should not be accorded the
privileges of prisoners of war, but that
the irregulars everywhere should be
rounded up and dealt with severely for
taking up arms against the people and
the Government.

A general officer, holding an important
state appointment with whom I dis-
cussed the matter today, told me that
General Mulcahy, who has been appoint-
ed to be the new commander-in-chief,
still holds the same views as did Michael
Collins, and that he is in favor of con-
tinuing despite all provocation, the policy
of clemency. It will, however, be a mat-
ter for the Government to decide and
public pressure is becoming so strong,
he said, that more severe measures may
have to be adopted. The people are de-
manding that those who are found in
unauthorized possession of firearms and
are known to be taking part in what
amounts to a campaign of murder should
be dealt with under the civil law.

It is certain that the death of Michael
Collins will result in a vigorous round
up of the irregulars.

WHERE JEWELRY
IS PLENTIFUL
Rio Beats the World in That
Line—Centennial Exhi-
bition Opens Sept. 7.

Rio de Janeiro, Aug. 26.—There are
probably more jewelry stores in Rio
than any other class of business except
coffee houses, meat shops and grocery
stores. This is accounted for by the
fact that almost every known variety of
precious and semi-precious stone is
found in Brazil. More jewelry is worn
in Rio than in any city of its size in the
world. Diamonds at the present rate of
exchange can be purchased from a half
to a third of what the same quality sells
for per carat in the United States.
Furniture is of local manufacture, of
excellent wood, and cheaper. Meat is
cheaper, but fruit, vegetables and cloth-

The Sete de Setembro Hotel is another
modern hostelry to open on Sept. 1. It
was built by Dr. Carlos Sampaio, the
Mayor of Rio, and is located on the
Botafogo Bay section of the Avenida
Beira Mar, about one mile beyond the
Hotel Gloria. It will have 200 rooms.
Still another hotel, the Atlantica, of
about 600 rooms, is under construction
on the famed Atlantic avenue on Cop-
acabana Beach.

All hotels and boarding houses are
run on the American plan. The service
includes coffee and rolls for breakfast,
served in the guest's bedroom, and
luncheon and dinner, which are served
in the dining room from 11 a. m. to 1
p. m. and from 6 p. m. to 8 p. m., re-
spectively.
Living expenses including tips and
laundry, will run \$4 per day and up
per person in hotels and somewhat less
in boarding houses at the present rates
and rate of exchange. The rate of ex-
change at the present time is perhaps
more favorable to the American tourist
than it will be later on, when hotel rates

**COLLINS' ENVOY
HAS FAITH IN
THE LEADERS**

Prof. Smiddy Says the Free State Will Go Forward—Declares National Army Will Not Resort to Reprisals.

(New York Evening Post)
Although Ireland has lost a fearless and dauntless leader, whose death will be a great sorrow to the people, it is not fair to call the Free State leaderless, as the loss of Michael Collins will serve to make Irish leaders organize more efficiently and fight with more determination for the liberties of Ireland under the treaty, according to Timothy A. Smiddy, professor of economics in the National University of Ireland at Cork. Since last March Dr. Smiddy has been ambassador of Michael Collins in the United States.

"The loss to the people of Ireland of Michael Collins will be very, very great," indeed, said Dr. Smiddy today at the Hotel Plaza. "He was a man who gave great confidence, a man of inspiration. He thought that we had the substance of real liberty in this treaty, and that

what Ireland wants will come by the natural processes of evolution under the treaty. He fought for the treaty because he believed that it was for the liberty of Ireland.

"He never had any bitterness towards his enemies, however, and was trying always to reconcile his opponents. He was an absolutely dauntless and fearless man. In fact, it was due to his extraordinary physical courage that he met his death."

With eyes glowing at the memory of the lost leader, Dr. Smiddy described how Michael Collins carried his personal bravery into his civilian as well as his military duties.

"While we were in London his energy amazed all of us," said Dr. Smiddy. "In all the nine weeks that the conference lasted Collins never took but one evening off for recreation. He had a grasp of detail that was amazing. He regarded

The little things are of equal importance with the big things and realized the great importance of having every detail perfectly attended to.

He was a deeply religious man, and no matter how late he had sat up working the night before he was always at 8 o'clock mass in the morning. He was a man of deep affection, always intensely interested in his followers. If anything happened to any one of the party, or if any one was ill, he never failed to make individual inquiry for them and to take personal interest in their wellbeing.

"More than this," said Prof. Smiddy, "he was not only a competent statesman, but if he had lived I believe he would have also ranked as an international statesman. He had a dream that at some future day, when Ireland should have secured peace and freedom, Ireland and America might form the nucleus of a real league of nations, with the moral influence that is required to establish world peace. That was his dream, that was what he was working towards."

Despite the loss of Collins, Dr. Smiddy said, Ireland will rise to the occasion and organize effectively to fight for the principles for which he fought.

"It is not right to say that Ireland is leaderless," said Dr. Smiddy. "Those who are left will organize themselves more efficiently to secure their liberties under the treaty. His death will stimulate the leaders to imitate him and collectively make up for the loss sustained by his assassination."

The alternative to the treaty is having the British troops back again in Ireland. It was to avoid that that Collins fought so strenuously for the treaty. Ireland will rise to the occasion and things will be all right."

There will be no reprisals for Collins' death," Prof. Smiddy said. "Whatever happens, the National Army will stick to the methods that are considered right for the army. They will not resort to reprisals. But in the end they will stamp out insurrection and there will be peace."

Should Richard Mulcahy, Chief of Staff of the National Army, come to the fore as leader of Ireland, Dr. Smiddy said that Ireland would have a man "with a long view, unemotional, a very clear thinker." He could not, he said, predict who would take the foremost place in the present crisis.

