DOMINION STEAM BRUSH FACTORY

OKATKA PAINT, OKATKA WHITEWASH, PASTE, LEATHER HORSE, and all tions of PAINT WHITEWASH, and SCRUB BRUSHES, FACTORY and OFFICE, Union corner Carmarthen Street,

ST. JOHN, N. B. PROSPECTUS

OF THE SPRING HILL MINING COMPANY INCORPORATED UNDER LAWS OF NOVA SCOTIA, 1870, C. 72. Capital \$400,000, with power to increase to \$1,000,000.

SHARES \$50. LIABILITY OF SHAREHOLDERS LIMITED TO THE AMOUNT REMAINING UNPAID

2,600 Shares are offered by public subscription. \$5 per share to be paid on application; \$15 per share on allotment, 1st July, 1872; \$15 per share on 1st September, 1872, and \$15 on 1st November, 1872; or the whole may be paid on allotment, with deduction of interest at 6 per cent. per annum, on all payments in anticipation of the date when they become due.

DIRECTORS, &c.

Hon, ALEXANDER MACFARLANE, Senator, Wallace, Nova Scotia, President. Hon. ROBERT BARRY DICKEY, Senator, Amherst, N. S. CHARLES H. M. BLACK, Esq., Merchant, Halifax, N. S. LT. COL. CHARLES J. STEWART, Amherst, N. S.

ALEXANDER ROBB, Esq., Proprietor Amherst Iron Foundry, Amherst, N. S. TREASURER-JAMES S. HICKMAN, Esq., J. S. Hickman & Co., Merchants, Amherst, N. S. SECRETARY-WM. J. MOFFAT, Esq., Barrister, Amherst, N. S.

BANKERS-Bank of Nova Scotia, Amherst Branch; and Bank of New Brunswick, St. John, N. B. OFFICE-Mr. W. J. MOFFATS Office, Amherst, N. S.

The Company have acquired, by purchase, three leases from Government of Nova Scotia to Hon. Alex. Macfarlane, of one square mile each, of the richest coal deposits in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, 1926 Royalty 10 cents per ton of 2.240 lbs.

Five seams and upwards, of varying thickness from 2½ to 13 feet, are known to exist within these areas, which comprehend (exclusive of a portion of the General Mining Association reserve) nearly all the coal yet discovered in this well known district. Of these, one, known as the 11 feet seam, has been opened, and several hundred tons raised by a slope sunk only 25 feet from the surface, and has been proved by test pits about 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet for two-thirds of that distance. The slope has lately been carried down to the depth of 95 feet, exhibiting a marked improvement in the quality of the coal, described by Sir Wm. Logan, from specimens near the outcrop, as "an excellent coal, superior to any of this continent yet known." A moderate estimate of the quantity would give as the yield from this seam alone, half a million tons annually during the lease. The larger seam has been exposed by a trial pit within the areas; the smallest of 2½ feet, is believed to contain a valuable gas coal, and it is a fair geological inference that all these beds of coal will be found in their proper position. Thus several distinct colleries may be leased to individuals or companies.

beds of coal will be found in their proper position. Thus several distinct coals be leased to individuals or companies.

A branch railway of 3½ miles has been surveyed, and steps are being taken for its construction to connect the property by a down grade with the Intercolonial Railway, at a point 21 miles from the head of the Bay Fundy and contemplated Bay Verte Canal, and 13 miles from a shipping place at the mouth of Maccan River, half a mile from the Intercolonial, where vessels drawing 13 feet of water may load. Until the opening of the Intercolonial, between Truro and Amherst, next autumn, the coal will be hauled 4 miles to Black Eiger Station.

From the nearness of the outcrop to the surface, and the seams lying on high and descending ground, securing easy drainage, it is considered that these seams may be

descending ground, securing easy drainage, it is considered that these seams may be most economically worked.

The freight of a ton from the head of Bay Fundy to Boston or New York is about 75 cents less than from Pictou or Sydney—of itself a good profit, while the difference to St. John is fully \$1 00.

The Spring Hill coal is well adapted for house, steam and smelting purposes. Situated within 37 miles by rail of the lodes of brown hematite and micaceous iron orc of the richest quality, known as the Acadia iron ore, of Londonderry, it is difficult to assign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a coal unusually free from sulphur. The large proportion of carbon renders it eminently adapted for manufacturing coke, which, with the coal itself, must be extensively used in the iron and steel works at Londonderry, as well as the Machine shops being erected for the Government railways at Moncton.

The portion of the Intercolonial between Truro and Amherst is now being ballasted with engines driven by Spring Hill coal. It is understood that the line between Truro and Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly be worked in the same way, and the local demand between these points, already large, is steadily increasing.

Vessels bringing flour from the St. Lawrence to St. John, Yarmouth, and other lower ports. through the Bay Verte Canal, when completed, may have return cargoes of coal to Quebec, Montreal or Toronto.