YOUNG WOMAN ENDS HER LIFE

Word was received here yesterday that Miss Bessie Lewis, employed by Manager Stephens of the Bear River-St. John freight steamer Bear River, had committed suicide by drowning some time during Friday night or early Saturday morning. Her body was found on the Bensons marsh near Bear River on Saturday. The body had been cut and bruised from contact with the rocks. Miss Lewis had been a resident of Bear River for several years and was about twenty-seven years old. On Friday night she asked Mr. Stephens what time the tide was high. He told her and thought nothing more of it. But in the morning it was found that her bed had not been slept in and her question of the night before was at once thought of. A party started to search and found the body about half a mile below the Bear River bridge.

An inquest was held before Coroner Lovitt and a verdict in accordance with the facts returned.

RECENT DEATHS

Mrs. Richard Beamish.
The death of Mrs. J. widow of Richard Beamish, occurred on Saturday at the St. John Infirmary, after a short illness and will be heard of with regret by many friends. Her husband died about three years ago and was a well-known resident of the city. Mrs. Beamish is survived by one sister, Mrs. John McManus of this city.

REPOSITORY FOR HISTORICAL DATA

(Moncton Transcript Report.)
Dr. J. C. Webster, Sheliac, in beginning his address at the recent Grand Pre celebration was accorded an ovation. He said that they were gathered to commemorate a solemn occasion. Some of the English speaking people, he said, had made remarks that the Grand Pre Memorial church emphasized a vindictive spirit of the Acadians. He could not agree with such statements and in the opposite would always be in favor of the French evidencing loyalty to their ancestors. To Rev. A. D. Cormier, Sheliac, who took a prominent part in the movement, he paid a tribute and further honored him. Referring to the expulsion of the Acadians in 1758, Dr. Webster described it as a political crime. A scientific man, he said, must always judge of facts with an unprejudiced mind. The removal of the Acadians from Grand Pre was the result of a custom and prejudice of the New England states might be responsible in a measure as they had condoned the removal of the Acadians. He said to be held by some as responsible after the fact. As for Governor Lawrence he had no word of condemnation, as he had to act on orders wherever they came from.

France even, he said, did not protest about the removal of the Acadians, but the Twelfth Century was different from what it was today, and he was of the

firm opinion that the vindictive spirit of the French and the English people was disappearing and even in 1760 when Canada was conquered by the English forces no vindictive spirit was shown to the French inhabitants and there was no tyranny evidenced. In 1776 record showed, he said, that when the English interests were being jeopardized a French battalion answered the call. Old enemies were fast disappearing. He had been in Trafalgar Square, London, some time ago and there he observed that a monument was to be erected to the memory of George Washington, a one held responsible for much of the trouble which led to the separation of United States from the British kingdom. Brook Watson, said Dr. Webster, had in his later years paid a tribute to the French Acadians and his eulogy was the best literature he had ever read. He claimed that the French and the English must understand one another. They must, he said, learn to tolerate the faults of one another. If Canada didn't have toleration it would have civil war, but he knew the answer would be "toleration."

The Grand Pre memorial church he described should be a place in which a postitory be located in which to store historical data of the French Acadians. To provide that repository or aid in its provision he offered \$500.

Dr. D. V. Landry, chairman, in reply expressed the sincere thanks of the French Acadians to Dr. Webster for his kind offer. Not only did he appreciate that frame of mind of the speaker, he said, but French Acadians of the maritime provinces would always appreciate the gift and more so would they appreciate the kindly sympathy and interest of the donor.

"Keep going, John, the first seventy years of peace are always the worst." -John Bull, London.

PARIS POLICE ARE CONFRONTED WITH BAFFLING MURDER

Crime is Attended by Mysterious and Romantic Elements—Old Engraver Slain

Paris, Aug. 28.—The Paris police are confronted with one of those baffling murders which cause hard thinking to the best detectives in large cities...

On account of his distinguished bearing and educated manner of conversing it was generally surmised that he had been better days. But Father Formel, although never denying this when it was suggested, and some times even going so far as to admit that he might, had not met with an unfortunate romance in his early life, have been filling today a high post in the country's service, never confided the details of his past even to those with whom he was most intimate.

Three or four times during the last ten years the curiosity of the neighborhood was excited when a smart carriage, and at a later period a big limousine drove up the little street and stopped at Pere Formel's door. From it each time heavily veiled woman, who remained closed in the workshop for several hours, and they disappeared as mysteriously as she had arrived.

Last evening this strange visitor appeared again—a few hours, according to police calculations, before Formel was murdered with the implement he used for engraving, and his shop looted. The police doubt that the visit had anything more than one of those strange coincidences which some times merely contribute to baffling them in their investigations. Nevertheless the best Paris detectives are trying to trace the woman.

Another clue, which may also be connected with the same romance, if romance there was, is that a young woman some time ago visited the victim. After she had gone a friend found Father Formel sitting huddled up on a stool before his work table, bewailing the loss of "all his money."

"She has taken all my savings, 40,000 francs," sobbed the old man. But when his friend suggested that he should call the police, Father Formel threw himself up, said it was quite out of the question and angrily intimated that he wished to hear nothing more about it.

The fact remains however, that the last time the victim was seen alive yesterday by a neighbor was when Pere Formel himself up, said it was quite out of the question and angrily intimated that he wished to hear nothing more about it.

BILL FOR \$1,000,000 REWARD FOR SURE CURE OF DISEASES

Washington, Aug. 26.—Payment by the Government of \$1,000,000 to the person who discovers a permanent cure for any of five diseases was proposed in a bill by Representative Sprull, Republican, Illinois.

A THREAT TO LOOT THE WAREHOUSES

(Glouce Bay Gazette.) "Fair wages or revolution" was the motto on the banner borne in a labor parade the other day by an aideman of Sydney. Among those in the parade were two members of the city council. During the meeting which followed one of the speakers remarked that they had passed warehouses filled with food, but could not get it. "That if we were organized a hundred per cent strong," he observed, "we could have all the food we want. You might be hungry in the morning, but as soon as it got dark you could have all you want." To which a person in the audience gave the obvious reply: "We've got it."

England to India by Air, 3300. (Associated Press by Mail) London, Aug. 7.—Trips to India by air in three days, at a cost of \$300 first-class and \$175 second-class, may be offered by British travelers. Several large technical corporations have made a proposal to the Government to run a mail and passenger service from London to Bombay. The airplanes would be capable of flying at eighty miles an hour with 200 passengers. The proposal has been put forward in order to develop the communications of the British Empire in speed and cheapness, and thereby assist the development of trade. The promoters ask a subsidy from the Government sufficient to pay the public investor a dividend of 4 1/2 per cent.

THE MORMON IDEA OF HELL.

Elder Nephi Jensen, president of the Canadian Mission of the Mormon church, spoke yesterday to a large audience in the Orange Hall on the Mormon idea of hell. He said in part: "There is no literal hell fire. The punishment of the wicked will be an inner torment of soul caused by the consciousness of guilt. There will be degrees of punishment. Some will be beaten with 'many stripes,' some will only be beaten with a 'few stripes.' God's punishment is everlasting, but all those who partake of it will not endure it for ever. Only those who have committed the unpardonable sin will suffer eternally. The rest of the wicked will come out of the prison house when, as Jesus said, they have paid the utmost farthing. The notion that a boy who steals a penny will be punished as long as a murderer in revolting to every sense of justice. It is not mere belief and confession of Christ that keeps us out of Hell. It is purity of life that makes us worthy of Heaven. To believe in the Christ means to follow Him. To follow Him means to become like Him. If we become like Him we will be saved."

BRANCHES IN CANADA.

The establishment of American branch factories in Canada continues this year to a greater extent than ever. Among the American industries to locate in Canada within the past few months have been a copper and brass concern at Toronto, cutlery manufacturers at Hamilton and Welland, electric bulbs at Ottawa, hosiery at Quebec, automobile plants at Sarnia and Windsor, silk mills at Cowanville, and tire plant at Hamilton, silk dyeing and finishing at Drummondville, and textile dyeing at St. Johns.

FOR SHRINE RE-BUILDING.

In the Catholic churches yesterday was read a pastoral letter from the archbishops and bishops of Canada setting out the great loss sustained in the recent great fire at the Shrine of St. Anne de Beaupre, and asking the generous assistance of their people in the work of replacing the destroyed structures. In the Cathedral it was announced that a collection for this purpose would be taken up on next Sunday.

NEW RECORD CLAIMED FOR MISS EDERLE. Bridgeport, Conn., Aug. 27.—Gertrude Ederle, of the Women's Swimming Association of New York, made what is said to be a world's record for the 230 yard swim when she won the United States national title for that event here today. Miss Ederle, who holds the junior fifty-yard title and won the Joseph H. Day cup recently, swam the distance in 2 minutes 49.5 seconds.

ST. JOHN GIRL WON A PRIZE. In the Amateur golf matches on Friday honors in the prize list were well divided. Hattie Cox, represented by Mrs. Rowings and Miss Bauld, took the championship and the runner-up position. Mrs. Semple, Truro, won the second division by defeating Miss Audrey MacLeod, St. John, runner-up, and Mrs. John Stanfield, Truro, won the first consolation from Miss Beattie Downey, Amherst. Mrs. Moxon, Truro, won the second consolation from Miss Mary White, Amherst. Mrs. MacKinnon, New Glasgow, carried off the final in the third division with Mrs. W. H. Some of the subjects to come up are plans for arbitration of all disputes arising among the countries involved, the unification of money throughout Central America, a customs union with a standard tariff, and better arrangements for the exchange of Central American products.

ORANGES FROM AUSTRALIA. Shipped from Australia and the demand is said to far exceed the supply. In that city the opinion is that it is possible that the California Valencia oranges may be eliminated from the Canadian market after August 1 each year, as the Australian navel oranges which arrive place and are in great favor with the Canadian consumer. Despite the long distance the oranges have to be shipped they are landed at approximately \$1 per box less than the Valencia, which come only about 1,000 miles, as compared with 7,000 for the Australian fruit.

NURSE THINKS NOTHING BETTER. Lydia E. Pinkham's Vegetable Compound Advised for all Women in Poor Health. Toronto, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound for years and it is the only patent medicine I ever recommended. I am a nurse and I find a woman in poor health I always tell her to take only too pleased to answer any inquiries because I know my doctor's advice. I must say that I think there is nothing better than your Vegetable Compound. When I first took it many years ago, I was so tired when I got up in the morning that I could not eat and when I went to bed I was so tired to sleep. My mother-in-law told me that Lydia E. Pinkham's Vegetable Compound was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel so well, for it seems to build my system and give me back my health. I am a nurse and I find a woman in poor health I always tell her to take only too pleased to answer any inquiries because I know my doctor's advice. I must say that I think there is nothing better than your Vegetable Compound. When I first took it many years ago, I was so tired when I got up in the morning that I could not eat and when I went to bed I was so tired to sleep. My mother-in-law told me that Lydia E. Pinkham's Vegetable Compound was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel so well, for it seems to build my system and give me back my health."

BASEBALL COCKTAIL. LATEST ATTRACTION ON DRY LAWS. An unusual public interest in the purchase of baseballs, displayed at Fourteenth street and Third avenue, New York, led to the arrest and arraignment of Max Sanford, a peddler, forty-five cents, and a charge of selling "baseball cocktails." Magistrate Bernard J. Douras, in Essex Market Court, held Sanford in \$1,000 bail for action by the grand jury. Patrolman Neal Ferran told the court that Sanford was selling balls which cost fifteen cents each for fifty cents, and that the difference in price was due to certain liquid contents which were revealed when one of the balls fell to the sidewalk and split open.

ASSERTS THAT SEWING HARMS GROWING GIRLS. London, Aug. 28.—Girls require more opportunities for play than they get, and boys should have domestic tasks with girls—that is the opinion of Dr. W. H. Hamer, London's school medical officer. He has come to this conclusion that schoolgirls have too much work to do, and that in consequence they suffer more than boys from defective vision, heart disease, anaemia, and spinal curvature. "The habitual employment and methods of instruction to which girls are subjected by sewing, are harmful," says Dr. Hamer.