From all these sources of traffic, in addition to the Western part of Nova Scotia, the New England ports and New York, it is assumed that an unlimited market will be

Additional means of shipment will be afforded by the contemplated railway to Parrsboro—a port open at least ten to eleven months in the year—for which the Nova Scotia Legislature have provided large subventions.

The estimated cost per ton for raising, handling, and putting on board ship, say at mouth of Maccan river, is about as follows:

Cutting and raising, including weighing, screening, &c...... 65 cents, Railway transportation, loading and royalty........... 45
 Cost on board...
 \$1.10

 Freight to St. John.
 1.20

If Pictou and Sydney coal can be shipped to Boston and New York at paying prices. it cannot fail to be highly remunerative to send a better article from Spring Hill, with an advantage of 75 cents in freight. The local traffic would yield a high rate of

Taking the low average of only 80 cents per ton, inclusive of repairs of machinery, &c., and assuming only 100 000 tons as the annual production at first, we have a gain of 20 per cent. on the capital, which might be much augmented by the rent of other seams, as suggested. From the exceptionally high character of this coal, and the fig. of the coal of

TESTIMONIALS.

Extracts from Reports of Messrs. Woodhouse and Jeffcock, Mining Engineers, London and Derby, G. B., (January 2, 1866)

The Coal Field which we have carefully examined, and which is the subject of this Report, is situate in the county of Cumberland, in the province of Nova Scotia. It is generally described as the "Springhill Coal Field, but in reality it is a part of the great Cumberland Coal Field.

The first or upper seam we found to be a bed of remarkably good goal, presenting a very

clean, compact appearance in its immediate outcrop. The section of the seams of coal was ar LONDON HOUSE. is may be considered a very valuable seem of coal. The quality of the coal is exceedingly It may be described as a bituminous coal, but of dense and strong structure. Sout 45 yards below the main seam we proved (by sinking a small shaft) another seam of sout 45 yards below the main seam we proved (by sinking a small shaft) another seam of good workable coal, having the same dip and angle as the main seam. APRIL 30, - - 1872 Now Complete in every Department. Per "Alexandria," "Olympis," "Lady Dar ling," &c. The samples of coal examined were taken from the main seam of the Springhil coal field in examination of the external character of this coal shows at to be a bituminous coal of a noderately compact texture, and not inclined to fill to pieces, or slack. Four symples were taken for analysis. I and II. were two averages of the whole box: III. was a picked samples of the best (most compact) coal; and IV was a specimen of the coal showing a shaly texture. The re-68 35,52 59,42 4 (8 The analysis shows this coal to belong to the class known as highly bituminous, or fat caking coals, in character very similar to those of the North of England, known as North Country or Newcastle Hartley Coal. The high rate of volatile to fixed combustible matter should render this coal, in comnon with the Newcastle coals which it resembles, an admirable gas coal, while in the amount of sulphur it falls much below the average of Newcastle coals (which comtain about nine-enths) of one-per cent. as determined by the Admiralty steam trials, therefore the gas obtained from it should be very easily purified. The coke of this coal appears in every way adapted for iron smeltins. (See Canadian Geological Survey Report, 1870.

In forwarding Mr. Hartley's analysis, Sir W. E. Logan writes, 9th June, 1869: "You will observe that it is superior to any of this continent yet known. It is superior, too, to the average of Newcastle coals, and very nearly equal to the best." STABLE AND ROAD Patent Waterproof Knee Dusters, JOHN MURPHY. Linen Fancy Horse Dusters INEN Knee Wrappers and Horse Dusters made to orner—the latter PROPERLY FITTED.

Orders for from goed to best qualities of Harnes, respectfully solicited. junel5 Waterloo Street, St. John. N.B. Fine English Saddlery Emgineer Str. City of St. John. Professor Henry Y. Bind, M. A., in his recent Report of Springhill Coal Field, thus same up: "Thickness of large Springhill seams 13 feet and 10 feet 3 inches. Quality of Springhill seams of the very first class. Distance of these from Parreboro by rail, 20 miles. Known outerop of Springhill main seam, 11 feet, on which operations could be immediately commenced, about 2 miles. miles.

"The main seam, or what is supposed to be the main seam, has been traced for a distance exceeding one mile and a half in a northerly direction, on the Macfarlane areas."