UMPIRE ACCEPTS FANS DEFICIENCIES FROM GRAND STAND. Frederick, Md., Aug. 26.—Spectators at the Frederick-Chambersburg Blue Ridge League game here, after hooting Umpire Shamer for six innings, finally invited him to the grandstand to render his decision. He promptly obliged them and went into the stand. After he had umpired in this location for half an hour, officials of the Frederick club protested and he returned to his place behind the bat. Frederick lost the game, 10 to 6.

My Debt of Gratitude. 'Oursers the Size of Man's Hand.' Under the care of Mrs. C. W. Trickett, of the Frederick-Chambersburg Blue Ridge League game here, after hooting Umpire Shamer for six innings, finally invited him to the grandstand to render his decision. He promptly obliged them and went into the stand. After he had umpired in this location for half an hour, officials of the Frederick club protested and he returned to his place behind the bat. Frederick lost the game, 10 to 6.

FRIGHTENED! 'Every morning I woke up, I felt that something terrible was going to happen.' Writes Mrs. M. and she goes on to say, "I wonder if any other woman ever had such fits of depression as I have had. I was so utterly despondent that if it had not been for my children, I believe I would have put an end to my life. Every day and every night was a nightmare. I dreamed of going to the hospital and every time I awoke in the night, I was so utterly despondent that I was completely run down—nothing interested me, nothing appealed to me. I consulted several doctors. They prescribed different remedies to build me up but these preparations didn't do me any good. Doctors told me I had the nervous breakdown. I was tired all the time. I felt every day that my strength was gradually leaving me. The least little exertion left me thoroughly tired. I felt I was gradually wasting away. I felt I was going to die and I was so thoroughly miserable that I did not care how I lived or not. And then I heard about Carnol and what a fine tonic it was. At first I refused to take it as I was sure it wouldn't do me any good. Finally I did try it with the most wonderful results. I am well and happy every minute of the day now. I rest heartily and sleep soundly. My friends won't believe that Carnol alone has done this for me. I am never despondent now and every day is a day of joy. What Carnol has done for me it will do for you."

Tired Eyes. If your eyes are tired and overworked; if they feel as if they were smart, go to any drugstore and get a bottle of Bon-Opto. Drop one or two into your eyes three or four times a day. You will be surprised at the relief and comfort. Bon-Opto brings. Note: Doctors say Bon-Opto strengthens weak eyes and restores vision. It is a positive non-toxic eye-salve.

210 MILES PER HOUR IN AIRPLANE

Turin, Italy, Aug. 27—Lieutenant Brakappa today in an airplane flew at a speed of 330 1/2 kilometres (about 200 miles) per hour. This is said to be a world's record.

Names Will Be Ready Soon

Recall Petitions Have Been Quickly Signed—Workers Meet With Very Warm Reception.

The recall petitions for the recall of Mayor McLellan will be in the hands of the common clerk for checking purposes within a few days, according to an announcement made by the committee in charge of the work last evening.

"We expect," declared a worker, speaking for the committee, "that our lists will contain the fifteen hundred names, the number set by us for an objective, by tomorrow evening. The rainy weekend caused a slight let-up in the work, but we expect to make up for lost time today and Tuesday."

To avoid unnecessary delay, the workers are taking every possible precaution when securing signatures. They intend to check their own lists before handing them over to the common clerk for verification as to names, addresses, qualifications, etc., and by taking this course they will minimize the possibility of any hold-up later on and facilitate the checking by the common clerk.

SUGGESTS ST. JOHN AS A SITE FOR UNITED COLLEGES

"St. John would be an excellent seat for the new university, but it would be starting all over again since St. John has no professional school except the law school," was the remark made by Rev. Dr. S. Boyle, president of King's College, when asked if he thought that this city would be a good centre for a new university which is now being considered to replace the system of higher education which exists in the maritime provinces.

Rev. Dr. Boyle, who has been on a trip to Victoria (B.C.) and will leave today for Windsor (N.S.), continued Dr. Boyle, "to allow provincial rivalry or interests to obstruct such a great undertaking and... It is really a compliment, a Canadian Oxford here in the maritime provinces. The offer of the Carnegie Foundation is made through the colleges in the provinces as a whole, and the whole subject should be discussed in that light."

He said that he was surprised that St. John had not thought of being made the seat of the proposed maritime university, and he believed that as an educational centre St. John was quite equal to Halifax. He thought that some of the suburbs around St. John could provide ideal locations for a university, but if such a place were selected it would be necessary to erect new buildings for dental and medical schools, which expense would be avoided by building in Halifax and utilizing the present buildings at Dalhousie.

10,000 MENNONISTS ANXIOUS TO COME. Would Replace Emigrants From Manitoba and Observe School Laws. Winnipeg, Aug. 26—Willing to abide by the school laws, ten thousand young American Mennonites from northern states want to come here this fall to take up land which the old colony Mennonites will vacate, according to H. H. Ewart, former inspector of Mennonite schools, of Gretna, Man., who laid before Premier Bracken plans for bringing them here if a loan of \$3,000,000 could be obtained. Mr. Ewart said ten thousand old

colony Mennonites had laid definite plans for leaving the country immediately after harvesting this year's crop. They intended going to Mexico, he said, and despite reports to the contrary, the Mennonites already there were being treated well. He claims 100,000 acres of land will be vacated by the old colony this fall. The young colonists would be brought from Kansas, Minnesota, North Dakota and Nebraska, according to the plan outlined by Mr. Ewart, and each man would require about \$3,000. There would be one thousand heads of families. It was suggested that the loans might be made through the Manitoba Farm Loan Association.

GAS CARS ON RAILS BEING OPERATED. Victoria, B. C., Aug. 28—New types of gas cars may be used on the provincially-owned Pacific Great Eastern Railway and at the same time give the people along the line a better service. Cars of a type which will behave as well as any automobile and run on rails have been produced, experts have advised Premier John Oliver. At present only one train a week is being operated on the Pacific Great Eastern, and it is not paying expenses. The reason for this, it is explained, is that traffic is so light that it does not meet the expense of running a one hundred-ton locomotive over the lines to draw a few cars. The only chance of making traffic pay expenses is by carrying it on a light, fast car, on which all overhead will be cut down. If these new cars prove successful, it is predicted here that they may be placed in service on island lines of the Canadian National and the Esquimalt and Nanaimo railways to give a speedier service to holiday resorts.

"FAMINE FLOUR" Sample Received from Poland Unfit to be Eaten—Made of Ground Seeds and Clay. New York, Aug. 26.—(By Canadian Press).—The first sample to reach this continent of the now famous "famine flour" of the Russians has just been received at the offices of the National Lutheran Council, which has a number of representatives doing relief work in Russia. It was sent by a Canadian minister who left his home in Alberta to investigate conditions in Russia and aid in relieving the sufferings of the unfortunate people of that country. Gritty, dark brown in color, and smelling like new earth from the garden, this substance of which the starving Russians bake their bread appears unpalatable, unwholesome, and totally unfit to be eaten. No substance like it is used for food, nor would be tolerated, by the people of any portion of Canada. The "flour" is composed of the ground up seed of Lebeza, with clay mixed in for adhesiveness. It has been used for eighteen months throughout the Volga region, and is now in use in the Ukraine and the Black Sea area, where the famine is still raging. The sample received left Russia by way of Poland, being carried along by the cholera refugees who streamed across the border to the west last spring. It was not taken out of Russia as a curiosity to be exhibited, but as the only food to be carried along on the weary journey of several hundred miles on foot. The little box was sent by Rev. Rudolph Kersten, Canadian pastor from Bashaw, Alberta, who volunteered last year to go to Poland to take care of a vacant Lutheran parish which includes four cities and 140 villages.

MORNING NEWS OVER THE WIRES

The round-the-world flight commenced at Croydon, Eng., on May 24, by Major W. T. Blake and continued by MacMillan and Mallins, has been abandoned according to a despatch from Calcutta, India.

The Ford Motors Works, including the three big plants at Detroit and the assembly plants throughout the country, will be closed down on September 18 on account of the lack of coal, Henry Ford announced Saturday. About 105,000 men will be thrown out of employment.

BABY LEFT IN DEPARTMENT STORE

Chicago, Aug. 28. — Mrs. Robert Clancy was shopping in a big department store down town when a young woman carrying a baby asked her to hold it while shoes were purchased. Two hours later Mrs. Clancy still had the infant. It was taken to an orphanage. Police said it was the first report of that nature they had received in twenty years.

To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Dated at Ottawa, 8th August, 1922.

W. S. FIELDING, Minister of Finance.

MICHAEL COLLINS

(D. C. in Montreal Gazette) Michael Angelo said that "death and love are the two wings which bear man from earth to heaven." Cicero avowed that "death is dreadful to the man whose all is extinguished with his life; but not to him whose glory can never die."

He was not born rich, but was a typical son of the old soil and an Irishman who was instructed at the village school with those boys who were amongst his colleagues in the fighting ranks, all imbued with the great task of bringing peace and freedom to Erin.

The sadness and pity of it all! Since the days of Daniel O'Connell, Ireland has never had a leader so well beloved of the people and one who had a more charming personality. Good-natured, looking, big, broad-shouldered and debonair "Mick" Collins was just what he looked—one of those typical six-foot Irishmen who, built in proportion, are the envy of the nations today wherever they go.

Somebody has said that Collins' immense stock of vitality and intense courage were an almost incalculable asset. Collins was no craven coward. Rather did he court a struggle and revel in uproar and opposition. Famed and others resented the vulgarities and importuning of the mobs in opposition at times; but Collins merely laughed and laughed opposition in the majority of instances into acquiescence of his own words.

He captivated his audiences by his Irish charm of manner and the music of his voice, rather than by his masterly oratory. Much sympathy will be spontaneously bestowed today from Irish hearts on the relatives of this gallant son of Erin, who has been foully done to death by the assassin's bullet, and more especially by the sympathy extended towards the charming Irish soldier in whose "Mick" had plighted his troth.

Collins tackled big things and little things with the same instantness, eagerness, and never postponed the tackling of a task, however difficult, through fear of being unable to master it. His triumph of personality was all the more remarkable because it flowed from the less ostentatious virtues of un- eye to eye with him, Collins volleyed

and thundered retorts of the most cutting kind—ending all up with a hearty laugh. Collins has tasted the sweets of popular acclaim, and that unalloyed with the result that his name stands higher in Ireland today than almost any other, with the exception perhaps of his bosom friend, the late Arthur Griffith, who was called to his reward a few short days since.

Michael Collins had the instinct to govern and the will to dominate in him strongly developed. His sentimental, sensitive Irish disposition made him a man of great hopefulness and his artistic temperament rose and surged, according to his own natural imaginative capacity—so like a host of his distinguished and brilliant fellow-countrymen. "Mick" had the mental sagacity to "sense" aright the pulse of the Irish people, and thus it was that he was able at short notice to get things done and to make ideals actualities, even if they did lose a little of their bloom in the process.

What struck one about Collins was his absolute versatility. He was a publicist, a politician, a diplomatist and an extraordinary student. Like the scholar, Francis Chaucer, "Gladly would he learn and gladly teach." He had been laboring night and day for the last few years in the seemingly thankless task of being responsible for bringing tranquility to his beloved Erin. Some of his colleagues have fretted at his methods at times, and others have chafed at what they considered his lack of perspective and at the stubborn opposition he put up to any pressure designed to deflect him from his own chosen path.