In Professor Selwwyn's, F. G. S., Report laid before Parliament, Session 1872, he thus refers to Mr. Scott Barlow's operations at Springhill: "The evidence, so far as it goes, appears to show that in a distance of about eight hundred yards, horizontal measurement, across the sighs of the measures, there are eight seams of workable thickness, as under, in descending order. No. 1.13 ft. 6 in; No. 3, 2 ft. 4 in; No. 4, 12 ft. 3 in; No. 5, 2 ft. 6 in.; No. 6, a crop, thickness uncertain; No. 7, 4 ft., shaly coal; No. 8, 2 ft.; Total, 42 ft. 7 in." APPLICATIONS FOR SHARES must be made in the annexed form, and forward to the Bankers, or to the Secretary at the Company's Office, where the By-Laws ma Dated 12th June, 1872. FORM OF APPLICATION. june15 To the Directors of the Springhill Mining Company:

Gentlemen. Having paid to the credit of the Company at your Benkers to
the sum of being five dollars per share on my application for
each, of said Company, I request you to allot me that or any less number of shares, and I agree to
accept the same and to pay the sums due thereon in terms of the prospectus, dated 12th June, 1872 Persons wishing to subscribe for Stock in the above Company, or those de siring further information respecting the property, will please apply, by letter or in E. N. SHARP, At No. 23 Prince William Street. Directly over the Office of Robert Marshall, Esq., General Insurance Age St. John, New Newbrunswick. OFFICE HOURS-10 to 11.30 A. M.; AND 2.30 to 4 P. chair and knelt on the floor at her husband's knee.

'I want you to promise me something, Frank,'' she said, looking up into his gloomy face timidly, and yet with a certain radience of expression which made her more lovely than ever in the flush of her more lovely than ever in the darkness, a blade of the scissors which saill held had penetrated through her eye into the brain, and caused throu

that vow was not recalled to night, the lopportunity would be gone forever. And, however sudden my death might be, Frank, how infinitely worse it would be, i were it to force you into becoming a mur derer. Oh! it was madness ever to think

vously in his hands.

'What put the idea of dying to-night into your head, Nellie?''

'Oh! I don't know; it's been there all day. I've been thinking of all sorts of queer things to-day—about little Jack's death.''

The minister's gaze wandered into the queer things to-day—about little Jack's death."

The minister's gaze wandered into the fire, and the manuscript lay quiet in his grasp. Mrs. Morley watched him curiously, and seemed to make several ineffectual attempts to speak. But there had been quite a long silence before she said:

"Do you remember what happened that next night, Frank dear?"

It was the first time any allusion had been made by either to the awful vow which had changed and darkened both their lives. The minister moved in his chair, and breathed heavily and uneasily.

"I have had no reason to forget," said he, in a hoarse voice.

Mrs. Morley suddenly slipped from her chair and knelt on the floor at her husband's knee.

"I want you to promise me something, "I want you to promise me something, and the position many time before the child hid hid her laughing little face against her mother's which was turned half sideways toward her. Presently she uplifted it again, glancing archly at her father; and her swers smeared with blood—not her own. The very horror of the spectacle steadied him. He bent down and held the candle to his dead wife's face. Then his eye caught the glitter of a long, sharp pointed pair of scissors in Sallie's hand—the pair she had surreptitioutly taken to bed with her. That made the mystery clear enough. Probably the child, sleeping with them in her hand, had pricked herself with the sharp point, and hence cried out; and when her mother, hearing the cry, had run to the bedside and caught her to her bosom in the darkness, a blade of the scissors had been candle-light, the child hid her laughing little face against her mother's which was turned half sideways toward her. Presently she uplifted it again, glancing archly at turned half sideways toward her. Presently she uplifted it again, glancing archly at the father plump checks and white forchead were smeared with blood—not her own. The very horror of the spectacle steadied him. He bent down and held the candle to his dead wife's face. Then his eye care she were smeared with blo

band?"

"Why to-night?" said the Rev. Mr.
Morley, looking keenly at his wife. "And this is the night you spoke of death."

"I cannot tell—I don't know why," re plied his wife, "but I have felt that, if that vow was not recalled to-night, the opportunity would be gone forever. And, however sudden my death might be, however sudden my death might be, ing hrain began to concentrate upon the child. She was still pratting that upon the child. She was still pratting that the upon the child. She was still pratting the head woman's hair. Gradually his gaze became more and more fixed; instinctively he tried to break away, from a feeling of danger at hard, but it was impossible; all his faculties were tense, strained, and immovable in ghrain began to concentrate upon the child. She was still pratting the head woman's hair. Gradually his gaze became more and more fixed; instinctively he tried to break away, from a feeling of danger at hard, but it was impossible; all his faculties were tense, strained, and immovable in ghrain properties.

however sudden my death might be, Frank, how infinitely worse it would be were it to force you into becoming a mur derer. Oh! it was madness ever to think it—ever to say it. Take it back—take it back!"