He proved himself to be a man of capacity and with the imagination of the born leader of men; he had also the wary quickness of the politician and the insight of the statesman. He has been cut off in his prime by the murderer's hand. He has passed away before reaching the real zenith of Ireland's victory which he did so much to achieve. But his death may serve a useful purpose by stabilizing the remaining forces of reason and statesmanship in the Emerald Isle. It is to be hoped that those who were associated with Collins in his career for Ireland's regeneration will look to the abiding realities at this grave moment and will carry the torch like men and be strong." Collins verily died at his post. He proved the truth of the aphorism that all life "is an arrow pointing to the future of death."

Life's race well run, Life's crown well won— Life's work well done, Now comes rest.

ORDINATION AT THE CATHEDRAL. Rev. Deacon Thomas Francis Cashen, who was ordained a deacon last Thursday morning, was raised to the dignity of the priesthood yesterday morning at the 11:30 o'clock mass in the Cathedral of the Immaculate Conception. His Lordship Bishop LeBlanc officiated at the mass and was assisted by Rev. Dr. Guerin, of St. Joseph's University, as high priest; Rev. Father McDougall, as first deacon, and Rev. Simon Drom, as second deacon. Rev. Roy McDonald, a former classmate, assisted the young priest. Rev. Robert Nugent and Rev. E. Reynolds were in the sanctuary. Father Cashen will be attached to the teaching staff of St. Joseph's University, Memramcook.

"ANGEL-FACE" IS SENTENCED. Twenty-Three-Year-Old Pickpocket Has Been Arrested Twenty-Five Times. "You should be incarcerated for the rest of your life as a protection to the community," Judge Talley told Elmer Dillon, a printer of 48 Middagh street, Brooklyn, in General Sessions in New York last Thursday, when he sentenced him to thirty months in Sing Sing for pocket-picking. Dillon, according to the police, was known as "angel-faced boy" when he was first taken into custody fourteen years ago. He pleaded guilty last week to the theft of a wallet containing \$5 from Henry Heifer of Verona, N. J., at the Hudson Terminal Building. He said he was revealed that he had been arrested twenty-five times.

Put one on-- the pain is gone!

Approved by King and Pope. Collins always added light to the discussion of a subject—mostly light without heat. Collins has done good work for Ireland, and his meteoric career affords the best answer possible to those who say in their haste that Irishmen are unfitted to govern themselves.

A Man of Ideals. But he proved himself to be a man of capacity and with the imagination of the born leader of men; he had also the wary quickness of the politician and the insight of the statesman.

BEACH PROMENADERS HELD. Eighteen Girls and Three Men Charged With Strolling in Bathing Suits. WOOD ALCOHOL'S VICTIMS. Half Year Shows Twenty-two Blinded, 130 Killed. New York, Aug. 28.—Figures gathered by the National Committee for the Prevention of Blindness in the Russell Sage Foundation Building, 130 East Twenty-second street, show that during the first half of 1922, wood alcohol caused 130 deaths and twenty-two cases of blindness.

TEACHES LESSON TO N. Y. MASHER. Ex-Royal Policeman Puts a Male Nuisance Out of Commission. New York, Aug. 28.—Tony Deforo, aged thirty-four, is sitting in jail reflecting upon the suddenness of former members of the Canadian Northwest Mounted Police. Deforo had been soundly thrashed and afterwards arrested for misconduct toward a woman visitor in the monkey house in Bronx Park.

WHISKEY CONTAINING WOOD ALCOHOL. Mrs. Winifred Hathaway, secretary of the committee, yesterday, "Many relatives and friends of victims try to conceal the real cause of death, and in some cases succeed. And as the deterioration of sight resulting from wood alcohol poisoning is frequently a gradual process, it is difficult to obtain accurate records of the total number of cases of blindness and partial loss of vision from this cause. Even children have been victims."

Use the Want Ad. Way. Arthur E. Butler, thirty-one of 606 First street, Carlisle, N.J., a salesman for the Sterling Tire Company, died Tuesday of alcoholic poisoning before he could be removed to the Hackensack Hospital. He drank a quantity of wild cherry wine which he made a few days ago.

DINNER COSTS A BARREL OF MONEY. One Can Lunch in Moscow for 80,000,000 Rubles.

Moscow, Aug. 28.—Americans contemplating visits to Russia should bring with them suitcases of ample proportions in which to carry their money, for ordinary pocket-books have long since ceased to be adequate for carrying the huge quantities of paper currency that one is required to have in order to exist. The following menu from one of Moscow's leading restaurants indicates that one can dine rather well for 25,000,000 or 30,000,000 rubles: Beefsteak, 5,000,000 rubles; potatoes, 3,000,000 rubles; soup, 3,000,000 rubles; ham (two slices), 4,000,000 rubles; cauliflower, 5,000,000 rubles; chops, 6,000,000 rubles; strawberries, 4,000,000 rubles; coffee, 1,200,000 rubles.

TEACHES LESSON TO N. Y. MASHER. Ex-Royal Policeman Puts a Male Nuisance Out of Commission.

New York, Aug. 28.—Tony Deforo, aged thirty-four, is sitting in jail reflecting upon the suddenness of former members of the Canadian Northwest Mounted Police. Deforo had been soundly thrashed and afterwards arrested for misconduct toward a woman visitor in the monkey house in Bronx Park. The incidents leading to the arrest were related to the Magistrate by Thomas Davies of Montreal, the former "Moon-tie," who gave Deforo the thrashing. Davies is now a mounted patrolman of the Montreal force. He and Mrs. Davies are in New York on a vacation. Sunday, according to Mr. and Mrs. Davies, they visited Bronx Park. Mr. Davies remained outside the monkey house to smoke while Mrs. Davies, a handsome woman of twenty, watched the antics of the animals. She was approached, she testified, by Deforo, who pinched her. She went outside and told her husband. Then she returned to the building, while her husband watched Deforo. When the latter approached Mrs. Davies again, the Montreal policeman got into action. After a time Deforo was fanned back to consciousness and found himself under arrest. The magistrate held him without bail for probationary investigation.

BEACH PROMENADERS HELD. Eighteen Girls and Three Men Charged With Strolling in Bathing Suits.

New York, Aug. 28.—Because they were bathing suits and appeared in them in public elsewhere than on the beach proper of Rockaway Beach, eighteen girls and three men will have to answer charges of disorderly conduct in the Far Rockaway Court. They were taken into custody in the course of a round-up by the police, who set out to remind Sunday bathers that the two weeks' order against parading in bathing suits, was not to be trifled with.

WOOD ALCOHOL'S VICTIMS. Half Year Shows Twenty-two Blinded, 130 Killed.

New York, Aug. 28.—Figures gathered by the National Committee for the Prevention of Blindness in the Russell Sage Foundation Building, 130 East Twenty-second street, show that during the first half of 1922, wood alcohol caused 130 deaths and twenty-two cases of blindness. "These figures do not, however, begin to measure the total loss of life or sight through the drinking of bootleggers' whiskey containing wood alcohol," said Mrs. Winifred Hathaway, secretary of the committee, yesterday.

son of St. Catharines, and visited here and in the Garden City some years ago." A Dublin despatch to the London Evening News last week said:—"The marriage of Michael Collins, slain chief of the Irish Free State, to Miss Kitty Kiernan had been fixed originally for the last Tuesday, the day Collins was killed. The wedding date had been postponed, however, until later this month on account of the death of Arthur Griffith. Miss Kiernan, daughter of a prominent business man of County Longford, already had bought her trousseau. Of the scene at the bier of Collins in Dublin, when his remains were brought there, a press cable says:—"Miss Kitty Kiernan, Collins' fiancée, and his sister, Miss Powell Collins, were among the first to enter the chapel. After them others came in a steady stream, many of them lingering before the body and reluctant to leave it. Many kissed the forehead of Ireland's dead command-in-chief. Meanwhile, nuns moved silently to and fro in the pale light of the candles. Sir John Liversy stood beside the coffin with a canvas, painting the historic portrait of the dead hero." A feature of the romance of Michael Collins and Miss Kiernan was her wearing some tramp one night to a cottage just in time to warn him to escape from English soldiers who were on his trail, in the period before he espoused the cause of the Irish Free State.

SLEUTH ENDS STRIKE OF POWDER PUFF GIRLS
New Rochelle, N. Y., Aug. 28.—Detective George Scott successfully arbitrated a strike of ninety-five girls in the powder puff factory of Maurice Levy Company, Inc. The girls struck because their foreman, Charles Miller, had been discharged. When the factory asked for police protection, Detective Scott and a squad of policemen were detailed on strike duty. Scott asked the girls the cause of the strike.
"Well, 'twas like this," said one of the strikers. "Mr. Levy has fired Mr. Miller, the foreman. We think it's just the meanest thing, so there."
"But what was it all about?" asked Scott.

BAND CONCERT If the weather permits, the Carleton Cornet Band will give a concert, its last of the season, on the King square band stand this evening. The weather is disagreeable the concert will be given on Wednesday night.

DEATH OF CHILD. Many friends of Mr. and Mrs. Harry Donner of 183 St. James St. West, will sympathize with them in the death of their youngest daughter, Elizabeth Ruth, which occurred on Aug. 27, aged one year and nine months. She is survived by her parents, two brothers and one sister.

POLICE COURT Only two men were in the dock at the opening of the police court session this morning. One pleaded guilty to a charge of being drunk. The other was Mrs. William Mable, charged with being a common vagrant with no visible means of support. He was from the United States and will probably be sent back there.

FORMER RESIDENTS HERE Mr. and Mrs. George Schofield of Tacoma, arrived in the city on Saturday on the Montreal train, enroute to Grand Manan, their old home. Mr. Schofield is of Schofield and Garage, contractors and builders, has attained success since going west as his friends will be pleased to learn. Their return to Tacoma will be via Panama Canal. Mrs. Schofield formerly was Miss Ada Watt.

BURIED TODAY The funeral of Mrs. Mary J. Beamish took place this morning from the Mater Misericordiae Home to the Cathedral, in high mass of requiem by Rev. R. McDonald. Interment was in the old Catholic cemetery.

NOVELTY SHOWER About one hundred friends gathered at the home of Mr. and Mrs. William Grant, 341 City Road, on Friday evening, and tendered their daughter, Hazel, now Mrs. William Mable, a novelty shower. Many beautiful gifts were received, including linen, cut glass and silver. During the evening dancing, games and music were enjoyed and refreshments were served.

WEDDING ANNIVERSARY On Saturday, August 19, friends and relatives met at the home of Mr. and Mrs. Wm. Baxter, Baywater, and tendered them a very agreeable surprise on the occasion of their twentieth wedding anniversary. A presentation was made by Dr. Ryder of Stoneham, Mass., consisting of a beautiful rug and sets of window draperies. Music and dancing followed, after which refreshments were served and all good wishes for the future welfare of Mr. and Mrs. Baxter were expressed.

FROM LAKE UTOPIA Professor Ralph E. Mayer, dean of the mining and engineering school of Columbia University, Mr. Mayer and his son, Ralph, George Howard of Connecticut, and Mr. and Mrs. Joseph Byrne and two sons, of Boston, motored to the city on Saturday from Lake Utopia, Charlotte County, where they have been at Mr. Byrne's camp. They planned to return today in conditions justified their starting out. Cyril Driscoll of St. John, who was a guest at Professor Mayer's camp, accompanied the party to the city after a pleasant outing.

THE SCHOOLS The public schools of the province, including those of Moncton and Fredericton, and with the exception of this city and some of the suburban places in St. John county, opened their term this morning. As was announced before, most of the county schools will re-open on September 6, as will the city schools. This plan removes the necessity of closing down for Labor Day, and also gives the parents a chance to attend the exhibition before settling down to the work of the term.

TRAFFIC CASES. P. F. Hoyt failed to appear in the police court this morning to answer a report of allowing his car to stand in Union street for a longer time than allowed by law. George Conley pleaded guilty to allowing his car to stand in Gullford street on the night of August 23 from 10 to 11:30 o'clock without head or tail light. He said that one of the connections of his battery had become loose and that he had spent more than two hours getting a new battery. He had a note on the steering wheel of the car telling what was the trouble. Policeman Gorham told of seeing the car standing there at these times. A fine was allowed to stand.