Mrs. Morley ended with passionate ear nestness, and teers atreamed down her instructions. It is a superficient to the sum of the air around, he could not have told. Ars. Morley ended with passionate ear mestness, and tears streamed down her face. But the minister rose from his chair face. But the minister rose from his chair around, he could not have told. The truth had been opened to him at once, and, in spite of his indistinct premonitions, unexpectedly. It smote him with deadly month set. supernatural strength to act upon it. Once realized, it became for him the only real thing in the world; he saw it written everywhere, whether his eyes were opened

The London Strike-Twenty Thous-and Workmen Idle. LONDON, June 24.—The lockout of build est daughter of Mr. John Frederickson, Internal Revenue Department. the refusal of the men to accept the compromise offered by the employers. Twenty thousand are out of work. They have been initially by the recovered by the resource of the compromise offered by the employers. Twenty thousand are out of work. They have been initially by the recovered by the larger (The larger of the larger thousand are out of work. They have been joined by the masons and bricklayers. The men demand fitty-one hours instead of fitty six and a half hours per week, and also one shilling per day pay additional. The em loyers state that the demand does not justify the advance. The men state that the reason of the present strike is the increased expense of living, and they do not fear any interference from workmen outside of London, as the latter obtain better pay than those in the city. They say their unions are financially strong and feel confident of success. The Times says that the strike will result in England losing her present advantages in industrial productions.

THE PORTLAND KNIGHT TEMPLARS IN MON-TREAL.—On Sunday morning this city was visited by a body of Knight Templars of Portland, about eighty in number. The body, which was accompanied by its band, was under the command of Eminent Comlette Street, near Britain, when friends and acquainteness are respectfully invited to attend was under the command of Eminent Commander S. C. Gordon. On their arrival they were received by Eminent Commander Copeland and the members of the Richard Cocur de Lion Encampment, of this city. Yesterday afternoon a great number of the body went over to Laprairie to inspect our military force, and to visit the Grand Prior of Knights Tamplars in Canada. Col. Mo. of Knights Templars in Canada, Col. Mc-Leod Moore, to whom Eminent Sir Knight Gordon was introduced by Illustrious Sir Knight J. S. A. Leblanc. The officers of the party are, Eminent Commander S. C. Gordon, Generalissimmo A. M. Bensor, Captain General F. G. Stevens, S. W., G. P. Goss, I. W., J. C. Small, Recorder, Ira Berry, Jr.; Warden, J. B. Y Hodsdon; Guards, W. Davis, F. F. Hall, and L. 200 This Association has been formed with the pricipal object of encouraging Owners of Vessels and Cargoes, who now insure Abroad, to plane their Risks in Saint John.

The polices are as liberal as granted by Responsible Underwriters, at home or abroad, continin plain and equitable conditions to meet the necessities of the commercial community. No limitation of total amount of Insurance will be made except at Owner's request, when a Rebute of 10 per cent discount will be allowed from current rates, loss or no loss. Dealers who do not keep their Ships fully insured will therefore have the option of receiving ten per cent. fore have the option of receiving ten per cent.
beneft.

All the Policies cover Collision Risk. for
Damage received by the Ship Insured; also, cost
of recovering from the other Vessel for damage
wrongfully done by her.

With the above advantages, the New Brunswick Lloyds anticipate receiving a fair share of
the best class of marine business, now being
covered here and in England.

In connection with Loyds, Risks are taken as
heretofore for the "Montreal," "British Ameri
ca," and "Quebec" Marine Companies, enabling
the undersigned to take full lines on and by Al
vessels. These Companies are old established
corporations, and have Cash Assets in the ag
regate of Oas Million Five Hundred Thousand
Dollars, with a Special Reserve Fund account
lated at Bank in St. John. The whole busineswill be transacted on liberal terms. Premiums
at Lowest Current Rates, and usual credits
given. Choice, Export, Chinquacoucy, Peacemaker, &c. For sale by june 15

STEAM SHIRT FACTORY, Ayer's Cherry Pectoral,

fectual remedy for all diseases of the Throas and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs; the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and No full Bronchitis, when they know how easily ful Bronchitis, when they know how coast, they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

79 King Street. DAVID MILLAR 止 ★ HALL'S VECETABLE SICILIAN HAIR RENEWER.

ITS EFFECT IS MIRACULOUS MIRACULOUS

It is a perfect and wonderful article. Cures
baldness, Makes hair grow. A better dressing
than any "oil" or "pomatum" Softons brash,
dry and wiry hair into Beautiful Silken Treese.
Above all, the great wonder is the rapidity with
which it restores GRAY HAIR TO 1.3
O'NIGINAL COLOR.

The whitest and worst looking hair resumes
its youthful beauty by its use. It does no dye
the hair, but strikes at the roct and fills it with
new life and coloring matter.

The first application will do good: you will
see the NATURAL COLOR returning every
day, and

BEFORE YOU KNOW IT,
the old, gray, discolored appear ance of the hair the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

See that each bottle has our private Government Stamp over the top of the bottle. All others are imitations.