LOST HOUSE IN SATURDAY STORM John R. Ross' Home Struck by Lightning and Burned—Children Rescued.

Lightning which struck the two-story house of John R. Ross near Morrisdale station in the parish of Westfield on Saturday evening, caused a fire which in about an hour reduced the building to ashes. Mr. Ross had time only to save his two young grandchildren who were sleeping in the house. The building and all its effects are a total loss.

Mr. Ross resides with an unmarried daughter. Another daughter, Mrs. Joseph Ayles, with her husband and two young children, aged six and one and one-half, were visiting him. The children had been put to bed. Mr. and Mrs. Ayles had gone out, and Mr. Ross was sitting in the kitchen reading. Between 7:30 and 8 o'clock, a bolt of lightning struck a chimney in the end of the house farthest from the kitchen, but the shock was sufficient to knock the chimney from the lamp which Mr. Ross was using. He ran to the room on the ground floor in which the children were sleeping and noted on his way that the upper floor was already a mass of flames. After taking the children to a barn about fifty feet away he returned to the house, calling some of his neighbors at the same time. He managed to get a bag of flour out of the kitchen, but the flames prevented any further entrance. Although several of the nearby residents gathered and offered assistance there was nothing that could be done to save the house. Mr. Ross estimates his loss at about \$2,000, about half covered by insurance. His barn, which was a new one, was untouched.

WHITE WAY MATTER BEFORE COUNCIL

South End Merchants Support Proposed Change—Some Difference of Opinion Delays Decision Until Tomorrow—Wentworth Street Work.

Irving Appleby, representing some twenty-six retail merchants in the southern end of the city, appeared before the city council this morning to support a petition that the route of the proposed 'white way' to the exhibition be altered. Instead of running through Queen Square it was proposed that the way continue down Charlotte street to Brittain and thence to Sydney.

Mr. Appleby argued that the square being in excellent shape, it would be a pity to run the chance of damaging it by having workmen stringing the wires for the light way. Again, the traffic was impossible through the square and many visitors would go to the exhibition in motor cars. He said that there were twenty-six places of business on the proposed route and the sugar refinery, brilliantly lighted would show up well in the background. He said the change had been recommended by the Retail Merchants' Association and H. A. Porter, manager of the exhibition.

Commissioner Thornton said that the president of the exhibition association had called him up and said that he was opposed to the change. He said the association was paying \$200 towards the expense and the new route would require more wire. Only two temporary poles would be required for the square. Commissioner Bullock reported a protest against any change from a merchant in Sydney street. The mayor suggested that Mr. Appleby get in touch with the Retail Merchants' Association and the Exhibition and obtain from them letters of authority for the recommendations given by the proposed change by H. A. Porter, for the exhibition association, and J. H. Vaughan and A. E. Everett for the retail merchants. The matter could then be taken up at council meeting tomorrow afternoon. Commissioner Thornton referred to the fact that Wentworth street had been opened up and he understood this was not to be done until after the exhibition. Commissioner Wigmore said he did not understand it that way. Pipe he said was going under the sidewalk, the old line under the roadway having been abandoned. The mayor questioned whether the diversion would not make the bond issue for the work illegal. Mr. Wigmore said the greater part of the area affected was in front of King Edward school. "Well," replied the mayor, "a school is an attraction to visitors. Some of them may come to the city just to see how our money is wasted." Commissioner Frink notified the council that he had been informed that a delegation from Cranston avenue asking for some street work would not appear en bloc before the council this morning. No action was taken.

RECORD RAINFALL IN SOUTHERN N. B.

Low Lying Areas Flooded and Considerable Damage Done—Reports of Wash-outs.

All previous records for rain fall were smashed Saturday when the city was swept by a severe electric storm accompanied by torrential rains. The storm broke at 2 o'clock Saturday afternoon and the downpour continued practically unabatingly all night. In actual quantity during Saturday 117,04 imperial gallons fell on each acre of land in the city and the weight was 585 tons an acre. There are approximately 6,000 acres in the city so it will be seen that there was practically 3,500,000 tons of water descending on St. John on that day alone.

Low lying areas in the city and surrounding districts were flooded and considerable damage has resulted. In the city many catch basins were clogged and as a result the water flowed over sidewalks and flooded cellars, while in the country houses and barns were completely surrounded, in many places by over two feet of water.

The New Brunswick Power Company had a hard time maintaining a street car service, largely due to the tracks being covered with debris of all kinds. The East St. John car left the rails near the post office in the middle of the afternoon and was not replaced until midnight. A West St. John car left the rails near Simms' factory corner and was abandoned until Sunday morning. Clifford Price, superintendent of the public water department, had a crew at work through Saturday night and yesterday. A sewer in Watson street burst with the pressure, and tore large holes in the street. In City Road the water rose to three feet above the street level, and in the section around Gilbert's Lane and Forest street, the first floor of the houses was flooded, and residents contemplated moving to the second flat. Wood piles floated away to other sections. The water was several feet deep in Mill street. Some sections of the C. N. R. yard were flooded and it was reported that the water was level with the track around Dorchester and that a washout had occurred on the Cape Tormentine branch. The Loch Lomond road was under water, and at Brookville the roads were covered to the depth of eight inches. At Morrisdale the residence of John Ross was totally destroyed by fire, after being struck by lightning Saturday night. The house was valued at \$1,500. The residence of Samuel McColgan at Somerville was also struck but not burned. The N. B. Telephone Company and the Telegraph Companies reported very little damage. Several buildings round about the city were damaged by leaks. The Kennebecasis river overflowed its banks at several places, and is running to the top all along its course. Reports of storm damage more or less serious come from all parts of Eastern Canada and the United States, but no where did it seem to be heavier than in the vicinity of St. Jc.
